(b) Any plant subject to the classification and pricing provisions of another order issued pursuant to the Act, notwithstanding its status under this order pursuant to § 1004.8 (a) or (b).

§ 1004.62 Obligations of handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month either of the amounts (at the handler's election) calculated pursuant to paragraph (a) or (b) of this section. If the handler fails to report pursuant to subsection 1004.30(b) and 1004.31(d) the information necessary to compute the amount specified in paragraph (a) of this section, he shall pay the amount computed pursuant to paragraph (b) of this section:

(a) An amount computed as follows:

(1) (i) The obligation that would have been computed pursuant to § 1004.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk. There shall be included in the obligation so computed a charge in the amount specified in § 1004.70(e) and a credit in the amount specified in § 1004.84(b)(2) with respect to receipts from an unregulated supply plant, unless an obligation with respect to such plant is computed as specified below in this subparagraph.

(ii) If the operator of the partially regulated distributing plant so requests, and provides with his reports pursuant to subsections 1004.30(b) and 1004.31(c) similar reports with respect to the operations of any other nonpool plant which serves as a supply plant for such partially regulated distributing plant by shipments to such plant during the month equivalent to the requirements of § 1004.8 with agreement of the operator of such plant that the market administrator may examine the books and records of such plant for purposes of verification of such reports, there will be added the amount of the obligation computed at such nonpool supply plant in the same manner and subject to the same conditions as for the partially regulated distributing plant.

(2) From this obligation there will be deducted the sum of (i) the gross payments made by such handler for milk (approved by a duly constituted health authority for fluid disposition) received during the month from dairy farmers at such plant and like payments made by the operator of a supply plant(s) included in the computations pursuant to subparagraph (1) of this paragraph, and (ii) any payments to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant.

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(4) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the uniform price applicable at such location (not to be less than the Class II price).

§ 1004.63 Computation of base for each producer.

After January 31, 1971, for each month of the year, the market administrator shall compute, subject to the rules set forth in § 1004.64, a base for each producer described in paragraphs (a) through (d) of this section by dividing the applicable quantity of milk receipts specified in such paragraph by 153 (by 154, in the case of a producer on every-other-day delivery schedule who delivered August 1) less the number of days, if any, during the applicable base-forming period of August through December for which it is shown that the day's production of milk of such producer was not received by a pool handler as described in the applicable paragraphs (a) through (d) of this section under which such producer's base is computed: *Provided,* That in no event shall the number of days used to compute a producer's base pursuant to this part be less than 120.

(a) For any producer, except as provided in paragraphs (b) through (e) of this section, the quantity of milk receipts shall be the total pounds of producer milk received by all pool handlers from such producer during the preceding months of August through December;

(b) For any producer whose milk was received during the preceding months of August through December at a plant which first became a pool plant after the first month of such base-earning period, and which was a pool plant for 120 days or more during the base-forming period, the quantity of milk receipts shall be the total pounds of milk received from such dairy farmer during such August–December period at the plant: *Provided,* That if such plant was a pool plant on less than 120 days, the quantity of milk receipts shall be 50 percent of the total pounds of milk received from such dairy farmer during such August–December period at the plant.

(c) For any producer who, during the two base-forming months of August and September qualified under Order 2 (New York-New Jersey) as a producer, and was a producer under this part during all of each of the three remaining base-forming months of October, November, and December, the quantity of milk receipts shall be the total pounds of milk received from such farmer during all of the months of August through December by pool handlers under both orders.

(d) For any producer not described in paragraph (b) or (c) of this section but whose milk was received by a handler as producer milk during the base-forming months of October, November, and December at a pool plant at which receipt of his milk in the immediately preceding months of August and September would have qualified or did qualify him as a "dairy farmer for other markets" pursuant to § 1004.14(c), the quantity of milk receipts shall be the total pounds of milk received from such producer by pool handlers during such months of August through December and verified receipts at the nonpool plant of the handler, affiliate of the handler or any person who controls or is controlled by the handler during such months of August and September.

(e) If a producer delivers no milk to a pool plant during the base-forming period of August through December or if milk is delivered on less than 120 days (60 days in the case of every-other-day delivery) during such base-forming months and the producer relinquished his base, the base of such producer shall be 50 percent of his average daily deliveries of producer milk during each month until a base is computed on the basis of deliveries during 4 complete months in a subsequent August through December period; *Provided,* That on the date such producer obtains such a base or a base in any quantity by transfer under the provisions of § 1004.64(b), the provisions of this paragraph are no longer applicable.

§ 1004.64 Base rules.

After January 31, 1971, the following rules shall apply in connection with the establishment of bases:

(a) A base computed pursuant to paragraph 1004.63(a) through (d) shall be effective for the subsequent months of February through January inclusive.

(b) A base computed pursuant to § 1004.63 or as designated pursuant to paragraph (e) of this section may be transferred in its entirety to another dairy farmer upon the death or the discontinuance of milk production or upon entry into military service by the base owner. Sale of the entire productive herd in reasonable relation to the size of base transferred by dispersal sale or in total shall be deemed as evidence of discontinuing milk production.

(c) Base transfers shall be accomplished upon written application on a form approved by the market administrator and shall be signed by the base holder, or his heirs or assigns and by the person to whom such base is to be transferred; *Provided,* That if a base is held jointly, the entire base shall be transferable only upon receipt of such application signed by all joint holders or their heirs or assigns.

(d) If a producer operates more than one farm, and milk is received from each at a pool plant or by a cooperative association in its capacity as a handler pursuant to § 1004.10 (b) or (c), he shall establish a separate base with respect to producer milk delivered from each such farm.

(e) Only one base shall be allotted with respect to milk produced by one or more persons where the dairy farm is jointly owned or operated: *Provided,* That in the case of a base established jointly, if a copy of the partnership agreement setting forth as a percentage of the total interests of the partners in the base if filed with the market administrator before the end of the base-forming period, then upon termination of the partnership agreement each partner will be entitled to his stated share of the base to hold in his own right, or to transfer as provided in paragraphs (b) and (c) of this section (including transfer to a partnership of which he is a member). Such termination of partnership shall become effective as of the end of any month during which an application for such division signed by each member is received by the market administrator.

(f) A producer who does not deliver milk to any handler for 45 consecutive days shall forfeit his base except that the following producers may retain their bases without loss for 12 months;

(1) A producer who suffers the complete loss of his barn as a result of fire or act of God; or

(2) A producer for whom loss of 50 percent or more of the milk herd from brucellosis or bovine tuberculosis, is shown by evidence issued under state or federal authority.

(g) Two or more producers with bases may combine such bases upon the formation of a bona fide partnership operating from one farm. Such a combination shall be considered a joint base under paragraph (e) above.

§ 1004.65 Relinquishing a base.

After January 31, 1971, a producer who delivers on 120 days or more during August through December and notifies the Market Administrator that he relinquished his established base shall be paid pursuant to the provision of § 1004.63(e) beginning with the first day of the month in which such notification is received by the Market Administrator until the next February 1.

§ 1004.66 Continuation of present base and blend pricing provisions through January 31, 1971.

Prior to February 1, 1971, the following base program shall be effective:

(a) For each of the months of March through June each year the Market Administrator shall compute, subject to the rules set forth in § 1004.64, a base for each producer described in paragraphs (a) through (d) of this section by dividing the applicable quantity of milk receipts specified in such paragraph by 184 (by 185, in the case of a producer on every-other-day delivery schedule who delivered July 1) less the number of days, if any, during the immediately preceding base-forming period of July through December for which it is shown that the day's production of milk of such producer was not received by a pool handler as described in the applicable paragraphs (a), (b), (c) or (d) of this section under which such producer's base is computed: *Provided,* That in no event shall the number of days used to compute a producer's base pursuant to this part be less than 154.

(i) For any producer, except as provided in paragraphs (b), (c), and (d) of this section, the quantity of milk receipts shall be the total pounds of producer milk received by all pool handlers from such producer during the preceding months of July through December;

(ii) For any producer whose milk was received during the preceding months of July through December at a plant which became a pool plant after the beginning of such base-earning period, the quantity of milk receipts shall be the total pounds of milk received from such dairy farmer during such July-December period by pool handlers as producer milk or at the plant as a nonpool plant;

(iii) For any producer who, during any of the three base-earning months July through September the preceding year, qualified under Order 2 as a producer and was a producer under Order No. 2 during all of each of the three remaining base-earning months of October, November, and December, the quantity of milk receipts shall be the total pounds of milk received from such farmer during all of the months of July through December by pool handlers under each of the orders; or

(iv) For any producer not described in paragraph (b) or (c) of this section but whose milk was received by a handler as producer milk during the months of September, October, November, and December of the preceding year at a pool plant at which receipt of his milk in the immediately preceding months of July and August would have qualified or did qualify him as a "dairy farmer for other markets" pursuant to § 1004.14(c), the quantity of milk receipts shall be the total pounds of milk received from such producer by pool handlers during such months of July through December and verified receipts at the nonpool plant of the handler, affiliate of the handler or

any person who controls or is controlled by the handler during such months of July through September.

(b) The following rules shall apply in connection with the establishment of bases:

(i) A base computed pursuant to § 1004.63 or as designated pursuant to paragraph (c) of this section may be transferred in its entirety to any other person upon written application to the Market Administrator on or before the second day of the month following the month of transfer. Such application shall be on a form approved by the Market Administrator and shall be signed by the baseholder, or his heirs, or assigns and by the person to whom such base is to be transferred: *Provided,* That if a base is held jointly, the entire base shall be transferable only upon receipt of such application signed by all joint holders or their heirs, or assigns;

(ii) If a producer operates more than one farm, and milk is received from each at a pool plant or by a cooperative association in its capacity as a handler pursuant to § 1004.10 (b) or (c), he shall establish a separate base with respect to producer milk delivered from each such farm;

(iii) Only one base shall be allotted with respect to milk produced by one or more persons where the dairy farm is jointly owned or operated: *Provided,* That in the case of a base established jointly, if a copy of the partnership agreement setting forth as a percentage of the total the interests of the partners in the base is filed with the Market Administrator before the end of the base-making period, then upon termination of the partnership agreement each partner will be entitled to his stated share of the base to hold in his own right, or to transfer as provided in paragraph (a) of this section (including transfer to a partnership of which he is a member) such diversion with respect to any member of the partnership to be effective as of the end of any month during which an application for such division signed by each member is received by the Market Administrator.

DETERMINATION OF UNIFORM PRICE

§ 1004.70 Computation of the net pool obligation of each pool handler.

The net pool obligation of each pool handler for each pool plant and of each cooperative association handler pursuant to § 1004.10 (b) and (c) with respect to milk which was not received at a pool plant shall be a sum of money computed by the Market Administrator as follows:

(a) Multiply the quantity of milk received from a cooperative association as a handler pursuant to § 1004.10(c) and allocated pursuant to § 1004.46 (a) and (b)(11) and the quantity of producer milk in each class, as computed pursuant to § 1004.46(c), by the applicable class prices (adjusted pursuant to subsections 1004.51 and 1004.52);

(b) Add the amount obtained from multiplying the pounds of overage deducted from each class pursuant to § 1004.46(a)(12) and the corresponding step of § 1004.46(b) by the applicable class prices;

(c) Add the amounts computed under subparagraphs (1) and (2) of this paragraph:

(1) Multiply the difference between the applicable Class II price for the preceding month and the applicable Class I price for the current month by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1004.46(a)(7) and the corresponding step of § 1004.46(b) for the current month;

(2) Multiply the difference between the applicable Class I price for the preceding month and the applicable Class I price for the current month by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1004.46(a)(4) and the corresponding step of § 1004.46(b). If the Class I price for the current month is less than the Class I price for the preceding month, the result shall be a minus amount.

(d) Add an amount equal to the difference between the value at the Class I price applicable at the pool plant and the value at the Class II price, with respect to skim milk and butterfat in other source milk subtracted from Class I pursuant to § 1004.46(a)(5) and the corresponding step of § 1004.46(b); and

(e) Add an amount equal to the values of skim milk and butterfat determined pursuant to subparagraphs (1) and (2) of this paragraph as follows:

(1) The value at the Class I price of skim milk and butterfat received from dairy farmers for other markets assigned to Class I pursuant to § 1004.46(a)(9) and the corresponding step of § 1004.46 (b), adjusted pursuant to § 1004.52;

(2) The value at the Class I price of skim milk and butterfat assigned to Class I pursuant to § 1004.46(a)(9), and the corresponding step of § 1004.46(b) (excluding milk from dairy farmers for other markets and receipts from partially regulated distributing plants for which disposition a specific allocation was made to Federal order receipts from this or any other order), adjusted for the location of the nearest plant from which such types of receipts were received.

§ 1004.71 Computation of weighted average prices.

For each month the Market Administrator shall compute the weighted average price through January 31, 1971, and for each of the months of July through February the uniform price per hundredweight of milk received from producers as follow:

(a) Combine into one total the values computed pursuant to § 1004.70 for all handlers who filed the reports prescribed by § 1004.30 for the month and who made the payments pursuant to § 1004.84 for the preceding month;

(b) Add an amount equal to the total value of the location differentials computed pursuant to § 1004.82;

(c) Subtract, if the average butterfat content of the milk specified in paragraph (e) of this section is more than 3.5 percent, or add, if such butterfat content is less than 3.5 percent, an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 3.5 percent by the butterfat differential computed pursuant to § 1004.81 and multiplying the result by the total hundredweight of such milk;

(d) Subtract the total of payments required to be made for such month by § 1004.89.1;

(e) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(f) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(1) The total hundredweight of producer milk included pursuant to paragraph (a) of this section; and

(2) The total hundredweight for which a value is computed pursuant to § 1004.70(e); and

(g) Subtract not less than 4 cents nor more than 5 cents per hundredweight. The result shall be the "weighted average price" and shall be the uniform price per hundredweight of milk of 3.5 percent butterfat received from producers in each of the months of July through February through January 31, 1971.

§ 1004.72 Computation of uniform prices for base milk and excess milk.

For each of the months of March through July and after January 31, 1971, for each month, the market administrator shall compute the uniform prices per hundredweight for base milk and excess milk received from producers, each of 3.5 percent butterfat content, free on board market, as follows:

(a) Compute the aggregate value of excess milk for all handlers included in the computations pursuant to § 1004.71 (a) as follows:

(1) Multiply the hundredweight quantity of such milk which does not exceed the total quantity of producer milk received by such handlers assigned to Class II milk by the Class II milk price;

(2) Multiply the remaining hundredweight quantity of excess milk by the Class I milk price; and

(3) Add together the resulting amounts;

(b) Divide the total value of excess milk obtained in paragraph (a) of this section by the total hundredweight of such milk and round to the nearest cent. The resulting figure shall be the uniform price for excess milk;

(c) From the amount resulting from the computations of § 1004.71 (a) through (e) subtract an amount computed by multiplying the hundredweight of milk specified in § 1004.71(f)(2) by the weighted average price;

(d) Subtract the total value of excess milk determined by multiplying the uniform price obtained in paragraph (b) of this section by the hundredweight of excess milk, from the amount computed pursuant to paragraph (c) of this section;

(e) Divide the amount calculated pursuant to paragraph (d) of this section by the total hundredweight of base milk

for handlers included in these computations: *Provided,* That if the resulting price should exceed the Class I price by more than the amount deducted pursuant to paragraph (f) of this section the aggregate amount in excess thereof shall be included in the computation of the excess price pursuant to paragraph (a) of this section, except that if by such addition the excess price should exceed the base price then the aggregate amount of the excess shall be prorated to the aggregate values of base milk and excess milk on the basis of the respective volumes of base and excess milk; and

(f) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (e) of this section. The resulting figure shall be the uniform price for base milk.

PAYMENTS

§ 1004.80 Time and method of payment.

(a) Except as provided in (b) and (d) of this section, each pool handler shall make payment as specified in subparagraph (1) and (2) of this paragraph to each producer from whom milk is received.

(1) On or before the last day of each month at not less than the Class II price for the preceding month per hundredweight for his deliveries of producer milk during the first 15 days of the month; and

(2) On or before the 20th of the following month at not less than the price for base milk computed pursuant to § 1004.72 (c) through (f) with respect to base milk received from such producer and not less than the excess price determined pursuant to § 1004.72 (a) and (b) for excess milk received from such producer subject to the following adjustments.

(i) Proper deductions authorized in writing by such producers;

(ii) Partial payments made pursuant to subparagraph (1) of this paragraph;

(iii) The butterfat differential computed pursuant to § 1004.81; and

(iv) Less the location differential received pursuant to § 1004.82: *Provided,* That if by such date such handler has not received full payment from the Market Administrator pursuant to § 1004.85 for such month he may reduce pro rata his payments to producers by not more than the amount of such underpayment. Payment to producers shall be completed thereafter not later than the date for making payments pursuant to this paragraph next following after receipt of the balance due from the Market Administrator;

(b) In the case of a cooperative association which the Market Administrator determines is authorized by its producer-members to collect payment for their milk and which has so requested any handler in writing, such handler shall on or before the second day prior to the date on which payments are due individual producers, pay the cooperative association for milk received during the month from the producer-members of such association as determined by the Market Administrator an amount equal to not less than the total due such producer-members as determined pursuant to paragraph (a) of this section; and

(c) In the case of milk received by a handler from a cooperative association in its capacity as the operator of a pool plant such handler shall on or before the second day prior to the date on which payments are due individual producers, pay to such cooperative association for milk so received during the month, an amount not less than the value of such milk computed at the applicable class prices for the location of the plant of the buying handler.

(d) Each handler who receives milk from a cooperative association handler pursuant to § 1004.10(c), shall on or before the second day prior to the date payments are due individual producers, pay such cooperative association for such milk as follows:

(1) A partial payment for milk received during the first 15 days of the month at the rate specified in paragraph (a)(1) of this section; and

(2) A final payment equal to the value of such milk at the uniform price(s) adjusted by the applicable differentials pursuant to subsections 1004.81 and 1004.82, less the amount of partial payment on such milk.

§ 1004.81 Butterfat differential to producers.

The uniform base and excess prices to each producer shall be increased or decreased, for each one-tenth of 1 percent by which the average butterfat content of his milk is above or below 3.5 percent, respectively, by the butterfat differential computed pursuant to § 1004.51(a) and rounded to the nearest full cent.

§ 1004.82 Location differential to producers.

(a) For milk received from producers and from cooperative association handlers pursuant to § 1004.10(c), subject to the exception contained in § 1004.15(d):

(1) The uniform price for base milk computed pursuant to § 1004.72 for base milk received from producers at a pool plant located in Pennsylvania or New Jersey and at least 55 miles from the nearest of the city halls, in Philadelphia, Pa.; Atlantic City or Trenton, N.J.; or at least 75 miles from the zero milestone in Washington, D.C., or city hall in Baltimore, Md.; or Salisbury, Md.; by the shortest highway distance as determined by the Market Administrator shall be reduced 9 cents plus 1½ cents for each additional 10 miles.

(2) The uniform price for excess milk computed pursuant to § 1004.72 for excess milk received from producers at a pool plant at which a location differential applies shall be reduced by a location differential computed pursuant to § 1004.52(c).

(b) For purposes of computations pursuant to subsections 1004.84 and 1004.85 the weighted average price shall be reduced at the rates set forth in paragraph (a) of this section applicable at the location of the plant(s) at which the milk was received with respect to other source milk for which a value is computed pursuant to § 1004.70(e)(1) and at the location of the nonpool plant(s) from which the milk was received with respect to other source milk for which a value is computed pursuant to § 1004.70(e)(2).

§ 1004.83 Producer-settlement fund.

The Market Administrator shall maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments into such fund pursuant to subsections 1004.61, 1004.62, 1004.84, and 1004.86 and out of which he shall make all payments pursuant to subsections 1004.85 and 1004.86: *Provided,* That the Market Administrator shall offset any such payment due to any handler against payment due from such handler.

§ 1004.84 Payments to the producer-settlement fund.

On or before the 12th day after the end of the month each handler shall pay to the Market Administrator the amount, if any, by which the total amount specified in paragraph (a) of this section exceeds the amounts specified in paragraph (b) of this section:

(a) The net pool obligation computed pursuant to § 1004.70 for such handler; and

(b) The sum of:

(1) The value of milk received by such handler from producers and from cooperative association handlers pursuant to § 1004.10(c) at the applicable uniform price(s), pursuant to § 1004.72 adjusted by producer butterfat and location differentials, less in the case of a cooperative association on milk for which it is a handler pursuant to § 1004.10(c), the amount due from other handlers pursuant to § 1004.80(d); and

(2) The value at the weighted average price adjusted by the producer butterfat differential pursuant to § 1004.81 and the location differential on nonpool milk pursuant to § 1004.82(b) (not to be less than the value at the Class II price) with respect to other source milk for which values are computed pursuant to § 1004.70(e).

§ 1004.85 Payments out of the producer-settlement fund.

On or before the 17th day after the end of each month the Market Administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1004.84(b) exceeds the amount computed pursuant to § 1004.84(a): *Provided,* That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the Market Administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

§ 1004.86 Adjustment of accounts.

Whenever verification by the Market Administrator of reports or payments of any handler discloses errors resulting in

money due (a) the Market Administrator from such handler, (b) such handler from the Market Administrator, or (c) any producer or cooperative association from such handler, the Market Administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred.

§ 1004.87 Marketing services.

(a) Except as set forth in paragraph (b) of this section, each handler, in making payments directly to producers for milk (other than milk of his own production) pursuant to § 1004.80(a) shall deduct 5 cents per hundredweight or such lesser amount as the Secretary may prescribe and shall pay such deductions to the Market Administrator on or before the 20th day after the end of the month. Such money shall be expended by the Market Administrator to provide market information and to verify the weights, samples, and tests of milk of producers who are not receiving such service from a cooperative association; and

(b) In the case of producers for whom the Secretary determines a cooperative association is actually performing the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deduction specified in paragraph (a) of this section, such deductions from the payments to be made directly to such producers pursuant to § 1004.80 (a) as are authorized by such producers on or before the 18th day after the end of each month and pay such deductions to the cooperative rendering such services.

§ 1004.88 Expense of administration.

As his pro rata share of the expense of administration, each handler shall pay to the Market Administrator on or before the 20th day after the end of the month, 4 cents per hundredweight, or such lesser amount as the Secretary may prescribe with respect to milk handled during the month as follows:

(a) Each handler (excluding a cooperative association in its capacity as a handler pursuant to § 1004.10(c), and a cooperative association as the operator of a pool plant with respect to milk transferred in bulk to a pool plant), with respect to his receipts of producer milk (including such handler's own-farm production, milk received from a cooperative association pursuant to § 1004.10(c), and milk transferred in bulk from a pool plant owned and operated by a cooperative association), and other source milk allocated to Class I pursuant to § 1004.46 (a)(5) and (9) and the corresponding step of § 1004.46(b);

(b) Each handler in his capacity as the operator of a partially regulated distributing plant with respect to his route disposition in the marketing area in excess of his receipts of Class I milk from pool plants and other order plants;

(c) Each handler in his capacity as the operator of an other order plant with respect to his route disposition in the marketing area, which milk was not classified and priced under such other order.

§ 1004.89 Termination of obligations.

The provisions of this section shall apply to any obligation under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such 2-year period the market administrator notifies the handler that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid;

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the 2-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the Market Administrator so notifies a handler, the said 2-year period with respect to such obligation shall not begin until the first day of the month following the month during which all such books and records pertaining to such obligations are made available to the Market Administrator or his representatives;

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed; and

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the month during which the milk involved in the claim was received if an under payment is claimed, or 2 years after the end of the month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

§ 1004.89a Cooperative payments for marketwide services.

Payments shall be made to qualified cooperatives or to federations under the conditions, in the manner, and at the rates set forth in this section.

(a) *Definitions.* As used in this section the following terms shall have the following meanings:

(1) "Cooperative" means a cooperative association of producers which is duly incorporated under the cooperative corporation laws of a State; is qualified under the Capper-Volstead Act (7 U.S.C. 291 et seq.); has all its activities under the control of its members; and has full authority in the sale of its members' milk.

(2) "Federation" means a federation of cooperatives which is duly incorporated under the laws of a State.

(3) "Federated cooperative" means a cooperative which is a member of a federation and on whose membership the federation is an applicant for or receives payments under subparagraph (2) of paragraph (f) of this section.

(4) "Affiliated cooperative" means a cooperative upon whose entire membership another cooperative, by mutual consent, is an applicant for or receives payments under subparagraph (2) of paragraph (f) of this section.

(5) "Member producer" means, when used with respect to a cooperative or federation which is an applicant for or is receiving payments, a producer under this order who has met the following conditions:

(i) He is a member of the cooperative or one of its affiliated cooperatives, or in the case of a federation, he is a member of one of its federated cooperatives from whom the cooperative, affiliated cooperative, or federated cooperative is receiving at least 4 cents per hundredweight of milk delivered by him: *Provided,* That the cooperative of which he is a member is meeting the requirements of this part applicable to it;

(ii) He has been a producer, or his farm had been the farm of a producer for at least a prior 12-month period; and

(iii) He has not for a prior 12-month period been a member producer of another cooperative or federation.

(6) "Marketwide services" means services performed by cooperatives or federations, as defined herein, which benefit all producers in the marketing of their milk under this order; such services are not limited to those specified in subparagraphs (1) through (6) of paragraph (e) of this section and may include services directly or indirectly related to the order.

(b) *Designated cooperatives and federations.* A cooperative or federation may submit an application to the Market Administrator for payments under the provisions of this section or for modification on the basis of a previous designation. Such application shall include a written description of the applicant's program for the performance of marketwide services, including evidence that adequate

facilities and personnel will be maintained by it so as to enable it to perform the marketwide services, and the application shall contain a statement by the applicant that it will perform the required marketwide services for which it is applying for payments: *Provided,* That in the case of an application for modification of the basis for a previous designation, the Market Administrator may waive the requirements for submission of the written description of the programs. The application shall set forth all necessary data so as to enable the Market Administrator to determine whether it meets the designation requirements with respect to the payments for which the application is submitted. An application shall be approved by the Market Administrator only if he determines that:

(1) In the case of a cooperative:

(i) It has as member producers or its affiliated cooperatives have as member producers, not less than 10 percent of all producers, as defined in this order.

(ii) It has contracts with each of its affiliated cooperatives under which the cooperatives agree to continue as affiliated cooperatives for at least 1 year, and such contracts cover or will be renewed for a yearly period for every subsequent year for which member producers of the affiliated cooperative are to be included within its membership for cooperative payment purposes;

(iii) It receives from each of its affiliated cooperatives not less than 4 cents per hundredweight of milk delivered by member producers of such cooperatives.

(2) In the case of a federation:

(i) It has contracts with each of its federated cooperatives under which the cooperatives agree to remain in the federation for at least 1 year, and such contracts cover or will be renewed for a yearly period for every subsequent year for which the federated cooperatives are to be included within the membership of the federation for cooperative payment purposes;

(ii) It has as member producers not less than 10 percent of all producers, as defined in this order;

(iii) It receives from each of its federated cooperatives not less than 1 cent per hundredweight of milk delivered by member producers of such cooperative.

(3) The applicant cooperative or federation demonstrates that it has the ability to perform the marketwide services for which application is made, and that such services will be performed.

(4) The applicant cooperative or the federated cooperatives of an applicant federation are in no way precluded from arranging for the utilization of milk under their respective control so as to yield the highest available net return to all producers without displacing an equivalent quantity of other producer milk in the preferred classification.

(c) *Notice of designation or denial; effective date.* Upon determination by the Market Administrator that a cooperative or a federation shall be designated to receive payment for performance of the marketwide services, he shall transmit such determination to the applicant cooperative or federation and publicly announce the issuance of the determination. The determination shall be effective with respect to milk delivered on and after the first day of the month following issuance of the determination. If, after consideration of an application for payments for marketwide services, the Market Administrator determines that the cooperative or federation is not qualified to receive such payments he shall promptly notify the applicant and specifically set forth in such notice his reasons for denial of the application.

(d) *Requirements for continued designation.* At least annually, each designated cooperative or federation must demonstrate to the market administrator that it continues to meet the designation requirements for the payments and is fully performing the marketwide services for which it is being paid.

(e) *Marketwide services.* Each cooperative or federation shall perform the marketwide services enumerated in this paragraph. Such services shall include: (1) Analyzing milk marketing problems and their solutions, conducting market research and assembling statistical data relative to price and marketing conditions, and making an economic analysis of all such data; (2) determining the need for the formulation of amendments to the order and proposing such amendments or requesting other appropriate action by the Secretary or the market administrator in the light of changing conditions; (3) participating in proceedings with respect to amendments to the order, including the preparation and presentation of evidence at public hearings, the submission of appropriate briefs and exceptions, and also participating by voting or otherwise, in the referenda relative to amendments; (4) participating in the meetings called by the market administrator, including activities such as the preparation and presentation of data at such meetings and briefs for submission thereafter; (5) conducting a comprehensive education program among producers—i.e., members and nonmembers of cooperatives—and keeping such producers well informed for participating in the activities under the regulatory order and, as a part of such program, issuing publications that contain relevant data and information about the order and its operation, and the distribution of such publications to members and, on the same subscription basis, to nonmembers who request it, and holding meetings at which members and nonmembers may attend; (6) assuming the responsibility for hauling and disposing of surplus milk of members and nonmembers in the highest use classification available and having available sufficient plant capacity to receive all the milk of producers who are members and be willing and able to receive milk of producers who are not members; and (7) performing such other services as are needed to maintain satisfactory marketing conditions and promote market stability.

(f) *Rate, computation, time and method of payment.*

(1) Subject to the provisions of paragraph (g) of this section, the market administrator, on or before the 20th day of each month, shall make payment out of the producer-settlement fund, or issue equivalent credit therefore, to each cooperative or federation which is designated for such payments for marketwide services. The payment to a cooperative or federation shall be based upon the milk reported by cooperative or proprietary handlers to have been received during the preceding month from its member producers, subject to adjustment upon verification by the market administrator.

(2) Such payment or credit shall be at the rate of 4 cents per hundredweight of milk in accordance with subparagraph (1) of this paragraph.

(3) If an individually designated cooperative is affiliated with a federation, the cooperative payment shall be made to such cooperative unless its contract with the federation specified in writing that the federation is to receive the payments. Any such contract must authorize the federation to receive the payments for at least 1 year, and such agreement must cover or be renewed for a yearly period for every subsequent year for which the federation is to receive the payments.

(g) Cancellation of designation.

(1) The market administrator shall issue an order wholly or partly canceling the designation of a previously designated cooperative or federation for payments authorized pursuant to this section and such payments shall not thereafter be made to it if he determines that:

(i) The cooperative or federation no longer complies with the requirements for this part: *Provided,* That if one of its affiliated or federated cooperatives has failed to comply with the requirements of this part applicable to it, the cooperative or federation shall be disqualified only to the extent that its qualification for payments or the amount of its payments are based upon the membership, milk, or operations of such noncomplying affiliated or federated cooperatives.

(ii) The cooperative or federation has failed to make reports or furnish records pursuant to this section.

(2) An order of the market administrator wholly or partly cancelling the designation of a cooperative or federation shall not be issued until after the cooperative or federation has had opportunity for hearing thereon following not less than 15 days' notice to it specifying the reasons for the proposed cancellation. If the cooperative or federation fails to file a written request for hearing with the market administrator within such period of 15 days, the market administrator may issue an order of cancellation without further notice; but if within such period a request for hearing is filed, the market administrator shall promptly proceed to hold such hearing.

(3) A cancellation order issued by the market administrator shall set forth the

findings and conclusions on the basis of which it is issued.

(h) *Appeals.*

(1) *From denials of application.* Any cooperative or federation whose application for designation has been denied by the market administrator may, within 30 days after notice of such denial, file with the Secretary a written petition for review. But the failure to file such petition shall not bar the cooperative or federation from again applying to the market administrator for designation.

(2) *From cancellation orders.* A cancellation order by the market administrator shall become final 30 days after its service on the cooperative or federation unless within such 30-day period the cooperative or federation files a written petition with the Secretary for review thereof. If such petition for review is filed, payments for which the cooperative or federation has been canceled by the order shall be held in reserve by the market administrator pending ruling of the Secretary, after which the sums so held in reserve shall either be returned to the producer-settlement fund or paid over to the cooperative or federation depending on the Secretary's ruling on the petition. If such petition for review is not filed, any payments which otherwise would be made within the 30-day period following issuance of the cancellation order shall be held in reserve until such order becomes final and shall then be returned to the producer-settlement funds.

(3) *Record on appeal.* If an appeal is taken under subparagraph (1) or subparagraph (2) of this paragraph, the market administrator shall promptly certify to the Secretary the ruling or order appealed from the evidence upon which it was issued: *Provided,* That if a hearing was held the complete record thereof, including the applications, petitions, and all exhibits or other documentary material submitted in evidence shall be the record so certified. Such certified material shall constitute the sole record upon which the appeal shall be decided by the Secretary.

(i) *Reports and records.* Each designated cooperative or federation shall:

(1) After submission to the market administrator for verification, make a public report of its performance of marketwide services pursuant to this section, including data on its receipts and expenditure of cooperative payments funds and a description of the marketwide services performed. The report shall contain a certification by the market administrator that the report is accurate to the best of his knowledge.

(2) Submit an annual report to the market administrator which shall include:

(i) A concise report of its performance of marketwide services and allocations of expenditures to such performance for the previous year; and

(ii) An outline of its proposed program and budget for performance of marketwide services for the coming year.

(3) Make such additional reports to the market administrator as may be requested by him for the administration of the provisions of this section.

(4) Maintain and make available to the market administrator or his representative such records as will enable the market administrator to verify such reports.

(j) *Notice, demands, orders, etc.* All notices, demands, orders, or other papers required by this section to be given to or served upon a cooperative or federation shall be deemed to have been given or served as of the time when mailed to the last known secretary of the cooperative or federation at his last known address.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 1004.90 Effective time.

The provisions of this part, or any amendment to this part, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated, pursuant to § 1004.91.

§ 1004.91 Suspension or termination.

The Secretary may suspend or terminate this part or any provision of this part, whenever he finds that this part or any provisions of this part, obstructs, or does not tend to effectuate the declared policy of the Act. This part shall terminate, in any event, whenever the provisions of the Act authorizing it cease to be in effect.

§ 1004.92 Continuing obligations.

If under the suspension or termination of any or all provisions of this part, there are any obligations thereunder, the final accrual or ascertainment of which requires further acts by any person (including the Market Administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 1004.93 Liquidation.

Upon the suspension or termination of the provisions of this part, except this section, the Market Administrator, or such liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the Market Administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignment or other instruments necessary or appropriate to effectuate any such disposition. If the liquidating agent is so designated, all assets, books, and records of the Market Administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the Market Administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 1004.100 Agents.

The Secretary may by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

§ 1004.101 Separability of provisions.

If any provision of this part, or its application to any person or circumstances is held invalid, the application of such provision and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

Proposed by Dairymen's League Cooperative Association, Inc., and Northeast Dairy Cooperative Federation, Inc.:

Proposal No. 2. In lieu of the base-excess plans currently used in the three markets, substitute a seasonal incentive payment plan (Louisville Plan) whereby pool funds are set aside during the months of high production and returned to the pool during the months of low production.

Proposed by Cloverland Farms Dairy, Green Spring Dairy, Highs of Baltimore, Inc., Koontz Dairy and Thompson's Dairy:

Proposal No. 3. Modify the shrinkage allowance provided in any order resulting from the hearing to reflect increased losses due to the employment of modern methods of processing and packaging of fluid milk.

Proposed by the Dairy Division, Consumer and Marketing Service:

Proposal No. 4. Make such changes as may be necessary to make the entire marketing agreements and the orders conform thereto with any amendments thereto which may result from this hearing.

Copies of this notice of hearing and the orders may be procured from the Market Administrators of the respective orders at Post Office Box 306, Alexandria, Va. 22313; 1 Decker Square, Room 646, Bala Cynwyd, Pa. 19004; Post Office Box 6848, Towson Station, Baltimore, Md. 21204; or from the Hearing Clerk, Room 112–A, Adminstration Building, U.S. Department of Agriculture, Washington, D.C. 20250 or may be there inspected.

Signed at Washington, D.C., on July 3, 1969.

JOHN C. BLUM,
Deputy Administrator,
Regulatory Programs.

[7 CFR Part 1063]

MILK IN QUAD CITIES-DUBUQUE MARKETING AREA

Notice of Proposed Suspension of Certain Provision of the Order

Notice is hereby given that, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), the suspension of a certain provision of the order regulating the handling of milk in the Quad Cities-Dubuque marketing area is being considered for the months of July and August 1969.

The provision proposed to be suspended is the proviso in § 1063.14, relating to diversion of producer milk to nonpool plants.

The suspension action is requested by Mississippi Valley Milk Producers Association, Inc., and Clinton Cooperative Milk Producers Association to accommodate the handling of reserve milk of the market. The associations claim that without such suspension action they would be forced to receive the producer milk first at pool plants for reshipment to manufacturing plants. This would be an undue expense on the part of dairy farmers and their cooperatives supplying the market.

All persons who desire to submit written data, views, or arguments in connection with the proposed suspension should file the same with the Hearing Clerk, Room 112, Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250, not later than 7 days from the date of publication of this notice in the FEDERAL REGISTER. All documents filed should be in quadruplicate.

All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27).

Signed at Washington, D.C., on July 3, 1969.

JOHN C. BLUM,
Deputy Administrator,
Regulatory Programs.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 69-SW-38]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to alter controlled airspace in the Blytheville, Ark., terminal area.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Southwest Region, Federal Aviation Administration, Post Office Box 1689, Fort Worth, Tex. 76101. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Air Traffic Division. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Tex. An informal docket will also be available for examination at the Office of the Chief, Air Traffic Division.

A new public use instrument approach procedure has been developed for the Blytheville, Ark., Municipal Airport using a proposed city-owned radio beacon, presently unnamed, as the navigational aid. In addition, the criteria for designation of terminal controlled airspace has been changed. Accordingly, it is necessary to alter the Blytheville, Ark., transition area to provide controlled airspace protection for aircraft executing the new procedure and to comply with the new criteria. Alteration of the Blytheville, Ark., control zone is necessary to comply with the new criteria.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

(1) In § 71.171 (34 F.R. 4565) the Blytheville, Ark., control zone is amended to read:

BLYTHEVILLE, ARK.

Within a 5-mile radius of Blytheville AFB (lat. 35°57'50'' N., long. 89°56'40'' W.), within 3 miles each side of the Blytheville VOR 357° radial extending from the 5-mile radius zone to 8.5 miles north of the VOR, and within 1.5 miles each side of the Blytheville TACAN 185° radial extending from the 5-mile radius zone to 5.5 miles south of the TACAN.

(2) In section 71.181 (34 F.R. 4654) the Blytheville, Ark., transition area 700-foot portion is amended to read:

BLYTHEVILLE, ARK.

That airspace extending upward from 700 feet above the surface within an 8.5 mile radius of Blytheville AFB (lat. 35°57'50'' N., long. 89°56'40'' W.) excluding the portion within the Manila, Ark., transition area, within a 5-mile radius of Blytheville Municipal Airport (lat. 35°56'15'' N., long. 89°49'-45'' W.), within 4 miles east and 5 miles west of a 360° bearing from the (unnamed) RBN (lat. 35°57'52'' N., long. 89°49'35'' W.) extending from the RBN to 12 miles north, and within 2 miles each side of the extended centerline of Blytheville AFB Runways 17 and 35 extending from the 8.5-mile radius area to 12 miles north and south of the airport.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, Tex., on June 26, 1969.

A. L. COULTER,
Acting Director, Southwest Region.

[F.R. Doc. 69-8021; Filed, July 8, 1969; 8:47 a.m.]

[14 CFR Part 71]

[Airspace Docket No. 69-SO-63]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Kinston, N.C., transition area.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Area Manager, Atlanta Area Office, Attention: Chief, Air Traffic Branch, Federal Aviation Administration, Post Office Box 20636, Atlanta, Ga. 30320. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Air Traffic Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Southern Regional Office, Federal Aviation Administration, Room 724, 3400 Whipple Street, East Point, Ga.

The Kinston transition area described in § 71.181 (34 F.R. 4637) would be redesignated as:

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of Stallings Field.

Since the last alteration of controlled airspace in the Kinston terminal area, turbojet aircraft have begun utilizing Stallings Field. Criteria appropriate to this airport requires an increase in the transition area basic radius circle from 6 to 8.5 miles. This increase permits the revocation of the transition area extension predicated on the Kinston VORTAC 046° radial.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on June 25, 1969.

JAMES G. ROGERS,
Director, Southern Region.

[F.R. Doc. 69-8022; Filed, July 8, 1969; 8:47 a.m.]

[14 CFR Part 71]

[Airspace Docket No. 69-WE-48]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71

of the Federal Aviation Regulations that would alter the description of the Pueblo, Colo., transition area.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Western Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 5651 West Manchester Avenue, Post Office Box 92007, Worldway Postal Center, Los Angeles, Calif. 90009. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 5651 West Manchester Avenue, Los Angeles, Calif. 90045.

The proposed additional controlled airspace is required to simplify air traffic control procedures and to permit radar vectoring of terminal traffic in the area southwest of Pueblo at altitudes below 14,500 feet.

In consideration of the foregoing the FAA proposes the following airspace action:

In § 71.181 (34 F.R. 4637) the Pueblo, Colo., transition area is amended by deleting all after "* * *, latitude 38°07'00" N., longitude 104°04'00" W., * * *" and substituting therefor "* * * thence west along latitude 38°07'00" N., to the west edge of V-19; thence south along the west edge of V-19 and west along the north edge of V-210 to longitude 105°00'00" W., thence to latitude 38°07'00" N., longitude 104°43'00" W., to latitude 38°07'00" N., longitude 105°00'00" W., to latitude 38°25'00" N., longitude 105°00'00" W., to latitude 38°25'00" N., longitude 104°52'00" W., thence to point of beginning."

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended (72 Stat. 749; 49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, Calif., on June 26, 1969.

LEE E. WARRAN,
Acting Director, Western Region.

[F.R. Doc. 69-8023; Filed, July 8, 1969; 8:47 a.m.]

[14 CFR Part 71]

[Airspace Docket No. 69-SO-55]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would designate the Indianola, Miss., transition area.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Area Manager, Memphis Area Office, Attention: Chief, Air Traffic Branch, Federal Aviation Administration, Post Office Box 18097, Memphis, Tenn. 38118. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Air Traffic Branch. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Southern Regional Office, Federal Aviation Administration, Room 724, 3400 Whipple Street, East Point, Ga.

The Indianola transition area would be designated as:

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Indianola-Legion Field.

The proposed transition area is required to provide controlled airspace protection for IFR operations during climb from 700 to 1,200 feet above the surface and during descent from 1,500 to 1,000 feet above the surface. A prescribed instrument approach to Indianola-Legion Field, utilizing the Greenwood, Miss., VORTAC, is proposed in conjunction with the designation of this transition area.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on June 25, 1969.

JAMES G. ROGERS,
Director, Southern Region.

[F.R. Doc. 69-8024; Filed, July 8, 1969; 8:47 a.m.]

[14 CFR Part 71]

[Airspace Docket No. 69-SO-66]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would designate the Shelby, N.C., transition area.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Area Manager, Atlanta Area Office, Attention: Chief, Air Traffic Branch, Federal Aviation Administration, Post Office Box 20636, Atlanta, Ga. 30320. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Air Traffic Branch. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Southern Regional Office, Federal Aviation Administration, Room 724, 3400 Whipple Street, East Point, Ga.

The Shelby transition area would be designated as:

That airspace extending upward from 700 feet above the surface within a 7-mile radius of Shelby Municipal Airport; within 3 miles each side of the Spartanburg VORTAC 052° radial, extending from the 7-mile radius area to 13 miles northeast of the VORTAC.

The proposed transition area is required to provide controlled airspace protection for IFR operations at Shelby Municipal Airport in climb from 700 to 1,200 feet above the surface and in descent from 1,500 to 1,000 feet above the surface. A prescribed instrument approach procedure to this airport, utilizing the Spartanburg VORTAC, is proposed in conjunction with the designation of this transition area.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on June 26, 1969.

JAMES G. ROGERS,
Director, Southern Region.

[F.R. Doc. 69-8025; Filed, July 8, 1969; 8:47 a.m.]

[14 CFR Part 71]

[Airspace Docket No. 69-SW-46]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to designate a transition area at Raton, N. Mex.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Southwest Region, Federal Aviation Administration, Post Office Box 1689, Fort Worth, Tex. 76101. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Air Traffic Division. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Tex. An informal docket will also be available for examination at the Office of the Chief, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (34 F.R. 4637), the following transition area is added:

RATON, N. MEX.

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of Crews Field (lat. 36°44'30" N., long. 104°30'00" W.) excluding that portion northwest of a line 5 miles northwest of and parallel to the Cimarron VORTAC 051° radial, and within 3.5 miles each side of the Cimarron VORTAC 051° radial extending from the 8.5-mile radius area to 8 miles northeast of the VORTAC; and that airspace extending upward from 1,200 feet above the surface within 6.5 miles northwest and 10 miles southeast of the Cimarron VORTAC 051° radial extending from the VORTAC to 28 miles northeast of the VORTAC, and within 5 miles northwest and 8.5 miles southeast of the Cimarron VORTAC 051° radial extending from 28 miles northeast of the VORTAC to 45 miles northeast of the VORTAC.

The proposed transition area will provide airspace protection for aircraft executing approach/departure procedures proposed at Crews Field, Raton, N. Mex.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Departeral Aviation Act of 1958 (49 U.S.C. 1655(c)).

Issued in Fort Worth, Tex., on June 26, 1969.

A. L. COULTER,
Acting Director, Southwest Region.

[F.R. Doc. 69-8026; Filed, July 8, 1969; 8:47 a.m.]

RAILROAD SAFETY APPLIANCE STANDARDS

Notice Postponing Hearing Date

Upon the request of several interested parties, the oral hearing in this proceeding now set for July 23, 1969, is hereby postponed to August 6, 1969.

The date for the receipt of written submissions remains July 21, 1969. The time and place of the hearing will be the same as stated in the prior notice, that is Conference Room 2B, Federal Railroad Administration, 9:30 a.m., e.d.s.t.

Issued in Washington, D.C., on July 3, 1969.

ROBERT R. BOYD,
Hearing Examiner.

[F.R. Doc. 69-8041; Filed, July 8, 1969; 8:48 a.m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 18592; FCC 69-732]

TELEVISION BROADCAST STATIONS

Table of Assignments; Hagerstown, Md., and Altoona, Pa.

In the matter of amendment of § 73.606, Table of Assignments, Television Broadcast Stations (Hagerstown, Md., and Altoona, Pa.); Docket No. 18592, RM-1439.

1. On April 8, 1969, the Maryland Educational-Cultural Broadcasting Commission (hereinafter known as MECBC) filed a brief petition with this Commission requesting the replacement of educational channel *68 with educational channel *31 at Hagerstown, Md., and the replacement of channel 31, now assigned to Altoona, with any of the following channels 17, 23, or 38. Comments were filed by the MECBC and the Association of Maximum Service Telecasters, Inc. (hereinafter known as AMST). A reply comment was filed by petitioner.

2. According to the 1960 U.S. Census, Hagerstown (located in Washington County with its population of 91,219) has 36,660 residents. It has two television channels assigned to it 25 (WHAG-TV—permittee) and *68 which is unapplied for. Altoona has four assignments 10, 31, 47, and *57 all of which, excepting channel 10 licensed to WFBG-TV, are unapplied for. Altoona is located in Blair County, their populations respectively are 69,407 and 137,270.

3. Petitioner, a creation of the Maryland Legislature is desirous of establishing a state-wide educational and cultural television service throughout the State of Maryland. A Hagerstown operation is an important part of a proposed seven-station network, and therefore, the MECBC is of the view that because of the mountainous terrain surrounding Hagerstown in western Maryland, and the alleged advantages of broadcasting on a lower channel, that it is desirable to replace Hagerstown's present educational reservation *68 with Channel *31. It is the Commission's view, however, that if there is any advantage it is minimal.

4. In commenting on the MECBC proposal, the AMST states: "The assignment of channel *31 to Hagerstown as proposed by MECBC would involve a shortage of approximately 2 miles in the 60 mile 'taboo' separation which is required between the Hagerstown reference point and the authorized transmitter site of WBFF, channel 45, Baltimore, Md. However, MECBC has proposed to locate the channel *31 transmitter at a site that is approximately 13 miles west of Hagerstown, where use of channel *31 would be in compliance with all mileage separation requirements (table 1 of engineering statement in support of MECBC petition for rule making). If this proposed site is used for a channel *31 transmitter, the assignment of channel *31 to Hagerstown will not result in a transmitter-to-transmitter separation that would violate the minimum mileage separation requirement of § 73.610(c) of the Commission's rules * * * Under the circumstances, AMST has no objection to the assignment of channel *31 to Hagerstown provided that the Commission will require channel *31 to be used at a site, such as suggested by MECBC, that will meet all minimum separation requirements, including those with respect to channel 45 at Baltimore." MECBC, in their reply comment, agreed to the condition above requested by AMST.

5. In order to permit the assignment of channel *31 to Hagerstown it is necessary to delete that channel from Altoona. Petitioner suggests its replacement in Altoona with one of the following channels, 17, 23, or 38. An analysis by the AMST and our computer indicates that neither channel 17 nor channel 23 can be assigned to Altoona in compliance with our spacing requirements. There seems to be, however, no spacing problem preventing our assignment of channel 38 to that community in place of channel 31.

6. In view of the foregoing, we are proposing to replace channel *68 with channel *31 at Hagerstown, Md., and to replace channel 31 with channel 38 at Altoona, Pa. Our proposed action would change the television assignments at Hagerstown, Md., from channels 25 and *68 to channels 25 and *31[1] and at Altoona, Pa., from channels 10, 31, 47, and *57 to channels 10, 38, 47, and *57.

[1] The assignments proposed will, of course, be expected to meet the regular requirements of the rules with respect to other channel assignments.

7. Authority for the action proposed herein, is contained in section 4(i), 303, and 307(b) of the Communications Act of 1934 as amended.

8. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules and regulations interested parties may file comments on or before August 11, 1969, and reply comments on or before August 21, 1969. All submissions by parties to this proceeding, or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings.

9. In accordance with the provisions of § 1.419 of the Commission's rules and regulations, an original and 14 copies of all written comments, reply comments, pleadings, briefs, or other documents, shall be furnished the Commission.

Adopted: July 2, 1969.

Released: July 3, 1969.

FEDERAL COMMUNICATIONS COMMISSION,[2]

[SEAL] BEN F. WAPLE,
Secretary.

[F.R. Doc. 69-8055; Filed, July 8, 1969; 8:49 a.m.]

FEDERAL POWER COMMISSION

[18 CFR Parts 101, 141]

[Docket No. R-363]

NUCLEAR FUEL

Uniform System of Accounts for Public Utilities and Licensees (Classes A and B) and FPC Form No. 1

JULY 1, 1969.

1. Pursuant to the Administrative Procedure Act, 5 U.S.C. 553, the Commission gives notice it proposes to amend:

a. Certain accounts in the Uniform System of Accounts for Class A and Class B Public Utilities and Licensees as prescribed by Part 101, Chapter I, Title 18, CFR.

b. Certain schedules of the FPC Form No. 1, Annual Report for Electric Utilities and Licensees, Class A and Class B, prescribed by § 141.1, Chapter I, Title 18, CFR, to be effective for the reporting year 1969.

2. The present Uniform System of Accounts was designed at a time when nuclear materials could not be privately owned. Prior to January 1, 1969, nuclear power reactor requirements consisted only of enriched material leased from the Atomic Energy Commission (AEC). Between January 1, 1969, and January 1, 1971, utilities may lease AEC-owned enriched uranium, but have the alternative of purchasing natural uranium, which then can be enriched by the AEC on a toll basis. After the latter date the AEC no longer will lease enriched uranium although previously leased materal can remain under lease until June 30, 1973. The changes here proposed reflect contemporary treatment of nuclear materials. The result from discussions with representatives of the utility industry and the AEC as well as conferences with members of the National Association of Regulatory Utility Commissioners Subcommittee of Staff Experts on Accounting.

3. The nuclear fuel cycle begins with the enrichment, refinement, conversion, and fabrication of the nuclear materials. After nuclear fuel has been fabricated into fuel elements, the elements are either inserted in a reactor or placed in the stock on hand account awaiting insertion into the reactor. Nuclear fuel in a reactor has a life of about 3 to 6 years, depending on the placement of the element in the reactor. While the nuclear fuel elements are in the reactor, they gradually lose enrichment until it becomes necessary to remove them from the reactor as spent fuel. That spent fuel contains not only quantities of uranium that may be reenriched and reprocessed to a usable form but also plutonium, thorium, and various other nuclear byproducts which are recoverable during the reprocessing period.

The proposed accounting is designed to account for each process of the fuel cycle and for the salvage value of the byproduct materials, which either may be sold at the time of reprocessing or kept by the utility for sale at a future time with the expectation of higher prices.

4. The principal proposed changes in Part 101 to the Uniform System of Accounts consist of the additions of new electric plant instruction number 16; Account 120, Nuclear fuel; Account 120.1, Nuclear fuel in process of refinement, conversion, enrichment, and fabrication; Account 120.2, Nuclear fuel materials and assemblies—Stock account; Account 120.3, Nuclear fuel assemblies in reactor; Account 120.4, Spent nuclear fuel; Account 120.5, Accumulated amortization of nuclear fuel assemblies; the deletion of Accounts 157, 158, and 159 and addition of new Account 157, Nuclear byproduct materials; and the substitution of Account 518, Nuclear fuel, for present Account 518, Fuel, to be deleted. Proposed amendments to § 141.1, which prescribes FPC Form No. 1, Annual Report of Classes A and B Electric Utilities and Licensees, are the expansion of the Comparative Balance Sheet to add the capital nuclear fuel account and amortization relating thereto; a new schedule entitled "Nuclear Fuel Materials (Accounts 120.1 through 120.4 and 157)"; and expansion of the Steam-Electric Generating Plant Statistics (Large plants) schedule to report nuclear fuel statistics.

5. The amendment to the Commission's regulations under the Federal Power Act and to FPC Form No. 1 would be issued under the authority granted the Federal Power Commission by the Federal Power Act, particularly sections 301, 304, and 309 (49 Stat. 838, 854, 855, 858, 16 U.S.C. secs. 825, 825c, 825h).

6. Accordingly, it is proposed to amend Parts 101 and 141, Chapter I, Title 18 of the Code of Federal Regulations, in the manner set forth in Attachments A, B, C, D-1, and D-2 hereto.[1]

7. Any interested person may submit to the Federal Power Commission, Washington, D.C. 20426, not later than August 15, 1969, data, views, comments, and suggestions, in writing, concerning the proposed revised report forms and regulations. An original and 14 conformed copies should be filed with the Commission. In addition, interested persons wishing to have their comments considered in the clearance of the proposed report form revision under the provisions of the Federal Reports Act of 1942 may at the same time submit a conformed copy of their comments directly to the Clearance Officer, Office of Statistical Standards, Bureau of the Budget, Washington, D.C. 20503. Submissions to the Commission should indicate the name and address of the person to whom correspondence in regard to the proposal should be addressed, and whether the person filing them requests a conference at the Federal Power Commission to discuss the proposed revision in the report form. The Commission will consider all such written submissions before acting on the matters herein proposed.

By direction of the Commission.

GORDON M. GRANT,
Secretary.

ATTACHMENT A

The following are proposed changes and revisions for nuclear fuel materials in the Uniform System of Accounts Prescribed for Public Utilities and Licensees (Classes A and B):

1. Add new electric plant instruction number 16 as follows:

16. *Nuclear Fuel Records Required.*

Each utility shall keep all the necessary records to support the entries to the various nuclear fuel plant accounts classified under "Assets and Other Debits," Utility Plant account 120, Nuclear Fuel, more specifically under accounts 120.1 through 120.5, inclusive, account 518, Nuclear Fuel, and any other account such as account 157, Nuclear Byproduct Materials, in which nuclear fuel byproducts held for sale or other disposal might be recorded. These records shall be so kept as to readily furnish the basis of the computation of the amortization of net nuclear fuel costs including the burn up of the fuel. The amortization of the fabrication cost of the fuel assemblies, consumption of nonnuclear materials, and the net value of plutonium or other nuclear byproducts produced.

2. a. Following account 119, Accumulated Provision for Depreciation and Amortization of Other Utility Plant, shall be added:

Sec.	
120	Nuclear fuel.
120.1	Nuclear fuel in process of refinement, conversion, enrichment, and fabrication.
120.2	Nuclear fuel materials and assemblies—Stock account.

[2] Commissioners Bartley, Wadsworth, and Johnson absent.

[1] Attachments B, C, D-1, and D-2 filed as part of original document.

Sec.
120.3 Nuclear fuel assemblies in reactor.
120.4 Spent nuclear fuel.
120.5 Accumulated amortization of nuclear fuel assemblies.

b. After account 119, Accumulated Provision for Depreciation and Amortization of Other Utility Plant, add the following:

§ 120 Nuclear fuel.

This account shall include the original cost of nuclear fuel in utility plant included in accounts 120.1 to 120.4, inclusive, prescribed herein, owned and used by the utility in its electric utility operations. This account shall be maintained according to the subaccounts 120.1 to 120.4, inclusive, shown below.

c. After account 120, Nuclear Fuel, the following shall be added:

§ 120.1 Nuclear fuel in process of refinement, conversion, enrichment and fabrication.

A. This account shall include the original cost to the utility of nuclear fuel materials while in process of refinement, conversion, enrichment and fabrication into nuclear fuel assemblies and components including manufacturing costs and all necessary shipping costs. This account shall also include the salvage value of nuclear materials which are to be reprocessed for use and were transferred from account 120.5, Accumulated Amortization of Nuclear Fuel Assemblies. Salvage value shall be determined by current market price.

B. This account shall be credited and account 120.2, Nuclear Fuel Materials and Assemblies—Stock Account, shall be debited for the cost of completed fuel assemblies delivered for use in refueling or to be held as spares. It shall also be credited and account 120.3, Nuclear Fuel Assemblies in Reactor, debited for the cost of completed fuel assemblies inserted in a reactor.

ITEMS

1. Cost of natural uranium, uranium concentrate or other nuclear fuel sources, such as thorium, plutonium, and U–233.
2. Value of recovered nuclear materials to be recycled.
3. Milling process costs.
4. Sampling and weighing, and assaying costs.
5. Purification and conversion process costs.
6. Costs of enrichment by gaseous diffusion or other methods.
7. Costs of conversion and fabrication into fuel forms suitable for insertion in the reactor.
8. All shipping costs of components, including shipping of fabricated fuel assemblies to the reactor site.
9. Use charges on leased nuclear materials while in process of refinement, conversion, enrichment and fabrication.

§ 120.2 Nuclear fuel materials and assemblies—Stock account.

A. This account shall be debited and account 120.1, Nuclear Fuel in Process of Refinement, Conversion, Enrichment and Fabrication, shall be credited with the cost of fabricated fuel assemblies delivered for use in refueling or to be carried in stock as spares. This account shall also include the cost of partially irradiated fuel assemblies being held in stock for reinsertion in a reactor which had been transferred from account 120.3, Nuclear Fuel Assemblies in Reactor.

B. When spare fuel assemblies are inserted in a reactor or partially irradiated fuel assemblies are reinserted in a reactor, this account shall be credited and account 120.3, Nuclear Fuel Assemblies in Reactor, debited for the cost of such assemblies.

C. This account shall also include the cost of raw nuclear materials being held for future use in a reactor and not currently in process in account 120.1, Nuclear Fuel in Process of Refinement, Conversion, Enrichment and Fabrication.

§ 120.3 Nuclear fuel assemblies in reactor.

A. This account shall include the cost of nuclear fuel assemblies when installed in a reactor for the production of electricity. The amounts included herein shall be transferred from account 120.1, Nuclear Fuel in Process of Refinement, Conversion, Enrichment and Fabrication, or from account 120.2, Nuclear Fuel Materials and Assemblies—Stock Account.

B. Upon removal of fuel assemblies from a reactor, the cost of the assemblies removed shall be transferred to account 120.4, Spent Nuclear Fuel, or account 120.2, Nuclear Fuel Materials and Assemblies—Stock Account, as appropriate.

§ 120.4 Spent nuclear fuel.

A. This account shall include the cost of nuclear fuel assemblies in the process of cooling transferred from account 120.3, Nuclear Fuel Assemblies in Reactor, upon final removal from a reactor.

B. This account shall be credited and account 120.5, Accumulated Amortization of Nuclear Fuel Assemblies, debited for fuel assemblies, after the cooling period is over, at the cost recorded in this account.

§ 120.5 Accumulated amortization of nuclear fuel assemblies.

A. This account shall be credited and and account 518, Nuclear Fuel, shall be debited for the amortization of the net cost of nuclear fuel assemblies used in the production of energy. The net cost of nuclear fuel assemblies subject to amortization shall be the original cost of nuclear fuel assemblies, less the expected net salvage value of uranium, plutonium, and other byproducts at the end of the cooling period, when the cooled nuclear fuel assemblies are available for salvage, sale, reprocessing, or other disposition.

B. This account shall be credited with the net salvage value of uranium, plutonium, and other nuclear byproducts when such items are sold, transferred, or otherwise disposed of Account 120.1, Nuclear Fuel in Process of Refinement, Conversion, Enrichment, and Fabrication, shall be debited with the salvage value of nuclear materials to be reprocessed and reused.

C. This account shall be debited and account 120.4, Spent Nuclear Fuel, shall be credited with the cost of fuel assemblies at the end of the cooling period.

3. Delete accounts 157, 158, and 159.

4. Add new account 157 as follows:

§ 157 Nuclear byproduct materials.

This account shall include the net salvage value of plutonium and other nuclear byproducts when such materials are to be held by the company for sale or other disposition and are not to be reused immediately by the company in its electric utility operations. This account shall be debited and account 120.5, Accumulated Amortization of Nuclear Fuel Assemblies, credited for such net salvage value. Any differences between the amount recorded in this account and the actual amounts received from the sale of materials shall be debited or credited as appropriate to account 518, Nuclear Fuel, at the time of such sale.

5. Delete Account 518, Fuel, and substitute the following:

§ 518 Nuclear fuel.

A. This account shall be debited and account 120.5, Accumulated Amortization of Nuclear Fuel Assemblies, shall be credited for the amortization of the net cost of nuclear fuel assemblies used in the production of energy. The net cost of nuclear fuel assemblies subject to amortization shall be the cost of nuclear fuel assemblies in a reactor or cooling as spent fuel less the expected net salvage of uranium, plutonium, and other byproducts. The utility shall adopt the necessary procedures to assure that charges to this account are accurately distributed to accounting periods, and that net credits to account 120.5, Accumulated Amortization of Nuclear Fuel Assemblies, do not exceed costs being amortized.

B. This account shall also include the costs involved when fuel is leased.

C. This account shall also include the cost of other fuels, if any, used for ancillary steam superheat facilities.

D. This account shall be debited or credited as appropriate for any differences between the amounts estimated as the salvage value of nuclear byproduct materials contained in accounts 120.3, Nuclear Fuel Assemblies in Reactor; 120.4, Spent Nuclear Fuel; and account 157, Nuclear Byproduct Materals, upon either the final disposition of the materials or any significant change in the market values of the byproduct materials which determine the recorded estimated amounts.

6. The following changes are proposed to the annual report FPC Form No. 1, to be effective for the reporting year 1969:

Comparative balance sheet. This schedule has been expanded to allow addition of the capital nuclear fuel account along with the accumulated amortization related thereto, Attachment B.[1]

Nuclear fuel materials (Accounts 120.1 through 120.4 and 157). This is a new schedule reporting annual costs of nuclear fuel materials as it moves

[1] Filed as part of the original document.

through its various phases of construction burnup and cooling, Attachment C.[1]

Steam-electric generating plant statistics (large plants). This two-page schedule has been expanded to allow reporting of nuclear fuel statistics similar to that now being reported for fossil fueled plants plus information on fuel enrichment, Attachment D.[1]

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 1041]

[No. MC-C-3437 (Sub-No. 4)]

AIR DELIVERY SERVICE ET AL.

Interpretation of Operating Rights Authorizing Service at Designated Airports; Correction

Published in the FEDERAL REGISTER, issue of July 2, 1969, and republished, in part, as corrected, this issue.

Petitioners: Air Delivery Service, Bayshore Air Freight, Inc., Con-O-V-Air Freight Service, Inc., Harbourt Air Freight Service, Inc., Pollard Delivery Service, Inc., and Trans Jersey Airfreight Service, Inc.

Petitioners' representative: Russell S. Bernhard, 1625 K Street NW., Washington, D.C. 20006.

The purpose of this partial republication is to redescribe the paragraph under the heading 1041.23:

§ 1041.23 Operating authority to serve named airports.

A certificate or permit issued to a motor carrier of property pursuant to Part II of the Interstate Commerce Act (49 U.S.C. 301 et seq.) authorizing service to or from a named airport shall be construed as authorizing service to or from the air freight terminals of direct and indirect air carriers utilized by such air carriers in handling property moving into or out of such airports by aircraft, when such air freight terminals are located outside the boundaries of such airports.

The remainder of the notice remains the same.

By the Commission.

[SEAL] ANDREW ANTHONY, Jr.,
Acting Secretary.

FEDERAL RESERVE SYSTEM

[12 CFR Parts 204, 217]

[Regs. D, Q]

RESERVES OF MEMBER BANKS; PAYMENT OF INTEREST ON DEPOSITS

Certain Federal Funds Transactions as Deposits

The Board of Governors is considering amending § 204.1(f) and § 217.1(f) in order to bring a member bank's liability on certain so-called "Federal funds" transactions with customers other than banks within the coverage of Regulations D and Q. At the present time, all such transactions in nondocumentary nondeposit form are exempt from the regulations.

Recently, some banks have been making the Federal funds market available to their corporate depositors as a means of providing them with interest on short-term funds. In the Board's judgment, there is no justification for a bank's liability on such transactions to be exempt from rules governing reserve requirements and the legal prohibition against payment of interest on demand deposits.

In the Board's view there are only two types of Federal funds transactions entered into by banks that may justifiably be exempt from Regulations D and Q. One is where the liability is to another bank acting as principal (and not on behalf of any customer). The other is where the liability relates to certain transactions in connection with payment for securities. In the first case, the transactions facilitate implementation of monetary policy; in the second, the transactions are an integral part of the established market practice of settling purchases and sales of securities.

Limiting the scope of Federal funds transactions that are exempt from Regulations D and Q would be accomplished by amending the general rule set forth in § 204.1(f) and § 217.1(f), by modifying the interbank exemption thereto, and by the addition of a new exemption to cover Federal funds transactions on securities transactions, as follows:

(f) *Deposits as including certain promissory notes and other obligations.* For the purposes of this part, the term "deposits" shall be deemed to include the proceeds of any promissory note, acknowledgment of advance, due bill, or similar obligation (written or oral) that is issued or undertaken by a member bank principally as a means of obtaining funds to be used in its banking business, except any such obligation that:

(1) Is issued to, and held for its own account by, a bank * * *

(4) Arises from a loan, for one business day, of proceeds of a transfer of deposit credit in a Federal Reserve Bank (or other immediately available funds), commonly referred to as "Federal funds", in connection with payment on that day for securities.

This notice is published pursuant to section 553(b) of title 5, United States Code, and section 262.2(a) of the rules of procedure of the Board of Governors.

To aid in the consideration of this matter by the Board, interested persons are invited to submit relevant data, views, or arguments. Any such material should be submitted in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than July 28, 1969.

Dated at Washington, D.C., this 26th day of June 1969.

By order of the Board of Governors.

[SEAL] ROBERT P. FORRESTAL,
Assistant Secretary.

[F.R. Doc. 69-8177; Filed, July 8, 1969; 11:04 a.m.]

DEPARTMENT OF STATE

Agency for International Development

[Delegation of Authority 36, Amdt.]

ASSISTANT ADMINISTRATOR FOR ADMINISTRATION

Delegation of Authority

Pursuant to the authority delegated to me by Delegation of Authority No. 104 of November 3, 1961, as amended, from the Secretary of State (26 F.R. 10608) I hereby amend further Delegation of Authority No. 36, as follows:

I. Paragraphs numbered 1 through 11 are redesignated and renumbered 2 through 12, respectively;

II. Add a new paragraph 1, as follows:

1. Authority to execute the following:

(a) Procurement Authorizations and Requisitions.

(b) Project Implementation Orders/Commodities.

III. Redesignated paragraph 12(e) is amended to read as follows:

(e) Sections 1 and 2 of Delegation of Authority from the Director of ICA to the Deputy Director for Operations and Deputy Director for Management of ICA, dated September 28, 1960 (25 F.R. 9927).

IV. Actions within the scope of this amendment to Delegation of Authority No. 36 heretofore taken by the Assistant Administrator for Administration, or his designees, are hereby ratified and confirmed.

V. This amendment to Delegation of Authority No. 36 shall be effective immediately.

Dated: June 25, 1969.

JOHN A. HANNAH,
Administrator.

[F.R. Doc. 69-8016; Filed, July 8, 1969; 8:46 a.m.]

CONTROLLER, A.I.D., ET AL.

Redelegation of Authority; Amendment

Pursuant to the authority delegated to me by Delegation of Authority No. 36, as amended, from the Administrator, Agency for International Development, I hereby amend the Redelegation of Authority, dated April 8, 1964 (29 F.R. 5354), as follows:

I. Paragraphs numbered 4 through 7 are redesignated and renumbered paragraphs 6 through 9, respectively.

II. Add a new paragraph 4, as follows:

4. To the Director and Deputy Director of the Office of Procurement, and to the Chief, Industrial Resources Division, Office of Procurement, authority to execute the following:

(a) Procurement Authorizations and Requisitions;

(b) Project Implementation Orders/Commodities.

III. Add a new paragraph 5, as follows:

5. The authorities delegated to the officers named herein may be exercised by duly authorized persons who are performing the functions of such officers in an acting capacity.

IV. Actions taken within the scope of this amendment to the Redelegation of Authority of April 8, 1964, heretofore taken by the officials designated herein are hereby ratified and confirmed.

V. This amendment to the Redelegation of Authority of April 8, 1964, shall be effective immediately.

Dated: July 1, 1969.

LANE DWINELL,
Assistant Administrator for Administration.

[Order 2508, Amdt. 83]

COMMISSIONER OF INDIAN AFFAIRS

Delegation of Authority With Respect to Specific Legislation

JUNE 30, 1969.

Section 30 of Order 2508, as amended (20 F.R. 3834, 5106; 21 F.R. 7027, 7655; 24 F.R. 272; 25 F.R. 436, 575, 729, 1385, 1994, 4655, 7192, 8892; 26 F.R. 6944; 27 F.R. 2328; 28 F.R. 1072, 2199, 2927, 5687; 29 F.R. 7611, 17936; 30 F.R. 17, 7674, 8755, 12499; 32 F.R. 10117; 33 F.R. 15455, 19042, 19859), is further amended by the addition under paragraph (a) of a new subparagraph to read as follows:

SEC. 30 *Authority under specific acts.* (a) In addition to any authority delegated elsewhere in this order, the Commissioner of Indian Affairs, except as provided in paragraph (b) of this section, is authorized to perform the functions and exercise the authority vested in the Secretary of the Interior by the following acts or portions of acts or any acts amendatory thereof:

* * * * *

(42) The Act of September 28, 1968 (82 Stat. 884), which authorizes the purchase, sale, exchange and mortgaging of land by the Swinomish Indian Tribal Community, and for other purposes.

RUSSELL E. TRAIN,
Secretary of the Interior.

Food and Drug Administration

NORWICH PHARMACAL CO.

Notice of Filing of Petition for Food Additives

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786; 21 U.S.C. 348(b)(5)), notice is given that a petition (34-716V-29) has been filed by The Norwich Pharmacal Co., Post Office Box 191, Norwich, N.Y. 13815, proposing that § 121.291 *Buquinolate* (21 CFR 121.291) be amended to provide for the safe use of a range of buquinolate of 75-100 grams per ton (0.00825-0.011 percent) in feed for broiler and replacement chickens as an aid in prevention of coccidiosis caused by certain organisms.

Dated: June 30, 1969.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

[F.R. Doc. 69-8007; Filed, July 8, 1969; 8:45 a.m.]

O,O - DIETHYL - S - (2 - CHLORO - 1 - PHTHALIMIDOETHYL) PHOSPHORODITHIOATE

Notice of Establishment of Temporary Tolerances

At the request of Hercules Inc., Wilmington, Del. 19899, temporary tolerances are established for residues of the insecticide *O,O*-diethyl-*S*-(2-chloro-1-phthalimidoethyl) phosphorodithioate and its oxygen analog *O,O*-diethyl-*S*-(2-chloro-1-phthalimidoethyl) phosphorothioate in or on the raw agricultural commodities apples at 3 parts per million, citrus fruits at 1.5 parts per million, and cottonseed at 0.1 part per million. The Commissioner of Food and Drugs has determined that these temporary tolerances are safe and will protect the public health.

A condition under which these temporary tolerances are established is that the insecticide will be used in accordance with the temporary permit issued by the U.S. Department of Agriculture. Distribution will be under the Hercules Inc., name.

These temporary tolerances expire July 1, 1970.

This action is taken pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346a(j)) and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: July 1, 1969.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

[F.R. Doc. 69-8008; Filed July 8, 1969; 8:45 a.m.]

O,O,O',O' - TETRAMETHYL O,O' - THIODI-*p*-PHENYLENE PHOSPHOROTHIOATE

Notice of Extension of Temporary Tolerance

A temporary tolerance of 0.1 part per million for residues of the insecticide *O,O,O',O'* - tetramethyl *O,O'* - thiodi - *p*-phenylene phosphorothioate in or on cottonseed was established at the request of the American Cyanamid Co., Post Office Box 400, Princeton, N.J. 08540 (a notice was published in the FEDERAL REGISTER of May 20, 1967; 32 F.R. 7508), and was extended to May 15, 1969 (a notice was published May 21, 1968; 33 F.R. 7502).

The firm has requested a further extension to permit additional tests in accordance with the temporary permit issued by the U.S. Department of Agriculture.

The Commissioner of Food and Drugs has determined that such extension will protect the public health; therefore, an extension has been granted that will expire May 15, 1970.

This action is taken pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346a(j)) and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: June 30, 1969.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

[F.R. Doc. 69-8009; Filed, July 8, 1969; 8:46 a.m.]

ROHM & HAAS CO.

Notice of Filing of Petition Regarding Pesticide Chemical

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 9F0847) has been filed by Rohm & Hass Co., Independence Mall West, Philadelphia, Pa. 19105, proposing the establishment of tolerances (21 CFR Part 120) for negligible residues of the fungicide and insecticide that is a mixture of 2,4-dinitro-6-octylphenyl crotonate and 2,6-dinitro-4-octylphenyl crotonate in or on the raw agricultural commodity groups cucurbits, pome fruits, small fruits, and stone fruits and in or on the raw agricultural commodity strawberries at 0.05 part per million.

The analytical method proposed in the petition for determining residues of the fungicide and insecticide is the method of I. Rosenthal et al., published in "Agricultural and Food Chemistry," vol. 5, pages 914–18 (1957).

Dated: June 30, 1969.

R. E. DUGGAN,
Acting Associate Commissioner, for Compliance.

[F.R. Doc. 69-8010; Filed, July 8, 1969; 8:46 a.m.]

N-(MERCAPTOMETHYL) PHTHALIMIDE S-(O,O-DIMETHYL PHOSPHORODITHIOATE)

Notice of Establishment of Temporary Tolerance for Pesticide Chemical

Notice is given that at the request of the Stauffer Chemical Co., 1200 South 47th Street, Richmond, Calif. 94804, a temporary tolerance of 0.1 part per million is established for negligible residues of the cholinesterase-inhibiting insecticide *N*-(mercaptomethyl) phthalimide *S* - (*O,O* - dimethyl phosphorodithioate) and its oxygen analog *N*-(mercaptomethyl) phthalimide *S* - (*O,O* - dimethyl phosphorothioate) in or on the raw agricultural commodity potatoes.

The Commissioner of Food and Drugs has determined that this temporary tolerance will protect the public health.

A condition under which this temporary tolerance is established is that the insecticide will be used in accordance with the temporary permit issued by the U.S. Department of Agriculture. Distribution will be under the Stauffer Chemical Co., name.

This temporary tolerance expires June 30, 1970.

This action is taken pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346a(j)) and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: June 30, 1969.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

[F.R. Doc. 69-8011; Filed, July 8, 1969; 8:46 a.m.]

2,6-DICHLORO-4-NITROANILINE

Notice of Further Extension of Temporary Tolerance

The Upjohn Co., Kalamazoo, Mich. 49001, was granted a temporary tolerance of 20 parts per million for residues of the fungicide 2,6-dichloro-4-nitroaniline in or on the raw agricultural commodity nectarines on June 27, 1967 (notice was published in the FEDERAL REGISTER of July 6, 1967; 32 F.R. 9853); and at the request of the firm it was extended on May 7, 1968 (notice was published May 17, 1968; 33 F.R. 7333).

The firm has requested a further extension for obtaining additional data, completing the experimental work, and covering use of unused stock. The Commissioner of Food and Drugs concludes that such an extension will protect the public health.

A condition under which this temporary tolerance is extended is that the insecticide will be used in accordance with the temporary permit issued by the U.S. Department of Agriculture. Distribution will be under the Upjohn Co. name.

As extended, this temporary tolerance expires June 27, 1970.

This action is taken pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346a(j)) and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: June 30, 1969.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

[F.R. Doc. 69-8012; Filed, July 8, 1969; 8:46 a.m.]

ATOMIC ENERGY COMMISSION

THORIUM, URANIUM, AND PLUTONIUM

Isotopically Enriched Quantities

General. The U.S. Atomic Energy Commission (AEC) hereby gives notice of the establishment of charges for research quantities of isotopically enriched thorium, uranium, and plutonium. Nothing in this notice shall be deemed to obligate the AEC to sell any specific quantities of thorium, uranium, or plutonium or to sell them at any specific time. The charges and other information

contained in this notice are subject to change by the AEC from time to time. This notice supersedes the earlier notice Plutonium Enriched in Pu^{238} Research Quantities published by the AEC in the FEDERAL REGISTER, 33 F.R. 6144, April 20, 1968.

1. *Base charges.* The following charges are for elements and isotopic assays available for distribution by the AEC:

PRICES FOR THORIUM, URANIUM AND PLUTONIUM ISOTOPES

Element and isotope	Enrichment range, percent	Price per milligram
Thorium-229	Greater than 99.0	$150.00
Thorium-230	Greater than 80.0	23.07
Uranium-233	Greater than 99.9	2.58
Uranium-234	Greater than 99.0	8.32
Uranium-235	Greater than:	
	99.9	.15
	99.5–99.9	.14
	99.0–99.5	.13
	98.0–99.0	.11
Uranium-236	Greater than:	
	99	1.50
	95–99	1.09
	90–95	.82
	80–90	.41
	Less than 80	.22
Uranium-238	Less than:	
	100 p.p.m. U^{235}	.095
	100–200 p.p.m. U^{235}	.05
	200–300 p.p.m. U^{235}	.03
	300–500 p.p.m. U^{235}	.015
Plutonium-238	Greater than 79.00	1.00
Plutonium-239	Greater than:	
	99.99	2.42
	99.95–99.99	2.37
	99.85–99.95	2.22
	99.50–99.85	1.97
	99.30–99.50	1.03
	99.10–99.30	.60
	99.0–99.10	.16
Plutonium-240	Greater than:	
	98	2.99
	95–98	2.92
	85–95	2.65
	75–85	2.58
Plutonium-241	Greater than:	
	93	7.98
	85–93	7.60
	80–85	6.30
Plutonium-242	Greater than:	
	90	15.89
	85–90	14.09
	80–85	13.77

2. *Specifications.* The standard chemical form for these materials is the oxide. If AEC is requested and agrees to distribute in any other chemical form the AEC will make a charge for costs involved in any conversion.

3. *Special charges.* In addition to the base charges, there shall be charges by the AEC for packaging the thorium, uranium, or plutonium into suitable containers.

4. *Correspondence.* Any correspondence involving this notice should be addressed to Isotope Sales, Oak Ridge National Laboratory, Post Office Box X, Oak Ridge, Tenn. 37830.

5. *Effective date.* This notice is effective upon publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 2d day of July 1969.

UNITED STATES ATOMIC ENERGY COMMISSION,
W. B. MCCOOL,
Secretary.

CIVIL AERONAUTICS BOARD

[Docket No. 21031]

ALITALIA-LINEE AEREE ITALIANE-S.p.A.

Notice of Prehearing Conference Regarding Renewal of Application

Notice is hereby given that a prehearing conference in the above-entitled proceeding is assigned to be held on July 24, 1969, at 10 a.m., e.d.s.t., in Room 805, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., before Examiner John E. Faulk.

Dated at Washington, D.C., July 3, 1969.

[SEAL] THOMAS L. WRENN,
Chief Examiner.

[F.R. Doc. 69–8056; Filed, July 8, 1969; 8:49 a.m.]

[Docket No. 20781; Order 69–7–20]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Relating to Philadelphia, Washington, Baltimore Transatlantic Fares

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 3d day of July 1969.

Agreement adopted by Joint Conferences 1–2 and 1–2–3 of the International Air Transport Association (IATA) relating to Philadelphia/Washington/Baltimore transatlantic fares.

By Order 69–4–138, the Board, among other things, conditioned its approval of an IATA transatlantic fare agreement intended to be effective May 1, 1969, so as to require that fares between Philadelphia/Washington/Baltimore and European points or points beyond be no greater, on a fare per mile basis, than fares to/from New York. The application of the condition was subsequently deferred until July 1, 1969 (Order 69–5–137).

By a telegram received June 26, 1969, Pan American World Airways, Inc. (Pan American), requested that application of the condition now be deferred until August 1, 1969, and stated that Trans World Airlines, Inc. (TWA), joined in the request. In its request, Pan American adverted to the technical difficulties involved and stated that there was insufficient time to comply with the Board's order in a timely manner, even though steps had been taken to initiate a mail vote agreement.

The Board is aware of the technical problems involved in the restructuring of the fares in question to a mileage basis, and of the carriers' efforts to solve the problems. Under all circumstances, the Board does not consider the further deferral as requested to be adverse to the public interest. Accordingly, acting pursuant to the Federal Aviation Act of 1958, as amended, and particularly sections 204(a), 404(b), 412, and 1002(b) thereof:

It is ordered, That:

Application of the condition imposed in ordering paragraph 1(b) of Order 69–4–138 that fares between Philadelphia/Washington/Baltimore and European points or beyond be, on a per mile basis, no greater than corresponding fares per mile to/from New York for all respective fare categories is deferred until August 1, 1969.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

[SEAL] MABEL MCCART,
Acting Secretary.

FEDERAL MARITIME COMMISSION

AKTIEBOLAGET SVENSKA ATLANT LINIEN ET AL.

Notice of Agreement Filed for Approval

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1202; or may inspect agreements at the offices of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. A copy of such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the comments should indicate that this has been done.

Mr. W. C. Menge, General Traffic Manager, Strachan Shipping Co., 1600 American Bank Building, New Orleans, La. 70130.

Notice of agreement filed for approval by:

Agreement No. 9806 provides for the interchange of cargo containers, trailers, and related equipment by Aktiebolaget Svenska Atlant Linien, S.A. Wilhelmsens Dampskibsaktieselskab, Hamburg-Amerika Linie and Norddeutscher Lloyd, common carriers operating in the trades between U.S. ports and ports of the United Kingdom, Europe, and various overseas areas in accordance with the terms and conditions set forth therein.

Dated: July 3, 1969.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

[F.R. Doc. 69-8059; Filed, July 8, 1969; 8:49 a.m.]

[Docket No. 69-33]

ATLANTIC AND GULF COAST OF SOUTH AMERICA

First Supplemental Order

Atlantic and Gulf West Coast of South America Conference Agreement No. 2744-30, et al.

On June 27, 1969, the Commission instituted the subject proceeding to determine, among other specified issues, whether nine pending agreements, covering the establishment of through rates between points in the United States and points in the countries they serve by arrangements with carriers of other modes of transportation, and the adoption of a uniform through bill of lading by each conference, should be approved, disapproved, or modified. It now appears that clarification of appendix A of the order is needed to name the conference member lines as respondents.

Therefore, it is ordered, That pursuant to sections 15, 18(b) and 22 of the Shipping Act, 1916, appendix A of the order is expanded to include the member lines of the respondent conferences; and

It is further ordered, That the member lines named in appendix A-1 be made respondents in the proceeding; and

It is further ordered, That notice of this supplemental order be published in the FEDERAL REGISTER and a copy thereof served upon all parties.

By the Commission.

[SEAL] THOMAS LISI,
Secretary.

Findings and Order After Statutory Hearings

JUNE 30, 1969.

Findings and order after statutory hearing issuing certificates of public convenience and necessity, canceling docket number, amending orders issuing certificates, permitting and approving abandonment of service, terminating certificates, severing proceedings, terminating proceedings, marking successor corespondent, redesignating proceeding, accepting agreement and undertaking for filing, and accepting related rate schedules and supplements for filing.

Each of the Applicants listed herein has filed an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale and delivery of natural gas in interstate commerce or for permission and approval to abandon service or a petition to amend an order issuing a certificate, all as more fully set forth in the applications and petitions, as supplemented and amended.

Applicants have filed related FPC gas rate schedules or supplements thereto and propose to initiate, abandon, add to, or discontinue in part natural gas service in interstate commerce as indicated in the tabulation herein. All sales certificated herein are at rates either equal to or below the ceiling prices established by the Commission's statement of general policy No. 61-1, as amended, or involve sales for which permanent certificates have been previously issued; except that sales from areas for which area rates have been determined are authorized to be made at or below the applicable area base rates, adjusted for quality of the gas, and under the conditions prescribed in the orders determining said rates.

Nielson Enterprises, Inc., Applicant in Docket No. CI69-712, proposes to continue in part the sale of natural gas heretofore authorized in Docket No. G-14628 to be made pursuant to Atlantic Richfield Co. (Operator) et al., FPC Gas Rate Schedule No. 410. The contract comprising said rate schedule will also be accepted for filing as a rate schedule of Applicant. The presently effective rate under said rate schedule is in effect subject to refund in Docket No. RI67-462. Applicant has filed an agreement and undertaking to assure the refund of any amounts collected by it in excess of the amount determined to be just and reasonable in said proceeding. Therefore, Applicant will be made a co-respondent in said proceeding; the proceeding will be redesignated accordingly; and the agreement and undertaking will be accepted for filing.

The Commission's staff has reviewed each application and recommends each action ordered as consistent with all substantive Commission policies and required by the public convenience and necessity.

After due notice by publication in the FEDERAL REGISTER, a petition to intervene by the Long Island Lighting Co. was filed in Docket No. CI69-573, in the matter of the application filed on December 16, 1968, in said docket. The petition to intervene has been withdrawn, and no other petitions to intervene, notices of intervention, or protests to the granting of any of the applications have been filed.

At a hearing held on June 20, 1969, the Commission on its own motion received and made a part of the record in this proceeding all evidence, including the applications and petitions, as supplemented and amended, and exhibits thereto, submitted in support of the authorizations sought herein, and upon consideration of the record;

The Commission finds:

(1) Each Applicant herein is a "natural-gas company" within the meaning of the Natural Gas Act as heretofore found by the Commission or will be engaged in the sale of natural gas in interstate commerce for resale for ultimate public consumption, subject to the jurisdiction of the Commission, and will, therefore, be a "natural-gas company" within the meaning of the Natural Gas Act upon the commencement of service under the authorizations hereinafter granted.

(2) The sales of natural gas hereinbefore described, as more fully described in the applications in this proceeding, will be made in interstate commerce subject to the jurisdiction of the Commission; and such sales by Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are subject to the requirements of subsections (c) and (e) of section 7 of the Natural Gas Act.

(3) Applicants are able and willing properly to do the acts and to perform the service proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules, and regulations of the Commission thereunder.

(4) The sales of natural gas by Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are required by the public convenience and necessity and certificates therefor should be issued as hereinafter ordered and conditioned.

(5) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that Docket No. CI69-1012 should be canceled and that the application filed therein should be treated as a petition to amend the order issuing a certificate in Docket No. CI68-728.

(6) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that the orders issuing certificates in Dockets Nos. G-4117, G-7241, G-13103, G-14628, CI64-1498, CI67-316, CI68-728, and CI68-1148 should be amended as hereinafter ordered and conditioned.

(7) The sales of natural gas proposed to be abandoned as hereinbefore described and as more fully described in the applications and in the tabulation herein are subject to the requirements of subsection (b) of section 7 of the Natural Gas Act.

(8) The abandonments proposed by Applicants herein are permitted by the public convenience and necessity and should be approved as hereinafter ordered.

(9) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the certificates heretofore issued to Applicants relating to the abandonments hereinafter permitted and approved should be terminated or that the orders issuing said certificates should be amended by deleting therefrom authorization to sell natural gas from the subject acreage.

(10) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the proceedings pending in Dockets Nos. G-16638 and RI60-133 should be severed from the proceedings in Docket No. AR67-1 et al., and should be terminated.

(11) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that Nielson Enterprises, Inc., should be made a co-respondent in the proceeding pending in Docket No. RI67-462; that said proceeding should be redesignated accordingly; and that the agreement and undertaking submitted by Nielson in said proceeding should be accepted for filing.

(12) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the FPC gas rate schedules and supplements related to the authorizations hereinafter granted should be accepted for filing.

The Commission orders:

(A) Certificates of public convenience and necessity are issued upon the terms and conditions of this order authorizing sales by Applicants of natural gas in interstate commerce for resale, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, all as hereinbefore described and as more fully described in the applications and in the tabulation herein.

(B) The certificates granted in paragraph (A) above are not transferable and shall be effective only so long as Applicants continue the acts or operations hereby authorized in accordance with the provisions of the Natural Gas

Act and the applicable rules, regulations, and orders of the Commission.

(C) The grant of the certificates issued in paragraph (A) above shall not be construed as a waiver of the requirements of section 4 of the Natural Gas Act or of Part 154 or Part 157 of the Commission's regulations thereunder and is without prejudice to any findings or orders which have been or which may hereafter be made by the Commission in any proceedings now pending or hereafter instituted by or against Applicants. Further, our action in this proceeding shall not foreclose nor prejudice any future proceedings or objections relating to the operation of any price or related provisions in the gas purchase contracts herein involved. Nor shall the grant of the certificates aforesaid for service to the particular customers involved imply approval of all of the terms of the contracts, particularly as to the cessation of service upon termination of said contracts as provided by section 7(b) of the Natural Gas Act. The grant of the certificates aforesaid shall not be construed to preclude the imposition of any sanctions pursuant to the provisions of the Natural Gas Act for the unauthorized commencement of any sales of natural gas subject to said certificates.

(D) The grant of the certificates issued herein on certain applications filed after July 1, 1967, is upon the condition that no increase in rate which would exceed the ceiling prescribed for the given area by paragraph (d)(3) of the Commission's statement of general policy No. 61-1, as amended, shall be filed prior to the applicable date indicated in the tabulation herein.

(E) The certificates issued herein and the amended certificate are subject to the following conditions.

(a) The initial rates for sales authorized in Dockets Nos. CI68-728 and CI69-1004 shall be the applicable area base rates prescribed in Opinion No. 468, as modified by Opinion No. 468-A, as adjusted for quality of gas, or the contract rates, whichever are lower. If the quality of the gas delivered by Applicants deviates at any time from the quality standards set forth in Opinion No. 468, as modified by Opinion No. 468-A, so as to require a downward adjustment of the existing rate, a notice of change in rate shall be filed pursuant to section 4 of the Natural Gas Act: *Provided, however,* That adjustments reflecting changes in B.t.u. content of the gas shall be computed by the applicable formula and charged without the filing of notices of changes in rates.

(b) Within 90 days from the date of initial delivery Applicants in Dockets Nos. CI68-728 and CI69-1004 shall file rate schedule quality statements in the form prescribed in Opinion No. 468-A.

(c) Applicants in Dockets Nos. CI69-997 and CI69-1004 shall advise the Commission of any contemplated processing of the gas under the subject contracts.

(d) The certificate issued in Docket No. CI69-997 involving the sale of gas by Horizon Oil & Gas Co. of Texas, to its affiliate, Baca Gas Gathering System, Inc., determines the rate which legally may be paid by the buyer to the seller, but is without prejudice to any action which the Commission may take in any rate proceeding involving either company.

(e) The initial rate for the sale authorized in Docket No. CI69-573 shall be 16 cents per Mcf at 14.65 p.s.i.a. Applicant shall file three copies of a revised billing statement reflecting the 16-cent rate.

(f) The certificates issued in Dockets Nos. CI69-573 and CI69-792 are conditioned by limiting the buyers' daily take-or-pay obligations to a 1 to 7,300 ratio of takes to reserves.

(F) Docket No. CI69-1012 is canceled.

(G) The orders issuing certificates in Dockets Nos. G-7241, G-13103, CI68-728, and CI68-1148 are amended by adding thereto or deleting therefrom authorization to sell natural gas as described in the tabulation herein.

(H) The authorization granted in Docket No. G-13103 in paragraph (G) above shall not be construed to relieve Applicant of any refund obligations incurred in the related rate suspension proceedings pending in Dockets Nos. RI67-243, RI68-209, and RI69-379.

(I) The orders issuing certificates in Dockets Nos. G-4117, G-14628, CI64-1498, and CI67-316 are amended by deleting therefrom authorization to sell natural gas from acreage assigned to Applicants in Dockets Nos. CI69-1016, CI69-712, CI69-766, and CI69-1003, respectively.

(J) Permission for and approval of the abandonment of service by Applicants, as hereinbefore described, all as more fully described in the applications and in the tabulation herein are granted.

(K) The certificates heretofore issued in Dockets Nos. G-13353 and CI68-734 are terminated.

(L) The proceedings pending in Dockets Nos. G-16638 and RI60-133 are severed from the proceedings in Docket No. AR67-1, et al., and are terminated.

(M) Nielson Enterprises, Inc., is made a co-respondent in the proceeding pending in Docket No. RI67-462; said proceeding is redesignated accordingly; and the agreement and undertaking submitted by Nielson in said proceeding is accepted for filing.

(N) Nielson Enterprises, Inc., shall comply with the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder, and the agreement and undertaking filed by it in Docket No. RI67-462 shall remain in full force and effect until discharged by the Commission.

(O) The rate schedules and rate schedule supplements related to the authorizations granted herein are accepted for filing, all as described in the tabulation herein.

By the Commission.

[SEAL] GORDON M. GRANT, *Secretary.*

[Docket No. G-10571, etc.]

GULF OIL CORP. ET AL.

Findings and Order After Statutory Hearing

JUNE 27, 1969.

Findings and order after statutory hearing issuing certificates of public convenience and necessity, dismissing application, amending orders issuing certificates, permitting and approving abandonment of service, terminating certificates, terminating proceedings, making successor corespondent, redesignating proceeding, accepting agreement and undertaking for filing, and accepting related rate schedules and supplements for filing.

Each of the applicants listed herein has filed an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale and delivery of natural gas in interstate commerce or for permission and approval to abandon service or a petition to amend an order issuing a certificate, all as more fully set forth in the applications and petitions, as supplemented and amended.

Applicants have filed related FPC gas rate schedules or supplements thereto and propose to initiate, abandon, add to, or discontinue in part natural gas service in interstate commerce as indicated in the tabulation herein. All sales certificated herein are at rates either equal to or below the ceiling prices established by the Commission's statement of general policy No. 61-1, as amended, or involve sales for which permanent certificates have been previously issued; except that sales from areas for which area rates have been determined are authorized to be made at or below the applicable area base rates, adjusted for quality of the gas, and under the conditions prescribed in the orders determining said rates.

John A. Hairford, Applicant in Docket No. CI69-939, proposes to continue in part sales of natural gas heretofore authorized in Docket No. CI62-1036 to be made pursuant to Apache Corp. FPC Gas Rate Schedule No. 6. The contract comprising said rate schedule will also be accepted for filing as that of Applicant. The presently effective rate under said rate schedule is in effect subject to refund in Docket No. RI69-168. Applicant has filed a motion to be made co-respondent in said proceeding, together with an agreement and undertaking to assure the refund of any amounts collected by him in excess of the amount determined to be just and reasonable in said proceeding.[1] Therefore, he will be made co-respondent in said proceeding; the proceeding will be redesignated accordingly; and the agreement and undertaking will be accepted for filing.

The Commission's staff has reviewed each application and recommends each action ordered as consistent with all substantive Commission policies and required by the public convenience and necessity.

After due notice by publication in the FEDERAL REGISTER no petitions to intervene, notices of intervention or protests to the granting of the applications have been filed.

At a hearing held on June 26, 1969, the Commission on its own motion received and made a part of the record in this proceeding all evidence, including the applications and petitions, as supplemented and amended, and exhibits thereto, submitted in support of the authorizations sought herein, and upon consideration of the record,

The Commission finds:

(1) Each Applicant herein is a "natural-gas company" within the meaning of the Natural Gas Act as heretofore

[1] In his agreement and undertaking Applicant refers to "sales under John A. Hairford FPC Gas Rate Schedule No. 2, which sales were formerly covered by Apache Corporation FPC Gas Rate Schedule No. 6 * * *." Inasmuch as Applicant's rate schedule for the subject sales is designated as his FPC Gas Rate Schedule No. 5, the agreement and undertaking will be construed as being applicable to sales under said rate schedule.

found by the Commission or will be engaged in the sale of natural gas in interstate commerce for resale for ultimate public consumption, subject to the jurisdiction of the Commission, and will, therefore, be a "natural-gas company" within the meaning of the Natural Gas Act upon the commencement of service under the authorizations hereinafter granted.

(2) The sales of natural gas hereinbefore described, as more fully described in the applications in this proceeding, will be made in interstate commerce subject to the jurisdiction of the Commission; and such sales by Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are subject to the requirements of subsections (c) and (e) of section 7 of the Natural Gas Act.

(3) Applicants are able and willing properly to do the acts and to perform the service proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules, and regulations of the Commission thereunder.

(4) The sales of natural gas by Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are required by the public convenience and necessity and certificates therefor should be issued as hereinafter ordered and conditioned.

(5) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the application filed in Docket No. G–13045 on November 7, 1968, should be dismissed as moot.

(6) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that the orders issuing certificates in Dockets Nos. G–10571, G–11934, CI62–1036, CI62–1251, CI63–914, CI66–470, CI66–1328, CI67–79, CI67–286, and CI68–1202[1] should be amended as hereinafter ordered and conditioned.

(7) The sales of natural gas proposed to be abandoned as hereinbefore described and as more fully described in the applications and in the tabulation herein are subject to the requirements of subsection (b) of section 7 of the Natural Gas Act.

(8) The abandonments proposed by Applicants herein are permitted by the public convenience and necessity and should be approved as hereinafter ordered.

(9) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the certificates heretofore issued to Applicants relating to the abandonments hereinafter permitted and approved should be terminated or that the orders issuing said certificates should be amended by deleting therefrom authorization to sell natural gas from the subject acreage.

(10) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the rate suspension proceedings pending in Dockets Nos. RI66–56 and RI66–57 should be terminated.

(11) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that John A. Hairford should be made co-respondent in the proceeding pending in Docket No. RI69–168, that said proceeding should be redesignated accordingly, and that the agreement and undertaking submitted by him in said proceeding should be accepted for filing.

(12) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the FPC gas rate schedules and supplements related to the authorizations hereinafter granted should be accepted for filing.

The Commission orders:

(A) Certificates of public convenience and necessity are issued upon the terms and conditions of this order authorizing sales by Applicants of natural gas in interstate commerce for resale, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, all as hereinbefore described and as more fully described in the applications and in the tabulation herein.

(B) The certificates granted in paragraph (A) above are not transferable and shall be effective only so long as Applicants continue the acts or operations hereby authorized in accordance with the provisions of the Natural Gas Act and the applicable rules, regulations, and orders of the Commission.

(C) The grant of the certificates issued in paragraph (A) above shall not be construed as a waiver of the requirements of section 4 of the Natural Gas Act or of Part 154 or Part 157 of the Commission's regulations thereunder and is without prejudice to any findings or orders which have been or which may hereafter be made by the Commission in any proceedings now pending or hereafter instituted by or against Applicants. Further, our action in this proceeding shall not foreclose nor prejudice any future proceedings or objections relating to the operation of any price or related provisions in the gas puchase contracts herein involved. Nor shall the grant of the certificates aforesaid for service to the particular customers involved imply approval of all of the terms of the contracts, particularly as to the cessation of service upon termination of said contracts as provided by section 7(b) of the Natural Gas Act. The grant of the certificates aforesaid shall not be construed to preclude the imposition of any sanctions pursuant to the provisions of the Natural Gas Act for the unauthorized commencement of any sales of natural gas subject to said certificates.

(D) The grant of the certificates issued herein on certain applications filed after July 1, 1967, is upon the condition that no increase in rate which would exceed the ceiling prescribed for the given area by paragraph (d)(3) of the Commission's statement of general policy No. 61–1, as amended, shall be filed prior to the applicable date indicated in the tabulation herein.

(E) The certificates issued herein and the amended certificates are subject to the following conditions:

(a) The initial rate for the sale authorized in Docket No. CI69–262 shall be the applicable area base rate prescribed in Opinion No. 468, as modified by Opinion No. 468–A, as adjusted for quality of gas, or the contract rate, whichever is lower. If the quality of the gas delivered by Applicant deviates at any time from the quality standards set forth in Opinion No. 468, as modified by Opinion No. 468–A, so as to require a downward adjustment of the existing rate, a notice of change in rate shall be filed pursuant to section 4 of the Natural Gas Act: *Provided, however,* That adjustments reflecting changes in B.t.u. content of the gas shall be computed by the applicable formula and charged without the filing of a notice of change in rate.

(b) Within 90 days from the date of initial delivery Applicant in Docket No. CI69–262 shall file a rate schedule quality statement in the form prescribed in Opinion No. 468–A.

(c) Applicant in Docket No. CI69–262 shall advise the Commission of any contemplated processing of the gas under the subject contract.

(d) The certificate in Docket No. CI69–262 is further conditioned by limiting the buyer's daily take-or-pay obligation to a 1 to 7,300 ratio of takes to reserves.

(e) Sales authorized in Dockets Nos. CI66–470 and CI69–1021 shall be made at the initial rate of 15 cents per Mcf at 14.65 p.s.i.a. including tax reimbursement.

(f) Sales authorized in Dockets Nos. CI66–1328 and CI69–954 (Oklahoma "Other" area only) shall be made at the initial rate of 15 cents per Mcf at 14.65 p.s.i.a., including tax reimbursement and subject to B.t.u. adjustment. In the event that the Commission amends its statement of general policy No. 61–1 by adjusting the boundary between the Oklahoma Panhandle area and the Oklahoma "Other" area so as to increase the initial wellhead price for new gas, Applicants thereupon may substitute the new rates reflecting the amounts of such increases and thereafter collect the new rates prospectively in lieu of the initial rate herein authorized in said dockets.

(g) Sales authorized in Dockets Nos. CI69–954 (Oklahoma Panhandle area only) and CI69–960 shall be made at the initial rate of 17 cents per Mcf at 14.65 p.s.i.a., including tax reimbursement and subject to B.t.u. adjustment. Applicant in Docket No. CI69–960 shall file a revised billing statement to reflect the 17 cents rate.

(h) Sales authorized in Docket No. CI69–894 shall be made at the initial rate of 15 cents per Mcf at 14.65 p.s.i.a. including tax reimbursement from the

[1] Temporary certificate.

newly dedicated acreage; and 16.015 cents per Mcf at 14.65 p.s.i.a., subject to refund in Docket No. RI69–36 from acreage acquired from the certificate holder in Docket No. CI62–1251.

(I) The authorizations granted in Dockets Nos. CI66–1328, CI–67–79, and CI69–960 are conditioned upon any determination which may be made in the proceeding pending in Docket No. R–338 with respect to the transportation of liquefiable hydrocarbons.

(F) The application filed in Docket No. G–13045 on November 7, 1968, is dismissed as moot.

(G) The orders issuing certificates in Dockets Nos. G–11934, CI63–914, CI66–470, CI66–1328, CI67–79, CI67–286, and CI68–1202 [2] are amended by adding thereto or deleting therefrom authorization to sell natural gas as described in the tabulation herein.

(H) The orders issuing certificates in Dockets Nos. CI62–1036 and CI62–1251 are amended by deleting therefrom authorization to sell natural gas from acreage assigned to Applicants in Dockets Nos. CI69–939 and CI69–894, respectively.

(I) The order issuing a certificate in Docket No. G–10571 is amended by substituting the successor in interest as certificate holder.

(J) Permission for and approval of the abandonment of service by Applicants, as hereinbefore described, all as more fully described in the applications and in the tabulation herein are granted.

(K) The certificates heretofore issued in Dockets Nos. G–13045, CI60–113, CI60–114, CI61–1246, and CI62–1268 are terminated.

(L) The rate suspension proceedings pending in Dockets Nos. RI66–56 and RI66–57 are terminated.

(M) John A. Hairford is made a corespondent in the proceeding pending in Docket No. RI69–168, said proceeding is redesignated accordingly, and the agreement and undertaking submitted by him in said proceeding [1] is accepted for filing.

(N) John A. Hairford shall comply with the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder, and the agreement and undertaking filed by him in said proceeding shall remain in full force and effect until discharged by the Commission.

(O) The rate schedules and rate schedule supplements related to the authorizations granted herein are accepted for filing or are redesignated, all as described in the tabulation herein.

By the Commission.

[SEAL] GORDON M. GRANT, *Secretary.*

[Docket No. CP69-348]

EL PASO NATURAL GAS CO.
Application for Certificate of Public Convenience and Necessity

JULY 1, 1969.

Take notice that on June 24, 1969, El Paso Natural Gas Co. (Applicant), Post Office Box 1492, El Paso, Tex. 79999, filed in docket No. CP69-348 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of mainline facility additions and the sale and delivery of an additional firm daily quantity of gas to Southern California Gas Co. and Southern Counties Gas Company of California, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant seeks authorization to construct and operate an additional 51,840 mainline compressor horsepower, approximately 85.1 miles of 30-inch O.D. loop pipeline, minor metering facilities and authorization for the installation and operation of auxiliary facilities at various mainline compressor stations. Applicant states facilities will be required to increase daily design mainline delivery capacity, which increase will be utilized in rendering the proposed additional sales.

Total estimated cost of the project is $34,795,165, which will be initially financed through the use of working funds supplemented as necessary by short term borrowing.

The additional sales and delivery are proposed to be made in accordance with and at rates contained in Rate Schedule G of El Paso's FPC Gas Tariff, Original Volume No. 1. Additional deliveries will be accomplished through acceleration of production from existing sources and consequently no new supplies are involved.

Any person desiring to be heard or to make any protest with reference to said application should, on or before July 25, 1969, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Acting Secretary.

Joint Call for Report of Condition

CROSS REFERENCE: For a document relating to a joint call for report of condition of insured banks, see F.R. Doc. 69-7999, Federal Deposit Insurance Corporation, *supra*.

NORTHEASTERN BANKSHARE ASSOCIATION

Notice of Application for Approval of Acquisition of Shares of Bank

Notice is hereby given that application has been made to the Board of Governors of the Federal Reserve System pursuant to section 3(a) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)), by Northeastern Bankshare Association, which is a bank holding company located in Lewiston, Maine, for the prior approval of the Board of the acquisition by Applicant of at least 51 percent of the voting shares of Westbrook Trust Co., Westbrook, Maine.

Section 3(c) of the Act provides that the Board shall not approve (1) any acquisition or merger or consolidation under this section which would result in a monopoly, or which would be in furtherance of any combination or conspiracy to monopolize or to attempt to monopolize the business of banking in any part of the United States; or (2) any other proposed acquisition or merger or cosolidation under this section whose effect in any section of the country may be substantially to lessen competition, or to tend to create a monopoly, or which in any other manner would be in restraint of trade, unless it finds that the anticompetitive effects of the proposed transaction are clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the community to be served.

Section 3(c) further provides that, in every case, the Board shall take into consideration the financial and managerial resources and future prospects of the company or companies and the banks

concerned, and the convenience and needs of the community to be served.

Not later than thirty (30) days after the publication of this notice in the FEDERAL REGISTER, comments and views regarding the proposed acquisition may be filed with the Board. Communications should be addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. The application may be inspected at the office of the Board of Governors or the Federal Reserve Bank of Boston.

Dated at Washington, D.C., this 1st day of July, 1969.

By order of the Board of Governors.

[SEAL] ROBERT P. FORRESTAL, *Assistant Secretary.*

SECURITIES AND EXCHANGE COMMISSION

[Files Nos. 7-3143-7-3152]

ASTRODATA, INC., ET AL.

Notice of Applications for Unlisted Trading Privileges and of Opportunity for Hearing

JULY 2, 1969.

In the matter of applications of the Philadelphia-Baltimore-Washington Stock Exchange for unlisted trading privileges in certain securities.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and rule 12f-1 thereunder, for unlisted trading privileges in the common stocks of the following companies, which securities are listed and registered on one or more other national securities exchanges:

Astrodata, Inc., file No. 7-3143; Cinerama, Inc., file No. 7-3144; Compudyne Corp., file No. 7-3145; Husky Oil, Ltd., file No. 7-3146; Income & Capital Shares, Inc., file No. 7-3147; The Japan Fund, Inc., file No. 7-3148; Leverage Fund of Boston, Inc., file No. 7-3149; Louisiana Land and Exploration Co., file No. 7-3150; Natomas Co., file No. 7-3151; Nytronics, Inc., file No. 7-3152.

Upon receipt of a request, on or before July 17, 1969, from any interested person, the Commission will determine whether the application with respect to any of the companies named shall be set down for hearing. Any such request should state briefly the title of the security in which he is interested, the nature of the interest of the person making the request, and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on any of the said applications by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington 25, D.C., not later than the date specified. If no one requests a hearing with respect to any particular application, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission (pursuant to delegated authority).

SMALL BUSINESS ADMINISTRATION

[License No. 02/02-0224]

BUFFALO SMALL BUSINESS INVESTMENT CORP.

Notice of Surrender of License

Notice is hereby given that pursuant to § 107.105 of the regulations governing small business investment companies (13 CFR Part 107, 33 F.R. 326), Buffalo Small Business Investment Corp. (Buffalo), 120 Delaware Avenue, Buffalo, N.Y. 14202, has surrendered its license to operate as a small business investment company.

Buffalo, a New York corporation organized and chartered solely for the purposes of operating under the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 et seq.), was licensed by the Small Business Administration (SBA) on December 7, 1962, License No. 02/02-0224.

The license surrender is pursuant to a certain reorganization Agreement and Plan (the Plan) entered into between Buffalo and Coburn Corporation of America (Coburn).

Notice of the Plan was published by the Small Business Administration (SBA) on March 14, 1969, in the FEDERAL REGISTER (34 F.R. 5279).

The transactions contemplated by the Plan having been consummated, the surrender by Buffalo of its license to operate as a small business investment company under the Small Business Investment Act of 1958, as amended, is hereby approved and accepted by SBA.

Dated: June 26, 1969.

A. H. SINGER, *Associate Administrator for Investment.*

[F.R. Doc. 69-8013; Filed, July 8, 1969; 8:46 a.m.]

HEMISPHERE CAPITAL CORP.

Notice of Issuance of License

On March 14, 1969, a notice was published in the FEDERAL REGISTER, 34 F.R. 5279, stating that an application for a license to operate as a small business investment company had been filed with the Small Business Administration (SBA) by Hemisphere Capital Corp., 120 Delaware Avenue, Buffalo, N.Y. 14202, pursuant to § 107.102 of the regulations governing small business investment companies (13 CFR Part 107, 33 F.R. 326).

Interested parties were given until the close of business March 24, 1969, to submit their written comments to SBA. No comments were received.

Notice is hereby given that, having considered the application and all other pertinent information and facts with regard thereto, SBA issued License No. 02/02-0271 to Hemisphere Capital Corp., on May 29, 1969, pursuant to section 301(c) of the Small Business Investment Act of 1958, as amended.

Dated: June 26, 1969.

A. H. SINGER,
Associate Administrator for Investment.

[F.R. Doc. 69-8014; Filed, July 8, 1969; 8:46 a.m.]

[License 12-0006]

NEW CAPITAL FOR SMALL BUSINESSES, INC.

Surrender of License

New Capital for Small Businesses, Inc., a California corporation, having its principal place of business located at 235 Montgomery Street, San Francisco, Calif. 94104, was licensed by the Small Business Administration as a small business investment company on December 1, 1960.

On June 16, 1967, a complaint, Civil No. 47254, was filed on behalf of SBA against New Capital for Small Businesses, Inc., in the U.S. District Court, Northern District of California. A Stipulation for Judgment in the amount of $240,024.99, was entered on February 20, 1969. On May 8, 1969, after satisfaction of judgment, New Capital for Small Businesses, Inc., surrendered its license to SBA.

In view of the foregoing, notice is hereby given that the surrender of license by New Capital for Small Businesses, Inc., is hereby approved and accepted, and New Capital for Small Businesses, Inc., is no longer licensed to operate as a small business investment company.

Dated: June 26, 1969.

For the Small Business Administration.

A. H. SINGER,
Associate Administrator for Investment.

Notice of Investigation and Hearing

Investigation instituted. Following receipt on June 27, 1969, of a petition filed by the American-Saint Gobain Corp., of Kinsport, Tenn., the Libbey-Owens-Ford Co., of Toledo, Ohio, the Mississippi Glass Co., of St. Louis, Mo., and the PPG Industries, Inc., of Pittsburgh, Pa., the U.S. Tariff Commission, on the 2d day of July 1969, instituted an investigation under section 301(b)(1) of the Trade Expansion Act of 1962 to determine whether glass of the kinds provided for in items 541.11-.31, 542.11-.98, 543.11-.69, and 544.31-.32 of the Tariff Schedules of the United States are, as a result in major part of concessions granted thereon under trade agreements, being imported into the United States in such increased quantities as to cause, or threaten to cause, serious injury to the domestic industry or industries producing like or directly competitive products.

Public hearing ordered. A public hearing in connection with this investigation will be held beginning at 10 a.m., e.d.s.t. on October 14, 1969, in the Hearing Room, Tariff Commission Building, 8th and E Streets NW., Washington, D.C. Appearances at the hearing should be entered in accordance with § 201.13 of the Tariff Commission's rules of practice and procedure.

Inspection of petition. The petition filed in this case is available for inspection by persons concerned at the office of the Secretary, U.S. Tariff Commission, 8th and E Streets NW., Washington, D.C., and at the New York office in the Tariff Commission located in Room 437 of the Customhouse.

Issued: July 3, 1969.

By order of the Commission.

[SEAL] DONN N. BENT,
Secretary.

[F.R. Doc. 69-8036; Filed, July 8, 1969; 8:48 a.m.]

[TEA-I-Ex-6]

CERTAIN FLAT GLASS

Notice of Investigation and Hearing Into Probable Effect of Termination of Increased Tariffs

Investigation instituted. On June 27, 1969, the U.S. Tariff Commission, upon a petition filed on behalf of the domestic industry concerned, instituted an investigation in connection with the preparation of advice to the President, pursuant to section 351(d)(3) of the Trade Expansion Act of 1962, with respect to flat glass of the kinds described in items 923.31-.35 and 923.71-.75 in part 2A of the Appendix to the Tariff Schedules of the United States.

Increased rates of duty were imposed by Presidential proclamation upon imports of certain flat glass in 1962 following an escape-clause investigation by the Tariff Commission under section 7 of the Trade Agreements Extension Act of 1951. On January 11, 1967, the President, pursuant to the provisions of section 351(c)(1)(A) of the Trade Expansion Act, terminated certain of these increased rates and reduced the remainder of them. Pursuant to section 351(c)(1)(B) of the Trade Expansion Act, the escape-clause rates that remained were to have automatically terminated at the close of October 11, 1967, unless extended by the President. By proclamation issued pursuant to section 351(c)(2) of the Act, the President extended these rates to the close of December 31, 1969.

The Commission's function under section 351(d)(3) is to advise the President of its judgment as to the probable economic effect that a termination of these rates would have on the industry concerned.

Public hearing ordered. A public hearing, which has been requested by the petitioner in connection with this investigation, will be held at 10 a.m., e.d.s.t. on October 14, 1969, in the Hearing Room, Tariff Commission Building, 8th and E Streets NW., Washington, D.C. Appearances at the hearing should be entered in accordance with § 201.13 of the Tariff Commission's rules of practice and procedure.

Inspection of petition. The petition filed in this case is available for inspection at the office of the Secretary, U.S. Tariff Commission, 8th and E Streets NW., Washington, D.C., and at the New York City office of the Tariff Commission located in Room 437 of the Customhouse.

Issued: July 3, 1969.

By order of the Commission.

[SEAL] DONN N. BENT,
Secretary.

[F.R. Doc. 69-8037; Filed, July 8, 1969; 8:48 a.m.]

[TEA-I-14]

PIANOS AND PARTS THEREOF

Notice of Investigation and Hearing

Investigation instituted. Following receipt on June 23, 1969, of a petition filed by the National Piano Manufacturers Association, the U.S. Tariff Commission, on the 2d day of July 1969, instituted an investigation under section 301(b)(1) of the Trade Expansion Act of 1962 to determine whether pianos (including player pianos, whether or not with keyboards), and parts thereof, provided for in items 725.02 and 726.80 of the Tariff Schedules of the United States are, as a result in major part of concessions granted thereon under trade agreements, being imported into the United States in such increased quantities as to cause, or threaten to cause, serious injury to the domestic industry or industries producing like or directly competitive products.

Public hearing ordered. A public hearing in connection with this investigation will be held beginning at 10 a.m., e.s.t., on October 28, 1969, in the Hearing Room, Tariff Commission Building, 8th and E Streets, NW., Washington, D.C. Appearances at the hearing should be entered in accordance with § 201.13 of the Tariff Commission's rules of practice and procedure.

Inspection of petition. The petition filed in this case is available for inspection by persons concerned at the office of the Secretary, U.S. Tariff Commission, 8th and E Streets NW., Washington, D.C., and at the New York office of the Tariff Commission located in Room 437 of the Customhouse.

Issued: July 3, 1969.

By order of the Commission.

[SEAL] DONN N. BENT, *Secretary.*

[F.R. Doc. 69-8038; Filed, July 8, 1969; 8:48 a.m.]

[TEA-I-EX-5]

CERTAIN FLOOR COVERINGS

Notice of Investigation and Hearing Into Probable Effect of Termination of Increased Tariff

Investigation instituted. On June 27, 1969, the U.S. Tariff Commission, upon a petition filed on behalf of the domestic industry concerned, instituted an investigation in connection with the preparation of advice to the President, pursuant to section 351(d)(3) of the Trade Expansion Act of 1962, with respect to Wilton (including Brussels) and velvet (including tapestry) floor coverings, and floor coverings of like character or description, of the kinds described in item 922.50 in part 2A of the Appendix to the Tariff Schedules of the United States.

An increased rate of duty was imposed by Presidential proclamation upon imports of the subject floor coverings in 1962 following an escape-clause investigation by the Tariff Commission under section 7 of the Trade Agreements Extension Act of 1951. Pursuant to section 351(c)(1)(B) of the Trade Expansion Act, the increased rate was to have automatically terminated at the close of October 11, 1967, unless extended by the President. By proclamation issued pursuant to section 351(c)(2) of the Act, the President extended the increased rate to the close of December 31, 1969.

The Commission's function under section 351(d)(3) is to advise the President of its judgment as to the probable economic effect that a termination of such increased rate of duty would have on the industry concerned.

Public hearing ordered. A public hearing will be held at 10 a.m., e.d.s.t., on August 27, 1969, in the Hearing Room, Tariff Commission Building, 8th and E Streets NW., Washington, D.C. Appearances at the hearing should be entered in accordance with § 201.13 of the Tariff Commission's rules of practice and procedure.

Inspection of petition. The petition filed in this case is available for inspection at the office of the Secretary, U.S. Tariff Commission, 8th and E Streets NW., Washington, D.C., and at the New York City office of the Tariff Commission located in Room 437 of the Customhouse.

Issued: July 3, 1969.

By order of the Commission.

[SEAL] DONN N. BENT, *Secretary.*

[F.R. Doc. 69-8039; Filed, July 8, 1969; 8:48 a.m.]

OFFICE OF ECONOMIC OPPORTUNITY

SECRETARY OF LABOR

Delegation of Authorities Regarding Job Corps

1. Pursuant to section 602(d) of the Economic Opportunity Act, the powers of the Director under Title I, Part A (Job Corps) of the Economic Opportunity Act are hereby delegated to the Secretary of Labor except for the reservations specified herein. The powers of the Director under sections 602 (except 602(d)) and 610-1 of the Economic Opportunity Act are also delegated to the Secretary of Labor to the extent he deems necessary or appropriate for carrying out his functions in exercising his powers under Title I, Part A.

2. a. The personnel, property, and records of and in support of the Job Corps are hereby transferred to the Secretary of Labor, except that officers or employees appointed by the President shall not be transferred.

b. The Secretary of Labor is designated contracting officer in all existing contracts implementing Title I, Part A (Job Corps), except contracts identified in Attachment A, and shall succeed to all rights, duties, and obligations (including auditing responsibilities) of the Director under all other agreements; except that OEO shall retain the responsibility for settling termination claims arising under contracts terminated prior to July 1, 1969.

c. Tort claims, and claims lodged under section 116(b) of the Economic Opportunity Act, arising against the Job Corps prior to July 1, 1969, shall be processed and settled by the Labor Department.

3. The delegated powers may be redelegated by the Secretary to personnel within the Labor Department with or without authority for further delegation.

4. The Director will retain and exercise the following authority:

a. The authority to conduct overall planning (including programing and budgeting operations), and to perform evaluations of the Job Corps program.

b. The exclusive power to make grants or contracts for experimental, experimental research, and demonstration projects as specified in sections 113 (b) and (c) of the Economic Opportunity Act.

5. Further, the delegated and retained powers herein shall be exercised pursuant to such memoranda of understanding as have been or shall be agreed to between the Agencies.

Agreements have been or shall be concluded which create procedures for (a) establishing basic policies, (b) formulating budget and program plans, (c) setting criteria for assessing performance, (d) providing guidelines for conducting evaluations, (e) disposing of property which may no longer be required in connection with the Job Corps program, and (f) approval of experimental, experimental research, and demonstration projects.

6. All operating and budget information, evaluation reports, audits, inspection reports, and other data concerning Title I-A, shall be freely exchanged between the Director and the Secretary, pursuant to sections 602(d) and 633(b) of the Act.

7. This delegation is effective July 1, 1969.

Dated: June 24, 1969.

DONALD RUMSFELD, *Director, Office of Economic Opportunity.*

Approved: June 30, 1969.

RICHARD NIXON, *President of the United States.*

SECRETARY OF HEALTH, EDUCATION, AND WELFARE

Delegation of Authorities Regarding Project Headstart

1. Pursuant to section 602(d) of the Economic Opportunity Act of 1964 (hereinafter "the Act"), I delegate to the Secretary of Health, Education, and Welfare (hereafter "the Secretary") the powers vested in me by section 222(a)(1) of the Act (Project Headstart).

2. I further delegate to the Secretary subject to the terms of the Memorandum of Understanding referred to in paragraph 5 below those powers under sections 222(b) (except the power to conduct research), 225(c), 230, 231, 233, 241 (except 241(a)(2)), 242, 243, 244 (1), 244(2), 244(7), 602 (except 602(d)), 603(b), 604, 610–1, and 617 of the Act to the extent deemed necessary or appropriate for the performance of functions delegated to him in paragraph 1 above.

3. Resources for Project Headstart shall be included in the OEO budget allocated by OEO to the Secretary. In planning, developing, and allocating the annual budgets and supplementals or amendments thereto, OEO shall consult with the Secretary and obtain his recommendations for requirements. The Secretary shall support and assist OEO in the presentation and justification of the budget to the Bureau of the Budget and the Congress.

4. All operating information, evaluation reports, and other data concerning Project Head Start shall be freely exchanged pursuant to section 602(d) of the Act.

5. The powers delegated herein shall be exercised in accordance with such memoranda of understanding as have been or shall be entered into by HEW and OEO.

6. The powers delegated herein may be redelegated by the Secretary to other officials of HEW with or without authority for further redelegation.

7. This delegation shall take effect on July 1, 1969.

Dated: June 28, 1969.

DONALD RUMSFELD,
Director,
Office of Economic Opportunity.

Approved: June 30, 1969.

RICHARD NIXON,
President of the United States.

INTERSTATE COMMERCE COMMISSION

[Notice 1307]

MOTOR CARRIER, BROKER, WATER CARRIER, AND FREIGHT FORWARDER APPLICATIONS

Correction

In F.R. Doc. 69–7473, appearing at page 9879, in the issue for Thursday, June 26, 1969, make the following change: On page 9881, in the 18th line of "No. MC 67200 (Sub-No. 34)", the word "and" should read "on".

INTENT TO PERFORM INTERSTATE TRANSPORTATION FOR CERTAIN NONMEMBERS

Availability of Form BOp 102

JULY 1, 1969.

Form BOp 102, Notice to Commission of Intent to Perform Interstate Transportation for Certain Nonmembers under section 203(b)(5) of the Interstate Commerce Act, was prescribed by order of the Commission in Ex Parte No. MC–75 published at 34 F.R. 8117 on May 23, 1969. The order is effective July 7, 1969.

Copies of Form BOp 102 are available at the Commission's Regional and detached offices. The locations of the Commission's Regional and detached offices are listed in 49 CFR Part 1001. Copies of Form BOp 102 are also available from the Office of the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

[SEAL] H. NEIL GARSON,
Secretary.

[No. 35120]

MISSISSIPPI INTRASTATE RAIL FREIGHT RATES AND CHARGES, 1969 [1]

JUNE 9, 1969.

Notice is hereby given that the common carriers by railroad shown below have, through their attorneys, filed a petition with the Interstate Commerce Commission, pursuant to section 13 and section 15a(2) of the Interstate Commerce Act, to institute an investigation to determine whether intrastate rates, fares, and charges within the State of Mississippi are unreasonably low to the extent that they do not reflect the general increase authorized in Ex Parte No. 259, Increased Freight Rates, 1968, 332 I.C.C. 590 (1968), 332 I.C.C. 714 (1969). The petitioners are: The Alabama Great Southern Railroad Co.; Bonhomie and Hattiesburg Southern Railroad Co.; Columbus and Greenville Railway Co.; The Corinth and Counce Railroad Co.; Fernwood, Columbia & Gulf Railroad Co.; Gulf, Mobile and Ohio Railroad Co.; Illinois Central Railroad Co.; Louisville and Nashville Railroad Co.; Meridian & Bigbee Railroad Co.; Mississippi & Skuna Valley Railroad Co.; Mississippi Export Railroad Co.; Missippian Railway; Missouri Pacific Railroad Co.; Pearl River Valley Railroad Co.; St. Louis-San Francisco Railway Co.; and Southern Railway Co.

Any persons interested in any of the matters in the petition may, on or before 30 days from the publication of this notice in the FEDERAL REGISTER, file replies to the petition supporting or opposing the determination sought. An original and 15 copies of such replies must be filed with the Commission and must show service of 2 copies each upon the attorneys for the petitioners, viz.: John H. Doeringer, 135 East 11th Place, Chicago, Ill. 60605; James L. Howe III, Post Office Box 1808, Washington, D.C. 20013; W. A. Kimbrough, Jr., 104 St. Francis Street, Mobile, Ala. 36602; W. B. Kopper, 906 Olive Street, St. Louis, Mo. 63101; and John F. Smith, 908 West Broadway, Louisville, Ky. 40201. Thereafter a determination will be made as to whether an investigation is warranted in this matter.

Notice of the filing of this petition will be given by publication in the FEDERAL REGISTER.

[SEAL] H. NEIL GARSON,
Secretary.

[F.R. Doc. 69–8045; Filed, July 8, 1969; 8:48 a.m.]

[1] This correction is solely for the purpose of indicating that the interstate increase involved is Ex Parte No. 259 not Ex Parte 256.

[No. MC–C–6433]

NOTICE OF FILING OF PETITION FOR INTERPRETATION OF OPERATING AUTHORITY

JULY 3, 1969.

Petitioner, JOHN J. SHARP, Woodbury Heights, N.J. Petitioner's representative, Theodore Polydoroff, Suite 1100, 1140 Connecticut Avenue NW., Washington, D.C. 20036. By petition filed June 13, 1969, Petitioner seeks interpretation of its presently held authority, and in regard thereto, states, that in MC 125535, issued January 8, 1968, it holds authority as a contract carrier, by motor vehicle, transporting: *Refrigeration and freezing units, machines and equipment and parts and supplies* connected therewith, uncrated (except those which because of size or weight require the use of special equipment or handling), from the plantsite of Hussman Refrigeration, Inc., at Cherry Hill, N.J., to points in Connecticut, Delaware, New Jersey, that part of Maryland on and east of U.S. Highway 15, that part of Pennsylvania on and east of U.S. Highway 219, New York (except points west of New York Highway 14); and the District of Columbia; and *Damaged and defective equipment* described above, from the above-specified destination points to the plantsite of Hussman Refrigeration, Inc., at Cherry Hill, N.J. Restriction: The operations authorized herein are limited to a transportation service to be performed, under a continuing contract, or contracts, with Hussman Refrigeration, Inc., of Cherry Hill, N.J. Petitioner states that following the issuance of its permit it has been performing a continuous transportation service for Hussman Refrigerator Co., and pursuant to his authority Petitioner has been transporting refrigeration and freezing units, machines, and equipment and also *shelves, bins, display cases, and counters.* The transportation of these items has been performed under the interpretation that the phrase "equipment, and parts and supplies connected therewith," as set out in the permit, embraces the above described commodities. Petitioner further states

the question of whether its present permit authorized him to transport shelves, bins, counters, and display cases has now been informally raised, and it is for this reason that the instant petition has been filed. Any interested person desiring to participate may file an original and seven copies of his written representations, views or argument in support of, or against, the petition within 30 days from the date of publication in the FEDERAL REGISTER.

By the Commission.

[SEAL] ANDREW ANTHONY, Jr.,
Acting Secretary.

[F.R. Doc. 69-8046; Filed, July 8, 1969; 8:48 a.m.]

[Notice 558]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

JULY 3, 1969.

The following letter-notices of proposals to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commerce Commission, under the Commission's Deviation Rules Revised, 1957 (49 CFR 211.1(c)(8)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 211.1(d)(4)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 211.1(e)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Deviation Rules Revised, 1957, will be numbered consecutively for convenience in identification and protests if any should refer to such letter-notices by number.

MOTOR CARRIER OF PASSENGERS

No. MC 1515 (Deviation No. 522) (Cancels Deviations Nos. 260 and 385), GREYHOUND LINES, INC. (Western Division), Market and Fremont Sts., San Francisco, Calif. 94106. Carrier's representative: W. L. McCracken, 371 Market Street, San Francisco, Calif. 94105. Correction: Deviation No. 522, filed May 29, 1969, should be corrected to describe Route (2) of the deviation proposal as follows: (2) from West Jerome Junction over Interstate Highway 80N to junction U.S. Highway 93 (North Twin Falls Junction). The original notice published in the FEDERAL REGISTER on June 11, 1969, incorrectly concludes Route (2) with West Twin Falls Junction rather than *North* Twin Falls Junction.

No. MC 1515 (Deviation No. 524) (Cancels Deviation No. 344), GREYHOUND LINES, INC. (Western Division), Market and Fremont Sts., San Francisco, Calif. 94106. Carrier's representative: W. L. McCracken, 371 Market Street, San Francisco, Calif. 94105. Correction: Deviation No. 524, filed June 6, 1969, should be corrected to describe Route (3) of the deviation proposal as follows: (3) from Bellingham over Interstate Highway 5 to junction unnumbered highway (Alger Junction), thence over unnumbered highway to Alger. The original notice published in the FEDERAL REGISTER on June 18, 1969, inadvertently omitted a portion of the described route.

By the Commission.

[SEAL] ANDREW ANTHONY Jr.,
Acting Secretary.

[F.R. Doc. 69-8047; Filed, July 8, 1969; 8:48 a.m.]

[Notice 1310]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

JULY 3, 1969.

The following publications are governed by the new Special Rule 1.247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

APPLICATIONS ASSIGNED FOR ORAL HEARING

MOTOR CARRIERS OF PROPERTY

NO. MC 20802 (Sub-No. 5) (republication), filed September 30, 1968, published in FEDERAL REGISTER issues of October 17, 1968, and November 21, 1968, and republished this issue: Applicant: WHEELER MOTOR EXPRESS, INCORPORATED, 279 Lake Drive West, Dunkirk, N.Y. 14048. Applicant's representative: William J. Hirsch, 43 Niagara Street, Buffalo, N.Y. 14202. By application filed September 30, 1968, as amended, applicant seeks a certificate of public convenience and necessity authorizing operation, in interstate or foreign commerce, as a common carrier, by motor vehicle, over regular routes, transporting heavy machinery and general commodities, except those of unusual value, dangerous explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, and those injurious or contaminating to other lading, (a) between Barcelona, N.Y., and Salamanca, N.Y., (1) over New York Highway 17 to Salamanca serving Ashford Hollow, Cattaraugus, Ellicottville, Ellington, Stockton, and West Valley as intermediate points; and (2) from Barcelona over New York Highway 17 to Mayville, N.Y., thence over New York Highway 17J to Jamestown, N.Y., thence over New York Highway 17 to Salamanca, serving Asheville, Blockville, Clymer, Findley, Lake, North Clymer, Panama, Sherman, and Stedman, N.Y. as off-route points; and (3) return over these routes to Barcelona; (B) between Gowanda, N.Y., and the intersection of U.S. Highway 20, over New York Highway 62, serving all intermediate points, and (C) between Dunkirk, N.Y. and Olean, N.Y., from Dunkirk over New York Highway 39 to Forestville, N.Y., thence over New York Highway 428 to junction New York Highway 83, thence over New York Highway 83 to Conewango Valley, N.Y., thence over New York Highway 62 to junction of unnumbered highway, thence over unnumbered highway by way of East Leon, N.Y., to junction New York Highway 353, thence over New York Highway 353 to Salamanca, N.Y., and thence over New York Highway 17 to Olean and return over the same route, serving all intermediate points and serving Ashford Hollow, Cattaraugus, Ellicottville, Ellington, Stockton, and West Valley as off-route points. Applicant intends to tack at Barcelona, Dunkirk, and Gowanda, N.Y., to serve the proposed territory in conjunction with applicant's present authority between and including Barcelona and Buffalo, N.Y.

An order of the Commission Operating Rights Board, dated May 23, 1969, and served June 4, 1969, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce as a common carrier by motor vehicle, over regular routes, transporting *General commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, and commodities in bulk (A) between Jamestown, N.Y., and Salamanca, N.Y., over New York Highway 17, serving Randolph as an intermediate point, and serving Ashville, Blockville, Panama, and Sherman, N.Y., as off-route points; (B) between Gowanda, N.Y., and the junction of U.S. Highway 20, and New York Highway 62, over New York Highway 62, serving all intermediate points; (C) between Forestville, N.Y.; and Balcom, N.Y., from Forestville over New York Highway 428 to junction New York Highway 83, thence over New York Highway 83 to Balcom, and return over the same route; (D) between East Leon, N.Y., and Little Valley, N.Y., from East Leon over unnumbered highway to junction New York Highway 353, thence over New York Highway 353 to Little Valley, and return over the same route, serving all intermediate points, and serving Ellicottville and West Valley, N.Y., as off-route points in connection with applicant's existing regular-route operations; and (E) serving Mayville, Chatauqua, Lakewood, Dewittville, and Stow, N.Y., as intermediate points on applicant's existing regular routes between Barcelona and Jamestown, N.Y.; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act the Commission's rules and regulations thereunder. Because it is possible that other persons, who have relied upon the notice of the application as published may have an interest in and

would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto (49 CFR 1.240).

MOTOR CARRIERS OF PROPERTY

No. MC-F-10524. Authority sought for control and merger by RUAN TRANSPORT CORPORATION, Keosauqua Way at Third, Des Moines, Iowa, of the operating rights and property of ILLINOIS RUAN TRANSPORT CORPORATION, Keosauqua Way at Third, Des Moines, Iowa, and for acquisition by JOHN RUAN, also of Des Moines, Iowa, of control of such rights and property through the transaction. Applicants' attorney: Henry L. Fabritz, Post Office Box 855, Des Moines, Iowa 50304. Operating rights sought to be controlled and merged: *Refined petroleum products,* in bulk, as a *common carrier* over irregular routes, from Wood River, Ill., to certain specified points in Missouri; *petroleum products,* in bulk, in tank vehicles, from Wood River, Ill., to certain specified points in Missouri; *ammonium sulfide aqua solution,* in bulk, in tank vehicles, from Hartford, Ill., to Fredericktown, Mo. RUAN TRANSPORT CORPORATION is authorized to operate as a *common carrier* in all points in the United States except Washington, Oregon, Alaska, Hawaii, Nevada, and Rhode Island. Application has not been filed for temporary authority under section 210a(b). NOTE: Petition for Modification in No. MC-107496 Sub-No. 83 has been concurrently filed.

No. MC-F-10525. Authority sought for control and merger by SITES SILVER WHEEL FREIGHTLINES, INC., 1321 Southeast Water Avenue, Portland, Oreg. 97214, of the operating rights and property of LESTER FREIGHT LINES, INC., 1321 Southeast Water Avenue, Portland, Oreg. 97214, and for acquisition by GEORGE A. BROWNING, JR., also of Portland, Oreg., of control of such rights and property through the transaction. Applicants' attorney: Kenneth G. Thomas, 1321 Southeast Water Avenue, Portland, Oreg. 97214. Operating rights sought to be controlled and merged: *General commodities,* excepting, among others, commodities in bulk, but not excepting household goods, as a *common carrier,* over regular routes, from Portland, Oreg., to Hood River, Oreg., serving all intermediate and off-route points within 5 miles of U.S. Highway 30 east of Cascade Locks, Oreg., between Goldendale, Wash., and Hood River, Oreg., serving all intermediate and off-route points within 5 miles of the specified highways, between Maryhill, Wash., and The Dalles, Oreg., serving all intermediate and off-route points within 5 miles of U.S. Highway 197, between junction U.S. Highways 197 and 830, and Hood River, Oreg., serving all intermediate and off-route points within 5 miles of the specified highways, with restriction; *general commodities,* except those of unusual value, and except high explosives, household goods (when transported as a separate and distinct service in connection with so-called "household movings"), commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between Portland, Oreg., and Parkdale, Oreg., serving certain intermediate and off-route points; *general commodities,* excepting among others, household goods and commodities in bulk, between Portland, Oreg., and Bingen, Wash., serving intermediate points on U.S. Highway 830 within 15 miles of Bingen, and off-route points in Washington within 15 miles of Bingen, with exceptions, over one alternate route for operating convenience only; between Hood River, Oreg., and Parkdale, Oreg., serving all intermediate points; *general commodities,* excepting, among others, household goods and commodities in bulk, over irregular routes, between points in Skamania and Klickitat Counties, Wash., with exceptions; *fresh fruits and vegetables,* from points in Washington within 15 miles of Bingen, Wash., on the one hand, and, on the other, points in Oregon within 30 miles of Portland, Oreg.; *fruit,* from points in Hood River County, Oreg., and those in Wasco County, Oreg., located on and west of U.S. Highway 197 to Vancouver, Wash., with restrictions; *paper products,* from Camas, Wash., to points in Hood River County, Oreg., and those in Wasco County, Oreg., located on and west of U.S. Highway 197, with restrictions; *box shooks,* from Vancouver and Bingen, Wash., to points in Hood River County, Oreg., and those in Wasco County, Oreg., located on and west of U.S. Highway 197, with restrictions; *general commodities,* excepting, among others, commodities in bulk, but not excepting household goods, between points in Hood River County, Oreg., on the one hand, and, on the other, points in Klickitat County, Wash., between certain specified points in Oregon, on the one hand, and, on the other, points in Klickitat and Skamania Counties, Wash., with restriction; *fruit,* from points in Hood River County, Oreg., and those in Klickitat County, Wash., to Portland, Oreg., with restriction; *agricultural commodities,* from certain specified points in Oregon, to Portland, Oreg., with restriction; *petroleum products,* in containers, *fuel, merchandise, farm machinery, salt, bags,* and *twine,* from Portland, Oreg., to certain specified points in Oregon, with restriction; and *fresh fruits and vegetables, fruit-spraying compounds, machinery and machines used in fruit-packing plants, fruit-packing house and cannery waste and byproducts, empty containers,* and *box shook* and *box tops,* between points in Wasco and Hood River Counties, Oreg., on the one hand, and, on the other, points in Yakima County, Wash., with restriction. SITES SILVER WHEEL FREIGHTLINES, INC., is authorized to operate as a *common carrier* in Oregon and Washington. Application has been filed for temporary authority under section 210a(b).

No. MC-F-10528. Authority sought for control and merger by MORRISON MOTOR FREIGHT, INC., 100 East Jenkins Boulevard, Akron, Ohio 44306, of the operating rights and property of RAZ DELIVERY, INC., 25 Ackerman Street, Rochester, N.Y. 14609, and for acquisition by MARMAC INSURANCE AGENCY, INC., and in turn by HELKEN, INC., and K. C. HEFFRON, all of 135 South La Salle Street, Chicago, Ill. 60603, of control of such rights and property through the transaction. Applicants' attorneys: Axelrod, Goodman and Steiner, 39 South La Salle Street, Chicago, Ill. 60603. Operating rights sought to be controlled and merged: Under a certificate of registration, in docket No. MC-99470 Sub 1, covering the transportation of general commodities, as a common carrier, in intrastate commerce, within the State of New York; and *general commodities,* excepting among others, household goods and commodities in bulk, as a *common carrier* over regular routes, between Schenectady, N.Y., and Albany, N.Y., serving the intermediate point of Troy, N.Y. MORRISON MOTOR FREIGHT, INC., is authorized to operate as a *common carrier* in Ohio, Kansas, Missouri, Indiana, Pennsylvania, Illinois, and New York. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-10529. Authority sought for purchase by MID-AMERICAN LINES, INC., 900 North Indiana Avenue, Kansas City, Mo. 64120, of the operating rights and property of FIVE J MOTOR SERVICE, INC., 2000 West 43d Street, Chicago, Ill. 60609, and for acquisition by LEROY WOLFE and HELEN D. WOLFE, both of 4303 Homestead Drive, Prairie Village, Kans., of control of such rights and property through the purchase. Applicants' attorneys: Axelrod, Goodman and Steiner, 39 South La Salle Street, Chicago, Ill. 60603. Operating rights sought to be transferred: Under a certificate of registration, in docket No. MC-121407 Sub 1, covering the transportation of property, as a common carrier, in intrastate commerce, within the State of Illinois. Vendee is authorized to operate as a *common carrier* in Missouri, Illinois, Kansas, Michigan, and Indiana. Application has been filed for temporary authority under section 210a(b). NOTE: No. MC-5888 Sub-30 is a matter directly related.

MOTOR CARRIER OF PASSENGERS

No. MC-F-10526. Authority sought for control by GREYHOUND LINES, INC., 10 South Riverside Plaza, Chicago, Ill.

60606, of (1) OKLAHOMA TRANSPORTATION COMPANY, (2) MID-CONTINENT COACHES, INC., and (3) SOUTHWEST COACHES, INC., all of 1206 Exchange Avenue, Oklahoma City, Okla., and for acquisition by THE GREYHOUND CORPORATION, also of Chicago, Ill., of control of OKLAHOMA TRANSPORTATION COMPANY, MID-CONTINENT COACHES, INC., and SOUTHWEST COACHES, INC., through the acquisition by GREYHOUND LINES, INC. Applicant's attorney: Robert J. Bernard, 10 South Riverside Plaza, Chicago, Ill. 60606. Operating rights sought to be controlled: (1) Passengers and their baggage, and express and newspapers in the same vehicle with passengers, as a *common carrier*, over regular routes, between Oklahoma points, serving all intermediate points, between Lawton, Okla., and the Fort Sill Military Reservation, Okla., serving no intermediate points, between Oklahoma City, Okla., and Fort Smith, Ark., between Oklahoma City, Okla., and Wichita Falls, Tex., serving all intermediate points; and passengers and their baggage, and express in the same vehicle with passengers, between junction Oklahoma Highways 3 and 9, approximately 1 mile northwest of Seminole, Okla., and junction Oklahoma Highway 9 and U.S. Highway 271, approximately 3 miles west of Spiro, Okla., serving all intermediate points, with restriction; (2) passengers and their baggage, and express and newspapers in the same vehicle with passengers, as a *common carrier*, over regular routes, between Woodward, Okla., and Seiling, Okla., between Woodward, Okla., and Dodge City, Kans., between Kingfisher, Okla., and Seiling, Okla., between Oklahoma City, Okla., and junction U.S. Highways 64 and 81, near Ford Creek, Okla., between Oklahoma City, Okla., and junction Oklahoma Highway 3 and U.S. Highway 81 near Orarche, Okla., between Liberal, Kans., and junction U.S. Highways 64 and 81, between Oklahoma City, Okla., and Altus, Okla., between El Reno, Okla., and Union City, Okla., between Cyril, Okla., and Lawton, Okla., between Apache, Okla., and junction U.S. Highways 281 and 66, between junction Oklahoma Highways 5 and 36, and Wichita Falls, Tex., between junction Oklahoma Highways 5 and 36, and Lawton, Okla., serving all intermediate points, between Altus, Okla., and Childress, Tex.; serving Altus and all intermediate points between Altus, and Hollis, Okla., restricted against the transportation of newspapers, and all intermediate points between Hollis and junction U.S. Highways 62 and 83, inclusive, without restriction, between Vernon, Tex., and Hobart, Okla., serving all intermediate points, between El Reno, Okla., and Watonga, Okla., serving certain intermediate points between junction Oklahoma Highway 58 and U.S. Highway 270 and junction Oklahoma Highway 51 and U.S. Highway 270; serving the intermediate points of Eagle City, and Canton, Okla., between Hinton Junction, Okla. (at the intersection of U.S. Highways 281 and 66), and Geary Junction, Okla. (approximately 6 miles south of Geary, Okla.), serving no intermediate points; over one alternate route for operating convenience only; and passengers and their baggage, and express in the same vehicle with passengers, between Garden City, Kans., and Liberal, Kans., serving all intermediate points, and the off-route point of Sublette, Kans.; and (3) passengers and their baggage, and express, newspapers, and mail, in the same vehicle with passengers, as a *common carrier*, over regular routes, between Wichita Falls, Tex., and Abilene, Tex., between Haskell, Tex., and Knox City, Tex., between Munday, Tex., and Knox City, Tex., serving all intermediate points. GREYHOUND LINES, INC., is authorized to operate as a *common carrier* in all States in the United States (except Alaska and Hawaii), and the District of Columbia. Application has not been filed for temporary authority under section 210a(b). NOTE: Applicant requests that this application be consolidated with MC-F-10455 (MISSOURI, KANSAS & OKLAHOMA COACH LINES, INC., CONTROL—OKLAHOMA TRANSPORTATION CO., ET AL), published in the April 30, 1969, issue of the FEDERAL REGISTER, on page 7110.

No. MC-F-10527. Authority sought for purchase by CONNECTICUT-NEW YORK AIRPORT BUS CO., INC., 1503 Post Road, Milford, Conn., of a portion of the operating rights of THE SHORT LINE OF CONNECTICUT, INCORPORATED, doing business as THE SHORT LINE, 667 Cromwell Ave., Rocky Hill, Conn., and for acquisition by ARTHUR BERNACCHIA, 39 Farrell Place, Yonkers, N.Y., and GEORGE BERNACCHIA, 176 Douglas Ave., Yonkers, N.Y., of control of such rights through the purchase. Applicants' attorneys: Samuel B. Zinder, Station Plaza East, Great Neck, N.Y. 11021, and Reubin Kaminsky, 410 Asylum Street, Hartford, Conn. 06103. Operating rights sought to be transferred: Passengers and their baggage, and express and newspapers in the same vehicle with passengers, and baggage of passengers in separate vehicles, as a *common carrier*, over regular routes, between New Haven, Conn., and Hartford, Conn., serving all intermediate points, with restriction; passengers and their baggage, when moving in the same vehicle with passengers, in special round trip operations, over irregular routes, beginning and ending at Middletown (Middlesex County), Southington, Bristol, and New Britain (Hartford County), Meriden and Wallingford (New Haven County), Conn., and extending to the sites of Lincoln Downs Race Track, Lincoln, R.I., Narragansett Park Race Track, Pawtucket, R.I., Suffolk Downs Race Track, Revere, Mass., Rockingham Park Race Track, Salem, N.H., and Pownal Race Track, Pownal, Vt., beginning and ending at Southington, Bristol, and New Britain (Hartford County), Conn., and extending to the sites of Aqueduct Race Track, Queens County, Long Island, N.Y., Roosevelt Race Track, Nassau County, Long Island, N.Y., and Empire Race Track in Yonkers, Westchester County, N.Y.; and passengers and their baggage, in special operations, in seasonal operations, annually, from May 15 through September 15, inclusive, between points on carrier's authorized regular routes between Hartford and New Haven, Conn., on the one hand, and, on the other, Misquamicut Beach, R.I., with restriction. Vendee is authorized to operate as a *common carrier* in Connecticut and New York. Application has not been filed for temporary authority under section 210a(b). NOTE: This application is filed pursuant to order in MC-F-71029, by Motor Carrier Board, dated May 15, 1969.

By the Commission.

[SEAL] ANDREW ANTHONY, Jr.,
Acting Secretary.

[Notice 863]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JULY 3, 1969.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR 340), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 51146 (Sub-No. 138 TA) (Correction), filed June 18, 1969, published FEDERAL REGISTER, issue of June 26, 1969, and republished as corrected this issue. Applicant: SCHNEIDER TRANSPORT & STORAGE, INC., 817 McDonald Street, Green Bay, Wis. 54306. Applicant's representative: D. F. Martin (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper and paper products*, from Nichols, Wis., to Green Bay, Wis., for 180 days. NOTE: Applicant intends to tack MC 51146 Sub No. 8 and Sub No. 14 at Green Bay, Wis., and interline at Green Bay, Wis., with motor carriers serving the West Coast. The purpose of this republication is to include the supporting shipper, which was inadvertently omitted.

Supporting shipper: Nichols Paper Products Co., 615 Willow Street, Green Bay, Wis. (Donald L. Albers, purchasing agent). Send protests to: District Supervisor Lyle D. Helfer, Interstate Commerce Commission, Bureau of Operations, 135 West Wells Street, Room 807, Milwaukee, Wis. 53203.

No. MC 82063 (Sub-No. 26 TA), filed June 30, 1969. Applicant: KLIPSCH HAULING CO., 119 East Loughborough, St. Louis, Mo. 63111. Applicant's representative: Ernest A. Brooks, 1301–02 Ambassador Building, St. Louis, Mo. 63101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid caustic soda and antifreeze*, in bulk, in tank vehicles, from St. Joseph, Mo., to points in Colorado, Iowa, Kansas, Missouri, and Nebraska, for 180 days. Supporting shipper: The Dow Chemical Co., 10 South Brentwood Boulevard, St. Louis, Mo. 63105. Attention: F. W. Monahan, distribution manager, Central Region. Send protests to: J. P. Werthmann, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 3248, 1520 Market Street, St. Louis, Mo. 63103.

No. MC 87717 (Sub-No. 5 TA), filed June 27, 1969. Applicant: FANELLI BROTHERS TRUCKING COMPANY, Centre and Nichols Streets, Pottsville, Pa., 17901. Applicant's representative: S. Berne Smith, Post Office Box 1166, Harrisburg, Pa. 17108. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Caps for beverage containers*, from the plantsite of Zapata Industries, Inc., in West Mahanoy Township, Schuylkill County, Pa., to points in Alabama, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Nebraska, New Hampshire, New Jersey, New York, North Carolina, Ohio, Oklahoma, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia, for 180 days. Supporting shipper: Zapata Industries, Post Office Box 2, Franckville, Pa. 17931. Send protests to: Paul J. Kenworthy, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 309 U.S. Post Office Building, Scranton, Pa. 18503.

No. MC 110525 (Sub-No. 919 TA), filed June 30, 1969. Applicant: CHEMICAL LEAMAN TANK LINES, INC., 520 East Lancaster Avenue, Dowingtown, Pa. 19335. Applicant's representative: Robert K. Maslin (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alcoholic liquor*, in bulk, in tank vehicles, from Philadelphia, Pa., to Lakeland, Fla., for 150 days. Supporting shipper: Continental Distilling Corp., 1429 Walnut Street, Philadelphia, Pa. 19102. Send protests to: Peter R. Guman, district supervisor, Interstate Commerce Commission, Bureau of Operations, 900 U.S. Custom House, Second and Chestnut Streets, Philadelphia, Pa. 19106.

No. MC 114408 (Sub-No. 9 TA) (Correction), filed June 18, 1969, published FEDERAL REGISTER issue of June 26, 1969, and republished as corrected this issue. Applicant: W. E. BEST, INC., State Route 20, Pioneer, Ohio 43554. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Sand, stone, gravel, dirt, and bituminous concrete*, in bulk, in dump vehicles, from points in Williams County, Ohio, to points in Hillsdale County, Mich., for 180 days. Supporting shipper: Northwest Materials, Inc., Bryan, Ohio. NOTE: The purpose of this republication is to show "contract" carrier in lieu of "common" carrier. Send protests to: Keith D. Warner, district supervisor, Interstate Commerce Commission, Bureau of Operations, 5234 Federal Office Building, 234 Summit Street, Toledo, Ohio 43604.

No. MC 124796 (Sub-No. 48 TA), filed June 23, 1969. Applicant: CONTINENTAL CONTRACT CARRIER CORP., 15045 East Salt Lake Avenue, City of Industry, Calif. 91747. Applicant's representative: Max Harding, Box 2028, Lincoln, Nebr. 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Air conditioning equipment, furnaces, water heaters, and component parts, machinery and accessories* used in connection therewith; (a) from City of Industry, Calif., to Memphis and Morrison, Tenn.; (b) from Collierville, Tenn., to points in Alabama, Arkansas, Connecticut, Delaware, District of Columbia, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, West Virginia, Wisconsin, and *returned shipments, materials, equipment and supplies* used in the manufacture and distribution of air conditioning equipment, furnaces and water heaters, in the reverse direction, for 150 days. Supporting shipper: Day and Night Manufacturing Co., 855 Anaheim-Puente Road, La Puente, Calif. 91747. Send protests to: District Supervisor John E. Nance, Interstate Commerce Commission, Bureau of Operations, Room 7708, Federal Building, 300 North Los Angeles Street, Los Angeles, Calif. 90012.

No. MC 133725 (Sub-No. 1 TA) (Correction), filed June 13, 1969, published FEDERAL REGISTER issue of June 28, 1969, and republished as corrected this issue. Applicant: SAME DAY TRUCKING CO., INC., 400 Newark Avenue, Piscataway, N.J. 08854. Applicant's representative: Paul Keeler, Post Office Box 253, South Plainfield, N.J. 07080. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Tailpipes, exhaust pipes, shock absorbers, brake parts, mufflers, and automotive parts and material* used in the installation of such commodities from Roselle Park, N.J., to Philadelphia, Pa.; New York, N.Y.; points in Nassau and Suffolk Counties, N.Y., points in Massachusetts, Rhode Island, Connecticut, Delaware, and those in Maryland on and east of Highway 15 (except Baltimore, Md.), for 120 days. NOTE: The purpose of this republication is to add the destination points of Massachusetts and Rhode Island, inadvertently omitted from publication. Supporting shipper: Midas International Corp., 410 West Westfield Ave., Roselle Park, N.J. 07204. Send protests to: District Supervisor Robert S. H. Vance, Bureau of Operations, Interstate Commerce Commission, 970 Broad Street, Newark, N.J. 07102.

No. MC 133779 TA (Correction), filed June 5, 1969, published FEDERAL REGISTER issue of June 12, 1969, and republished as corrected this issue. Applicant: FUNDIS COMPANY, a corporation, Broadway at Cornell Street, Lovelock, Nev. 89419. Applicant's representative: Pete Fundis (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Earth*, infusorial or diatomaceous (diatomite); also *earth*, diatomaceous, physically combined with, not to exceed 10 percent alkyl naphthalene sodium sulfonate; also *wood pulp, sulphite*, from Colado Junction (6 miles east of Lovelock, Nev.), Nev., to points in San Luis Obispo, Kings, Fresno, Tulare, Inyo, Mono, Kern, San Bernardino, Riverside, Imperial, San Diego, Orange, Los Angeles, Ventura, and Santa Barbara, Calif., for 180 days. NOTE: The purpose of this republication is to add the destination counties of Los Angeles, Ventura, and Santa Barbara, Calif. Supporting shipper: Eagle Picher Industries, Inc., Post Office Box 1869, Reno, Nev. 89505. Send protests to: District Supervisor Daniel Augustine, Room 24, 222 East Washington Street, Carson City, Nev. 89701.

No. MC 133840 TA, filed June 26, 1969. Applicant: TROY L. SMITH, doing business as TROY L. SMITH TRUCKING COMPANY, 2228 South Santa Fe, Post Office Box 94788, Oklahoma City, Okla. 73109. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Butter and cheese*, in bulk, packages, and containers, (1) from Chillicothe, Emma, Kansas City, Mansfield, Seneca, and Springfield, Mo.; Enid, Mangum, Oklahoma City, and Tulsa, Okla.; and Arkansas City, Hillsboro, Kansas City, and Ottawa, Kans.; to points in Arizona; New Mexico; Amarillo, El Paso, and Wichita Falls, Tex.; and San Francisco, Los Angeles, Oakland, Alameda, San Diego, Torrance, and Camp Pendleton, Calif.; and (2) from Fort Worth, Tex., to points in Arizona; New Mexico; and San Francisco, Los Angeles, Oakland, Alameda, San Diego, Torrance, and Camp Pendleton, Calif., for 180 days. Supporting shipper: C. M. Sorensen, division manager, Wilsey, Bennett Co.,

3949 Northwest 36th Street, Oklahoma City, Okla. 73112. Send protests to: C. L. Phillips, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 240 Old Post Office Building, 215 Northwest Third, Oklahoma City, Okla. 73102.

No. MC 133847 TA, filed June 30, 1969. Applicant: NEWPORT TRUCKING CO., Post Office Box 238, Newport, Tenn. 37821. Applicant's representative: Walter Harwood, Suite 1822, Parkway Towers, Nashville, Tenn. 37219. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *New furniture* (1) from the plantsite and storage facilities of the New Line Corp., at or near Newport, Tenn., to points in North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, and points in all States east thereof, (2) from the plants and storage facilities of Kroehler Manufacturing Co., at or near the following points: Napersville and Kankakee, Ill.; Cleveland, Ohio; Binghamton, N.Y.; Charlotte, N.C.; Pontotoc, Miss.; Owensboro, Ky.; Thomasville and Lexington, N.C.; Dallas, Tex.; Meridian, Miss.; Shreveport, La.; Welcome, N.C., and Xenia, Ohio, to the plantsite and storage facilities of the New Line Corp., at or near Newport, Tenn., on return, for 180 days. NOTE: Applicant has no other authority held. Supporting shipper: The New Line Corp., Post Office Box 507, Newport, Tenn. 37821. Send protests to: Joe J. Tate, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 803 1808 West End Building, Nashville, Tenn. 37203.

MOTOR CARRIERS OF PASSENGERS

No. MC 133722 (Sub-No. 1 TA), filed June 30, 1969. Applicant: PAUL LAWRENCE DRUMMOND, Rural Delivery, Parksley, Va. 23421. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers*, in special operations, between Salisbury, Md., and points in Virginia as far South as Cheriton, Va., on the Eastern Shore, for 180 days. Supporting shipper: Perdue Foods, Inc., Post Office Box 1537, Salisbury, Md. 21801; Donald W. Mabe, plant manager. Send protests to: Paul J. Lowry, district supervisor, Interstate Commerce Commission, Bureau of Operations, 206 Old Post Office Building, 129 East Main Street, Salisbury, Md. 21801.

By the Commission.

[SEAL] ANDREW ANTHONY, Jr.,
Acting Secretary.

[Notice 372]

MOTOR CARRIER TRANSFER PROCEEDINGS

JULY 3, 1969.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-71110. By order of June 25, 1969, the Motor Carrier Board approved the transfer to Mitchell Transportation, Inc., Warren, Ark., of the operating rights in certificates Nos. MC-125227 (Sub-No. 1) and MC-125227 (Sub-No. 2), issued June 29, 1965, and February 28, 1964, respectively, to Record Truck Line, Inc., Henderson, Tenn., authorizing the transportation over irregular routes, of lumber from various points in Arkansas to points in North Carolina, South Carolina, Mississippi, Missouri, Texas, Oklahoma, Kansas, Tennessee, and Louisiana, from Greenville, Miss. to points in Bradley County Ark., and between points in Bradley County, Ark., on the one hand, and, on the other, points in Louisiana; and parts of Sawmill, Dry-kiln, and planing-mill machinery between points in Bradley County, Ark., on the one hand, and, on the other, points in Louisiana, Mississippi, Missouri, Oklahoma, Texas, and Tennessee. R. Connor Wiggins, Jr., Suite 909, 100 North Main Building, Memphis, Tenn. 38103, attorney for applicants.

No. MC-FC-71274. By order of June 26, 1969, the Motor Carrier Board approved the transfer to Berline Matthews, Malden, Mo., of the operating rights in certificate No. MC-125527 issued August 10, 1964, to Charles Stanley, Malden, Mo., authorizing the transportation of fertilizer from Walnut Ridge, Ark., to Malden, Mo. Gordon Fritz, 112 East Main Street, Post Office Box 337, Malden, Mo. 63863, attorney for applicants.

No. MC-FC-71415. By order of June 25, 1969, the Motor Carrier Board approved the transfer to Robert A. Brinker, Inc., Iselin, N.J., that portion of certificate No. MC-45630, issued May 26, 1969, to Osar Trucking Co., Inc., Clifton, N.J., authorizing the transportation of: General commodities, excluding household goods, commodities in bulk, and other specified commodities, between Clifton and Caldwell, N.J., on the one hand, and, on the other, New Brunswick, N.J. George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306, practitioner for applicants.

No. MC-FC-71448. By order of June 26, 1969, the Motor Carrier Board approved the transfer to John Koenig and Robert Koenig, doing business as Koenig Trucking, Fairfax, S. Dak., of the certificate in No. MC-128989, issued October 25, 1968, to Robert M. Schmitz and William A. Schmitz, doing business as Bonesteel Transfer, Bonesteel, S. Dak., authorizing the transportation of specified commodities from South Sioux City, Nebr., and Sioux City, Iowa, to Gregory, Charles Mix, and Tripp Counties, S. Dak. Don A. Bierle, 322 Walnut Street, Yankton, S. Dak. 57078, attorney for applicants.

No. MC-FC-71451. By order of June 26, 1969, the Motor Carrier Board approved the transfer to Paul Langrehr and Timothy J. Durfos, a partnership, doing business as D & L Trucking, Fair Lawn, N.J., of permit No. MC-116075, issued July 18, 1962, to Samuel E. Nutile, doing business as Nu-Ray Trucking Co., Hawthorne, N.J., authorizing the transportation of: Used baking pans, between Fair Lawn, N.J., on the one hand, and, on the other, points in Rhode Island and Massachusetts, and points in a described portion of Maine, New Hampshire, Vermont, and New York, over specified highways, limited to a transportation service to be performed under a continuing contract, or contracts, with Ekco Products Co.; and between Fair Lawn, N.J., on the one hand, and, on the other, points in Connecticut and New Jersey, and points in a described portion of New York and Pennsylvania, over specified highways. Herman B. J. Weckstein, 60 Park Place, Newark, N.J. 07102, attorney for applicants.

