Subject: You're invited! Turnitin User Summit

Dear Faculty,

I know it's a busy time as we continue to adjust to remote settings. We want to ensure you have the solutions necessary to be successful during these unpredictable times, but that you and your institution are also getting the most out of the technology that you already have in place.

You and your faculty are invited to join us on August 11, noon EST, for
User Summit: Charting a Modern Course in Academic Integrity.
Link to register here.

The event will feature Solutions Sessions for teachers, instructors, TA's, researchers, academic integrity officers, and general faculty interested in how to use Turnitin solutions for:

- Implementing effective remote assessment
- Growing student engagement through formative feedback
- Upholding a new standard in academic integrity

The sessions are run by Turnitin's Professional & Educational Services team, a group of technical experts that will present and demonstrate best practices with our solutions.

The event will also include an inspiring keynote message by a distinguished scholar and Associate Professor of Mathematics, Science and Technology at Teachers College, Columbia University, Dr. Chris Emdin.

Get on the list now! We can't wait to see you.

Thanks!

Chris Shtur
Sales Development Representative