No. MC-FC-71458. By order of June 26, 1969, the Motor Carrier Board approved the transfer to Joe Brawley Trucking, Inc., Statesville, N.C., of permit No. MC-129401 (Sub-No. 1) issued November 15, 1968, to Joe R. Brawley, doing business as Brawley Transportation Co., Statesville, N.C., authorizing the transportation of: Thermoplastic materials, compounds, and products, between specified points in North Carolina, California, Georgia, Illinois, Indiana, Maryland, Minnesota, Nebraska, New York, Pennsylvania, and from Statesville, N.C., to points in the United States, except Alaska and Hawaii. H. Charles Ephraim, 1411 K Street NW., Washington, D.C. 20005, attorney for applicants.

[SEAL] ANDREW ANTHONY, Jr.,
Acting Secretary.

FEDERAL REGISTER

VOLUME 34 • NUMBER 131

Thursday, July 10, 1969 • Washington, D.C.

Pages 11405–11458

NOTICE

New Location of Federal Register Office.

The Office of the Federal Register is now located at 633 Indiana Ave. NW., Washington, D.C. Documents transmitted by messenger should be delivered to Room 405, 633 Indiana Ave. NW. Other material should be delivered to Room 400.

Mail Address.

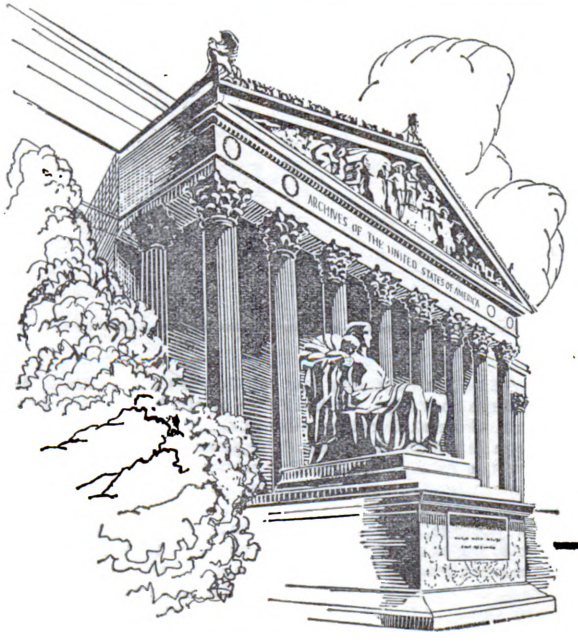
Mail address remains unchanged: Office of the Federal Register, National Archives and Records Service, Washington, D.C. 20408.

Public Inspection of Documents.

Documents filed with the Office of the Federal Register are available for public inspection in Room 405, 633 Indiana Ave. NW., Washington, D.C., on working days between the hours of 9 a.m. and 5 p.m.

Agencies in this issue—

Detailed list of Contents appears inside.



FEDERAL REGISTER

Area Code 202 Phone 962–8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears at the end of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1969, and specifies how they are affected.

Title 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 213—EXCEPTED SERVICE

Department of Health, Education, and Welfare

Section 213.3116 is amended to show that the Schedule A exception for eight positions of psychodrama interns and residents will not expire on June 30, 1969, as scheduled, but will be extended without time limitation. The section is further amended to reflect the current name of St. Elizabeths Hospital. Effective July 1, 1969, the headnote of paragraph (a), and subparagraph (5), of § 213.3116 are amended as set out below.

§ 213.3116 Department of Health, Education, and Welfare.

(a) *National Center for Mental Health Services, Training, and Research.* * * *

(5) Eight positions of psychodrama trainees, including interns and first- and second-year residents. This authority shall be applied only to positions with compensation fixed under 5 U.S.C. 5351 and 5352.

* * * * *

(5 U.S.C. 3301, 3302, E.O. 10577, 3 CFR 1954–1958 Comp., p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[F.R. Doc. 69–8157; Filed, July 9, 1969; 8:51 a.m.]

PART 213—EXCEPTED SERVICE

Department of Health, Education, and Welfare

Section 213.3316 is amended to show that one additional position of Assistant to the Secretary for Special Programs, and three positions of Writer in the Office of the Secretary are excepted under Schedule C. The section is also amended to show that the current title of a position listed as Publications Writer is Writer. Effective on publication in the FEDERAL REGISTER, subparagraphs (3) and (23) of paragraph (a) of § 213.3316 are amended as set out below.

§ 213.3316 Department of Health, Education, and Welfare.

(a) *Office of the Secretary.* * * *

(3) Four Writers.

* * * * *

(23) Five Assistants to the Secretary for Special Programs.

Title 7—AGRICULTURE

Chapter VII—Agricultural Stabilization and Conservation Service (Agricultural Adjustment), Department of Agriculture

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

[Amdt. 18]

PART 719—RECONSTITUTION OF FARMS, ALLOTMENTS, AND BASES

Eminent Domain Acquisition

Basis and purpose. This amendment is issued pursuant to the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1281 et seq.) and the Soil Conservation and Domestic Allotment Act, as amended (16 U.S.C. 590p(i)). This amendment consolidates prior amendments of § 719.11 which have been previously published (29 F.R. 13370, 30 F.R. 6511, 31 F.R. 4580, 14253, 32 F.R. 14599, 33 F.R. 9145, 11811), rearranges the provisions for greater clarity and includes the following changes in procedure:

1. Paragraph (e) expresses an affirmative requirement that the owner of the farm involved in an eminent domain acquisition notify the county committee in writing of the acquisition and date of his displacement from the farm.

2. Paragraph (g)(2) authorizes the owner to file written notice with the county committee of intention to waive his right to have allotments and bases pooled and to request that such allotments and bases be retained on the acquired farm. Such retention of allotments and bases could be approved only upon a determination by the county committee that the owner fully understands his rights and has not been coerced to waive these rights.

3. Paragraph (g)(5) authorizes the county committee to simplify the procedure where in-county transfers at the time of displacement are requested.

4. Paragraph (l) is expanded to deal with successors in interest more specifically.

Since farms are now being acquired by agencies under eminent domain authority, it is essential that this amendment be made effective as soon as possible. It is hereby determined and found that compliance with the notice, public procedure, and 30-day effective date requirements of 5 U.S.C. 553 is impracticable and contrary to the public interest and this amendment shall be effective upon publication in the FEDERAL REGISTER.

Section 719.11 of the regulations (29 F.R. 13370, 30 F.R. 6511, 31 F.R. 4580, 14253, 32 F.R. 14599, 33 F.R. 9145, 11811) is amended to read as follows:

§ 719.11 Eminent domain acquisitions.

(a) *Commodities covered.* This section provides a uniform method for handling farm allotments for extra long staple cotton, upland cotton, peanuts, rice in farm States, tobacco and wheat; and feed grain bases for corn, grain sorghums and barley; on land involved in an eminent domain acquisition. If eligible for pooling under this section, such allotments and bases are pooled for the benefit of the owner who is displaced from his farm by an eminent domain acquisition. Such pooling is for a 3-year period from the date of displacement and during such period the owner so displaced may request transfers of allotments and bases from the pool to other farms in the United States owned by him. This section does not apply in the case of extra long staple cotton, upland cotton, peanuts and tobacco to any farm from which the owner was displaced prior to 1950; in the case of wheat to any farm from which the owner was displaced prior to 1954; in the case of rice to any farm from which the owner was displaced prior to 1955; and in the case of feed grains to any farm from which the owner was displaced prior to 1961.

(b) *Eminent domain acquisition.* An eminent domain acquisition is a taking of title to land, or the taking of an impoundment easement to impound water on the land, or the taking of a flowage easement to intermittently flood the land, consummated with respect to land which is, or could be, so taken under the power of eminent domain by a Federal, State, or other agency. Such acquisition may be by court proceedings to condemn the land or by negotiation between the agency and the owner. Any acquisition by an agency with respect to land not subject to the agency's power of eminent domain shall not be an eminent domain acquisition for purposes of this section. All land acquired by an agency for the intended project, including surrounding land not needed for the project but acquired as a package acquisition, shall be considered to be in the eminent domain acquisition if the agency expended funds for the package acquisition on the basis of its power of eminent domain. For example, a governmental agency acquires 150 acres of land from an owner as a package acquisition and requires 130 acres for the public purpose but supports the expenditure of funds for the unneeded 20 acres on the grounds that no additional cost resulted, or that avoidance of condemnation proceedings warranted the package acquisition.

(c) *Owner.* For purposes of this section, owner means the person, or persons in a joint ownership, having title to the land for a period of at least twelve months immediately prior to the date of transfer of title or grant of impoundment or flowage easement under the eminent domain acquisition. If such person or persons have owned the land for less than such 12-month period, they may, nevertheless, be considered the owner if the State committee determines that such person or persons acquired the land for the purpose of carrying out farming operations and not for the purpose of obtaining status as an owner under this section. However, no person shall be considered the owner if he acquired the land subject to an eminent domain acquisition under an outstanding contract to an agency or an option by an agency or subject to pending condemnation proceedings. In any case where the current title holder cannot be considered the owner for purposes of this section, the State committee shall determine the person or persons who previously had title to the land and who qualify for status as the owner under the criteria in this paragraph.

(d) *Displacement.* The owner shall be considered displaced from a farm covered by an eminent domain acquisition on the date (1) the right to produce an allotment or feed grain crop is relinquished voluntarily even though the owner is not required to give up possession of the land; or (2) in the case of a flowage easement the owner determines it is no longer practical to conduct farming operations on the land; or (3) the owner loses possession of the land as owner or as lessee under a lease from the agency or its designee if the lease provided unbroken possession to the owner from the date of acquisition to the end of the lease or extensions of the lease. In cases where the agency and the owner have executed a binding contract for acquisition of the farm, the owner may be considered displaced prior to completion of the acquisition if he wishes to plant the commodity on other land he owns or buys.

(e) *Notice of displacement.* The owner shall notify the county committee in writing of the eminent domain acquisition and furnish the date of displacement as soon as possible so that the allotments and bases may be pooled in accordance with this section. Failure to so notify the county committee shall not operate to extend the 3-year period of the pool.

(f) *Pool.* Whenever the county committee determines, by notice from the owner or otherwise, that an owner has been displaced, the county committee shall establish in a pool for a 3-year period, beginning on the date of displacement, the allotments and bases eligible for pooling under this section. Pooled allotments and bases shall be considered fully planted and for each year in the pool, shall be established in accordance with applicable commodity regulations.

(g) *Cases where pooling not permitted or required—(1) Agency has authority to continue crop production.* Pooling shall not be permitted if the agency files written notice with the county committee within 30 days after the date of acquisition designating the crops it intends to continue producing and the county committee determines that the agency has the authority under its power of eminent domain to make the acquisition solely for the purpose of continued crop production. An agency intention to continue crop production after the date of displacement as an interim revenue producing operation cannot form the basis for retention of allotments and bases on the acquired farm unless it has power of eminent domain to acquire land solely for continued crop production. In general, agencies with such power are limited to experiment stations and educational institutions with vocational agricultural training programs.

(2) *Owner waives right to have pooling.* If the owner files written notice with the county committee of intention to waive his right to have all the allotments and bases, or any part thereof, pooled and the county committee determines that the owner fully understands his right to have allotments and bases pooled and has not been coerced to waive his right, the allotments and bases shall be retained on the agency acquired land.

(3) *Less than 15 percent of cropland acquired.* If an agency acquires part of a farm and the cropland on the land so acquired represents less than 15 percent of the total cropland on the farm, the allotments and bases shall be retained on the portion of the farm not acquired by the agency and shall not be pooled.

(4) *15 percent or more of cropland acquired.* If an agency acquires part of a farm and the cropland on the land so acquired represents 15 percent or more of the total cropland on the farm, the allotments and bases attributable to the acquired land shall be retained on the portion of the farm not acquired by the agency if the owner files a written request with the county committee for such retention. However, only such amounts of allotments and bases may be retained as can be supported on the available cropland and which will not exceed the allotments and bases established on similar farms in the area, taking into consideration the land, labor, and equipment available for the production of the commodity, crop rotation practices and other physical factors affecting production. Allotments and bases not retained shall be pooled.

(5) *In-county transfer upon displacement.* If, prior to pooling, an owner files a request to transfer the allotments and bases to other farms which he owns in the same county, the county committee may approve a direct transfer without formal establishment in the pool. Such transfer shall be subject to the requirements of paragraph (j) of this section.

(h) *Release of pooled allotments.* Pooled allotments, but not feed grain bases, may be released on an annual basis by the owner to the county committee during any year for which the allotments are pooled and not otherwise transferred from the pool. The county committee may reapportion such released allotments to other farms in the same county having allotments for such commodity. Pooled allotments shall not be released on a permanent basis or surrendered after release to the State committee for reapportionment in other counties. Reapportionment shall be on the basis of past acreage of the commodity, land, labor, and equipment available for the production of the commodity, crop rotation practices and soil and other physical facilities affecting the production of the commodity. Released pooled allotment shall be regarded as fully planted in the pool and not on the farm receiving reapportionment. This paragraph shall govern the release and reapportionment of pooled allotments notwithstanding other procedures contained in applicable commodity regulations.

(i) *Sale, lease, and owner transfers.* Pooled allotments for which there is statutory authority implemented in the applicable commodity regulations for transfer of allotments on a permanent or temporary basis by sale, lease, or by owner (within the meaning of owner for such purposes) may be transferred permanently from the pool by the owner or temporarily for the life of the pooled allotment, subject to the terms and conditions in the applicable commodity regulations for such transfers.

(j) *Regular transfers from pool.*—(1) *General rule.* The owner may request transfer of all or part of the pooled allotments and bases to any farm in the United States of which he is the bona fide owner: *Provided,* That there are farms in the receiving county with allotments or bases for the particular commodity, or if there are no such farms, the county committee determines that farms in the receiving county are suitable for the production of the commodity. For purposes of this paragraph:

(i) Receiving farm means the farm to which transfer from the pool is to be made;

(ii) Receiving State and county committees mean those committees for the State and county in which the receiving farm is located; and

(iii) Transferring State and county committees mean those committees for the State and county in which the agency acquired farm is located.

(2) *Application for transfer.* The owner shall file with the receiving county committee written application for transfer of allotment and feed grain base from the pool within 3 years after the date of displacement. The application shall contain a certification by the owner that he has made no side agreement with any person for the purpose of obtaining an allotment or feed grain base from the pool, for a person other than himself. The owner shall attach to the application all pertinent documents pertaining to his ownership or purchase of land and any leasing arrangements; as for example, the deed of trust or mortgage, warranty deed, note, sales agreement, and lease.

(3) *Action by receiving county committee.* The receiving county committee shall consider each application and determine whether the transfer from the pool shall be approved. Before an application is acted upon by the receiving county committee, the owner shall personally appear before the receiving county committee after reasonable notice, bring any additional pertinent documents as may be requested for examination by the receiving county committee, and answer all pertinent questions bearing on the proposed transfer: *Provided,* That the personal appearance requirement may be waived if the receiving county committee determines from facts presented to it on behalf of the owner that such personal appearance would unduly inconvenience the owner on account of illness or other good cause and such personal appearance would serve no useful purpose. Any action by the receiving county committee shall be subject to the approval required under subparagraph (5) of this paragraph.

(4) *Elements of bona fide ownership.* The receiving county committee shall approve the transfer from the pool only where the documents and other evidence presented by the owner show conclusively that the owner has made a normal acquisition of the receiving farm for the purpose of bona fide ownership to reestablish his farming operations. The elements of such an acquisition shall include, but are not limited to, the following conditions:

(i) Appropriate legal documents establishing title to the receiving farm;

(ii) If the owner was the operator of the acquired farm at the date of displacement, such owner shall personally operate and be the operator of the receiving farm for the first year that allotment or feed grain base is transferred;

(iii) If the owner was not the operator of the acquired farm at the date of displacement and he was not a producer because the leasing or rental agreement provided for cash, fixed rent, or standing-rent payment, such owner shall not be required to personally operate and be the operator of the receiving farm but at least 75 percent of the allotment or feed grain base for the receiving farm shall be planted on the receiving farm for the first year;

(iv) If the owner was not the operator of the acquired farm at the date of displacement but he was a producer on the acquired farm at the date of displacement by virtue of receiving a share of the crops produced on the acquired farm, such owner shall not be required to be the operator of the receiving farm but he shall be a producer on the receiving farm the first year that an allotment or feed grain base is transferred;

(v) The contractual arrangements between the owner and the seller of the receiving farm shall not contain a requirement that the receiving farm be leased to the seller or a person designated by or subject to the control of the seller nor shall the seller or a person designated by or subject to the control of the seller lease the receiving farm for the first year the allotment or feed grain base is transferred even though such contractual arrangements are silent as to any lease; and

(vi) Contractual arrangements under which the receiving farm was purchased or leased are customary in the community where the receiving farm is located with respect to purchase price, size of payments due, time when payments are due, and size of rental payments, if any.

(5) *Action of receiving State committee.* The approval of a transfer from the pool under this paragraph by the receiving county committee shall be effective upon concurrence by the receiving State committee. Notwithstanding any other provision of this section, the receiving State committee may authorize a transfer from the pool in any case where the owner presents evidence satisfactory to the receiving State committee that the

eligibility requirements of subparagraph (4)(ii), (iii), or (iv) of this paragraph cannot be met without creating a hardship because of illness, old age, multiple farm ownership, or lack of a dwelling on the farm to which allotment or feed grain base is to be transferred. Notwithstanding any other provisions of this section and particularly subparagraph (4)(v) of this paragraph, the receiving State committee may authorize a transfer from the pool in any case where the owner presents evidence satisfactory to the receiving State committee that the owner has made a normal acquisition of the receiving farm for the purpose of bona fide ownership to reestablish his farming operations although the farm is leased to the seller of the farm for the first year the allotment is transferred.

(6) *Amount of allotment or feed grain base available for transfer.* Upon completion of all necessary approvals under this paragraph, the receiving county committee shall issue an appropriate allotment or feed grain base notice under the applicable commodity regulations. The allotment or feed grain base to be transferred for a commodity shall be no greater than an amount required to establish an allotment or feed grain base comparable with allotments or feed grain bases determined for other farms in the same area which are similar (except for the past acreage of the commodity), taking into consideration the land, labor, and equipment available for the production of the commodity, crop rotation practices, and the soil and other physical factors affecting the production of the commodity. For purposes of determining such amount, the receiving county committee shall consider the receiving tract as a separate farm when such tract is in combination with land under separate ownership. The acreage transferred from the pool shall not exceed the allotment or feed grain base most recently established for the acquired farm and placed in the pool. When all or a part of the allotment or feed grain base placed in the pool is transferred and used to establish or increase the allotment or feed grain base for other farms owned or purchased by the owner, all or the proportionate part of the past acreage history for the acquired farm shall be transferred to and considered for purposes of future allotments or feed grain bases to have been planted on the receiving farm for which an allotment or feed grain base is established or increased under this section. If only a part of the available allotment or feed grain base is transferred from the pool, the remaining part of the allotment and feed grain base, and past acreage history shall remain in the pool for transfer to other farms of the owner until all such allotment or feed grain base acreage has been transferred or until the period of eligibility for establishing or increasing allotments or feed grain bases under this section has expired.

(7) *Cancellation of transfers.* If any allotment or feed grain base is transferred under this paragraph and it is later determined by the receiving county or State committee, or the Deputy Administrator, that the transfer was obtained by misrepresentation by or on behalf of the owner, or the conditions applicable under subparagraph (4) of this paragraph are not met, the allotment or feed grain base for the receiving farm shall be reduced for each year the transfer purportedly was in effect by the amount attributable to the acreage transferred from the pool; and if the time for withdrawal from the pool has not expired, the amount of acreage initially transferred from the pool shall be returned to the pool after the period of time has expired in which the producer could exercise his rights of review and court action. Any cancellation of transfer of allotment or feed grain base by the receiving county committee shall be subject to approval by the receiving State committee. The receiving county committee shall issue any notice of marketing quota and penalty as may be required in accordance with applicable commodity regulations.

(8) *Effect of release of pooled allotment.* Notwithstanding the provisions prescribed in this paragraph, if the displaced owner files a request for the transfer of a pooled allotment within the prescribed period for filing such request but his request for transfer is filed during a year in which all or a part of the pooled allotment was released to the transferring county committee pursuant to paragraph (h) of this section, the application for transfer will be processed in the usual manner but the amount of the commodity released shall not be effective on the receiving farm until the succeeding year. When a request for transfer of a pooled allotment involves a transfer from one State to another, the receiving State committee shall obtain information from the transferring State committee as to whether any part of the allotment for which the transfer is requested has been released to the transferring county committee for the current year.

(k) *Constitution of acquired land.* (1) Where the owner leases part but not all of the agency acquired land, such part shall be constituted as a separate farm on the date of his displacement from the land not so leased.

(2) If a parent farm consists of separate ownership tracts, each such tract being acquired in whole or in part shall be considered as a separate farm for purposes of paragraph (g)(3) and (4) of this section.

(l) *Successors in interest*—(1) *Designation of beneficiary.* The owner may file with the county committee a written designation of beneficiary of his rights in the allotments and bases attributable to the acquired land in the event of his death and may revise such designation from time to time. The beneficiary of a deceased owner may exercise the right to continue a lease or to negotiate a lease with the agency or its designee and exercise the regular transfer rights with respect to farms owned by such beneficiary and may also exercise the release and sale, lease and owner transfer rights under this section.

(2) *Cases where no beneficiary designated.* If the owner does not file a designation of beneficiary under subparagraph (1) of this paragraph and the owner dies before displacement or after pooling occurs, the following persons shall be considered the beneficiary with the rights as provided under subparagraph (1) of this paragraph:

(i) The surviving joint owner of the farm where two persons own the farm as joint tenants with right of survivorship under which title passes to the survivor;

(ii) The person(s) who succeed to the deceased owner's interest under a will or by intestate succession. However, in the case of intestate succession, such person(s) shall be limited to surviving spouse, mother, father, brothers, sisters, or children of the deceased owner. In the settlement of the estate of the deceased owner, the heirs may file a written agreement with the county committee for the division of the deceased owner's rights under this section.

(m) *Limitations on transfers from pool.* (1) No transfer from the pool under paragraph (h), (i), or (j) of this section shall be approved if there remains unpaid any marketing quota penalty due with respect to the marketing of the commodity from the acquired farm or by the displaced owner; or if any of the commodity produced on the acquired farm has not been accounted for as required under applicable commodity regulations.

(2) If the tobacco or peanut allotment for an acquired farm next established after the date of displacement would have been reduced because of false or improper identification of the commodity produced on or marketed from the farm or due to a false acreage report, the allotment shall be reduced in the pool in accordance with the applicable regulations.

(Secs. 375, 378, 379; 52 Stat. 66, as amended, 72 Stat. 995, as amended, 79 Stat. 1211; 7 U.S.C. 1375, 1378, 1379; sec. 16(i), 79 Stat. 1190, as amended; 16 U.S.C. 590p(i))

Effective date: Upon publication in the FEDERAL REGISTER.

SUBCHAPTER C—SPECIAL PROGRAMS

[Amdt. 3]

PART 777—PROCESSOR WHEAT MARKETING CERTIFICATE REGULATIONS

Miscellaneous Amendments

On page 8205 of the FEDERAL REGISTER of May 27, 1969, there was published a notice of proposed rule making to provide the following in the Republication of the Processor Wheat Marketing Certificate Regulations (33 F.R. 14676):

(1) Extend the marketing certificate cost of 75 cents per bushel through the marketing year beginning July 1, 1969.

(2) Change the conversion factor for flour derived in a 72-percent extraction-rate-type operation to reflect the most

recent available information concerning the actual average extraction of those processors reporting on the conversion factor basis.

(3) Change the conversion factor for semolina and farina to reflect the same conversion factor provided for flour since these products are often produced as co-products of flour.

(4) Provide the refund rate for flour second clears not used for human consumption for the marketing year beginning July 1, 1969.

After giving consideration to the views and suggestions resulting from the 30-day notice given the public pursuant to section 4 of the Administrative Procedure Act (60 Stat. 238, 5 U.S.C. 553) the amendment is hereby issued as set forth in the notice of proposed rule making.

Since the provisions of this amendment as set forth below must be acted on immediately, or are needed immediately in the administration of the regulations, it is hereby found and determined that compliance with the 30-day effective date requirements of section 4 of the Administrative Procedure Act (60 Stat. 238, 5 U.S.C. 553) is impracticable and contrary to the public interest and that this amendment shall be effective as provided below.

Effective date. The provisions of this amendment shall be effective with respect to processing report periods beginning on and after July 1, 1969.

Signed at Washington, D.C., on July 1, 1969.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

1. Section 777.5(a) is amended by changing the last sentence to read as follows:

§ 777.5 Applicability of certificate requirements.

(a) *General.* * * * The cost of domestic certificates shall be 75 cents a bushel during the marketing years beginning July 1, 1965, through the marketing year beginning July 1, 1969.

* * * * *

2. Section 777.14(c) is amended by changing the conversion factors of the following products to read as follows:

§ 777.14 Conversion factor basis of reporting.

* * * * *

(c) *Conversion factors.* * * *

A—Food product	*B—Bushels of wheat equivalent per 100 pounds of product (conversion factor)*
Flour (including clears) derived from conventional milling practices which are generally accepted in the milling industry in the United States as representing a 72 percent extraction rate operation	2.344
Semolina	2.344
Farina	2.344

* * * * * * *

3. Section 777.19(e) is amended by changing the third sentence to read as follows:

§ 777.19 Industrial users of flour second clears.

* * * * *

(e) *Refund rate.* * * * The refund rate for the marketing years beginning July 1, 1968, and July 1, 1969, shall be $1.68 per hundredweight, which was determined on the basis of a conversion factor of 2.240 multiplied by the applicable certificate cost rounded to the nearest cent. * * *

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Valencia Orange Reg. 284]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 908.584 Valencia Orange Regulation 284.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 8, 1969.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period July 11, 1969, through July 17, 1969, are hereby fixed as follows:

(i) District 1: 175,000 cartons;

(ii) District 2: 265,000 cartons;

(iii) District 3: 60,000 cartons.

(2) As used in this section, "handler," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: July 9, 1969.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[F.R. Doc. 69-8236; Filed, July 9, 1969; 11:23 a.m.]

PART 916—NECTARINES GROWN IN CALIFORNIA

Expenses and Rate of Assessment

On June 17, 1969, notice of proposed rule making was published in the FEDERAL REGISTER (34 F.R. 9455) regarding proposed expenses and the proposed rate of assessment for the period March 1, 1969, through February 28, 1970, pursuant to the marketing agreement, as amended, and Order No. 916, as amended (7 CFR Part 916), regulating the handling of nectarines grown in California. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Nectarine Administrative Committee (established pursuant to said marketing agreement and order), it is hereby found and determined that:

§ 916.208 Expenses and rate of assessment.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred by

the Nectarine Administrative Committee during the period March 1, 1969, through February 28, 1970, will amount to $289,747.

(b) *Rate of assessment.* The rate of assessment for said period, payable by each handler in accordance with § 916.41, is fixed at $0.05 per No. 22D standard lug box of nectarines, or equivalent quantity of nectarines in other containers or in bulk.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of the current crop of nectarines grown in California are now being made; (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment herein fixed shall be applicable to all assessable nectarines handled during the aforesaid period; and (3) such period began on March 1, 1969, and said rate of assessment will automatically apply to all such nectarines beginning with such date.

Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order, and "No. 22D standard lug box" shall have the same meaning as set forth in section 43601 of the Agricultural Code of California.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 7, 1969.

PAUL A. NICHOLSON,
Deputy director, Fruit and Vegetable Division, Consumer and Marketing Service.

[F.R. Doc. 69–8141; Filed, July 9, 1969; 8:50 a.m.]

PART 991—HOPS OF DOMESTIC PRODUCTION

Subpart—Administrative Rules and Regulations

TRANSFER OF ALLOTMENT BASES

Notice was published in the June 20, 1969, issue of the FEDERAL REGISTER (34 F.R. 9682) of a proposal to amend § 991.146, based upon the recommendations of the Hop Administrative Committee, to establish a procedure applicable to transfers of allotment bases. This procedure applies to producers having allotment bases issued by the Committee and does not authorize persons other than such producers to effectuate a transfer. This subpart is operative pursuant to Marketing Order No. 991, as amended (7 CFR Part 991), regulating the handling of hops of domestic production effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The notice afforded interested persons an opportunity to submit written data, views, or arguments with respect to the proposal. None were submitted within the prescribed time.

After consideration of all relevant matter presented, including that in the notice, the information and recommendations submitted by the Committee, and other available information, it is found that to amend § 991.146, Administrative rules and regulations as hereinafter set forth will tend to effectuate the declared policy of the act.

Therefore, § 991.146 is amended as follows:

§ 991.146 Transfer of allotment bases.

As provided in § 991.46, any producer may transfer all or part of an allotment base from himself to another producer.

(a) Such a transfer shall be recognized, and annual allotments granted thereunder, if in accordance with the following:

(1) Prior to a producer transferring all or a part of his allotment base to another producer, he notifies the Committee in writing of such intent;

(2) The execution by the producers, in the presence of a designated agent of the Committee, of a Committee-approved allotment base transfer form at a time and place mutually agreed upon by the producers and the agent of the Committee; and at such time the producers deliver their applicable allotment base certificates to the agent of the Committee;

(3) The executed allotment base transfer form sets forth, among other things, the amount of the allotment base being transferred and the effective date of the transfer;

(4) The transferee's evidence as to capability to produce and harvest in the first marketing year the annual allotment referable to the allotment base being transferred is accepted by the Committee unless waiver to produce such allotment is granted pursuant to § 991.38 (a)(5); and

(5) Written notification of recognition of the transfer is issued by the Committee to the producers involved.

(b) After the written recognition by the Committee, it shall issue to each producer involved a new allotment base certificate showing the producer's total allotment base as a result of the transfer. However, if a producer transfers all of his allotment base, no new allotment base certificate shall be issued to him.

(c) Whenever a producer transfers all or part of his allotment base to another producer, the annual allotment referable to such transferred allotment base, or part thereof, shall be issued to the transferee only if the transfer is effective prior to the issuance of an annual allotment to the transferor or prior to April 1, whichever is the earlier.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated July 7, 1969, to become effective 30 days after publication in the FEDERAL REGISTER.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division.

Correction

In F.R. Doc. 69–6732 appearing at page 9059 in the issue of Saturday, June 7, 1969, the following change should be made in § 1421.3068(b): The rate per bushel for Hanson County, S. Dak., now reading "3.75" should read "2.75."

Title 12—BANKS AND BANKING

Chapter II—Federal Reserve System

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

PART 250—MISCELLANEOUS INTERPRETATIONS

Bank Mergers

§ 250.182 Terms defining competitive effects of proposed mergers.

The Board has developed and used for some time certain terms to describe the competitive effect of the proposed mergers in reports on competitive factors requested of the Board by the Comptroller of the Currency and the Federal Deposit Insurance Corporation under the Bank Merger Act (12 U.S.C. 1828(c)). Under the Act, a Federal banking agency receiving a merger application must request the views of the other two Federal banking agencies and the Department of Justice on the competitive factors involved. The terms and their definitions are as follows:

(a) The term "monopoly" is used to indicate the Board's view that the proposed transactions must be disapproved in accordance with paragraph (5)(A) of section 1828(c) of 12 U.S.C.

(b) The term "substantially adverse" is used to indicate the Board's view that the proposed transaction would have such actual or potential anticompetitive effects as to forbid approval unless "clearly outweighed" as specified in paragraph (5)(B) of section 1828(c) of 12 U.S.C.

(c) The term "adverse" is used to indicate the Board's view that in appraising the public interest to determine whether the proposal should be approved or disapproved, the actual or potential adverse anticompetitive effects thereof would be such as to necessitate definite consideration as one of the factors covered in the last sentence of paragraph (5) of section 1828(c) of 12 U.S.C.

(d) The term "slightly adverse" is used to indicate the Board's view that the actual or potential anticompetitive

effect of the transaction would be of little importance.

(e) The term "no adverse competitive effects" is used to indicate the Board's view that the situation with respect to actual or potential anticompetitive effects need not weigh against the application.

(12 U.S.C. 248(i). Interprets 12 U.S.C. 1828(c))

Dated at Washington, D.C., this 1st day of July 1969.

By order of the Board of Governors.

[SEAL] ROBERT P. FORRESTAL, *Assistant Secretary.*

[F.R. Doc. 69-8064; Filed, July 9, 1969; 8:45 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 9426; Amdt. 39-794]

PART 39—AIRWORTHINESS DIRECTIVES

British Aircraft Corporation Model BAC 1-11 200 and 400 Series Airplanes

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive (AD) requiring installation of resistors and capacitors into both phases of the heating circuit for the pilot's and copilot's main windshield on the BAC 1-11 200 and 400 Series Airplanes, was published in 34 F.R. 2137.

Interested persons have been afforded an opportunity to participate in the making of the amendment. One of the comments received stated that since the proposed modification is related to installations using the Plessey relays, it should not apply to one air carrier who has replaced all Plessey relays with Leach relays. However, the FAA does not agree. The technical data furnished to date does not support the use of the Leach relay without the additional resistors and capacitors. However, in response to another comment, the compliance time has been changed from 1,000 hours to 1,500 hours' time in service. The original request that compliance be changed to 3,000 hours' time in service was modified due to the elapse of time since this action originated on September 13, 1968. It should also be noted that an "FAA approved equivalent" with respect to the physical location of the 20K ohm resistors may be used in meeting this AD. This should provide the flexibility referred to in the comments.

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

BRITISH AIRCRAFT CORPORATION. Applies to Model BAC 1-11 200 and 400 Series Airplanes.

Compliance required within the next 1,500 hours' time in service after the effective date of this AD, unless already accomplished.

To prevent the failure of the windshield heating circuit, install 20K ohm resistors and 1-mfd capacitors into both phases of the heating circuit for the pilot's and copilot's main windshield in accordance with British Aircraft Corporation Modification Bulletin No. 30-PM 3092, Revision 8, dated July 22, 1968 or later ARB-approved revision or an FAA approved equivalent.

This amendment becomes effective August 10, 1969.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958; 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))

Issued in Washington, D.C., on July 2, 1969.

JAMES F. RUDOLPH, *Director, Flight Standards Service.*

[F.R. Doc. 69-8085; Filed, July 9, 1969; 8:46 a.m.]

[Airspace Docket No. 69-EA-78]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The Federal Aviation Administration is amending § 71.171 of Part 71 of the Federal Aviation Regulations so as to alter the New Haven, Conn. control zone (34 F.R. 4608).

The weather observation and reporting requirements to support the New Haven control zone cannot be met since the Weather Bureau office at Tweed-New Haven Airport was closed on June 15, 1969. These requirements will again be met when the Federal Aviation Administration assumes operation of the Tweed-New Haven tower on December 1, 1969. Meanwhile, this deficiency will require temporary suspension of the New Haven, Conn. control zone designation.

Since this amendment is relieving a restriction and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In view of the foregoing, the Federal Aviation Administration having reviewed the airspace requirements in the terminal airspace of New Haven, Conn., the amendment is herewith made effective upon publication in the FEDERAL REGISTER as follows:

Amend § 71.171 of Part 71 of the Federal Aviation Regulations by adding to the New Haven, Conn. control zone the parenthetical statement "(suspended until December 1, 1969)".

(Sec. 307(a), Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348; sec. 6(c), DOT Act; 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on June 30, 1969.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket No. C-1544]

PART 13—PROHIBITED TRADE PRACTICES

Braeburn Mfg. Co. and John Marcus

Subpart—Misbranding or Mislabeling: § 13.1185 *Composition:* 13.1185-90 Wool Products Labeling Act; § 13.1212 *Formal regulatory and statutory requirements:* 13.1212-90 Wool Products Labeling Act. Subpart—Neglecting, Unfairly or Deceptively, to Make Material Disclosure: § 13.1845 *Composition:* 13.1845-80 Wool Products Labeling Act; § 13.1852 *Formal regulatory and statutory requirements:* 13.1852-80 Wool Products Labeling Act. Subpart—Using Misleading Name—Goods: § 13.2280 *Composition:* 13.2280-80 Wool Products Labeling Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, secs. 2-5, 54 Stat. 1128-1130; 15 U.S.C. 45, 68) [Cease and desist order, Braeburn Manufacturing Co. et al., Lowell, Mass., Docket C-1544, June 11, 1969]

In the Matter of Braeburn Mfg. Co., a Corporation, and John Marcus, Individually and as an Officer of Said Corporation

Consent order requiring a Lowell, Mass., manufacturing of men's and boys' outerwear to cease misbranding the fiber content of its wool products.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Braeburn Mfg. Co., a corporation, and its officers, and John Marcus, individually and as an officer of said corporation, and respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with the introduction, or manufacture for introduction, into commerce, or the offering for sale, sale, transportation, distribution, delivery for shipment or shipment, in commerce, of wool products, as "commerce" and "wool product" are defined in the Wool Products Labeling Act of 1939, do forthwith cease and desist from misbranding such products by:

1. Falsely and deceptively stamping, tagging, labeling, or otherwise identifying such products as to the character or amount of the constituent fibers contained therein.

2. Failing to securely affix to, or place on, each such product a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner each element of information required to be disclosed by section 4(a)(2) of the Wool Products Labeling Act of 1939.

3. Failing to set forth the generic names of manufactured fibers established in Rule 7 of the regulations promulgated under the Textile Fiber Products Identification Act, in naming such fibers in required information on stamps, tags, labels or other means of identification attached to wool products.

4. Using the name of a specialty fiber permitted in section 2(b) of the Wool Products Labeling Act in lieu of the word "wool" in setting forth the required information on labels affixed to wool products unless the fibers so described are entitled to such designation and are present in at least the amount stated.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: June 11, 1969.

By the Commission.

[Docket No. C-1541]

PART 13—PROHIBITED TRADE PRACTICES

Greater Kansas City Gas Furnace and Air Conditioning Co., Inc., and Dennis G. Svejda

Subpart—Disparaging Competitors and Their Products—Competitors' Products: § 13.990 *Materials;* § 13.1000 *Performance;* § 13.1025 *Safety.* Subpart—Securing Orders by Deception: § 13.2170 *Securing orders by deception.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended, 15 U.S.C. 45) [Cease and desist order, Greater Kansas City Gas Furnace and Air Conditioning Co., Inc., et al., Kansas City, Mo., Docket C-1541, June 6, 1969]

In the Matter of Greater Kansas City Gas Furnace and Air Conditioning Co., Inc., a Corporation, and Dennis G. Svejda, Individually and as an Officer of Said Corporation

Consent order requiring a Kansas City, Mo., distributor of furnaces and other heating equipment, to cease making false representations to prospective customers that the condition of their furnace is defective, unsafe, or hazardous.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Greater Kansas City Gas Furnace and Air Conditioning Co., Inc., a corporation, and its officers, and Dennis G. Svejda, individually and as an officer of said corporation, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the sale, repair, or servicing of furnaces, heating equipment or the parts thereof, or any other product, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, that:

(a) Respondents will clean a prospective customer's furnace or heating equipment for a nominal fee unless, as a matter of fact, such offer is a bona fide offer to inspect or to clean such furnace or heating equipment;

(b) Any furnace, heating equipment or parts thereof are defective, not repairable or repairable only at extensive cost, unless such are the facts;

(c) The continued use of any furnace, heating equipment or parts thereof is dangerous or hazardous to the health of the owner thereof or his family, due to escaping carbon monoxide, fire or other causes, unless such are the facts;

(d) A furnace which has been inspected by respondents' employees cannot be used without danger of asphyxiation, gas poisoning, fires or other damage, when such is not a fact;

2. Misrepresenting in any manner the condition of any furnace, heating equipment or the parts thereof which have been inspected by respondents or their employees.

It is further ordered, That respondents:

a. Deliver a copy of this order to cease and desist to all present and future salesmen or other persons engaged in the sale of respondents' products or services, and secure from each such salesman or other person a signed statement acknowledging receipt of said order.

b. Distribute a copy of this order to each of their operating divisions.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: June 6, 1969.

By the Commission.

PART 13—PROHIBITED TRADE PRACTICES

O.K. Wool Co., Inc., and Oscar Kazarnovsky

Subpart—Invoicing Products Falsely: § 13.1108 *Invoicing products falsely:* 13.1108-40 Federal Trade Commission Act. Subpart—Misbranding or Mislabeling: § 13.1185 *Composition:* 13.1185-90 Wool Products Labeling Act; § 13.1212 *Formal regulatory and statutory requirements:* 13.1212-90 Wool Products Labeling Act. Subpart—Using Misleading Name—Goods: § 13.2280 *Composition:* 13.2280-80 Wool Products Labeling Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, secs. 2-5, 54 Stat. 1128-1130; 15 U.S.C. 45, 68) [Cease and desist order, O.K. Wool Co., Inc., et al., Worcester, Mass., Docket C-1546, June 16, 1969]

In the Matter of O.K. Wool Co., Inc., a Corporation, and Oscar Kazarnovsky, Individually and as an Officer of Said Corporation

Consent order requiring a Worcester, Mass., processor of wool and synthetic fiber yarns to cease misbranding and falsely invoicing its wool products.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents O.K. Wool Co., Inc., a corporation, and its officers, and Oscar Kazarnovsky, individually and as an officer of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction, or manufacture for introduction, into commerce, or the offering for sale, sale, transportation, distribution, delivery for shipment or shipment, in commerce, of wool products, as "commerce" and "wool product" are defined in the Wool Products Labeling Act of 1939, do forthwith cease and desist from misbranding such products by:

1. Falsely and deceptively stamping, tagging, labeling, or otherwise identifying such products as to the character or amount of the constituent fibers contained therein.

2. Failing to securely affix to, or place on, each such product a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner each element of information required to be disclosed by section 4(a)(2) of the Wool Products Labeling Act of 1939.

3. Setting forth information required under section 4(a)(2) of the Wool Products Labeling Act and the rules and regulations promulgated thereunder in abbreviated form on labels affixed to wool products.

It is further ordered, That respondents O.K. Wool Co., Inc., a corporation, and its officers, and Oscar Kazarnovsky, individually and as an officer of said corporation, and respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of bales of fibrous stock and yarns, or other products, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using the word "Shetland," or any simulation thereof, either alone or in connection with other words, to designate, describe, or refer to any product which is not composed entirely of wool of Shetland sheep raised on the Shetland Islands or the contiguous mainland of Scotland: *Provided, however,* That in the case of a product composed in part of wool of the aforesaid Shetland sheep and in part of other fibers or materials, such word may be used as descriptive of the Shetland wool content if there are used in immediate connection therewith, with at least equal conspicuousness, words truthfully describing such other constituent fibers or materials.

2. Misrepresenting the character or amount of constituent fibers contained

in such products on invoices or shipping memoranda applicable thereto, or in any other manner.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That the respondents herein shall, within 60 days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form of their compliance with this order.

Issued: June 16, 1969.

By the Commission.

[Docket No. 6534]

PART 13—PROHIBITED TRADE PRACTICES

Israel Rattinger et al.

Subpart—Appropriating trade name or mark wrongfully: § 13.295 *Appropriating trade name or mark wrongfully:* 13.295–20 Competitor. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1855 *Identity.* Subpart—Simulating another or product thereof: § 13.2240 *Trade name of another:* § 13.2245 *Trade name of product.* Subpart—Using misleading name—goods: § 13,2345 *Source or origin:* 13.2345–50 Maker.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Modified order to cease and desist, Israel Rettinger et al. Doing business as Rettinger Raincoat Manufacturing Co., New York, N.Y., Docket 6534, May 27, 1969]

In the Matter of Israel Rettinger and David Rettinger, Individually and as Copartners, Doing Business as Rettinger Raincoat Manufacturing Co.

Order modifying a cease and desist order dated August 17, 1956, 21 F.R. 6544, which prohibited a manufacturer of rainwear from misusing the word "Goodyear" by permitting the successor respondent to use the term "Goodyear—Made by Rettinger" and similar words.

The modified order to cease and desist, is as follows:

It is ordered, That respondent David Rettinger, individually and as a former copartner in Rettinger Raincoat Manufacturing Co., a partnership now dissolved, and as a former officer and active stockholder of Rettinger Raincoat Manufacturing Co., Inc., a corporation, which corporation is the successor and assign of said partnership, and respondent's agents, representatives, employees, and successors and assigns, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of rainwear, including rubber raincoats and rainsuits, and other similar kinds of merchandise, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from: Using the word "Goodyear," or any other word or words of similar import, to designate or refer to such merchandise unless, in immediate conjunction with such word or words, respondent affirmatively discloses, clearly and conspicuously, either that the Goodyear Tire and Rubber Co. of Akron, Ohio, is not the manufacturer or source of such merchandise or that the manufacturer or source of such merchandise is a firm other than the Goodyear Tire and Rubber Co. of Akron, Ohio: *Provided, however,* That with respect to merchandise manufactured by Rettinger Raincoat Manufacturing Co., Inc., use in the foregoing manner of any of the following disclosure statements, which statements are illustrative but not all-inclusive, will be deemed by the Commission to constitute compliance with this order:

Goodyear—Not Made by Goodyear of Akron, Ohio
Goodyear—Made by Rettinger
Goodyear—Made by Lucky Rainwear,

And provided, further, That with respect to merchandise manufactured by a firm other than Rettinger Raincoat Manufacturing Co., Inc., but distributed by said company use in the foregoing manner of any of the following disclosure statements, which statements are illustrative but not all-inclusive, will be deemed by the Commission to constitute compliance with this order:

Goodyear—Not Made by Goodyear of Akron, Ohio
Goodyear—By Rettinger
Goodyear—By Lucky Rainwear

It is further ordered, That for purposes of compliance, this order shall be considered inapplicable with respect to those articles of merchandise in inventory as of the date of service of this order which bear disclosure statements indicating that such merchandise is made or manufactured by the Rettinger Raincoat Manufacturing Co., Inc., or by Rettinger or by Lucky Rainwear.

It is furthered ordered, That the order to cease and desist contained in the Commission's decision of August 17, 1956, be, and it hereby is, vacated as to decedent Israel Rettinger, a former copartner in the dissolved partnership, Rettinger Raincoat Manufacturing Co.

It is further ordered, That respondent David Rettinger and Rettinger Raincoat Manufacturing Co., Inc., a corporation, shall, within 60 days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order to cease and desist.

Issued: May 27, 1969.

PART 13—PROHIBITED TRADE PRACTICES

Scott Finks Co., Inc., and W. S. Finks

Subpart—Discriminating in price under sec. 2, Clayton Act—Payment or acceptance of commission, brokerage, or other compensation under 2(c): § 13.822 *Lowered price to buyers.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 2, 49 Stat. 1526; 15 U.S.C. 13) [Cease and desist order, Scott Finks Co., Inc., et al., Kansas City, Mo., Docket C-1545, June 13, 1969]

In the Matter of Scott Finks Co., Inc., a Corporation, and W. S. Finks, Individually and as President and a Director of Said Corporation

Consent order requiring a Kansas City, Mo., produce wholesaler to cease making unlawful brokerage payments.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Scott Finks Co., Inc., a corporation, and its officers, and W. S. Finks, individually and as president and a director of Scott Finks Co., Inc., and respondents' agents, representatives, and employees, directly or through any corporate or other device, in or in connection with the sale of produce in commerce, as "commerce" is defined in the Clayton Act, as amended, do forthwith cease and desist from: Paying, granting, or allowing, directly or indirectly, to any buyer, or to anyone acting for or in behalf of or who is subject to the direct or indirect control of such buyer, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, upon or in connection with any sale of produce to such buyer for his own account.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That the respondents herein shall, within 60 days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

In the Matter of Texas Refinery Corp., a Corporation, and Adlai M. Pate, Jr., and Hal B. Brooks, Individually and as Officers of Said Corporation

Consent order requiring a Fort Worth, Tex., marketer of protective coating products to cease using exaggerated earning claims to recruit salesmen and misrepresenting its assets.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Texas Refinery Corp., a corporation, and its officers, and Adlai M. Pate, Jr., and Hal B. Brooks, individually and as officers of said corporation, and respondents' agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of protective coating products or any other product, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, that an agent or salesperson whose earnings will consist of commissions or a combination of salary and commissions will be employed solely on a salary basis; or misrepresenting, in any manner, the basis of remuneration or the terms or conditions of employment of respondents' agents, salespersons, or employees.

2. Representing, directly or by implication, that either full-time or part-time agents or salespersons will earn any stated or gross or net amount; or representing, in any manner, the past earnings of either full-time or part-time agents or salespersons unless in fact the past earnings represented are those of a substantial number of such agents or salespersons and accurately reflect the average earnings of such agents or salespersons under circumstances similar to those of the person to whom the representation is made.

3. Representing, directly or by implication, that Texas Refinery Corp. has assets of $50 million or any other amount in excess of its actual assets; or misrepresenting, in any manner, the assets of any business owned, operated or controlled by respondents.

It is further ordered, That respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That the respondents herein shall, within 60 days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: June 10, 1969.

By the Commission.

PART 15—ADMINISTRATIVE OPINIONS AND RULINGS

Use of Term "Hand Carved" To Describe Furniture

§ 15.353 Use of the term "hand carved" to describe furniture.

(a) The Commission issued an advisory opinion with respect to the use of the term "hand carved" to describe certain furniture.

(b) The manufacturing procedure for the furniture calls for a prototype to be completely constructed and carved by hand. Then, the prototype becomes a pattern for an intricate machine which "rough cuts" the carvings on subsequent pieces for assembly production. Each piece so manufactured then has intricate hand detailing, carving and finishing to the extent that each piece is, in fact, different in artistic detail from the one which follows it. Each piece is numbered and signed by the craftsman who completes it.

(c) The Commission expressed the view that using the term "hand carved" to describe furniture manufactured in the manner described would probably violate the Federal Trade Commission Act, section 5.

(38 Stat. 717, as amended; 15 U.S.C. 41-58)

Issued: July 9, 1969.

By direction of the Commission.

[SEAL] JOSEPH W. SHEA, *Secretary.*

[F.R. Doc. 69-8129; Filed, July 9, 1969; 8:49 a.m.]

PART 15—ADMINISTRATIVE OPINIONS AND RULINGS

Tripartite Promotional Plan in Grocery Field

§ 15.354 Tripartite promotional plan in the grocery field.

(a) The Commission issued an advisory opinion with respect to a proposed tripartite promotional plan in the grocery field.

(b) The applicant proposed to lease space at a fixed fee in each of all competing food stores in the top 50 markets in the country. On this leased space the applicant will install a display of 15 still-color illustrations of special food dishes. The applicant would sell advertising space to food packagers. The applicant would advertise the availability of his plan in the trade press and notify each store in a direct-mail program. Real estate brokers would also be used in an effort to secure participation by all competing retailers. Retailers with no floor space available for applicant's proposed display could participate by permitting the applicant to install 15 single modular units on shelves for which the retailers would receive the same compensation as retailers having applicant's displays.

(c) The Commission advised the applicant that were the plan implemented as proposed, the Commission would have no objection to it. The Commission pointed out that were the plan implemented in a different manner, the promoter, the supplier, and the retailer might be acting in violation of section 2 (d) or (e) of the Clayton Act, as amended, and/or section 5 of the Federal Trade Commission Act. The Commission also told the applicant: "The promoter must make it clear to each supplier and each retailer that even though an intermediary is employed in this plan, it remains the supplier's responsibility to take all reasonable steps so that each of the supplier's customers, including those who do not purchase directly from the supplier, who compete with one another in reselling his products is offered an opportunity to participate in the promotional assistance plan on proportionally equal terms, which plan should include suitable alternatives if there are customers who may be unable as a practical matter to participate in the primary program; if not, the supplier, the retailer and the promoter participating in the plan may be acting in violation of section 2 (d) or (e) of the Clayton Act and/or section 5 of the Federal Trade Commission Act."

(38 Stat. 717, as amended; 15 U.S.C. 41-58; 49 Stat. 1526; 15 U.S.C. 13, as amended)

Issued: July 9, 1969.

By direction of the Commission.[1]

PART 15—ADMINISTRATIVE OPINIONS AND RULINGS

Disclosure of Origin of Partly Foreign-Made Textile Products

§ 15.355 Disclosure of origin of partly foreign-made textile products.

(a) The Commission advised a manufacturer of men's and boys' slacks that it would not be necessary to disclose the fact that certain assembly and sewing operations are performed in a specified foreign country.

(b) Under the facts presented to the Commission, the slacks consist of cotton and synthetic woven fabrics and threads, and steel hooks and eye enclosures, all of which are made in the United States. Said materials are inspected and cut to pattern in the United States and certain assembly steps, such

[1] Commissioner Elman dissented from this action of the Commission.

as the sewing of belt loops and the attachment of zipper chains, are also performed domestically. Thereafter, they are shipped to the company's plant in a foreign country where they are further assembled and sewn. Finally, they are returned to the United States were the buttonholes are sewn, the buttons attached, and the pants are pressed, inspected, cured, and prepared for shipment to customers.

(c) The cost of the foreign assembly and sewing operations is approximately 13.5 percent of total production costs, and the company wanted to know whether it would be necessary to disclose the nature and extent of the foreign operations either under section 5 of the FTC Act or section 4(b)(4) of the Textile Fiber Products Identification Act. It was further understood that the company does not intend to label the slacks as "Made in U.S.A." or use any other words of similar import.

SUBCHAPTER F—QUARANTINE, INSPECTION, AND LICENSING

PART 76—PREVENTION, CONTROL, AND ABATEMENT OF AIR POLLUTION FROM FEDERAL GOVERNMENT ACTIVITIES: PERFORMANCE STANDARDS AND TECHNIQUES OF MEASUREMENT

Sulfur Oxide Emissions and Disposal of Waste

On April 4, 1969, a notice of proposed rule making was published in the FEDERAL REGISTER (34 F.R. 6122) setting out proposed amendments to this part which would revise the sections on definitions, emissions of sulfur oxides, and disposal of waste. Interested persons were given 30 days in which to submit written data, views, or arguments, and Federal officials were given opportuntiy for consultation regarding the proposed amendments.

No Federal officials requested consultation. Two written comments were received; only one of which was responsive to the proposal, and that comment misinterpreted the limited nature of these proposed perfecting amendments. Nevertheless, due consideration was given to these comments and further consideration will be given to them when substantive amendments to Part 76 are proposed.

Accordingly, the proposed revisions are hereby adopted without change and are set out below.

Effective date. These amendments shall be effective upon publication in the FEDERAL REGISTER.

Dated: July 2, 1969.

ROBERT H. FINCH, *Secretary.*

Part 76 is amended as follows:

1. Section 76.1 is amended by revising paragraph (c) and adding paragraphs (g), (h), (i), and (j), as follows:

§ 76.1 Definitions.

* * * * *

(c) "Ringelmann Scale" means the Ringelmann Scale as published in the latest U.S. Bureau of Mines Information Circular entitled "Ringelmann Smoke Chart".

* * * * *

(g) "Unit" means all indirect heat exchangers connected to a single stack.

(h) "Particulate matter" means any material, except uncombined water, that exists as a solid or liquid at standard conditions.

(i) "Standard conditions" means a temperature of 70° Fahrenheit and a pressure of 14.7 pounds per square inch, absolute.

(j) "Waste" means any solid, liquid, or gaseous substance, the disposal of which may create an air pollution problem.

2. Section 76.5 is amended by revising paragraph (c)(1) to read:

§ 76.5 Sulfur oxides.

* * * * *

(c)(1) Effective October 1, 1969, combustion units of all Federal facilities or buildings located in the following areas shall comply with applicable emission limitations and control measures set out below:

(i) In the New Jersey-New York-Connecticut Interstate Air Quality Control Region as defined by 42 CFR Part 81, the emission rate of sulfur oxides (calculated as sulfur dioxide) from fuels used in combustion units shall not exceed 0.35 pounds per million B.t.u. (gross value) heat input.

(ii) In the Metropolitan Chicago Interstate Air Quality Control Region (Indiana-Illinois) and in the Metropolitan Philadelphia Interstate Air Quality Control Region (Pennsylvania-New Jersey-Delaware) as defined in 42 CFR Part 81, the emission rate of sulfur oxides (calculated as sulfur dioxide) from fuels used in combustion units shall not exceed 0.65 pounds per million B.t.u. (gross value) heat input.

* * * * *

3. Section 76.8 is revised to read as follows:

§ 76.8 Disposal of waste.

(a)(1) Waste shall not be burned in open fires in urban areas.

(2) In nonurban areas, there shall not be burned in open fires, within a 24-hour period, more than 25 pounds of waste at a single site nor more than 500 pounds of waste at any number of sites within a 1-mile radius, except that these quantities may be exceeded in the case of on-site burning of waste produced in connection with operations performed at railroad rights-of-way, interurban highways, irrigation canals, forests, agricultural sites, etc., and provided that care is exercised to prevent creation of localized air pollution which endangers health or welfare. Deteriorated or unused explosives, munitions, rocket propellants, and certain hazardous wastes may be burned in open fires, in accordance with recognized procedures.

(3) Wastes shall not be left in open dumps.

(4) Wastes that are disposed of in sanitary landfills shall be disposed of in accordance with procedures described in "Sanitary Landfill Facts" (PHS publication No. 1792, 1968) and any amendments or revisions thereof. Said document is available to any interested person, whether or not affected by the provisions of this part, upon request to the National Air Pollution Control Administration, Arlington, Va. 22203, which maintains an official historic file of the document, or to the Public Health Service Information Center as listed in 45 CFR 5.31 (32 F.R. 9316).

(b)(1) Waste shall be burned only in facilities especially designed for that purpose, except as provided in paragraph (a) of this section.

(2) For incinerators acquired on or after June 3, 1966 the density of any emission to the atmosphere shall not exceed number 1 on the Ringelmann Scale or the Smoke Inspection Guide for a period or periods aggregating more than 3 minutes in any 1 hour, or be of such opacity as to obscure an observer's view to an equivalent degree.

(3) For incinerators acquired prior to June 3, 1966 the density of any emission to the atmosphere shall not exceed number 2 on the Ringelmann Scale or the Smoke Inspection Guide for a period or periods aggregating more than 3 minutes in any 1 hour, or be of such opacity as to obscure an observer's view to an equivalent degree.

(c)(1) In addition, for installations burning more than 200 pounds of waste per hour, emissions shall not exceed 0.2 grain of particulate matter per standard cubic foot of dry flue gas corrected to 12

percent carbon dioxide (without the contribution of carbon dioxide from auxiliary fuel), measured in accordance with the test procedures described in "Specifications for Incinerator Testing at Federal Facilities" (PHS publication, October, 1967) and any amendments or revisions thereof. Said document is available to any interested person, whether or not affected by the provisions of this part, upon request to the National Air Pollution Control Administration, Arlington, Va. 22203, which maintains an official historic file of the document, or to the Public Health Service Information Center or Regional Office Information Center as listed in 45 CFR 5.31 (32 F.R. 9316).

(2) For installations burning 200 pounds of waste per hour or less, emissions shall not exceed 0.3 grain of particulate matter per standard cubic foot of dry flue gas corrected to 12 percent carbon dioxide (without the contribution of carbon dioxide from auxiliary fuel), measured in accordance with the test specifications described in "Specifications for Incinerator Testing at Federal Facilities" (PHS publication, October 1967) and any amendments or revisions thereof.

(3) Test procedures which are approved by the Commissioner, National Air Pollution Control Administration, as equivalent to those prescribed by paragraphs (c) (1) and (c) (2) of this section may be used for the purpose of determining an installation's compliance with the emission standards for particulate matter contained in such paragraphs.

Title 43—PUBLIC LANDS: INTERIOR

Chapter II—Bureau of Land Management, Department of the Interior

SUBCHAPTER B—LAND TENURE MANAGEMENT (2000)

[Circular 2261]

PART 2240—SALES AND EXCHANGES

Subpart 2243—Public Sales

SALE OF UNINTENTIONAL TRESPASS LANDS

JULY 3, 1969.

On page 7247 of the FEDERAL REGISTER of May 2, 1969, there was published a notice and text of a proposed amendment to Subpart 2243 of Title 43, Code of Federal Regulations. The purpose of the amendment is to implement the Act of September 26, 1968 (43 U.S.C. 1431-1435 (Supp. IV 1968)). This act authorizes the sale of lands which were affected by unintentional trespass on or before September 26, 1968, and which contain some land which has been or can be put to cultivation but which is insufficient because of climatic, topographic, ecologic, soil, or other factors to justify a classification for disposal under the homestead or desert land laws.

Interested persons were given 30 days within which to submit comments, suggestions, or objections to the proposed amendment. Only two comments were received. One comment endorsed the regulations and suggested no changes. The other objected to the provision relating to trespass charges in § 2243.3-4. That provision, however, reflects the requirements of section 3 of the Act of September 26, 1968 (43 U.S.C. 1433 (Supp. IV 1968)).

The proposed amendment is hereby adopted without change, and is set forth below. This amendment shall become effective on publication in the FEDERAL REGISTER.

RUSSELL E. TRAIN,
Acting Secretary of the Interior.

JULY 3, 1969.

1. A new paragraph is added to § 2243.0-1 to read as follows:

§ 2243.0-1 Purpose.

* * * * *

(c) The regulations in § 2243.3 implement the Act of September 26, 1968 (82 Stat. 870). This act authorizes the sale of certain land that was affected by unintentional trespass on or before September 26, 1968.

2. A new section is added to subpart 2243 to read as follows:

§ 2243.3 Procedures under the Act of September 26, 1968.

§ 2243.3-1 General.

(a) *Authority.* The Act of September 26, 1968 (82 Stat. 870) authorizes the Secretary of the Interior to sell at public auction any tract of public lands not exceeding 120 acres that was affected by unintentional trespass by the owner or user of contiguous lands on or prior to September 26, 1968, and which contains some land that has been or can be put to cultivation but which is insufficient because of climatic, topographic, ecologic, soil, or other factors to justify a classification as proper for disposal under the homestead or desert land laws. The act permits sales only if the Secretary of the Interior finds the land is not needed for a public purpose. The act limits the amount of land any person may acquire under its terms to 120 acres. The authority to make such sales expires on September 26, 1971, except that sales for which application has been made prior to September 26, 1971, may be completed after that date.

(b) *Objectives.* The program of the Secretary of the Interior in the administration of the act is to take into consideration the criteria set out in Part 2410 and to sell at public auction for not less than their appraised fair market value on an orderly basis public lands subject to the act which are not needed for a public purpose. To conform with the specific purposes of the act, lands will be sold in the smallest aliquot parts practicable in each situation.

§ 2243.3-2 Lands subject to sale.

(a) The act authorizes the Secretary of the Interior on his own motion or upon application of any person who owns contiguous lands to order into market and sell at public auction for not less than the appraised fair market value any tract of public lands not exceeding 120 acres which on or before September 26, 1968, was affected by unintentional trespass by the owner or user of contiguous lands and which he finds is not needed for public purposes and contains some land that has been or can be put to cultivation.

(b) The Secretary of the Interior has full discretion to determine whether land should be ordered into market under the regulations of this part. Factors that will be taken into consideration in making these determinations are described in Subpart 2410 of this chapter. Lands which are valuable for minerals will not be sold unless the minerals can be reserved to the United States under existing law. (See 30 U.S.C. section 21.)

(c) Only tracts of public land that are classified by the authorized officer under the criteria and procedures in Part 2410 of this chapter can be sold pursuant to the regulations in this section.

§ 2243.3-3 Procedures.

The provisions of § 2243.1 apply to sales under this section except that the owner of contiguous lands who wishes to assert his preference right must offer to purchase the lands at the highest bid received. A credit, determined by the authorized officer, will be given to a preference right purchaser for any value added to the land by him or his predecessors in interest during any period of unintentional trespass.

§ 2243.3-4 Trespass charges.

Purchase of lands in accordance with the act and these regulations shall not relieve any person from liability for unauthorized use of the lands while title was in the United States.

[F.R. Doc. 69-8124; Filed, July 9, 1969; 8:49 a.m.]

Title 49—TRANSPORTATION

Chapter III—Federal Highway Administration, Department of Transportation

SUBCHAPTER A—MOTOR VEHICLE SAFETY REGULATIONS

[Docket No. 69-13; Notice 1]

PART 371—FEDERAL MOTOR VEHICLE SAFETY STANDARDS [1]

Motor Vehicle Safety Standards No. 109, New Pneumatic Tires—Passenger Cars, and No. 110, Tire Selection and Rims—Passenger Cars

On October 5, 1968, the Federal Highway Administration published guidelines in the FEDERAL REGISTER (33 F.R. 14964) by which routine additions could be added to Appendix A of Standard No. 109 and the Appendix A of Standard No. 110. These guidelines provided an abbreviated rule making procedure for adding

[1] Formerly contained in 23 CFR Part 255.

tire sizes to Standard No. 109 and alternative rim sizes to Standard No. 110, whereby the addition becomes effective 30 days from date of publication in the FEDERAL REGISTER if no objections to the proposed additions are received. If comments objecting to the amendment warrant, rule making pursuant to the rule making procedures for motor vehicle safety standards (49 CFR Part 353) [2] will be followed.

The Japan Automobile Manufacturers Association, Inc., has petitioned for the addition of the 4.80–10 tire size designation to Table I–C of Appendix A of Standard No. 109 and the 3.50D alternative rim to Table I of Appendix A of Standard No. 110. The Rubber Manufacturers Association has petitioned for the addition of the C78–13 tire size designations to Table I–J of Appendix A of Standard No. 109 and the 5½JJ alternative rim for the C78–13 tire size and the 6JJ alternative rim for the E78–14 tire size to Table I of Appendix A of Standard No. 110.

The Rubber Manufacturers Association also petitioned for adding of a footnote to Table I of Appendix A of Standard No. 110 concerning the interchangeability of JJ, J, and JK rim flanges.

On the basis of the data submitted by the Japan Automobile Manufacturers Association and the Rubber Manufacturers Association indicating compliance with the requirements of Federal Motor Vehicle Safety Standards No. 109 and No. 110 and other information submitted in accordance with the procedural guidelines set forth, and data showing bead unseating values for tires on JJ, J, and JK rims, Appendix A of Federal Motor Vehicle Safety Standard No. 109 is being amended and Table I of Appendix A of Standard No. 110 is being amended.

In consideration of the foregoing, § 371.21 of Part 371 Federal Motor Vehicle Safety Standards, Appendix A of Standard No. 109 (33 F.R. 14964) and Appendix A of Standard No. 110 (34 F.R. 16102) are amended as set forth below effective 30 days from date of publication in the FEDERAL REGISTER.

(Delegation of authority of Oct. 5, 1968 (33 F.R. 14964); secs. 103, 119, National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1392, 1407); delegation from Secretary of Transportation, Part 1 of regulations of the Office of the Secretary (49 CFR 1.4(c)))

Issued on July 2, 1969.

H. M. JACKLIN, Jr.,
Acting Director, Motor Vehicle Safety Performance Service.

[2] Formerly contained in 23 CFR Part 216.

MOTOR VEHICLE SAFETY STANDARD NO. 109

NEW PNEUMATIC TIRES—PASSENGER CARS

1. Table I–C of Appendix A is amended by inserting between the title "Super Balloon" sizes and the tire size designation 5.20–10, the following new tire size 4.80–10 data:

APPENDIX A—FEDERAL MOTOR VEHICLE SAFETY STANDARD NO. 109

TABLE I–C

TIRE LOAD RATINGS, TEST RIMS, MINIMUM SIZE FACTORS AND SECTION WIDTHS FOR BIAS PLY TIRES

Tire size designation [1]	Maximum tire loads (pounds) at various cold inflation pressures (p.s.i.)													Test rim width (inches)	Minimum size factor (inches)	Section width [2] (inches)
	16	18	20	22	24	26	28	30	32	34	36	38	40			
4.80–10	320	355	390	430	470	490	510	535	555	575	595			3½	23.90	5.00

[1] The letter "H," "S," or "V" may be included in any specified tire size designation adjacent to or in place of the "dash".

[2] Actual section width and overall width shall not exceed the specified section width by more than 7 percent.

2. Table I–J of Appendix A is amended by inserting between the title and the tire size designation B78–14, the following new tire size C78–13 data:

TABLE I–J

TIRE LOAD RATINGS, TEST RIMS, MINIMUM SIZE FACTORS AND SECTION WIDTHS FOR "78 SERIES" BIAS PLY TIRES

Tire size designation [1]	Maximum tire loads (pounds) at various cold inflation pressures													Test rim width (inches)	Minimum size factor (inches)	Section width (inches) [2]
	16	18	20	22	24	26	28	30	32	34	36	38	40

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 32—HUNTING

Mark Twain National Wildlife Refuge, Ill.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

ILLINOIS

MARK TWAIN NATIONAL WILDLIFE REFUGE

Public hunting of black, gray, and fox squirrels on the Mark Twain National Wildlife Refuge, Ill., is permitted only on the area of the Gardner Division designated by signs as open to hunting. This open area, comprising 4,200 acres of the total Gardner Division area, are delineated on a map available at the refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minn. 55111. Hunting shall be in accordance with all applicable State regulations concerning the hunting of squirrels subject to the following conditions:

(1) The open season for hunting squirrels on the refuge is from September 1, 1969, through October 15, 1969, inclusive.

(2) A Federal permit is required to enter the public hunting area. Permits may be obtained from the Mark Twain National Wildlife Refuge headquarters, Quincy, Ill.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuges generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 15, 1969.

JAMES F. GILLETT,
Refuge Manager, Mark Twain National Wildlife Refuge, Quincy, Ill.

JULY 3, 1969.

[F.R. Doc. 69-8123; Filed, July 9, 1969; 8:49 a.m.]

PART 32—HUNTING

Crescent Lake National Wildlife Refuge, Nebr.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

NEBRASKA

CRESCENT LAKE NATIONAL WILDLIFE REFUGE

Public hunting of sharp-tailed grouse and ring-necked pheasants on the Crescent Lake National Wildlife Refuge, Nebr., is permitted only on the area designated by signs as open to hunting. This open area, comprising 40,900 acres, is delineated on maps available at refuge headquarters, Ellsworth, Nebr. 69340, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minn. 55111. Hunting of sharp-tailed grouse and ring-necked pheasant is permitted during the established State seasons. Hunting shall be in accordance with all applicable State regulations covering the hunting of sharp-tailed grouse and ring-necked pheasants subject to the following special conditions:

(1) Vehicle entrance and travel will be permitted only on well-defined trails. No travel is permitted beyond posted points, or off the trails in the hills or meadows.

(2) Overnight camping is not permitted.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 31, 1970.

DON R. PERKUCHIN,
Refuge Manager, Crescent Lake National Wildlife Refuge, Ellsworth, Nebr.

JULY 3, 1969.

[F.R. Doc. 69-8067; Filed, July 9, 1969; 8:45 a.m.]

PART 32—HUNTING

Crescent Lake National Wildlife Refuge, Nebr.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

NEBRASKA

CRESCENT LAKE NATIONAL WILDLIFE REFUGE

Public hunting of antelope and deer on the Crescent Lake National Wildlife Refuge, Nebr., is permitted only on the area designated by signs as open to hunting. This open area, comprising 40,900 acres, is delineated on maps available at refuge headquarters, Ellsworth, Nebr. 69340, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minn. 55111. Hunting of antelope and deer shall be in accordance with all applicable State regulations covering the hunting of antelope and deer subject to the following special conditions:

(1) Vehicle entrance and travel will be permitted only on well-defined trails. No travel is permitted beyond posted points, or off the trails in the hills or meadows.

(2) Overnight camping is not permitted.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas, generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 31, 1969.

DON R. PERKUCHIN,
Refuge Manager, Crescent Lake National Wildlife Refuge, Ellsworth, Nebr.

JULY 3, 1969.

Proposed Rule Making

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 1]

CHEWING GUM

Enforcement Regulations for Fair Packaging and Labeling Act; Revision of Proposed Exemption

In the FEDERAL REGISTER of January 17, 1969 (34 F.R. 758), it was proposed that § 1.1c(a)(4) be revised to exempt chewing gum in packages containing less than one-half ounce from the declaration of net quantity of contents required by § 1.8b under the Fair Packaging and Labeling Act. The proposal was in response to a petition submitted by the National Association of Chewing Gum Manufacturers (NACGM), 336 Madison Avenue, New York, N.Y. 10017.

Four States submitted comments in support of the proposal, one recommending that the regulation be clarified to show that it does not apply to multipack individually wrapped pieces of gum.

The petitioner, Leaf Brands Division of W. R. Grace & Co., and the National Confectioners Association (NCA) submitted comments urging that the proposed exemption be expanded to afford individually wrapped pieces of chewing gum weighing less than one-half ounce the same exemption granted for "penny candy" by § 1.1c(a)(4).

1. The NACGM comments that based on the competition that exists among all competing "penny" goods, whether candy or gum, it is demonstrably reasonable to grant the same labeling exemption or apply the same labeling requirements to all items in such direct competition and it is demonstrably unnecessary to impose the container labeling requirements where the individual piece labeling requirements are retained.

2. The NCA comments that the regulation would be clearer and simpler if it read "individually wrapped pieces of confectionery of less than one-half ounce net weight," since "confectionery" encompasses candy and gum and is more specific than the term "penny candy."

3. Leaf Brands comments that there is no apparent reason why individually wrapped pieces of gum should be treated differently from any other small package. The problem—utter lack of enough space for all the information required—is the same, no matter what the package contains. Also, to require all mandatory information on such small packages could be a "death blow" to marketers of the subject gum since it would be virtually impossible to print it on the wrapper.

The Commissioner of Food and Drugs, having considered the comments and other relevant information, concludes that the proposal should be revised to read as set forth below.

Accordingly, pursuant to the provisions of the Fair Packaging and Labeling Act (secs. 5(b), 6(a), 80 Stat. 1298, 1299; 15 U.S.C. 1453, 1455) and the Federal Food, Drug, and Cosmetic Act (sec. 701, 52 Stat. 1055, as amended; 21 U.S.C. 371), and under authority delegated to the Commissioner (21 CFR 2.120), it is proposed that § 1.1c(a)(4) be revised to read as follows and this supersedes the proposal of January 17, 1969 :

§ 1.1c Exemptions from required label statements.

* * * * *

(a) *Foods.* * * *

(4) Individually wrapped pieces of "penny candy" and other confectionery of less than one-half ounce net weight per individual piece shall be exempt from the labeling requirements of this part when the container in which such confectionery is shipped is in conformance with the labeling requirements of this part. Similarly, when such confectionery items are sold in bags or boxes, such items shall be exempt from the labeling requirements of this part, including the required declaration of net quantity of contents specified in this part when the declaration on the bag or box meets the requirements of this part.

* * * * *

Any interested person may, within 30 days from the date of publication of this notice in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof.

Dated: July 2, 1969.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

[F.R. Doc. 69-8120; Filed, July 9, 1969; 8:49 a.m.]

[21 CFR Part 15]

BONTRAE AND TEXTURED VEGETABLE PROTEIN

Withdrawal of Petitions and Termination of Proposed Rule Making

In the matter of establishing a definition and a standard of identity for a class of food vegetable protein products:

A notice of proposed rule making in the above-identified matter was published in the FEDERAL REGISTER of October 13, 1967 (32 F.R. 14237), based on a petition for "bontrae" filed by General Mills, Inc., 9200 Wayzata Boulevard, Minneapolis, Minn. 55440, and a petition for "textured vegetable protein" filed by Archer Daniels Midland Co., 733 Marquette Avenue, Box 532, Minneapolis, Minn. 55440. Notice is given that the petitioners have withdrawn their petitions and the rule-making proceeding in this matter is terminated. The withdrawal of these petitions is without prejudice to future filings.

This action is taken pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: July 2, 1969.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

[F.R. Doc. 69-8121; Filed, July 9, 1969; 8:49 a.m.]

[21 CFR Part 191]

TOY ROCKET PROPELLANT DEVICES

Proposed Exemption From Classification as Banned Hazardous Substance

The Commissioner of Food and Drugs has received requests from the National Association of Rocketry, 1239 Vermont Avenue NW., Washington, D.C. 20005, and Estes Industries, Box 227, Penrose, Colo. 81240, submitted pursuant to section 2(q)(1)(B)(i) of the Federal Hazardous Substances Act and § 191.62(c) of the regulations thereunder, to exempt the articles described below from classification as "banned hazardous substances," as defined by section 2(q)(1)(A) of the act, because the functional purpose of the articles requires inclusion of a hazardous substance, they bear labeling giving adequate directions and warnings for safe use, and are intended for use by children who have attained sufficient maturity, and may reasonably be expected, to read and heed such directions and warnings.

Grounds given in support of the requested exemption are that the lack of availability of properly designed, commercially-made toy propellant devices may encourage use of makeshift substitutes with resulting serious accidental injury or death.

Accordingly, pursuant to the provisions of the act (sec. 2(q)(1)(B)(i), 74 Stat. 374, 80 Stat. 1304, 15 U.S.C. 1261) and under authority delegated to the Commissioner (21 CFR 2.120), it is proposed that § 191.65(a) be amended by adding thereto two subparagraphs, as follows:

§ 191.65 Exemptions from classification as banned hazardous substances.

(a) * * *

(8) Model rocket propellant devices designed for use in lightweight, recoverable, and refiyable model rockets, provided such devices:

(i) Are designed to be ignited by electrical means.

(ii) Contain no more than 62.5 grams (2.2 ounces) of propellant material and produce less than 80 newton-seconds (17.92 pound seconds) of total impulse with thrust duration not less than 0.050 second.

(iii) Are constructed such that all the chemical ingredients are preloaded into a cylindrical paper or similarly constructed nonmetallic tube that will not fragment into sharp, hard pieces.

(iv) Are designed so that they will not burst under normal conditions of use, are incapable of spontaneous ignition, and do not contain any type of explosive or pyrotechnic warhead other than a small parachute or recovery-system activation charge.

(9) Separate delay train and/or recovery system activation devices intended for use with premanufactured model rocket engines wherein all of the chemical ingredients are preloaded so the user does not handle any chemical ingredient and are so designed that the main casing or container does not rupture during operation.

Any interested person may, within 30 days from the date of publication of this notice in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof.

Dated: June 30, 1969.

HERBERT L. LEY, Jr.,
Commissioner of Food and Drugs.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 221]

WAPATO INDIAN IRRIGATION PROJECT, WAPATO-SATUS UNIT, YAKIMA INDIAN RESERVATION, WASH.

Operation and Maintenance Charges

Pursuant to section 4(a) of the Administrative Procedure Act of June 11, 1946 (60 Stat. 238 U.S.C. 1001) and pursuant to the Acts of August 1, 1914 and March 7, 1928 (38 Stat. 583, 45 Stat. 210; 25 U.S.C. 385, 387) and by virtue of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs in Secretary's Order 2508 (10 BIAM 2.1, section 15(a)), and by virtue of authority delegated by the Commissioner of Indian Affairs to Area Directors by 10 BIAM 3.1, notice is hereby given of the intention to modify § 221.86 *Charges*, of title 25, Code of Federal Regulations, dealing with the operation and maintenance charges on assessable lands under the Wapato Indian Irrigation Project, Wapato-Satus Unit, Yakima Indian Reservation, Wash., beginning with calendar year 1970 and for subsequent years until further notice, as follows:

By increasing the annual operation and maintenance assessments under paragraph (a)(1) minimum charges for all tracts in noncontiguous single ownership from $8.65 to $9.30 and under paragraph (a)(2) from $8.65 to $9.30 per acre.

Interested parties are hereby given opportunity to participate in preparing the proposed amendment by submitting their views and data or arguments in writing to Dale M. Baldwin, Area Director, Bureau of Indian Affairs, Post Office Box 3785, Portland, Oreg. 97208, within 30 days from the date of publication of this notice of intention in the daily issue of the FEDERAL REGISTER.

DALE M. BALDWIN,
Area Director.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 9702]

AIRWORTHINESS DIRECTIVE

Pilatus Model PC-6 Series Aircraft Serial Numbers 1 Through 723 and 2001 Through 2050

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive (AD) applicable to certain Pilatus PC-6 Series Aircraft. There have been reports that the rudder trim system cable has worked off the pulley located aft of the fuselage bulkhead No. 6. This situation could result in a jammed rudder trim system. Since this condition is likely to exist or develop in other aircraft of the same type design, the proposed airworthiness directive would require inspection for proper clearance between the pulley and the cable keeper.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, GC-24, 800 Independence Avenue SW., Washington, D.C. 20590. All communications received on or before August 11, 1969, will be considered by the Administrator before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423, and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

PILATUS AIRCRAFT WORKS, INC. Applies to Model PC-6 Series Aircraft Serial Numbers 1 through 723 and 2001 through 2050.

Compliance required as indicated unless already accomplished.

To prevent the rudder trim control cable from coming off the pulleys aft of Bulkhead 6 (rear cabin wall), accomplish the following:

(a) Within the next 100 hours' time in service, inspect the clearance between the cable keeper and the cable pulleys aft of bulkhead 6 in accordance with Pilatus Service Bulletin No. 92, dated March 1969, or later Swiss Federal Air Office approved revision or an FAA approved equivalent.

(b) If the clearance between the keeper and the cable pulleys is found to be greater than 0.04 inch, replace the old cable keeper, P/N 6201.16, with a redesigned cable keeper, P/N 916.96.06.244 in accordance with Pilatus Service Bulletin No. 92, dated March 1969, or later Swiss Federal Air Office approved revision or an FAA approved equivalent.

Issued in Washington, D.C. on July 2, 1969.

JAMES F. RUDOLPH,
Director, Flight Standards Service.

CIVIL AERONAUTICS BOARD

[14 CFR Part 218]

[Docket No. 21080; EDR-166A]

LEASE BY FOREIGN AIR CARRIER OR OTHER FOREIGN PERSON OF AIRCRAFT WITH CREW

Supplemental Notice of Proposed Rule Making

JULY 3, 1969.

The Board, by circulation of EDR-166, dated June 13, 1969, and by publication at 34 F.R. 9621, gave notice that it had under consideration adoption of a new Part 218. This regulation would apply to foreign air carriers and other persons not citizens of the United States who, as lessors, enter into so-called "wet leases" providing for the furnishing of aircraft and crew for the performance of foreign air transportation services of another foreign air carrier. Interested persons

were invited to participate in the proceeding through submission of twelve (12) copies of written data, views and arguments pertaining thereto to the Docket Section of the Board on or before July 21, 1969.

Counsel for several foreign air carriers state that the proposed regulation appears to raise important political, legal, and economic issues which will require intensive research before constructive comments can be formulated. Furthermore, counsel assert, the necessary coordination of comments with the head offices of the carriers will be complicated by vacations and involvement of the carriers in the peak travel season. Counsel request that the time for filing comments be extended to October 1, 1969.

The undersigned finds that good cause has been shown for the extension of time requested. Accordingly, pursuant to authority delegated in § 385.20(d) of the Board's Organization Regulations (14 CFR 385.20(d)), the undersigned hereby extends the time for submitting comments to October 1, 1969.

All relevant communications received on or before October 1, 1969, will be considered by the Board before taking action on the proposed rules. Copies of these communications will be available for examination in the Docket Section, Room 712, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C. upon receipt thereof.

(Sec. 204(a), Federal Aviation Act, as amended, 72 Stat. 743; 49 U.S.C. 1324)

By the Civil Aeronautics Board.

[SEAL] ARTHUR H. SIMMS,
Associate General Counsel,
Rules and Rates Division.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 2]

[Docket No. 18590; FCC 69-721]

RADIOLOCATION SERVICE AND SURVEY OPERATIONS

Allocation of Bands and Increase in Maximum Permitted Power

In the matter of amendment of Part 2 of the Commission's rules to provide for the allocation of the bands 3100–3600 MHz and 33.4–36 GHz to the radiolocation service on a secondary basis and an increase in the maximum permitted power in bands used for survey operations; docket No. 18590.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. The frequency bands 3100–3600 MHz and 33.4–36 GHz are presently allocated primarily for Government operations. An existing footnote, US61, provides that non-Government access to the band 3300–3500 MHz is limited to the amateur service. Existing footnote US58 provides for the non-Government use of the band 10000–10500 MHz by the amateur and radiolocation services, on the condition that interference is not caused to Government stations, and that the power into the antenna for survey operations shall not exceed one watt. A reevaluation of Government requirements in these bands now permits a relaxation of the limitations presently imposed against the non-Government radiolocation service. Despite the relaxation to provide non-Government access to additional bands now used for Government survey operations, it should be noted that future planned use of the bands 3100–3600 MHz and 10000–10500 MHz may prove detrimental to low power survey operations. Accordingly, developers of new equipment in this field are urged to consider the band 33.4–36 GHz, and more particularly that portion between 33.4 and 35.6 GHz in the interest of international standardization, in preference to the two lower bands.

3. It is proposed herein to provide for non-Government radiolocation service access to the bands 3100–3600 MHz, 10,000–10,500 MHz and 33.4–36.0 GHz, on a secondary basis, for survey operations with a maximum permissible peak power of 5 watts into the antenna.

4. This proposed amendment is issued pursuant to authority contained in sections 303 (b), (c), and (r) of the Communications Act of 1934, as amended.

5. Pursuant to applicable procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before August 12, 1969, and reply comments on or before August 22, 1969. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken in this proceeding. The Commission may also take into account other relevant information before it, in addition to the specific comments invited by this notice.

6. In accordance with the provisions of § 1.419 of the Commission's rules, an original and 14 copies of all statements, briefs or comments filed shall be furnished the Commission.

Adopted: July 2, 1969.

Released: July 3, 1969.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] BEN F. WAPLE,
Secretary.

[1] Commissioners Bartley, Wadsworth, and Johnson absent.

Part 2, Frequency Allocations and Radio Treaty Matters; General Rules and Regulations is amended as follows:

1. In § 2.106, the *Table of Frequency Allocations*, is amended to read as follows in columns 5 through 11, with respect to the bands 3100–3300, 3300–3500, 3500–3600 Mc/s, 10,000–10,500 Mc/s and 33.4–38.6 Gc/s.

United States Federal Communications Commission

Band (Mc/s)	Allocation	Band (Mc/s)	Service	Class of station	Frequency (Mc/s)	Nature of stations / OF SERVICES
5	6	7	8	9	10	11
• • •	• • •	• • •	• • •	• • •	• • •	• • •

• • •	• • •	• • •	• • •	• • •	• • •	• • •

2. In § 2.106, U.S. Footnotes 58 and 61 are amended and 2 new U.S. Footnotes are added to read as follows:

US58 In the band 10,000–10,500 MHz, pulsed emissions are prohibited, except for weather radars on board meteorological satellites in the band 10,000–10,025 MHz. The amateur service and the non-Government radiolocation service, which shall not cause harmful interference to the Government radiolocation service, are the only non-Government services permitted in this band. The non-Government radiolocation service is limited to survey operations as specified in footnote US —.

US61 Non-Government use of the band 3100–3600 MHz is limited to the radiolocation service, as specified in footnote US —, except in the band 3300–3500 MHz, where the amateur service is also authorized.

US — Survey operations using transmitters with a peak power not to exceed 5 watts into the antenna, may be authorized for Government and non-Government use on a secondary basis in the radiolocation service within the bands 3100–3600 MHz, 10,000–10,500 MHz and 33.4–36.0 GHz.

US — Non-Government use of the band 33.4–36.0 GHz is limited to the radiolocation service as specified in footnote US —.

DEPARTMENT OF THE TREASURY

Bureau of Customs

[363.2]

IMPORTED VINYL-CLAD CHAIN LINK FENCING

Notice of Tentative Ruling Regarding Country of Origin Marking

JULY 1, 1969.

The Bureau of Customs has recently caused an investigation to be made regarding the foreign country of origin marking of imported vinyl-clad chain link fencing. The investigation disclosed that such fencing is usually marked to indicate the country of origin by means of a large label or tag, on which the country of origin is prominently marked, attached to or extending from the end of each roll of fencing. However, the investigation also disclosed that such labels or tags frequently become detached or are removed prior to the delivery of the fencing to the ultimate purchaser in the United States or an installation of the fencing at the latter's premises.

Accordingly, the Bureau tentatively is of the opinion that imported vinyl-clad chain link fencing should be legibly and conspicuously marked as permanently as the nature of the article permits to indicate the country of origin to the ultimate purchaser in the United States, in order to meet the requirements of section 304, Tariff Act of 1930, as amended (19 U.S.C. 1304). The imprinting of the required legend at intervals of not less frequency than approximately each 10 feet of length of rolled fencing, impressed into the vinyl covering, shall represent compliance with a standard of permanency sufficient for imports of this product. An acceptable alternative means of marking would be by pressure sensitive or other securely applied adhesive labels affixed to the fencing at intervals of not less frequency than approximately each 10 feet of length. There would be no objection to the continued use of the tags now being employed additionally to the specified marking requirements of this ruling.

Consideration will be given to any relevant data, views, or arguments which are submitted in writing to the Commissioner of Customs, Bureau of Customs, Washington, D.C. 20226, and received not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER. No hearing will be held.

[SEAL] LESTER D. JOHNSON,
Commissioner of Customs.

[T.D. 69-162]

AIRCRAFT IN FOREIGN TRADE

Supplies and Equipment for Aircraft of Foreign Registry

JULY 3, 1969.

In accordance with section 309(d), Tariff Act of 1930, as amended (19 U.S.C. 1309(d)), the Department of Commerce has found and under date of June 11, 1969, has advised the Treasury Department that except for ground equipment South Africa allows privileges to aircraft registered in the United States and engaged in foreign trade substantially reciprocal to those provided for in sections 309 and 317 of the Tariff Act of 1930, as amended (19 U.S.C. 1309, 1317). Corresponding privileges are accordingly extended to aircraft registered in South Africa and engaged in foreign trade effective as of the date of such notification.

The applicable provisions of §§ 10.59 to 10.65, Customs Regulations (19 CFR 10.59–10.65), shall be applied to withdrawals for these aircraft.

[SEAL] LESTER D. JOHNSON,
Commissioner of Customs.

Office of the Secretary

AMINOACETIC ACID (GLYCINE) FROM THE NETHERLANDS

Determination of Sales at Not Less Than Fair Value

JUNE 26, 1969.

On May 6, 1969, there was published in the FEDERAL REGISTER a "Notice of Tentative Negative Determination" that Aminoacetic Acid (Glycine) from the Netherlands is not being sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)) (referred to in this notice as the "Act").

The statement of reasons for the tentative determination was published in the above-mentioned notice and interested parties were afforded until June 5, 1969, to make written submissions or requests for an opportunity to present views in connection with the tentative determination.

No written submissions or requests having been received, I hereby determine that Aminoacetic Acid (Glycine) from the Netherlands is not being, nor likely to be, sold at less than fair value (section 201(a) of the Act; 19 U.S.C. 160(a)).

This determination is published pursuant to section 201(c) of the Act (19 U.S.C. 160(c)) and § 53.33(c), Customs Regulations (19 CFR 53.33(c)).

[SEAL] EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[S 2694]

CALIFORNIA

Notice of Proposed Withdrawal and Reservation of Lands

JULY 2, 1969.

The Bureau of Reclamation, U.S. Department of the Interior, has filed an application, Serial No. S 2694 for the withdrawal of the lands described below, subject to valid existing rights, from all forms of appropriation under the public land laws, including the mining laws (30 U.S.C., Ch. 2) but not the mineral leasing laws.

The applicant desires the land for the construction, operation and maintenance of the planned facilities of the Auburn-Folsom South Unit of the Central Valley Project, Calif.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, U.S. Department of the Interior, Room E-2807, Federal Office Building, 2800 Cottage Way, Sacramento, Calif. 95825.

The Department's regulations (43 CFR 2311.1-3(c)) provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved in the application are:

MOUNT DIABLO MERIDIAN

T. 13 N., R. 10 E.,
Sec. 19, lots 19 and 20.

The above-described area contains approximately 70.20 acres in Placer County.

ELIZABETH H. MIDTBY,
Chief, Lands Adjudication Section.

COLORADO

Notice of Classification of Public Lands for Multiple-Use Management

JULY 3, 1969.

1. Pursuant to the Act of September 19, 1964 (43 U.S.C. 1411-18) and to the regulations in 43 CFR Parts 2410 and 2411, the lands described below were classified for multiple-use management by classification appearing in the FEDERAL REGISTER of March 26, 1968, at page 4998. It has been determined that these lands should be further segregated to protect public recreational values therein. Publication of this notice has the effect of further segregating the described lands from all forms of appropriation under the public land laws including the United States mining laws (30 U.S.C. Ch. 2) but not the mineral leasing laws.

2. No adverse comments were received following publication of a notice of proposed classification (34 F.R. 5082) as amended (34 F.R. 6336).

HINSDALE AND SAGUACHE COUNTIES

NEW MEXICO PRINCIPAL MERIDIAN, COLORADO

Powderhorn Lakes Site

T. 45 N., R. 3 W.,
Sec. 23, lots 9 and 10.

Cochetopa Creek

T. 47 N., R. 2 E.,

Those lands within 300 feet of either side of Cochetopa Creek within sec. 17.

The areas described contain approximately 114 acres.

3. For a period of 30 days from date of publication in the FEDERAL REGISTER, this classification shall be subject to the exercise of administrative review and modification by the Secretary of the Interior as provided for in 43 CFR 2411.2c.

E. I. ROWLAND,
State Director.

COLORADO

Notice of Proposed Classification of Public Lands for Multiple-Use Management

JULY 3, 1969.

1. Pursuant to the Act of September 19, 1964 (43 U.S.C. 1411–18) and to the regulations in 43 CFR Parts 2410 and 2411, the lands described below were classified for multiple-use management by classification appearing in the FEDERAL REGISTER of April 17, 1968, at page 5894.

This classification segregated these lands from appropriation under the agricultural land laws (43 U.S.C. Parts 7 and 9; 25 U.S.C. sec. 334) and from sales under section 2455 of the revised statutes (43 U.S.C. 1171). It has been determined that the land described below should be further segregated to protect public recreational values therein. Accordingly, publication of this notice has the effect of further segregating the described lands from all forms of appropriation under the public land laws including the U.S. mining laws (30 U.S.C. Ch. 2), but not the mineral leasing laws.

2. The public lands are shown on a map on file in the Glenwood Springs District Office, Bureau of Land Management, Glenwood Springs, Colo. 81601 and in the Land Office, Bureau of Land Management, 15019 Federal Building, 1961 Stout Street, Denver, Colo. 80202.

[Serial No. I-2448]

IDAHO

Notice of Classification of Public Lands for Multiple-Use Management

JULY 2, 1969.

1. Pursuant to the Act of September 19, 1964 (43 U.S.C. 1411–18), and the regulations in 43 CFR Parts 2410 and 2411, the public lands within the area described below are hereby classified for multiple-use management. Publication of this notice has the effect (a) of segregating all of the public lands within the described area below from appropriation only under the agricultural land laws (43 U.S.C., Parts 7 and 9; 25 U.S.C. sec. 334) and from sales under section 2455 of the Revised Statutes (43 U.S.C. 1171) and (b) of further segregating the lands described in paragraph 4 of this notice from the operation of the general mining laws (30 U.S.C., Ch. 2). Except as provided in (a) and (b) above, the lands shall remain open to all other applicable forms of appropriation, including the mining and mineral leasing laws. As used herein, "public lands" means any lands withdrawn or reserved by Executive Order No. 6910 of November 26, 1934, as amended, or within a grazing district established pursuant to the Act of June 28, 1934 (48 Stat. 1269), as amended, which are not otherwise withdrawn or reserved for a Federal use or purpose.

2. Comments were received during the 60 days following publication of the Notice of Proposed Classification (33 F.R. 15351). Comments were also received at the public hearing of October 30, 1968, at Dubois, Idaho. All comments concerning the proposed classification have been considered and carefully evaluated. Two tracts of land, SE¼SE¼, sec. 17, and NW¼SW¼, sec. 21, T. 10 N., R. 33 E., Boise Meridian, in the notice of proposed classification are not included in this notice of classification. The segregative effect of the notice of proposed classification was canceled by publication of a notice of termination of proposed classification (34 F.R. 2139) as to these two tracts.

The record showing the comments received and other information is on file and can be examined in either the Idaho Falls District Office, Idaho Falls, Idaho, or the Idaho Land Office, Boise, Idaho.

3. The public lands affected by this classification are located within the following-described areas in Clark County and are shown on maps on file in the Idaho Falls District Office, Idaho Falls, Idaho, and the Idaho Land Office, Boise, Idaho:

T. 10 N., R. 39 E.,
Sec. 8, E½E½;
Sec. 9;
Secs. 16 through 18, inclusive.

The area described aggregates approximately 301,300 acres.

4. As provided in paragraph 1 above, the following lands are further segregated from appropriation under the general mining laws:

BOISE MERIDIAN, IDAHO

PASS CREEK RECREATION SITE

T. 9 N., R. 29 E.,
Sec. 3, SW¼SW¼.

RENO DIVERSION SITE

T. 8 N., R. 30 E.,
Sec. 3, S½NE¼, N½SE¼.

JOHN DAY RECREATION SITE

T. 9 N., R. 30 E.,
Sec. 5, lots 2 and 3, S½NE¼, SE¼NW¼, N½SE¼, SE¼SE¼;
Sec. 8, NE¼NE¼;
Sec. 9, SW¼NW¼, W½SW¼, SE¼SW¼.

SCOTT BUTTE RECREATION SITE

T. 9 N., R. 30 E.,
Sec. 21, E½E½.

BIRCH CREEK CROSSING RECREATION SITE

T. 9 N., R. 30 E.,
Sec. 27, SW¼NW¼, NW¼SW¼;
Sec. 28, SE¼NE¼, NE¼SE¼.

RENO DITCH RECREATION SITE

T. 8 N., R. 31 E.,
Sec. 7, SE¼SE¼;
Sec. 17, NW¼NW¼;
Sec. 18, NE¼NE¼.

WARM SPRINGS ARCHEOLOGICAL SITE

T. 11 N., R. 32 E.,
Sec. 25, E½NE¼.

MEDICINE LODGE RECREATION SITE NO. 1

T. 11 N., R. 33 E.,
Sec. 2, lot 4 and SW¼NW¼;
Sec. 3, lot 1 and SE¼NE¼.

HORSE PASTURE RECREATION SITE

T. 11 N., R. 33 E.,
Sec. 12, NW¼NE¼.

SPRING HOLLOW ARCHEOLOGICAL SITE

T. 12 N., R. 33 E.,
Sec. 22, NE¼NW¼.

MEDICINE LODGE RECREATION SITE NO. 2

T. 11 N., R. 34 E.,
Sec. 17, NW¼NW¼;
Sec. 18, NE¼NE¼.

PATELZICK CREEK RECREATION SITE NO. 1

T. 12 N., R. 35 E.,
Sec. 24, SE¼NE¼NE¼, NE¼SE¼NE¼.
T. 12 N., R. 36 E.,
Sec. 19, SW¼NW¼NW¼, NW¼SW¼NW¼.

PATELZICK CREEK RECREATION SITE NO. 2

T. 12 N., R. 36 E.,
Sec. 19, NE¼SW¼.

These areas aggregate 1,644.84 acres.

5. For a period of 30 days from date of publication in the FEDERAL REGISTER, this classification shall be subject to the exercise of administrative review and modification by the Secretary of the Interior as provided for in 43 CFR 2411.2c. For a period of 30 days, interested parties may submit comments to the Secretary of the Interior, LLM, 721, Washington, D.C. 20240.

JOE T. FALLINI,
State Director.

[F.R. Doc. 69-8073; Filed, July 9, 1969; 8:45 a.m.]

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service

DOMESTIC BEET SUGAR PRODUCING AREA

1970 Crop Proportionate Shares

Notice is hereby given that the Secretary of Agriculture, acting pursuant to the Sugar Act of 1948, as amended, will conduct a hearing to receive the views and recommendations of interested persons on the need for establishing proportionate shares (farm acreage allotments) for the 1970 crop of sugarbeets in the Domestic Beet Sugar Area. Also, for use by the Secretary if he determines that proportionate shares are needed, views and recommendations are desired on all phases of the proportionate share program, including the level of the National Sugarbeet Acreage Requirement.

In accordance with the provisions of paragraph (1), subsection (b) of section 302 of the Sugar Act of 1948, as amended (7 U.S.C. 1132(b)), the Secretary must determine for each crop year whether the production of sugar from any crop of sugarbeets will, in the absence of proportionate shares, be greater than the quantity needed to enable the area to meet its quota and provide a normal carryover inventory, as estimated by the Secretary for such area for the calendar year during which the larger part of the sugar from such crop normally would be marketed. Such determination may be made only after due notice and opportunity for an informal public hearing.

The hearing on this matter will be conducted in the Hotel Canterbury, 750 Sutter Street, San Francisco, Calif., beginning at 10 a.m. on July 23, 1969.

Proportionate shares are not in effect for the current crop and were not in effect for either the 1967 or 1968 crops of sugarbeets. Latest estimates indicate that sugar production from 1968-crop acreage of about 1,495,000 will total approximately 3,502,000 short tons, raw value. Latest industry estimates indicate that 1969-crop acreage planted or to be planted will total about 1,650,000.

Views and recommendations on the need for establishing proportionate shares and the details of the program may be presented orally at the hearing, preferably supported in writing by an original and two copies of the oral statement. Views and recommendations may also be submitted in writing (original and two copies) at the hearing without an oral presentation or they may be mailed to the Director, Sugar Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C. 20250, postmarked not later than August 15, 1969.

All written submissions made pursuant to this notice will be made available for public inspection at such times and places in a manner convenient to the public business (7 CFR 1.27(b)).

Signed at Washington, D.C., on July 2, 1969.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

JOHNS HOPKINS UNIVERSITY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of

the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651, 80 Stat. 897) and the regulations issued thereunder (32 F.R. 2433 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Scientific Instrument Evaluation Division, Department of Commerce, Washington, D.C.

Docket No. 69–00452–00–46040. Applicant: Johns Hopkins University, Purchasing Department, Baltimore, Md. 21218. Article: Conversion kit for electron gun (Siemens). Manufacturer: Siemens AG, West Germany. Intended use of article: The article will be used to convert the fixed high-voltage electron-gun cable of an existing electron microscope to a plug connection. Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article is an accessory for a priorly imported electron microscope which was manufactured by the same source from which the accessory is being purchased. The Department of Commerce knows of no similar accessory being manufactured in the United States which is interchangeable with the foreign article, or can readily be adapted to the electron microscope with which the foreign article is intended to be used.

CHARLEY M. DENTON,
Assistant Administrator for Industry Operations, Business and Defense Services Administration.

[F.R. Doc. 69–8091; Filed, July 9, 1969; 8:47 a.m.]

NORTHEASTERN UNIVERSITY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651, 80 Stat. 897) and the regulations issued thereunder (32 F.R. 2433 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Scientific Instrument Evaluation Division, Department of Commerce, Washington, D.C.

Docket No. 69–00335–65–46040. Applicant: Northeastern University, 360 Huntington Avenue, Boston, Mass. 02115. Article: Electron microscope, Model JEM–120. Manufacturer: Japan Electron Optics Laboratory Co., Ltd., Japan. Intended use of article: The article will be used in a wide range of research and teaching programs in materials science. The graduate research programs will have as their scientific objectives a detailed and quantitative understanding of the role of structure on the following phenomena: (1) Deformation characteristics of single and two-phase materials, (2) fracture at high temperature and pressure, (3) precipitation and phase transformations in alloys, (4) interaction among point defects, (5) electrical and optical properties of metallic, semiconducting, and insulating thin films. Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for the purposes for which the article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides a maximum accelerating voltage of 120 kilovolts. The most closely comparable domestic electron microscope is the Model EMU–4B manufactured by the Radio Corporation of America (RCA). The RCA Model EMU–4B has a maximum accelerating voltage of 100 kilovolts. The higher accelerating voltage affords more penetrating power for the electron beam, which is necessary in investigating the properties of thicker specimens and, therefore, is pertinent for the purposes for which the foreign article is intended to be used.

For these reasons, we find that the RCA EMU–4B electron microscope is not of equivalent scientific value to the foreign article for the purposes for which such article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

CHARLEY M. DENTON,
Assistant Administrator for Industry Operations, Business and Defense Services Administration.

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder (32 F.R. 2433 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Scientific Instrument Evaluation Division, Department of Commerce, Washington, D.C.

Docket No. 69-00580-00-10100. Applicant: Stanford University, 820 Quarry Road, Palo Alto, Calif. 94304. Article: Temperature-jump apparatus accessories. Manufacturer: Messanlagen Studiengesellschaft GmbH., West Germany. Intended use of article: The article will be used to update a temperature-jump apparatus used to study the kinetics of fast reactions in solution. Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: Application relates to replacement parts for temperature-jump apparatus which had been priorily imported from the same foreign source from which the parts have been purchased. The Department of Commerce knows of no similar replacement parts that are interchangeable with those described in the application, or which can be readily adapted to the equipment in which these parts are to be used.

CHARLEY M. DENTON,
Assistant Administrator for Industry Operations, Business and Defense Services Administration.

[F.R. Doc. 69-8095; Filed, July 9, 1969; 8:47 a.m.]

STATE UNIVERSITY OF NEW YORK

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder (32 F.R. 2433 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Scientific Instrument Evaluation Division, Department of Commerce, Washington, D.C.

Docket No. 69-00349-00-87200. Applicant: State University of New York, Stony Brook, N.Y. 11790. Article: Tandem Voltage regulator, Model TVS-11. Manufacturer: Elron Electronic Industries, Ltd., Israel. Intended use of article: The article will be used for readjusting terminal voltage of the electrostatic voltage producing machine during research and graduate study. Comments: No comments received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article is a tandem voltage regulator with the capability of stabilizing the terminal voltage of a Van de Graaff Accelerator in the applicant's possession without the necessity of modifying the existing accelerator.

We are advised by the National Bureau of Standards (NBS) in a memorandum dated April 15, 1969, that the only known comparable domestic instrument, the Model 9024 Slit Feedback System manufactured by Varian Associates (Varian), Palo Alto, Calif., would require considerable modification of the existing accelerator. We therefore find that the Varian Model 9024 Slit Feedback System is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus being manufactured in the United States which is of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

CHARLEY M. DENTON,
Assistant Administrator for Industry Operations, Business and Defense Services Administration.

[F.R. Doc. 69-8096; Filed, July 9, 1969; 8:47 a.m.]

UNIVERSITY OF ILLINOIS

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder (32 F.R. 2433 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Scientific Instrument Evaluation Division, Department of Commerce, Washington, D.C.

Docket No. 69-00337-98-77030, Applicant: University of Illinois at Chicago, Circle, 601 South Morgan Street, Chicago, Ill. 60607. Article: Nuclear magnetic resonance pulse spectrometer, pulse gated integrater, and liquid helium probe head, Model B-KR 322 S. Manufacturer: Bruker, West Germany. Intended use of article: The article will be used to produce the requisite train of pulses to insure saturation in the study of magnetic alloys at high and low temperatures. Previous studies on the magnetic alloys of rate earths with hydrogen have shown that microscopic information on magnetization distribution in the paramagnetic state can be obtained by using steady state nuclear magnetic resonance techniques. The application of pulse NMR techniques (using the hydrogen (proton) nucleus and in some cases the rare earth nucleus) can be even more fruitful. Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for the purposes for which the article is intended to be used, is being manufactured in the United States. Reasons: The foreign article is a nuclear magnetic pulse spectrometer which has the capabilities of a frequency crystal controlled with a stability of one part in one hundred million (10^8) and a frequency range variable in 20 kilohertz steps over a 4 to 62 megahertz range. We are advised by the National Bureau of Standards (NBS) in a memorandum dated April 25, 1969, that the capabilities of a frequency crystal controlled with a stability of one part in one hundred million and a frequency range variable in 20 kilohertz steps over a range of 4 to 62 megahertz are both pertinent characteristics. NBS further advises that it knows of no instrument or apparatus being manufactured in the United States of equivalent scientific value to the foreign article for the purposes for which the foreign article is intended to be used.

CHARLEY M. DENTON,
Assistant Administrator for Industry Operations, Business and Defense Services Administration.

Docket No. 69–00574–00–46040. Applicant: University of Illinois, Purchasing Division, 223 Administration Building, Urbana, Ill. 61801. Article: Accessories to an electron microscope, Model Elmiskop IA. Manufacturer: Siemens AG, West Germany. Intended use of article: The article will be used as an attachment to an existing electron microscope to improve the quality of the electron micrographs obtained in studies concerning plant viruses, bacterial spores, Drosophilia eggs, and lipid absorption of the jejunum. Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article is an accessory for a priorily imported electron microscope which was manufactured by the same source from which the accessory is being purchased. The Department of Commerce knows of no similar accessory being manufactured in the United States which is interchangeable with the foreign article, or can readily be adapted to the electron microscope with which the foreign article is intended to be used.

CIVIL AERONAUTICS BOARD

[Docket Nos. 19047, 21163; Order 69–7–28]

TRANSCONTINENTAL BUS SYSTEM, INC., ET AL.

Order Regarding Family Fare Tariffs

Adopted by the Civil Aeronautics Board at its office in Washington D.C., on the 3d day of July 1969.

Family fare tariffs complaint of Transcontinental Bus System, Inc., Docket No. 19047; investigation of currently effective family fare tariffs, Docket No. 21163.

On June 13, 1969 the U.S. Court of Appeals for the First Circuit set aside our decision in this proceeding (Order E–26431, February 29, 1968) insofar as it dismissed the complaint of Transcontinental Bus System, Inc. against the effective family fare tariffs of 28 air carriers without conducting an investigation of whether such tariffs were unreasonable and unjustly discriminatory. Trailways of New England, et al. v. Civil Aeronautics Board, C.A. 1, Nos. 7112 and 7162. The Court concluded that "petitioners are entitled to the investigation sought in the complaint," and remanded the case to the Board for further proceedings consistent with its opinion.

In order to comply with the judgment of the Court, we shall vacate our earlier order and direct the institution of an investigation of the presently effective family fare tariffs of the various air carriers.

Accordingly, pursuant to the judgment of the U.S. Court of Appeals for the First Circuit, and pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 404, and 1002 thereof:

It is ordered, That:

1. Order E–26431, adopted February 29, 1968, be and the same hereby is vacated.

2. An investigation be instituted under Docket 21163 to determine whether the fares and provisions described in Appendix A hereto,[1] including subsequent revisions and reissues thereof, and rules, regulations, and practices affecting such fares and provisions are or will be unjust or unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful fares and provisions, and rules, regulations or practices affecting such fares and provisions.

3. Copies of this order be served upon Trailways of New England, Inc., Transcontinental Bus System, Inc., Air West, Inc., Alaska Airlines, Inc., Allegheny Airlines, Inc., Aloha Airlines, Inc., American Airlines, Inc., Apache Airlines, Inc., Aspen Airways, Inc., Braniff Airways, Inc., Cape and Island Flight Service, Inc., Combs Airways, Inc., Command Airways, Inc., Continental Airlines, Inc., Crown Airways, Inc., Delta Air Lines, Inc., Downeast Airlines, Inc., Eastern Air Lines, Inc., Executive Airlines, Inc., Frontier Airlines, Inc., Hawaiian Airlines, Inc., Henson Aviation, Inc., Mohawk Airlines, Inc., National Airlines, Inc., North Central Airlines, Inc., Northeast Airlines, Inc., Northwest Airlines, Inc., Ozark Air Lines, Inc., Pan American World Airways, Inc., Pennsylvania Commuter Airlines (Division of L. B. Smith Aircraft Corp. of Pa.), Piedmont Aviation, Inc., Pocono Airlines, Inc., Ransome Air, Inc., doing business as Ransome Airlines, Sedalia, Marshall, Boonville Stage Line, Inc., Southern Airways, Inc., Trans Caribbean Airways, Inc., Texas International Airlines, Inc., Trans World Airlines, Inc., United Air Lines, Inc., Vercoa Air Service, Inc., Western Air Lines, Inc., and they are hereby made parties to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] MABEL MCCART,
Acting Secretary.

[F.R. Doc. 69–8144; Filed, July 9, 1969; 8:50 a.m.]

[Docket No. 21162; Order 69–7–32]

OHIO/INDIANA POINTS NONSTOP SERVICE INVESTIGATION

Order Instituting Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 7th day of July 1969.

For the reasons set forth below, the Board has decided to institute a proceeding designated as the Ohio/Indiana Points Nonstop Service Investigation. The investigation will focus on the need for first competitive nonstop service between Cincinnati, Columbus, Dayton, and Indianapolis, on the one hand, and Philadelphia and Los Angeles, on the other hand. We will also consider whether one or more additional carriers should be authorized to operate nonstop between Indianapolis, on the one hand, and Cleveland and Pittsburgh, on the other hand. The Ohio-Indiana points in issue are among the largest in their respective states. Each of the above 10 markets is a TWA monopoly nonstop market, and

[1] Filed as part of the original document.

experienced traffic in each has been relatively heavy, ranging from almost 36,000 passengers to about 66,000 passengers in 1967. We conclude, therefore, that these circumstances warrant consideration of the need for competitive nonstop authority.

In order to limit the size and complexity of the investigation, we shall impose a pretrial restriction requiring that any new certificate authority awarded pursuant to this proceeding shall be in the form of a new segment instead of an addition to an existing segment, and that each new segment shall be limited to one of the 10 markets.

There are presently on file applications from carriers in part requesting authority which would be at issue in the investigation as hereinabove described. Rather than severing out portions of these applications for consolidation, sua sponte, we shall await the filing of new motions seeking consolidation of applications or parts thereof which are within the scope of the investigation.[1]

Interested applicants, of course, may file amended or additional applications consistent with the scope of the investigation within the time for filing as hereinafter established. However, in the event new or amended applications for new or additional routes consistent with the scope of this case are filed, each applicant should file one new composite application covering clearly and specifically all of the authority sought in this proceeding. This procedure will obviate the confusion resulting from the consolidation of several separately-filed applications or portions thereof and will assist the parties, the Examiner, and the Board in analyzing and considering the precise proposals of each applicant.

Accordingly, it is ordered, That:

1. An investigation designated as the Ohio/Indiana Points Nonstop Service Investigation, be and it hereby is instituted in Docket 21162 pursuant to sections 204(a) and 401(g) of the Federal Aviation Act of 1958, as amended, to determine whether the public convenience and necessity require the alteration, amendment, or modification of any air carrier certificates so as to authorize competitive nonstop service in the following markets:

Philadelphia-Cincinnati
Philadelphia-Columbus
Philadelphia-Dayton
Philadelphia-Indianapolis
Los Angeles-Cincinnati
Los Angeles-Columbus
Los Angeles-Dayton
Los Angeles-Indianapolis
Indianapolis-Pittsburgh
Indianapolis-Cleveland

2. Any authority awarded herein shall be without subsidy eligibility and shall be in the form of a separate segment;

3. Motions to consolidate, applications, and motions or petitions seeking modifications or reconsideration of this order shall be filed no later than 20 days after the service date of this order and answers to such pleadings shall be filed no later than 10 days thereafter;

4. This proceeding shall be set for hearing at a time and place to be hereafter designated; and

5. A copy of this order shall be served upon the State of California, State of Indiana, State of Ohio, State of Pennsylvania; the cities of Cincinnati, Cleveland, Columbus, Dayton, Indianapolis, Los Angeles, Philadelphia, and Pittsburgh; Air West, Inc., Airlift International, Inc., Allegheny Airlines, Inc., American Airlines, Inc., Braniff Airways, Inc., Continental Air Lines, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., The Flying Tiger Line, Inc., Frontier Airlines, Inc., Mohawk Airlines, Inc., National Airlines, Inc., North Central Airlines, Inc., Northeast Airlines, Inc., Northwest Airlines, Inc., Ozark Air Lines, Inc., Piedmont Aviation, Inc., Southern Airways, Inc., Texas International Airlines, Inc., United Air Lines, Inc., and Western Air Lines, Inc.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
Secretary.

[F.R. Doc. 69-8145; Filed, July 9, 1969; 8:51 a.m.]

[Docket No. 21169; Order 69-7-36]

TIME PAYMENT PLAN TARIFF

Order of Investigation

Revisions to the time payment plan tariff proposed by 11 U.S. carriers and one Canadian carrier.

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 7th day of July 1969.

By tariff revisions [1] filed May 29, 1969, and marked to become effective July 1, 1969, 11 U.S. carriers [2] and one Canadian carrier [3] propose certain revisions in their deferred payment charges associated with their time payment plan. In addition, Eastern is proposing to become a participant in the tariff for the first time. The revised charges generally involve (a) an increase in minimum charges from $5 to $10; (b) an increase in interest charges from approximately 18 percent to 24 percent per annum for unpaid balances of $2,000 or less; and (c) a decrease in annual interest charges from approximately 18 percent to about 17 percent for unpaid balances of $3,000 to $5,000, with interest rates decreasing gradually for balances between $2,000 and $3,000.

No complaints have been filed.

Upon consideration of all relevant matters, the Board finds that the carriers' proposed increases in deferred payment charges related to the time payment plan may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and should be investigated.

The carriers' proposal involves raising the deferred payment charges by amounts ranging between 33 percent and 100 percent of present charges. An increase in charges of this magnitude must be justified by an adequate showing that the current charges are not economic and that the proposed charges are not excessive in the light of costs and/or other factors. However, no explanation of the revised charges or statements supporting the proposed tariff revisions have been provided.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof:

It is ordered, That:

1. An investigation is instituted to determine whether the charges and provisions described in Appendix A attached hereto,[4] including subsequent revisions and reissues thereof, and rules, regulations, and practices affecting such charges and provisions, are or will be unjust or unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful charges and provisions, and rules, regulations, or practices affecting such charges and provisions;

2. This investigation be assigned for hearing before an examiner of the Board at a time and place to be hereafter designated; and

3. A copy of this order shall be served on Alaska Airlines, Inc., American Airlines, Inc., Braniff Airways, Inc., Canadian Pacific Air Lines, Ltd., Continental Air Lines, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., National Airlines, Inc., Northeast Airlines, Inc., Trans World Airlines, Inc., Western Air Lines, Inc., and Wien Consolidated Airlines,

[1] Allegheny has filed a Subpart M application, Docket 20085, requesting Philadelphia - Columbus/Dayton/Indianapolis nonstop authority. Allegheny's application is being dismissed by Order 69-7-33 issued contemporaneously herewith, so that the needs of the Philadelphia-Ohio/Indiana points markets may be considered in the single proceeding instituted herein focusing on first competitive east-west nonstop service for the Ohio/Indiana points. For the same reason, we are also dismissing by Order 69-7-34 issued contemporaneously herewith, American's Subpart N applications, Dockets 20892 and 20893, requesting Indianapolis-Los Angeles nonstop authority and Cincinnati-Los Angeles nonstop authority, respectively. United's application, Docket 20127, requesting, inter alia, Columbus/Dayton-Los Angeles/Philadelphia nonstop authority and Delta's application, Docket 18499, requesting, inter alia, Dayton/Indianapolis-Los Angeles nonstop authority are also being dismissed by Order 69-7-35 issued contemporaneously herewith, for the reasons set forth in that order.

[1] Revisions to Airline Tariff Publishers, Inc., Agent, Tariff C.A.B. No. 116.

[2] The U.S. carriers participating in this tariff are: Alaska Airlines, Inc., American Airlines, Inc., Braniff Airways, Inc., Continental Air Lines, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., National Airlines, Inc., Northeast Airlines, Inc., Trans World Airlines, Inc., Western Air Lines, Inc., and Wien Consolidated Airlines, Inc.

[3] The one Canadian carrier participating in this tariff is Canadian Pacific Air Lines, Ltd.

[4] Filed as part of the original document.

Inc., which are made parties to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[5]

[SEAL] HAROLD R. SANDERSON,
Secretary.

[F.R. Doc. 69-8146; Filed, July 9, 1969; 8:51 a.m.]

FEDERAL MARITIME COMMISSION

PACIFIC COAST EUROPEAN CONFERENCE

Notice of Agreement Filed for Approval

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763; 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1202; or may inspect agreements at the office of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the comments should indicate that this has been done.

Notice of agreement filed for approval by:

Mr. David Lindstedt, Chairman, Pacific Coast European Conference, 417 Montgomery Street, San Francisco, Calif. 94104.

Agreement No. 5200-27 between the member lines of the Pacific Coast European Conference deletes from the basic agreement the present requirement for payment of $12,500 by a carrier seeking readmission to conference membership within a period of 3 years from the date of resignation or expulsion therefrom.

Dated: July 7, 1969.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

[F.R. Doc. 69-8128; Filed, July 9, 1969; 8:49 a.m.]

PACIFIC WESTBOUND CONFERENCE ET AL.

Agreements Filed Pursuant to Commission Decision; Clarification

Notice is hereby given that in the notice of publication with respect to the subject agreements appearing in the FEDERAL REGISTER, Volume 34, No. 128, Friday, July 4, 1969, the caption appearing on page 11282 should read "Notice of Agreements Filed Pursuant to Commission Decision", and the line immediately preceding the name of counsel appearing on page 11283 should read "Notice of Agreements Filed By".

This notice of clarification is not intended to change the due date of comments which may be submitted with reference to the subject agreements.

Dated: July 8, 1969.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

[F.R. Doc. 69-8196; Filed, July 9, 1969; 8:51 a.m.]

[5] Concurring and dissenting statement of Vice Chairman Murphy and Member Minetti filed as part of the original document.

DEPARTMENT OF TRANSPORTATION

Hazardous Materials Regulations Board

SPECIAL PERMITS ISSUED

JULY 2, 1969.

Pursuant to docket No. HM-1, Rule-making Procedures of the Hazardous Materials Regulations Board, issued May 22, 1968 (33 F.R. 8277), 49 CFR Part 170, following is a list of DOT Special Permits upon which Board action was completed during June 1969:

Special permit No.	Issued to—Subject	Mode or modes of transportation
AA208	ASM Enterprises, Incorporated, for the use of U-69 type cargo tanks in liquefied petroleum gas service.	Highway.
5935	Wacker Chemical Corporation, for the shipment of silicon chloride in a non-DOT specification reusable stainless steel cylindrical container of not over 5½ gallons capacity.	Water and highway.
5943	U.S. Atomic Energy Commission and the Department of Defense for the shipment of large quantities of nongamma radioactive material in the Sandia Corporation Model No. AL-S4 Shipping Container.	Cargo-only and passenger-carrying aircraft, highway, and rail.
5975	Shippers upon specific registration with this Board, for the shipment of special form fissile radioactive materials in the Schlumberger Well Services Model NLS-L or NLS-M Logging Tool, within a carrier shield and DOT-15A wooden box or equivalent.	Cargo-only and passenger-carrying aircraft, highway, and rail.
5981	Shippers upon specific registration with this Board, for the shipment of fissile radioactive materials in the NERVA Fuel Element Shipping Container.	Cargo-only aircraft, highway, and rail.
5982	Shippers upon specific registration with this Board, for the shipment of fissile radioactive materials in the TRIGA Fuel Element (unirradiated) Shipping Container.	Water, cargo-only, and passenger-carrying aircraft, highway, and rail.
5985	Nuclear Fuel Services, Inc., for the shipment of low specific activity radioactive material in sealed inner metal cans, overpacked in DOT-17C, 17H, or 37A 5-gallon packagings.	Water, highway and rail.
5989	Shippers upon specific registration with this Board, for the shipment of rubber buffings in DOT-44P plastic bags.	Highway and rail.
5993	Fresno Oxygen and Welding Suppliers, Inc., for the shipment of oxygen, argon, nitrogen, helium, compressed air, and mixtures thereof in DOT-3A and 3AA cylinders having a 10-year hydrostatic retest period.	Highway and rail.
5995	Chemetron Noury Corp., for the shipment of certain benzoyl peroxide pastes in a single-trip, open-head, molded polyethylene container without overpack.	Highway and rail.
5996	Power-Pak Products, Inc., for the shipment of a dry powder fire extinguisher incorporating a non-DOT specification seamless aluminum cylinder.	Water, highway, and rail.
5998	Shippers upon specific registration with this Board, for the shipment of large quantities of radioactive materials in the General Electric Corp., Model 400, 500, 900, 1000, 1100, or 1400 Shielded Container.	Water, cargo-only aircraft, highway, and rail.
6001	Shippers upon specific registration with this Board, for the shipment of fissile radioactive material in the modified DOT-6L Model AX-20036.	Highway.
6002	Shippers upon specific registration with this Board, for the shipment of fissile radioactive material in the Model S3W/S4W New Subassembly Shipping Container.	Cargo-only aircraft, highway, and rail.
6003	Shippers upon specific registration with this Board, for the shipment of fissile and large quantities of radioactive material in the M-130 Standardized Spent Fuel Shipping Container.	Water, highway, and rail.
6006	Shippers upon specific registration with this Board, for the shipment of liquid cleaning compounds containing not more than 30 percent hydrofluoric acid, in DOT-37M/2SL cylindrical steel packagings.	Highway and rail.
6009	Stauffer Chemical Co., for the shipment of ethyl chlorothiolformate in DOT-51 portable tanks.	Water, highway, and rail.
6010	Lee S. Wolfe & Co., for the shipment of oxygen, nitrogen, argon, hydrogen, helium, and mixtures thereof in DOT-3A and 3AA cylinders having a 10-year hydrostatic retest period.	Highway and rail.
6011	Mitsubishi International Corp., for one shipment of special form fissile radioactive material in Mitsubishi Atomic Power Industries cylindrical steel packages.	Cargo-only aircraft.
6012	Shippers upon specific registration with this Board, for the shipment of type B quantities of special form radioactive materials in the French Model No. GN 150 (BZ 150B) Packaging.	Cargo-only aircraft and highway.
6013	Walter Kidde & Co., Inc., for the shipment of helium in a device consisting of a high pressure non-DOT specification welded cylinder.	Cargo-only aircraft, highway, and rail.
6014	Shippers upon specific registration with this Board, for the shipment of corrosive liquids (which must be identified to the Board), in non-DOT specification cylinders conforming with DOT-4B, 4BA, or 4BW except for DOT specification marking.	Highway and rail.
6015	Alabama Oxygen Co., Inc., for the shipment of oxygen, nitrogen, argon, helium, compressed air, and mixtures thereof in DOT-3A and 3AA cylinders having a 10-year hydrostatic retest period.	Highway and rail.
6016	Air Reduction Co., Inc., for the shipment of liquefied oxygen, nitrogen, or argon in modified Airco VE-500 and VE-800 cryogenic portable tanks.	Highway.
6017	Mason & Hanger-Silas Mason Co., for one shipment of bulk quantities of trinitrotoluene in special cylindrical tank-type devices.	Highway.
6018	Monsanto Co., for the shipment of anhydrous ammonia in proposed DOT Specification 120A300W tank car tanks.	Rail.
6019	Shippers upon specific registration with this Board, for the shipment of propylene, butadiene, and other compressed gases authorized in DOT-112A series tank car tanks, in DOT-112A400W tank car tanks which may be designed to E=1.0 under 49 CFR 179.100-6 and which may be constructed of AAR Specification M-128-B steel.	Rail.
6020	H.M.H. Corporation, for the shipment of a dichlorodifluoromethane powered fire alarm unit.	Highway and rail.

Special permit No.	Issued to—Subject	Mode or modes of transportation
6021	U.S. Atomic Energy Commission for the shipment of tritiated heavy water in DOT-5B or 42B drums overpacked in special outer containers.	Highway.
6034	Shippers upon specific registration with this Board, for the shipment of propylene oxide in DOT-105A200W tank car tanks which may be designed on the basis of E=1.0 under § 179.100-6, and which may be fabricated from ASTM A-515 Grade 70 steel.	Rail.

WILLIAM C. JENNINGS,
Chairman, Hazardous Materials Regulations Board.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-3909]

BSF CO.

Order Suspending Trading

JULY 3, 1969.

The capital stock (66⅔ cents par value) and the 5¾ percent convertible subordinated debentures due 1969 of BSF Co. being listed and registered on the American Stock Exchange, and such capital stock being listed and registered on the Philadelphia-Baltimore-Washington Stock Exchange pursuant to provisions of the Securities Exchange Act of 1934; and all other securities of BSF Co. being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such exchanges and otherwise than on a national securities exchange is required in the public interest and for the protection of investors:

It is ordered, Pursuant to sections 15(c)(5) and 19(a)(4) of the Securities Exchange Act of 1934, that trading in the said capital stock on such exchanges and in the debentures on the American Stock Exchange, and trading otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period July 4, 1969, through July 13, 1969, both dates inclusive.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F.R. Doc. 69-8074; Filed, July 9, 1969; 8:45 a.m.]

CAPITOL HOLDING CORP.

Order Suspending Trading

JULY 3, 1969.

It appearing to the Securities and Exchange Commission that the summary suspension of trading otherwise than on a national securities exchange in the common stock and all other securities of Capitol Holding Corp. is required in the public interest and for the protection of investors:

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period July 4, 1969, through July 13, 1969, both dates inclusive.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[812-2448]

DIKEWOOD FUND, INC.

Notice of and Order for Hearing on Application for Order of Exemption

JULY 3, 1969.

Notice is hereby given that the Dikewood Fund, Inc. ("Applicant"), 1009 Bradbury Drive SE., Albuquerque, N. Mex. 87106, an open-end, nondiversified management investment company registered under the Investment Company Act of 1940 (the "Act"), has applied pursuant to section 6(c) of the Act for an order exempting Applicant from Rule 22c-1 of the rules and regulations under the Act to the extent that said rule requires that shares of Applicant be priced for sale on the day orders for the purchase of such shares are received. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

Applicant presently offers its shares for sale only on the last trading day of each week on the New York Stock Exchange. The shares are valued on the basis of closing prices on that day. All orders received during the week are executed at these closing prices, but may be canceled or withdrawn by the investor at any time prior to execution.

As of December 31, 1968, applicant had 183 shareholders and net assets of approximately $353,000. From August 1968, when shares of Applicant were first offered to the public, to the end of 1968, 189 separate orders for the purchase of Applicant's shares were executed. This is an average of about 10 purchase orders per week. Applicant estimates that it costs approximately $75 for each calculation of net asset value.

Rule 22c-1 provides, in part, that redeemable securities of registered investment companies must be sold, redeemed, or repurchased at a price based on the current net asset value (computed on each day during which the New York Stock Exchange is open for trading not less frequently than once daily as of the time of the close of trading on such exchange) which is next computed after receipt of a tender of such security for redemption or of an order to purchase or sell such security.

Applicant assets that in views of its relatively small asset size and the limited number of transactions in its shares, the addition cost imposed by daily pricing of Applicant's shares would be an excessive financial burden.

Applicant represents that its pricing method, under which shares are prospectively valued, is consistent with the objective of Rule 22c-1 to prevent dilution in the value of shares and prevent short-term speculation resulting from sale of shares at a previously determined price, and would afford its shareholders the opportunity to shape the policies of their fund in the manner deemed best by them.

Section 6(c) of the Act provides, in part, that the Commission may conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions from any provision of the Act or of any rule or regulation under the Act, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

It appears to the Commission that it is appropriate in the public interest and in the interest of investors that a hearing be held with respect to the said application.

It is ordered, Pursuant to section 40(a) of the Act, that a hearing on the aforesaid application under the applicable provisions of the Act and the rules of the Commission thereunder be held on the fourth day of August 1969, at 10 a.m. l.t., in room 3010, New Federal Building, 500 Gold SW., Albuquerque, N. Mex. 87101. Any person, other than the Applicant, desiring to be heard or otherwise wishing to participate in the proceeding is directed to file with the Secretary of the Commission, on or before the 31st day of July 1969, his application pursuant to Rule 9(c) of the Commission's rules of practice. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address noted above, and proof of service (by affidavit, or, in the case of an attorney at law by certificate) shall be filed contemporaneously with the request. Persons filing an application to participate or be heard will receive notice of any adjournment of the hearing as well as other actions of the Commission involving the subject matter of these proceedings.

It is further ordered, That any officer or officers of the Commission to be designated by it for that purpose shall preside at said hearing. The officer so designated is hereby authorized to exercise all the powers granted to the Commission under sections 41 and 42(b) of the Act, and to a hearing officer under the Commission's rules of practice.

The Division of Corporate Regulation has advised the Commission that it has made a preliminary examination of the application, and that upon the basis thereof the following matters are presented for consideration without prejudice to its specifying additional matters upon further examination:

Whether the exemption requested is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

It is further ordered, That at the aforesaid hearing attention be given to the foregoing matters.

It is further ordered, That the Secretary of the Commission shall give notice of the aforesaid hearing by mailing copies of this order by certified mail to the Applicant, and that notice to all persons shall be given by publication of this order in the FEDERAL REGISTER; and that a general release of the Commission in respect of this order be distributed to the press and mailed to the mailing list for releases.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[812-2377]

FML GROWTH FUND, INC., AND FML FUNDS DISTRIBUTION CO.

Notice of Filing of Application for Order of Exemption

JULY 1, 1969.

Notice is hereby given that FML Growth Fund, Inc. ("FML Fund"), an open-end investment company, registered under the Investment Company Act of 1940 (the "Act") and FML Funds Distribution Co. ("FML Distribution"), Post Office Box 7318, Philadelphia, Pa. 19101, the distributor of the shares of FML Fund, have applied pursuant to section 6(c) of the Act for an order of exemption from the provisions of section 22(d) of the Act to permit the sale of FML Fund shares, without the usual sales charge, to the officers, directors or full-time employees for a period of at least 90 days of the Fidelity Mutual Life Insurance Co. ("Fidelity"), the parent of FML Distribution and FML Funds Advisory Corp. ("FML Advisory"), the investment adviser to FML Fund. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

Shares of FML Fund are customarily sold with a maximum sales charge of 7½ percent of the public offering price. Officers, directors, and employees of FML Fund, FML Advisory, or FML Distribution, who have acted as such for at least 90 days, may purchase FML Fund shares at net asset value without a sales charge, provided the purchaser supplies written assurance that the purchase is made for investment purposes and that shares so acquired will not be resold except through regular redemption by FML Fund.

All persons engaged in activities on behalf of FML Advisory and FML Distribution are employees of Fidelity. The officers of FML Fund are also officers of Fidelity and FML Fund shares are presently marketed by properly registered agents of Fidelity.

The exemption would allow FML Fund to place Fidelity employees, directors, and officers in a position of equality with employees, directors, and officers of FML Fund, FML Advisory and FML Distribution in respect to purchases of FML Fund Shares, provided the Fidelity employees, directors, and officers also given written assurance that their purchase is made for investment purposes and that they will not be resold except through redemption or repurchase by or on behalf of the issuer. The price at which shares would be sold to such persons would be uniform and would be set forth in the prospectus of FML Fund.

FML Fund and FML Distribution contend that the exemption would aid Fidelity in improving its relationships with its employees and would give recognition to Fidelity's desire not to make a profit from its employees. It is also maintained that the exemption may be granted without detriment to the other shareholders of FML Fund or to the general public.

Section 22(d) of the Act provides that registered investment companies issuing redeemable securities may sell their shares only at a current offering price described in the prospectus. Section 6(c) permits the Commission to exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from any provision or provisions of the Act, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than July 22, 1969, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F.R. Doc. 69-8077; Filed, July 9, 1969; 8:46 a.m.]

[812-2338]

HARTWELL & CAMPBELL FUND, INC., AND H & C SALES CO., INC.

Notice of Filing of Application for Order of Exemption

JULY 1, 1969.

Notice is hereby given that Hartwell & Campbell Fund, Inc. ("H & C Fund"), an open-end investment company, registered under the Investment Company Act of 1940 (the "Act") and its underwriter, H & C Sales Co., Inc. ("H & C Sales"), 245 Park Avenue, New York, N.Y., have applied pursuant to section 6(c) of the Act for an order of exemption from the provisions of section 22(d) of the Act to permit the sale of H & C Fund shares, at net asset value but without the usual sales charge, to the persons who were already shareholders of H & C Fund on May 1, 1968, when its present schedule of sales charges was first imposed. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

From January 31, 1967, to April 30, 1968, shares of H & C Fund were sold at net asset value per share without any sales charge or commission. A sales charge of up to 8½ percent was put into effect on May 1, 1968, at which time H & C Fund had about 4,850 shareholders and net assets of $41,363,258.

Section 22(d) of the Act provides that registered investment companies issuing redeemable securities may sell their shares only at a current offering price described in the prospectus. Section 6(c) permits the Commission to exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from any provision or provisions of the Act, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

H & C Fund and H & C Sales seek an exemption from section 22(d) to permit the sale of shares of H & C Fund without any sales load to any person who has continuously been a shareholder of H & C Fund since on, or before, April 30, 1968, provided that the purchase is made upon the written assurance of the purchasers that the purchase is made for investment purposes and that the shares

will not be resold except through redemption or repurchase by or on behalf of the issuer. The prospectus of H & C Fund will disclose such sales.

H & C Fund and H & C Sales represent that the shareholders who purchased shares of H & C Fund before a sales charge was imposed discovered H & C Fund on their own without the paid services of H & C Sales or any broker-dealer or salesman, and that if in the future they purchase additional shares, no substantial services will be rendered by H & C Sales or any broker-dealer or salesman which would justify the 8½ percent sales charge. Expenses entailed in making future sales to these shareholders will not be greater than those entailed in making the original sales for which no sales charge was collected. H & C Sales states that it does not wish to receive a sales charge on such sales because such charge would serve no useful purpose but would merely be an unearned commission constituting a windfall which it does not desire.

Notice is further given that any interested person may, not later than July 22, 1969, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by the statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon H & C Fund and H & C Sales at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

By the Commission.

[812–2347]

TRANSAMERICA CAPITAL FUND, INC., AND TRANSAMERICA FUND SALES, INC.

Notice of Filing of Application for Order of Exemption

JULY 1, 1969.

Notice is hereby given that Transamerica Capital Fund, Inc. ("Transamerica Fund"), a Delaware corporation and an open-end investment company registered under the Investment Company Act of 1940 ("Act") and Transamerica Fund Sales, Inc. ("Transamerica Fund Sales"), Post Office Box 2438, Los Angeles, Calif. 90054, a Delaware corporation which distributes the shares of Transamerica Fund, have filed an application pursuant to section 6(c) of the Act for an order of exemption from the provisions of section 22(d) of the Act to permit the shares of any registered investment company which is managed by Transamerica Fund Management Co. ("Transamerica Fund Management"), and which shares are distributed by Transamerica Fund Sales, to be sold without the usual sales charge to the approximately 22,621 persons who are related to Transamerica Corp., or one of its subsidiaries, as an officer, director, or full-time employee. Transamerica Fund and Transamerica Fund Sales are sometimes hereafter referred to as "Applicants." All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

Shares of the registered investment companies will ordinarily be offered to the general public at a public offering price which is the net asset value per share at the time of purchase plus a maximum sales charge of 8 percent of the public offering price, reduced on a graduated scale for sales involving larger amounts.

Section 22(d) of the Act provides that registered investment companies issuing redeemable securities may sell their shares only at a current offering price described in the prospectus. Section 6(c) permits the Commission to exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions from any provision or provisions of the Act, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Transamerica Corp. is a company with over 100 subsidiary corporations engaged

in various businesses. Both Transamerica Fund Management and Transamerica Fund Sales are subsidiaries of Transamerica Corp. Applicants seek an exemption from section 22(d) to permit the shares of any registered investment company that is managed by Transamerica Fund Management and whose shares are distributed by Transamerica Fund Sales, to be offered at net asset value to the officers, directors, and full-time employees, who have acted as such for not less than 90 days, of Transamerica Corp., its subsidiaries and affiliates; to any trust, pension, profit sharing, deferred compensation, stock purchase and savings, or other benefit plan for such persons; and to the Transamerica Corp., its subsidiaries and affiliates. Such sales will be made pursuant to a uniform offer described in the prospectus of the investment company involved and will be made only upon the written assurance of the purchaser that the purchase is made for investment purposes and that the securities will not be resold except through redemption or repurchase by or on behalf of the issuer.

Transamerica Fund Sales sells only through its own salesmen who are authorized to sell only the shares sold by Transamerica Sales. Almost every new investment is the result of direct personal contact on the part of one of the salesmen.

No sales expense will be incurred in the sales of shares for which exemption from the provisions of section 22(d) is sought. There will be no personal contact by a sales representative in connection with such sales. Announcement of the availability of shares of the mutual funds involved will be made in a house publication or on a bulletin board of the various subsidiaries and investments will ordinarily be made through a payroll deduction plan. Transamerica Fund Sales will not bear the expense of either the announcements or the payroll deduction plan.

Notice is further given that any interested person may, not later than July 22, 1969, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

By the Commission.

UTAH POWER & LIGHT CO. AND WESTERN COLORADO POWER CO.

Notice of Proposed Mortgage Amendments Removing Limitations on Permissible Bond Indebtedness and of Proposed Solicitation of Proxies

JULY 3, 1969.

Notice is hereby given that Utah Power & Light Co. ("Utah"), 1407 West North Temple Street, Post Office Box 899, Salt Lake City, Utah 84101, a registered holding company and an electric utility company, and its wholly owned electric utility subsidiary company, The Western Colorado Power Co. ("Western"), 423 Main Street, Montrose, Colo. 81401, have filed a joint declaration with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("Act"), proposing an amendment to Utah's Mortgage and Deed of Trust dated as of December 1, 1943, as supplemented, and a corresponding amendment to Western's indenture also dated as of December 1, 1943, as supplemented. Utah and Western have designated sections 6(a), 7, and 12(e) of the Act and Rules 62 and 65 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed amendments.

Utah's mortgage has a provision which fixes a ceiling of $250 million as the aggregate principal amount of permissible bond indebtedness which may be outstanding under the mortgage at any one time. Utah now has outstanding under its mortgage an aggregate of $186 million principal amount of bonds and believes that within a period of 3 years its construction expenditures will be such as to require bond financing which will approach, if not exceed, this mortgage limitation. Utah proposes to amend its mortgage to remove this restrictive provision. The mortgage has other provisions limiting the issue of new bonds none of which will be altered. Western's common stock and a note held by Utah are pledged by the parent company as collateral under its mortgage. Western's indenture contains a provision which corresponds in substance to the provision of Utah's mortgage described above. It limits to $250 million the amount of obligations for which Western's indenture can be collateral security. If Utah's mortgage is amended as proposed, Western proposes to amend its indenture thereby removing the debt ceiling limitation.

The proposed amendment of Utah's mortgage requires the affirmative vote of the holders of 70 percent in principal amount of Utah's outstanding bonds at a meeting called for that purpose. To effect this vote Utah proposes to call a meeting of its bondholders to be held on or about November 7, 1969. Utah proposes to solicit proxies from its bondholders through the use of solicitation material which will state in full the proposed modification of the mortgage and the reasons therefor. It is stated that proxies may be solicited by directors, officers, and regular employees of Utah and by Halsey, Stuart & Co., Inc., retained to advise Utah in connection with the bondholders' meeting and the proposed amendments and to assist in obtaining proxies for the amendment.

Fees and expenses in connection with the proposed amendments are estimated at $53,000, including trustees fee of $10,000, legal fees of $10,000 and financial adviser's fee of $20,000.

It is stated that the Idaho Public Utilities Commission, the Public Service Commission of Wyoming, and the Public Utilities Commission of Colorado have jurisdiction over the proposed amendments. Copies of the orders of the Idaho and Wyoming Commissions approving the amendment to Utah's mortgage and a copy of the order of the Colorado Commission approving the amendment to Western's indenture will be filed by amendment. It is further stated that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than July 31, 1969, request in writing that a hearing

be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[Report 447]

COMMON CARRIER SERVICES INFORMATION [1]

Domestic Public Radio Services Applications Accepted for Filing [2]

JULY 7, 1969.

Pursuant to §§ 1.227(b)(3) and 21.26(b) of the Commission's rules, and application, in order to be considered with any domestic public radio services application appearing on the list below, must be substantially complete and tendered for filing by whichever date is earlier: (a) The close of business 1 business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior-filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cutoff dates are set forth in the alternative—applications will be entitled to consideration with those listed below if filed by the end of the 60-day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to § 21.27 of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

File number, applicant, call sign, and nature of application

7963-C2-P-69—P. L. Woodbury, doing business as Mobilfone of Kansas (New), C.P. for a new 2-way station to be located at 1.2 miles north of St. Marys, Kans., to operate on base frequency 152.18 MHz.

7964-C2-P-69—Brandenburg Telephone Co. (KIY459), C.P. to replace transmitter operating on base frequency 152.81 MHz off U.S. Highway No. 60, approximately 1 mile southeast of Guston, Ky.

7965-C2-P-69—Services Unlimited, Inc. (KIY449), C.P. for additional base channel to be located at a new site described as location No. 4: Robert E. Lee Hotel, corner Fifth and Cherry Streets, Winston-Salem, N.C., to operate on frequency 152.15 MHz.

7966-C2-P-(4)-69—Northwestern Bell Telephone Co. (KAA817), C.P. for additional base channels to operate on frequencies 152.69, 152.78, 152.60, 152.54 MHz. Also add auxiliary test frequencies 157.95, 157.86, 157.80, 158.04 MHz at 224 South Fifth Street, Minneapolis, Minn.

7968-C2-P-69—Otis L. Hale, doing business as Mobilfone Communications (KLB500), C.P. for additional base channel to be located at a new site described as location No. 4: 30th and Maple Streets, Little Rock, Ark., to operate on frequency 152.03 MHz.

7969-C2-P-69—Alco Telephone Answer-Ring Service of Greenville, Miss., Inc. (KFL932), C.P. to replace transmitter operating on base frequency 152.03 MHz at 719 Washington Avenue, Greenville, Miss.

7970-C2-P-69—Commonwealth Telephone Co. of Virginia (KIY597), C.P. to replace transmitter operating on base frequency 152.66 MHz at approximately 250 feet opposite point when county road No. 642 joins State route No. 234, Manassas, Va. Also correct coordinates to read: latitude 38°39'31" N., longitude 77°26'30" W.

7971-C2-P-(4)-69—Michigan Bell Telephone Co. (KQA767), C.P. for additional base channels to operate on frequencies 454.375, 454.475, 454.550, 454.625 MHz at location No. 6: 25189 Lahser Road, Southfield, Mich.

8037-C2-AL-69—William A Houser (KSD313), Consent to assignment of license from: William A. Houser, Assignor, to: Joliet Telephone Answering Service, Inc., Assignee.

8038-C2-P-69—Southwestern Bell Telephone Co. (KAA698), C.P. to change antenna system operating on base frequency 152.63 MHz at 0.75 mile southwest of Kingdom City, Mo.

01-C2-P-70—Henry M. Zachs, doing business as Massachusetts-Connecticut Mobile Telephone Co. (New), C.P. for a new 1-way station to be located at 750 Main Street, Hartford, Conn., to operate on base frequency 158.70 MHz.

02-C2-P-70—Electronics Unlimited Corp. (New), C.P. for new 1-way station to be located at Signal Hill, St. Thomas, V.I., to operate on base frequency 158.70 MHz.

03-C2-P-70—Electronics Unlimited Corp. (WWA336), C.P. to relocate control facilities at location No. 1: Long Bay No. 1, Sugar Estate, Charlotte Amalie, V.I., operating on frequencies 158.52, 158.64 MHz. Also change antenna system and replace transmitter for base frequencies 152.06, 152.18 MHz at location No. 2: Signal Hill, St. Thomas, V.I.

04-C2-P-(2)-70—Rochester Telephone Corp. (KEK284), C.P. to change antenna system operating on base frequencies 152.54, 152.60 MHz at 95 North Fitzhugh Street, Rochester, N.Y.

05-C2-P-(2)-70—O. L. Hale, doing business as Mobilfone Communications (KLB500), C.P. for additional base channels to be located at a new site described as location No. 4: 30th and Maple Streets, Little Rock, Ark., to operate on frequencies 454.20, 454.30 MHz.

06-C2-P-70—Guy P. McSweeney, doing business as Radio Telephone Service (KJU819), C.P. to change antenna system operating on base frequency 152.09 MHz located at 0.2 mile west of Catlettsburg, Ky.

Major Amendment

5066-C2-P-69—Credit Bureau of Decatur, Inc. (New), amend to read: C.P. to operate on frequency 158.70 MHz. All other particulars remain the same as reported on public notice dated March 10, 1969, Report No. 430.

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIERS)

7972-C1-P-69—Pacific Northwest Bell Telephone Co. (KTF28), C.P. to add 2128 MHz directed toward Quinault, Wash., via passive reflector at its station Saddle Hill, 2.6 miles east of Ocean City, Wash.

[1] All applications listed in the appendix are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's rules, regulations, and other requirements.

[2] The above alternative cutoff rules apply to those applications listed in the appendix as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio and Local Television Transmission Services (Part 21 of the rules).

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIERS)—continued

7973–C1–P–69—Pacific Northwest Bell Telephone Co. (New), C.P. for a new fixed station. Frequency: 2178 MHz. Location: 1 mile southwest of Quinault, Wash.

8021–C1–AL–69, 8022–C1–AL–69—Southern Bell Telephone & Telegraph Co. (KRT55) (KRT54), Consent to assignment of licenses from Southern Bell Telephone & Telegraph Co., Assignor, to: General Telephone Co. of Florida, Assignee. (Knights & Tampa, Fla.)

8023–C1–AP/AL–69, 8024–C1–AP/AL–69—American Telephone & Telegraph Co. (KJD20) (KJJ91), Consent to assignment of permits and licenses from American Telephone & Telegraph Co., Assignor, to: General Telephone Co. of Florida, Assignee. (Knights & Tampa, Fla.)

8039–C1–P/L–69—The Chesapeake & Potomac Telephone Co. (New), C.P. and license for a new station. Frequency: 5962.5 MHz. Location: 2400 Sixth Street NW. Administration Bldg., Howard University, Washington, D.C.

8040–C1–P/L–69—The Chesapeake & Potomac Telephone Co. (New), C.P. and license for a new station. Frequencies: 6330.7 and 10,995 MHz. Location: 725 13th Street NW., Washington, D.C.

7–C1–P–70—Illinois Bell Telephone Co. (KIL65), C.P. to add 6271.4 and 11,155 MHz directed toward Woodstock at its station Silver Lake, 1.3 miles northwest of Oakwood Hills, Ill.

POINT-TO-POINT MICROWAVE RADIO SERVICE (NONTELEPHONE)

8050–C1–P–69—Mountain Microwave Corp. (KBI22), C.P. to power split 6145.0 MHz on azimuth 103°36′ toward Eads, Colo. Station location is Almagre Mountain, 8 miles west of Broadmoor, Colo., at latitude 38°47′29″ N., longitude 104°59′34″ W.

8051–C1–MP–69—Mountain Microwave Corp. (KZI39), Modification of C.P. to change location of Dodge City, Kans., receiving site to latitude 37°46′40″ N., longitude 100°03′41″ W., and change azimuth to 99°25′. Frequencies 6256.5 and 6315.9 MHz. (Informative: Applicant is making changes in a previously authorized system.)

Major Amendments

3387–C1–P–69—Interdata Communications, Inc. (New), Change point of communication from Baltimore to Towson, Md., and change azimuth to 40°55′.

3388–C1–P–69—Interdata Communications, Inc. (New), Change location of station to northwest corner of Joppa Road and Fairmont Avenue, Towson, Md., at latitude 89°24′08″ N., longitude 76°35′50″ W. Change azimuth to: 204°54′ and 70°54′ toward Jessup and Perryman, Md., respectively.

3387–C1–P–69—Interdata Communications, Inc. (New), Change point of communication from Baltimore to Towson, Md., and change azimuth to 250°54′. (All other particulars same as reported in public notice dated Dec. 16, 1968.)

LOCAL TELEVISION TRANSMISSION SERVICE

7967–C1–P/L–69—The Mountain States Telephone & Telegraph Co. (New), C.P. and license for a new mobile TV-pickup station. Frequency bands: 6425–6525 and 11,700–12,200 MHz. To operate at any temporary location in the State of Arizona.

Major Amendments

1517–C1–P–68—Mountain Microwave Corp. (New), Application amended to replace equipment and change frequency 6887.5 MHz to 6212.0 MHz toward Diamond Lake, S. Dak., on azimuth of 303°13′. Transmitter location: Sioux Falls, 1 mile east of Rowena, S. Dak.

1518–C1–P–68—Mountain Microwave Corp. (New), Application amended to (a) replace equipment and delete Lake Henry, S. Dak., as a point of communication; and (b) add frequency 5960.0 MHz toward new point of communication at DeSmet, S. Dak. (latitude 44°26′29″ N., longitude 97°37′10″ W.), on azimuth of 333°03′. Transmitter location: Diamond Lake, 8 miles north of Montrose, S. Dak.

1519–C1–P–68—Mountain Microwave Corp. (New), Application amended to (a) replace equipment and change station location from Lake Henry to DeSmet, S. Dak.; and (b) change frequency 6887.5 MHz to 6212.0 MHz toward Garden City and Huron, S. Dak., on azimuths of 03°25′ and 256°33′, respectively. Transmitter location: 5 miles northwest of DeSmet, S. Dak.

1520–C1–P–68—Mountain Microwave Corp. (New), Application amended to (a) replace equipment and change station location from 2 miles southwest of Huron to 1.2 miles southwest of Huron, S. Dak. (latitude 44°20′05″ N., longitude 98°14′00″ W.); and (b) change frequency 6937.5 MHz to 6019.0 MHz toward Spring Lake, S. Dak., on azimuth 267°28′. Transmitter location: 1.2 miles southwest of Huron, S. Dak.

1521–C1–P–68—Mountain Microwave Corp. (New), Application amended to replace equipment and change frequency 6887.5 MHz to 6241.0 MHz toward Medicine Butte, S. Dak., on azimuth of 229°05′. Transmitter location: Spring Lake, 9.5 miles west-northwest of Danforth, S. Dak. Other particulars are same as reported in public notice dated Oct. 9, 1967.

[F.R. Doc. 69–8132; Filed, July 9, 1969; 8:50 a.m.]

FEDERAL POWER COMMISSION

[Docket No. RI69–841, etc.]

TEXACO, INC., ET AL.

Order Providing for Hearings on and Suspension of Proposed Changes in Rates [1]

JUNE 30, 1969.

The Respondents named herein have filed proposed increased rates and charges of currently effective rate schedules for sales of natural gas under Commission jurisdiction, as set forth in appendix A hereof.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders:

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR ch. I), and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date suspended until" column, and thereafter until made effective as prescribed by the Natural Gas Act.

(C) Until otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before August 15, 1969.

By the Commission.

[SEAL] GORDON M. GRANT, *Secretary.*

[1] Does not consolidate for hearing or dispose of the several matters herein.

[2] The stated effective date is the first day after expiration of the statutory notice.
[3] Redetermined rate increase.
[4] Pressure base is 14.65 p.s.i.a.
[5] Applicable only to wellhead sales of gas from acreage added by Supplement No. 6.
[6] The stated effective date is the effective date requested by respondent.
[7] "Fractured" rate increase. Contractually due 19.5 cents per Mcf.
[8] Subject to a downward B.t.u. adjustment.
[9] Applicable to acreage added by Supplement Nos. 2 and 3.
[10] Filing from certificated rate to initial contract rate.
[11] Subject to upward and downward B.t.u. adjustment.
[12] Applicable to acreage added by Supplement No. 3.
[13] Includes base rate of 15 cents plus 1.35 cents upward B.t.u. adjustment (1090 B.t.u. gas) before increase and base rate of 17 cents plus 1.53 cents upward B.t.u. adjustment after increase.
[14] Filing completed by letter dated June 5, 1969, submitted on June 6, 1969.
[15] Two-step periodic rate increase.
[16] Periodic rate increase.
[17] Rate includes 0.015 cent tax reimbursement and is subject to upward and downward B.t.u. adjustment. B.t.u. content ranges from 1,166 to 1,172 for the Units involved.
[18] "Fractured" rate increase. Contractually due 19 cents base rate.
[19] Includes base rate of 17 cents plus 0.850 cent upward B.t.u. adjustment (1050 B.t.u. gas) before increase and base rate of 18 cents plus 0.90 cent upward B.t.u. adjustment after increase. Base rate subject to upward and downward B.t.u. adjustment.
[20] Applicable only to production from below Top of the Morrow Sand.
[21] Applies to acreage added by Supplement Nos. 1 and 2.
[22] Additional material filed May 16, 1969, requesting the date the certificate is issued for the acreage added by Supplement Nos. 1 and 2. Order issued June 16, 1969.
[23] No deliveries being made.
[24] Includes partial reimbursement for the full 2.55-percent New Mexico Emergency School Tax.
[25] Initial rate conditioned by temporary certificate issued in Docket No. CI66-606 to include Humble's possible refunding of that part of the New Mexico Emergency School Tax in excess of 0.55 percent which is being protested by the buyer.
[26] Increase from applicable area ceiling rate to contract rate.
[27] Pressure base is 15.025 p.s.i.a.
[28] "Fractured" rate increase to contractually due rate.
[29] Contractually provided for rate.

Mobil Oil Corp. (Operator), requests that its proposed rate increase be permitted to become effective as of June 11, 1969, and Mobil Oil Corp., et al., request an effective date of July 1, 1969. Northern Natural Gas Producing Co. (Operator), et al., also request an effective date of July 1, 1969 for their proposed rate increase. W. M. Gallaway, et al., request that their rate increase be permitted to become effective as of June 16, 1969. Good cause has not been shown for waiving the 30-day notice requirement provided in section 4(d) of the Natural Gas Act to permit earlier effective dates for the aforementioned producers' rate filings and such requests are denied.

Mobil Oil Corp., and Mobil Oil Corp. (Operator) (both referred to herein as Mobil), request that should the Commission suspend their proposed rate increases that the suspension periods with respect thereto be shortened to 1 day. Good cause has not been shown for granting Mobil's request for limiting to 1 day the suspension periods with respect to Mobil's rate filings and such request is denied.

Supplement No. 4 to Humble Oil & Refining Co. (Humble), FPC Gas Rate Schedule No. 386 reflects partial reimbursement for the full 2.55 percent New Mexico Emergency School Tax which was increased on April 1, 1963. The buyer, El Paso Natural Gas Co. (El Paso), in accordance with its policy of protesting tax filings proposing reimbursement for the New Mexico Emergency School Tax in excess of 0.55 percent, is expected to file a protest to this rate increase. El Paso questions the right of the producer under the tax reimbursement clause to file a rate increase reflecting tax reimbursement computed on the basis of an increase in tax rate by the New Mexico Legislature in excess of 0.55 percent. While El Paso concedes that the New Mexico legislation effected a higher rate of at least 0.55 percent, it claims there is controversy as to whether or not the new legislation effected an increase in excess of 0.55 percent. In view of the contractual problem presented, we shall provide that the hearing herein shall concern itself with the contractual basis for the rate filing, as well as the statutory lawfulness of Humble's proposed increased rate and charge.

All of the producers' proposed increased rates and charges exceed the applicable area price levels for increased rates as set forth in the Commission's Statement of General Policy No. 61–1, as amended (18 CFR 2.56), with the exception of the rate increases filed by Humble and Sun Oil Co. in the Permian Basin Area which exceed the just and reasonable rates established by the Commission in Opinion No. 468, as amended, and should be suspended for 5 months as ordered herein.

[F.R. Doc. 69–8002; Filed, July 9, 1969; 8:45 a.m.]

[Docket No. R169–858, etc.]

UNION OIL CO. OF CALIFORNIA ET AL.

Order Providing for Hearing on and Suspension of Proposed Changes in Rates, and Allowing Rate Changes To Become Effective Subject to Refund [1]

JUNE 30, 1969.

The respondents named herein have filed proposed changes in rates and charges of currently effective rate schedules for sales of natural gas under Commission jurisdiction, as set forth in appendix A hereof.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders:

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR Ch. I), and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date suspended until" column, and thereafter until made effective as prescribed by the Natural Gas Act: *Provided, however,* That the supplements to the rate schedules filed by respondents, as set forth herein, shall become effective subject to refund on the date and in the manner herein prescribed if within 20 days from the date of the issuance of this order respondents shall each execute and file under its above-designated docket number with the Secretary of the Commission its agreement and undertaking to comply with the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder, accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved. Unless respondents are advised to the contrary within 15 days after the filing of their respective agreements and undertakings, such agreements and undertakings shall be deemed to have been accepted.[2]

(C) Until otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before August 20, 1969.

By the Commission.

[SEAL] GORDON M. GRANT, *Secretary.*

[1] Does not consolidate for hearing or dispose of the several matters herein.

[2] If an acceptable general undertaking, as provided in Order No. 377, has previously been filed by a producer, then it will not be necessary for that producer to file an agreement and undertaking as provided herein. In such circumstances the producer's proposed increased rate will become effective as of the expiration of the suspension period without any further action by the producer.

[3] Contract dated Feb. 27, 1969.
[4] The stated effective date is the first day after expiration of the statutory notice period, or the date of initial delivery, whichever is later.
[5] The suspension period is limited to 1 day.
[6] Rate increase filed pursuant to paragraph (A) of Opinion No. 546-A issued Mar. 20, 1969.
[7] Pressure base is 14.65 p.s.i.a.
[8] Area base rate for gas-well gas sold under contracts dated after Oct. 1, 1968, as established in Opinion No. 546.
[9] Initial rate as conditioned by temporary certificate issued June 2, 1969, in Docket No. CI69-979.
[10] Subject to upward and downward B.t.u. adjustment.
[11] Contract dated Dec. 2, 1968.
[12] Initial rate as conditioned by temporary certificate issued Feb. 14, 1969, in Docket No. CI69-563.
[13] Initial rate as conditioned by temporary certificate issued June 2, 1969, in Docket No. CI69-979.
[14] Contract dated Apr. 10, 1969.
[15] Contract dated Apr. 11, 1969.
[16] Initial rate as conditioned by temporary certificate issued June 2, 1969, in Docket No. CI69-967.

These four proposed rate increases, from 18.5 cents to 20.0 cents per Mcf (subject to upward and downward B.t.u. adjustment), involve sales of third vintage gas well gas in Offshore Louisiana and were filed pursuant to Ordering Paragraph (A) of Opinion No. 546–A which lifted the indefinite moratorium imposed in Opinion No. 546 as to sales of offshore gas well gas under contracts entitled to a third vintage price (18.5 cents as adjusted for quality) and permitted such producers to file for contractually authorized increases up to the 20-cent base rate established in Opinion No. 546 for onshore gas well gas. The producers involved herein were issued conditioned temporary certificates in dockets as set forth below authorizing the collection of the third vintage prices established in Opinion No. 546 (18.5 cents for offshore gas well gas and 17 cents for casinghead gas subject to quality adjustment).[1] Deliveries of gas have not as yet commenced thereunder.

We conclude that these producers' proposed rate increases should be suspended for 1 day from the date shown in the "Effective date column" on appendix "A" hereof, or for 1 day from the date of initial delivery, whichever is later. Thereafter, the proposed increased rates may be placed in effect subject to refund under the provisions of section 4(e) of the Act pending the outcome of the area rate proceeding in docket No. AR69–1.

[Docket No. CP69–354]

ALGONQUIN GAS TRANSMISSION CO.

Notice of Application

JULY 3, 1969.

Take notice that on June 30, 1969, Algonquin Gas Transmission Co. (Applicant), 1284 Soldiers Field Road, Boston, Mass. 02135, filed in docket No. CP69–354 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity requesting authorization to provide the Connecticut Gas Co. (Connecticut Gas), an existing customer of Applicant, with a new delivery point to an unserved portion of its authorized service territory, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant states Connecticut Gas can provide service to a new plant being built by Uniroyal, Inc., in Oxford, Conn., part of their existing service territory, at substantially less cost, by having a new delivery point from Applicant, than the estimated cost of extending its distribution system to Oxford.

Estimated cost of facilities is $7,696, which will be financed out of cash on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 31, 1969, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Acting Secretary.

[F.R. Doc. 69–8102; Filed, July 9, 1969; 8:47 a.m.]

[Docket No. E–7492]

ARIZONA PUBLIC SERVICE CO.

Notice of Application

JULY 2, 1969.

Take notice that on June 25, 1969, Arizona Public Service Co. (Applicant) filed an application seeking an order pursuant to section 203 of the Federal Power Act authorizing the sale and disposition by it of certain undivided interests in certain 230-KV switchyard facilities located at the so-called Four Corners Generating Station located in northwestern New Mexico.

Applicant is incorporated under the laws of the State of Arizona, with its principal place of business in Phoenix, Ariz., and it is engaged in the electric utility business in 10 counties in the State of Arizona.

The Applicant proposes to sell undivided interests in the switchyard facilities to Salt River Project Agricultural Improvement and Power District (Salt River) and to Public Service Co. of New Mexico (PSNM). It is proposed that upon completion of the transaction, Applicant will retain 57.5 percent of the capacity of the switchyard, PSNM will own 12.5 percent and Salt River 30 percent of the capacity of the switchyard. Under an agreement between the three parties, the Applicant will sell to the other two parties undivided interests in the percentages above set out. In consideration thereof, the two parties will pay the Applicant a total of $109,084 of which amount Salt River will pay $77,000 and PSNM will pay $32,084.

The facilities now serve as a path for the transferral of electric power and energy for Applicant between its 230-KV switchyard at Four Corners and its two 345-KV transmission lines. After the sale of the undivided interests in the switchyard facilities, they will then be used to serve as a path for the transferral of electric power and energy for Applicant, PSNM and Salt River between the 230-KV and the 345-KV switchyards.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 21, 1969, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Acting Secretary.

[Docket No. CP69–351]

CARNEGIE NATURAL GAS CO.

Notice of Application

JULY 3, 1969.

Take notice that on June 27, 1969, Carnegie Natural Gas Co. (Applicant), 3904 Main Street, Munhall, Pa. 15120, filed in docket No. CP69–351 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon points of connection and appurtenant transportation facilities in Allegheny and Greene Counties, Pa., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant seeks authority to terminate service at the following connections:

(1) A connection with Equitable Gas Co. located in West Mifflin Borough, Allegheny County.

(2) A connection with Columbia Gas of Pennsylvania, Inc., located in Springhill Township, Greene County, Pa.

Applicant states that an alternate connection with Equitable Gas Co. is available less than 5 miles distant in Washington County, Pa.; and that its customer for transportation service in Greene County, Pa., has terminated its contract to purchase gas at this connection.

[1] Dockets Nos. CI68–1027 and CI69–563, Union Oil Co. of California; docket No. CI69–979, Texas Gas Exploration Corp.; docket No. CI69–967, The Preston Oil Co.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 31, 1969, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate permission and approval for the proposed abandonment is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Acting Secretary.

[Docket No. CP69-352]

CITIES SERVICE GAS CO.

Notice of Application

JULY 2, 1969.

Take notice that on June 27, 1969, Cities Service Gas Co. (Applicant), Post Office Box 25128, Oklahoma City, Okla. 73125, filed in Docket No. CP69-352 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to install and operate measuring and regulating equipment and the sale of natural gas to the North Key Gas Co., Inc., for resale, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to tap its existing Drumright to Tallant 16-inch and 18-inch transmission line in Osage County, install measuring, regulating and appurtenant facilities, and sell and deliver natural gas to the North Key Gas Co., Inc. for resale and distribution in the community of Pine, Okla., in Osage County.

The total estimated cost of the proposed facilities is $6,440, which will be paid from treasury cash.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 31, 1969, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Acting Secretary.

[F.R. Doc. 69-8108; Filed, July 9, 1969; 8:48 a.m.]

[Docket No. E-7493]

COMMUNITY PUBLIC SERVICE CO.

Notice of Application

JULY 2, 1969.

Take notice that on June 26, 1969, Community Public Service Co. (Applicant) filed an application seeking an order pursuant to section 203 of the Federal Power Act authorizing the purchase from Otero County Electric Cooperative, Inc., and merger into Applicant's existing system of certain electric facilities in Lincoln and Otero counties in N. Mex. Applicant seeks, alternatively, an order disclaiming the jurisdiction of the Federal Power Commission over the proposed purchase and merger of the said electric facilities.

Applicant is incorporated in the State of Texas with its principal business office in Fort Worth, Tex. Applicant also conducts business in the State of New Mexico, its principal New Mexico business office being at Silver City, N. Mex.

The facilities to be purchased consist of approximately 34 miles of electric distribution circuits of 14.4-kv and lower voltages together with transformers, services, poles, meters, easements, permits, and other appurtenances located in part within and in part outside of the municipal limits of the villages of Ruidoso and Ruidoso Downs, in Lincoln County, and in Tularosa and the city of Alamogordo, in Otero County, N. Mex. The total purchase price of the facilities is $245,000 plus adjustments for additions made prior to the closing date of the contract.

After the acquisition the facilities will continue to be used to provide the same service now provided. Most of the consumers to be transferred will receive an immediate reduction in the rates paid for electric service.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 18, 1969, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Acting Secretary.

[Docket No. E-7494]

IOWA POWER AND LIGHT CO. AND IOWA-ILLINOIS GAS AND ELECTRIC CO.

Notice of Application

JULY 2, 1969.

Take notice that on June 27, 1969, Iowa Power and Light Co., 823 Walnut Street, Des Moines, Iowa 50303, and Iowa-Illinois Gas and Electric Co., 206 East Second Street, Davenport, Iowa 52801 (Applicant), filed an application pursuant to section 203 of the Federal Power Act (16 U.S.C. sec. 824(b)), seeking authority to consummate a Plan of Consolidation pursuant to which Applicants will be consolidated into a new corporation, Iowa Energy Co., and the outstanding common and preferred stock of Applicants converted into shares of Iowa Energy Co.

Under the Plan of Consolidation, preferred stockholders of each company will receive preferred stock of the new company, reflecting rights and privileges substantially similar to those of the

outstanding preferred stock of the constituent companies; common stockholders of Iowa-Illinois will receive common stock of the new company on a share-for-share basis; and common stockholders of Iowa Power will receive 1.15 shares of the common stock of Iowa Power.

Iowa Energy Co. will assume all rights and liabilities of Applicants, including all gas and electric utility facilities, contracts (including contracts for the purchase, sale or interchange of electric energy), and franchises, and will continue to conduct all of the business now conducted by Applicants. Applicant, Iowa Power and Light Co., an Iowa corporation, is presently engaged in the business of supplying electric and gas service in the Central and Southwestern sections of Iowa, including Des Moines, Iowa, and Council Bluffs, Iowa. Applicant, Iowa-Illinois Gas and Electric Co., an Illinois corporation, is presently engaged in the business of supplying electric and gas service in the Central and Eastern sections of Iowa and the Western section of Illinois, including the Quad-Cities (Rock Island, Moline, and East Moline, Ill., and Davenport, Iowa), and Fort Dodge, Iowa City, Cedar Rapids, and Ottumwa, Iowa.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 25, 1969, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Acting Secretary.

[Docket No. CP69-356]

MIDWEST NATURAL GAS CO. AND MONTANA-DAKOTA UTILITIES CO.

Notice of Application

JULY 3, 1969.

Take notice that on June 30, 1969, Midwest Natural Gas Co. (Applicant) 600 Denver Club Building, Denver, Colo. 80202, filed in docket No. CP69-356 an application pursuant to section 7(a) of the Natural Gas Act for an order of the Commission directing Montana-Dakota Utilities Co. (Respondent) to establish physical connection of its transportation facilities with Applicant's proposed facilities, and to sell and deliver to Applicant the volumes of natural gas required for initiation of gas service in 20 communities situated in North Dakota, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that the pipeline and transmission facilities of Respondent provides the most feasible and economical source of supply of natural gas for the 20 communities Applicant proposes to serve. Applicant further states such sales and deliveries as may be required will not impair Respondent's ability to render adequate service to its existing customers or subject it to any undue burden.

Estimated cost of the proposed facilities is $11,610,000, which will be financed by the issuance of common stock and convertible debentures.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 1, 1969, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Acting Secretary.

[F.R. Doc. 69-8101; Filed, July 9, 1969; 8:47 a.m.]

[Docket No. RP70-1]

MISSISSIPPI RIVER TRANSMISSION CORP.

Notice of Proposed Changes in Rates and Charges

JULY 3, 1969.

Take notice that Mississippi River Transmission Corp. (Mississippi) on July 1, 1969, tendered for filing proposed changes in its FPC Gas Tariff, First Revised Volume No. 1, to become effective on August 1, 1969. The proposed rate changes would increase charges for jurisdictional sales by $8,117,059 annually, based on volumes for the 12-month period ended March 31, 1969, as adjusted. The proposed increase would be applicable to Mississippi's Rate Schedules CD-1 and PI-1. Mississippi also proposes to revise Rate Schedule PI-1 to make it available on a continuing basis in lieu of its present availability which is limited to the period November 1, 1968 through October 31, 1969, and proposes various minor modifications to its Rate Schedules CD-1 and PI-1.

Mississippi states the principal reasons for the proposed rate increases are: increases in the cost of purchased gas, increased operating costs and taxes and increased financing costs. The proposed increased rates reflect a rate of return of 9 percent.

Copies of the filing were served on Mississippi's customers and interested State Commissions.

Any persons desiring to be heard or to make any protest with reference to said application should on or before July 23, 1969, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Acting Secretary.

[F.R. Doc. 69-8104; Filed, July 9, 1969; 8:48 a.m.]

[Docket No. CP69-353]

MISSISSIPPI VALLEY GAS CO. AND TENNESSEE GAS PIPELINE CO.

Notice of Application

JULY 2, 1969.

Take notice that on June 27, 1969, Mississippi Valley Gas Co. (Applicant), Post Office Box 3348, Jackson, Miss. 39207, filed in docket No. CP69-353 an application pursuant to section 7(a) of the Natural Gas Act for an order of the Commission directing Tennessee Gas Pipe Line Co. to establish physical connection of its transmission facilities with the proposed facility of Holcomb, Miss., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to construct and operate a distribution system in Holcomb, Miss. The total estimated cost of the proposed facility is $47,445, which will be financed from funds on hand.

Applicant estimates peak day and annual gas requirements as follows:

Year	Maximum daily (Mcf)	Annual quantity (Mcf)
1	133	13,260
2	145	15,130
3	160	17,340

Any person desiring to be heard or to make any protest with reference to said application should on or before July 31, 1969, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding.

Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Acting Secretary.

[F.R. Doc. 69-8111; Filed, July 9, 1969; 8:48 a.m.]

[Docket No. CP69-350]

SABINE PIPE LINE CO.

Notice of Application

JULY 3, 1969.

Take notice that on June 26, 1969, Sabine Pipe Line Co. (Applicant), 1111 Rusk Avenue, Houston, Tex. 77002, filed in docket No. CP69-350 a "budget-type" application for a certificate of public convenience and necessity pursuant to section 7(c) of the Natural Gas Act, as implemented by § 157.7 of the regulations thereunder authorizing rearrangement of Applicant's existing transportation facilities in Jefferson County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to make rearrangements in those facilities used to transport gas to the Texaco, Inc. plant in Port Arthur, in order to be in a position to promptly satisfy any requests for rearrangements which might be made by Texaco, Inc. Applicant proposes to expend not more than $10,000 during the 12-month period, and states that no material change will result in the service presently rendered by Applicant.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 30, 1969, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Acting Secretary.

[F.R. Doc. 69-8105; Filed, July 9, 1969; 8:48 a.m.]

[Docket No. CP69-222 (Phase II)]

TENNESSEE GAS PIPELINE CO.

Order Setting Dates for Filing of Testimony and for Formal Hearing

JUNE 13, 1969.

By our order of June 10, 1969, Tennessee Gas Pipeline Co. (Tennessee), a division of Tenneco, Inc., was authorized, in what has been designated as Phase I, to construct and operate the facilities requested in its application in docket No. CP69-222. Additionally, we indicated that the issue raised by certain interveners as to the propriety of Tennessee's proposed manner of allocation of additional service to its customers would be resolved in the Phase II part of the proceeding. We shall here set a date for the filing of testimony and for the commencement of formal hearings in Phase II.

The Commission orders:

(A) The applicant will serve its direct prepared testimony on all parties of record, including the staff and the office of Hearing Examiners in a manner consistent with our rules on or before July 11, 1969.

(B) Pursuant to the authority conferred on the Federal Power Commission by the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held on July 21, 1969, at 10 a.m., e.d.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., respecting the matters reserved for resolution in Phase II. Cross-examination of the testimony served pursuant to (A) above will commence at that time.

By the Commission.

[SEAL] GORDON M. GRANT,
Secretary.

[F.R. Doc. 69-8106; Filed, July 9, 1969; 8:48 a.m.]

[Docket No. RP69-41]

TEXAS GAS TRANSMISSION CORP.

Notice of Proposed Changes in Rates and Charges

JULY 3, 1969.

Take notice that Texas Gas Transmission Corp. (Texas Gas) on June 27, 1969, tendered for filing proposed changes in its FPC Gas Tariff, Second Revised Volume No. 1, and Original Volume No. 2, to become effective on August 12, 1969. The proposed rate changes would increase charges for jurisdictional sales and transportation services by $36,813,407 annually, based on volumes for the 12-month period ended March 31, 1969, as adjusted. The proposed increase would be applicable to all of Texas Gas' jurisdictional rate schedules. Texas Gas also proposes a modification of the billing demand ratchet provision under Rate Schedules G-1, G-2, G-3, and G-4 from the existing 90 percent of contract demand to 95 percent of contract demand, and a modification of the measurement provisions in the General Terms and Conditions.

Texas Gas states the principal reasons for the proposed rate increases are: (1) Increases in its cost of purchased gas; (2) costs of transportation by others of new offshore gas supplies and costs related to new underground storage facilities; (3) the proposed reversion from liberalized depreciation to straight line depreciation for tax purposes; (4) salary and wage increases; and (5) the need for an 8.5 percent rate of return.

Texas Gas' filing consists of two alternative sets of revised tariff sheets, the first of which contains a proposed new section, to be included in the General Terms and Conditions of the tariff, providing for monthly billing adjustments to reflect current changes in Texas Gas' unit cost of purchased gas. Texas Gas requests that, if the Commission finds that the proposed purchased gas adjustment provision is prohibited by § 154.38(d)(3) of the Commission's regulations under the Natural Gas Act and does not waive the terms of that section for purposes of Texas Gas' filing, the Commission accept for filing the alternative set of revised tariff sheets, which does not contain a purchased gas adjustment provision.

Copies of the filing were served on Texas Gas' customers and interested State commissions.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 23, 1969, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Acting Secretary.

[Docket No. RP69-40]

WESTERN TRANSMISSION CORP.

Notice of Proposed Change in Rate and Charge

JULY 3, 1969.

Notice is hereby given that Western Transmission Corp. (Western) on June 26, 1969, filed a proposed change in its FPC Gas Tariff, Original Volume No. 1, to be effective as of January 1, 1969. The proposed change would increase the rate charged to Colorado Interstate Gas Co. for gas sold under Rate Schedule F from 20 cents per Mcf to 21 cents.

Western alleges that the increase is of the periodic type provided by contract in the sale authorized by Opinion No. 429, issued May 26, 1964, 31 FPC 1295, in consolidated dockets CI63-1460 and CP63-329.

Any person desiring to be heard or to make any protest with reference to said tender should on or before July 23, 1969, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing herein must file applications to intervene in accordance with the Commission's rules. The tender is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Acting Secretary.

FEDERAL RESERVE SYSTEM

MARINE CORP.

Order Approving Application Under Bank Holding Company Act

In the matter of the application of The Marine Corp., Milwaukee, Wis., for approval of acquisition of 80 percent or more of the voting shares of The First State Bank, West Bend, Wis.

There has come before the Board of Governors, pursuant to section 3(a)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(3)) and § 222.3(a) of Federal Reserve Regulation Y (12 CFR 222.3(a)), an application by The Marine Corp., Milwaukee, Wis., for the Board's prior approval of the acquisition of 80 percent or more of the voting shares of The First State Bank, West Bend, Wis.

As required by section 3(b) of the Act, the Board gave written notice of receipt of the application to the Wisconsin Commissioner of Banking and requested his views and recommendation. He advised the Board that he would take no action to disapprove of the application.

Notice of receipt of the application was published in the FEDERAL REGISTER on April 22, 1969 (34 F.R. 6749), providing an opportunity for interested persons to submit comments and views with respect to the proposal. A copy of the application was forwarded to the U.S. Department of Justice for its consideration. Time for filing comments and views has expired and all those received have been considered by the Board.

It is hereby ordered, For the reasons set forth in the Board's Statement[1] of this date, that said application be and hereby is approved, provided that the action so approved shall not be consummated (a) before the 30th calendar day following the date of this order or (b) later than 3 months after the date of this order unless such time shall be extended by the Board, or by the Federal Reserve Bank of Chicago pursuant to delegated authority.

Dated at Washington, D.C., this 1st day of July 1969.

By order of the Board of Governors.[2]

[SEAL] ROBERT P. FORRESTAL,
Assistant Secretary.

INTERSTATE COMMERCE COMMISSION

[Notice 1311]

MOTOR CARRIER, BROKER, WATER CARRIER, AND FREIGHT FORWARDER APPLICATIONS

JULY 3, 1969.

The following applications are governed by Special Rule 1.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with § 1.247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of § 1.247(d)(4) of the special rules, and shall include the certification required therein.

Section 1.247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures), will be determined generally in accordance with the Commission's General Policy Statement Concerning Motor Carrier Licensing Procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record.

The publications hereinatfer set forth reflect the scope of the applications as filed by applicants, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

No. MC 694 (Sub-No. 6), filed June 16, 1969. Applicant: CLETUS E. MUMMERT, INC., East Berlin, Pa. 17316. Applicant's representative: Christian V. Graf, 407 North Front Street, Harrisburg, Pa. 17101. Authority sought to operate as a *contract carrier,* by motor vehicle, over irregular routes, transporting: (1) *Wood mouldings and wood dimension parts,* from East Berlin, Pa., to points in New York, N.Y., commercial zone and points in New Jersey, under a continuing contract or contracts with Beau Products, Inc.; and (2) *lumber,* from East Berlin, Pa., to points in New York, N.Y., commercial zone and points in New Jersey, under a continuing contract or contracts with Penn Wood Products Co. NOTE: If a hearing is deemed necessary, applicant requests it be held at Harrisburg, Pa., or Washington, D.C.

---

[1] Filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551, or to the Federal Reserve Bank of Chicago.

[2] Voting for this action: Chairman Martin and Governors Robertson, Mitchell, Maisel, Brimmer, and Cherrill. Absent and not voting: Governor Daane.

[1] Copies of Special Rule 1.247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

No. MC 11207 (Sub-No. 286), filed June 11, 1969. Applicant: DEATON, INC., 317 Avenue W, Post Office Box 1271, Birmingham, Ala. 35201. Applicant's representative: A. Alvis Layne, Pennsylvania Building, Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Building materials*, from Savannah, Ga., to points in Alabama. NOTE: Applicant states it does not intent to tack, and apparently is willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga., or Washington, D.C.

No. MC 20894 (Sub-No. 12), filed June 12, 1969. Applicant: P. CALLAHAN, INC., 5240 Comly Street, Philadelphia, Pa. 19135. Applicant's representatives: Terrence L. Bowers (same address as applicant), and Edward F. Kane, 522 Swede Street, Norristown, Pa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between the site of the warehouse of the Singer Co. at Warwick, N.Y., on the one hand, and, on the other, points in New Jersey on and south of a line extending from U.S. Highway 206 at Trenton, N.J., northerly to Princeton, N.J.; thence in an easterly direction over New Jersey Highway 571 to Hightstown, N.J.; thence over New Jersey Highway 33 to Asbury Park, N.J., and points in Pennsylvania and Delaware on and east of U.S. Highway 202 from New Hope, Pa., to and including Wilmington, Del. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. Applicant holds contract carrier authority under MC 119140 Sub-No. 1, therefore, dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa., or New York, N.Y.

No. MC 28517 (Sub-No. 6), filed June 10, 1969. Applicant: FARNY TRUCK SERVICE, INC., 1605 Northwest Pettygrove Street, Portland, Oreg. 97209. Applicant's representative: John R. Winkler (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, commodities in bulk, in tank vehicles, and household goods as defined by the Commission); (A) between Rainier and Astoria, Oreg., over U.S. Highway 30; and (B) between Astoria and Seaside, Oreg., over U.S. Highway 101 and off-route points within 5 miles of the described route in (A) and (B); serving all intermediate points between Rainier and Seaside. NOTE: If a hearing is deemed necessary, applicant requests it be held at Astoria, Oreg.

No. MC 30844 (Sub-No. 278), filed June 16, 1969. Applicant: KROBLIN REFRIGERATED XPRESS, INC., 2125 Commercial, Waterloo, Iowa 50704. Applicant's representative: Truman A. Stockton, Jr., The 1650 Grant Street Building, Denver, Colo. 80202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bakery ingredients*, from Kansas City, Mo., and points within its commercial zone to Rochester, St. Paul, and Minneapolis, Minn., and points within its commercial zone. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Minneapolis, Minn.

No. MC 30867 (Sub-No. 177), filed June 16, 1969, Applicant: CENTRAL FREIGHT LINES INC., 303 South 12th Street, Post Office Box 238, Waco, Tex. 76703. Applicant's representative: Phillip Robinson, The 904 Lavaca Building, Austin, Tex. 78701. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, household goods as defined by the Commission in 17 M.C.C. 467, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading); (1) between Waco, Tex., and Hempstead, Tex.: From Waco, over Texas Highway 6 to Hempstead, and return over the same route, serving all intermediate points; (2) between Caldwell, Tex., and Bryan, Tex.; from Caldwell, over Texas Highway 21 to Bryan, and return over the same route, serving all intermediate points; and (3) between junction of Texas Highway 6 and Texas Highway 14 at or near Bremond, Tex., and Corsicana, Tex.; from junction of Texas Highway 6 and Texas Highway 14 over Texas Highway 14 to its junction with U.S. Highway 75, thence over U.S. Highway 75 to Corsicana, Tex., and return over the same route, serving no intermediate points. NOTE: Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Houston or Dallas, Tex.

No. MC 31600 (Sub-No. 643) (Amendment), filed May 23, 1969, published in the FEDERAL REGISTER issue of June 19, 1969, and republished as amended, this issue. Applicant: P. B. MUTRIE MOTOR TRANSPORTATION, INC., Calvary Street, Waltham, Mass. 02154. Applicant's representative: Harry C. Ames, Jr., Suite 705, 666 11th Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Clay*, dry in bulk, from Paulsboro, N.J., to Philadelphia, Pa., and points in Michigan, Ohio, and Delaware. NOTE: Applicant states that the authority pending under its Sub 639 for clay, from Paulsboro, N.J., to Alma, Mich., will be amended to delete that portion. Applicant further states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. Common control may be involved. The purpose of this republication is to add Delaware as a destination State. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC 36556 (Sub-No. 17), filed June 9, 1969. Applicant: HOWARD E. BLACKMON, Post Office Box 186, Somers, Wis. 53171. Applicant's representative: Earle Munger, 520 58th Street, Kenosha, Wis. 53140. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Insulation materials and supplies and ground clay products* in bulk, and packages and mixed bulk and packages, between the plantsites and the storage facilities of N. S. Koos & Son Co., in Kenosha, Wis., on the one hand, and, on the other, points in Illinois; and Lake County, Ind. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Milwaukee, Wis., or Chicago, Ill.

No. MC 36974 (Sub-No. 5) (Amendment), filed May 23, 1969, published FEDERAL REGISTER issue of June 12, 1969, amended June 22, 1969, and republished as amended, this issue. Applicant: HMIELESKI TRUCKING CORP., 108 New Era Drive, South Plainfield, N.J. 07080. Applicant's representative: Morton E. Kiel, 140 Cedar Street, New York, N.Y. 10006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household appliances*, from Edison, N.J., to points in Orange, Rockland, Putnam, Ulster, Sullivan, and Dutchess Counties, N.Y., and Fairfield County, Conn., and *returned shipments*, on return. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. The purpose of this republication is to add Sullivan and Dutchess to the New York counties. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 43716 (Sub-No. 27) (Amendment), filed May 6, 1969, published in the FEDERAL REGISTER issue of May 22, 1969, amended and republished this issue. Applicant: BIGGE DRAYAGE CO., a corporation, 10700 Bigge Avenue, San Leandro, Calif. 94577. Applicant's representative: R. A. Doty (same address as applicant). Authority sought to operate at a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, which because of size or weight require the use of special equipment or special handling, including classes A and B explosives, and related parts, equipment, materials, and supplies, when their transportation is incidental to the transportation of the commodities which because of size or weight require the use of special equipment or handling; (a) between points in California, Idaho, Nevada, Oregon, and Washington; and (b) between points in (a) above on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), restricted to traffic moving (1) on Government bills of lading or (2) on commercial bills of lading to be converted

to Government bills of lading; or (3) on commercial bills of lading endorsed with the legend, "Transportation hereunder is for the U.S. Government and the actual cost paid to the carrier by the shipper or receiver is to be reimbursed by the U.S. Government". NOTE: The purpose of this republication is to clarify the commodity description and to limit the territorial scope to the area that can best be served by applicant. Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or San Francisco, Calif.

No. MC 50493 (Sub-No. 44) (Amendment), filed April 3, 1969, published in the FEDERAL REGISTER issue of April 24, 1969, amended and republished this issue. Applicant: P.C.M. TRUCKING, INC., 1063 Main Street, Orefield, Pa., Applicant's representative: Frank A. Doocey, 601 Hamilton Street, Allentown, Pa. 18101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal feed and animal feed ingredients*, between Allentown, Pa., and points in Florida, Georgia, North Carolina, and South Carolina. NOTE: Applicant states it intends to tack at Allentown, Pa., from points in Florida, Georgia, North Carolina, and South Carolina, to serve points in New York and New Jersey. The purpose of this republication is to amend the tacking information. Applicant holds contract carrier authority under MC-115859 and Subs. Applicant states upon approval of application, it will surrender such contract carrier rights as are duplicated by application. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Philadelphia, Pa.

No. MC 52657 (Sub-No. 663) (Amendment), filed May 5, 1969, published FEDERAL REGISTER issue of May 29, 1969, amended June 13, 1969, and republished as amended, this issue. Applicant: ARCO AUTO CARRIERS, INC., 2140 West 79th Street, Chicago, Ill. 60620. Applicant's representative: A. J. Bierberstein, 121 West Doty Street, Madison, Wis. 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Motor vehicles* (except trailers), and *parts and accessories* thereof, when moving with the vehicles being transported, in initial movements in truckaway and driveway service, from Boyertown, Pa., to points in the United States, including Alaska (but excluding Hawaii), restricted against the transportation of vehicles which require the use of special equipment for transporting such vehicles; (2) *motor vehicles* (except trailers), and *parts and accessories* thereof, when moving with the vehicles being transported, in secondary movements in truckaway service, between Boyertown, Pa., and points in the United States, including Alaska (but excluding Hawaii), restricted to the transportation of vehicles which have been previously manufactured or assembled at Boyertown, Pa., and which have had a prior movement from Boyertown, Pa., and further restricted against the transportation of vehicles which require the use of special equipment for transporting such vehicles. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. The purpose of this amendment is to more clearly set forth the proposed operation. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Philadelphia, Pa. SPECIAL NOTE: The publication hereinabove set forth reflects the scope of the application as filed and amended by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the application here noticed will not necessarily reflect the phraseology set forth in the application as filed, and also will eliminate any restrictions which are not acceptable to the Commission.

No. MC 56640 (Sub-No. 25), filed June 2, 1969. Applicant: DELTA LINES, INC., Post Office Box 8155, Emeryville, Calif. 94608. Applicant's representative: Marshall G. Berol, 100 Bush Street, San Francisco, Calif. 94104. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and except commercial trailers in towaway service other than commercial trailers furnished by a shipper for the transportation of its products; (1) between junction California Highways 198 and 41 near Lemoore, Calif., and Lodgepole (Tulare County) Calif., over California Highway 198; and (2) between junction California Highways 198 and 276 and Mineral King, Calif., over California Highway 276, serving all intermediate points in connection with (1) and (2) above. NOTE: Applicant states it presently holds authority in its MC 56640 (Sub-No. 22) to serve as off-route points those points which are within 20 miles of U.S. Highway 99. Applicant further states this application seeks regular route authority to points that are within 20 miles of U.S. Highway 99, and to points beyond 20 miles. No duplicate authority is sought. If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif.

No. MC 59367 (Sub-No. 69), filed June 18, 1969. Applicant: DECKER TRUCK LINE, INC., Post Office Box 915, Fort Dodge, Iowa, 50501. Applicant's representative: Donald L. Stern, 630 City National Bank Building, Omaha, Nebr. 68102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat byproducts and articles* distributed by meat packinghouses as described in sections A and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plantsites of and storage facilities used by Farmbest, Inc., and World Wide Meats, Inc., located at or near Denison, Iowa, to points in Wisconsin. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Des Moines, Iowa, or Chicago, Ill.

No. MC 60012 (Sub-No. 81), filed June 16, 1969. Applicant: RIO GRANDE MOTOR WAY, INC., 1400 West 52d Avenue, Denver, Colo. 80221. Applicant's representatives: Warren D. Braucher and Ernest Porter, 604 Rio Grande Building, Denver, Colo. 80217. Authority sought as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except commodities of unusual value, household goods as defined by the Commission, and those injurious or contaminating to other lading; (1) between Antonito, Colo., and the Colorado-New Mexico State line, from Antonito, Colo., over Colorado Highway 17 to the Colorado-New Mexico State line, and return over the same route, serving all intermediate points and serving the off-route points in that part of Conejos and Rio Grande Counties, Colo., located south of U.S. Highway 160 and west of U.S. Highway 285; and (2) between Antonito, Colo., and Chama, N. Mex., from Antonito, Colo., over U.S. Highway 285 to Tres Piedras, N. Mex., thence over U.S. Highway 64 to Tierra Amarilla, N. Mex., thence over U.S. Highway 84 to its junction with New Mexico State Highway 17 (approximately 4 miles east of Monero, N. Mex.), and thence over New Mexico State Highway 17 to Chama, N. Mex., and return over the same routes, serving all intermediate points and serving the off-route points of No Agua, N. Mex. (approximately 7 miles north of Tres Piedras), the plantsite of Johns-Manville Corp. located approximately 1½ miles east of No Agua; and the plantsite of the United Perlite Corp. located approximately 16 miles east of No Agua. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 64932 (Sub-No. 477), filed June 9, 1969. Applicant: ROGERS CARTAGE CO., a corporation, 1439 West 103d Street, Chicago, Ill. 60643. Applicant's representative: Carl L. Steiner, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Acetone and phenol*, in bulk, in tank vehicles, from the plant site of United States Steel Corp. at or near Haverhill (Scioto County), Ohio, to points in Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Ilinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Virginia, West Virginia, and Wisconsin. NOTE: Applicant states it does not intend to tack, and apparently is willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 72231 (Sub-No. 4), filed June 11, 1969. Applicant: THE J. W. JONES & SON COMPANY, a corporation, Post Office Box 148, Youngstown, Ohio 44501. Applicant's representative: John R. Sims, Jr., 711 14th Street NW., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fresh meats, packinghouse products, and dairy products*, from Youngstown, Ohio, to points in Belmont and Jefferson Counties, Ohio; Brooke, Hancock, Marshall, and Ohio Counties, W. Va.; and points in Allegheny, Greene, Washington, Fayette, Westmoreland, Armstrong, Cambria, and Indiana Counties, Pa. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 76032 (Sub-No. 245), filed June 20, 1969. Applicant: NAVAJO FREIGHT LINES, INC., 1205 South Platte River Drive, Denver, Colo 80223. Applicant's representative: William E. Kenworthy (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Silver bullion, dore bullion, and fine silver alloys*, between Los Angeles and Barstow, Calif., from Los Angeles over Interstate Highway 10 to junction Interstate Highway 15, thence over Interstate Highway 15 to Barstow, and return over the same route, serving the intermediate and off-route points of El Monte and Fontana, Calif., and serving Barstow, Calif., for purposes of joinder only. NOTE: If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif.

No. MC 82841 (Sub-No. 57) (Correction), filed May 5, 1969, published in the FEDERAL REGISTER issue of June 5, 1969, and republished as corrected this issue. Applicant: HUNT TRANSPORTATION, INC., 801 Livestock Exchange Building, Omaha, Nebr. 68107. Applicant's representative: Donald L. Stern, 630 City National Bank Building, Omaha, Nebr. 68102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber, plywood, and other forest products;* (1) from points in Wyoming to points in Iowa, Indiana, Wisconsin, South Dakota, Ohio, Minnesota, Illinois, Michigan, Kansas, and Missouri; (2) from points in Colorado to points in South Dakota, Minnesota, Illinois, Michigan, Kansas, Missouri, and Ohio; and (3) from points in Fergus and Musselshell Counties, Mont., to points in Wyoming, Colorado, Nebraska, Iowa, Illinois, Wisconsin, and Indiana. NOTE: The purpose of this republication is to include the State of Ohio in the destination territory in (1) above, which was erroneously omitted in the previous publication. Applicant states it does not intend to tack, and apparently is willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo., or Cheyenne, Wyo.

No. MC 95540 (Sub-No. 750), filed June 9, 1969. Applicant: WATKINS MOTOR LINES, INC., 1120 West Griffin Road, Lakeland, Fla. 33801. Applicant's representative: Paul E. Weaver (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Clay tile and related items*, from Lakeland, Fla., to points in Colorado, Connecticut, Delaware, District of Columbia, Georgia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New Mexico, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, and West Virginia; and (2) *commodities* used in the manufacturing, distribution, and/or installation of clay tile (except in bulk), on return. NOTE: Common control may be involved. Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Tampa, Fla., or Washington, D.C.

No. MC 95540 (Sub-No. 751), filed June 20, 1969. Applicant: WATKINS MOTOR LINES, INC., 1120 West Griffin Road, Lakeland, Fla. Applicant's representative: Paul E. Weaver (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from the plantsite and warehouse facilities of Seneca Foods Corp., at Dundee, Penn Yan, Geneva, and Williamson, N.Y., to points in Arkansas, Iowa, Kansas, Missouri, Nebraska, Oklahoma, and Texas. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC 105063 (Sub-No. 5), filed June 2, 1969. Applicant: W. H. TAYLOR, 2301 Southwest Hazel Road, Lake Oswego, Oreg. 97034. Applicant's representative: Earle V. White, 2400 Southwest Fourth Avenue, Portland, Oreg. 97201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ground limestone;* (a) from Lake Oswego, Oreg., to points in Klickitat and Lewis Counties, Wash.; and (b) between points in Clark, Cowlitz, Grays Harbor, Klickitat, Lewis, Pacific, Skamania, and Wahkiakum Counties, Wash.; restricted to traffic having a prior movement by rail carrier. NOTE: Applicant states the restriction is applicable only to part (b). Applicant further states it does not intend to tack, and apparently is willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg.

No. MC 105813 (Sub-No. 170), filed June 16, 1969, Applicant: BELFORD TRUCKING CO., INC., 1299 Northwest Third Street, Miami, Fla. Applicant's representative: David Axelrod, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pet foods, pet supplies, pet accessories, tonics, and animal supplements*, from Bayonne, Harrison, Bloomfield, Secaucus, and Jersey City, N.J., to points in Florida, Georgia, and South Carolina. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 106398 (Sub-No. 403), filed June 9, 1969. Applicant: NATIONAL TRAILER CONVOY, INC., 1925 National Plaza, Tulsa, Okla. 74151. Applicant's representatives: Irvin Tull and Fred Rahal, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers* designed to be drawn by passenger automobiles, in initial movements, from New Hanover County, N.C., to points in the United States (except Alaska and Hawaii). NOTE: Applicant states no duplicate authority is being sought. Applicant further states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Wilmington or Raleigh, N.C.

No. MC 107162 (Sub-No. 23), filed June 13, 1969. Applicant: NOBLE GRAHAM, Brimley, Mich. 49715. Applicant's representative: Philip H. Porter, 16 North Carroll Street, Madison, Wis. 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Scrap metal*, from the port of entry on the international boundary line between the United States and Canada located at or near Sault Ste. Marie, Mich., to points in Michigan. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 108068 (Sub-No. 81), filed June 13, 1969. Applicant: U.S.A.C. TRANSPORT, INC., Post Office Box G, Joplin, Mo. 64801. Applicant's representatives: A. N. Jacobs (same address as above), and Wilburn L. Williamson, 600 Leininger Building, Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aircraft parts and materials, equipment, tools, and supplies* used in the manufacturing of aircraft parts, between Sparta, Smithville, Monterey, Gainsboro, and Carthage, Tenn.; Tulsa, Okla.; Mountain Home and Melbourne, Ark.; and Long Beach and Torrance, Calif. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Los Angeles, Calif.

No. MC 111720 (Sub-No. 8), filed June 9, 1969. Applicant: RAY WILLIAMS AND ARLENE WILLIAMS, a partnership, doing business as WILLIAMS TRUCK SERVICE, 2800 East 11th Street, Post Office Box 40, Sioux Falls, S. Dak. 57101.

Applicant's representative: James R. Becker, 412 West Ninth Street., Sioux Falls, S. Dak. 57104. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except meats, meat products, and meat byproducts and articles distributed by meat packinghouses as described in sections A and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766), when moving in mixed truckloads with meats, meat products, and meat byproducts and articles distributed by meat packinghouses, from the plantsite and/or warehouse facilities of Geo. A. Hormel & Co., Austin, Minn., to points in West Virginia; Fayette, Washington, and Allegheny Counties, Pa.; Pike County, Ky.; Sullivan, Johnson, Carter, Washington, and Unicoi Counties, Tenn.; and points in Virginia on and west of U.S. Highway 21, under contract with Geo. A. Hormel & Co. NOTE: If a hearing is deemed necessary, applicant requests it be held at Sious Falls, S. Dak., or Minneapolis, Minn.

No. MC 111812 (Sub-No. 380), filed June 11, 1969. Applicant: MIDWEST COAST TRANSPORT, INC., 405½ East Eighth Street, Post Office Box 1233, Sioux Falls, S. Dak. 57101. Applicant's representatives: R. H. Jinks (same address as above), and Donald L. Stern, 630 City National Bank Building, Omaha, Nebr. 68102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat byproducts, and articles distributed by meat packinghouses*, as defined in sections A and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles, and except hides), from points in the Omaha, Nebr., Council Bluffs, Iowa, commercial zone, to points in North Dakota, South Dakota, Minnesota, Wisconsin, Illinois, Michigan, Ohio, Pennsylvania, New York, New Jersey, Maryland, Delaware, Connecticut, Massachusetts, Rhode Island, Vermont, New Hampshire, and Maine, restricted to traffic originating at Omaha, Nebr., and Council Bluffs, Iowa, and destined to the above named States. NOTE: If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 111812 (Sub-No. 383), filed June 19, 1969. Applicant: MIDWEST COAST TRANSPORT, INC., 405½ East Eighth Street, Post Office Box 1233, Sioux Falls, S. Dak. Applicant's representatives: Donald L. Stern, 630 City National Bank Building, Omaha, Nebr. 68102, and R. H. Jinks (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned preserved foodstuffs*, not cold pack or frozen, from plantsites and storage facilities of Comstock Greenwood Foods, Borden, Inc., at Waterloo, Egypt, Rushville, Penn Yan, Newark, Lyons, Syracuse, Fairport, and Red Creek, N.Y., and West Chester, Pa., to points in New Mexico, Arizona, Colorado, Utah, Nevada, California, Idaho, Montana, Oregon, Washington, and Wyoming. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 112801 (Sub-No. 95), filed June 16, 1969. Applicant: TRANSPORT SERVICE CO., a corporation, Post Office Box 50252, Chicago, Ill. 60650. Applicant's representative: Robert H. Levy, 29 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Soy syrup*, in bulk, in tank vehicles, from Remington, Ind., to Taylorville, Ill. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 112822 (Sub-No. 118), filed June 12, 1969. Applicant: BRAY LINES INCORPORATED, Post Office Box 1191, 1401 North Little Street, Cushing, Okla. 74023. Applicant's representative: Carl L. Wright (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Meats, meat products, meat byproducts, and articles distributed by meat packinghouses*, as described in sections A and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk); (a) from the plantsite and/or warehouse facilities of the Geo. A. Hormel & Co., Miami, Okla., to Algona, Iowa; and (b) from the plantsite and/or warehouse facilities of the Geo. A. Hormel & Co., Algona, Iowa, to Austin, Minn.; (2) *meats, meat products, meat byproducts, and articles distributed by meat packinghouses*, as described in sections A and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk) and *foodstuffs* (except meats, meat products, meat byproducts, and articles distributed by meat packinghouses), as described above when transported in mixed truckloads with meat, meat products, meat byproducts, and articles distributed by meat packinghouses, from the plantsite and/or warehouse facilities of Geo. A. Hormel & Co., Austin, Minn., to points in Kansas, Missouri, Arkansas, Mississippi, and Louisiana, restricted to shipments originating at the plantsites and/or warehouse facilities of Geo. A. Hormel & Co., in Miami, Okla.; Algona, Iowa; and Austin, Minn., and restricted to traffic destined to the named points or States. NOTE: Applicant states no duplicate authority is being sought. It further states the purpose of this application is to permit the carrier to handle intransit through Algona, Iowa, and to originate therein. Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn.

No. MC 113267 (Sub-No. 218), filed May 29, 1969. Applicant: CENTRAL & SOUTHERN TRUCK LINES, INC., 312 West Morris Street, Caseyville, Ill. 62232. Applicant's representative: Lawrence A. Fischer (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bags*, from St. Louis and Kansas City, Mo., to points in Iowa and Minnesota. Restriction: Shipments from St. Louis and Kansas City, Mo., must be combined with shipments originating at Crossett, Ark. (currently authorized), for delivery in Iowa and Minnesota. NOTE: Applicant states it does not intend to tack, and apparently is willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 113843 (Sub-No. 150), filed June 16, 1969. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02110. Applicant's representative: J. H. Blanshan, 29 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Chicago Heights, Elk Grove Village, and Shaumberg, Ill., to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 113855 (Sub-No. 200), filed June 18, 1969. Applicant: INTERNATIONAL TRANSPORT, INC., South Highway 52, Rochester, Minn. 55901. Applicant's representative: Alan Foss, 502 First National Bank Building, Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Nails and wire products*, from ports of entry on the international boundary line between the United States and Canada located in Washington, to points in North Dakota, South Dakota, Minnesota, Wisconsin, Illinois, Iowa, Indiana, Michigan, and Ohio. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 114194 (Sub-No. 152), filed June 12, 1969. Applicant: KREIDER TRUCK SERVICE, INC., 8003 Collinsville Road, East St. Louis, Ill. 62201. Applicant's representative: Gene Kreider (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from Dupo, Ill., to points in Missouri, Illinois, Iowa, Indiana, Kentucky, Tennessee, Arkansas, and Kansas. NOTE: Applicant states it

does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo., or Springfield, Ill.

No. MC 114312 (Sub-No. 13), filed June 19, 1969. Applicant: ABBOTT TRUCKING, INC., 107½ Main Street, Delta, Ohio 43515. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Fertilizer, fertilizer materials, and fertilizer ingredients;* (a) from Toledo, Ohio, to points in New York; (b) from Bascom, Greenville, and Lodi, Ohio, to points in Indiana and Illinois; and (c) from Joliet, Ill., to points in Indiana, Illinois, Michigan, and Ohio; (2) *feed, feed ingredients, and grain products,* from Toledo, Ohio, to points in New York, Pennsylvania, West Virginia, Illinois, and Wisconsin; and (3) *coal,* from Detroit, Mich., to points in Ohio. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. Applicant further states that no duplicating authority is being sought. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 114848 (Sub-No. 44) (Amendment), filed March 27, 1969, published in FEDERAL REGISTER issue of April 24, 1969, amended June 17, 1969, and republished as amended this issue. Applicant: WHARTON TRANSPORT CORPORATION, 1498 Channel Avenue, Memphis, Tenn. 38106. Applicant's representative: James N. Clay III, 2700 Sterick Building, Memphis, Tenn. 38103. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt,* from Memphis, Tenn., to points in Missouri, Arkansas, Mississippi, Alabama, Tennessee, and Kentucky. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. The purpose of this republication is to omit "in bulk", as previously published. If a hearing is deemed necessary, applicant requests it be held at Memphis, Tenn., or New Orleans, La.

No. MC 115162 (Sub-No. 174), filed June 5, 1969. Applicant: POOLE TRUCK LINE, INC., Post Office Box 310, Evergreen, Ala. 36401. Applicant's representative: Robert E. Tate (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Physical fitness, gymnastic, athletic, and sporting goods equipment, barbells, bars, pipe, tubing, exercycles, and boat anchors,* between the plantsite of Diversified Products Corp. at West Haven, Conn., and points in the United States on and east of a line beginning at the mouth of the Mississippi River, and extending along the Mississippi River to its junction with the western boundary of Itasca County, Minn., thence northward along the western boundaries of Itasca and Koochiching Counties, Minn., to the international boundary line between the United States and Canada, and Louisiana, Texas, and Wisconsin. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Montgomery, Ala., or Washington, D.C.

No. MC 115273 (Sub-No. 8), filed June 16, 1969. Applicant: ACME CARRIERS, INC., 216 Third Street, Brooklyn, N.Y. 11215. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bomb bodies,* from Garden City, N.Y., to Corn Husker Army Ammunition Plant, Grand Island, Nebr. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or New York, N.Y.

No. MC 115841 (Sub-No. 354), filed June 20, 1969. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., 1215 West Bankhead Highway, Post Office Box 2169, Birmingham, Ala. Applicant's representatives: C. E. Wesley (same address as applicant), also E. Stephen Heisley, 666 11th Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Foodstuffs* (except in bulk), from Dundee, Penn Yan, and Geneva, N.Y., to points in West Virginia and Kentucky; and (2) *materials and supplies* used by foods processors on return. NOTE: Common control may be involved. Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 116077 (Sub-No. 267), filed June 16, 1969. Applicant: ROBERTSON TANK LINES, INC., 5700 Polk Avenue, Post Office Box 1505, Houston, Tex. 77001. Applicant's representative: Thomas E. James, The 904 Lavaca Building, Austin, Tex. 78701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid animal feeds, liquid animal feed supplements, liquid animal feed ingredients, and molasses,* in bulk, from McComb, Miss., to points in Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, Tennessee, and Texas. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Houston, Tex., or New Orleans, La.

No. MC 116544 (Sub-No. 108), filed June 16, 1969. Applicant: WILSON BROTHERS TRUCK LINES, INC., 700 East Fairview Street, Post Office Box 636, Carthage, Mo. 64836. Applicant's representative: Robert Wilson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned, prepared, and preserved foodstuffs,* from Austin, Ind., to points in Arkansas, Oklahoma, Texas, Louisiana, Missouri, Kansas, Nebraska, Iowa, Wisconsin, Minnesota, and Mississippi. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Louisville, Ky., or Indianapolis, Ind.

No. MC 117344 (Sub-No. 193), filed June 9, 1969. Applicant: THE MAXWELL CO., a corporation, 10380 Evendale Drive, Cincinnati, Ohio 45215. Applicant's representatives: Herbert Baker and James R. Stiverson, 50 West Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Acetone and phenol,* in bulk, in tank vehicles, from the plantsite of United States Steel Corp., at or near Haverhill (Scioto County), Ohio, to points in Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Virginia, West Virginia, and Wisconsin. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 117765 (Sub-No. 83), filed June 12, 1969. Applicant: HAHN TRUCK LINE, INC., 5315 Northwest Fifth, Post Office Box 75267, Oklahoma City, Okla. 73107. Applicant's representative: R. E. Hagan (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pitch, lignin,* dry in bag or barrel, from the plantsite and facilities of American Can Co., Green Bay and Rothschild, Wis., to points in Arkansas, Colorado, Iowa, Kansas, Missouri, Nebraska, and Oklahoma. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Oklahoma City, Okla.

No. MC 121425 (Sub-No. 2), filed June 4, 1969. Applicant: HUDGEL TRANSFER CO., INC., 1323 North 22d Avenue, Phoenix, Ariz. 85009. Applicant's representative: A. Michael Bernstein, 1327 United Bank Building, Phoenix, Ariz. 85012. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods,* as defined by the Commission, between points in Arizona. NOTE: Applicant states that it would tack at any point where authority sought herein, would connect with the authority of Johnson Van Lines sought to be acquired by application form BF-200 being filed simultaneously herewith, and assigned No. MC-FC-71453. By this instant application, applicant seeks to convert a certificate of registration MC

121425 Sub 1 to a certificate of public convenience and necessity. If a hearing is deemed necessary, applicant requests it be held at Phoenix, Ariz.

No. 123048 (Sub-No. 149) (Amendment), filed February 28, 1969, published in the FEDERAL REGISTER issue of April 10, 1969, amended and republished this issue. Applicant: DIAMOND TRANSPORTATION SYSTEM, INC., 1919 Hamilton Avenue, Racine, Wis. 53401. Applicant's representatives: Paul Martinson, Post Office Box A, Racine, Wis. 53401, and Paul Gartzke, 121 West Doty Street, Madison, Wis. 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except household goods, as defined by the Commission, commodities in bulk, and commodities in vehicles equipped with mechanical refrigeration); (a) between military installations or Defense Department establishments in the United States (except Hawaii); and (b) between points in (a) above on the one hand, and, on the other, points in the United States (except Hawaii). NOTE: The purpose of this republication is to amend the commodity description. Applicant states it does not intend to tack if authority is granted in entirety, and is apparently willing to accept a restriction against tacking if warranted. However, applicant further states if authority is granted in part only, tacking would be done at any authorized common point with present authority held under MC 123048 and Subs thereto. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 123048 (Sub-No. 154) (Clarification), filed May 13, 1969, published in FEDERAL REGISTER issue of May 29, 1969, clarified June 18, 1969, and republished as clarified, this issue. Applicant: DIAMOND TRANSPORTATION SYSTEM, INC., 1919 Hamilton Avenue, Post Office Box A, Racine, Wis. 53401. Applicant's representatives: Paul C. Gartzke, 121 West Doty Street, Madison, Wis. 53703, and Paul Martinson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Agricultural implements, farm machinery, and farm equipment;* and (2) *parts* of the commodities described in (1) above; from Hernando, Miss., to points in the United States (except Hawaii) and from Boise, Idaho, to Hernando, Miss. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. The purpose of this republication is to clarify the authority sought. If a hearing is deemed necessary, applicant requests it be held at Jackson, Miss., or Memphis, Tenn.

No. MC 123067 (Sub-No. 89), filed June 19, 1969. Applicant: M & M TANK LINES, INC., Post Office Box 612, Winston-Salem, N.C. Applicant's representative: B. M. Shirley, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Building materials*, from Savannah, Ga., to points in Alabama. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. Applicant also states no duplicating authority is being sought. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 123067 (Sub-No. 90), filed June 19, 1969. Applicant: M & M TANK LINES, INC., Post Office Box 612, Winston-Salem, N.C. 27102. Applicant's representative: B. M. Shirley, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Reclaimed jet fuel*, in bulk, from Douglasville, Ga., to Greensboro and Swannanoa, N.C., and Roanoke, Va. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 124078 (Sub-No. 387) filed June 16, 1969. Applicant: SCHWERMAN TRUCKING CO., a corporation, 611 South 28th Street, Milwaukee, Wis. 53246. Applicant's representative: Richard H. Prevette (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Sand*, from Sewanee, Tenn., to points in Virginia. NOTE: Applicant states it could tack with its Sub 251 at Sewanee to provide service on silica sand from Guion, Ark., to Virginia, however, tacking is not intended. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Nashville, Tenn.

No. MC 124522 (Sub-No. 5), filed June 12, 1969. Applicant: CARLO C. DROGO, Delaware Avenue, Landisville, N.J. 08326. Applicant's representative: Robert B. Einhorn, 1540 Philadelphia Saving Fund Building, 12 South 12th Street, Philadelphia, Pa. 19107. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Concrete products*, from Berlin, Williamstown Junction, Millville, and Vineland, N.J., to points in Massachusetts, under contract with Formigli Corp. NOTE: If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa.

No. MC 124652 (Sub-No. 7), filed June 16, 1969. Applicant: JULIAN F. DUNCAN, doing business as DUNCAN TRANSFER, Post Office Box 1, Riverton, Va. 22651. Applicant's representative: Eston H. Alt, Post Office Box 81, Winchester, Va. 22601. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Masony or mortar cement*, from Riverton, Va., to points in Connecticut under contract with Riverton Lime & Stone Co., Inc., Riverton, Va. NOTE: Applicant holds common carrier authority under MC 110422, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 126128 (Sub-No. 6), filed June 16, 1969. Applicant: DEAN W. HONNENSIEFKEN, doing business as D. H. TRUCKING, Route 1, Box 241, Lyons, Oreg. 97358. Applicant's representative: Lawrence V. Smart, Jr., 419 Northwest 23d Avenue, Portland, Oreg. 97210. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular rotues, transporting: *Lumber*, between points in Polk, Marion, Benton, Lane, Linn, Yamhill, and Multnomah Counties, Oreg., on the one hand, and, on the other, points in Multnomah, Clatsop, and Lincoln Counties, Oreg.; and points in Clark, Cowlitz, Lewis, Skamania, Klickitat, Skagit, Snohomish, King, and Pierce Counties, Wash. NOTE: Applicant states that to some degree the instant application is duplicative, but applicant intends the authority sought be considered a single authority only. Applicant further states that it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg.

No. MC 126514 (Sub-No. 14), filed June 11, 1969. Applicant: HELEN H. SCHAEFFER AND EDWARD P. SCHAEFFER, a partnership, Post Office Box 392, Phoenix, Ariz. 85001. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Calendar mounts, pads, paper, advertising materials, and calendars*, from Sidney, N.Y., to Los Angeles and San Francisco, Calif.; Sparks and Reno, Nev.; Seattle, Wash.; and Portland, Oreg.; and (2) *cosmetics, toilet preparations, perfumes, soap, and advertising materials and displays*, in vehicles equipped with mechanical refrigeration, from Port Jervis, N.Y.; Mountaintop, Pa.; and Newark, N.J., to Sparks and Reno, Nev.; Seattle, Wash.; and Portland, Oreg. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Syracuse or Buffalo, N.Y., Washington, D.C., or Los Angeles, Calif.

No. MC 127561 (Sub-No. 1), filed June 8, 1969. Applicant: W. R. RIVERS, INC., 228 West Pine Street, Post Office Box 895, Hattiesburg, Miss. 39401. Applicant's representative: Dudley W. Conner (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except commodities of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between Lucedale and Poplarville, Miss., over Mississippi Highway 26, serving all intermediate points. NOTE: If a hearing is deemed necessary, applicant requests it be held at Hattiesburg, Miss.

No. MC 127834 (Sub-No. 35), filed June 16, 1969. Applicant: CHEROKEE HAULING & RIGGING, INC., 540–42 Merritt Avenue., Nashville, Tenn. 37203. Applicant's representative: Robert M. Pearce, Post Office Box E, Bowling Green, Ky. 42101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Signs, sign poles, sign parts, and accessories therefor*, from Chicago, Ill., to points in the United States (except Alaska and Hawaii). NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Nashville, Tenn.

No. MC 128302 (Sub-No. 5), filed June 9, 1969. Applicant: THE MANFREDI MOTOR TRANSIT COMPANY, a corporation, Route 87, Newbury, Ohio 44065. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid concrete admixtures*, in bulk, in tank vehicles, from Reynolds, Ga., and Springfield, Mo., to points in the United States (except points in the States of Alaska, Arizona, California, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming). NOTE: Applicant presently holds authority under permit MC 112184 Sub-No. 2 and subs thereunder, therefore, dual operations may be involved. Applicant states it serves shippers, none of whom produce, ship, or receive involved commodities. Applicant states it does not intend to tack, and apparently is willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 128353 (Sub-No. 3), filed June 16, 1969. Applicant: LEE J. PRENTICE, West Bend, Iowa 50597. Applicant's representative: William L. Fairbank, 610 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Crushed rock, sand, and gravel*, in bulk, from points in Worth County, Iowa, to points in Blue Earth, Dodge, Faribault, Freeborn, Martin, Mower, Waseca, and Steele Counties, Minn. NOTE: Applicant states it does not intend to tack, and apparently is willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Des Moines, Iowa.

No. MC 128586 (Sub-No. 3), filed June 16, 1969. Applicant: FEED HAULERS, INC., 1701 Thomas Avenue, Guntersville, Ala. 35976. Applicant's representative: D. H. Markstein, Jr., 512 Massey Building, Birmingham, Ala. 35203. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Poultry offal meal*, from Geraldine and Trussville, Ala., to Denver, Colo., and Davenport and Clinton, Iowa, under contract with Ralston Purina Co. NOTE: If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala., or Washington, D.C.

No. MC 129808 (Sub-No. 4), filed June 16, 1969. Applicant: GRAND ISLAND CONTRACT CARRIER, INC., Rural Route No. 3, Box 46, Municipal Airport, Grand Island, Nebr. 68801. Applicant's representative: J. Max Harding, 605 South 14th Street, Post Office Box 2028, Lincoln, Nebr. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Metal scaffolding towers*, (knocked down), *conveyors, pumps, and parts and accessories* for such products, from Yankton, S. Dak., to points in the United States (except Alaska and Hawaii), under contract with Morgen Manufacturing Co., Yankton, S. Dak. NOTE: If a hearing is deemed necessary, applicant requests it be held at Sioux City, Iowa.

No. MC 133179 (Sub-No. 1), filed June 16, 1969. Applicant: RAYMOND BARTLESON, doing business as: COLORADO CONTRACT CARRIER, 1230 Seventh Street, Post Office Box 5703, Denver, Colo. 80217. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Pickles and peppers*, in containers; (a) from Denver and Fort Collins, Colo., to points in Oklahoma, Kansas, Texas, and New Mexico; and (b) Albuquerque, N. Mex., to Denver, Colo.; (2) *salt*, from Lyons and Hutchinson, Kans., to Fort Collins and Denver, Colo.; (3) *sugar*, from Hereford and Amarillo, Tex., to Denver and Fort Collins, Colo.; and (4) *glass jars*, from Ada, Muskogee, Sand Springs, Okmulgee, Okla., and Waco, Tex., to Denver and Fort Collins, Colo.; all under contract with Dreher Pickle Co., Denver, Colo. NOTE: If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 133536 (Sub-No. 1), filed June 13, 1969. Applicant: DOVER MOVING & STORAGE, INC., 753 North Du Pont Highway, Dover, Del. 19901. Applicant's representative: Wilmer A. Hill, Suite 705, McLachlen Bank Building, Washington, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods*, as defined by the Commission, between points in Delaware, those points in Northampton and Accomack Counties, Va., and those in Caroline, Cecil, Dorchester, Kent, Queen Annes, Somerset, Talbot, Wicomico, and Worcester Counties, Md., restricted to the transportation of traffic having a prior or subsequent movement in containers, beyond the points authorized and further restricted to the performance of pickup and delivery service in connection with packing, crating, and containerization of such traffic. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 133655 (Sub-No. 7), filed June 13, 1969. Applicant: TRANS-NATIONAL TRUCK, INC., 813 Oakwood Drive, Euless, Tex. 76039. Applicant's representative: Charles W. Singer, 33 North Dearborn Street, Chicago, Ill. 60605. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Packaged and cartoned new furniture, mirrors and furniture parts*, from Toccoa, Ga., to Atlanta, Ga. NOTE: If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex.

No. MC 133725 (Sub-No. 2), filed June 13, 1969. Applicant: SAME DAY TRUCKING CO., INC., 400 Newark Avenue, Piscataway, N.J. 08854. Applicant's representative: Paul J. Keeler, Post Office Box 253, South Plainfield, N.J. 07080. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Tailpipes, exhaust pipes, shock absorbers, brake parts, mufflers, and automotive parts and materials* used in installation of such commodities, from Roselle Park, N.J., to Philadelphia, Pa., New York, N.Y.; points in Nassau and Suffolk Counties, N.Y., points in Massachusetts, Rhode Island, Connecticut, Delaware, and those in Maryland on and east of U.S. Highway 15 (except Baltimore, Md.); under contract with Midas International Corp. NOTE: If a hearing is deemed necessary applicant requests it be held at Newark, N.J.

No. MC 133739 (Sub-No. 1), filed June 9, 1969. Applicant: KINGSVILLE MOVING & STORAGE, INC., 517 South Sixth Street, Post Office Box 448, Kingsville, Tex. 78363. Applicant's representative: Mert Starnes, The 904 Lavaca Building, Austin, Tex. 78701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Containerized used household goods*, between Kingsville, Tex., and points within a 25-mile radius of Kingsville, Tex., restricted to the transportation of traffic having a prior or subsequent movement, in containers, beyond the points authorized and further restricted to the performance of pickup and delivery service in connection with packing, crating, and containerization, or unpacking, uncrating, and decontainerization of such traffic. NOTE: If a hearing is deemed necessary, applicant requests it be held at San Antonio or Austin, Tex.

No. MC 133761 (Sub-No. 1) (Amendment), filed May 28, 1969, published FEDERAL REGISTER issue of June 26, 1969, amended and republished as amended, this issue. Applicant: GEORGE A. LABAGH, 713 North Street, Middletown, N.Y. 10940. Applicant's representative: Arthur J. Piken, 100–16 Jamaica Avenue, Jamaica, N.Y. 11432. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Trailers*, other than those designed to be drawn by passenger automobiles, *containers and chassis*; (a) between Middletown, N.Y., and Port Jervis, N.Y.; and (b) from Middletown, N.Y., to Fairless Hills, and Philadelphia, Pa.; Norfolk, Va., Baltimore. Md., and points in the New York, N.Y., commercial zone, as defined by the Commission, in 53 M.C.C. 451, within which local operations may be conducted under the exemption provisions provided by section (b)(8);

and (2) *trailers*, other than those designed to be drawn by passenger automobiles, and *trailer parts*, from Fairless Hills, Pa., to Middletown, N.Y., all under contract with Strick Corp. NOTE: The purpose of this republication is to enlarge the territorial description. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Philadelphia, Pa.

No. MC 133773 (Clarification), filed May 23, 1969, published FEDERAL REGISTER issue of June 19, 1969, and republished as clarified this issue. Applicant: JOHN YACONIELLO, JR., doing business as ALL STATES DRIVE-A-WAY SERVICE, 450 Main Street, East Hartford, Conn. 06118. Applicant's representative: John E. Fay, 79 Lafayette Street, Hartford, Conn. 06106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Motor vehicles* in driveaway service, between points in Connecticut on the one hand, and, on the other, points in the United States (except Alaska and Hawaii). NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. The purpose of this republication is to show Hawaii as an exception in territory description. If a hearing is deemed necessary, applicant requests it be held at Hartford, Conn., New York, N.Y., or Washington, D.C.

No. MC 133789, filed June 2, 1969. Applicant: BIG SKY FARMERS AND RANCHERS MARKETING COOPERATIVE OF MONTANA, a corporation, 16124 Bloomfield Avenue, Post Office Box 566, Artesia, Calif. 90701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities, including classes A and B explosives*, moving on Government bills of lading, between points in Kentucky, Tennessee, Indiana, Ohio, Pennsylvania, New York, New Jersey, Connecticut, Massachusetts, Maine, Maryland, Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Michigan, Minnesota, on the one hand, and, on the other, points in Washington, Oregon, California, Nevada, Utah, and Arizona. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Los Angeles, Calif.

No. MC 133799, filed June 5, 1969. Applicant: METROPOLITAN MOVING & STORAGE, INC., 8130 Eastern Boulevard, Baltimore, Md. 21224. Applicant's representative: Paul F. Sullivan, 701 Washington Building, Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission; between Washington, D.C., and points in Maryland (restricted to shipments moving in containers and having an immediately prior or subsequent movement by rail, motor, water, or air and moving on through bills of lading of forwarders of used household goods), NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 133805, filed June 11, 1969. Applicant: LONE STAR CARRIERS, INC., 740 North Houston, Post Office Box 11304, Fort Worth, Tex. 76109. Applicant's representative: M. Ward Bailey, 2412 Continental Life Building, Fort Worth, Tex. 76102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products, meat byproducts and articles distributed by meat packinghouses*, from the plantsite and storage facilities used by National Beef Packing Company at/or near Liberal, Kans., to points in the States of Utah, Idaho, Florida, Washington, Oregon, Montana, Wyoming, North Dakota, South Dakota, and Nevada (restricted to traffic originating at the plantsite and warehouse facilities of National Beef Packing Co. NOTE: If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo.

No. MC 133806, filed May 21, 1969. Applicant: CLEARENCE C. TROUT, 346 Wilcox Avenue, Elgin, Ill. 60120. Applicant's representative: Thomas A. Keegan, 1116 Rockford Trust Building, Rockford, Ill. 61101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, from O'Hare International Airport, Chicago Midway Airport, Meigs Fields, Chicago, Ill., to Marengo, Elgin, Rockford, Ill., area. NOTE: Applicant states it does not intend to tack and apparently is willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 133812 (Correction), filed June 10, 1969, published FEDERAL REGISTER, issue of July 3, 1969, and republished as corrected this issue. Applicant: LEON OLSEN, ALBERT OLSEN, AND WILLIAM OLSEN, a partnership, doing business as LEON OLSEN TRUCKING COMPANY, 900 Wisconsin Street, Pine Bluff, Ark. 71601. Applicant's representative: Donald R. Partney, 35 Glenmere Drive, Little Rock, Ark. 72204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bauxite ore* in bulk, in dump vehicles, from barge line port or ports on the Arkansas River at or near Little Rock, Ark., to Reynolds Metals Co. plant at or near Bauxite, Ark. NOTE: The purpose of this correction is to show the correct docket number MC 133812 in lieu of MC 133182, which was in error. Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. If a hearing is deemed necessary, applicant requests it be held at Little Rock, Ark.

No. MC 133817, filed June 16, 1969. Applicant: CELLI TRANSPORT COMPANY, a corporation, 10328 West Belle Plaine, Schiller Park, Ill. Applicant's representative: Irving Stillerman, 29 South La Salle Street, Chicago, Ill. 60603. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 133834, filed June 16, 1969. Applicant: HARBOR CARTAGE, INC., 3910 West Fort Street, Detroit, Mich. 48209. Applicant's representative: William B. Elmer, 22644 Gratiot Avenue, East Detroit, Mich. 48021. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between points in Bay, Midland, and Saginaw Counties, Mich., on the one hand, and, on the other, the Detroit Metropolitan Airport located at or near Romulus, Mich., and the Detroit Willow Run Airport located at or near Ypsilanti, Mich., restricted to traffic originating at or destined to the plantsites and distribution facilities of the Dowe Chemical Co. and Dowe-Corning Corp., and further restricted to traffic having an immediate prior or subsequent movement by air. NOTE: If a hearing is deemed necessary, applicant requests it be held at Detroit or Lansing, Mich.

MOTOR CARRIERS OF PASSENGERS

No. MC 133772, filed May 23, 1969. Applicant: CHARTERED BUS SERVICE, INC., 1551 Azalea Garden Road, Norfolk, Va. 23502. Applicant's representative: John M. Cleary, 914 Washington Building, 15th Street and New York Avenue NW., Washington, D.C. 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in the same vehicle with the passengers in special and chartered operations, in round-trip tours, beginning and ending at Portsmouth, Norfolk, Chesapeake, Virginia Beach, Hampton, and Newport News, Va., and extending to points anywhere in the Continental United States, including ports of entry on the international boundary of the United States and Canada and Mexico, under contract with Jewish Community Center, Norfolk, Va. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., Richmond or Norfolk, Va.

APPLICATION OF FREIGHT FORWARDERS

No. FF-266 (Sub-No. 2) (Clarification), HAWAIIAN EXPRESS SERVICE, INC., Extension—NEVADA, filed June 9, 1969, published FEDERAL REGISTER issue of June 19, 1969, clarified and republished this issue. Applicant: HAWAIIAN EXPRESS SERVICE, INC., 646 First Street, San Francisco, Calif. 94107. Applicant's representative: Daniel W. Baker, 405 Montgomery Street, San Francisco, Calif. 94104. NOTE: The purpose of this partial republication is to show U.S.

Highway 6 in lieu of Interstate Highway 6 in territorial description. The rest of the application remains as previously published.

APPLICATION FOR BROKERAGE LICENSE

No. MC 130086, filed May 13, 1969. Applicant: WALLACE D. MAXAM, GERALD B. HAUSER, MRS. AILEEN SWEIDA, AND MRS. SYLVIA KORALEWSKI, a partnership, doing business as MAXAM TOUR AND TRAVEL, 4531 West Forest Home Avenue, Milwaukee, Wis. For a license (BMC 5) to engage in operations as a *broker* at Milwaukee, Wis., in arranging for transportation in interstate or foreign commerce of *passengers and their baggage*, in special or charter operations, beginning and ending at points in Milwaukee County, Wis., and extending to points in the United States.

APPLICATIONS IN WHICH HANDLING WITHOUT ORAL HEARING HAS BEEN REQUESTED

No. MC 2253 (Sub-No. 39), filed June 19, 1969. Applicant: CAROLINA FREIGHT CARRIERS CORPORATION, Highway 150, Cherryville, N.C. 28021. Applicant's representative: W. C. Mauldin, Post Office Box 697, Cherryville, N.C. 28021. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Clay tile and related articles and commodities used in the installation thereof*, from Lakeland, Fla., to points in Georgia, South Carolina, Virginia, Pennsylvania, New Jersey, New York, Delaware, Maryland, and West Virginia. NOTE: Applicant states that it does not intend to tack, and apparently is willing to accept a restriction against tacking, if warranted.

No. MC 128279 (Sub-No. 10), filed June 17, 1969. Applicant: ARROW FREIGHTWAYS, INC., Post Office Box 3783, Albuquerque, N. Mex. 87110. Applicant's representative: Jerry R. Murphy, 708 LeVeta Drive NE, Albuquerque, N. Mex. 87108. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Gypsum and gypsum products*, and *materials and supplies* used in the installation or distribution thereof, from Rosario, N. Mex., to points in Wyoming. NOTE: Applicant states it does not intend to tack, and is apparently willing to accept a restriction against tacking, if warranted.

By the Commission.

[SEAL] ANDREW ANTHONY, Jr.,
Acting Secretary.

[S.O. 994; ICC Order 29]

MISSOURI-KANSAS-TEXAS RAILROAD CO.

Rerouting or Diversion of Traffic

In the opinion of N. Thomas Harris, agent, the Missouri-Kansas-Texas Railroad Co. is unable to transport traffic over its line between Keyes and Forgan, Okla., because of derailment and track damage.

It is ordered, That:

(a) The Missouri-Kansas-Texas Railroad Co., being unable to transport traffic over its line between Keyes and Forgan, Okla., because of derailment and track damage, that line and its connections are hereby authorized to reroute or divert such traffic over any available route to expedite the movement.

(b) Concurrence of receiving road to be obtained: The Missouri-Kansas-Texas Railroad Co. shall receive the concurrence of other railroads to which such traffic is to be diverted or rerouted before the rerouting or diversion is ordered.

(c) Notification to shippers: Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic by said agent is deemed to be due to carrier's disability, the rates applicable to traffic diverted or rerouted by said agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic; divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) Effective date: This order shall become effective at 3 p.m., July 3, 1969.

(g) Expiration date: This order shall expire at 11:59 p.m., July 19, 1969, unless otherwise modified, changed, or suspended.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., July 3, 1969.

INTERSTATE COMMERCE COMMISSION,
[SEAL] N. THOMAS HARRIS,
Agent.

[Notice 373]

MOTOR CARRIER TRANSFER PROCEEDINGS

JULY 7, 1969.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-71166. By order of June 26, 1969, the Motor Carrier Board approved the transfer to Schiffmann Moving & Cartage Co., Inc., 4618 West Woolworth Ave., Milwaukee, Wis. 53218, of the certificate No. MC-23036 issued April 22, 1949, to Emil P. Reinhardt, doing business as Schiffmann Cartage Co., 4618 West Woolworth Ave., Milwaukee, Wis. 53218, authorizing the transportation of: Household goods, as defined by the Commission, between points in Milwaukee County, Wis., and points in Wisconsin, Minnesota, Iowa, Illinois, Indiana, and Michigan, in a radial movement.

No. MC-FC-71423. By order of June 26, 1969, the Motor Carrier Board approved the transfer to Everett Delivery Service, Inc., Detroit, Mich., of the operating rights in permit No. MC-126896 issued September 22, 1965, to Gene F. Everett, doing business as Everett Delivery Service, Detroit, Mich., authorizing the transportation of exposed and processed film and prints, complimentary replacement film, incidental dealer handling supplies, and advertising literature moving therewith, between Detroit, Mich., on the one hand, and, on the other points in Genesee, Livingston, Macomb, Oakland, St. Clair, Washtenaw, and Wayne Counties, Mich. Wallace D. Riley, Riley and Roumell, 2200 Penobscot Building, Detroit, Mich. 48226, attorney for applicants.

No. MC-FC-71430. By order of June 26, 1969, the Motor Carrier Board approved the transfer to Melvin A. Bolstad Paradise, Calif., of certificate of registration No. MC-98392 (Sub-No. 1), issued October 22, 1963, to Myron Bolstad, doing business as Paradise Freight Line, Paradise, Calif., authorizing the transportation of general commodities between Chico and Stirling City, Calif., and intermediate points via Doon, Lovelock, De Sable, Nagalia, and Paradise, Calif. Edward J. Hegarty, 21st Floor, 100 Bush Street, San Francisco, Calif. 94104, attorney for applicants.

[SEAL] ANDREW ANTHONY, Jr.,
Acting Secretary.

No. 132—Pt. I——1

FEDERAL REGISTER

Area Code 202 Phone 962–8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears at the end of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1969, and specifies how they are affected.

Title 7—AGRICULTURE

Chapter X—Consumer and Marketing Service (Marketing Agreements and Orders; Milk), Department of Agriculture

[Milk Order 32]

PART 1032—MILK IN THE SOUTHERN ILLINOIS MARKETING AREA

Order Suspending Certain Provision

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Southern Illinois marketing area (7 CFR Part 1032), it is hereby found and determined that:

(a) The following provision of the order does not tend to effectuate the declared policy of the Act for the month of July 1969:

In § 1032.14(b)(2) the provision "during the months of May and June and in any other month for not more than 8 days of production of producer milk by such producer."

Thirty days notice of the effective date hereof is impractical, unnecessary, and contrary to the public interest in that:

(1) This suspension order does not require of persons affected substantial or extensive preparation prior to the effective date.

(2) This suspension order is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area.

(3) This suspension order will revoke for the month of July 1969 the provision which limits the quantity of diverted milk which qualifies as producer milk to not more than the 8 days' production of a producer.

(4) This suspension action is necessary to provide for the efficient handling of reserve milk for the market during July 1969. The volume of milk needed to be moved to milk manufacturing plants exceeds the volume which could be moved under the diversion provision limitations of the order. The most efficient method of handling is movement directly from producers' farms to milk manufacturing plants. This suspension would allow such handling while the dairy farmers involved retain producer status.

(5) Interested parties were afforded opportunity to file written data, views or arguments concerning this suspension (34 F.R. 9620). None were filed in opposition to the proposed suspension.

Therefore, good cause exists for making this order effective July 1, 1969.

It is therefore ordered, That the aforesaid provision of the order is hereby suspended for the period July 1969.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date: July 1, 1969.

Signed at Washington, D.C., on July 8, 1969.

RICHARD E. LYNG,
Assistant Secretary.

[F.R. Doc. 69-8199; Filed, July 10, 1969; 8:48 a.m.]

Title 15—COMMERCE AND FOREIGN TRADE

Chapter I—Bureau of the Census, Department of Commerce

PART 30—FOREIGN TRADE STATISTICS

Cargo Laden at One Port To Be Transferred to Exporting Carrier at Port of Exit

Pursuant to title 13, United States Code, section 302, the following amendment is made to the regulations published in the FEDERAL REGISTER on August 27, 1966 (31 F.R. 11368) (15 CFR Part 30). In accordance with administrative procedure, 5 U.S.C. 553, notice and hearing on these amendments and postponement of the effective date thereof are unnecessary because (1) the amendment is a change in the substantive rules which grant or recognize exemptions or relieve restrictions, and (2) is an interpretive rule and statement of policy.

Effective date: This amendment to the Foreign Trade Statistics Regulations is effective on the date of publication in the FEDERAL REGISTER.

Section 30.36 is deleted in its entirety and replaced by the following:

§ 30.36 Cargo laden at one port to be transferred to the exporting carrier at the port of exit.

(a) Subject to the provisions set forth below, Shipper's Export Declarations may be filed at the port of origin (in lieu of the actual port of exportation as prescribed in § 30.12) for shipments to all foreign countries (except Canada, where Customs authentication and export control are not considerations) for:

(1) Air shipments laden aboard a domestic flight for transfer to an international flight at the port of export;

(2) Air shipments laden aboard an international flight for transfer to another international flight of the same airline at the port of export;

(3) Surface shipments, containerized and/or consolidated at freight terminals within the port of origin, provided that distance and/or other factors do not make it impractical for Customs Officers to travel to and from the site where the shipment is presented for inspection; and

(4) Surface/air shipments, that is, shipments moving by air from the port of origin for transfer to surface means at the port of export, and shipments moving by surface means from the port of origin for transfer to an aircraft at the port of export.

(b) Where the procedure referred to in paragraph (a) of this section is used, the requirements of §§ 30.13 and 30.14 for the filing of Shipper's Export Declarations by the exporter or his agent may be satisfied by presentation of the declaration at any one of the designated ports of origin listed in subparagraph (5) of paragraph (c) of this section. Prior application and specific approval for the use of this optional procedure are not required.

(c) Where the exporter (or his agent) and the carrier involved elect to utilize these optional procedures, the following shall be strictly observed:

(1) Shipper's Export Declarations with all required licenses for review of licensing and statistical requirements must be presented to the Customs Director by the exporter or his agent (the agent may be the initial carrier) sufficiently prior to lading of the cargo at the port of origin to permit inspection. Additional copies of Shipper's Export Declarations needed to comply with requirements of other government agencies as well as any other documents to accompany the shipment to the port of exportation shall be presented also at this time. Any required export declaration correction forms shall be filed in triplicate at the port of origin.

(2) Shipper's Export Declarations shall show in the space for authentication the name of the port of origin, and "Port-of-Origin Procedure—copy on file at (name of port of origin)" shall be stamped or otherwise printed across the bottom of columns 9 through 15. However, the name of the port of exportation at which the merchandise is to be transferred to the exporting carrier shall be entered and coded as the "port of export" in the appropriate spaces on the declaration. If the port of exportation is changed after the carrier departs from the port of origin, the exporting carrier that is to carry the shipment from the United States shall correct the export declaration.

(3) The name of the exporting carrier (actual name of vessel, or if by air the name of the airline) that is to carry the shipment from the United States or "rail," "truck," or "vehicle," as appropriate for land shipments shall be entered if known, at the port of origin. If such exporting carrier is unknown, or if the exporting carrier designated in the export declaration filed at the port of origin is changed, the carrier at the port

of exportation shall be responsible for entering the correct name.

(4) All air shipments to be transferred from one international flight to another shall be separately manifested at the port of origin and an additional copy of the manifest for those shipments shall be prepared and shall accompany the shipments to the port of exportation. If shipments are to be transferred to more than one carrier at the port of exportation, they shall not be combined on the same page of the manifest. The outward manifest filed at the port of origin must show the export declaration number for each shipment, the port where the merchandise was laden, and port of transfer for exportation, as well as other data required by the regulations in this part and by 19 CFR 6.8 (Customs Regulations). At the port of exportation, the additional copy of the manifest shall be corrected by the airlines to show the flight number of the exporting aircraft and the date of exportation, and shall be filed as a part of the outward manifest of the exporting aircraft.

(5) Only the following ports may be utilized as ports of origin for the designated methods of transportation or shipment:

Air only	Surface only	Air and surface
Atlanta, Ga.	Charleston, S.C.	Baltimore, Md.
Boston, Mass.	Jacksonville, Fla.	Buffalo, N.Y.
Dallas, Tex.		Chicago, Ill.
Denver, Colo.		Cleveland, Ohio
Honolulu, Hawaii		Detroit, Mich.
Kansas City, Mo.		Houston, Tex.
Memphis, Tenn.		Los Angeles, Calif.
Miami, Fla.		New Orleans, La.
Minneapolis, Minn.		New York, N.Y.
Newark, N.J.		Philadelphia, Pa.
Oklahoma City, Okla.		St. Louis, Mo.
Pittsburgh, Pa.		San Francisco, Calif.
Port Everglades, Fla.		
Portland, Oreg.		
San Diego, Calif.		
San Juan, P.R.		
Seattle, Wash.		
Tucson, Ariz.		

(6) After authentication by the Customs Director at the port of origin one copy shall be retained at the port of origin and the original and duplicate copies shall be returned by the Customs Director to the person presenting the export declarations; and those copies shall be delivered to the carrier transporting the cargo to the port of exportation. The carrier transporting the merchandise to the port of exportation, in turn, will be responsible for delivering the two copies to the exporting carrier at the port of exportation.

(7) The exporting carrier shall present the original and duplicate copies of the export declarations with the cargo manifest to Customs at the port of exportation. Where shipments move to Mexico by land transportation or by ferry, the original and duplicate authenticated export declarations shall be presented to Customs at the port of export at the time of, or prior to, movement of the goods across the border.

(8) Statistical copies of Shipper's Export Declarations shall be batched separately from Customs copies by the exporting carrier prior to presentation of the declarations (and manifest, if required) to Customs.

A. Ross Eckler,
Director,
Bureau of the Census.

May 5, 1969.

I concur: June 19, 1969.

Eugene T. Rossides,
Assistant Secretary.

Title 12—BANKS AND BANKING

Chapter V—Federal Home Loan Bank Board

SUBCHAPTER C—FEDERAL SAVINGS AND LOAN SYSTEM

[No. 23,029]

PART 545—OPERATIONS

Real Estate Loans

July 3, 1969.

Resolved that the Federal Home Loan Bank Board considers it advisable to amend Part 545 of the rules and regulations for the Federal Savings and Loan System (12 CFR Part 545) to authorize certain Federal savings and loan associations to invest in real estate loans on dwellings which are subject to the leased housing program authorized by section 23 of the United States Housing Act of 1937, as amended, on a more liberal basis than is applicable to real estate loans by such associations generally, and, therefore, hereby amends said Part 545 by adding a new § 545.6-23 immediately after § 545.6-22, to read as follows, effective July 11, 1969:

§ 545.6-23 Loans on single-family dwellings subject to section 23 of the United States Housing Act of 1937, as amended.

Without regard to any other provision of this part except §§ 545.6-8, 545.6-10, and 545.6-11, a Federal association which has a Charter K (rev.) or Charter N may invest in installment loans secured by first liens on single-family dwellings located in its regular lending area in an amount not in excess of 90 percent of the value thereof and not more than $20,000 for each single-family dwelling, if such dwellings are subject to the leased housing program authorized by section 23 of the United States Housing Act of 1937, as amended.

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943-1948 Comp., p. 1071)

Resolved further that, since affording notice and public procedure on the above amendment would delay the amendment from becoming effective for a period of time, and since it is in the public interest for the additional authority granted in the amendment to become effective without delay, the Board hereby finds that notice and public procedure on said amendment are contrary to the public interest under the provisions of § 508.11 of the general regulations of the Federal Home Loan Bank Board and 5 U.S.C. 553(b); and publication of said amendment for the period specified in § 508.14 of the general regulations of the Federal Home Loan Bank Board and 5 U.S.C. 553(d) prior to the effective date of said amendment would, in the opinion of the Board, likewise be contrary to the public interest for the same reason, and the Board hereby so finds; and the Board hereby provides that said amendment shall become effective as hereinbefore set forth.

By the Federal Home Loan Bank Board.

[SEAL] JACK CARTER,
Secretary.

[F.R. Doc. 69-8192; Filed, July 10, 1969; 8:48 a.m.]

[No. 23,021]

PART 545—OPERATIONS

Service Corporations

JULY 3, 1969.

Resolved that, notice and public procedure having been duly afforded (34 F.R. 7580) and all relevant material presented or available having been considered by it, the Federal Home Loan Bank Board, upon the basis of such consideration, determines that it is advisable to amend § 545.9-1 of the rules and regulations for the Federal Savings and Loan System (12 CFR 545.9-1) for the purpose of preventing a Federal association from investing in, or retaining an investment in, a service corporation which uses the words "National", "Federal", or "United States" or the initials "U.S." in its corporate name, which use could be misleading in the opinion of the Board and also may be in violation of the prohibitions contained in 18 U.S.C. 709. Accordingly, § 545.9-1 is amended by adding at the end thereof a new paragraph (f) to read as follows, effective August 10, 1969:

§ 545.9-1 Service corporations.

* * * * *

(f) *Corporate name.* No Federal association may invest in, or retain any investment in, the capital stock, obligations, or other securities of any service corporation the corporate name of which includes the words "National", "Federal", or "United States" or the initials "U.S.".

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943-1948 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] JACK CARTER,
Secretary.

[F.R. Doc. 69-8193; Filed, July 10, 1969; 8:48 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

SUBCHAPTER C—AIRCRAFT

[Docket No. 69-CE-6-AD; Amdt. 39-793]

PART 39—AIRWORTHINESS DIRECTIVES

Cessna 300 Series and 400 Series Airplanes

Amendment 39-774 (34 F.R. 9330, 9331), AD 69-14-1, on Cessna Models 310G, H, I, J, K, L, N, and P; E310H; E310J; T310P; 320A, B, C, D, E, and F; 401 and 401A; 402 and 402A; 411 and 411A; 421 and 421A, prohibits operation with less than 10 gallons of fuel in each main tank and requires prior to further flight the installation of placards reading: "Operation with less than 10 gallons of fuel in each main tank is prohibited" and "Maintain power within green arcs during descent". The directive further requires on Cessna Models 310L, N, P; T310P; 320E, F; 401, 401A; 402, 402A; 411, 411A; 421, and 421A airplanes prior to further flight, the installation of a placard reading: "Maximum speed with 15° to full flaps shall not exceed 140 MPH". On Cessna Models 310G, H, and 320A airplanes the directive requires prior to further flight the installation of a placard reading: "Flap position shall not exceed 35 degrees".

Since the issuance of AD 69-14-1, the manufacturer has developed a modification to the fuel system which will allow the safe operation of the airplanes without the restrictions imposed by the airworthiness directive. The modification is contained in Cessna Service Letter ME69-16, dated June 27, 1969, and consists of the addition of a pump in each main wing tank which maintains a constant fuel supply at the main wing tank fuel outlet.

This modification has been accomplished on certain aircraft and these aircraft are specifically excepted in the applicability clause of this amendment.

In lieu of the foregoing, accomplishment of an equivalent STC approved modification would be considered satisfactory.

In order to assure that the above modification is accomplished, an amendment to AD 69-14-1 is being issued requiring on or before January 1, 1970, the accomplishment of the modification set forth in Cessna Service Letter ME69-16 or any equivalent method approved by the Chief, Engineering and Manufacturing Branch, Federal Aviation Administration, Central Region.

Since the restrictions and placarding in AD 69-14-1 will remain in effect until the fuel system has been modified, the agency believes the compliance time of six (6) months is satisfactory.

Since this amendment is in the interest of safety, it is found that notice and public procedure hereon are impractical and good cause exists for making this amendment effective in less than thirty (30) days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (31 F.R. 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-774 (34 F.R. 9330, 9331), AD 69-14-1, is amended as follows:

1. The applicability statement is amended to read as follows:

CESSNA. Applies to Models 310G, H, I, J, K, L, N, P, and T310P, Serial Nos. 310G0001 through 310P0166 except 310P0079, 310P0121, 310P0135, 310P0154, 310P0155; all E310J and E310H Aircraft; all 320A, B, C, D, E, F Aircraft; Models 401, 401A, Serial Nos. 401-0001 through 401A0078 except 401A0073; Models 402, 402A, Serial Nos. 402-0001 through 402A0063 except 402A0062; all 411, 411A Aircraft; Models 421, 421A, Serial Nos. 421-0001 through 421A0099 except 421A0041, 421A0077, 421A0093.

2. The Following paragraphs are added following paragraph E:

(F) On or before January 1, 1970, unless already accomplished, modify fuel system either by the installation of a pump in each main wing tank and all related changes in accordance with Cessna Service Letter ME69-16, dated June 27, 1969, or by the accomplishment of any equivalent method approved by the Chief, Engineering and Manufacturing Branch, Federal Aviation Administration, Central Region.

(G) Upon accomplishment of the modification required by paragraph F, compliance with the provisions of paragraphs A, B, C, D, and E is no longer required.

This amendment becomes effective July 11, 1969.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958; 49 U.S.C. 1354(a), 1421, 1423, and Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))

Issued in Kansas City, Mo., on July 2, 1969.

EDWARD C. MARSH,
Director, Central Region.

[F.R. Doc. 69-8170; Filed, July 10, 1969; 8:46 a.m.]

SUBCHAPTER E—AIRSPACE

[Airspace Docket No. 69-WE-44]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the description of the Tacoma, Wash. (McChord AFB), control zone.

The McChord RBN was decommissioned May 25, 1969. Since a portion of the control zone is described on this facility, an editorial change is required. Action is taken herein to reflect this change.

Since this amendment is editorial in nature and imposes no additional burden on any person, notice and public procedure hereon are unnecessary.

In view of the foregoing, in § 71.171 (34 F.R. 4557) the Tacoma, Wash. (McChord AFB) control zone is amended by deleting all after "* * * the McChord AFB VOR 182° radial, * * *" and substituting therefor "* * * extending from the 5-mile radius zone to 7.5 miles south of the VOR."

Effective date. This amendment shall be effective 30 days after publication in the FEDERAL REGISTER.

Issued in Los Angeles, Calif., on July 2, 1969.

LEE E. WARREN,
Acting Director, Western Region.

[F.R. Doc. 69-8169; Filed, July 10, 1969; 8:46 a.m.]

SUBCHAPTER F—AIR TRAFFIC AND GENERAL OPERATING RULES

[Reg. Docket No. 9673; Amdt. 657]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

The amendments to the standard instrument approach procedures contained herein are adopted to become effective when indicated in order to promote safety. The amended procedures supersede the existing procedures of the same classification now in effect for the airports specified therein. For the convenience of the users, the complete procedure is republished in this amendment indicating the changes to the existing procedures.

As a situation exists which demands immediate action in the interests of safety in air commerce, I find that compliance with the notice and procedure provisions of the Administrative Procedure Act is impracticable and that good cause exists for making this amendment effective within less than 30 days from publication.

In view of the foregoing and pursuant to the authority delegated to me by the Administrator (24 F.R. 5662), Part 97 (14 CFR Part 97) is amended as follows:

1. By amending § 97.11 of Subpart B to amend low or medium frequency range (L/MF), automatic direction finding (ADF) and very high frequency omnirange (VOR) procedures as follows:

STANDARD INSTRUMENT APPROACH PROCEDURE—TYPE NDB (ADF)

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
					2-engine or less		More than 2-engine, more than 65 knots
From—	To—	Course and distance	Minimum altitude (feet)	Condition	65 knots or less	More than 65 knots	
IDA VOR	NDB	Direct	7000	T-dn%	300-1	300-1	200-½
Rigby Int	NDB (final)	Direct	5400	C-dn	500-1	500-1	500-1½
				S-dn-20	400-1	400-1	400-1
				A-dn	800-2	800-2	800-2

Procedure turn W. side of crs, 019° Outbnd, 199° Inbnd, 7000′ within 10 miles.
Minimum altitude over facility on final approach crs, 5400′.
Crs and distance, facility to airport, 199°—2.2 miles.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 2.2 miles after passing IDA NDB climb to 7000′ on 197° crs of IDA NDB within 10 miles.
%Takeoff all runways: Shuttle climb on 197° crs from IDA NDB within 20 miles to minimum altitude required for direction of flight.

Facility on airport.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 0 mile after passing PRB VOR, turn left, climb to 3600′ on PRB VOR R 133° within 15 miles. (CAUTION: 3625′ terrain 21 miles SE of VOR.)
NOTE: When authorized by ATC, DME may be used at 12 miles at 3600′ between PRB R 077° clockwise to R 179° to position aircraft for straight-in approach with elimination of procedure turn.
%Takeoffs all runways: Climb in a holding pattern NW of PRB VOR on PRB VOR R 326° (146° Inbnd), left turns, within 10 miles to cross the VOR at or above the following MCA's: V113, 3000′ northbound; V248, 3000′ eastbound; V25, 3000′ southeastbound; V25W, 3000′ southbound; V25, 5000′ northwestbound; V25E—on crs, climb satisfactory with minimum climb rate of 180′ per mile.
#800′ ceiling authorized for aircraft equipped with operative DME.
MSA within 25 miles of facility: 000°-090°—5400′; 090°-270°—4700′; 270°-360°—5000′.

City, Paso Robles; State, Calif.; Airport name, Paso Robles County; Elev., 836′; Fac. Class., L-BVORTAC; Ident., PRB; Procedure No. VOR R 133°, Amdt. 5; Eff. date 31 July 69; Sup. Amdt. No. 4; Dated, 26 May 66

2. By amending § 97.11 of Subpart B to delete low or medium frequency range (L/MF), automatic direction finding (ADF) and very high frequency omnirange (VOR) procedures as follows:

Elkhart, Ind.—Elkhart Municipal, ADF 1, Amdt. 1, 7 May 1966 (established under Subpart C).
Montgomery, Ala.—Dannelly Field, ADF 1, Amdt. 7, 18 Dec. 1965 (established under Subpart C).
Paducah, Ky.—Barkley Field, NDB (ADF) Runway 4, Amdt. 2, 16 Sept. 1967 (established under Subpart C).
Elkhart, Ind.—Elkhart Municipal, VOR 1, Amdt. 1, 7 May 1966 (established under Subpart C).
Kaunakakai, Molokai, Hawaii—Molokai, VOR-1, Amdt. 1, 24 Apr. 1969 (established under Subpart C).
Montgomery, Ala.—Dannelly Field, VOR 1, Amdt. 13, 18 Dec. 1965 (established under Subpart C).
Paducah, Ky.—Barkley Field, VOR Runway 4, Amdt. 6, 16 Sept. 1967 (established under Subpart C).

3. By amending § 97.11 of Subpart B to cancel low or medium frequency range (L/MF), automatic direction finding (ADF) and very high frequency omnirange (VOR) procedures as follows:

Hilo, Hawaii—General Lyman Field, VOR Runway 26, Amdt. 3, effective 2 Dec. 1967, canceled, effective 31 July 1969.

4. By amending § 97.15 of Subpart B to amend very high frequency omnirange-distance measuring equipment (VOR/DME) procedures as follows:

STANDARD INSTRUMENT APPROACH PROCEDURE—TYPE VOR/DME

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
					2-engine or less		More than 2-engine, more than 65 knots
From—	To—	Course and distance	Minimum altitude (feet)	Condition	65 knots or less	More than 65 knots

14. By amending § 97.27 of Subpart C to amend nondirectional beacon (automatic direction finder) (NDB/ADF) procedures as follows:

STANDARD INSTRUMENT APPROACH PROCEDURE—TYPE NDB (ADF)

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL, except HAT, HAA, and RA. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles or hundreds of feet RVR.
If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator. Initial approach minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Terminal routes				Missed approach

16. By amending § 97.31 of Subpart C to establish precision approach radar (PAR) and airport surveillance radar (ASR) procedures as follows:

STANDARD INSTRUMENT APPROACH PROCEDURE—TYPE RADAR

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL, except HAT, HAA, and RA. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles or hundreds of feet RVR.

If a radar instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure authorized for such airport by the Administrator. Initial approach minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the radar controller. From initial contact with radar to final authorized landing minimums, the instructions of the radar controller are mandatory except when (A) visual contact is established on final approach at or before descent to the authorized landing minimums, or (B) at Pilot's discretion if it appears desirable to discontinue the approach. Except when the radar controller may direct otherwise prior to final approach, a missed approach shall be executed as provided below when (A) communication on final approach is lost for more than 5 seconds during a precision approach, or for more than 30 seconds during a surveillance approach; (B) directed by radar controller; (C) visual contact is not established upon descent to authorized landing minimums; or (D) if landing is not accomplished.

[Docket No. 9663; Amdt. 121-47]

PART 121—CERTIFICATION AND OPERATION: DOMESTIC, FLAG, AND SUPPLEMENTAL AIR CARRIERS AND COMMERCIAL OPERATORS OF LARGE AIRCRAFT

Crashworthiness and Passenger Evacuation

The purpose of these amendments to Part 121 of the Federal Aviation Regulations is to extend the compliance dates for various additional emergency equipment requirements, to empower the FAA Air Carrier District Office to make certain of these extensions, and to incorporate a clarification of the emergency evacuation procedures.

By petition dated June 9, 1969, the Air Transport Association (ATA) has requested, on behalf of its member airlines, an extension of the September 30, 1969, compliance date in several paragraphs of § 121.310 of the regulations. The ATA indicates that there have been delays by the manufacturers in the delivery of the modification kits that are required for compliance with the various requirements and delays in supplying the Service Bulletin information on these changes. The petitioner points out that certain deliveries will not be made until after September 30, 1969; and that even in those cases where earlier deliveries are anticipated, a "crash" program would be needed in many instances to meet the current compliance times. With the exception of the compliance time in § 121.310(d)(2), the petitioner has requested extensions of up to 1 year. However, in order to insure a rapid, but orderly, compliance, the petitioner recommends that the individual operators be required to furnish by September 30, 1969, a satisfactory schedule for completion of the required modifications of its airplanes.

The FAA is aware that delays of the type described by the petitioner are frequently beyond the control of the various operators. Since the affected Part 121 certificate holders may not be able to control the availability of required parts and equipment, it appears that an extension of the September 30, 1969, compliance date would be justified in certain cases and that the responsible FAA District Office should be empowered to grant extensions in those cases.

With respect to § 121.310(d)(2) the petitioner points out that this compliance time should be the same as the compliance time for § 121.310(h)(1) since,

in most cases, compliance with one requirement necessitates compliance with the other. The FAA agrees and the date for compliance has been extended from September 30, 1969, to June 30, 1971. In addition, the compliance terms in § 121.310(h)(1) have been amended to remove the provision that compliance with that requirement must be accomplished "at the first airplane major maintenance visit after December 30, 1969." Because of the differences in the maintenance procedures among the various air carriers and in view of the delays being experienced by these operators in obtaining necessary parts and equipment for the required modifications, such a limitation is not appropriate.

Finally, a clarifying amendment is being made to the emergency evacuation procedures in Appendix D of Part 121 to implement the determination set forth by the FAA on June 6, 1969 (Regulatory Docket No. 9636) in its disposition of the petition filed by United Air Lines. In this connection, Appendix D is amended to make it clear that in conducting an emergency evacuation demonstration, the certificate holder may use not more than 50 percent of the emergency exits in the side of the fuselage that meet all of the requirements applicable to the required emergency exits for that airplane.

Since these amendments merely authorize FAA inspectors to grant extensions of an existing compliance date and clarify an existing requirement, I find that notice and public procedure thereon are unnecessary and that good cause exists for making the amendment effective in less than 30 days' notice.

In consideration of the foregoing, Part 121 of the Federal Aviation Regulations is amended effective July 11, 1969, as follows:

Section 121.310 is amended—

(1) By amending paragraph (a) by adding a new subparagraph (3) to read as follows:

(a) *Means for emergency evacuation.* * * *

(3) A certificate holder may obtain an extension of the September 30, 1969, compliance date prescribed in subparagraph (2) of this paragraph beyond that date, but not beyond September 30, 1970, from the FAA Air Carrier District Office (ACDO) charged with the overall inspection of its operations, if—

(i) It shows that due to circumstances beyond its control it cannot comply by the earlier date; and

(ii) It submits by September 30, 1969, a schedule for compliance with subparagraph (2) which is acceptable to that ACDO.

(2) By amending paragraph (d) by striking out the date "October 1, 1969," in subparagraph (1) and inserting the date "July 1, 1971," in place thereof; and by striking out the date "September 30, 1969," in subparagraph (2) and inserting the date "June 30, 1971," in place thereof.

(3) By amending paragraph (h) by striking out the words "or upon the first airplane major maintenance visit after December 30, 1969, whichever comes first," in subparagraph (1) and by adding the following provision at the end of subparagraph (2):

(2) * * *. A certificate holder may obtain an extension for compliance with the requirements of this subparagraph beyond the required compliance date, but not beyond March 1, 1971, from the FAA Air Carrier District Office (ACDO) charged with the overall inspection of its operations, if—

(i) It shows that due to circumstances beyond its control it cannot comply by the earlier date; and

(ii) It submits by September 30, 1969, a schedule for completion which is acceptable to that ACDO.

(4) By amending paragraph (i) by adding the following provision at the end thereof to read as follows:

(i) *Other floor level exits.* * * *. A certificate holder may obtain an extension for compliance with the requirements of this paragraph beyond the required compliance date, but not beyond June 30, 1970, from the FAA Air Carrier District Office charged with the overall inspection of its operations, if—

(i) It shows that due to circumstances beyond its control it cannot comply by the earlier date; and

(ii) It submits by September 30, 1969, a schedule for completion which is acceptable to the ACDO.

Appendix D is amended by amending the first sentence of paragraph (a)(17) to read as follows:

(a) *Aborted takeoff demonstration.* * * *

(17) Not more than 50 percent of the emergency exits in the sides of the fuselage of an airplane that meet all of the requirements applicable to the required emergency exits for that airplane may be used for the demonstration. * * *

(Secs. 313(a), 601, 603, 604, Federal Aviation Act of 1958; 49 U.S.C. 1354(a), 1421, 1423, 1424, sec. 6(c), Department of Transportation Act; 49 U.S.C. 1655(c))

Issued in Washington, D.C., on July 3, 1969.

J. H. SHAFFER,
Administrator.

[F.R. Doc. 69-8171; Filed, July 10, 1969; 8:46 a.m.]

[Docket No. 9443; Amdt. No. 121-48]

PART 121—CERTIFICATION AND OPERATION: DOMESTIC; FLAG, SUPPLEMENTAL AIR CARRIERS AND COMMERCIAL OPERATORS OF LARGE AIRCRAFT

Megaphone Location Requirement Deviations

The purpose of this amendment is to authorize deviations from § 121.309(f)(1) when the Administrator finds that relocation of the portable battery-powered megaphone on airplanes with a seating capacity of more than 60 and less than 100 passengers would be more useful for emergency evacuation. This amendment is based on a notice of proposed rule making (Notice 69-5) published in the FEDERAL REGISTER (34 F.R. 3751) on March 4, 1969.

Section 121.309(f) requires that a portable battery-powered megaphone on airplanes with a seating capacity of more than 60 and less than 100 passengers, be positioned at the most rearward location in the passenger cabin where it would be readily accessible to a normal flight attendant seat. As pointed out in the notice, some airplanes with this passenger capacity have more emergency passenger exits in the forward area of the airplane than in the rear. As a result, the main evacuation route is the forward portion of the airplane, with the evacuating passengers using the forward entrance door, the over-the-wing exits, and the galley door as emergency exits. This amendment will permit accessibility of the megaphone to be considered and allow flexibility for relocation of the megaphone to a position the Administrator determines would be more useful in the emergency evacuation of persons from the airplane.

We believe use of the deviation authority provided by this amendment will be consistent with other requirements of the regulations which have as their objective the effective evacuation of passengers from an airplane in the event of an emergency.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, Part 121 of the Federal Aviation Regulations is amended effective July 11, 1969, by adding the following sentence to the end of § 121.309(f)(1):

§ 121.309 Emergency equipment.

* * * * *

(f) * * *

(1) * * * However, the Administrator may grant a deviation from the requirements of this subparagraph if he finds that a different location would be more useful for evacuation of persons during an emergency.

* * * * *

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

VIRUSES, SERUMS, TOXINS, AND ANALOGOUS PRODUCTS

Notice is hereby given in accordance with the provisions contained in section

533(b) of title 5, United States Code (1966), that it is proposed to amend certain of the regulations relating to viruses, serums, toxins, and analogous products in Title 9, Code of Federal Regulations, issued pursuant to the provisions of the Virus-Serum-Toxin Act of March 4, 1913 (21 U.S.C. 151–158).

The proposed amendments would add a new Part 113 to Chapter 1 of Title 9, Code of Federal Regulations in which test methods and procedures to be known as Standard Requirements would be prescribed. Regulations in this proposal would establish the use of Standard Requirements and basic test procedures applicable to biological products.

Authorization for sampling of biological products for test purposes as provided for in §§ 112.26 and 112.27 would be revised and included in § 113.4.

The proposed amendments to Part 114 would remove test requirements in §§ 114.5(c), 114.13, and 114.14, by deletion of such sections and include a revision of such requirements in Part 113. Requirements in § 114.18 are no longer applicable and such section would be revoked.

PART 112—LABELS

1. Part 112 is amended by deleting §§ 112.26 and 112.27. The heading and index is to read as follows:

LABELS

Sec.
112.1 Containers.
112.2 Required and permitted information.
112.3 Diluent labels.
112.4 Reference to distributors and permittees.
112.5 Review and approval of labels and other material.
112.6 Packaging desiccated products.
112.7 Special additional requirements.

PART 113—STANDARD REQUIREMENTS

2. Chapter I of Title 9 of the Code of Federal Regulations is amended by adding a new Part 113, reading as follows:

APPLICABILITY

Sec.
113.1 Standard requirements—compliance.
113.2 Standard requirements—ingredients of biological products.
113.3 Standard requirements—sampling of biological products.
113.4 Standard requirements—outline of production.
113.5 Standard requirements—general testing.
113.6 Standard requirements—division testing.
113.7 Standard requirements—multiple fractions.
113.8 Standard requirements—virus titrations in lieu of tests for antigenicity.

AUTHORITY: The provisions of this Part 113 issued under 37 Stat. 832–833; 21 U.S.C. 151–158.

APPLICABILITY

§ 113.1 Standard requirements—compliance.

The regulations in this part apply to each serial or subserial of a licensed biological product manufactured in a licensed establishment and to each serial or subserial of a biological product in each shipment imported for distribution and sale.

§ 113.2 Standard requirements—ingredients of biological products.

All ingredients used in a licensed biological product shall meet accepted standards of purity and quality; shall be sufficiently nontoxic so that the amount present in the recommended dose of the product shall not be toxic to the recipient; and in the combinations used shall not denature the specific substances in the product below the minimum acceptable potency within the dating period when stored at the recommended temperature.

§ 113.3 Standard requirements—sampling of biological products.

Each licensee and permittee shall furnish representative samples of each serial or subserial of a biological product manufactured in the United States or imported into the United States as prescribed in paragraphs (a) and (b) of this section. Additional samples may be purchased in the open market by a Division representative.

(a) Prerelease test samples for Division use shall be forwarded to the place designated by the Director and in the number and quantity as prescribed. Comparable samples shall be used by the licensee and permittee for similar tests.

(1) Each licensee shall select prerelease samples as follows:

(i) Nonviable liquid products—either bulk or final container samples of completed product shall be used for inactivation, purity, or potency tests. Biological product in final containers shall be used for sterility tests.

(ii) Viable liquid products; samples shall be in final containers and shall be selected at the end of the filling operation.

(iii) Desiccated products; samples shall be in final containers and shall be selected from various locations within the drying chamber if desiccated in the final container. Biological products desiccated in bulk shall be sampled at the end of the filling operation.

(2) Each permittee shall select prerelease samples so that each serial or subserial in each shipment shall be represented.

(b) Reserve samples shall be selected from each serial and subserial of every biological product. Such samples shall be selected at random from finished product by the licensee or permittee. Each sample shall:

(1) Consist of 5 single dose or 2 multiple dose packages as the case may be;

(2) Be adequate in quantity for appropriate examination and testing;

(3) Be truly representative and in final containers;

(4) Be held in a special compartment or equivalent set aside by the licensee or permittee, for the exclusive holding of these samples under refrigeration at 35° to 45° F. for 6 months after the expiration date stated on the labels. The samples shall be stored systematically for ready reference and procurement if and when required.

§ 113.4 Standard requirements—outline of production.

(a) To comply with the test requirements in § 114.8(b) of this chapter, each outline shall designate the test methods and procedures by which the biological product shall be evaluated for purity, safety, and potency: *Provided,* That if alternate methods or procedures are authorized, the ones to be used shall be so designated.

(b) The test methods and procedures contained in all applicable Standard Requirements shall be complied with unless otherwise exempted by the Director and provided that such exemption is noted in the approved outline.

§ 113.5 Standard requirements—general testing.

(a) No biological product shall be released prior to the completion of required tests necessary to establish the product to be satisfactory for purity, safety, and potency.

(b) Tests of biological products shall be observed by a competent employee of the manufacturer during all critical periods. A critical period shall be the time of day when certain specified reactions must occur in required tests to properly evaluate the results.

(c) Records of all tests shall be kept in accordance with Part 116 of this chapter. Copies of tests reports shall be submitted to the Division. Blank forms shall be furnished upon request to the Veterinary Biologics Division.

(d) When a serial or subserial has not been found satisfactory by the test methods and procedures designated in § 113.4, and a repeat test is to be conducted, the same test method shall be used.

(e) When new test methods are developed and approved by the Division, biological products shall be evaluated by such methods, and serials or subserials found unsatisfactory when so tested shall not be released for market.

§ 113.6 Standard requirements—division testing.

A biological product shall with reasonable certainty yield the results intended when used as recommended or suggested in its labeling or proposed labeling prior to the expiration date.

(a) The Director is authorized to cause a licensed biological product, manufactured in the United States or imported into the United States, to be examined and tested for one or more of the following: purity, safety, potency, or effectiveness; in which case, the licensee or permittee shall withhold such product from the market until a determination has been made.

(b) A serial or subserial of a biological product which has not been found satisfactory by applicable test methods or procedures is not in compliance with the regulations in Parts 101 through 121 of this subchapter and shall not be released for market.

§ 113.7 Standard requirements—multiple fractions.

(a) When a biological product contains more than one immunogenic fraction, the completed product shall be evaluated by tests applicable to each fraction.

(b) When similar potency tests are required for more than one fraction of a combination biological product, the same vaccinated animals may be used to evaluate different fractions of the combination biological product provided controls representing each fraction are challenged separately and the vaccinates are challenged with virulent material representing all fractions.

(c) When the same safety test is required for more than one fraction, requirements are fulfilled by satisfactory results from one test of the completed product.

(d) Biological products containing one or more chemically inactivated fraction(s) and one or more live virus or modified live virus fraction(s) shall be prepared as recommended for use and held at room temperature 30 minutes before initiating virus titrations or potency tests.

(e) Virus titrations for a multivirus product shall be conducted by methods which will quantitate each virus.

§ 113.8 Standard requirements—virus titrations in lieu of test for antigenicity.

(a) The Director may exempt a live virus vaccine from a required vaccination-challenge test for release if the efficacy can with reasonable certainty be determined by:

(1) Testing the seed virus for potency in a manner approved by the Director; and

(2) Establishing the lowest satisfactory virus titer based on the minimum protective dose plus an adequate overage allowance for uncertain conditions; and

(3) Conducting virus titrations on each serial or subserial in an accepted titration test system.

(b) One or more serials or subserials of a biological product which has been exempted from a required vaccination-challenge test according to the conditions in paragraph (a) of this section may be subjected to said test by the Division or the licensee. If found unsatisfactory, the biological product shall be removed from the market.

(c) A biological product shall not be exempted under the provisions of paragraph (a) of this section if observation of the vaccinated test animals during the prechallenge period constitutes an irreplaceable safety test.

PART 114—MISCELLANEOUS REQUIREMENTS FOR LICENSED ESTABLISHMENTS

3. Part 114 is amended by deleting §§ 114.5(c), 114.13, 114.14, and 114.18.

Interested persons are invited to submit written data, views, or arguments regarding the proposed regulations to the Veterinary Biologics Division, Federal Center Building, Hyattsville, Md. 20782, within 60 days after date of publication of this notice in the FEDERAL REGISTER.

All written submissions made pursuant to this notice will be made available for public inspection at such times and places and in a manner convenient to the public business (7 CFR 1.27(b)).

Done at Washington, D.C., this 7th day of July 1969.

R. J. ANDERSON,
Acting Administrator,
Agricultural Research Service.

[F.R. Doc. 69-8197; Filed, July 10, 1969; 8:48 a.m.]

Chapter III—Consumer and Marketing Service (Meat Inspection), Department of Agriculture

SUBCHAPTER A—MEAT INSPECTION REGULATIONS

PART 310—POST MORTEM INSPECTION

Final Inspection of Carcasses

On March 28, 1969, there was published in the FEDERAL REGISTER (34 F.R. 5853) a notice of a proposed amendment to § 310.2 of the Meat Inspection Regulations (9 CFR 310.2). After due consideration of all relevant matters presented in connection with such notice and under the authority of the Federal Meat Inspection Act (34 Stat. 1260, as amended by 81 Stat. 584, 21 U.S.C. 601 et seq.), § 310.2 of the regulations is amended to read as set forth below.

Statement of considerations. This amendment provides a procedure for relating identifying devices (ear tags, backtags, etc.) with the carcasses of cattle slaughtered at official establishments, until post mortem inspection is completed. This information regarding an animal will assist the inspector in determining the wholesomeness of the carcass.

When indicated by post mortem findings, these identifying devices could be related to the cattle and reviewed to develop information which would aid in making a disposition of the carcass or a decision with respect to the desirability of further testing.

The present provisions of § 310.2 are designated as paragraph (a) and a new paragraph (b) is added to read as follows:

§ 310.2 Identification of carcass with certain severed parts thereof and with animal from which derived.

* * * * *

(b) The official State-Federal Department backtag on any cattle carcass shall:

(1) (i) Be removed from the hide of the animal by an establishment employee and placed in a clear plastic bag. The bag containing the tag shall be affixed to the corresponding carcass.

(ii) The bag containing the tag shall be removed from the carcass by an establishment employee and presented with the viscera to the Program inspector at the point where such inspector conducts the viscera inspection.

(2) (i) Brucellosis and tuberculosis ear tags, herd identification ear tags, sales tags, ear bangles, and similar identification devices shall be removed from the animal's hide or ear by an establishment employee and shall be placed in a clear plastic bag and affixed to the corresponding carcass.

(ii) The bag containing the tag shall be removed from the carcass by an establishment employee and presented with the viscera to the Program inspector at the point where such inspector conducts the viscera inspection.

(3) In cases where both types of devices described in subparagraphs (1) and (2) of this paragraph are present on the same animal, both types may be placed in the same plastic bag or in two separate bags.

(4) The Officer in Charge may allow the use of any alternate method proposed by an establishment for handling the type of devices described in subparagraph (2) of this paragraph if such alternate method would provide a ready means of identifying a specific carcass with the corresponding devices by a Program inspector during the post mortem inspection.

(5) Disposition and use of identifying devices.

(i) The official State-Federal Department backtags will be collected by a Program inspector and handled according to instructions in § 322.10 of this chapter (Manual of Meat Inspection Procedures) or used to obtain traceback information necessary for proper disposition of the animal or carcass.

(ii) The devices described in subparagraph (2) of this paragraph shall be collected by the Program inspector when required to obtain traceback information necessary for proper disposition of the animal or carcass and for controlling the slaughter of reactor animals. Devices not collected for these purposes shall be discarded after the post mortem examination is complete.

(6) Plastic bags used by the establishment for collecting identifying devices will be furnished by the Department.

(Sec. 21, 34 Stat. 1260, as amended by 81 Stat. 584, 21 U.S.C., Supp. IV, § 621; 29 F.R. 16210, as amended; 33 F.R. 10750)

This amendment shall become effective 30 days after its publication in the FEDERAL REGISTER.

Done at Washington, D.C., on July 8, 1969.

R. K. SOMERS,
Deputy Administrator,
Consumer Protection.

[F.R. Doc. 69-8200; Filed, July 10, 1969; 8:48 a.m.]

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

PART 15—ADMINISTRATIVE OPINIONS AND RULINGS

Disclosure of Foreign Country Where Textile Products Are Assembled

§ 15.358 Disclosure of foreign country where textile products are assembled.

(a) The Commission advised two manufacturers of textile fiber products that it would not be necessary to disclose the name of the foreign country where certain finishing operations are performed.

(b) In both cases, the fabric is of domestic origin. In one case, the company will ship its American-made fabric and findings to the Dominican Republic where the fabric will be cut, sewn, finished, and returned for resale to the industrial rental laundry industry. Labor services performed in the foreign country will represent approximately 30 percent of total production costs.

(c) The other company, which is engaged in the manufacture and sale of ladies' undergarments, will cut the material in the United States and then ship it to Haiti where it will be sewn and finished. The company's foreign labor costs will represent approximately 20 percent of total production costs.

(d) Both companies were advised by the Commission that it would not be necessary to disclose in the labeling the nature and extent of the foreign operations performed on the textile products either under section 5 of the FTC Act or section 4(b)(4) of the Textile Fiber Products Indentification Act.

(38 Stat. 717, as amended; 15 U.S.C. 41–58; 72 Stat. 1717; 15 U.S.C. 70)

Issued: July 10, 1969.

By direction of the Commission.[1]

[SEAL] JOSEPH W. SHEA, *Secretary.*

[F.R. Doc. 69–8179; Filed, July 10, 1969; 8:47 a.m.]

PART 15—ADMINISTRATIVE OPINIONS AND RULINGS

Tripartite Promotional Plan in Grocery Industry

§ 15.356 Tripartite promotional plan in the grocery industry.

(a) The Commission issued an advisory opinion with respect to a tripartite promotional plan in the grocery field.

(b) The applicant proposed to rent space to advertisers on a mechanical device containing a moving message, the purpose of which is to advertise products at the shelf level in retail grocery stores. The applicant would offer retail stores having weekly gross sales of $30,000 or more $3 per 2-week period per device for at least five devices (with an option to install up to 20 devices) as rent for the area necessary for the installation of the advertising devices. Stores having weekly gross sales of less than $30,000 would be furnished signs for them to attach to their shelves or other suitable point-of-sale area of similar size to the mechanical device offered to the larger stores. Stores with weekly gross sales of less than $30,000 would also be furnished display materials such as aisle indicators and generic product ads. Stores with weekly gross sales of $20,000 to $30,000 would be paid $1.50 per 2-week period per sign; stores with weekly gross sales of less than $20,000 would be paid 19 cents per 2-week period per sign.

(c) The Commission expressed the view that were the proposed promotional assistance plan implemented, the Clayton Act, section 2 (d) and/or (e), as amended, and/or the Federal Trade Commission Act, section 5 would probably be violated because neither the payments nor the services under the plan are offered on proportionally equal terms and the "alternatives" are not all made available to each competing customer.

(38 Stat. 717, as amended; 15 U.S.C. 41–58; 49 Stat. 1526; 15 U.S.C. 13, as amended)

Issued: July 10, 1969.

By direction of the Commission.[1]

[SEAL] JOSEPH W. SHEA, *Secretary.*

[F.R. Doc. 69–8182; Filed, July 10, 1969; 8:47 a.m.]

PART 15—ADMINISTRATIVE OPINIONS AND RULINGS

Supplier Services Furnished Through Third Party

§ 15.357 Supplier services furnished through third party.

(a) The Commission advised a requesting party that his proposed plan would be governed by the provisions of section 2(e) of the amended Clayton Act, as interpreted by the Commission's recently issued Guides for Advertising Allowances and Other Merchandising Payments and Services.

(b) In return for chain officials' time in considering supplier proposals, a third party intermediary proposed to provide merchandising advice of a perhaps general nature. The requesting party considered his proposed action to be outside the scope of section 2(e).

(c) The Commission concluded that implementation of the plan would be likely to result in a violation of section 2(e) if the plan were to be offered only to chains and if usable and suitable alternatives were not offered to those competing customers who could not use the basic plan.

(38 Stat. 717, as amended; 15 U.S.C. 41–58; 49 Stat. 1526; 15 U.S.C. 13, as amended)

Issued: July 10, 1969.

By direction of the Commission.

[SEAL] JOSEPH W. SHEA, *Secretary.*

[F.R. Doc. 69–8180; Filed, July 10, 1969; 8:47 a.m.]

PART 15—ADMINISTRATIVE OPINIONS AND RULINGS

Trade Association's Proposed Compilation and Publication of Certain Financial Data

§ 15.359 Trade association's proposed compilation and publication of certain financial data.

(a) The Commission issued an advisory opinion in response to a request from a trade association concerning a proposed survey to be conducted among its members.

(b) The proposed survey seeks industry data for 1966, 1967, and 1968 confined solely to the following items:

(1) Percent return on total investment;

(2) Percent net profits (after taxes) to total sales;

(3) Percent advertising cost to gross sales;

(4) Percent direct labor cost to gross sales;

(5) Ratio current assets to current liabilities;

(6) Ratio net sales to inventory; and

(7) Ratio net sales to net working capital.

(c) The association proposes to obtain the information from its members on a confidential basis, to tabulate the data without identifying any company, and then to publish the results.

(d) The Commission advised the applicant that it does not object to the proposed survey, compilation and publication of industry financial data as outlined above and on the basis stated i.e., that there will be no disclosure of the name of any company participating. It is to be understood that this advisory opinion is necessarily limited to this particular program. However, the Commission invites submittal of any other proposed financial surveys in definite form for Commission advisory opinions.

(38 Stat. 717, as amended; 15 U.S.C. 41–58)

Issued: July 10, 1969.

By direction of the Commission.

[SEAL] JOSEPH W. SHEA, *Secretary.*

[F.R. Doc. 69–8181; Filed, July 10, 1969; 8:47 a.m.]

[1] Commissioner MacIntyre's dissenting opinion filed as part of the original document.

[1] Commissioner Elman did not concur in this action of the Commission.

Title 28—JUDICIAL ADMINISTRATION

Chapter I—Department of Justice

[Order 418–69]

PART 0—ORGANIZATION OF THE DEPARTMENT OF JUSTICE

Bureau of Narcotics and Dangerous Drugs

By virtue of the authority vested in me by sections 509 and 510 of title 28 and section 301 of title 5, United States Code, Part 0 of Chapter I of Title 28, Code of Federal Regulations, is amended as follows:

1. Section 0.134 of Subpart U is amended to read as follows:

§ 0.134 Vacancy in the Office of the Director, Bureau of Narcotics and Dangerous Drugs.

In the event of a vacancy in the Office of the Director, Bureau of Narcotics and Dangerous Drugs, the powers and functions of the Director may be exercised by the Deputy Director, or in the absence of the Deputy Director, by the Assistant Director for Enforcement.

2. Subpart AA is revised to read as follows:

Subpart AA—Bureau of Narcotics and Dangerous Drugs

Sec.
0.200 General functions.
0.201 Redelegation of authority.
0.202 Applicability of departmental regulations.

AUTHORITY: The provisions of this Subpart AA were issued under secs. 509, 510, 28 U.S.C.; sec. 301, 5 U.S.C.

§ 0.200 General functions.

Subject to the general supervision of the Attorney General, the exercise of the powers and performance of the functions vested in the Attorney General by sections 1 and 2 of Reorganization Plan No. 1 of 1968 (33 F.R. 5611) are assigned to, and shall be conducted, handled, or supervised by the Director of the Bureau of Narcotics and Dangerous Drugs.

§ 0.201 Redelegation of authority.

The Director of the Bureau of Narcotics and Dangerous Drugs is authorized to redelegate to any of his subordinates any of the powers and functions vested in him by this Subpart AA.

§ 0.202 Applicability of departmental regulations.

All departmental regulations that are generally applicable to units or personnel of the Department of Justice shall be applicable with respect to the Bureau of Narcotics and Dangerous Drugs, the Director and personnel thereof, except to the extent, if any, that such regulations may be inconsistent with the intent and purposes of Reorganization Plan No. 1 of 1968.

Order No. 393–68 of April 7, 1968, and Order No. 394–68 of April 7, 1968, are hereby revoked.

Dated: June 30, 1969.

JOHN N. MITCHELL,
Attorney General.

[F.R. Doc. 69–8205; Filed, July 10, 1969; 8:49 a.m.]

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter I—Federal Procurement Regulations

PART 1–15—CONTRACT COST PRINCIPLES AND PROCEDURES

Miscellaneous Amendments

This amendment of the Federal Procurement Regulations makes changes in and additions to Subpart 1–15.3, Principles for Determining Costs Applicable to Research and Development Under Grants and Contracts with Educational Institutions. The changes reflect the June 1, 1968, revision of Circular A–21 by the Bureau of the Budget with respect to eliminating the time or effort reporting requirements established by the Circular. The revision substitutes requirements that charges to federally sponsored research projects for personal services be supported by normal time and attendance and payroll distribution systems and by stipulated salary support amounts (for professional staff) as stated in research agreements.

The table of contents for Part 1–15 is amended to include new entries in Subpart 1–15.3 as follows:

1–15.302–7 Stipulated salary support.
1–15.310 Certification of charges.

Section 1–15.302–7 is added to read as follows:

§ 1–15.302–7 Stipulated salary support.

"Stipulated salary support" is a stated dollar amount of a faculty member's salary which a Government agency agrees to reimburse to an educational institution as a part of sponsored research costs. Stipulated salary support amounts will be provided in the research agreements for professorial staff any part of whose compensation is chargeable to Government sponsored research and may be provided for any other professionals who are engaged part time in sponsored research and part time in other work. The stipulated salary support for an individual will be determined by the Government and the educational institution during the proposal and award process on the basis of a considered judgment as to the monetary value of the contribution which the individual is expected to make to the research project, taking into account any cost sharing by the institution, and basing the judgment on such factors as value of the investigator's expertise to the project, the extent of his planned participation in the project, and his ability to perform as planned in the light of his other commitments. It will be necessary for those who review research proposals to obtain information on the total academic year salary of the faculty members involved; the other research projects or proposals for which salary is allocated; and any other duties they may have such as teaching assignments, administrative assignments, number of graduate students for which they are responsible, or other institutional activities. Stipulated amounts for an individual must not result in increasing his official salary from the institution. In those cases in which it is not feasible to establish a stipulated salary support amount during the proposal and award process because detailed plans or knowledge of specific positions or individuals are not available, the agency and the institution may agree to use the payroll distribution procedure set forth in § 1–15.309–7(b) as a basis for reimbursement of salary for any individuals for whom a support amount has not been established.

Section 1–15.309–7 is amended to change paragraphs (b), (c), (d), and (e) to read as follows:

§ 1–15.309–7 Compensation for personal services.

* * * * *

(b) *Payroll distribution.* Amounts charged to organized research for personal services, except stipulated salary support regardless of whether treated as direct cost or allocated as indirect costs, will be based on institutional payrolls which have been approved and documented in accordance with generally accepted institutional practices. Support for direct and indirect allocations of costs to (1) instruction, (2) organized research, (3) indirect activities as defined in § 1–15.305–1, or (4) other institutional activities as defined in § 1–15.302–4 will be provided as described in paragraphs (c), (d), and (e) of this § 1–15.309–7.

(c) *Direct charges for personal services.* (1) The amounts stipulated for salary support (see § 1–15.302–7) in grants or cost-reimbursable type contracts will be treated as direct costs. The stipulated salary for the academic year will be prorated equally over the duration of the grant or contract period during the academic year, unless other arrangements have been made in the grant or contract instrument. No time or effort reporting will be required to support these amounts. Special provision for summer salaries will be required. The research agreements will state that any research covered by summer salary support must be carried out during the summer, not during the academic year, and at locations approved in advance in writing by the granting agency. The certification required in § 1–15.310 will attest to this requirement as well as all others in a given research agreement.

(2) Stipulated salary support remains fixed during the funding period of the grant or contract and will be costed at the rate described in paragraph (c)(1) of this § 1–15.309–7 unless there is a significant change in performance. For example, a significant change in performance would exist if the faculty member (i) was ill for an extended period, (ii) took sabbatical leave to devote effort to duties unrelated to his research, or (iii) was required to increase substantially his teaching assignments, administrative duties, or responsibility for more research projects. In the latter event, it will be the responsibility of the educational institution to reduce the charges to the research agreement proportionately or seek an appropriate amendment.

(3) In the case of those covered by stipulated salary support, the auditors are no longer required to review the precise accuracy of time or effort devoted to research projects. Rather, their reviews should include steps to determine on a sample basis that an institution is not reimbursed for more than 100 percent of each faculty member's salary and that the portion of each faculty member's salary charged to Government sponsored research is reasonable in view of his university workload and other commitments.

(4) When an educational institution cost shares in whole or in part (see Bureau of the Budget Circular No. A–74) by using faculty salaries, the stipulated salary concept should also be applied in this instance. During the proposal and award process, approving authorities will establish, in conjunction with the institution, the share of the faculty member's contribution to the project to be reimbursed by the Government and that to be borne by the institution. The latter amount will become a part of the institution's cost share. Unless other arrangements are made, the institution will prorate the stipulated salary over the period of the agreement and charge the prorated costs to the project cost records periodically to support its cost sharing amounts. No time or effort reporting will be required to support these charges. As in the case of stipulated salary amounts that are reimbursed by the Government, any significant change in performance, as defined in that context, which would affect the agreed-upon cost sharing amount must be promptly recognized by other cost sharing or amendment to the research agreement. It will be the responsibility of the educational institution to ensure that this action is taken.

(5) Non-professorial-professional staff includes research associates and assistants, graduate students, and other persons performing professional work, i.e., chemists and engineers. The direct cost charged to organized research for the services of such professionals, exclusive of those whose salaries are stipulated in the research agreement, will be based on institutional payroll systems. Such institutional payroll systems must be supported by either an adequate appointment and workload distribution system accompanied by monthly review performed by responsible officials and a reporting of any significant changes in workload distribution of each professional, or by a monthly after-the-fact certification system which will require the individual investigators, deans, departmental chairmen, or superivsors having first-hand knowledge of the services performed on each research agreement to report the distribution of effort. Reported changes will be incorporated during the accounting period into the payroll distribution system and into the accounting records. Direct charges for salaries and wages of nonprofessionals will be supported by time and attendance and payroll distribution records.

(d) *Indirect personal services costs.* Allowable indirect personal services costs will be supported by the educational institution's accounting system which is maintained in accordance with generally accepted institutional practices. Where a comprehensive accounting system does not exist, the institution should make periodic surveys no less frequently than annually to support the indirect personal services costs for inclusion in the overhead pool. Such supporting documentation must be retained for subsequent review by Government officials.

(e) *General guidance for charging personal services.* Budget estimates on a monthly, quarterly, semester, or yearly basis do not qualify as support for charges to federally sponsored research projects and should not be used unless confirmed after the fact. Charges to research agreements may include reasonable amounts for activities contributing and intimately related to work under the agreement, such as preparing and delivering special lectures about specific aspects of the ongoing research, writing research reports and articles, participating in appropriate research seminars, consulting with colleagues and graduate students with respect to related research, and attending appropriate scientific meetings and conferences. In no case should charges be made to federally sponsored research projects for lecturing or preparing for formal courses listed in the catalog and offered for degree credit, or for committee or administrative work related to university business.

* * * * *

Section 1–15.310 is added to read as follows:

§ 1–15.310 Certification of charges.

To insure that expenditures for research grants and contracts are proper and in accordance with the research agreement documents and approved project budgets, the annual and/or final fiscal reports for grants and the vouchers requesting payment under contracts will include a certification which reads essentially as follows:

I certify that all expenditures reported (or payments requested) are for appropriate purposes and in accordance with the agreements set forth in the application and award documents.

(Signed by an authorized official of the University)

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Effect on other issuances. The portion of FPR Temporary Regulation 15 which pertains to the June 1, 1968, revision of Bureau of the Budget Circular A–21 is canceled.

Effective date. This amendment is effective upon publication in the FEDERAL REGISTER.

Dated: July 3, 1969.

ROBERT L. KUNZIG,
Administrator of General Services.

Chapter 14—Department of the Interior

PART 14–8—TERMINATION OF CONTRACTS

Default Termination of Fixed Price Construction Contracts

JULY 3, 1969.

Pursuant to the authority of the Secretary of the Interior, contained in 5 U.S.C. 301, § 14–8.603, Part 14–8 of Chapter 14, Title 41 of the Code of Federal Regulations is hereby deleted as set forth below:

It is the general policy of the Department of the Interior to allow time for interested parties to take part in the public rulemaking process. However, because this part is largely a general statement of Departmental policy and internal procedure the rulemaking process will be waived and this part will become effective upon publication in the FEDERAL REGISTER.

RUSSELL E. TRAIN,
Acting Secretary of the Interior.

Section 14–8.603 *Default termination of fixed price construction contracts* published at 33 F.R. 7436, May 18, 1968, is hereby deleted in its entirety.

[F.R. Doc. 69–8163; Filed, July 10, 1969; 8:45 a.m.]

Chapter 101—Federal Property Management Regulations

SUBCHAPTER H—UTILIZATION AND DISPOSAL

PART 101–42—PROPERTY REHABILITATION SERVICES AND FACILITIES

This amendment revises Part 101–42, Property Rehabilitation Services and Facilities, by providing a wider scope of application; policies and procedures regarding use by executive agencies of GSA regional term contract schedules, Federal Prison Industries, and National Industries for the Blind; and guidelines for agency use when ordering the repair or replacement of locks on Government-owned desks.

Subchapter H is amended by the revision of Part 101–42, as follows:

Sec.

Subpart 101–42.1—Sources of Property Rehabilitation Services

Sec.

Subpart 101–42.2—Property Rehabilitation Services Performed by Federal Facilities

AUTHORITY: The provisions of this Part 101–42 issued under sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c).

§ 101–42.000 Scope of part.

This part prescribes the policies and procedures governing the use by executive agencies of GSA regional term contracts, Federal Prison Industries, and National Industries for the Blind for the maintenance, repair, rehabilitation, and reclamation of personal property; and the operation of facilities located within the United States, Puerto Rico, and the Virgin Islands performing such services. Military weapons systems, specialized military support equipment, and specialized technical and scientific equipment are exempt from this part.

§ 101–42.001 Definitions.

As used throughout this Part 101–42, the following terms shall have the meanings stated herein.

§ 101–42.001–1 Maintenance.

The scheduled cleaning, servicing, and adjustment necessary to keep an article in a serviceable or satisfactory operating condition, ordinary wear and tear excepted.

§ 101–42.001–2 Repair.

The restoration of an article to a serviceable or operable condition from an unserviceable or inoperable condition resulting from excessive wear, breakage, injury, dilapidation, decay, or partial destruction.

§ 101–42.001–3 Rehabilitation.

The restoration or renovation of serviceable or operable articles to a near new condition or the repair of unserviceable or inoperable articles when the overall objective is to restore or renovate articles to a near new condition. In addition, the word is used in a generic sense to encompass services covered by this Part 101–42.

§ 101–42.001–4 Reclamation.

The recovery of precious metals or critical materials having intrinsic value from articles of personal property.

Subpart 101–42.1—Sources of Property Rehabilitation Services

§ 101–42.100 [Reserved]

§ 101–42.101 General.

GSA regional property rehabilitation organizational elements assist agencies in furthering maximum utilization of personal property by providing maintenance, repair, rehabilitation, and reclamation services. These services are made available through contracts with commercial firms, and through agreements with the National Industries for the Blind and with Federal repair facilities such as those operated by the Federal Prison Industries. The services provided are primarily for domestic application but may be utilized to provide support for foreign assistance programs.

(a) The Guide to Sources of Supply and Service, a Federal Supply Catalog, is published by the Federal Supply Service, GSA, to indicate sources of supply and service provided by GSA for the use of Federal agencies, including property rehabilitation type service contracts established by the Property Management and Disposal Service, GSA. Copies are furnished central and field offices of Federal agencies. Additional copies may be obtained from any GSA regional office.

(b) GSA regional Property Management and Disposal Service offices periodically issue bulletins to heads of Federal agency offices furnishing information concerning GSA service support for the maintenance, repair, rehabilitation, and reclamation of Government-owned personal property.

(c) A GSA regional Property Management and Disposal Service office will, upon a written request from a Federal agency to the office servicing that agency, develop sources of services, evaluate contractor capabilities, and conduct surveys or studies to justify establishing term contracts for services not available at the time the needs arise.

§ 101–42.102 GSA term contracts for services.

(a) GSA establishes regional term contracts; prepares and issues regional term contract price schedules on a zonal, regional, or other area basis; and performs contract administration.

(b) Agency offices may be placed on a distribution list to receive term contracts in the form of price schedules applicable within specified areas upon request to the GSA regional office administering the contracts.

(c) Regional term contract price schedules are published in catalog style and list services available from contractors named therein. Notices of changes in the price schedules are furnished all agency offices receiving the schedules.

(d) The price schedules specify that agencies of the Federal Government will, unless excepted, issue purchase orders direct to contractors listed in the schedules; receive and inspect the shipments; and make payments direct to such contractors without referring the transactions to GSA. The price schedules provide for appropriate action in the event of delinquency or default on the part of any contractor.

§ 101–42.102–1 Primary source provisions.

(a) GSA regional term contracts shall be used as a primary source for meeting executive agencies' requirements in the areas of maintenance, repair, rehabilitation, and reclamation of personal property, to the extent provided for in such contracts. These term contracts and covering price schedules are, therefore, mandatory on agencies in the geographic areas designated. However, contracts to which those agencies are parties, existing at the time term contract schedules are published, will continue to be in effect until completion of such existing contracts.

(b) When an agency determines that services available from an existing term contract price schedule will not fill its required needs, a request to waive the requirement shall be submitted to the GSA regional Property Management and Disposal Service office administering the contract. Such requests shall specify the quantities involved, describe the difference between the services required and those listed in the price schedule, and give reasons why the services will not meet the requirements. Waivers are not required in the case of public exigencies.

§ 101–42.102–2 Optional use provisions.

Each GSA regional term contract price schedule contains provisions whereby, in addition to the agencies included under the primary source provision, all agencies and activities of the Federal Government, including the legislative and judicial branches, and other activities for which GSA is authorized by law to procure, may place orders under such schedules.

§ 101–42.102–3 Contract administration.

GSA regional Property Management and Disposal Service offices administer service contracts for and on behalf of the contracting office with respect to: (a) expediting orders; (b) evaluating the acceptability of contract workmanship; (c) insuring contractor compliance with technical requirements of the contract; and (d) assisting in the resolution of issues that may arise between ordering agencies and contractors concerning performance of contract provisions.

§ 101–42.103 Miscellaneous.

§ 101–42.103–1 Repairing of locks and lock mechanisms on Government-owned desks.

It is the responsibility of executive agencies to order the repair or replacement of locks and locking mechanisms only on those desks where there is a valid agency need for operable locks. The evaluation and determination of whether a

valid need exists shall be on the basis of written criteria approved by a designated responsible official of the ordering agency. (See § 101–25.302–6 for use standards.)

Subpart 101–42.2—Property Rehabilitation Services Performed by Federal Facilities

§ 101–42.200 Scope of subpart.

This subpart prescribes the policies and procedures governing executive agency in-house repair facilities.

§ 101–42.201 Federal repair facilities.

Each agency shall evaluate, periodically, its in-house repair and reclamation facilities to determine if it is more economical to use established GSA sources as shown in § 101–42.101.

§ 101–42.202 Establishment, continuation, or expansion of repair facilities.

The establishment, continuation, or expansion of in-house commercial type repair and reclamation facilities shall be governed by the criteria set forth in Bureau of the Budget Circular No. A–76, Revised, August 30, 1967.

§ 101–42.203 Notifications.

(a) Each executive agency shall furnish, if it has not already done so, to the appropriate GSA regional office serving that agency, information as to each Government-owned facility operated by it for the repair, maintenance, rehabilitation, or reclamation of personal property. Such information shall include the type of facility, personnel complement, capability, and geographical area served. Information as to Department of Defense facilities will pertain only to reconditioning or depot maintenance facilities for nonmilitary equipment.

(b) Agencies proposing to establish or substantially expand facilities for repair, maintenance, rehabilitation, or reclamation of personal property shall furnish the General Services Administration, Property Management and Disposal Service, Washington, D.C. 20405, with prior information such as type of facility, personnel complement, capability, and geographical area to be served, so that the proposal may be evaluated against existing contracts and facilities. Information as to Department of Defense facilities will pertain only to reconditioning or depot maintenance facilities.

Effective date. This regulation is effective upon publication in the FEDERAL REGISTER.

Dated: July 3, 1969.

ROBERT L. KUNZIG,
Administrator of General Services.

[F.R. Doc. 69–8149; Filed, July 10, 1969; 8:45 a.m.]

Title 45—PUBLIC WELFARE

Chapter X—Office of Economic Opportunity

PART 1068—COMMUNITY ACTION PROGRAM GRANTEE FINANCIAL MANAGEMENT

Subpart—Allowances and Reimbursements for Members of Policy Making Bodies

Chapter X, Part 1068 of Title 45 of the Code of Federal Regulations is amended by adding a new subpart, reading as follows:

Sec.
1068.5–1 Applicability of this subpart.
1068.5–2 Definitions.
1068.5–3 Policy.
1068.5–4 Administration.

AUTHORITY: The provisions of this subpart issued under secs. 244(1), 602, 78 Stat. 530, 21 Stat. 707; 42 U.S.C. 2836, 2942.

§ 1068.5–1 Applicability of this subpart.

This subpart applies to all members of policy making bodies of grantees funded under Titles I–B, I–D, II, and III–B of the Economic Opportunity Act of 1964, as amended, if the assistance is administered by OEO. This includes members of principal representative boards, delegate agency governing bodies, area policy boards or councils, county boards of multicounty CAAs, governing boards of neighborhood-based organizations, policy advisory committees for particular types of projects and committees of a CAA or neighborhood or area board as these boards are defined in section 1068.5–2.

§ 1068.5–2 Definitions.

As used in this subpart:

(a) "Allowance" means a payment made to an individual for actual attendance at a meeting to assure and encourage his attendance at this meeting.

(b) "Reimbursement" means a payment made to an individual to cover the cost of certain expenses actually incurred as a result of attendance at a meeting or in the performance of other official duties and responsibilities in connection with a community action program.

(c) A "Meeting" is considered to take place when proper notification has been made inviting the participants to attend.

(d) "Policy Making Body" includes the following representative boards of grantees:

(1) Principal representative boards.

(2) Delegate agency governing bodies if the delegate agency's activities are solely or substantially financed with OEO funds as part of the community action program and at least one-third of its governing body is composed of representatives selected by the poor persons whom the delegate agency serves.

(3) Area policy boards or councils, county boards of a multicounty CAA, or neighborhood based organizations which perform a major policy-making function with regard to a subarea of the community served by the CAA. (Such boards may be an integral part of the CAA or may be established as delegate agencies of the CAA.)

(4) Policy advisory committees for a particular type of project, such as Head Start or Neighborhood Health Services.

(5) Committees of a CAA or neighborhood or area board if such a committee performs major policymaking functions. (An example of such a committee would be the executive or steering committee of a CAA board.)

§ 1068.5–3 Policy.

(a) *General.* Allowances and reimbursements may be paid to certain members of grantee policymaking bodies for attendance at meetings, when such payments serve to assure and encourage the maximum feasible participation of members of groups and residents of the areas served. The grantees' principal representative board shall exercise discretionary power in determining the extent to which this policy will be applied in its agency. This subpart lists the categories of policymaking bodies which are eligible to receive allowances and reimbursements. If a grantee has not budgeted funds for allowances or reimbursements as part of its normal budget submission, funds may be reprogramed for this purpose (if the grantee determines it is a priority) through the normal amendment procedure (see OEO Instruction 6710–1, section V, pages 3–24). A record of the principal representative board's decision regarding the payment or nonpayment of allowances and reimbursements, and reasons for this decision, should be maintained by the grantee.

(b) *Allowances.* (1) Any person who is a member of a grantee's policymaking body is eligible to be paid an allowance as long as his family income falls within OEO Poverty Guidelines and as long as he is not a Federal employee, not an employee of a CAA or delegate agency, and not an employee of a State or local public agency.

(2) Allowances should not exceed $5 per meeting unless the grantee's principal representative board determines a higher payment more suitable. Allowances in excess of $5 may be paid only if justified by CAP grantees on the basis of comparability with similar fees paid to the poor by antipoverty programs administered by non-CAP grantees and funded from sources other than OEO (e.g. Model Cities). (Comparability means that the allowance plus the reimbursements paid by the CAP grantee would be commensurate with the total payments made to the poor by other agencies.) Grantees should consult with other antipoverty programs in their area to determine if the fees being paid to the poor by the various programs are comparable.

(3) No person shall be paid an allowance for attendance at more than two meetings per month, regardless of whether the meetings are for the same or different policy making bodies.

(c) *Reimbursements.* (1) Any person, including a Federal employee or an employee of a State or local public agency, whose family income falls within OEO Poverty Guidelines and who is a member of a grantee's policy making body is eligible to be paid a reimbursement. Receiving an allowance does not preclude receiving a reimbursement for actual expenses incurred in attending that meeting. Nonpoor members of a grantee's policy making body may receive reimbursements for travel (under certain circumstances) and may receive per diem (see subparagraph (3)(ii) of this paragraph).

(2) No person shall be reimbursed for more than two meetings per month, regardless of whether the meetings are for the same or different policy making bodies.

(3) The following expenses incurred as the result of actual attendance at meetings, or in the performance of other official duties and responsibilities in connection with a community action program, may be reimbursed.

(i) *Travel.* Reimbursement may be made for transportation to and from official meetings or other official appointments by the least expensive, convenient means of transportation. This shall be public transportation, or, when no public transportation is available, by taxi, or by private automobile travel at a rate not to exceed 10 cents a mile. Women traveling unescorted to meetings after dark may be reimbursed for actual taxi fare paid even when convenient public transportation is available. Where the community served by the community action program covers a large geographic area, such as a multicounty CAA or a statewide grantee, reimbursements may also be made to those nonpoor members of a policymaking body who must travel a "substantial distance" from their home to attend meetings within the community. The grantee's principal respresentative board shall determine what constitutes a "substantial distance" in their community. Such payments shall accord with the Standardized Government Travel Regulations and with Part 1069 of this chapter. In cases where there is group riding, only the board members providing the vehicle shall be reimbursed.

(ii) *Per diem.* Per diem may be paid to both poor and nonpoor members of policy making bodies when attendance at a meeting requires overnight lodging Such payments shall accord with the Standardized Government Travel Regulations (current per diem rate is $16 a day) and with Part 1069 of this chapter. (A per diem allowance is paid in lieu of meals and lodging.)

(iii) *Meals.* When per diem is not in effect, reimbursement for the actual costs of meals may be paid to the poor, only, when the time of an official meeting or other official appointment is such as to require attendance during a meal hour and when the meal is not otherwise provided. Such reimbursement shall be for the actual cost of the meal, but may not exceed $1.50 per person for lunch and $3.50 per person for dinner.

(iv) *Baby-sitting expenses.* The poor, only, may be reimbursed for the actual costs necessarily incurred for the care of their young children while they attend an official meeting. The hourly rate paid must be comparable to that usually paid in the area for such services. In no event shall the rate of compensation exceed $1.25 per hour.

(v) *Lost wages.* When attendance at a meeting involves loss of wages, the poor may be reimbursed for actual wages lost up to $15 a day. This would be in addition to per diem if the meeting involved overnight travel.

(vi) *Other expenses.* Calls made on private telephones will not be allowed as a reimbursable expense. A grantee or delegate agency may make available to board members the use of telephones in the offices of the agency.

(4) The eligibility for reimbursement of expenses incurred in attendance at meetings by board members as limited in this subpart apply only to meetings held within the area served by the community action program. Reimbursement for travel and per diem outside this area is covered in Part 1069 of this chapter.

§ 1068.5–4 Administration.

(a) *Applying for funds.* Funds to pay allowances and reimbursements as defined in this subpart may be requested as part of any community action program application, but approval is subject to availability of budget funds.

(b) *Accounting for funds.* Payments made under the policy set forth in this subpart are subject to audit and to disallowance by OEO if not in accord with OEO Instructions and regulations. Individuals requesting reimbursement shall submit appropriate documentation of actual expense incurred (a listing of expenses and amounts is sufficient). Minutes of the meeting indicating the low-income members who were present and who received an allowance will be sufficient documentation of allowances paid for audit purposes. This material shall be made a part of the accounting records of the grantee.

(c) *Non-Federal share.* The allowances and reimbursements herein permitted may not be credited as a non-Federal share contribution in lieu of making such payments to eligible board members.

(d) *Public records.* The accounting records of allowable payments and expense reimbursements are required to be available for public inspection under the rules set forth in Part 1070 of this chapter.

Effective date. This subpart shall become effective 30 days following the date of publication in the FEDERAL REGISTER.

THEODORE M. BERRY,
Director,
Community Action Program.

JUNE 27, 1969.

Title 46—SHIPPING

Chapter II—Maritime Administration, Department of Commerce

SUBCHAPTER B—REGULATIONS AFFECTING MARITIME CARRIERS AND RELATED ACTIVITIES

[General Order 39, 3d Rev., Amdt. 5]

PART 222—STATEMENTS, REPORTS, AND AGREEMENTS REQUIRED TO BE FILED

Forms of Vessel Utilization and Performance Reports Prescribed

This amendment is to remove the requirement for filing of Forms MA–7803 and MA–7804 and to require the filing only of Forms MA–578 and MA–578A.

Effective upon the date of publication of this amendment in the FEDERAL REGISTER § 222.2 is amended to read as follows:

§ 222.2 Forms of vessel utilization and performance reports prescribed.

(a) Pursuant to authority of section 212(A) of the Merchant Marine Act, 1936, as amended by Public Law 612, 84th Congress; 70 Stat. 332; 46 U.S.C. 1122a, the Secretary of Commerce has determined that it is necessary and desirable in order to carry out the purposes and provisions of the Merchant Marine Act, 1936, as amended (49 Stat. 1985, et seq.; 46 U.S.C. 1101, et seq.) to require an operator of a vessel in waterborne foreign commerce of the United States to file accurate reports on Form MA–578 with respect to passenger and dry cargo vessels, on Form MA–578A with respect to vessels carrying certain containerized cargo; such forms and instructions for the preparation thereof are hereby prescibed and approved.[1]

(1) An accurate report on Form MA–578, Vessel Utilization and Performance Report, shall be filed in duplicate with the appropriate District Director of Customs for transmittal to the Maritime Administration by the operator of every self-propelled dry cargo and passenger vessel of 1,000 or more gross registered tons before midnight of the 30th calendar day after entry into the first U.S. port and before midnight of the 30th calendar day after clearing the last U.S. port. Operators desiring to submit combination reports for dry cargo and passenger vessels (inbound and outbound portions) after clearing the final U.S. port may do so upon obtaining written permission from the Maritime Administration, Washington, D.C. 20235.

(2) In addition, and subject to the same qualifying and filing requirements set forth above, an accurate report on Form MA–578A, Supplemental Unitized

[1] Copy each of the Forms MA–578 (1–67) and MA–578A (3–21–67), together with instructions for their use, respectively, are on file in the Office of the Federal Register. These forms and instructions may be obtained from the Marine Section, District Director of Customs at U.S. ports.

Cargo Container Report, shall be filed by such operator when, on any one voyage, a vessel carries 10 or more (i) 8 x 8 x 10 feet or larger containers, or (ii) half-height containers 8 feet in width and 10 or more feet in length, or (iii) flatbeds 8 feet in width and 20 or more feet in length. Forms MA–578 and MA–578A are required to be filed in duplicate for all voyages of merchant vessels operated by or for the account of the Department of Defense except vessels of the Military Sea Transportation Service (MSTS) nucleus fleet.

(b) By agreement with the Bureau of Customs, District Directors of Customs will be responsible for policing receipt of dry cargo and passenger vessel inbound, outbound, and combination inbound/outbound reports on Form MA–578 and Form MA–578A.

NOTE: The reporting requirements contained in this section have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(Sec. 204, 49 Stat. 1987, as amended; 46 U.S.C. 1114)

Dated: July 8, 1969.

By order of the Maritime Administrator.

JAMES S. DAWSON, Jr.,
Secretary.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 32—HUNTING

Arrowwood National Wildlife Refuge, N. Dak.

The following special regulations are issued and are effective on date of publication in the FEDERAL REGISTER.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

NORTH DAKOTA

ARROWWOOD NATIONAL WILDLIFE REFUGE

Public hunting of deer on the Arrowwood National Wildlife Refuge, N. Dak., is permitted only on the area designated by signs as open to hunting. This open area, comprising 15,900 acres, is delineated on a map available at the refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 1006 West Lake Street, Minneapolis, Minn. 55408. Hunting shall be in accordance with all applicable State regulations covering the hunting of deer subject to the following conditions:

(1) Hunting with guns is not permitted.

(2) The open season for hunting deer on the refuge is from 12 noon to sunset on August 30, 1969, and from sunrise to sunset August 31, 1969, through September 28, 1969.

(3) A federal permit is required to enter the public hunting area. It may be obtained by applying in person at refuge headquarters, located 6 miles east of Edmunds, N. Dak., between the hours of 8 a.m. and 4:30 p.m. Monday thru Friday.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through September 28, 1969.

ARNOLD D. KRUSE,
Refuge Manager, Arrowwood National Wildlife Refuge, Edmunds, N. Dak.

JULY 3, 1969.

[F.R. Doc. 69–8151; Filed, July 10, 1969; 8:45 a.m.]

PART 32—HUNTING

Montezuma National Wildlife Refuge, N.Y.

The following special regulation is issued and effective on date of publication in the FEDERAL REGISTER.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

NEW YORK

MONTEZUMA NATIONAL WILDLIFE REFUGE

Public hunting of deer on the Montezuma National Wildlife Refuge, N.Y., is permitted except on the areas designated by signs as closed. The open area, comprising 3,639 acres, is delineated on maps available at refuge headquarters, 4 miles east of Seneca Falls, N.Y., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Boston, Mass. 02109. Hunting shall be in accordance with all applicable State regulations covering the hunting of deer subject to the following special conditions:

(1) The open season is Monday through Friday from November 17 to December 2, 1969, inclusive. Actual dates open are November 17, 18, 19, 20, 21, 24, 25, 26, 27, 28, and December 1, 2, 1969.

(2) Only longbows may be used. No gun hunting will be allowed.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 2, 1969.

RICHARD E. GRIFFITH,
Regional Director, Bureau of Sport Fisheries and Wildlife.

JUNE 30, 1969.

Proposed Rule Making

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

[43 CFR Part 417]

PROCEDURAL METHODS FOR IMPLEMENTING COLORADO RIVER WATER CONSERVATION MEASURES WITH LOWER BASIN CONTRACTORS AND OTHERS

Notice of Proposed Rule Making

Basis and purpose. Pursuant to the authority vested in the Secretary of the Interior by the Boulder Canyon Project Act (45 Stat. 1057, 1060) by the contracts for the storage and delivery of Colorado River water pursuant to that Act (herein termed "Boulder Canyon Project Act Contracts") heretofore made between the United States and certain public or private organizations (herein termed "Contractors") and the March 9, 1964, Decree of the Supreme Court of the United States in the case of Arizona v. California et al., 376 U.S. 340, notice is hereby given of the intention to revise Part 417 of Title 43 of the Code of Federal Regulations. The purpose of this revision is to establish new procedures for the adoption of recommendations relating to water conservation practices in the diversion, delivery, distribution, and use of Colorado River water and to the making of annual determinations relating to the estimated quantities of water required by Contractors each calendar year to the end that deliveries of Colorado River water to each Contractor will not exceed that reasonably required for beneficial use. In addition, the revision deletes the requirement for annual publication of determinations in the FEDERAL REGISTER since all affected parties are given actual notice in writing of determinations.

It is the policy of the Department of the Interior to afford those dealing with the Department a full and fair opportunity to be heard and to have their views considered on matters affecting their interests. Accordingly, interested parties may submit written comments, suggestions or objections with respect to the proposed revisions to Part 417 to the Regional Director, Region 3, Bureau of Reclamation, Post Office Box 427, Boulder City, Nev. 89005, within 30 days of publication of this notice in the FEDERAL REGISTER.

Part 417 of Title 43 of the Code of Federal Regulations is revised in its entirety to read as follows:

PART 417—PROCEDURAL METHODS FOR IMPLEMENTING COLORADO RIVER WATER CONSERVATION MEASURES WITH LOWER BASIN CONTRACTORS AND OTHERS

Sec.

AUTHORITY: The provisions of this Part 417 issued under 45 Stat. 1057, 1060; 43 U.S.C. 617.

§ 417.1 Scope of part.

The procedures established in this Part shall apply to every public or private organization (herein termed "Contractor") in Arizona, California, or Nevada which, pursuant to the Boulder Canyon Project Act or to provisions of other Reclamation Laws, has a valid contract for the delivery of Colorado River water, and to Indian Reservations and Federal establishments enumerated in Article II(D) of the March 9, 1964, Decree of the Supreme Court of the United States in the case of Arizona v. California et al., 376 U.S. 340 (for purposes of this part each such Indian Reservation and Federal establishment is considered as a "Contractor"), except that (a) neither this part nor the term "Contractor" as used herein shall apply to any person or entity which has a contract for the delivery or use of Colorado River water made pursuant to the Warren Act of February 21, 1911 (36 Stat. 925) or the Miscellaneous Purposes Act of February 25, 1920 (41 Stat. 451), and (b) Contractors and permittees for small quantities of water and Contractors for municipal and industrial water may be excluded from the application of these procedures at the discretion of the Regional Director.

§ 417.2 Consultation with contractors.

The Regional Director, Bureau of Reclamation, Boulder City, Nev., or his representative will, prior to the beginning of each calendar year, arrange for and conduct such consultations with each Contractor as the Regional Director may deem appropriate as to the making by the Regional Director of annual recommendations relating to water conservation measures and operating practices in the diversion, delivery, distribution and use of Colorado River water, and to the making by the Regional Director of annual determinations of each Contractor's water requirements for the ensuing calendar year to the end that deliveries of Colorado River water to each Contractor will not exceed those reasonably required for beneficial use under the respective Boulder Canyon Project Act contract or other authorization for use of Colorado River water.

§ 417.3 Notice of recommendations and determinations.

Following consultation with each Contractor, and after consideration of all relevant comments and suggestions advanced by the Contractors in such consultations, the Regional Director will formulate his recommendations and determinations relating to the matters specified in § 417.2. The recommendations and determinations shall, with respect to each Contractor, be based upon but not necessarily limited to such factors as the area to be irrigated, climatic conditions, location, soils classifications, the kinds of crops raised, cropping practices, the type of irrigation system in use, the condition of water carriage and distribution facilities, record of water orders and rejections of ordered water, general operating practices, the operating efficiencies and methods of irrigation of the water users, municipal water requirements and the pertinent provisions of the Contractor's Boulder Canyon Project Act water delivery contract. The Regional Director shall give each Contractor written notice of his recommendations and determinations. The recommendations and determinations of the Regional Director shall be final and conclusive unless, within 30 days of the date of the notice, the Contractor submits his written comments and objections to the Regional Director and requests further consultation. If, after such further consultation, timely taken, the Regional Director does not modify his recommendations and determinations and so advises the Contractor in writing, or if modifications are made but the Contractor still feels aggrieved thereby after notification in writing of such modified recommendations and determinations, the Contractor may appeal to the Secretary of the Interior. During the pendency of such appeal, and until disposition thereof by the Secretary, the recommendations and determinations formulated by the Regional Director shall be of no force or effect.

§ 417.4 Changed conditions, emergency, or hardship modifications.

A Contractor may at any time apply in writing to the Regional Director for modification of recommendations or determinations deemed necessary because of changed conditions, emergency or hardship. Upon receipt of such written application identifying the reason for such requested modification, the Regional Director shall arrange for consultation with the Contractor with the objective of making such modifications as he may deem appropriate under the then existing

conditions. The Regional Director may initiate efforts for further consultation with any Contractor on his own motion with the objective of modifying previous recommendations and determinations, but in the event such modifications are made, the Contractor shall have the same opportunity to object and appeal as provided in § 417.3 hereof for the initial recommendations and determinations. The Regional Director shall afford the fullest practicable opportunity for consultation with a Contractor when acting under this section. Each modification under this section shall be transmitted to the Contractor by letter.

§ 417.5 General regulations.

In addition to the recommendations and determinations formulated according to the procedures set out above, the right is reserved to issue regulations of general applicability to the topics dealt with herein.

RUSSELL E. TRAIN,
Acting Secretary of the Interior.

JULY 3, 1969.

[F.R. Doc. 69-8162; Filed, July 10, 1969; 8:45 a.m.]

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 69-EA-73]

FEDERAL AIRWAY SEGMENT AND REPORTING POINT

Proposed Alteration and Revocation

The Federal Aviation Administration is considering amendments to Part 71 of the Federal Aviation Regulations that would realign VOR Federal airway No. 167 segment between Hartford, Conn., and Providence, R.I.; and revoke the Sterling Intersection reporting point.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, JFK International Airport, New York 11430. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20590. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The FAA proposes the following airspace proposal:

1. Realign V-167 segment from Hartford to Providence via the intersection of Hartford 081° T (094° M) and Providence 270° T (284° M). This realignment would facilitate the movement of air traffic operating between Hartford and Boston by eliminating the requirement of eastbound aircraft to monitor the Providence VORTAC from the Clarks Intersection to the Sterling Intersection.

2. Revoke the Sterling Intersection as a compulsory reporting point. This intersection will be retained as an on-request reporting point.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1959 (49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on July 2, 1969.

T. MCCORMACK,
Acting Chief, Airspace and Air Traffic Rules Division.

[F.R. Doc. 69-8173; Filed, July 10, 1969; 8:46 a.m.]

[14 CFR Part 71]

[Airspace Docket No. 69-SO-65]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Morristown, Tenn., transition area.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Area Manager, Memphis Area Office, Attention: Chief, Air Traffic Branch, Federal Aviation Administration, Post Office Box 18097, Memphis, Tenn. 38118. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Air Traffic Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Southern Regional Office, Federal Aviation Administration, Room 724, 3400 Whipple Street, East Point, Ga.

The Morristown transition area would be redesignated as:

That airspace extending upward from 700 feet above the surface within a 9.5-mile radius of Moore-Murrell Airport; within 4.5 miles northwest and 9.5 miles southeast of the 239° bearing from Morristown RBN (Lat. 36°11'10" N., long. 83°22'00" W.), extending from the 9.5-mile radius area to 18.5 miles southwest of the RBN.

Since the last alteration of controlled airspace at Morristown terminal, changes in criteria appropriate to Moore-Murrell Airport and the associated instrument approach procedures require an increase in the transition area basic radius circle from 7 to 9.5 miles, an increase in the width of the extension from a total of 13 miles to a total of 14 miles, and an increase in the length of the extension from 12 to 18.5 miles.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on July 1, 1969.

JAMES G. ROGERS,
Director, Southern Region.

[F.R. Doc. 69-8174; Filed, July 10, 1969; 8:46 a.m.]

[14 CFR Part 71]

[Airspace Docket No. 69-WE-49]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the 700 foot portion of the Ogden, Utah, transition area.

Interested person may participate in the proposed rule-making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Western Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 5651 West Manchester Avenue, Post Office Box 92007, Worldway Postal Center, Los Angeles, Calif. 90009. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 5651 West Manchester Avenue, Los Angeles, Calif. 90045.

The criteria for establishment of controlled airspace to protect aircraft executing procedure turns has been changed. Accordingly it is necessary to alter this area to conform to the new criteria.

In consideration of the foregoing, the FAA proposes the following airspace action:

In § 71.181 (34 F.R. 4637) the Ogden, Utah, transition area is amended by

deleting all before "* * *: that airspace extending upward from 1,200 feet above the surface * * *" and substituting therefor "That airspace extending upward from 700 feet above the surface bounded on the north by latitude 41°-27'00" N., on the east by longitude 111°-55'00" W., on the south by latitude 41°00'00" N., and on the west by longitude 112°22'00" W., within 4.5 miles southwest and 9.5 miles northeast of the Ogden VORTAC 316° radial extending from the VORTAC to 18.5 miles northwest of the VORTAC:"

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended (72 Stat. 749; 49 U.S.C. 1348(a)) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, Calif., on July 2, 1969.

LEE E. WARREN,
Acting Director, Western Region.

[F.R. Doc. 69-8175; Filed, July 10, 1969; 8:46 a.m.]

Federal Highway Administration

[49 CFR Part 371][1]

[Docket No. 69-12; Notice No. 1]

FEDERAL MOTOR VEHICLE SAFETY STANDARD NO. 109

New Pneumatic Tires; Passenger Cars

Federal Motor Vehicle Safety Standard No. 109 (49 CFR 371.21), as amended (33 F.R. 19711), specifies tire dimensions and laboratory test requirements for bead unseating resistance, strength, endurance and high speed performance; defines tire load ratings; and specifies labeling requirements for new pneumatic tires for use on passenger cars manufactured after 1948.

Paragraph S5.5.4 of Standard No. 109 specifies that for the high speed performance aspects of the standard, tires are to be tested at 75 m.p.h. for 30 minutes, 80 m.p.h. for 30 minutes, and (except for deep-tread winter-type tires) 85 m.p.h. for 30 minutes.

Because, in actual practice, deep-tread winter-type tires are often required to perform at the same rate of speed as other type passenger car tires it is considered in the public interest to amend S5.5.4 to require the same level of high speed performance from deep-tread winter-type tires as other type tires are required to meet. It is proposed that the amendment will become effective 60 days from date of publication in the FEDERAL REGISTER.

Interested persons are invited to participate in the making of this proposed amendment by submitting written data, views, or arguments. Ten copies of comments should be submitted to the Docket Section, Federal Highway Administration, Room 512, 400 Sixth Street SW., Washington, D.C. 20591. All comments received on or before the close of business August 26, 1969, will be considered before action is taken on the proposed amendment.

In consideration of the foregoing, it is proposed that 49 CFR Part 371, Federal Motor Vehicle Safety Standards, § 371.21, Federal Motor Vehicle Safety Standard No. 109, as amended (34 F.R. 19711) be amended by changing paragraph S5.5.4 as follows:

S5.5.4 Without readjusting inflation pressure, test at 75 m.p.h. for 30 minutes, 80 m.p.h. for 30 minutes, and 85 m.p.h. for 30 minutes.

This proposed amendment is issued under the authority of sections 103 and 119 of the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1392, 1407) and the delegation from the Secretary of Transportation, Part I of the Regulations of the Office of the Secretary (49 CFR 1.4(c)).

Issued: July 7, 1969.

F. C. TURNER,
Federal Highway Administrator.

[F.R. Doc. 69-8210; Filed, July 10, 1969; 8:49 a.m.]

[49 CFR Part 375]

[Dockets Nos. 28-1, 28-2, 28-6; Notice 7]

MOTOR VEHICLE SAFETY REGULATIONS

Consumer Information

The Consumer Information Regulations issued by the Administrator were published as a final rule on January 25, 1969 (34 F.R. 1246). The regulations were amended by order published in the FEDERAL REGISTER on May 23, 1969 (34 F.R. 8112). Section 375.6 of these regulations specified that manufacturers of motor vehicles should furnish the required information "at the time of original purchase to the first person who purchases the motor vehicle for purposes other than resale", and in addition, to the Administrator. The section essentially repeated the terms of section 112(d) of the National Traffic and Motor Vehicle Safety Act. Questions have arisen concerning the persons to whom and the time at which the manufacturer should provide the required information. It is proposed that § 375.6 be revised, in order to clarify these points and to further the goals of the Act in regard to consumer information.

One of the main objectives in providing this information to the public is to enable persons to compare various vehicles with a view to determining which one is most suitable for their needs from a safety standpoint. The proposed revision would make it clear that, in addition to providing the information to first purchasers for purposes other than resale, the manufacturer must also provide this information for examination by prospective purchasers. In requiring manufacturers to "provide" the information "for examination by prospective purchasers", it is intended that manufacturers and their dealers will arrange a system whereby the information is effectively and conveniently available to all those who wish to examine it. The manufacturer is not required, however, under this proposal to provide prospective purchasers with copies of this information for their retention.

Another question not covered by the existing § 375.6 is the time at which the information required is to be submitted to the Administrator. It is proposed that the information be submitted to the Administrator at least 30 days before it is first provided for examination by prospective purchasers so that there may be an evaluation and dissemination to the public of this information if deemed appropriate.

In consideration of the above, it is proposed that 49 CFR 375.6 be revised to read as follows:

§ 375.6 Requirements.

(a) At the time a motor vehicle is delivered to the first purchaser for purposes other than resale, the manufacturer of that vehicle shall provide to that purchaser, in writing and in the English language, the information specified in Subpart B of this part that is applicable to that vehicle.

(b) Every manufacturer of motor vehicles shall provide for examination by prospective purchasers, at each location where its vehicles are offered for sale, the information specified in Subpart B that is applicable to each of the vehicles offered for sale at that location. Any requirements in Subpart B that an information document unconditionally indicate the data applicable to the vehicle with which it is provided shall not apply to information provided pursuant to this paragraph.

(c) Each manufacturer of motor vehicles shall submit to the Administrator in triplicate the information specified in Subpart B that is applicable to each of the manufacturer's vehicles offered for sale, at least 30 days before that information is first provided for examination by prospective purchasers pursuant to paragraph (b) of this section.

Comment is invited on the proposed revision. Comments should refer to the docket and notice number, and be submitted in 10 copies to: Docket Section, Federal Highway Administration, Room 512, 400 Sixth Street SW., Washington, D.C. 20591. All comments received within 60 days of the date of publication of this notice will be considered.

The amendment to the Consumer Information Regulations published May 23, 1969 (34 F.R. 8112) changed the applicability of the three issued sections of Subpart B from vehicles manufactured on or after October 1, 1969, to those manufactured on or after January 1, 1970. It is anticipated that paragraphs (a) and (b) of this proposed amendment will become effective January 1, 1970, and that paragraph (c) will become effective December 1, 1969.

This notice of proposed rule making is issued under the authority of sections 112 and 119 of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1401, 1407) and the delegation of authority from the Secretary of Transportation to the Federal Highway Administrator, 49 CFR 1.4(c).

Issued on July 7, 1969.

F. C. TURNER,
Federal Highway Administrator.

[F.R. Doc. 69-8209; Filed, July 10, 1969; 8:49 a.m.]

[Delegation of Authority No. 85]

ASSISTANT ADMINISTRATOR FOR ADMINISTRATION

Delegation of Authority Regarding Waiver of Claims for Overpayment of Pay

Pursuant to the authority vested in me by section 5584 of title 5, United States Code, I hereby delegate to the Assistant Administrator for Administration, the following function and authority:

The waiver in whole or in part of a claim by the United States, not in excess of $500, arising from an erroneous payment of pay to a person while in the employ of the Agency for International Development, or a predecessor agency.

The authority delegated herein shall be exercised in accordance with title 5, United States Code, section 5584, the standards prescribed by the Comptroller General of the United States, and regulations, procedures and policies now or hereafter established or modified and promulgated within Agency for International Development.

This authority may be redelegated further to those officers as the Assistant Administrator for Administration shall specify, and may be exercised by persons performing the functions of those officers in an acting capacity.

This delegation of authority shall be effective immediately.

Dated: July 2, 1969.

HOUSING INVESTMENT GUARANTY PROJECTS IN LATIN AMERICAN COUNTRIES

Notice of Special Addendum for Ecuador

A. *Introduction.* The Agency for International Development ("A.I.D.") has issued a public announcement, entitled "Reopening of the Latin American Housing Guaranty Program". This announcement provides that competitive applications will be taken for new housing investment guaranty projects in Eucador from December 1, 1969, to December 15, 1969, and provides a tentative allocation of U.S. $3 million of guaranty authority for this purpose.

B. *General requirements for all housing guaranty applications submitted in Ecuador on a basis of this Special Addendum.* 1. Mortgage insurance in local currency will be a minimum requirement for all projects. A dollar guaranty of repayment of the loan by an entity acceptable to A.I.D. will be accepted in lieu thereof.

2. Fees payable by the prospective homeowners will be dependent on item 1, above.

a. When mortgage insurance in local currency is provided the fees will be as follows:

(1) Initial (paid at time of disbursements) default and delinquency reserve fee, 1½ percent.

(2) Annual (paid on a monthly basis) A.I.D. fee, 1 percent; devaluation insurance fee, 1 percent.

b. If an acceptable dollar guaranty of repayment is provided, A.I.D. will not require any reserve fees but will only require an annual A.I.D. fee of ½ percent (payable on a monthly basis).

3. Applicants should apprise themselves of all other fees and charges that will have to be paid by the home purchasers in Ecuador. These fees and charges must be included where appropriate in the application form.

4. In the event that adjustable mortgages are provided for under future Ecuadorian law, but prior to the execution of contract documents, approved projects will be required to have such adjustable mortgages.

C. *Categories of applications which will be accepted in Ecuador in accordance with this Special Addendum.* 1. Applications will be accepted in the four following categories:

a. Pilot or demonstration projects.

b. Housing projects for lower income families.

c. Institutions important to the Alliance.

d. Local participation projects.

2. Applications under the "Credit Institutions Projects" category will not be acceptable in Ecuador at the present time.

D. *Modifications of the categories of applications.* 1. Pilot or Demonstration: Applicants in this category must submit houses which will have a maximum selling price of $6,667 (120,000 sucres) at the time that construction commences.

2. Housing projects for Lower Income Families: Applicants in this category must submit houses which will have a maximum selling price of $2,788 (50,000 sucres) at the time that construction commences.

3. Institutions Important to the Alliance: Applicants in this category must be established Ecuadorian Housing Cooperatives. In each case the applicant shall obtain the prior written approval of the Banco Ecuatoriano de la Vivienda ("B.E.V."). Applicants in this category must submit houses which will have a maximum selling price of $4,500 (81,000 sucres) at the time that construction commences.

4. Local Participation: Applicants in this category must submit houses which will have a maximum selling price of $6,388 (115,000 sucres) at the time that construction commences. Applications showing a higher percentage of local financing than the 25 percent prescribed in the Announcement and lower selling prices than the maximum prescribed herein will be favored by A.I.D.

E. *In closing.* 1. For additional information on any of the above requirements or for information on any aspect of the housing guaranty program for Ecuador, please communicate with:

The United States A.I.D. Mission To Ecuador, care of American Embassy, Quito, Ecuador.
George K. Fitch, USAID Housing Officer.
Charles Blankenstein, USAID Capital Development Officer.

2. Additional information concerning this program may be obtained from:

Housing and Urban Development Division, Latin America Bureau, Agency for International Development, Department of State, Room 2242, Washington, D.C. 20523.
Stanley Baruch, Director.
Peter M. Kimm, Deputy Director for Guaranties and Engineering.

STANLEY BARUCH,
Director,
Housing and Urban Development.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

ROBERT M. ORNDORFF

Notice of Granting of Relief

Notice is hereby given that Robert M. Orndorff, 1820 Morrell Avenue, Connellsville, Pa., has applied for relief from disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms incurred by reason of his conviction on March 3, 1934, in the Court of Oyer and Terminer and Quarter Sessions of the Peace for the County of Fayette, Pa., of crimes punishable by imprisonment for a term exceeding 1 year. Unless relief is granted, it will be unlawful for Robert M. Orndorff, because of such convictions to ship, transport, or receive in interstate or foreign commerce any firearm or ammunition, and he would be prevented under chapter 44, title 18, United States Code, from obtaining a license under that chapter as a firearms or ammunition importer, manufacturer, dealer or collector. In addition under title VII of the Omnibus Crime Control and Safe Streets Act of 1968 (82 Stat. 236; 18 United States Code, Appendix)

because of such convictions it would be unlawful for Mr. Orndorff to receive, possess, or transport in commerce, a firearm. Notice is hereby further given that I have considered Robert M. Orndorff's application and have found:

The convictions were made upon a charge which did not involve the use of a firearm or other weapon or a violation of chapter 44, title 18, United States Code, or of the National Firearms Act; and

(2) It has been established to my satisfaction that the circumstances regarding the convictions, and the applicant's record and reputation, are such that the applicant will not be likely to act in a manner dangerous to public safety and that the granting of the requested relief to Robert M. Orndorff from disabilities incurred by reason of his conviction, would not be contrary to public interest.

It is ordered, Pursuant to the authority vested in the Secretary of the Treasury by section 925(c), of title 18, United States Code and delegated to me by the regulations in Title 26, Part 178, Code of Federal Regulations, that Robert M. Orndorff be, and he hereby is, granted relief from any and all disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms, incurred by reason of the convictions hereinabove described.

Signed at Washington, D.C., this 7th day of July, 1969.

[SEAL] RANDOLPH W. THROWER,
Commissioner of Internal Revenue.

ATOMIC ENERGY COMMISSION

[Docket No. 50-234]

GULF GENERAL ATOMIC INC.

Notice of Issuance of Facility License Amendment

The Atomic Energy Commission has issued Amendment No. 4, as set forth below, to License No. CX-23. The license authoritizes Gulf General Atomic Inc., to possess, use and operate the Experimental Critical Facility located on the Company's Torrey Pines Mesa site in San Diego, Calif.

This amendment, effective as of the date of issuance, increases: (1) the total quantity of uranium-235, which the licensee may receive, possess and use under the license, from 250 kilograms to 400 kilograms; (2) the total number of 10-curie plutonium-beryllium neutrons sources, which the licensee may receive, possess and use under the license, to two; and adds 200 grams of uranium-233 to the list of materials that may be received, possessed and used under this license.

By application dated June 4, 1969, Gulf General Atomic Inc., requested authorization to receive, possess and use additional U^{235} in the form of new fuel elements in connection with operation of the Experimental Critical Facility. The additional fuel elements will be stored in the reactor building storage vault in horizontal trays in accordance with procedures which have previously been reviewed and approved by the Commission.

The additional plutonium-beryllium neutron source will be used for instrument check-out purposes under approved health-physics procedures. The 200 grams of U^{235} will be used in experimental programs in accordance with the provisions of the Technical Specifications for operation of the facility. Therefore, there is reasonable assurance that the health and safety of the public will not be endangered.

Within fifteen (15) days from the date of publication of this notice in the FEDERAL REGISTER, the applicant may file a request for a hearing, and any person whose interest may be affected by this proceeding may file a petition for leave to intervene. Requests for a hearing and petitions to intervene shall be filed in accordance with the Commission's rules of practice, 10 CFR Part 2. If a request for a hearing or a petition for leave to intervene is filed within the time prescribed in this notice, the Commission will issue a notice of hearing or an appropriate order.

For further details with respect to this amendment, see the application dated June 4, 1969, which is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C.

Dated at Bethesda, Md., this 2d day of July 1969.

For the Atomic Energy Commission.

DONALD J. SKOVHOLT,
Assistant Director for Reactor Operations, Division of Reactor Licensing.

[License No. CX-23, Amdt. 4]

The Atomic Energy Commission has found that:

(a) The application for amendment dated June 4, 1969, complies with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations set forth in Title 10, Chapter I, CFR;

(b) Operation of the reactor in accordance with the license, as amended, will not be inimical to the common defense and security or to the health and safety of the public; and

(c) Prior public notice of proposed issuance of this amendment is not required since the amendment does not involve significant hazards considerations different from those previously evaluated.

Facility License No. CX-23, as amended, which authorizes the Gulf General Atomic Inc., to operate the Experimental Critical Facility on the Company's Torrey Pines Mesa site in San Diego, Calif., is hereby further amended in the following manner:

Subparagraph 2.B. is amended to read as follows:

"B. Pursuant to the Act and Title 10, CFR, Chapter I, Part 70, 'Special Nuclear Material', to receive, possess and use (1) up to 400 kilograms of uranium-235, (2) two 10-curie plutonium-beryllium neutron sources, and (3) 200 grams of uranium-233, all in connection with operation of the ECF;"

This amendment is effective as of the date of issuance.

Date of issuance: July 2, 1969.

For the Atomic Energy Commission.

DONALD J. SKOVHOLT,
Assistant Director for Reactor Operations, Division of Reactor Licensing.

[F.R. Doc. 69-8202; Filed, July 10, 1969; 8:48 a.m.]

CIVIL AERONAUTICS BOARD

[Dockets Nos. 20896, 20897; Order 69-7-42]

AIR WEST, INC.

Order Granting Petition for the Issuance of a Show Cause Order Regarding Certificate of Public Convenience and Necessity

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 8th day of July 1969.

On April 8, 1969, Air West, Inc. (Air West), filed an application requesting the amendment of its certificate of public convenience and necessity for Route 76 to permit nonstop service, without subsidy eligibility, between Burbank and Las Vegas. Air West contemporaneously filed a petition requesting the issuance of a show-cause order for the same authority. Air West also filed an application requesting, in the alternative, renewal of its exemption authority to provide Burbank-Las Vegas service which authority expires on June 9, 1969.[1]

No answers to Air West's application have been filed.

Upon consideration of the pleadings and other relevant matters, the Board has determined to grant Air West's petition for the issuance of an order to show cause why Air West's certificate of public convenience and necessity for Route 76 should not be amended to permit nonstop service between Burbank and Las Vegas, on a subsidy-ineligible basis. We tentatively find and conclude that the public convenience and necessity require the above-described amendment of Air West's certificate.

In support of our proposed ultimate finding, we tentatively conclude as follows: That the Burbank-Las Vegas market has experienced a marked increase in traffic as a result of the level of service provided by Air West pursuant to its exemption authority;[2] that grant of Air West's petition will provide

[1] The exemption authority was granted to Air West's corporate predecessor, Pacific Air Lines, Inc., by Order E-25279, dated June 9, 1967, for a period of 2 years. Air West filed an application for renewal of such authority.

[2] Air West carried 196 passengers per day during the last 6 months of 1968, during which time Air West provided three nonstop round trips per day. In comparison, in May, 1968, when Air West provided only one nonstop round trip per day, the market approximated less than 50 passengers per day.

Air West with greater operational flexibility and the opportunity to increase its equipment utilization; that grant of Burbank-Las Vegas nonstop authority will contribute to the alleviation of congestion at the Los Angeles International Airport; and that no other air carrier will experience significant diversion.

Interested persons will be given twenty days following service of this order to show cause why the tentative findings and conclusions set forth herein should not be made final.[3] We expect such persons to direct their objections, if any, to specific markets and to support such objections with detailed answers, specifically setting forth the tentative findings and conclusions to which objection is taken. Such objections should be accompanied by arguments of fact or of law and should be supported by legal precedent or detailed economic analysis. If an evidentiary hearing is requested, the objector should state in detail why such a hearing is considered necessary and what relevant and material facts he would expect to establish through such a hearing. General, vague, or unsupported objections will not be entertained.

Accordingly, it is ordered, That:

1. All interested persons are directed to show cause on or before July 28, 1969, why the Board should not issue an order making final the tentative findings and conclusions stated herein and amending Air West's certificate of public convenience and necessity for Route 76 so as to permit nonstop service between Burbank and Las Vegas on a subsidy-ineligible basis;

2. Any interested person having objection to the issuance of an order making final any of the proposed findings, conclusions, or certificate amendments set forth herein shall, within 20 days after service of a copy of this order, file with the Board and serve upon all persons made parties to this proceeding a statement of objection together with a summary of testimony, statistical data, and other evidence expected to be relied upon to support the stated objections; [4]

3. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board;

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein; and

5. A copy of this order shall be served upon the following persons who are hereby made parties to this proceeding: Delta Air Lines, Inc., Frontier Airlines, Inc., National Airlines, Inc., Trans World Airlines, Inc., United Air Lines, Inc., Western Air Lines, Inc., the City of Burbank and the City of Las Vegas.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
Secretary.

[F.R. Doc. 69-8187; Filed, July 10, 1969; 8:47 a.m.]

[3] Air West should submit an estimate of the first year's gross transport revenues increase within the ranges specified in § 389.25 (a) (2) (i) of the Board's regulations.

[4] All motions and/or petitions for reconsideration shall be filed within the period allowed for filing of objections, and no further such motions, requests, or petitions for reconsideration of this order will be entertained.

[Docket No. 21009]

BRITISH UNITED AIRWAYS (SERVICES) LTD. AND BRITISH UNITED AIRWAYS LTD.

Notice of Hearing

Notice is hereby given pursuant to the Federal Aviation Act of 1958, as amended, that a hearing in the above-entitled proceeding is assigned to be held on July 22, 1969, at 10 a.m., e.d.s.t., in Room 630, Universal Building, Connecticut and Florida Avenues NW., Washington, D.C., before the undersigned examiner.

Dated at Washington, D.C., July 7, 1969.

[SEAL] JOSEPH L. FITZMAURICE,
Hearing Examiner.

[F.R. Doc. 69-8191; Filed, July 10, 1969; 8:48 a.m.]

[Docket No. 18650; Order 69-7-26]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Specific Commodity Rates

Issued under delegated authority July 3, 1969.

By Order 69-6-103, dated June 19, 1969, action was deferred, with a view toward eventual approval, on a resolution adopted by the International Air Transport Association (IATA), relating to specific commodity rates. The Board, in deferring action on the agreement, granted 10 days in which interested persons might file petitions in support of or in opposition to the Board's proposed action.

No petitions have been received within the filing period, and the tentative conclusions in Order 69-6-103 will herein be made final.

Accordingly, it is ordered, That:

Agreement C.A.B. 20806, R-31, be, and it hereby is, approved, provided that approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publication.

This order will be published in the FEDERAL REGISTER.

[SEAL] MABEL MCCART,
Acting Secretary.

[F.R. Doc. 69-8188; Filed, July 10, 1969; 8:48 a.m.]

[Docket No. 20291; Order 69-7-25]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Fare Matters

Issued under delegated authority July 3, 1969.

By Order 69-6-65, dated June 12, 1969, action was deferred, with a view toward eventual approval, on a certain resolution adopted by Joint Conference 1-2-3 of the International Air Transport Association (IATA). This resolution, which relates to affinity group travel between the United States and India/Pakistan/Afghanistan/Ceylon/Nepal, would be amended by the inclusion of provisions requiring that the tickets for all group members shall be issued by the same IATA-approved agent unless issued by the carriers.

In deferring action on the agreement, 10 days were granted in which interested persons might file petitions in support of or in opposition to the proposed action. No petitions have been received within the filing period and the tentative conclusions in Order 69-6-65 will herein be made final.

Accordingly, it is ordered, That:

Agreement C.A.B. 20981, R-2, is approved.

This order will be published in the FEDERAL REGISTER.

[SEAL] MABEL MCCART,
Acting Secretary.

FEDERAL POWER COMMISSION

[Dockets Nos. G-3912, etc.]

ASHLAND OIL & REFINING CO. ET AL.

Notice of Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates [1]

JULY 2, 1969.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to section 7 of

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said associations should on or before July 28, 1969, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given: *Provided, however,* That pursuant to § 2.56 of the Commission's general policy and interpretations, as amended, all permanent certificates of public convenience and necessity granting applications, filed after July 1, 1967, without further notice, will contain a condition precluding any filing of an increased rate at a price in excess of that designated for the particular area of production for the period prescribed therein unless at the time of filing such certificate application, or within the time fixed for filing protests or petitions to intervene, the Applicant indicates in writing that it is unwilling to accept such a condition. In the event Applicant is unwilling to accept such condition the application will be set for formal hearing.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Acting Secretary.

[1] Deletes expired leases.
[2] Applicant has agreed to accept permanent authorization conditioned as Opinion No. 468, as modified by Opinion No. 468-A.
[3] Amendment to certificate filed to reflect change in corporate name.
[4] Includes 1 cent upward B.t.u. adjustment and 0.015 cent tax reimbursement. Subject to upward and downward B.t.u. adjustment.
[5] Rate in effect subject to refund in docket No. RI63-282.
[6] Reflects transfer of certain acreage from Equitable Contract No. 6045 (A. M. Van Flick, agent for Pacific States Gas & Oil Co., FPC GRS No. 6, docket No. CI66-118) and Contract No. 6084 (Pacific States Gas & Oil, Inc., FPC GRS No. 3, docket No. CI66-521) to subject Contract No. 6087.
[7] Reflects transfer of certain acreage from the subject Contract No. 6087 to Contract No. 6235 (on file as Rabbit Oil & Gas Co., FPC GRS No. 1, certificated in docket No. CI68-1372).
[8] Includes 1.95 cents upward B.t.u. adjustment. Subject to upward and downward B.t.u. adjustment.
[9] Applicant is filing for certificate to cover its portion of a sale presently covered by Continental Oil Co.'s FPC GRS No. 180 and certificate in docket No. CI61-636.
[10] Plus applicable taxes.
[11] Gas-well gas.
[12] Casinghead gas.
[13] Subject to upward and downward B.t.u. adjustment.
[14] Applicant states its willingness to accept a permanent certificate in conformance with Opinions Nos. 546 and 546-A.
[15] Applicant has heretofore filed in docket No. CI68-1306 an application for a certificate of public convenience and necessity to sell gas from a part of the subject acreage.
[16] Applicant has heretofore filed in docket No. CI68-1302 an application for a certificate of public convenience and necessity to sell gas from a part of the subject acreage.
[17] The proposed sale involved residue gas which was to be processed from casinghead gas. This required construction of a processing plant for this purpose. Plans for the plant did not materialize and it will not be built.
[18] Subject to deduction for compression, if required.
[19] Includes 1.75-cent tax reimbursement.
[20] Includes 0.85 cent upward B.t.u. adjustment. Subject to upward and downward B.t.u. adjustment.
[21] Rate in effect subject to refund in dockets Nos. G-20341 and RI65-375.
[22] Subject to upward B.t.u. adjustment.
[23] Contract provides for rate of 19.5 cents per Mcf; however, Applicants state their willingness to accept certificate at 17 cents per Mcf.

FEDERAL RESERVE SYSTEM

CENTRAL BANKING SYSTEM, INC.

Notice of Request and Order for Hearing

Notice is hereby given that request has been made to the Board of Governors of the Federal Reserve System, pursuant to section 4(c)(8) of the Bank Holding Company Act of 1956 (12 U.S.C. 1843(c)(8)), and § 222.4(a) of the Board's Regulation Y (12 CFR 222.4(a)), by Central Banking System, Inc., Oakland, Calif., a bank holding company, for a determination that the planned insurance activities of its proposed nonbanking

subsidiary, a corporation to be formed by Applicant, are of the kind described in the aforementioned sections of the Act and the regulation so as to make it unnecessary for the prohibitions of section 4 of the Act with respect to the acquisition or retention of shares in nonbanking organizations to apply in order to carry out the purposes of the Act.

Inasmuch as section 4(c)(8) of the Act requires that any determination pursuant thereto be made by the Board after due notice and hearing and on the basis of the record made at such hearing:

It is hereby ordered, That pursuant to section 4(c)(8) of the Bank Holding Company Act and in accordance with §§ 222.4(a) and 222.5(a) of the Board's Regulation Y (12 CFR 222.4(a), 222.5(a)), promulgated under the Bank Holding Company Act, a hearing with respect to this matter be held commencing on August 19, 1969, at 10 a.m. at the Federal Reserve Bank of San Francisco, 400 Sansome Street, San Francisco, Calif., before Philip J. LaMacchia (whose address is U.S. Civil Service Commission, 1900 E Street NW., Washington, D.C.), a hearing examiner selected by the Civil Service Commission, pursuant to section 3344 of title 5 of the United States Code. The hearing will be conducted according to the Board's Rules of Practice for Formal Hearings (12 CFR Part 263). The right is reserved to the Board or the hearing examiner to designate any other date or place for such hearing of any part thereof which may be determined to be necessary or appropriate for the convenience of the parties. The Board's rules of practice for formal hearings provide, in part, "Unless otherwise specifically provided by statute or by rule of the Board, a hearing shall ordinarily be private and shall be attended only by the parties, their representatives or counsel, representatives of the Board, witnesses while testifying, and other persons having an official interest in the proceeding: *Provided, however,* That, on written request by a party or a representative of the Board, or on the Board's own motion, the Board, in its discretion and to the extent permitted by law, may permit other persons to attend or may order the hearing to be public."

Any person desiring to give testimony at the hearing should file with the Secretary of the Board, directly or through the Federal Reserve Bank of San Francisco, on or before August 5, 1969, a written request containing a statement of the nature of the petitioner's interest in the proceeding, and a summary of the matters concerning which said petitioner wishes to give testimony. Such requests will be presented to the hearing examiner, and the persons submitting the requests will be notified, prior to the hearing, of his determination thereon. The application may be inspected at the Federal Reserve Bank of San Francisco or at the Federal Reserve Building, 20th Street and Constitution Avenue NW., Washington, D.C.

Dated at Washington, D.C., this 3d day of July 1969.

By order of the Board of Governors.

[SEAL] ROBERT P. FORRESTAL,
Assistant Secretary.

DACOTAH BANK HOLDING CO.

Notice of Request and Order for Hearing

Notice is hereby given that request has been made to the Board of Governors of the Federal Reserve System, pursuant to section 4(c)(8) of the Bank Holding Company Act of 1956 (12 U.S.C. 1843(c)(8)), and § 222.4(a) of the Board's Regulation Y (12 CFR 222.4(a)), by Dacotah Bank Holding Co., Aberdeen, S. Dak., a bank holding company, for determinations that the activities of Citizens Agricultural Credit Corporation, F & M Agricultural Credit Corporation, Citizens Insurance Agency, Inc., Roslyn Insurance Agency, Inc., and Security Insurance Agency, Inc., are or are to be of the kind described in the aforementioned sections of the Act and the regulation so as to make it unnecessary for the prohibitions of section 4 of the Act with respect to the acquisition or retention of shares in nonbanking organizations to apply in order to carry out the purposes of the Act.

Inasmuch as section 4(c)(8) of the Act requires that any determination pursuant thereto be made by the Board after due notice and hearing and on the basis of the record made at such hearing:

It is hereby ordered, That pursuant to section 4(c)(8) of the Bank Holding Company Act and in accordance with §§ 222.4(a) and 222.5(a) of the Board's Regulation Y (12 CFR 222.4(a), 222.5(a)), promulgated under the Bank Holding Company Act, a hearing with respect to this matter be held commencing on August 12, 1969, at 10:00 a.m. at the Federal Reserve Bank of Minneapolis, 73 South Fifth Street, Minneapolis, Minn., before Philip J. LaMacchia (whose address is U.S. Civil Service Commission, 1900 E Street NW., Washington, D.C.), a hearing examiner selected by the Civil Service Commission, pursuant to section 3344 of title 5 of the United States Code. The hearing will be conducted according to the Board's Rules of Practice for Formal Hearings (12 CFR Part 263). The right is reserved to the Board or the hearing examiner to designate any other date or place for such hearing or any part thereof which may be determined to be necessary or appropriate for the convenience of the parties. The Board's rules of practice for formal hearings provide, in part, "Unless otherwise specifically provided by statute or by rule of the Board, a hearing shall ordinarily be private and shall be attended only by the parties, their representatives or counsel, representatives of the Board, witnesses while testifying, and other persons having an official interest in the proceedings: *Provided, however,* That, on written request by a party or a representative of the Board, or on the Board's own motion, the Board, in its discretion and to the extent permitted by law, may permit other persons to attend or may order the hearing to be public."

Any person desiring to give testimony at the hearing should file with the Secretary of the Board, directly or through the Federal Reserve Bank of Minneapolis, on or before July 29, 1969, a written request containing a statement of the nature of the petitioner's interest in the proceeding, and a summary of the matters concerning which said petitioner wishes to give testimony. Such requests will be presented to the hearing examiner, and the persons submitting the requests will be notified, prior to the hearing, of his determination thereon. The application may be inspected at the Federal Reserve Bank of Minneapolis or at the Federal Reserve Building, 20th Street and Constitution Avenue NW., Washington, D.C.

Dated at Washington, D.C., this 3d day of July 1969.

By order of the Board of Governors.

[SEAL] ROBERT P. FORRESTAL,
Assistant Secretary.

INTERNATIONAL JOINT COMMISSION—UNITED STATES AND CANADA

CRESTON VALLEY WILDLIFE MANAGEMENT AREA

Order Amending Order of Approval

In the matter of the application of the Creston Valley Wildlife Management Area to the International Joint Commission for an order amending the order of approval of the Commission dated the 12th day of October 1950, as amended, by the order of approval of the Commission dated the 3d day of April 1956.

Notice is hereby given that the International Joint Commission has received an application from the Creston Valley Wildlife Management Area for amendments to the above-noted orders of approval relating to the regulation of Duck Lake to permit the construction and operation of a wildlife nesting habitat in Duck Lake which lies to the east of both the east and west branches of the Kootenay River approximately 15 miles north of the international boundary.

Specifically, the Commission has been asked to amend Condition (7) of its order of April 3, 1956, by substituting the words "elevation 1745" for the words "elevation 1745.5" where they occur. Also, the Commission is being asked to approve the construction of a dike within Duck

Lake which will enclose an area of approximately 850 acres for waterfowl nesting; the levels in this area to be maintained at elevation 1744 or lower. The remaining 3,150 acres is to continue as a flood control reservoir with a maximum elevation of 1745. During construction of the dike and drainage works, the Commission is being asked to approve the holding of Duck Lake at elevation 1742 or lower.

Notice is also given that the International Joint Commission will conduct a public hearing on this matter at 10 a.m., local time, Tuesday, August 12, 1969, in the Downtowner Motel, Creston, British Columbia. All interested persons will be given opportunity to express their views either orally or by written statements. Where possible, fifteen (15) copies of written statements should be filed with each Secretary ten (10) days in advance of the hearing with thirty (30) additional copies deposited with either of them at the hearing.

Copies of the application and of the orders of approval of the Commission referred to above are available upon request to the Secretaries of the Commission.

W. A. BULLARD,
Secretary, U.S. Section, International Joint Commission, Washington, D.C. 20440.

D. G. CHANCE,
Secretary, Canadian Section, International Joint Commission, Room 850, 151 Slater Street, Ottawa 4, Ontario, Canada.

SECURITIES AND EXCHANGE COMMISSION

[File No. 24D-2825]

GREENWOOD MANAGEMENT CORP.

Order Permanently Suspending Exemption

JULY 3, 1969.

In the matter of Greenwood Management Corp., 431 South 3d East, Suite 102, Salt Lake City, Utah, File No. 24D-2825.

I. Greenwood Management Corp. (issuer), a Utah corportion, with offices located at Salt Lake City, Utah, filed with the Commission on December 23, 1968, a notification on Form 1-A and an offering circular relating to an offering of 300,000 shares of common stock, at 10 cents per share for an aggregate of $30,000, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) thereof, and Regulation A promulgated thereunder. Kenneth M. Hisatake of Salt Lake City was designated as agent for the issuer in connection with the sale of the shares offered and was to receive no commission. The offering commenced February 24, 1969.

II. The Commission on May 7, 1969, temporarily suspended the Regulation A exemption of Greenwood Management Corp., stating that it had reasonable cause to believe from information reported to it by the staff that:

A. The terms and conditions of Regulation A were not complied with in that:

1. The Form 1-A filed on behalf of the issuer fails to disclose Curtis Minerals as an affiliate of the issuer;

2. The Form 1-A fails to disclose sales of unregistered securities by its affiliates within 1 year prior to the filing of Form 1-A and present or proposed offerings of securities by affiliates;

3. The offering circular fails to disclose all material transactions within the past 2 years between the issuer and persons affiliated with and controlling the issuer;

4. The offering circular filed on behalf of the issuer fails to disclose that net cash proceeds of the offering were to be used, in significant part, to repay a loan incurred in the acquisition of shares of stock of an affiliate of the issuer;

5. The offering circular fails to include accurate and adequate financial statements of the issuer.

B. The offering circular contains untrue statements of material facts and omits to state material facts necessary to make the statements made, in the light of the circumstances under which they were made, not misleading, particularly with respect to:

1. The failure to accurately and adequately disclose the assets and liabilities of the issuer;

2. The failure to disclose certain material transactions between the issuer and its promoters and affiliates;

3. The failure to disclose that a public offering of securities of an affiliated issuer was in progress at the time of the issuer's public offering pursuant to Regulation A;

4. The failure to accurately and adequately set forth the uses to which proceeds of the offering would be applied.

C. The offering was made in violation of section 17(a) of the Securities Act of 1933, as amended, by reason of the matters described above.

III. An answer was filed by the issuer on June 9, 1969, however, on June 16, 1969, the issuer withdrew its request for hearing and communicated its intent to abide by the decisions made by the Commission. The Commission finds that it is in the public interest and for the protection of investors to permanently suspend the exemption of the issuer under Regulation A.

It is ordered, Pursuant to Rule 261(a), subparagraphs (1) and (2) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, permanently suspended.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F.R. Doc. 69-8207; Filed, July 10, 1969; 8:49 a.m.]

[812-2549]

RICHARDS, MERRILL & PETERSON, INC., AND HUGHBANKS, INC.

Notice of Filing of Application for an Order of Exemption

JULY 7, 1969.

In the matter of Richards, Merrill & Peterson, Inc., Old National Bank Building, Spokane, Wash. 99201, and Hughbanks, Inc., 1090 Dexter Horton Building, Seattle, Wash. 98104; (812-2549).

Notice is hereby given that Richards, Merrill & Peterson, Inc., and Hughbanks, Inc. ("applicants"), prospective representatives of a group of underwriters of a proposed offering of shares of Capital Investors Corp. ("Fund"), a registered closed-end investment company, has filed an application for an exemptive order pursuant to section 6(c) of the Investment Company Act of 1940 ("Act"). Applicant requests that they, to the extent necessary, be exempted from section 30(f) of the Act to the extent that it adopts section 16(b) of the Securities Exchange Act of 1934 ("Exchange Act") in connection with their transactions incident to the distribution of Fund shares. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Fund shares are to be purchased by the underwriters at a price of $7.78 per share, pursuant to a "firm commitment" underwriting agreement to be entered into between the Fund and the underwriters represented by applicants. Upon the effective date of the Fund's registration statement under the Securities Act of 1933, the shares will be sold to the public at a public offering price of $8.50 per share, the gross underwriting commission thus being $0.72 per share. The underwriters do not intend to make sales to selected dealers at an offering price less a concession.

While the number of shares covered by the registration statement on file under the Securities Act of 1933 is stated as 500,000 shares, it is contemplated that this number of shares may be increased before the Underwriting Agreement is signed and such registration statement is effective.

It seems likely that applicants will acquire individually from the Fund in accordance with the provisions of the Underwriting Agreement more than 10 percent of the Capital Stock of the Fund (thus making them "insiders" subject to the provisions of section 16(b)) and together more than 50 percent of the Capital Stock of the Fund which will be outstanding at the time of the closing with the underwriters.

The purpose of the purchase by applicant and the other underwriters is for resale in connection with the initial distribution of shares of the Fund. It will thus be a transaction effected in connection with a distribution of a substantial block of securities within the purpose and spirit of the Commission's Rule 16b-2.

Applicants state that it is necessary for it to obtain the exemption requested by this application because of the requirements of the last clause of the first sentence of paragraph (a)(3) of Rule 16b–2 since it appears likely that the aggregate participation of underwriters who will not require an exemption under that rule will not be at least equal to the participation of applicants.

In addition to purchases from the Fund and sales to customers there may be the usual transactions of purchase or sale incident to a distribution such as stabilizing purchases, over-allotments, purchases to cover over-allotments, and sales of shares purchased in stabilization.

Applicants state that no underwriter has any inside information or possibility of using inside information and, in fact, there is no inside information in existence since the Fund prior to the initial distribution will have virtually no assets or business of any sort. No director or officer of any underwriter is a director or officer of the Fund.

Section 30(f) of the Act imposes the duties and liabilities of section 16 of the Exchange Act upon, among others, beneficial owners of more than 10 percent of any class of outstanding securities of, and directors of, a registered closed-end investment company. Section 16(b) of the Exchange Act contains provisions for accountability for profits from purchases and sales or sales and purchases within 6 months of any equity security of the related issuer by those persons covered thereby. Applicants represent that the requested exemption from the provisions of section 30(f) of the Act is necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. They state that the transactions sought to be exempted cannot lend themselves to the practices to which section 16(b) of the Exchange Act was enacted to apply.

Section 6(c) authorizes the Commission to exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from the provisions of the Act and rules promulgated thereunder if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than July 21, 1969, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

[SEAL] ORVAL L. DUBOIS,
Secretary.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Loan Area 717]

MINNESOTA

Declaration of Disaster Loan Area

Whereas, it has been reported that during the month of June 1969, because of the effects of certain disasters, damage resulted to residences and business property located in Nobles County, Minn.;

Whereas, the Small Business Administration has investigated and has received other reports of investigations of conditions in the area affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such area constitute a catastrophe within the purview of the Small Business Act, as amended.

Now, therefore, as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7(b)(1) of the Small Business Act, as amended, may be received and considered by the office below indicated from persons or firms whose property, situated in the aforesaid county and areas adjacent thereto, suffered damage or destruction resulting from floods occurring on June 28, 1969, and continuing thereafter.

OFFICE

Small Business Administration Regional Office, 816 Second Avenue, South, Minneapolis, Minn. 55402.

2. Applications for disaster loans under the authority of this Declaration will not be accepted subsequent to January 31, 1970.

Dated: July 2, 1969.

HILARY SANDOVAL, JR.,
Administrator.

[Notice 864]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JULY 7, 1969.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR, Part 340) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 13651 (Sub-No. 12 TA), filed July 1, 1969. Applicant: PEOPLES TRANSFER, INC., Post Office Box 6367, 1400 North Black Canyon Highway, Phoenix, Ariz. 85005. Applicant's representative: A. Michael Bernstein, 1327 United Bank Building, 3550 North Central, Phoenix, Ariz. 85012. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fiberboard boxes and containers* such as are used in packing fruits and vegetables, from points in Los Angeles County, Calif., to points in Luna and Socorro Counties, N. Mex., and from points in Maricopa County, Ariz., to points in Luna, Dona Ana, Socorro, Sierra, Torrance, San Juan, Bernalillo, and Valencia Counties, N. Mex., and points in El Paso and Deaf Smith Counties, Tex.; Delta and Montezuma Counties, Colo.; and Riverside and Imperial Counties, Calif., for 180 days. Supporting shippers: Boise Cascade Corp., Boise, Idaho; Fibreboard Corp., 475 Brannan Street, San Francisco, Calif. 94119. Send protests to: Andrew V. Baylor, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 3427 Federal Building, Phoenix, Ariz. 85025.

No. MC 57315 (Sub-No. 16 TA), filed July 1, 1969. Applicant: TRI-STATE TRANSPORT, INC., 91 Heard Street, Chelsea, Mass. 02150. Applicant's representative: Frank J. Weiner, Investors Building, 536 Granite Street, Braintree, Mass. 02184. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Yogurt*, from Stratford, Conn., to Boston, Westwood, Somerville, and Worcester, Mass., and Jersey City, N.J., for 150 days. Supporting shipper: Borden, Inc., 33 West 60th Street, New York, N.Y. 10023. Send protests to: Max Gorenstein, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 2211-B, J.F.K. Federal Building, Government Center, Boston, Mass. 02203.

No. MC 76472 (Sub-No. 10 TA), filed July 1, 1969. Applicant: MATERIAL TRUCKING, INC., 924 South Heald Street, Wilmington, Del. 19801. Applicant's representative: William Saienni (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fluorspar*, in bulk, from Wilmington, Del., to Aspers, Pa., for 180 days. Supporting shipper: Glen-Gery Corp., Post Office Box 206, Reading, Pa. 19607; Joseph E. Tolson, Traffic Manager. Send protests to: Paul J. Lowry, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 206 Old Post Office Building, 129 East Main Street, Salisbury, Md. 21801.

No. MC 87123 (Sub-No. 3 TA), filed July 1, 1969. Applicant: ROSE HARE, doing business as MAX KAFER EXPRESS, 218 West 37th Street, New York, N.Y. 10018. Applicant's representative: Herman B. J. Weckstein, 60 Park Place, Newark, N.J. 07102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wearing apparel and materials and supplies* used in the manufacture thereof, between Belford, Long Branch, Morgan, and Jackson Township, N.J., on the one hand, and on the other, Philadelphia, Pa., for 150 days. NOTE: Applicant does intend to tack with carriers at Philadelphia, and New York, N.Y., commercial zone. Supporting shippers: Devon Knitwear Co., Inc., 3300 Frankford Avenue, Philadelphia, Pa.; Jaylo Fashions, 147 Brighton Avenue, West End, N.J.; The Scharf Corp., 320 Memorial Parkway, New Brunswick, N.J. 08901; Rimi Fashions Inc., Rural Delivery 3, Box 319, Jackson, N.J. Send protests to: Paul W. Assenza—District Supervisor, Interstate Commerce Commission, Bureau of Operations, 26 Federal Plaza, New York, N.Y. 10007.

No. MC 107162 (Sub-No. 24 TA), filed July 1, 1969. Applicant: NOBLE GRAHAM, Route No. 1, Brimley, Mich. 49715. Applicant's representative: Philip H. Porter, 708 First National Bank Building, Madison, Wis. 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Scrap metal*, from port of entry on the United States-Canada boundary line, between the United States and Canada, at or near Sault Ste. Marie, Mich., to East Jordan, Mich., over the Mackinac Bridge, for 180 days. Supporting shipper: Traders Metal Co., Limited, Post Office Box 459, Sault Ste. Marie, Ontario, Canada. Send protests to: C. R. Flemming, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 225 Federal Building, Lansing, Mich. 48933.

No. MC 133720 (Sub-No. 1 TA), filed July 1, 1969. Applicant: SHAWANO TERMINAL WAREHOUSE, INC., Post Office Box 67, Shawano, Wis. 54166. Applicant's representative: Robert D. Sundby, 110 East Main Street, Madison, Wis. 53703. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Uncrated caskets, casket shells, and related supplies*, from Shawano, Wis., to points in Alger, Baraga, Delta, Dickinson, Gogebic, Houghton, Iron, Keweenaw, Marquette, Menominee, and Ontonagon Counties, Mich., for 180 days. Supporting shipper: Batesville Casket Co., Inc., Batesville, Ind. 47006 (Adrian J. Borchelt, Traffic Manager). Send protests to: District Supervisor Lyle D. Helfer, Interstate Commerce Commission, Bureau of Operations, 135 West Wells Street, Room 807, Milwaukee, Wis. 53203.

No. MC 133814 (Sub-No. 1 TA), filed July 1, 1969. Applicant: E. E. CARROLL, doing business as CARROLL TRUCKING COMPANY, 3533 Audubon Road, Montgomery, Ala. 36111. Applicant's representative: J. Douglas Harris, 409-412 Bell Building, Montgomery, Ala. 36104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Brick*, from points in Jefferson County, Ala., to Pensacola, Fla., for 180 days. Supporting shipper: Watkins Brick Co., Post Office Box 8, Ensley Station, Birmingham, Ala. 35218. Send protests to: B. R. McKenzie, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 814-2121 Building, Birmingham, Ala., 35203.

No. MC 133854 TA, filed July 1, 1969. Applicant: DOYLE REASNOR AND LEO REASNOR, doing business as REASNOR CONSTRUCTION CO., Box 148, Kinta, Okla. 75542. Applicant's representative: Leo Reasnor (same address as above). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Coal*, in bulk, from mine site of Kerr-McGee Corp., 6 miles southeast of Stigler, Okla., to rail siding of Texas & Pacific Railway, approximately 3 miles east of Stigler, Okla., and rail siding of Fort Smith and Van Buren Railway at McCurtain, Okla., for 180 days. Supporting shipper: Kerr-McGee Corp., Kerr-McGee Building,

Oklahoma City, Okla. 73102. Send protests to: C. L. Phillips, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 240, Old Post Office Building, 215 Northwest Third, Oklahoma City, Okla. 73102.

No. MC 133855 TA, filed July 1, 1969. Applicant: GERALD G. WOOD, doing business as WOOD & SONS, Route No. 1, Sun Prairie, Wis. 53590. Applicant's representative: Robert J. Kay, 433 West Washington Avenue, Madison, Wis. 53703. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Progeny test bulls and mature bulls*, from De Forest, Dane County, Wis., to points in the United States, and from points in the United States to De Forest, Dane County, Wis., for the account of American Breeders Service, Inc., De Forest, Wis. for 180 days. Supporting shipper: American Breeders Service, Inc., De Forest, Wis. 53532. Send protests to: Barney L. Hardin, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 444 West Main Street, Room 11, Madison, Wis. 53703.

By the Commission.

[SEAL] ANDREW ANTHONY, Jr.,
Acting Secretary.

[Notice 374]

MOTOR CARRIER TRANSFER PROCEEDINGS

JULY 8, 1969.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

As provided in the Commission's general rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 30 days from the date of service of the order. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 70748. By order of July 1, 1969, Division 3, acting as an Appellate Division, approved the transfer to George Aigner & Sons, Inc., Chicago, Ill., of Certificates in Nos. MC-111126 and MC-111126 (Sub-No. 1), issued June 6, 1950 and August 17, 1951, respectively, to William Sadowsky, doing business as Advance Lumber Cartage Co., Chicago, Ill., authorizing the transportation of: Lumber, wooden poles, requiring special equipment, and plasterboard, from points in Illinois in the Chicago commercial zone to points in Indiana, and from points in the Chicago, Ill., commercial zone to points in Wisconsin. Harold E. Marks, 208 South La Salle Street, Chicago, Ill. 60604, attorney for applicants.

[SEAL] ANDREW ANTHONY, Jr.,
Acting Secretary.

Advisory Circular Checklist and Status of Federal Aviation Regulations

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[AC 00-2M—Effective May 29, 1969]

ADVISORY CIRCULAR CHECKLIST AND STATUS OF FEDERAL AVIATION REGULATIONS

1. *Purpose.* This notice contains the revised checklist of current FAA advisory circulars and the status of Federal Aviation Regulations as of May 29, 1969.

2. *Explanation.* The FAA issues advisory circulars to inform the aviation public in a systematic way of nonregulatory material of interest. Unless incorporated into a regulation by reference, the contents of an advisory circular are not binding on the public. Advisory circulars are issued in a numbered-subject system corresponding to the subject areas in the recodified Federal Aviation Regulations (14 CFR Ch. I). This checklist is issued triannually listing all current circulars and now includes information concerning the status of the Federal Aviation Regulations.

3. *The Circular Numbering System.*

a. *General.* The advisory circular numbers relate to the subchapter titles and correspond to the parts, and when appropriate, the specific sections of the Federal Aviation Regulations. Circulars of a general nature bear a number corresponding to the number of the general subject (subchapter) in the FAR's.

b. *Subject numbers.* The general subject matter areas and related numbers are as follows:

Subject Number and Subject Matter

00	General.
10	Procedural.
20	Aircraft.
60	Airmen.
70	Airspace.
90	Air Traffic Control and General Operations.
120	Air Carrier and Commercial Operators and Helicopters.
140	Schools and Other Certified Agencies.
150	Airports.
170	Air Navigational Facilities.
180	Administrative.
210	Flight Information.

c. *Breakdown of subject numbers.* When the volume of circulars in a general series warrants a subsubject breakdown, the general number is followed by a slash and a subsubject number. Material in the 150, Airports, series is issued under the following subsubjects:

Number and Subject

150/1900	Defense Readiness Program.
150/4000	Resource Management.
150/5000	Airport Planning.
150/5100	Federal-aid Airport Program.
150/5150	Surplus Airport Property Conveyance Programs.
150/5190	Airport Compliance Program.
150/5200	Airport Safety—General.
150/5210	Airport Safety Operations (Recommended Training, Standards, Manning).
150/5220	Airport Safety Equipment and Facilities.
150/5230	Airport Ground Safety System.
150/5240	Civil Airports Emergency Preparedness.
150/5300	Design, Construction, and Maintenance—General.
150/5320	Airport Design.
150/5325	Influence of Aircraft Performance on Aircraft Design.
150/5335	Runway, Taxiway, and Apron Characteristics.
150/5340	Airport Visual Aids.
150/5345	Airport Lighting Equipment.
150/5360	Airport Buildings.
150/5370	Airport Construction.
150/5380	Airport Maintenance.
150/5390	Heliports.

d. *Individual circular identification numbers.* Each circular has a subject number followed by a dash and a sequential number identifying the individual circular. This sequential number is not used again in the same subject series. Revised circulars have a letter A, B, C, etc., after the sequential number to show complete revisions. Changes to circulars have CH 1, CH 2, CH 3, etc., after the identification number on pages that have been changed. The date on a revised page is changed to the effective date of the change.

4. *The Advisory Circular Checklist.*

a. *General.* Each circular issued is listed numerically within its subject-number breakdown. The identification number (AC 120-1), the change number of the latest change, if any, to the right of the identification number, the title, and the effective date for each circular are shown. A brief explanation of the contents is given for each listing.

b. *Omitted numbers.* In some series sequential numbers omitted are missing numbers, e.g., 00-8 through 00-11 have not been used although 00-7 and 00-12 have been used. These numbers are assigned to advisory circulars still in preparation which will be issued later.

c. *Free and sales circulars.* The checklist has been separated into two parts in this issue. Part I includes only circulars that are free to the public. Part II includes only circulars that are for sale by the Superintendent of Documents.

d. *Internal directives for sale.* A list of certain internal directives sold by the Superintendent of Documents is shown at the end of Part II of the checklist. These documents are not identified by advisory circular numbers, but have their own directive numbers.

5. *How to get circulars.*

a. When a price is listed after the description of a circular, it means that this circular is for sale by the Superintendent of Documents. When (Sub.) is included with the price, the advisory circular is available on a subscription basis only. After your subscription has been entered by the Superintendent of Documents, supplements or changes to the basic document will be provided automatically at no additional charge until the subscription expires. When no price is given, the circular is distributed free of charge by FAA. Paragraph 5 tells how to get copies of circulars from these two sources.

b. Request free advisory circulars shown without an indicated price from:

Department of Transportation, Federal Aviation Administration, Distribution Unit, TAD 484.3, Washington, D.C. 20590.

NOTE: Persons who want to be placed on FAA's mailing list for future circulars should write to the above address. Be sure to identify the subject matter desired by the subject numbers and titles shown in paragraph 3b because separate mailing lists are maintained for each advisory circular subject series. Checklists and circulars issued in the general series will be distributed to every addressee on each of the subject series lists. Persons requesting more than one subject classification may receive more than one copy of related circulars and this checklist because they will be included on more than one mailing list. Persons already on the distribution list for AC's and changes to FAR's will automatically receive related circulars.

c. Order advisory circulars and internal directives with purchase price given from:

Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

Send check or money order with your order to the Superintendent of Documents. Make the check or money order payable to the Superintendent of Documents in the amounts indicated in the list. Orders for mailing to foreign countries should include an additional amount of 25 percent of the price to cover postage. No c.o.d. orders are accepted.

6. *Reproduction of Advisory Circulars.* Advisory circulars may be reproduced in their entirety or in part without permission from the Federal Aviation Administration.

7. *Cancellations.* The following advisory circulars are canceled:

AC 00-2L Advisory Circular Checklist, 1-17-69. Canceled by AC 00-2M, Advisory Circular Checklist, 5-29-69.

AC 20-6J United States Civil Aircraft Register, 7-1-68. Canceled by AC 20-6K, United States Civil Aircraft Register, 1-1-69.

AC 20-11 Eligibility and Quality of Aircraft Replacement Parts and Supplies, 8-18-63. Canceled by AC 20-62, Eligibility, Quality, and Identification of Approved Aeronautical Replacement Parts, 4-30-69.

AC 20-12 Acceptable Functional and Installation Criteria for Aircraft Type Certification Approval of the Installation of Airborne Communication, Navigation, and Automatic Flight Control Systems, 4-6-64. Canceled.

AC 20-19A Identification of Approved Aeronautical Replacement Parts, 1-19-66. Canceled by AC 20-62, Eligibility, Quality, and Identification of Approved Aeronautical Replacement Parts, 4-30-69.

AC 20-21 Application of Glass Fiber Laminates in Aircraft, 12-3-64. Canceled.

AC 20-23B Interchange of Service Experience—Mechanical Difficulties, 12-7-67. Canceled by AC 20-23C, Interchange of Service Experience—Mechanical Difficulties, 5-9-69.

AC 20-25 Identification of Technical Standard Order (TSO) Safety Belts, 7-5-64. Canceled by AC 20-25A, Identification of Technical Standard Order (TSO) Safety Belts, 3-14-69.

AC 20-34 Prevention of Retractable Landing Gear Failures, 3-8-65. Canceled by AC 20-34A, Prevention of Retractable Landing Gear Failures, 4-21-69.

AC 20–37 Aircraft Metal Propeller Blade Failure, 6–7–65. Canceled by AC 20–37A, Aircraft Metal Propeller Blade Failures, 4–4–69.

AC 20–58 Acceptable Means of Testing Automatic Altitude Reporting Equipment for Compliance With FAR 91.36(b), 6–10–68. Canceled by AC 20–58A, Acceptable Means of Testing Automatic Altitude Reporting Equipment for Compliance With FAR 91.36(b), 4–28–69.

AC 61.117–1B Flight Test Guide—Commercial Pilot, Airplane, 4–21–67. Canceled by AC 61.117–1C, Flight Test Guide—Commercial Pilot, Airplane, 2–7–69.

AC 61–12B Student Pilot Guide, 5–31–67. Canceled by AC 61–12C, Student Pilot Guide, 10–3–68.

AC 61–27 Instrument Flying Handbook, 12–20–66. Canceled by AC 61–27A, Instrument Flying Handbook, 4–30–68.

AC 61–35 Gold Seal Flight Instructor Certificates, 10–4–66. Canceled by AC 61–35A, Gold Seal Flight Instructor Certificates, 2–11–69.

AC 61–40 Performance of Stalls on Pilot Flight Tests, 9–14–67. Canceled.

AC 90–13 and Change 1 Turbojet Training Program—General Aviation, 4–22–64 and 12–23–65. Canceled.

AC 90–18 Large Propeller-Driven Aircraft Training Program—General Aviation, 10–21–64. Canceled.

AC 90–21 Dualing of Service O Circuits 8273, 8275, and 8276, 3–1–65. Canceled.

AC 120–1 Reporting Requirements of Air Carrier and Commerical Operators, 6–6–63. Canceled by AC 120–1A, Reporting Requirements of Air Carriers, Commercial Operators, and Travel Clubs, 4–24–69.

AC 120–11 Section 42.52(b) of Civil Air Regulations Part 42, 11–11–63. Canceled.

AC 120–22 Systemsworthiness Analysis Program, 7–29–66. Canceled.

AC 120–24 Establishment and Revision of Aircraft Engine Overhaul and Inspection Periods, 9–1–66. Canceled by AC 120–24A, Establishment and Revision of Aircraft Engine Overhaul and Inspection Periods, 2–25–69.

AC 121–2 and Change 1 FAA Airborne Vibration Monitoring Program for Turbine Engines, 1–15–63 and 5–20–63. Canceled.

AC 140–1C Consolidated Listing of FAA Certificated Repair Stations, 8–1–67. Canceled by AC 140–1D, Consolidated Listing of FAA Certificated Repair Stations, 7–1–68.

AC 145.101–1 Application for Air Agency Certificate—Manufacturer's Maintenance Facility, 7–12–66. Canceled by AC 145.101–1A, Application for Air Agency Certificate—Manufacturer's Maintenance Facility, 3–10–69.

AC 147–2D Federal Aviation Administration Certificated Mechanic School Directory, 7–15–68. Canceled by AC 147–2E, Federal Aviation Administration Certificated Mechanic School Directory, 1–15–69.

AC 149.9–1A Military Surplus Parachutes, 9–24–64. Canceled.

AC 150/4290–2 Assistance in Obtaining Copper Products for Airport Lighting, 9–18–68. Canceled.

AC 150/5040–1 Announcement of Report—Aviation Demand and Airport Facility Requirement Forecasts for Large Air Transportation Hubs Through 1980, 9–21–67. Canceled by AC 150/5040–1A, Announcement of Report—Aviation Demand and Airport Facility Requirement Forecasts for Large Air Transportation Hubs Through 1980, 3–27–69.

AC 150/5050–1 Airport Planning as a Part of Comprehensive State Planning Programs, 4–25–66. Canceled. AC 150/5050–3 announces a new report covering the material.

AC 150/5240–6A Radiation Safety for Civil Airports, 12–27–65. Canceled.

AC 150/5300–4 Utility Airports—Design Criteria and Dimensional Standards, 5–19–67. Canceled by AC 150/5300–4A, Utility Airports—Air Access to National Transportation, 5–6–69.

AC 150/5340–1A and Change 1 Marking of Serviceable Runways and Taxiways, 6–30–66 and 9–15–66. Canceled by AC 150/5340–1B, Marking of Serviceable Runways and Taxiways, 4–2–69.

AC 150/5345–1A Approved Airport Lighting Equipment, 8–9–66. Canceled by AC 150/5345–1B, Approved Airport Lighting Equipment 10–30–68.

AC 170–4 Emergency Signaling Device for Aircraft in Distress, 1–9–64. Canceled by AC 91–19, Emergency Locator Beacons—Crash, Survival, Personnel, 3–17–69.

AC 183.29–1C Designated Engineering Representatives, 4–25–67. Canceled by AC 183.29–1D, Designated Engineering Representatives, 2–28–69.

Handbook 7300.7 Aeronautical Communications and Pilot Services, 3–3–66. Canceled by Handbook 7110.10, Flight Services, 4–1–69.

8. *Additions.* The following advisory circulars are added to the list:

AC 00–2M Advisory Circular Checklist, 5–29–69.

AC 00–25 Forming and Operating a Flying Club, 3–24–69.

AC 00–26 Definition of "U.S. National Aviation Standards", 1–22–69.

AC 00–27 U.S. National Standard for the IFF Mark X (SIF) Air Traffic Control Radar Beacon System Characteristics (ARTCRBS), 1–24–69.

AC 20–6K United States Civil Aircraft Register, 1–1–69.

AC 20–7E Supplement 6, General Aviation Inspection Aids, 1–14–69.

Supplement 7, General Aviation Inspection Aids, 2–7–69.

Supplement 8, General Aviation Inspection Aids, 3–5–69.

Supplement 9, General Aviation Inspection Aids, 4–3–69.

Supplement 10, General Aviation Inspection Aids, 5–12–69.

AC 20–23C Interchange of Service Experience—Mechanical Difficulties, 5–9–69.

AC 20–25A Identification of Technical Standard Order (TSO) Safety Belts, 3–14–69.

ADVISORY CIRCULAR CHECKLIST

NOTICE

In an effort to avoid confusion when ordering material, the checklist has been divided into two parts. Part I contains only the free material, copies of which are to be obtained from the Department of Transportation (see 5b for address). Part II contains only the material for sale, copies of which are to be obtained from the Superintendent of Documents (see 5c for address).

Superintendent of Documents catalogue numbers have been included to aid Superintendent of Documents personnel in processing orders. Please use them when ordering—along with the title and FAA number. To avoid unnecessary delays, do not order single-sales material and subscription-sales material on the same order form, as orders are separated for processing by different departments when they arrive at Superintendent of Documents.

Subject matter areas and numerical chronology have been maintained in both parts.

PART I

General

SUBJECT NO. 00

00–1 The Advisory Circular System (12–4–62).

Describes the FAA Advisory Circular System.

00–2M Advisory Circular Checklist (5–29–69).

Transmits the revised checklist of current FAA advisory circulars and the status of the Federal Aviation Regulations as of 5–29–69.

00–7 State and Regional Defense Airlift Planning (4–30–64).

Provides guidance for the development of plans by the FAA and other Federal and State agencies for the use of non-air-carrier aircraft during an emergency.

00–7 CH 1 Provision of Appendix 4 and Addition of New Appendix 9 to State and Regional Defense Airlift Planning (1–5–65).

The title is self-explanatory.

00–7 CH 2 State and Regional Defense Airlift Planning (2–20–67).

Change 2 to basic document.

00–14 Flights by U.S. Pilots Into and Within Canada (4–16–65).

Provides information concerning flights into and within Canada.

00–15 Potential Hazard Associated With Passengers Carrying "Anti-Mugger" Spray Devices (8–20–65).

Advises aircraft operators, crewmembers, and others who are responsible for flight safety, of a possible hazard to flight should a passenger inadvertently or otherwise discharge a device commonly known as an "anti-mugger" spray device in the cabin of an aircraft.

00–17 Turbulence in Clear Air (12–16–65).

Provides information on atmospheric turbulence and wind shear, emphasizing important points pertaining to the common causes of turbulence, the hazards associated with it, and the conditions under which it is most likely to be encountered.

00–19 System Description for a Modernized Weather Teletypewriter Communications System (7–8–66).

Transmits a technical report of the system improvements which the Federal Aviation Agency plans to make in the operation of the Services A, C, and O weather teletypewriter communications network.

00–20 Cancellation of Flight Standards Service Releases (9–7–66).

Cancels all outstanding Flight Standards Service Releases.

00–21 Shoulder Harness (10–5–66).

Provides information concerning the installation and use of shoulder harnesses by pilots in general aviation aircraft.

00–23A Near Midair Collision Reporting (12–18–68).

Advises that the FAA will continue through December 31, 1969, to handle reports of near midair collisions in accordance with the policy established January 1, 1968.

00–24 Thunderstorms (6–12–68).

Contains information concerning flights in or near thunderstorms.

00–26 Definition of "U.S. National Aviation Standards" (1–22–69).

Informs the aviation community of the approval by the FAA Administrator of a definition of U.S. National Aviation Standards, the need for such standards, and their relationship to the Federal Aviation Regulations.

00–27 U.S. National Standard for the IFF Mark X (SIF) Air Traffic Control Radar Beacon System Characteristics (ATCRBS) 1–24–69.

Informs the aviation community of the approval by the FAA Administrator of the U.S. National Aviation Standard for the ATCRBS.

Procedural

SUBJECT NO. 10

11–1 Airspace Rule-Making Proposals and Changes to Air Traffic Control Procedures (10–28–64).

Emphasizes the need for the early submission of proposals involving airspace rule-making activity or changes to existing procedures for the control of air traffic.

Aircraft

SUBJECT NO. 20

20–1 Limitations of Self-Locking Castellated Nuts (6–20–63).

Provides information on the limitations of cotter pinned self-locking nuts.

20–3A Status and Availability of Military Handbooks and ANC Bulletins for Aircraft (1–15–64).

Announces the status and availability of Military Handbooks and ANC Bulletins prepared jointly with FAA.

20–5A Plane Sense (4–4–67).

Provides general aviation information for the private aircraft owner.

20–10 Approved Airplane Flight Manuals for Transport Category Airplanes (7–30–63).

Calls attention to the regulatory requirements relating to FAA Approved Airplane Flight Manuals.

20–13A Surface-Effect Vehicles (8–28–64).

States FAA policy on surface-effect vehicles (vehicles supported by a cushion of compressed air).

20–14 Aircraft Airworthiness; Restricted Category: Certification of Aircraft With Uncertificated Engines or Engines to Which Major Alterations Have Been Made (10–25–63).

Sets forth information needed by FAA for type certification of aircraft in the restricted category with uncertificated engines or engines having major alterations.

20–15A Qualification of Type Certificated Engines and Propellers for Aircraft Installations (3–24–66).

Calls attention to the relationship between both Federal Aviation Regulations, Parts 33 (Aircraft Engine Airworthiness) and 35 (Propeller Airworthiness), and various aircraft airworthiness parts.

20–17 Surplus Military Aircraft (1–6–64).

Informs how to obtain copies of regulations required for certification of surplus military aircraft.

20–18A Qualification Testing of Turbojet Engine Thrust Reversers (3–16–66).

Discusses the requirements for the qualification of thrust reversers and sets forth an acceptable means of compliance with the tests prescribed in Federal Aviation Regulations, Part 3, when run under nonstandard ambient air conditions.

20–20A Flammability of Jet Fuels (4–9–65).

Gives information on the possibility of combustion of fuel in aircraft fuel tanks.

20–23C Interchange of Service Experience — Mechanical Difficulties (5–9–69).

Explains the advantages of a voluntary exchange of service experience data.

20–24A Qualification of Fuels, Lubricants, and Additives (4–1–67).

Establishes procedures for the approval of the use of subject materials in certificated aircraft.

20–25A Identification of Technical Standard Order (TSO) Safety Belts (3–14–69).

Describes the markings which indicate that a safety belt has been manufactured under the FAA TSO system and approved for use in certificated aircraft.

20–27A Certification and Operation of Amateur-Built Aircraft (8–12–68).

Provides information and guidance material for amateur aircraft builders.

20–28 Nationally Advertised Aircraft Construction Kits (8–7–64).

Explains that using certain kits could render the aircraft ineligible for the issuance of an experimental certificate as an amateur-built aircraft.

20–29A Use of Anti-Icing Additive PFA–55MB (6–19–67).

Provides information on the use of anti-icing additive for jet fuels to assure compliance with FAR's that require assurance of continuous fuel flow under icing conditions.

20–30A Airplane Position Lights and Supplementary Lights (4–18–68).

Provides an acceptable means for complying with the position light requirements for airplane airworthiness and acceptable criteria for the installation of supplementary lights on airplanes.

20–32A Carbon Monoxide (CO) Contamination in Aircraft—Detection and Prevention (9–13–68).

Informs aircraft owners, operators, maintenance personnel, and pilots of the potential dangers of carbon monoxide contamination and discusses means of

detection and procedures to follow when contamination is suspected.

20–33 Technical Information Regarding Civil Aeronautics Manuals 1, 3, 4a, 4b, 5, 6, 7, 8, 9, 10, 13, and 14 (2–8–65).

Advises the public that policy information contained in the subject Civil Aeronautics Manuals may be used in conjunction with specific sections of the Federal Aviation Regulations.

20–34A Prevention of Retractable Landing Gear Failures (4–21–69).

Provides information and suggested procedures to minimize landing accidents involving aircraft having retractable landing gear.

20–35A Tie-Down Sense (10–29–68).

Provides information of general use on aircraft tie-down techniques and procedures.

20–36A Index of Materials, Parts and Appliances Certified Under the Technical Standard Order System—March 1, 1966 (4–8–66).

Lists the materials, parts, and appliances for which the Administrator has received statements of conformance under the Technical Standard Order system as of March 1, 1966. Such products are deemed to have met the requirements for FAA approval as provided in Part 37 of the Federal Aviation Regulations.

20–37A Aircraft Metal Propeller Blade Failure (4–4–69).

Provides information and suggested procedures to increase service life and to minimize blade failures of metal propellers.

20–38A Measurement of Cabin Interior Emergency Illumination in Transport Airplanes (2–8–66).

Outlines acceptable methods, but not the only methods, for measuring the cabin interior emergency illumination on transport airplanes, and provides information as to suitable measuring instruments.

20–39 Installation Approval of Entertainment Type Television Equipment in Aircraft (7–15–65).

Presents an acceptable method (but not the only method) by which compliance may be shown with Federal Aviation Regulations 23.1431, FAR 25.1309(b), FAR 27.1309(b), or FAR 29.1309(b) as applicable.

20–40 Placards for Battery-Excited Alternators Installed in Light Aircraft (8–11–65).

Sets forth an acceptable means of complying with placarding rules in Federal Aviation Regulations 23 and 27 with respect to battery-excited alternator installations.

20–41 Replacement TSO Radio Equipment in Transport Aircraft (8–30–65).

Sets forth an acceptable means for complying with rules governing transport category aircraft installations in cases involving the substitution of technical standard order radio equipment for functionally similar radio equipment.

20–42 Hand Fire Extinguishers in Transport Category Airplanes and Rotorcraft (9–1–65).

Sets forth acceptable means (but not the sole means) of compliance with certain hand fire extinguisher regulations in FAR 25 and FAR 29, and provides related general information.

20–43 Aircraft Fuel Contamination (9–3–65).

Informs the aviation community of the potential hazards of fuel contamination, its control, and recommended fuel servicing procedures.

20–44 Glass Fiber Fabric for Aircraft Covering (9–3–65).

Provides a means, but not the sole means, for acceptance of glass fiber fabric for external covering of aircraft structure.

20–45 Safetying of Turnbuckles on Civil Aircraft (9–17–65).

Provides information on turnbuckle safetying methods that have been found acceptable by the Agency during past aircraft type certification programs.

20–46 Suggested Equipment for Gliders Operating Under IFR (9–23–65).

Provides guidance to glider operators on how to equip their gliders for operation under instrument flight rules (IFR), including flight through clouds.

20–47 Exterior Colored Band Around Exits on Transport Airplanes (2–8–66).

Sets forth an acceptable means, but not the only means, of complying with the requirement for a 2-inch colored band outlining exits required to be openable from the outside on transport airplanes.

20–48 Practice Guide for Decontaminating Aircraft (5–5–66).

The title is self-explanatory.

20–49 Analysis of Bird Strike Reports on Transport Category Airplanes (7–27–66).

Provides the results of a statistical study on the frequency of collisions of birds with transport aircraft and the resulting damages.

20–51 Procedures for Obtaining FAA Approval of Major Alterations to Type Certificated Products (4–12–67).

Provides assistance to persons who desire to obtain FAA approval of major alterations to type certificated products.

20–52 Maintenance Inspection Notes for Douglas DC–6/7 Series Aircraft (8–24–67).

Describes maintenance inspection notes which can be used for the maintenance support of certain structural parts of DC–6/7 series aircraft.

20–53 Protection of Aircraft Fuel System Against Lightning (10–6–67).

Sets forth acceptable means, not the sole means, by which compliance may be shown with fuel system lightning protection airworthiness regulations.

20–54 Hazards of Radium-Activated Luminous Compounds Used on Aircraft Instruments (10–24–67).

Provides information concerning health hazards associated with the repair and maintenance of instruments containing luminous markings activated with radium-226 or radium-228 (mesothorium).

20–55 Turbine Engine Overhaul Standard Practices Manual—Maintenance of Fluorescent Penetrant Inspection Equipment (1–22–68).

Advises operators of the necessity for periodic checking of black light lamps and filters used during fluorescent penetrant inspection of engine parts.

20–56 Marking of TSO–C72a Individual Flotation Devices (1–19–68).

Outlines acceptable methods for marking individual flotation devices which also serve as seat cushions.

20–57 Automatic Landing Systems (1–29–68).

Sets forth an acceptable means of compliance but not the only means for the installation approval of automatic landing systems in transport category aircraft which may be used initially in Category II operations.

20–58A Acceptable Means of Testing Automatic Altitude Reporting Equipment for Compliance with FAR 91.36(b) (4–28–69).

Title is self-explanatory.

20–59 Maintenance Inspection Notes for Convair 240, 340/440, 240T, and 340T Series Aircraft (2–19–68).

Describes maintenance inspection notes which can be used for the maintenance support of certain structural parts of Convair 240, 340/440, 240T, and 340T series aircraft.

20–60 Accessibility to Exess Emergency Exits (7–18–68).

Sets forth acceptable means of compliance with the "readily accessible" provisions in the Federal Aviation Regulations dealing with excess emergency exits.

20–62 Eligibility, Quality, and Identification of Approved Aeronautical Replacement Parts (4–30–69).

Provides information relative to the determination of the eligibility of aeronautical parts and materials for installation on certificated aircraft.

21–1 Production Certificates (6–15–65).

Provides information concerning Subpart G of Federal Aviation Regulations (FAR) Part 21, and sets forth acceptable means of compliance with its requirements.

21–2A Export Airworthiness Approval Procedures (2–16–67).

Announces the adoption of new regulations and provides guidance to the public regarding the issuance of export airworthiness approvals for aeronautical products to be exported from the United States.

21–2A CH 1 (8–30–67).

21–2A CH 2 (10–30–67).

21–2A CH 3 (3–20–68).

21–2A CH 4 (11–6–68).

21–4A Special Flight Permits for Operation of Overweight Aircraft (9–16–66).

Furnishes guidance concerning special flight permits necessary to operate an aircraft in excess of its usual maximum certificated takeoff weight.

21–5 Summary of Supplemental Type Certificates (2–24–66).

Announces the availability to the public of a new Summary of Supplemental Type Certificates (STC's), Part 21 of the Federal Aviation Regulations.

21–6 Production Under Type Certificate Only (5–29–67).

Provides information concerning Subpart F of FAR Part 21, and sets forth examples, when necessary, of acceptable means of compliance with its requirements.

21–7 Certification and Approval of Import Products (6–13–67).

Provides guidance and information relative to U.S. certification and approval of import aircraft, aircraft engines, propellers manufactured in a foreign country with which the United States has an acceptance agreement of those products for export and import.

21.25–1 Use of Restricted Category Airplanes for Glider Towing (4–20–65).

Announces that glider towing is now considered to be a special purpose for type and airworthiness certification in the restricted category.

21.303–1 Replacement and Modification Parts (3–2–66).

Provides information concerning section 21.303 of Federal Aviation Regulations, Part 21, and sets forth examples of acceptable means of compliance with its requirements.

23–1 Type Certification Spin Test Procedures (4–1–64).

Sets forth an acceptalbe means by which compliance may be shown with the one-turn spinning requirement in Part 3 of the CAR's.

23.1329–1 Automatic Pilot Systems Approval (Non-Transport) (12–23–65).

Sets forth an acceptable means by which compliance with the automatic pilot installation requirements of FAR 23.1329 may be shown.

25–1 Airplane Flight Manual Procedures Associated with Performance Limitations (9–4–63).

Provides acceptable means for compliance with Special Regulation SR–422B, section 4T.743(c).

25–2 Extrapolation of Takeoff and Landing Distance Data Over a Range of Altitude for Turbine-Powered Transport Aircraft (7–9–64).

Sets forth acceptable means by which compliance may be shown with the requirements in CAR 4b and SR–422B.

25–4 Inertial Navigation Systems (INS) (2–18–66).

Sets forth an acceptable means for complying with rules governing the installation of inertial navigation systems in transport category aircraft.

25.253–1 High-Speed Characteristics (11–24–65).

Sets forth an acceptable means by which compliance may be shown with FAR 25.253 during certification flight tests.

25.253–1 CH 1 (1–10–66).

Provides amended information for the basic advisory circular.

25.1329–1A Automatic Pilot System Approval (7–8–68).

Sets forth an acceptable means by which compliance with the automatic pilot installation requirements of FAR 25.1329 may be shown.

25.1457–1 Cockpit Voice Recorder Installations (4–7–65).

Sets forth an acceptable means of compliance with provisions in FAR Part 25 pertaining to cockpit voice recorder location and erasure features.

27.1581–1 Sea Rotorcraft Autorotative Landing on Land (8–3–65).

Sets forth acceptable means, not the sole means, with which to provide suitable warning information to crews of float-equipped rotorcraft (pneumatic bag type) when a safe autorotative landing on land may not be possible.

29–1 Approval Basis for Automatic Stabilization Equipment (ASE) Installations in Rotorcraft (12–26–63).

Gives means for compliance with flight requirements in various CAR's.

29–1 CH 1 (3–26–64).

Transmits revised information about the time delay of automatic stabilization equipment.

29.773–1 Pilot Compartment View (1–19–66).

Sets forth acceptable means, not the sole means, by which compliance with FAR 29.773(a)(1), may be shown.

33–1A Turbine-Engine Foreign Object Ingestion and Rotor Blade Containment Type Certification Procedures (6–19–68).

Provides guidance and acceptable means, not the sole means, by which compliance may be shown with the design and construction requirements of Part 33 of the Federal Aviation Regulations.

33–2 Aircraft Engine Type Certification Handbook (3–30–66).

Contains guidance relating to type certification of aircraft engines which will constitute acceptable means, although not the sole means, of compliance with the Federal Aviation Regulations.

33–2 CH 1 (9–13–67).

Transmits revised material to the basic advisory circular.

33–3 Turbine and Compressor Rotors Type Certification Substantiation Procedures (9–9–68).

Sets forth guidance and acceptable means, not the sole means, by which compliance may be shown with the turbine and compressor rotor substantiation requirements in FAR Part 33.

37–2 Test Procedures for Maximum Allowable Airspeed Indicators (12–9–68).

Provides guidance concerning test procedures which may be used in showing compliance with the standards in FAR 37.145 (TSO–C46a).

37–3 Radio Technical Commission for Aeronautics Document DO–138 (1–10–69).

This circular announces RTCA Document DO–138 and discusses how it may be used in connection with technical standard order authorizations.

39–1 Jig Fixtures; Replacement of Wing Attach Angles and Doublers on Douglas Model DC–3 Series Aircraft (8–1–63).

Describes methods of determining that jig fixtures meet the requirements of Airworthiness Directive 63–4–1.

39–3 Distribution of Airworthiness Directives (3–29–67).

Announces a new procedure for the distribution of airworthiness directives.

39–5 Distribution of Airworthiness Directives (10–3–67).

Announces the availability to the public of a subscription service for airworthiness directives.

43–1 Matching VHF Navigation Receiver Outputs With Display Indicators (8–2–65).

Alerts industry to the possibility of mismatching outputs, both guidance and flag alarm, of certain VHF navigation receivers when used with some types of display indicators causing the receiver to fail without providing a flag alarm.

43–2 Minimum Barometry for Calibration and Test of Atmospheric Pressure Instruments (9–10–65).

Sets forth guidance material which may be used to determine the adequacy of barometers used in the calibration of aircraft static instruments and presents

information concerning the general operation, calibration, and maintenance of such barometers.

43.9–1B Instruction for Completion of FAA Form 337 (6–27–66).

Provides instructions for completing revised FAA Form 337, Major Repair and Alteration (Airframe, Powerplant, Propeller, or Appliance).

43.11–1B Aircraft Use and Inspection Report (8–29–68).

Provides instructions for the completion of FAA Form 8320–3 (11–67), Aircraft Use and Inspection Report formerly FAA 2350.

43–202 Maintenance of Weather Radar Radomes (6–11–65).

Provides guidance material useful to repair facilities in the maintenance of weather radar radomes.

43–203A Altimeter and Static System Tests and Inspections (6–6–67).

Specifies acceptable methods for testing altimeter and static system. Also, provides general information on test equipment used and precautions to be taken.

Airmen

SUBJECT NO. 60

60–1 Know Your Aircraft (6–12–63).

Describes potential hazards associated with operation of unfamiliar aircraft and recommends good operating practices.

60–2E Annual Aviation Mechanic Safety Awards Program (6–20–68).

Provides details of the annual Aviation Mechanic Safety Awards Program which is a joint effort of FAA, The Flight Safety Foundation, and the aviation community.

60–4 Pilot's Spatial Disorientation (2–9–65).

Acquaints pilots flying under visual flight rules with the hazards of disorientation caused by the loss of reference with the natural horizon.

60–5 Advisory Information on Written Test Questions Missed (4–24–67).

Announces a new automated method of reporting written test results to airmen applicants. The applicant will be provided information concerning the subject matter areas in which one or more questions were answered incorrectly on the test.

60–6 FAA Approved Airplane Flight Manuals, Placards, Listings, Instrument Markings—Small Airplanes (12–13–68).

Alerts pilots to the regulatory requirements relating to the subject and provides information to aid pilots to comply with the provisions of FAR section 91.31.

61–1B Aircraft Type Ratings (12–14–67).

Lists the aircraft type ratings issued to pilots and advises the public of the designations used for the aircraft on which type ratings are issued.

61–5A Helicopter Pilot Written Test Guide—Private—Commercial (8–14–67).

Gives guidance to applicants preparing for the aeronautical knowledge requirements for a private or commercial pilot certificate with a helicopter rating.

61.15–1 Helicopter or Gyroplane Class Rating Requirement for Rotorcraft Pilots (1–15–63).

Calls the attention of certificated rotorcraft pilots to the fact that helicoptor or gyroplane class ratings are required for the operation of rotorcraft after 2–1–63.

61–19 Safety Hazard Associated with Simulated Instrument Flights (12–4–64).

Emphasizes the need for care in the use of any device restricting visibility while conducting simulated instrument flights that may also restrict the view of the safety pilot.

61–22A Pilot Flight Tests in Small Airplanes With Stability/Control Augmentation (3–16–66).

Rescinds the limitation published in AC 61–22 for pilot certificates issued on the basis of flight training and tests in airplane equipped with gyroscopic stability/control augmentation systems.

61–24 Student Pilot Certificate Endorsements for Solo Flight in Single-Place or Single-Control Aircraft (7–20–65).

Describes a suggested procedure for checking out student pilots for solo flights in single-place or single-control aircraft.

61–26 Flight Instructor Requalification Program and Increased Student Pilot Operating Requirements (9–23–65).

Informs the public of the procedures which will be used by FAA inspectors in implementing the Flight Instructor Certificate renewal, instructor supervision of student pilots, and other associated requirements instituted by FAR Amendment 61–18.

61–31 Gyroplane Pilot Examination Guide, Private and Commercial (2–9–66).

Outlines information basic to a gyroplane pilot, lists sources useful in acquiring this knowledge, and presents sample examination questions.

61–33 Gyroplane Flight Instructor Examination Guide (3–25–66).

Assists applicants who are preparing for the Flight Instructor Rotocraft Gyroplane Written Examination. Revised in 1966.

61–35A Gold Seal Flight Instructor Certificate (2–11–69).

Announces the issuance of gold seal certificates to persons with outstanding qualifications and performance records as flight instructors.

61–36 Use of Other Than U.S. Coast and Geodetic Survey Charts on Pilot Flight Tests (2–6–67).

Clarifies the requirement governing the use on pilot flight tests of en route and instrument approach charts prepared by other than the U.S. Coast and Geodetic Survey.

61–37 Correction to Koch Chart in AC 61–11 and AC 61–28 (2–14–67).

Informs holders of AC 61–11, Airplane Flight Instructor Examination Guide, (1965) and AC 61–28, Commercial Pilot Written Examination Guide (1966), of inaccuracies in the Koch Charts for Altitude and Temperature Effects which appear in these publications.

61–38 Rotorcraft Helicopter Written Test Guide (8–16–67).

Gives guidance to applicants preparing for the aeronautical knowledge requirement for a flight instructor certificate with a helicopter rating.

61–39 Flight Test Guide, Private and Commercial Pilot—Glider (8–28–67).

Assists applicants for private and commercial pilot flight tests in gliders.

61–41 Glider Flight Instructor Written Test Guide (11–7–67).

Outlines the scope of the basic aeronautical knowledge requirements for a glider flight instructor; acquaints the applicant with source material that may be used to acquire this basic knowledge; and presents a sample test with correct answers and explanations.

61–43 Glider Pilot Written Test Guide—Private and Commercial (11–30–67).

Outlines the scope of the basic aeronautical knowledge requirements for a glider pilot; acquaints the applicant with source material that may be used to acquire this basic knowledge; and presents a sample test with correct answers and explanations.

61–44 Valid Flight Instructor Certificates (11–30–67).

Alerts student pilots, flight instructors, and pilot school operators to the expiration of many flight instructor certificates.

61–45 Instrument Rating (Helicopter) Written Test Guide (1–24–68).

Assists applicants who are preparing for the helicopter instrument rating. Presents a study outline, study materials and a sample test with answers.

65–6A Change in Airframe and Powerplant Mechanic Tests (12–8–67).

Provides a new effective date for the changeover to a new format for the Airframe and Powerplant mechanic written, oral, and practical tests announced by the earlier circular.

65–8 1969 Aviation Maintenance Symposium-Advances in Aviation Maintenance Technology (5–14–69).

Announces the fifth annual aviation maintenance symposium to be held in Oklahoma City—December 9, 10, and 11, 1969.

65.33–1 List of Study References for the ATC Tower Operator Examination (5–25–66).

The title is self-explanatory.

65.95–2 Handbook and Study Guide for Aviation Mechanics' Inspection Authorization (5–3–67).

Gives guidance to persons conducting annual and progressive inspection and approving major repairs or alterations of aircraft. While the handbook is primarily intended for mechanics holding or preparing for an Inspection Authorization, it may be useful to aircraft manufacturers and certificated repair stations who have these privileges.

Airspace

SUBJECT NO. 70

70/7460–2 Proposed Construction or Alteration of Objects That May Affect the Navigable Airspace (4–5–68).

Alerts those persons proposing to erect or alter an object that may affect the navigable airspace of the requirement to submit a notice to the Administrator of the FAA.

70/7460–3 Petitioning the Administrator for Discretionary Review; Section 77.37, FAR (8–8–68).

Revises and updates information concerning the submission of petitions to the Administrator for review, extension, or revision of determinations issued by regional directors or their designees.

73–1 Establishment of Alert Areas (3–11–68).

Announces the establishment of alert areas and sets forth the procedures which FAA will follow in establishing such areas.

77–1 Objects Affecting Navigable Airspace (7–2–65).

Announces the availability of the revised Part 77 of the Federal Aviation Regulations (FAR), dated May 1, 1965. This revised Part 77 supersedes the edition dated December 12, 1962.

Air Traffic Control and General Operations

SUBJECT NO. 90

90–1A Civil Use of U.S. Government Produced Instrument Approach Charts (4–10–68).

Clarifies landing minimums requirements and revises instrument approach charts.

90–5 Coordination of Air Traffic Control Procedures and Criteria (6–13–63).

States Air Traffic Service policy respecting coordination of air traffic procedures and criteria with outside agencies and/or organizations.

90–8 Radio Identification of Student Pilots (8–15–63).

Encourages student pilots to identify themselves when communicating with FAA facilities.

90–10 Holding Pattern (3–1–64).

Advises pilots that revised IFR aircraft holding pattern procedures, implemented by FAA in January 1, 1962, will be the sole basis for providing protected airspace for holding patterns, beginning March 1, 1964.

90–11A Air Traffic Control Radio Frequency Assignment Plan (6–7–68).

Describes the civil air traffic control very high frequency assignment plan and the allocation of frequencies in the 118–136 MHz band.

90–12 Severe Weather Avoidance (4–15–64).

Provides information regarding air traffic control assistance in avoiding severe weather conditions.

90–14A Altitude—Temperature Effect on Aircraft Performance (1–26–68).

Introduces the Denalt Performance Computer and reemphasizes the hazardous effects density altitude can have on aircraft.

90–15 Pilot's Response to ATC Clearances and Instructions (7–2–64).

States Agency philosophy concerning expected pilot response to air traffic control clearances and instructions.

90–19 Use of Radar for the Provision of Air Traffic Control Services (10–29–64).

Advises the aviation community of FAA practice in the use of radar information to provide air traffic control services.

90–20 Weather Radar Radomes (11–12–64).

Highlights some important points to consider in the selection and maintenance of weather radar radomes.

90–22A Automatic Terminal Information Service (ATIS) (10–9–68).

Provides updated information concerning the operation of Automatic Terminal Information Service (ATIS).

90–23A Wake Turbulence (12–21–65).

Provides information on the subject of wake turbulence and suggests techniques that may help pilots avoid the hazards associated with wing tip vortex turbulence.

90–24 Service A Weather Teletypewriter Circuit Loading Adjustment (3–15–65).

Advises Service A weather teletypewriter system subscribers of a pending transfer of certain data from Area to Supplemental Circuits and provides lead time for obtaining extension service on the latter where necessary to continue receiving such data.

90–27 Operation of Pictorial Display/Course Line Computer Equipment in the National Airspace System (8–20–65).

Sets forth the advantages to be gained by the utilization of airborne Pictorial Display/Course Line Computer (PD/CLC) equipment in conjunction with VOR/DME/TACAN ground facilities.

90–28 Course Changes While Operating Under Instrument Flight Rules Below 18,000 Feet Mean Sea Level (9–2–65).

Reminds pilots making course changes that routings prescribed in air traffic control clearances must be adhered to as closely as possible in order that flight paths will remain within airway/route boundaries during en route and terminal flight operations.

90–30A Precision Approach Radar (PAR) Service (11–21–67).

Provides information concerning the provision of Precision Approach Radar (PAR) service at FAA operated air traffic control facilities.

90–31 Retention of Flight Service Station (FSS) Civil Flight Plans and Related Records (7–1–67).

Establishes new retention periods for flight plans, preflight briefing logs, visual flight rule flight progress strips, and related records with FSSs.

90–32 Radar Capabilities and Limitations (8–15–67).

Advises the aviation community of the inherent capabilities and limitations of radar systems and the effect of these factors on the service provided by air traffic control (ATC) facilities.

90–33 VFR Communications for General Aviation (11–20–67).

Describes VHF (118–136 MHz band) air/ground communications channel utilization for general aviation aircraft in the VFR environment and includes information on the use of channels in the private aircraft (122–123 MHz) band recently made available by the Federal Communications Commission (Docket 17177).

90–34 Accidents Resulting from Wheelbarrowing in Tricycle Gear Equipped Aircraft (2–27–68).

Explains "wheelbarrowing", the circumstances under which it is likely to occur, and recommended corrective action.

90–35 Frequency Discipline (5–17–68).

Reemphasizes the need for pilots to be constantly aware of the importance of practicing frequency discipline in normal conduct of operations.

90–36 The Use of Chaff as an In-Flight Emergency Signal (5–22–68).

Advises of the value and proper usage of chaff to alert radar controllers to the presence of an aircraft in distress which has a two-way radio failure.

90–37 Flight Operations Near Airports (6–19–68).

Emphasizes to pilots the necessity of adhering to good operating practices and procedures, particularly when operating at or near airports.

90–38 Use of Preferred IFR Routes (8–4–68).

Outlines the background, intent, and requested actions pertaining to the use of preferred IFR routes.

90–39 Identification of Civil Aircraft in Radio Communications (8–5–68).

Outlines an important change in the Federal Communications Commission (FCC) rules for the aviation services concerning the methods of identifying aircraft in radio transmissions.

90–40 Intersection Takeoffs (9–5–68).

Apprises pilots concerning procedures governing intersection takeoffs.

90–41 Standard Terminal Arrival Routes (9–6–68).

Describes a program for establishment and use of standard terminal arrival (STARS).

90–42 Traffic Advisory Practices at Nontower Airports (12–9–68).

This circular establishes, as good operating practices, procedures for pilots to exchange traffic information when operating to or from nontower airports.

90–43 Operations Reservations for High-Density Traffic Airports. (3–25–69).

Advises the aviation community of the means for all aircraft operators, except scheduled and supplemental air carriers and scheduled air taxis, to obtain a reservation to operate to and/or from designated high-density traffic airports.

90–44 Airport Ground Operations During Low Visibility Conditions (4–25–69).

Alerts the aviation community to potential problem areas which may exist on airport movement areas during periods of extremely low visibility.

91–3 Acrobatic Flight (9–30–63).

Sets safe operating practices for the conduct of acrobatic flight operations.

91–5 Waivers Part 91, Federal Aviation Regulations (2–27–64).

Provides information on submission of applications and issuance of waivers to FAR Part 91.

91–6 Water, Slush, and Snow on the Runway (1–21–65).

Provides background and guidelines concerning the operation of turbojet aircraft with water, slush, and/or snow on the runway.

91–7 Hazards Associated With In-Flight Use of "Visible-Fluid" Type Cigarette Lighters (3–16–65).

Discusses the potential hazards associated with in-flight use of "visible-fluid" type cigarette lighters.

91–8 Use of Oxygen by General Aviation Pilots/Passengers (5–16–65).

Provides general aviation personnel with information concerning the use of oxygen.

91–9 Potential Hazards Associated With Turbojet Ground Operations (6–19–65).

Alerts turbojet operators and flight crews to potential hazards involving turbojet operations at airports.

91–10A Suggestions for Use of ILS Minima by General Aviation Operators of Turbojet Airplanes (10–8–65).

Provides general aviation operators of turbojet airplanes with information on practices and procedures to be considered before utilizing the lowest published IFR minima prescribed by FAR Part 97 and provides information on pilot-in-command experience, initial and recurrent pilot proficiency, and airborne airplane equipment.

91–11 Periodic Inspection Reminder (8–10–65).

Provides the aviation community with a uniform visual reminder of the date a periodic inspection becomes due.

91–12 Required Inspection for Air Carrier Aircraft Reverting to General Operation Under FAR 91 (5–24–66).

Describes acceptable methods for complying with the required inspections established by FAR Part 91.

91–13 Cold Weather Operation of Aircraft (11–16–66).

Emphasizes factors to be considered for the effective preparation, maintenance, and operation of aircraft in cold weather.

91–14 Altimeter Setting Sources (2–15–67).

Provides the aviation public, industry, and FAA field personnel with guidelines for setting up reliable altimeter setting sources.

91–16 Category II Operations—General Aviation Airplanes (8–7–67).

Sets forth acceptable means by which Category II operations may be approved in accordance with FAR Parts 23, 25, 61, 91, 97, and 135.

91–17 The Use of View Limiting Devices on Aircraft (2–20–68).

Alerts pilots to the continuing need to make judicious and cautious use of all view limiting devices on aircraft.

91–18 Course Needle Oscillations on VHF Omnidirectional Range (VOR) Receivers (12–6–68).

Advises all operators of aircraft equipped with VHF omnidirectional range (VOR) receivers regarding course needle oscillations.

91–19 Emergency Locator Beacons—Crash, Survival, Personnel (3–17–69).

Provides information concerning recent activities relating to emergency locator radio beacons. Describes for users the means by which such signals will be monitored or heard.

91–20 Inspection Schedule—for Beech Model B–99 (3–14–69).

Provides information for use by persons planning to develop an inspection schedule for Beech Model B–99.

91.29–1 Special Structural Inspections (1–8–68).

Discusses occurrences which may cause structural damage affecting the airworthiness of aircraft.

91.83–1 Canceling or Closing Flight Plans (3–12–64).

Outlines the need for canceling or closing flight plans promptly to avoid costly search and rescue operations.

91.83–2 IFR Flight Plan Route Information (2–16–66).

Clarifies the air traffic control needs for the filing of route information in an IFR (Instrument Flight Rules) flight plan.

95–1 Airway and Route Obstruction Clearance (6–17–65).

Advises all interested persons of the airspace areas within which obstruction clearance is considered in the establishment of Minimum En Route Instrument Altitudes (MEAs) for publication in FAR Part 95.

99.11–1 Flight Plan Requirements: Coastal or Domestic ADIZ (11–15–63).

Provides recommended flight plan filing procedures for operation within or into an Air Defense Identification Zone (ADIZ).

99.27–1 Flight Plan Tolerances for Air Defense Identification Zones (9–30–63).

Provides recommended flight plan tolerances for operations within or into the ADIZ.

101–1 Waivers of Part 101, Federal Aviation Regulations (1–13–64).

Provides information on submission of applications and issuances of waivers to FAR Part 101.

103–1 Hazard Associated With Sublimation of Solid Carbon Dioxide (Dry Ice) Aboard Aircraft (12–16–63).

Discusses potential hazards of dry ice and gives precautionary measures.

105–2 Sport Parachute Jumping (9–6–68).

Provides suggestions to improve sport parachuting safety; information to assist parachutists in complying with FAR Part 105; and a list of aircraft which may be operated with one cabin door removed, including the procedures for obtaining FAA authorization for door removal.

Air Carrier and Commercial Operators and Helicopters

SUBJECT NO. 120

120–1A Reporting Requirements of Air Carriers, Commercial Operators, and Travel Clubs (4–24–69).

Advises of the mechanical reliability reporting requirements contained in FAR Parts 121 and 127 and the accident and incident reporting requirements of NTSB Part 430, Safety Investigation Regulations.

120–2A Precautionary Propeller Feathering To Prevent Runaway Propellers (8–20–63).

Emphasizes the need for prompt feathering when there is an indication of internal engine failure.

120–4B Criteria for Turbojet Landing Weather Minima—Air Carriers and Commercial Operators of Large Aircraft (6–14–68).

Sets forth the criteria for approval of landing weather minima for turbojet

aircraft below ¾-mile visibility or RVR 4,000 but above Category II minima.

120–5 High Altitude Operations in Areas of Turbulence (8–26–63).

Recommends procedures for use by jet pilots when penetrating areas of severe turbulence.

120–7 Minimum Altitudes for Conducting Certain Emergency Flight Training Maneuvers and Procedures (9–4–63).

Recommends minimum altitudes for conducting simulated emergency flight training maneuvers be established.

120–12 Private Carriage Versus Common Carriage by Commercial Operators Using Large Aircraft (6–24–64).

Provides guidelines for determining whether current or proposed transportation operations by air constitute private or common carriage.

120–13 Jet Transport Aircraft Attitude Instrument Systems (6–26–64).

Provides information about the characteristics of some attitude instrument systems presently installed in some jet transport aircraft.

120–14 Air Taxi Operators and Commercial Operators of Small Aircraft (7–6–64).

Clarifies the requirements of Part 135 of the FAR's and provides additional information not readily available.

120–16 Continuous Airworthiness Program (10–19–64).

Provides air carriers and commercial operators with guidance and information pertinent to the regulatory amendments concerned with requirements for air carrier continuous airworthiness program.

120–17 Handbook for Maintenance Control by Reliability Methods (12–31–64).

Provides information and guidance material which may be used to design or develop maintenance reliability programs which include a standard for determining time limitations.

120–17 CH 1 (6–24–66).

120–17 CH 2 (5–6–68).

120–18 Preservation of Maintenance Records (5–10–65).

Provides information and guidance relative to the microfilming of maintenance records.

120–20 Criteria for Approval of Category II Landing Weather Minima (6–6–66).

Sets forth criteria, guidelines, and procedures which provide an acceptable basis for the approval of Category II ILS minima and the installation approval of the associated airborne systems.

120–20 CH 1 (1–12–68).

Transmits a revised Appendix 3 of the Advisory Circular.

120–20 CH 2 (5–21–68).

Clarifies use of minimum glide slope threshold crossing height in Par. 11, Appendix 3.

120–21 Aircraft Maintenance Time Limitations (6–24–66).

Provides method and procedures for the initial establishment and revision of time limitations on inspections, checks, maintenance or overhaul.

120–24A Establishment and Revision of Aircraft Engine Overhaul and Inspection Periods (2–25–69).

Describes methods and procedures used by the FAA in the establishment and revision of aircraft engine overhaul periods.

120–26 Civil Aircraft Operator Designators (1–25–68).

States the criteria and the procedures for the assignment of a designator and a corresponding air/ground call sign to civil aircraft operators engaged in domestic services on a repetitive basis.

120–27 Aircraft Weight and Balance Control (10–15–68).

Provides a method and procedures for weight and balance control.

121–1 Standard Maintenance Specifications Handbook (12–15–62).

Consolidated reprint 5–15–69, includes Changes 1 through 18.

Provides procedures acceptable to FAA which may be used by operators when establishing inspection intervals and overhaul times.

121–3H Maintenance Review Board Reports (2–7–68).

Adds the Boeing 727, Supplement No. 1; Boeing 737; Fairchild-Hiller FH–227; and Fairchild-Hiller FH–227, Revision 1 to the list of available Maintenance Review Board Reports.

121–6 Portable Battery-Powered Megaphones (1–5–66).

Sets forth an acceptable means for complying with rules (applicable to various persons operating under Part 121 of the Federal Aviation Regulations) that prescribe the installation of approved megaphones.

121–7 Use of Seat Belts by Passengers and Flight Attendants To Prevent Injuries (7–14–66).

Concerned with the prevention of injury due to air turbulence.

121–8 Additional Airport Aids—Runway Marking and Lighting—Air Carrier Turbojet Operations (9–19–66).

Emphasizes the importance of runway markings and approach slope guidance in assisting turbojet airplane pilots to touchdown at the proper runway point.

121–9 Maintenance of Evacuation Slides (9–22–66).

Provides information and guidance to air carriers and commercial operators in the maintenance of emergency evacuation slides.

121–10 Doppler Radar Navigational Aids (3–23–67).

States an acceptable means, not the only means, of compliance with the referenced sections of the FAR as they apply to persons operating under Part 121 who desire approval of Doppler RADAR navigation systems for use in their operations.

121–10 CH 1 (1–10–68).

Transmits a page change to the subject advisory circular.

121–11 Approval of Inertial Navigation Systems (INS) (3–23–67).

States an acceptable means, not the only means, of compliance with the referenced sections of the FAR as they apply to persons operating under Part 121 who desire approval of inertial navigation systems as the sole means of navigation in their operations.

121–11 CH 1 (1–10–68).

Transmits a page change to the subject advisory circular.

121–12 Wet or Slippery Runways (8–17–67).

Provides uniform guidelines in the application of the "wet runway" rule by certificate holders operating under FAR 121 (8–17–67).

121.195(d)–1 Alternate Operational Landing Distances for Wet Runways; Turbojet Powered Transport Category Airplanes (11–19–65).

Sets forth an acceptable means, but not the only means, by which the alternate provision of section 121.195(d) may be met.

123–1 Air Travel Clubs (10–17–68).

Sets forth guidelines and procedures to assist air travel clubs using large aircraft in meeting safety requirements of FAR Part 123.

135.155–1 Alternate Static Source for Altimeters and Airspeed and Vertical Speed Indicators (2–16–65).

Sets forth an acceptable means of compliance with provisions in FAR Part 135 and Part 23 dealing with alternate static sources.

135–1 Air Taxi Aircraft Weight and Balance Control (9–17–68).

Provides a method and procedures for developing a weight and balance control system for small aircraft operating in the air taxi fleet under FAR Part 135.

137–1 Agricultural Aircraft Operations (11–29–65).

Explains and clarifies the requirements of FAR Part 137 and provides additional information, not regulatory in nature, which will assist interested persons in understanding the operating privileges and limitations of this part.

Schools and Other Certificated Agencies

SUBJECT NO. 140

140–1D Consolidated Listing of FAA Certificated Repair Stations (7–1–68).

Gives the name, address, certificate number, and ratings of repair stations.

140–2D List of Certificated Pilot Flight and Ground Schools (3–13–68).

Lists FAA certificated schools as of March 1968.

140–3A Approval of Pilot Training Courses Under Subpart D of Part 141 of the FAR (6–12–68).

The title is self-explanatory.

140–4 Use of Audio-Visual Courses in Approved Pilot Ground Schools Certificated Under Part 141 (8–7–68).

Informs operators of certificated pilot schools on the use of audio-visual training aids for instruction in approved ground school courses conducted under the FARs.

145.101–1A Application for Air Agency Certificate—Manufacturer's Maintenance Facility (3–10–69).

Explains how to obtain a repair station certificate.

147–2E Federal Aviation Administration Certificated Mechanic School Directory (1–15–69).

Provides a revised listing of all FAA certificated mechanic schools as of January 15, 1969.

149–2D Listing of Federal Aviation Administration Certificated Parachute Lofts (8–1–68).

Provides a revised list of all FAA certificated parachute lofts.

Airports

SUBJECT NO. 150

DEFENSE READINESS PROGRAM

150/1930–1 Radiological Decontamination of Civil Airports (8–19–66).

Offers guidance in preattack preparations, emergency action and decontamination methods.

AIRPORT PLANNING

150/5040–1A Announcement of Report—Aviation Demand and Airport Facility Requirement Forecasts for Large Air Transportation Hubs Through 1980 (3–27–69).

Announces the availability of the new report and where to obtain it.

150/5050–2 Compatible Land Use Planning in the Vicinity of Airports (4–13–67).

Advises Federal Aviation Administration personnel, local government officials and the public of the availability of the following two reports prepared under the auspices of the FAA by the firm of Transportation Consultants, Inc. *Compatible Land Use Planning On and Around Airports, and Aids Available for Compatible Land Use Planning Around Airports.*

150/5050–3 Announcement of a Report Entitled "Planning the State Airport System" (1–31–69).

Advises of the availability of the report and how to obtain it.

150/5060–1A Airport Capacity Criteria Used in Preparing the National Airport Plan (7–8–68).

Presents the method used by the Federal Aviation Administration for determining when additional runways, taxiways, and aprons should be recommended in the National Airport Plan. The material is also useful to sponsors and engineers in developing Airport Layout Plans and for determining when additional airport pavement facilities should be provided to increase aircraft accommodation capacity at airports.

150/5060–2 Airport Site Selection (7–19–67).

Recommends procedures and provides guidance for analyzing potential airport sites.

150/5070–1 Rapid Transit Service for Metropolitan Airports (8–26–65).

Informs airport officials of a Federal assistance program for rapid transit.

150/5070–2 Planning the Metropolitan Airport (9–17–65). (Consolidated reprint 6–30–66 includes change 1.)

Provides guidance and methodology for planning the metropolitan airport system as a part of the comprehensive metropolitan planning program.

150/5070–3 Planning the Airport Industrial Park (9–30–65).

Provides guidance to communities, airport boards, and industrial developers for the planning and development of Airport Industrial Parks.

150/5070–4 Planning for Rapid Urbanization Around Major Metropolitan Airports (3–31–66).

Alerts planning agencies to the need for developing appropriate planning programs to guide rapid urbanization in the vicinity of major metropolitan airports and suggests procedures for such planning programs.

150/5090–1 Regional Air Carrier Airport Planning (2–2–67).

This circular: (1) Informs local and State governments, airport operators, and area planners of a Federal policy concerning the development of a single airport to serve two or more cities and their environs; and (2) provides such planners with guidance for evaluating the feasibility of establishing such regional airports.

FEDERAL-AID AIRPORT PROGRAMS

150/5100–2 Priorities Under the Federal-aid Airport Program for Fiscal Year 1967 (5–9–66).

Provides information of priorities used in the allocation of Federal funds for airport development under the Federal-aid Airport Program.

150/5100–3A Federal-aid Airport Program-Procedures Guide for Sponsors (9–20–68).

Provides guidance to public agencies that sponsor or propose to sponsor projects under the Federal-aid Airport Program (FAAP) authorized by the Federal Airport Act.

150/5100–4 Airport Advance Planning (1–12–68).

Provides an explanation of the FAA advance planning program.

150/5100–5 Land Acquisition in the Federal-Aid Airport Program (1–30–69).

Provides general information to sponsors of airport development projects under the Federal-aid Airport Program on the eligibility of land acquisition and extent of Federal participation in land acquisition costs.

SURPLUS AIRPORT PROPERTY CONVEYANCE PROGRAMS

150/5150–2 Federal Surplus Personal Property for Public Airport Purposes (6–27–68).

Outlines policies and procedures for State and local agencies applying for and acquiring surplus Federal personal property for public airport purposes.

150/5150–2 CH 1 (4–22–69).

Revises the flow of copies of the SF 123 to provide for more accurate review of donated property.

AIRPORT COMPLIANCE PROGRAM

150/5190–1 Minimum Standards for Commercial Aeronautical Activities on Public Airports (8–18–66).

Gives to owners of public airports information helpful in the development and application of minimum standards for commercial aeronautical activities.

150/5190–2 Exclusive Rights at Airports (9–2–66).

Provides basic information and guidance on FAA policy concerning exclusive rights at public airports on which Federal funds, administered by the FAA, have been expended.

150/5190–3 Model Airport Zoning Ordinance (1–16–67).

Provides a guide to be used in preparing airport zoning ordinances. This model will require modification and revision to suit circumstances and fulfill State and local law.

AIRPORT SAFETY—GENERAL

150/5200–1 Bird Hazards to Aviation (3–1–65).

Discusses certain steps that can be taken toward reducing or solving the bird strike problem on and near airports.

150/5200–2 Bird Strike/Incident Report Form (11–27–65).

Informs military and civil aviation organizations that FAA Form 3830, "Bird

Strike/Incident Report Form," is available for use in reporting bird hazards and accidents/incidents to aircraft.

150/5200–3 Bird Hazards to Aircraft (10–7–66).

Transmits the latest published information concerning the reduction of bird strikes on aircraft.

150/5200–4 Foaming of Runways (12–21–66).

Discusses runway foaming and suggests procedures for providing this service.

150/5200–5 Considerations for the Improvement of Airport Safety (2–2–67).

Emphasizes that, in the interest of accident/incident prevention, airport management should conduct self-evaluations and operational safety inspections. An exchange of information and suggestions for the improvement of airport safety is also suggested.

150/5200–6A Security of Aircraft at Airports (6–28–68).

Directs attention to the problem of pilferage from aircraft on airports and suggests action to reduce pilferage and the hazards that may result therefrom.

150/5200–7 Safety on Airport During Maintenance of Runway Lighting (1–24–68).

Points the possibility of an accident occurring to airport employees caused by electrocution.

150/5200–8 Use of Chemical Controls to Repel Flocks of Birds at Airports (5–2–68).

Acquaints airport operators with new recommendations on the use of chemical methods for dispersing flocks of birds.

150/5200–9 Bird Reactions and Scaring Devices (6–26–68).

Transmits a report on bird species and their responses and reactions to scaring devices.

150/5200–10 Airport Emergency Operations Planning (7–26–68).

Provides guidance to airport management and disaster control personnel in the preparation of plans for emergency actions at civil airports.

150/5200–11 Airport Terminals and the Physically Handicapped (11–27–68).

Discusses the problems of the physically handicapped air traveler and suggests features that can be incorporated in modification or new construction of airport terminal buildings.

150/5210–2 Airport Emergency Medical Facilities and Services (9–3–64).

Provides information and advice so that airports may take specific voluntary preplanning actions to assure at least minimum first-aid and medical readiness appropriate to the size of the airport in terms of permanent and transient personnel.

150/5210–4 FAA Aircraft Fire and Rescue Training Film, "Blanket for Survival" (10–27–65).

Provides information on the purpose, content, and availability of the subject training film.

150/5210–5 Painting, Marking, and Lighting of Vehicles Used on an Airport (8–31–66).

Makes recommendations concerning safety, efficiency, and uniformity in the interest of vehicles used on the aircraft operational area of an airport.

150/5210–6 Aircraft Fire and Rescue Facilities and Extinguishing Agents (9–7–66).

Furnishes guidance for estimating the facilities necessary to provide adequate aircraft fire and rescue service at civil airports.

150/5210–7 Aircraft Fire and Rescue Communications (10–28–66).

Provides airport management with information helpful in the establishment of communication and alarm facilities. Such facilities alert and guide those personnel who must deal with aircraft ground emergencies.

150/5210–8 Aircraft Firefighting and Rescue Personnel and Personnel Clothing (1–13–67).

Provides guidance concerning the manning of aircraft fire and rescue trucks, the physical qualifications that personnel assigned to these trucks should meet, and the protective clothing with which they should be equipped.

150/5210–9 Airport Fire Department Operating Procedures During Periods of Low Visibility (10–27–67).

Suggests training criteria which airport management may use in developing minimum response times for aircraft fire and rescue trucks during periods of low visibility.

150/5210–10 Airport Fire and Rescue Equipment Building Guide (12–7–67).

The title is self-explanatory.

150/5210–11 Response to Aircraft Emergencies (4–15–69).

Informs airport operators and others of an existing need for reducing aircraft firefighting response time, and outlines a uniform response time goal of 2 minutes within aircraft operational areas on airports.

150/5220–1 Guide Specification for a Light-Weight Airport Fire and Rescue Truck (7–24–64).

Describes a vehicle with performance capabilities considered as minimum for an acceptable light rescue truck.

150/5220–2 Guide Specification for 1,800-Gallon Aircraft Fire and Rescue Truck (7–24–64).

Describes a vehicle possessing the minimum performance capabilities recommended for an acceptable aircraft fire and rescue truck.

150/5220–3 Guide Specification for 1,000-Gallon Aircraft Fire and Rescue Truck (3–9–67).

The title is self-explanatory.

150/5220–4 Water Supply Systems for Aircraft Fire and Rescue Protection (12–7–67).

The title is self-explanatory.

150/5220–5 Guide Specification for a Combination Foam and Dry Chemical Aircraft Fire and Rescue Truck (12–29–67).

Specification requirements developed by FAA to assist airport management in developing local procurement specifications for fire and rescue trucks.

150/5220–6 Guide Specification for 1,000-Gallon Tank Truck (4–10–68).

Assists airport management in the development of local procurement specifications.

150/5220–7 Guide Specification for 2,500-Gallon Aircraft Fire and Rescue Truck (8–30–68).

Guide Specification developed to assist airport management in the development of local procurement specifications.

150/5230–1 Suggestions for Airport Safety Self-Inspection (3–30–64).

Summarizes the functional statements, procedures, forms, and schedules on safety self-inspection now in use at many U.S. civil airports.

150/5230–2 Guide Specification for Fire Extinguishing System (Foam) for Heliports (4–14–65).

Contains guidance material which may be used by airport management in the development of local procurement specifications.

150/5230–3 Fire Prevention During Aircraft Fueling Operations (4–8–69).

This advisory circular provides information on fire preventative measures which aircraft servicing personnel should observe during fueling operations.

CIVIL AIRPORTS EMERGENCY PREPAREDNESS

150/5240–1A Airport Disaster Control Guide (10–31–67).

Acts as a guide to reducing or avoiding problems imposed by enemy nuclear attack.

DESIGN, CONSTRUCTION, AND MAINTENANCE—GENERAL

150/5300–2 Airport Design Requirements for Terminal Navigational Aids (3–30–64).

Provides information regarding location, functions, and citing requirements of air navigation aids on and in the immediate vicinity of airports.

150/5300–3 Adaptation of TSO–N18 Criterion to Clearways and Stopways (10–18–64).

Sets forth standards recommended by the FAA for guidance of the public for

the adaptation of TSO–N18 criterion to clearways and stopways.

150/5300–5 Airport Reference Point (9–26–68).

Defines and presents the method for calculating an airport reference point.

150/5310–2 Airport Planning and Airport Layout Plans (9–19–68).

Contains guidance material for airport planning and preparation of airport layout plans. It applies to any airport. It is also used as a basis for determining the acceptability of airport layout plans prepared or revised with Federal cost participation under the Federal-aid Airport Program.

150/5310–3 FAA Order 5310.2, Relocating Thresholds Due to Obstructions at Existing Runways (5–27–68).

Announces the issuance of instructions to FAA field personnel on the displacement or relocation of thresholds.

150/5320–6A Airport Paving (5–9–67).

Provides data for the design and construction of pavements at civil airports.

150/5320–6A CH 1 (6–11–68).

Transmits page changes and adds new chapter 6 to basic AC.

150/5325–2A Airport Surface Areas Gradient Standards (5–12–66).

Sets forth standards recommended by FAA for guidance of the public in establishing the gradient of airport surface areas used for landing, takeoff, and other aircraft ground movement.

150/5325–3 Background Information on the Aircraft Performance Curves for Large Airplanes (1–26–65).

Provides airport designers with information on aircraft performance curves for design which will assist them in an objective interpretation of the data used for runway length determination.

150/5325–3 CH 1 (5–12–66).

Transmits a revision to the effective runway gradient standards.

150/5325–4 Runway Length Requirements for Airport Design (4–5–65).

Presents aircraft performance curves and sets forth standards for the determination of runway lengths to be provided at airports. The use of these standards is required for project activity under the Federal-aid Airport Program when a specific critical aircraft is considered as the basis for the design of a runway.

150/5325–4 CH 1 (8–5–65).

Provides amended information for the basic advisory circular and includes aircraft performance curves for the BAC 1–11.

150/5325–4 CH 2 (9–21–65).

Transmits aircraft performance curves for the Boeing 707–300C and the Fairchild F–27 and F–27B.

150/5325–4 CH 3 (4–25–66).

Transmits aircraft performance curves for the Douglas DC–8–55, DC–8F–55, and DC–9–10 Series, the Fairchild F–27J, and the Nord 262.

150/5325–4 CH 4 (5–12–66).

Transmits a revision to the effective runway gradient standards.

150/5325–4 CH 5 (7–13–66).

Transmits aircraft performance curves for the Douglas DC–9–10 Series equipped with Pratt & Whitney JT8D–1 Engines.

150/5325–4 CH 6 (12–8–66).

It is recommended that turbojet powered aircraft use more runway length when landing under wet or slippery, rather than under dry conditions. This change furnishes a basis for estimating the additional recommended length.

150/5325–4 CH 7 (2–7–67).

Presents designs curves for landing and takeoff requirements of airplanes in common use in the civil fleet. Also presented are instructions on the use of these design curves and a discussion of the factors considered in their development.

150/5325–4 CH 8 (11–8–67).

Transmits aircraft performance curves for the Boeing 747, Convair 640 (340D or 440D), and Douglas DC–9–30 Series.

150/5325–5A Aircraft Data (1–12–68).

Presents a listing of principal dimensions of aircraft affecting airport design for guidance in aircraft development.

150/5325–6 Effects of Jet Blast (4–15–65).

Presents the criteria for treatment of jet blast effects which are acceptable in accomplishing a project meeting the eligibility requirements of the Federal-aid Airport Program.

150/5325–7 Is Your Airport Ready for the Boeing 747 (1–23–68).

Presents a preliminary condensed survey of today's airport design criteria and their suitability to the presently known characteristics of the Boeing 747 airplane.

150/5330–2A Runway/Taxiway Widths and Clearances for Airline Airports (7–26–68).

Presents the Federal Aviation Administration recommendations for landing strip, runway, and taxiway widths and clearances at airports served by certificated air carriers.

150/5330–3 Wind Effect on Runway Orientation (5–5–66).

Provides guidance for evaluating wind conditions and determining their effect on the orientation of runways.

150/5335–1 Airport Taxiways (1–28–65).

Provides the criteria for airport taxiways which are acceptable in accomplishing a project meeting the eligibility requirements of the Federal-aid Airport Program.

150/5335–1 CH 1 (11–15–66).

Taxiways designed for two- and three-engine jet powered air carrier airplanes may have a minimum width of 60 feet. This change provides guidance for the design of such taxiway design widths.

150/5335–2 Airport Aprons (1–27–65).

Provides the criteria for airport aprons which are acceptable in accomplishing a project meeting the eligibility requirements of the Federal-aid Airport Program.

150/5340–1B Marking of Serviceable Runways and Taxiways (4–2–69).

Sets forth standards and practices for the guidance of the public in marking and remarking serviceable runways and taxiways. Required for FAAP.

150/5340–4A Installation Details for Runway Centerline and Touchdown Zone Lighting Systems (8–4–66).

Describes standards for the design and installation of runway centerline and touchdown zone lighting systems.

150/5340–5 Segmented Circle Airport Marker System (8–1–63).

Recommends an airport marking system of pilot aids and traffic control devices. Required for FAAP project activity.

150/5340–7A Marking and Lighting of Deceptive, Closed, and Hazardous Areas on Airports (1–10–68).

Describes standards for marking deceptive, closed, and hazardous areas on airports.

150/5340–8 Airport 51-foot Tubular Beacon Tower (6–11–64).

Provides design and installation details on the subject tower.

150/5340–9 Prefabricated Metal Housing for Electrical Equipment (8–18–64).

Provides design and installation details on the subject metal housing.

150/5340–13A High Intensity Runway Lighting System (4–14–67).

Provides corrected curves for estimating loads in high intensity series circuits.

150/5340–14A Economy Approach Lighting Aids (3–7–67).

Describes standards for the design, installation, and maintenance of economy approach lighting aids.

150/5340–15A Taxiway Edge Lighting System (11–1–67).

Describes standards for the design, installation, and maintenance of a taxiway edge lighting system.

150/5340–15A CH 1 (4–2–68).

Transmits change to basic AC.

150/5340–16A Medium Intensity Runway Lighting System (12–19–67).

Describes standards for the design, installation, and maintenance of a medium intensity runway lighting system.

150/5340–17 Standby Power for Non-FAA Airport Lighting Systems (1–25–68).

Describes standards acceptable for the design, installation, and maintenance of standby power for nonagency owned airport visual aids associated with the National Airspace System.

150/5340–18 Taxiway Guidance System (9–27–68).

Describes the recommended standards for design, installation, and maintenance of a taxiway guidance sign system.

150/5340–19 Taxiway Centerline Lighting System (11–14–68).

Describes the recommended standards for design, installation, and maintenance of a taxiway centerline lighting system.

150/5340–20 Installation Details and Maintenance Standards for Reflective Markers for Airport Runway and Taxiway Centerlines (2–17–69).

Describes standards for the installation and maintenance of reflective markers for airport runway and taxiway centerlines.

150/5345–1B Approved Airport Lighting Equipment (10–30–68).

Contains lists of approved airport lighting equipment and manufacturers qualified to supply such equipment.

150/5345–2 Specification for L–810 Obstruction Light (11–4–63).

Required for FAAP project activity.

150/5345–2 CH 1 (10–28–66).

Transmits page changes to the subject advisory circular. This change provides for a new Alloy 360 in the die casting process.

150/5345–3A Specification for L–821 Airport Lighting Panel for Remote Control of Airport Lighting (10–20–67).

Required for FAAP project activity.

150/5345–3A CH 1 (6–11–68).

Corrects case dimensions for the size 4 panel and other page changes.

150/5345–4 Specification for L–289 Internally Lighted Airport Taxi Guidance Sign (10–15–63).

Required for FAAP project activity.

150/5345–4 CH 1 (10–28–66).

Transmits page changes to the subject advisory circular. This change provides for a new Alloy 360 in the die casting process.

150/5345–5 Specification for L–847 Circuit Selector Switch, 5000 Volt 20 Ampere (9–3–63).

Required for FAAP project activity.

150/5345–6 Specification for L–809 Airport Light Base and Transformer Housing (9–3–63).

Required for FAAP project activity.

150/5345–7 Specification for L–824 Underground Electrical Cables for Airport Lighting Circuits (11–4–63).

Required for FAAP project activity.

150/5345–9B Specification for L–819 Fixed Focus Bidirectional High Intensity Runway Lights (6–27–67).

Describes the subject specification requirements.

150/5345–10B Specification for L–828 Constant Current Regulator With Stepless Brightness Control (4–8–68).

Required for FAAP project activity.

150/5345–11 Specification for L–812 Static Indoor Type Constant Current Regulator Assembly, 4 Kw and 7½ Kw, With Brightness Control for Remote Operation (3–2–64).

Required for FAAP project activity.

150/5345–12A Specification for L–801 Beacon (5–12–67).

Describes the subject specification requirements.

150/5345–13 Specification for L–841 Auxiliary Relay Cabinet Assembly for Pilot Control of Airport Lighting Circuits (1–6–64).

Required for FAAP project activity.

150/5345–14 Specification for L–827 "A" Frame Hinged Support for 12-Foot Wind Cone (2–13–64).

Required for FAAP project activity.

150/5345–14 CH 1 (10–28–66).

Transmits page changes to the subject advisory circular. This change provides for a new Alloy 360 in the die casting process.

150/5345–15 Specification for L–842 Airport Centerline Light (1–6–64).

Required for FAAP project activity.

150/5345–16 Specification for L–843 Airport In-Runway Touchdown Zone Light (1–20–64).

Required for FAAP project activity.

150/5345–17 Specification for L–845 Semiflush Inset Prismatic Airport Light (3–3–64).

Describes the subject specification requirements.

150/5345–18 Specification for L–811 Static Indoor Type Constant Current Regulator Assembly, 4 Kw; With Brightness Control and Runway Selection for Direct Operation (3–3–64).

Required for FAAP project activity.

150/5345–18 CH 1 (5–28–64).

Advises that a detail requirement is not applicable to the circular.

150/5345–19 Specification for L–838 Semiflush Prismatic Airport Light (5–11–64).

Describes the subject specification requirements.

150/5345–20 Specification for L–802 Runway and Strip Light (6–24–64).

Describes the subject specification requirements.

150/5345–20 CH 1 (8–31–64).

Provides amended information for the basic advisory circular.

150/5345–20 CH 2 (1–14–66).

Provides new dimensions for the thickness of the metal stake and an organizational change.

150/5345–20 CH 3 (10–28–66).

Transmits page changes to the subject advisory circular. This change provides for a new Alloy 360 in the die casting process.

150/5345–21 Specification for L–813 Static Indoor Type Constant Current Regulator Assembly; 4 Kw and 7½ Kw; for Remote Operation of Taxiway Lights (7–28–64).

Describes the subject specification requirements.

150/5345–22 Specification for L–834 Individual Lamp Series-to-Series Type Insulating Transformer for 5,000 Volt Series Circuit (10–8–64).

Describes the subject specification requirements.

150/5345–23 Specification for L–822 Taxiway Edge Light (10–13–64).

Describes the subject specification requirements.

150/5345–23 CH 1 (1–14–66).

Provides new dimensions for the thickness of the metal stake and an organizational change.

150/5345–23 CH 2 (10–28–66).

Transmits page changes to the subject advisory circular. This change provides for a new Alloy 360 in the die casting process.

150/5345–24 Specification for L–849 Condenser Discharge Type Flashing Light (6–30–65).

Describes the subject specification requirements for a condenser discharge type flashing light.

150/5345–24 CH 1 (6–14–66).

Deletes a detail requirement.

150/5345–25 Specification for L–848 Medium Intensity Approach Light Bar Assembly (6–30–65).

Describes the subject specification requirements for a medium intensity approach light bar assembly.

150/5345–26 Specification for L–823 Plug and Receptacle, Cable Connectors (10–5–64).

Describes the subject specification requirements.

150/5345–27 Specification for L–807 8-Foot Illuminated Wind Cone (2–10–65).

Describes the subject specification requirements for an illuminated wind cone for the guidance of the public. Required for FAAP project activity.

150/5345–27 CH 1 (10–28–66).

Transmits page changes to the subject advisory circular. This change provides for a new Alloy 360 in the die casting process.

150/5345–28 Specification for L–851 Abbreviated Visual Approach Slope Indicator System (10–28–66).

Describes the subject specification requirements for abbreviated visual approach slope indicator system (AVASI) equipment.

150/5345–29 FAA Specification L–852, Light Assembly, Airport Taxiway Centerline (3–18–68).

Describes, for public guidance, FAA Specification L–852 which establishes the performance requirements and pertinent construction details for bidirectional semiflush inset light assemblies for lighting airport taxiway centerlines.

150/5345–30A Specification for L–846 Electrical Wire for Lighting Circuits To Be Installed in Airport Pavements (2–3–67).

Describes, for the guidance of the public, subject specification requirements for electrical wire.

150/5345–31 Specification for L–833 Individual Lamp Series-to-Series Type Insulating Transformer for 600 Volt or 3,000 Volt Series Circuits (12–3–64).

Describes the subject specification requirements.

150/5345–32 Specification for L–837 Large-Size Light Base and Transformer Housing (1–13–65).

Describes the subject specification requirements.

150/5345–33 Specification for L–844 Individual Lamp Series-to-Series Type Insulating Transformer for 5000 Volt Series Circuit 20/6.6 Amperes 200 Watt (1–13–65).

Describes the subject specification requirements.

150/5345–34 Specification for L–839 Individual Lamp Series-to-Series Type Insulating Transformer for 5000 Volt Series Circuit 6.6/20 Amperes 300 Watt (1–13–65).

Describes the subject specification requirements.

150/5345–35 Specification for L–816 Circuit Selector Cabinet Assembly for 600 Volt Series Circuits (1–28–65).

Describes the subject specification requirements.

150/5345–36 Specification for L–808 Lighted Wind Tee (2–3–65).

Describes the subject specification requirements.

150/5345–37B FAA Specification L–850, Light Assembly Airport Runway Centerline and Touchdown Zone (1–8–68).

Revises subject light assembly.

150/5345–38 Changes to Airport Lighting Equipment (3–23–67).

The title is self-explanatory.

150/5345–39 FAA Specification L–853, Runway and Taxiway Centerline Reflective Markers (1–10–69).

Describes specification requirements for L–853 Runway and Taxiway reflective markers for guidance of the public.

150/5345–40 Specification for L–854 Radio Controls (3–21–69).

Describes specification requirements for guidance of the public.

150/5355–1 Diagrammatic Maps and Location Signs at Airports (3–21–69).

Informs airport authorities of the desirability to provide diagrammatic maps of facilities within terminal buildings and of the need for clearly marked locations signs at airports, especially at those used by international travelers.

150/5360–1 Airport Service Equipment Buildings (4–6–64).

Provides guidance on design of buildings for housing equipment used in maintaining and repairing operational areas.

150/5360–2 Airport Cargo Facilities (4–6–64).

Provides guidance material on air cargo facilities.

150/5360–3 Federal Inspection Service Facilities at International Airports (4–1–66).

Describes and illustrates recommended facilities for inspection of passengers, baggage, and cargo entering the United States through international airport terminals. The material is for the guidance of architect-engineers and others interested in the planning and design of these airport facilities.

150/5370–2 Safety on Airports During Construction Activity (4–22–64).

Provides guidelines concerning safety at airports during periods of construction activity.

150/5380–1 Airport Maintenance (4–14–63).

Provides a basic checklist and suggestions for an effective airport maintenance program.

150/5380–2A Snow Removal Techniques Where In-Pavement Lighting Systems Are Installed (12–24–64).

Provides information on damage to in-pavement lighting fixtures by snow removal equipment and recommends procedures to avoid such damage.

150/5380–3 Cleaning of Runway Contamination (6–28–68).

Provides information to the aviation industry relative to cleaning rubber deposits, oil, grease, and jet aircraft exhaust deposits from runway surfaces.

150/5380–4 Ramp Operations During Periods of Snow and Ice Accumulation (9–11–68).

Directs attention to an increased accident potential when snow or ice accumulates on the surfaces of ramps and aircraft parking and holding areas and suggests some measures to reduce this potential.

150/5390–1 Heliport Design Guide (11–3–64). (Consolidated reprint 6–10–68 includes Change 1.)

Contains design guidance material for the development of heliports, both surface and elevated, to serve single- and multi-engine helicopters operating under visual flight rules.

Air Navigational Facilities

SUBJECT NO. 170

170–1 Operation and Use of Approved Lights (ALS) and Sequenced Flashing Lights (SFL) Systems (1–14–63).

Advises airspace users of the operation and use of the ALS and SFL systems.

170–2 Implementation of ILS Channels 11 Through 20 (10–16–63).

Advertises that ILS Channels 11 through 20 are now being used in the United States and encourages owners to equip their aircraft with 20-channel capability.

170–3B Distance Measuring Equipment (DME) (11–8–65).

Presents information on DME and some of its uses to pilots unfamiliar with this navigational aid.

170–6A Use of Radionavigation Test Generators (3–30–66).

Gives information received from the Federal Communications Commission as to the frequencies on which the FCC will license test generators (used to radiate a radionavigation signal) within the scope of its regulations and gives additional information to assist the user when checking aircraft navigation receivers.

170/6850–1 Aeronautical Beacons and True Lights (8–28–68).

Describes FAA standards for the installation and operation of aeronautical beacons serving as true lights.

170–7 Decommissioning of ILS Middle Compass Locators (10–29–65).

Disseminates information regarding the FAA program for decommissioning of compass locators associated with ILS middle markers.

170–8 Use of Common Frequencies for Instrument Landing Systems Located on Opposite Ends of the Same Runway (11–7–66).

In the future, common frequencies may be assigned to like components of two instrument landing systems serving opposite ends of the same runway. This will include the localizers, glide slopes, and associated outer and middle marker compass locators (LOM and LMM).

170–9 Criteria for Acceptance of Ownership and Servicing of Civil Aviation Interest(s) Navigational and Air Traffic Control Systems and Equipment (11–26–68).

Contains a revised FAA policy under which the FAA accepts conditional ownership of equipment and systems from civil aviation interests, without the use of Federal funds, and operates, maintains, and provides the logistic support of such equipment.

171–1 Estimating Packing and Shipping Costs for Export Shipments for ATC and Navaid Equipments (2–18–66).

Assists personnel engaged in preparing packing and shipping estimates of air navigation and traffic control equipments for overseas shipment.

Administrative

SUBJECT NO. 180

183.29–1D Designated Engineering Representatives (2–28–69).

Lists the Designated Engineering Representatives available for consulting work. Designated Engineering Representatives, as direct representatives of the Federal Aviation Administration, are authorized to approve certain types of data as complying with the Federal Aviation Regulations within particular categories; such as structural, systems and equipment, powerplant, flight analyst, flight test pilot, and engine.

Flight Information

SUBJECT NO. 210

210–1 National Notice to Airmen System (2–8–64).

Announces FAA policy for the preparation and issuance of essential flight information to pilots and other aviation interests.

210–2 Schedule of Effective Dates for Flight Information (6–26–68).

Announced a 1-week shift in the U.S. schedule for effective dates for flight information.

211–1 Content Criteria for Airman's Information Manual (3–15–66).

Announces the FAA policy for inclusion of aeronautical data in the Airman's Information Manual (AIM).

211–2 Recommended Standards for IFR Aeronautical Charts (3–20–67).

Sets forth standards recommended by the Federal Aviation Administration for the guidance of the public in the issuance of IFR, aeronautical charts for use in the National Airspace System (NAS).

211–3 Aviation Fuel Code Used in Flight Information Publications (5–19–67).

Transmits information concerning the change in aviation fuel codes used in FAA reports and publications, NATO symbols to be used.

PART II

General

SUBJECT NO. 00

00–6 Aviation Weather (5–20–65).

Provides an up-to-date and expanded text for pilots and other flight operations personnel whose interest in meteorology is primarily in its application to flying. Published in 1965. ($2.25 GPO.) FAA 5.8/2 : W 37.

00–25 Forming and Operating a Flying Club (3–24–69).

Provides preliminary information that will assist anyone or any group of people interested in forming and operating a flying club. ($0.35 GPO). TD 4.8 : F 67.

Aircraft

SUBJECT NO. 20

20–6K U.S. Civil Aircraft Register (1–1–69).

Lists all active U.S. civil aircraft by registration number. Published in 1969. ($11.50 GPO.) TD 4.18/2 : 969.

20–7E General Aviation Inspection Aids, Summary (August 1968).

Provides the aviation community with a uniform means for interchanging service experience that may improve the durability and safety of aeronautical products. Of value to mechanics, operators of repair stations, and others engaged in the inspection, maintenance, and operation of aircraft in general. ($2, $2.50 foreign—Sub. GPO.) TD 4.409 : 968.

20–7E Supplement 1 (September 1968).

20–7E Supplement 2 (October 1968).

20–7E Supplement 3 (November 1968).

20–7E Supplement 4 (December 1968).

20–7E Supplement 5 (January 1969).

20–7E Supplement 6 (February 1969).

20–7E Supplement 7 (March 1969).

20–7E Supplement 8 (April 1969).

20–7E Supplement 9 (May 1969).

20–9 Personal Aircraft Inspection Handbook (12–2–64).

Provides a general guide, in simple, nontechnical language, for the inspection of aircraft. Reprinted 1967. ($1 GPO.) FAA 5.8/2 : Ai 7/2.

20–50 Ultrasonic Nondestructive Testing (11–9–66).

Provides FAA personnel and the general aviation public with some of the theory and processes of ultrasonic testing which will assist them in the more advanced uses of this system for the inspection of aircraft and aircraft components during manufacture or maintenance. ($0.45 GPO.) TD 4.8 : Ul 8.

21–3 Basic Glider Criteria Handbook (1962).

Provides individual glider designers, the glider industry, and glider operating organizations with guidance material that augments the glider airworthiness certification requirements of the Federal Aviation Regulations. Reprinted 1969. ($1 GPO.) FAA 5.8/2: G 49/962.

43.13–1 Acceptable Methods, Techniques and Practices—Aircraft Inspection and Repair (5–16–66).

Contains methods, techniques, and practices acceptable to the Administrator for inspection and repair to civil aircraft. Published in 1965. ($3—Sub. GPO.) FAA 5.15 : 965.

Subscription now includes: Ch. 1 (5–1–67); Ch. 2 (8–9–67); Ch. 3 (1–24–68); Ch. 4 (1–29–68); Ch. 5 (9–20–68).

43.13–2 Acceptable Methods, Techniques, and Practices—Aircraft Alterations (4–19–66).

Contains methods, techniques, and practices acceptable to the Administrator in altering civil aircraft. Published in 1965. ($2—Sub. GPO.) FAA 5.16 : 965.

Subscription now includes: Ch. 1 (1–12–67); Ch. 2 (5–26–67); Ch. 3 (6–26–67); Ch. 4 (9–12–67); Ch. 5 (11–9–67); Ch. 6 (4–12–68).

Airmen

SUBJECT NO. 60

61–2A Private Pilot (Airplane) Flight Training Guide (9–1–64).

Contains a complete private pilot flight training syllabus which consists of 30 lessons. Published in 1964. ($1 GPO.) FAA 5.8/2: P 64/4/964.

61–3B Flight Test Guide—Private Pilot—Airplane—Single Engine (4–2–68).

Assists the private pilot applicant in preparing for his certification flight test. Published in 1968. ($0.20 GPO.) TD 4.408 : P 64/2.

61–4B Flight Test Guide—Multiengine Airplane Class or Type Rating (4–1–68).

Assists the private pilot applicant in preparing for certification or rating flight tests. Published in 1968. ($0.15 GPO.) TD 4.408 : M 91.

61–8A Instrument Pilot Examination Guide (1–12–66).

Assists pilots in preparing for the Instrument Pilot Examination. Reprinted 1969. ($0.55 GPO.) FAA 5.8/2 : In 7/966.

61–9 Pilot Transition Courses for Complex Single-Engine and Light Twin-Engine Airplanes (6–16–64).

Provides training syllabuses and check-out standards for pilots who seek to qualify on additional types of airplanes. Published in 1964. ($0.15 GPO.) FAA 5.8/2 : P 64/7.

61–10 Private and Commercial Pilots Refresher Courses (9–1–64).

Provides a syllabus of ground instruction periods and training lessons. Published in 1964. ($0.15 GPO.) FAA 5.8/2 : P 64/9.

61–11A Airplane Flight Instructor Written Test Guide (9–5–67).

Provides information to prospective airplane flight instructors about certification requirements, application procedures, and reference study materials; a sample examination is presented with explanations of the correct answers. Published in 1967. ($0.60 GPO.) TD 4.408 : In 7.

61–12C Student Pilot Guide (10–3–68).

Serves as a guide for prospective student pilots and presents general procedures for obtaining student and private pilot certificates. Published in 1969. ($0.20 GPO.) TD 4.8 : P 64/968.

61–13 Basic Helicopter Handbook (1–20–66).

Provides detailed information to applicants preparing for private, commercial, and flight instructor pilot certificates with a helicopter rating about helicopter aerodynamics, performance, and flight maneuvers. It will also be useful to certificated helicopter flight instructors as an aid in training students. Published in 1965. ($0.75 GPO.) FAA 5.8/2 : H 36.

61–14 Flight Instructor Practical Test Guide (1–19–65).

Provides assistance to the certificated pilot in preparing for the practical demonstration required for the issuance of the flight instructor certificate. Published in 1964. ($0.10 GPO.) FAA 5.8/2 : F 64/8.

61–16 Flight Instructor's Handbook (1–19–65).

Contains study and reference material on the principles of teaching and flight training procedures. Reprinted 1939. ($1.25 GPO.) FAA 5.8/2 : F 64/7.

61–17A Flight Test Guide—Instrument Pilot Airplane (6–6–67).

Provides assistance for the instrument pilot applicant in preparing for his instrument rating flight test. Published in 1967. ($0.10 GPO.) TD 4.408 : In 7/2.

61–18B Airline Transport Pilot (Airplane) Written Test Guide (7–1–68).

Describes the type and scope of aeronautical knowledge covered by the written examination, lists appropriate references for study, and presents sample examination questions. Published in 1968. ($0.55 GPO.) TD 4.408 : P 64/3.

61–21 Flight Training Handbook (1–11–66).

Provides information and direction in the introduction and performance of training maneuvers for student pilots, pilots requalifying or preparing for additional ratings, and flight instructors. Published in 1965. ($0.70 GPO.) FAA 1.8 : F 64/4.

61–23 Private Pilot's Handbook of Aeronautical Knowledge (5–27–66).

Contains essential, authoritative information used in training and guiding applicants for private pilot certification, flight instructors, and flying school staffs. Published in 1966. ($2.75 GPO.) FAA 5.8/2 : P 64/5/965.

61–25 Flight Test Guide—Helicopter, Private and Commercial Pilot (12–7–65).

Assists the helicopter pilot applicant in preparing for the certification flight tests; provides information concerning applicable procedures and standards. Published in 1965. ($0.10 GPO.) FAA 1.8 : H 36/2.

61–27A Instrument Flying Handbook (4–30–68).

Provides the pilot with basic information needed to acquire an FAA instrument rating. It is designed for the reader who holds at least a private pilot certificate and is knowledgeable in all areas covered in the "Private Pilot's Handbook of Aeronautical Knowledge." Published in 1969. ($2.50 GPO.) TD 4.408 : In 7/3.

61–28 Commercial Pilot Examination Guide (5–17–66).

Guides prospective applicants toward a clear understanding of the requirements, the reference material, the form of the examination, and the examining procedures. Published in 1966. ($0.75 GPO.) FAA 5.8/2 : P 64/3/966.

61–29 Instrument Flight Instructor Written Examination Guide (9–28–66).

Designed to aid those preparing for the Instrument Flight Instructor Written Examination, this guide outlines basic knowledge necessary to an instrument flight instructor, indicates sources helpful in acquiring this knowledge, and provides sample questions and answers for practice. Published in 1966. ($0.50 GPO.) FAA 1.8 : In 7.

61–30 Flight Test Guide—Gyroplane, Commercial Pilot (2–8–66).

Assists commercial pilot operator in preparing for certification test. Revised in 1966. ($0.15 GPO.) FAA 5.8/2 : G 99/2/966.

61–32 Private Pilot Written Examination Guide (8–15–67).

A combination workbook, written test guide. Includes 71 exercises covering every section of the Private Pilot's Handbook of Aeronautical Knowledge plus a sample written test presented in a fashion similar to the current Private Pilot Written Examination. Reprinted in 1969. ($1.75 GPO.) TD 4.408: P 64.

61–34 Federal Aviation Regulations Written Examination Guide for Private, Commercial, and Military Pilots (11–17–67).

Outlines the scope of the basic knowledge required of civilian pilots who are studying regulations as they pertain to certification of private and commercial pilots. Additionally, it accomplishes the same for military pilots or qualified former military pilots who are applying for FAA private or commercial pilot certificates on the basis of military competency. Reprinted 1969. ($0.50 GPO.) TD 4.8 : P 64.

61–42 Airline Transport Pilot (Helicopter) Written Test Guide (11–7–67).

Provides guidance to applicants preparing for the Airline Transport Pilot Rotorcraft/Helicopter (VFR and/or IFR) Written Tests. Describes the type and scope of required aeronautical knowledge covered by the written test. ($0.25 GPO.) TD 4.408 : H 36.

61.117–1C Flight Test Guide—Commercial Pilot, Airplane (2–7–69).

Assists the commercial applicant in preparing for his certification flight test. ($0.20 GPO.) TD 4.8 : P 64/3.

63–1A Flight Engineer Written Test Guide (5–10–68).

Contains information about certification requirements and describes the type and scope of the examination. It also lists appropriate study and reference material and presents sample examinations with test items similar to those found in the official examinations. Published in 1968. ($0.50 GPO.) TD 4.408 : En 3.

63–2 Flight Navigator Written Examination Guide (10–26–66).

This circular: (1) Outlines the scope of the basic aeronautical knowledge requirements for a Flight Navigator; (2) acquaints the applicant with source material that may be used to acquire this basic knowledge; and (3) presents a sample examination, answers and explanations to the sample examination test items, and other data used in the current Flight Navigator Written Examinations. Published in 1967. ($0.25 GPO.) FAA 5.8/2 : F 64/10.

65–2A Airframe and Powerplant Mechanics Certification Guide (10–12–67).

Provides information to prospective airframe and powerplant mechanics and other persons interested in FAA certification of aviation mechanics. Reprinted in 1969. ($0.65 GPO.) TD 4.8 : Ai 7/6.

65–4A Aircraft Dispatcher Written Test Guide (8–16–68).

Describes the type and scope of aeronautical knowledge covered by the aircraft dispatcher written examination, lists reference materials, and presents sample questions. Published in 1969. ($0.50 GPO.) TD 4.8 : Ai 7/12.

65–5 Parachute Rigger Certification Guide (6–19–67).

Provides information on how to apply for a parachute rigger certificate or rating and assists the applicant in preparing for the written, oral, and practical tests. Published in 1968. ($0.15 GPO.) TD 4.8 : P 21.

Airspace

SUBJECT NO. 70

70/7460–1 Obstruction Marking and Lighting (2–29–68). (Consolidated reprint includes change 1, 1969)

Describes the agency standards on obstruction marking and lighting and establishes the methods, procedures, and

equipment types as official FAA policy. ($0.60 GPO.) TD 4.8 : Ob 7/968.

Air Traffic Control and General Operations

SUBJECT No. 90

91.11–1 Guide to Drug Hazards in Aviation Medicine (7–19–63).

Lists all commonly used drugs by pharmacological effect on airmen with side effects and recommendations. Published in 1962. ($0.35 GPO.) FAA 7.9 : D 84.

91–15 Terrain Flying (2–2–67).

A pocket-size booklet designed as a tool for the average private pilot. Contains a composite picture of the observations, opinions, warnings, and advice from veteran pilots who have flown this vast land of ours that can help to make flying more pleasant and safer. Tips on flying into Mexico, Canada, and Alaska. ($0.55 GPO.) TD 4.2 : T 27.

Schools and Other Certificated Agencies

SUBJECT No. 140

143–1B Ground Instructor Examination Guide—Basic—Advanced (4–18–67).

Designed to assist applicants preparing for the Basic or Advanced Ground Instructor Written Examination by outlining the required knowledge and by providing sample questions for practice. Revised in 1967. ($1 GPO.) TD 4.408 : G 91.

143–2A Ground Instructor—Instrument—Written Test Guide (9–29–67).

Provides information to applicants for the instrument ground instructor rating about the subject areas covered in the examination and illustrated by a study outline, a list of study materials, and a sample examination with answers. Reprinted in 1969. ($0.70 GPO.) TD 4.8: G 91.

Airports

SUBJECT No. 150

DESIGN, CONSTRUCTION, AND MAINTENANCE—GENERAL

150/5300–4A Utility Airports—Air Access to National Transportation (5–6–69).

Presents recommendations of the Federal Aviation Administration for the design of utility airports. These airports are developed for general aviation operations and this guide has been prepared to encourage and guide persons interested in their development. ($1.75 GPO.) TD 4.8 : Ai 7/968.

150/5320–5A Airport Drainage (1–28–66).

Provides guidance for airport managers, engineers, and the public in the design and maintenance of airport drainage systems. Published in 1965. ($0.45 GPO.) FAA 8.8 : D 78.

150/5370–1A Standard Specifications for Construction of Airports (5–28–68).

Contains specification items for construction of airports and other related information. Acceptable for FAAP project activity. Published in 1968. ($3.50 GPO.) TD 4.24 : 968.

Internal Directives

Contractions Handbook, 7340.1A (1–1–69).

Gives approved word and phrase contractions used by personnel connected with air traffic control, communications, weather, charting and associated services. ($1 GPO.) TD 4.308 : C 76.

Contractions Handbook, 7340.1A CH 1 (1–14–69).

($0.15 GPO.) TD 4.308 : C 76.

Location Identifiers, 7350.1L.

Incorporates all authorized 3-letter location identifiers for special use in United States, worldwide, and Canadian assignments. Dated 5–15–69. ($6 Sub.—GPO.) TD 4.310:.

Flight Services, 7110.10 (4–1–69).

This handbook consists of two parts. Part I, the basic, prescribes procedures and phraseology for use by personnel providing flight assistance and communications services. Part II, the teletypewriter portion, includes Services A and B teletypewriter operating procedures, pertinent International Teletypewriter Procedures, and the conterminous U.S. Service A Weather Schedules. Supersedes Aeronautical Communications and Pilot Services, dated 3–3–66. ($9-Sub. GPO.) TD 4.308 : F 64.

International Flight Information Manual, Vol. 17 (April 1969).

This Manual is primarily designed as a preflight and planning guide for use by U.S. nonscheduled operators, business and private aviators contemplating flights outside of the United States.

The Manual, which is complemented by the International Notams publication, contains foreign entry requirements, a directory of aerodromes of entry including operational data, and pertinent regulations, and restrictions. It also contains passport, visa, and health requirements for each country. Published annually with quarterly amendments. ($3—Annual Sub. GPO.) TD 4.309 : 16.

International Notams, Vol. 22 (April 1969).

Covers notices on navigational facilities and information on associated aeronautical data generally classified as "Special Notices". Acts as a notice-to-airmen service only. Published weekly. ($5—Annual Sub. GPO.) TD 4.11 :.

Airman's Information Manual:

Part 1—Basic Flight Manual and ATC Procedures.

This part is issued quarterly and contains basic fundamentals required to fly in the National Airspace System; adverse factors affecting Safety of Flight; Health and Medical Facts of interest to pilots; ATC information affecting rules, regulations and procedures; a Glossary of Aeronautical Terms; U.S. Entry and Departure Procedures, including Airports of Entry and Landing Rights Airports; Air Defense Identification Zones (ADIZ); Designated Mountainous Areas; Scatana, and Emergency Procedures. (Annual Sub. $2.50, Foreign mailing—75 cents additional. GPO.) TD 4.12 : pt. 1/.

Part 2—Airport Directory.

This part is issued semiannually and contains a Directory of all Airports, Seaplanes Bases, and Heliports in the conterminous United States, Puerto Rico, and the Virgin Islands which are available for transient civil use. It includes all of their facilities and services, except communications, in codified form. Those airports with communications are also listed in Part 3 which reflects their radio facilities. A list of new and permanently closed airports which updates this part is contained in Part 3.

Included, also, is a list of selected Commercial Broadcast Stations of 100 watts or more of power. (Annual Sub. $4, Foreign mailing—$1 additional. GPO.) TD 4.12 : pt. 2/.

Parts 3 and 3A—Operational Data and Notices to Airmen.

Part 3 is issued every 28 days and contains a Master Alphabetical Index covering all Parts of the AIM; an Airport/Facility Directory containing a list of all major airports with communications; a tabulation of Air Navigation Radio Aids and their assigned frequencies; Parachute Jump Areas; Preferred Routes; Standard Instrument Departures (SIDs); Substitute Route Structures; a Sectional Chart Bulletin, which updates Sectional charts cumulatively; Restrictions to Enroute Navigation Aids; VOR Receiver Check Points; Special General and Area Notices; a tabulation of New and Permanently Closed Airports, which updates Part 2, and Oil Burner Routes.

Part 3A is issued every 14 days and contains Notices to Airmen considered essential to the safety of flight as well as supplemental data to Part 3. (Annual Sub. $18, Foreign mailing—$5 additional. GPO.) TD 4.12 : pt. 3/.

Aircraft Type Certificate Data Sheets and Specifications.

Contains all current aircraft specifications and type certificate data sheets issued by the FAA. Monthly supplements provided. ($20—Sub., Foreign mailing—$5 additional. GPO.) TD 4.15 : 967.

Aircraft Engine and Propeller Type Certificate Data Sheets.

Contains all current aircraft engine and propeller type certificate data sheets and specifications issued by FAA. Monthly supplements provided. ($16—Sub., Foreign mailing—$4 additional. GPO.) TD 4.15/2 : 968.

Summary of Supplemental Type Certificates.

Contains all supplemental type certificates issued by FAA regarding design changes in aircraft, engines, or propellers. List includes description of change, the model and type certificate number, the supplemental type certificate number, and the holder of the change. Quarterly supplements provided. ($9—Sub., Foreign mailing—$3.50 additional. GPO.) FAA 5.12 : 965.

STATUS OF THE FEDERAL AVIATION REGULATIONS

As of May 29, 1969

IMPORTANT NOTICE

The Federal Aviation Administration is reissuing the Federal Aviation Regulations (FAR) in a volume system to be sold on a subscription basis by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The purchase of a FAR volume will establish your subscription service with the Superintendent of Documents for automatic receipt of changes to the volume as issued by FAA.

The volume structure is:

Volume	*FAR Part*
I	1.
II	11, 13, 15, 21, 37, 39, 45, 47, 49, 183, 185, 187, 189.
III	23, 25.
IV	27, 29, 31, 33, 35.
V	43, 145, 149.
VI	91, 93, 99, 101, 103, 105.
VII	121, 123, 127, 129.
VIII	133, 135, 137.
IX	61, 63, 65, 67, 141, 143, 147.
X	151, 153, 155, 159, 165, 167.
XI	71, 73, 75, 77, 95, 97, 157, 169, 171.

As each volume is issued, an availability notification providing price and an order form will be issued and distributed by the Superintendent of Documents. If you are now on an FAA mailing list to receive Changes to any FAR Part, you will receive this notice.

However, until a Part is grouped into its respective Volume and the Volume is for sale, the present system of obtaining the Part and Changes thereto will remain in effect.

At the time of publishing this checklist, orders are being accepted by the Superintendent of Documents for the following Volumes:

Volume	Published	Price
I	May 1969	$1.50 (Foreign mailing—50 cents additional.).
II	July 1969	$8 (Foreign mailing—$2 additional.).
V	July 1969	$3 (Foreign mailing—75 cents additional.).
VI	August 1969	$5.50 (Foreign mailing—$1.25 additional.).

Individual FAR Parts not as yet reissued in the Volume system are still sold by the Superintendent of Documents at the prices shown in the following list. Parts with a (†) preceding the number are available in the Volumes as indicated above. Changes to Parts not in Volumes will be provided by FAA. An order form for this service is included in the front of the FAR Part for your convenience.

Instructions for ordering. Orders for the FARs should include remittance by check or money order made payable to the Superintendent of Documents, and should be addressed to:

Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

Orders from foreign countries, except Canada and Mexico, should include an additional amount of one-fourth the purchase price to cover foreign mailing. Remittance should be by International Money Order or by a draft on a U.S. bank.

†189	Use of Federal Aviation Administration Communications System			

*Changes to individual airspace designations and airways descriptions, individual restricted areas, and individual jet route descriptions are not included in the basic Parts 71, 73, and 75 respectively because of their length and complexity. Such changes are published in the FEDERAL REGISTER and are included on appropriate aeronautical charts.

**Due to the complexity, length, and frequency of issuance, en route IFR altitudes and instrument approach procedures are published in the FEDERAL REGISTER, the Airman's Information Manual, and are depicted on the aeronautical charts. Therefore, they are not included in the basic Parts 95 and 97.

CHARLES H. MCKEON,
Manager, Headquarters Operations.

MARY E. HEALY,
Acting Manager, Headquarters Operations.

[F.R. Doc. 69-8161; Filed, July 10, 1969; 8:45 a.m.]

FEDERAL REGISTER

VOLUME 34 • NUMBER 133

Saturday, July 12, 1969 • Washington, D.C.

Pages 11533–11574

NOTICE

New Location of Federal Register Office.

The Office of the Federal Register is now located at 633 Indiana Ave. NW., Washington, D.C. Documents transmitted by messenger should be delivered to Room 405, 633 Indiana Ave. NW. Other material should be delivered to Room 400.

Mail Address.

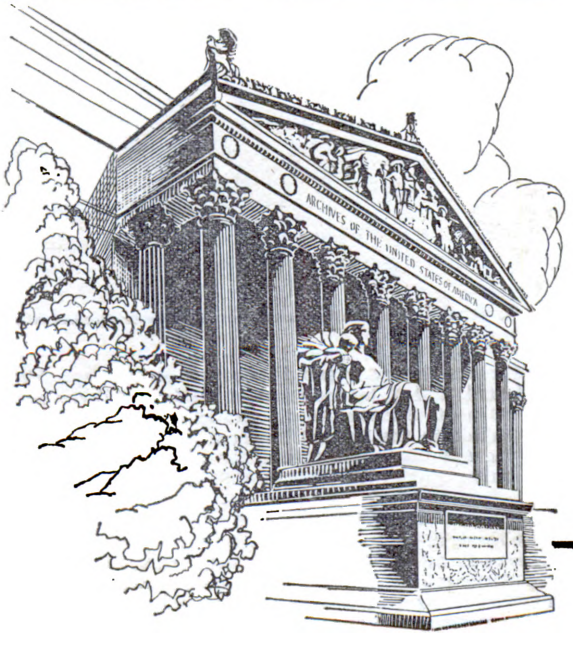
Mail address remains unchanged: Office of the Federal Register, National Archives and Records Service, Washington, D.C. 20408.

Public Inspection of Documents.

Documents filed with the Office of the Federal Register are available for public inspection in Room 405, 633 Indiana Ave. NW., Washington, D.C., on working days between the hours of 9 a.m. and 5 p.m.

Agencies in this issue—

Detailed list of Contents appears inside.



Final Supplement Now Available

PRINCIPAL OFFICIALS IN THE EXECUTIVE BRANCH

Appointed January 20–June 1, 1969

A listing of about 400 appointments of key officials made after January 20, 1969. Serves as a supplement to the 1968–69 edition of the U.S. Government Organization Manual.

Price: 20 cents

Compiled by Office of the Federal Register, National Archives and Records Service, General Services Administration

Order from Superintendent of Documents, U.S. Government Printing Office Washington, D.C. 20402

FEDERAL REGISTER
Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears at the end of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1969, and specifies how they are affected.

Rules and Regulations

Title 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 213—EXCEPTED SERVICE

Treasury Department

Section 213.3305 is amended to show that one position of Special Assistant to the Commissioner of Customs (Organized Crime and Smuggling), Bureau of Customs, is excepted under Schedule C. Effective on publication in the FEDERAL REGISTER, subparagraph (3) is added to paragraph (c) of § 213.3305 as set out below.

§ 213.3305 Treasury Department.

* * * * *

(c) *Bureau of Customs.* * * *

(3) One Special Assistant to the Commissioner of Customs (Organized Crime and Smuggling).

* * * * *

(5 U.S.C. 3301, 3302, E.O. 10577, 3 CFR 1954–1958 Comp., p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[F.R. Doc. 69-8241; Filed, July 11, 1969; 8:47 a.m.]

MISCELLANEOUS AMENDMENTS TO CHAPTER

Sections 352.508(g), 353.707, 511.612, 532.703(g), 713.235, and 772.308 are revised to clarify the criteria considered by the Commission when examining requests to reopen and reconsider previous decisions.

PART 352—REEMPLOYMENT RIGHTS

§ 352.508 Appeals to the Commission.

* * * * *

(g) *Review by the Commissioners.* The Commissioners may, in their discretion, reopen and reconsider any previous decision when the party requesting reopening submits written argument or evidence which tends to establish that:

(1) New and material evidence is available that was not readily available when the previous decision was issued;

(2) The previous decision involves an erroneous interpretation of law or regulation or a misapplication of established policy; or

(3) The previous decision is of a precedential nature involving a new or unreviewed policy consideration that may have effects beyond the actual case at hand, or is otherwise of such an exceptional nature as to merit the personal attention of the Commissioners.

(Sec. 625, 75 Stat. 449; 22 U.S.C. 2385, E.O. 10973; 3 CFR 1959–63 Comp., p. 493)

PART 353—RESTORATION AFTER MILITARY DUTY

§ 353.707 Review by the Commissioners.

The Commissioners may, in their discretion, reopen and reconsider any previous decision when the party requesting reopening submits written argument or evidence which tends to establish that:

(a) New and material evidence is available that was not readily available when the previous decision was issued;

(b) The previous decision involves an erroneous interpretation of law or regulation or a misapplication of established policy; or

(c) The previous decision is of a precedential nature involving a new or unreviewed policy consideration that may have effects beyond the actual case at hand, or is otherwise of such an exceptional nature as to merit the personal attention of the Commissioners.

(Sec. 9, 62 Stat. 614, as amended; 50 U.S.C. App. 459)

PART 511—POSITION CLASSIFICATION UNDER THE CLASSIFICATION SYSTEM

§ 511.612 Review by the Commissioners.

The Commissioners may, in their discretion, reopen and reconsider any previous decision when the party requesting reopening submits written argument or evidence which tends to establish that:

(a) New and material evidence is available that was not readily available when the previous decision was issued;

(b) The previous decision involves an erroneous interpretation of law or regulation or a misapplication of established policy; or

(c) The previous decision is of a precedential nature involving a new or unreviewed policy consideration that may have effects beyond the actual case at hand, or is otherwise of such an exceptional nature as to merit the personal attention of the Commissioners.

(5 U.S.C. 5115, 5338)

PART 532—PAY UNDER PREVAILING RATE SYSTEMS

§ 532.703 Appeal to the Commission.

* * * * *

(g) The Commissioners may, in their discretion, reopen and reconsider any previous decision when the party requesting reopening submits written argument or evidence which tends to establish that:

(1) New and material evidence is available that was not readily available when the previous decision was issued;

(2) The previous decision involves an erroneous interpretation of law or regulation or a misapplication of established policy; or

(3) The previous decision is of a precedential nature involving a new or unreviewed policy consideration that may have effects beyond the actual case at hand, or is otherwise of such an exceptional nature as to merit the personal attention of the Commissioners.

(5 U.S.C. 5345)

PART 713—EQUAL OPPORTUNITY

§ 713.235 Review by the Commissioners.

The Commissioners may, in their discretion, reopen and reconsider any previous decision when the party requesting reopening submits written argument or evidence which tends to establish that:

(a) New and material evidence is available that was not readily available when the previous decision was issued;

(b) The previous decision involves an erroneous interpretation of law or regulation or a misapplication of established policy; or

(c) The previous decision is of a precedential nature involving a new or unreviewed policy consideration that may have effects beyond the actual case at hand, or is otherwise of such an exceptional nature as to merit the personal attention of the Commissioners.

(5 U.S.C. 1301, 3301, 3302, 7151–7154, 7301, E.O. 10577; 3 CFR, 1954–58 Comp., p. 218, E.O. 11222, E.O. 11246; 3 CFR 1964–65 Comp., pp. 306, 339, E.O. 11375; 3 CFR, 1967 Comp., p. 320)

PART 772—APPEALS TO THE COMMISSION

§ 772.308 Review by the Commissioners.

The Commissioners may, in their discretion, reopen and reconsider any previous decision when the party requesting reopening submits written argument or evidence which tends to establish that:

(a) New and material evidence is available that was not readily available when the previous decision was issued;

(b) The previous decision involves an erroneous interpretation of law or regulation or a misapplication of established policy; or

(c) The previous decision is of a precedential nature involving a new or unreviewed policy consideration that may have effects beyond the actual case at hand, or is otherwise of such an exceptional nature as to merit the personal attention of the Commissioners.

(5 U.S.C. 1302, 3301, 3302, 5115, 5338, 7512, 7701, 8347, E.O. 10577; 3 CFR, 54–58 Comp., p. 218, E.O. 10988; 3 CFR, 1959–63 Comp., 521)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

(Secs. 4, 5, 23 Stat. 32, as amended, secs. 1, 2, 32 Stat. 791–792, as amended, sec. 3, 33 Stat. 1265, as amended, sec. 2, 65 Stat. 693; 21 U.S.C. 111–113, 114a–1, 120, 121, 125; 29 F.R. 16210, as amended, 9 CFR 78.16)

Effective date. The foregoing amendment shall become effective upon publication in the FEDERAL REGISTER.

The amendment adds the following additional areas to the list of areas designated as modified certified brucellosis areas because it has been determined that such areas come within the definition of § 78.1(i): East Carroll and Madison Parishes; Caddo County in Oklahoma; Cooke and Rusk Counties in Texas.

The amendment deletes the following areas from the list of areas designated as modified certified brucellosis areas because it has been determined that such areas no longer come within the definition of § 78.1(i): Brooks and Howard Counties in Texas.

The amendment imposes certain restrictions necessary to prevent the spread of brucellosis in cattle and relieves certain restrictions presently imposed. It should be made effective promptly in order to accomplish its purpose in the public interest and to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under the administrative procedure provisions of 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 9th day of July 1969.

G. H. WISE,
Acting Director, Animal Health Division, Agricultural Research Service.

[F.R. Doc. 69-8261; Filed, July 11, 1969; 8:49 a.m.]

SUBCHAPTER D—EXPORTATION AND IMPORTATION OF ANIMALS AND ANIMAL PRODUCTS

PART 97—OVERTIME SERVICES RELATING TO IMPORTS AND EXPORTS

Overtime, Night, and Holiday Inspection and Quarantine Activities at Border, Coastal, and Air Ports

Pursuant to the authority conferred by the Act of August 28, 1950 (64 Stat. 561; 7 U.S.C. 2260), § 97.1 of Part 97, Title 9, Code of Federal Regulations, is further amended to read as follows:

§ 97.1 Overtime work at laboratories, border ports, ocean ports, and airports.[1]

Any person, firm, or corporation having ownership, custody, or control of animals, animal byproducts, or other commodities subject to inspection, laboratory testing, certification, or quarantine under this subchapter and Subchapter G of this chapter, and who requires the services of an employee of the Animal Health Division on a holiday or at any other time outside the regular tour of duty of such employee, shall sufficiently in advance of the period of overtime or holiday service request the Division inspector in charge to furnish inspection, laboratory testing, certification or quarantine service during such overtime or holiday period and shall pay the Administrator of the Agricultural Research Service at the rate of $8.32 per man hour per employee as follows: A minimum charge of 2 hours shall be made for any holiday or unscheduled overtime duty performed by an employee on a day when no work was scheduled for him or which is performed by an employee on his regular work day beginning either at least 1 hour before his scheduled tour of duty or which is not in direct continuation of the employee's regular tour of duty. In addition, each such period of unscheduled overtime or holiday work to which the 2-hour minimum charge provision applies which requires the employee involved to perform additional travel may include a commuted travel time period the amount of which shall be prescribed in administrative instructions to be issued by the Director of the Animal Health Division for the ports, stations, and areas in which the employees are located and shall be established as nearly as may be practicable to cover the time necessarily spent in reporting to and returning from such overtime or holiday duty if such travel is performed solely on account of such overtime or holiday service. With respect to places of duty within the metropolitan area of the employee's headquarters, such commuted travel period shall not exceed three hours. When inspection, laboratory testing, quarantine, or certification services are performed at locations outside the metropolitan area in which the employee's headquarters are located, one-half of the commuted travel time period applicable to the point at which the services are performed shall be charged when duties involve overtime that either begins less than 1 hour before the beginning of the regular tour and/or is in continuation of the regular tour of duty: *Provided, however,* That periods of unscheduled overtime or holiday service performed by laboratory personnel shall be limited to Saturdays, Sundays, and holidays, and shall further be limited to hours which would normally constitute a regular work day. It shall be administratively determined from time to time which days constitute holidays.

The foregoing amendment shall become effective July 13, 1969, when it shall supersede 9 CFR 97.1, effective July 14, 1968.

The purpose of this amendment is to increase the hourly rate for overtime services from $7.92 to $8.32 commensurate with salary increases provided in the Federal Employees Salary Act of 1967 (Public Law 90-206); Executive Order 11474. It is to the benefit of those who require such overtime services, as well as the public generally, that this amendment be made effective at the earliest practicable date. Accordingly, pursuant to 5 U.S.C. 553, it is found upon good cause that notice and public procedure on this amendment are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making this amendment effective less than 30 days after publication in the FEDERAL REGISTER.

(64 Stat. 561; 7 U.S.C. 2260)

Done at Washington, D.C., this 9th day of July 1969.

R. J. ANDERSON,
Acting Administrator, Agricultural Research Service.

[1] For designated ports of entry for certain animals, animal semen, poultry, and hatching eggs see 9 CFR 92.1 through 92.3; and for designated ports of entry for certain purebred animals see 9 CFR 151.1 through 151.3.

Title 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

[Release No. 34-8637]

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

PART 249—FORMS, SECURITIES EXCHANGE ACT OF 1934

Margin Requirements for OTC Securities

The Securities and Exchange Commission today announced the adoption of Rule 17a-12 (17 CFR 240.17a-12) under the Securities Exchange Act of 1934 ("the Act") and Forms X-17A-12(1) (17 CFR 249.619) and X-17A-12(2) (17 CFR 249.620) thereunder as the means for implementing rules of the Board of Governors of the Federal Reserve System ("the Board") providing for exemptions from specified margin requirements of loans by banks to broker-dealers who are market makers in securities placed by the Board pursuant to Regulation U as amended (12 CFR 221.1 et seq.) on its list of OTC Margin Stocks as provided for by the July 29, 1968 amendment to section 7 of the Act (15 U.S.C. 78g; Public Law 90-437; 82 Stat. 452).

The Commission published its proposal to adopt Rule 17a-12 (17 CFR 240.17a-12) and Forms X-17A-12(1) (17 CFR 249.619) and X-17A-12(2) (17 CFR 249.620) on February 19, 1969, in Securities Exchange Act Release No. 8529 and in the FEDERAL REGISTER of February 26, 1969 (34 F.R. 2613), and it received a number of suggestions and comments with respect to them. It has considered such comments and suggestions and now adopts Rule 17a-12 (17 CFR 240.17a-12) and Forms X-17A-12(1) (17 CFR 249.619) and X-17A-12(2) (17 CFR 249.620) in the forms set forth below.

In its Regulation U, the Board has deemed it desirable in the interest of fair and orderly markets to provide for an OTC Market Maker's exemption under which a bank may make loans to a market maker in a security on the OTC Margin Stock list in amounts determined by the bank in good faith, instead of within the general limitations prescribed for the extension of credit on such a security. In section 3(w) of Regulation U (12 CFR 221.3(w)), the Board has set forth its criteria for an OTC Market Maker entitled to the special credit provisions. To qualify, a broker-dealer must file a notice with the Commission in prescribed form (Form X-17A-12(1)) (17 CFR 249.619); he must be in compliance with the net capital requirements of Rule 15c3-1 (17 CFR 240.15c3-1) under the Act, or of the capital rules of a national securities exchange of which he is a member; and he must have and maintain a minimum net capital in accordance therewith of $25,000 plus $5,000 for each OTC Margin Security in which he makes a market, subject to a maximum net capital requirement of $250,000. Additionally, he must (except when it is unlawful) regularly publish bona fide competitive bid and offer quotations in a recognized "interdealer quotations system" (which has the same meaning as in Rule 15c2-7 (17 CFR 240.15c2-7) under the Act); be ready, willing, and able to effect transactions with other broker-dealers in reasonable amounts at his quoted prices; and have a reasonable average rate of turnover in the security. It is the intent of subparagraphs (1) and (2) of Rule 17a-12 (17 CFR 240.17a-12) to provide for the same criteria for an OTC Market Maker as those in section 3(w) of Regulation U.

The definition of OTC Market Maker in these rules takes into account the possibility that certain antimanipulative provisions of the Federal securities laws,

such as Rule 10b–6 (17 CFR 240.10b–6) under the Act, would prohibit a market maker from meeting all of the conditions of an OTC Market Maker in a given OTC Margin Security, on certain occasions. Paragraph (e) of Rule 17a–12 (17 CFR 240.17a–12) provides that, in such a case, the OTC Market Maker is to give prompt written notice to the Commission stating the basis for failing to meet specified conditions; and, after resuming his full market making activities, to promptly notify the Commission to that effect in writing. Such notices are in lieu of any filings on Form X–17A–12(1) (17 CFR 249.619) in this eventuality.

As specified in paragraph (b) of Rule 17a–12 (17 CFR 240.17a–12), Form X–17A–12(1) (17 CFR 249.619) is the form to be filed within 10 days after the effective date of the rule by each registered broker-dealer who is an OTC Market Maker in any OTC Margin Security with respect to each such security. In addition, if he becomes such a market maker after the effective date of the rule, or if he is a market maker in a security placed after the effective date of the rule by the Board on its OTC Margin Stock list, he must within 5 days thereafter file Form X–17A–12(1) (17 CFR 249.619) as to such security. This form must be filed even though the market maker does not intend to avail himself of the OTC Market Maker exemption for any OTC Margin Security Form X–17A–12(1) (17 CFR 249.619) is also to be filed in respect of each security in which an OTC Market Maker ceases to make a market in an OTC Margin Stock, except that no such filing need be made with respect to a security removed by the Board from the OTC Margin Security list.

Form X–17A–12(2) (17 CFR 249.620) is a quarterly filing form which must be filed by a broker-dealer who has been an OTC Market Maker during the quarter. Three executed copies must be filed within 10 days after the end of the quarter. If the market maker has not received credit under the OTC Market Maker exemption at any time during the quarter, he will be required to answer only the first three questions which are essentially merely means of identification. If, however, he has received such credit during the quarter, he must provide information called for by the form with respect to a given day during the quarter specified by the Commission at the end of the quarter. Form X–17A–12(2) (17 CFR 249.620) is considerably simplified over the one originally proposed. The items on the form are designed to ascertain whether the person making the filing meets the criteria for an OTC Market Maker and to shed some light on the broker-dealer's volume of activity and extent of borrowings on OTC Margin Security in which he is an OTC Market Maker.

Under paragraph (f) of Rule 17a–12 (17 CFR 240.17a–12), reports filed on Form X–17A–12(2) (17 CFR 249.620) would be maintained in a nonpublic file but would be available for official use to any official or employee of the United States, any State, or the Board, or to any national securities exchange and any national securities association of which the broker-dealer is a member, as well as to any other person to whom the Commission authorizes disclosure in the public interest.

Commission action. Acting pursuant to the provisions of the Securities Exchange Act of 1934, and particularly sections 17(a) and 23(a) thereof, and deeming it necessary and appropriate in the public interest and for the protection of investors, and also deeming such action necessary for the execution of the functions vested in the Commission by the Act, the Securities and Exchange Commission hereby adopts new §§ 240.17a–12, 249.619, and 249.620 in Chapter II of Title 17 of the Code of Federal Regulation as set forth below. Since that rule and those forms are adopted to implement the amendments adopted on June 6, 1969, by the Board of Governors of the Federal Reserve System to Regulations G, T, and U under the Act which become effective on July 8, 1969, the Commission finds that for good cause it is necessary in the public interest and for the protection of investors that Rule 17a–12 (17 CFR 240.17a–12) and Forms X–17A–12(1) (17 CFR 249.619) and X–17A–12(2) (17 CFR 249.620) become effective on July 8, 1969.

§ 240.17a–12 Reports to be filed by market makers in O-T-C Margin Securities.

(a) Every broker or dealer registered on the effective date of this rule pursuant to section 15 of the Act who is an OTC Market Maker in any OTC Margin Security shall, within 10 days after the effective date of this rule, file a notice on Form X–17A–12(1) (§ 249.619 of this chapter) with the Commission for each such security as to which he was an OTC Market Maker on the effective date of this rule.

(1) For the purpose of this section, the term, "OTC Margin Security", shall mean a security which is not registered on a national securities exchange and which is on a list published by the Board of Governors of the Federal Reserve System ("the Board") pursuant to section 3(d)(2) of Regulation U under the Securities Exchange Act of 1934 (12 CFR 221.3(d)(2)).

(2) For the purpose of this section, a dealer shall be deemed an "OTC Market Maker" in an OTC Margin Security if he is subject to and is in compliance with Rule 15c3–1 (§ 240.15c3–1) (or is subject to and in compliance with the capital rules of an exchange of which he is a member if the members thereof are exempted from Rule 15c3–1 (§ 240.15c3–1(b)(2)) and he has and maintains minimum net capital, as defined in Rule 15c3–1 (§ 240.15c3–1) (or in such capital rules of such exchange), of $25,000 plus $5,000 for each such security in excess of five in respect of which he has filed and not withdrawn the notice on Form X–17A–12(1) (§ 249.619 of this chapter) (except that he shall not be required to have such net capital of more than $250,000 to be an OTC Market Maker under the provisions of this section) and if, except when such activity is unlawful, he meets all of the following conditions with respect to such security: (i) He regularly publishes bona fide, competitive bid and offer quotations in a recognized interdealer quotation system, (ii) he furnishes bona fide, competitive bid and offer quotations to other brokers and dealers on request, (iii) he is ready, willing, and able to effect transactions in reasonable amounts, and at his quoted prices, with other brokers and dealers, and (iv) he has a reasonable average rate of inventory turnover.

(b) Every registered broker-dealer who, after the effective date of this section, becomes an OTC Market Maker in any OTC Margin Security or is an OTC Market Maker in a particular security which is placed by the Board on the OTC Margin Security list after he becomes a market maker in such security, shall, within 5 days after he becomes such a market maker or after it is placed on such list, as the case may be, file with the Commission a notice on Form X–17A–12(1) (§ 249.619 of this chapter) identifying each such security.

(c) Every registered broker-dealer who has filed a notice under paragraph (a) or (b) of this section who ceases to be an OTC Market Maker in any security listed in any notice filed under such paragraphs shall, within 5 days thereafter, notify the Commission on Form X–17A–12(1) (§ 249.619 of this chapter) that he has ceased to be a market maker with respect to such security: *Provided, however,* That if a security has been removed by the Board from the OTC Margin Security list, no such notice respecting cessation of market making activities need be filed as to that security.

(d) Every registered broker-dealer who, during any calendar quarter, is or has been an OTC Market Maker in any OTC Margin Security shall, within 10 days after the end of each such calendar quarter, file with the Commission three fully executed copies of a report on Form X–17A–12(2) (§ 249.620 of this chapter).

(e) If at any time an OTC Market Maker is unable to meet one or more of the conditions specified in subdivision (i), (ii), (iii), or (iv) of paragraph (a)(2) of this section because such activity would be unlawful, he shall promptly notify the Commission in writing of such fact and state the basis for failing to meet such conditions; and if and when he has resumed the activity necessary to meet such conditions, he shall promptly notify the Commission in writing of such resumption.

(f) Reports on Form X–17A–12(2) (§ 249.620 of this chapter) will be maintained in a nonpublic file: *Provided, however,* That any such report shall be available for official use, to any official or employee of the United States, any State, or the Board; to any national securities exchange and any national registered securities association of which the broker-dealer filing such report is a member; and to any other person to whom the Commission authorizes disclosure in the public interest.

§ 249.619 Form X–17A–12(1)—Notification required to be filed by certain broker-dealer market makers pursuant to section 17 of the Act and § 240.17a–12 of this chapter.

This form must be executed and filed with the Commission pursuant to paragraph (a) of § 240.17a–12 of this chapter within 10 days by every registered broker-dealer who, on the effective date of said section is an OTC Market Maker as defined in paragraph (e) of said section; and pursuant to paragraphs (b) and (c) respectively of § 240.17a–12 of this chapter by each broker-dealer within 5 days after becoming or ceasing to be such OTC Market Maker.

§ 249.620 Form X–17A–12(2)—Quarterly report required to be filed by certain broker-dealer market makers pursuant to section 17 of the Act and § 240.17a–12(d) of this chapter.

This form must be executed and filed with the Commission as a quarterly report, pursuant to paragraph (d) of § 240.17a–12 of this chapter, within 10 days after the close of each calendar quarter, by each broker-dealer who is or who has been an OTC Market Maker, as defined in paragraph (e) of § 240.17a–12 of this chapter during such quarter.

NOTE: Copies of these forms have been filed with the Office of the Federal Register and may be obtained from the Securities and Exchange Commission at its Washington Headquarters Offices or any of its regional or branch offices.

(Secs. 7, 15(b), 17(a), 23(a), 48 Stat. 895, 897, 901, as amended, 49 Stat. 1379, 82 Stat. 452, 15 U.S.C. 78g, 78o, 78q, 78w)

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

JULY 3, 1969.

Incorporation by reference approved by the Director of the Federal Register on July 11, 1969.

[F.R. Doc. 69–8206; Filed, July 11, 1969; 8:45 a.m.]

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER A—GENERAL

PART 1—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT AND THE FAIR PACKAGING AND LABELING ACT

Exemption of Cheese and Cheese Products From Certain Labeling Requirements

In the matter of exempting cheese and cheese products from certain labeling requirements of the regulations (21 CFR Part 1) for the enforcement of the Fair Packaging and Labeling Act:

Nineteen comments were received in response to the notice of proposed rule making in the above-identified matter that was published in the FEDERAL REGISTER of November 22, 1968 (33 F.R. 17314), and based on a petition filed by Kraft Foods Division of National Dairy Products Corp., 500 Peshtigo Court, Chicago, Ill. 60611.

1. Nine State agencies support the proposal except for that portion that would permit declaration of price "per specified number of pounds." These comments urge that the price be stated in terms of the price per pound.

2. One State agency supports the entire proposal.

3. Two State agencies oppose the proposal stating that adoption of the exemption would make value comparisons difficult.

4. One State and one city agency oppose the proposal because they believe the grounds given by the petitioner in support thereof are insufficient to warrant adoption.

5. One State agency opposes the proposal on the grounds that it is "another attempt to subvert the law and to continue to 'hide' the cost of the product from the consumer."

6. One State agency opposes the proposal because, among other reasons, it would permit the cheese packer to fill in only the space provided for the quantity of contents declaration thereby placing the responsibility of filling in the price per pound and the total price on the distributor or retailer. This State agency reports that in its experience, the difficulty in making this computation has caused some distributors or retailers to use conventional computing scales to weigh and price the items on a gross-weight rather than a net-weight basis.

7. A trade association opposes the proposal stating that it sees "no reason why the price per pound should be left off of cheese produced by Kraft."

8. A cheese producer fully supports the proposal.

9. One firm supports the proposal and urges that the exemption be expanded to cover all food packages declaring net weight, price per pound or specified number of pounds, and total price.

Inasmuch as the several-hundred label exhibits submitted with the petition are all labeled to show the price per pound, the Commissioner of Food and Drugs concludes that there is no reason to provide for a declaration in terms of a "specified number of pounds" on the subject nonrandom weight cheese packages. The amendment herein is changed accordingly.

The Commissioner further concludes that the basic random weight package exemption should remain unchanged to provide for continuation of multiple unit pricing on such packages—a trade practice established for years. To insist on single unit pricing would result in the consumer paying more for a product. For example, a product previously sold for 2 pounds for 39 cents would be, on a single unit basis, 20 cents per pound and thus disadvantageous to the consumer.

The Commissioner concludes that the comments discussed in paragraphs 3, 4, 5, and 7 above are the result of a misunderstanding of the type of package that would be covered by the proposed exemption. The subject cheese packages are those wrapped in cellophane and labeled to show net weight, price per pound, and total price. Such labeling provides more information than labeling which is in compliance with the current regulations of the Fair Packaging and Labeling Act, for the price per pound would be calculated for the purchaser.

Regarding the comment in paragraph 6 above, the Commissioner concludes that the type of false labeling discussed could be employed by the distributor or retailer whether or not the proposed exemption is adopted. If it is employed, the product would be in violation of the Federal Food, Drug, and Cosmetic Act as well as many State and local statutes.

The comment requesting expansion of the exemption, paragraph 9 above, is more in the nature of a separate proposal and will be considered as such on its own merits.

Based on consideration of the information submitted by the petitioner, the comments received, and other relevant material, the Commissioner concludes that the proposed amendment should be adopted as set forth below with the provision for multiple unit pricing on nonrandom weight cheese packages deleted.

Accordingly, pursuant to the provisions of the Fair Packaging and Labeling Act (secs. 5(b), 6(a), 80 Stat. 1298, 1299; 15 U.S.C. 1453, 1455) and the Federal Food, Drug, and Cosmetic Act (sec. 701, 52 Stat. 1055, as amended; 21 U.S.C. 371), and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120): *It is ordered,* That § 1.1c (a)(2) be revised to read as follows:

§ 1.1c Exemptions from required label statements.

* * * * *

(a) *Foods.* * * *

(2) Random food packages, as defined in § 1.8b(j), bearing labels declaring net weight, price per pound or per specified number of pounds, and total price shall be exempt from the type size, dual declaration, and placement requirements of § 1.8b if the accurate statement of net weight is presented conspicuously on the principal display panel of the package. In the case of food packed in random packages at one place for subsequent shipment and sale at another, the price sections of the label may be left blank provided they are filled in by the seller prior to retail sale. This exemption shall also apply to uniform weight packages of cheese and cheese products labeled in the same manner and by the same type of equipment as random food packages exempted by this subparagraph except that the labels shall bear a declaration of price per pound and not price per specified number of pounds.

* * * * *

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of

Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is required, the objections must state the issues for the hearing, and such objections must be supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in six copies.

Effective date. This order shall become effective 60 days from the date of its publication in the FEDERAL REGISTER, except as to any provisions that may be stayed by the filing of proper objections. Notice of the filing of objections or lack thereof will be announced by publication in the FEDERAL REGISTER.

(Secs. 5(b), 6(a), 80 Stat. 1298, 1299; 15 U.S.C. 1453, 1455; sec. 701, 52 Stat. 1055, as amended; 21 U.S.C. 371)

Dated: July 3, 1969.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

[F.R. Doc. 69-8218; Filed, July 11, 1969; 8:45 a.m.]

PART 8—COLOR ADDITIVES

Subpart C—Listing of Color Additives for Food Use Subject to Certification

Subpart E—Listing of Color Additives for Drug Use Subject to Certification

FD&C BLUE NO. 1; CONFIRMATION OF EFFECTIVE DATE OF ORDER LISTING FOR FOOD AND DRUG USE

In the matter of listing FD&C Blue No. 1 for food use (§ 8.206) and drug use (§ 8.4021) subject to certification:

1. Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 706 (b), (c)(1), (d), 74 Stat. 399–403; 21 U.S.C. 376 (b), (c)(1), (d)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), notice is given that no objections were filed to the order in the above-identified matter published in the FEDERAL REGISTER of May 8, 1969 (34 F.R. 7445). Accordingly, the regulations promulgated thereby (§§ 8.206 and 8.4021) will become effective July 7, 1969.

2. Effective July 7, 1969, § 8.501 *Provisional lists of color additives* is amended in the table in paragraph (a) by changing for the item "FD&C Blue No. 1" the portion reading "(§ 9.80 of this chapter)" to read "(§ 8.206 of this chapter)" and by changing for this item in the column "Food use" the closing date "June 30, 1969" to read "June 30, 1969 [3]" and adding to the bottom of the table a footnote reading "[3] Lakes only."

Dated: July 3, 1969.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

[F.R. Doc. 69-8219; Filed, July 11, 1969; 8:45 a.m.]

PART 8—COLOR ADDITIVES

Subpart C—Listing of Color Additives for Food Use Subject to Certification

Subpart E—Listing of Color Additives for Drug Use Subject to Certification

FD&C RED NO. 3; CONFIRMATION OF EFFECTIVE DATE OF ORDER LISTING FOR FOOD AND DRUG USE

In the matter of listing FD&C Red No. 3 for food use (§ 8.242) and for drug use (§ 8.4102) subject to certification:

1. Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 706 (b), (c)(1), (d), 74 Stat. 399–403; 21 U.S.C. 376 (b), (c)(1), (d)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), notice is given that no objections were filed to the order in the above-identified matter published in the FEDERAL REGISTER of May 8, 1969 (34 F.R. 7446). Accordingly, the regulations promulgated thereby (§§ 8.242 and 8.4102) will become effective July 7, 1969.

2. Effective July 7, 1969, § 8.501 *Provisional lists of color additives* is amended in the table in paragraph (a) by changing for the item "FD&C Red No. 3" the portion reading "(§ 9.62 of this chapter)" to read "(§ 8.242 of this chapter)" and by changing for this item in the column "Food use" the closing date "June 30, 1969" to read "June 30, 1969 [2]" and adding to the bottom of the table a footnote reading "[2] Lakes only."

Dated: July 3, 1969.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

[F.R. Doc. 69-8220; Filed, July 11, 1969; 8:45 a.m.]

PART 8—COLOR ADDITIVES

Subpart C—Listing of Color Additives for Food Use Subject to Certification

Subpart E—Listing of Color Additives for Drug Use Subject to Certification

FD&C YELLOW NO. 5; CONFIRMATION OF EFFECTIVE DATE OF ORDER LISTING FOR FOOD AND DRUG USE

In the matter of listing FD&C Yellow No. 5 for food use (§ 8.275) and drug use (§ 8.4175):

1. Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 706 (b), (c)(1), (d), 74 Stat. 399–403; 21 U.S.C. 376 (b), (c)(1), (d)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), notice is given that no objections were filed to the order in the above-identified matter published in the FEDERAL REGISTER of May 8, 1969 (34 F.R. 7447). Accordingly, the regulations (§§ 8.275 and 8.4175) promulgated thereby will become effective July 7, 1969.

2. Effective July 7, 1969, § 8.501 *Provisional lists of color additives* is amended in the table in paragraph (a) by changing for the item "FD&C Yellow No. 5" the portion in the first column reading "(§ 9.40 of this chapter)" to read "(§ 8.275 of this chapter)" and by changing the date in the column "Food use" for this item from "June 30, 1969" to "June 30, 1969 [1]" and adding to the bottom of the table a footnote reading "[1] Lakes only."

Dated: July 3, 1969.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

[F.R. Doc. 69-8221; Filed, July 11, 1969; 8:46 a.m.]

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

MELENGESTROL ACETATE

Based on a petition filed by The Upjohn Co., Kalamazoo, Mich. 49001, an order was published in the FEDERAL REGISTER of February 6, 1968 (33 F.R. 2602), providing for the safe use of melengestrol acetate in animal feed (§ 121.308) and establishing a zero tolerance for residues of the additive in edible tissues and by-products of treated cattle (§ 121.1214). The regulation providing the tolerance included the method of analysis by which it is determined that no residues are present.

Following publication of the order comments were received from the petitioner suggesting that certain editorial revisions and corrections be made therein, and the Commissioner of Food and Drugs concludes that the published method of analysis should be revised as suggested.

Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 409, 701(a), 52 Stat. 1055, 72 Stat. 1785–88, as amended; 21 U.S.C. 348, 371(a)) and under authority delegated to the Commissioner (21 CFR 2.120), § 121.1214 *Melengestrol acetate* is amended by changing the method of analysis in paragraph (b), as follows:

1. In III *Special apparatus:*

a. Item G is amended by changing "202° C." to read "220° C.".

b. Item T4b is amended by changing "V–G14" to read "V–G9".

c. Item T5b is amended by changing "V–G11" to read "V–G9".

2. In V *Procedure:*

a. Item C9 is revised to read as follows:

9. Repeat step 7, but this time homogenize the dry cake without its filter paper for 2 minutes and filter.

b. Item D12 is revised to read as follows:

12. To the combined filtrates in the 2-liter separatory funnel, add 500 milliliters of water and 2 milliliters of saturated sodium sulfate solution to give 55 to 60 percent aqueous methanol.

c. Item F is revised to read as follows:

F. Solvent partition: 1. Transfer the residue to a 125-milliliter separatory funnel using two 20-milliliter portions of hexane saturated with 7: 3 methanol-water.

2. Extract the hexane phase with 40 milliliters of 7:3 methanol-water, first rinsing the round-bottomed flask with the aqueous methanol.

a. Shake the funnel vigorously for 1 minute; let the phases separate at least 1 hour.

b. Drain the lower phases into a 500-milliliter separatory funnel containing 50 milliliters of methylene chloride, 80 milliliters of water, and 0.5 milliliter of saturated sodium sulfate solution.

3. Repeat step 2 four more times combining all extracts in the 500-milliliter separatory funnel.

4. Stopper the 500-milliliter separatory funnel, invert carefully, and vent immediately. Shake the funnel cautiously, venting frequently. When all pressure subsides, shake the funnel vigorously for 1 minute, wait 20–30 minutes, and drain the lower phase into a 500-milliliter round-bottomed flask. This precaution does not apply to the subsequent shakings.

5. Extract with three more 50-milliliter portions of methylene chloride, each time draining the lower phase into the flask.

6. Roto-evaporate the combined extracts until all the solvent has been removed. *Stopping place.* Stopper and store in refrigerator or deep freeze.

Since this order merely makes technical changes and corrections in a previously promulgated method of analysis and is noncontroversial in nature, notice and public procedure are not prerequisites to this promulgation.

Effective date. This order shall become effective 30 days after its publication in the FEDERAL REGISTER.

(Secs. 409, 701(a), 52 Stat. 1055, 72 Stat. 1785–88, as amended; 21 U.S.C. 348, 371(a))

Dated: June 30, 1969.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

[F.R. Doc. 69-8222; Filed, July 11, 1969; 8:46 a.m.]

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

SANITIZING SOLUTIONS

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 9H2341) filed by Harchem Division, Wallace & Tiernan, Inc., 110 East Hanover Avenue, Cedar Knolls, N.J. 07927, and other relevant material, concludes that the food additive regulations should be amended to provide for safe use of an additional sanitizing solution, as set forth below, on food-processing equipment and utensils and other food-contact articles, except milk containers or equipment. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 2.120), § 121.2547 is amended by adding a new subparagraph each to paragraphs (b) and (c), as follows:

§ 121.2547 Sanitizing solutions.

* * * * *

(b) * * *

(10) An aqueous solution containing trichloromelamine and either sodium lauryl sulfate or dodecylbenzenesulfonic acid, together with components generally recognized as safe. In addition to use on food-processing equipment and utensils and other food-contact articles, this solution may be used on beverage containers except milk containers or equipment.

(c) * * *

(7) Solutions identified in paragraph (b)(10) of this section shall provide not more than sufficient trichloromelamine to produce 200 parts per million of available chlorine and either sodium lauryl sulfate at a level not in excess of the minimum required to produce its intended functional effect or not more than 400 parts per million of dodecylbenzenesulfonic acid.

* * * * *

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: June 30, 1969.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

[F.R. Doc. 69-8223; Filed, July 11, 1969; 8:46 a.m.]

Title 24—HOUSING AND HOUSING CREDIT

Subtitle A—Office of the Secretary, Department of Housing and Urban Development

PART 15—PUBLIC INFORMATION

Miscellaneous Amendments

Part 15 of Title 24 of the Code of Federal Regulations is amended in the following respects:

1. Section 15.31 (a) and (b)(1) is revised, to reflect change in address under paragraph (a) and under paragraph (b)(1) as to Regions I and II, and under paragraph (b)(1) as to Region VI to change "Northwest Operations Office" to "Northwest Area Office" and to change address, to read as follows:

§ 15.31 Information centers.

(a) The Department maintains a Central Information Center in Washington, D.C., at the following location:

Department of Housing and Urban Development, 451 Seventh Street SW., Room 1202, Washington, D.C. 20410.

(b) The Department also maintains an information center—

(1) In each of its Regional Offices as follows:

Region I—26 Federal Plaza, New York, N.Y. 10007.
Region II—Curtis Building, Sixth and Walnut Streets, Philadelphia, Pa. 19106.
Region III—Peachtree-Seventh Building, Atlanta, Ga. 30323.
Region IV–360 North Michigan Avenue, Chicago, Ill. 60601.
Region V—Federal Office Building, 819 Taylor Street, Fort Worth, Tex. 76102.
Region VI—450 Golden Gate Avenue, Post Office Box 36003, San Francisco, Calif. 94102; Northwest Area Office, Arcade Plaza Building, Seattle, Wash. 98104.
Region VII—Ponce De Leon and Boliva, Post Office Box 3869, GPO, San Juan, P.R. 00936.

* * * * *

2. Section 15.32 is revised, to change "Director, Division of Public Affairs" to "Director of Public Affairs", to read:

§ 15.32 Information officers.

There shall be an information officer in each of the information centers described in § 15.31 who shall be responsible for making information and records available to the public in accordance with this part. The information officer in the Department Central Information Center shall be designated by the Director of Public Affairs. The information officer in each Regional Office and field office shall be designated by the Regional Administrator or the Director of the office, as the case may be, with the concurrence of the Director of Public Affairs.

3. Section 15.61(a) is revised, to reflect change in address, to read:

§ 15.61 Administrative review.

(a) Review shall be available only from a written denial of a request for a record issued under § 15.52, and only if a written request for review is filed within 30 days after issuance of the written denial. The filing of a request for review may be accomplished by mailing to the Secretary of Housing and Urban Development, 451 Seventh Street SW., Room 10000, Washington, D.C. 20410, a copy of the request if in writing, a copy of the written denial issued under § 15.52, and a statement of the circumstances, reasons, or arguments advanced in support of disclosure of the original request for the record. Review will be made promptly by the Secretary or his designee on the basis of the written record described in this § 15.61.

Title 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

SUBCHAPTER N—GRAZING

PART 151—GENERAL GRAZING REGULATIONS

Allocation of Grazing Privileges

JULY 7, 1969.

On pages 9383-9386 of the FEDERAL REGISTER of June 14, 1969, there was published the revised Part 151, Subchapter N, Chapter I, Title 25, of the Code of Federal Regulations pertaining to the General Grazing Regulations applicable to Indian lands. These rules were issued under the authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM2 and pursuant to the authority vested in the Secretary of the Interior by 5 U.S.C. 301 and under various statutes relating to the surface use of Indian lands which were cited on page 9384 of Volume 34 of the FEDERAL REGISTER published on June 14, 1969.

Part 151, Subchapter N, Chapter I, Title 25, of the Code of Federal Regulations as published in the FEDERAL REGISTER on June 14, 1969 (34 F.R. 9385), is amended by revising § 151.10, entitled "Allocation of Grazing Privileges," as follows: Add one new sentence reading "The Superintendent may implement the governing body's allocation program by authorizing the allocation of grazing privileges on individually owned land." This new sentence is added immediately following the first sentence which ends with the words "* * * by that governing body."

J. L. NORWOOD,
Acting Deputy Commissioner.

[F.R. Doc. 69-8228; Filed, July 11, 1969; 8:46 a.m.]

Title 32—NATIONAL DEFENSE

Chapter I—Office of the Secretary of Defense

SUBCHAPTER D—SECURITY

PART 156—DEPARTMENT OF DEFENSE CIVILIAN APPLICANT AND EMPLOYEE SECURITY PROGRAM

Policy

The following miscellaneous amendment to Part 156 has been approved:

Section 156.6(c) is revised to read as follows:

§ 156.6 Policy.

* * * * *

(c) No U.S. citizen permanent or indefinite employee of the Department of Defense who has been appointed to a sensitive position shall be suspended, reassigned, or detailed to a nonsensitive position in the interests of national security without being granted the procedural benefits set forth in § 156.10.

* * * * *

MAURICE W. ROCHE,
Director, Correspondence and Directives Division, OASD (Administration).

[F.R. Doc. 69-8217; Filed, July 11, 1969; 8:45 a.m.]

Chapter XVIII—Office of Civil Defense, Office of the Secretary of the Army

PART 1801—CONTRIBUTIONS FOR CIVIL DEFENSE EQUIPMENT

Principles for Determining Costs

Part 1801 of Chapter XVIII of Title 32 of the Code of Federal Regulations is revised as follows:

1. Section 1801.2 is revised by adding a new paragraph, (i), reading as follows:

§ 1801.2 Definitions.

* * * * *

(i) *Allowable costs.* Except where restricted or prohibited by law the cost principles set forth in Circular A-87, issued by the Bureau of the Budget on May 9, 1968, will be applied beginning July 1, 1969, in determining costs incurred by State governments and at the earliest practicable date but no later than January 1, 1970 in determining costs incurred by political subdivisions of a State.

§ 1801.9 [Amended]

2. In § 1801.9, paragraph (c) is revoked.

(64 Stat. 1250, 1255, 50 U.S.C. App. 2281; 2253; Reorg. Plan No. 1 of 1958 as amended, 72 Stat. 1799-1801, 23 F.R. 4991; E.O. 10952, as amended, 26 F.R. 6577; Delegation of Authority Regarding Civil Defense Functions and Establishment of the Office of Civil Defense, Apr. 10, 1964, 29 F.R. 5017)

Dated: June 30, 1969.

JOHN E. DAVIS,
Director of Civil Defense.

[F.R. Doc. 69-8215; Filed, July 11, 1969; 8:45 a.m.]

PART 1807—CONTRIBUTIONS FOR CIVIL DEFENSE PERSONNEL AND ADMINISTRATIVE EXPENSES

Principles for Determining Costs

Section 1807.7 of Title 32 of the Code of Federal Regulations is revised to read as follows:

§ 1807.7 Federal share and allowable costs.

(a) *Federal share.* The Federal financial contribution shall not exceed one-half the total allowable cost of necessary and essential State and local personnel and administrative expenses.

(b) *Allowable costs.* Except where restricted or prohibited by law the cost principles set forth in Circular A-87, issued by the Bureau of the Budget on May 9, 1968, will be applied beginning July 1, 1969, in determining costs incurred by State governments and at the earliest practicable date but no later than January 1, 1970, in determining costs incurred by political subdivisions of a State.

(Secs. 205, 401(g), 72 Stat. 533, 534, 64 Stat. 1255, 50 U.S.C. App. 2286, 50 U.S.C. App 2253; 72 Stat 1799-1801, 23 F.R. 4991; E.O. 10952, as amended, 26 F.R. 6577; Delegation of Authority Regarding Civil Defense Functions and Establishment of the Office of Civil Defense, Apr. 10, 1964, 29 F.R. 5017)

Dated: June 30, 1969.

JOHN E. DAVIS,
Director of Civil Defense.

[F.R. Doc. 69-8216; Filed, July 11, 1969; 8:45 a.m.]

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 207—NAVIGATION REGULATIONS

Wrangell Narrows, Alaska, and Brunswick River, N.C.

1. Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U.S.C. 1), § 207.800 governing the use, administration, and navigation of Wrangell Narrows, Alaska, is hereby amended revoking paragraph (b), revising paragraphs (c), (d), (e), and (g) in their

entirety effective 30 days after publication in the FEDERAL REGISTER, as follows:

§ 207.800 Wrangell Narrows, Alaska; use, administration and navigation.

* * * * *

(b) [Revoked]

(c) *Speed restrictions.* No vessel shall exceed a speed of seven (7) knots in the vicinity of Petersburg, between Wrangell Narrows Channel Light 58 and Wrangell Narrows Lighted Buoy 60.

(d) *Tow channel.* The following route shall be taken by all tows passing through Wrangell Narrows when the towboat has a draft of 9 feet or less (northbound, read down; southbound, read up):

East of Battery Islets:
East of Tow Channel Buoy 1 TC.
East of Tow Channel Buoy 3 TC.
West of Tow Channel Buoy 4 TC.
East of Colorado Reef:
East of Wrangell Narrows Channel Light 21.
West of Wrangell Narrows Channel Lighted Buoy 25.
East of Tow Channel Buoy 5 TC.
East of Tow Channel Buoy 7 TC.
West of Petersburg:
East of Wrangell Narrows Channel Light 54 FR.
East of Wrangell Narrows Channel Light 56 Qk FR.
East of Wrangell Narrows Channel Light 58 FR., thence proceeding to west side of channel and leaving Wrangell Narrows by making passage between Wrangell Narrows Channel Daybeacon 61 and Wrangell Narrows North Entrance Lighted Bell Buoy 63 F.

(e) *Size of tows.* The maximum tows permitted shall be one pile driver, or three units of other towable equipment or seven raft sections.

* * * * *

(g) *Anchorage.* Vessels may anchor in the anchorage basin in the vicinity of Anchor Point. No craft or tow shall be anchored in Wrangell Narrows in either the main ship channel or the towing channel, nor shall any craft or tow be anchored so that it can swing into either of these channels.

* * * * *

[Regs., June 26, 1966, 1507-32 (Wrangell Narrows, Alaska)-ENGCW-ON] (Sec. 7, 40 Stat. 266; 33 U.S.C. 1)

2. Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U.S.C. 1) § 207.900 governing the use and navigation of restricted areas in the vicinity of Maritime Administration Reserve Fleets is hereby amended by revoking paragraph (a)(3) effective upon publication in the FEDERAL REGISTER, since the area is no longer needed, as follows:

§ 207.900 Restricted areas in vicinity of Maritime Administration Reserve Fleets.

(a) * * *

(3) [Revoked]

* * * * *

[Regs., June 25, 1969, 1507-32 (Brunswick River, N.C.)-ENGCW-ON] (Sec. 7, 40 Stat. 266; 33 U.S.C. 1)

For the Adjutant General.

HAROLD SHARON,
Chief, Legislative and Precedent Branch, Management Division, TAGO.

[F.R. Doc. 69-8214; Filed, July 11, 1969; 8:45 a.m.]

Title 28—JUDICIAL ADMINISTRATION

Chapter I—Department of Justice

[Order 419-69]

PART 0—ORGANIZATION OF THE DEPARTMENT OF JUSTICE

Subpart K—Criminal Division

AUTHORIZATION TO REDELEGATE AUTHORITY

By virtue of the authority vested in me by sections 509 and 510 of title 28 and section 301 of title 5 of the United States Code, § 0.59 of Subpart K of Part 0 of Chapter I of Title 28, Code of Federal Regulations, is amended by designating the present text as paragraph (a) and by adding a new paragraph (b) to read as follows:

§ 0.59 Delegation respecting the approval of certain applications by U.S. Attorneys to Federal Courts for orders compelling testimony or the production of evidence by witnesses.

* * * * *

(b) The Assistant Attorney General in charge of the Criminal Division is authorized to redelegate the authority delegated to him by paragraph (a) of this section to his Deputy Assistant Attorney General to be exercised solely during the absence of the Assistant Attorney General from the City of Washington.

The amendment made by this order shall be effective upon publication in the FEDERAL REGISTER.

Dated: July 7, 1969.

JOHN N. MITCHELL,
Attorney General.

[F.R. Doc. 69-8262; Filed, July 11, 1969; 8:49 a.m.]

Title 36—PARKS, FORESTS, AND MEMORIALS

Chapter I—National Park Service, Department of the Interior

PART 7—SPECIAL REGULATIONS, AREAS OF THE NATIONAL PARK SERVICE

North Cascades National Park, Wash.; Removal of Restriction Prohibiting Use of Nonpreserved Fish Eggs for Fishing

Pursuant to the authority contained in section 3 of the Act of August 25, 1916 (39 Stat. 535, as amended; 16 U.S.C. 3), and the Act of October 2, 1968 (82 Stat. 926, 16 U.S.C. 90 et seq.), 245 DM-1 (27 F.R. 6395), National Park Service Order No. 34 (31 F.R. 4255), Regional Director, Western Regional Order No. 4 (31 F.R. 5577), as amended, Special Regulation, § 7.66, as hereby promulgated relaxes the General Regulation, § 2.13 *Fishing*, paragraph (j)(1) as it applies to the use of nonpreserved fish eggs.

The purpose of this special regulation is to bring about acceptable fishery practices and conformance with the State of Washington in regard to the use of nonpreserved fish eggs as fishing bait.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. However, since this special regulation will not impose any additional restrictions on the public, comment thereon is deemed to be unnecessary and not in the public interest. This special regulation will thus take effect upon its publication in the FEDERAL REGISTER.

(5 U.S.C. 553)

Section 7.66 reads as follows:

§ 7.66 North Cascades National Park.

(a) *Bait for fishing.* The use of nonpreserved fish eggs is permitted.

ROGER J. CONTOR,
Superintendent, North Cascades National Park.

[F.R. Doc. 69-8231; Filed, July 11, 1969; 8:47 a.m.]

Title 45—PUBLIC WELFARE

Chapter X—Office of Economic Opportunity

PART 1069—COMMUNITY ACTION PROGRAM GRANTEE PERSONNEL MANAGEMENT

Subpart—Travel Regulations for CAP Grantees and Delegate Agencies

Chapter X, Part 1069 of Title 45 of the Code of Federal Regulations is amended by adding a new subpart, reading as follows:

Sec.
1069.3-1 Applicability of this subpart.
1069.3-2 Policy.
1069.3-3 Accounting for travel funds.
1069.3-4 General travel regulations.
1069.3-5 Restrictions on charging out-of-the-community travel costs to grant funds.
1069.3-6 Approval of travel outside the continental United States.

AUTHORITY: The provisions of this subpart issued under sec. 602, 78 Stat. 530; 42 U.S.C. 2942.

§ 1069.3-1 Applicability of this subpart.

This subpart applies to all grant programs financially assisted under Titles I, II, and III-B of the Economic Opportunity Act, as amended, if the assistance is administered by OEO.

§ 1069.3-2 Policy.

(a) All grantees and delegate agencies are required to follow the travel policies set forth in the Standardized Government Travel Regulations (SGTR). However, when a grantee or delegate agency has existing travel policies that are more restrictive than those in the SGTR, or when the grant contains more restrictive limitations, the more restrictive policies shall be followed.

(b) The governing or administering board of each grantee or delegate agency shall approve its written travel regulations and designate responsible officials to assure that the regulations comply with the requirements of this subpart and are adhered to by employees when using grant funds (including the required non-Federal share) to pay for their travel.

(c) In common with other expenditures, payments for travel are subject to audit by independent licensed public accountants and Federal auditors. Expenditures for travel which fail to meet the requirements of this subpart may be questioned as proper charges against grant funds. Grantees are responsible for providing the documentation needed to prove that questioned travel expenditures were reasonable and necessary.

(d) In addition, grant funds may not be used to reimburse costs incurred for travel which violates any OEO Instruction, Community Action Memo or grant condition. Particular attention is directed to the limitations on travel for the purpose of lobbying set forth in Community Action Memo No. 66,[1] and to the authorized uses for project vehicles discussed in Community Action Memo No. 72.[1]

§ 1069.3-3 Accounting for travel funds.

All grantee or delegate agency payments for travel by employees, consultants, and members of governing or administering boards must be authorized in

[1] Not filed with the Office of the Federal Register.

advance and must be supported by properly approved invoices covering both travel and, if, applicable, per diem. Suggested forms for this purpose are available at OEO Headquarters and Regional Offices.

§ 1069.3–4 General travel regulations.

(a) General travel regulations issued by grantees and delegate agencies should contain the restrictions set forth as follows:

(1) Where a grantee or delegate agency has a previously established travel policy which contains requirements that are more restrictive than those of the SGTR, the more restrictive requirements shall be followed.

(2) Mileage costs for use of privately owned automobiles shall be paid in accordance with prevailing rates in a community. In no event, however, may the rates paid exceed 10 cents a mile.

(3) Less than first-class travel accommodations shall be used in all instances except the following: The reason(s) for travelling first-class must be shown on travel vouchers submitted for reimbursement.

(i) These accommodations do not exist are not available within a reasonable time;

(ii) Less than first-class would result in higher overall cost because of required routing, time urgency, baggage differential or other factors;

(iii) Physical condition of the traveler or other extenuating circumstances require the use of first-class.

(b) Grantee and delegate agency travelers shall have their travel authorized in advance in accordance with their organization's rules on the subject. The authorization shall include a brief explanation of the purpose of the trip, destination, and period during which the travelers will be on travel status. Reimbursements for travel expenses should be supported by vouchers that show the name of the individuals who traveled and refer to the authorization that approved the travel.

(c) Local travel expenses for persons whose position require daily or intermittent travel should be covered by a general travel authorization and should only be reimbursed after presentation of a local travel expense statement submitted at regular intervals.

(d) When program personnel are in a travel status through the ending date of a program year and into a new program year, the cost of their transportation shall be charged to the period in which the tickets for their travel were purchased. However, mileage, per diem, and other expenses reimbursed to a traveler shall be charged to the proper program-year grant in accordance with the days in which the expenses were incurred and the per diem was due.

§ 1069.3–5 Restrictions on charging out-of-the-community travel costs to grant funds.

(a) Grantees may use OEO grant funds to reimburse out-of-the-community travel costs incurred by grantee and delegate agency employees, consultants, and members of governing or administering boards without obtaining prior OEO approval, if the travel was for purposes outlined below and meets the geographical limitations of § 1069.3–6.

(1) The travel is in response to a specific invitation from the OEO Headquarters or an OEO Regional Office to attend a conference or meeting for the purpose of furthering CAP activities.

(2) Travel to attend conferences and meetings of professional organizations whose efforts are closely related to the poverty programs. This would include, but not be limited to, State Economic Opportunity Offices operating under an OEO grant, the National Association for Community Development, and Community Action Directors' Associations. No specific limit is imposed on the number of trips which may be charged to the grant within the approved budget. However, grantees and delegate agencies should be prepared to show to OEO auditors, inspectors, and evaluation teams that each such trip was reasonable and contributed to the development or management of the grantee's approved program.

(3) Travel to interview prospective employees or to procure services, supplies or equipment when it can be shown that the travel was necessary and advantageous in the instances involved.

(b) All other travel must be specifically approved, in writing, in advance by the Director, Community Action Program, OEO (Headquarters funded programs) and the Regional Director (Regionally funded programs), or their designees, before reimbursement from grant funds is authorized.

§ 1069.3–6 Approval of travel outside the continental United States.

(a) All travel outside of the limits of the 48 continental United States must be approved in writing, in advance, by the Regional Director for Regionally administered grants or the Director, CAP, for Headquarters administered grants. Similar approval is required for travel within the continental United States by CAP grantees in Alaska, Hawaii, and the United States Territories.

(b) CAP grantees in Alaska, Hawaii, and the Territories may permit travel to meetings within their state or territory without specific OEO approval, if the travel meets the other requirements of this instruction. Travel is also permitted between Puerto Rico and the Virgin Islands for area meetings and conferences and similarly between Micronesia (the Trust Territories) and Guam. All other travel outside of these States or areas must have prior approval.

Effective date. This subpart shall become effective 30 days following the date of publication in the FEDERAL REGISTER.

THEODORE M. BERRY,
Director,
Community Action Program.

[F.R. Doc. 69–8232; Filed, July 11, 1969; 8:47 a.m.]

Title 7—AGRICULTURE

Chapter III—Agricultural Research Service, Department of Agriculture

PART 354—OVERTIME SERVICES RELATING TO IMPORTS AND EXPORTS

Commuted Traveltime Allowances

Pursuant to the authority conferred upon the Director of the Plant Quarantine Division by § 354.1 of the regulations concerning overtime services relating to imports and exports, effective July 14, 1968 (7 CFR 354.1), administrative instructions (7 CFR 354.2), effective August 19, 1967, as amended February 9, 1968, April 19, 1968, July 25, 1968, December 14, 1968, February 19, 1969, and June 6, 1969 (32 F.R. 11981, 33 F.R. 2757, 5987, 10561, 18580, 34 F.R. 2351, 9025), prescribing the commuted traveltime that shall be included in each period of overtime or holiday duty, are hereby amended by adding to the "lists" therein as follows:

§ 354.2 Administrative instructions prescribing commuted traveltime.

* * * * *

WITHIN METROPOLITAN AREA

ONE HOUR

Add: Bangor, Maine (served by inspectors temporarily detailed to Bangor, Maine, or vicinity, in excess of 12 hours).

* * * * *

OUTSIDE METROPOLITAN AREA

* * * * *

THREE HOURS

Add: Any undesignated Maine port served from Boston, Mass.

* * * * *

SIX HOURS

Add: Bangor, Maine (served from Boston, Mass.).

* * * * *

These commuted traveltime periods have been established as nearly as may be practicable to cover the time necessarily spent in reporting to and returning from the place at which the employee performs such overtime or holiday duty when such travel is performed solely on account of such overtime or holiday duty. Such establishment depends upon facts within the knowledge of the Plant Quarantine Division. It is to the benefit of the public that these instructions be made effective at the earliest practicable date. Accordingly, pursuant to the provisions of 5 U.S.C. 553, it is found upon good cause that notice and public procedure on these instructions are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making these instructions effective less than 30 days after publication in the FEDERAL REGISTER.

(64 Stat. 561; 7 U.S.C. 2260)

This amendment shall become effective upon publication in the FEDERAL REGISTER.

Done at Hyattsville, Md., this 8th day of July 1969.

[SEAL] F. A. JOHNSTON,
Director,
Plant Quarantine Division.

[F.R. Doc. 69-8237; Filed, July 11, 1969; 8:47 a.m.]

PART 354—OVERTIME SERVICES RELATING TO IMPORTS AND EXPORTS

Overtime Work at Border Ports, Seaports, and Airports

Pursuant to the authority conferred by the Act of August 28, 1950 (64 Stat. 561; 7 U.S.C. 2260), § 354.1 of Part 354, Title 7, Code of Federal Regulations, is amended to read as follows:

§ 354.1 Overtime work at border ports, seaports, and airports.

(a) Any person, firm, or corporation having ownership, custody, or control of plants, plant products, or other commodities or articles subject to inspection, certification, or quarantine under this chapter, who requires the services of an employee of the Plant Quarantine Division on a holiday or at any other time outside the regular tour of duty of such employee, shall sufficiently in advance of the period of overtime or holiday service request the Division inspector in charge to furnish inspection, quarantine, or certification service during such overtime or holiday period, and shall pay the Government therefor at the rate of $8.32 per man-hour per employee. A minimum charge of 2 hours shall be made for any holiday or unscheduled overtime duty performed by an employee on a day when no work was scheduled for him or which is performed by an employee on his regular work day beginning either at least 1 hour before his scheduled tour of duty or which is not in direct continuation of the employee's regular tour of duty. In addition, each such period of unscheduled overtime or holiday work to which the 2-hour minimum charge provision applies which requires the employee involved to perform additional travel may include a commuted travel time period the amount of which shall be prescribed in administrative instructions to be issued by the Director of the Plant Quarantine Division for the areas in which the holiday or overtime work is performed and such period shall be established as nearly as may be practicable to cover the time necessarily spent in reporting to and returning from the place at which the employee performs such overtime or holiday duty if such travel is performed solely on account of such overtime or holiday service. With respect to places of duty within the metropolitan area of the employee's headquarters, such commuted travel period shall not exceed 3 hours. When inspection, quarantine or certification services are performed at locations outside the metropolitan area in which the employee's headquarters is located, one-half of the commuted travel period applicable to the point at which the services are performed shall be charged when duties involve overtime that begins less than 1 hour before the beginning of the regular tour and/or is in continuation of the regular tour of duty. It will be administratively determined from time to time which days constitute holidays.

(b) The Division inspector in charge in honoring a request to furnish inspection, quarantine, or certification service, shall assign employees to such holiday or overtime duty with due regard to the work program and availability of employees for duty.

(64 Stat. 561; 7 U.S.C. 2260)

The foregoing amendment shall become effective July 13, 1969, when it shall supersede 7 CFR 354.1, effective July 14, 1968.

The purpose of this amendment is to increase the hourly rate for overtime or holiday services from $7.92 to $8.32 commensurate with salary increases provided in the Federal Salary Act of 1967 (Public Law 90-206). Determination of the hourly rate for overtime services and of the commuted travel time allowances depends entirely upon facts within the knowledge of the Department of Agriculture. It is to the benefit of the public that this amendment be made effective at the earliest practicable date. Accordingly, pursuant to the administrative provisions of 5 U.S.C. 553, it is found upon good cause that notice and public procedure on this amendment are impracticable, unnecessary, and contrary to the public interest and good cause is found for making this amendment effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 9th day of July 1969.

[SEAL] R. J. ANDERSON,
Acting Administrator,
Agricultural Research Service.

[F.R. Doc. 69-8288; Filed, July 11, 1969; 8:49 a.m.]

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Lemon Reg. 282]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 910.582 Lemon Regulation 282.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act by tending to establish and maintain such orderly marketing conditions for such lemons as will provide, in the interest of producers and consumers, an orderly flow of the supply thereof to market throughout the normal marketing season to avoid unreasonable fluctuations in supplies and prices, and is not for the purpose of maintaining prices to farmers above the level which it is declared to be the policy of Congress to establish under the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held, the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 8, 1969.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period July 13, 1969, through July 19, 1969, are hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 311,550 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: July 10, 1969.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[F.R. Doc. 69-8287; Filed, July 11, 1969; 8:49 a.m.]

[Lime Reg. 27, Amdt. 3]

PART 911—LIMES GROWN IN FLORIDA

Quality and Size Regulation

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 911, as amended (7 CFR Part 911), regulating the handling of limes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the Florida Lime Administrative Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of limes, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The recommendation of the Lime Administrative Committee reflects its appraisal of current crop and market conditions. More restrictive regulation requirements should be made effective no later than July 14, 1969, because market prices for fresh limes declined severely. Hence, a higher minimum grade regulation for limes for fresh shipment is needed to increase returns to producers through a reduction in the marketable supply while providing consumers with more desirable limes of better quality.

(3) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) in that the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than July 14, 1969. Shipments of Florida limes are currently regulated pursuant to Lime Regulation 27 (34 F.R. 6438, 7867, 9849) and unless sooner terminated, will continue to be so regulated through April 30, 1970; determinations as to the need for, and extent of, continued regulation of Florida lime shipments must await the development of the crop and the availability of information on the demand for such fruit; the recommendations and supporting information for regulation of lime shipments subsequent to July 14, 1969, and in the manner herein provided, were promptly submitted to the Department after a meeting of the Florida Lime Administrative Committee on July 9, 1969, held to consider recommendations for regulations; the provisions of this amendment are identical with the aforesaid recommendations of the committee and information concerning such provisions has been disseminated among handlers of Florida limes; it is necessary, in order to effectuate the declared policy of the act, to make this amendment effective as hereinafter set forth; and compliance with this amendment will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

Order. In § 911.329 (Lime Reg. 27; 34 F.R. 6438, 7867, 9849) the introductory text of paragraph (a)(2) and subdivision (ii) thereof is amended to read as follows:

§ 911.329 Lime Regulation 27.

(a) * * *

(2) During the period July 14, 1969, through April 30, 1970, no handler shall handle:

* * * * *

(ii) Any limes of the group known as large fruited or Persian limes (including Tahiti, Bearss, and similar varieties) which do not grade at least U.S. No. 1: *Provided,* That limes which meet all the requirements of the U.S. No. 1 grade, except as to color, may be shipped if such limes meet the color requirements of the U.S. No. 2 grade; or

* * * * *

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated, July 11, 1969, to become effective July 14, 1969.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[F.R. Doc. 69–8347; Filed, July 11, 1969; 11:28 a.m.]

[Peach Reg. 7]

PART 919—PEACHES GROWN IN MESA COUNTY, COLO.

Regulation by Grades and Sizes

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 919, as amended (7 CFR Part 919), regulating the handling of peaches grown in the County of Mesa in the State of Colorado, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the Administrative Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of such peaches, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The recommendations by the Administrative Committee reflect its appraisal of the crop and current and prospective market conditions. Shipments of peaches from the production area are expected to begin on or about July 14, 1969. The grade and size requirements provided herein are necessary to prevent the handling, on and after July 14, 1969, of any peaches of lower grades and smaller sizes than those herein specified, so as to provide consumers with good quality fruit, consistent with (1) the overall quality of the crop, and (2) maximizing returns to the producers pursuant to the declared policy of the act. The grade and size requirements reflect the necessity for eliminating the least desirable grades and sizes; the committee's estimate of the percentage of the fruit that will be eliminated by such requirements; and the quantity of the more desirable grades and sizes which will be available for shipment after such elimination.

(3) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) in that, as hereinafter set forth, the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than July 14, 1969. A reasonable determination as to the supply of, and the demand for, such peaches must await the development of the crop and adequate information thereon was not available to the Administrative Committee until July 8, 1969; recommendations as to the need for, and the extent of, regulation of shipments of such peaches were made by said committee on July 8, 1969, after consideration of all information then available relative to the supply and demand conditions for such peaches, at which time the recommendation and supporting information were submitted to the Department on July 9, and made available to growers and handlers; shipments of the current crop of peaches are expected to begin on or about the effective date hereof; and this regulation should be applicable, insofar as practicable, to all shipments of such peaches in order to effectuate the declared policy of the act; and compliance with this regulation will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

§ 919.308 Peach Regulation 7.

(a) *Order.* (1) During the period July 14, 1969, through September 14, 1969, no handler shall ship:

(i) Any peaches of any variety which do not grade at least U.S. No. 1 grade except as follows: Not to exceed 20 percent, by count, of such peaches in such lot may consist of peaches which do not meet the requirements of such grade, but not more than 10 percent, by count, of the peaches in any such lot may consist of peaches with defects causing serious damage of which not more than 5 percent shall consist of such defects caused by twig borer, or oriental fruit moth, and not more than 1 percent, by count, of the peaches in any such lot may consist of peaches which are not free from decay;

(ii) Any peaches of any variety which are of a size smaller than 2⅛ inches in diameter: *Provided*, That any lot of peaches shall be deemed to be of a size not smaller than 2⅛ inches in diameter (*a*) if not more than 10 percent, by count, of such peaches in such lot are smaller than 2⅛ inches in diameter; and (*b*) if not more than 15 percent, by count, of the peaches contained in any individual container in such lot are smaller than 2⅛ inches in diameter.

(2) Definitions: As used herein, "peaches," "handler," "ship," and "varieties" shall have the same meaning as when used in the aforesaid amended marketing agreement and order; "U.S. No. 1," "diameter," "count," and "serious damage" shall have the same meaning as when used in the U.S. Standards for Peaches (§§ 51.1210–51.1223 of this title).

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 11, 1969.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[946.324]

PART 946—IRISH POTATOES GROWN IN WASHINGTON

Limitation of Shipments and Import Requirements for Red Skinned Round Type Potatoes

Notice of rule making with respect to a proposed limitation of shipments regulation to be made effective under Marketing Agreement No. 113 and Order No. 946 (7 CFR Part 946), regulating the handling of Irish potatoes grown in the State of Washington, was published in the FEDERAL REGISTER June 27, 1969 (34 F.R. 9934). This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.). Interested persons were afforded an opportunity to file written data, views, or arguments pertaining thereto not later than 5 days after publication. None was filed.

Statement of consideration. The notice was based on the recommendations and information submitted by the State of Washington Potato Committee, established pursuant to the said marketing agreement and order and other available information. The recommendations of the committee reflect its appraisal of the composition of the 1969 crop of Washington potatoes and of the marketing prospects for this season.

The grade, size, cleanliness, and maturity requirements provided herein are necessary to prevent immature potatoes, or those that are of poor quality, or undesirable sizes from being distributed in fresh market channels. They will also provide consumers with good quality potatoes consistent with the overall quality of the crop, and maximize returns to producers for the preferred quality and sizes.

The regulations with respect to special purpose shipments for other than fresh market use are designed to meet the different requirements for such outlets.

Findings. After consideration of all relevant matter presented in the aforesaid notice, based upon the recommendations of the State of Washington Potato Committee and other available information, it is hereby found that the limitation of shipments regulation, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

It is hereby further found that good cause exists for making this regulation effective at the time herein provided and for not postponing the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of 1969 crop potatoes grown in the production area will begin on or about the effective date specified herein, (2) to maximize benefits to producers, this regulation should apply to as many shipments as possible during the effective period, (3) identical regulations were in effect during the previous marketing season for potatoes produced in the State of Washington, so producers and handlers are aware of the provisions of this regulation, and (4) compliance with this regulation will not require any special preparation on the part of persons subject thereto which cannot be completed by such effective date.

§ 946.324 Limitation of shipments.

During the period July 16, 1969, through July 15, 1970, no person shall handle any lot of potatoes unless such potatoes meet the requirements of paragraphs (a) and (b) of this section, or unless such potatoes are handled in accordance with paragraphs (c) through (f) of this section.

(a) *Minimum quality requirements*—(1) *Grade.* All varieties—U.S. No. 2, or better grade.

(2) *Size*—(i) *Round varieties.* 1⅞ inches minimum diameter.

(ii) *Long varieties.* 2 inches minimum diameter or 4 ounces minimum weight.

(3) *Cleanliness.* All varieties—at least "fairly clean."

(b) *Minimum maturity requirements*—(1) *Round and long white (White Rose) varieties.* "Moderately skinned" which means that not more than 10 percent of the potatoes in any lot may have more than one-half of the skin missing or "feathered."

(2) *Other long varieties (including but not limited to Russet Burbank and Norgold).* "Slightly skinned" which means that not more than 10 percent of the potatoes in the lot have more than one-fourth of the skin missing or "feathered."

(c) *Special purpose shipments.* The minimum grade, size, cleanliness, and maturity requirements set forth in paragraphs (a) and (b) of this section shall not be applicable to shipments of seed potatoes or to shipments of potatoes for any of the following purposes:

(1) Livestock feed;
(2) Charity;
(3) Starch;
(4) Canning or freezing;
(5) Dehydration;
(6) Export;
(7) Potato chipping;
(8) Prepeeling; or
(9) Potato sticks (French fried shoestring potatoes).

(d) *Safeguards.* Each handler making shipments of potatoes for canning, freezing, dehydration, export, potato chipping, prepeeling, or potato sticks pursuant to paragraph (c) of this section, unless such potatoes are handled in accordance with paragraph (e) of this section, shall:

(1) Notify the committee of intent so to ship potatoes by applying on forms furnished by the committee for a certificate applicable to such special purpose shipment;

(2) Obtain a Washington State Shipping Permit as issued by the Washington State Department of Agriculture in lieu of a Federal-State Inspection Certificate, except shipments for export; and

(3) Prepare on forms furnished by the committee a special purpose shipment report on each such shipment. The handler shall forward copies of each such special purpose shipment report to the committee office and to the receiver with instructions to the receiver that he sign and return a copy to the committee office. Failure of handlers or receivers to report such shipments by promptly signing and returning the applicable special purpose shipment report to the committee office shall be cause for cancellation of such handler's certificate applicable to such special purpose shipments and/or the receiver's eligibility to receive further shipments pursuant to such certificate. Upon cancellation of such certificate, the handler may appeal to the committee for reconsideration. Such appeal shall be in writing.

(4) Before diverting any such special purpose shipment from the receiver of record as previously furnished to the committee by the handler, such handler shall submit to the committee a revised special purpose shipment report.

(e) *Special purpose shipments exempt from safeguards.* In the case of shipments of potatoes: (1) To freezers or dehydrators in the counties of Grant, Adams, Franklin, Benton, and Yakima in the State of Washington and (2) for canning, freezing, dehydration, potato chipping, or prepeeling within the district where grown, the handler of such potatoes shall be exempt from safeguard requirements of paragraph (d) of this section whenever the processor of such potatoes has signed an agreement with the committee to meet the reporting and other requirements of this part specified by the committee.

(f) *Minimum quantity exception.* Each handler may ship up to, but not to exceed 5 hundredweight of potatoes any day without regard to the inspection and assessment requirements of this part, but this exception shall not apply to any shipment over 5 hundredweight of potatoes.

(g) *Definitions.* The terms "U.S. No. 2," "fairly clean," "slightly skinned," and "moderately skinned" shall have the same meaning as when used in the U.S. Standards for Potatoes (§§ 51.1540–51.1556 of this title), including the tolerances set forth therein. The term "prepeeling" means potatoes which are clean, sound, fresh tubers prepared commercially in the prepeeling plant by washing, removal of the outer skin or peel, trimming, and sorting preparatory to sale in one or more of the styles of peeled potatoes described in § 52.2422 (U.S. Standards for Grades of Peeled Potatoes §§ 52.2421–52.2433 of this title). Other terms used in this section shall have the same meaning as when used in Marketing Agreement No. 113 and this part (Order No. 946).

(h) *Applicability to imports.* Pursuant to section 608e–1 of the Act and § 980.1 "Import regulations" (§ 980.1 of this chapter), Irish potatoes of the red skinned round type imported during the months of July and August shall meet the grade, size, quality, and maturity requirements specified for round varieties in paragraphs (a) and (b) of this section.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated July 8, 1969, to become effective July 16, 1969.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

Title 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

Subpart D—Administration of Educational Benefits; 38 U.S.C. Chapters 34, 35, and 36

RATES; EDUCATIONAL ASSISTANCE ALLOWANCE

In § 21.4136, paragraph (a) is amended to read as follows:

§ 21.4136 Rates; educational assistance allowance; 38 U.S.C. chapter 34.

(a) *Rates.* Educational assistance allowance is payable for periods commencing on or after October 1, 1967, at the following monthly rates.

Type of courses	Monthly rate			
	No dependent	One dependent	Two dependents	Additional for each additional dependent
Institutional:				
Full time	$130	$155	$175	$10
¾ time	95	115	135	7
½ time	60	75	85	5
Less than ½, but more than ¼ time	[1] 60			
¼ time or less	[1] 30			
Cooperative, other than farm cooperative (full time only)	105	125	145	7
Apprentice or on-job (full-time only):				
Payment designated training assistance allowance:				
1st 6 months	80	90	100	None
2d 6 months	60	70	80	None
3d 6 months	40	50	60	None
4th 6 months and succeeding periods	20	30	40	None
Correspondence	Established charge for number of lessons completed by veteran and serviced by school [2]—Allowance paid quarterly.			
Flight training	90 per centum of the established charges for tuition and fees which similarly circumstanced nonveterans enrolled in the same flight course are required to pay—Allowance paid monthly based on actual flight training received.			
Farm cooperative:				
Full time	105	125	145	7
¾ time	75	90	105	5
½ time	50	60	70	

(38 U.S.C. 1677, 1682, 1683)

[1] See paragraph (b) of this section.
[2] Established charge means the cost of the lowest time payment plan or the actual cost to the veteran, whichever is lesser.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Consumer and Marketing Service

[7 CFR Part 922]

APRICOTS GROWN IN DESIGNATED COUNTIES IN WASHINGTON

Approval of Expenses and Fixing of Rate of Assessment for 1969–70 Fiscal Period

Consideration is being given to the following proposals submitted by the Washington Apricot Marketing Committee, established under the marketing agreement, as amended, and Order No. 922, as amended (7 CFR Part 922), regulating the handling of apricots grown in designated counties in Washington, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), as the agency to administer the terms and provisions thereof:

(1) That the expenses that are reasonable and likely to be incurred by the Washington Apricot Marketing Committee during the period April 1, 1969, through March 31, 1970, will amount to $3,364.

(2) That there be fixed, at $1.50 per ton of apricots, the rate of assessment payable by each handler in accordance with § 922.41 of the aforesaid marketing agreement and order.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals should file the same, in quadruplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than the 10th day after the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: July 8, 1969.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 15]

FLOUR STANDARDS

Notice of Withdrawal of Proposal To Delete Oxides of Nitrogen and Nitrosyl Chloride From Lists of Optional Ingredients

In the matter of amending the definitions and standards of identity for flour, § 15.1 (with application by cross-reference to §§ 15.10, 15.20, 15.30, 15.50, 15.60, 15.70, and 15.75), and for whole wheat flour, § 15.80 (with application by cross-reference to §§ 15.90 and 15.100) by deleting oxides of nitrogen and nitrosyl chloride from the lists of optional ingredients:

Two comments were received in response to the proposal in the above-identified matter published on the initiative of the Commissioner of Food and Drugs in the FEDERAL REGISTER of August 27, 1966 (31 F.R. 11398). The proposal was based on an investigation showing that the two flour bleaching agents, oxides of nitrogen and nitrosyl chloride, were no longer used. To eliminate these items from periodic reviews, it proposed that they be deleted from the list of permitted optional bleaching ingredients.

One comment was favorable. One firm opposed the change on the ground that it uses the ingredients to bleach flour. Inasmuch as the ingredients are still being used, the Commissioner concludes that the provision for their optional use should not be deleted.

Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371) and under authority delegated to the Commissioner (21 CFR 2.120), the subject proposal of August 27, 1966 (31 F.R. 11398), is hereby withdrawn.

Dated: July 3, 1969.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

[42 CFR Part 81]

METROPOLITAN PROVIDENCE INTERSTATE AIR QUALITY CONTROL REGION

Notice of Proposed Designation and of Consultation With Appropriate State and Local Authoriites

Pursuant to authority delegated by the Secretary and redelegated to the Commissioner of the National Air Pollution Control Administration (33 F.R. 9909), notice is hereby given of a proposal to designate the Metropolitan Providence Interstate Air Quality Control Region (Rhode Island-Massachusetts) as set forth in the following new § 81.31 which would be added to Part 81 of Title 42, Code of Federal Regulations. It is proposed to make such designation effective upon republication.

Interested persons may submit written data, views, or arguments in triplicate to the Office of the Commissioner, National Air Pollution Control Administration, Ballston Center Tower II, Room 905, 801 North Randolph Street, Arlington, Va. 22203. All relevant material received not later than 30 days after the publication of this notice will be considered.

Interested authorities of the States of Rhode Island and Massachusetts and appropriate local authorities, both within and without the proposed region, who are affected by or interested in the proposed designation, are hereby given notice of an opportunity to consult with representatives of the Secretary concerning such designation. Such consultation will take place at the House Legislative Chamber, Second Floor, Rhode Island State Capitol, Smith Street, Providence, Rhode Island, beginning at 10 a.m., July 29, 1969.

Mr. Doyle J. Borchers is hereby designated as Chairman for the consultation. The Chairman shall fix the time, date, and place of later sessions and may convene, reconvene, recess, and adjourn the sessions as he deems appropriate to expedite the proceedings.

State and local authorities wishing to participate in the consultation should notify the Office of the Commissioner, National Air Pollution Control Administration, Ballston Center Tower II, Room

905, 801 North Randolph Street, Arlington, Va. 22203 of such intention at least 1 week prior to the consultation. A report prepared for the consultation is available upon request to the Office of the Commissioner.

In Part 81 a new § 81.31 is proposed to be added to read as follows:

§ 81.31 Metropolitan Providence Interstate Air Quality Control Region.

The Metropolitan Providence Interstate Air Quality Control Region (Rhode Island-Massachusetts) consists of the territorial area encompassed by the boundaries of the following jurisdictions or described area (including the territorial area of all municipalities (as defined in section 302(f) of the Clean Air Act, 42 U.S.C. 1857h(f)) geographically located within the outermost boundaries of the area so delimited):

The entire State of Rhode Island.
In the State of Massachusetts:

CITIES

Attleboro.
Fall River.
New Bedford.

Notices

DEPARTMENT OF THE TREASURY

Internal Revenue Service

JOHN MAX LINDLEY

Notice of Granting of Relief

Notice is hereby given that John Max Lindley, 10610 Southeast Boise Street, Portland, Oreg. 97266, has applied for relief from disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms incurred by reason of his conviction on March 14, 1934, by the Superior Court, Long Beach, Los Angeles County, Calif., of a crime punishable by imprisonment for a term exceeding 1 year. Unless relief is granted, it will be unlawful for John Max Lindley, because of such conviction, to ship, transport, or receive in interstate or foreign commerce any firearm or ammunition, and he would be ineligible for a license under chapter 44, title 18, United States Code as a firearms or ammunition importer, manufacturer, dealer, or collector. In addition, under title VII of the Omnibus Crime Control and Safe Streets Act of 1968, as amended (82 Stat. 236; 18 U.S.C., Appendix), because of such conviction, it would be unlawful for Mr. Lindley to receive, possess, or transport in commerce or affecting commerce, any firearm.

Notice is hereby given that I have considered John Max Lindley's application and have found:

(1) The conviction was made upon a charge which did not involve the use of a firearm or other weapon or a violation of chapter 44, title 18, United States Code, or of the National Firearms Act; and

(2) It has been established to my satisfaction that the circumstances regarding the conviction and the applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief would not be contrary to the public interest.

Therefore, pursuant to the authority vested in the Secretary of the Treasury by section 925(c), title 18, United States Code and delegated to me by 26 CFR 178.144, it is ordered that John Max Lindley be, and he hereby is, granted relief from any and all disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms and incurred by reason of the conviction hereinabove described.

Signed at Washington, D.C., this 7th day of July 1969.

[SEAL] RANDOLPH W. THROWER,
Commissioner of Internal Revenue.

[Docket No. G-442]

ROBERT L. KALB

Notice of Loan Application

Robert L. Kalb, Star Route, Box 6, Brownsville, Tex. 78520, has applied for a loan from the Fisheries Loan Fund to aid in financing the purchase of a used 65.9-foot, registered length wood vessel to engage in the fishery for shrimp.

Notice is hereby given pursuant to the provisions of Public Law 89-85 and Fisheries Loan Fund Procedures (50 CFR Part 250, as revised) that the above-entitled application is being considered by the Bureau of Commercial Fisheries, Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240.

Any person desiring to submit evidence that the contemplated operation of such vessel will cause economic hardship or injury to efficient vessel operators already operating in that fishery must submit such evidence in writing to the Director, Bureau of Commercial Fisheries, within 30 days from the date of publication of this notice. If such evidence is received it will be evaluated along with such other evidence as may be available before making a determination that the contemplated operations of the vessel will or will not cause such economic hardship or injury.

PROPOSED PATENT COOPERATION TREATY

Request for Comments

The Patent Office has received a copy of the final draft of a proposed Patent Cooperation Treaty, prepared by the United International Bureaux for the Protection of Intellectual Property (BIRPI) for submission to a Diplomatic Conference of the member states of the Paris Union during the spring of 1970.

Copies of the Treaty and implementing regulations will be published in the July 15, 1969, issue of the Official Gazette of the Patent Office and individual copies will be mailed to persons and firms appearing in the Directory of Registered Attorneys and Agents. Background material, also prepared by BIRPI, is planned for publication in the Official Gazette later in July.

Copies of these materials will be available after publication to interested persons upon request to the Commissioner of Patents.

All persons who desire to present their views, objections, recommendations, or suggestions in connection with the materials are invited to do so by forwarding the same to the Commissioner of Patents, Washington, D.C. 20231, on or before January 31, 1970. No hearing will be scheduled.

WILLIAM E. SCHUYLER, JR.,
Commissioner of Patents.

Approved: July 10, 1969.

POLONIUM-210

Price Increase

As a consequence of a recent major reduction in requirements for polonium-210, current AEC prices for this radioisotope are no longer consistent with recovery of AEC full costs for its production and distribution. To obviate this discrepancy, the Commission proposes to increase its price for polonium-210 to $80 per curie. Present polonium-210 prices vary with the quantity ordered. For the most commonly ordered amounts, the present price is $15 per curie.

All interested persons who desire to submit written comments for consideration in connection with this proposed price increase should send them to the Secretary, U.S. Atomic Energy Commission, Washington, D.C. 20545, within 45 days after publication of this notice in the FEDERAL REGISTER. Unless suspended or rescinded within 30 days after the period provided for public comment as a consequence of any substantive comment received, the new price will become effective 90 days after publication of this notice in the FEDERAL REGISTER.

Public comments received after the aforementioned 45-day period will be considered if it is practical to do so, but assurance of consideration cannot be given except as to comments filed within the period specified.

(Sec. 161, 68 Stat. 948; 42 U.S.C. 2201)

Dated at Washington, D.C., this 3d day of July 1969.

F. T. HOBBS,
Acting Secretary.

[Docket No. 18650; Order 69-7-41]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Specific Commodity Rates

Issued under delegated authority July 8, 1969.

By Order 69-6-104, dated June 19, 1969, action was deferred, with a view toward eventual approval, on certain resolutions adopted by the International Air Transport Association (IATA), relating to specific commodity rates. In deferring action on the agreement 10 days were granted in which interested persons might file petitions in support of or in opposition to the proposed action.

No petitions have been received within the filing period, and the tentative conclusions in Order 69-6-104 will herein be made final.

Accordingly, it is ordered, That:

Agreement CAB 20745, R-80 and R-81, be, and it hereby is, approved; *Provided*, That approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publication.

This order will be published in the FEDERAL REGISTER.

Secretary.

[F.R. Doc. 69-8247; Filed, July 11, 1969; 8:48 a.m.]

[Docket No. 20701; Order 69-7-45]

LAZARD FRERES & CO. ET AL.

Order of Tentative Approval of Control and Interlocking Relationships

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 8th day of July 1969.

By application filed February 6, 1969, Lazard Freres & Co. (Lazard) requests approval without hearing, pursuant to section 408(b) of the Federal Aviation Act of 1958, as amended, (the Act) of the common control by Lazard of Republic Carloading and Distributing Co., Inc. (RCD), Sullivan Lines, Inc. (Sullivan), and Republic Airmodal, Inc. (Airmodal). Approval under section 409 of the Act or disclaimer of jurisdiction is also requested with respect to certain interlocking relationships.

RCD is a surface freight forwarder authorized by the Interstate Commerce Commission to operate between all points in the United States with two exceptions.[1] RCD's principal operations consist of the assembly and consolidation of shipments for carriage by rail in carload or "piggy-back" lots and the break-bulk and distribution of these shipments. RCD has terminal facilities in 58 cities and its gross operating revenues for 1968 were approximately $39 million. It has seven subsidiaries, four of which are corporate shells which RCD does not intend to activate. The other three are Rep Trans, Inc., Bay Area Transport, Inc., and Biscayne Cartage Co. each of which performs cartage and/or pickup and delivery services at certain major cities in the United States.

Sullivan is an ICC motor carrier restricted to the carriage of freight tendered on the waybills of surface freight forwarders. It is not authorized to solicit, sell, or transport shipments for the general public or to interline with other motor carriers. It operates in the northeast United States in an area bounded roughly by Cincinnati, Detroit, Washington, and Boston. Sullivan owns no terminal facilities, trucks, or tractors. Its 61 trailers are moved exclusively by owner-drivers. Gross business in 1968 was $811,000.

Airmodal, a wholly owned subsidiary of RCD, is an applicant for domestic and international air freight forwarder authority. It will use the pickup and delivery services of RCD and its subsidiaries and its own sales force will be supplemented by the widespread RCD organization.

Lazard is a partnership engaged in the investment banking business and is a member of the New York Stock Exchange. It has 26 partners, 25 individuals and Lazard Freres et Cie, a Paris investment banking firm. In 1965, 13 of the present Lazard partners and others acquired a $500,000 participation in a First National City Bank-Marine Midland loan to Yale Transport Systems, Inc. (Yale), which then owned 96.8 percent of RCD. Shortly thereafter, Yale, followed by RCD, filed petitions for reorganization under Chapter X of the Bankruptcy Act. As a result of the court approved reorganization, RCD was completely divorced from Yale. Various financial arrangements to establish RCD as an operating entity resulted in Lazard loaning RCD $1 million and acquiring a 10-year option on 52 percent of RCD's common and 53.5 percent of its preferred stock. The stock is in a voting trust controlled by Lazard.[2] RCD owns all of the stock of Airmodal. Sullivan is owned by the Legum Corp., the stock of which is in a voting trust controlled by Lazard.

The interlocking relationships for which approval or disclaimer of jurisdiction is sought fall into two categories. One involves those persons who hold positions as officers and/or directors of RCD, Airmodal, Sullivan and the three cartage companies; i.e., companies within the same system of subsidiary or affiliated companies under the common control of Lazard. These individuals are Leslie Legum, Robert L. Lalich, Frank Woods, and Richard J. Mackey. The other category involves a partner of Lazard who is a director of RCD, and other Lazard partners who are directors of firms, the activities of which come within the scope of section 409 of the Act. Thus, representative relationships arise within the meaning of the doctrine of the Lehman Brothers Interlocking Relationships case, 15 CAB 656 (1952). Donald A. Petrie is chairman of the board of directors of RCD. D. D. Deane is a director of McLean Industries which derives 90 percent of its revenues from the operation of a subsidiary, Sea-Land Services, Inc., a common carrier by vessel. S. DeJ. Osborne is a director of United Fruit Co. which operates cargo vessels with limited passenger capacity principally between North America and Central and South America. George Murane, Jr., is a director of Wyandotte Chemicals, Inc., a subsidiary of which operates a terminal switching railway at the company's plant in Michigan.

No comments or requests for a hearing have been received.

Upon consideration of the application, it is concluded that Airmodal is an air carrier and that RCD and Sullivan are common carriers within the meaning of section 408 of the Act and that the acquisition of control of Airmodal by RCD and the common control of RCD and Sullivan by Lazard are subject to that section.

However, the Board has concluded tentatively that such acquisition does not involve the control of an air carrier directly engaged in the operation of aircraft in air transportation and does not result in creating a monopoly or tend to restrain competition. Furthermore, no person disclosing a substantial interest in this proceeding is currently requesting a hearing and it is concluded tentatively that a hearing is not required in the public interest.

Upon consideration of the foregoing, and other information set forth in the record herein, it does not appear that the common control by Lazard of RCD/Airmodal and Sullivan will pose any substantial conflict of interest problems. At the outset, we note that the Board as a matter of policy has permitted surface freight forwarders to participate in air freight forwarding.[3] Thus, the RCD-Airmodal relationship presents no new issues. As to the common control of RCD-Airmodal and Sullivan, we believe that because of the special characteristics of Sullivan's operations there is little potential for conflict of interest between Airmodal and Sullivan. In this connection, we note that Sullivan is restricted to transporting shipments on the waybills of surface freight forwarders and cannot solicit, sell or transport shipments of the general public or interline with other motor carriers; that it is a comparatively small scale operator with an investment in tangible property of less than $150,000 including 61 truck trailers (it owns no motorized equipment); that its gross operating revenue in 1968 was $811,000 of which RCD contributed less than 10 percent for transportation services furnished by Sullivan; and that only one of the markets which Sullivan is authorized to serve (New York-Detroit) is in the top 30 air freight markets.[4] Under these circumstances there appears to be little likelihood that the control relationships will present any significant conflicts of interest.[5] Nevertheless, should Sullivan's operations be expanded geographically in the future, new issues not now present may arise. In its final order, the Board will condition its approval so as to make that approval effective only so long as Sullivan's surface rights are not expanded beyond their present scope.[6] The Board will also retain jurisdiction generally over the control relationships subject to its approval.

The Board concludes that the interlocking relationships of Messrs. Legum, Lalich, Woods, and Mackey as officers

---

[1] These are (1) between points in California and points in Oregon, Washington, and Idaho, and (2) from points in Kansas and points in the United States east of and including Minnesota, Iowa, Missouri, Arkansas, and Louisiana, to points in Alaska and Hawaii.

[2] Lazard, by means of an identical voting trust, has assigned its interests in the option and the loan to RCD Holdings, Ltd., a wholly owned subsidiary.

[3] 9 CAB 473.

[4] CAB Economic Study of Air Freight Forwarding, May 1968, p. 188–189.

[5] While Sullivan might appear to come within the literal language of the proposed regulations issued concurrently with the Board's decision in the Motor Carrier-Air Freight Forwarder Investigation (Order 69–4–100, Apr. 21, 1969), in the light of the unique character of Sullivan's operations and other considerations discussed above and in the absence of any significant conflict of interest no purpose would be served in deferring the processing of the application until we act on the proposed regulation.

[6] We reach a like conclusion with respect to RCD's subsidiaries, Rep Trans, Inc., Bay Area Transport, Inc., and Biscayne Cartage Co.

and/or directors of the affiliated and subsidiary companies (RCD, Airmodal, Sullivan, and the three cartage companies) fall within the exemption from section 409 provided by Part 287 of the Board's economic regulations. Thus, to the extent the application requests approval of those relationships, it will be dismissed.

We will disclaim jurisdiction over the relationship between RCD/Airmodal and Wyandotte Chemicals Corp. arising as a result of Mr. Petrie's position with RCD and that of his partner, Mr. Murnane, with Wyandotte. The Board has previously disclaimed jurisdiction over terminal railway/supplemental air carrier relationships on the grounds that the geographical scope of the former's operations eliminates the potential for competition.[7] We conclude that the operations of indirect air carriers are similarly noncompetitive with terminal railway operations.

We have decided tentatively to approve the relationships between RCD/Airmodal and United Fruit Co. (Mr. Osborne) and McLean Industries (Mr. Deane) resulting from Mr. Petrie having a representative on the board of directors of the two companies. The Board has previously approved interlocking relationships between direct air carriers and United Fruit Co.[8] Both of these ocean carriers are primarily engaged, according to the applicants, in the transportation of low priority bulk cargoes and there is no reasonable expectancy of effective competition between these carriers and RCD/Airmodal in the immediate future. However, with the forthcoming availability of large capacity airfreighters resulting in increased competition between direct air carriers/air freight forwarders and ocean carriers, competitive problems not foreseeable at this time might develop. We shall therefore retain jurisdiction over the relationships for the purpose of reviewing our approval of the section 409 relationships at such time as may be necessary.

In view of the foregoing, the Board tentatively concludes that it should approve without hearing under the third proviso of section 408(b) of the Act the control relationships described herein. We will also tentatively approve under section 409, the interlocking relationships involving RCD/Airmodal, Lazard, United Fruit, Sea-Land, and Messrs. Petrie, Deane, and Osborne since a due showing has been made in the form and manner prescribed by Part 251 of the Board's economic regulations that such interlocking relationships will not adversely affect the public interest. In accordance with section 408 of the Act this order, constituting notice of the Boards' tentative findings, will be published in the FEDERAL REGISTER and interested persons will be afforded an opportunity to file comments or request a hearing thereon.

Accordingly, it is ordered:

1. That interested persons are afforded 10 days from the date of service hereof within which to file comments or request a hearing with respect to the Board's proposed action on the application in Docket 20701;[9] and

2. That the Attorney General be furnished a copy of this order within 1 day of publication.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
Secretary.

CIVIL SERVICE COMMISSION

HYDROLOGY SERIES

Minimum Educational Requirements

In accordance with section 3308 of title 5, United States Code, the Civil Service Commission has decided that minimum educational requirements should be established for positions in the Hydrology Series, GS-1315. The requirements, the duties of the positions, and the reasons for the Commission's decision that the requirements are necessary are set forth below.

HYDROLOGY SERIES, GS-1315 (ALL GRADES)

Minimum educational requirements. Candidates must have successfully completed one of the following requirements:

A. A full 4-year course of study at an accredited college or university leading to a bachelor's or higher degree with major study in physical or natural science (including geophysical sciences), or engineering. The study must have included at least 30 semester hours in any combination of courses in hydrology, physical science, engineering science, soils, mathematics, aquatic biology, or the management or conservation of water resources. The course work must have included differential and integral calculus, and physics.

B. Four years of education and/or experience, including a total of 30 semester hours in any combination of courses in hydrology, physical science (including geophysical sciences), engineering science, soils, mathematics, aquatic biology, or the management or conservation of water resources. The course work must have included differential and integral calculus, and physics. The combination of education and experience must demonstrate that the candidate possesses professional knowledge and skills comparable to those that would normally be acquired through the education described in A.

Duties. Hydrologists perform professional work such as the following:

Study and predict the interactions within the hydrologic cycle with relation to precipitation, evapotranspiration, streamflow, and subsurface water as influenced by the surface and subsurface characteristics of the watershed and the works of man.

Investigate the transport of sediment and dissolved materials in natural waters and the physical and biological changes resulting from this transport.

Evaluate the quantities, rates of movement and quality of water in the various phases of the hydrologic cycle.

Reasons for establishing requirements. The duties of these positions cannot be performed without a sound basic knowledge of the scientific principles, theories, and concepts that have application to the professional scientific field of hydrology, and the mathematical tools that are used in the analysis and treatment of hydrologic data. The duties of the positions require the application of highly technical scientific information and skills which can only be acquired through the successful completion of a course of study in an accredited college or university which has scientific libraries, well-equipped laboratories and thoroughly trained instructors, gives expert guidance, and evaluates progress competently.

UNITED STATES CIVIL SERVICE COMMISSION,

[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 18528; FCC 69R-292]

DeWITT RADIO

Memorandum Opinion and Order Enlarging Issues

In re application of Don Renault and Edwin Zaiontz, doing business as DeWitt Radio, Yorktown, Tex., Docket No. 18528, File No. BP-17138; for construction permit.

1. This proceeding involves the application of Don Renault and Edwin Zaiontz, doing business as DeWitt Radio (DeWitt) for an authorization to construct a new standard broadcast station at Yorktown, Tex. It was designated for hearing by order, FCC 69-423, 17 FCC 2d 385, 34 F.R. 7189, published May 1, 1969. Presently before the Review Board is a petition to enlarge issues, filed May 22, 1969, by Cuero Broadcasters, Inc.

(Cuero),[1] licensee of station KCFH, Cuero, Tex., and a party to the proceeding. Petitioner requests the addition of the following issues:

(1) To determine whether DeWitt Radio kept the Commission advised of "substantial and significant changes" as required by § 1.65 of the Commission's rules.

(2) To determine whether Don Renault deliberately made misrepresentations to the Commission in BP-17138 and/or BP-17254 with regard to his participation in the operation of the proposed stations.

(3) To determine, in light of the evidence adduced on the above issues, whether Don Renault possesses the requisite character qualifications to be a Commission licensee.

2. Cuero concedes that its petition was required to be filed on May 16, 1969, and is late under § 1.229(b) of the Commission's rules. However, petitioner contends that it was not possible to meet the deadline because of the late retention of legal counsel and the necessity of examining other applications submitted by principals of DeWitt, and requests that Rule 1.229 be waived to accept its late filing. Moreover, petitioner argues that because of the public interest questions raised, consideration of the petition on the merits is appropriate under the doctrine in Edgefield-Saluda Radio Company, 5 FCC 2d 148, 8 RR 2d 611 (1966). The Broadcast Bureau, in its comments, supports consideration of the petition on its merits.

3. Cuero has not shown good cause for its untimely filing. Its petition is grounded on an application filed in May 1966, and on an amendment filed in May 1967. Therefore, petitioner's lateness cannot be excused on the ground of the recent availability of these documents. As for the late retention of counsel, Cuero has not indicated when counsel was retained and we are therefore unable to determine whether such late retention might constitute good cause. Nevertheless, petitioner does raise substantial public interest questions and a grant of the requested issues would not unduly disrupt the proceeding. Therefore, consistent with our practice, we will consider the request on its merits. See WSTB-TV, Inc., 16 FCC 2d 625, 15 RR 2d 697 (1969); Edgefield-Saluda, supra.

Section 1.65 issue. 4. Petitioner notes that DeWitt filed the instant application in March 1966; that in May 1966, Don Renault, a partner in DeWitt, filed an application (BP-17254) for authorization to construct a new standard broadcast station in Del Rio, Tex.; and that application was subsequently granted and the station is now in operation under the call letters KWDR. Cuero contends that an examination of DeWitt's application reveals no amendment indicating that the Del Rio application had been filed or granted. Moreover, in its supplementary petition to enlarge issues, Cuero asserts that Don Renault is also a 51 percent owner of Inter-American Television Corp., Inc., which filed an application seeking a construction permit for a new television broadcast station to operate on Channel 10 in Del Rio, Tex., on April 1, 1969. Again, petitioner contends that the applicant has violated § 1.65 of the rules by failing to amend the instant application to reveal the filing of the channel 10 application.

5. The Review Board agrees with the Broadcast Bureau that the requested § 1.65 disqualifying issue should be added. Petitioner raises serious questions concerning whether DeWitt has kept the Commission informed of changes material to its application,[2] and the applicant has made no attempt to provide an explanation. An issue inquiring into this matter will therefore be specified.

Misrepresentation issue. 6. In support of its request for a misrepresentation issue, petitioner notes that DeWitt states in its application that Don Renault will be a full-time employee of the proposed station, and that Renault, in his 1966 Del Rio application, made the same statement in regard to that proposal. Cuero further points out that in May 1967, an amendment was filed to the Del Rio AM application in which Mr. Renault stated that he could fulfill both commitments by the utilization of his private plane, and that, while he would have a station manager in Yorktown, he would be general manager of that facility and responsible for a portion of its sales and all of its engineering. Petitioner contends that it is not possible for Mr. Renault to do both jobs, and that, since the Yorktown proposal involves a directional operation, it will require the presence of an engineer at all times when on the air, leading to a violation of the Commission's rules if Mr. Renault carries out his plan to spend part of his time in Del Rio. Petitioner argues that it is inconceivable that Mr. Renault, a station owner for over 10 years, would not realize that his plan to serve both stations, as explained in the amendment, would be violative of the Commission's rules. Therefore, Cuero argues that a question of misrepresentation is raised by what it characterizes as untrue and misleading statements in the instant and Del Rio AM applications and in the May 1967, amendment to the Del Rio application.

7. The Review Board agrees with the Broadcast Bureau that a misrepresentation issue is not warranted here. As the Bureau points out in its comments, the Commission dealt with a parallel question in the designation order, i.e., whether Renault could carry out his representation concerning the extent of his participation in news programing in light of his commitment to the Del Rio station, and the Commission added an adequacy of staff issue against DeWitt to resolve the question. In our view, no question of concealment or misrepresentation by the applicant in this matter has been raised, and the problem is basically no different than the one dealt with by the Commission. The feasibility of Mr. Renault's proposed participation in the instant proposal can be explored under the existing staffing issue. The request for a misrepresentation issue will be denied.

8. *Accordingly, it is ordered,* That the petition to enlarge issues, filed May 22, 1969, by Cuero Broadcasters, Inc., and the supplement to petition to enlarge issues, filed May 23, 1969, by Cuero Broadcasters, Inc., are granted to the extent indicated below and are denied in all other respects; and

9. *It is further ordered,* That the issues in this proceeding are enlarged by the addition of the following issue: To determine whether Don Renault and Edwin Zaiontz, doing business as DeWitt Radio, kept the Commission advised of "substantial and significant changes" as required by § 1.65 of the Commission's rules; and, if not, whether the applicant possesses the requisite qualifications to be a Commission licensee; and

10. *It is further ordered,* That the burden of proceeding with the introduction of evidence under the issue added above will be on Cuero Broadcasters, Inc., and the burden of proof under such issue will be on Don Renault and Edwin Zaiontz, doing business as DeWitt Radio.

Adopted: July 7, 1969.

Released: July 8, 1969.

FEDERAL COMMUNICATIONS COMMISSION,

Secretary.

[F.R. Doc. 69-8245; Filed, July 11, 1969; 8:48 a.m.]

[Docket Nos. 18241, etc.; FCC 69-727]

KFPW BROADCASTING CO. ET AL.

Memorandum Opinion and Order Designating Applications for Consolidated Hearing on Stated Issues

In regard applications of George T. Hernreich, trading as KFPW Broadcasting Co., Fort Smith, Ark., requests: 100.9 mcs, No. 265; 3 kw; 275 feet, Docket No. 18241, File No. BPH-6180; Christian Broadcasting Co., Hot Springs, Ark., requests: 106.3 mcs, No. 292; 0.457 kw(H); 0.457 kw(V); 670 feet, Docket No. 18388, File No. BPH-6249; Tim Timothy, Inc. (KBHS), Hot Springs, Ark., has: 590 kc, 5 kw, day, requests: 590 kc, 1 kw, 5 kw-LS, DA-N, U, Docket No. 18591, File No. BP-17526; for construction permits.

1. The Commission has before it the above-captioned and described applications and a petition to designate the application of Tim Timothy, Inc. (KBHS), for hearing in the consolidated proceeding now in progress on the applications of KFPW Broadcasting Co.

[1] Also before the Reveiw Board are: (a) Supplement to petition to enlarge issues, filed May 23, 1969, by Cuero; and (b) comments, filed June 5, 1969, by the Broadcast Bureau.

[2] The Commission, in its designation order, took cognizance of Mr. Renault's interest in the Del Rio AM station. However, this fact does not excuse the applicant's failure to amend its application at any time to inform the Commission of such interest. Moreover, there is no reference in the designation order to Mr. Renault's interest in Channel 10 in Del Rio.

(KFPW), and the Christian Broadcasting Co. The petition was filed on March 25, 1969, by the Christian Broadcasting Co. which is the licensee of standard broadcast station KXOW, Hot Springs, Ark. KBHS filed an opposition to the petition, Hernreich filed comments[1] supporting the petition, and the Christian Broadcasting Co. filed a reply.

2. The KFPW application was designated for hearing with another mutually exclusive application (since dismissed) by order of the Commission on July 3, 1968 (FCC 68-705 released July 11, 1968). The Christian Broadcasting Co. application was designated for hearing with the mutually exclusive application of George T. Hernreich trading as KZNG Broadcasting Co., on November 26, 1968 (FCC 68-1145 released Dec. 5, 1968) 14 RR. 2d 960. Mr. Hernreich has since dismissed the KZNG application. In the Christian Broadcasting Co.-KZNG Broadcasting Co., proceeding, among the issues to be resolved is the question of whether the applicants had conducted special contests or promotions in order to improve artificially their ratings of standard broadcast stations in Hot Springs, KXOW and KZNG, respectively, of which the applicants are licensees. Thereafter, the Commission consolidated Hernreich's Fort Smith application in the Hot Springs proceeding for the purpose of determining whether the evidence adduced at the hearing reflects adversely on Hernreich's qualifications to obtain the Fort Smith authorization he seeks, FCC 69-178, 16 FCC 2d 681 released February 27, 1969.

3. In the Christian Broadcasting Co. petition, KBHS is charged with improving its rating by practices similar to those in which KXOW and KZNG have allegedly engaged. KBHS opposes the petition on the procedural grounds that the petition was not filed within the time prescribed by § 1.580(i) of the Commission's rules[2] and that the Commission's failure to consolidate the KBHS application with the Hot Springs FM applications after the Christian Broadcasting Co. had filed an earlier complaint alleging that KBHS had engaged in artificially improving its ratings ("hypo-ing") is an explicit indication that such a consolidation will not "best conduce to the proper dispatch of business and to the ends of justice." Substantively, KBHS seeks to defend two instances cited in the Christian Broadcasting Co. petition. First, KBHS claims that an "Uncle Jack Kash" promotion was started on April 10, 1967, 6 weeks before a Hooper survey which commenced on May 22, 1967. KBHS then quotes what appears to be a policy statement of the Broadcast Rating Council reported in Broadcasting of March 24, 1969 (page 128):

> Such activity shall be deemed hypoing if it occurs only during the survey period or less than 1 week prior to the beginning of the survey period.

KBHS argues that, according to industry definition, the "Uncle Jack Kash" promotion was not "hypo-ing" and that the promotion has continued and still continues without interruption. With respect to a "sweepstakes" promotion mentioned in the Christian Broadcasting Co. petition, KBHS states that the promotion was not designed by the station and that the station had no part in the promotion other than running paid announcements. KBHS also contends that the Christian Broadcasting Company petition "is laden with accusations of false advertising, and underhanded business practices, all of which are unsupported."

4. While it is true that Christian Broadcasting Co.'s petition was untimely, the Commission did not intend that its prior failure to consolidate the KBHS application in the proceeding on the Hot Springs FM application was to be an indication that the consolidation would not be conducive to the proper dispatch of its business. The KBHS application was not consolidated in the FM proceeding because the processing of the FM applications was completed before the completion of the processing of the KBHS application. As is the general practice in the absence of some indication of the existence of questions involving the same issues, the FM applications were processed without regard to the pendency of the AM proposal of another applicant. When the processing of the KBHS application was completed it was noted that not only had the "hypo-ing" charges been leveled at KXOW and KZNG but also that similar accusations have been made against KBHS. Since, in any event, the question raised would require resolution before favorable action on the KBHS proposal, the Commission must decide which procedure, under the circumstances, would achieve the more satisfactory resolution.

5. With regard to the KBHS allegation that one of its promotions, "Uncle Jack Kash," is not, by industry definition, "hypo-ing," the Commission accords due weight to the views of the industry council and they may be helpful in weighing the public interest factors which may develop. The ultimate public interest determination, however, is the responsibility of the Commission.

6. The accusations against KBHS appear to be but one facet of a dispute among the standard broadcast licensees in Hot Springs which seems to have generated some heat. The Commission finds, under the present circumstances, that, rather than attempt to resolve the question as it relates to KBHS on the basis of pleadings and other written statements on file, the better procedure is to consolidate the KBHS proposal into the proceeding already in progress and resolve the dispute on the basis of a hearing record. Accordingly, the petition of the Christian Broadcasting Co., though untimely, will be treated as an informal objection and the request to consolidate the KBHS proposal in the hearing will be granted. As to all matters within the peculiar knowledge of the respective applicants, the burden of proceeding with the introduction of evidence and the burden of proof shall be upon such applicants.

7. The proposed nighttime operation of KBHS will be limited to essentially the 18.7 mv/m contour and, as a result will encompass 97.1 percent of the population of Hot Springs. Thus, the proposal falls short of full compliance with § 73.188 of the Commission's rules. KBHS requests a waiver of that section and shows that, based on a house count, the 1968 population is 37,286 and that the population within the corporate city limits which is outside the proposed nighttime interference-free contour is 1,078. The proposed 25 mv/m contour will completely encompass the central business district of Hot Springs. In addition, the proposed operation would provide service to an area within Hot Springs which is not presently served by the one unlimited time standard broadcast station KZNG, assigned to the city, and 77 percent of the area within the proposed nighttime interference-free contour will receive a first primary nighttime service from the KBHS proposal. Under these circumstances, the Commission finds that a waiver of § 73.188 of the rules is justified, and KBHS' waiver request will be granted.

8. The Commission has previously found George T. Hernreich, trading as KFPW Broadcasting Co. and the Christian Broadcasting Co. qualified to construct and operate as proposed except as indicated by issues heretofore specified and now finds Tim Timothy, Inc., qualified to construct and operate KBHS as proposed except as indicated by the issues specified below. However, for the reasons stated above, the Commission is unable to make the statutory finding that the proposal would serve the public interest, convenience and necessity and is of the opinion that the application of Tim Timothy, Inc., must be consolidated in the proceeding now in progress..

9. *Accordingly, it is ordered,* That the request of the Christian Broadcasting Co., to consolidate the captioned applications for hearing is granted; and that, pursuant to section 309(e) of the Communications Act of 1934, as amended, and § 1.227(a) of the Commission's rules, the application of Tim Timothy, Inc., is consolidated for hearing in the proceeding on the applications of George T. Hernreich, trading as KFPW Broadcasting Co., and the Christian Broadcasting Co., at a time and place to be specified in a subsequent order, upon the following issues:

(1) To determine whether and, if so, the extent to which KZNG Broadcasting Co., conducted special contests or promotions in order to improve artificially its rating, and in light of the evidence thus adduced, whether George T.

[1] KBHS responded to Hernreich's comments by affidavit of B. P. Timothy, president and majority stockholder of KBHS.

[2] Pursuant to §§ 1.571(c) and 1.580(i) of the rules, the Commission, by public notice of Apr. 5, 1967, fixed May 11, 1967, as the date on which pleadings against the KBHS application must be filed.

Hernreich, trading as KFPW Broadcasting Co., possesses the requisite qualifications to obtain the requested authorization.

(2) To determine whether and, if so, the extent to which Christian Broadcasting Co., conducted special contests or promotions in order to improve artificially its ratings, and in the light of the evidence thus adduced, whether Christian Broadcasting Co., possesses the requisite qualifications to obtain the requested authorization.

(3) To determine whether and, if so, the extent to which Tim Timothy, Inc., conducted special contests or promotions in order to improve artificially its ratings, and in the light of the evidence thus adduced, whether Tim Timothy, Inc., possesses the requisite qualifications to obtain the requested authorization.

(4) To determine the efforts made by KFPW Broadcasting Co., to ascertain community needs and interests of the area to be served and the means by which the applicant proposes to meet those needs.

(5) To determine, in the light of the evidence adduced pursuant to the foregoing issues, whether grants of the applications would serve the public interest, convenience and necessity.

10. *It is further ordered,* That the request of Tim Timothy, Inc., for waiver of § 73.188 of the Commission's rules is hereby granted.

11. *It is further ordered,* That the burden of proceeding with the introduction of the evidence and the burden of proof on the issues herein shall be upon the applicants.

12. *It is further ordered,* That the specification of issues and conditions herein shall supersede the specification of issues and conditions in all previous orders in this proceeding.

13. *It is further ordered,* That, if the application of the Christian Broadcasting Co., is granted, the permit shall contain the following condition: Section 73.210(a)(2) of the Commission's rules is waived to permit the establishment of the main studio outside the city limits of Hot Springs, Ark., near the intersection of Kingsway Drive and Buena Vista Road.

14. *It is further ordered,* That, to avail itself of the opportunity to be heard, Tim Timothy, Inc., pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within twenty (20) days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

15. *It is further ordered,* That Tim Timothy, Inc., shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: July 2, 1969.

Released: July 9, 1969.

[Docket Nos. 18292, 18592; FCC 69-738]

K & M BROADCASTERS, INC., AND MOLLY PITCHER BROADCASTING CO., INC.

Memorandum Opinion and Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of K & M Broadcasters, Inc., Stirling, N.J., Requests: 1070 kc, 250 w, Day, Docket No. 18292, File No. BP-17004; Molly Pitcher Broadcasting Co., Inc., Freehold, N.J., Requests: 1070 kc, 1 kw, DA, Day, Docket No. 18593, File No. BP-17496; for construction permits.

1. The Commission has before it the above-captioned and described application of K & M Broadcasters, Inc., which, pursuant to an initial decision released May 9, 1969, by Chief Hearing Examiner, Arthur A. Gladstone, will be granted unless the Commission takes further action pursuant to § 1.276 of the Commission's rules. Also before the Commission is the above-captioned application of the Molly Pitcher Broadcasting Co., Inc., which was dismissed on August 14, 1968, for failure to respond to official correspondence, a "Petition for Partial Reconsideration and for Consolidation" filed by the Molly Pitcher Broadcasting Co., Inc. (Molly Pitcher); oppositions to the "Petition for Reconsideration of Order of Dismissal" filed by Harold M. Gade, licensee of Station WHTG, Eatontown, N.J., and the Kel Broadcasting Co., Inc., a former applicant for a construction permit for a new standard broadcast station in Watchung, N.J., and Molly Pitcher's reply to the oppositions.

2. Pleadings and related documents on file prior to the dismissal of the Molly Pitcher applications are the following: A petition to reject the application filed on October 7, 1966, by the Kel Broadcasting Co., Inc., Molly Pitcher's opposition and the petitioner's reply; a letter of October 28, 1966, of Herbert P. Michels, former applicant for the proposed Stirling station, requesting the rejection of the Molly Pitcher application; a petition for reconsideration of the acceptance of the Molly Pitcher application filed March 13, 1967, by Kel Broadcasting Co., Inc., and Molly Pitcher's opposition; a petition requesting that the Molly Pitcher application be returned filed by Michels on April 12, 1967, Molly Pitcher's opposition and Michels' reply; and a petition to deny the Molly Pitcher application filed May 11, 1967, by Harold M. Gade (WHTG). Molly Pitcher did not respond to the WHTG petition until, in its post dismissal pleadings, it stated that it is prepared to meet the issues requested by WHTG.

3. Prior to the dismissal of the Molly Pitcher application, there were pending four applications involving interrelated conflicts. Those applications were the application of the Sunbury Broadcasting Corp. (WKOK) (File No. BP-16936) for a modification of the authorization of WKOK, Sunbury, Pa.; and the applications of Herbert P. Michels (File No. BP-17004), the Kel Broadcasting Co., Inc. (File No. BP-17405), and Molly Pitcher (File No. BP-17496) for construction permits for new standard broadcast stations at Stirling, Watchung, and Freehold, N.J., respectively. Each application specified a frequency of 1070 kilocycles. The Kel application was mutually exclusive with each of the other three. Michels' application was mutually exclusive with Kel and Molly Pitcher but not with the WKOK proposal. Molly Pitcher was in conflict with both Michels and Kel, but, notwithstanding the overlap of the 0.025 mv/m contour of WKOK with the 0.5 mv/m contour of Molly Pitcher, was not in conflict with the WKOK proposal inasmuch as no overlap of the WKOK 0.05 mv/m contour with the Molly Pitcher 1 mv/m contour would occur and Molly Pitcher proposes the first standard broadcast facility in Freehold. See § 73.37 of the Commission's rules.

4. During the pendency of those applications, Michels, in objecting to the application of Molly Pitcher, noted that the Molly Pitcher notice of the filing of its application published in The Freehold Transcript stated that a copy of the application was on file for public inspection at the offices of the corporation in Red Bank, N.J. § 1.580(f)(10) provides that a copy of an application must be on file at a stated address in the community in which the main studio is proposed to be located—in this case, Freehold. Thus, Molly Pitcher's first notice was technically not in compliance with § 1.580(f)(1) of the rules.

5. In response to Michels' objection, Molly Pitcher contended that the notice was in substantial compliance with the Commission's requirement but that, to remove any question, a second notice would be published which would comply with the letter of the Commission's rules. This statement appeared in a pleading filed on April 25, 1967. Nothing further was received on this matter by January 1968, and on January 29, 1968, the Commission addressed a letter to Molly Pitcher requesting that the Commission be advised if a second notice had been published. The Commission requested a response within thirty (30) days and advised Molly Pitcher that, in the absence

[3] Commissioners Bartley, Wadsworth, and Johnson absent.

of a response within 30 days, its application would be dismissed pursuant to § 1.568(b) of the rules, a section that provides that failure to respond to official correspondence is cause for dismissal of an application. Molly Pitcher did not respond to this letter by August 14, 1968, and on that date the Commission dismissed the application.[1]

6. Simultaneously with the dismissal of the Molly Pitcher application, the Commission ordered a hearing on the other three proposals, WKOK, Michels and Kel. Thereafter, negotiations between Michels and Kel resulted in a merger between those two applicants, the Kel application was dismissed and Michels and Kel have continued to prosecute the Stirling proposal under the corporate name, K & M Broadcasters, Inc. The dismissal of the Kel application removed the conflict with the WKOK proposal which was severed from the K & M proposal and granted.

7. Meantime, Molly Pitcher filed its petition for reconsideration of the order of dismissal and a petition for partial reconsideration of the order designating the other applications for hearing to the extent of consolidating the Molly Pitcher application in the hearing proceeding. The petition for reconsideration of the order of dismissal recites the history of the Molly Pitcher application and refers to the filing of the petition to deny the application by WHTG in which WHTG raised a question regarding the availability of Molly Pitcher's proposed transmitter site. Molly Pitcher explains the failure to respond to the Commission's letter of January 29, 1968, by stating that its original expectation of acquiring the transmitter site did not materialize. Tentative arrangements had been made with a Mr. Samuel Brenner to purchase a parcel of land and lease part of the property to be used as the transmitter site. Mr. Brenner's plan to purchase the land was subject to the condition that he find a use for that portion of the property which Molly Pitcher did not intend to lease. At the time the WHTG petition was filed, it was questionable whether Mr. Brenner would go forward with the original plan. Molly Pitcher states that several months were spent in unsuccessful efforts to purchase the site proposed or adjacent land and takes the position that it could not properly publish a new notice because it had no site to specify other than the one with respect to which the unresolved question had been raised.

8. Shortly before the dismissal of its application, according to Molly Pitcher, a commitment was secured from the landowner to sell the property at a specified price. The landowner also agreed to act as Molly Pitcher's agent for the purpose of keeping on file in this office in Freehold a copy of the application for public inspection. Molly Pitcher then republished its notice on August 22 and 29, and September 5, 1968, in The Freehold Transcript, a weekly newspaper. The notice states that a copy of the application may be inspected in Freehold.

9. Having related its experience with respect to the proposed transmitter site, Molly Pitcher now requests that the Commission reconsider its order of dismissal and designate the application for hearing in Docket No. 18292.

10. Molly Pitcher argues further that "the public interest would be served far more by the allocation of the instant frequency in Freehold than would be the case if it were allowed to go, by default, to * * * Stirling." Molly Pitcher also asserts that the only question presented is whether the public interest, in this situation, may yield to the private interests of the other applicants (now applicant) in the hearing proceeding.

11. WHTG urges, on the other hand: "The instant petition presents the basic question as to whether the Commission's processing rules are to be observed or whether applicants shall be free to disregard them with impunity."

12. The Commission finds that it will be in the public interest to reinstate the Molly Pitcher application and consolidate its proposal with the K & M proposal. This will provide the Commission an opportunity to consider the question of which proposal may provide the more fair, efficient and equitable distribution of radio service within the meaning of section 307(b) of the Communications Act of 1934, as amended. This is assuming that Molly Pitcher will be able to resolve favorably several issues which must be specified against it. In taking this action the Commission does not condone Molly Pitcher's serious procedural lapse in failing to file a timely response to official correspondence, or in failing to comply with § 1.65 of the Commission's rules in that it apparently did not advise the Commission of a material change in circumstances with respect to the proposed transmitter site.

13. With reference to those documents listed in paragraph 2, above, all but WHTG's petition to deny the Molly Pitcher application deal with the procedural question of the acceptability of the application. Michels and the Kel Broadcasting Co. urged the rejection of the Molly Pitcher application alleging that the proposal did not meet the minimum separation requirements of § 73.37 in that, it is claimed, overlap of contours prohibited by § 73.37(a) would occur involving the Molly Pitcher proposal and stations WTIC, Hartford, Conn. (1080 kc, 50 kw, DA–N, U), WHN, New York, N.Y. (1050 kc, 50 kw, DA–1, U) and KYW, Philadelphia, Pa. (1060 kc, 50 kw, DA–1, U). At the time of the filing of the Molly Pitcher application, the Commission's study of the proposal indicated that it was in compliance with § 73.37. A subsequent amendment which included field intensity measurement data removes any possible doubt on the question of the application's acceptability. Accordingly, the application is not subject to dismissal on 73.37 grounds. See Natick Broadcast Associates, Inc., v. Federal Communications Commission, —— U.S. App. D.C. ——, 385 F. 2d 985, 11 RR 2d 2065 (1967); James River Broadcasting Corporation v. Federal Communications Commission, —— U.S. App. D.C. ——, 399 F. 2d 581, 13 RR 2d 2088 (1968).

14. Michels is also critical of Molly Pitcher's measurements and suggests that they may be unreliable because of the alleged inaccuracy of the measuring instrument. Michels also cites various omissions in the application. With reference to the measurement data, a careful examination of the information submitted indicates that it is adequate to establish that the Molly Pitcher proposal is in compliance with the Commission's allocation standards and that, apart from Michels' speculative observations concerning the measuring instrument, there is no reason to doubt the accuracy of the measurements. With regard to the alleged incompleteness of the application, there are indeed some omissions, none of which, however, constitute grounds for dismissing the application. Accordingly, the requests of Michels and Kel to reject or dismiss the Molly Pitcher application must be denied.

15. WHTG, in requesting the denial of the Molly Pitcher application, raises several questions which have not been resolved. WHTG first states that Molly Pitcher claims to have made a "comprehensive market study" which included a survey to "interview and consult with civic leaders". WHTG conducted an investigation to determine the nature of the contacts made by Molly Pitcher. Of the several community leaders contacted by WHTG, most of them were unaware of a proposal for a station in Freehold and all but three had not been contacted by anyone concerning a proposed new service. WHTG concludes that no significant survey was made. WHTG also alleges that the programs proposed by Molly Pitcher were taken from the schedules of WHTG and of WJLK in Asbury Park, N.J.

16. Molly Pitcher appears to rely on the residence of its president, Norman K. Brenner, in Matawan, N.J., and a survey of a cross-section of the potential audience and unidentified civic leaders as the basis for its ascertainment of community needs. The material submitted concerning its proposed program service consists, for the most part, of general statements reflecting the opinions of Molly Pitcher's principals but not specifically related to any survey which may have been made. With regard to Mr. Brenner's residence in Matawan, the Commission does not regard such residence, without more, sufficient to establish familiarity with the needs and interests of the area. Andy Valley Broadcasting System, Inc., 12 FCC 2d 3, 12 RR 2d 691 (1968). Moreover, the applicant's showing is otherwise inadequate to show an awareness of area needs and the manner in which those needs are to be met. Suburban Broadcasters, 30 FCC 1020, 20 RR 951 (1961); Public Notice of August 22, 1968, 33 FR 12113, 13 RR 2d 1903. Therefore, an appropriate issue will be specified.

[1] In the petition for partial reconsideration, Molly Pitcher erroneously states that its application had been dismissed for failure to republish a notice of the filing of its application. Actually, at the time the application was dismissed, the Commission had not been advised whether a second notice had been published or not.

17. WHTG next requests that the availability of the proposed site be placed in issue, and Molly Pitcher now concedes that, at the time WHTG's petition was filed there was serious doubt concerning the availability of the site. WHTG claims that the specification of the site at a time when an offer to purchase the land was rejected by the landowner constituted a misrepresentation. Based on Molly Pitcher's account of its experience with the site, it would appear that the original arrangements were tenuous at best. It now appears, however, that the site now specified is available, and the Commission will not place its availability in issue. It does appear that Molly Pitcher did not comply with the requirements of § 1.65 of the rules in that it failed to advise the Commission when it appeared that the site might not be available. Accordingly, this failure will be considered in the hearing.

18. WHTG alleges that the Molly Pitcher proposal will not comply with § 73.188(b)(1) of the Commission's rules inasmuch as the proposed 25 mv/m contour will not encompass all the business and factory area of Freehold. In support of this allegation, WHTG submitted an affidavit of its chief engineer to which was attached an exhibit showing business and factory areas of Freehold. A segment of the proposed 25 mv/m contour is drawn on the exhibit, and portions of the business and factory areas are shown outside the contour. It is not entirely clear how the location of the 25 mv/m contour was determined although there is mention of Figure 9A in the Molly Pitcher proposal. The Commission's examination of the material filed by the applicant indicates that the proposed 25 mv/m contour will substantially cover the business area of Freehold, and, therefore, a § 73.188(b)(1) issue is not necessary.

19. Finally, WHTG contends that the Commission's policy Statement on Section 307(b) Considerations for Standard Broadcast Facilities Involving Suburban Communities, 2 FCC 2d 190, 6 RR 2d 1901 (1965), should be applied in the case of the Molly Pitcher application. Under that policy, where an applicant's proposed 5 mv/m contour penetrates the geographic boundaries of a community with a population of over 50,000 persons and having at least twice the population of the applicant's specified community a presumption arises that the applicant realistically proposes to serve the larger community rather than the specified community. In adopting the policy, the Commission stated that in those instances when the presumption would not arise because, for example, the larger community lacks the required population, interested parties may petition to designate the application for hearing. The Commission indicated that such petitions would receive favorable consideration if a petitioner makes a threshold showing that the proposal would realistically serve primarily a community other than the applicant's specified community.

20. In support of its contention that the suburban community policy should apply in this case, WHTG submitted a quantity of statistical information including population figures and lists of civic and social organizations and commercial establishments in Molly Pitcher's proposed service area. WHTG implicitly recognizes that no single community in the proposed service area has a population of as much as 50,000 but seeks to raise the presumption by combining the populations of several communities. WHTG points out that the combined populations of Asbury Park (17,366), Neptune Township (21,487), and Lakewood (13,004) are 51,857 or more than 50,000. The petitioner also lists other communities which lie wholly or partially within the proposed 5 mv/m contour. In addition WHTG lists other communities which lie wholly or partially within the proposed 2 mv/m contour. WHTG notes that Freehold will be located in a minor lobe of the directional antenna pattern and has a population of only 9,140. WHTG cites the greater civic, social and economic development which has occurred in the communities along the eastern New Jersey coast but claims that no comparable development has taken place in Freehold. In addition, WHTG points out that there are numerous services and facilities outside Freehold that cannot be found in Freehold.

21. Upon consideration of the entire showing, however, the Commission is unable to infer that Molly Pitcher intends to serve primarily some more populous, unspecified community. Moreover, the showing fails to establish that there is in the area a single central city of which Freehold may be a suburb. WHTG emphasizes the modest population of Freehold, but apparently, according to the petitioner's figures, the population of its own community, Eatontown (10,334), is not substantially greater than that of Freehold.

22. Freehold is the county seat of Monmouth County, and, according to the matrial submitted by WHTG, Freehold appears to have all the indicia of an integrated community. It may well be, as WHTG suggests, that if the Freehold station is authorized, Molly Pitcher may seek revenues from advertisers in communities other than Freehold, but this does not mean that the Commission must presume that the station will primarily serve some unnamed community other than Freehold. It is true that Freehold will lie in a minor lobe, but the proposed station will cover Freehold with the required signal. The Commission finds that WHTG has failed to make a threshold showing that Molly Pitcher does not intend realistically to serve Freehold. Accordingly, the request for a suburban community issue will be denied.

23. One other matter to be resolved in the hearing includes the financial qualifications of Molly Pitcher. The financial information in addition to being out of date indicates that the principals will provide the necessary funds but no balance sheets or financial statements have been submitted. Therefore, there is no basis for a finding that the Molly Pitcher principals have funds to meet their commitments. Moreover, Molly Pitcher should submit current information for consideration in connection with the financial issue specified.

24. K & M Broadcasters, Inc., have been found qualified to construct and operate its proposed station, and the Commission now finds the Molly Pitcher Broadcasting Co., Inc., qualified, except as indicated by the issues specified below. However, because of the matters indicated above, the Commission is unable to make the statutory finding that a grant of the applications would serve the public interest, convenience and necessity, and is of the opinion that the application of the Molly Pitcher Broadcasting Co., Inc., must be consolidated for hearing with the application of K & M Broadcasters, Inc., on the issues set forth below. We recognize that qualification issues specified in our previous orders relating to the K & M application were resolved by the Hearing Examiner's initial decision. However, we specifically direct the Examiner to consider evidence directed to such issues if proffered by Molly Pitcher Broadcasting Co., Inc.

25. *Accordingly, it is ordered,* That the "Petition for Reconsideration of Order of Dismissal" and the "Petition for Partial Reconsideration and for Consolidation" filed by the Molly Pitcher Broadcasting Co., Inc., are granted; that the effective date of the initial decision of the Chief Hearing Examiner (FCC 69D-30) looking toward a grant of the application of K & M Broadcasters, Inc., is stayed; that the application of K & M Broadcasters, Inc., is remanded for a reopening of the record, for further hearing and the issuance of a supplemental initial decision; and that, pursuant to section 309(e) of the Communications Act of 1934, as amended, the application of the Molly Pitcher Broadcasting Co., Inc., is consolidated for hearing in the proceeding on the application of K & M Broadcasters, Inc., at a time and place to be specified in a subsequent order, upon the following issues:

(1) To determine the areas and populations which would receive primary service from the proposed operations and the availability of other primary service to such areas and populations.

(2) To determine the efforts made by the Molly Pitcher Broadcasting Co., Inc., to ascertain the community needs and interests of the area to be served and the means by which they propose to meet those needs and interests.

(3) To determine whether the Molly Pitcher Broadcasting Co., Inc., is financially qualified to construct and operate its proposed station.

(4) To determine, with respect to the application of the Molly Pitcher Broadcasting Co., Inc., whether this applicant has continued to keep the Commission advised of "substantial and significant changes" in its application as required by § 1.65 of the Commission's rules.

(5) To determine, in the light of section 307(b) of the Communications Act of 1934, as amended, which of the applications would better provide a fair, efficient and equitable distribution of radio service.

(6) To determine, in the light of the evidence adduced pursuant to the foregoing issues, which, if either of the applications should be granted.

26. *It is further ordered,* That Harold M. Gade, licensee of station WHTG, Eatontown, N.J., is made a party to the proceeding.

27. *It is further ordered,* That the petition to deny the application of the Molly Pitcher Broadcasting Co., Inc., filed by Harold M. Gade, is granted to the extent indicated above and is denied in all other respects.

28. *It is further ordered,* That the requests of Herbert P. Michels and the Kel Broadcasting Co., Inc., to reject or dismiss the application of the Molly Pitcher Broadcasting Co., Inc., are denied.

29. *It is further ordered,* That the burden of proceeding with the introduction of the evidence and the burden of proof with respect to issues 2, 3, and 4 shall be upon the Molly Pitcher Broadcasting Co., Inc.

30. *It is further ordered,* That, to avail themselves of the opportunity to be heard, the Molly Pitcher Broadcasting Co., Inc., and Harold M. Gade, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within twenty (20) days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

31. *It is further ordered,* That the Molly Pitcher Broadcasting Co., Inc., shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing within the time and in the manner prescribed in such rules, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: July 2, 1969.

Released: July 9, 1969.

FEDERAL COMMUNICATIONS COMMISSION,[2]

[SEAL] BEN F. WAPLE, *Secretary.*

[F.R. Doc. 69-8244; Filed, July 11, 1969; 8:48 a.m.]

FEDERAL MARITIME COMMISSION

CENTRAL GULF STEAMSHIP CORP. ET AL.

Notice of Agreement Filed for Approval

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1202; or may inspect agreements at the offices of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the comments should indicate that this has been done.

Notice of agreement filed for approval by:

Mr. N. W. Johnson, Vice Chairman,
Central Gulf Steamship Corp.,
1 Whitehall Street,
New York, N.Y. 10004.

Agreement No. 9804 establishes a cooperative working arrangement between Central Gulf Steamship Corp., Contramar S.A., and Eurogulf Lines, Inc., in the westbound trade from ports (including ports and places on inland waters) in the United Kingdom, Eire, continental Europe north of Gibraltar, including Scandinavian and Baltic Sea ports, to U.S. South Atlantic and Gulf ports including ports and/or places on inland waterways.

It recites the agreement of the parties to inaugurate a lighter-aboard-ship (LASH) common carrier service in November 1969, or as soon as the first LASH vessel and barges are made available by Central Gulf. The service will be operated by Eurogulf Lines, Inc., under the trade name of "Central Gulf Contramar Line," with monthly sailings scheduled during the first 8 or 9 months and every 15 days thereafter. Neither Central Gulf nor Contramar nor any of their affiliates or agents will operate or act as agents for a common or contract carrier service in these trades, whether with LASH vessels or otherwise, other than that operated by Eurogulf.

Further provision is made (1) for the appointment of Central Gulf as general agents for the line in the United States, and of Continental Lines S.A. as general agents and central booking office in Europe, and copies of these agency agreements have been filed for information purposes; (2) for the employment of subagents and stevedores by the general agents; (3) for the publication by Central Gulf Contramar Line (Eurogulf) of a tariff of rates, terms and conditions for the transportation of cargo in the trades, and (4) that the duration of the agreement is 5 years commencing October 1, 1969, subject to extension, and for its termination by any of the parties at any time upon 6 months' notice to the other parties.

Dated: July 9, 1969.

By order of the Federal Maritime Commission.

THOMAS LISI, *Secretary.*

[F.R. Doc. 69-8250; Filed, July 11, 1969; 8:48 a.m.]

JET AIR FREIGHT AND COPELAND SHIPPING, INC.

Notice of Agreement Filed for Approval

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1202, or may inspect agreements at the offices of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter), and the comments should indicate that this has been done.

Notice of agreement filed for approval by:

Gary L. Zimmerman, Secretary, Jet Air Freight, 900 West Florence Avenue, Inglewood, Calif. 90301.

Agreement No. FF-4 between Jet Air Freight, a California corporation (Independent Ocean Freight Forwarder License No. 1095), and Copeland Shipping, Inc., a New York corporation (Independent Ocean Freight Forwarder License No. 92), provides for the acquisition by Jet of all the issued and outstanding stock of Copeland in exchange for a certain number of shares of the common stock of Jet. Copeland will continue its corporate identity, but as a wholly-owned subsidiary of Jet. Both parties will retain their current FMC Licenses to operate as independent ocean freight forwarders. The acquisition with respect to the air freight forwarding operations of Jet and Copeland has been approved by the Civil Aeronautics Board.

Dated: July 9, 1969.

By order of the Federal Maritime Commission.

THOMAS LISI, *Secretary.*

[F.R. Doc. 69-8251; Filed, July 11, 1969; 8:48 a.m.]

NOVO CORP. AND BARNETT INTERNATIONAL FORWARDERS, INCORPORATED, OF CALIFORNIA

Notice of Agreement Filed for Approval

Notice is hereby given that the following agreement has been filed with the

[2] Commissioners Bartley, Wadsworth, and Johnson absent; Commissioner Robert E. Lee concurring in the result.

Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1202, or may inspect agreements at the offices of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 10 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter), and the comments should indicate that this has been done.

Notice of agreement filed for approval by:

Edward Schmeltzer, Morgan, Lewis & Bocklius, 1140 Connecticut Avenue, N.Y., Washington, D.C. 20036.

Agreement No. FF-5 between Novo Corporation and Barnett International Forwarders, Incorporated, of California (Barnett of California, FMC License No. 689), provides for the acquisition of Barnett of California by Novo Corp. Novo currently owns Trans-World Forwarding & Air Expediting Co. (FMC License No. 773), and Barnett International Forwarders, Incorporated, a New York corporation (FMC License No. 865).

The acquisition would be accomplished by having Barnett of California merge with and into a wholly owned subsidiary of Novo, to be incorporated in the State of California for this purpose. The surviving subsidiary corporation would bear the name of Barnett International Forwarders, Incorporated, of California.

As consideration for the acquisition, Novo would issue to the two stockholders of Barnett of California, in equal parts as to each, shares of common stock of Novo having a market value of one hundred sixty-five thousand dollars ($165,000.00).

Dated: July 9, 1969.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

[Commission Order 52 (Revised)]

EQUAL EMPLOYMENT OPPORTUNITY PROGRAM

Sec.
1 Purpose.
2 Policy.
3 Scope of program.
4 Responsibilities.
5 Director of Equal Employment Opportunity.
6 Counseling procedure.
7 Complaint procedure.
8 Hearings.
9 Decision.
10 Appeal.

SECTION 1. *Purpose.* 1.01 This order expands and revises the provisions of C.O. 52 (Revised) dated October 30, 1968, to comply with the revised U.S. Civil Service regulation, Federal Personnel Manual Part 713, effective July 1, 1969.

1.02 This order establishes procedures for the informal settlement of grievances concerning employment discrimination; for the receipt, investigation, and disposition of complaints of such discrimination; for the adjustment of such complaints; for the formal hearing of such complaints before an appeals examiner; and for the Appeal of the decision of the Director of EEO to the Civil Service Commission.

SEC. 2. *Policy.* 2.01 There shall be, in the Federal Maritime Commission, a positive continuing program of equal employment opportunity for all qualified persons, consistent with law, without discrimination because of race, religion, color, national origin, physical impairment, sex, political affiliations, marital status, or age (hereinafter referred to as discrimination).

2.02 Any person wishing to file a complaint involving issues of discrimination must first discuss his grievance with the Equal Employment Opportunity Counselor (hereinafter referred to as the Counselor) for the purpose of providing the maximum opportunity for informal resolution of the grievance.

2.03 There shall be prompt, fair, and impartial consideration and disposition of all complaints involving issues of discrimination.

2.04 At all stages in the presentation of the complaint, or counseling under section 6, the aggrieved person or complainant shall be free from restraint, interference, coercion, discrimination, or reprisal and shall have the right to be accompanied, represented, and advised by a representative of his own choosing.

2.05 An employee complainant (in an active duty status) shall have a reasonable amount of official time to present his grievance or complaint. If such employee designates another employee as his representative, the representative shall be free from restraint, interference, coercion, discrimination or reprisal, and shall have a reasonable amount of official time, if he is otherwise in an active duty status, to present the complaint.

2.06 The Director, Officer, and Counselor shall be free from restraint, interference, coercion, discrimination or any other reprisal, direct or indirect, in connection with the performance of their duties under this order.

SEC. 3. *Scope of Program.* 3.01 The Federal Maritime Commission shall, through its management and supervisory officials assigned responsibilities under section 4 of this order, establish and maintain a program providing for the:

1. Availability of equal employment opportunity for all qualified employees and applicants for employment in all job categories, without regard for race, religion, color or national origin, physical handicap, sex, political affiliation, marital status, or age.

2. Communication of the Commission's equal opportunity policy program and its employment needs to educational institutions, the Civil Service Commission,

Federal and State employment agencies, and other sources of qualified minority group applicants to obtain their recruitment assistance.

3. Continuous reappraisal of the duties and responsibilities of positions to determine whether duties can be restructured to provide more opportunity for the selection of under-utilized and handicapped employees or applicants and the development of such employees, through training, to the higher level required.

4. Conduct of all training programs by the Federal Maritime Commission on the basic premise that all employees shall be given equal opportunity to participate solely on the basis of job betterment and improvement in employee skills.

5. Participation at the community level with other employers, with schools and universities, and with other public and private groups in cooperative action to improve employment opportunities and community conditions that affect employability.

SEC. 4. *Responsibilities.* 4.01 The Chairman, Federal Maritime Commission, will exercise personal leadership in establishing, maintaining and carrying out a positive continuing program to assure equal opportunity in every aspect of the Commission's policies and practices.

4.02 The Managing Director is responsible for the executive direction of the development and implementation of an affirmative program of equal employment opportunity. The Managing Director will be aided in the effectuation of such program by the principal management officials of the Commission as specified in sections 4.03 through 4.07 below.

4.03 Heads of Offices and Bureaus are responsible for carrying out, within their organizational units, the equal employment opportunity program and policies of the Commission. Further, such officials shall discharge their personnel management responsibilities in a manner to ensure that there is no form of prejudice or discrimination in personnel practices or working conditions.

4.04 The Chief, Division of Personnel is responsible for providing staff assistance to the Director of Equal Employment Opportunity, EEOO, EEOC, bureau directors, and office chiefs in their performance of activities under the equal opportunity program. Moreover, he is responsible for ensuring that personnel policies and practices, as set forth in this order, are fulfilled in the recruitment, selection, utilization and training of personnel.

4.05 The Deputy Managing Director is designated as Director of Equal Employment Opportunity of the Federal Maritime Commission and shall carry out the duties and responsibilities enumerated in section 5 of this order. In this capacity, he shall be under the immediate supervision of the Chairman.

4.06 The Director, Bureau of Hearing Counsel, is designated as the Equal Employment Opportunity Officer of the Federal Maritime Commission and shall carry out the duties and responsibilities enumerated in section 7 of this order.

4.07 The Deputy General Counsel is designated as the Equal Employment Opportunity Counselor of the Federal Maritime Commission and shall carry out the duties and responsibilities enumerated in section 6 of this order. Moreover, he shall advise the Director of Equal Employment Opportunity of the need for additional counselors, from time to time, to carry out the responsibilities of Equal Employment Opportunity counseling.

SEC. 5. *Director of Equal Employment Opportunity.* 5.01 The Director of Equal Employment Opportunity is responsible for:

1. Advising the Chairman with respect to the adequacy and implementation of the Commission's program for equal employment opportunity.

2. Evaluating from time to time, but at least every 6 months, the sufficiency of the total Commission's program for equal employment opportunity and reporting thereon to the Chairman with recommendations as to any improvement or correction needed.

3. Providing for counseling, by an Equal Employment Opportunity Counselor in accordance with section 6 of this order of any aggrieved employee or qualified applicant for employment who believes that he has been discriminated against.

4. Providing for the receipt, investigation, and disposition of any complaints, in accordance with section 7 of this order, of discrimination in personnel matters within the Commission by any complainant employee or qualified applicant for employment who believes he has been discriminated against.

5. Providing for the receipt, investigation, and disposition, of allegations by organizations or other third parties of discrimination in personnel matters within the agency whether or not related to an individual complaint of discrimination, with notification of his decision to the party submitting the allegation.

6. Making the agency decision on complaints of discrimination and ordering appropriate corrective measures.

7. With the advice of the Equal Employment Opportunity Officer(s) and Counselor(s), developing and administering a detailed plan of action to implement the Commission's equal employment opportunity program; maintaining such plan on a current basis, thereby ensuring that the plan will be continuously responsive to the needs of the organization and the requirements of public policy.

5.02 The Director of Equal Employment Opportunity shall file such reports to the Federal Maritime Commission and Civil Service Commission as are required.

SEC. 6. *Counseling procedure.* 6.01 Any aggrieved person who believes that he has been discriminated against must consult with an Equal Employment Opportunity Counselor in attempting to resolve the matter. The Counselor shall make whatever inquiry he believes necessary into the matter; shall seek a solution of the matter on an informal basis; and shall counsel the aggrieved person concerning the merits of the matter.

6.02 The aggrieved person must bring his grievance to the attention of the Counselor within 15 calendar days of the event giving rise to the grievance or, if a personnel action, within 15 calendar days of its effective date; provided however that a grievance concerned with a continuing discriminatory practice having a material bearing on employment may be brought at any time.

6.03 The Counselor shall, insofar as practical, conduct his final interview with the aggrieved person not later than 15 working days after the date on which the matter was called to his attention by the aggrieved person. Moreover, the Counselor shall advise the aggrieved person in a final interview of his right to file a complaint of discrimination with the agency's Equal Employment Opportunity Officer, if the matter has not been resolved to the aggrieved person's satisfaction; he shall also advise him of the requirements governing the acceptance of a complaint in section 7 hereof. Moreover, the Counselor shall assist the aggrieved person, if so requested by that person, in filing his complaint.

6.04 The Counselor shall not reveal the identity of an aggrieved person who has sought counseling except when so authorized by the aggrieved person until the agency has accepted a complaint of discrimination from the aggrieved person on the matter brought to the attention of the Counselor.

6.05 When a complaint of discrimination has been accepted from an aggrieved person, the Counselor shall submit a written report to the EEO Officer, a copy to the aggrieved person, summarizing his action and advice both to the EEOO and the aggrieved person concerning the merits of the matter.

6.06 The Counselor shall maintain records of his counseling activities for the purpose of briefing periodically (at least quarterly) the Director of Equal Employment Opportunity on such activities.

6.07 The Counselor shall be readily available for resolving all grievances concerning discrimination.

SEC. 7. *Complaint procedure*—7.01 *Who may file.* Any aggrieved employee or qualified applicant for employment who believes that he has been discriminated against may file a complaint.

7.02 *Where to file.* Complaints shall be filed with the Equal Employment Opportunity Officer, Federal Maritime Commission.

7.03 *Time limit.* A complaint must be submitted in writing by the complainant or his representative within 15 calendar days of the date of the complainant's final interview with the Equal Employment Opportunity Counselor. The time limits stated herein may be extended by the Equal Employment Opportunity Officer for good cause shown by the complainant.

7.04 *Processing of a complaint.* 1. Complaints of discrimination will be investigated and acted upon promptly in accordance with Part 713 of the Civil Service Commission's regulations revised July 1, 1969. A copy of these regulations is available from the Director of Equal Employment Opportunity, or the EEO Officer(s) or Counselor(s), or the Chief, Division of Personnel.

2. The Equal Employment Opportunity Officer shall advise the Director of Equal Employment Opportunity on receiving a complaint. The EEO Officer shall promptly investigate the complaint unless the complaint arises in a position which is directly or indirectly under his jurisdiction; in such case, the Director shall appoint an alternate for him. The EEO Officer shall be authorized to administer oaths and shall be authorized to require statements of witnesses under oath or affirmation, without pledge of confidence. The investigation of the officer shall include a thorough review of the circumstances under which the alleged discrimination occurred, the treatment of members of the complainant's group identified by his complaint as compared with the treatment of other employees in the organizational segment in which the alleged discrimination occurred, and any policies and practices related to the work situation which may constitute, or appear to constitute, discrimination even though they have not been expressly cited by the complainant. An investigation file shall be compiled containing the various documents and information acquired during the investigation including affidavits of the complainant, of the alleged discriminating official(s), and of the witnesses, and copies of, or extracts from, records, policy statements, or regulations of the Federal Maritime Commission, organized to show the relevance to the complaint, or the general environment out of which the complaint arose. In addition, the investigative file shall record in summary fashion such data as to the membership or lack thereof of a person in the complainant's group needed to resolve a complaint of discrimination: *Provided, however,* That all such information in the investigative file shall be obtained voluntarily and that no such information shall be acquired by coercion of an employee to provide such.

3. The Director of EEO shall arrange to furnish the EEO Officer or other person conducting the investigation the necessary written authority:

(a) To investigate all aspects of complaints of discrimination,

(b) To require all employees of the agency to cooperate in the conduct of such investigation, and

(c) To require employees of the agency having knowledge of the matter complained of to furnish testimony under oath or affirmation without a pledge of confidence.

4. The information file shall be made available to the complainant or his representative for review for the purpose of adjustment of the complaint on an informal basis. If the complaint is adjusted, the terms shall be reduced to writing and incorporated into the file, with a copy to the complainant.

5. If the complaint is not adjusted, the complainant shall be notified in writing of the Equal Employment Opportunity Officer's proposed disposition thereof, and advised of his right to a hearing with subsequent decision by the Director of Equal Employment Opportunity and his right to such decision without a hearing. The complainant shall notify the Director of Equal Employment Opportunity within 7 calendar days of receipt of such notification of his decision whether he wishes to have a hearing. If the complainant fails to notify the Director of Equal Employment Opportunity within 7 days, the proposed disposition of the Equal Employment Opportunity Officer becomes the decision of the Federal Maritime Commission, and the complainant will be so notified by letter together with information on his rights of appeal to the Civil Service Commission and the time limitations applicable to such appeal.

SEC. 8. *Hearings.* 8.01 If after receipt of the proposed decision of the Equal Employment Officer, the complainant requests a hearing, such hearing shall be before an appeals examiner conducted in accord with section 713.218 of the Federal Personnel Manual.

8.02 The appeals examiner shall transmit the complaint file including the record of the hearing, together with his findings, analysis, and recommended decision to the Director of Equal Employment Opportunity, with notification to the complainant of this action.

SEC. 9. *Decision.* The Director of Equal Employment Opportunity shall base his decision on the file presented to him by the appeals examiner. This decision shall be in writing and transmitted to the complainant and his representative and shall conform to the requirements of section 713.221 of the Federal Personnel Manual. Moreover, the Director of Equal Employment Opportunity shall advise the complainant of his rights to appeal to the Civil Service Commission and the time limit within which such appeal must be filed.

SEC. 10. *Appeal from the Decision of the Federal Maritime Commission.* 10.01 Except as provided by section 10.02, a complainant may appeal to the Civil Service Commission on a complaint of discrimination on grounds of race, religion, color, national origin, sex, political affiliation, marital status, or age if the Director of EEO has decided:

(1) To reject the complaint because (a) it was not timely filed, or (b) it was not within the purview of FMC regulations; or

(2) To cancel the complaint (a) because of the complainant's failure to prosecute his complaint, or (b) because of the complainant's separation which is not related to his complaint; or

(3) On the merits of the complaint, but the decision does not resolve the complaint to the complainant's satisfaction.

10.02 A complainant may not appeal to the Civil Service Commission when the issue of discrimination giving rise to the complaint is being considered, or has been considered, in connection with any other appeal by the complainant to the Civil Service Commission.

10.03 The complainant shall file his appeal in writing, either personally or by mail, with the Board of Appeals and Review, U.S. Civil Service Commission, Washington, D.C. 20415.

10.04 Appellate procedures to the Civil Service Commission are governed by sections 713.231–713.236 of the Federal Personnel Manual.

JOHN HARLLEE,
Rear Admiral,
U.S. Navy (Retired), Chairman.

SECURITIES AND EXCHANGE COMMISSION

[812-2320]

A.V.C. CORP. ET AL.

Notice of and Order for Hearing on Application for Exemptions

JULY 1, 1969.

In the matter of A.V.C. Corp., 100 West 10th Street, Wilmington, Del. 19801; U.S. Communications Corp., 1500 Walnut Street, Philadelphia, Pa.; Butcher & Sherrerd, 1500 Walnut Street, Philadelphia, Pa.; and Joseph L. Castle, 1500 Walnut Street, Philadelphia, Pa.

Notice is hereby given that A.V.C. Corporation, a Delaware corporation ("AVC") registered under the Investment Company Act of 1940 ("Act") as a closed-end, nondiversified management investment company, U.S. Communications Corp., a Delaware corporation ("USCC") 70 percent owned by AVC, Butcher & Sherrerd, a partnership ("B&S"), registered as a broker-dealer, and Joseph L. Castle ("Castle") a partner of B&S, have filed an application for an order: (1) Pursuant to section 6(c) of the Act exempting from the provisions of section 17(e) (1) and (2) of the Act certain payments to B&S for its services in connection with the establishment of USCC and (2) pursuant to section 17(b) of the Act exempting the issuance of 2,000 shares of common stock of USCC and $8,000 principal amount of its debentures to Castle in connection with the statutory merger of USCC and Philadelphia Television Broadcasting Co., a Pennsylvania corporation ("WPHL"), in which company Castle had owned stock. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

From May 1, 1967, until February 21, 1968, Mr. Howard Butcher III ("Butcher") a general partner in B&S, served as a director of AVC.

In January of 1967, Mr. Daniel H. Overmyer ("Overmyer"), through contacts with Castle, who was then an employee of B&S (and since Jan. 1, 1968, has

been a partner of B&S) sought the aid of B&S in selling a portion of his warehouse interests. B&S advised Overmyer that financing through his warehouse interests would be less advantageous than some form of financing involving certain of Overmyer's television broadcasting interests in construction permits from the Federal Communications Commission ("FCC") for UHF broadcasting stations in five cities. Overmyer agreed, and B&S presented the matter to a few potential purchasers before it offered the combined financing to AVC. AVC indicated interest and asked B&S to develop further information and analyses. B&S did so and also participated in the subsequent extensive negotiations between AVC and Overmyer which resulted in agreements whereby $3 million was to be loaned to Overmyer, and 80 percent of the stock of his companies owning the television interests was to be purchased by AVC for $1 million. AVC also received a 3-year option to purchase Overmyer's remaining 20-percent interest in the television companies at a price to be computed pursuant to a formula up to $3 million. It appears that the ceiling price will prevail.

Previous to their search for financing for Overmyer, B&S had been trying to obtain further financing for WPHL which was an independent UHF television station in Philadelphia that had been broadcasting for about 2 years.

B&S thought that a combination of WPHL with the Overmyer television companies under the control of AVC would be desirable since WPHL's experience and management would be of benefit to the Overmyer companies, and the combination would minimize supervisory and management expenses and achieve economies in purchasing and programing.

B&S and Castle assisted in the negotiations which took place between WPHL and AVC which resulted in the creation of USCC, a new company to which AVC assigned its rights under its agreement with Overmyer and into which WPHL would be merged. The stock of USCC would be owned 70 percent by AVC and 30 percent by the holders of WPHL stock and $240,000 of USCC debentures would be issued to the former holders of WPHL preferred stock.

The merger agreement also obligated AVC to furnish certain additional financing for USCC in order to construct and equip the stations and meet initial operating deficits.

The Overmyer transactions and the WPHL merger could not be completed until the FCC had given its approval. In order to prepare the necessary FCC applications and to lay the groundwork for activities that would follow the closings, it was agreed that Castle would make the bulk of his time available to AVC, and to USCC upon its organization, to assist with these matters. Upon the formation of USCC on June 6, 1967, Castle became the chairman of its board of directors and chief executive officer. He remained as chief executive officer until April 1968 and as chairman of the board until December 1968. It was understood that compensation for Castle's management services would be included in the fee finally paid to B&S for its services in connection with the transactions. For the 6-month period following Castle's termination as chief executive officer, i.e., from May 1, 1968, through October 31, 1968, during which period Castle's duties were restricted to those as chairman of the board and to miscellaneous advisory services, B&S was paid $1,000 per month on account of his services. Applicants claim that Castle's services to AVC and to USCC during the period from April 1967 to April 1968 were worth in excess of $25,000.

The FCC approved the transaction on December 8, 1967. The closing of the Overmyer purchase was held on January 15, 1968, and the closing of the WPHL merger a week later, on January 22, 1968. In addition to the previously mentioned services, B&S also rendered services in connection with the procurement of additional financing for USCC.

Overmyer has paid B&S $40,000 for its services, and AVC proposes to pay B&S $100,000 for its services.

Insofar as they are pertinent here, sections 17(e) (1) and (2) of the Act prohibit B&S, a partnership in which Butcher and Castle are partners, from accepting from any source any compensation (other than a regular salary or wage from AVC) for the purchase or sale of any property to or for AVC or USCC during the period that Butcher and Castle were affiliated with AVC and USCC, except in the course of B&S's business as a broker, in which case its compensation is limited to 1 percent, unless the Commission by order in the public interest and consistent with the protection of investors permits a larger commission.

Section 6(c) of the Act provides, in part, that the Commission may conditionally or unconditionally exempt any person, or transaction from any provision of the Act if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicants represent that the fee is fair and reasonable and does not involve overreaching on the part of any person concerned.

At the time WPHL was merged into USCC, Castle owned 1.33 percent of the common stock of WPHL consisting of 400 shares (200 of Class A and 200 of Class B), and also 400 shares of its $20 par preferred stock. By operation of the merger, Castle's common stock of WPHL along with that of other WPHL stockholders was converted (on a 5 for 1 basis) into 2,000 shares of the common stock of USCC. Similarly, Castle's holdings of WPHL preferred stock were converted into $8,000 of debentures of USCC.

Since Castle may be deemed to have been an affiliated person of USCC when the merger agreement between WPHL and USCC was executed, the exchange of Castle's stock in WPHL for securities of USCC, which is an affiliated person of AVC, may be considered a sale of property by an affiliated person of an affiliated person of an investment company to a company controlled by the investment company, which is prohibited by section 17(a) of the Act unless the Commission exempts the transaction pursuant to section 17(b) of the Act on finding that:

(1) The terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned;

(2) The proposed transaction is consistent with the policy of each registered investment company concerned, as recited in its registration statement and reports filed under the Act; and

(3) The proposed transaction is consistent with the general purposes of the Act.

Applicants apply pursuant to section 17(b) for an exemption of the transaction from section 17(a) if it should be deemed applicable.

It appears to the Commission that it is appropriate in the public interest and in the interest of investors that a hearing be held with respect to the said application.

It is ordered, Pursuant to section 40(a) of the Act, that a hearing on the aforesaid application under the applicable provisions of the Act and the rules of the Commission thereunder be held on the 25th day of September 1969 at 10 a.m., in the offices of the Commission, 500 North Capitol Street NW., Washington, D.C. 20549. At such time the Hearing Room Clerk will advise as to the room in which such hearing will be held. Any person, other than the Applicants, desiring to be heard or otherwise wishing to participate in the proceeding is directed to file with the Secretary of the Commission, on or before the 23d day of September 1969, his application pursuant to Rule 9(c) of the Commission's rules of practice. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the addresses noted above, and proof of service (by affidavit, or, in the case of an attorney at law by certificate) shall be filed contemporaneously with the request.

It is further ordered, That any officer or officers of the Commission to be designated by it for that purpose shall preside at said hearing. The officer so designated is hereby authorized to exercise all the powers granted to the Commission under sections 41 and 42(b) of the Act and to a hearing officer under the Commission's rules of practice.

The Division of Corporate Regulation has advised the Commission that it has made a preliminary examination of the application, and that upon the basis thereof the following matters are presented for consideration without prejudice to its specifying additional matters upon further examination:

(1) Whether B&S, in connection with the Overmyer transaction and the

WPHL–USCC merger, acted as a broker and if so whether its proposed compensation from any source for such services exceeds 1 percent of the purchase or sale price of the securities involved, and if it does whether it is in the public interests and consistent with the protection of investors to permit a larger commission.

(2) Whether in connection with the aforesaid transactions B&S acted as an agent but otherwise than in the course of its business as an underwriter or broker and if so whether it is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act to exempt the acceptance of compensation for such services by B&S from the provisions of section 17(e); and

(3) Whether the exchange of securities of USCC for the securities of WPHL held by Castle is a transaction subject to section 17(a) and, if it is, whether (1) the terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned; (2) the proposed transaction is consistent with the policy of each registered investment company concerned, as recited in its registration statement and reports filed under the Act; and (3) the proposed transaction is consistent with the general purposes of the Act.

It is further ordered, That at the aforesaid hearing attention be given to the foregoing matters.

It is further ordered, That the Secretary of the Commission shall give notice of the aforesaid hearing by mailing copies of this order by certified mail to the Applicants, and that notice to all persons shall be given by publication of this order in the FEDERAL REGISTER, and that a general release of the Commission in respect of this order be distributed to the press and mailed to the mailing list for releases.

By the Commission.

INTERSTATE COMMERCE COMMISSION

[Notice 865]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JULY 8, 1969.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 340), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 17609 (Sub-No. 1 TA), filed June 30, 1969. Applicant: ABCORE WORLD VAN SERVICE, INC., 9565 Southwest 168th Street, Miami, Fla. 33157. Applicant's representative: Alan F. Wohlstetter, 1 Farragut Square South, Washington, D.C. 20006. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Used household goods,* between points in Dade, Collier, and Broward Counties, Fla.; restricted to the transportation of traffic having a prior or subsequent movement, in containers, and further restricted to the performance of pickup and delivery service in connection with packing, crating, and containerization or unpacking, uncrating, and decontainerization of such traffic, for 180 days. Supporting shippers: Cartwright International Van Lines, 4250 24th Avenue West, Seattle, Wash. 98199; International Export Packers, Inc., 5360 Wheeler Avenue, Alexandria, Va. 22304. Send protests to: District Supervisor Joseph B. Teichert, Interstate Commerce Commission, Bureau of Operations, Room 1226, 51 Southwest First Avenue, Miami, Fla. 33130.

No. MC 59952 (Sub-No. 7 TA), filed July 2, 1969. Applicant: THE J. M. BARBE CO., Buna Vista Street NE., Warren, Ohio. Applicant's representative: Paul F. Beery, 88 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Containers and container ends,* from the plantsite of U.S. Steel Supply, Petroleum, Ohio, to points in Kentucky, Michigan, New York, Pennsylvania, and West Virginia, for 150 days. Supporting shipper: United States Steel Products, Division of United States Steel Corp., Post Office Box 251, Sharon, Pa. 16146. Send protests to: G. J. Baccei, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 181 Federal Office Building, 1240 East Ninth Street, Cleveland, Ohio 44199.

No. MC 67234 (Sub-No. 13 TA), filed July 2, 1969. Applicant: UNITED VAN LINES, INC., No. 1 United Drive, Fenton, Mo. 63026. Applicant's representative: Gregory M. Rebman, Suite 1230, Boatmen's Bank Building, St. Louis, Mo. 63102. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Household goods* as defined by the Commission in 17 M.C.C. 467, from points in the United States to points in Hawaii, for 180 days. NOTE: Applicant intends to tack with MC 67234, and Sub 1. Supporting shipper: United Van Lines, Inc., past operations. Send protests to: J. P. Werthmann, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 3248, 1520 Market Street, St. Louis, Mo. 63103.

No. MC 86913 (Sub-No. 29 TA), filed June 27, 1969. Applicant: EASTERN MOTOR LINES, INC., Post Office Box 649, Warrenton, N.C. 27589. Applicant's

representative: W. S. Bugg (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Hardboard*, from Conway, N.C., and points within 10 miles thereof, to points in that part of Maine north of a line beginning at the Maine-New Hampshire State line near Gilead, Maine, and extending along U.S. Highway 2 to Bangor, Maine, thence along Alternate U.S. Highway 1 to Ellsworth, Maine, and thence along Maine Highway 3 to Bar Harbor, Maine, New York, N.Y., and points in Nassau, Queens, Kings, and Suffolk Counties, N.Y., that part of Pennsylvania on, south and east of a line beginning at the New Jersey-Pennsylvania State line near Easton, Pa., and extending along U.S. Highway 22 to Harrisburg, Pa., thence along Interstate Highway 83 (formerly U.S. Highway 111) to the Pennsylvania-Maryland State line near Maryland line, Md., points in Montgomery County, Md., and Baltimore, Md., points in West Virginia south of U.S. Highway 50, and points in Tennessee east of U.S. Highway 25E, points in Virginia and the District of Columbia, for 180 days. Supporting shipper: Georgia-Pacific Corporation, Post Office Box 909, Augusta, Ga. 30903. Send protests to: Archie W. Andrews, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Post Office Box 10885, Cameron Village Station, Raleigh, N.C. 27605.

No. MC 111941 (Sub-No. 16 TA), filed July 1, 1969. Applicant: PIERCETON TRUCKING COMPANY, INC., Post Office Box 233, Laketon, Ind. 46943. Applicant's representative: Alki E. Scopelitis, 816 Merchants Bank Building, 11 South Meridian Street, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prefabricated steel and materials, equipment, and supplies* used in the installation and erection of prefabricated steel when moving at the same time and in the same vehicle with prefabricated steel, from River Rouge, Mich., to the plant and warehouse sites of Fisher Body Division, G.M.C., at or near Norwood, Ohio, for 180 days. Supporting shipper: Whitehead & Kales Co., 58 Haltiner, Detroit, Mich. 48218. Send protests to: District Supervisor J. H. Gray, Bureau of Operations, Interstate Commerce Commission, Room 204, 345 West Wayne Street, Fort Wayne, Ind. 46802.

No. MC 116538 (Sub-No. 6 TA), filed July 1, 1969. Applicant: DEFOREST L. REED, 102 Champion Street, Carthage, N.Y. 13619. Applicant's representative: Raymond A. Richards, 23 West Main Street, Webster, N.Y. 14580. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, (a) from Smyrna, Waterloo, Boonville, Hannibal, Wolcott, Deer River, and Heuvelton, N.Y., to Montrose, Simpson, Scranton, Lewisburg, Wilkes-Barre, Union City, Endeavor, Hellam, Herndon, Kreamer, and Lancaster, Pa.; and Hagerstown, Md.; (b) from Smyrna, Waterloo, Booneville, Hannibal, Wolcott, Deer River, and Heuvelton, N.Y., to Branford and Ivoryton, Conn.; (c) from Hannibal, Wolcott, Deer River, Bleecker, East Branch, and Stratford, N.Y., to points of entry on the United States-Canada boundary line in New York State, for 180 days. Supporting shipper: Baillie Lumber Co., Inc., 12 Main Street, Post Office Box 6, Hamburg, N.Y. 14075. Send protests to: Morris H. Gross, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 104, 301 Erie Boulevard West, Syracuse, N.Y. 13202.

No. MC 119573 (Sub-No. 11 TA), filed July 2, 1969. Applicant: WATKINS TRUCKING, INC., 207 Trenton Avenue, Uhrichsville, Ohio 44683. Applicant's representative: Richard H. Brandon, 810 Hartman Building, Columbus, Ohio. 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Clay products*, from New Straitsville, Ohio, to points in Maryland, Virginia, and the District of Columbia, for 180 days. Supporting shipper: The Columbus Clay Manufacturing Co., New Straitsville, Ohio 43766. Send protests to: A. M. Culver, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 255 Federal Building and U.S. Courthouse, 85 Marconi Boulevard, Columbus, Ohio 43215.

No. MC 129459 (Sub-No. 4 TA), filed July 2, 1969. Applicant: KEARNEY'S TRUCK SERVICE, INC., U.S. Route Alternate 611, Portland, Pa. 18351. Applicant's representative: Kenneth R. Davis, 1106 Dartmouth Street, Scranton, Pa. 18504. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Stone*, in bulk, from Portland, Pa., Matawan, N.J., for 150 days. Supporting shipper: Duncan Thecker Associates, Post Office Box 177, Oakhurst, N.J. 07755. Send protests to: F. W. Doyle, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Second and Chestnut Streets, Philadelphia, Pa. 19106.

No. MC 129774 (Sub-No. 1 TA), filed June 30, 1969. Applicant: BRADY TRANSFER & STORAGE CO., INC., New Burton Road and Webbs Lane Rural Delivery No. 1, Dover, Del. Applicant's representative: Robert J. Gallagher, 111 State Street, Boston, Mass. 02109. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods*, between points in New Castle, Kent, and Sussex Counties, Del.; and Cecil, Kent, Queen Anne, Talbot, Caroline, Dorchester, and Wicomico Counties, Md.; Restriction: Restricted to the transportation of traffic having prior or subsequent movement, in containers, beyond the points authorized and further restricted to the performance of pickup and delivery service in connection with packing, crating, and containerization or unpacking, uncrating, and decontainerization of such traffic, for 180 days. Supporting shippers: Vanpac Carriers, Inc., 2114 Macdonald Avenue, Richmond, Calif. 94801; Wallace Gracie, Assistant Operation Manager; Karevan, Inc., Post Office Box 9240, Queen Anne Station, Seattle, Wash. 98109; Forrest D. Forgey, Direction Sales and Agency Relations. Send protests to: District Supervisor Paul J. Lowry, Interstate Commerce Commission, Bureau of Operations, 206 Old Post Office Building, 129 East Main Street, Salisbury, Md. 21801.

No. MC 133750 (Sub-No. 1 TA), filed July 2, 1969. Applicant: HARVEY WULFF, doing business as HARVEY WULFF TRUCKING, Salem, S. Dak. 57058. Applicant's representative: Earl H. Scudder, Jr., Box 2028, Lincoln, Nebr. 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Prefabricated concrete products*, from Salem, S. Dak., to points in Iowa, Minnesota, Nebraska, and North Dakota, for 180 days. Supporting shipper: F & W Concrete Products Co., Inc., Salem, S. Dak. 57058. Send protests to: J. L. Hammond, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 369, Federal Building, Pierre, S. Dak. 57501.

No. MC 133769 (Sub-No. 1 TA), filed July 2, 1969. Applicant: JACK STEVENS, doing business as STEVENS TRUCKING, 501 North 13th Street, Frederick, Okla. 73542. Applicant's representative: Raymond A. Greene, Jr., 405 Montgomery Street, San Francisco, Calif. 94104. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Ash, fly*, in bulk, from points in Oklahoma, Arkansas, and Missouri to points in Kern County, Calif., for 150 days. Supporting shipper: Cascade Charcoal, Inc., Post Office Box 2453, Bakersfield, Calif. 93302. Send protests to: Billy R. Reid, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 9A27 Federal Building, 819 Taylor Street, Fort Worth, Tex. 76102.

No. MC 133846 TA, filed June 30, 1969. Applicant: FLITE LINE SERVICE, INC., 1610 Jackson Street, Philadelphia, Pa. 19145. Applicant's representative: James W. Patterson, 123 South Broad Street, Philadelphia, Pa. 19109. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except commodities in bulk, between Philadelphia International Airport, Philadelphia, Pa., on the one hand, and, on the other, points in Atlantic, Cumberland, Cape May, Salem, Gloucester, Camden, Burlington, and Mercer Counties, N.J., for 180 days. Supporting shippers: Imperial Air Freight Service, Inc., 151 Oliver Street, Newark, N.J. 07105; Medallion Air Freight Corporation, 344 West 37th Street, New York, N.Y. 10018; Entico Air Freight Service, 555 West 34th Street, New York, N.Y. 10001; Bor-Air Freight Co., Inc., 351 West 38th Street, New York, N.Y. 10018. Send protests to: Peter R. Guman, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 900 U.S. Custom House, Second and Chestnut Streets, Philadelphia, Pa. 19106.

No. MC 133853 TA, filed July 1, 1969. Applicant: COLUMBIA LEASE & RENTAL, INC., West 1527 2nd Avenue, Spokane, Wash. 99204. Applicant's representative: Donald A. Ericson, Suite 708, Old National Bank Building, Spokane, Wash. 99201. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are dealt in by retail department stores, from points in Spokane County, Wash., to points in Kootenai and Shoshone Counties, Idaho, with no transportation on return except for *returned or rejected items*, under a continuing contract with Spokane Dry Goods Co., doing business as The Crescent, a department store, for 180 days. Supporting shipper: Spokane Dry Goods Co., doing business as, The Crescent, Spokane, Wash. 99210. Send protests to: L. C. Taylor, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 401 U.S. Post Office, Spokane, Wash. 99201.

No. MC 133859 TA, filed July 2, 1969. Applicant: JAMES S. GRIMES, Route No. 3, Frederick, Md. Applicant's representative: Charles E. Creager, Suite 1609, Eldorado Towers, 11215 Oak Leaf Drive, Silver Spring, Md. 20901. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wrecked, disabled, inoperative, stolen, abandoned, repossessed, replacement motor vehicles and trailers* (except house trailers and mobile homes), with or without cargo, *and parts therefor*, in truckaway service using wrecker; equipment only; between points in Carroll, Howard, Frederick, and Washington Counties, Md., and Berkeley and Jefferson Counties, W. Va., on the one hand, and, on the other, points in Alabama, Delaware, District of Columbia, Connecticut, Florida, Georgia, Illinois, Indiana, Maryland, Massachusetts, New Jersey, New York, North Carolina, Texas, Virginia, West Virginia, and Wisconsin, for 180 days. Supporting shippers: Some 13 common and private motor carriers. The list may be examined in the named supervisor's office, or at the Commissions office in Washington, D.C. Send protests to: Robert D. Caldwell, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 12th Street and Constitution Avenue NW., Washington, D.C. 20423.

By the Commission.

[SEAL] ANDREW ANTHONY, JR.,
Acting Secretary.

[Notice 866]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JULY 9, 1969.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 340), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 36222 (Sub-No. 13 TA), filed July 3, 1969. Applicant: JOHN L. FANSHAW, JR., doing business as CREWE TRANSFER, Crewe, Va. Applicant's representative: Jno. C. Goddin, 200 West Grace Street, Richmond, Va. 23220. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wearing apparel and materials and supplies* used in the manufacture of wearing apparel, between Washington, N.C., and Crewe, Va., for 150 days. NOTE: Applicant intends to interline with L & M Express Co., Docket No. MC 44639 and subs at Crewe, Va. Supporting shippers: Washington Garment Co., Inc., 900 East Fifth Street, Washington, N.C. 27889; Wonderland Fashions, Inc., 350 Warren Street, Jersey City 2, N.J. Send protests to: Robert W. Waldron, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 10-502 Federal Building, Richmond, Va. 23240.

No. MC 97009 (Sub-No. 19 TA), filed June 25, 1969. Applicant: VINCENT J. HERZOG, 200 Delaware Street, Honesdale, Pa. 18431. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Automobile equipment, accessories, and supplies*, between Milford, Pa., on the one hand, and, on the other, Scranton, Pa., and Binghamton, N.Y.; (2) *furniture, fiber glass articles*, and *commodities* used or useful in the manufacture of furniture and fiber glass articles, between Milford and Twin Lakes, Pa., on the one hand, and, on the other, Scranton, Pa., and Binghamton, N.Y., for 150 days. NOTE: Applicant is authorized to interline traffic at Binghamton, N.Y., and Scranton, Pa. Supporting shipper: Sparkomatic Corp., Milford, Pa. 18337; Harry Heim Associates, Inc., Box 341, Milford, Pa. 18337. Send protests to: Paul J. Kenworthy, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 309 U.S. Post Office Building, Scranton, Pa. 18503.

No. MC 108119 (Sub-No. 24 TA), filed July 2, 1969. Applicant: E. L. MURPHY TRUCKING CO., Post Office Box 3010, St. Paul, Minn. 55101. Applicant's representative: James L. Nelson, 305 Degree of Honor Building, St. Paul, Minn. 55101. Supporting shipper: American Hoist & Derrick Co., 63 South Robert Street, St. Paul, Minn. 55107. Send protests to: A. N. Spath, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 448 Federal Building and U.S. Courthouse, Minneapolis, Minn. 55401.

No. MC 111401 (Sub-No. 282 TA), filed July 3, 1969. Applicant: GROENDYKE TRANSPORT, INC., 2510 Rock Island Boulevard, Post Office Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *CSS-IH emulsified asphalt for slurry seal*, in bulk, in tank vehicles, from Salina, Kans., to Minneapolis, Minn., for 180 days. Supporting shipper: J. A. Maddox, President, Hy-Way Asphalt Products, Inc., Box 1262, Salina, Kans. 67401. Send protests to: C. L. Phillips, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 240 Old Post Office Building, 215 Northwest Third, Oklahoma City, Okla. 73102.

No. MC 124359 (Sub-No. 9 TA), filed June 30, 1969. Applicant: WIL-HELEN, INC., 1409 16th Avenue, Greeley, Colo. 80631. Applicant's representative: Paul F. Sullivan, 701 Washington Building, Washington, D.C. 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Carpeting and materials and supplies* used in the installation thereof, from Greenville, S.C., and Newnan and Calhoun, Ga., to Colorado and Cheyenne, Wyo., restricted to service performed under a continuing contract with Wholesale Flooring, Inc., and Wholesale Carpets, Inc., both of Denver, Colo., for 150 days. NOTE: Applicant does not intend to tack with its present authority. Supporting shipper: Wholesale Flooring, Inc., and Wholesale Carpets, Inc., 2200 Market Street, Denver, Colo. 80205. Send protests to: C. W. Buckner, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 2022 Federal Building, 1961 Stout Street, Denver, Colo. 80202.

No. MC 133770 (Sub-No. 1 TA), filed July 3, 1969. Applicant: MARYLAND CHICKEN PROCESSORS, INC., Snow Hill, Md. Applicant's representative: Otis G. Esham, Snow Hill, Md. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers* in special operations, between points in Accomack County, Va. and Snow Hill, Md., for 180 days. Supporting shipper: Maryland Chicken Processors, Inc., Snow Hill, Md.,

Otis G. Esham, President. Send protests to: Paul J. Lowry, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 206 Old Post Office Building, 129 East Main Street, Salisbury, Md. 21801.

No. MC 133751 (Sub-No. 1 TA), filed June 24, 1969. Applicant: RENO-LOYALTON-CALPINE STAGE LINES, INC., Post Office Box 367, Loyalton, Calif. 96118. Applicant's representative: Marchall G. Berol, 100 Bush Street, San Francisco, Calif. 94104. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except classes A and B explosives, articles of unusual value, commodities in bulk, commodities requiring special handling or special equipment, and used household goods as defined by the Commission), restricted against the transportation of packages or articles weighing in the aggregate more than 5,000 pounds from one consignor to one consignee on any one day, between Reno, Nev., and Downieville, Calif., serving all intermediate points, and serving the off-route point of Calpine, Calif., from Reno over U.S. Highway 395 to Hallelujah Junction, Calif., thence over California Highway 70 to Vinton, thence over California Highway 49 to Downieville, and return over the same route, for 150 days. NOTE: Applicant intends to interline with other carriers at Reno, Nev. Supporting shippers: Lombardi Mercantile, Loyalton, Calif. 96118; Loyalton Pharmacy, Loyalton, Calif. 96118; Loyalton Hotel & Apartments, Loyalton, Calif. 96118; Feather River Lumber Co., Loyalton, Calif. 96118; Downieville Motors, Downieville, Calif. 95935; Sattley Cash Store, Sattley, Calif. 96124; Harold A. Stoy, Hallelujah Junction, Doyle, Calif. 96109; Sierra Hardware Company, Downieville, Calif. 95936. Send protests to: Daniel Augustine, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 222 East Washington Street, Carson City, Nev. 89701.

No. MC 133846 (Sub-No. 1 TA), filed July 2, 1969. Applicant: FLITE LINE SERVICE, INC., 1610 Jackson Street, Philadelphia, Pa. 19145. Applicant's representative: James W. Patterson, 123 South Broad Street, Philadelphia, Pa. 19109. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except commodities in bulk), between Logan International Airport, Boston, Mass., La Guardia Airport and John F. Kennedy International Airport, New York, N.Y.; Newark Airport, Newark, N.J.; Philadelphia International Airport, Philadelphia, Pa.; Friendship International Airport, Anne Arundel County, Md.; Dulles International Airport, Chantilly, Va., and Washington; National Airport, Arlington County, Va., on the one hand, and, on the other, Norfolk Municipal Airport, Norfolk, Va.; Charlotte Airport, Charlotte, N.C.; Atlanta Municipal Airport, Atlanta, Ga.; Orlando Airport, Orlando, Fla., and Miami International Airport, Miami, Fla., for 180 days. Supporting shippers: Entico Air Freight Service, 555 West 34th Street, New York, N.Y. 10001; Imperial Air Freight Service, Inc., 151 Oliver Street, Newark, N.J. 07105; Medallion Air Freight Corporation, 344 West 37th Street, New York, N.Y. 10018; Bor-Air Freight Co., Inc., 351 West 38th Street, New York, N.Y. 10018. Send protests to: Peter R. Guman, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 900 U.S. Custom House, Second and Chestnut Streets, Philadelphia, Pa. 19106.

No. MC 133860 TA, filed July 2, 1969. Applicant: HC&D MOVING & STORAGE COMPANY, INC., Post Office Box 4008, 911 Middle Street, Honolulu, Hawaii 96812. Applicant's representative: Alan F. Wohlstetter, 1 Farragut Square South, Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods* as defined by the Commission, between points in Hawaii, restricted to traffic originating at or destined to points beyond Hawaii, for 180 days. NOTE: Applicant proposes to enter into joint through motor-water-motor rates under section 216(c) of the Act. Supporting shipper: AMFAC, Inc., Post Office Box 3230, Honolulu, Hawaii 96801; Dillingham Corp., Box 3288, Honolulu, Hawaii 96801; Dole Co., 650 Iwilei Road, Honolulu, Hawaii 96817; Kentron Hawaii, Ltd., 207 Keawe Street, Honolulu, Hawaii 96813. Send protests to: District Supervisor Wm. E. Murphy, Interstate Commerce Commission, Bureau of Operations, 450 Golden Gate Avenue, Box 36004, San Francisco, Calif. 94102.

MOTOR CARRIER OF PASSENGERS

No. MC 133858 TA, filed July 2, 1969. Applicant: THE COTTER GARAGE CORPORATION, 8 Jewell Court, Hartford, Conn. 06105. Applicant's representative: Richard Goodman, 266 Pearl Street, Hartford, Conn. 06103. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, from points in Litchfield, Hartford, and Tolland Counties, Conn., on the one hand, and, on the other, points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, and New Jersey; restricted to transportation of not more than six passengers in any one vehicle (not including driver), for 180 days. Supporting shippers: There are 14 supporting shippers to this application. Information regarding supporting shippers' letters may be obtained from the Hartford Field Office at the address listed below, or at the Offices of the Interstate Commerce Commission in Washington, D.C. Send protests to: District Supervisor David J. Kiernan, Interstate Commerce Commission, Bureau of Operations, 324 U.S. Post Office Building, 135 High Street, Hartford, Conn. 06101.

By the Commission.

[SEAL] ANDREW ANTHONY, Jr.,
Acting Secretary.

[Notice 375]

MOTOR CARRIER TRANSFER PROCEEDINGS

JULY 9, 1969.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-71238. By order of June 27, 1969, the Motor Carrier Board approved the transfer to Sawyer Stockliners, Inc., West Highway, Torrington, Wyo. 82240, of certificate No. MC-95742 issued February 25, 1960, to Carl Sawyer, doing business as Sawyer Stockliners, West Highway, Torrington, Wyo. 82240, authorizing the transportation of: Building materials, coal, livestock, and livestock feed, etc., between points in Colorado, Nebraska, South Dakota, and Wyoming.

No. MC-FC-71396. By order of June 26, 1969, the Motor Carrier Board approved the transfer to Kevah Konner, Inc., Pine Brook, N.J., of the operating rights in certificate No. MC-44252 issued July 5, 1968, to Wagner Tours, Inc., North Haledon, N.J., authorizing the transportation of passengers and their baggage, restricted to traffic originating and the points and in the territory indicated, in charter operations, from Paterson, N.J., and points in New Jersey and New York within 15 miles of Paterson, N.J., to points in New York and New Jersey and those in Pennsylvania on and east of U.S. Highway 11, and return. Charles J. Williams, 47 Lincoln Park, Newark, N.J. 07102, attorney for transferor; Benjamin L. Bendit, 744 Broad Street, Newark, N.J. 07102, attorney for transferee.

No. MC-FC-71421. By order of July 1, 1969, the Motor Carrier Board approved the transfer to K. V. Young and D. A. Goepel, a partnership, doing business as Iowa Van & Storage Co., 216 Commercial Street, Ottumwa, Iowa 52501, of the operating rights in certificate No. MC-52525 issued February 14, 1963, to Jack Shipman, doing business as Hale Transfer & Storage, 801 High Avenue West, Oskaloosa, Iowa 52577, authorizing the transportation of malt beverages, in containers, from Minneapolis, Minn., to Bloomfield, Iowa, serving the intermediate and off-route points of Oskaloosa, Ottumwa, and Albia, Iowa; household goods as defined by the Commission, between points in Iowa, on the one hand, and, on the other, points in Illinois, Minnesota, Missouri, and Nebraska; beer, from Minneapolis, Minn., to Centerville, Iowa; butter, from Oskaloosa,

Iowa, to St. Paul, Minn.; groceries, from Albert Lea, Minn., to Des Moines, Iowa; petroleum products, from St. Louis, Mo., to Oskaloosa, Iowa; wallpaper, from Joliet, Ill., to Oskaloosa, Iowa, and superphosphate, from Chicago, Ill., to Oskaloosa, Iowa.

No. MC-FC-71436. By order of June 26, 1969, the Motor Carrier Board approved the transfer to Rayburn Trucking, Inc., Elizabeth, N.J., of permit No. MC-2776, issued October 18, 1950, to Joseph Janolis and Anthony Rambone, doing business as J. Janolis Trucking Co., Edgewater, N.J., authorizing the transportation of: Sugar, from Edgewater, N.J., to points in New York and New Jersey within 40 miles of Edgewater; sugar and sugar products, including liquid sugar, in containers, from New York, N.Y., to points in New Jersey and New York within 40 miles of Columbus Circle, New York, N.Y., except those in Westchester County, N.Y.; and rejected shipments, from the above-specified destination points to New York, N.Y. Charles J. Williams, 47 Lincoln Park, Newark, N.J. 07102, counsel for applicants.

No. MC-FC-71470. By order of July 1, 1969, the Motor Carrier Board approved the transfer to Orvan Tjeerdsma, Avon, S. Dak., of certificate No. MC-81354 issued March 29, 1968, to James E. Tolsma, doing business as Tolsma Transfer, Springfield, S. Dak., authorizing the transportation of general commodities, with specified exceptions between specified points in South Dakota and Iowa and household goods between specified points in South Dakota on the one hand, and, on the other, points in Iowa, Minnesota, and Nebraska. Elmer E. Gemar, Post Office Box 245, Springfield, S. Dak., attorney for applicants.

No. MC-FC-71475. By order of July 1, 1969, the Motor Carrier Board approved the transfer to Fred H. Meyer, doing business as Meyer Truck Line, Alma, Kans., of certificate No. MC-7342 (Sub-No. 3), issued October 22, 1958, to Roy A. Kemble, Maple Hill, Kans., authorizing the transportation of: Feed, agricultural implements and parts, building materials, petroleum products in containers, empty petroleum products containers, hardware, aluminum pipe, irrigation equipment, commercial fertilizer, fence posts, twine, wire fencing, and baling wire, between Paxico, Kans., and points within 21 miles thereof, on the one hand, and, on the other, Kansas City, and St. Joseph, Mo. Bill Baldock, Alma, Kans. 66401, attorney for applicants.

[SEAL] ANDREW ANTHONY, Jr.,
Acting Secretary.

[F.R. Doc. 69-8257; Filed, July 11, 1969; 8:49 a.m.]

FOURTH SECTION APPLICATION FOR RELIEF

JULY 9, 1969.

Protests to the granting of an application must be prepared in accordance with Rule 1100.40 of the general rules of practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FEDERAL REGISTER

Area Code 202 Phone 962–8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket No. C-1549]

PART 13—PROHIBITED TRADE PRACTICES

Be-Len Manufacturing Co., Inc., et al.

Subpart—Misbranding or Mislabeling: § 13.1185 *Composition:* 13.1185–90 Wool Products Labeling Act; § 13.1212 *Formal Regulatory and Statutory Requirements:* 13.1212–90 Wool Products Labeling Act. Subpart—Neglecting, Unfairly or Deceptively, to Make Material Disclosure: § 13.1852 *Formal Regulatory and Statutory Requirements:* 13.-1852–80 Wool Products Labeling Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, secs. 2–5, 54 Stat. 1128–1130; 15 U.S.C. 45, 68) [Cease and desist order, Be-Len Manufacturing Co., Inc., et al., New York, N.Y., Docket C-1549, June 23, 1969]

In the Matter of Be-Len Manufacturing Co., Inc., a Corporation, and Samuel Ziegler and Arthur Ziegler, Individually and as Officers of Said Corporation

Consent order requiring a New York City manufacturer of men's and boys' wearing apparel to cease misbranding its wool products.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Be-Len Manufacturing Co., Inc., a corporation, and its officers, and Samuel Ziegler and Arthur Ziegler, individually and as officers of said corporation, and respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with the introduction, or manufacture for introduction, into commerce, or the offering for sale, sale, transportation, distribution, delivery for shipment or shipment, in commerce, of wool products, as "commerce" and "wool product" are defined in the Wool Products Labeling Act of 1939, do forthwith cease and desist from misbranding such products by:

1. Failing to securely affix to, or place on, each such product a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner each element of information required to be disclosed by section 4(a)(2) of the Wool Products Labeling Act of 1939.

2. Failing to affix labels to samples, swatches or specimens of wool products used to promote or reflect the sale of wool products, showing in words and figures plainly legible all of the information required to be disclosed by each of the subsections of section 4(a)(2) of the Wool Products Labeling Act of 1939.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: June 23, 1969.

By the Commission.

[SEAL] JOSEPH W. SHEA, *Secretary.*

[F.R. Doc. 69-8312; Filed, July 14, 1969; 8:49 a.m.]

[Docket No. C-1547]

PART 13—PROHIBITED TRADE PRACTICES

District Credit Clothing & Furniture, Inc., and Sidney Gimble

Subpart—Advertising falsely or misleadingly: § 13.75 *Free goods or services;* § 13.155 *Prices:* 13.155–95 Terms *and conditions.* Subpart—Neglecting, uning oneself and goods—Goods: § 13.1625 *Free goods or services;* § 13.1760 *Terms and conditions.* Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1882 *Prices:* § 13.1905 *Terms and conditions.* Subpart—Securing signatures wrongfully: § 13.2175 *Securing signatures wrongfully.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, District Credit Clothing & Furniture, Inc., et al., Washington, D.C., Docket C-1547, June 16, 1969]

In the Matter of District Credit Clothing & Furniture, Inc., a Corporation, and Sidney Gimble, Individually and as an Officer of Said Corporation

Consent order requiring a Washington, D.C., retailer of clothing, furniture and appliances to cease misusing the word "free", inducing customers to sign partially completed contracts, misrepresenting finance charges and conditions, and failing to disclose the legal effect of installment payment default.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents District Credit Clothing & Furniture, Inc., a corporation, and its officers, and Sidney Gimble, individually and as an officer of said corporation, and respondents' agents, representatives, and employees, directly or through any corporate or other device, in connection with the advertising, offering for sale, sale or distribution of clothing, furniture, appliances, and other items of merchandise, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, that any article of merchandise is being given free or as a gift, or without cost or charge, in connection with the purchase of other merchandise, unless the stated price of the merchandise required to be purchased in order to obtain said article is the same or less than the customary and usual price at which such merchandise has been sold separately by respondents for a substantial period of time in the recent and regular course of their business.

2. Inducing or causing purchasers of respondents' merchandise to sign blank or partially completed sale contracts or any other contractual instruments which are not fully completed at the time such instruments are executed.

3. Representing, directly or by implication, the rate of a finance charge, the amount of downpayment, the amount of any installment payment, the dollar amount of any finance charge, or the number of installments or the period of repayment unless respondents clearly and conspicuously disclose, in immediate conjunction with such representation, all of the following items:

(a) The cash price.

(b) The time price, consisting of the sum of the cash price, all finance charges, and any other extra charges before deducting any downpayment or allowance for a trade-in or otherwise.

(c) The downpayment, if any.

(d) The number, amount, and due dates or period of payments scheduled to repay the indebtedness if the credit is extended.

(e) The rate of the finance charge expressed as an annual percentage rate.

4. Representing, directly or by implication, that a specific periodic consumer credit payment or installment payment can be arranged unless the respondents usually and customarily arrange credit payments or installments for that period and in that amount.

5. Failing to disclose orally and in writing to each customer who executes a conditional sale contract, or who otherwise purchases merchandise or services from respondents on credit, before such customer obligates himself to make any such credit purchase, all of the following items:

(a) The cash price of the merchandise or service purchased.

(b) The sum of any amounts credited as downpayment (including any trade-in).

(c) The difference between the amount referred to in paragraph (a) and the amount referred to in paragraph (b).

(d) All other charges, individually itemized, which are included in the amount of the credit extended but which are not part of the finance charge.

(e) The total amount to be financed (the sum of the amount described in paragraph (c) plus the amount described in paragraph (d)).

(f) The amount of the finance charge.

(g) The finance charge expressed as an annual percentage rate.

(h) The total credit price (the sum of the amounts described in paragraph (e) plus the amount described in paragraph (f)) and the number, amount, and due dates or periods of payments scheduled to pay the total credit price.

(i) The default, delinquency, or similar charges payable in the event of late payments as well as all other consequences provided in the sales or credit agreements for late or missed payments.

(j) A description of any security interest held or to be retained or acquired by respondents in connection with the extension of credit, and a clear identification of the property to which the security interest relates.

For purposes of paragraphs 3 and 5 of this order, the definition of the term "finance charge" and computation of the annual percentage rate is to be determined under [sections 106 and 107 of] Public Law 90-321, the "Truth in Lending Act," and the regulations promulgated thereunder.

6. Failing to provide purchasers of respondents' merchandise with a copy of the executed sales contract or any other agreement at the time of execution by the purchaser.

7. Failing to disclose in writing on any conditional sale contract, promissory note or other instrument of indebtedness executed by a purchaser, and with such conspicuousness and clarity as is likely to be observed and read by such purchaser, that:

Any such instrument at respondents' option after a default in installment payments may be enforced in a court of law.

8. Failing to deliver a copy of this order to cease and desist to all present and future salesmen or other persons engaged in the sale of respondents' merchandise, and failing to secure from each such salesman or other person a signed statement acknowledging receipt of said order.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: June 16, 1969.

By the Commission.

PART 13—PROHIBITED TRADE PRACTICES

General Nutrition Corp. et al.

Subpart—Advertising falsely or misleadingly: § 13.170 *Qualities or properties of product or service:* 13.170-52 Medicinal, therapeutic, healthful, etc.; 13.170-64 Nutritive.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies, sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, General Nutrition Corp. et al., Pittsburgh, Pa., Docket C-1517, June 20, 1969]

In the Matter of General Nutrition Corp., a Corporation, Also Trading as Natural Sales Co., and David B. Shakarian, Individually and as an Officer of Said Corporation

Order amending a previous consent order, 34 F.R. 7276, dated April 4, 1969, which prohibited a drug company from making certain exaggerated claims for its products by substituting a paragraph which clarified the order's compliance report provision.

The amended cease and desist order is as follows:

It is ordered, That the last paragraph of the Commission's order dated April 4, 1969, be, and it hereby is, amended to read as follows:

It is further ordered, That the respondents herein shall, on the date that this order shall become final in accordance with the terms of paragraph 7 of the Consent Agreement, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: June 20, 1969.

By the Commission.

PART 13—PROHIBITED TRADE PRACTICES

Neemco Imperial, Ltd., et al.

Subpart—Misbranding or Mislabeling: § 13.1185 *Composition:* 13.1185-80 Textile Fiber Products Identification Act; § 13.1212 *Formal regulatory and statutory requirements:* 13.1212-80 Textile Fiber Products Identification Act. Subpart—Misrepresenting Oneself and Goods—Business Status, Advantages or Connections: § 13.1475 *Location.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 72 Stat. 1717; 15 U.S.C. 45, 70) [Cease and desist order, Neemco Imperial, Ltd., trading as Victoria Gift Shop et al., San Francisco, Calif., Docket C-1548, June 23, 1969]

In the Matter of Neemco Imperial, Ltd., a Corporation, Trading as Victoria Gift Shop and Victoria Imperial Gift Shops Ltd., and Pearl L. Braha Mamiye and Mal Eli Mamiye, Individually and as Officers of Said Corporation

Consent order requiring a San Francisco, Calif., oriental gift shop to cease misbranding the fiber content of its textile fiber products and misrepresenting the location of its business.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Neemco Imperial, Ltd., a corporation, trading as Victoria Gift Shop and Victoria Imperial Gift Shops Ltd., or under any other name or names and its officers, and Pearl L. Braha Mamiye and Mal Eli Mamiye, individually and as officers of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction, delivery for introduction, sale, advertising, or offering for sale in commerce, or the importation into the United States of any textile fiber product; or in connection with the sale, offering for sale, advertising, delivery, transportation or causing to be transported, of any textile fiber product, which has been advertised or offered for sale in commerce; or in connection with the sale, offering for sale, advertising, delivery, transportation or causing to be transported, after shipment in commerce of any textile fiber product, whether in its original state or contained in other textile fiber products, as the terms "commerce" and "textile fiber product" are defined in the Textile Fiber Products Identification Act, do forthwith cease and desist from:

A. Misbranding textile fiber products by:

1. Falsely or deceptively stamping, tagging, labeling, invoicing, advertising or otherwise identifying such products as to the name or amount of the constituent fibers contained therein.

2. Failing to affix a stamp, tag, label or other means of identification to each such product showing in a clear, legible, and conspicuous manner each element of information required to be disclosed by section 4(b) of the Textile Fiber Products Identification Act.

3. Failing to set forth in disclosing the required fiber content information as to floor coverings, containing exempted backings, fillings, or paddings, that such disclosure relates only to the face, pile or outer surface of such textile fiber products and not to the exempted backings, fillings, or paddings.

It is further ordered, That respondents Neemco Imperial, Ltd., a corporation,

trading as Victoria Gift Shop and Victoria Imperial Gift Shops Ltd., or under any other name or names and its officers, and Pearl L. Braha Mamiye and Mal Eli Mamiye, individually and as officers of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the advertising, offering for sale, sale or distribution of floor coverings, handkerchiefs or other products in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Directly or indirectly representing in any manner through the use of such words as "main office London, England" or any terms of similar import, either with or without such names as Neemco Imperial, Ltd., Victoria Gift Shop and Victoria Gift Shops Ltd. that corporate respondent is a British firm or has offices in London, England.

2. Representing in any manner that corporate respondent is a foreign firm or that the corporate respondent has offices in England or in any other foreign country or misrepresenting in any manner the location of respondents' place of business.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: June 23, 1969.

By the Commission.

Title 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

[Release Nos. 33-4982, 34-8638]

PART 231—INTERPRETATIVE RELEASES RELATING TO SECURITIES ACT OF 1933 AND GENERAL RULES AND REGULATIONS THEREUNDER

PART 241—INTERPRETATIVE RELEASES RELATING TO SECURITIES EXCHANGE ACT OF 1934 AND GENERAL RULES AND REGULATIONS THEREUNDER

Spin Offs and Shell Corporations

The Securities and Exchange Commission today made publicly known its concern with the methods being employed by a growing number of companies and persons to effect distributions to the public of unregistered securities in possible violation of the registration requirements of the Securities Act of 1933 and of the antifraud and antimanipulative provisions of the Securities Act of 1933 and the Securities Exchange Act of 1934. The methods employed can take and in fact have taken a variety of patterns.

I. Frequently, the pattern involves the issuance by a company, with little, if any, business activity, of its shares to a publicly owned company in exchange for what may or may not be nominal consideration. The publicly owned company subsequently spins off the shares to its shareholders with the result that active trading in the shares begins with no information on the issuer being available to the investing public. Despite this lack of information, moreover, the shares frequently trade in an active market at increasingly higher prices. Under such a pattern, when the shares are issued to the publicly owned or acquiring company, a sale takes place within the meaning of the Securities Act and if the shares are then distributed to the shareholders of the acquiring company, that company may be an underwriter within the meaning of section 2(11) of the Act as a person "who purchased from an issuer with a view to * * * the distribution of any security" or as a person who "has a direct or indirect participation in any such undertaking."

While the distribution of the shares to the acquiring company's shareholders may not, in itself, constitute a distribution for the purposes of the Act, the entire process, including the redistribution in the trading market which can be anticipated and which may indeed be a principal purpose of the spin off, can have that consequence. It is accordingly the Commission's position that the shares which are distributed in certain spin offs involve the participation of a statutory underwriter and are thus, in those transactions, subject to the registration requirements of the Act and subsequent transactions in the shares by dealers, unless otherwise exempt, would be subject to the provisions of section 5 requiring the delivery of a prospectus during the 40- or 90-day period set forth in section 4(3).

The theory has been advanced that since a sale is not involved in the distribution of the shares in a spin off that registration is not required and that even if it is required, no purpose would be served by filing a registration statement and requiring the delivery of a prospectus since the persons receiving the shares are not called upon to make an investment judgment.

This reasoning fails, however, to take into account that there is a sale by the issuer and the distribution thereafter does not cease at the point of receipt by the initial distributees of the shares but continues into the trading market involving sales to the investing public at large. Moreover, it ignores what appears to be primarily the purpose of the spin off in numerous circumstances which is to create quickly, and without the disclosure required by registration, a trading market in the shares of the issuer. Devices of this kind, contravene the purpose, as well as the specific provisions, of the Act which, in the words of the statutory preamble, are "to provide full and fair disclosure of the character of the securities sold in interstate and foreign commerce and through the mails, and to prevent frauds in the sale thereof." In the circumstances of a spin off, when the shares are thereafter traded in the absence of information about the issuer, the potential for fraud and deceit is manifest.

This release does not attempt to deal with any problems attributable to more conventional spin offs, which do not involve a process of purchase of securities by a publicly owned company followed by their spin off and redistribution in the trading markets.

II. Another pattern has come to the Commission's attention in which certain promoters have acquired corporations which have ceased active operations, or which have little or no assets ("shell corporations"), and which have a substantial number of shares outstanding, generally in the hands of the public. Thereafter the promoters have engaged in activities to quickly increase the market value of their shareholdings. For example, in some cases promoters have initiated a program of acquisitions, transferring assets of dubious value to the "shell corporations" in exchange for substantial amounts of newly issued shares. This activity is frequently accompanied by publicity containing exaggerated or misleading statements and designed to stimulate interest of public investors in the company's shares in violation of the antifraud provisions of the Securities Exchange Act of 1934. Thereafter the market prices of these securities have risen sharply under circumstances which bear no relationship to the underlying financial condition and business activities of the company. In some of these cases the promoters or other corporate insiders, take advantage of the market activity and the price rise which they have generated, have sold their shares at the inflated prices to the public in violation of the registration and antifraud provisions of the Federal securities laws. Similar activities have also been noted in a number of cases involving shares which a publicly held company has spun off to its shareholders.

III. The activities discussed above generally can only be successfully accomplished through the efforts of brokers and dealers. Accordingly, brokers and dealers are cautioned to be particularly mindful of their obligations under the registration and antifraud provisions of the Federal securities laws with respect to effecting transactions in such securities. In this connection, where a broker or dealer receives an order to sell securities of a little-known, inactive issuer, or one with respect to which there is no current information available except possibly unfounded rumors, care must

be taken to obtain sufficient information about the issuer and the person desirous of effecting the trade in order to be reasonably assured that the proposed transaction complies with the applicable requirements. Moreover, before a broker or dealer induces or solicits a transaction he should make diligent inquiry concerning the issuer, in order to form a reasonable basis for his recommendation, and fully inform his customers of the information so obtained, or in the absence of any information, of that fact.

In the foregoing connection the Commission also calls attention to its release dated February 2, 1962, on the subject "Distribution by Broker-Dealers of Unregistered Securities" (Securities Act Release No. 4445, Securities Exchange Act Release No. 6721; 27 F.R. 1251, Feb. 10, 1962).

[SEAL] ORVAL L. DUBOIS,
Secretary.

JULY 2, 1969.

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of Transportation

SUBCHAPTER I—ANCHORAGES

[CGFR 69-62]

PART 110—ANCHORAGE REGULATIONS

Subpart B—Anchorage Grounds

BARGE FLEETING AREA, HILLSBOROUGH BAY, TAMPA, FLA.

1. The Commander, 7th Coast Guard District, Miami, Fla., by letter dated May 13, 1969, requested the establishment of a Barge Anchorage Ground in Hillsborough Bay, Tampa, Fla. The reason for the request is that there is a heavy increase in barge traffic, and an anchorage is required to accommodate transient barges. A public notice dated March 6, 1969, was issued by the Commander, 7th Coast Guard District, Miami, Fla., describing the proposed anchorage. All known interested parties were notified and requested to comment on the proposal. Two objections were received. However, these objections were resolved, in that barges will be limited in the use of the anchorage for a period not in excess of 96 hours. Since the foregoing procedure afforded effective notice to all interested parties, publication of the notice of proposed rule making in the FEDERAL REGISTER is unnecessary. Therefore, the request to establish an anchorage ground for barges as described in 33 CFR 110.193(a)(5) below is granted, subject to the right to change the requirements and to amend the regulations if and when necessary in the public interest.

2. This document effectuates this request by adding a new § 110.193(a)(5) describing the limits of this anchorage ground.

3. In Subpart B of Part 110, § 110.193 is amended by adding a new paragraph (a)(5), following paragraph (a)(4), to read as follows:

§ 110.193 Tampa Bay, Fla.

* * * * *

(a) * * *

(5) *Barge Fleeting Area, Hillsborough Bay.* Located 400 feet west of Cut "D" Channel at a point beginning at latitude 27°54'34", longitude 52°26'35"; thence northerly 1,000 feet to latitude 27°54'43", longitude 82°26'40"; thence westerly 500 feet to latitude 27°54'41", longitude 82°-26'45"; thence southerly 1,000 feet to latitude 27°54'32", longitude 82°26'40"; thence easterly 500 feet to the point of beginning.

NOTE: This area is reserved for transient barges only. Barges shall not occupy this anchorage for a period longer than 96 hours unless permission is obtained from the Captain of the Port for this purpose.

* * * * *

(Sec. 7, 38 Stat. 1053, as amended, sec. 6(g)(1)(A), 80 Stat. 937; 33 U.S.C. 471, 49 U.S.C. 1655(g)(1)(A); 49 CFR 1.4(a)(3)(i))

Effective date. This amendment shall become effective 30 days following the date of publication in the FEDERAL REGISTER.

Dated: July 2, 1969.

W. J. SMITH,
Admiral, U.S. Coast Guard, Commandant.

[F.R. Doc. 69-8310; Filed, July 14, 1969; 8:48 a.m.]

[CGFR 69-70]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Dunns Creek, Fla.

1. The Florida State Road Department by letter dated May 5, 1969, requested the Commander, 7th Coast Guard District to revise the operation regulations for the drawbridge across Dunns Creek near Palatka. A public notice dated May 13, 1969 setting forth the proposed revision of the regulations governing this drawbridge was issued by the Commander, 7th Coast Guard District and was made available to all persons known to have an interest in this subject.

2. After consideration of all comments submitted in response to this proposal the revision is accepted. Accordingly, 33 CFR 117.245(h)(25) is revised to read as follows:

§ 117.245 Navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets; bridges where constant attendance of draw tenders is not required.

* * * * *

(h) Waterways discharging into Atlantic Ocean south of Charleston. * * *

(25) Dunns Creek, Fla.; State Road Department of Florida bridge across Dunns Creek near Palatka. At least 3 hours' advance notice required.

* * * * *

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.4(a)(3)(v))

Effective date. This revision shall become effective 30 days following the date of publication in the FEDERAL REGISTER.

Dated: July 2, 1969.

W. J. SMITH,
Admiral, U.S. Coast Guard, Commandant.

[F.R. Doc. 69-8265; Filed, July 14, 1969; 8:45 a.m.]

[CGFR 69-61]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Indian River, Fla.

1. The Commander, 7th Coast Guard District by letter dated May 13, 1969, requested that the Commandant revise the operation regulations in § 117.436 to eliminate the Cocoa drawbridge listed thereon. This drawbridge was removed April 23, 1969, and has been replaced by twin fixed bridges.

2. Accordingly, the heading and paragraph (a) of § 117.436 are revised to read as follows:

§ 117.436 Indian River, Fla.; Florida State Road Department bridges at Titusville, Eau Gallie, and Melbourne, and the National Aeronautics and Space Administration bridge at Addison Point.

(a) Except as provided in paragraphs (b) and (c) of this section, the owner of or agency controlling the bridges at Titusville, Addison Point, Eau Gallie, and Melbourne shall not be required to open the drawspans between 6:45 a.m. and 7:45 a.m. and between 4:15 p.m. and 5:45 p.m., Monday through Friday of each week.

* * * * *

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.4(a)(3)(v))

Effective date. This revision shall become effective upon the date of publication in the FEDERAL REGISTER.

Dated: July 2, 1969.

W. J. SMITH,
Admiral, U.S. Coast Guard, Commandant.

Title 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 742—CODE OF ETHICAL CONDUCT

Miscellaneous Amendments

Part 742 is being amended in several respects to delegate additional functions to the Ethical Conduct Counselor and in order to make changes for the purpose of clarification. These amendments were approved by the Civil Service Commission on July 3, 1969, and are effective upon publication in the FEDERAL REGISTER.

I. Section 742.735–26(b)(5) is amended to change the designation Postmaster General to Ethical Conduct Counselor.

§ 742.735–26 Conflicts of interest.

* * * * *

(b) *Employment after separation.* * * *

(5) Notwithstanding subparagraphs (1) and (2) of this paragraph, when a particular matter involved is in a scientific or technical field and if the Ethical Conduct Counselor certifies in writing that it is in the national interest and the certification is published in the FEDERAL REGISTER, a former officer or employee, including a former special Government employee, with outstanding scientific or technical qualifications may act as attorney or agent or appear personally.

* * * * *

NOTE: The corresponding Postal Manual section is 742.262e.

II. Section 742.735–27(a)(1) is amended to change the designation Postmaster General to Ethical Conduct Counselor; and paragraph (b)(5) thereof is amended to clarify a cross reference.

§ 742.735–27 Dealings with public.

(a) *Giving endorsements.* (1) An employee shall not, with or without compensation, give an endorsement to any business, enterprise, or product which may give rise to any inference or indication that such business, enterprise, or product is officially endorsed by this Department or the United States, without special permission from the Ethical Conduct Counselor.

* * * * *

(b) *Permitted activities.* * * *

* * * * *

(5) Soliciting for fund raising drives for civic, religious, fraternal auxiliaries, clubs, and kindred organizations so long as they do not solicit while on duty, or solicit while wearing their uniform or any insignia or badge or in any way identify themselves as postal employees, or solicit from patrons with whom they have recurring official contact, or use their postal position to influence collections. See §§ 741.73, 742.256, 742.295, and 742.296 of the Postal Manual.

NOTE: The corresponding Postal Manual sections are 742.271a and 742.272e, respectively.

III. In § 742.735–54 the opening sentence of paragraph (a) is amended to change the designation Postmaster General to Ethical Conduct Counselor.

§ 742.735–54 Exclusions.

(a) Employees in positions listed in § 742.735–52 (c) and (d) of this chapter may be excluded from the reporting requirement when the Ethical Conduct Counselor determines that:

* * * * *

NOTE: The corresponding Postal Manual section is 742.54a.

IV. Section 742.735–61(b) is amended to change the designation Postmaster General to Ethical Conduct Counselor.

§ 742.735–61 Special Government employees required to submit statements.

* * * * *

(b) The financial interests of the special Government employees which the Ethical Conduct Counselor determines are relevant in the light of the duties he is to perform.

NOTE: The corresponding Postal Manual section is 742.61b.

V. Section 742.735–62 is amended to change the designation Postmaster General to Ethical Conduct Counselor.

§ 742.735–62 Exceptions.

The Ethical Conduct Counselor may waive the requirement in § 742.735–61 above for the submission of a statement of employment and financial interests in the case of a special Government employee who is not a consultant or an expert when he finds that the duties of the position held by that special Government employee are of a nature and at such a level of responsibility that the submission of the statement by the incumbent is not necessary to protect the integrity of the Government. For the purpose of this section consultant and expert have the meanings given those terms by Chapter 304 of the Federal Personnel Manual, but do not include a physician, dentist, or allied medical specialist whose services are procured to provide care and service to patients.

NOTE: The corresponding Postal Manual section is 742.62.

VI. Section 742.735–71 is amended by adding new paragraph (f) to state that the Ethical Conduct Counselor may, in proper cases, make exceptions to the requirements or prohibitions of Part 742.

§ 742.735–71 Ethical Conduct Counselor and Deputy Ethical Conduct Counselors.

* * * * *

(f) Unless prohibited by law or Executive order, or inconsistent with 5 CFR Part 735, the Ethical Conduct Counselor may make exception to the requirements or prohibitions in this Part, for good cause shown.

NOTE: The corresponding Postal Manual section is 742.716.

(5 U.S.C. 301, 39 U.S.C. 501, Executive Order 11222, dated May 8, 1965)

DAVID A. NELSON,
General Counsel.

Title 7—AGRICULTURE

Chapter XIV—Commodity Credit Corporation, Department of Agriculture

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[CCC Grain Price Support Regs., Rev. 1, Amdt. 13]

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

Subpart—General Regulations Governing Price Support for the 1964 and Subsequent Crops

MISCELLANEOUS AMENDMENTS

The regulations issued by the Commodity Credit Corporation published in 31 F.R. 5941, 32 F.R. 7843, 9301, 10910, and 13376, and 33 F.R. 222, 299, 2564, 5659, 6097, 8220, 12821, and 16142, and 34 F.R. 1228 containing the General Regulations Governing Price Support for the 1964 and Subsequent Crops of Grains and Similarly Handled Commodities are hereby amended as follows:

1. Paragraph (a) of § 1421.53 is amended to provide for using Purchase Agreement (Form CCC–614) by producer when notifying county office of intention to sell a commodity to CCC. The amended paragraph (a) reads as follows:

§ 1421.53 Eligibility requirements.

(a) *Requesting price support.* To obtain price support on an eligible commodity, a producer must request a loan on his eligible commodity, or notify the ASCS county office of his intention to sell his eligible commodity by executing and delivering to the county office a Purchase Agreement (Form CCC–614), no later than the maturity date specified in the applicable commodity supplement.

* * * * *

2. Paragraph (c) of § 1421.55 is amended to define situations where the county committee may authorize a later period of availability or date of disbursement on an individual basis. The amended paragraph (c) reads as follows:

§ 1421.55 Program availability, disbursement and maturity of loans.

* * * * *

(c) *Availability and maturity dates.* Availability and maturity dates applicable to loans and purchases will be specified in the annual commodity supplements to the regulations in this subpart. If the time for repayment of the loan indebtedness of warehouse storage loans for any crop of a commodity is extended, a producer who does not have a loan and wishes to participate in the extended warehouse loan program must request a warehouse storage loan on or before the final loan availability date

specified in the applicable commodity supplement and disbursement of the warehouse storage loan shall be completed not later than the original maturity date. A producer who wishes to convert a farm storage loan or part thereof into a warehouse storage loan in order to participate in the extended warehouse loan program must request approval of the county committee for such conversion, obtain its consent to deliver the commodity subject to the farm stored loan or other eligible commodity to an approved warehouse and deliver acceptable warehouse receipts to the county office on or before the original maturity date specified in the applicable commodity supplement; disbursement of the warehouse storage loan shall be completed not later than the original maturity date (with settlement as provided in paragraph (d) of § 1421.67). Notwithstanding any of the provisions of this § 1421.55, the county committee may authorize on an individual producer basis a later date of disbursement during the 30-day period following the original maturity date in emergency situations, such as illness, road conditions or similar emergency situations. Whenever the final date of availability or the maturity date falls on a nonworkday for ASCS county offices, the applicable final date shall be extended to include the next workday. CCC may, by public announcement prior to the applicable loan maturity date, extend the time for repayment of the loan indebtedness with respect to warehouse storage loans secured by the pledge of one or more of the following commodities of the 1967 or subsequent crops: Barley, corn, grain sorghum, oats, soybeans, and wheat; if any such loan maturity date is extended, CCC will pay the storing warehouse, at the rates specified in the applicable CCC storage agreement, any charges which have accrued and are unpaid through the original loan maturity date with respect to the commodity pledged to secure the extended loan indebtedness and the amount so paid shall be for the account of the producer and shall become a part of the loan indebtedness except that the producer will not be required to pay interest to CCC thereon; storage charges which accrue after the original loan maturity date with respect to the above-named commodities securing repayment of extended warehouse storage loans shall be for the account of CCC. CCC may at any time accelerate the time for repayment of a price support loan indebtedness; in the event of any such acceleration, CCC will give a producer affected thereby notice of such acceleration at least 10 days in advance of the accelerated loan maturity date.

3. Paragraph (d) of § 1421.67 is amended to provide that transfer of a farm stored loan to a warehouse stored loan during the 30 day period immediately following the maturity date shall be permitted only under emergency situations. The amended paragraph (d) reads as follows:

§ 1421.67 Farm storage loans.

* * * * *

(d) *Transfer from farm storage loan to warehouse storage loan.* Upon request by the producer, the county committee may approve the conversion of a farm storage loan or part thereof into a warehouse storage loan at any time during the loan period. The county committee may also approve conversion of a farm storage loan or part thereof to a warehouse storage loan during the 30-day period after the maturity date in emergency situations, such as insect infestation that cannot be controlled, danger of flood, damage to the storage structure, loss of control of the storage structure or failure to transfer before the maturity date due to illness, road conditions or similar emergency situations. In the case of emergency transfers the producer must make the request in writing describing the emergency. Conversion of the farm storage loan or part thereof shall be made through the pledge of warehouse receipts for the commodity placed under warehouse storage loan and the immediate payment by the producer of the amount by which the warehouse storage loan is less than the farm storage loan or part thereof plus interest. Any amounts due the producer shall be disbursed by the county office.

4. Paragraph (d) of § 1421.69 is amended to define situations under which a commodity may be delivered before maturity date. The amended paragraph (d) reads as follows:

§ 1421.69 Liquidation of farm storage loans.

* * * * *

(d) *Delivery before maturity date.* If the producer loses control of the storage structure, there is insect infestation that cannot be controlled, danger of flood, or damage to the storage structure making it unsafe to continue storage of the commodity on the farm the commodity may be delivered before the maturity date of the loan with prior approval by the county committee. Settlement will be made with the producer as provided in § 1421.72.

5. Paragraph (b)(2) of § 1421.71 is amended to provide that in the case of eligible commodities stored in an approved warehouse, the producer must submit to the county office not later than the day after maturity, warehouse receipts for the quantity of the commodity he elects to sell to CCC. The amended paragraph (b)(2) reads as follows:

§ 1421.71 Purchases from producers.

* * * * *

(b) * * *

(2) *Delivery period.* In the case of an eligible farm stored commodity, the producer must make delivery of the commodity within the period of time after the loan maturity date for the kind of commodity as specified in delivery instructions issued by the county office unless the county office determines that more time is needed for delivery. Delivery shall be made to the location specified in such instructions. In the case of eligible commodities, except rice, stored in an approved warehouse, the producer must submit to the county office not earlier than 10 days before the maturity date but not later than the day after the maturity date, warehouse receipts for the quantity of the commodity he elects to sell to CCC. Notwithstanding any of the provisions of this § 1421.71, in the case of an eligible farm stored commodity covered by an approved Purchase Agreement (Form CCC–614), the county committee may, on request of the producer authorize delivery of the commodity before the maturity date for the commodity if the producer loses control of the storage structure, there is insect infestation that cannot be controlled, danger of flood or damage to the storage structure making it unsafe to continue storage of the commodity on the farm.

(Secs. 4, 5, 62 Stat. 1070, as amended; secs. 101, 401, 403, 405, 63 Stat. 1051, as amended; 15 U.S.C. 714 b and c; 7 U.S.C. 1441, 1421, 1423, and 1425)

Effective date: Upon publication in the FEDERAL REGISTER.

Signed at Washington, D.C., on July 9, 1969.

KENNETH E. FRICK,
Executive Vice President,
Commodity Credit Corporation.

[F.R. Doc. 69–8291; Filed, July 14, 1969; 8:47 a.m.]

PART 1427—COTTON

Subpart—1969 Crop Supplement to Cotton Loan Program Regulations

The Cotton Loan Program Regulations issued by Commodity Credit Corporation and containing the regulations of a general nature with respect to loan operations for cotton are supplemented for 1969 crop cotton as follows:

Sec.
1427.1521 Purpose.
1427.1522 Schedule of base loan rates for eligible 1969 crop, upland cotton by warehouse location.
1427.1523 Schedule of premiums and discounts for grade and staple length of eligible 1969 crop upland cotton.
1427.1524 Schedule of premiums and discounts for micronaire readings on 1969 crop upland cotton.
1427.1525 Schedule of loan rates for eligible qualities of 1969 crop extra long staple cotton by warehouse location.

AUTHORITY: The provisions of this subpart issued under secs. 4, 5, 62 Stat. 1070, as amended; secs. 101, 103, 401, 63 Stat. 1051, as amended; 15 U.S.C. 714 b and c; 7 U.S.C. 1441, 1444, 1421.

§ 1427.1521 Purpose.

This subpart is for the purpose of announcing that loans will be available on upland and extra long staple cotton of the 1969 crop under the terms and conditions stated in the Cotton Loan Program Regulations issued by Commodity Credit Corporation and contained in this Part 1427. This subpart also contains schedules to be used in determining loan rates on 1969 crop cotton.

§ 1427.1522 Schedule of base loan rates for eligible 1969 crop upland cotton by warehouse location.

[CCC Honey Price Support Regs., for 1968 and Subsequent Crops, Rev. 1, Amdt. 1]

PART 1434—HONEY

Subpart—Honey Price Support Regulations

FEES AND CHARGES; CORRECTION

In F.R. Doc. 69-7300 appearing at page 9675 in the issue of Friday, June 20, 1969, the amount of the loan service fee for cooperatives as set forth in § 1434.13(a) is corrected by changing "$2" to read "$4".

This correction is effective as of June 1, 1969, the effective date of the amendment being corrected.

Signed at Washington, D.C., on July 9, 1969.

KENNETH E. FRICK,
Executive Vice President,
Commodity Credit Corporation.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airspace Docket No. 69-WE-5]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Control Zone

On April 15, 1969, a notice of proposed rule making was published in the FEDERAL REGISTER (34 F.R. 6487) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate a control zone for San Carlos Airport, Calif.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections. No objections have been received and the proposed amendment is hereby adopted without change.

Effective date. This amendment shall be effective 0901 G.m.t., September 18, 1969.

Issued in Los Angeles, Calif., on June 26, 1969.

LEE E. WARREN,
Acting Director, Western Region.

In § 71.171 (34 F.R. 4557) the following control zone is added:

SAN CARLOS, CALIF.

Within a 3-mile radius of the San Carlos Airport (latitude 37°30'40" N., longitude 122°14'50" W.). This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective dates and times will thereafter be continuously published in the Airman's Information Manual.

[F.R. Doc. 69-8280; Filed, July 14, 1969; 8:46 a.m.]

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

PART 121—FOOD ADDITIVES

Malathion

A. A petition (PP 8F0634) was filed with the Food and Drug Administration by the American Cyanamid Co., Agricultural Division, Post Office Box 400, Princeton, N.J. 08540, proposing the establishment of tolerances for residues of the insecticide malathion in or on raw agricultural commodities as follows: 135 parts per million in or on cowpea hay, lespedeza, lupines, peanuts (forage and hay), soybeans (forage and hay), and vetch; 50 parts per million in or on almonds (hulls); 8 parts per million in or on chestnuts, filberts, lentils, okra, papayas, soybeans (dry and succulent), sugar beets, and sweetpotatoes; 1 part per million (negligible residues) in or on almonds (meat) and macadamia nuts; 0.5 part per million (negligible residues) in or on peanuts; 0.2 part per million (negligible residues) in milk; and 0.1 part per million (negligible residues) in eggs and safflower seed.

Subsequently the petitioner amended the petition to request the tolerances as they appear in the amended section below.

Based on consideration given the data submitted in the petition, and other relevant material, the Commissioner of Food and Drugs concludes that:

1. The subject residues on feed items are in the category specified in § 120.6 (a)(3); whereas, dermal applications to cattle and poultry require establishment of tolerances for residues in milk and eggs.

2. The tolerances established by this order will protect the public health. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 120 is amended by revising § 120.111 to read as follows:

§ 120.111 Malathion; tolerances for residues.

Tolerances are established for residues of the insecticide malathion (*O,O*-dimethyl dithiophosphate of diethyl mercaptosuccinate) in or on raw agricultural commodities as follows:

From preharvest application: 135 parts per million in or on alfalfa, clover, cowpea forage and hay, grass, grass hay, lespedeza hay and straw, lupine hay and straw, peanut forage and hay, soybean forage and hay, and vetch hay and straw.

From preharvest application: 50 parts per million in or on almond hulls.

From preharvest application: 8 parts per million in or on apples, apricots, asparagus, avocados, beans, beets (including tops), blackberries, blueberries, boysenberries, broccoli, brussels sprouts, cabbage, carrots, cauliflower, celery, cherries, collards, corn forage, cranberries, cucumbers, currants, dandelions, dates, dewberries, eggplants, endive (escarole), figs, garlic, gooseberries, grapefruit, grapes, guavas, horseradish, kale, kohlrabi, kumquats, leeks, lemons, lentils, lespedeza seed, lettuce, limes, loganberries, lupine seed, mangos, melons, mushrooms, mustard greens, nectarines, okra, onions (including green onions), oranges, parsley, parsnips, passion fruit, peaches, pears, peas, peavines, peavine hay, pecans, peppermint, peppers, pineapples, plums, potatoes, prunes, pumpkins, quinces, radishes, raspberries, rutabagas, salsify (including tops), shallots, sorghum forage, soybeans (dry and succulent), spearmint, spinach, squash (both summer and winter), strawberries, sugar beets (tops), Swiss chard, tangelos, tangerines, tomatoes, turnips (including tops), vetch seed, walnuts, and watercress.

From preharvest and postharvest application: 8 parts per million in or on peanuts and the grains of barley, oats, rice, rye, sorghum, and wheat.

From postharvest application: 8 parts per million in or on corn grain.

From preslaughter application: 4 parts per million in or on meat, fat, and meat byproducts from cattle, goats, hogs, horses, poultry, or sheep; the tolerance level shall not be exceeded in any cut of meat or in any meat byproduct from cattle, goats, hogs, horses, poultry, or sheep.

From preharvest application: 2 parts per million in or on corn (kernels plus cob with husk removed) and cottonseed.

From preharvest application: 1 part per million in or on almonds, chestnuts, filberts, macadamia nuts, papayas, sugar beets (roots), and sweetpotatoes.

From preharvest application: 0.2 part per million in or on safflower seed.

From application to dairy cows: 0.5 part per million in milk fat reflecting negligible residues in milk.

From application to poultry: 0.1 part per million in eggs.

Where tolerances are established in this section for residues of malathion from both preharvest and postharvest application to the same commodity, the accumulative residues on the commodity from both shall not exceed the tolerance for residues from postharvest application.

B. Having evaluated the data in a petition (FAP 9H2348) submitted by the aforementioned petitioner, and other relevant material, the Commissioner concludes that the food additive regulations should be amended to establish a food additive tolerance of 0.6 part per million for residues of the subject insecticide in refined safflower oil resulting from application of the insecticide to the growing safflower plant and that such food additive tolerance is safe.

Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), and under authority delegated as cited above, Part 121 is amended by revising § 121.1172 to read as follows:

§ 121.1172 Malathion.

Malathion may be safely used in accordance with the following conditions:

(a) (1) It is incorporated into paper trays in amounts not exceeding 200 milligrams per square foot.

(2) Treated paper trays are intended for use only in the drying of grapes (raisins).

(3) Total residue of malathion on processed ready-to-eat raisins from drying on treated trays and from application to grapes before harvest shall not exceed 8 parts per million.

(b) Residues of malathion in refined safflower oil from application to the growing safflower plant shall not exceed 0.6 part per million.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Secs. 408(d)(2), 409(c)(1), 68 Stat. 512; 72 Stat. 1786; 21 U.S.C. 346a(d)(2), 348(c)(1))

Dated: July 8, 1969.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

[F.R. Doc. 69-8274; Filed, July 14, 1969; 8:46 a.m.]

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

O,O-Dimethyl 2,2,2-Trichloro-1-Hydroxyethyl Phosphonate

A petition (PP 7F0612) was filed with the Food and Drug Administration by the Chemagro Corp., Post Office Box 4913, Kansas City, Mo. 64120, proposing the establishment of tolerances for residues of the insecticide *O,O*-dimethyl 2,2,2-trichloro-1-hydroxyethyl phosphonate in or on certain raw agricultural commodities.

Subsequently, the petitioner amended the petition by withdrawing the proposed tolerances regarding kale, rutabagas, and turnips and proposing the following tolerances: 45 parts per million in or on alfalfa (hay) and clover (hay); 12 parts per million in or on alfalfa (fresh), barley (green fodder and straw), clover (fresh), flax straw, oats (green fodder and straw), sugar beet tops, and wheat (green fodder and straw); 2 parts per million in or on bananas (of which not more than 0.2 part per million will be in the pulp after peel is removed and discarded); 1 part per million in or on beans (vines) and cowpeas (vines); and 0.1 part per million (negligible residues) in or on artichokes, brussels sprouts, barley (grain), beans (dried), cabbage, carrots, cauliflower, collards, corn (forage and fodder), corn (kernels and cobs with husks removed), cottonseed, cowpeas, flaxseed, lettuce, lima beans, oats (grain), peppers, pumpkins, safflower seed, snap beans, sugar beets, table beets, tomatoes, and wheat (grain).

The petitioner also proposes the following tolerances from topical applications of the insecticide to meat and dairy cattle: 0.1 part per million in or on meat, fat, and meat byproducts of cattle; and 0.01 part per million in milk.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which the tolerances are being established.

Based on consideration given the data in the petition and other relevant material, the Commissioner of Food and Drugs concludes that:

1. Since the proposed usages on growing crops are not reasonably expected to result in transfer of residues of the pesticide to meat, milk, eggs, or poultry, tolerances are unnecessary regarding these commodities. These usages are classified in the category specified in § 120.6(a)(3). For topical application of the insecticide, however, there is reasonable expectation of residues in meat and milk and these usages are classified as specified in § 120.6(a)(2).

2. The tolerances established by this order will protect the public health.

Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)) and under authority delegated to the Commissioner (21 CFR 2.120), § 120.198 is revised to read as follows:

§ 120.198 *O,O*-Dimethyl 2,2,2-trichloro-1-hydroxyethyl phosphonate; tolerances for residues.

Tolerances are established for residues of the insecticide *O,O*-dimethyl 2,2,2-trichloro-1-hydroxyethyl phosphonate in or on raw agricultural commodities as follows:

45 parts per million in or on alfalfa (hay) and clover (hay).

12 parts per million in or on alfalfa (fresh), barley (green fodder and straw), clover (fresh), flax straw, oats (green fodder and straw), sugar beet tops, and wheat (green fodder and straw).

2 parts per million in or on bananas (of which not more than 0.2 part per million will be present in the pulp after the peel is removed).

1 part per million in or on bean vines and cowpea vines.

0.1 part per million (negligible residues) in or on artichokes, barley (grain), beans (dried), beets (garden), brussels sprouts, cabbage, carrots, cauliflower, collards, corn fodder and forage, corn (kernels plus cob with husk removed), cottonseed, cowpeas, flaxseed, lettuce, lima beans, meat, fat, and meat byproducts of cattle, oats (grain), peppers, pumpkins, safflower seed, snap beans, sugar beets, tomatoes, and wheat (grain).

0.01 part per million (negligible residue) in milk.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: July 8, 1969.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

[F.R. Doc. 69-8275; Filed, July 14, 1969; 8:46 a.m.]

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Dimenthyl 2,3,5,6-Tetrachloroterephthalate

A petition (PP 9F0780) was filed with the Food and Drug Administration by Diamond Shamrock Corp., Post Office Box 348, Painesville, Ohio 44077, proposing the establishment of tolerances for negligible residues of the herbicide dimethyl 2,3,5,6-tetrachloroterephthalate and its metabolites (monomethyl 2,3,5,6-tetrachloroterephthalate and 2,3,5,6-tetrachloroterephthalic acid) in or on the raw agricultural commodities corn grain (field) and sweet corn (husk removed) at 0.05 part per million; and corn forage (field and sweet) at 0.4 part per million.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which the tolerances are being established.

Based on consideration given the data submitted in the petition and other relevant material, the Commissioner of Food and Drugs finds that:

1. The proposed usage is not reasonably expected to result in residues of the herbicide and/or its metabolites in meat, milk, poultry, and eggs. The uses are classified in the category specified in § 120.6(a)(3).

2. The tolerances established by this order are safe and will protect the public health.

Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)) and under authority delegated to the Commissioner (21 CFR 2.120), § 120.185 is revised to read as follows to establish the above-mentioned tolerances:

§ 120.185 Dimethyl 2,3,5,6-tetrachloroterephthalate; tolerances for residues.

Tolerances for total residues of the herbicide dimethyl 2,3,5,6-tetrachloroterephthalate and its metabolites monomethyl 2,3,5,6-tetrachloroterephthalate and 2,3,5,6-tetrachloroterephthalic acid (calculated as dimethyl 2,3,5,6-tetrachloroterephthalate) are established as follows:

5 parts per million in or on mustard greens and turnip greens.

2 parts per million in or on collards, field beans (dry), kale, lettuce, mung beans (dry), peppers, pimentos, potatoes, snap beans (succulent), southern peas (black-eyed peas), soybeans, strawberries, sweetpotatoes, turnips, and yams.

1 part per million in or on broccoli, brussels sprouts, cabbage, cantaloups, cauliflower, cucumbers, eggplants, garlic, honeydew melons, onions, summer squash, tomatoes, watermelons, and winter squash.

0.4 part per million (negligible residue) in or on corn forage or fodder (including sweet corn, field corn, and popcorn).

0.2 part per million (negligible residue) in or on cottonseed.

0.05 part per million (negligible residue) in or on corn grain (including field corn and popcorn) and sweet corn (kernels plus cob with husk removed).

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: July 8, 1969.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

[F.R. Doc. 69-8273; Filed, July 14, 1969; 8:45 a.m.]

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Amiben

A petition (PP 7F0591) was filed with the Food and Drug Administration by Amchem Products, Inc., Brookside Avenue, Ambler, Pa. 19002, proposing the establishment of tolerances for negligible residues of the herbicide amiben (3-amino-2,5-dichlorobenzoic acid) and its related aminodichlorobenzoic acids in or on the raw agricultural commodities beans (dry), beans (lima), corn, peanuts, peppers, pumpkins, soybeans, squash,

sweetpotatoes, and tomatoes at 0.2 part per million.

Subsequently, the petitioner amended the petition by proposing additional tolerances for residues of amiben in or on corn fodder and forage, bean vines, peanut forage, and soybean forage; by rewording the request regarding squash to read "squash (summer and winter)"; and by reducing the tolerance levels on all the subject crops to 0.1 part per million.

Data in the petition show that tolerances for residues of the related aminodichlorobenzoic acids resulting from the proposed uses are unnecessary.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which the tolerances are being established.

Based on consideration given the data submitted in the petition and other relevant material, the Commissioner of Food and Drugs concludes that:

1. Since the proposed usage is not reasonably expected to result in residues of the pesticide in eggs, meat, milk, or poultry, tolerances are unnecessary regarding these items. The usage is classified in the category specified in § 120.6(a)(3).

2. The tolerances established by this order will protect the public health.

Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 120 is amended by adding to Subpart C the following new section:

§ 120.266 Amiben; tolerances for residues.

Tolerances for negligible residues of amiben (3-amino-2,5-dichlorobenzoic acid) are established in or on the raw agricultural commodities beans (dried), bean vines, field corn (grain, fodder, and forage), lima beans, peanuts, peanut forage, peppers, pumpkins, soybeans, soybean forage, squash (summer and winter), sweetpotatoes, and tomatoes at 0.1 part per million.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: July 8, 1969.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

Proposed Rule Making

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 32]

WICHITA MOUNTAINS WILDLIFE REFUGE, OKLA.

Hunting

Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by the Migratory Bird Conservation Act of February 18, 1929, as amended (45 Stat. 1222; 16 U.S.C. 715), and the Endangered Species Preservation Act of October 15, 1966 (80 Stat. 926; 16 U.S.C. 668aa), it is proposed to amend 50 CFR 32.31 by the addition of the Wichita Mountains Wildlife Refuge, Okla., to the list of areas open to the hunting of elk as legislatively permitted.

It has been determined that the regulated hunting of elk may be permitted as designated on the Wichita Mountains Wildlife Refuge without detriment to the objectives for which the area was established.

It has also been determined that the carrying capacity of the refuge can support a healthy herd of 350 elk. The present herd numbers 535. To reduce the herd to its habitat capacity, a surplus of 185 elk will be removed. About 60 of these, the estimated annual herd increment, is expected to be taken by hunters, and the remainder will be trapped and transplanted to other suitable habitat.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions, or objections, with respect to this proposed amendment, to the Director, Bureau of Sport Fisheries and Wildlife, Washington, D.C. 20240, within 60 days of the date of publication of this notice in the FEDERAL REGISTER.

Section 32.31 is amended by the following addition:

§ 32.31 List of open areas; big game.

* * * * *

OKLAHOMA

* * * * *

Wichita Mountains Wildlife Refuge.

* * * * *

JOHN S. GOTTSCHALK,
Director, Bureau of Sport Fisheries and Wildlife.

DEPARTMENT OF AGRICULTURE

Agricultural Research Service

[9 CFR Part 71]

GENERAL PROVISIONS RELATING TO INTERSTATE MOVEMENT OF ANIMALS, INCLUDING POULTRY

Notice of Proposed Rule Making

Notice is hereby given, in accordance with the administrative procedure provisions in 5 U.S.C. 553, that the Department of Agriculture is considering the amendment of the general regulations relating to the interstate movement of certain animals, including poultry (9 CFR Part 71), pursuant to the provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, and the Act of July 2, 1962 (21 U.S.C. 111–113, 114a, 114a–1, 115–117, 120–126, 134–134h), in the following respects:

1. Section 71.2 would be amended to read as follows:

§ 71.2 Secretary to issue rule governing quarantine and interstate movement of diseased animals, including poultry.

When the Secretary of Agriculture shall determine the fact that poultry or other animals in any State, Territory, or the District of Columbia are affected with any contagious, infectious, or communicable disease of livestock or poultry for which, in his opinion, a quarantine should be established or that other basis for a quarantine exists, notice will be given of that fact, and a rule will be issued accordingly, placing in quarantine such State, Territory, or the District of Columbia, or specified portion thereof. This rule will either absolutely forbid the interstate movement of the quarantined animals from the quarantined area or will indicate the regulations under which interstate movements may be made.

2. Sections 71.4, 71.5, 71.6, 71.7, 71.8, and 71.9 of the regulations would be deleted and new §§ 71.4, 71.5, 71.6 and 71.7 would be issued to read as follows:

§ 71.4 Maintenance of certain facilities and premises in a sanitary condition required; cleaning and disinfection, when required; animals classed as "exposed."

(a) Yards, pens, chutes, alleys, and other facilities and premises which are used in connection with the interstate movement of livestock or poultry shall be maintained by the person in possession of the facilities and premises in a clean and sanitary condition, in accordance with good animal husbandry practices, and shall be subject to inspection by a Division or State Inspector or an accredited veterinarian and when such inspector or veterinarian determines that such facilities or premises are not in such a clean and sanitary condition and gives written notice of his determination to such person, the facilities and premises shall be cleaned and disinfected in accordance with §§ 71.7 and 71.10–71.12 by such person under the supervision of such an inspector or veterinarian before such premises are again used for livestock or poultry.

(b) Yards, pens, chutes, alleys, and other facilities and premises which have contained interstate shipments of cattle, sheep, swine, poultry, or other animals affected with, or carrying the infection of, any contagious, infectious, or communicable disease of livestock or poultry other than slight unopened cases of actinomycosis or actinobacillosis (or both, bovine foot rot, atrophic rhinitis, ram epididymitis, ringworm, infectious keratitis, and arthritis (simple lesions only), shall be cleaned and disinfected under the supervision of a Division or State Inspector or accredited veterinarian in accordance with §§ 71.7 and 71.10–71.12 before such premises are again used for animals, and any poultry or other animals unloaded into such yards or premises before they have been so cleaned and disinfected shall thereafter be classed as "exposed" within the meaning of the regulations in this subchapter and shall not be moved interstate except in compliance with the provisions of such regulations applicable to exposed animals.

§ 71.5 Unsanitary railroad cars, trucks, boats, aircraft or other means of conveyance; interstate movement restricted.

No person who receives notice from a Division Inspector that a railroad car, truck, boat, aircraft or other means of conveyance owned or operated by such person is not in a clean and sanitary condition in accordance with good animal husbandry practices, shall thereafter use such means of conveyance in connection with the interstate movement of livestock or poultry, or move said means of conveyance interstate, until it has been cleaned and disinfected under the supervision of a Division or State Inspector or accredited veterinarian in accordance with §§ 71.7 and 71.10–71.12.

§ 71.6 Carrier responsible for cleaning and disinfecting of railroad cars, trucks, boats, aircraft or other means of conveyance.

(a) Railroad cars, trucks, boats, aircraft and other means of conveyance which have been used in the interstate transportation of cattle, sheep, swine, poultry, or other animals affected with,

or carrying the infection of, any contagious, infectious, or communicable disease of livestock or poultry other than slight unopened cases of actinomycosis or actinobacillosis (or both) atrophic rhinitis, bovine foot rot, ram epididymitis, ringworm, infectious keratitis, and arthritis (simple lesions only), shall be cleaned and disinfected under Division supervision in accordance with §§ 71.7 and 71.10–71.12, at the point where the animals are unloaded, before again being used for animals, including poultry, and the final carrier shall be responsible for such cleaning and disinfecting: *Provided,* That when Division supervision is not available at such point, the means of conveyance may be cleaned and disinfected under the supervision of a State Inspector or an accredited veterinarian.

(b) No railroad car, truck, boat, aircraft or other means of conveyance from which poultry or other animals affected with an infectious, contagious or communicable disease of livestock or poultry, other than those specified in § 71.4 (b), have been unloaded shall thereafter be used in connection with the interstate movement of animals, including poultry, or be moved interstate until it has been cleaned and disinfected by the final carrier under the supervision of a Division or State Inspector or accredited veterinarian in accordance with §§ 71.7 and 71.10–71.12.

(c) If Division supervision or other supervision as required by paragraph (a) or (b) of this section or proper cleaning and disinfecting facilities are not available at the point where the animals are unloaded, upon permission first received from the Division, the means of conveyance may be forwarded empty to a point at which such supervision and facilities are available, and there be cleaned and disinfected under supervision in accordance with §§ 71.7 and 71.10–71.12.

§ 71.7 Means of conveyance, facilities and premises; methods of cleaning and disinfecting.

(a) Railroad cars, trucks, aircraft or other means of conveyance, except boats, required by the regulations in this subchapter to be cleaned and disinfected shall be treated in the following manner: Remove all litter and manure from all portions of the conveyance, including any external ledges and framework; clean the exterior and interior of the conveyance; and saturate the entire interior surface, including the inner surface of the doors of the conveyance, with a permitted disinfectant specified in §§ 71.10–71.12.

(b) Boats required by the regulations in this subchapter to be cleaned and disinfected shall be treated in the following manner: Remove all litter and manure from the decks and stalls, and all other parts of the boat occupied or traversed by any poultry or other animals and from the portable chutes or other appliances or fixtures used in loading and unloading the animals, and saturate with a permitted disinfectant the entire surface of the deck, stalls, or other parts of the boat occupied or traversed by any animals or with which they may come in contact or which have contained litter or manure.

(c) Yards, pens, chutes, and alleys required by the regulations in this subchapter to be disinfected shall be treated in the following manner: Empty all troughs, racks, or other feeding or watering appliances; remove all litter and manure from the floors, posts, or other parts; and saturate the entire surface of the fencing, troughs, chutes, floors, walls, and other parts with a permitted disinfectant specified in §§ 71.10–71.12.

§§ 71.13–71.17 [Amended]

3. Whenever in the heading or text of §§ 71.13 and 71.15 the term "livestock" is used, the words "or poultry" would be inserted immediately thereafter, and whenever the term "livestock" is used in the text of § 71.14, the words "animals, includling poultry" would be substituted.

4. Whenever in the heading or text of §§ 71.13, 71.14, 71.16, and 71.17 the term "animals" or "animal" is used, the words "poultry or other" would be inserted immediately preceding such term.

The purposes of the proposed amendments are to clarify and update the regulations contained in this part by (1) adding "aircraft and other means of conveyance" to the list of vehicles which are subject to cleaning and disinfection requirements under the regulations; (2) requiring that facilities and premises used in connection with the interstate movement of livestock and poultry be kept in a clean and sanitary condition; (3) including a reference to poultry as appropriate through the regulations in this part; and (4) clarifying the provisions of the regulations.

Any person who wishes to submit written data, views, or arguments concerning the proposed amendments may do so by filing them with the Director, Animal Health Division, Agricultural Research Service, U.S. Department of Agriculture, Federal Center Building, Hyattsville, Md. 20782, within 30 days after publication of this notice in the FEDERAL REGISTER.

All written submissions made pursuant to this notice will be made available for public inspection at such times and places and in a manner convenient to the public business (7 CFR 1.27(b)).

Done at Washington, D.C., this 10th day of July 1969.

R. J. ANDERSON,
Acting Administrator,
Agricultural Research Service.

Notices

DEPARTMENT OF THE TREASURY

Internal Revenue Service

ALBERT M. ROMBERGER

Notice of Granting of Relief

Notice is hereby given that Albert M. Romberger, 58 Silliman Street, Cressona, Pa. 17929, has applied for relief from disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms incurred by reason of his conviction on October 28, 1946, by the U.S. District Court for the Eastern District of Pennsylvania of a crime punishable by imprisonment for a term exceeding 1 year. Unless relief is granted, it will be unlawful for Albert M. Romberger, because of such conviction, to ship, transport or receive in interstate or foreign commerce any firearm or ammunition, and he would be ineligible for a license under chapter 44, title 18, United States Code as a firearms or ammunition importer, manufacturer, dealer or collector. In addition, under title VII of the Omnibus Crime Control and Safe Streets Act of 1968, as amended (82 Stat. 236; 18 U.S.C., Appendix), because of such conviction, it would be unlawful for Mr. Romberger to receive, possess, or transport in commerce or affecting commerce, any firearm.

Notice is hereby given that I have considered Albert M. Romberger's application and have found:

(1) The conviction was made upon a charge which did not involve the use of a firearm or other weapon or a violation of chapter 44, title 18, United States Code, or of the National Firearms Act; and

(2) It has been established to my satisfaction that the circumstances regarding the conviction and the applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief would not be contrary to the public interest.

Therefore, pursuant to the authority vested in the Secretary of the Treasury by section 925(c), title 18, United States Code and delegated to me by 26 CFR 178.144, it is ordered that Albert M. Romberger be, and he hereby is, granted relief from any and all disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment or possession of firearms and incurred by reason of the conviction hereinabove described.

Signed at Washington, D.C., this 9th day of July 1969.

[SEAL] RANDOLPH W. THROWER,
Commissioner of Internal Revenue.

DEPARTMENT OF THE INTERIOR

Geological Survey

[Order No. 17]

WYOMING

Phosphate Land Classification

Pursuant to authority under the Act of March 3, 1879 (20 Stat. 394; 43 U.S.C. 31), and as delegated to me by Departmental Order 2563, May 2, 1950, under authority of Reorganization Plan No. 3 of 1950 (64 Stat. 1262), the following described lands, insofar as title thereto remains in the United States, are hereby classified as shown:

SIXTH PRINCIPAL MERIDIAN, WYOMING

PHOSPHATE LANDS

T. 41 N., R. 118 W., unsurveyed,
Sec. 3, NW¼, N½SW¼;
Sec. 4, N½NE¼, SW¼NE¼, W½, W½SE¼;
Sec. 5, E½E½;
Sec. 8, E½NE¼;
Sec. 9, W½NE¼, NW¼, N½SW¼, SE¼SW¼, W½SE¼, SE¼SE¼;
Sec. 14, SW¼SW¼;
Sec. 15, W½NW¼, SE¼NW¼, N½SW¼, SE¼SW¼, W½SE¼, SE¼SE¼;
Sec. 16, N½NE¼, SE¼NE¼;
Sec. 17, W½SW¼, SE¼SW¼;
Sec. 18, S½;
Sec. 20, W½NE¼, SE¼NE¼, N½NW¼, SE¼NW¼, NE¼SE¼;
Sec. 21, SW¼, S½SE¼;
Sec. 22, NE¼NE¼;
Sec. 23, S½NE¼, N½NW¼, SE¼NW¼, NE¼SE¼;
Sec. 26, W½SW¼, SE¼SW¼, SW¼SE¼;
Sec. 27, SW¼NE¼, W½NW¼, SE¼NW¼, NE¼SW¼, N½SE¼, SE¼SE¼;
Sec. 28, N½NE¼, SE¼NE¼, NE¼NW¼;
Sec. 35, N½NE¼, NE¼NW¼;
Sec. 36, W½NE¼, SE¼NE¼, NW¼, N½SE¼.

RECLASSIFIED PHOSPHATE LANDS FROM NONPHOSPHATE LANDS

Prior classification of the following described land as nonphosphate land is hereby revoked and the land is reclassified as phosphate land:

T. 41 N., R. 118 W., unsurveyed,
Sec. 1, NW¼NE¼, NE¼NW¼, SE¼SE¼;
Sec. 11, E½SE¼;
Sec. 12, NE¼NE¼, S½NE¼, SW¼, N½SE¼, SW¼SE¼;
Sec. 24, NW¼SW¼.

NONPHOSPHATE LANDS

T. 41 N., R. 118 W., unsurveyed,
Sec. 3, W½NE¼, S½SW¼, W½SE¼;
Sec. 4, SE¼NE¼, E½SE¼;
Sec. 5, W½E½, W½;
Secs. 6 and 7;
Sec. 8, W½NE¼, W½, SE¼;
Sec. 9, E½NE¼, SW¼SW¼, NE¼SE¼;
Sec. 10, NW¼NE¼, N½NW¼;
Sec. 14, N½SW¼, SE¼SW¼;
Sec. 15, SW¼NE¼, NE¼NW¼, SW¼SW¼, NE¼SE¼;
Sec. 16, SW¼NE¼, W½, SE¼;
Sec. 17, N½, NE¼SW¼, SE¼;
Sec. 18, N½;
Sec. 19;
Sec. 20, NE¼NE¼, SW¼NW¼, SW¼, W½SE¼, SE¼SE¼;
Sec. 21, N½, N½SE¼;
Sec. 22, W½NE¼, SE¼NE¼, W½, SE¼;
Sec. 23, N½NE¼, SW¼NW¼, SW¼, W½SE¼, SE¼SE¼;
Sec. 25;
Sec. 26, N½, NE¼SW¼, N½SE¼, SE¼SE¼;
Sec. 27, N½NE¼, SE¼NE¼, NE¼NW¼, W½SW¼, SE¼SW¼, SW¼SE¼;
Sec. 28, SW¼NE¼, W½NW¼, SE¼NW¼, S½;
Secs. 29 to 34, inclusive;
Sec. 35, S½NE¼, W½NW¼, SE¼NW¼, S½;
Sec. 36, NE¼NE¼, SW¼, S½SE¼.

The area described aggregates 15,411 acres, more or less, of which about 4,098 acres are classified phosphate lands, about 640 acres are reclassified phosphate lands that were formerly classified nonphosphate lands, and about 10,673 acres are classified nonphosphate lands.

ARTHUR A. BAKER,
Acting Director.

JULY 3, 1969.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

SHELL CHEMICAL CO.

Notice of Filing of Petition Regarding Pesticide Chemical

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 9F0843) has been filed by Shell Chemical Co., Division of Shell Oil Co., Suite 1103, 1700 K Street NW., Washington, D.C. 20006, proposing the establishment of tolerances (21 CFR Part 120) for negligible residues of an insecticide that is a mixture of 3,4,5-trimethylphenyl methylcarbamate and 2,3,5-trimethylphenyl methylcarbamate in or on the raw agricultural commodities corn grain, fodder, and forage, including field corn, popcorn, and sweet corn at 0.2 part per million.

The analytical method proposed in the petition for determining residues of the insecticide is a gas chromatographic procedure using an electron-capture detection system to measure the derivative produced by reaction with trifluoroacetic anhydride.

Dated: July 8, 1969.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGFR 69–71]

EQUIPMENT, CONSTRUCTION, AND MATERIALS

Approval Notice

1. Certain laws and regulations (46 CFR, Chapter I) require that various items of livesaving, firefighting and miscellaneous equipment, construction, and materials used on board vessels subject to Coast Guard inspection, on certain motorboats and other recreational vessels, and on the artificial islands and fixed structures on the outer Continental Shelf be of types approved by the Commandant, U.S. Coast Guard. The purpose of this document is to notify all interested persons that certain approvals have been granted as herein described during the period from May 26, 1969, to June 5, 1969 (List No. 16–69). These actions were taken in accordance with the procedures set forth in 46 CFR 2.75–1 to 2.75–50.

2. The statutory authority for equipment, construction, and material approvals is generally set forth in sections 367, 375, 390b, 416, 481, 489, 526p, and 1333 of title 46, United States Code, section 1333 of title 43, United States Code, and section 198 of title 50, United States Code. The Secretary of Transportation has delegated authority to the Commandant, U.S. Coast Guard with respect to these approvals (49 CFR 1.4 (a)(2) and (g)). The specifications prescribed by the Commandant, U.S. Coast Guard for certain types of equipment, construction and materials are set forth in 46 CFR, Parts 160 to 164.

3. The approvals listed in this document shall be in effect for a period of 5 years from the date of issuance, unless sooner canceled or suspended by proper authority.

LIFE WINCHES FOR MERCHANT VESSELS

Approval No. 160.015/94/0, lifeboat winch, Type 55G–MKII; approval is limited to mechanical components only and for a maximum working load of 11,000 pounds pull at the drums (5,500 pounds per fall); identified by general arrangement drawings No. W1–F–002, revision C, dated May 1, 1969, and No. W1–F–002–H, revision A, dated November 21, 1968; and drawing list, revision B, dated May 29, 1969, manufactured by Marine Safety Equipment Corp., Foot of Wycoff Road, Farmingdale, N.J. 07727, effective June 5, 1969.

SIGNALS, DISTRESS, HAND RED FLARE, FOR MERCHANT VESSELS

Approval No. 160.021/11/0, Bristol marine hand red flare distress signal, 500 candlepower, 2 minutes burning time, Bristol dwg. No. 506, revised May 14, 1958, manufactured by Bristol Flare Corp., State Road, Bristol, Pa. 19007, for Kilgore Corp., Toone, Tenn. 38381, effective May 26, 1969.

WATER, EMERGENCY DRINKING (IN HERMETICALLY SEALED CONTAINERS), FOR MERCHANT VESSELS

Approval No. 160.026/32/1, container for emergency provisions for lifeboats and life rafts, dwg. No. RF–3, dated July 15, 1964, markings: ¼ ration for lifeboats, ½ ration for inflatable life rafts, manufactured by H & M Packing Corp., 915 Ruberta Avenue, Glendale, Calif. 91201, effective June 3, 1969. (It is an extension of Approval No. 160.026/32/1, dated July 30, 1964.)

Approval No. 160.026/37/0, container for emergency provisions for lifeboats and life rafts, dwg. No. 1367, dated June 22, 1964, and revised June 30, 1964, marking: ¼ ration for lifeboats, ½ ration for inflatable life rafts, manufactured by Globe Equipment Corp., 257 Water Street, Brooklyn, N.Y. 11201, effective June 3, 1969. (It is an extension of Approval No. 160.026/37/0, dated July 2, 1964.)

LIFEBOATS FOR MERCHANT VESSELS

Approval No. 160.035/397/6, 24.0′ x 8.0′ x 3.5′ fibrous glass reinforced plastic (FRP), motor-propelled lifeboat, without radio cabin or searchlight (Class 1), 37-person capacity, identified by general arrangement dwg. No. P–24–ID Rev. N, dated April 10, 1969. 46 CFR 160.035–13(c), marking. Weights: condition "A" =3,994 pounds, condition "B"=11,114 pounds, manufactured by Marine Safety Equipment Corp., Foot of Wycoff Road, Farmingdale, N.J. 07727, effective June 3, 1969. (It supersedes Approval No. 160.035/397/6, dated Apr. 17, 1969 to show revision date of Dwg. List.)

SIGNALS, DISTRESS, HAND, ORANGE SMOKE, FOR MERCHANT VESSELS

Approval No. 160.037/6/0, Bristol marine hand orange smoke distress signal, Bristol dwg. No. 600, revised June 2, 1958, manufactured by Bristol Flare Corp.,

State Road, Bristol, Pa. 19007, for Kilgore Corp., Toone, Tenn. 38381, effective May 26, 1969.

INCOMBUSTIBLE MATERIALS FOR MERCHANT VESSELS

Approval No. 164.009/37/0, "Foster Insulfas Sealer 31–26" composition type incombustible material consisting solely of Foster 31–26 noncombustible coating and sealfas open weave glass cloth, identical to that referred to in National Bureau of Standards Test Report No. TG10210–1974:FP3363, dated April 30, 1956, formerly "Fiberseal"; also formerly "Foster Fiberseal Sealer", manufactured by Benjamin Foster Co., Post Office Box 59, Ambler, Pa. 19002, effective June 5, 1969. (It is an extension of Approval No. 164.009/37/0, dated July 31, 1964, and change of address of manufacturer.)

Approval No. 164.009/78/0, "Foster Insulfas Adhesive 81–15" composition type incombustible material, identical to that referred to in National Bureau of Standards Test Report No. TG10210–2107:FR3634, dated December 3, 1963, manufactured by Benjamin Foster Co., Post Office Box 59, Ambler, Pa. 19002, effective June 5, 1969. (It is an extension of Approval No. 164.009/78/0, dated July 31, 1964, and change of address of manufacturer.)

Approval No. 164.009/80/0, Foster insulfas coatings 31–30, composition type incombustible material, identical to that referred to in National Bureau of Standards Test Report No. TG10210–2109: FR3636, dated May 11, 1964, manufactured by Benjamin Foster Co., Post Office Box 59, Ambler, Pa. 19002, effective June 5, 1969. (It is an extension of Approval No. 164.009/80/0, dated July 7, 1964, and change of address of manufacturer.)

Approval No. 164.009/127/0, "No. 75 Ultralite MC Insulation," glass wool insulation type incombustible material identical to that described in National Bureau of Standards Test Report No. TG10210–1656:FP2855 (Test No. 122822), dated December 13, 1949, approved in a density of 0.75 pound per cubic foot, manufactured at Plant No. 5 by Gustin Bacon Manufacturing Co., Post Office Box 19079, Kansas City, Kans. 66118, effective June 4, 1969.

Approval No. 164.009/128/0, "No. 100 Ultralite MC Insulation," glass wool insulation type incombustible material identical to that described in National Bureau of Standards Test Report No. TG3610–1519:FP2622, dated May 19, 1948, approved in a 1-pound per cubic foot density, manufactured at Plant No. 5 by Gustin Bacon Manufacturing Co., Post Office Box 19079, Kansas City, Kans. 66118, effective June 4, 1969.

Approval No. 164.009/129/0, "No. 150 Ultralite MC Insulation," glass wool insulation type incombustible material identical to that described in National Bureau of Standards Test Report No. TG10210–1656:FP2855 (Test No. 122822), dated December 13, 1949, approved in a density of 1.48 pounds per cubic foot, manufactured at Plant No. 5 by Gustin Bacon Manufacturing Co., Post Office Box 19079, Kansas City, Kans. 66118, effective June 4, 1969.

Dated: July 8, 1969.

W. J. SMITH,
Admiral, U.S. Coast Guard,
Commandant.

INVESTIGATION OF DERAILMENT OF PENN CENTRAL PASSENGER TRAIN

Notice of Hearing

In the matter of investigation of accident involving derailment of Penn Central Passenger Train No. Second 115 at Glenn Dale, Md., June 28, 1969, with subsequent numerous injuries to passengers.

Notice is hereby given that an Accident Investigation Hearing on the above matter will be held commencing at 9 a.m., e.d.t., on Monday, August 18, 1969, in conference room 2008, on the second floor of Federal Office Building No. 7, at 17th and H Streets NW., Washington, D.C.

Dated this 3d day of July 1969.

[SEAL] JOHN H. REED,
Chairman, Board of Inquiry.

[F.R. Doc. 69–8278; Filed, July 14, 1969; 8:46 a.m.]

CIVIL AERONAUTICS BOARD

[Docket No. 20291; Order 69–7–49]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Fare Matters

Issued under delegated authority July 9, 1969.

An agreement has been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's economic regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of Traffic Conference 2 and Joint Conferences 1–2 and 1–2–3 of the International Air Transport Association (IATA), and adopted by mail vote. The agreement has been assigned the above-designated CAB agreement number.

The agreement amends Construction Rule for Passenger Fares by clarifying the definition of a one-way backhaul journey as any journey which for fare calculation purposes is not a complete round- or circle-trip journey entirely by air.

Pursuant to authority duly delegated by the Board in the Board's regulations, 14 CFR 385.14, it is not found that Resolutions 200(Mail 888)014a, JT12(Mail 590)014a, and JT123(Mail 590)014a, which are incorporated in the above-designated agreement are adverse to the public interest or in violation of the Act.

Accordingly, it is ordered, That:

Agreement CAB 21045 is approved.

Persons entitled to petition the Board for review of this order pursuant to the Board's regulations, 14 CFR 385.50, may file such petitions within 10 days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period unless within such period a petition for review thereof is filed, or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

[SEAL] HAROLD R. SANDERSON,
Secretary.

[F.R. Doc. 69–8297; Filed, July 14, 1969; 8:47 a.m.]

[Docket No. 20486, etc.]

MOHAWK AIRLINES, INC.

Notice of Postponement of Hearing

Mohawk Airlines, Inc., Rochester-Pittsburgh—Subpart M.

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that the public hearing in the above-entitled matter now assigned to be held on July 29, 1969, is hereby postponed to August 7, 1969, at 10 a.m., e.d.s.t., in room 726, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., before the undersigned examiner.

Dated at Washington, D.C., July 10, 1969.

[SEAL] ROBERT M. JOHNSON,
Hearing Examiner.

[F.R. Doc. 69-8298; Filed, July 14, 1969; 8:47 a.m.]

FEDERAL COMMUNICATIONS COMMISSION

[Dockets Nos. 18594-18597; FCC 69-739]

PLEASANT BROADCASTING CO. ET AL.

Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Pleasant Broadcasting Co., Mount Pleasant, Iowa, Docket No. 18594, File No. BP-17235; Requests: 1130 kc, 250 w, Daytime; Donald K. Van Slyke, Vern McDonough, James J. Delmont, Alfred R. Sundberg, Dwight C. Vredenburg, Marion M. Coons, Virgil Meyer, Robert M. Stone, Clarence H. Morton, W. M. Eikenberry, John E. King, Aldo Della Vedova, George R. Garton, and Levorah Keller, doing business as Chariton Radio Co., Chariton, Iowa, Docket No. 18595, File No. BP-17559; Requests: 1130 kc, 500 w, DA, Daytime; BCST Company of Iowa, Inc., Mount Pleasant, Iowa, Docket No. 18596, File No. BP-17571; Requests: 1130 kc, 250 w, Daytime; Frank J. Herges, James J. Delmont, Vern McDonough, Leo C. Brau, E. N. Walker, Clarence C. Van Amerongen, Edwin W. Poock, James T. McCabe, Dwight C. Vredenberg, Marion M. Coons, and William J. Hart, doing business as Mount Pleasant Radio Co., Mount Pleasant, Iowa, Docket No. 18597, File No. BPH-5770; Requests: 105.5 mc, No. 288; 3 kw; 201 feet; for construction permits.

1. The Commission has under consideration the above-captioned and described applications. The Chariton, Iowa, and Mount Pleasant, Iowa, AM applications are mutually exclusive because of mutual overlap of 0.05 mv/m and 1 mv/m contours. The Mount Pleasant, Iowa, FM application is joined herein because of common questions pertaining to it and the Chariton AM application.

2. According to an agreement submitted with the FM application, it was applicant's intention to form an Iowa limited partnership. This agreement, however, appears to be defective in a number of particulars. Although eight of the 11 members of the partnership are described as limited partners, there is no such statement regarding the status of the other three, except for certain language describing their obligations, which suggests that they may be general partners. This possibility is negated by the statement in section II, table I of the application which lists all 11 as limited partners. In addition, the agreement specifies that the partnership is to continue until the expressed purpose is accomplished. Since the purpose is said to be the obtaining of a permit authorizing construction and operation of the station, the partnership would apparently terminate upon grant of the application. Finally, section X of the agreement refers without explanation to the existence of corporation rather than a partnership. Similar problems are involved in the Chariton AM application. In this instance too the partnership terminates with accomplishment of the expressed purpose, viz the obtaining of a permit for construction and operation of the station. The agreement refers to an intention to form a corporation upon grant of the permit. Although a corrective amendment to this application has been filed, section II of the application continues to show all the participants as limited partners. Because of these unresolved questions, issues will be specified to determine the legal status of these applicants and whether these applicants have or can comply with applicable requirements regarding operation of limited partnerships in the State of Iowa.

3. As to the Chariton application, approximately $87,805 is shown to be required to construct and operate the proposed station for 1 year without revenue. To meet this requirement, reliance is placed on prepayment of expenses ($2,500) and bank loans (totaling $92,000) to the partners who will provide the station's financing. Although the banks in question appear willing to provide these amounts, neither bank letter sets forth the applicable terms and conditions, and neither partner has indicated the basis upon which the funds would be supplied, nor the amount of first-year repayments, if any. Accordingly, an issue will be specified to determine the circumstances under which these amounts would be available.

4. In Suburban Broadcasters, 30 FCC 1020, 20 RR 951 (1961), and our public notice of August 22, 1968 (FCC 68-487), we indicated that applicants were expected to provide full information on their awareness of and responsiveness to local community needs and interests. Chariton Radio does not appear to have made an adequate survey and none of the applicants have adequately listed the suggestions received regarding community needs or the programing proposed to meet these needs as evaluated. Thus, we are unable at this time to determine whether any of the applicants are aware of and responsive to the needs of their areas.. Accordingly, Suburban issues are required.

5. The Chariton, Iowa AM proposal is mutually exclusive with the AM applications for Mount Pleasant, Iowa. Consequently, if the Chariton applicant is found qualified, it will be necessary to determine pursuant to section 307(b) of the Communications Act of 1934, as amended, which of the proposals would best provide a fair, efficient, and equitable distribution of radio service.

6. Except as indicated below, the applicants are qualified to construct and operate as proposed. However, because of the matters discussed above, the Commission is unable to make the statutory finding that a grant of the applications would serve the public interest, convenience, and necessity, and is of the opinion that the applications must be designated for hearing on the issues set forth below.

7. *It is ordered,* That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

(1) To determine the efforts made by Pleasant Broadcasting Co. to ascertain the community needs and interests of the area to be served and the means by which the applicant proposes to meet those needs and interests.

(2) To determine the efforts made by Chariton Radio Co. to ascertain the community needs and interests of the area to be served and the means by which the applicant proposes to meet those needs and interests.

(3) To determine the efforts made by BCST Company of Iowa, Inc., to ascertain the community needs and interests of the area to be served and the means by which the applicant proposes to meet those needs and interests.

(4) To determine the efforts made by Mount Pleasant Radio Co. to ascertain the community needs and interests of the area to be served and the means by which the applicant proposes to meet those needs and interests.

(5) To determine whether Chariton Radio Co. and Mount Pleasant Radio Co. are or can be qualified to do business as limited partnerships in the State of Iowa.

(6) To determine whether and under what circumstances Chariton Radio Co. would have available to it the additional $85,305 required to construct and operate for 1 year without revenue and thus demonstrate its financial qualifications.

(7) To determine the areas and populations which would receive primary service from the Chariton Radio Co., Pleasant Broadcasting Co., and BCST Company of Iowa, Inc., proposals and the availability of other primary aural service to such areas and populations.

(8) To determine, in the light of section 307(b) of the Communications Act of 1934, as amended, which of the proposals referred to in issue 7 would best provide a fair, efficient, and equitable distribution of radio service.

(9) To determine, in the event it is concluded that a choice between the applications referred to in issue 8 should not be based solely on considerations relating to section 307(b), which of the proposals would, on a comparative basis, best serve the public interest.

(10) To determine, in the light of the evidence adduced pursuant to the foregoing issues which, if any, of the applications should be granted.

8. *It is further ordered,* That to avail themselves of the opportunity to be heard, the applicants herein pursuant to § 1.221(c) of the Commission's rules, in person or by attorney shall, within twenty (20) days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an

intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

9. *It is further ordered,* That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: July 2, 1969.

Released: July 10, 1969.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
Secretary.

[F.R. Doc. 69-8293; Filed, July 14, 1969; 8:47 a.m.]

[Docket Nos. 18531, 18532; FCC 69R-296]

VISTA BROADCASTING CO., INC., AND KNET, INC.

Memorandum Opinion and Order Enlarging Issues

In re applications of Vista Broadcasting Co., Inc., Palestine, Tex., Docket No. 18531, File No. BPH-6292; KNET, Inc., Palestine, Tex., Docket No. 18532, File No. BPH-6405; for construction permits.

1. Vista Broadcasting Co., Inc., (Vista), and KNET, Inc. (KNET), are mutually exclusive applicants for a new FM broadcast station to operate on Channel 232, at Palestine, Tex. Their applications were designated for hearing on a standard comparative issue by Commission Order, FCC 69-425, released April 28, 1969, 34 F.R. 7193. In that order, each of the applicants was found qualified to construct and operate the proposed station. KNET, by a motion filed May 16, 1969, seeks to enlarge the issues to determine whether the stockholders of Vista have net liquid current assets sufficient to meet their obligations to the applicant and, in the light of the facts adduced, to determine whether Vista is financially qualified.[2] KNET notes that Vista, in its application, estimates that it will require $58,711 to construct and operate the proposed station for the first year and that, as amended, Vista's application proposes to finance its station by $20,000 in stock subscriptions, $20,000 in loans from stock subscribers, and a $20,000 loan from the East Texas Bank of Palestine, Tex. KNET observes that none of the balance sheets associated with the application are dated and that the application is more than a year old; thus, it is impossible to evaluate the present financial situation of the four stock subscribers, each of whom is committed to supply a $5,000 capital investment and a loan of $5,000. Moreover, KNET argues that an analysis of the balance sheets does not show that any of the stock subscribers have net liquid current assets to meet their commitments,[3] and as to some, the liabilities listed actually exceed the current liquid assets. Based on the foregoing, KNET argues that the issue should be added. The Broadcast Bureau supports KNET's motion.

2. In opposition, Vista argues that KNET has misread the balance sheets of its stock subscribers and that had KNET taken into account such items as stocks, accounts receivable, and in some instances, real estate, it would have ascertained that each stock subscriber could meet his commitment to the corporation. Vista also relies on an amendment to its application filed concurrently with its opposition herein, which consists of recent balance sheets for each of the four stock subscribers upon which it relies.[4]

3. The Review Board has examined the balance sheets submitted by Vista in its recent amendment and agrees with the Bureau's supplementary comments that neither C. Rayburn Moore nor Jerry F. Fountaine have shown sufficient current liquid assets to meet their respective commitments to Vista. It is well established that receivables, stocks and bonds, and fixed assets, in the absence of proof of marketability or liquidity, afford no reasonable assurance that funds will, in fact, be available to meet commitments to an applicant for a radio station. See, e.g., Miami Broadcasting Corporation, FCC 67R-327, 9 FCC 2d 694. Without reliance on such assets, Moore's balance sheet reflects only $5,800 in current assets and Fountaine's balance sheet reflects only $3,180 in current assets. We will, therefore, add an issue to ascertain whether C. Rayburn Moore and Jerry F. Fountaine can meet their respective commitments to Vista Broadcasting Co., Inc.

4. *Accordingly, it is ordered,* That the Broadcast Bureau's request, filed June 23, 1969, is granted; that the motion to enlarge issues, filed May 16, 1969, by KNET, Inc., is granted to the extent indicated below, and is denied in all other respects; and that the issues in this proceeding are enlarged as follows:

(a) To determine whether C. Rayburn Moore and Jerry F. Fontaine can meet their respective stock subscriptions and loan commitments to Vista Broadcasting Co., Inc.;

(b) To determine, in light of the evidence adduced pursuant to (a) above, whether Vista Broadcasting Co., Inc. is financially qualified to construct and operates its proposed station.

5. *It is further ordered,* That the burdens of proceeding and proof under the issues added herein will be on Vista Broadcasting Co., Inc.

Adopted: July 9, 1969.

Released: July 10, 1969.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[F.R. Doc. 69-8294; Filed, July 14, 1969; 8:47 a.m.]

---

[1] Commissioners Bartley, Wadsworth and Johnson absent; Commissioners Robert E. Lee and H. Rex Lee concurring in the result.

[2] The Board also has before it the Broadcast Bureau's statement in support of the motion to enlarge, filed May 29, 1969; Vista's opposition to motion to enlarge, filed June 12, 1969; Broadcast Bureau's request to file supplementary comments, filed June 23, 1969; and Broadcast Bureau's supplementary comments, filed June 23, 1969. The Bureau's request to file supplementary comments is appropriate in the circumstances of the case and the supplementary comments will be considered.

[3] The liabilities shown on the balance sheets are not broken down to show current liabilities and long-term liabilities.

[4] The Examiner accepted the amendment by order, 69M-795, released June 29, 1969.

TARIFF COMMISSION

[337-23]

COFFEE CONCENTRATES

Postponement of Hearing Date

On May 26, 1969, the Tariff Commission issued a notice of the institution of investigation No. 337-23 and ordered a public hearing in connection therewith to begin on July 22, 1969 (34 F.R. 8320) in respect to a complaint filed under section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) by Struthers Scientific and International Corporation of New York, N.Y., which alleged unfair methods of competition and unfair acts in the importation into and sale of coffee concentrates in the United States in violation of the provisions of section 337. On June 20, 1969, the Commission issued a notice of an amendment of the scope of investigation No. 337-23 (34 F.R. 9829).

In view of requests therefor from interested parties and for other reasons, notice is hereby given of the postponement of the hearing in this investigation so that it will begin on September 16, 1969, at 10 a.m., e.d.s.t., in the Hearing Room of the Tariff Commission Building, Eighth and E Streets NW., Washington, D.C., rather than on July 22, 1969, as originally ordered. Interested parties desiring to appear and give testimony at the hearing should follow the requirements stated in the original notice in the FEDERAL REGISTER of May 29, 1969 (34 F.R. 8320).

Issued: July 10, 1969.

By order of the Commission.

[SEAL] DONN N. BENT,
Secretary.

[F.R. Doc. 69-8299; Filed, July 14, 1969; 8:47 a.m.]

ATOMIC ENERGY COMMISSION

STATE OF SOUTH CAROLINA

Proposed Agreement for Assumption of Certain AEC Regulatory Authority

Notice is hereby given that the U.S. Atomic Energy Commission is publishing for public comment, prior to action thereon, a proposed agreement received from the Governor of the State of South Carolina for the assumption of certain of the Commission's regulatory authority pursuant to section 274 of the Atomic Energy Act of 1954, as amended.

A résumé, prepared by the State of South Carolina and summarizing the State's proposed program for control over sources of radiation, is set forth below as an appendix to this notice. The appendix referenced in the résumé is included in the complete text of the program. A copy of the program, including proposed South Carolina regulations, is available for public inspection in the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., or may be obtained by writing to the Director, Division of State and Licensee Relations, U.S. Atomic Energy Commission, Washington, D.C. 20545. All interested persons desiring to submit comments and suggestions for the consideration of the Commission in connection with the proposed agreement should send them, in triplicate, to the Secretary, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Branch, within 30 days after initial publication of this notice in the FEDERAL REGISTER.

Exemptions from the Commission's regulatory authority which would implement this proposed agreement, as well as other agreements which may be entered into under section 274 of the Atomic Energy Act, as amended, were published as Part 150 of the Commission's regulations in FEDERAL REGISTER issuances of February 14, 1962, 27 F.R. 1351; April 3, 1965, 30 F.R. 4352; September 22, 1965, 30 F.R. 12069; March 19, 1966, 31 F.R. 4668; March 30, 1966, 31 F.R. 5120; December 2, 1966, 31 F.R. 15145; July 15, 1967, 32 F.R. 10432; June 27, 1968, 33 F.R. 9388; and April 16, 1969, 34 F.R. 6517. In reviewing this proposed agreement, interested persons should also consider the aforementioned exemptions.

Dated at Washington, D.C., this 25th day of June 1969.

For the Atomic Energy Commission.

W. B. McCOOL,
Secretary.

PROPOSED AGREEMENT BETWEEN THE UNITED STATES ATOMIC ENERGY COMMISSION AND THE STATE OF SOUTH CAROLINA FOR DISCONTINUANCE OF CERTAIN COMMISSION REGULATORY AUTHORITY AND RESPONSIBILITY WITHIN THE STATE PURSUANT TO SECTION 274 OF THE ATOMIC ENERGY ACT OF 1954, AS AMENDED

Whereas, the U.S. Atomic Energy Commission (hereinafter referred to as the Commission) is authorized under section 274 of the Atomic Energy Act of 1954, as amended (hereinafter referred to as the Act) to enter into agreements with the Governor of any State providing for discontinuance of the regulatory authority of the Commission within the State under chapters 6, 7, and 8 and section 161 of the Act with respect to byproduct materials, source materials, and special nuclear materials in quantities not sufficient to form a critical mass; and

Whereas, the Governor of the State of South Carolina is authorized under section 1-400.15 of the 1962 Code of Laws of South Carolina and cumulative supplement thereto to enter into this Agreement with the Commission; and

Whereas, the Governor of the State of South Carolina certified on June 4, 1969, that the State of South Carolina (hereinafter referred to as the State) has a program for the control of radiation hazards adequate to protect the public health and safety with respect to the materials within the State covered by this Agreement, and that the State desires to assume regulatory responsibility for such materials; and

Whereas, the Commission found on ------ -------- that the program of the State for the regulation of the materials covered by this Agreement is compatible with the Commission's program for the regulation of such materials and is adequate to protect the public health and safety; and

Whereas, the State and the Commission recognize the desirability and importance of cooperation between the Commission and the State in the formulation of standards for protection against hazards of radiation and in assuring that State and Commission programs for protection against hazards of radiation will be coordinated and compatible; and

Whereas, the Commission and the State recognize the desirability of reciprocal recognition of licenses and exemption from licensing of those materials subject to this Agreement; and

Whereas, this Agreement is entered into pursuant to the provisions of the Atomic Energy Act of 1954, as amended;

Now, therefore, it is hereby agreed between the Commission and the Governor of the State, acting in behalf of the State, as follows:

ARTICLE I. Subject to the exceptions provided in Articles II, III, and IV, the Commission shall discontinue, as of the effective date of this Agreement, the regulatory authority of the Commission in the State under chapters 6, 7, and 8, and section 161 of the Act with respect to the following materials:

A. Byproduct materials;

B. Source materials; and

C. Special nuclear materials in quantities not sufficient to form a critical mass.

ART. II. This Agreement does not provide for discontinuance of any authority and the Commission shall retain authority and responsibility with respect to regulation of:

A. The construction and operation of any production or utilization facility;

B. The export from or import into the United States of byproduct, source, or special nuclear material, or of any production or utilization facility;

C. The disposal into the ocean or sea of byproduct, source, or special nuclear waste materials as defined in regulations or orders of the Commission;

D. The disposal of such other byproduct, source, or special nuclear material as the Commission from time to time determines by regulation or order should, because of the hazards or potential hazards thereof, not be so disposed of without a license from the Commission.

ART. III. Notwithstanding this Agreement, the Commission may from time to time by rule, regulation, or order, require that the manufacturer, processor, or producer of any equipment, device, commodity, or other product containing source, byproduct, or special nuclear material shall not transfer possession or control of such product except pursuant to a license or an exemption from licensing issued by the Commission.

ART. IV. This Agreement shall not affect the authority of the Commission under subsection 161 b or i of the Act to issue rules, regulations, or orders to protect the common defense and security, to protect restricted data or to guard against the loss or diversion of special nuclear material.

ART. V. The Commission will use it best efforts to cooperate with the State and other agreement States in the formulation of standards and regulatory programs of the State and the Commission for protection against hazards of radiation and to assure that State and Commission programs for protection against hazards of radiation will be coordinated and compatible. The State will use its best efforts to cooperate with the Commission and other agreement States in the formulation of standards and regulatory programs of the State and the Commission for protection against hazards of radiation and to assure that the State's program will continue to be compatible with the program of the Commission for the regulations of like materials. The State and the Commission will use their best efforts to keep each other informed of proposed changes in their respective rules and regulations and licensing, inspection and enforcement policies and criteria, and to obtain the comments and assistance of the other party thereon.

ART. VI. The Commission and the State agree that it is desirable to provide for reciprocal recognition of licenses for the materials listed in Article I licensed by the other party or by any agreement State. Accordingly, the Commission and the State agree to use their best efforts to develop appropriate rules, regulations, and procedures by which such reciprocity will be accorded.

ART. VII. The Commission, upon its own initiative after reasonable notice and opportunity for hearing to the State, or upon request of the Governor of the State, may terminate or suspend this agreement and reassert the licensing and regulatory authority vested in it under the Act if the Commission finds that such termination or suspension is required to protect the public health and safety.

ART. VIII. This Agreement shall become effective on September 15, 1969, and shall remain in effect unless, and until such time as it is terminated pursuant to Article VII.

Done at ----------, in triplicate, this ---------- day of ------.

For the United States Atomic Energy Commission.

Done at Columbia, S.C., in triplicate, this ---------- day of ------.

For the State of South Carolina.

Governor.

FOREWORD

South Carolina is dedicated to the purpose of protecting and improving the lot of its citizens. This dedication is realized, in part, by its full participation in the age of atoms, in due recognition of the many benefits to be derived from the peaceful uses of nuclear energy and its byproducts.

To discharge its responsibility to the citizens of this State to protect them from possible harmful effects of ionizing radiation, the 1967 General Assembly enacted the Atomic Energy and Radiation Control Act, which at one time recognizes the partnership that must exist between the fostering of nuclear enterprise and the protection against potential radiation hazards.

This Act authorizes the Governor to enter into an agreement with the Federal Government whereby certain regulatory functions now exercised by the Federal Government in the licensing and control of byproduct material, source material and special nuclear material in quantities not sufficient to create a critical mass will be transferred to the State.

The Act also designates the South Carolina State Board of Health as the agency which shall be responsible for the control of radiation sources. A complete regulatory program consistent with that conducted by the U.S. Atomic Energy Commission is authorized.

The following pages will present a description of past, present, and future activities of the State Board of Health in the field of Radiological Health, including the organization, procedures, and resources which will be brought to bear on the new responsibility assumed as a result of the aforementioned agreement.

History

As early as 1947 the South Carolina State Board of Health became aware of and concerned about the occupational exposure of workers to static eliminators. Over fifty of these devices were located, surveyed, and recommendations for shielding and access control were made. No leak-testing was performed as equipment was not available at the time.

Also at this time a program designed to reduce occupational exposure of shoe salesmen to X-rays from fluoroscopic shoe-fitting machines was instituted. This was later followed by more complete regulations covering all aspects of the use of these devices, and finally they were outlawed altogether. Ninety-six shoe-fitting machines in all were eliminated.

A voluntary X-ray program was begun in 1953, whereby services of the South Carolina State Board of Health were made available for the purpose of inspecting X-ray installations and recommending corrective actions where needed. This program received very good response, and during the period 1953–1966, 965 machines were inspected and 38 percent were found to be deficient in some respect. Eighty percent of these deficiencies were corrected as a result of recommendations and followup inspections. This included 662 dental SurPak examinations, resulting in the installation of 63 aluminum filters and 135 collimators. More recently, during the period in which more comprehensive radiation control regulations were being developed, a program of voluntary registration of X-ray machines was begun. By December 31, 1968, 1,269 X-ray machines were registered.

A radium management program was begun in 1965 when it was discovered that the radium storage facility in a large hospital was contaminated by a leaking source, which the hospital no longer possessed. The services of the South Carolina State Board of Health were offered in this area of concern, and this voluntary service resulted in the registration of 331 radium sources in 23 facilities totaling 2,352 milligrams. Of these sources, 254 have been leak-tested and 29 leaking sources have been detected. All owners of leaking sources of radium voluntarily disposed of the leaking radium sources or had them reencapsulated. The Agency provides assistance to radium users in the proper disposal of unwanted or leaking sources. Inspections were based on recommendations in NBS Handbook 73. A written report with recommendations was left with the users after each inspection. The degree of compliance with recommendations was 90 percent. Followup visits were made when indicated.

Another activity in the area of radioactive materials has been the accompanying of AEC Inspectors on the occasion of inspection visits to South Carolina. Within the last 8 years, South Carolina personnel have accompanied Atomic Energy Commission Inspectors on 75 percent of the inspections within the State. This has served the valuable purpose of familiarizing the staff with the inspection of licenses of radioactive materials, as well as the investigation of incidents involving licensed material.

In 1956, as a result of recommendations made by the Savannah River Advisory Board, the South Carolina Water Pollution Control Authority conservatively entered into an environmental monitoring program to determine the effect, if any, of the Savannah River Plant of the Atomic Energy Commission on the aquatic environment. Initially, this program consisted of one sampling point on the Savannah River below the plant effluent, which was subjected to gross alpha and beta analysis. Continuous paddlewheel samplers were later added at three locations, and more rigorous analytical procedures were employed, including specific isotope analysis and gamma spectroscopy when indicated by gross measurements.

The location of the Carolinas-Virginia Nuclear Power Associates' small power reactor at Parr, S.C., as well as the nuclear submarine repair facility at the Charleston Naval Shipyard prompted considerable expansion and sophistication of the environmental program to include over 150 sampling points, sampling air, water, precipitation, bottom muds and silt, vegetation, and milk. These samples were subjected to gross alpha and beta analysis, specific isotope analysis and gamma scans. Approximately 1,200 analyses per year were performed. The number of sampling points, as well as items sampled and analyzed underwent change as new nuclear installations were announced. Modern, well equipped laboratory facilities were provided for this work.

During the past year the responsibility for the environmental program was transferred to the South Carolina State Board of Health, in close cooperation with the South Carolina Pollution Control Authority.

Also during the past year regulations governing radioactive materials, X-ray machines and particle accelerators were adopted, after several meetings of the Technical Advisory Radiation Control Council, which met to consider in detail proposed regulations, and after public hearings to air the recommendations before the public. The Technical Advisory Radiation Control Council is a committee authorized by the Atomic Energy and Radiation Control Act to advise the State Board of Health on policy matters, including regulations.

Present Program

The present program of the Division of Radiological Health consists of initiating the activities authorized by the Atomic Energy and Radiation Control Act, and continuing environmental monitoring, expanding the scope of this operation to take care of the burgeoning nuclear industries announced for South Carolina.

Licensing of radium is now mandatory. All X-ray machines and particle accelerators were required to be registered by March 31, 1969. The portions of the program dealing with these requirements have begun.

The radium management inspection determines compliance with regulations and terms of the license. Items checked are shielding, storage, access control, posting of signs, records, leak-testing, survey meters, personnel monitoring, and transport equipment. Again, other recommendations of a helpful nature are made.

The environmental program consists of sampling the environment in the vicinity of nuclear installations existing, under construction or announced. Preoperational surveillance activities consist of determining radioactivity levels in environmental samples as a baseline against which to compare those levels found after operations commence. Surveillance around existing facilities is conducted to determine if there is any impact on the environment as a result of release of radioactivity. If gross alpha and beta determinations show an increase, gamma and alpha spectrometry or specific isotope analysis is used to determine the source. An experimental program to determine the efficacy of using thermo-luminescent dosimetry as an environmental monitor is being conducted.

Future Plans

Future plans will include extending the regulatory program to licensing and regulating the use of those radioactive materials presently under the purview of the U.S. Atomic Energy Commission, dependent upon signing an agreement with the Atomic Energy Commission. Details of the regulatory procedures and policies to be followed are given in a later section.

An in-house formal training program in radiological health will be conducted for new staff personnel on a scheduled basis, and will utilize outside instructors where they are available.

Scope of Problem

There are an estimated 2,000 X-ray units in South Carolina, approximately 600 of these being dental units. The number of Atomic Energy Commission licenses for byproduct material, source material and special nuclear material in quantities not sufficient to form a critical mass currently in effect is 142. There are 331 known radium sources in use at 23 facilities totaling 2,352 milligrams. Numerous particle accelerators exist in this State.

Four large commercial nuclear power reactors are under construction, three of them being at one location. Also under construction is a nuclear fuels fabrication plant. Announcements have been made by two separate companies of their intentions to construct a nuclear fuels reprocessing plant. Other installations which indicate the need for environmental surveillance activities are the Savannah River Plant of the Atomic Energy Commission and the nuclear submarine repair base at Charleston, S.C.

Organization and Staff

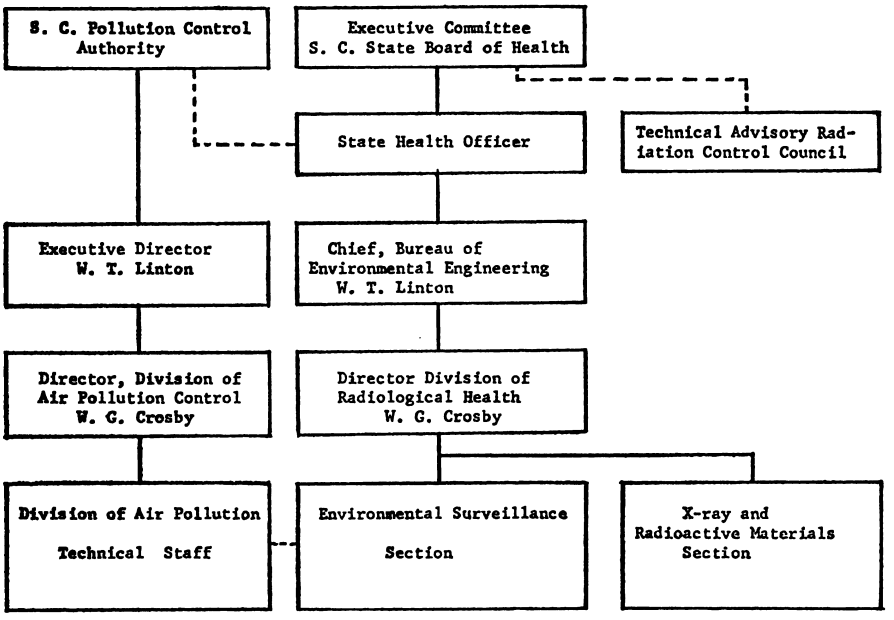
Under the provisions of the Atomic Energy and Radiation Control Act, the South Carolina State Board of Health is designated as the agency to exercise regulatory functions in radiological health. The organization of the State Board of Health is shown in Appendix, Chart 1. A Technical Advisory Radiation Control Council, appointed by the Governor, is also established. The purpose of this Council is to advise the State Board of Health on matters pertaining to ionizing radiation including standards, rules and regulations to be adopted, modified, promulgated or repealed by the Agency. Present membership of the Council is given in Table 1 of the appendix.

To assist the State Board of Health and staff in judging applications for nonroutine medical use of radioactive materials a Medical Advisory Committee has been appointed, the membership of which is shown in Table 2 of the appendix.

The functional radiological health program is operated by the Division of Radiological Health which, in turn, is a division of the Bureau of Environmental Engineering. The director of this division is also the director of the Division of Air Pollution Control, and spends his time equally divided between the

two divisions. In addition to State Board of Health staff members, experienced technicians are assigned to the Division of Radiological Health from the Bureau of Pollution Control to do work in environmental surveillance.

The line of authority and responsibility is shown on the accompanying diagram. The dotted line shown between the State Health Officer and the Pollution Control Authority indicates that he is, ex officio, Chairman of the Pollution Control Authority. There is also the statutory requirement that two additional members of the Authority be appointed from the Executive Committee of the State Board of Health. The dotted line between the Technical Staff of the Division of Air Pollution Control and the Environmental Surveillance Section of the Division of Radiological Health is intended to show the assignment of personnel and technical services by the Pollution Control Authority to the Division of Radiological Health.



REGULATORY PROCEDURES AND POLICY

Licensing and registration. The South Carolina State Board of Health has been designated the State Agency with the responsibility to develop an all-encompassing radiological health program in accordance with sections 1-400.11 through 1-400.16 of the 1962 Code of Laws of South Carolina and supplement thereto, the Atomic Energy and Radiation Control Act of South Carolina. The Division of Radiological Health has the responsibility for the operational phases of this program.

This program will regulate the safe use of all sources of ionizing radiation in the State including radium and accelerator produced nuclides, X-ray producing machines and particle accelerators. Certain small quantities of radionuclides as well as electronic devices which produce X-rays incidental to their operations in intensities insufficient to constitute a health hazard will be exempt. Licensing of all radionuclides including radium, and registration of X-ray machines and particle accelerators are features of this program. All regulations governing these sources are substantially in accord with the suggested State regulations as published by the Council of State Governments in cooperation with the Atomic Energy Commission and the U.S. Public Health Service. Every effort will be made to conduct the program in a fashion that is compatible with those operated by other agreement States and the Atomic Energy Commission.

The licensing program will be patterned after the one established by the Atomic Energy Commission and will use applicable criteria contained in regulations as published by the Atomic Energy Commission. The director and key staff members will evaluate each radioactive material license application, including prelicensing visits if this is indicated. When applications are received for unusual uses, additional advice will be sought. When applications for nonroutine medical uses are received the Medical Advisory Committee will be consulted. When applications for specific licenses are approved, licenses will be signed by the State Health Officer for the South Carolina State Board of Health.

Inspection. Inspection to determine radiation safety and compliance with pertinent regulations, and provisions of license or registration will be conducted as needed by division staff members. These members consist of the Director, the Radiological Health Specialist, Radiological Health Inspector and the Laboratory Technician III, who are or will be qualified by training and experience to conduct the inspections. Inspections will be either by prearrangement or unannounced during reasonable hours.

Licenses will be inspected on a priority basis determined by type of use, quantity of radioactive material, physical and chemical form, training, and experience of user, frequency of use and other factors in keeping with the experience gained by others including the Atomic Energy Commission and other agreement States. The initially planned frequencies are categorized as follows:

Classification of use	*Usual inspection frequency*
Industrial radiography:	
Fixed installations	Once each 12 months.
Mobile operations	Once each 6 months.
Operations involving waste disposal.	Once each 6 months.
Broad licenses—industrial, medical, or academic.	Once each 6–12 months.
Other specific licenses — industrial, medical, or academic.	Once each 12–24 months.

These frequencies are subject to alteration and are presented as a depiction of the general policy at this time. Individual licenses will be judged on the particular circumstances associated with the terms of the license.

Inspections will include the observation of pertinent facilities and equipment; a review of use procedures and radiation safety practices; a review of records of radiation surveys, personnel exposure, and receipt and disposition of licensed materials; and instrument surveys to assess radiation levels incident to the operation—all as appropriate to the scope and conditions of the license and applicable regulations.

At the start and conclusion of an inspection, personal contact will be at management level whenever possible. Following the inspections, results will be discussed with the license management, appropriate tentative recommendations will be made and questions answered.

Investigations will be made of all reported or alleged incidents to determine the conditions and exposures incident thereto and to determine the steps taken for correction, cleanup, and the prevention of similar incidents in the future.

Radiological assistance in the form of monitoring, liaison with appropriate authorities, and recommendations for area security and cleanup will be available from the Agency on the occasion of incidents.

Reports will be prepared covering each inspection or investigation. The reports will be reviewed by a senior staff member and submitted to the Director of the Division of Radiological Health.

All inspectors will keep abreast of changes and developments in the field of radioactive materials by attending training courses, seminars and symposia, as well as in-house training which will be required.

Compliance and enforcement. The status of compliance with regulations, registration, or license conditions will be determined through inspections and evaluations of inspection reports.

Where there are items of noncompliance, the licensee shall be so informed at the time of inspection. When the items are minor and the licensee agrees at the time of inspection to correct them, written notice at the completion of the inspection will list the items of noncompliance, confirm corrections made at the time, and inform the person that a review of other corrective action will be made at the next inspection.

Where items of noncompliance of a more serious nature occur, the licensee will be informed by letter of the items of noncompliance and required to reply within a stated time as to the corrective action taken and the date completed, or expected to be completed. Assurance of corrective action will be determined by a followup inspection or at the time of the next regular inspection.

The terms and conditions of a license, upon request by the licensee, may be amended, consistent with the Act or regulations, to meet changing conditions in operations or to remedy minor items of noncompliance. The Agency may amend, suspend or revoke a license in the event of continuing refusal of the licensee to comply with terms and conditions of the license, the Act, or regulations or failure to take adequate action concerning items of noncompliance. Prior to such action,

the Agency shall notify the licensee of its intent to amend, suspend or revoke the license and provide the opportunity for a hearing.

Whenever the Agency finds that an emergency exists requiring immediate action to protect the public health, safety, or general welfare, it may, in accordance with the Act, without notice of hearing, issue a regulation or order reciting the existence of such emergency and require that such action be taken as is necessary to meet the emergency. The Agency, in the event of an emergency, is empowered to impound or order the impounding of sources of ionizing radiation upon findings that the possessor is unable to observe or is not observing the provisions of the Act or regulations issued thereunder. After these actions the licensee still has right to a hearing.

A court order directing a person to comply, or enjoining practices in violation of the Act or regulations, may be sought by the Attorney General in the appropriate court upon request of the Agency, after notice to such persons and ample opportunity to comply has been afforded.

The Agency will use its best efforts to obtain compliance through cooperation and education. Only in instances of repeated noncompliance, willful violation, or where serious potential hazards exist, will the full legal procedures normally be employed.

Effective date of license transfer. Any person who, on the effective date of the agreement with the Atomic Energy Commission, possesses a license issued by the Federal Government shall be deemed to possess a like license issued by the Agency which shall expire either 90 days after the receipt from the Agency of a notice of expiration of such license or on the date of expiration specified in the federal license, whichever is earlier.

Compatibility and reciprocity. In promulgating rules and regulations, the Agency has, insofar as practicable, avoided requiring dual licensing and has provided for reciprocal recognition of other state and federal licenses.

Radiological emergency capability. The Division of Radiological Health has maintained the capability for handling radiological emergencies since 1959. This capability includes training of personnel, proper monitoring instruments, and liaison with other agencies such as State Highway Patrol, Atomic Energy Commission, Savannah River Plant, and U.S. Public Health Service.

As a result of our Radium Management Program, additional capability was formulated in 1965 to handle other radiological emergencies such as lost or damaged radium sources, overexposures, contamination, or transportation incidents. Additional personnel were trained, better instruments purchased and maintained, "emergency kits" put together for immediate use, and a system for telephone communications instituted. Emergency plans of other groups and agencies involving radiological incidents were reviewed by our Division.

Future plans for emergency procedures involve first of all a thorough review of our existing plan in light of the new role as an agreement state. A more formal plan will be instituted delineating the responsibility of each group or agency. Radiological Emergency Assistance Teams will be organized and trained in areas of major radiological activity. The Division of Radiological Health, which will be responsible for the program, will coordinate the new plan so that when and if an emergency does occur a systematic procedure will be followed.

[Dockets Nos. 50-317 and 50-318]

BALTIMORE GAS AND ELECTRIC CO.

Notice of Issuance of Provisional Construction Permits

Notice is hereby given that, pursuant to the initial decision of the Atomic Safety and Licensing Board, dated June 30, 1969, the Director of the Division of Reactor Licensing has issued Provisional Construction permits Nos. CPPR-63 and CPPR-64 to the Baltimore Gas and Electric Co. for the construction of two pressurized water nuclear reactors, designated as the Calvert Cliffs Nuclear Power Plant Units 1 and 2, at the applicant's site on the western shore of the Chesapeake Bay in Calvert County, Md., about 10 miles southeast of Prince Frederick, Md. The reactors are each designed for initial operation at approximately 2,440 thermal megawatts.

A copy of the initial decision is on file in the Commisson's Public Document Room, 1717 H Street NW., Washington, D.C.

Dated at Bethesda, Md., this 7th day of July 1969.

For the Atomic Energy Commission.

PETER A. MORRIS,
Director,
Division of Reactor Licensing.

FEDERAL MARITIME COMMISSION

EVANS PRODUCTS CO. AND RETLA STEAMSHIP CO.

Notice of Agreement Filed for Approval

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1202; or may inspect agreements at the offices of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the comments should indicate that this has been done.

Notice of agreement filed for approval by:

Amy Scupi, Esq., Galland, Kharasch, Calkins & Lippman, 1824 R Street NW., Washington, D.C. 20009.

Agreement 9549-3 between Evans Products Co. and Retla Steamship Co., modifies Article 9 of the basic agreement by expanding its geographic scope to include Okinawa, Hong Kong, Singapore, Malaysia, and Indonesia.

Dated: July 10, 1969.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

[F.R. Doc. 69-8300; Filed, July 14, 1969; 8:48 a.m.]

OCEANIC STEAMSHIP CO. ET AL.

Notice of Agreement Filed for Approval

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1202; or may inspect agreements at the offices of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the comments should indicate that this has been done.

The Oceanic Steamship Co., Grace Line, Inc., Transatlantic Steamship Co., Ltd., and Flota Mercante Grancolumbiana, S.A.:

Notice of agreement filed for approval by:

Mr. David F. Anderson, Senior Counsel, The Oceanic Steamship Co., 100 Mission Street, San Francisco, Calif. 94105.

An agreement between The Oceanic Steamship Co., Grace Line, Inc., Transatlantic Steamship Co., Ltd., and Flota Mercante Grancolumbiana, S.A., has been filed with the Commission and assigned Federal Maritime Commission No. 9805. The agreement provides for the parties to agree upon the compensation for and use of a common stevedore for the discharge of bulk and package concentrates from their vessels at Selby, Calif. In addition, the parties have the right of independent action and are to independently negotiate and enter into its separate stevedoring contract.

Dated: July 10, 1969.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. DA-1090-California]

PLUMAS NATIONAL FOREST

Finding and Order for Cancellation and Vacation

JULY 7, 1969.

Lands withdrawn in Power Site Classification No. 179 and Project Nos. 1258 and 2126, Docket No. DA-1090-California, U.S. Forest Service.

Application has been filed by the U.S. Forest Service for cancellation and vacation, respectively of the power withdrawals pertaining to the following described lands of the United States, located within the Plumas National Forest:

MOUNT DIABLO MERIDIAN, CALIFORNIA

T. 25 N., R. 9 E.,
Sec. 22, S½NW¼NE¼, N½N½SW¼NE¼.

(Approximately 30 acres.)

The subject lands lie on and near Spanish Creek, a tributary to East Branch North Fork Feather River, in the vicinity of the settlement of Keddie, Calif. The lands are withdrawn variously as follows: In Power Site Classification No. 179, approved May 13, 1927; pursuant to the filing on August 12, 1942 of an amendatory application for license for a 50-foot right-of-way for transmission line Project No. 1258; and pursuant to the filing on February 24, 1953, of an application for a preliminary permit for Project No. 2126. A subsequent application for a license for Project No. 2126 was denied by Commission order and opinion dated October 10, 1962. The license issued for Project No. 1258 expired on February 10, 1967, and the transmission line formerly under license is presently in operation under a special use permit issued by the U.S. Forest Service.

Although several upstream sites have been suggested for multipurpose projects, there are no known plans for power development that would affect the subject lands. An early Bureau of Reclamation plan proposed the construction of the American Valley Reservoir about 4 miles upstream from the subject lands. Such a development would only affect the subject lands if a conduit to develop the project were to be located on the lands. However, the U. S. Geological Survey reports this proposal to be economically infeasible because it would inundate existing improvements, including the town of Quincy, several miles of Western Pacific Railroad main line, and State Route No. 70. These same adverse effects make development of the 15-mile stretch of Spanish Creek between the town of Quincy and its confluence with the East Branch North Fork Feather River economically infeasible.

The Commission finds: Inasmuch as the lands have no significant power value, the power site withdrawals pertaining to the lands serve no useful purpose and should be canceled and vacated. Accordingly, it has no objection to cancellation of Power Site Classification No. 179 insofar as it affects the subject lands.

The Commission orders: The withdrawals of the lands pursuant to the applications for Project Nos. 1258 and 2126 are hereby vacated insofar as they affect the subject lands.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Acting Secretary.

[F.R. Doc. 69-8268; Filed, July 14, 1969; 8:45 a.m.]

[Docket No. RI70-1]

SUPERIOR OIL CO.

Offshore Transportation; Order on Petition for Special Relief

JULY 7, 1969.

On May 8, 1969, The Superior Oil Co. (Superior), filed a petition for special relief pursuant to ordering paragraph (C) of Opinion No. 546-A, issued March 20, 1969, in Area Rate Proceeding, dockets Nos. AR 61-2, et al., ------ FPC ------, with respect to natural gas produced offshore South Louisiana (Block 71 and 149 Fields), and transported to an onshore point by Superior for sale and delivery to Michigan Wisconsin Pipe Line Co., under Superior's FPC Gas Rate Schedule No. 7.

Ordering paragraph (C) of Opinion No. 546-A provides that a producer may, by reason of the fact that it is transporting or paying for the transportation of gas produced in the Federal Domain to a point onshore, file a rate reflecting the applicable onshore base area rate by petitioning for special relief setting forth the facts regarding each case. It further provides that the difference between the onshore and offshore rate shall be subject to refund as to all or any part thereof to which the producer ultimately is found not to be entitled. The applicable offshore and onshore area rates for the subject sale, as established by the Commission in its Opinion No. 546, issued September 25, 1968, ------ FPC ------, are 17 cents and 18.5 cents per Mcf at 15.025 p.s.i.a., respectively, subject to upward and downward B.t.u. adjustment. (Section 154.105(c)(1), regulations under the Natural Gas Act.)

Because of the stays issued by the Court and the Commission of Opinions Nos. 546 and 546-A, Superior has collected since October 1, 1968 (the effective date of the South Louisiana decision), and will continue to collect a rate in excess of the onshore area rate for Federal Domain gas transported onshore. Absent the stay, under paragraph (C) of Opinion No. 546-A, Superior would be allowed to collect the onshore area rate as of October 1, 1968, subject to refund.[1]

If the Commission's stay is dissolved, Superior will reduce its rate to the applicable onshore rate, and all monies collected since October 1, 1968, in excess of the onshore area rate will be subject to refund under ordering paragraph (C) of Opinion No. 546. However, the question of refunds with respect to the difference between the applicable onshore and offshore rates collected since October 1, 1968 (including any such amounts collected after the dissolution of the stay), will await final action of the Commission on Superior's petition for special relief in the above-entitled proceeding.

The Commission orders:

(A) Superior's petition for special relief with respect to sales under its FPC Gas Rate Schedule No. 7 will be disposed of in the above-entitled proceeding.

(B) Notices of intervention or petitions to intervene in the above-entitled proceeding may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure of the Commis-

[1] The Fifth Circuit Court of Appeals on May 13, 1969, granted a stay of the orders issued in this opinion until appeals are heard, but not beyond July 1, 1969, unless the Court orders otherwise. At the Court's request the Commission thereafter, by order issued May 29, 1969, stayed the rate reduction provisions of Opinions Nos. 546 and 546-A to and including Oct. 13, 1969. As a result of the Commission's action, the Court dissolved its stay on May 29, 1969.

sion (18 CFR 1.8 and 1.37(f)) on or before August 5, 1969.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Acting Secretary.

[Docket No. CP69-222]

TENNESSEE GAS PIPELINE CO.

Notice of Postponement of Filing

JULY 7, 1969.

Tennessee Gas Pipeline Co., a division of Tenneco Inc., docket No. CP69-222 (Phase II).

Notice is hereby given that the filing of prepared direct testimony set for July 11, 1969, by order issued June 13, 1969, and the hearing scheduled to commence on July 21, 1969, in the above-designated matter are postponed pending further notice.

By direction of the Commission.

KENNETH F. PLUMB,
Acting Secretary.

[F.R. Doc. 69-8270; Filed, July 14, 1969; 8:45 a.m.]

GENERAL SERVICES ADMINISTRATION

[Federal Property Management Regulations Temporary Regulation F-50]

SECRETARY OF DEFENSE

Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of Defense to represent the customer interest of the Federal Government in a natural gas service rate proceeding.

2. *Effective date.* This regulation is effective immediately.

3. *Delegation.* a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d) (40 U.S.C. 481(a)(4) and 486(d)), authority is delegated to the Secretary of Defense to represent the interests of the executive agencies of the Federal Government before the Federal Power Commission in a proceeding involving natural gas pipeline rates of the Cities Service Gas Co., FPC docket No. RP 69-39.

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and further, shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

ROBERT L. KUNZIG,
Administrator of General Services.

JULY 8, 1969.

[F.R. Doc. 69-8311; Filed, July 14, 1969; 8:49 a.m.]

SECURITIES AND EXCHANGE COMMISSION

[37-65]

NORTHEAST UTILITIES ET AL.

Notice of Posteffective Amendment Regarding Proposed Change in Purchasing Functions of Subsidiary Service Company and Related Transactions

JULY 9, 1969.

In the matter of Northeast Utilities, 70 Federal Street, Boston, Mass. 02110; Northeast Utilities Service Co., the Hartford Electric Light Co., 176 Cumberland Avenue, Wethersfield, Conn. 06109; the Connecticut Light and Power Co., Selden Street, Berlin, Conn. 06037; Holyoke Water Power Co., 1 Canal Street, Holyoke, Mass. 01040; Western Massachusetts Electric Co., 174 Brush Hill Avenue, West Springfield, Mass. 01089.

Notice is hereby given that Northeast Utilities Service Co. ("NUSCO"), a wholly owned subsidiary service company of Northeast Utilities ("Northeast"), a registered holding company, and four of Northeast's electric utility subsidiary companies, the Connecticut Light and Power Co. ("CL&P"), the Hartford Electric Light Co. ("HELCO"), Holyoke Water Power Co. ("Holyoke"), and Western Massachusetts Electric Co. ("WMECO"), have filed with this Commission a posteffective amendment to the joint application-declaration in this matter pursuant to the provisions of the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 7, 9(a), 10, 12, and 13(b) of the Act, and Rules 40(b), 42(b)(2), 50 (a)(1) and (a)(4), and 88 thereunder as applicable to the proposed transactions. All interested persons are referred to the said posteffective amendment, which is summarized below, for a complete statement of the proposed transactions.

NUSCO now purchases, as common agent for the accounts of CL&P, HELCO, Holyole, and WMECO, all of the standard materials and supplies maintained in stock for such companies in the service company's central warehouse in Berlin, Conn. As a consequence, NUSCO is required to keep separate inventory and State sales and use tax records in respect of the merchandise which it handles for each of the four operating companies. Certain of such records overlap those maintained by the operating companies. In order to simplify the multiplicity of tax accounting and other records necessitated by the present arrangement, applicants-declarants propose that the materials and supplies required for the four associate operating companies be purchased and inventoried by NUSCO for its own account as a wholesaler for subsequent resale and delivery to the associate companies upon their request.

The proposed change would necessitate procurement of additional capital from Northeast. By its order dated June 30, 1966 (Holding Company Act Release No. 15519), the Commission authorized NUSCO to issue and sell long-term unsecured notes ("old notes") to Northeast for cash, during a period of 5 years commencing with the effective date of such order, subject to the express limitations that (1) the aggregate principal amount of such notes to be at any one time outstanding would not exceed $3 million and (2) the aggregate capital of NUSCO would at all times be maintained at an amount approximately equal to the sum of 2 months' operating expenses plus the cost of its property less applicable reserves, prepayments, and petty cash working funds.

NUSCO now proposes to issue and sell to Northeast for cash, and Northeast proposes to acquire, during the remainder of the aforesaid 5-year period, additional long-term unsecured notes ("new notes") having the same terms and provisions as the old notes. The company further proposes that the aforesaid limitations as to the principal amounts of notes to be issued and outstanding be modified so as to provide: (1) That not more than $5 million aggregate principal amount of NUSCO's old and new notes may be at any one time outstanding; and (2) that the aggregate capital of NUSCO, including its outstanding notes and capital stock, will be maintained at all times at an amount approximately equal to the sum of 2 months' operating expenses, plus an amount necessary to finance the inventory of materials and supplies proposed to be purchased by NUSCO and stored in its central warehouse, plus the cost of NUSCO's property less applicable reserves, prepayments, and petty cash working funds.

The applicants-declarants represent that adoption of the proposed purchasing arrangements would have no effect on vendors' invoice prices now being paid by associate companies or the purchase and inventory records presently maintained by such companies. The new procedure would eliminate Connecticut sales taxes of approximately $35,000 per year levied on merchandise purchased in Connecticut for redelivery and ultimate use in Massachusetts and result in estimated net annual savings of $5,000 in the costs of recordkeeping and accounting functions presently performed by NUSCO.

The application-declaration further states that no fees or expenses will be incurred in connection with the proposed transactions, and that no consent or approval of any State commission or Federal commission, other than this Commission, is required in respect of the proposed transactions.

Notice is further given that any interested person may, not later than July 28, 1969, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said amended joint application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the said joint application-declaration, as amended by the said post-effective amendment or as it may be further amended, may be granted and permitted to become effective in the manner provided by Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

[SEAL] ORVAL L. DUBOIS,
Secretary.

COMMERCIAL FINANCE CORPORATION OF NEW JERSEY

Order Suspending Trading

JULY 9, 1969.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock and all other securities of Commercial Finance Corporation of New Jersey, a New Jersey corporation, being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period July 10, 1969, through July 19, 1969, both dates inclusive.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F.R. Doc. 69-8284; Filed, July 14, 1969; 8:46 a.m.]

[812-2524]

SELECTED SPECIAL SHARES, INC.

Sale of Shares by an Open-End Investment Company Not at the Public Offering Price

JULY 9, 1969.

Notice is hereby given that Selected Special Shares, Inc. ("Selected"), a Delaware corporation, 135 South La Salle Street, Chicago, Ill. 60603, registered as an open-end management investment company under the Investment Company Act of 1940 ("Act"), has filed an application pursuant to section 6(c) of the Act, requesting an order of the Commission exempting from the provisions of section 22(d) of the Act a proposed transaction in which Selected's redeemable securities may be issued at a price other than the public offering price described in the prospectus, for substantially all of the assets of My-Ed Corp. ("My-Ed"). All interested persons are referred to the application on file with the Commission for a complete statement of the representations which are summarized below.

Selected represents that My-Ed, an Illinois corporation, has three stockholders and is, therefore, exempt from registration under the Act pursuant to section 3(c)(1) of the Act. At March 31, 1969, My-Ed's assets consisted of cash and securities having a value of $2,631,910 and Selected had total assets of $72,608,293. My-Ed is an investment counsel client of Security Supervisors Inc., the investment adviser of Selected.

By agreement and plan of reorganization dated April 22, 1969, My-Ed will transfer substantially all of its assets to Selected in exchange for shares of Selected stock. My-Ed will receive the number of shares of Selected calculated by dividing the value of My-Ed's assets by Selected's net asset value per share, subject to a reduction in the number of Selected shares to be exchanged if a greater percentage of My-Ed's assets is represented by unrealized appreciation than Selected's. It is expected that at the closing date the percentage of My-Ed's unrealized appreciation will not exceed that of Selected and that no adjustment will be required. If the transaction had been closed on or about March 31, 1969, My-Ed would have received approximately 148,369 shares of Selected, representing approximately 3.46 percent of Selected's total shares outstanding. The net asset value of Selected's securities for the purposes of the exchange will be the net asset value next computed after the closing. The value of My-Ed's assets shall be determined in the same manner. Selected's public offering price is calculated by adding to its current net asset value a sales charge as described in its prospectus, and no sales charge will be added in this transaction.

Section 22(d) of the Act provides that registered investment companies issuing redeemable securities may sell their shares only at the current public offering price described in the prospectus. Section 6(c) permits the Commission, upon application, to exempt a transaction from the provisions of section 22(d) if it finds that such an exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Selected represents that My-Ed's portfolio securities meet the investment objectives of Selected and represent desirable investments for Selected, that the terms of the transaction were arrived at through arm's length bargaining and that the terms of the transaction are fair and equitable.

Notice is further given that any interested person may, not later than July 30, 1969, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Selected at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered and any postponements thereof.

For the Commission (pursuant to delegated authority).

[SEAL] ORVAL L. DUBOIS,
Secretary.

WATER RESOURCES COUNCIL

POLICIES AND PROCEDURES IN PLAN FORMULATION AND EVALUATION OF WATER AND RELATED LAND RESOURCES PROJECTS

Notice of Public Hearing

Notice is hereby given that the Water Resources Council will hold a public hearing commencing at 10 a.m. on August 22, 1969, at the Kentucky Hotel, Fifth and Walnut Streets, Louisville, Ky.

The purpose of this hearing is to obtain the views of the interested public on the policies and procedures used by the Federal agencies in the formulation and evaluation of plans for use and development of water and related land resources.

On June 13, 1969, the Water Resources Council published in the FEDERAL REGISTER (34 F.R. 9367–9368) a notice of public hearing and the availability of a special task force report, which was submitted to the Water Resources Council. The report is entitled "Procedures for Evaluation of Water and Related Land Resources Projects". The report sets forth a statement of the national objectives for water resources development. The objectives include national income, regional development, environmental enhancement, and well-being of people, and they provide the framework within which the effects of water and related land resources projects may be evaluated. Benefits and costs are identified as the beneficial or adverse effects of plans toward attainment of these national objectives. All effects of the water and related land resources plans are to be displayed in a system of accounts.

The notice in the FEDERAL REGISTER on June 13, 1969, announced a series of hearings to be held at various locations in the United States throughout the month of August 1969, and also hearings to be held in September 1969, in Washington, D.C. The detailed background for and the times and places of those hearings are set forth in that notice.

Since the publication of that notice, various persons have asked that another hearing be held somewhere in the vicinity of the Ohio River Valley. For that reason the hearing on August 22, 1969, in Louisville, Ky., has been added to the list of the places where hearings will be held.

At the hearings the Water Resources Council would like to obtain the views of all interested persons on (1) the report of the special task force, (2) Senate Document No. 97 and Supplement No. 1 thereto, dated June 4, 1964, and (3) any other matters that are relevant to policies and procedures to be used by Federal agencies in the formulation and evaluation of water and related land resources projects. After consideration of the views and comments received, and of the results obtained in certain tests to be held on the procedures proposed in the report, the Council will formulate, in accordance with the Council's authority under the provisions of the Water Resources Planning Act (Public Law 89–80), principles, standards, and procedures to be observed by the Federal agencies in the formulation and evaluation of water and related land resources projects. These proposals will again be submitted to the public for review and comment before they are approved.

Copies of the report of the special task force, and of Senate Document No. 97 and Supplement No. 1 thereto, dated June 4, 1964, may be obtained by writing to the Water Resources Council, 1025 Vermont Avenue NW., Washington, D.C. 20005.

Views may be presented at the hearings in person or by submitting a written statement for the record. No advanced notice of intention to testify or to submit a written statement is necessary. The record will be kept open through September 19, 1969 for submission of further written statements not presented at the hearings. If necessary to accommodate all those wishing to testify, the hearing officer may limit each oral presentation to 30 minutes. Any person so limited shall have the privilege of submitting a written extension of his remarks, which will be incorporated in the record.

Written statements for the record not delivered to the hearing officer during the hearing should be addressed to Henry P. Caulfield, Jr., Executive Director, Water Resources Council, 1025 Vermont Avenue NW., Washington, D.C. 2005.

Dated: July 8, 1969.

HENRY P. CAULFIELD, Jr.,
Executive Director.

INTERSTATE COMMERCE COMMISSION

[Notice 867]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JULY 10, 1969.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 340), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 3252 (Sub-No. 60 TA), filed July 2, 1969. Applicant: PAUL E. MERRILL, doing business as MERRILL TRANSPORT CO., 1037 Forest Avenue, Portland, Maine 04104. Applicant's representative: Francis E. Barret, Jr., 536 Granite Street, Braintree, Mass. 02184. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Caustic soda and sodium hypochlorite*, in bulk, in tank vehicles, from Orrington, Maine, to points in New Hampshire, Massachusetts, Rhode Island and ports of entry in the United States and Canada international boundary line at or near Calais, Vanceboro, and Houlton, Maine, for 180 days. Supporting shipper: IMC Chlor-Alkali, Inc., 5401 Old Orchard Road, Skokie, Ill. 60076. Send protests to: Donald G. Weiler, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 307, 76 Pearl Street, Portland, Maine 04112.

No. MC 25798 (Sub-No. 194 TA), filed July 7, 1969. Applicant: CLAY HYDER TRUCKING LINES, INC., 502 East Bridgers Avenue, Auburndale, Fla. 33823. Applicant's representative: Tony G. Russell (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas, plantains, pineapples, and coconuts*, from Wilmington, Del., to points in Indiana, Illinois, Iowa, Wisconsin, Minnesota, Missouri, Kansas, Nebraska, North Dakota, South Dakota, Arkansas, Michigan, Ohio, and Oklahoma, for 180 days. Supporting shipper: West Indies Fruit Co., Post Office Box 1940, Miami, Fla. 33101. Send protests to: District Supervisor Joseph B. Teichert, Interstate Commerce Commission, Bureau of Operations, Room 1226, 51 Southwest First Avenue, Miami, Fla. 33130.

No. MC 57275 (Sub-No. 12 TA), filed July 1, 1969. Applicant: SCHADE REFRIGERATED LINES, 429 West Jackson, Phoenix, Ariz. 95003. Applicant's representative: Richard Minne, Luhrs Building, Phoenix, Ariz. 85003. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes,

transporting: *Confectionery and chocolate products,* in mechanically controlled refrigerated vehicles, between Phoenix, Ariz., and points in that part of Arizona beginning at junction Bell Road and U.S. Highways 60–70–89, thence last to Lake Pleasant Road, thence north along Lake Pleasant Road to junction Carefree Highway, thence east along Carefree Highway to junction Cave Creek Road, thence north to town of Cave Creek and east to Carefree to junction Scottsdale Road, thence south along Scottsdale Road to junction Pinnacle Peak Road, thence east along Pinnacle Peak Road to junction unnumbered county road, thence south along unnumbered county road past Fort McDowell to junction Arizona Highway 87, thence east along Arizona Highway 87 to junction Stewart Mountain Dam Road, thence south along Stewart Mountain Dam Road past Stewart Mountain Dam to junction Old Bush Highway, thence southwesterly along Old Bush Highway to junction Ellsworth Road, thence south along Ellsworth Road to junction Hunt Highway near Maricopa County line, thence west and south along Hunt Highway to junction Arizona Highway 87, thence southeasterly along Arizona Highway 87 to Sacaton turnoff, thence along unnumbered highway to the town of Sacaton, thence westerly along Sacaton Road to junction Arizona Highway 93, thence north along Arizona Highway 93 to junction Bapchule Road, thence west along Bapchule Road to junction Maricopa Road, thence north along Maricopa Road to junction Komatka Road, thence west along Komatka Road to St. Johns, thence north along Avenue 51 to Broadway (Future interstate freeway), thence west along Broadway to 115th Avenue, thence north along 115th Avenue to junction U.S. Highway 80, thence along U.S. Highway 80 to Buckeye, Ariz., thence north along Cemetery Road to Broadway, thence east along Broadway to Cotton Lane, thence north along Cotton Lane to junction Beardsley Road, thence east along Beardsley Road to junction U.S. Highway 60–70, thence south along U.S. Highway 60–70 to point of beginning at Bell Road, service is authorized at points on the boundary roads and highways and off-route service to Caterpillar Proving Grounds approximately 4 miles west of Cotton Lane near Indian School Road, for 180 days. NOTE: Applicant states it will, if requested, interline with carriers who participate in Rocky Mountain Motor Tariff Bureau Tariff IG to further the transportation of the designated commodities within the subject area. In its past operations under its previous registration, applicant has continued such an interline operation although there has been a very slight movement of traffic. Supporting shippers: Curtis Candy Co., Division of Standard Brands, Inc., Franklin Park, Ill.; E. J. Brach & Sons, Chicago, Ill.; Chicago Candy Association, Chicago, Ill. Send protests to: Andrew V. Baylor, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 3427 Federal Building, Phoenix, Ariz. 85025.

No. MC 60012 (Sub-No. 82 TA), filed June 25, 1969. Applicant: RIO GRANDE MOTOR WAY, INC., 1400 West 52nd Avenue, Denver, Colo. 80216. Applicant's representative: Warren D. Braucher, Post Office Box 5482, Denver, Colo. 80217. Authority sought to operate as a *common carrier,* by motor vehicle, over regular routes, transporting: *General commodities,* except commodities of unusual value, household goods as defined by the Commission, and those injurious or contaminating to other lading, (1) between Antonito, Colo., and the Colorado-New Mexico state line, from Antonito, over Colorado Highway 17 to the Colorado-New Mexico state line, and return over the same route, serving all intermediate points, and serving the off-route points in that part of Conejos and Rio Grande Counties, Colo., located south of U.S. Highway 160 and west of U.S. Highway 285; (2) between Antonito, Colo., and Chama, N. Mex., from Antonito, over U.S. Highway 285 to Tres Piedras, N. Mex., thence over U.S. Highway 64 to Tierra Amarilla, N. Mex., thence over U.S. Highway 84 to its junction with New Mexico Highway 17 (approximately 4 miles east of Monero, N. Mex.), and thence over New Mexico Highway 17 to Chama, N. Mex., and return over the same routes, serving all intermediate points and serving the off-route points of No Agua, N. Mex. (approximately 7 miles north of Tres Piedres); the plantsite of Johns-Manville Corp. located approximately 1½ miles east of No Agua; and the plantsite of the United Perlite Corp., located approximately 16 miles east of No Agua, for 180 days. NOTE: Applicant intends to interline at Salt Lake City, Utah, and Denver, Colo., and to tack with present authority in MC 60012 and Subs 28, 29, 30, 32, 38, 58, and 70. Supporting shippers: Mr. Ellwood H. Spencer, General Traffic Manager, Grefco, Inc., 1520 Locust Street, Philadelphia, Pa. 19102; Contract Engineering Co., Platoro Project, Platoro Mail, Monte Vista, Colo. 81144; Johns-Manville Perlite Corp., Post Office Box 338, Antonito, Colo. 81120; United Perlite Corp., Post Office Box 367, Antonito, Colo. 81120; The Cleveland-Cliffs Iron Co., Post Office Box 1211, Rifle, Colo. 81650. Send protests to: Charles W. Buckner, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 1961 Stout Street, Denver, Colo. 80202.

No. MC 83539 (Sub-No. 257 TA), filed July 2, 1969. Applicant: C & H TRANSPORTATION CO., INC., Post Office Box 5976, Dallas, Tex. 75222. Applicant's representative: J. P. Welsh (same address as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Aircraft ground support units and aircraft cargo and passenger handling equipment and machinery, attachments, parts and accessories used in connection therewith,* from Houston, Tex., to points in the United States (except Hawaii and Texas), for 180 days. NOTE: Applicant does not intend to tack with existing authority. Supporting shipper: Stewart & Stevenson, Post Office Box 1637, Houston, Tex. 77001. Send protests to: E. K. Willis, Jr., District Supervisor, Interstate Commerce Commission, Bureau of Operations, 513 Thomas Building, 1314 Wood Street, Dallas, Tex. 75202.

No. MC 103993 (Sub-No. 433 TA), filed July 7, 1969. Applicant: MORGAN DRIVE AWAY, INC., 2800 West Lexington Avenue, Elkhart, Ind. 46514. Applicant's representative: Ralph H. Miller (same address as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Truck campers and camp coaches,* from Virginia Beach, Va., to points in the United States east of the Mississippi River, for 180 days. Supporting shipper: Virginian Coach Camper Corp., Virginia Beach, Va. Send protests to: District Supervisor J. H. Gray, Bureau of Operations, Interstate Commerce Commission, Room 204, 345 West Wayne Street, Fort Wayne, Ind. 46802.

No. MC 114848 (Sub-No. 47 TA), filed July 2, 1969. Applicant: WHARTON TRANSPORT CORPORATION, 1498 Channel Avenue, Memphis, Tenn. 38106. Applicant's representative: James N. Clay III, 2700 Sterick Building, Memphis, Tenn. 38103. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Grain and grain products,* from West Memphis, Ark., to points in Mississippi, Tennessee, Alabama, Kentucky, and Georgia, for 180 days. Supporting shippers: Burrus Mills, Inc., 330 Mercantile Securities Building., Post Office Box 448, Dallas, Tex. 75221 (Mr. Gayle Johnson, General Traffic Manager); and Flour Mills of America, Inc., Post Office Box 2568, Kansas City, Mo. 64142 (Mr. A. W. Schroeder, Traffic Manager). Send protests to: Floyd A. Johnson, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 390 Federal Office Building, Memphis, Tenn. 38103.

No. MC 117673 (Sub-No. 2 TA), filed July 3, 1969. Applicant: THE BIG E CORP., 505 North Myrtle Avenue, Jacksonville, Fla. 32204. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Bananas, including plantains, and agricultural commodities* otherwise exempt from economic regulations under section 203(b)(6) of the Act when transported in mixed shipments with bananas or plantains, from Wilmington, Del., to points in Florida, Georgia, South Carolina, North Carolina, Virginia, West Virginia, Maryland, Pennsylvania, District of Columbia, New Jersey, New York, Ohio, Tennessee, Kentucky, Indiana,

Illinois, Wisconsin, Missouri, Michigan, and Alabama, for 180 days. NOTE: Applicant intends to tack with its existing authority, but no interlining. Supporting shipper: West Indies Fruit Co., Post Office Box 1940, Miami, Fla. 33101. Send protests to: District Supervisor G. H. Fauss, Jr., Interstate Commerce Commission, Bureau of Operations, Box 35008, 400 West Bay Street, Jacksonville, Fla. 32202.

No. MC 124170 (Sub-No. 16 TA), filed July 2, 1969. Applicant: FROSTWAYS, INC., 2450 Scotten Street, Detroit, Mich. 48209. Applicant's representative: Walter Bieneman, Suite 1700, 1 Woodward Avenue, Detroit, Mich. 48226. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas, plantains, pineapples, and coconuts and agricultural commodities* otherwise exempt, from economic regulations under section 203 (b)6 of the Act when transported in mixed shipments with bananas, plantains, pineapples, and coconuts, from Wilmington, Del., to points in Kentucky, Indiana, Ohio, Michigan, Illinois, and Pennsylvania, for 180 days. Supporting shipper: West Indies Fruit Co., Post Office Box 1940, Miami, Fla. 33101. Send protests to: Melvin F. Kirsch, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 1110 Broderick Tower Building, 10 Witherell Street, Detroit, Mich. 48226.

No. MC 124181 (Sub-No. 11 TA), filed July 2, 1969. Applicant: JOSEPH GENOVA, Clayton Road, Williamstown, N.J. 08094. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Containers, ends, caps and covers*, from Morrisville (Bucks County), Pa., to Williamstown and Glassboro, N.J., under contract with Violet Packing Co., National Fruit Product Co., Inc., and Ron-Son Mushroom Product Co., Inc., for 150 days. Supporting shippers: Violet Packing Co., 123 Railroad Avenue, Williamstown, N.J., 08094; National Fruit Product Co., Inc., Glassboro, N.J. 08028; Ron-Son Mushroom Products, Inc., Ellis Street and Deptford Road, Glassboro, N.J. 08028. Send protests to: Raymond T. Jones, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 410 Post Office Building, Trenton, N.J. 08608.

No. MC 127042 (Sub-No. 41 TA), filed July 7, 1969. Applicant: HAGEN, INC., 4120 Floyd Boulevard, Post Office Box 6, Leeds Station, Sioux City, Iowa 51108. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Milk, cream and vegetable oil compounds, dessert topping, and coffee whitener*, from points in the Kansas City, Mo., commercial zone to points in Illinois, Iowa, Minnesota, Nebraska, South Dakota, and Wisconsin, for 180 days. Supporting shipper: Presto Food Products, Inc., 1101 East 16th Street, Kansas City, Mo. 64108. Send protests to: Carroll Russell, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 304 Post Office Building, Sioux City, Iowa 51101.

No. MC 127902 (Sub-No. 1 TA), filed July 2, 1969. Applicant: M. L. DIETZ, doing business as DIETZ MOTOR LINES, Post Office Box 757, Hickory, N.C. 28601. Applicant's representative: Charles E. Ephraim, 1411 K Street NW., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, from points in Buncombe, Caldwell, Burke, Catawba, Rutherford, McDowell, Alexander, and Iredell Counties, N.C., to points in Alabama, Mississippi, Louisiana, and Arkansas (except from Hickory and Conover, N.C., to points in Alabama), for 150 days. Supporting shippers: Caldwell Furniture Co., Lenoir, N.C. 28645; Hickory Manufacturing Co., Box 998, Hickory, N.C. 28601; Fairfield Chair Co., Lenoir, N.C. 28645; Bernhardt Industries, Lenoir, N.C. 28645; Consolidated Furniture Industries, Inc., Lenoir, N.C. 28645; Broyhill Furniture Industries, Lenoir, N.C. 28645; Comfort Chair Co., Inc., Post Office Drawer 2227, Hickory, N.C. 28601; DeVille Furniture Co., Post Office Box 2246, Hickory, N.C. 28601; Drexel Furniture Co., Drexel, N.C. 28619. Send protests to: Jack K. Huff, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 316 East Morehead, Suite 417 (BSR Building), Charlotte, N.C. 28202.

No. MC 133771 (Sub-No. 1 TA), filed July 3, 1969. Applicant: JACK STEWART, doing business as JACK STEWART PRODUCE COMPANY, Box 605, Idabel, Okla. 74745. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Clay pots*, for the account of Marshall Pottery, Inc., from Marshall, Tex., to Los Angeles, Salinas, Hayward, San Jose, and Smith River, Calif., Walla Walla, Wash., and Stayton, Oreg., for 150 days. Supporting shipper: Richard Ellis, vice president, Marshall Pottery, Inc., Marshall, Tex. 75670. Send protests to: C. L. Phillips, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 240 Old Post Office Building, 215 Northwest Third, Oklahoma City, Okla. 73102.

No. MC 133774 (Sub-No. 1 TA), filed July 2, 1969. Applicant: HARRY R. OLOFFSON AND HAROLD F. OLOFFSON, a partnership, doing business as OLOFFSON TRUCKING SERVICE, Manlius, Ill. Applicant's representative: Samuel G. Harrod, 106 East Center Street, Eureka, Ill. 61530. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Gravity flow farm boxes and related parts and running gears*, restricted to transportation performed by vehicles equipped with booms or hoists for loading and unloading, from Manlius, Ill., to points in Alabama, Arkansas, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Mississippi, Minnesota, Missouri, Nebraska, New York, North Dakota, Ohio, Pennsylvania, South Dakota, Tennessee, Texas, and Wisconsin, for 180 days. Supporting shipper: Smith and Co. (Division of Burlington and Associates, Inc.), Manlius, Ill. 61338. Send protests to: District Supervisor Raymond E. Mauk, Interstate Commerce Commission, Bureau of Operations, U.S. Court House, FOB Room 1086, 219 South Dearborn Street, Chicago, Ill. 60604.

By the Commission.

[SEAL] ANDREW ANTHONY, Jr.,
Acting Secretary.

MOTOR CARRIER TRANSFER PROCEEDINGS

JULY 10, 1969.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-71104 (Republication). By order of June 30, 1969, the Motor Carrier Board, supplemented the order of the Commission, Motor Carrier Board, entered February 24, 1969, to authorize transfer of Certificate No. MC-82841 and sub numbers thereunder to Hunt Transportation, Inc., Omaha, Nebr., from R. D. Transfer, Inc., Omaha, Nebr., to authorize the transfer of the additional operating rights contained in Certificate No. MC-82841 (Sub-No. 43), issued to transferor March 24, 1969, authorizing the transportation of: Paper and paper articles from Omaha and Nebraska City, Nebr., and Sioux City, Iowa, to points in Colorado, Iowa, Kansas, Minnesota, Missouri, South Dakota, and a specified portion of Nebraska. Donald L. Stern, 630 City National Bank Building, Omaha, Nebr. 68102, attorney for applicants.

No. MC-FC-71446. By order of June 30, 1969, the Motor Carrier Board approved the transfer to Leman Knight, doing business as Pete Knight Trucking Co., Detroit, Ala., of the operating rights

in Permit No. MC-127726 issued on August 19, 1966, to Lawrence Ray Palmer and Lawrence Richard Palmer, a partnership, doing business as Palmer Machine Works, Amory, Miss., authorizing the transportation of: Fertilizer and fertilizer materials, dry, in bulk or in packages, between Florence, Ala., and points in Mississippi; fertilizer and fertilizer materials, dry, in bulk in dump vehicles, and in packages, between Tupelo, Miss., and Florence, Ala. Rubel L. Phillips, Post Office Box 22628, Jackson, Miss. 39205, attorney for transferee.

No. MC-FC-71313. By order of June 30, 1969, the Motor Carrier Board approved the transfer to Stewart Doyle, Inc., doing business as Doyle Transit Co., Fargo, N. Dak., of certificates in Nos. MC-125726 and MC-125726 (Sub-No. 1), issued January 8, 1965, and July 19, 1965, respectively, to Northern Transit Co., a corporation, of: Passengers and their baggage, and express and newspapers, in the same vehicle with passengers, between Fargo, N. Dak., and Oakes, N. Dak., serving all intermediate points; and, between Oakes, N. Dak., and Ellendale, N. Dak., serving all intermediate points. C. J. Serkland, 216 First National Bank Building, Fargo, N. Dak. 58102, attorney for applicants.

No. MC-FC-71447. By order of June 30, 1969, the Motor Carrier Board approved the transfer to Jordan Bus Co., Inc., 3201 Northwest 63d Street, Oklahoma City, Okla., of the certificates in Nos. MC-28680, MC-28680 (Sub-No. 5), MC-28680 (Sub-No. 8), MC-28680 (Sub-No. 9), MC-28680 (Sub-No. 12), MC-28680 (Sub-No. 15), MC-28680 (Sub-No. 16), MC-28680 (Sub-No. 17), and MC-28680 (Sub-No. 20), issued October 25, 1957, June 17, 1952, October 9, 1956, October 4, 1957, April 24, 1958, August 22, 1958, April 3, 1958, April 7, 1963, and March 30, 1959, respectively, to Jordan Bus Co., a corporation, 1232 United Founders Tower, Oklahoma City, Okla., authorizing the transportation of passengers and their baggage, and express and newspapers over regular routes between specified points in Oklahoma, Arkansas, and Texas.

No. MC-FC-71463. By order of June 30, 1969, the Motor Carrier Board approved the transfer to Ensminger Motor Lines, Inc., Frankfort, Ill., of certificate No. MC-129744 issued February 10, 1969, to Kenneth Ensminger, doing business as Ensminger Motor Lines, Frankfort, Ill., authorizing the transportation of plastic products, except in bulk, from Frankfort, Ill., to points in Wisconsin (except Green Bay, Wis., and points in its commercial zone as defined by the Commission), Michigan (except Cheboygan and points in its commercial zone as defined by the Commission), Indiana, and Ohio. Robert H. Levy, 29 South La Salle Street, Chicago, Ill. 60603, attorney for applicants.

[SEAL] ANDREW ANTHONY, Jr.,
Acting Secretary.

[S.O. 1002; Car Distribution Direction No. 59]

SEABOARD COAST LINE RAILROAD CO. ET AL.

Car Distribution

Pursuant to section 1 (15) and (17) of the Interstate Commerce Act and authority vested in me by Interstate Commerce Commission Service Order No. 1002.

It is ordered, That:

(1) Each common carrier by railroad subject to the Interstate Commerce Act shall comply with the following distribution directions:

(a) The Seaboard Coast Line Railroad Co. shall deliver to the St. Louis-San Francisco Railway Co. a weekly total of 175 empty plain serviceable boxcars with inside length less than 44 feet 8 inches and doors less than 8 feet wide. Exceptions: Canadian ownerships.

(b) The St. Louis-San Francisco Railway Co. shall deliver to the Chicago, Burlington & Quincy Railroad Co. a weekly total of 175 empty plain serviceable boxcars with inside length less than 44 feet 8 inches and doors less than 8 feet wide. Exceptions: Canadian ownerships.

It is further ordered, That the rate of delivery specified in this direction shall be maintained within weekly periods ending each Sunday at 11:59 p.m., so that at the end of each 7 days the full delivery required for that period shall have been made.

It is further ordered, That cars applied under this direction shall be so identified on empty car cards, movement slips, and interchange records as moving under the provisions of this direction.

(c) The carriers delivering the empty boxcars as described above must advise Agent R. D. Pfahler on or before each Wednesday as to the number of cars, covered by this direction, delivered during the preceding week, ending each Sunday at 11:59 p.m.

(d) The carriers receiving the cars described above must advise Agent R. D. Pfahler on or before each Wednesday as to the number of cars received during the preceding week, ending each Sunday at 11:59 p.m.

(2) *Regulations suspended.* The operation of all rules and regulations, insofar as they conflict with the provisions of this direction, is hereby suspended.

(3) *Effective date.* This direction shall become effective at 12:01 a.m., July 10, 1969.

(4) *Expiration date.* This direction shall expire at 11:59 p.m., July 27, 1969, unless otherwise modified, changed, or suspended by order of this Commission.

It is further ordered, That a copy of this direction shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this direction be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

Issued at Washington, D.C., July 9, 1969.

INTERSTATE COMMERCE COMMISSION,
[SEAL] R. D. PFAHLER,
Agent.

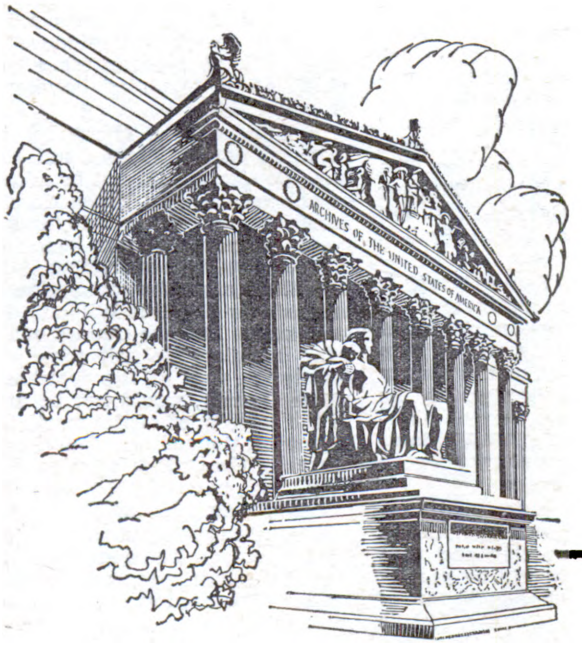
Milk in Certain Marketing Areas

Recommended Decision



DEPARTMENT OF AGRICULTURE

Consumer and Marketing Service

[7 CFR Part 1131]

[Docket Nos. AO-271-A12, AO-271-A12-RO2]

MILK IN CENTRAL ARIZONA MARKETING AREA

Notice of Revised Recommended Decision and Opportunity To File Written Exceptions on Proposed Amendments to Tentative Marketing Agreement and to Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this revised recommended decision with respect to proposed amendments to the tentative marketing agreement and order regulating the handling of milk in the Central Arizona marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, by the 20th day after publication of this decision in the FEDERAL REGISTER. The exceptions should be filed in quadruplicate. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

PRELIMINARY STATEMENT

The hearing on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreement and to the order as amended, were formulated, was conducted at Phoenix, Ariz., during the period February 7-10, 1967, pursuant to notices thereof which were issued on December 14, 1966 (31 F.R. 16277), January 4, 1967 (32 F.R. 140), and January 12, 1967 (32 F.R. 415).

The material issues on the record of the hearing relate to:

1. Marketing area extension.
2. Producer definition.
3. Producer-handler definition.
4. Classification provisions.
5. Transfer provisions.
6. Location differential at Tucson.
7. Obligation of a handler operating a partially regulated distributing plant.

Upon the basis of the evidence introduced at the hearing and the record thereof, the Acting Deputy Administrator, Regulatory Programs, on October 9, 1967 (32 F.R. 14232, F.R. Doc. 67-12143), filed with the Hearing Clerk, U.S. Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto. Exceptions were filed by a number of interested parties.

This proceeding was reopened at a public hearing held at Memphis, Tenn., under Docket No. AO-217-A12-RO2, among others, beginning February 19, 1968, pursuant to notice thereof which was issued February 6, 1968 (33 F.R. 2785). At the reopened hearing, issues (3), (4), and (7) were considered with respect to the disposition of filled milk products in the marketing area.

This decision sets forth in detail the findings and conclusions and proposed order findings and conclusions on issues (3), (4) and pertinent parts of (7). It also incorporates herein all the findings and conclusions and proposed order provisions relating to issues (1), (2), (5), (6), and that part of (7) which relates to the obligation of a partially regulated distributing plant disposing of fluid milk in the marketing area, as set forth in the prior decision.

Interested parties may submit exceptions on all the issues of this proceeding which were considered at the hearing and the reopened hearing.

FINDINGS AND CONCLUSIONS

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Marketing area extension.* The proposals to include the southern part of Mohave County and the northern part of Yuma County in the marketing area are denied.

The cooperative association serving the market proposed that the marketing area be extended to include the southern part of Mohave County (south of the Colorado River) and the northern part of Yuma County. The southern part of Yuma County is now included in the marketing area.

At the present time there is no distribution in the northern part of Yuma County by handlers regulated under the order. All of the milk sold there is distributed by two unregulated handlers. The milk moves into the area from Blythe, Calif. In Mohave County, regulated handlers dispose of approximately 70 percent of the Class I sales. This is approximately 1.5 percent of the total Class I sales of regulated handlers. The remainder of the Class I sales in Mohave County south of the Colorado River are made by a distributor located in Needles, Calif.

The northern part of Yuma County is separated from the marketing area by desert. There is only one north-south highway across the county and it is in the extreme western part of the county close to the California border. At the time of the hearing, there were no highways or bridges across the Bill Williams River which forms the boundary between Yuma and Mohave Counties.

Proponent stated that a new highway-bridge complex across the Bill Williams River was under construction and that upon its completion it would be practicable for regulated handlers to dispose of milk in northern Yuma County. If this area were added to the marketing area and a compensatory payment were assessed on the California milk, regulated handlers might expect to expand their sales very substantially in the two-county area.

Proponents contended that California handlers had a decided buying advantage over regulated handlers in that the California Milk Stabilization Regulation did not apply to milk sold outside the State of California. They alleged that such milk was purchased at the Class III price and that this lower cost of acquiring milk was a cause of market instability.

The record clearly established that California regulations do not apply to sales to military installations regardless of their location. There are apparently no military installations in the areas under consideration. Hence competition for sales to military bases is not involved here.

With respect to sales to other than military installations, however, the evidence does not bear out the contention of proponents. The figures presented by proponents on prices received by California producers do not establish that milk is being purchased by California handlers for sale in Arizona at the Class III price.

On the other hand witnesses for handlers who operate plants in California testified that the State of California does in fact establish the prices which handlers must pay for such milk. They referred specifically to section 4283 of the Agricultural Code of California and to the provisions of the Stabilization and Marketing Plan for the Southern Metropolitan Area (Los Angeles, Orange, San Bernardino, and Riverside Counties), issued under the authority of the above code. Blythe is located in Riverside County and Needles is in San Bernardino County.

The record does not establish that there is a significant difference in the cost to Arizona and California handlers of milk acquired for fluid disposition to nonmilitary outlets in Arizona. Hence, at this time the record evidence does not reveal disorderly marketing conditions which affect regulated handlers in the proposed area.

It is concluded, therefore, that the northern part of Yuma County and Mohave County should not be added to the marketing area. In Yuma County regulated handlers sell no milk and the proposal for regulation is based on handlers expectations of acquiring some business there after the completion of a new bridge over the Bill Williams River. In the case of Mohave County where regulated handlers do sell some milk, the county, in view of the decision to omit Yuma County, would not be contiguous to the remainder of the marketing area. Moreover, the volume of milk distributed there by Central Arizona handlers is a very small percentage of the total Class I sales of regulated handlers.

A handler proposed that a lower Class I price apply in Yuma and Mohave Counties if the marketing area were not extended. The appropriate level of Class I milk price for a marketing area is influenced by the Class I sales which regulated handlers make outside the marketing area. These sales affect the volume of milk covered by an order.

If the Class I price were higher for milk sold inside than outside the marketing area, returns for Class I disposition inside the area would bear the greater burden of providing the incentive for milk production for both. To the extent that a higher Class I price inside the marketing area is reflected in higher prices to consumers inside the area said consumers would be subsidizing consumers outside the marketing area where lower prices prevailed.

There is no basis when establishing the appropriate Class I milk price for a market to distinguish between milk sold inside and milk sold outside the marketing area. The milk sold outside the area by regulated handlers is produced under the same conditions as milk sold in the marketing area and is processed in the same plants. Thus, the milk moving through the regulated handlers' plants, whether it is sold inside or outside the marketing area is part of the same supply and demand considerations upon which the determination concerning the appropriate Class I price level must be made.

Neither is it intended that Federal milk regulation be susceptible of manipulation to permit the use of adjacent outside markets as a dumping ground for milk in excess of a market's needs. A lower Class I price for milk sold in the other area could have a lowering effect on the price paid farmers by unregulated distributors in that area, and would tend to lower returns to dairy farmers supplying the unregulated handlers. For the above reasons, it is concluded that an out-of-area Class I price should not be adopted, and the proposal, therefore, is denied.

2. *Producer definition.* The order should provide for the recipt of milk at a pool plant by diversion from an other order plant without designating the dairy farmers who shipped it as producers under the Central Arizona order.

The cooperative association supplying milk to Central Arizona regulated handlers also supplies milk to two handlers regulated by the Rio Grande Valley order on a 5-day-week basis. During the remainder of the week, some of this milk is manufactured at the association's plant which is regulated by the Central Arizona order.

The milk supplied to the Rio Grande Valley handlers was developed for and is, in large part, committed to the Rio Grande Valley area. Under present order provisions, however, when the milk is diverted from the Rio Grande Valley pool plants and received at a pool plant under the Central Arizona order, the dairy farmers involved are designated as producers under the Central Arizona order, and the milk is accounted for as producer milk. Since the milk is not needed for fluid use in the Central Arizona area, it is converted into manufactured dairy products. This tends to lower the uniform price to producers regularly supplying the Central Arizona market.

In other instances, milk regularly marketed by the cooperative association in the Rio Grande Valley area is transferred to a manufacturing plant about 700 miles from El Paso, Tex., when not needed for Class I use under that order. Under the proposed order change, such milk could be diverted about 400 miles for manufacture at a pool plant regulated by the Central Arizona order without lowering the uniform prices of the producers regularly supplying the market. This would also result in a considerable saving in transportation costs to the association in supplying the Rio Grande Valley market.

The proposal will encourage greater marketing efficiencies and can be implemented by providing in the "producer" definition that the term shall not include a person with respect to milk diverted to a pool plant from an other order plant if such person retains producer status under the other order and if the operators of both the diverting plant and the plant to which the milk is diverted have requested Class III classification in their reports of receipts and utilization filed with the market administrators of the respective orders.

3. *Producer-handler definition.* Producer-handlers should continue to be exempt from the pooling and pricing provisions of the order. However, the producer-handler definition should be amended to prohibit the reconstitution or recombining of fluid milk products and filled milk from concentrated nonfat milk solids such as nonfat dry milk. Also, provision should be made to add to the definition a further limitation on the quantity of fluid milk products (including filled milk) that a producer-handler may receive from pool plants if he is to retain exemption from pricing and pooling milk of his own production under the order.

A hearing on amendments to the Central Arizona order considered, among other issues, the distribution of filled milk by producer-handlers. It was held at Phoenix, Ariz., during the period February 7–10, 1967, and a recommended decision was issued by the Acting Deputy Administrator, Regulatory Programs, on October 9, 1967 (32 F.R. 14232). Exceptions to the recommended decision were filed by interested parties.

A general hearing at Memphis, Tenn., which began on February 19, 1968, also considered this issue, and for the Central Arizona market, represented a reopening of the February 1967 hearing. The evidence submitted at the Memphis hearing, together with the exceptions to the 1967 recommended decision are considered in this decision.

The order now provides essentially that a person who is a dairy farmer and who processes in his own plant and distributes in the marketing area milk of his own production may be defined as a producer-handler. As such, he is accorded exemption from all payment obligations normally applicable to handlers fully regulated under the order. Recognizing that circumstances might arise where a producer-handler's production might temporarily fall below his sales requirement, the order provides that such a person may buy supplemental milk from pool plants in an amount representing not more than 5 percent of his Class I utilization for the month without losing his producer-handler status. No limit was placed on the volume of nonfluid other source products which a producer-handler could purchase. However, it was not contemplated that the producer-handler, typically a family type farm operation, would recombine or reconstitute nonfat dry milk solids into substantial quantities of fluid products.

Under the present provisions of the order, producer-handlers can buy nonfluid, other source milk from any source and reconstitute it into a full range of fluid milk products such as buttermilk and milk drinks. More specifically, some producer-handlers have reconstituted nonfat dry milk and have made filled milk by recombining the fluid skim-milk with added ingredients such as vegetable fat, and vitamins. When they do this they obtain an undue pricing advantage compared to regulated handlers. Other handlers incur financial obligations to the pool on unregulated milk used in identical or similar fluid milk products, but producer-handlers are exempt from pooling and incur no obligation to the pool. This financial advantage accruing to producer-handlers under the present terms of the order was not contemplated when the producer-handler exemption was provided. A person who reconstitutes substantial quantities of fluid milk products including filled milk cannot be considered to be disposing of milk of his own farm production and hence should not enjoy the exempt status afforded a farmer who bottles and distributes essentially only milk of his own production.

At the Phoenix hearing, a witness for a producer-handler proposed that a tolerance factor of 25 percent is needed to cover emergencies and the seasonality of production and Class I sales. In this connection, a 1962 decision (27 F.R. 3923), official notice of which is hereby taken, stated that producer handlers must provide for their own seasonal reserves. The 5-percent tolerance now provided is for emergency situations. Moreover, the evidence in this proceeding is that the 5-percent tolerance now provided has been fully adequate.

Accommodating the purchase of milk and milk products (including nonfat dry milk) from pool plants, as proposed by the witness, would not further marketing stability, because it would shift a further burden of surplus to other producers supplying the market to the extent of the reserves otherwise needed by producer handlers. The proposal, therefore, is denied.

The 5-percent tolerance factor now provided under the order applies only to purchases of supplemental bulk milk by producer-handlers from pool plants. It should also include packaged milk products which producer-handlers acquire from pool plant or other order plants for resale as Class I either with or without further processing. Such products would include items such as flavored milk and buttermilk. The 5-percent tolerance factor should also include filled milk, whether made from

fluid skim or from reconstituted nonfat dry milk. To implement this, the order should specify that the 5-percent tolerance applies to fluid milk products purchased from pool or other order plants. Filled milk is included in the fluid milk products definition contained herein.

As under the present order, a producer-handler should not be precluded from buying from any source manufactured dairy products such as butter and cheese, which are in a form such that they cannot be reconstituted into fluid milk products. Likewise, the order should continue to provide that such person may not purchase fluid milk products from other dairy farmers or from a nonpool plant without losing his exemption under the order. This may be accomplished by providing that fluid milk products received at the plant of a producer-handler or acquired for route disposition may be derived only from own farm production and fluid milk products transferred from pool plants or other order plants subject to the aforesaid limitations. Also, producer-handlers may not reprocess or convert nonfluid milk products into a fluid milk product except to increase the nonfat milk solids content above that of the fluid milk products so received.

A witness for some of the producer-handlers operating in the Central Arizona area testified that the 5,000-pound limit on supplemental milk purchases, as proposed by the cooperative association, would effectively eliminate from exemption at least two producer-handlers. This would result because their supplemental purchases of nonfat dry milk which is reconstituted and combined with vegetable fat and other ingredients greatly exceed that amount. He argued that Federal milk orders generally allow "adequate" purchases of supplemental milk from pool plants. Actually, there is no significant difference between the Central Arizona order and other orders in this regard, including the proposed volume limit of 5,000 pounds.

In exceptions, some of the producer-handlers objected strenously to the limitations proposed by the cooperative association and recommended by the Department. Specifically, they objected to the 5,000-pound limit proposed for receipts from pool plants, reiterating that the provision would eliminate their exemption as producer-handlers.

Nevertheless, it is appropriate that a limit be placed on the amount of milk that a producer-handler may receive from pool plants if he is to retain exemption from pricing and pooling of his own production. If producer-handlers could rely on substantial pool supplies to supplement their own production, they would be able to keep all of their own production for Class I use without assuming the burden of their own surplus. The producer-handler maintains control of his milk from its source at the farm until its ultimate disposition. He is, therefore, in position to keep his farm production closely in line with the needs of his fluid milk business. He should assume the burden of maintaining whatever reserve supply of milk is necessary for his fluid operations.

There was no significant controversy over the present provision that a producer-handler's receipts from pool plants be limited to 5 percent of his fluid milk product disposition. There was, however, substantial protest with respect to the provision that such receipts not exceed 5,000 pounds monthly. The exceptors are producer-handlers of relatively large production. They should be expected to rely on their own production for reserve supplies. However, an occasional purchase of a small quantity from pool plants should be permitted to cover possible emergencies.

Producer-handlers are purchasing supplemental milk from pool plants within the limits now prescribed by the order. In fact, a witness for two producer-handlers with the largest volumes testified that they contemplate no need to increase supplemental purchases of bulk milk from pool plants. The additional provision that such purchases shall not exceed 5,000 pounds per month is necessary to insure that producer-handlers do not obtain an undue price advantage compared to regulated handlers in the use of nonfat dry milk reconstituted into fluid milk products.

It is concluded that a volume limitation of 5,000 pounds should apply whenever 5 percent of a producer-handler's fluid milk product disposition exceeds that figure. Accordingly, under the producer-handler definition provided herein, a producer-handler's total disposition of fluid milk products may not exceed his own farm production, plus fluid milk products obtained by transfer from pool plants or other order plants in an amount not to exceed 5 percent of his total fluid milk product disposition for the month or 5,000 pounds, whichever is less; plus the skim milk equivalent of nonfat milk solids used to increase the total solids content of fluid milk products.

4. *Classification provisions.* The findings and conclusions pertaining to the classification and pricing of filled milk, which resulted from evidence introduced at the Memphis hearing, are hereby adopted as the findings and conclusions of this decision.

At the Phoenix hearing, the cooperative assoication, which represents a majority of the producers on the market, proposed that the order be amended to provide that any milk product not specifically designated as Class II milk or as Class III milk be automatically classified as Class I milk. The main purpose of this proposal was to make certain that fluid milk products made from skim milk or from reconstituted nonfat milk solids and in which nonmilk fat has been substituted for the butterfat, are classified as Class I milk.

In this connection, it is noted that the Memphis decision recommends that filled milk products be defined separately from the fluid milk product definition, and that the product "filled milk" be included in the fluid milk product definition. Accordingly, the fluid milk product definition of Order 131 is amended to adopt this recommendation.

Another proposal by the proponent was that the provision that excludes from Class I classification, sterilized products in hermetically sealed containers be clarified. The purpose of such clarification would be to indicate specifically the type of containers that would be covered by the exclusion. It would distinguish, for example, between the use of skim milk and butterfat in evaporated milk packaged in metal cans and fluid products which have the characteristics of fresh products and are packaged in paper containers.

Substantial changes in marketing practices concerning the distribution of sterilized products have occurred within the dairy industry since the 1967 hearing at Phoenix. The testimony concerning this proposal was limited to glass and metal containers and thus may not reflect current marketing conditions. Accordingly, the proposal is denied.

Proponent also proposed that yogurt be classified as Class I milk because: (1) It is similar in form and use to sour cream and buttermilk, (2) it is required to be labeled "Grade A", (3) handlers depend on the availability of locally inspected milk for its manufacture, and (4) all yogurt sold in the market is manufactured in the same plants that process and package fluid milk products.

Yogurt has been classified in the lowest price class since the inception of the order in 1955. The principal reason advanced by proponent for now classifying yogurt as Class I milk is that it is required to be labeled as Grade A milk by the local health authorities.

The decision in which yogurt was included in the lowest price class (20 F.R. 6344, official notice of which is hereby taken) indicated that the applicable health ordinances for the marketing area did not require yogurt to be made exclusively from milk approved by local health authorities.

The record fails to establish that marketing conditions indicated in 20 F.R. 6344 with respect to yogurt have changed since the matter was last reviewed. Hence, it is concluded that the classification of yogurt should not be changed at this time.

5. *Transfer provisions.* The provision requiring a "Grade C" label for cream transferred outside the market for manufacturing should be revised.

A witness for the cooperative association in the market testified that the present provision impedes the sale of cream from the pool plant operated by the association to ice cream manufacturers some distance from the market.

The quality implication of the present "Grade C" labeling provision is apparent, and should be changed. Yet, some provision is needed to prevent such cream from being used in fluid milk products. In this connection, it should be sufficient to provide that cream so transferred with certification designating "manufacturing use only" may be classified as Class III milk.

6. *Location differentials at Tucson.* The zone location differential at Tucson,

Ariz., should be lowered to 12 cents per hundredweight to reflect procurement changes in the area. The zone location differential of plus 30 cents per hundredweight now applicable at Tucson has not been changed since the order was promulgated in 1955.

Under the order, the Class I and uniform prices are increased 30 cents per hundredweight over the f.o.b. market price for milk received from producers at pool plants located at Tucson. Four pool plants are located at Tucson, and two of them purchase milk from producers. The purpose of the zone location differential is to encourage the movement of milk to the Tucson segment of the market from the major milk producing segment of the milkshed (Maricopa County). The changes herein provided are the same as those proposed by producers.

One of the handlers opposed the proposal to amend the provision. He criticized proponent's proposal because it did not give sufficient weight to production costs in the Tucson area. He contended that production costs are relatively high in the area and that this justifies a continuation of the plus 30-cent zone differential now provided.

In this connection, when the order was promulgated in 1955 the 30-cent higher price at Tucson was based primarily on the actual cost of hauling milk from the main segment of the Central Arizona milkshed. Official notice is hereby taken of the decision containing the applicable findings (20 F.R. 7695).

Since the promulgation of the order and the establishment of the 30-cent differential between Phoenix and Tucson, a marked change has occurred in the pattern of the milk supply for the market.

Average daily production per farm has increased from 1,807 pounds per day in 1956 to 6,652 pounds per day in 1966. Thus, increased production per farm and resultant fewer stops per truckload together with a vastly improved highway system have resulted in a lower per hundredweight cost for transporting milk.

The major consideration in reviewing the differential between Tucson and Phoenix is the substantial increase that has taken place in the production of milk in the area lying between Phoenix and Tucson. This is particularly true in the area of Casa Grande in the northern part of Pinal County. The increase in production in this locality is, of course, in part attributable to the very substantial increase in production per farm which has occurred throughout the whole milkshed. The major factor, however, has been the relocation of farms which has occurred. Some producers formerly located in the vicinity of Phoenix have moved their herds to new locations between the two cities as the expanding metropolitan area of Phoenix has encroached upon the farms formerly surrounding that city.

A substantial proportion of the milk of its member producers is hauled by the cooperative association in its own trucks. From the production area about Casa Grande, the hauling rate from the farm to plants in Tucson is 30 cents per hundredweight. From the farm to Phoenix the hauling rate 18 cents per hundredweight. Thus, a producer whose milk is delivered to Tucson has a net return at the farm 18 cents higher than his neighbor whose milk is delivered to a Phoenix plant.

Under today's conditions, the 30 cent higher price at Tucson, instead of equalizing prices between Phoenix and Tucson producers, creates a serious disparity in net farm prices in the production area developing between the two cities. As production shifts to this location a continuation of the present differential could result in a dislocation of supplies between the two major segments of the market.

It is concluded that the present zone location differential of plus 30 cents which is applicable at Tucson no longer reflects current marketing conditions for the area. A substantial proportion of the milk supply for the Tucson area is no longer identified with the main segment of the milkshed as previously. A differential which more reasonably reflects the prevailing cost of moving milk to Tucson should be provided. This can be done by providing a zone location differential of plus 12 cents over the f.o.b. Class I and uniform prices for producer milk delivered to a pool plant at Tucson.

As a corollary change, the Class I differential should be increased 2 cents. This will maintain in the pool approximately the same amount of money represented in lowering the zone location differential as proposed, and will help to assure the market of an adequate supply of milk for fluid use.

7. *Obligations of a handler operating a partially regulated distributing plant.* The findings and conclusions of the Memphis decision concerning the obligation of a partially regulated distributing plant that distributes filled milk in the marketing area are hereby adopted. If the filled milk is made from reconstituted nonfat dry milk, the obligation is at the rate of the difference between the Class I and Class III prices. If the filled milk is made from fresh skim milk, the handler has the option of making a payment into the producer-settlement fund on the quantity of such milk disposed of in the marketing area at a rate equal to the difference between the Class I and the uniform prices.

At the Phoenix hearing, the principal cooperative serving the market proposed that the rate charged a partially regulated distributing plant on sales of fluid milk products in the marketing area be changed from the difference between the Class I and uniform prices to the difference between the Class I and Class III prices.

The order now provides that an unregulated distributor who disposes of some fluid milk products on routes in the regulated marketing area shall be accorded four options as a means of integrating his plant operations into the market's regulatory scheme.

(a) He may show that payment for his total dairy farm supply has been at least as much as if his plant were fully regulated;

(b) He may show that he has purchased Class I milk priced under some Federal order in an amount at least equivalent to his total Class I sales within the regulated area;

(c) He may make a payment into the producer-settlement fund on the quantity of Class I sales made in the regulated market at a rate equal to the difference between the Class I price and the blend price for the regulated market; or

(d) Any combination of (b) and (c).

Proponent contends that the amendment is needed because substantially lower-priced milk from California is displacing fluid milk sales to military bases by Central Arizona handlers.

The marketing conditions involved in this issue are comparable to those described in the decision issued by the Department following the Lehigh Valley case. Consequently, official notice of that decision is hereby taken (29 F.R. 9218). The decision indicated that a rate of payment representing the difference between the Class I price and the surplus price might be justified if it were found that the unregulated milk sold in a Federal order marketing area carries only a surplus value.

We may not conclude from the record that such is the case in the proceeding. An exhibit was introduced by proponent indicating that the prices paid by one Los Angeles, Calif., handler for milk sold to military bases averaged $4.22 per hundredweight in 1966 for milk testing 3.5 percent butterfat content. This was 56 cents per hundredweight higher than the Central Arizona Class III price which averaged $3.66 for 1966. The prices paid by another Los Angeles handler for "military milk" averaged 69 cents per hundredweight higher than Central Arizona Class III prices, while those paid by a third Los Angeles handler averaged 72 cents higher.

However, none of these prices was said by proponent to represent prices paid by Los Angeles handlers for milk sold to military bases in Arizona. There is no indication where the milk was actually sold.

Another exhibit indicated the Central Arizona Class III and blend prices and similar prices paid to 40 producers shipping milk to the Los Angeles market. However, the "blend" price for the Los Angeles market represents a blend price of the handler receiving the milk and does not represent a "blend" price for the market.

For 1965, the Class III prices paid for milk delivered by the 40 Los Angeles producers averaged 59 cents per hundredweight higher than the average of the Central Arizona Class III prices for the same year (both for milk testing 3.5 percent butterfat). For 1966, the Class III prices for the Los Angeles area averaged 22 cents per hundredweight higher than the Central Arizona Class III price.

For 1965 and 1966 the blend prices of the Los Angeles producers averaged 3 cents and 26 cents per hundredweight

lower, respectively, than the Central Arizona blend prices for the corresponding years.

These were the only California price data entered in evidence, and they cannot be specifically identified with milk sold in Arizona. Moreover, California milk that is sold to military bases in the Central Arizona marketing area (principally at Yuma) comes from the San Diego market and no price data were introduced concerning that area.

The price differences between Central Arizona regulated handlers and California unregulated handlers, which is the basis of this issue is not centered, as proponent contends, on the removal of California milk price regulation from sales to military bases. As indicated, proponent's price data were for the Los Angeles market whereas the milk for the military base at issue (near Yuma) comes from San Diego. The prices quoted for military milk are substantially above the Class III prices established by the California regulation, and the California Class III prices are substantially higher than Central Arizona Class III prices.

There is a substantial difference developing between the Central Arizona Class I prices and the Class I prices established by the California Milk Stabilization Regulation for the Los Angeles market. For 1965, Central Arizona Class I prices averaged 27 cents per hundredweight higher than Los Angeles Class I prices. For 1966, Central Arizona Class I prices averaged 78 cents higher than the Class I prices for the Los Angeles market. Thus, Central Arizona handlers might expect to meet increased competition from partially regulated handlers on packaged milk from Los Angeles for outlets, not military in the marketing area.

It is concluded that milk for Class I use in the Central Arizona marketing area is not being purchased, as proponent contends, by unregulated California handlers for prices equal to or lower than Central Arizona Class III prices. The proposal, therefore, is denied.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

RECOMMENDED MARKETING AGREEMENT AND ORDER AMENDING THE ORDER

The following order amending the order as amended regulating the handling of milk in the Central Arizona marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be the same as those contained in the order, as hereby proposed to be amended:

1. In § 1131.7, the introductory text immediately preceding paragraph (a) is revised as follows:

§ 1131.7 Producer.

"Producer" means any person, other than a producer-handler as defined in any order (including this part) issued pursuant to the Act, who produces milk pursuant to the requirements specified in paragraph (a) or (b) of this section, and whose milk is received directly from the farm at a pool plant, or is diverted as producer milk pursuant to § 1131.13. The term "producer" shall not include a person with respect to milk diverted to a pool plant from an other order plant if such person retained producer status under the other order and if the operators of both the diverting plant and the plant to which diverted have requested Class III classification in their reports of receipts and utilization filed with the market administrators of the respective orders.

* * * * *

2. In § 1131.8, pargarphs (a) and (b) are revised to read as follows:

§ 1131.8 Pool plant.

"Pool plant" means any milk plant, except the plant of a producer-handler or a plant exempt pursuant to § 1131.61:

(a) Approved by a duly constituted state or municipal health authority for the receipt or processing of Grade A milk or which supplies processed milk to an agency of the United States Government located within the marketing area, from which during the month:

(1) There are disposed of on routes fluid milk products, except filled milk, equal to at least 50 percent of the total receipts at the plant (i) of milk qualified by inspection to become producer milk pursuant to § 1131.13(a), and (ii) from other milk plants and a cooperative association acting in the capacity of a handler pursuant to § 1131.10(c) in the form of fluid milk products, except filled milk, qualified for fluid consumption; and

(2) There are disposed of on routes in the marketing area fluid milk products, except filled milk, in a volume not less than 25 percent of such receipts and also greater than an average of 600 pounds per day.

(b) Any plant which ships fluid milk products, except filled milk, approved by any health authority having jurisdiction in the marketing areas as eligible for distribution under a Grade A label in a volume not less than 50 percent of its receipts of milk (from dairy farmers who would be producers if this plant qualifies as a pool plant) in the current month during the period of July through October or 20 percent in the current month during the period of November through June to a plant specified in paragraph (a) of this section: *Provided,* That if a plant qualifies in each of the months of July through October in the manner prescribed in this section such plant shall upon written application to the market administrator on or before October 31 following such compliance be designated as a pool plant until the end of the following June.

* * * * *

3. In § 1131.9, the introductory text preceding paragraph (a), and paragraph (d) are revised to read as follows:

§ 1131.9 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

* * * * *

(d) "Unregulated supply plant" means a nonpool plant from which fluid milk products are moved during the month to a pool plant and which is not an other order plant nor a producer-handler plant.

4. Section 1131.11 is revised to read as follows:

§ 1131.11 Producer-handler.

"Producer-handler" means:

(a) Any person who is both a dairy farmer and the operator of a plant from which fluid milk products are disposed of in the marketing area on routes and who:

(1) Receives at his plant, or acquires for disposition on routes, fluid milk products only from:

(i) His own farm production, and

(ii) Fluid milk products obtained by transfer from pool plants or other order plants in an amount not to exceed 5 percent of his total fluid milk product disposition for the month or 5,000 pounds, whichever is less;

(2) Does not reprocess or convert nonfluid milk products into a fluid milk product except to increase the nonfat milk solids content above that of the fluid milk product received;

(3) Furnishes proof satisfactory to the market administrator that:

(i) The maintenance, care, and management of all the dairy animals and other resources necessary to produce the entire amount of milk handled (other than that received from regulated plants) is the personal enterprise of and at the personal risk of such person in his capacity as a producer, and

(ii) The operation of such plant is the personal enterprise of and at the personal risk of such person in his capacity as a handler.

(b) A governmental agency that operates a milk plant, except that a plant operated by such agency shall be a pool plant if bulk milk is delivered during the month by such governmental agency to another plant that is a pool plant and a written request is filed by the agency with the market administrator asking that its plant be considered a pool plant. If such a plant is made a pool plant at the request of the governmental agency for 1 month and thereafter resumes the status of a nonpool plant, it shall not be eligible for pool plant status again until it has been a nonpool plant for 12 consecutive months.

5. Section 1131.15 is revised to read as follows:

§ 1131.15 Fluid milk product.

"Fluid milk product" means milk (including frozen or concentrated milk), cream (sweet or sour), skim milk, buttermilk, flavored milk, flavored milk drinks, filled milk, or any mixture in fluid form of milk, skim milk or cream (including such products made by reconstituting or recombining concentrated or dehydrated milk constituents with water), with or without other ingredients. This definition shall not include sterilized products packaged in hermetically sealed containers, a product which contains 6 percent or more nonmilk fat (or oil), eggnog, yogurt, ice cream mix or aerated plastic or frozen cream.

6. Section 1131.16 is revised to read as follows:

§ 1131.16 Route.

"Route" means any delivery to retail or wholesale outlets (including delivery by a vendor or a sale from a plant or a plant store) of a fluid milk product classified as Class I milk pursuant to § 1131.41(a), other than a delivery to a plant described in § 1131.8(a).

7. A new § 1131.18 is added to read as follows:

§ 1131.18 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

8. In § 1131.22, paragraph (i) is revised to read as follows:

§ 1131.22 Duties.

* * * * *

(i) Verify all reports and payments of each handler by audit, as necessary, of such handler's records and the records of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends; and by such other means as are necessary;

* * * * *

9. In § 1131.30, paragraphs (b) and (c) are revised to read as follows:

§ 1131.30 Reports of receipts and utilization.

* * * * *

(b) The utilization of all skim milk and butterfat required to be reported pursuant to paragraph (a) of this section, including a separate statement of the route disposition of Class I milk outside the marketing area, and a statement showing separately in-area and outside area route disposition of filled milk.

(c) Each handler specified in § 1131.10 (d) who operates a partially regulated distributing plant shall report as required in this section, except that receipts of Grade A milk from dairy farmers shall be reported in lieu of producer milk; such report shall include a separate statement as to the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area.

10. In § 1131.44, paragraph (d), and subparagraph (5) of paragraph (g) are revised to read as follows:

§ 1131.44 Transfers.

* * * * *

(d) As Class I milk, if transferred or diverted to a nonpool plant that is neither an other order plant nor a producer-handler plant, located outside the marketing area and outside Imperial County, Calif., except that cream may be classified as Class III if prior notice is given to the market administrator, each container is labeled by the transferor as "cream for manufacturing use only" and such shipment is so invoiced.

* * * * *

(g) * * *

(5) For purposes of this paragraph, if the transferee order provides for only two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to another class shall be classified as Class III; and

* * * * *

11. In § 1131.46, subparagraphs (2), (3), (4), (7), and (8) of paragraph (a) are revised to read as follows:

§ 1131.46 Allocation of skim milk and butterfat classified.

After making the computations pursuant to § 1131.45, the market administrator shall determine the classification of producer milk for each handler as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk classified as Class III pursuant to § 1131.41(c)(5);

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class III milk, the lesser of the pounds remaining or two percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling, to the extent that reconstituted skim is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, in sequence beginning with Class III from the pounds of skim milk remaining in Class II and III but not in excess of such quantity:

(i) Receipts of fluid milk products from an unregulated supply plant, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph:

(*a*) For which the handler requests Class III utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from other pool plants, from cooperative handlers pursuant to § 1131.10(c), and receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph;

(ii) Receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in

excess of similar transfers to such plant, if Class III utilization is requested by the handler and the operator of the transferor plant requests the lowest class utilization under the other order;

(5) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in inventory of fluid milk products on hand at the beginning of the month;

(6) Add to the remaining pounds of skim milk in Class III milk the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraph (3)(iv) or (4)(i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (3)(v) or (4)(ii) of this paragraph:

(i) In series beginning with Class III, the pounds determined by multiplying the pounds of such receipts by the larger of the percentage of estimated Class II and Class III utilization of skim milk announced for the month by the market administrator pursuant to § 1131.22(1) or the percentage that Class II and Class III utilization remaining is of the total remaining utilization of skim milk of the handler; and

(ii) From Class I, the remaining pounds of such receipts;

* * * * *

§ 1131.51 [Amended].

12. In § 1131.51(a), the figure "$2.30" is revised to "$2.32".

13. In § 1131.53, paragraph (c) is revised to read as follows:

§ 1131.53 Location adjustments to handlers.

* * * * *

(c) For other source milk to which a location adjustment is applicable and for milk received from producers at a plant located in Pima County, Ariz., and which is classified as Class I milk, the price computed under § 1131.51(a) shall be increased 12 cents.

14. Section 1131.61 is revised to read as follows:

§ 1131.61 Plants subject to other Federal orders.

A plant specified in paragraph (a) or (b) of this section shall be exempted from all the provisions of this part, except as specified in paragraphs (c) and (d):

(a) Any plant qualified pursuant to § 1131.8(a) which disposes of a lesser volume of Class I milk, except filled milk, in the Central Arizona marketing area than in a marketing area where the handling of milk is regulated pursuant to another order issued pursuant to the Act, and which is subject to the classification and pricing provisions of such other order is exempted;

(b) Any plant qualified pursuant to § 1131.8(b) for any portion of the period November through June, inclusive, that the milk of producers at such plant is subject to the classification and pricing provisions of another order issued pursuant to the Act and the Secretary determines that such plant should be exempted from this part.

(c) Each handler operating a plant described in paragraph (a) or (b) shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such manner as the market administrator may require (in lieu of reports pursuant to §§ 1131.30 and 1131.31) and allow verification of such reports by the market administrator; and

(d) Each handler operating a plant specified in paragraph (a), if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area.

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph, to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class III price.

15: Section 1131.62 is revised to read as follows:

§ 1131.62 Obligations of handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant except one from which less than an average of 600 pounds per day of Class I milk is disposed of on a route(s) in the marketing area shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month either of the amounts (at the handler's election) calculated pursuant to paragraph (a) or (b) of this section. If the handler fails to report pursuant to §§ 1131.30(c) and 1131.31(c) the information necessary to compute the amount specified in paragraph (a) of this section, he shall pay the amount computed pursuant to paragraph (b) of this section:

(a) An amount computed as follows:

(1)(i) The obligation that would have been computed pursuant to § 1131.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class III (or Class II) milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class III price. There shall be included in the obligation so computed a charge in the amount specified in § 1131.70(f) and a credit in the amount specified in § 1131.82(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class III price, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes (other than to pool plants) in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location (not to be less than the Class III price), and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph a value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class III price.

16. Section 1131.81 is revised to read as follows:

§ 1131.81 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1131.82, 1131.61, and 1131.62 and out of which he shall make all payments pursuant to § 1131.83: *Provided,* That any payments due to any handler shall be offset by any payments due from such handler.

17. In § 1131.87, paragraphs (a) and (d) are revised to read as follows:

§ 1131.87 Termination of obligations.

The provisions of this section shall apply to any obligations under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the month during which the market administrator receives the handler's utilization report on the skim milk and butterfat, involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation,

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this order shall terminate 2 years after the end of the month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler, if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the act, a petition claiming such money.

Signed at Washington, D.C., on June 17, 1969.

JOHN C. BLUM,
Deputy Administrator
Regulatory Programs.

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision with respect to proposed amendments to the tentative marketing agreements and orders regulating the handling of milk in each of the marketing areas heretofore specified.

Interested parties may file written exceptions to this decision with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, by the 20th day after publication of this decision in the FEDERAL REGISTER. The exceptions should be filed in quadruplicate. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

PRELIMINARY STATEMENT

The hearing on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreements and to the orders, as amended, were formulated, was conducted at Memphis, Tenn., on February 19–22, April 23–24, and May 21–24, 1968, pursuant to notice thereof which was issued February 6, 1968 (33 F.R. 2785).

Seventy-six milk orders were listed in the notice of hearing. Eleven of these orders have since been merged with another order(s). Greater Wheeling (Part 1008), Clarksburg (Part 1009) and Youngstown-Warren (Part 1048) were merged into the Eastern Ohio-Western Pennsylvania order. Northwestern Indiana (Part 1031), Rock River Valley (Part 1038), Milwaukee (Part 1039), Northeastern Wisconsin (Part 1045), and Madison (Part 1051) were merged into the Chicago Regional order. Fort Wayne (Part 1047) was merged into the Indiana order (formerly Indianapolis, Indiana). Sioux City (Part 1066) was merged into the Nebraska-Western Iowa order. Ozarks (Part 1067) was merged into the St. Louis-Ozarks order (formerly St. Louis).

As a result, the proposed amendments relate only to the existing 65 orders as merged. Such mergers have had no effect on the basic issue involved in this proceeding. This is because the decision herein deals with the matter of how filled milk should be classified and priced under Federal milk orders. The treatment would have been appropriate under each of the orders prior to merger and it is equally appropriate under the orders as merged. Therefore, the findings and conclusions of this decision are equally applicable to the orders as merged.

Certain changes are being made in the Central Arizona order in its application to filled milk and producer-handlers. These matters were considered at a hearing held in Phoenix, Ariz., February 7–10, 1967, on proposals to amend the Central Arizona order pursuant to notice issued December 14, 1966 (31 F.R. 16277) and January 12, 1967 (32 F.R. 415). The record of that hearing was reopened in connection with the national hearing on which record this decision is based. Comparable changes in the Central Arizona provisions relating to filled milk and producer-handlers are contained in a separate revised decision on that order issued concurrently with this decision.

For the Chicago Regional, Southern Michigan, Eastern Ohio-Western Pennsylvania, St. Louis-Ozarks, Quad Cities-Dubuque, Nebraska-Western Iowa, Chattanooga, Puget Sound, North Texas, Central Arizona, Inland Empire, South Texas and Western Colorado markets the hearing constituted a reopening of prior hearings on matters relating to the particular markets, including issues other than the issues herein discussed.

Prior to scheduling the hearing, the Department had received numerous expressions of concern from producer and handler groups about the possible competitive impact of filled milk and imitation milk on the existing structures of markets under Federal order regulation. In view of the widespread concern, the Department invited industry representatives to a series of public meetings. This was done to achieve the widest possible understanding of the problems before going to a hearing.

The hearing notice opened for discussion all problems which the various parties had indicated in their proposals or in the public meetings to be related to filled or imitation milk under order regulation.

The material issues on the record of the hearing were:

1. Interstate commerce.
2. Classification of filled milk.
3. Treatment of reconstituted skim milk in filled milk disposed of by regulated handlers, partially regulated handlers or producer-handlers.
4. Definition of filled milk for order purposes.
5. Reclassification of fluid products of milk not now in Class I.
6. Conforming changes in order provisions.

FINDINGS AND CONCLUSIONS

The following findings and conclusions, on the material issues, are based on evidence presented at the hearing and the record thereof:

1. *Interstate commerce.* Filled milk disposed of in any of the marketing areas of these orders directly burdens, obstructs or affects interstate commerce in milk and milk products. It has been previously determined (at the time of promulgation of the particular order) that all milk marketed in each of these marketing areas is in the current of interstate commerce or directly burdens, obstructs or affects interstate commerce in milk and milk products. Filled milk disposed of in these markets is, in content, substantially a product of milk and competes for the same sales outlets as milk. It follows that the marketing of the milk ingredients contained in filled milk in a Federal order market burdens, obstructs or affects interstate commerce in milk and milk products. This conclusion applies whether the marketing of filled milk is by a regulated plant or by a plant not fully regulated under an order, since both compete for simliar outlets in the market.

Manufactured milk products may be used in the production of filled milk. Manufactured milk products move in interstate commerce and compete in the national market irrespective of where the milk is produced. Therefore, manufactured milk products when used in the production of filled milk for disposition in these markets likewise burden, obstruct or affect interstate commerce in milk and milk products.

The shipment of filled milk across State lines is prohibited by the Filled Milk Act. Nevertheless, intrastate commerce in filled milk burdens, obstructs, and affects interstate commerce in milk and milk products regulated under Federal milk orders. This decision relates to the appropriate classification and pricing of milk and milk products under the Agricultural Marketing Agreement Act of 1937, as amended, when such milk or milk products are used in filled milk.

2. *Classification of filled milk.* Skim milk disposed of for fluid consumption in "filled milk" should be Class I milk under each of the respective orders.

The product marketed as "filled milk" in Federal order markets is a combination of skim milk and vegetable fat or oil in about the same proportions as the skim milk and milkfat in whole milk. Accordingly, well over 90 percent of the product is skim milk. In most filled milk the skim milk portion is fresh fluid skim milk as separated from whole milk. Some filled milk contains reconstituted fluid skim milk prepared from a concentrated product such as nonfat dry milk. Whether made from vegetable fat and fresh or reconstituted skim milk, or any combination thereof, the resulting product resembles whole milk in appearance.

Filled milk is distributed in regulated markets by milk handlers in the course of their regular business through the same outlets and in the same types of containers as whole milk.

At the time of the hearing filled milk products simulating whole fluid milk were being marketed by handlers under 24 of the 76 Federal orders then in force. The combined volume of filled milk sales in these markets was about 4.6 million pounds in February 1968. For all Federal order markets this was about 0.15 percent of total Class I sales.

About half of the 4.6 million pounds of filled milk was sold in the Central Arizona market. There it represented about 6.8 percent of the Class I disposition of local handlers in February 1968. In February 1969, the sales of filled milk by Central Arizona handlers amounted to about 3.5 million pounds, or 10.3 percent of total Class I disposition of handlers. (Official notice is taken herein of the March 1969 issue of "Market Information Bulletin" prepared and distributed by the Central Arizona market administrator.)

In all but two markets where filled milk is sold, the milk product content therein has been subject to the same regulatory treatment as the general category of fluid milk products. That is, it is treated as a Class I disposition. Skim milk is the principal milk product involved in the classification since any residual butterfat would be minimal.

Even with Class I classification, regulated handlers disposing of filled milk make a savings in cost by substituting vegetable fat for butterfat. This then is the main incentive for the marketing of filled milk under the present application of the orders. Such cost difference of vegetable fat versus butterfat is not an issue in this hearing, however, and is relevant only to the extent that it explains a profit motivation for marketing the product under order regulation even though the skim milk content has been priced as Class I milk.

The net cost saving due to substitution of fat and allowing for the cost of added emulsifiers and stabilizers is about 2.9 cents per quart. This is based on costs of coconut oil, emulsifiers and stabilizers as shown in Exhibit No. 22, and on average Class I prices and butterfat differentials for February 1968.

The evidence in the hearing record supports the conclusion that classification of the skim milk and butterfat in filled milk as Class I disposition is appropriate. Filled milk marketed in simulation of milk is already, under most orders, properly treated as a Class I fluid milk product disposition.

The specific language of the Act with respect to classification is that each order shall contain terms "* * * classifying milk in accordance with the form in which or the purpose for which it is used * * *". In applying the language of the Act we here consider the form and purpose of use for both filled milk and the milk ingredient content of the filled milk.

The form of filled milk and the purpose for which it is used are the same as the form and purpose of use of whole milk. Filled milk, just as whole milk, is disposed of in fluid form. It is marketed by handlers in the same types of packages and in the same trade channels as the whole milk they market, and is mainly intended as a beverage substitute for milk.

Similarly, the fluid skim milk content of the filled milk is in the same form as skim milk in whole milk and serves the same purpose, providing in each case the main body of the product thereby making it a milk beverage. The addition of the nonmilk ingredients, principally vegetable fat or oil and stabilizers, does not alter the basis for Class I classification. The addition of nonmilk ingredients in fluid milk products is not a new development. The addition of vegetable fat does not involve an essentially different consideration from that for other

Class I fluid milk products to which a flavoring ingredient, such as chocolate (which also contains nonmilk fat) has been added.

For purpose of illustration, a product within the "fluid milk product" category containing a nonmilk additive is chocolate milk. The additive is not considered as changing the form of this product so that it is no longer a fluid milk product. For the purposes of classification, the flavoring material has never been regarded as significant in determining the form of the product or as a basis for altering its classification.

The same reasoning applies in the case of filled milk—that the additives do not change significantly the form or the purpose of use and therefore do not constitute a basis for classification other than in Class I.

The product "filled milk" therefore should be classified, for the purpose of pricing under the orders, in the same manner as whole milk. As in the case of other fluid milk products containing some nonmilk ingredients, the classification would apply only to the milk ingredients in the product.

Handlers generally opposed Class I classification although they acknowledged filled milk to be a substitute for fluid milk and intended for similar purposes. In view of the preceding findings and conclusions it is necessary to reject handlers' testimony that the skim milk portion of filled milk should be priced lower than Class I. Further, handlers' testimony on the possible competition of synthetic products has no particular application to filled milk. Such competition relates to the entire category of fluid milk products.

Since we are dealing with a product, filled milk, which is clearly marketed for the same use as whole milk, is composed principally of milk products, is made in the semblance of whole milk, and is, in fact, designed as a substitute for whole milk, returns to dairy farmers should be the same for the corresponding milk components of the two products. This recognizes that the appropriate Class I price level serves to assure an adequate but not excessive milk supply. Therefore, the skim milk (or butterfat) in both products, and in other fluid milk products, should make proportionate contributions to this objective. This is accomplished by the classification of all such products as Class I milk.

3. *Treatment of reconstituted skim milk in filled milk.* As previously stated, some of the filled milk sold in regulated markets is made by combining "reconstituted skim milk" with vegetable fat and other minor ingredients. "Reconstituted skim milk" commonly is made from nonfat dry milk to which water is added to return it essentially to a form and consistency similar to fresh skim milk.

Prior findings and conclusions (under issue No. 2) dealt with filled milk as a product made with fresh skim milk. But when filled milk is made with reconstituted skim milk a somewhat different regulatory problem is involved. Primarily the problem relates to the conversion by a handler of a product, such as nonfat dry milk, normally priced as a surplus use into another product for Class I use. In addition, the possible entrance into the market of reconstituted products from unregulated sources enlarges the problem.

The potential of these conditions for disruptive influence on the market for producer milk is extremely serious because disposition of a product for a Class I use but pricing it in a surplus price class undermines the classified pricing system.

A determination consequently must be made of the proper classification of the resultant reconstituted skim milk and its regulatory treatment whether received as such by the handler from an unregulated source or reconstituted in his own plant.

Reconstituted skim milk in filled milk disposed of for fluid consumption should be treated as Class I milk.

Filled milk made with reconstituted skim milk is from a marketing standpoint essentially similar to filled milk made with fresh skim milk. It has the same material composition, is in the same form, and is intended for the same primary purpose—to be used as a beverage in substitution for milk. The reconstituted product competes in the same market channels and for the same wholesale and retail market outlets as filled milk made from fresh skim milk. It is a competitor of whole milk at the consumer level.

Reconstituted skim milk in filled milk should be classified and priced on the same basis as reconstituted milk in other fluid milk products to achieve uniformity of pricing for milk in similar uses. Uniformity of pricing could not be achieved if some handlers have a lower cost by substituting a surplus class product (in this case usually nonfat dry milk) for a Class I use.

Nonfat dry milk is an important product outlet for the daily and seasonal surpluses in many of the regulated fluid milk markets. Consequently, it not only may be derived from milk of manufacturing quality but often will be readily available from graded milk which is surplus to the local fluid market. Whichever the source, it is priced at the manufacturing milk price level—the lowest price for any use of milk.

The objectives of classified pricing are uniformity of pricing according to form or use and providing an adequate return to producers for the fluid market. Therefore, the widespread disposition of filled milk made from reconstituted skim milk, if the skim milk were not subject to some "equalizing" payment, could lead to total defeat of such objectives. Certainly, the classification and pricing plan should protect the Class I market from the potential effects of competition with products produced from the market's own surplus or similar products produced elsewhere at a manufacturing price when used in filled milk.

It should be noted that the orders already contain specific provisions dealing with disposition by a regulated handler of other fluid milk products which have been reconstituted from nonfluid milk products. The problem of proper classification and charge for such use of nonfluid milk products to produce products for Class I disposition was dealt with in the decision issued June 19, 1964 (29 F.R. 9002), official notice of which is taken. The decision applied to orders in 76 marketing areas.

The findings and conclusions which relate to this subject appearing at 29 F.R. 9010 were as follows: "Certain milk by its very nature must be treated as surplus when received at market pool plants regulated by a Federal order and, therefore, it must be assigned a surplus value. One such source is milk received at a regulated plant, in either bulk or packaged form, from a producer-handler (under any Federal order). Another source is milk produced by the reconstitution to fluid form of manufactured dairy products, such as fluid skim milk made by the addition of water to nonfat dry milk. Still another source is milk of manufacturing grade (non-Grade A milk) which is not eligible for disposition for fluid consumption in the market. As to milk from these sources, a payment into the producer-settlement fund at the difference between the Class I and surplus prices must be required of the receiving handler when such milk is allocated to Class I, following 'down-allocation' to the extent it can be absorbed in lower priced uses.

"A surplus value likewise is properly assigned to reconstituted milk (for instance, the result of combining nonfat dry milk or condensed milk with water). The products used in such reconstitution process are made from milk which always carries a manufacturing, or surplus, value. Producer milk used to produce such products is priced as surplus under each of these Federal orders. Since the milk used to produce these products is originally priced as surplus milk, payment into the producer-settlement fund at the difference between the Class I and surplus price is necessary to insure competitive equity with producer milk when reconstituted milk is used in Class I. No recognition should be given to processing costs involved in the manufacture of the products derived from unregulated milk and used in reconstitution since similar costs are incurred in processing producer milk into such products."

The method of treating reconstituted products described in the 1964 decision is appropriately applicable to reconstituted skim milk used in filled mlk. The nonfluid milk products in such use are derived from milk having a surplus value and should be assigned to surplus uses of the handler to the extent possible. To the extent that such reconstituted product cannot be assigned to a surplus use class it must be considered as used in Class I. In this case payment to the producer-settlement fund at the difference between the Class I price and surplus price is necessary not only to assure competitive equity among handlers but also to insure the integrity of the

classified pricing system as a means of assuring reasonable prices to producers.

Uniform treatment of reconstituted skim milk in filled milk should apply to the several types of handling operations. While one handler may reconstitute skim milk from nonfluid milk products in his own regulated plant, another may purchase filled milk containing reconstituted skim milk from other handlers. A third type of operation is distribution of reconstituted product in the marketing area from a plant which is not fully regulated.

For skim milk reconstituted in a fully regulated plant, the allocation provisions of each order already assign "other source milk in a form other than a fluid milk product" first to surplus use, and then any remainder to Class I. For the quantity assigned to Class I disposition, a charge at the Class I price less the surplus price applies. This charge applies whether the reconstituted product is disposed of on routes, or to another plant. In the case of interplant transfers (including transfers between order markets), the orders already provide for the classification of the fluid milk product transferred. The quantity so classified as Class I would be subject to the charge at the transferor plant, except in some cases in a handler pool market.

New provisions would be needed to treat receipts of filled milk at a regulated plant if the receipt is from an unregulated source and contains reconstituted skim milk. The receipt should be assigned in series first to the surplus class and then successively to the next higher price classes. The receiving handler should be charged the Class I price less the surplus price for any quantity of skim milk or butterfat so assigned to Class I utilization. This method would extend the uniform application of the same rate of charge as applies in the case of a handler making reconstituted product in his own plant.

A situation similar to receipt from an unregulated source may arise if filled milk containing reconstituted skim milk is received from a plant regulated under an individual handler pool order. This could happen because the individual handler pool orders price only the Class I usage assignable to receipts of producer milk at the handler pool plant. If the Class I disposition of the plant exceeds producer milk received there, which is possible if reconstituted product is used for filled milk, then this Class I usage is not priced.

In this case the receipt at a market order pool plant from a handler pool plant should be treated the same as a receipt from an unregulated plant. The receipt of reconstituted filled milk would be allocated first to surplus class and any remainder to higher classes. The receiving handler would be obligated for any of such receipt assigned to Class I at the Class I price less surplus class price, adjusted to the location of the plant from which received.

Another aspect of disposition of reconstituted filled milk by a pool plant under an individual handler pool order is the possibility that such plant could dispose of the product on routes in another marketing area where market pooling applies. In such a case the operator of the handler pool plant should be obligated to pay the difference between the Class I and surplus prices on such disposition in the marketing area to the extent that such disposition is not assigned to producer milk at his pool plant. The payment should be made into the producer-settlement fund of the market where sold. The Class I price used for this purpose would be the order price of the market where the disposition is made, adjusted for location of the plant. Such payment is necessary to apply the same treatment to reconstituted filled milk sales by the pool plant under the individual-handler pool order as would apply to a plant regulated by the order applicable to the area in which the route sales are made.

Partially regulated distributing plants likewise may dispose of reconstituted filled milk in the marketing area. The term "partially regulated distributing plant" applies to a plant which has route disposition of fluid milk products in the marketing area too small to qualify it as a pool plant, or which otherwise does not meet the pooling requirements of the particular order. Each of the orders contains specific provisions which apply to such plants for the purpose of achieving a reasonable competitive parity between these plants and fully regulated handlers. These provisions should be modified with respect to Class I products containing reconstituted skim milk disposed of in the marketing area.

The provisions allow certain options to the operators of partially regulated distributing plants, except in the case of the Massachusetts-Rhode Island-New Hampshire, New York-New Jersey, and Connecticut orders. In each of these orders, fluid milk products disposed of by nonpool plants on routes in the marketing area or received from such plants at regulated plants for Class I use are pooled. In effect, the operator of the plant disposing of such fluid milk products that are classified in Class I is charged the difference between the Class I price and the blended price on any of such quantities in excess of receipts of pool milk classified as Class I.

Under all other orders, three additional options are allowed. Two are very similar to the treatment under the northeastern orders.

One would allow such a handler to offset his disposition in the marketing area by purchases of Class I milk from fully regulated plants.

The second alternative would allow such handler to make payment into the producer-settlement fund with respect to his Class I disposition in the marketing area at a rate per hundredweight equal to the Class I price less the uniform price. The partially regulated handler is given credit for any quantity of Class I milk purchased from fully regulated plants.

Under a third option not allowed under the northeastern orders the value of such handler's milk utilization is computed in the same manner as for a pool plant. The handler then has the choice of paying this sum to the Grade A dairy farmers supplying his plant or dividing the sum between payments to such farmers and payments to the producer-settlement fund.

The options now provided in the orders are designed to apply to a partially regulated handler whose disposition in the marketing area is primarily milk received from dairy farmers. But if such disposition is wholly or largely filled milk made with reconstituted skim milk, the payment now required (Class I price less uniform price) would not be equitable in relation to the requirement upon pool handlers that they pay the Class I less surplus price for such Class I disposition. Also, fully regulated plants are subject to Class I price less surplus price obligation on all Class I disposition of reconstituted skim milk, whether in filled milk or in other Class I disposition. This same charge should apply to partially regulated plants with respect to disposition in the marketing area of any fluid milk product containing reconstituted skim milk. Such treatment is necessary to make the obligation for disposition of reconstituted product comparable to the obligation upon a pool handler for the same kind of utilization.

Provision accordingly should be made for a handler operating a partially regulated distributing plant to pay into the producer-settlement fund at the Class I price less surplus price with respect to the quantity of reconstituted skim milk in Class I products disposed of on routes in the marketing area. This would be similar to the provision which requires payment only on disposition in the marketing area.

Each partially regulated handler disposing of filled milk in a regulated marketing area must maintain adequate records of his receipts and utilization which will permit verification by the market administrator of his sources and disposition with respect to filled milk. Also, unless such a handler furnishes proof to the contrary, his disposition of filled milk in the markting area should be treated as a reconstituted product. Unless a partially regulated handler were required to prove that this disposition in the marketing area is not reconstituted product, he could gain substantial advantage because he could avoid the higher rate of payment needed on conversion of a surplus product to Class I use. For this reason the burden of proof that the filled milk was not made from reconstituted skim milk should be on the handler.

On disposition made in a market pool market the payment should be made into the producer-settlement fund of such market. This is the only practical disposition of the funds so collected. The distribution of such money among producers, as a part of the uniform price, results in an equitable disposition of the proceeds without advantage to any particular group. The money would assist in maintaining an adequate supply of high quality milk for the market. It is an administratively feasible plan which contributes to orderly marketing.

Handlers in supporting a special class for filled milk pointed out that the cost of nonfat dry milk purchased from wholesale distributors would exceed the surplus milk price for the equivalent quantities of raw fluid skim milk purchased from producers. Processing and handling costs in producing and marketing the dry product result in a higher cost for nonfat dry milk purchased as compared to fresh raw skim milk at the surplus or manufacturing milk price.

The reprocessing or reconstitution of fluid products from manufactured products involves handling and processing not characteristically part of supplying raw milk to a fluid market. To credit the handler with processing costs (even if they could be determined accurately in each instance) incurred in converting milk into its dry form would simply divert money to defray a portion of the handler's expense rather than using it to encourage the production of a sufficient supply of milk qualified for the fluid market. Certainly handlers would not at their own expense process the skim milk from producer milk into nonfat dry milk simply with the intention of reconstituting it to fluid form. This would be an uneconomical method of handling milk involving unnecessary expense and would serve no useful marketing purpose. Consequently, there is no justification for making an allowance for processing costs in computing a handler's obligation in the case of nonfat dry milk obtained from unregulated sources.

Some producer groups suggested that such equalization payments should be returned to the dairy farmers who produced the milk which was the source of the reconstituted products no matter how far away the nonfat dry milk was produced. This proposal was not complete since no specific plan was presented for accomplishing such payment to the dairy farmers whose milk was used. The practical difficulties involved preclude payment to such farmers.

In individual-handler pool markets the present practice that reconstituted skim milk shall be allocated to the handler's lowest class use should be continued.

In determining the obligation of pool handlers for use of reconstituted skim milk in filled milk, no allowance should be made for the processing cost of the nonfat dry milk irrespective of source.

Producer-handler disposition. Although producer-handler definitions vary among the several orders, the main intent in all markets is that the definitions shall apply only to a fluid milk processor who depends primarily on his own production for his milk supply. Some orders make provision for a producer-handler to supplement own production by purchases of milk from regulated sources, but safeguard the integrity of the pricing scheme by requiring that such transfers be priced as Class I milk to the seller.

The producer-handler definition of each order should be amended to preclude use of any reconstituted skim milk or unregulated milk in either filled milk or other fluid milk products.

The producer-handler is not subject to the pricing and pooling provisions of the applicable order. It should be made clear in each order, therefore, that a producer-handler using reconstituted skim milk or unregulated milk in filled milk or other fluid milk product disposition by so doing will disqualify himself from his exempt status as a producer-handler.

Reconstituted skim milk in filled milk has been marketed by at least one producer-handler in the Central Arizona market. This disposition represents a substantial part of his sales. This market was the first Federal order market to experience competition of filled milk sales by a producer-handler. It is also the market where greatest penetration of filled milk has taken place. The filled milk operation has had a significant disruptive influence on the stable and orderly marketing of milk in this market, the problems of which are dealt with in more detail in the concurrent decision for such market.

Similarly, a threat to uniformity of pricing could result in any market if producer-handlers were permitted to use reconstituted skim milk or unregulated milk in either filled milk or other fluid milk product disposition without restriction. It is not practical for this purpose to distinguish between receipts of concentrated milk products for reconstitution and fluid milk from an unregulated source. Either type of receipt could result in the same kind of advantage to a producer-handler, compared to a regulated handler.

Only seven orders currently contain no limit on such receipts but no present use of such receipts by producer-handlers in these markets is known. These orders are those regulating the Black Hills, Cedar Rapids, Cincinnati, Des Moines, Neosho Valley, Oklahoma Metropolitan, and Texas Panhandle marketing areas. These orders should be made similar to others to require that a producer-handler may not dispose of fluid milk products in excess of his own milk production and fluid milk products received from regulated plants as the individual orders provide. With such provision in the seven orders, all orders covered herein will preclude pool exemption of the producer-handler if he uses unregulated milk or milk products as Class I milk.

This kind of restriction on use of unregulated receipts does not interfere with the essential operation of a producer-handler in marketing his own milk production and in buying needed supplemental supplies, but is necessary to insure uniform pricing under the classified pricing plan.

4. *Definition of filled milk for order purposes.* A definition of filled milk should be constructed which meets the specific needs of order regulation and for such purpose only.

Most filled milk is made to simulate whole milk. There are however, many possible variations in the content of filled milk. Filled milk products within the beverage category may contain more or less vegetable fat than the normal fat content of whole milk. In order to cover all products which might be in this category, the order term "filled milk" should apply to products containing less than six percent of nonmilk fat.

Filled milk therefore should be defined as:

"Any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers, or flavoring) resembles milk or any other fluid milk product; and contains less than six percent nonmilk fat (or oil)."

Fluid products of the type described by the definition possibly could contain some milkfat as well as nonmilk fat. Such products also would be "filled milk" under this definition in order to assure the effectiveness of the proposed order provisions on filled milk. Filled milk, as so defined, should be included in the term "fluid milk product" as defined in each order.

Proposals submitted for the hearing would have defined filled milk in some markets to include higher fat products. There is insufficient information, however, on which to establish a Class I classification for filled milk products containing 6 percent or more nonmilk fat. While nonmilk fat products substituting for cream products are sold extensively, testimony did not develop the basis for defining such products as fluid milk products. Hence, on the basis of this record, skim milk and butterfat in filled milk containing 6 percent or more nonmilk fat should be classified in the surplus class in each order.

Sodium caseinate in any product regulated under these orders should be treated as a nonmilk ingredient at this time.

Some handlers requested that sodium caseinate, although derived in part from milk, not be regarded as a milk product if used as an ingredient in any kind of milk imitation or substitute. Sodium caseinate has been used as an ingredient in imitation milk made to resemble fluid milk. No proposal was made on the record for regulation of sodium caseinate as a milk product under the Federal milk orders.

5. *Change in classification of certain milk products.* No change should be made in the classification of milk products other than filled milk.

Notice was given to consider changing the classification of certain milk products. Handler testimony opposed such changes except on the basis of their consideration in further hearings dealing with particular situations in individual markets. The evidence adduced in this hearing is sufficient only with respect to the manner in which each order should classify the components of milk used in filled milk.

6. *Conforming changes in order provisions.* Order definitions serve, inter alia, to identify dairy farmers who are producers for the market and to identify plants to be regulated. The amendments with respect to filled milk require several changes in definitions.

Presently, the provisions defining pool plants and producers serve to qualify for pooling the milk approved for fluid use and regularly supplied to the fluid market. Except in a few instances, similar standards have not been established for sources of milk for filled milk. The order provisions should not result in pooling milk from unapproved and intermittent sources with milk of farmers regularly supplying and approved for the fluid market. Therefore, the determination of whether a distributing plant is qualified for pooling should not be affected by its disposition of filled milk in the marketing area. Similarly, inclusion of shipments of filled milk would not be a proper basis for qualifying a plant as a pool supply plant. Appropriate changes to accomplish these objectives are made as corollary amendments.

The definition of "partially regulated distributing plant" also should be modified to include any plant making disposition of filled milk on routes in the marketing area. This is done by deleting the specification that fluid milk products disposed of on routes in the marketing area be Grade A.

Throughout this decision reference is made to the term "distributing plant" and to the term "partially regulated distributing plant." These terms have been used to describe plants from which filled milk is, or may be, distributed. Under the present orders, a distributing plant is a plant that by meeting certain performance standards may obtain pool plant status. A partially regulated distributing plant is defined under a "nonpool plant" provision and in no event could become pooled without meeting the terms provided for distributing plants and pool plants. Where used in this decision, the two definitions "partially regulated distributing plant" and "distributing plant," are treated as separate and independent definitions.

The definition of "unregulated supply plant" should be modified to cover possible shipments of filled milk. While no monetary obligation is imposed on an unregulated supply plant, the term is used in the order to identify sources of receipts of unregulated milk. The location of the unregulated supply plant is considered in establishing the obligation of the receiving plant.

Order provisions with respect to reports, records and facilities, and market administrators' functions are modified to insert the term "filled milk" wherever needed to clarify the intention that the product is covered by the applicable order provision. Additional reports are needed with respect to quantities of disposition in the marketing area by pool plants and partially regulated distributing plants. These reports should show quantities of Class I disposition separately for filled milk and other fluid milk products. In the case of the partially regulated plant, the report should show also the quantity of reconstituted skim milk in fluid milk products disposed of in the marketing area.

Throughout the classification and allocation provisions, filled milk would be treated generally in the same manner as other fluid milk products. Inventories of filled milk would be treated the same as inventories of whole milk. In those orders in which all inventories of fluid milk products are in the surplus class, the same basis of classification would apply to filled milk. If the order provides that packaged fluid milk products in inventory are in Class I, the same would apply to packaged inventory of filled milk. With respect to filled milk modified by the addition of nonfat milk solids, the same type of accounting would apply as now applies under each order to modified whole milk.

Receipts of filled milk containing reconstituted skim milk from a handler pool plant or an unregulated supply plant would be allocated so as to properly apply the charges which prior findings and conclusions state should apply to transfers from such plants. These receipts would be allocated first to the surplus class and then in series to the higher priced classification. Receipts of packaged filled milk from another order plant would be allocated in the same manner as other packaged fluid milk products from other order plants, except filled milk containing reconstituted skim milk.

The provisions with respect to any plant which qualifies as a pool plant under more than one order should be modified in order that the determination of which order applies will be based on disposition of fluid milk products other than filled milk. These changes will coordinate these provisions with the modifications of pool plant provisions previously described.

In most orders, the present administrative expense provision does not require amendment to include filled milk disposition. However, the administrative expense provision of the orders located in the Northeast require amendment to conform with all others. In certain orders, the present exemption from regulation (including administrative expense) on limited quantities of such Class I route disposition is continued.

In some provisions the words "skim milk and butterfat" are substituted for the word "milk" where this provides a more specific meaning. One instance is the provision (used in all orders) referring to termination of obligations.

Rulings on Proposed Findings and Conclusions

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

Proposed findings and conclusions with respect to the conduct of the hearing are denied. Each of the rulings of the hearing examiner with respect to the conduct of the hearing is approved.

General Findings

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of each of the aforesaid orders and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein. The following findings are hereby made with respect to each of the aforesaid orders:

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Recommended Marketing Agreement and Order Amending the Orders

The following order amending the orders as amended regulating the handling of milk in the specified marketing areas is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be the same as those contained in the order, as hereby proposed to be amended:

PART 1001—MILK IN THE MASSACHUSETTS-RHODE ISLAND-NEW HAMPSHIRE MARKETING AREA

1. Section 1001.17 is revised to read as follows:

§ 1001.17 Exempt distributing plant.

"Exempt distributing plant" means a plant, other than a pool supply plant or a regulated plant under another Federal order, which meets all the requirements for status as a pool distributing plant except that its route disposition exclusive of filled milk in the marketing area in the month does not exceed 700 quarts on any day or a daily average of 300 quarts.

2. Section 1001.22 is revised to read as follows:

§ 1001.22 Fluid milk products.

"Fluid milk products" means milk, skimmed milk, flavored milk or skimmed milk, cultured skimmed milk, buttermilk, filled milk, concentrated milk, any mixture of milk or skimmed milk and cream containing less than 10 percent butterfat, and 50 percent of the quantity by weight of any mixture of milk or skimmed milk and cream containing at least 10 percent but less than 16 percent butterfat. The term includes these products in fluid, frozen, fortified, or reconstituted form but does not include sterilized products in hermetically sealed containers and such products as eggnog, yogurt, whey, ice cream mix, ice milk mix, milk shake base mix, evaporated or condensed milk or skimmed milk, in either plain or sweetened form, and any product which contains 6 percent or more nonmilk fat (or oil). Fluid milk products which have been placed in containers for disposition to retail or wholesale outlets are referred to in this part as packaged fluid milk products.

3. In § 1001.25 the introductory text preceding paragraph (a) of the section is revised to read as follows:

§ 1001.25 Pool milk.

"Pool milk" means fluid milk products (other than exempt milk) received or disposed of as specified in this section, except that with respect to filled milk the term shall include only the quantity proved to have been made from other fresh fluid milk products.

* * * * *

4. A new § 1001.28 is added to read as follows:

§ 1001.28 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skimmed milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

5. In § 1001.35 the introductory text preceding paragraph (a) is revised to read as follows:

§ 1001.35 Distributing plants.

Each processing and packaging plant (other than a producer-handler's plant under any Federal order or a regulated plant under another Federal order) shall be a pool distributing plant in any month in which it meets the conditions specified in this section. Receipts and disposition of filled milk shall be excluded in determining whether a plant has met these conditions.

* * * * *

6. Section 1001.36 is revised to read as follows:

§ 1001.36 Cooperative association plants located in the marketing area.

Each plant which is located in the marketing area and which is operated by a cooperative association shall be a pool plant in any month in which its route disposition does not exceed 2 percent of its total receipts of fluid milk products. Receipts and disposition of filled milk shall be excluded in determining whether a plant has met these conditions.

7. In § 1001.37 the introductory text preceding paragraph (a) is revised to read as follows:

§ 1001.37 Supply plants.

Each plant (other than a plant described in paragraph (e) of this section) shall be a pool supply plant in any month in which it meets the conditions specified in paragraph (a), and in paragraph (b), (c), or (d), of this section. Receipts and disposition of filled milk shall be excluded in determining whether a plant has met these conditions. For the purposes of this section, milk received at a plant from a cooperative association in its capacity as a handler under § 1001.9(d) shall be considered as received at that plant from dairy farmers' farms.

* * * * *

8. Section 1001:58 is revised to read as follows:

§ 1001.58 Additional assignment to Class II milk.

Assign to Class II milk the quantities received in fluid milk products not previously assigned to classes under §§ 1001.54 through 1001.57.

9. In § 1001.64 subparagraphs (2) and (3) are revised and a new subparagraph (4) is added to paragraph (b), paragraph (d) is revised, and subparagraphs (1) and (2) are revised and a new subparagraph (3) is added to paragraph (e), to read as follows:

§ 1001.64 Computation of value of fluid milk products at class prices.

* * * * *

(b) * * *

(2) Product assigned to Class I milk under § 1001.55(d), except that for any cooperative association in its capacity as a handler under § 1001.9(d), the quantity shall be reduced by the quantity of any excess of milk moved to pool plants during the month over the quantity of producer milk, to the limit of the quantity assigned to Class I milk under § 1001.55(d);

(3) Product assigned to Class I milk under §§ 1001.55 (e) and (f), and 1001.58; and

(4) Filled milk, not proved to have been made from other fresh fluid milk products assigned to Class I milk under § 1001.55 (g) and (h).

* * * * *

(d) Multiply by the applicable Class I price the quantities of:

(1) Pool milk distributed as route disposition in the marketing area from the handler's nonpool plant; and

(2) Filled milk distributed as route disposition in the marketing area from the handler's nonpool plant which is excluded from pool milk only because it is not proved to have been made from other fresh fluid milk products.

(e) * * *

(1) Product assigned to Class I milk under § 1001.55 (a) through (c);

(2) Product assigned to Class I milk under §§ 1001.55 (e) and (f), and 1001.58; and

(3) Product for which a value is determined under subparagraphs (b)(4) and (d)(2) of this section.

* * * * *

10. In § 1001.87 paragraph (c) is revised to read as follows:

§ 1001.87 Payment of administration expense.

* * * * *

(c) The quantity distributed as route disposition in the marketing area from a handler's nonpool plant for which a value is determined under § 1001.64(d).

11. In § 1001.94 paragraphs (a) and (d) are revised to read as follows:

§ 1001.94 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part, except as provided in paragraphs (b) and (c) of this section, shall terminate 2 years after the last day of the month during which the market administrator received the handler's utilization report on the skim milk and butterfat involved in the obligation, unless within the 2-year period the market administrator notifies the handler in writing that the money is due and payable. Service of the notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of the producer or cooperative association, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which the handler claims to be due him under the terms of this part shall terminate 2 years after the end of the month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on the payment is claimed, unless the handler, within the applicable

period of time, files a petition under section 8c(15)(A) of the Act, claiming the money.

PART 1002—MILK IN THE NEW YORK-NEW JERSEY MARKETING AREA

1. Section 1002.15 is revised to read as follows:

§ 1002.15 Fluid milk product.

"Fluid milk product" means all skim milk and butterfat in the form of milk, fluid skim milk, filled milk, cultured or flavored milk drinks (except eggnog, and yogurt), concentrated fluid milk disposed of in consumer packages, cream (except storage, plastic or sour), half and half (except sour) and any other mixture of cream, milk or skim milk containing less than 18 percent butterfat (other than frozen desserts, frozen dessert mixes, whipped topping mixtures, evaporated milk, plain or sweetened condensed milk or skim milk, sterilized milk or milk products in hermetically sealed containers, and any product which contains 6 percent or more nonmilk fat (or oil)): *Provided,* That when any fluid milk product is fortified with nonfat milk solids the amount of skim milk to be included within this definition shall be only that amount equal to the weight of skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

2. A new § 1002.17 is added to read as follows:

§ 1002.17 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

3. In § 1002.28 the introductory text preceding paragraph (a) is revised to read as follows:

§ 1002.28 Temporary pool plants.

Except for plants which, pursuant to paragraph (f) of this section, are not eligible for designation, any plant not designated pursuant to § 1002.24 shall automatically be designated a pool plant in accordance with provisions of paragraphs (a) through (e) of this section: *Provided,* That no plant shall be a pool plant pursuant to this section if, in the absence of this provision, milk received from dairy farmers and units at the plant would be classified and priced under an other order with a provision for marketwide equalization, and if the percentage of the milk received from dairy farmers and units at the plant which is classified in Class I–A and disposed of in the marketing area defined in such other order is greater than the percentage of such milk so classified and disposed of in this marketing area: *Provided further,* That for purposes of the computations of percentages set forth in this section, skim milk and butterfat in filled milk shall be excluded from skim milk and butterfat classified in Class I–A and Class I–B.

* * * * *

4. In § 1002.44(e)(3) a new subdivision (vi) is added to read as follows:

§ 1002.44 Transfers.

* * * * *

(e) * * *

(3) * * *

(vi) Any remaining Class I–A route disposition in the marketing area shall be subject to the pricing specified in § 1002.70(d)(2).

5. Section 1002.70(d)(2) is revised to read as follows:

§ 1002.70 Net pool obligation of handlers.

* * * * *

(d) * * *

(2) Multiply the difference between the applicable Class I–A and Class II prices, both adjusted by the applicable differential pursuant to § 1002.51, by the pounds of skim milk and butterfat in other source milk subtracted from Class I–A pursuant to § 1002.45(a)(4) and the corresponding step of § 1002.45(b) and by the pounds of skim milk and butterfat specified in § 1002.44(e)(3)(vi).

6. Section 1002.90 is revised to read as follows:

§ 1002.90 Payment by handlers.

As his pro rata share of the expense of administration of this part, each handler shall, on or before the 18th day of each month, pay to the market administrator a sum not exceeding 2 cents per hundredweight on the total quantity of pool milk received from dairy farmers at plants or from farms in a unit operated by such handler, directly or at the instance of a cooperative association of producers and on the quantity for which payment is made pursuant to § 1002.70(d)(2), the exact amount to be determined by the market administrator subject to review by the Secretary. This section shall not be deemed to duplicate any similar payment by any handler under an order issued by the Commissioner of Agriculture and Markets of the State of New York, or the Director of the New Jersey Office of Milk Industry, with respect to the marketing area. Whenever verification by the market administrator discloses an error in the payment made by any handler, such error shall be adjusted not later than the date next following such disclosure on which payments are due pursuant to this section.

7. In § 1002.91 paragraph (a) and (d) are revised to read as follows:

§ 1002.91 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable periods of time, files pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1003—MILK IN THE WASHINGTON, D.C., MARKETING AREA

1. Section 1003.7 is revised to read as follows:

§ 1003.7 Plant.

"Plant" means the land, buildings, surroundings, facilities and equipment whether owned and operated by one or more persons constituting a single operating unit or establishment for the receiving and processing, or packaging of milk or milk products (including filled milk).

1a. In § 1003.8, paragraph (b) is revised to read as follows:

§ 1003.8 Approved plant.

* * * * *

(b) Any plant from which milk or filled milk is moved during the month to a plant specified in paragraph (a) of this section.

2. Section 1003.9 is revised to read as follows:

§ 1003.9 Pool plants and nonpool plants.

A "pool plant" means any plant described in this section pursuant to paragraph (a) or (b) of this section; a "nonpool plant" means any plant described pursuant to paragraph (c) of this section;

(a) An approved plant that is neither a producer-handler plant nor a plant of a handler pursuant to § 1003.10(e):

(1) During any month within which a volume of milk not less than 10 percent of its receipts of milk from dairy farmers (including milk received from a cooperative association in its capacity as a handler pursuant to § 1003.10(c)) approved by a duly constituted health authority for fluid disposition, is disposed of on routes as Class I milk, except filled milk, in the marketing area: *Provided,* That the total quantity of Class I milk, except filled milk, disposed of from such plant (inside and outside the marketing area) is equal to not less than 50 percent of such plant's total receipts from such dairy farmers (including milk received from a cooperative association in its capacity as a handler pursuant to § 1003.10(c)); or

(2) During any month of October through February in which at least 50 percent, and during any month of March through September in which at least 40 percent of its receipts of milk from dairy farmers (including milk received from a cooperative association in its capacity as a handler pursuant to § 1003.10(c)) approved by a duly constituted health authority for fluid disposition is shipped in the form of milk, skim milk, or cream to a plant which disposes of not less than 10 percent of its approved milk from dairy farmers (including milk received from a cooperative association in its capacity as a handler pursuant to § 1003.10(c)), and from other approved plants, on routes as Class I milk, except filled milk, in the marketing area and not less than 50 percent of such receipts are disposed of as Class I milk, except filled milk, inside and outside the marketing area: *Provided,* That any such plant which was a pool plant in each of the preceding months of October through February shall be a pool plant for the months of March through September, unless the handler gives written notice to the market administrator on or before the first day of such month that the plant is a nonpool plant: *And provided further,* That any such plant which was a nonpool plant during any of the months of October through February shall not be a pool plant in any of the immediately following months of March through September in which it was owned by the same handler or affiliate of the handler or by any person who controls, or is controlled by, the handler.

(b) Any manufacturing plant which is operated by a cooperative association 70 percent or more of whose members are qualified producers whose milk is regularly received during the month at other plants which are pool plants pursuant to paragraph (a) of this section (including the milk of such producers which is delivered to such other plants by a cooperative association in its capacity as a handler pursuant to § 1003.10(c)).

(c) Any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(1) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(2) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(3) "Partially regulated distributing plant" means a nonpool plant that is neither a producer-handler plant, an other order plant nor a plant of a handler pursuant to § 1003.10(e) and from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(4) "Unregulated supply plant" means a nonpool plant that is neither a producer-handler plant, an other order plant nor a plant of a handler pursuant to § 1003.10(e) and from which fluid milk products are shipped to a pool plant.

3. Section 1003.12 is revised to read as follows:

§ 1003.12 Producer-handler.

"Producer-handler" means any person who, during the month:

(a) Operates a dairy farm and an approved plant from which Class I milk is disposed of on routes in the marketing area; and

(b) Whose sole source of supply for Class I milk is his own farm production and transfers of fluid milk products from pool plants.

4. In § 1003.16, paragraph (a) is revised and a new paragraph (f) is added to read as follows:

§ 1003.16 Definitions of milk and milk products.

(a) "Fluid milk product" means milk and skim milk, concentrated milk (including frozen concentrated milk), reconstituted or fortified milk and skim milk, flavored milk and skim milk, cultured skim milk, buttermilk, filled milk, cream and any mixture of cream and milk or skim milk. "Fluid milk product" shall not include aerated cream, sour cream, yogurt, eggnog, products which are packaged in hermetically sealed containers, and any product which contains 6 percent or more nonmilk fat (or oil).

* * * * *

(f) "Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

5. In § 1003.30, subparagraph (3) of paragraph (a) and paragraph (b) are revised to read as follows:

§ 1003.30 Reports of receipts and utilization.

(a) * * *

(3) The utilization of all skim milk and butterfat required to be reported pursuant to this paragraph showing separately in-area route disposition, except filled milk, and filled milk route disposition in the area;

(b) Each handler specified in § 1003.10(a) who operates a partially regulated distributing plant shall report as required in paragraph (a) of this section, except that receipts in Grade A milk from dairy farmers shall be reported in lieu of those in producer milk; such report shall include a separate statement showing the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area; and

* * * * *

6. In § 1003.31(a), subparagraph (2) is revised to read as follows:

§ 1003.31 Other reports.

(a) * * *

(2) On or before the first day other source milk is received in the form of milk, filled milk, fluid skim milk or cream at his pool plant(s) his intention to receive such product, and on or before the last day such product is received, his intention to discontinue receipt of such product; and

* * * * *

6a. In § 1003.32, paragraph (b) is revised to read as follows:

§ 1003.32 Records and facilities.

* * * * *

(b) The weights and tests for butterfat and other content of all milk and milk products (including filled milk) handled;

* * * * *

7. In § 1003.44, the introductory text of paragraph (e) is revised and paragraphs (d) and (f)(5) are revised to read as follows:

§ 1003.44 Transfers.

* * * * *

(d) As Class I milk, if transferred in bulk in the form of milk, filled milk, skim milk or cream, or diverted to a nonpool plant that is neither an approved plant, an other order plant, a producer-handler plant nor a plant of a handler pursuant to § 1003.10(e), located 300 miles or more by the shortest hard-surfaced highway distance as determined by the market administrator, from the zero milestone in Washington, D.C., except that cream so transferred may be classified as Class II if the transferor claims such classification, gives sufficient notice so that the market administrator may verify conditions of shipment, establishes such cream was transferred without approval of a duly constituted health authority for fluid disposition, labels each container to show that the contents are for manufacturing only, and such shipment is so invoiced;

(e) As Class I milk, if transferred in bulk in the form of milk, filled milk, skim milk, or cream, or diverted in bulk to a nonpool plant that is neither an approved plant, an other order plant, a producer-handler plant nor a plant of a handler pursuant to § 1003.10(e), located less than 300 miles, by the shortest hard-surfaced highway distance as determined by the market administrator, from the zero milestone in Washington, D.C., unless the requirements of subparagraphs

(1) and (2) of this paragraph are met, in which case the skim milk and butterfat so transferred or diverted shall be classified in accordance with the assignment resulting from subparagraph (3) of this paragraph:

* * * * *

(f) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

8. In § 1003.46, subparagraphs (2), (3), (4), (7) and the introductory text of subparagraph (8) preceding subdivision (i) of paragraph (a) are revised to read as follows:

§ 1003.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3) (vi) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or two percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which approval by a duly constituted health authority for fluid disposition is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order; and

(iv) Receipts of fluid milk products from a handler pursuant to § 1003.10(e);

(v) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(vi) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II:

(i) The pounds of skim milk in receipts of fluid milk products for which the handler requests Class II utilization which were received from unregulated supply plants, from other order plant(s) if not classified and priced pursuant to the order regulating the plant, and from dairy farmers who are not producers, that were not subtracted pursuant to subparagraph (3) of this paragraph, but not in any case to exceed the pounds of skim milk remaining in Class II;

(ii) The pounds of skim milk remaining in receipts of other source milk in the form of fluid milk products from unregulated supply plants, from other order plant(s) if not classified and priced pursuant to the order regulating such plant, and from dairy farmers who are not producers, that were not subtracted pursuant to subparagraphs (3) and (4)(i) of this paragraph, to the extent that the total of such receipts are in excess of the pounds of skim milk determined as follows:

(*a*) Multiply the pounds of skim milk remaining in Class I milk at all pool plants of the handler by 1.25;

(*b*) Subtract from the result the sum of the pounds of skim milk at all such plants in producer milk, receipts from pool plants of other handlers, from a cooperative association in its capacity as a handler pursuant to § 1003.10(c) and in receipts in bulk from other order plants classified and priced pursuant to the applicable order that were not subtracted pursuant to subparagraph (3)(vi) of this paragraph; and

(*c*)(*1*) Multiply any resulting plus quantity by the percentage that receipts of skim milk in other source milk in the form of fluid milk products from unregulated supply plants, from other order plant(s) if not classified and priced pursuant to the order regulating such plant, and from dairy farmers who are not producers, remaining at this plant is of all such receipts remaining at all pool plants of such handler, after any deductions pursuant to subdivision (i) of this subparagraph; and

(*2*) Should such computation result in a quantity to be subtracted from Class II which is in excess of the pounds of skim milk remaining in Class II, the pounds of skim milk in Class II shall be increased to the quantity to be subtracted and the pounds of skim milk in Class I shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made; and

(iii) The pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3)(vi) of this paragraph, in excess of similar transfers to such plant if classified and priced pursuant to the other order and if Class II utilization was requested by the operator of such plant and the transferee handler, but not in excess of the pounds of skim milk remaining in Class II milk;

* * * * *

(7)(i) Subtract from the pounds of skim milk remaining in each class, pro rata to the total pounds of skim milk remaining in each class in all pool plants of the receiving handler, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants, from other order plant(s) if not classified or priced pursuant to the order regulating such plant, and from dairy farmers who are not producers, that were not subtracted pursuant to subparagraphs (3)(v), (3)(vi), (4)(i) or (4)(ii) of this paragraph;

(ii) Should such proration result in the amount to be subtracted from any class exceeding the pounds of skim milk remaining in such class in the pool plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case the utilization of milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made;

(8) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products in bulk from other order plants (except receipts from other order plant(s) not classified and priced pursuant to the order regulating such plant), in excess in each case of similar transfers to the same plant, that were not subtracted pursuant to subparagraphs (3)(vi) and (4)(iii) of this paragraph, pursuant to the following procedure:

* * * * *

9. Section 1003.61 is revised to read as follows:

§ 1003.61 Plants subject to other Federal orders.

A plant specified in paragraph (a) or (b) of this section shall be exempted from all provisions of this part except as specified in paragraphs (c) and (d) of this section:

(a) Any plant qualified pursuant to § 1003.9(a)(1) which would be subject to the classification and pricing provisions of another order issued pursuant to the Act unless the Secretary determines that a greater volume of Class I milk, except filled milk, is disposed of from such plant on routes in the Washington marketing area than in a marketing area regulated pursuant to such other order.

(b) Any plant qualified pursuant to § 1003.9(a)(2) or (b) which would be subject to the classification and pricing provisions of another order issued pursuant to the act unless such plant has qualified as a pool plant pursuant to the first proviso of § 1003.9(a)(2) for each month during the preceding October through February.

(c) Each handler operating a plant described in paragraph (a) or (b) of this section shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such a manner as the market administrator may require (in lieu of reports pursuant to §§ 1003.30 and

1003.31) and allow verification of such reports by the market administrator.

(d) Each handler operating a plant specified in paragraph (a) of this section, if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

10. Section 1003.62 is revised to read as follows:

§ 1003.62 Obligations of handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month either of the amounts (at the handler's election) calculated pursuant to paragraph (a) or (b) of this section. If the handler fails to report pursuant to §§ 1003.30(b) and 1003.31(e) the information necessary to compute the amount specified in paragraph (a) of this section, he shall pay the amount computed pursuant to paragraph (b) of this section:

(a) An amount computed as follows:

(1) (i) The obligation that would have been computed pursuant to § 1003.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1003.70(e) and a credit in the amount specified in § 1003.84(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price unless an obligation with respect to such plant is computed as specified below in this subparagraph.

(ii) If the operator of the partially regulated distributing plant so requests, and provides with his reports pursuant to §§ 1003.30(b) and 1003.31(c) similar reports with respect to the operations of any other nonpool plant which serves as a supply plant for such partially regulated distributing plant by shipments to such plant during the month equivalent to the requirements of § 1003.9, with agreement of the operator of such plant that the market administrator may examine the books and records of such plant for purposes of verification of such reports, there will be added the amount of the obligation computed at such nonpool supply plant in the same manner and subject to the same conditions as for the partially regulated distributing plant.

(2) From this obligation there will be deducted the sum of (i) the gross payments made by such handler for milk (approved by a duly constituted health authority for fluid disposition) received during the month from dairy farmers at such plant and like payments made by the operator of a supply plant(s) included in the computations pursuant to subparagraph (1) of this paragraph, and (ii) any payments to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant.

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location (not to be less than the Class II price), and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

11. Section 1003.83 is revised to read as follows:

§ 1003.83 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1003.61, 1003.62, 1003.84, and 1003.86 and out of which he shall make all payments pursuant to §§ 1003.85 and 1003.86: *Provided*, That the market administrator shall offset any such payment due to any handler against payment due from such handler.

12. In § 1003.89 paragraphs (a) and (d) are revised to read as follows:

§ 1003.89 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such two-year period the market administrator notifies the handler that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid;

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time files, pursuant to section 8c(15)(A) of the act, a petition claiming such money.

PART 1004—MILK IN THE DELAWARE VALLEY MARKETING AREA

1. In § 1004.7, paragraph (a) is revised to read as follows:

§ 1004.7 Plants.

(a) "Plant" means the land and buildings together with their surroundings, facilities and equipment, whether owned or operated by one or more persons constituting a single operating unit or establishment at which milk or milk products (including filled milk) are received from dairy farmers or processed or packaged. However, a separate establishment used only for the purpose of transferring bulk milk from one tank truck to another tank truck, or only as a distribution depot for fluid milk

products in transit for route disposition shall not be a plant under this definition.

* * * * *

1a. In § 1004.8, paragraphs (a) and (b) are revised to read as follows:

§ 1004.8 Pool plant.

* * * * *

(a) A distributing plant from which during any of the months of September through February not less than 50 percent, and during any of the months of March through August not less than 45 percent, of the milk received at such plant directly from dairy farmers (including milk diverted as producer milk pursuant to § 1004.15 by either the plant operator or by a cooperative association, but excluding the milk of dairy farmers for other markets) or from a cooperative association in its capacity as a handler pursuant to § 1004.10(c), is disposed of as route disposition, except filled milk, and the volume disposed of as route disposition, except filled milk, in the marketing area during the month is not less than 10 percent of such receipts.

(b) Subject to the provisions of paragraphs (c) and (d) of this section, a supply plant from which during any of the months of September through February not less than 50 percent, and during any of the months of March through August not less than 40 percent, of the milk received from dairy farmers (including milk diverted as producer milk pursuant to § 1004.15 by either the plant operator or by a cooperative association), or from a cooperative association in its capacity as a handler pursuant to § 1004.10(c) is moved during the month to a distributing plant from which a volume of fluid milk products, except filled milk, which is not less than 50 percent during any month of September through February, or 45 percent during any month of March through August, of its receipts of milk from dairy farmers, cooperative associations, and from other plants is disposed of as route disposition during the month, and the volume disposed of as route disposition in the marketing area during the month is not less than 10 percent of such receipts. However, a supply plant shall not be qualified pursuant to this paragraph in any mouth in which a greater proportion of its qualifying shipments are made to a plant(s) regulated under another Federal order than to plants regulated under this order.

* * * * *

2. In § 1004.16, paragraph (a) is revised and a new paragraph (f) is added to read as follows:

§ 1004.16 Milk and milk products.

(a) "Fluid milk product" means all skim milk (including reconstituted skim milk) and butterfat in the form of milk, skim milk, buttermilk, cultured buttermilk, flavored milk, milk drinks (plain or flavored), filled milk, concentrated milk, and any other mixture of cream and milk or skim milk containing less than 18 percent butterfat (other than ice cream, ice cream mixes, ice milk mixes, eggnog, yogurt, sour half and half, sterilized products in hermetically sealed containers, and any product which contains 6 percent or more nonmilk fat (or oil): *Provided*, That when the product is modified by the addition of nonfat milk solids, the amount of skim milk to be included within this definition shall be only that amount equal to the weight of skim milk in an equal volume of an unmodified product of the same nature and butterfat content;

* * * * *

(f) "Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

3. In § 1004.30, subparagraph (3) of paragraph (a) and paragraph (b) are revised to read as follows:

§ 1004.30 Reports of receipts and utilization.

(a) * * *

(3) The utilization of all skim milk and butterfat required to be reported pursuant to this paragraph, showing separately in-area route disposition, except filled milk, and filled milk route disposition in the area;

(b) Each handler who operates a partially regulated distributing plant shall report as required in paragraph (a) of this section except that receipts of milk from dairy farmers shall be reported in lieu of producer milk, such report shall include a separate statement showing the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area; and

* * * * *

3a. In § 1004.32, paragraph (b) is revised to read as follows:

§ 1004.32 Records and facilities.

* * * * *

(b) The weights and tests for butterfat and other content of all milk and milk products (including filled milk) handled;

* * * * *

3b. In § 1004.41, subparagraph (8) of paragraph (b) is revised to read as follows:

§ 1004.41 Classes of utilization.

* * * * *

(b) * * *

(8) In the skim milk represented by the nonfat milk solids added to a fluid milk product which is in excess of the weight of an equivalent volume of the fluid milk product prior to such addition.

4. In § 1004.44 subparagraph (5) of paragraph (d) is revised to read as follows:

§ 1004.44 Transfers.

* * * * *

(d) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

5. In § 1004.46 subparagraphs (3) through (9) and the introductory text of subparagraph (10) preceding subdivision (i) of paragraph (a) are revised to read as follows:

§ 1004.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(3) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (5) (v) of this paragraph as follows, if the fluid products so received are classified and priced as Class I milk under such order or the equivalent thereof if assigned to Class I milk under this order:

(i) From Class II milk, the lesser of the pounds remaining, or two percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract from the remaining pounds of skim milk in Class I, the pounds of skim milk in inventory of packaged fluid milk products on hand at the beginning of the month;

(5) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products from dairy farmers for other markets pursuant to § 1004.14(a) and from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(6) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II;

(i) The pounds of skim milk in receipts of fluid milk products, for which the handler requests Class II utilization, which were received from unregulated supply plants, from other order plants if not classified and priced pursuant to the order regulating the plant and from dairy farmers for other markets pursuant to § 1004.14(b), that were not subtracted pursuant to subparagraph (5) of this paragraph, but not in any case to exceed the pounds of skim milk remaining in Class II;

(ii) The pounds of skim milk remaining in receipts of other source milk in the form of fluid milk products from unregulated supply plants, from other order plants if not classified and priced pursuant to the order regulating such plant, and from dairy farmers for other markets pursuant to § 1004.14(b), if not assigned pursuant to subparagraphs (3), (5), and (6)(i) of this paragraph, to the extent that the total of such receipts is in excess of the pounds of skim milk determined as follows:

(*a*) Multiply the pounds of skim milk remaining in Class I milk (exclusive of transfers between pool plants of the same handler) at all pool plants of the handler by 1.25;

(*b*) Subtract from the result the sum of the pounds of skim milk at all such plants in producer milk, receipts from pool plants of other handlers, from a cooperative association in its capacity as a handler pursuant to § 1004.10(c), in receipts from Order 2 pool bulk tank units and in receipts in bulk from other order plants which are classified and priced pursuant to the applicable order, that were not subtracted pursuant to subparagraph (5)(v); and

(*c*) (*1*) Multiply any resulting plus quantity by the percentage that receipts of skim milk in other source milk in the form of fluid milk products from unregulated supply plants, from other order plants if not classified and priced pursuant to the order regulating such plant, and from dairy farmers for other markets pursuant to § 1004.14(b), remaining at this plant is of all such receipts remaining at all pool plants of such handler, after any deductions pursuant to subdivision (i) of this subparagraph.

(2) Should such computation result in a quantity to be subtracted from Class II which is in excess of the pounds of skim milk remaining in Class II, the pounds of skim milk in Class II, shall be increased to the quantity to be subtracted and the pounds of skim milk in Class I shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made.

(iii) The pounds of skim milk in receipts of fluid milk products in bulk from an other order plant that were not subtracted pursuant to subparagraph (5)(v) of this paragraph in excess of similar transfers to such plant if classified and priced pursuant to the other order and if Class II utilization was requested by the operator of such plant and the transferee handler, but not in excess of the pounds of skim milk remaining in Class II milk;

(7) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in inventory of fluid milk products in bulk on hand at the beginning of the month;

(8) Add to the remaining pounds of skim milk in Class II milk, the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(9) (i) Subtract from the pounds of skim milk remaining in each class, pro rata to the total pounds of skim milk remaining in each class in all pool plants of the receiving handler, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants, from other order plants if not classified or priced pursuant to the order regulating such plant and from dairy farmers for other markets pursuant to § 1004.14(b), that were not subtracted pursuant to subparagraphs (5)(iv), (5)(v), (6)(i), or (6)(ii) of this paragraph;

(ii) Should such proration result in the amount to be subtracted from any class exceeding the pounds of skim milk remaining in such class in the pool plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made;

(10) Subtract from the pounds of skim milk remaining in each class, the pounds of skim milk in receipts of fluid milk products from Order 2 pool bulk tank units and in bulk from other order plants (except receipts from other order plants not classified and priced pursuant to the order regulating such plant), in excess in each case of similar transfers to the same plant, that were not subtracted pursuant to subparagraphs (5)(v) or (6)(iii) of this paragraph, pursuant to the following procedure:

* * * * *

6. Section 1004.61 is revised to read as follows:

§ 1004.61 Plants subject to other Federal orders.

A plant specified in paragraph (a) or (b) of this section shall be exempted from all provisions of this part except as specified in this section:

(a) Any plant qualified pursuant to § 1004.8(a) which would be subject to the classification and pricing provisions of another order issued pursuant to the Act unless the Secretary determines that a greater volume of Class I milk, except filled milk, is disposed of from such plant on routes in the Delaware Valley marketing area than in a marketing area regulated pursuant to such other order;

(b) Any plant subject to the classification and pricing provisions of another order issued pursuant to the Act, notwithstanding its status under this order pursuant to § 1004.8 (a) or (b).

(c) Each handler operating a plant described in paragraph (a) or (b) shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, make reports to the market administrator at such time and in such manner as the market administrator may require (in lieu of reports pursuant to §§ 1004.30 and 1004.31) and allow verification of such reports by the market administrator.

(d) Each handler operating a plant specified in paragraph (a), if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in the marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

7. In § 1004.62 paragraphs (a)(1)(i) and (b) are revised to read as follows:

§ 1004.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1)(i) The obligation that would have been computed pursuant to § 1004.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1004.70(e) and a credit in the amount specified in § 1004.84(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified below in this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and

other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location (not to be less than the Class II price), and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

8. In § 1004.88 paragraphs (a) and (d) are revised to read as follows:

§ 1004.88 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation unless within such 2-year period the market administrator notifies the handler that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid:

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1005—MILK IN THE TRI-STATE MARKETING AREA

1. Sections 1005.7, 1005.10, 1005.11, 1005.12 and 1005.14 are revised to read as follows:

§ 1005.7 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, filled milk, flavored milk, milk drinks (plain or flavored), reconstituted or fortified milk or skim milk (including "dietary" products), concentrated milk, eggnog, cream (not frozen), cultured sour cream, or any mixture in fluid form of milk or skim milk and cream: *Provided,* That such fluid milk products shall not include ice cream mix, frozen dessert mix, evaporated and condensed milk or skim milk, aerated cream products, dips (mixtures with sour cream or cheese base containing nondairy ingredients) not labeled Grade A, a product which contains 6 percent or more nonmilk fat (or oil), nor products which are sterilized or packaged in hermetically sealed containers.

§ 1005.10 Supply plant.

"Supply plant" means a plant from which a Grade A fluid milk product or filled milk is shipped during the month to a pool plant.

§ 1005.11 Pool plant.

"Pool plant" means a plant (except an other order plant or the plant of a producer-handler) specified in paragraph (a) or (b) of this section.

(a) A distributing plant from which not less than 50 percent of the total Grade A fluid milk products, except filled milk, physically received at such plant or diverted as producer milk from such plant pursuant to § 1005.16 is disposed of during the month on routes and not less than 10 percent of such receipts is disposed of in the marketing area on routes.

(b) A supply plant from which during the months of September, October, and November not less than 50 percent, and during all other months not less than 40 percent, of the Grade A milk physically received at such plant from dairy farmers, reload points and handlers pursuant to § 1005.13(d) or diverted as producer milk from such plant pursuant to § 1005.16 is shipped to and physically received in the form of fluid milk products, except filled milk, at pool plants pursuant to paragraph (a) of this section. A plant that was a pool plant pursuant to this paragraph in each of the immediately preceding months of September through March shall be a pool plant for the months of April through August, unless the milk received at the plant does not continue to meet the Grade A milk requirements for use in fluid milk products distributed in the marketing area or a written application is filed by the plant operator with the market administrator on or before the first day of any such month requesting that the plant be designated as a nonpool plant for such month and each subsequent month through August during which it would not otherwise qualify as a pool plant.

§ 1005.12 Nonpool plant.

"Nonpool plant" means a plant (except a pool plant) which receives milk from dairy farmers or is a milk or filled milk manufacturing, processing or bottling plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act, unless such plant is qualified as a pool plant pursuant to § 1005.11 and a greater volume of fluid milk products, except filled milk, is disposed of from such plant in this marketing area on routes and to pool plants qualified on the basis of route distribution in this marketing area than in the marketing area regulated pursuant to such other order.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant and from which fluid milk products in consumer-type packages or dispenser units are distributed in the marketing area on routes during the month.

(d) "Unregulated supply plant" means a nonpool plant that is a supply plant and is neither an other order plant nor a producer-handler plant.

§ 1005.14 Producer-handler.

"Producer-handler" means any person who:

(a) Operates a dairy farm and a distributing plant;

(b) Receives no fluid milk products from sources other than his own farm production and pool plants;

(c) Uses no nonfluid milk products for reconstitution into fluid milk products; and

(d) Provides proof satisfactory to the market administrator that the care and management of the dairy animals and other resources necessary for his own farm production and the operation of the processing and packaging business are the personal enterprise and risk of such person.

2. A new § 1005.20 is added and reads as follows:

§ 1005.20 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

3. In § 1005.30, paragraph (b) is revised to read as follows:

§ 1005.30 Reports of receipts and utilization.

* * * * *

(b) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement showing:

(1) The respective amounts of skim milk and butterfat in route disposition in the marketing area, showing separately the in-area disposition of filled milk; and

(2) For a handler pursuant to § 1005.13(b), the amount of reconstituted skim milk in fluid milk products disposed of in the marketing area on routes; and

* * * * *

4. In § 1005.33, paragraphs (b) and (c) are revised to read as follows:

§ 1005.33 Records and facilities.

* * * * *

(b) The weights and butterfat and other content of all milk and milk products (including filled milk) handled during the month;

(c) The pounds of skim milk and butterfat contained in or represented by all milk products (including filled milk) in inventory at the beginning and end of each month; and

* * * * * *

5. In § 1005.43(d), subparagraph (5) is revised to read as follows:

§ 1005.43 Transfers.

* * * * *

(d) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified in a comparable classification as Class II or Class III; and

* * * * *

6. In § 1005.45(a), subparagraphs (2), (3), (4), and (7) and the introductory text of subparagraph (8) are revised to read as follows:

§ 1005.45 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class III milk, the lesser of the pounds remaining or the quantity associated with such receipts and classified as Class III pursuant to § 1005.41(c)(2) plus 2 percent of the remainder of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class III and/or Class II (beginning with Class III) but not in excess of such quantity:

(i) Receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph:

(*a*) For which the handler requests Class III utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from other pool handlers, and receipts in bulk from other order plants that were not subtracted pursuant to subparagraph (3)(v) of this paragraph;

(ii) Receipts of fluid milk products from an other order plant that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plant, if Class III utilization was requested by the operator of such plant and the handler;

* * * * *

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraphs (3)(iv) and (4)(i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, that were not subtracted pursuant to subparagraphs (3)(v) and (4)(ii) of this paragraph:

* * * * *

7. In § 1005.62, paragraphs (a)(1) and (b) are revised to read as follows:

§ 1005.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1) The obligation that would have been computed pursuant to § 1005.60 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be be valued at the Class II or Class III price if allocated to such class at the pool plant or other order plant and be valued at the weighted average price (or, in its absence, the uniform price) of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class III price. There shall be included in the obligation so computed a charge in the amount specified in § 1005.60(e) and a credit in the amount specified in § 1005.74(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class III price, unless an obligation with respect to such plant is computed as specified below in this subparagraph. If the operator of the partially regulated distributing plant so requests, and provides with his report pursuant to § 1005.30 similar reports with respect to the operations of any other nonpool plant which serves as a supply plant for such partially regulated distributing plant by shipments to such plant during the month equivalent to the requirements of § 1005.11(b), with agreement of the operator of such plant that the market administrator may examine the books and records of such plant for purposes of verification of such reports there will be added the amount of the obligation computed at such nonpool supply plant in the same manner and subject to the same conditions as for the partially regulated distributing plant.

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk in the marketing area on routes;

(2) Deduct (except that deducted under a similar provision of another order issued pursuant to the Act) the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price pursuant to § 1005.61 at the same location or at the Class III price, whichever is higher, and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool

plant less the value of such skim milk at the Class III price.

8. A new § 1005.63 is added and reads as follows:

§ 1005.63 Obligation of handler operating an other order plant.

Each handler who operate an other order plant that is regulated under an order providing for individual-handler pooling shall pay to the market administrator for the producer-settlement fund, on or before the 25th day after the end of the month, an amount computed as follows:

(a) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each marketing area; and

(b) Compute the value of the quantity of reconstituted skim milk assigned in paragraph (a) of this section to Class I disposition in this marketing area, at the Class I price applicable at the nonpool plant and subtract its value at the Class III price.

9. Section 1005.73 is revised to read as follows:

§ 1005.73 Producer-settlement fund.

The market administrator shall maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments into such fund pursuant to §§ 1005.62, 1005.63, and 1005.74 and out of which he shall make all payments from such fund pursuant to § 1005.75: *Provided,* That the market administrator shall offset the payment due to a handler against payments due from such handler.

10. In § 1005.80, paragraph (a) is revised to read as follows:

§ 1005.80 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligations, unless within such two-year period, the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid;

* * * * *

PART 1006—MILK IN THE UPPER FLORIDA MARKETING AREA

1. Sections 1006.7, 1006.8, 1006.9, and 1006.10 are revised to read as follows:

§ 1006.7 Fluid milk product.

"Fluid milk product" means milk (including frozen and concentrated milk, filled milk, flavored milk or skim milk. "Fluid milk product" shall not include sterilized products in hermetically sealed containers.

§ 1006.8 Distributing plant.

"Distributing plant" means a plant:

(a) That is approved by a duly constituted health authority for the processing or packaging of Grade A milk and from which any fluid milk product is disposed of during the month in the marketing area on routes; or

(b) That processes or packages filled milk and from which filled milk is disposed of during the month in the marketing area on routes.

§ 1006.9 Supply plant.

"Supply plant" means a plant from which a fluid milk product acceptable to a duly constituted health authority or filled milk is shipped during the month to a pool plant.

§ 1006.10 Pool plant.

"Pool plant" means a plant specified in paragraph (a) or (b) of this section that is not an other order plant, a producer-handler plant, or an exempt distributing plant.

(a) A distributing plant from which not less than 50 percent of the total Grade A fluid milk products, except filled milk, received at the plant during the month is disposed of on routes except as filled milk and not less than 10 percent of such receipts is disposed of in the marketing area on routes except as filled milk.

(b) A supply plant from which not less than 50 percent of the Grade A milk received from dairy farmers at such plant during the month is shipped as fluid milk products, except filled milk, to pool plants pursuant to paragraph (a) of this section.

2. In § 1006.11, the introductory text and paragraph (a) are revised to read as follows:

"Nonpool plant" means a plant (except a pool plant) which receives milk from dairy farmers or is a milk or filled milk manufacturing, processing or bottling plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act, unless such plant is qualified as a pool plant pursuant to § 1006.10 and a greater volume of fluid milk products, except filled milk, is disposed of from such plant in this marketing area on routes and to pool plants qualified on the basis of route distribution in this marketing area than in the marketing area regulated pursuant to such other order.

* * * * *

3. A new § 1006.19a is added and reads as follows:

§ 1006.19a Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

4. In § 1006.30, the introductory text and paragraph (b) are revised to read as follows:

§ 1006.30 Reports of receipts and utilization.

On or before the 7th day after the end of each month, each handler (except a handler pursuant to § 1006.13 (e) or (f)) shall report to the market administrator for such month with respect to each plant at which milk is received or at which filled milk is processed or packaged, reporting in detail and on forms prescribed by the market administrator;

* * * * *

(b) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement showing:

(1) The respective amounts of skim milk and butterfat disposed of as Class I milk in the marketing area on routes, showing separately the in-area disposition of filled milk; and

(2) For a handler pursuant to § 1006.13(b), the amount of reconstituted skim milk in fluid milk products disposed of in the marketing area on routes; and

* * * * *

5. In §1006.33, paragraphs (b) and (c) are revised to read as follows:

§ 1006.33 Records and facilities.

* * * * *

(b) The weights and butterfat and other content of all milk and milk products (including filled milk) handled during the month;

(c) The pounds of skim milk and butterfat contained in or represented by all milk products (including filled milk) in inventory at the beginning and end of each month; and

* * * * *

5a. In § 1006.41, paragraph (c)(1) is revised to read as follows:

§ 1006.41 Classes of utilization.

* * * * *

(c) * * *

(1) Skim milk and butterfat used to produce frozen desserts (e.g., ice cream, ice cream mix), eggnog, yogurt, aerated cream products, butter, cheese (including cottage cheese), evaporated and condensed milk (plain or sweetened), nonfat

dry milk, dry whole milk, dry whey, condensed or dry buttermilk, a product which contains 6 percent or more nonmilk fat (or oil), and sterilized products in hermetically sealed containers:

* * * * *

6. In § 1006.45(a), subparagraphs (2), (3), (6), and (9) and the introductory text of subparagraph (10) are revised to read as follows:

§ 1006.45 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(vi) of this paragraph, as follows:

(i) From Class III milk, the lesser of the pounds remaining or the quantity associated with such receipts and classified as Class III pursuant to § 1006.41(c)(4) plus 2 percent of the remainder of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product or a Class II product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of fluid milk products from an exempt distributing plant;

(v) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(vi) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

* * * * *

(6) Subtract, in the order specified below, from the pounds of skim milk remaining in Class III and/or Class II (beginning with Class III unless otherwise specified below) but not in excess of such quantity or quantities:

(i) Receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraph (3)(v) of this paragraph:

(*a*) For which the handler requests such utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by subtracting from 125 percent of the pounds of skim milk remaining in Class I milk, the sum of the pounds of skim milk in producer milk, in receipts of fluid milk products from pool plants of other handlers, and in receipts of fluid milk products in bulk from other order plants that were not subtracted pursuant to subparagraph (3)(vi) of this paragraph; and

(ii) Receipts of fluid milk products in bulk from an other order plant that were not subtracted pursuant to subparagraph (3)(vi) of this paragraph, in excess of similar transfers to such plant, if Class III or Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(9) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraphs (3)(v) and (6)(i) of this paragraph;

(10) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from other order plants, in excess in each case of similar transfers to the same plant, that were not subtracted pursuant to subparagraphs (3)(vi) and (6)(ii) of this paragraph:

* * * * *

7. In § 1006.62, paragraphs (a)(1) and (b) are revised to read as follows:

§ 1006.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1) The obligation that would have been computed pursuant to § 1006.60 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II or Class III milk if allocated to such class at the pool plant or other order plant and be valued at the uniform price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class III price. There shall be included in the obligation so computed a charge in the amount specified in § 1006.60(e) and a credit in the amount specified in § 1006.74(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class III price, unless an obligation with respect to such plant is computed as specified below in this subparagraph. If the operator of the partially regulated distributing plant so requests, and provides with his report pursuant to § 1006.30 a similar report for each nonpool plant which serves as a supply plant for such partially regulated distributing plant by shipments to such plant during the month equivalent to the requirements of § 1006.10(b), with agreement of the operator of such plant that the market administrator may examine the books and records of such plant for purposes of verification of such reports, there will be added the amount of the obligation computed at such nonpool supply plant in the same manner and subject to the same conditions as for the partially regulated distributing plant.

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk in the marketing area on routes;

(2) Deduct (except that deducted under a similar provision of another order issued pursuant to the Act) the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the uniform price applicable at such location or at the Class III price, whichever is higher, and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class III price.

8. A new § 1006.63 is added and reads as follows:

§ 1006.63 Obligation of handler operating an other order plant.

Each handler who operates an other order plant that is regulated under an order providing for individual-handler pooling shall pay to the market administrator for the producer-settlement fund, on or before the 25th day after the end of the month, an amount computed as follows:

(a) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each marketing area; and

(b) Compute the value of the quantity of reconstituted skim milk assigned in paragraph (a) of this section to Class I disposition in this marketing area, at the Class I price applicable at the nonpool plant and subtract its value at the Class III price.

9. Section 1006.73 is revised to read as follows:

§ 1006.73 Producer-settlement fund.

The market administrator shall maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments into such fund pursuant to §§ 1006.62, 1006.63, and 1006.74 and out of which he shall make all payments from such fund pursuant to § 1006.75: Provided, That the market administrator shall offset the payment due to a handler against payments due from such handler.

10. In § 1006.80, paragraphs (a) and (d) are revised to read as follows:

§ 1006.80 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period, the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid;

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the month during which the skim milk and butterfat involved in the claims were received if an underpayment is claimed, or 2 years after the end of the month during which the payment (including deduction or setoff by the market administrator) was made by the handler, if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1011—MILK IN THE APPALACHIAN MARKETING AREA

1. Sections 1011.7, 1011.8, 1011.9, 1011.18, and 1011.19 are revised to read as follows:

§ 1011.7 Route.

"Route" means any delivery to retail or wholesale outlets (including delivery by a vendor or sale from a plant or plant store) of any milk or milk products (including filled milk) classified as Class I milk pursuant to § 1011.41(a) other than a delivery to a plant.

§ 1011.8 Plant.

"Plant" means the land, buildings, surroundings, facilities and equipment whether owned and operated by one or more persons constituting a single operating unit or establishment at which milk or milk products (including filled milk) are received and processed or packaged: *Provided,* That this definition shall not be deemed to include any separate building, premises or facilities the primary function of which is to hold or store packaged milk or milk products (including filled milk) in finished form in transit on routes.

§ 1011.9 Pool plant.

"Pool plant" means any plant except the plant of a producer-handler or a plant described in § 1011.61:

(a) From which during the month:

(1) Total disposition of Class I milk, except filled milk, is equal to not less than 50 percent of the milk approved or recognized by a duly constituted health authority for distribution within the marketing area which is received from dairy farmers and from cooperative associations who deliver such milk to such plant in the manner described in § 1011.10(d); and

(2) Disposition of Class I milk, except filled milk, on routes in the marketing area is equal to not less than 10 percent of its total Class I milk disposition, except filled milk, on routes both inside and outside the marketing area;

(b) From which milk or milk products, except filled milk, approved or recognized by a duly constituted health authority for distribution within the marketing area in an amount equal to not less than 50 percent of its receipts of such milk or milk products from dairy farmers and from cooperative associations who deliver such milk to such plant in the manner described in § 1011.10(d) are shipped as milk, skim milk or cream in fluid form to plants specified in paragraph (a) of this section: *Provided,* That any plant which qualifies as a pool plant pursuant to this paragraph in each of the months of August through March shall be a pool plant for the following months of April through July unless the operator of such plant files with the market administrator prior to the first day of any month of April through July a written request for nonpool status for such month; or

(c) Which is operated by a cooperative association, if the total pounds of milk, skim milk or cream approved or recognized by a duly constituted health authority for distribution within the marketing area which are transferred from such plant to pool plants qualified pursuant to paragraph (a) or (b) of this section and which are received at similarly qualified pool plants from producers who are members of the association are equal to not less than 70 percent of the pounds of Class I utilization, except filled milk, at such other pool plants.

§ 1011.18 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant other than a producer-handler plant or an other order plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area.

(d) "Unregulated supply plant" means a nonpool plant other than a producer-handler plant or an other order plant, form an other order plant that were not shipped to a pool plant.

§ 1011.19 Fluid milk product.

"Fluid milk product" means all milk, skim milk (including concentrated and reconstituted skim milk), filled milk, buttermilk, milk drinks (plain or flavored), cream (except frozen cream) and any mixture in fluid form of skim milk and cream (except sterilized products in hermetically sealed containers, ice cream mix, a product which contains 6 percent or more nonmilk fat (or oil), and eggnog).

2. A new § 1011.19a is added and reads as follows:

§ 1011.19a Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

3. In § 1011.30, paragraphs (a)(5) and (b) are revised to read as follows:

§ 1011.30 Reports of receipts and utilization.

(a) * * *

(5) The utilization of all skim milk and butterfat required to be reported by this part, including a separate statement of the route disposition of Class I milk outside the marketing area and a statement showing separately in-area and outside area route disposition of filled milk; and

* * * * *

(b) Each handler specified in § 1011.10(b) who operates a partially regulated distributing plant shall report as required in paragraph (a) of this section, except that receipts in Grade A milk from dairy farmers shall be reported in lieu of those in producer milk; such report shall include a separate statement showing the respective amounts of skim milk and butterfat disposed of on routes

in the marketing area as Class I milk and the quantity of reconstituted skim milk in such disposition.

* * * * *

4. In § 1011.31, paragraph (b) is revised to read as follows:

§ 1011.31 Other reports.

* * * * *

(b) Each handler operating a pool plant shall report to the market administrator on or before the first day other source milk is received in the form of milk, filled milk, fluid skim milk or cream at his pool plant, his intention to receive such product, and on or before the last day such product is received, his intention to discontinue receipt of such product.

5. In § 1011.33, paragraphs (b) and (c) are revised to read as follows:

§ 1011.33 Records and facilities.

* * * * *

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream, and other milk products (including filled milk) handled;

(c) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and other milk products (including filled milk) on hand at the beginning and end of each month; and

* * * * *

6. Section 1011.35 is revised to read as follows:

§ 1011.35 Accounting periods.

A handler may account for the receipts, utilization and classification of milk and filled milk at any of his pool plants for two periods within a month, either period not to be less than seven days, in the same manner as for a month, if he provides to the market administrator in writing not later than 24 hours prior to the end of an accounting period notification of his intention to use two accounting periods.

7. In § 1011.44, paragraphs (c) and (f)(5) and the introductory text of paragraph (d) are revised to read as follows:

§ 1011.44 Transfers.

* * * * *

(c) As Class I milk, if transferred in bulk as fluid milk, skim milk, filled milk, or diverted to a nonpool plant that is neither an other order plant nor a producer-handler plant, located more than 200 miles, by the shortest highway distance as determined by the market administrator, from the nearer of the City Hall of Bluefield, West Virginia, or the city limits of Kingsport, Tennessee;

(d) As Class I milk, if transferred in bulk as fluid milk, skim milk, filled milk, or diverted to a nonpool plant that is neither an other order plant nor a producer-handler plant, located not more that 200 miles, by the shortest highway distance as determined by the market administrator, from the nearer of the City Hall of Bluefield, West Virginia, or from the city limits of Kingsport, Tennessee, unless the requirements of subparagraphs (1) and (2) of this paragraph are met, in which case the skim milk and butterfat so transferred or diverted shall be classified in accordance with the assignment resulting from subparagraph (3) of this paragraph:

* * * * *

(f) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

8. In § 1011.46(a), subparagraphs (2), (3), (4), and (7) and the introductory text of subparagraph (8) are revised to read as follows:

§ 1011.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or two percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II but not in excess of such quantity:

(i) Receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph;

(*a*) For which the handler requests Class II utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from pool plants of other handlers or from a cooperative association in its capacity as a handler pursuant to § 1011.10(d), and receipts in bulk from other order plants that were not subtracted pursuant to subparagraph (3)(v) of this paragraph; and

(ii) Receipts of fluid milk products in bulk from an other order plant that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plant, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraphs (3)(iv) and (4)(i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (3)(v) and (4)(ii) of this paragraph:

* * * * *

9. Section 1011.61 is revised to read as follows:

§ 1011.61 Plants subject to other Federal orders.

A plant specified in paragraph (a) or (b) of this section shall be exempt from regulation under this order except as specified in paragraphs (c) and (d) of this section.

(a) Any plant qualified pursuant to § 1011.9(a) which would be fully regulated under the provisions of another order issued pursuant to the Act unless the Secretary determines that a greater volume of Class I milk, except filled milk, is disposed of from such plant on routes in the Appalachian marketing area than in the marketing area regulated pursuant to such other order.

(b) Any plant qualified pursuant to § 1011.9 (b) or (c) which would be fully regulated under the provisions of another order issued pursuant to the Act unless such plant was a pool plant pursuant to § 1011.9 (b) or (c) for each month during the preceding August through March period.

(c) Each handler operating a plant described in paragraph (a) or (b) of this section shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require (in lieu of the reports required pursuant to § 1011.30), and allow verification of such reports by the market administrator.

(d) Each handler operating a plant described in paragraph (a) of this section, if such plant is subject to the classification and pricing provisions of another

order which provides for individual-handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

10. In § 1011.62, paragraphs (a) (1) (i) and (b) are revised to read as follows:

§ 1011.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1) (i) The obligation that would have been computed pursuant to § 1011–70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1011.70(e) and a credit in the amount specified in § 1011.-94(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified below in this subparagraph.

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location (not to be less than the Class II price), and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the location of the nonpool plant less the value of such skim milk at the Class II price.

11. Section 1011.93 is revised to read as follows:

§ 1011.93 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1011.61, 1011.62, 1011.94, and 1011.96 and out of which he shall make all payments pursuant to §§ 1011.95 and 1011.96: *Provided,* That any payments due to any handler shall be offset by any payments due from such handler.

12. In § 1011.99, paragraphs (a) and (d) are revised to read as follows:

§ 1011.99 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1012—MILK IN THE TAMPA BAY MARKETING AREA

1. Sections 1012.7, 1012.9, and 1012.10 are revised to read as follows:

§ 1012.7 Fluid milk product.

"Fluid milk product" means milk (including frozen and concentrated milk), filled milk, flavored milk, or skim milk. "Fluid milk product" shall not include sterilized products in hermetically sealed containers or a product which contains six percent or more nonmilk fat (or oil).

§ 1012.9 Supply plant.

"Supply plant" means a plant from which a fluid milk product that is acceptable to the appropriate health authority for distribution in the marketing area as Grade A or filled milk is shipped during the month to a pool plant.

§ 1012.10 Pool plant.

"Pool plant" means a plant (except an other order plant or the plant of a producer-handler) specified in paragraph (a) or (b) of this section:

(a) A distributing plant from which not less than 50 percent of the total Grade A fluid milk products, except filled milk, received at the plant during the month is disposed of on routes except as filled milk and not less than 10 percent of such receipts is disposed of in the marketing area on routes except as filled milk.

(b) A supply plant from which not less than 50 percent of the Grade A milk received from dairy farmers at such plant during the month is shipped as fluid milk products, except filled milk, to pool plants pursuant to paragraph (a) of this section.

2. Section 1012.11 is revised to read as follows:

§ 1012.11 Nonpool plant.

"Nonpool plant" means a plant (except a pool plant) which receives milk from dairy farmers or is a milk or filled milk manufacturing, processing or bottling plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act, unless such plant is qualified as a pool plant pursuant to § 1012.10 and a greater volume of fluid milk products, except filled milk, is disposed of from such plant in this marketing area on routes and to pool plants qualified on the basis of route distribution in this marketing area than in the marketing area regulated pursuant to such other order.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant and from which

fluid milk products in consumer-type packages or dispenser units are distributed in the marketing area on routes during the month.

(d) "Unregulated supply plant" means a nonpool plant that is a supply plant and is neither an other order plant nor a producer-handler plant.

3. A new § 1012.19a is added and reads as follows:

§ 1012.19a Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

4. In § 1012.30, the introductory text and paragraph (b) are revised to read as follows:

§ 1012.30 Reports of receipts and utilization.

On or before the 7th day after the end of each month, each handler (except a handler pursuant to § 1012.13 (d) or (e)) shall report to the market administrator for such month with respect to each plant at which milk is received or at which filled milk is processed or packaged, reporting in detail and on forms prescribed by the market administrator:

* * * * *

(b) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement showing:

(1) The respective amounts of skim milk and butterfat disposed of as Class I milk in the marketing area on routes, showing separately the in-area disposition of filled milk; and

(2) For a handler pursuant to § 1012.13(b), the amount of reconstituted skim milk in fluid milk products disposed of in the marketing area on routes; and

* * * * *

5. In § 1012.33, paragraphs (b) and (c) are revised to read as follows:

§ 1012.33 Records and facilities.

* * * * *

(b) The weights and butterfat and other content of all milk and milk products (including filled milk) handled during the month;

(c) The pounds of skim milk and butterfat contained in or represented by all milk products (including filled milk) in inventory at the beginning and end of each month; and

* * * * *

6. In § 1012.45(a), subparagraphs (2), (3), (6), and (9) and the introductory text of subparagraph (10) are revised to read as follows:

§ 1012.45 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class III milk, the lesser of the pounds remaining or the quantity associated with such receipts and classified as Class III pursuant to § 1012.41(c)(4) plus 2 percent of the remainder of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product or a Class II product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk, from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

* * * * *

(6) Subtract, in the order specified below, from the pounds of skim milk remaining in Class III and/or Class II (beginning with Class III unless otherwise specified below) but not in excess of such quantity or quantities:

(i) Receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph:

(*a*) For which the handler requests such utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by subtracting from 125 percent of the pounds of skim milk remaining in Class I milk, the sum of the pounds of skim milk in producer milk, in receipts of fluid milk products from pool plants of other handlers, and in receipts of fluid milk products in bulk from other order plants that were not subtracted pursuant to subparagraph (3)(v) of this paragraph; and

(ii) Receipts of fluid milk products in bulk from an other order plant that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plant, if Class III or Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(9) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraphs (3)(iv) and (6)(i) of this paragraph;

(10) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from other order plants, in excess in each case of similar transfers to the same plant, that were not subtracted pursuant to subparagraphs (3)(v) and (6)(ii) of this paragraph:

* * * * *

7. In § 1012.62, paragraphs (a)(1) and (b) are revised to read as follows:

§ 1012.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1) The obligation that would have been computed pursuant to § 1012.60 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II or Class III milk if allocated to such class at the pool plant or other order plant and be valued at the uniform price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class III price. There shall be included in the obligation so computed a charge in the amount specified in § 1012.60(e) and a credit in the amount specified in § 1012.74(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class III price, unless an obligation with respect to such plant is computed as specified below in this subparagraph. If the operator of the partially regulated distributing plant so requests, and provides with his report pursuant to § 1012.30 a similar report for each nonpool plant which serves as a supply plant for such partially regulated distributing plant by shipments to such plant during the month equivalent to the requirements of § 1012.10(b), with agreement of the operator of such plant that the market administrator may examine the books and records of such plant for purposes of verification of such reports, there will be added the amount of the obligation computed at such nonpool supply plant in the same manner and subject to the same conditions as for the partially regulated distributing plant.

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk in the marketing area on routes;

(2) Deduct (except that deducted under a similar provision of another order issued pursuant to the Act) the respective amounts of skim milk and

butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the uniform price applicable at such location or at the Class III price, whichever is higher, and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class III price.

8. A new §1012.63 is added and reads as follows:

§ 1012.63 Obligation of handler operating an other order plant.

Each handler who operates an other order plant that is regulated under an order providing for individual-handler pooling shall pay to the market administrator for the producer-settlement fund, on or before the 25th day after the end of the month, an amount computed as follows:

(a) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each marketing area; and

(b) Compute the value of the quantity of reconstituted skim milk assigned in paragraph (a) of this section to Class I disposition in this marketing area, at the Class I price applicable at the nonpool plant and subtract its value at the Class III price.

9. Section 1012.73 is revised to read as follows:

§ 1012.73 Producer-settlement fund.

The market administrator shall maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments into such fund pursuant to §§ 1012.62, 1012.63, and 1012.74 and out of which he shall make all payments from such fund pursuant to § 1012.75: *Provided,* That the market administrator shall offset the payment due to a handler against payments due from such handler.

10. In § 1012.80, paragraph (a) is revised to read as follows:

§ 1012.80 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such two-year period, the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid;

* * * * *

PART 1013—MILK IN THE SOUTHEASTERN FLORIDA MARKETING AREA

1. Sections 1013.7 and 1013.10 are revised to read as follows:

§ 1013.7 Fluid milk product.

"Fluid milk product" means milk (including frozen and concentrated milk), filled milk, flavored milk or skim milk. "Fluid milk product" shall not include sterilized products in hermetically sealed containers, a product which contains 6 percent or more nonmilk fat (or oil), or milkshake mix.

§ 1013.10 Pool plant.

"Pool plant" means a plant (except an other order plant or the plant of a producer-handler) that is specified in paragraph (a) or (b) of this section and which is not a facility described in paragraph (c) of this section:

(a) A distributing plant from which not less than 50 percent of the total Grade A fluid milk products, except filled milk, received at the plant during the month is disposed of on routes except as filled milk and not less than 10 percent of such receipts is disposed of in the marketing area on routes except as filled milk.

(b) A supply plant from which not less than 50 percent of the Grade A milk received from dairy farmers at such plant during the month is shipped as fluid milk products, except filled milk, to pool plants pursuant to paragraph (a) of this section.

(c) Pool plant as defined in this section shall not be deemed to include any building, premises, or facilities, the primary function of which is to hold or store bottled milk or milk products (including filled milk) in finished form, nor shall it include any part of a plant in which the operations are entirely separated (by wall or other partition) from the handling of producer milk.

2. In § 1013.11, the introductory text is revised to read as follows:

§ 1013.11 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

* * * * *

3. Section 1013.12 is revised to read as follows:

§ 1013.12 Route.

"Route" means any delivery to retail or wholesale outlets (including delivery by a vendor, or a sale from or through a plant store, or by vending machine) of any product in a form designated as Class I milk pursuant to § 1013.41(a), but does not include delivery to a milk or filled milk receiving or processing plant.

4. Section 1013.14 is revised to read as follows:

§ 1013.14 Producer-handler.

"Producer-handler" means any person who, during the month:

(a) Produces milk;

(b) Distributes Class I milk on routes in the marketing area;

(c) Uses no nonfluid milk products for reconstitution into fluid milk products; and

(d) Receives no milk except from his own dairy farm, and receives no products designated as Class I milk pursuant to § 1013.41(a) from pool plants or other sources.

5. A new § 1013.21 is added and reads as follows:

§ 1013.21 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

6. In § 1013.30, the introductory text and paragraph (b) are revised to read as follows:

§ 1013.30 Report of sources and utilization.

On or before the 7th day after the end of each month, each handler, except a handler pursuant to § 1013.13 (e) or (f), shall report to the market administrator for such month, and for each accounting period in each month, with respect to each plant at which milk is received or at which filled milk is processed or packaged in detail and on forms prescribed by the market administrator, as follows:

* * * * *

(b) The utilization of all skim milk and butterfat required to be reported pursuant to paragraph (a) of this section, including a separate statement showing:

(1) The respective amounts of skim milk and butterfat disposed of as Class I

milk on routes entirely outside the marketing area, showing separately the in-area and outside area route disposition of filled milk; and

(2) For a handler pursuant to § 1013.13 (b), the amount of reconstituted skim milk in fluid milk products disposed of in the marketing area on routes;

* * * * *

7. In § 1013.32, paragraph (b) is revised to read as follows:

§ 1013.32 Records and facilities.

* * * * *

(b) The weights and tests for butterfat and other content of all milk and milk products (including filled milk) handled;

* * * * *

8. In § 1013.46, subparagraphs (4) and (7) and the introductory texts of subparagraphs (2) and (11) in paragraph (a), and paragraph (d) are revised to read as follows:

§ 1013.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (4) (iv) of this paragraph, as follows:

* * * * *

(4) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class IV, the pounds of skim milk in each of the following:

(i) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(ii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iii) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(iv) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

* * * * *

(7) Subtract, in the order specified below, from the pounds of skim milk remaining in Class IV, Class III and/or Class II (beginning with Class IV unless otherwise specified) but not in excess of such quantity or quantities:

(i) Receipts of fluid milk products from unregulated supply plants and in other source milk from dairy farmers (except that subtracted pursuant to subparagraph (4) of this paragraph):

(a) For which the handler requests such utilization; or

(b) Which are in excess of the pounds of skim milk determined by subtracting from 125 percent of the pounds of skim milk remaining in Class I milk, the sum of the pounds of skim milk in producer milk, in receipts of fluid milk products from pool plants of other handlers, and in receipts of fluid milk products in bulk from other order plants that were not subtracted pursuant to subparagraph (4) (iv) of this paragraph; and

(ii) Receipts of fluid milk products in bulk from an other order plant that were not subtracted pursuant to subparagraph (4) (iv) of this paragraph, in excess of similar transfers to such plant, if Class III or Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(11) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from other order plants, in excess in each case of similar transfers to the same plant, that were not subtracted pursuant to subparagraphs (4) (iv) and (7) (ii) of this paragraph:

(d) A handler may account for the receipts, utilization and classification of milk and filled milk, at his plant, for periods within a month if he notifies the market administrator in writing of his intention to use such accounting period not later than the end of every accounting period.

9. In § 1013.61, paragraph (c) is revised and a new paragraph (d) is added to read as follows:

§ 1013.61 Plants where other Federal orders may apply.

* * * * *

(c) Any plant which does not dispose of a greater volume of Class I milk, except filled milk, on routes in the Southeastern Florida marketing area than in the marketing area regulated pursuant to such other order.

(d) Each handler operating a plant specified in paragraph (c) of this section, if such plant is subject to the classification and pricing provisions of another order which provides for individual-handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class III price.

10. In § 1013.62, paragraphs (a) (1) (i) and (b) are revised to read as follows:

§ 1013.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1) (i) The obligation that would have been computed pursuant to § 1013.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II or Class III milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class III price. There shall be included in the obligation so computed a charge in the amount specified in § 1013.70(e) and a credit in the amount specified in § 1013.82(b) (2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class III price, unless an obligation with respect to such plant is computed as specified below in this subparagraph.

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the uniform price applicable at such location (not to be less than the Class III price), and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the location of the nonpool plant less the value of such skim milk at the Class III price.

11. Section 1013.81 is revised to read as follows:

§ 1013.81 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made

by handlers pursuant to §§ 1013.61, 1013.62, 1013.82, and 1013.84 and out of which he shall make all payments pursuant to §§ 1013.83 and 1013.84: *Provided,* That any payments due to any handler shall be offset by any payments due from such handler.

12. In § 1013.87, paragraph (a) is revised to read as follows:

§ 1013.87 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period, the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The months during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the names of such producers or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid;

* * * * *

PART 1015—MILK IN THE CONNECTICUT MARKETING AREA

1. In § 1015.10, paragraph (a) is revised to read as follows:

§ 1015.10 Producer-handler.

* * * * *

(a) His sole source of supply for fluid milk products (exclusive of that portion thereof which is represented by nonfat solids used in fortification) is his own production and fluid milk products transferred from pool plants. For the purpose of this paragraph, any fluid milk products which were acquired or purchased from a nonpool plant by him, his agent, partner or other associate and which he or such other person caused to be delivered at retail or wholesale outlets (including vending machines) in any Federal marketing area without being first received at his plant shall be included in such person's nonpool source of fluid milk products.

* * * * *

2. In § 1015.15 the introductory text preceding paragraph (a) of the section is revised to read as follows:

§ 1015.15 Plant.

"Plant" means the land and buildings, whether owned or operated by one or more persons, at which are maintained facilities and equipment for the receiving, handling or processing of milk or milk products (including filled milk), constituting a single operating unit or establishment. The term "plant" does not include:

* * * * *

3. In § 1015.16 the introductory text preceding paragraph (a) is revised to read as follows:

§ 1015.16 Pool plant.

"Pool plant" means any plant specified in paragraph (a) or (b) of this section: *Provided,* That receipts and disposition of filled milk shall be excluded in determining whether a plant has met the conditions for pool plant status.

* * * * *

4. Section 1015.17 is revised to read as follows:

§ 1015.17 Exempt distributing plant.

"Exempt distributing plant" means a plant, other than a pool supply plant or a regulated plant under another Federal order, which meets all the requirements for status as a pool distributing plant except that its route disposition exclusive of filled milk in the marketing area in the month does not exceed 700 quarts on any day or a daily average of 300 quarts.

5. Section 1015.22 is revised to read as follows:

§ 1015.22 Fluid milk products.

"Fluid milk products" means milk, skimmed milk, flavored milk or skimmed milk, cultured skimmed milk, buttermilk, filled milk, concentrated milk, any mixture of milk or skimmed milk and cream containing less than 10 percent butterfat, and 50 percent of the quantity by weight of any mixture of milk or skimmed milk and cream containing at least 10 percent but less than 12 percent butterfat. The term includes these products in fluid, frozen, fortified, or reconstituted form but does not include sterilized products in hermetically sealed containers and such products as eggnog, yogurt, whey, ice cream mix, ice milk mix, milk shake base mix, evaporated or condensed milk or skimmed milk in either plain or sweetened form, and any product which contains 6 percent or more nonmilk fat (or oil). Fluid milk products which have been placed in containers for disposition to retail or wholesale outlets are referred to in this part as packaged fluid milk products.

6. In § 1015.25 the introductory text preceding paragraph (a) is revised to read as follows:

§ 1015.25 Pool milk.

"Pool milk" means fluid milk products (other than exempt milk) received or disposed of as specified in this section, except that with respect to filled milk the term shall include only the quantity proved to have been made from other fresh fluid milk products.

* * * * *

7. Section 1015.29 is added to read as follows:

§ 1015.29 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skimmed milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

8. In § 1015.55 paragraph (b)(3) is revised to read as follows:

§ 1015.55 Assignment to classes of skim milk and butterfat received.

* * * * *

(b) * * *

(3) Filled milk from any source (exclusive of receipts from other pool plants and regulated plants under other Federal orders with marketwide pools) which is not proved to have been made from other fresh fluid milk products and any other fluid milk products from producer-handlers under any Federal order, from exempt governmental agencies, or from exempt distributing plants under any New England Federal order in sequence beginning with the source most distant from Hartford according to its zone location;

* * * * *

9. In § 1015.63 paragraphs (e) and (f) are revised to read as follows:

§ 1015.63 Value of each handler's fluid milk products.

* * * * *

(e) Multiply by the applicable Class I price the quantities of:

(1) Pool milk under § 1015.25 (e) and (f) distributed as route disposition in the marketing area from the handler's nonpool plant; and

(2) Filled milk distributed as route disposition in the marketing area from the handler's nonpool plant which is excluded from pool milk only because it is not proved to have been made from other fresh fluid milk products.

(f) Multiply by the applicable Class II price the quantities of:

(1) Other source milk assigned to Class I milk under § 1015.55(b) (1) and (2);

(2) Other source milk assigned to Class I milk under § 1015.55(b) (3) and (4) and (d); and

(3) Product for which a value is determined under subparagraph (e)(2) of this section.

* * * * *

10. In § 1015.87 subparagraph (b) is revised to read as follows:

§ 1015.87 Payment of administration expense.

* * * * *

(b) The payment shall also apply to the quantity distributed as route disposition in the marketing area from a handler's nonpool plant for which a value is determined under § 1015.63(e), to the quantity of producer milk for which a cooperative association is the handler under § 1015.9(c), and to the quantity of producer milk for which the

cooperative association is the handler under § 1015.9(d), except that disposed of to pool plants or in ending inventory for the month.

11. In § 1015.94 paragraphs (a) and (d) are revised to read as follows:

§ 1015.94 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part, except as provided in paragraphs (b) and (c) of this section, shall terminate two years after the last day of the month during which the market administrator received the handler's utilization report on the skim milk and butterfat involved in the obligation, unless within the two-year period the market administrator notifies the handler in writing that the money is due and payable. Service of the notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of the producer or cooperative association, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which the handler claims to be due him under the terms of this part shall terminate two years after the end of the month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or two years after the end of the month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund is on the payment is claimed, unless the handler, within the applicable period of time, files a petition under section 8c(15)(A) of the Act, claiming the money.

PART 1016—MILK IN THE UPPER CHESAPEAKE BAY MARKETING AREA

1. Section 1016.3 is revised to read as follows:

§ 1016.3 Definitions of plants.

(a) "Plant" means the land, buildings, surroundings, facilities and equipment operated by one or more persons, constituting a single operating unit or establishment for the receiving (other than transfer from one vehicle to another), processing or packaging of milk or milk products (including filled milk).

(b) "Pool plant" means a plant specified in subparagraph (1), (2), (3), or (4) of this paragraph that is neither a producer-handler plant nor a plant of a handler pursuant to § 1016.2(g)(5): *Provided,* That any plant qualified as a pool plant pursuant to subparagraph (2) of this paragraph in each of the months of October through February shall be a pool plant for the immediately following months of March through September unless the handler gives written notice to the market administrator on or before the first day of any such month(s) (March through September) that the plant is a nonpool plant for the remaining months through September: *And provided further,* That any such plant specified in subparagraph (2) of this paragraph which was a nonpool plant during any month of October through February shall not be a pool plant in any of the immediately following months of March through September in which it is operated by the same handler, an affiliate of the handler or by any person who controls or is controlled by the handler.

(1) A plant which during the month disposes of as Class I milk, except filled milk, on routes in the marketing area a quantity equal to not less than 10 percent of its total receipts of milk from dairy farmers (including milk received from a cooperative association in its capacity as a handler pursuant to § 1016.2(g)(4)) and which disposes of as Class I milk, except filled milk, a quantity equal to not less than 50 percent of such receipts.

(2) A plant in any month of October through February in which a quantity of milk equal to not less than 50 percent, and in any month of March through September in which a quantity of milk equal to not less than 40 percent, of its receipts of milk from dairy farmers (including milk received from a cooperative association in its capacity as a handler pursuant to § 1016.2(g)(4)) is moved to a plant(s) which disposes of as Class I milk, except filled milk, on routes in the marketing area a quantity equal to not less than 10 percent of its receipts of milk from dairy farmers (including milk received from a cooperative association in its capacity as a handler pursuant to § 1016.2(g)(4)) and from other plants and which disposes of as Class I milk, except filled milk, a quantity equal to not less than 50 percent of such receipts: *Provided,* That in the case of a handler operating a pool plant qualified pursuant to subparagraph (1) of this paragraph and two or more plants approved by the appropriate health authority in the marketing area as a source of supply for such plant, such supply plants shall be considered as a unit (system) for purposes of plant qualification under this paragraph upon written notice to the market administrator by the handler designating the plants to be included and the period during which such designation shall apply. Such notice or notice of changes in designation shall be given on or before the first day of the first month to which such notice applies.

(3) A manufacturing plant, located in the marketing area, from which any fluid milk product is moved to a plant which is a pool plant pursuant to subparagraphs (1) and (4) of this paragraph if during the month not less than 90 percent of its receipts from dairy farmers (including milk received from a cooperative association in its capacity as a handler pursuant to § 1016.2(g)(4)) are from Baltimore City permit holders who are members of a cooperative association of which 70 percent or more of the members are producers whose milk is received at other pool plants.

(4) A plant which disposes of as Class I milk, except filled milk, on routes in the marketing area a quantity equal to not less than 5 percent of its total receipts from dairy farmers (including milk received from a cooperative association in its capacity as a handler pursuant to § 1016.2(g)(4)) and disposes of a quantity of milk equal to not less than 10 percent of such receipts either in such route disposition in the marketing area, or in quantities of skim milk and butterfat in the form of fluid milk products transferred or diverted to nonpool plants which dispose of such skim milk and butterfat on routes in the marketing area as Class I milk (considering such route disposition by each nonpool plant to be supplied out of such fluid milk products transferred or diverted to the nonpool plant to the extent that the skim milk and butterfat in the route disposition could have been so derived): *Provided,* That the plant herein qualified as a pool plant disposes of as Class I milk, except filled milk, a quantity equal to not less than 50 percent of its receipts of milk from dairy farmers: *And provided further,* That all plants as described in this subparagraph are operated by the same handler.

(c) "Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(1) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act;

(2) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act;

(3) "Partially regulated distributing plant" means a nonpool plant that is neither a producer-handler plant, an other order plant nor a plant of a handler pursuant to § 1016.2(g)(5) and from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month; and

(4) "Unregulated supply plant" means a nonpool plant that is neither a producer-handler plant, an other order plant nor a plant of a handler pursuant to § 1016.2(g)(5) and from which fluid milk products are shipped to a pool plant.

2. In § 1016.4, paragraph (a) is revised and a new paragraph (f) is added to read as follows:

§ 1016.4 Definitions of milk and milk products.

(a) "Fluid milk product" means milk, skim milk (including concentrated, reconstituted and fortified milk and skim milk) buttermilk, filled milk, milk drinks (plain or flavored) and (except eggnog, milk shake mix, ice cream mix, evaporated and plain or sweetened condensed milk or skim milk, sterilized products in hermetically sealed containers, and any product which contains 6 percent or more nonmilk fat (or oil)) any mixture in fluid form of cream and milk or skim milk containing less than 12 percent butterfat, and 50 percent of the quantity by weight of any such mixture containing at least 12 percent but less than 18 percent butterfat.

* * * * *

(f) "Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

3. In § 1016.30, subparagraph (3) of paragraph (a) and paragraph (b) are revised to read as follows:

§ 1016.30 Reports of receipts and utilization.

(a) * * *

(3) The utilization of all skim milk and butterfat required to be reported pursuant to this paragraph, showing separately in-area route disposition, except filled milk, and filled milk route disposition in the area.

(b) Each handler specified in § 1016.2 (g)(2) who operates a partially regulated distributing plant shall report as required in paragraph (a) of this section, except that milk approved for fluid consumption by the appropriate health authority received from dairy farmers shall be reported in lieu of those in producer milk; such report shall include a separate statement showing the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area.

3a. In § 1016.32, paragraph (b) is revised to read as follows:

§ 1016.32 Records and facilities.

* * * * *

(b) The weights and tests for butterfat and other content of all milk and milk products (including filled milk) handled;

* * * * *

4. In § 1016.44, subparagraph (5) of paragraph (f) is revised to read as follows:

§ 1016.44 Transfers.

* * * * *

(f) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

5. In § 1016.46, subparagraphs (2), (3), (4), (7), and the introductory text of subparagraph (8) preceding subdivision (i) of paragraph (a) are revised to read as follows:

§ 1016.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(vi) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or two percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which approval by a duly constituted health authority for fluid disposition is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of fluid milk products from a handler pursuant to § 1016.2 (g)(5);

(v) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(vi) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II:

(i) The pounds of skim milk in receipts of fluid milk products for which the handler requests Class II utilization which were received from unregulated supply plants, from other order plant(s) if not classified and priced pursuant to the order regulating the plant, and from dairy farmers who are not producers that were not subtracted pursuant to subparagraph (3) of this paragraph, but not in any case to exceed the pounds of skim milk remaining in Class II;

(ii) The pounds of skim milk remaining in receipts of other source milk in the form of fluid milk products from unregulated supply plants, from other order plant(s) if not classified and priced pursuant to the order regulating such plant, and from dairy farmers who are not producers, that were not subtracted pursuant to subparagraph (3) and (4)(i) of this paragraph, to the extent that the total of such receipts are in excess of the pounds of skim milk determined as follows:

(*a*) Multiply the pounds of skim milk remaining in Class I milk at all pool plants of the handler by 1.25;

(*b*) Subtract from the result the sum of the pounds of skim milk at all such plants in producer milk, receipts from pool plants of other handlers, from a cooperative association in its capacity as a handler pursuant to § 1016.2(g)(4) and in receipts in bulk from other order plants classified and priced pursuant to the applicable order that were not subtracted pursuant to subparagraph (3)(vi) of this paragraph; and

(*c*)(*1*) Multiply any resulting plus quantity by the percentage that receipts of skim milk in other source milk in the form of fluid milk products from unregulated supply plants, from other order plant(s) if not classified and priced pursuant to the order regulating such plant, and from dairy farmers who are not producers, remaining at this plant is of all such receipts remaining at all pool plants of such handler, after any deductions pursuant to subdivision (1) of this subparagraph;

(2) Should such computation result in a quantity to be subtracted from Class II which is in excess of the pounds of skim milk remaining in Class II, the pounds of skim milk in Class II shall be increased to the quantity to be subtracted and the pounds of skim milk in Class I shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made;

(iii) The pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3)(vi) of this paragraph, in excess of similar transfers to such plant if classified and priced pursuant to the other order and if Class II utilization was requested by the operator of such plant and the transferee handler, but not in excess of the pounds of skim milk remaining in Class II milk;

* * * * *

(7)(i) Subtract from the pounds of skim milk remaining in each class, pro rata to the total pounds of skim milk remaining in each class in all pool plants of the receiving handler, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants, from other order plant(s) if not classified or priced pursuant to the order regulating such plant, and from dairy farmers who are not producers, that were not subtracted pursuant to subparagraphs (3)(v), (3)(vi), (4)(i), or (4)(ii) of this paragraph;

(ii) Should such proration result in the amount to be subtracted from any class exceeding the pounds of skim milk remaining in such class in the pool plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case the utilization of milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made;

(8) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products in bulk from other order plants (except receipts from other order plant(s) not classified and priced pursuant to the order regulating such plant), in excess in each case of similar transfers to the same plant, that were not subtracted pursuant to subparagraphs (3)(vi) or (4)(iii) of this paragraph pursuant to the following procedure:

* * * * *

6. Section 1016.61 is revised to read as follows:

§ 1016.61 Plants subject to other Federal orders.

A plant specified in paragraph (a) or (b) of this section shall be exempted from all provisions of this part except as specified in paragraphs (c) and (d) of this section.

(a) Any plant qualified pursuant to § 1016.3(b) (1) or (4) which would otherwise be subject to the classification and pricing provisions of another order issued pursuant to the Act unless a greater volume of Class I milk, except filled milk, is disposed of from such plant on routes in this marketing area than in a marketing area pursuant to such other order.

(b) Any plant qualified pursuant to § 1016.3(b)(2) which would otherwise be subject to the classification and pricing provisions of another order issued pursuant to the Act unless such plant qualified as a pool plant pursuant to the first proviso in § 1016.3(b) for each month during the preceding October through February.

(c) Each handler operating a plant described in paragraph (a) or (b) of this section shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such manner as the market administrator may require (in lieu of reports pursuant to §§ 1016.30 and 1016.31) and allow verification of such reports by the market administrator.

(d) Each handler operating a plant specified in paragraph (a) of this section, if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

7. In § 1016.62, paragraph (a)(1)(i) and (b) are revised to read as follows:

§ 1016.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1)(i) The obligation that would have been computed pursuant to § 1016.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1016.70(e) and a credit in the amount specified in § 1016.84(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified below in this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location or the Class II price, whichever is higher and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

8. Section 1016.83 is revised to read as follows:

§ 1016.83 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1016.61, 1016.62, 1016.84, and 1016.86 and out of which he shall make all payments pursuant to §§ 1016.85 and 1016.86; *Provided,* That the market administrator shall offset any such payment due to any handler against payment due from such handler.

9. In § 1016.89, paragraphs (a) and (d) are revised to read as follows:

§ 1016.89 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c), terminate two years after the last day of the month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid;

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the month during which the payment (including deduction or set off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time files, pursuant

to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1030—MILK IN CHICAGO REGIONAL MARKETING AREA

1. Section 1030.7 is revised as follows:

§ 1030.7 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, flavored milk, flavored milk drinks, sweet cream, and any mixture in fluid form of such products, including filled milk. It also includes sour cream and sour cream products which are labeled Grade A. Eggnog, including custards and puddings, ice cream mix, frozen dessert mix, yogurt, aerated cream products, evaporated and condensed milk or skim milk and sterilized products in hermetically sealed containers shall not be fluid milk products pursuant to this section. This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

2. Section 1030.11 is revised as follows:

§ 1030.11 Pool plant.

"Pool plant" means a plant at which milk is received from dairy farmers, a facility at which milk received from farms in a tank truck is commingled with other milk for further shipment, or a plant at which milk is processed and packaged or manufactured, which plant or facility is described in paragraph (a), (b), or (c) of this section (except an other order plant or the plant of a producer-handler or an exempt distributing plant). If a portion of the plant is not approved by any health authority for the receiving, processing, or packaging of any fluid milk product for Grade A disposition and is physically separated from the Grade A portion, such unapproved portion shall not be considered a part of the pool plant.

(a) A distributing plant from which there is disposed of during the month not less than the percentages set forth in subparagraphs (2) and (3) of this paragraph of the receipts specified in subparagraph (1). Two or more distributing plants of a handler shall be considered a unit for the purpose of subparagraph (3) of this paragraph in any month if the handler operating such plants has filed a written request with the market administrator prior to such month requesting that they be considered a unit.

(1) The total Grade A fluid milk products, except filled milk, received during the month at such plant, including producer milk diverted under § 1030.16, but excluding receipts of fluid milk products from other pool distributing plants and receipts from other order plants and unregulated supply plants which are assigned pursuant to § 1030.46(a)(4) (i) (a) and (ii) and the corresponding step of § 1030.46(b).

(2) Not less than 10 percent of such receipts is disposed of from such plant in the marketing area in the form of packaged fluid milk products, except filled milk, either on routes or moved to other plants from which it is disposed of in the marketing area on routes. Such disposition is to be exclusive of receipts of packaged fluid milk products from other pool distributing plants.

(3) Not less than 45 percent of such receipts is disposed of in the form of packaged fluid milk products, except filled milk, either on routes or moved to other plants. Such disposition is to be exclusive of receipts of packaged fluid milk products from other pool distributing plants.

(b) A supply plant, or a facility at which milk received from farms in a tank truck is commingled with other milk for further shipment, from which the quantity of fluid milk products, except filled milk, moved during the month in accordance with subparagraphs (1), (2), and (3) of this paragraph is not less than the percentages specified in subparagraphs (4) and (5) of this paragraph subject to subparagraphs (6), (7), and (8) of this paragraph, of the volume of Grade A milk received from dairy farmers at such plant or facility, including producer milk diverted under § 1030.16.

(1) To pool plants pursuant to paragraph (a) of this section;

(2) To plants of producer-handlers;

(3) To partially regulated distributing plants and assigned to Class I milk disposed of in the marketing area from such plants pursuant to § 1030.44(d)(3)(i);

(4) Such percentages shall be not less than 40 percent in each of the months of September, October, and November and 30 percent in all other months, except that a plant which is a pool plant pursuant to this paragraph during each of the months of August through December shall be a pool plant for each of the following months of January through July unless:

(i) The milk received at the plant does not continue to meet the Grade A milk requirements for use in fluid milk products distributed in the marketing area; or

(ii) Written application is filed by the plant operator with the market administrator on or before the first day of any such month requesting the plant be designated a nonpool plant for such month and each subsequent month through July during which it would not otherwise qualify as a pool plant.

(5) Reserved.

(6) The percentages specified in subparagraph (4) of this paragraph applicable during the months August–December shall be increased or decreased by up to 10 percentage points by the Director of the Dairy Division if he finds such revision is necessary to obtain needed shipments or to prevent uneconomic shipments. Before making such a finding the Director shall investigate the need for revision either on his own initiative or at the request of interested persons and if his investigation shows that a revision might be appropriate he shall issue a notice stating that revision is being considered and inviting data, views, and arguments with respect to the proposed revision: *Provided*, That if a plant which would not otherwise qualify as a pool plant during the month pursuant to subparagraph (4) of this paragraph would qualify as a pool plant as a result of this subparagraph, such plant shall be a nonpool plant for such month upon filing by the operator of such plant a written request for nonpool status with the market administrator.

(7) Two or more plants shall be considered a unit for the purpose of this paragraph if the following conditions are met:

(i) The plants included in a unit are owned or fully leased and operated by the handler establishing the unit. In the case of plants operated by cooperative associations two or more cooperative associations may establish a unit of designated plants by filing with the market administrator a written contractual agreement obligating each plant of the unit to ship milk as directed by such cooperatives;

(ii) The handler or cooperatives establishing a unit notify the market administrator in writing of the plants to be included therein prior to August 1 of each year and no additional plants shall be added to the unit prior to August 1 of the following year; and

(iii) The notification pursuant to subdivision (ii) of this subparagraph shall list the plants in the order in which they shall be excluded from the unit if the minimum shipping requirements are not met, such exclusion to be in sequence beginning with the first plant on the list and continuing until the remaining plants as a unit have met the minimum requirements.

(8) If, during August through December a handler notifies the market administrator in writing that a plant is unable to meet the requirements set forth herein because of a work stoppage due to a labor dispute between employer and employees, the market administrator, upon verification of the handler's claim, shall not include the receipts and utilization of skim milk and butterfat at such plant for those days from the date of notification through the last day of the work stoppage in determining the percentage of skim milk and butterfat shipped pursuant to this paragraph. When the work stoppage includes an entire month, the plant shall be considered to have met the minimum percentage shipping requirements in that month for pool plant status pursuant to this paragraph, but such relief shall not be granted for more than two consecutive months.

(c) A plant which is operated by a cooperative association and which is not a pool plant pursuant to paragraph (a) or (b) of this section shall be a pool plant if at least 50 percent of the Grade A milk of producers of such cooperative association is received at pool distributing plants of other handlers during the month and written application for pool plant status is filed with the market administrator on or before the first day of such month.

3. Section 1030.12 is revised as follows:

§ 1030.12 Nonpool plant.

"Nonpool plant" means a plant (except a pool plant) which receives milk

from dairy farmers or is a milk or filled milk manufacturing, processing or bottling plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act, unless such plant is qualified as a pool plant pursuant to § 1030.11 and a greater volume of fluid milk products, except filled milk, is disposed of from such plant in this marketing area on routes and to pool plants qualified on the basis of route distribution in this marketing area than is so disposed of in the marketing area regulated pursuant to such other order.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is not an other order plant, a producer-handler plant, or an exempt distributing plant and from which fluid milk products in consumer-type packages or dispenser units are distributed in the marketing area on routes during the month.

(d) "Unregulated supply plant" means a nonpool plant that is not an other order plant, a producer-handler plant, or an exempt distributing plant from which fluid milk products are shipped during the month to a pool plant.

(e) "Exempt distributing plant" means a distributing plant operated by a governmental agency.

4. A new § 1030.19 is added as follows:

§ 1030.19 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

5. In § 1030.30, paragraph (b) is revised as follows:

§ 1030.30 Reports of receipts and utilization.

* * * * *

(b) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement showing the respective amounts of skim milk and butterfat disposed of as Class I milk inside and outside marketing area on routes, and a statement showing separately in-area and outside area route disposition of filled milk; and

* * * * *

6. In § 1030.31, paragraphs (a) and (c) are revised as follows:

§ 1030.31 Other reports.

(a) Each producer-handler shall report the receipts and disposition of skim milk and butterfat at such plant at such time and in such manner as the market administrator may require and shall allow verification of such reports by the market administrator.

* * * * *

(c) Each handler operating a partially regulated distributing plant shall report for each such plant the information required of pool plant operators pursuant to § 1030.30 substituting receipts from dairy farmers for producer milk; such report shall include a separate statement showing the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area; and

* * * * *

7. In § 1030.32, paragraphs (b) and (c) are revised as follows:

§ 1030.32 Records and facilities.

* * * * *

(b) The weights and butterfat and other content of all milk and milk products (including filled milk) handled during the month;

(c) The pounds of skim milk and butterfat contained in or represented by all milk products (including filled milk) in inventory at the beginning and end of each month; and

* * * * *

8. In § 1030.44, paragraph (e)(5) is revised as follows:

§ 1030.44 Transfers.

* * * * *

(e) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk and skim milk and butterfat allocated to the other classes shall be classified as Class II; and

* * * * *

9. Section 1030.46 is revised as follows:

§ 1030.46 Allocation of skim milk and butterfat classified.

After making the computations pursuant to § 1030.45, the market administrator shall determine the classification of producer milk for each handler (or pool plant, if applicable) as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II milk the pounds of skim milk classified as Class II milk pursuant to § 1030.41(b) (7) and (9);

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from an other order plant in excess in each case of similar transfers to the same plant, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II milk, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products which are from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order and from an exempt distributing plant;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another marketwide pool order.

(4) Subtract, in the order specified below from the pounds of skim milk remaining in Class II milk but not in excess of such quantity:

(i) Receipts of fluid milk products from an unregulated supply plant, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph:

(*a*) For which the handler requests Class II milk utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from pool plants of other handlers (or other pool plants, if applicable), and receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph; and

(ii) Receipts of fluid milk products, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in bulk, including diversions from an other order plant in excess of similar transfers and diversions to such plant, if Class II milk utilization was requested by the operator of such plant and the handler;

(5) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II milk, the pounds of skim milk in inventory of fluid milk products on hand at the beginning of the month;

(6) Add to the remaining pounds of skim milk in Class II milk the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraphs (3)(iv) or (4)(i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess

in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (3)(v) or (d)(ii) of this paragraph;

(i) In series beginning with Class II milk, the pounds determined by multiplying the pounds of such receipts by the larger of the percentage of estimated Class II milk utilization of skim milk announced for the month by the market administrator pursuant to § 1030.22(k) or the percentage that Class II milk utilization remaining is of the total remaining utilization of skim milk of the handler; and

(ii) From Class I milk, the remaining pounds of such receipts;

(9) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk received in fluid milk products from pool plants of other handlers (or other pool plants, if applicable) according to the classification assigned pursuant to § 1030.44(a); and

(10) If the pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class II milk. Any amount so subtracted shall be known as "overage"; and

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section.

10. Section 1030.60 is revised as follows:

§ 1030.60 Obligation of handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month either of the amounts (at the handler's election) calculated pursuant to paragraph (a) or (b) of this section. If the handler fails to report pursuant to § 1030.31 the information necessary to compute the amount specified in paragraph (a) of this section, he shall pay the amount computed pursuant to paragraph (b) of this section:

(a) An amount computed as follows:

(1) The obligation that would have been computed pursuant to § 1030.70 (a) through (e) at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the uniform price of the respective order if so allocated to Class I milk except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1030.70(e) and a credit in the amount specified in § 1030.84(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified below in this subparagraph. If the operator of the partially regulated distributing plant so requests, and provides with his report pursuant to § 1030.31 similar reports with respect to the operations of any other nonpool plant which serves as a supply plant for such partially regulated distributing plant by shipments to such plant during the month equivalent to the requirements of § 1030.11(b), with agreement of the operator of such plant that the market administrator may examine the books and records of such plant for purposes of verification of such reports, there will be added the amount of the obligation computed at such nonpool supply plant in the same manner and subject to the same conditions as for the partially regulated distributing plant.

(2) From this obligation there will be deducted the sum of (i) the gross payments made by such handler for Grade A milk received during the month from dairy farmers at such plant and like payments made by the operator of a supply plant(s) included in the computations pursuant to subparagraph (1) of this paragraph, and (ii) any payments to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant.

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk in the marketing area on routes;

(2) Deduct (except that deducted under a similar provision of another order issued pursuant to the Act) the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products or in filled milk disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I milk price (after deducting the location adjustment rate for the zone in which the nonpool plant is located) subtract its value at the uniform price at the same location or at the Class II price, whichever is higher and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

11. A new § 1030.61 is added as follows:

§ 1030.61 Plants subject to other Federal orders.

The provisions of this part shall not apply to an other order plant as defined in § 1030.12(a) except as specified in paragraphs (a) and (b) of this section.

(a) Each handler operating a plant described in § 1030.12(a) shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such manner as the market administrator may require (in lieu of reports pursuant to §§ 1030.30 and 1030.31) and allow verification of such reports by the market administrator.

(b) Each handler operating a plant subject to the classification and pricing provisions of another order which provides for individual-handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more marketwide pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area.

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

12. Section 1030.83 is revised as follows:

§ 1030.83 Producer-settlement fund.

The market administrator shall maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments into such fund and out of which he shall make all payments from such fund pursuant to §§ 1030.60, 1030.61, 1030.84, 1030.85, and 1030.86: *Provided*, That the market administrator shall offset the payment due to a handler against payments due from such handler.

13. In § 1030.89, paragraphs (a) and (d) are revised as follows:

§ 1030.89 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraph (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address and it shall contain but need not be limited to, the following:

(1) The amount of the obligation;

(2) The months during which the skim milk and butterfat, with respect to

which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producers or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1032—MILK IN THE SOUTHERN ILLINOIS MARKETING AREA

1. In § 1032.12, paragraphs (a) and (b) are revised to read as follows:

§ 1032.12 Pool plant.

* * * * *

(a) A distributing plant, other than that of a producer-handler or one described in § 1032.61, from which during the month:

(1) Disposition of fluid milk products, except filled milk, in the marketing area on routes is equal to 10 percent or more of its Grade A receipts from dairy farmers and cooperative associations in their capacity as handlers pursuant to § 1032.9(d), or from which an average of not less than 7,000 pounds per day of fluid milk products, except filled milk, is distributed on routes in the marketing area; and

(2) Total disposition of fluid milk products, except filled milk, on routes is equal to 50 percent or more of its Grade A receipts from dairy farmers and cooperative associations in their capacity as handlers pursuant to § 1032.9(d) during the months of August through February and 40 percent during all other months;

(b) A supply plant from which during the month an amount equal to 50 percent or more of its receipts of Grade A milk from dairy farmers and from cooperative associations in their capacity as handlers pursuant to § 1032.9(d) is moved to and received at a pool plant(s) described in paragraph (a) of this section which have at least 50 percent Class I use (not including filled milk) of the total of such supply plant milk and producer milk receipts in the months of August through February and 40 percent in other months;

* * * * *

2. Section 1032.13 is revised to read as follows:

§ 1032.13 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further denied as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products are shipped to a pool plant.

3. Section 1032.16 is revised to read as follows:

§ 1032.16 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, plain or flavored milk and milk drinks (unmodified or fortified), including "dietary milk products" and reconstituted milk or skim milk, filled milk, concentrated milk not in hermetically sealed containers, cream (sweet or sour), and mixtures of cream and milk or skim milk, but not including the following: Aerated cream products, frozen storage cream, sour cream and sour cream mixtures not labeled Grade A, eggnog, yogurt, frozen dessert mixes, evaporated or condensed milk, and sterilized fluid milk products in hermetically sealed containers. This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

4. A new § 1032.19a is added to read as follows:

§ 1032.19a Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

5. In § 1032.30, subparagraphs (3) and (5) of paragraph (a) and (c) are revised to read as follows:

§ 1032.30 Reports of receipts and utilization.

* * * * *

(a) * * *

(3) The utilization of all skim milk and butterfat required to be reported by this section, including a separate statement of the route disposition of Class I milk outside the marketing area and a statement showing separately in-area and outside area route disposition of filled milk;

* * * * *

(5) Such other information with respect to the receipts and utilization of milk and milk products (including filled milk) as the market administrator may require;

* * * * *

(c) Each handler specified in § 1032.9 (b) who operates a partially regulated distributing plant shall report as required in paragraph (a) of this section, except that receipts in Grade A milk shall be reported in lieu of those in producer milk; such report shall include a separate statement showing Class I disposition on routes in the marketing area of each of the following: skim milk and butterfat, respectively, in fluid milk products and the quantity thereof which is reconstituted skim milk; and

* * * * *

6. In § 1032.43, subparagraph (5) of paragraph (f) is revised to read as follows:

§ 1032.43 Transfers and diversions.

* * * * *

(f) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II;

* * * * *

7. In § 1032.45, subparagraphs (2), (3), (4), (5), (6), (7), (8), and the introductory text of subparagraph (9) preceding subdivision (i) of paragraph (a) are revised to read as follows:

§ 1032.45 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (4)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract from the remaining pounds of skim milk in Class I milk the pounds of skim milk in inventory of fluid milk products in packaged form on hand at the beginning of the month;

(4) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A

certification is not established, and receipts of fluid milk products from unidentified sources; and

(iii) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order.

(5) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II;

(i) The pounds of skim milk in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (4) (iv) of this paragraph, for which the handler requests Class II utilization, but not in excess of the pounds of skim milk remaining in Class II;

(ii) The pounds of skim milk remaining in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (4) (iv) of this paragraph, which are in excess of the pounds of skim milk determined as follows:

(a) Multiply the pounds of skim milk remaining in Class I milk (excluding Class I transfers between pool plants of the handler) at all pool plants of the handler by 1.25; and

(b) Subtract from the result the sum of the pounds of skim milk at all such plants in producer milk, in receipts from other pool handlers and in receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (4) (v) of this paragraph;

(iii) The pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (4) (v) of this paragraph in excess of similar transfers to such plant, but not in excess of the pounds of skim milk remaining in Class II, if Class II utilization was requested by the transferee handler and the operator of the transferor plant requests such utilization;

(6) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in inventory of bulk fluid milk products on hand at the beginning of the month;

(7) Add to the remaining pounds of skim milk in Class II milk the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraphs (4) (iv) or (5) (i) and (ii) of this paragraph;

(9) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, in excess in each case of similar transfers to the same plant, that were not subtracted pursuant to subparagraphs (4) (v) or (5) (iii) of this paragraph pursuant to the following procedure;

8. Section 1032.61 is revised to read as follows:

§ 1032.61 Plants subject to other Federal orders.

In the case of a handler in his capacity as operator of a plant specified in paragraphs (a), (b), and (c) of this section the provisions of this part shall not apply except as specified in paragraphs (d) and (e).

(a) A distributing plant qualified pursuant to § 1032.12(a) which meets the requirements of a fully regulated plant pursuant to the provisions of another order issued pursuant to the Act and from which a greater quantity of fluid milk products, except filled milk, is disposed of during the month from such plant as Class I route disposition in the marketing area regulated by the other order than as Class I route disposition in the Southern Illinois marketing area: *Provided,* That such a distributing plant which was a pool plant under this order in the immediately preceding month shall continue to be subject to all of the provisions of this part until the third consecutive month in which a greater proportion of such Class I route disposition is made in such other marketing area, unless the other order requires regulation of the plant without regard to its qualifying as a pool plant under this order subject to the proviso of this paragraph;

(b) A distributing plant qualified pursuant to § 1032.12(a), which meets the requirements of a fully regulated plant pursuant to the provisions of another Federal order and from which a greater quantity of Class I milk, except filled milk, is disposed of during the month in the Southern Illinois marketing area as Class I route disposition than as Class I route disposition in the other marketing area, and such other order which fully regulates the plant does not contain provision to exempt the plant from regulation even though such plant has greater such Class I route disposition in the marketing area of the Southern Illinois order; and

(c) Any plant qualified pursuant to § 1032.12(c) for any portion of the period of February through August, inclusive, that the milk at such plant is subject to the classification and pricing provisions of another order issued pursuant to the Act.

(d) The operator of a plant specified in paragraph (a), (b), or (c) of this section shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(e) Each handler operating a plant specified in paragraph (a) or (b) of this section, if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area.

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

9. In § 1032.62, paragraphs (a) (1) (i) and (b) are revised to read as follows:

§ 1032.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1) (i) The obligation that would have been computed pursuant to § 1032.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts of such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1032.70(f) and a credit in the amount specified in § 1032.84(b) (2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified below in this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants except that deducted under

a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location or the Class II price, whichever is higher; and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

10. Section 1032.83 is revised to read as follows:

§ 1032.83 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund," which shall function as follows: (a) All payments made by handlers pursuant to §§ 1032.61, 1032.62 (a) and (b), 1032.84, and 1032.86 shall be deposited in such fund and out of which shall be made all payments pursuant to §§ 1032.85 and 1032.86: *Provided,* That any payments due to any handler shall be offset by any payments due from such handler; and (b) all amounts subtracted pursuant to § 1032.71(h) shall be deposited in this fund and set aside as an obligated balance until withdrawn to effectuate § 1032.80 in accordance with the requirements of § 1032.71(i).

11. In § 1032.90, paragraphs (a) and (d) are revised to read as follows:

§ 1032.90 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be completed upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists were received or handled; and

* * * * *

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers or if the obligation is payable to the market administrator, the account for which it is to be paid;

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed or 2 years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler, if a refund on such payment is claimed, unless such handler within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1033—MILK IN THE GREATER CINCINNATI MARKETING AREA

1. Section 1033.9 is revised to read as follows:

§ 1033.9 Producer-handler.

"Producer-handler" means any person who is both a dairy farmer and a handler, but who receives no fluid milk products from other dairy farmers or from sources other than pool plants and no nonfluid milk products for reconstitution into fluid milk products: *Provided,* That such person provides proof satisfactory to the market administrator that (a) the maintenance, care and management of all the dairy animals and other resources necessary to produce the entire amount of milk handled is the personal enterprise of and at the personal risk of such person in his capacity as a dairy farmer, and (b) the operation of a distributing plant is the personal enterprise of and at the personal risk of such person in his capacity as a handler.

2. Section 1033.10 is revised to read as follows:

§ 1033.10 Plant.

"Plant" means the land and buildings together with their surroundings, facilities and equipment, constituting a single operating unit or establishment which contains stationary milk holding facilities and is operated exclusively for the bulk handling or processing of milk or milk products (including filled milk). The term "plant" does not include distribution points (separate premises used primarily for the transfer to vehicles of packaged fluid milk products moved there from processing and packaging plants).

3. In § 1033.13, paragraphs (a) and (b) are revised to read as follows:

§ 1033.13 Pool plant.

* * * * *

(a) A distributing plant with:

(1) Route disposition, except filled milk, within the marketing area during the month of at least 15 percent of its total route disposition, except filled milk, such percentage to be exclusive of receipts from other plants of packaged fluid milk products priced as Class I milk under this or any other Federal order; and

(2) Total route disposition, except filled milk, amounting to not less than 50 percent of its total receipts of Grade A milk from dairy farmers, other plants (excluding receipts of bulk fluid milk products transferred or diverted to it as Class II milk from other plants), and cooperatives as handlers pursuant to § 1033.8 (but excluding any such milk diverted from such plant to a nonpool plant by the cooperative pursuant to § 1033.15(c)). Any plant which complies with such percentage requirement during the immediately preceding month shall continue to be a pool plant during the current month even if the minimum percentage requirement under this subparagraph is not met for the current month.

(b) A supply plant from which during the month the volume of fluid milk products, except filled milk, shipped directly to and received at plants qualified pursuant to paragraph (a) of this section and route disposition, except filled milk, from such plant within the marketing area, if any, is not less than 50 percent of the volume of Grade A milk received from dairy farmers at such plant (excluding receipts from other plants or as a diversion pursuant to § 1033.15). Any supply plant which meets the required percentage of this paragraph during each of the months of September through February shall continue to be so qualified for the following months of March through August, unless such operator in writing requests nonpool plant status for such plant. Such nonpool plant status shall be effective the first month following such notice and thereafter until the plant requalifies under this section on the basis of shipments.

4. Section 1033.14 is revised to read as follows:

§ 1033.14 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which there is route disposition in the marketing area during the month of fluid milk products in consumer-type packages or dispenser units.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products are shipped to a pool plant.

5. Section 1033.16 is revised to read as follows:

§ 1033.16 Fluid milk product.

Except as provided in paragraph (c) of this section, "fluid milk product" means the fluid form of:

(a) Milk, skim milk, buttermilk, flavored milk, milk drink, whipped cream, cream (sweet or sour), eggnog, concentrated milk, filled milk; and

(b) Any mixture of milk, skim milk or cream including fluid, frozen, or semi-frozen malted milk and milk shake mixtures containing less than 15 percent total milk solids.

(c) Excluded from this definition are: Frozen storage cream, aerated cream in dispensers, ice cream and frozen dessert mixes, pancake mix, evaporated and condensed milk, and any sour mixture of skim milk and butterfat in nonfluid form to which cheese or any food substance other than a milk product has been added and which is disposed of as other than sour cream. Also excluded is any product which contains 6 percent or more nonmilk fat (or oil).

6. A new § 1033.19a is added to read as follows:

§ 1033.19a Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

7. In § 1033.30, paragraph (a) is revised to read as follows:

§ 1033.30 Monthly reports of receipts and utilization.

* * * * *

(a) The total pounds of skim milk and butterfat contained in or represented by:

(1) Producer milk, including own farm production and quantities diverted to nonpool plants;

(2) Fluid milk products received from other pool plants;

(3) Other source milk, with the identity of each source;

(4) Inventories of fluid milk products on hand at the beginning and end of the month in bulk and in packaged form, separately;

(5) Route disposition (except filled milk) inside the marketing area; and

(6) Route disposition of filled milk inside the marketing area;

* * * * *

8. In § 1033.31, paragraph (b) is revised to read as follows:

§ 1033.31 Other reports.

* * * * *

(b) Each handler specified in § 1033.8 (d) who operates a partially regulated distributing plant shall report as required of handlers operating pool plants pursuant to § 1033.30 (a) through (c), except dairy farmer receipts of Grade A milk shall be reported in lieu of producer milk. Such report shall include a separate statement showing the quantity of reconstituted skim milk in fluid milk products disposed of as route disposition in the marketing area; and

* * * * *

9. Section 1033.33 is revised to read as follows:

§ 1033.33 Records and facilities.

Each handler required to make reports to the market administrator shall maintain, and make available to the market administrator during the usual hours of business, such accounts and records of his operations and such facilities as are necessary for the market administrator to verify reports, or to ascertain the correct information with respect to (a) the receipts and utilization of all skim milk and butterfat received, including all milk products and filled milk received and disposed of in the same form; (b) the weights and tests for butterfat, and for other content, of all milk and milk products (including filled milk) handled; and (c) payments to producers and cooperative associations.

9a. In § 1033.41(b)(1), a new subdivision (vii) is added and reads as follows:

§ 1033.41 Classes of utilization.

* * * * *

(b) * * *

(1) * * *

(vii) Any product which contains 6 percent or more nonmilk fat (or oil);

* * * * *

10. In § 1033.43(d), subparagraph (5) is revised to read as follows:

§ 1033.43 Transfers.

* * * * *

(d) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

11. In § 1033.46(a), subparagraphs (2), (4), (5), (8), and (9) are revised to read as follows:

§ 1033.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (4)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

* * * * *

(4) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(5) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II:

(i) The pounds of skim milk in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (4)(iv) of this paragraph, for which the handler requests Class II utilization, but not in excess of the pounds of skim milk remaining in Class II;

(ii) The pounds of skim milk remaining in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (4)(iv) of this paragraph, which are in excess of the pounds of skim milk determined as follows:

(*a*) Multiply the pounds of skim milk remaining in Class I milk (excluding Class I transfers between pool plants of the handler) at all pool plants of the handler by 1.25;

(*b*) Subtract from the result the sum of the pounds of skim milk at all such plants in producer milk, in receipts from other pool handlers and in receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (4)(v) of this paragraph; and

(*c*)(*1*) Multiply any resulting plus quantity by the percentage that receipts of skim milk in fluid milk products from unregulated supply plants remaining at this plant is of all such receipts remaining at all pool plants of such handler, after any deductions pursuant to subdivision (i) of this subparagraph.

(2) Should such computation result in a quantity to be subtracted from Class II which is in excess of the pounds of skim milk remaining in Class II, the pounds of skim milk in Class II shall be increased to the quantity to be subtracted and the pounds of skim milk in Class I shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made.

(iii) The pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (4)(v) of this paragraph, in excess of similar transfers to such plant, but not

in excess of the pounds of skim milk remaining in Class II milk if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(8) (i) Subtract from the pounds of skim milk remaining in each class, pro rata to the total pounds of skim milk remaining in each class in all pool plants of the receiving handler, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraphs (4) (iv) and (5) (i) or (ii) of this paragraph;

(ii) Should such proration result in the amount to be subtracted from any class exceeding the pounds of skim milk remaining in such class in the pool plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made;

(9) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, in excess in each case of similar transfers to the same plant, that were not subtracted pursuant to subparagraphs (4) (v) and (5) (iii) of this paragraph pursuant to the following procedure:

(i) Subject to the provisions of subdivisions (ii) and (iii) of this subparagraph, such subtraction shall be prorata to whichever of the following represents the higher proportion of all Class II milk:

(*a*) The estimated utilization of skim milk in each class, by all handlers, as announced for the month pursuant to § 1033.22(k); or

(*b*) The pounds of skim milk in each class remaining at all pool plants of the handler;

(ii) Should proration pursuant to subdivision (i) of this subparagraph result in the total pounds of skim milk to be subtracted from Class II at all pool plants of the handler exceeding the pounds of skim milk remaining in Class II at such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which received;

(iii) Except as provided in subdivision (ii) of this subparagraph, should proration pursuant to either subdivision (i) or (ii) of this subparagraph result in the amount to be subtracted from any class exceeding the pounds of skim milk remaining in such class in the pool plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made;

* * * * *

12. In § 1033.61, paragraphs (a) (1) (i) and (b) are revised to read as follows:

§ 1033.61 Obligations of a handler operating a partially regulated distributing plant.

* * * * *

(a) An amount computed as follows:

(1) (i) The obligation that would have been computed pursuant to § 1033.60 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1033.60(e) and a credit in the amount specified in § 1033.72(b) with respect to receipts from an unregulated supply plant except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified below in this subparagraph.

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as route disposition (other than to pool plants) in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of as route disposition in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location (not to be less than the Class II price), and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

13. In § 1033.71, paragraph (a) is revised to read as follows:

§ 1033.71 Producer-settlement fund.

* * * * *

(a) All payments made by handlers pursuant to §§ 1033.61 (a) and (b), 1033.72, and 1033.92 shall be deposited in this fund, and all payments made pursuant to § 1033.73 shall be made out of this fund;

* * * * *

14. In § 1033.78, paragraphs (a) and (d) are revised to read as follows:

§ 1033.78 Termination of obligation.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of such producers or cooperative association, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part, shall terminate 2 years after the end of the calendar month during which skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

15. Section 1033.92 is revised to read as follows:

§ 1033.92 Plants subject to other Federal orders.

(a) The provisions of this part shall not apply, except as specified in paragraphs (b) and (c) of this section, to a distributing plant or a supply plant during any month in which the milk at such plant would be subject to the classification and pricing provisions of another order issued pursuant to the Act unless such plant meets the requirements for a pool plant pursuant to § 1033.13 and a greater volume of fluid milk products, except filled milk, is disposed of from such plant in this marketing area on

routes and to pool plants qualified on the basis of route distribution in this marketing area than in the marketing area and to pool plants regulated pursuant to such other order during the current month and each of the 3 months immediately preceding.

(b) The operator of a distributing plant or a supply plant which is exempt from the provisions of this order pursuant to this section shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(c) Each handler operating a distributing plant specified in paragraph (a) of this section, if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of as route disposition in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant as route disposition in marketing areas regulated by two or more marketwide pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

PART 1034—MILK IN THE MIAMI VALLEY, OHIO, MARKETING AREA

1. Section 1034.10 is revised to read as follows:

§ 1034.10 Plant.

"Plant" means the land and buildings together with their surroundings, facilities, and equipment constituting a single operating unit or establishment which is operated exclusively by one or more persons and used for the bulk handling or processing of milk or milk products (including filled milk).

2. In § 1034.13, paragraphs (a) and (b) are revised to read as follows:

§ 1034.13 Pool plant.

* * * * *

(a) A distributing plant from which during the month:

(1) Route disposition (except filled milk) made within the marketing area is at least 15 percent of its total route disposition (except filled milk); and

(2) At least 50 percent of the total receipts of Grade A milk at such plant from dairy farmers, other plants (excluding receipts of bulk fluid milk products from other plants which are assigned as Class II milk pursuant to § 1034.45(a) (5) (i) and (iii) and (10)), and cooperatives as handlers pursuant to § 1034.8, including any such milk diverted to other plants pursuant to § 1034.15 by the handler operating such plant, is route disposition (except filled milk) during each of the months of August through January, at least 45 percent February and March, and at least 40 percent during other months, except that a plant which qualifies as a pool plant by complying with the preceding requirements of this subparagraph during the immediately preceding month shall continue to be a pool plant during the current month even if the minimum percentage requirement for the current month is not met.

(b) A supply plant from which during the month the volume of fluid milk products (except filled milk) shipped to and received at plants qualified pursuant to paragraph (a) of this section and route disposition (except filled milk) from such plant within the marketing area, if any, is not less than 50 percent of the volume of Grade A milk received from dairy farmers at such plant (including receipts from a handler pursuant to § 1034.8(c) but not receipts of other milk on diversion pursuant to § 1034.15). Any supply plant which is qualified by reason of meeting the required percentage of this paragraph during the months of August through March shall continue to be so qualified for the following months of April through July even if the required percentage pursuant to this paragraph is not met in the latter months, unless such operator requests the market administrator in writing that such plant should not be so qualified, such revised status to be effective the first month following such notice and thereafter until the plant requalifies under this section on the basis of shipments.

* * * * *

3. In § 1034.14, the introductory text immediately preceding paragraph (a) is revised to read as follows:

§ 1034.14 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

* * * * *

4. Section 1034.16 is revised to read as follows:

§ 1034.16 Fluid milk product.

"Fluid milk product" means milk, skim milk, flavored or cultured milk or skim milk, filled milk, buttermilk, concentrated milk, sweet or sour cream, and any fluid mixture of cream and milk or skim milk, including prepared milk shake mixes containing less than 15 percent total milk solids. The term includes these products in fluid, frozen (except cream), fortified or reconstituted form, but does not include sterilized cream in hermetically sealed metal or glass containers, eggnog, ice cream mix, or other frozen dessert mixes, aerated cream products, storage cream, cultured sour mixtures disposed of as other than sour cream unless labeled as a Grade A product, evaporated or condensed milk or skim milk in either plain or sweetened form, and a product which contains 6 percent or more nonmilk fat (or oil).

5. A new § 1034.19 is added to read as follows:

§ 1034.19 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

6. In § 1034.30, paragraphs (a)(3) and (c) are revised to read as follows:

§ 1034.30 Reports of receipts and utilization.

* * * * *

(a) * * *

(3) The utilization or disposition of all receipts required to be reported, including separate data relative to:

(i) Bulk fluid milk products on hand at the end of the month;

(ii) Packaged fluid milk products on hand at the end of the month;

(iii) Route disposition (except filled milk), inside and outside the marketing area; and

(iv) Route disposition of filled milk inside and outside the marketing area; and

* * * * *

(c) Each handler who operates a partially regulated distributing plant shall report for such plant the information required by paragraph (a) of this section, except that receipts of milk approved by any duly constituted health authority for fluid consumption in the marketing area shall be reported as if producer milk. Such report shall include a separate statement showing the quantity of reconstituted skim milk in fluid milk products disposed of as route disposition in the marketing area.

7. Section 1034.33 is revised to read as follows:

§ 1034.33 Records and facilities.

Each handler, including any partially regulated handler, shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of his operations, together with such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) Receipts of producer milk and other source milk and the utilization of such receipts at each of his plants;

(b) Weights and tests for butterfat and other content of all milk, skim milk, cream, and other milk products (including filled milk) handled;

(c) The pounds of skim milk and butterfat contained in or represented by all milk products (including filled milk) on hand at the beginning and end of each month at each plant; and

(d) Payments to producers, other dairy farmers, and cooperative associations including the amount and nature of any deductions made and the disbursement of money so deducted.

8. In § 1034.43(d), subparagraph (5) is revised to read as follows:

§ 1034.43 Transfers.

* * * * *

(d) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

9. In § 1034.45(a), subparagraphs (2), (4), (5), (8), and (9) are revised to read as follows:

§ 1034.45 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (4) (vi) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or two percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

* * * * *

(4) Subtract successively from the pounds of skim milk remaining in each class in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product, provided that any such milk received as cottage cheese curd shall be subtracted directly from the handler's cottage cheese utilization;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal order;

(iv) Receipts of fluid milk products from a plant exempt pursuant to § 1034.60(b);

(v) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(vi) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(5) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II:

(i) The pounds of skim milk in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (4) (v) of this paragraph, for which the handler requests Class II utilization (other than cottage cheese manufacture) but not in excess of the pounds of skim milk remaining in such Class II uses;

(ii) The pounds of skim milk remaining in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (4) (v) of this paragraph, which are in excess of the pounds of skim milk determined as follows:

(*a*) Multiply the pounds of skim milk remaining in Class I milk (excluding Class I transfers between pool plants of the handler) at all pool plants of the handler by 1.25;

(*b*) Subtract from the result the sum of the pounds of skim milk at all such pool plants in producer milk, in receipts from other pool handlers and in receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (4) (vi) of this paragraph; and

(*c*) (*1*) Multiply any resulting plus quantity by the percentage that receipts of skim milk in fluid milk products from unregulated supply plants remaining at this plant is of all such receipts remaining at all pool plants of such handler, after any deductions pursuant to subdivision (i) of this subparagraph;

(*2*) Should such computation result in a quantity to be subtracted from Class II, which is in excess of the pounds of skim milk remaining in Class II, the pounds of skim milk in Class II shall be increased to the quantity to be subtracted and the pounds of skim milk in Class I shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made;

(iii) The pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (4) (vi) of this paragraph, in excess of similar transfers to such plant, but not in excess of the pounds of skim milk remaining in Class II milk, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(8) (i) Subtract from the pounds of skim milk remaining in each class, pro rata to the total pounds of skim milk remaining in each class in all pool plants of the receiving handler, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraphs (4) (v) and (5) (i) or (ii) of this paragraph;

(ii) Should such proration result in the amount to be subtracted from any class exceeding the pounds of skim milk remaining in such class in the pool plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made;

(9) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (4) (vi) and (5) (iii) of this paragraph:

(i) Subject to the provisions of subdivisions (ii) and (iii) of this subparagraph, such subtraction shall be pro rata to whichever of the following represents the higher proportion of all Class II milk.

(*a*) The estimated utilization of skim milk in each class, by all handlers, as announced for the month pursuant to § 1034.22(I); or

(*b*) The pounds of skim milk in each class remaining at all pool plants of the handler;

(ii) Should proration pursuant to subdivision (i) of this subparagraph result in the total pounds of skim milk to be subtracted from Class II at all pool plants of the handler exceeding the pounds of skim milk remaining in Class II at such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which received;

(iii) Except as provided in subdivision (ii) of this subparagraph, should proration pursuant to either subdivision (i) or (ii) of this subparagraph result in the amount to be subtracted from any class exceeding the pounds of skim milk remaining in such class in the pool plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made;

* * * * *

10. Section 1034.61 is revised to read as follows:

§ 1034.61 Plants subject to other Federal orders.

The provisions of this part shall not apply except as specified in paragraphs (c) and (d) of this section:

(a) A distributing plant during any month in which the milk at such plant would be subject to the classification and pricing provisions of another order issued pursuant to the Act, unless such plant qualified as a pool plant pursuant to § 1034.13(a) and a greater volume of

fluid milk products (except filled milk) is disposed of from such plant to retail or wholesale outlets in the Miami Valley, Ohio, marketing area and to pool plants under this part than in the marketing area and to pool plants regulated by such other order during the current month and each of the 3 months immediately preceding.

(b) A supply plant meeting the requirements of § 1034.13(b) which also continues to have pool plant status under another Federal order.

(c) The operator of a plant specified in paragraph (a) or (b) of this section shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(d) Each handler operating a plant specified in paragraph (a) of this section, if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of as route disposition in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant as route disposition in marketing areas regulated by two or more marketwide pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

11. In § 1034.62, paragraphs (a) (1) (i) and (b) are revised to read as follows:

§ 1034.62 Obligation of a handler operating a partially regulated distributing plant.

* * * * *

(a) An amount computed as follows:

(1) (i) The obligation that would have been computed pursuant to § 1034.70 had such plant been a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant, transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order is so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1034.70(f) and a credit in the amount specified in § 1034.84 (b) (2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph.

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as route disposition (other than to pool plants) in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of as route disposition in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location (not to be less than the Class II price), and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

12. Section 1034.83 is revised to read as follows:

§ 1034.83 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund", which shall function as follows:

(a) All payments made by handlers pursuant to §§ 1034.61, 1034.62, 1034.84, and 1034.86 shall be deposited in such fund and out of which shall be made all payments pursuant to §§ 1034.85 and 1034.86, except that any payments due to any handler shall be offset by any payments due from such handler; and

(b) All amounts subtracted pursuant to § 1034.71(h) shall be deposited in this fund and set aside as an obligated balance until withdrawn to effectuate § 1034.80 in accordance with the requirements of § 1034.71(i).

13. In § 1034.100, paragraphs (a) and (d) are revised to read as follows:

§ 1034.100 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the month during which the payment (including deduction or set off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1035—MILK IN THE COLUMBUS, OHIO, MARKETING AREA

1. Section 1035.7 is revised to read as follows:

§ 1035.7 Fluid milk product.

"Fluid milk products" means the fluid form of milk, skim milk, filled milk, buttermilk, concentrated milk, milk drinks (plain or flavored including dietary milk, prepared milk shake mixes containing 15 percent or less of total milk solids and eggnog), sweet or sour cream, or any mixture in fluid form of milk, skim milk or cream (except storage cream, aerated cream products, ice cream mix, cultured sour mixtures which are not labeled "Grade A", evaporated or condensed milk and sterilized products packaged in hermetically sealed containers). This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

2. Section 1035.8 is revised to read as follows:

§ 1035.8 Route.

"Route" means a delivery (including a sale from a plant store) of a fluid milk product(s) to a wholesale or retail stop(s) other than to a milk or filled milk plant(s) or to a food processing plant(s) for use other than for fluid consumption.

3. Section 1035.9 is revised to read as follows:

§ 1035.9 Fluid milk plant.

"Fluid milk plant" means a plant or other facilities which are used in the

receipt, preparation, or processing of milk which is approved by a duly constituted health authority for fluid disposition as Grade A milk of filled milk and all or a portion of such milk of filled milk is:

(a) Disposed of during the month in the form of a fluid milk product(s) in the marketing area on a route(s); or

(b) Moved to a plant described in paragraph (a) of this section in the form of a fluid milk product(s).

4. In § 1035.10, paragraphs (a) and (b) are revised to read as follows:

§ 1035.10 Pool plant.

* * * * *

(a) Any fluid milk plant from which the volume of Class I milk, except filled milk, disposed of on a route(s) is equal to not less than 50 percent of the Grade A milk described in § 1035.12(a) received at such plant from dairy farmers and from other plants during the month and more than 15 percent of such receipts are disposed of as Class I milk, except filled milk, on routes in the marketing area: *Provided,* That the 50 percent requirement of this paragraph shall apply only during the months of January, February, October and November to a fluid milk plant which operates routes all of which service only the Campus of Ohio State University, Columbus, Ohio; or

(b) Any fluid milk plant which receives milk from dairy farmers described in § 1035.12(a) and from which fluid milk products, except filled milk, equal to not less than 50 percent of the milk received at such plant from such dairy farmers during the month is moved to a plant(s) described in paragraph (a) of this section: *Provided,* That if such shipments are not less than 50 percent of the receipts of milk from such dairy farmers at such plant during the immediately preceding period of August through November, such plant shall, unless written application for nonpool plant status is received by the market administrator from the operator of such plant on or before March 1 of any year, be designated as a pool plant for the months of March through July of such year.

5. In § 1035.11, the introductory text immediately preceding paragraph (a), and paragraphs (c) and (d) are revised to read as follows:

§ 1035.11 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

* * * * *

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which milk, skim milk, filled milk, or cream is shipped to a pool plant.

6. Section 1035.15 is revised as follows:

§ 1035.15 Producer-handler.

"Producer-handler" means any person who processes and packages milk from his own farm production, who distributes any portion of such milk on a route in the marketing area and who receives no fluid milk products from other dairy farmers or nonpool plants and no nonfluid milk products for reconstitution into fluid milk products: *Provided,* That such person provides proof satisfactory to the market administrator that (a) the care and management of all the dairy animals and other resources necessary to produce the entire amount of fluid milk handled (excluding transfers from pool plants) is the personal enterprise of and at the personal risk of such person and (b) the operation of the processing and distributing business is the personal enterprise of and at the personal risk of such person.

7. A new § 1035.19 is added to read as follows:

§ 1035.19 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

8. In § 1035.30, paragraph (b) is revised to read as follows:

§ 1035.30 Reports of receipts and utilization.

* * * * *

(b) The utilization of all skim milk and butterfat required to be reported by each handler pursuant to this section, including separate statements of his disposition of fluid milk products (except filled milk) and filled milk on routes in the marketing area.

* * * * *

9. In § 1035.31, paragraph (b) is revised to read as follows:

§ 1035.31 Other reports.

* * * * *

(b) Each handler specified in § 1035.14 (c) who operates a partially regulated distributing plant shall report as required pursuant to § 1035.30, except that receipts in Grade A milk shall be reported in lieu of those in producer milk; such report shall include separate statements showing the respective amounts of skim milk and butterfat disposed of on routes in the marketing area as Class I milk and the amount of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area: *Provided,* That a handler making payments pursuant to § 1035.63(b) need not report payments pursuant to § 1035.30(d) to dairy farmers.

* * * * *

10. Section 1035.32 is revised to read as follows:

§ 1035.32 Records and facilities.

Each handler and producer-handler shall maintain and make available to the market administrator, his agent, or such other person as the Secretary may designate, during the usual hours of business, such accounts and records of his operations and such facilities, as, in the opinion of the market administrator, are necessary to verify reports or to ascertain the correct information with respect to (a) the receipts and utilization of all skim milk and butterfat handled, including all milk products and filled milk received and disposed of in the same form; (b) the weights and tests for butterfat and for other contents, of all milk and milk products (including filled milk) handled; and (c) payments to producers and cooperative associations.

11. In § 1035.43(e), subparagraph (5) is revised to read as follows:

§ 1035.43 Transfers.

* * * * *

(e) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

12. In § 1035.46(a), subparagraphs (2), (3), (4), (7), and (8) are revised to read as follows:

§ 1035.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or two percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling, to the extent that reconstituted skim

milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another marketwide pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II but not in excess of such quantity:

(i) Receipts of fluid milk products from an unregulated supply plant, that were not subtracted pursuant to subparagraph (3) (iv) of this paragraph:

(*a*) For which the handler requests Class II utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from other pool handlers, and receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3) (v) of this paragraph;

(ii) Receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3) (v) of this paragraph, in excess of similar transfers to such plant, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraphs (3) (iv) and (4) (i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (3) (v) and (4) (ii) of this paragraph:

(i) In series beginning with Class II, the pounds determined by multiplying the pounds of such receipts by the larger of the percentage of estimated Class II utilization of skim milk announced for the month by the market administrator pursuant to § 1035.22(1) or the percentage that Class II utilization remaining is of the total remaining utilization of skim milk of the handler; and

(ii) From Class I, the remaining pounds of such receipts;

* * * * *

13. In § 1035.63, paragraphs (a) (1) (i) and (b) are revised to read as follows:

§ 1035.63 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) An amount computed as follows:

(1) (i) The obligation that would have been computed pursuant to § 1035.60 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1035.60(e) and a credit in the amount specified in § 1035.71(c) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified below in this subparagraph.

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location or the Class II price, whichever is higher, and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

14. Section 1035.64 is revised to read as follows:

§ 1035.64 Plants subject to other Federal orders.

(a) The provisions of this part, except paragraph (b) of this section, shall not apply to a milk plant during any month in which the milk at such plant would be subject to the classification and pricing provisions of another order issued pursuant to the Act unless such plant meets the requirements for a pool plant pursuant to § 1035.10 and a greater volume of fluid milk products, except filled milk, is disposed of from such plant in the Columbus, Ohio, marketing area to retail or wholesale outlets and other pool plants than in the marketing area regulated pursuant to such other order during the current month and each of the three months, immediately preceding: *Provided,* That the operator of a plant which is exempted from the provisions of this order pursuant to this section shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(b) Each handler operating a plant specified in paragraph (a) of this section, if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more marketwide pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

15. Section 1035.70 is revised to read as follows:

§ 1035.70 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund, known as the "producer-settlement fund", which shall function as follows:

(a) All payments made by handlers pursuant to §§ 1035.64 and 1035.71 shall be deposited in this fund, and all payments made pursuant to § 1035.72 (a) and (b) shall be made out of this fund; and

(b) All amounts subtracted pursuant to § 1035.61(h) shall be deposited in this fund and set aside as an obligated balance until withdrawn to effectuate § 1035.72 in accordance with the requirements of § 1035.61(i).

16. In § 1035.92, paragraphs (a) and (d) are revised to read as follows:

§ 1035.92 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;
(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and
(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation, is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or set off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1036—MILK IN THE EASTERN OHIO-WESTERN PENNSYLVANIA MARKETING AREA

1. Section 1036.7 is revised to read as follows:

§ 1036.7 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, flavored milk, flavored milk drinks, filled milk, concentrated milk, cream, and mixtures of such cream or milk and skim milk.

2. Sections 1036.9 and 1036.10 are revised to read as follows:

§ 1036.9 Distributing plant.

"Distributing plant" means a plant in which:

(a) Milk approved by a duly constituted health authority for fluid consumption is processed or packaged and which has route disposition in the marketing area during the month; or
(b) Filled milk is processed or packaged and which has route disposition in the marketing area during the month.

§ 1036.10 Supply plant.

"Supply plant" means a plant from which:

(a) A fluid milk product acceptable to a duly constituted health authority is transferred or diverted during the month to a pool plant; or
(b) Filled milk is transferred during the month to a pool plant.

3. Section 1036.11 is revised to read as follows:

§ 1036.11 Pool plant.

"Pool plant" means a plant specified in paragraph (a) or (b) of this section that is not an other order plant or a producer-handler plant.

(a) A distributing plant that has route disposition, except filled milk, during the month of not less than 50 percent (40 percent for each month of April through August) of the total receipts of fluid milk products, except filled milk, that are approved by a duly constituted health authority for fluid consumption and that are physically received at such plant or diverted as producer milk to a nonpool plant pursuant to § 1036.16 and that has route disposition, except filled milk, in the marketing area during the month of not less than 15 percent of such receipts.

(b) A supply plant from which during the months of September, October, and November not less than 50 percent, and in all other months not less than 40 percent, of the total quantity of milk approved by a duly constituted health authority for fluid consumption physically received (including that diverted from other plants) at such plant from dairy farmers and handlers pursuant to § 1036.13(d) or diverted as producer milk pursuant to § 1036.16 to pool plants and nonpool plants is transferred or diverted to and physically received in the form of fluid milk products, except filled milk, at pool plants pursuant to paragraph (a) of this section. A plant that was a pool plant pursuant to this paragraph in each of the immediately preceding months of September through February shall be a pool plant for the months of March through August unless the milk received at the plant does not continue to meet the requirements of a duly constituted health authority or a written application is filed by the plant operator with the market administrator on or before the first day of any such month requesting that the plant be designated as a nonpool plant for such month and each subsequent month through August during which it would not otherwise qualify as a pool plant.

4. In § 1036.12, the introductory text and paragraph (a) are revised to read as follows:

§ 1036.12 Nonpool plant.

"Nonpool plant" means a plant (except a pool plant) which receives milk from dairy farmers or is a milk or filled milk manufacturing, processing or bottling plant. The following categories of nonpool plants are further defined as follows:

(a) Except as provided in paragraphs (c)(2) and (d)(2) of this section, "other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act, unless such plant is qualified as a pool plant pursuant to § 1036.11 and a greater volume of fluid milk products, except filled milk, is disposed of from such plant in this marketing area as route disposition and to pool plants qualified on the basis of route disposition in this marketing area than is so disposed of from such plant in the marketing area regulated pursuant to such other order.

* * * * *

5. Section 1036.14 is revised to read as follows:

§ 1036.14 Producer-handler.

"Producer-handler" means any person who:

(a) Operates a dairy farm and a distributing plant;
(b) Receives no fluid milk products from sources other than his own farm production and pool plants;
(c) Uses no nonfluid milk products for reconstitution into fluid milk products; and
(d) Provides proof satisfactory to the market administrator that the care and management of the dairy animals and other resources necessary for his own farm production and the operation of the processing and packaging business are the personal enterprise and risk of such person.

6. A new § 1036.22 is added to read as follows:

§ 1036.22 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk products, and contains less than 6 percent nonmilk fat (or oil).

7. In § 1036.30, the introductory text and paragraph (b) are revised to read as follows:

§ 1036.30 Reports of receipts and utilization.

On or before the eighth day after the end of each month, each handler (except a handler pursuant to § 1036.13 (e) or (f)) shall report to the market administrator for such month with respect to each plant at which milk is received or at which filled milk is processed or packaged, reporting in detail and on forms prescribed by the market administrator:

* * * * *

(b) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement showing:
(1) The respective amounts of skim milk and butterfat in route disposition in the marketing area, showing separately the in-area route disposition of filled milk; and
(2) For a handler pursuant to § 1036.13(b), the amount of reconstituted skim milk in route disposition in the marketing area; and

* * * * *

8. In § 1036.33, paragraphs (b) and (c) are revised to read as follows:

§ 1036.33 Records and facilities.

* * * * *

(b) The weights and butterfat and other content of all milk and milk products (including filled milk) handled during the month;

(c) The pounds of skim milk and butterfat contained in or represented by all milk products (including filled milk) in inventory at the beginning and end of each month; and

* * * * *

8a. In § 1036.41(b), subparagraphs (1) and (2) are revised to read as follows:

§ 1036.41 Classes of utilization.

* * * * *

(b) * * *

(1) Skim milk and butterfat used to produce frozen desserts (e.g., ice cream, ice cream mix), sour cream, sour cream products (e.g., dips), eggnog, yogurt, aerated cream products, butter, cheese (including cottage cheese), evaporated and condensed milk (plain or sweetened), nonfat dry milk, dry whole milk, dry whey, condensed or dry buttermilk, a product which contains six percent or more nonmilk fat (or oil), milk shake mix containing not less than 12 percent total milk solids, and sterilized products in hermetically sealed glass or metal containers;

(2) Skim milk and butterfat in fluid milk products delivered in bulk form to and used at a commercial food processing establishment (other than a milk or filled milk plant) in the manufacture of packaged food products (other than milk products and filled milk) for consumption off the premises;

* * * * *

9. In § 1036.43(d), subparagraph (5) is revised to read as follows:

§ 1036.43 Transfers.

* * * * *

(d) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

10. In § 1036.45(a), subparagraphs (2), (3), (4) and (7), and the introductory text of subparagraph (8) are revised to read as follows:

§ 1036.45 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or the quantity associated with such receipts and classified as Class II pursuant to § 1036.41(b)(6) plus 2 percent of the remainder of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which appropriate health approval is not established and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II but not in excess of such quantity:

(i) Receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph:

(*a*) For which the handler requests Class II utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from other pool handlers, and receipts in bulk from other order plants that were not subtracted pursuant to subparagraph (3)(v) of this paragraph; and

(ii) Receipts of fluid milk products in bulk from an other order plant that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plant, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraphs (3)(iv) and (4)(i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant that are in excess of similar transfers to the same plant and that were not subtracted pursuant to subparagraphs (3)(v) and (4)(ii) of this paragraph:

* * * * *

11. In § 1036.62, paragraphs (a)(1) and (b) are revised to read as follows:

§ 1036.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1) The obligation that would have been computed pursuant to § 1036.60 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the uniform price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1036.60(e) and a credit in the amount specified in § 1036.74(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified below in this subparagraph. If the operator of the partially regulated distributing plant so requests, and provides with his report pursuant to § 1036.30 a similar report for each nonpool plant which serves as a supply plant for such partially regulated distributing plant by shipments to such plant during the month equivalent to the requirements of § 1036.11(b), with agreement of the operator of such plant that the market administrator may examine the books and records of such plant for purposes of verification of such reports, there will be added the amount of the obligation computed at such nonpool supply plant in the same manner and subject to the same conditions as for the partially regulated distributing plant.

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat in the plant's route disposition in the marketing area;

(2) Deduct (except that deducted under a similar provision of another order issued pursuant to the Act) the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of as route disposition in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the uniform price applicable at such location or at the Class II price, whichever is higher, and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

12. A new § 1036.64 is added and reads as follows:

§ 1036.64 Obligation of handler operating an other order plant.

Each handler who operates an other order plant that is regulated under an

order providing for individual-handler pooling shall pay to the market administrator for the producer-settlement fund, on or before the 25th day after the end of the month, an amount computed as follows:

(a) Determine the quantity of reconstituted skim milk in filled milk disposed of as route disposition in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant as route disposition in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to the route disposition in each marketing area; and

(b) Compute the value of the quantity of reconstituted skim milk assigned in paragraph (a) of this section to route disposition in this marketing area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

13. Section 1036.73 is revised to read as follows:

§ 1036.73 Producer-settlement fund.

The market administrator shall maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments pursuant to §§ 1036.62, 1036.64, and 1036.74 and out of which he shall make all payments pursuant to § 1036.75: *Provided,* That the market administrator shall offset the payment due to a handler against payments due from such handler.

14. In § 1036.79, paragraphs (a) and (d) are revised to read as follows:

§ 1036.79 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handlers' utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers; the name of such producers(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1040—MILK IN THE SOUTHERN MICHIGAN MARKETING AREA

1. Section 1040.9 is revised to read as follows:

§ 1040.9 Producer-handler.

"Producer-handler" means a person who:

(a) Operates a dairy farm and a milk plant from which fluid milk products are distributed in the marketing area and who received fluid milk products only from his own production or by transfer from a pool plant and no nonfluid milk products for reconstitution into fluid milk products; and

(b) Provides proof that (1) the care and management of all dairy animals and other resources necessary to produce the entire volume of fluid milk products handled (excluding receipts by transfer from a pool plant); and (2) the operation of the processing business is the personal enterprise and risk of such person.

2. Section 1040.12 is revised to read as follows:

§ 1040.12 Fluid milk product.

"Fluid milk product" means milk, skim milk, flavored milk, buttermilk, yogurt, filled milk, cream (exclusive of frozen and sour cream), and any mixture in fluid form of cream and milk or skim milk (except storage cream, aerated cream products, ice cream mix, evaporated or condensed milk and sterilized products packaged in hermetically sealed containers). This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

3. Section 1040.13 is revised to read as follows:

§ 1040.13 Route.

"Route" means a delivery (including a delivery by a vendor or sale from a plant or plant store) of any fluid milk product (except bulk cream) classified as Class I to a wholesale or retail outlet other than a delivery to any milk or filled milk plant.

4. In § 1040.16, paragraph (a) is revised to read as follows:

§ 1040.16 Pool plant.

* * * * *

(a) A distributing plant, other than a producer-handler plant or plants exempt pursuant to § 1040.90 and § 1040.91, from which total distribution of fluid milk products, except filled milk, on routes during the month or during either of the 2 months immediately preceding is not less than 50 percent of receipts of producer milk and fluid milk products, except filled milk, from supply plants and cooperative associations pursuant to § 1040.7(c).

* * * * *

5. In § 1040.17, paragraphs (a) and (c) are revised to read as follows:

§ 1040.17 Call percentage.

* * * * *

(a) Estimate the aggregate pounds of Class I milk utilization, except filled milk, for the month including an additional 15 percent thereof as an operating margin, at pool distributing plants;

* * * * *

(c) Divide any plus balance of estimated Class I milk, except filled milk remaining by the estimated receipts of producer milk for the month at the supply plants.

* * * * *

6. In § 1040.18, the introductory text immediately preceding paragraph (a) and paragraph (d) are revised to read as follows:

§ 1040.18 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

* * * * *

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant and from which a fluid milk product is shipped during the month to a pool plant.

7. A new § 1040.21 is added to read as follows:

§ 1040.21 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

8. In § 1040.30, a new paragraph (d) is added and paragraph (b) is revised to read as follows:

§ 1040.30 Monthly reports of receipts and utilization.

* * * * *

(b) The utilization of all skim milk and butterfat required to be reported pursuant to paragraph (a) of this section. Such report shall include a separate statement showing the respective amounts of skim milk and butterfat disposed of on routes in the marketing area as Class I milk and a statement showing separately in-area route disposition of filled milk; and

* * * * *

(d) The quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area by each handler specified in § 1040.7(b) who

operates a partially regulated distributing plant.

9. Section 1040.32 is revised to read as follows:

§ 1040.32 Records and facilities.

Each handler shall maintain and make available to the market administrator during the usual hours of business such accounts and records of all of his operations and such facilities as are necessary to verify reports, or to ascertain the correct information with respect to (a) the receipts and utilization or disposition of all skim milk and butterfat received, including all milk poducts and filled milk received and disposed of in the same form; (b) the weights and tests for butterfat, skim milk, and other contents of all milk, and milk products (including filled milk) handled; and (c) payments to producers and cooperative associations.

10. In § 1040.43(e), subparagraph (5) is revised to read as follows:

§ 1040.43 Transfers.

* * * * *

(e) * * *

(5) For purposes of this paragraph, if the transferee order provides for only two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products, shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class III; and

* * * * *

11. In § 1040.46(a), subparagraphs (2), (4), (5), (8), and (9) are revised to read as follows:

§ 1040.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (4)(v) of this paragraph, as follows:

(i) From Class III milk, the lesser of the pounds remaining or two percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

* * * * *

(4) Subtract in the order specified below, from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than a fluid milk product, provided that any such milk received as cottage cheese or cottage cheese curd shall be subtracted directly from the handler's cottage cheese utilization (Class II);

(ii) Receipts of fluid milk products (except filled milk) that are not approved by a duly constituted health authority for fluid consumption in the marketing area and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(5) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II or Class III, but not in excess of such quantity:

(i) Receipts of fluid milk products from an unregulated supply plant, that were not subtracted pursuant to subparagraph (4)(iv) of this paragraph:

(*a*) For which the handler requests Class III utilization; or

(*b*) In series beginning with Class III, which are in excess of the pounds of skim milk determined by subtracting from 125 percent of the pounds of skim milk remaining in Class I milk the sum of the pounds of skim milk in producer milk, receipts from a cooperative association pursuant to § 1040.7(c), receipts from pool plants of other handlers, and receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (4)(v) of this paragraph; and

(ii) Receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (4)(v) of this paragraph, in excess of similar transfers to such plant, if Class III utilization was requested by the operator of such plant and the handler;

* * * * *

(8) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraphs (4)(iv) and (5)(i) of this paragraph;

(9) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, that were not subtracted pursuant to subparagraphs (4)(v) and (5)(ii) of this paragraph:

(i) In series beginning with Class III, the pounds determined by multiplying the pounds of such receipts by the larger of the percentage of estimated combined Class II and Class III utilization of skim milk announced for the month by the market administrator pursuant to § 1040.27(l) or the percentage that combined Class II and Class III utilization remaining is of the total remaining utilization of skim milk of the handler; and

(ii) From Class I, the remaining pounds of such receipts;

* * * * *

12. In § 1040.66, paragraphs (a)(1)(i) and (b) are revised to read as follows:

§ 1040.66 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) An amount computed as follows:

(1)(i) The obligation that would have been computed pursuant to § 1040.60 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class III milk (or Class II) if allocated to such class at the pool plant or other order plant and be valued at the uniform price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class III price. There shall be included in the obligation so computed a charge in the amount specified in § 1040.60(e) and a credit in the amount specified in § 1040.84(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class III price, unless an obligation with respect to such plant is computed as specified below in this subparagraph.

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct (except that deducted under a similar provision of another order issued pursuant to the act) the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the uniform price pursuant to § 1040.62 at the same location or at the Class III price, whichever is higher, and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class III price.

13. Section 1040.83 is revised to read as follows:

§ 1040.83 Producer-equalization fund.

The market administrator shall establish and maintain a separate fund, known as the "producer-equalization

fund" into which he shall deposit all payments received pursuant to §§ 1040.66, 1040.84, and 1040.91, and out of which he shall make all payments pursuant to § 1040.85.

14. Section 1040.91 is revised to read as follows:

§ 1040.91 Handlers subject to other Federal orders.

(a) A handler who operates a plant at which during the month milk is fully subject to the classification, pricing, and payment provisions of another marketing agreement or order issued pursuant to the Act and the disposition of fluid milk products, except filled milk, in the other Federal marketing area exceeds that in the Southern Michigan marketing area shall be exempt for such month from all provisions of this part except §§ 1040.31, 1040.32, and 1040.33 and paragraph (b) of this section.

(b) Each handler operating a pool distributing plant described in § 1040.16(a) that is exempt pursuant to paragraph (a) of this section, if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class III price.

15. In § 1040.100, paragraphs (a) and (d) are revised to read as follows:

§ 1040.100 Termination of obligations.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the month during which the market administrator receives the handler's report of utilization of the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of such producers or association, or if the obligation is payable to the market administrator, the account for which it is to be paid;

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1041—MILK IN THE NORTHWESTERN OHIO MARKETING AREA

1. Section 1041.9 is revised to read as follows:

§ 1041.9 Producer-handler.

"Producer-handler" means a person who:

(a) Operates a dairy farm and a distributing plant;

(b) Receives only milk of his own production or fluid milk products which are priced as Class I milk under an order issued pursuant to the Act and no nonfluid milk products for reconstitution into fluid milk products; and

(c) Provides proof satisfactory to the market administrator that the care and management of all dairy animals and other resources used in his own farm production and the operation of the processing and packaging facilities for fluid milk products are conducted as his personal enterprise and at his own risk.

2. In § 1041.10, the introductory text immediately preceding paragraph (a) is revised to read as follows:

§ 1041.10 Plant.

"Plant" means the land and buildings, together with their surroundings, facilities and equipment constituting a single operating unit or establishment which is operated exclusively by one or more persons engaged in the business of handling fluid milk products for resale or manufacture into milk products, and which is used for the handling or processing of milk or milk products (including filled milk). The term "plant" does not include:

* * * * *

3. Section 1041.12 is revised to read as follows:

§ 1041.12 Supply plant.

"Supply plant" means a plant from which milk, skim milk, filled milk or cream is shipped during the month to a plant qualified as a pool plant under § 1041.13(a).

4. In § 1041.13, paragraphs (a) and (b) are revised to read as follows:

§ 1041.13 Pool plant.

* * * * *

(a) A distributing plant with route disposition, except filled milk, during the month, or in 5 of the immediately preceding 6 months, of not less than 50 percent of the total Grade A milk received at such plant from dairy farmers (excluding any such milk received by diversion from a plant at which such milk is fully subject to pricing and pooling under the terms and provisions of another order issued pursuant to the Act), pool supply plants and through reload points, and with at least 15 percent of such route disposition made within the marketing area during the month.

(b) A supply plant from which not less than 50 percent of the Grade A milk received from dairy farmers at such plant during the month is represented in shipments of fluid milk products, except filled milk, to a plant described under paragraph (a) of this section. If a plant meets the above requirement in this paragraph in each of the months of September through December, such plant shall qualify under this paragraph until the end of the following August, unless the plant operator requests nonpool status for such plant; in the latter event nonpool plant status shall be effective the first month following the filing of a request in writing to the market administrator and shall continue until the plant requalifies under this section on the basis of actual shipments.

5. Section 1041.14 is revised to read as follows:

§ 1041.14 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which there is route disposition in the marketing area during the month of fluid milk products in consumer-type packages or dispenser units.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant and from which fluid milk products are shipped to a pool plant.

6. Section 1041.16 is revised to read as follows:

§ 1041.16 Fluid milk product.

"Fluid milk product" means milk, skim milk, flavored or cultured milk or skim milk, buttermilk, concentrated milk, eggnog, sweet or sour cream, filled milk, and any mixture of fluid cream and milk or skim milk. Cultured sour mixtures disposed of as other than sour cream and

yogurt shall be considered as fluid milk products only if disposed of under a Grade A label. The term includes these products in fluid, frozen (except cream), fortified or reconstituted form, but does not include sterilized products in hermetically sealed containers, and such products as milkshake mix, ice cream mix, and other frozen dessert mixes, aerated cream products, frozen cream, cultured sour mixtures (disposed of as other than sour cream and not disposed of under a Grade A label), pancake mixes, evaporated or sweetened condensed milk, or skim milk in either plain or sweetened form, and a product which contains 6 percent or more nonmilk fat (or oil).

7. A new § 1041.21 is added to read as follows:

§ 1041.21 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

8. In § 1041.30, paragraph (f) is revised to read as follows:

§ 1041.30 Reports of receipts and utilization.

* * * * *

(f) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including separate statements of the route disposition of fluid milk products (except filled milk) and filled milk in the marketing area; and

* * * * *

9. In § 1041.31, paragraph (b) is revised to read as follows:

§ 1041.31 Other reports.

* * * * *

(b) On or before the 7th day after the end of each month, each handler who operates a partially regulated distributing plant shall report the information required of handlers operating pool plants pursuant to § 1041.30, except that receipts in Grade A milk shall be reported in lieu of those in producer milk. Such report shall include a separate statement showing the amount of reconstituted skim milk in fluid milk products disposed of as route disposition in the marketing area.

10. Section 1041.33 is revised to read as follows:

§ 1041.33 Records and facilities.

(a) Each handler shall maintain detailed and summary records showing all receipts, movements and disposition of milk and milk products (including filled milk) during each month, and the quantities of milk and milk products (including filled milk) in the inventories at the beginning and end of each month.

(b) For the purpose of ascertaining the correctness of any report made to the market administrator as required by this part or for the purpose of obtaining the information required in any such report where it has been requested and has not been furnished, each handler shall permit the market administrator or his agent, during the usual hours of business, to:

(1) Verify the information contained in the reports submitted in accordance with this part;

(2) Weigh, sample and test milk and milk products (including filled milk); and

(3) Make such examination of records, operations, equipment and facilities as the market administrator deems necessary for the purpose specified in this paragraph.

11. In § 1041.44(d), subparagraph (5) is revised to read as follows:

§ 1041.44 Transfers.

* * * * *

(d) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

12. In § 1041.46(a), subparagraphs (2), (3), (4), (7), and (8) are revised to read as follows:

§ 1041.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or two percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II:

(i) The pounds of skim milk in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph, for which the handler requests Class II utilization, but not in excess of the pounds of skim milk remaining in Class II:

(ii) The pounds of skim milk remaining in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph, which are in excess of the pounds of skim milk determined as follows:

(*a*) Multiply the pounds of skim milk remaining in Class I (excluding Class I transfers between pool plants of the handler) at all pool plants of the handler by 1.25;

(*b*) Subtract from the result the sum of the pounds of skim milk at all such plants in producer milk, in receipts from other pool handlers and in receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph; and

(*c*)(*1*) Multiply any resulting plus quantity by the percentage that receipts of skim milk in fluid milk products from unregulated supply plants remaining at this plant is of all such receipts remaining at all pool plants of such handler, after any deductions pursuant to subdivision (i) of this subparagraph.

(2) Should such computation result in a quantity to be subtracted from Class II which is in excess of the pounds of skim milk remaining in Class II, the pounds of skim milk in Class II shall be increased to the quantity to be subtracted and the pounds of skim milk in Class I shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made.

(iii) The pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plants, but not in excess of the pounds of skim milk remaining in Class II milk, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(7)(i) Subtract from the pounds of skim milk remaining in each class, pro rata to the total pounds of skim milk remaining in each class in all pool plants of the receiving handler, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraphs (3)(iv) and (4)(i) or (ii) of this paragraph;

(ii) Should such proration result in the amount to be subtracted from any

class exceeding the pounds of skim milk remaining in such class in the pool plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made;

(8) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, in excess in each case of similar transfers to the same plant, that were not subtracted pursuant to subparagraphs (3)(v) and (4)(iii) of this paragraph pursuant to the following procedure:

(i) Subject to the provisions of subdivisions (ii) and (iii) of this subparagraph, such subtraction shall be pro rata to whichever of the following represents the higher proportion of Class II milk.

(*a*) The estimated utilization of skim milk in each class, by all handlers, as announced for the month pursuant to § 1041.27(m); or

(*b*) The pounds of skim milk in each class remaining at all pool plants of the handler;

(ii) Should proration pursuant to subdivision (i) of this subparagraph result in the total pounds of skim milk to be subtracted from Class II at all pool plants of the handler exceeding the pounds of skim milk remaining in Class II at such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which received;

(iii) Except as provided in subdivision (ii) of this subparagraph, should proration pursuant to either subdivision (i) or (ii) of this subparagraph result in the amount to be subtracted from either class exceeding the pounds of skim milk remaining in such class in the pool plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made.

* * * * *

13. Section 1041.61 is revised to read as follows:

§ 1041.61 Plants subject to other Federal orders.

(a) The provisions of this part except §§ 1041.30, 1041.31, 1041.32, and 1041.33 and paragraph (b) of this section, shall not apply to a distributing plant or a supply plant during any month in which the milk at such plant would be subject to the classification and pricing provisions of another order issued pursuant to the Act, unless such plant qualified as a pool plant pursuant to § 1041.13 and a greater volume of fluid milk products, except filled milk, is disposed of from such plant in the Northwestern Ohio marketing area to retail or wholesale outlets and to other pool plants than in the marketing area regulated pursuant to such other order during the current month and each of the three months immediately preceding, unless the Secretary determines that the applicable order should more apropriately be determined on some other basis. The operator of a distributing plant or a supply plant which is exempt from the provisions of this order pursuant to this section shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may request and permit his verification of such reports; and

(b) Each handler operating a distributing plant specified in paragraph (a) of this section, if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of as route disposition in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant as route disposition in marketing areas regulated by two or more marketwide pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

14. In § 1041.62, paragraphs (a)(1)(i) and (b) are revised to read as follows:

§ 1041.62 Obligations of a handler operating a partially regulated distributing plant.

* * * * *

(a) An amount computed as follows:

(1)(i) The obligation that would have been computed pursuant to § 1041.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the uniform price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1041.70(e) and a credit in the amount specified in § 1041.82(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph.

Recommended Decision—Memphis, Tennessee, et al.

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of as route disposition in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the uniform price applicable at such location (not to be less than the Class II price), and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

15. In § 1041.91, paragraphs (a) and (d) are revised to read as follows:

§ 1041.91 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part, except as provided in paragraphs (b) and (c) of this section, shall terminate 2 years after the last day of the month during which the market administrator received the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that the money is due and payable. Service of the notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following:

(1) The amount of the obligation;

(2) The month during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of such producer or cooperative association, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1043—MILK IN THE UPSTATE MICHIGAN MARKETING AREA

1. In § 1043.8, paragraph (a) is revised to read as follows:

§ 1043.8 Pool plant.

* * * * *

(a) A distributing plant other than that of a producer-handler, or one described in § 1043.82 or § 1043.83, from which during the month:

(1) Disposition of fluid milk products, except filled milk, on routes in the marketing area equals or exceeds the smaller of:

(i) Twenty percent of such plant's receipts from qualified dairy farmers, or

(ii) 150,000 pounds; and

(2) Total disposition of fluid milk products, except filled milk, on routes during the month equals or exceeds 50 percent of receipts of fluid milk products, except filled milk, from qualified dairy farmers and supply plants.

* * * * *

2. Section 1043.12 is revised to read as follows:

§ 1043.12 Producer-handler.

"Producer-handler" means a person who operates a dairy farm and a distributing plant and who received no fluid milk products except from his own production or by transfer from a pool plant, and receives no nonfluid milk products for reconstitution into fluid milk products: *Provided,* That such person provides proof that the care and management of all dairy animals and other resources necessary to produce the entire volume of fluid milk products handled (excluding receipts by transfer from a pool plant) and the operation of the processing business is the personal enterprise and risk of such person.

3. Section 1043.16 is revised to read as follows:

§ 1043.16 Fluid milk product.

"Fluid milk product" means milk, flavored milk, skim milk, buttermilk, filled milk, half-and-half, or other mixtures of cream and milk containing less than 18 percent butterfat.

4. Section 1043.17 is revised to read as follows:

§ 1043.17 Route.

"Route" means a delivery (including delivery by a vendor, or sale from a plant or plant store) of any fluid milk product, other than a delivery in bulk form to any milk or filled milk processing plant.

5. In § 1043.18, the introductory text immediately preceding paragraph (a) and paragraph (d) are revised to read as follows:

§ 1043.18 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

* * * * *

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant and from which a fluid milk product is shipped during the month to a pool plant.

6. A new § 1043.19 is added to read as follows:

§ 1043.19 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

7. In § 1043.30(c), subparagraph (2) is revised to read as follows:

§ 1043.30 Monthly reports of receipts and utilization.

* * * * *

(c) * * *

(2) The utilization or disposition of such receipts. Each handler shall report separately the respective amounts of skim milk and butterfat disposed of on routes (other than to pool plants) in the marketing area as Class I milk, except filled milk, and as filled milk. The report for each handler pursuant to § 1043.9(b) shall include a separate statement showing the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area; and

* * * * *

8. Section 1043.33 is revised to read as follows:

§ 1043.33 Exempt handler reports.

Each handler exempt pursuant to § 1043.82 or § 1043.83 shall report to the market administrator his disposition of fluid milk products on routes in the marketing area and a report showing separately in-area route sales of filled milk at such time and in such manner as the market administrator shall prescribe.

9. Section 1043.34 is revised to read as follows:

§ 1043.34 Records and facilities.

Each handler shall maintain and make available to the market administrator, during the usual hours of business, such accounts and records, of all of his operations and such facilities as are necessary to verify reports or to ascertain the correct information with respect to (a) the receipts and utilization or disposition of all skim milk and butterfat received, including all milk products or filled milk received and disposed of in the same form, (b) the weights and tests for butterfat, skim milk and other contents of all milk and milk products (including filled milk) handled, (c) inventories of all milk and milk products (including filled milk) on hand at the beginning and end of each month, and (d) payments to producers and cooperative associations.

9a. In § 1043.41(b), subparagraph (2) is revised to read as follows:

§ 1043.41 Classes of utilization.

* * * * *

(b) * * *

(2) Skim milk and butterfat disposed of as fluid cream or in any product which contains 6 percent or more nonmilk fat (or oil);

* * * * *

10. In § 1043.43(d), subparagraph (5) is revised to read as follows:

§ 1043.43 Transfers.

* * * * *

(d) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II or Class III; and

* * * * *

11. In § 1043.46(a), subparagraphs (2), (3), (4), (7), and (8) are revised to read as follows:

§ 1043.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products and cream received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or two percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product or cream;

(ii) Receipts of fluid milk products (except filled milk) and cream that are not approved by a duly constituted health authority for fluid consumption,

and receipts of fluid milk products from unidentified sources; and

(iii) Receipts of fluid milk products and cream from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another marketwide pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II or Class III but not in excess of such quantity:

(i) Receipts of fluid milk products and cream from an unregulated supply plant, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph:

(*a*) For which the handler requests Class II or Class III utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by subtracting from 125 percent of the pounds of skim milk remaining in Class I milk the sum of the pounds of skim milk in producer milk, receipts from pool plants of other handlers, and receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph; and

(ii) Receipts of fluid milk products and cream in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plant, if Class II or Class III utilization was requested by the operator of such plant and the handler;

* * * * *

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products and cream from unregulated supply plants which were not subtracted pursuant to subparagraphs (3)(iv) and (4)(i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products and cream in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (3)(v) and (4)(ii) of this paragraph:

(i) In series beginning with Class III, the pounds determined by multiplying the pounds of such receipts by the larger of the percentage of estimated Class II and Class III utilization of skim milk announced for the month by the market administrator pursuant to § 1043.22(j) or the percentage that Class II and Class III utilization remaining is of the total remaining utilization of skim milk of the handler; and

(ii) From Class I, the remaining pounds of such receipts;

* * * * *

12. Section 1043.71 is revised to read as follows:

§ 1043.71 Producer-equalization fund.

The market administrator shall establish and maintain a separate fund, known as the "producer-equalization fund" into which he shall deposit all payments received pursuant to §§ 1043.72, 1043.83, and 1043.84 (including any adjustments thereto pursuant to § 1043.76) and out of which he shall make all payments pursuant to § 1043.73 (including any adjustments thereto pursuant to § 1043.76).

13. In § 1043.78, paragraphs (a) and (d) are revised to read as follows:

§ 1043.78 Termination of obligations.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the month during which the market administrator receives the handler's report of utilization of the skim milk and butterfat involved in such obligation, unless, within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists were received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of such producers or association, or, if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed or two years after the end of the month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the act, a petition claiming such money.

14. Section 1043.83 is revised to read as follows:

§ 1043.83 Milk subject to other Federal orders.

(a) Milk received at the plant of a handler at which the handling of milk is fully subject during the month to the pricing and payment provisions of another marketing agreement or order issued pursuant to the act and from which the disposition of Class I milk (excluding filled milk) in the other Federal marketing area, either during the month or during the average of the 12 preceding months, exceeds that in the Upstate Michigan marketing area shall be exempted for such month from all the provisions hereof except as specified in paragraphs (b) and (c) of this section, unless the Secretary determines that such plant is more appropriately regulated under this part.

(b) Each handler operating a plant specified in paragraph (a) of this section shall with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(c) Each handler operating a plant specified in § 1043.8(a), if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more marketwide pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class III price.

15. In § 1043.84, paragraphs (a)(1)(i) and (b) are revised to read as follows:

§ 1043.84 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) An amount computed as follows:

(1)(i) The obligation that would have been computed pursuant to § 1043.61 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II or Class III milk if allocated to such class at the pool plant or other order plant and be valued at the uniform price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class III price. There shall be included in the obligation so computed a charge in the amount specified in § 1043.60(e) and a credit in the amount specified in § 1043.72(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk

in filled milk shall be at the Class III price, unless an obligation with respect to such plant is computed as specified below in this subparagraph.

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes (other than to pool plants) in the marketing area;

(2) Deduct (except that deducted under a similar provision of another order issued pursuant to the Act) the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributin plant from pool plants and other order plants;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the uniform price pursuant to § 1043.61 at the same location or at the Class II price, whichever is higher and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class III price.

PART 1044—MILK IN MICHIGAN UPPER PENINSULA MARKETING AREA

1. Section 1044.6 is revised as follows:

§ 1044.6 Fluid milk product.

"Fluid milk product" means milk, skim milk, flavored milk, flavored milk drinks, buttermilk, filled milk, half and half and cream (sweet or sour).

2. Section 1044.7 is revised as follows:

§ 1044.7 Route.

"Route" means a delivery (including delivery by a vendor or sale from a plant or plant store) of any fluid milk product, other than a delivery to any milk or filled milk processing plant.

3. Section 1044.8 is revised as follows:

§ 1044.8 Fluid milk plant.

"Fluid milk plant" means the premises, buildings and facilities of any milk receiving, processing or packaging plant handling milk eligible for distribution in the marketing area as Grade A milk or conforming to the requirements of Michigan Act No. 169, Public Acts 1929, as amended:

(a) From which any fluid milk product, except filled milk, is disposed of during the month in the marketing area on routes except as provided in § 1044.81; or

(b) From which any milk or skim milk, except skim milk in filled milk, is delivered to plants described in paragraph (a) of this section on ten or more days in any of the months of July through December or on three or more days in any of the months of January through June.

4. Section 1044.9 is revised as follows:

§ 1044.9 Nonfluid milk plant.

"Nonfluid milk plant" means any milk or filled milk receiving, manufacturing or processing plant other than a fluid milk plant. The following categories of nonfluid milk plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonfluid milk plant that is neither an other order plant nor a producer-handler plant and from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonfluid milk plant that is neither an other order plant nor a producer-handler plant and from which a fluid milk product is shipped during the month to a fluid milk plant.

5. Section 1044.19 is added as follows:

§ 1044.19 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milk fat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

6. In § 1044.30, paragraph (a)(2) is revised as follows:

§ 1044.30 Monthly reports of receipts and utilization.

* * * * *

(a) * * *

(2) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement showing in-area and outside area route disposition of filled milk; and

* * * * *

7. Section 1044.34 is revised as follows:

§ 1044.34 Records and facilities.

Each handler shall maintain and make available to the market administrator, during the usual hours of business, such accounts and records of all his operations and such facilities as are necessary to verify reports or to ascertain the correct information with respect to:

(a) The receipts and utilization or disposition of all skim milk and butterfat received, including all milk products (including filled milk) received and disposed of in the same form;

(b) The weights and tests for butterfat, skim milk and other content of all milk and milk products (including filled milk) handled;

(c) Inventories of all dairy products (including filled milk) on hand at the beginning and end of each month; and

(d) Payments to producers and cooperative associations.

8. In § 1044.43, paragraph (d)(5) is revised as follows:

§ 1044.43 Transfers.

* * * * *

(d) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

9. In § 1044.46, subparagraphs (3), (4) and (7)(i) of paragraph (a) are revised as follows:

§ 1044.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) that are not approved by a duly constituted health authority, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order; and

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II:

(i) The pounds of skim milk in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph, for which the handler requests Class II utilization, but not in excess of the pounds of skim milk remaining in Class II;

(ii) The pounds of skim milk remaining in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph, which are in excess of the pounds of skim milk determined as follows:

(*a*) Multiply the pounds of skim milk remaining in Class I milk at all fluid milk plants of the handler by 1.25;

(*b*) Subtract from the result the sum of the pounds of skim milk at all such plants in producer milk, in receipts from other fluid milk plant handlers and in receipts in bulk from other order plants; and

(*c*)(*1*) Multiply any resulting plus quantity by the percentage that receipts

of skim milk in fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3) (iv) of this paragraph, remaining at this plant is of all such receipts remaining at all fluid milk plants of such handler, after any deductions pursuant to subdivision (i) of this subparagraph.

(2) Should such computation result in a quantity to be subtracted from Class II which is in excess of the pounds of skim milk remaining in Class II, the pounds of skim milk in Class II shall be increased to the quantity to be subtracted and the pounds of skim milk in Class I shall be decreased a like amount. In such case the utilization of skim milk at other fluid milk plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other fluid milk plant of such handler at which such adjustment can be made;

(iii) The pounds of skim milk in receipts of fluid milk products in bulk from an other order plant in excess of similar transfers to such plant, but not in excess of the pounds of skim milk remaining in Class II milk, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(7) * * *

(i) The pounds of skim milk in receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraphs (3) (iv), (4) (i) or (ii) of this paragraph; and

* * * * *

10. In § 1044.75, paragraphs (a) and (d) are revised as follows:

§ 1044.75 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the month during which the market administrator receives the handler's report of utilization of the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of such producer(s) or association or, if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or two years after the end of the month during which the payment (including deduction or set off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

11. Section 1044.82 is revised as follows:

§ 1044.82 Handlers subject to other Federal orders.

The provisions of this part shall not apply to a handler with respect to the operation of a fluid milk plant during any month in which the milk at such plant would be subject to the classification, pricing and payment provisions of another marketing agreement or order issued pursuant to the Act and the disposition of fluid milk products, except filled milk, in the other Federal marketing area exceeds that in the Michigan Upper Peninsula marketing area: *Provided,* That the operator of a fluid milk plant which is exempted from the provisions of this part pursuant to this section shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at such plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

PART 1046—MILK IN THE LOUISVILLE-LEXINGTON-EVANSVILLE MARKETING AREA

1. Section 1046.9 is revised to read as follows:

§ 1046.9 Producer-handler.

"Producer-handler" means any person who processes and packages milk from his own farm production, distributes any portion of such milk in the marketing area on a route and receives no fluid milk products from other dairy farmers or nonpool plants and no nonfluid milk products for reconstitution into fluid milk products: *Provided,* That such person provides proof satisfactory to the market administrator that (a) the care and management of all of the dairy animals and other resources necessary to produce the entire amount of fluid milk handled (excluding transfers from pool plants) is the personal enterprise of and at the personal risk of such person, and (b) the operation of the processing and distributing business is the personal enterprise of and at the personal risk of such person.

2. In § 1046.12, paragraph (a) is revised to read as follows:

§ 1046.12 Pool plant.

* * * * *

(a) A city plant, other than a plant operated by a producer-handler, which meets the following requirements:

(1) For each of the months of May through October not less than 30 percent and for each of the months of November through April not less than 50 percent of the fluid milk products, except filled milk, received during the 2 months immediately preceding from persons described in § 1046.7(a), from a cooperative association in its capacity as a handler pursuant to § 1046.8(c), from country plants and from pool plants in containers not larger than a gallon are disposed of as Class I milk, except filled milk, from such plant during such 2-month period to all outlets except such disposition to pool plants in containers larger than a gallon: *Provided,* That, if such utilization percentage for the 2 preceding months cannot be ascertained by the market administrator, the respective percentages shall apply to receipts and sales during the current month; and

(2) An amount of Class I milk, except filled milk, equal to not less than an average of 13,500 pounds per day or not less than 10 percent of the fluid milk products, except filled milk, received during the current month from persons described in § 1046.7(a), from a cooperative association in its capacity as a handler pursuant to § 1046.8(c), and from country plants is distributed on routes in the marketing area;

* * * * *

3. In § 1046.13, the introductory text immediately preceding paragraph (a) and paragraphs (c) and (d) are revised as follows:

§ 1046.13 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

* * * * *

(c) "Partially regulated distributing plant" means a nonpool plant other than a producer-handler plant or an other order plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant other than a producer-handler plant or an other order plant, from which fluid milk products are shipped to a pool plant.

4. Amend § 1046.15 to read as follows:

§ 1046.15 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, filled milk, flavored milk, milk drinks (plain or flavored), reconstituted milk or skim milk, fortified milk or skim milk (including "diet" foods), cream (sweet or sour), half and half, or any mixture in fluid form of milk or skim milk and cream (except ice cream mix, frozen dessert mix, pancake mix, evaporated milk, condensed milk, aerated cream products, eggnog, and cultured sour mixtures not labeled as Grade A) which are neither

sterilized nor packaged in hermetically sealed containers. This definition shall not include a product which contains 6 percent or more non-milk fat (or oil).

5. Section 1046.17 is revised to read as follows:

§ 1046.17 Route.

"Route" means delivery (including disposition from a plant store or from a distribution point and distribution by a vendor) of a fluid milk product(s) to a wholesale or retail outlet(s) other than to a milk or filled milk plant(s). A delivery through a distribution point shall be attributed to the plant from which the Class I milk is moved through a distribution point to wholesale or retail outlets without intermediate movement to another milk or filled milk plant.

6. A new § 1046.19a is added to read as follows:

§ 1046.19a Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

7. In § 1046.30, paragraphs (a)(5) and (b) are revised to read as follows:

§ 1046.30 Reports of receipts and utilization.

(a) * * *

(5) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including separate statements of the disposition of fluid milk products, except filled milk, and filled milk on routes in the marketing area.

* * * * *

(b) Each handler specified in § 1046.8(d) who operates a partially regulated distributing plant shall report as required in paragraph (a) of this section, except that receipts in Grade A milk from dairy farmers shall be reported in lieu of those in producer milk. Such report shall include a separate statement showing the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area.

8. Section 1046.33 is revised to read as follows:

§ 1046.33 Records and facilities.

Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts, records, and reports of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts and utilization of producer milk and other source milk;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream, and milk products (including filled milk) handled;

(c) Payments to producers, including supporting records of all deductions and written authorization from each producer of the rate per hundredweight or other method for computing hauling charges on such producer milk; and

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and other milk products (including filled milk) on hand at the beginning and end of each month.

9. In § 1046.44, aragraphs (d), (e), and (f)(5) are revised to read as follows:

§ 1046.44 Transfers.

* * * * *

(d) As Class I milk, if transferred in bulk (in the form of milk, skim milk, filled milk or cream) or diverted to a nonpool plant that is neither an other order plant nor a producer-handler plant, located 250 airline miles or more as determined by the market administrator, from the nearer of the City Halls in either Louisville, Ky., or Evansville, Ind.

(e) As Class I milk, if transferred in bulk (in the form of milk, skim milk, filled milk or cream) or diverted to a nonpool plant that is neither an other order plant nor a producer-handler plant located less than 250 airline miles as determined by the market administrator, from the nearer of the City Halls in either Louisville, Ky., or Evansville, Ind., unless the requirements of subparagraphs (1) and 2) of this paragraph are met, in which case the skim milk and butterfat so transferred or diverted shall be classified in accordance with the assignment resulting from subparagraph (3) of this paragraph:

* * * * *

(f) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

10. In § 1046.46(a), subparagraphs (2), (3), (4), (7), and (8) are revised to read as follows:

§ 1046.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or two percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products, except filled milk, for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II:

(i) The pounds of skim milk in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph, for which the handler requests Class II utilization, but not in excess of the pounds of skim milk remaining in Class II;

(ii) The pounds of skim milk remaining in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph, which are in excess of the pounds of skim milk determined as follows:

(*a*) Multiply the pounds of skim milk remaining in Class I milk at all pool plants of the handler by 1.25;

(*b*) Subtract from the result the sum of the pounds of skim milk at all such plants in producer milk, in receipts from pool plants of other handlers, from a cooperative association as a handler pursuant to § 1046.8(c), and in bulk receipts from other order plants, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph; and

(*c*)(*1*) Multiply any resulting plus quantity by the percentage that receipts of skim milk in fluid milk products from unregulated supply plants remaining at this plant is of all such receipts remaining at all pool plants of such handler, after any deductions pursuant to subdivision (i) of this subparagraph.

(*2*) Should such computation result in a quantity to be subtracted from Class II which is in excess of the pounds of skim milk remaining in Class II, the pounds of skim milk in Class II shall be increased to the quantity to be subtracted and the pounds of skim milk in Class I shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made.

(iii) The pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plant but not in excess of the pounds of skim milk remaining in Class II milk, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(7)(i) Subtract from the pounds of skim milk remaining in each class, pro rata to the total pounds of skim milk remaining in each class in all pool plants of the receiving handler, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraphs (3)(iv) and (4) (i) or (ii) of this paragraph;

(ii) Should such proration result in the amount to be subtracted from any class exceeding the pounds of skim milk remaining in such class in the pool plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made:

(8) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, in excess in each case of similar transfers to the same plant, that were not subtracted pursuant to subparagraphs (3)(v) and (4)(iii) of this paragraph pursuant to the following procedure:

(i) Subject to the provisions of subdivisions (ii) and (iii) of this subparagraph, such subtraction shall be pro rata to whichever of the following represents the higher proportion of Class II milk:

(*a*) The estimated utilization of skim milk in each class, by all handlers, as announced for the month pursuant to § 1046.22(m); or

(*b*) The pounds of skim milk in each class remaining at all pool plants of the handler;

(ii) Should proration pursuant to subdivision (i) of this subparagraph result in the total pounds of skim milk to be subtracted from Class II at all pool plants of the handler exceeding the pounds of skim milk remaining in Class II at such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which received;

(iii) Except as provided in subdivision (ii) of this subparagraph, should proration pursuant to either subdivision (i) or (ii) of this subparagraph result in the amount to be subtracted from either class exceeding the pounds of skim milk remaining in such class in the pool plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made;

* * * * *

11. Section 1046.61 revised to read as follows:

§ 1046.61 Plants subject to other Federal orders.

(a) Unless determined otherwise by the Secretary, the provisions, except paragraph (b) of this section, of this part shall not apply to a milk plant during any month in which the milk at such plant would be subject to the pricing and pooling provisions of another order issued pursuant to the Act unless such plant meets the requirements for a pool plant pursuant to § 1046.12 and a greater volume of fluid milk products, except filled milk, is disposed of from such plant in the Louisville-Lexington-Evansville marketing area to other pool plants and to retail or wholesale outlets than in the marketing area regulated pursuant to such other order during the current month: *Provided,* That the operator of a plant which is exempted from the provisions of this order pursuant to this section shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(b) Each handler operating a plant specified in § 1046.12(a), if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

12. In § 1046.62, paragraphs (a)(1)(i) and (b) are revised to read as follows:

§ 1046.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) An amount computed as follows:

(1)(i) The obligation that would have been computed pursuant to § 1046.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1046.70(e) and a credit in the amount specified in § 1046.84(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified below in this subparagraph.

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location (not to be less than the Class II price), and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

13. Section 1046.83 is revised to read as follows:

§ 1046.83 Producer-Settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1046.61, 1046.62, 1046.84, and 1046.86 and out of which he shall make all payments pursuant to §§ 1046.85 and 1046.86: *Provided,* That payments due any handler shall be offset by payments due from such handler.

14. In § 1046.89, paragraphs (a) and (d) are revised to read as follows:

§ 1046.89 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report of the skim milk and butterfat involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled, and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of such producer(s) or cooperative association, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deductions of set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1049—MILK IN THE INDIANA MARKETING AREA

1. Section 1049.9 is revised to read as follows:

§ 1049.9 Producer-handler.

"Producer-handler" means a person who operates a dairy farm and a distributing plant and who receives no fluid milk products from other dairy farmers or from sources other than pool plants, and no nonfluid milk products for reconstitution into fluid milk products: *Provided,* That such person provides proof satisfactory to the market administrator that the care and management of all dairy animals and other resources used in his own farm production and the operation of the processing and distributing business are at the personal enterprise and risk of such person.

2. In § 1049.12, paragraph (a) is revised to read as follows:

§ 1049.12 Pool plant.

* * * * *

(a) A distributing plant with:

(1) Total route sales, exclusive of packaged fluid milk products received from other plants and filled milk, in an amount not less than 50 percent of Grade A milk received at such plant during the month from dairy farmers (excluding receipts of producer milk by diversion pursuant to § 1049.14) and supply plants, except that a plant meeting such percentage requirement for the preceding month may remain qualified under this subparagraph in the current month; and

(2) Route sales within the marketing area during the month of at least 10 percent of such receipts, such route sales to be exclusive of packaged fluid milk products received from other plants and filled milk: *Provided,* That any plant meeting the requirements of this paragraph in each of the months of September through May, inclusive, shall continue to have pool plant status in the months of June, July, and August, immediately following if fluid milk products, except filled milk, are disposed of from the plant in the marketing area on routes during such month.

* * * * *

3. In § 1049.13, the introductory text immediately preceding paragraph (a) is revised to read as follows:

§ 1049.13 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

* * * * *

4. Section 1049.15 is revised to read as follows:

§ 1049.15 Fluid milk product.

"Fluid milk product" means milk, skim milk, filled milk, buttermilk, milk drinks (plain or flavored), "fortified" products, "dietary" milk products, concentrated milk or skim milk, reconstituted milk, skim milk, or milk drinks (plain or flavored), and cream or any mixture in fluid form of cream, milk or skim milk (except eggnog, yogurt, milk shake mix, frozen dessert mix, sour cream, aerated cream products, evaporated and plain or sweetened condensed milk or skim milk, and sterilized products packaged in hermetically sealed metal or glass containers). This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

5. Section 1049.17 is revised to read as follows:

§ 1049.17 Route.

"Route" means a delivery (including that custom-packaged for another person, disposition from a plant store or from a distribution point and distribution by a vendor or vending machine) of any fluid milk product classified as Class I pursuant to § 1049.41(a)(1) other than a delivery in bulk form to any milk or filled milk processing plant.

6. A new § 1049.19 is added to read as follows:

§ 1049.19 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

7. In § 1049.30, paragraph (b) is revised to read as follows:

§ 1049.30 Reports of receipts and utilization.

* * * * *

(b) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including separate statements of the disposition of Class I milk, except filled milk, and filled milk on routes inside the marketing area; and

* * * * *

8. Section 1049.31 is revised to read as follows:

§ 1049.31 Other reports.

(a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator shall request.

(b) Each handler specified in § 1049.8 (c) who operates a partially regulated distributing plant shall report as required of handlers operating pool plants pursuant to § 1049.30, except that receipts in Grade A milk shall be reported in lieu of those in producer milk. Such report shall include a separate statement showing the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area.

9. Section 1049.33 is revised to read as follows:

§ 1049.33 Records and facilities.

Each handler shall maintain and make available to the market administrator, during the usual hours of business, such accounts and records of his operations, together with such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipt and utilization of all skim milk and butterfat handled in any form during the month;

(b) The weights and butterfat and other content of all milk and milk products (including filled milk) handled during the month;

(c) The pounds of skim milk and butterfat contained in or represented by all milk products (including filled milk) in inventory at the beginning and end of each month; and

(d) Payments to producers or dairy farmers, as the case may be, and cooperative associations, including the amount and nature of any deductions and the disbursement of moneys so deducted.

10. In § 1049.44(d), subparagraph (5) is revised to read as follows:

§ 1049.44 Transfers.

* * * * *

(d) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

11. In § 1049.46(a) paragraphs (2), (3), (4), (7), and (8) are revised to read as follows:

§ 1049.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II:

(i) The pounds of skim milk in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph, for which the handler requests Class II utilization, but not in excess of the pounds of skim milk remaining in Class II;

(ii) The pounds of skim milk remaining in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph, which are in excess of the pounds of skim milk determined as follows:

(*a*) Multiply the pounds of skim milk remaining in Class I milk (excluding Class I transfers between pool plants of the handler) at all pool plants of the handler by 1.25;

(*b*) Subtract from the result the sum of the pounds of skim milk at all such plants in producer milk, in receipts from other pool handlers and in receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph; and

(*c*) (*1*) Multiple any resulting plus quantity by the percentage that receipts of skim milk in fluid milk products from unregulated supply plants remaining at this plant is of all such receipts remaining at all pool plants of such handler, after any deductions pursuant to subdivision (i) of this subparagraph.

(*2*) Should such computation result in a quantity to be subtracted from Class II which is in excess of the pounds of skim milk remaining in Class II, the pounds of skim milk in Class II shall be increased to the quantity to be subtracted and the pounds of skim milk in Class I shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made.

(iii) The pounds of skim milk in receipts of fluid milk products, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plant, but not in excess of the pounds of skim milk remaining in Class II milk if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(7) (i) Subtract from the pounds of skim milk remaining in each class, pro rata to the total pounds of skim milk remaining in each class in all pool plants of the receiving handler, the pounds of skim milk, in receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraphs (3)(iv) and (4)(i) or (ii) of this paragraph;

(ii) Should such proration result in the amount to be subtracted from any class exceeding the pounds of skim milk remaining in such class in the pool plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made;

(8) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, in excess in each case of similar transfers to the same plant, that were not subtracted pursuant to subparagraphs, (3)(v) and (4)(iii) of this paragraph pursuant to the following procedure:

(i) Subject to the provisions of subdivisions (ii) and (iii) of this subparagraph, such subtraction shall be pro rata to whichever of the following represents the higher proportion of Class II milk;

(*a*) The estimated utilization of skim milk in each class, by all handlers, as announced for the month pursuant to § 1049.27(m); or

(*b*) The pounds of skim milk in each class remaining at all pool plants of the handler;

(ii) Should proration pursuant to subdivision (i) of this subparagraph result in the total pounds of skim milk to be subtracted from Class II at all pool plants of the handler exceeding the pounds of skim milk remaining in Class II at such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which received;

(iii) Except as provided in subdivision (ii) of this subparagraph, should proration pursuant to either subdivision (i) or (ii) of this subparagraph result in the amount to be subtracted from either class exceeding the pounds of skim milk remaining in such class in the pool plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made;

* * * * *

12. Section 1049.61 is revised to read as follows:

§ 1049.61 Plants subject to other Federal orders.

In the case of a handler in his capacity as the operator of a plant specified in paragraph (a), (b), or (c) of this section the provisions of this part shall not apply, except as specified in paragraphs (d) and (e) of this section:

(a) A distributing plant from which the Secretary determines a greater proportion of fluid milk products (except filled milk) is disposed of on routes in another marketing area regulated by another order issued pursuant to the Act and such plant is fully subject to regulation of such other order: *Provided*, That a distributing plant which was a pool plant under this order in the immediately preceding month shall continue to be subject to all of the provisions of this part until the third consecutive month in which a greater proportion of its Class I disposition (except filled milk) on routes is made in such other marketing

area, unless, notwithstanding the provisions of this paragraph, it is regulated by such other order;

(b) A distributing plant which meets the requirements set forth in § 1049.12 (a) which also meets the requirements of another order on the basis of its distribution in such other marketing area and from which the Secretary determines a greater quantity of milk (except filled milk) is disposed of during the month on routes in this marketing area than is so disposed of in such other marketing area but which plant is nevertheless fully regulated under such other order;

(c) A supply plant which during the month is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act, unless such plant is qualified as a pool plant pursuant to § 1049.12(b) and a greater volume of fluid milk products (except filled milk) is moved to pool distributing plants qualified on the basis of route sales in this marketing area;

(d) Each handler operating a plant described in paragraph (a), (b), or (c) of this section, shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator; and

(e) Each handler operating a plant specified in paragraph (a) of this section, if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market-wide pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

13. In § 1049.62, paragraphs (a) and (b) (1) (i) are revised to read as follows:

* * * * *

§ 1049.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes (other than to pool plants) in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location or the Class II price, whichever is greater, and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price;

(b) Except as a handler may elect the option pursuant to paragraph (a) of this section, an amount computed as follows:

(1) (i) The obligation that would have been computed pursuant to § 1049.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1049.70(e) and a credit in the amount specified in § 1049.82(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified below in this subparagraph.

* * * * *

14. Section 1049.81 is revised to read as follows:

§ 1049.81 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" which shall function as follows:

(a) All payments made by handlers pursuant to §§ 1049.61, 1049.62, 1049.82, 1049.84, and 1049.88 shall be deposited in such fund and out of which shall be made all payments pursuant to §§ 1049.83, 1049.84, and 1049.88, except that any payments due to any handler shall be offset by any payments due from such handler; and

(b) All amounts subtracted pursuant to § 1049.71(h) shall be deposited in this fund and set aside as an obligated balance until withdrawn to effectuate § 1049.80 in accordance with the requirements of § 1049.71(i).

15. In § 1049.87, paragraphs (a) and (d) are revised to read as follows:

§ 1049.87 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following:

(1) The amount of the obligation;

(2) The months during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1050—MILK IN THE CENTRAL ILLINOIS MARKETING AREA

1. In § 1050.12 paragraphs (a) and (b) are revised to read as follows:

§ 1050.12 Pool plant.

* * * * *

(a) A distributing plant, other than that of a producer-handler or one described in § 1050.61, from which during the month:

(1) Disposition of fluid milk products, except filled milk, in the marketing area on routes is equal to 10 percent or more of its Grade A receipts from dairy farmers and cooperative associations in their capacity as handlers pursuant to § 1050.9 (d), or from which an average of not less than 7,000 pounds per day of fluid milk products, except filled milk, is distributed on routes in the marketing area; and

(2) Total disposition of fluid milk products, except filled milk, on routes is equal to 50 percent or more of its Grade A receipts from dairy farmers and cooperative associations in their capacity as handlers pursuant to § 1050.9(d) during the months of August through February and 40 percent during all other months;

(b) A supply plant from which during the month an amount equal to 50 percent or more of its receipts of Grade A milk from dairy farmers and from cooperative associations in their capacity as handlers pursuant to § 1050.9(d) is moved to and received at a pool plant(s) described in paragraph (a) of this section which have at least 50 percent Class I use (not including filled milk) of the total of such supply plant milk and producer milk receipts in the months of August through February and 40 percent in other months;

* * * * *

2. Section 1050.13 is revised to read as follows:

§ 1050.13 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products are shipped to a pool plant.

3. Section 1050.16 is revised to read as follows:

§ 1050.16 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, plain or flavored milk and milk drinks (unmodified or fortified), including "dietary milk products" and reconstituted milk or skim milk; filled milk; concentrated milk not in hermetically sealed containers, cream (sweet or sour), and mixtures of cream and milk or skim milk, but not including the following: Aerated cream products, frozen storage cream, sour cream and sour cream mixtures not labeled Grade A, eggnog, yogurt, frozen dessert mixes, evaporated or condensed milk, and sterilized fluid milk products in hermetically sealed containers. This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

4. A new § 1050.19a is added to read as follows:

§ 1050.19a Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

5. In § 1050.30 subparagraphs (3) and (5) of paragraph (a) and paragraph (c) are revised to read as follows:

§ 1050.30 Reports of receipts and utilization.

* * * * *

(a) * * *

(3) The utilization of all skim milk and butterfat required to be reported by this section, including a separate statement of the route disposition of Class I milk outside the marketing area and a statement showing separately in-area and outside area route disposition of filled milk;

* * * * *

(5) Such other information with respect to the receipts and utilization of milk and milk products (including filled milk) as the market administrator may require;

* * * * *

(c) Each handler specified in § 1050.9 (b) who operates a partially regulated distributing plant shall report as required in paragraph (a) of this section, except that receipts of Grade A milk from dairy farmers shall be reported in lieu of producer milk; such report shall include a separate statement showing Class I disposition on routes in the marketing area of each of the following: skim milk and butterfat, respectively, in fluid milk products and the quantity thereof which is reconstituted skim milk; and

* * * * *

6. In § 1050.43, subparagraph (5) of paragraph (f) is revised to read as follows:

§ 1050.43 Transfers and diversions.

* * * * *

(f) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II;

* * * * *

7. In § 1050.45, subparagraphs (2), (3), (4), (5), (6), (7), (8), and the introductory text of subparagraph (9) preceding subdivision (i) of paragraph (a) are revised to read as follows:

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (4) (v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract from the remaining pounds of skim milk in Class I milk the pounds of skim milk in inventory of fluid milk products in packaged form on hand at the beginning of the month;

(4) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(5) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II;

(i) The pounds of skim milk in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (4) (iv) of this paragraph, for which the handler requests Class II utilization, but not in excess of the pounds of skim milk remaining in Class II;

(ii) The pounds of skim milk remaining in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (4) (iv) of this paragraph, which are in excess of the pounds of skim milk determined as follows:

(*a*) Multiply the pounds of skim milk remaining in Class I milk (excluding Class I transfers between pool plants of the handler) at all pool plants of the handler by 1.25; and

(*b*) Subtract from the result the sum of the pounds of skim milk at all such plants in producer milk, in receipts from other pool handlers and in receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (4) (v) of this paragraph;

(iii) The pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (4) (v) of this paragraph, in excess of similar transfers to such plant, but not in excess of the pounds of skim milk remaining in

Class II, if Class II utilization was requested by the transferee handler and the operator of the transferor plant requests such utilization;

(6) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in inventory of bulk fluid milk products on hand at the beginning of the month;

(7) Add to the remaining pounds of skim milk in Class II milk the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraphs (4)(iv) or (5) (i) and (ii) of this paragraph;

(9) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, in excess in each case of similar transfers to the same plant, that were not subtracted pursuant to subparagraphs (4)(v) or (5)(iii) of this paragraph pursuant to the following procedure:

* * * * *

8. Section 1050.61 is revised to read as follows:

§ 1050.61 Plants subject to other Federal orders.

In the case of a handler in his capacity as operator of a plant specified in paragraphs (a), (b), and (c) of this section the provisions of this part shall not apply except as specified in paragraphs (d) and (e):

(a) A distributing plant qualified pursuant to § 1050.12(a) which meets the requirements of a fully regulated plant pursuant to the provisions of another order issued pursuant to the Act and from which a greater quantity of fluid milk products, except filled milk, is disposed of during the month from such plant as Class I route disposition in the marketing area regulated by the other order than as Class I route disposition in the Central Illinois marketing area: *Provided,* That such a distributing plant which was a pool plant under this order in the immediately preceding month shall continue to be subject to all of the provisions of this part until the third consecutive month in which a greater proportion of such Class I route disposition is made in such other marketing area, unless the other order requires regulation of the plant without regard to its qualifying as a pool plant under this order subject to the proviso of this paragraph;

(b) A distributing plant qualified pursuant to § 1050.12(a) which meets the requirements of a fully regulated plant pursuant to the provisions of another Federal order and from which a greater quantity of Class I milk, except filled milk, is disposed of during the month in the Central Illinois marketing area as Class I route disposition than as Class I route disposition in the other marketing area, and such other order which fully regulates the plant does not contain provision to exempt the plant from regulation even though such plant has greater such Class I route disposition in the marketing area of the Central Illinois order;

(c) Any plant qualified pursuant to § 1050.12(c) for any portion of the period of February through August, inclusive, that the milk at such plant is subject to the classification and pricing provisions of another order issued pursuant to the Act;

(d) Each handler operating a plant described in paragraph (a), (b), or (c) of this section shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such manner as the market administrator may require (in lieu of reports pursuant to §§ 1050.30 through 1050.32) and allow verification of such reports by the market administrator; and

(e) Each handler operating a plant specified in paragraph (a) or (b) of this section, if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

9. In § 1050.62 paragraphs (a)(1)(i) and (b) are revised to read as follows:

§ 1050.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1) (i) The obligation that would have been computed pursuant to § 1050.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts of such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1050.70(f) and a credit in the amount specified in § 1050.84 (b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified below in this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location or the Class II price, whichever is higher and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

10. Section 1050.83 is revised to read as follows:

§ 1050.83 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund," which shall function as follows: (a) All payments made by handlers pursuant to §§ 1050.61, 1050.62, 1050.84, and 1050.86 shall be deposited in such fund and out of which shall be made all payments pursuant to §§ 1050.85 and 1050.86: *Provided,* That any payments due to any handler shall be offset by any payments due from such handler; and (b) all amounts subtracted pursuant to § 1050.71(h) shall be deposited in this fund and set aside as an obligated balance until withdrawn to effectuate § 1050.80 in accordance with the requirements of § 1050.71(i).

11. In § 1050.90 paragraphs (a) and (d) are revised to read as follows:

§ 1050.90 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the month during which the market administrator receives the handler's utilization report on the skim milk and

butterfat involved in such obligation unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers or if the obligation is payable to the market administrator, the account for which it is to be paid;

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed or 2 years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler, if a refund on such payment is claimed, unless such handler within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1060—MILK IN THE MINNESOTA-NORTH DAKOTA MARKETING AREA

1. Section 1060.11 is revised to read as follows:

§ 1060.11 Producer-handler.

Producer-handler means any person who meets all of the following conditions:

(a) Operates a dairy farm and a distributing plant;

(b) Receives no milk during the month from other dairy farmers or from sources other than pool plants and not more than 3,000 pounds of milk and fluid milk products (including the milk equivalent of nonfluid products which are reconstituted into fluid milk products) during the month from any source;

(c) Receives no nonfluid milk products from any source for reconstitution into fluid milk products except that received within the limitations set forth in paragraph (b) of this section;

(d) Such person must provide proof satisfactory to the market administrator that (1) the care and management of all the dairy animals and other resources necessary to produce the milk are the personal enterprise of and at the personal risk of such person, and (2) the operation of the processing and distributing business is the personal enterprise of and at the personal risk of such person.

2. Section 1060.18 is revised to read as follows:

§ 1060.18 Fluid milk product.

"Fluid milk product" means milk, skim milk, flavored milk, filled milk, concentrated milk, buttermilk, milk drinks (plain or flavored), sour cream and sour cream products labeled Grade A, cream or any mixture in fluid form of cream and milk or skim milk. The term includes these products in fluid, frozen, fortified (including "dietary" milk products) or reconstituted form but does not include sterilized products in hermetically sealed containers and such products as yogurt, eggnog, aerated cream in dispensers, ice cream mix, frozen dessert mix and evaporated or condensed milk or skim milk. This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

3. A new § 1060.19 is added, to read as follows:

§ 1060.19 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

4. Section 1060.20 is revised to read as follows:

§ 1060.20 Plant.

"Plant" means the land, buildings, facilities, and equipment constituting a single operating unit or establishment at which milk or milk products (including filled milk) are received, processed and/or packaged. Separate facilities used only as a reload point for transferring bulk milk or filled milk from one tank truck to another shall not be a plant under this definition. Facilities used only as a distribution point for storing fluid milk products in transit on routes shall not be a plant under this definition.

5. In § 1060.23, paragraphs (a) and (b) are revised to read as follows:

§ 1060.23 Pool plant.

* * * * *

(a) A distributing plant from which during the month there is disposed:

(1) As Class I milk, except filled milk, on routes in the marketing area not less than 15 percent of Grade A milk receipts at such plant; and

(2) As Class I milk, except filled milk, on routes or by transfer to another plant and classified as Class I pursuant to § 1060.44 not less than the applicable percentage of such plant's receipts of Grade A milk:

(i) March through June, 20 percent;

(ii) July through February, 25 percent: *Provided,* That all distributing plants operated by a handler may be considered as one plant for the purpose of meeting the applicable percentage requirement of this subparagraph if the handler submits a written request to the market administrator prior to the delivery period for which such consideration is requested; and

(b) A supply plant from which not less than 25 percent of its producer receipts at such plant during the month is shipped as fluid milk products, except filled milk, to pool plants qualified pursuant to paragraph (a) of this section: *Provided,* That a supply plant which qualified pursuant to this paragraph in each of the immediately preceding months of August through November shall be a pool plant for the months of March through June unless the plant operator requests the market administrator in writing that such plant not be a pool plant, such nonpool status to be effective the first month following such notice and thereafter until the plant qualifies as a pool plant on the basis of shipments.

6. In § 1060.24, the introductory text preceding paragraph (a), and paragraphs (c) and (d) are revised to read as follows:

§ 1060.24 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

* * * * *

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant from which fluid milk products are shipped during the month to a distributing plant, and is neither an other order plant nor a producer-handler plant.

7. In § 1060.35, paragraphs (e) and (h) are revised to read as follows:

§ 1060.35 Reports of receipts and utilization.

* * * * *

(e) A separate statement showing the disposition of fluid milk products on routes in the marketing area and a statement showing separately in-area and outside area route disposition of filled milk;

* * * * *

(h) Each handler specified in § 1060.10(d) who operates a partially regulated distributing plant shall report as required in this section, except that receipts of Grade A milk shall be reported in lieu of those in producer milk. Such report shall include a separate statement showing the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area.

7a. In § 1060.38, paragraphs (b) and (c) are revised to read as follows:

§ 1060.38 Records and facilities.

* * * * *

(b) The weights and tests for butterfat and other content of all milk and milk products (including filled milk) handled during the month;

(c) The pounds of skim milk and butterfat contained in or represented by all milk products (including filled milk) in inventory at the beginning and end of each month; and

* * * * *

8. In § 1060.44, subparagraph (5) of paragraph (f) is revised to read as follows:

§ 1060.44 Transfers.

* * * * *

(f) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

9. Section 1060.46 is revised to read as follows:

§ 1060.46 Allocation of skim milk and butterfat classified.

After making the computations pursuant to § 1060.45, the market administrator shall determine the classification of producer milk for each handler as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk classified as Class II pursuant to § 1060.41(b)(5);

(2) Subtract from the pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (4)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract from the remaining pounds of skim milk in Class I, the pounds of skim milk in inventory of packaged fluid milk products on hand at the beginning of the month;

(4) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order, and from exempt institutions as defined in § 1060.60(b);

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(5) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II, but not in excess of such quantity:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to subparagraph (4)(iv) of this paragraph;

(*a*) For which the handler requests Class II utilization; or

(*b*) The pounds of skim milk in receipts which are in excess of the pounds of skim milk determined by subtracting from 125 percent of the pounds of skim milk remaining in Class I milk (exclusive of transfers between pool plants of the same handler) the sum of the pounds of skim milk in producer milk, receipts of fluid milk products from pool plants of other handlers, and receipts of fluid milk products in bulk from other order plants that were not subtracted pursuant to subparagraph (4)(v) of this paragraph; and

(ii) The pounds of skim milk in receipts of fluid milk products in bulk from an other order plant that were not subtracted pursuant to subparagraph (4)(v) of this paragraph, in excess of similar transfers to such plant, if Class II utilization was requested by the operator of such plant and the transferee handler but not in excess of the pounds of skim milk remaining in Class II milk;

(6) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in inventory of fluid milk products in bulk on hand at the beginning of the month;

(7) Add to the remaining pounds of skim milk in Class II milk the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraphs (4)(iv) or (5)(i) of this paragraph;

(9) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (4)(v) or (5)(ii) of this paragraph;

(i) In series beginning with Class II, the pounds determined by multiplying the pounds of such receipts by the larger of the percentage of estimated Class II utilization of skim milk announced for the month by the market administrator pursuant to § 1060.32(1) or the percentage that Class II utilization remaining is of the total remaining utilization of skim milk of the handler; and

(ii) From Class I milk, the remaining pounds of such receipts;

(10) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk received in fluid milk products from pool plants of other handlers according to the classification assigned pursuant to § 1060.44(a); and

(11) If the pounds of skim milk remaining in both classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class II. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) Combine the amounts of skim milk and butterfat determined pursuant to paragraphs (a) and (b) of this section into one total for each class and determine the weighted average butterfat content of producer milk in each class.

10. The introductory text of § 1060.61 which precedes paragraph (a) is revised to read as follows:

§ 1060.61 Plants subject to other Federal orders.

The provisions of this order shall not apply with respect to a plant of a handler specified in paragraph (a) or (b) of this section except as specified in paragraphs (c) and (d):

* * * * *

§ 1060.61 [Amended]

10a. In paragraph (a) of § 1060.61, the phrase "fluid milk products" as it appears in the text preceding the proviso is changed to read "fluid milk products, except filled milk,"; and the phrase "Class I disposition" as it appears in the proviso is changed to read "Class I disposition, except filled milk".

10b. In § 1060.61, paragraph (b) is revised and new paragraphs (c) and (d) are added to read as follows:

§ 1060.61 Plants subject to other Federal orders.

* * * * *

(b) A distributing plant which meets the requirements set forth in § 1060.23(a) which also meets the requirements of another marketing order on the basis of its distribution in such other marketing area and from which the Secretary determines a greater quantity of fluid milk products, except filled milk, is disposed of during the month on routes in this marketing area than is so disposed of in such other marketing area but which plant is nevertheless fully regulated under such other marketing order.

(c) Each handler operating a plant described in paragraph (a) or (b) of this section shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such manner as the market administrator may require (in lieu of reports pursuant to §§ 1060.35 through 1060.37) and allow verification of such reports by the market administrator.

(d) Each handler operating a plant specified in paragraph (a) or (b) of this section if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

11. In § 1060.62, subdivision (i) of paragraph (a)(1), and paragraph (b) are revised to read as follows:

§ 1060.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1)(i) The obligation that would have been computed pursuant to § 1060.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the uniform price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1060.70(f) and a credit in the amount specified in § 1060.84(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes (other than to pool plants) in the marketing area;

(2) Deduct (except that deducted under a similiar provision of another order issud pursuant to the Act) the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the uniform price applicable at such location (not to be less than the Class II price), and add for the qauntity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

12. In § 1060.83, paragraph (a) is revised to read as follows:

§ 1060.83 Producer-settlement fund.

* * * * *

(a) Payments made by handlers pursuant to §§ 1060.61, 1060.62, 1060.84 and 1060.86.

* * * * *

13. In § 1060.89, paragraphs (a) and (d) are revised to read as follows:

§ 1060.89 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The months during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producers or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time files pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1062—MILK IN THE ST. LOUIS-OZARKS MARKETING AREA

1. Section 1062.12 is revised to read as follows:

§ 1062.12 Pool plant.

"Pool plant" means:

(a) Any distributing plant, other than that of a producer-handler or one described in § 1062.61, which:

(1) Has disposition during the month of fluid milk products, except filled milk, on routes and in packaged form to pool distributing plants, which, after subtraction of the quantity of packaged fluid milk products, except filled milk, received from other pool plants, is equal to at least 50 percent of such plant's total receipts of Grade A fluid milk products from dairy farmers (including milk diverted by the plant operator), supply plants and cooperative associations as handlers pursuant to § 1062.8(d), exclusive of packaged fluid milk products, except filled milk, received from other pool plants, and has route disposition in the marketing area in an amount equal to 10 percent or more of such receipts or an average of not less than 7,000 pounds per day, whichever is less; or

(2) Qualified as a pool plant in the immediately preceding month on the basis of the performance standards described in subparagraph (1) of this paragraph;

(b) Any supply plant from which during the month 50 percent or more of the Grade A milk received from dairy farmers and cooperative associations in their capacity as a handler pursuant to § 1062.8(d) is shipped to a plant(s) described in paragraph (a) of this section. Any supply plant which has shipped to a plant(s) described in paragraph (a) of this section the required percentages of its receipts during each of the months of September through February shall be designated a pool plant in each of the following months of March through August unless the plant operator requests the market administrator in writing that such plant not be a pool plant. Such nonpool plant status shall be effective the first month following such notice and thereafter until the plant again qualifies as a pool plant on the basis of shipments;

(c) Any plant which is operated by or under contract to a cooperative association, or a federation of cooperatives, if:

(1) The operator of such plant(s) requests pool status, and 50 percent or more of all the Grade A milk from farms of the member producers of such cooperative or federation including milk delivered by the cooperative as a handler pursuant to § 1062.8(d) has been shipped to and physically received at pool distributing plants during the current month or the previous 12-month period ending with

the current month, either directly from producer member farms or by transfer from such association plant(s); and

(2) Such a plant does not qualify during the month as a "pool plant" under another market pool order issued pursuant to the Act by making shipments of milk to plants which qualify as "pool plants" under such other order; or

(3) Such plant meets the requirements of subparagraph (2) of this paragraph and met the requirements of subparagraph (1) of this paragraph in the preceding month.

2. Section 1062.13 is revised to read as follows:

§ 1062.13 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act;

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act;

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant which has route disposition of fluid milk products in consumer-type packages or dispenser units in the marketing area during the month; and

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products are shipped to a pool plant.

3. Section 1062.16 is revised to read as follows:

§ 1062.16 Fluid milk products.

"Fluid milk product" means milk, skim milk, concentrated milk, buttermilk, flavored milk, milk drinks (plain or flavored), fortified milk or skim milk (including "dietary milk products"), filled milk, reconstituted milk or skim milk, sour cream and sour cream mixtures labeled Grade A, cream or any mixture in fluid form of milk or skim milk and cream (except frozen or aerated cream, ice cream or frozen dessert mixes, eggnog, sour cream or sour cream mixtures not labeled Grade A, dips not labeled Grade A, and sterilized milk and milk products hermetically sealed in metal or glass containers and so processed either before or after sealing so as to prevent microbial spoilage). This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

4. Section 1062.17 is revised to read as follows:

§ 1062.17 Route disposition.

"Route disposition" or "disposed of on routes" means any deliver of a fluid milk product to a retail or wholesale outlet (including any delivery through a vendor, or a sale in packaged form from a plant or plant store) except a delivery to another plant or to commercial food establishments pursuant to § 1062.41(b)(4).

5. A new § 1062.19 is added to read as follows:

§ 1062.19 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

6. In § 1062.30, paragraphs (a) (3), (4) and (b) are revised to read as follows:

§ 1062.30 Reports of receipts and utilization.

* * * * *

(a) * * *

(3) The utilization or disposition of all quantities required to be reported, including separate statements of quantities;

(i) Of fluid milk products on hand at the end of the month;

(ii) Of route disposition of fluid milk products in the marketing area, and route disposition of filled milk in and outside the marketing area; and

(4) Such other information with respect to receipts and utilization as the market administrator may request;

(b) Each handler described in § 1062.8(b) shall report as required in paragraph (a) of this section, except that receipts of Grade A milk from dairy farmers shall be reported in lieu of producer milk and such report shall include a separate statement showing the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area; and

* * * * *

7. In § 1062.33, paragraph (b) is revised to read as follows:

§ 1062.33 Records and facilities.

* * * * *

(b) The weights and tests for butterfat and other content of all milk and milk products (including filled milk) handled;

* * * * *

8. In § 1062.44, subparagraph (5) of paragraph (e) is revised to read as follows:

§ 1062.44 Transfers.

* * * * *

(e) * * *

(5) For purposes of this paragraph (e), if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid products shall be classified as Class I milk, and skim milk and butterfat allocated to another class shall be classified as Class II milk; and

* * * * *

9. In § 1062.46(a), subparagraphs (2), (3), (4), (5), (6), (7), and the introductory text of subparagraph (8) preceding subdivision (i) are revised to read as follows:

§ 1062.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II milk, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order or from a plant exempt pursuant to § 1062.60(b);

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II milk but not in excess of such quantity:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph;

(*a*) For which the handler requests Class II milk utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from other pool plants and receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph; and

(ii) Receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plant, if Class II milk utilization was requested by the operator of such plant and the handler;

(iii) The pounds of skim milk in receipts of milk by diversion from an other

order plant for which Class II utilization was requested by the receiving handler and by the diverting handler under the other order, but not in excess of the pounds of skim milk remaining in Class II milk;

(5) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II milk, the pounds of skim milk in inventory of fluid milk products on hand at the beginning of the month;

(6) Add to the remaining pounds of skim milk in Class II milk the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraphs (3)(iv) or (4)(i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (3)(v) or (4)(ii) of this paragraph:

* * * * *

10. Section 1062.61 is revised to read as follows:

§ 1062.61 Plants subject to other Federal orders.

The provisions of this part shall not apply with respect to the operation of any plant specified in paragraph (a), (b), or (c) of this section except as specified in paragraphs (d) and (e):

(a) A distributing plant which meets the pooling requirements of another Federal order and from which route disposition, except filled milk, during the month in such other Federal order marketing area is greater than was so disposed of in this marketing area, except that if such plant was subject to all the provisions of this part in the immediately preceding month, it shall continue to be subject to all of the provisions of this part until the third consecutive month in which a greater proportion of such Class I disposition is made in such other marketing area unless, notwithstanding the provisions of this paragraph, it is regulated under such other order;

(b) A distributing plant which meets the pooling requirements of another Federal order and from which route disposition, except filled milk, during the month in this marketing area is greater than was so disposed of in such other Federal order marketing area but which plant is, nevertheless, fully regulated under such other Federal order;

(c) A supply plant meeting the requirements of § 1062.12(b) which also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made during the month to plants regulated under such other order than are made to plants regulated under this part, except during the months of March through August if such plant retains automatic pooling status under this part;

(d) The operator of a plant specified in paragraph (a), (b), or (c) of this section shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require (in lieu of reports pursuant to §§ 1062.30 through 1062.32) and allow verification of such reports by the market administrator; and

(e) Each handler operating a plant specified in paragraph (a) or (b) of this section, if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in the marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area.

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

11. In § 1062.62, paragraphs (a)(1)(i) and (b) are revised to read as follows:

§ 1062.62 Obligations of handlers operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1) (i) The obligation that would have been computed pursuant to § 1062.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or any other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the uniform price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1062.70(e) and a credit in the amount specified in § 1062.84(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph; and

(b) An amount computed as follows:

(1) Determine the respective amounts of route disposition (other than to pool plants) of skim milk and butterfat disposed of in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content: and

(5) From the value of such milk at the Class I milk price applicable at the location of the nonpool plant, subtract its value at the uniform price applicable at such location (not to be less than the Class II milk price) and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

12. Section 1062.83 is revised to read as follows:

§ 1062.83 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1062.61, 1062.62, 1062.84, and 1062.86, and out of which he shall make all payments to handlers pursuant to §§ 1062.85 and 1062.86. The market administrator shall offset the payment due to a handler against payments due from such handler.

13. In § 1062.89, paragraphs (a) and (d) are revised to read as follows:

§ 1062.89 Termination of obligation.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall contain but need not be limited to the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid;

* * * * * * * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the month during which the payment (including deduction or offset by the market administrator) was made by the handler, if a refund on such payment is claimed unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1063—MILK IN QUAD CITIES-DUBUQUE MARKETING AREA

1. In § 1063.10, paragraphs (a) and (b) are revised as follows:

§ 1063.10 Pool plant.

* * * * *

(a) A distributing plant from which:

(1) The volume of Class I packaged fluid milk products, except filled milk, disposed of during the month either on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets or moved to other plants, less receipts of packaged fluid milk products other than filled milk from other pool distributing plants, is not less than 45 percent of the total Grade A fluid milk products, except filled milk, received at such plant, exclusive of receipts of packaged fluid milk products from other pool distributing plants and receipts from other order plants which are assigned pursuant to § 1063.46(a)(4)(ii) and the corresponding step of § 1063.46(b); and

(2) Not less than 15 percent of such receipts during the month are so disposed of in the marketing area on routes.

(b) A supply plant from which the volume of fluid milk products, except filled milk, shipped during the month to plants qualified pursuant to paragraph (a) of this section is not less than 35 percent of the Grade A milk received at such plant from dairy farmers during such month: *Provided*, That if such shipments are not less than 50 percent of the receipts of Grade A milk directly from dairy farmers at such plant during the immediately preceding period of September through November, such plant shall be a pool plant for the months of December through August, unless written application is filed with the market administrator on or before the 1st day of any of the months of December through August to be designated a nonpool plant for such month and for each subsequent month through August.

* * * * *

2. Section 1063.11 is revised as follows:

§ 1063.11 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant from which fluid milk products are shipped during the month to a pool plant.

3. Section 1063.15 is revised as follows:

§ 1063.15 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, milk drinks (plain or flavored), filled milk, cream or any mixture in fluid form of skim milk and butterfat (except aerated cream products, products containing cheese and labeled as such, yogurt, ice cream mix, evaporated or condensed milk, and sterilized products packaged in hermetically sealed containers). This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

4. A new § 1063.18 is added as follows:

§ 1063.18 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

5. In § 1063.30, paragraph (f) is revised as follows:

§ 1063.30 Reports of receipts and utilization.

* * * * *

(f) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement of the route disposition of Class I milk outside the marketing area and a statement showing separately in-area and outside area route disposition of filled milk; and

* * * * *

6. In § 1063.31, paragraph (c)(1) is revised as follows:

§ 1063.31 Other reports.

* * * * *

(c) * * *

(1) As required pursuant to § 1063.30, except that receipts in Grade A milk shall be reported in lieu of those in producer milk; such report shall include a separate statement showing Class I disposition on routes in the marketing area of each of the following: skim milk and butterfat, respectively in fluid milk products and the quantity thereof which is reconstituted skim milk.

* * * * *

7. In § 1063.44, paragraph (e)(5) is revised as follows:

§ 1063.44 Transfers.

* * * * *

(e) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

8. In § 1063.46, subparagraphs (2), (3), (4), (7), and (8) of paragraph (a) are revised as follows:

§ 1063.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Substract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II but not in excess of such quantity:

(i) Receipts of fluid milk products from an unregulated supply plant, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph:

(*a*) For which the handler requests Class II utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying

the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from other pool handlers, and receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph;

(ii) Receipts of fluid milk products in bulk, including diversions, from an other order plant, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plant, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraphs (3)(iv) or (4)(i) of this paragraph;

(8) subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (3)(v) or (4)(ii) of this paragraph;

(i) In series beginning with Class II, the pounds determined by multiplying the pounds of such receipts by the larger of the percentage of estimated Class II utilization of skim milk announced for the month by the market administrator pursuant to § 1063.22(m) or the percentage that Class II utilization remaining is of the total remaining utilization of skim milk of the handler; and

(ii) From Class I, the remaining pounds of such receipts;

* * * * *

9. Section 1063.61 is revised as follows:

§ 1063.61 Plants subject to other Federal orders.

The provisions of this part shall not apply to a handler who operates a plant specified in paragraph (a) of this section except as specified in paragraphs (b) and (c):

(a) A distributing plant, a supply plant or a plant otherwise qualified as a pool plant pursuant to § 1063.10(c) during any month in which such plant would be subject to the classification and pricing provision of another order issued pursuant to the act unless the disposition of fluid milk products, except filled milk, from such plant to pool plants qualified under § 1063.10 and to retail and wholesale outlets in the Quad Cities-Dubunque marketing area exceeds such disposition to retail and wholesale outlets in such other marketing area and to pool plants regulated by such other order;

(b) Each handler operating a plant described in paragraph (a) of this section shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such manner as the market administrator may require (in lieu of the reports required pursuant to § 1063.30) and allow verification of such reports by the market administrator.

(c) Each handler operating a plant specified in paragraph (a) of this section, if such plant is subject to the classification and pricing provisions of another order which provides for individual-handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the non-pool plant and subtract its value at the Class II price.

10. In § 1063.62, paragraphs (a)(1)(i) and (b) are revised as follows:

§ 1063.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1)(i) The obligation that would have been computed pursuant to § 1063.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1063.70(e) and a credit in the amount specified in § 1063.84(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified below in this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location (not to be less than the Class II price) and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

11. Section 1063.83 is revised as follows:

§ 1063.83 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1063.61, 1063.62, 1063.84, and 1063.86 and out of which he shall make all payments to handlers pursuant to §§ 1063.85 and 1063.86.

12. In § 1063.89, paragraphs (a) and (d) are revised as follows:

§ 1063.89 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in

the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files pursuant to section 8c(15)(A) of the act, a petition claiming such money.

PART 1064—MILK IN GREATER KANSAS CITY MARKETING AREA

1. Section 1064.12 is revised as follows:

§ 1064.12 Pool plant.

"Pool plant" means a plant (except a plant exempt pursuant to § 1064.60 or § 1064.62) specified in paragraph (a), (b), or (c) of this section:

(a) A distributing plant from which during the month or the immediately preceding month:

(1) Not less than 15 percent of the total Grade A fluid milk products, except filled milk, received at such plant, including producer milk diverted to other plants pursuant to § 1064.15 by the handler operating such plant is disposed of in the marketing area on routes in the form of fluid milk products, except filled milk, and

(2) Not less than the following percentage of the total Grade A fluid milk products, except filled milk, received at such plant, including producer milk diverted to other plants pursuant to § 1064.15 by the handler operating such plant is disposed of on routes in the form of fluid milk products, except filled milk: *Provided,* That the combined receipts and disposition of each handler who operates more than one distributing plant, each of which meets the performance requirement of subparagraph (1) of this paragraph, shall be used in determining the percentages specified in this subparagraph:

(i) April through June, 35 percent;

(ii) September and October, 50 percent; and

(iii) All other months, 45 percent.

(b) A supply plant from which during the month the volume of Grade A fluid milk products, except filled milk, shipped to and received at pool plants pursuant to paragraph (a) of this section and/or disposed of in the marketing area as Class I, except filled milk, on routes is not less than 30 percent during November, December, and January and not less than 50 percent during all other months of the volume of Grade A milk received from dairy farmers at such plant (including receipts from a handler pursuant to § 1064.7(c) except receipts of diverted milk pursuant to § 1064.15): *Provided,* That any supply plant which is a pool plant during September through January shall be pooled for the following months of February through August if the required percentages pursuant to this paragraph are not met, unless such operator requests the market administrator in writing that such plant not be a pool plant, such nonpool status to be effective the first month following such notice and thereafter until the plant qualifies as a pool plant on the basis of shipments.

(c) A supply plant which is operated by a cooperative association in any month in which the member producer milk of such cooperative association received during the month at pool distributing plants either by transfer from such supply plant or directly from member producers' farms is equal to or in excess of the following percentages of such cooperatives' total member producer milk: September, October, November, December, and January, 65 percent; all other months, 50 percent. If two or more cooperative associations desire to qualify, a supply plant operated by one of such cooperatives as a pool plant on the basis of their combined deliveries to pool distributing plants and have filed a request to this effect in writing with the market administrator on or before the first day of the month the agreement is effective, such a supply plant shall be a pool plant during the month if the above specified percentages of the total member producer milk of such cooperative associations was received during the month at pool distributing plants.

2. Section 1064.13 is revised as follows:

§ 1064.13 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant (except the plant of a handler pursuant to § 1064.7(f), an other order plant, or a producer-handler plant) from which fluid milk products in consumer-type packages or dispenser units are distributed in the marketing area on routes during the month.

(d) "Unregulated supply plant" means a nonpool plant which is not an other order plant, a producer-handler plant, or a plant of a handler pursuant to § 1064.7(f) from which a fluid milk product is shipped during the month to a pool plant.

3. Section 1064.17 is revised as follows:

§ 1064.17 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, flavored milk, flavored milk drinks, fortified milk or skim milk, reconstituted milk or skim milk, filled milk, sweet or sour cream and any mixture of such cream and milk or skim milk (including such mixtures containing less than the required butterfat standard for cream but not including any cultured sour mixtures to which cheese or any food substance other than a milk product has been added in an amount not less than 3 percent by weight of the finished product) and concentrated (frozen or fresh) milk, flavored milk, or flavored milk drinks which are neither sterilized nor in hermetically sealed cans. This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

4. A new § 1064.17a is added as follows:

§ 1064.17a Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

5. In § 1064.30, paragraphs (e) and (h) are revised as follows:

§ 1064.30 Reports of receipts and utilization.

* * * * *

(e) The disposition of fluid milk products on routes wholly outside the marketing area and a statement showing separately in-area and outside area route disposition of filled milk;

* * * * *

(h) Each handler specified in § 1064.7(d) who operates a partially regulated distributing plant shall report as required in this section, with receipts in Grade A milk reported in lieu of those in producer milk. Such report shall include a separate statement showing Class I disposition on routes in the marketing area of each of the following: skim milk and butterfat, respectively in fluid milk products and the quantity thereof which is reconstituted skim milk.

6. In § 1064.33, paragraphs (b) and (d) are revised as follows:

§ 1064.33 Records and facilities.

* * * * *

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream and milk products (including filled milk) handled;

* * * * *

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream and each milk product (including filled milk) on hand at the beginning and at the end of each month.

7. In § 1064.44, paragraph (e)(5) is revised as follows:

§ 1064.44 Transfers.

* * * * *

(e) * * *

(5) For purposes of this paragraph, if the transferee order provides for only two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I and skim milk and butterfat allocated to the other class shall be classified as Class III; and

* * * * *

8. Section 1064.46 is revised as follows:

§ 1064.46 Allocation of skim milk and butterfat classified.

After making the computations pursuant to § 1064.45, the market administrator shall determine the classification

of producer milk for each handler as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III, the pounds of skim milk classified as Class III pursuant to § 1064.41(c)(7);

(2) Subtract from the remaining pounds of skim milk in each class, the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(vi) of this paragraph, as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract, in the order specified below, from the pounds of skim milk remaining in each class, in series beginning with Class III milk, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products, except filled milk, for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of fluid milk products from a handler pursuant to § 1064.7(f);

(v) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(vi) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another marketwide pool order.

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II milk or Class III milk but not in excess of such quantity, the pounds of skim milk in each of the following:

(i) Receipts of fluid milk products that were not subtracted pursuant to subparagraph (3)(v) of this paragraph from an unregulated supply plant:

(*a*) For which the handler requests Class II or Class III in series beginning with the requested class; or

(*b*) In series beginning with Class III, which are in excess of the pounds of skim milk determined by subtracting from 125 percent of the pounds of skim milk remaining in Class I milk, the sum of the pounds of skim milk in producer milk, receipts from other pool plants, and receipts in bulk from other order plants that were not subtracted pursuant to subparagraph (3)(vi) of this paragraph; and

(ii) Receipts of fluid milk products that were not subtracted pursuant to subparagraph (3)(vi) of this paragraph in bulk from an other order plant in excess of similar transfers to such plant, if Class II or Class III was requested by the operators of both plants in series beginning with the requested class;

(5) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III milk, the pounds of skim milk in inventory of fluid milk products at the beginning of the month;

(6) Add to the remaining pounds of skim milk in Class III milk, the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(7) Subtract from the pounds of skim milk remaining in each class pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraph (3)(v) or (4)(i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, in excess in each case of similar transfers to the same plant, that were not subtracted pursuant to subparagraphs (3)(vi) or (4)(ii) of this paragraph:

(i) In series beginning with Class III, the pounds determined by multiplying the pounds of such receipts by the larger of the percentage of estimated combined Class II and Class III utilization of skim milk announced for the month by the market administrator pursuant to § 1064.22(m) or the percentage that combined Class II and Class III utilization remaining is of the total remaining utilization of the handler; and

(ii) From Class I, the remaining pounds of such receipts;

(9) Subtract from the pounds of skim milk remaining in each class, the pounds of skim milk received in fluid milk products from pool plants of other handlers according to the classification assigned pursuant to § 1064.44(a); and

(10) If the pounds of skim milk remaining exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) Combine the amounts of skim milk and butterfat determined pursuant to paragraphs (a) and (b) of this section into one total for each class and determine the weighted average butterfat content of producer milk in each class.

9. In § 1064.61, paragraphs (a)(1)(i) and (b) are revised as follows:

§ 1064.61 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1) (i) The obligation that would have been computed pursuant to § 1064.70 shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II or Class III milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class III price. There shall be included in the obligation so computed a charge in the amount specified in § 1064.70(e) and a credit in the amount specified in § 1064.84(a)(2)(ii) with respect to receipts, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class III price, from an unregulated supply plant, unless an obligation with respect to such plant is computed as specified below in this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk in the marketing area on routes;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location (not to be less than the Class III price) and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class III price.

10. Section 1064.62 is revised as follows:

§ 1064.62 Plants subject to other Federal orders.

The provisions of this part shall not apply to any plant which meets the requirements of paragraph (a), (b), or (c) of this section, except as specified in paragraphs (d) and (e) of this section.

(a) A distributing plant qualified pursuant to § 1064.12 which also meets the pooling requirements of another Federal order and a greater volume of fluid milk products, except filled milk, was disposed of during the month on routes in such other marketing area and to pool plants qualified on the basis of route distribution in such other marketing

area than was so disposed of in this marketing area except that if such plant was subject to all the provisions of this part in the immediately preceding month, it shall continue to be subject to all the provisions of this part until the third consecutive month in which a greater proportion of its fluid product disposition, except filled milk, is made in the above described manner in such other marketing area, unless, notwithstanding the provisions of this paragraph, it is regulated under such other order.

(b) A distributing plant qualified pursuant to § 1064.12 which also meets the pooling requirements of another Federal order and a greater volume of fluid milk products, except filled milk, was disposed of during the month on routes in this marketing area and to pool plants qualified on the basis of route distribution in this marketing area than was so disposed of in such other Federal order marketing area but which plant is, nevertheless, fully regulated under such other Federal order.

(c) A supply plant meeting the requirements of § 1064.12, which also meets the pooling requirements of another Federal order, from which greater direct marketing area route disposition in the form of fluid milk products, except filled milk, and qualifying shipments are made to plants regulated under such other order than are made in this marketing area on routes in the form of fluid milk products, except filled milk, and to plants regulated under this part, except that during the months of February through August if the operator of such plant gives written notification to the market administrator on or before the 1st day of any such month that he elects to maintain automatic pool status for such plants under this part for the month and each subsequent month through August.

(d) Each handler operating a plant described in paragraph (a), (b), or (c) of this section shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such manner as the market administrator may require (in lieu of reports pursuant to §§ 1064.30 through 1064.32) and allow verification of such reports by the market administrator.

(e) Each handler operating a plant specified in paragraph (a) or (b) of this section if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more marketwide pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area.

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class III price.

11. In § 1064.83, paragraph (a) is revised as follows:

§ 1064.83 Producer-settlement fund.

* * * * *

(a) Payments made by handlers pursuant to § 1064.61 (a) and (b), § 1064.62 (e), and §§ 1064.84 and 1064.86.

* * * * *

12. In § 1064.89, paragraphs (a) and (d) are revised as follows:

§ 1064.89 Termination of obligation.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this order shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1065—MILK IN THE NEBRASKA-WESTERN IOWA MARKETING IOWA

1. Section 1065.9 is revised to read as follows:

§ 1065.9 Producer-handler.

"Producer-handler" means any person who is both a dairy farmer and the operator of a distributing plant, and who meets all of the following conditions:

(a) Receipts of fluid milk products at his plant are solely milk of his own production and fluid milk products from pool plants of other handlers;

(b) Receives no nonfluid milk products for reconstituting into fluid milk products; and

(c) The maintenance, care and management of the dairy animals and other resources necessary to produce the milk, and the processing, packaging and distribution of the milk (including filled milk) are the personal enterprise and the personal risk of such person.

2. In § 1065.12, paragraphs (a) and (b) are revised to read as follows:

§ 1065.12 Pool plant.

* * * * *

(a) A distributing plant from which a volume of Class I milk, except filled milk, equal to not less than 35 percent of the Grade A milk received at such plant from dairy farmers, supply plants (exclusive of plants qualifying as pool plants pursuant to this paragraph), and cooperative associations pursuant to § 1065.8 (d), is disposed of during the month on routes and not less than 15 percent of such receipts are so disposed of in the marketing area; and

(b) A supply plant from which the volume of fluid milk products, except filled milk, shipped during the month to pool plants qualified pursuant to paragraph (a) of this section is not less than 50 percent of the Grade A milk received at such plant from dairy farmers and cooperative associations pursuant to § 1065.8(d) during such month. A supply plant that qualifies as a pool plant in each of the immediately preceding months of August through December shall be a pool plant for the succeeding months of January through July, unless the plant operator requests the market administrator, in writing, that such plant not be a pool plant, such nonpool plant status to be effective the first month following such notice and thereafter until the plant again qualifies as a pool plant on the basis of shipments.

* * * * *

3. In § 1065.13, the introductory text preceding paragraph (a), and paragraphs (c) and (d) are revised to read as follows:

§ 1065.13 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

* * * * *

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant

from which fluid milk products are shipped during the month to a pool plant.

4. Section 1065.16 is revised to read as follows:

§ 1065.16 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, flavored milk, yogurt, milk drinks (plain or flavored), filled milk, concentrated milk (frozen or fresh), cream, cultured or sour cream or any mixture in fluid form of milk or skim milk and cream (except frozen cream, a product which contains 6 percent or more nonmilk fat (or oil), aerated cream products, ice cream mix, frozen dessert mixes, eggnog, evaporated or condensed milk, sterilized products packaged in hermetically sealed metal or glass containers, and cultured sour mixtures of cream and milk or skim milk to which cheese or any other food substance other than a milk product has been added and not labeled as Grade A).

5. A new § 1065.19 is added, to read as follows:

§ 1065.19 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

6. In § 1065.30, subparagraph (3) of paragraph (a), and paragraph (b) are revised to read as follows:

§ 1065.30 Reports of receipts and utilization.

* * * * *

(a) * * *

(3) The utilization in each class of the quantities required to be reported, including a separate statement of the route disposition of Class I milk outside the marketing area and a statement showing separately in-area and outside area route disposition of filled milk;

* * * * *

(b) Each handler specified in § 1065.8 (b) who operates a partially regulated distributing plant shall report as required in paragraph (a) of this section, except that receipts of Grade A milk shall be reported in lieu of those in producer milk; such report shall include separate statements showing the respective amounts of skim milk and butterfat disposed of on routes (other than to pool plants) in the marketing area as Class I milk and the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

* * * * *

7. Section 1065.33 is revised to read as follows:

§ 1065.33 Records and facilities.

Each handler shall maintain and make available to the market administrator, or his representative, during the usual hours of business, such accounts and records of his operations, and such facilities as, in the opinion of the market administrator, are necessary to verify or to establish the correct data with respect to:

(a) The receipts and utilization in whatever form of all skim milk and butterfat required to be reported pursuant to § 1065.30;

(b) The weights and tests for butterfat and other contents of all milk and milk products (including filled milk) received or utilized; and

(c) Payments to producers or cooperative associations.

8. In § 1065.44, subparagraph (5) of paragraph (f) is revised to read as follows:

§ 1065.44 Transfers.

* * * * *

(f) * * *

(5) For the purposes of this paragraph if the transferee order provides for only two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to Class II under the other order shall be classified as Class III; and

* * * * *

9. Section 1065.46 is revised to read as follows:

§ 1065.46 Allocation of skim milk and butterfat classified.

After making the computations pursuant to § 1065.45, the market administrator shall determine the classification of producer milk for each handler as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk classified as Class III pursuant to § 1065.41(c)(8);

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class III milk, the lesser of the pounds remaining or two percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources; and

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, in sequence beginning with Class III from the pounds of skim milk remaining in Classes II and III, but not in excess of such quantity:

(i) Receipts of fluid milk products from an unregulated supply plant, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph:

(*a*) For which the handler requests Class II or Class III utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from other pool handlers, and receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph,

(ii) Receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such a plant, if Class II or Class III utilization was requested by the operator of such plant and the handler;

(5) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in inventory of fluid milk products on hand at the beginning of the month;

(6) Add to the remaining pounds of skim milk in Class III milk the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraphs (3)(iv) or (4)(i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (3)(v) or (4)(ii) of this paragraph:

(i) In series beginning with Class III, the pounds determined by multiplying the pounds of such receipts by the larger of the percentage of estimated Class II and Class III utilization of skim milk announced for the month by the market administrator pursuant to § 1065.22(1) or the percentage that Class II and Class III utilization remaining is of the total remaining utilization of skim milk of the handler; and

(ii) From Class I, the remaining pounds of such receipts;

(9) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk received in fluid milk products from pool plants of other handlers

according to the classification assigned pursuant to § 1065.44(a);

(10) Subtract pro rata from the pounds of skim milk remaining in each class the pounds of skim milk received in fluid milk products from a cooperative association in its capacity as a handler pursuant to § 1065.8(d); and

(11) If the pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the precedure outlined for skim milk in paragraph (a) of this section; and

(c) Combine the amounts of skim milk and butterfat determined pursuant to paragraphs (a) and (b) of this section into one total for each class and determine the weighted average butterfat content of producer milk in each class.

10. Section 1065.61 is revised to read as follows:

§ 1065.61 Plants subject to other Federal orders.

The provisions of this part, except §§ 1065.32 through 1065.34 and as specified in paragraph (c) of this section shall not apply to a handler with respect to the operation of plants described in paragraphs (a) or (b).

(a) A plant qualified pursuant to § 1065.12(a) from which a lesser volume of fluid milk products (not including filled milk) is disposed of in the Nebraska-Western Iowa marketing area than in the marketing area of another marketing agreement or order issued pursuant to the Act and which is fully subject to the classification and pricing provisions of such other agreement or order;

(b) Any plant qualified pursuant to § 1065.12(b) for any portion of the period of January through July, inclusive, that producer milk at such plant is subject to the classification and pricing provisions of another order issued pursuant to the Act.

(c) Each handler operating a plant specified in paragraph (a), of this section if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more marketing pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class III price.

11. In § 1065.62, subdivision (i) of paragraph (a)(1), and paragraph (b) are revised to read as follows:

§ 1065.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1)(i) The obligation that would have been computed pursuant to § 1065.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk or Class III milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class III price. There shall be included in the obligation so computed a charge in the amount specified in § 1065.70(e) and a credit in the amount specified in § 1065.82(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class III price, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes (other than to pool plants) in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location (not to be less than the Class III price), and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class III price.

12. Section 1065.81 is revised to read as follows:

§ 1065.81 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1065.61, 1065.62 (a) and (b), 1065.82, and 1065.84 and out of which he shall make all payments to handlers pursuant to §§ 1065.83 and 1065.84.

13. In § 1065.87, paragraphs (a) and (d) are revised to read as follows:

§ 1065.87 Termination of obligation.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on skim milk and butterfat involved in such obligation unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service if such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists were received or handled; and

(3) If the obligation is payable to one or more producer(s) or association of producers, the names of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid;

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1068—MILK IN THE MINNEAPOLIS-ST. PAUL, MINNESOTA MARKETING AREA

1. Section 1068.7 is revised to read as follows:

§ 1068.7 Route.

"Route" means any delivery either inside or outside the marketing area (including disposition by a vendor or from a plant store or from vending machines) of any item of Class I milk to a wholesale

or retail stop, including any governmentally operated institution, but (except for filled milk) excluding any disposition of skim milk or butterfat not eligible for sale in fluid form as Grade A milk or cream in the marketing area from a nonpool plant to any other plant or to a commercial processor of foods.

2. Section 1068.8 is revised to read as follows:

§ 1068.8 Plant.

"Plant" means the entire land, buildings, surroundings, facilities and equipment, whether owned or operated by one or more persons, maintained and operated at the same location primarily for the receiving, processing or other handling of milk or milk products (including filled milk). Under this definition any separate portion of a premises or facilities qualified under § 1068.9(b) used to receive, process, or otherwise handle milk or filled milk shall be deemed to be a separate plant. This definition shall not include any building, premises, facilities, or equipment used primarily (a) to hold or store bottled milk or milk products (including filled milk) in finished form in transit for wholesale or retail distribution on a route(s), or (b) to transfer milk from one conveyance to another in transit from farm to plant of first receipt.

3. In § 1068.9, paragraphs (a) and (b) are revised to read as follows:

§ 1068.9 Pool plant.

* * * * *

(a) A plant in which milk is processed or packaged and from which not less than 15 percent of its total disposition of Class I milk, except filled milk, during the month either by the operator of such plant or by another person is made within the marketing area on a route(s): *Provided,* That the total quantity of Class I milk, except filled milk, disposed of from such plant during the month either inside or outside the marketing area, is equal to 30 percent or more of such plant's total receipts of skim milk and butterfat eligible for sale in fluid form as Grade A milk within the marketing area in any of the months of January through June, or to 50 percent or more of such total receipts in any of the months of July through December; or

(b) Any plant from which during any month 40 percent or more of such plant's total receipts for such month from farms of skim milk or butterfat eligible for sale in fluid form as Grade A milk within the marketing area is delivered to (1) a plant(s) which has qualified pursuant to paragraph (a) of this section, (2) any other plant(s) located within the marketing area from which Class I milk, not including filled milk, is disposed of within the marketing area on a route(s), or (3) a governmentally owned and operated institution which disposes of Class I milk solely for use on its own premises or to its own facilities: *Provided,* That if during each of the months of August, September, and October, 40 percent or more of such plant's receipts of skim milk or butterfat for such month as described above is delivered as provided in this paragraph, it shall be a pool plant through the following July: *And provided further,* That any deliveries of milk by a cooperative association during the months of August, September, and October directly from a farm(s) of its producer member(s) to a plant(s) described in paragraph (a) of this section may be considered, for purposes of this paragraph, as having been received first at a plant of such cooperative association.

* * * * *

4. In § 1068.10, the introductory text preceding paragraph (a), and paragraphs (c) and (d) are revised to read as follows:

§ 1068.10 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

* * * * *

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant and from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant and from which a fluid milk product is shipped during the month to a pool plant.

5. Section 1068.15 is revised to read as follows:

§ 1068.15 Producer-handler.

Producer-handler means any person who meets all of the following conditions:

(a) Operates a dairy farm and a distribution plant at which Grade A milk of his own production is processed and packaged, and disposed of as Class I milk on routes in the marketing area;

(b) Receives no milk from the farms of other dairy farmers nor fluid milk products from any other source, except receipts of not more than 50,000 pounds (3.5 percent milk equivalent of butterfat) in the form of milk or filled milk during the month by transfer from pool plants of other handlers;

(c) Receives no nonfluid milk products from any source for use in reconstituting fluid milk products;

(d) Has route disposition consisting only of skim milk and butterfat obtained from his own farm production except that received pursuant the exception set forth in paragraph (b) of this section; and

(e) The maintenance, care and management of the dairy animals and other resources necessary to produce such milk and the processing, packaging, or distribution of milk (including filled milk) are the personal enterprise, and the personal risk, of such person.

6. Section 1068.19 is revised to read as follows:

§ 1068.19 Fluid milk product.

"Fluid milk product" means milk, skim milk (including reconstituted skim milk), filled milk, concentrated milk, buttermilk, flavored milk, flavored milk drinks (except any such item disposed of as animal feed and sterilized milk, cream, or milk drinks in metal containers hermetically sealed), cream (sweet or sour, including "Smetana" and similar sour cream products and mixtures of cream and milk or skim milk containing less butterfat than the legal standard for cream): *Provided,* That when nonfat milk solids are added for "fortification" the amount of skim milk to be included within this definition shall be only that amount equal to the weight of skim milk in an equal volume of an unmodified product of the same mixture and butterfat content. This definition also shall not include a product which contains 6 percent or more nonmilk fat (or oil).

7. A new § 1068.17 is added, to read as follows:

§ 1068.17 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk products; and contains less than 6 percent nonmilk fat (or oil).

8. Section 1068.30 is revised to read as follows:

§ 1068.30 Monthly reports of receipts and utilization.

(a) On or before the 10th day of each month and in the detail and on forms prescribed by the market administrator, each person who is a handler pursuant to § 1068.13(a) shall report, separately for each pool plant, to the market administrator for the preceding month with respect to all milk and milk products (including filled milk), except any milk product defined as Class II milk which is disposed of in the form in which received without further processing or packaging by the handler, received at each pool plant, the following:

(1) The quantities of skim milk and the quantities of butterfat contained in milk received from producers (including such handler's own production) and contained in milk and filled milk received from producer-handlers and other pool plants.

(2) The quantities of skim milk and quantities of butterfat contained in other source milk, with the sources thereof;

(3) The utilization of all skim milk and butterfat required to be reported pursuant to this paragraph, including on a skim milk equivalent basis any nonfat milk solids used to fortify (or as an additive to) any milk product (including filled milk) as described in § 1068.45, and including the quantities of skim milk and butterfat on hand at the beginning and end of each month as milk and milk products (including filled milk);

(4) A separate statement of the disposition of Class I milk outside the marketing area and a statement showing separately in-area and outside area route disposition of filled milk;

(5) Such other information with respect to all receipts and utilization as the market administrator may prescribe.

(b) Each handler specified in § 1068.13 (b) who operates a partially regulated distributing plant shall report as required in paragraph (a) of this section, except that receipts in Grade A milk shall be reported in lieu of those in producer milk. Such report shall include a separate statement showing the respective amounts of skim milk and butterfat disposed of on routes (other than to pool plants) in the marketing area as Class I milk, and the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(c) Each handler specified in § 1068.13 (e) who operates an unregulated supply plant shall report as required in paragraph (a) of this section, except that the receipts in Grade A milk shall be reported in lieu of those in producer milk.

9. In § 1068.33, paragraph (d) is revised to read as follows:

§ 1068.33 Records and facilities.

* * * * *

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and each milk product (including filled milk) on hand at the beginning and at the end of each month.

10. In § 1068.44, paragraph (c), and subparagraph (5) of paragraph (f) are revised to read as follows:

§ 1068.44 Transfers.

* * * * *

(c) As Class I milk if moved to a nonpool plant by a cooperative association directly from the farm of the producer and the nonpool plant is one from which milk (including filled milk) is disposed of in fluid form on routes;

* * * * *

(f) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

11. Section 1068.45 is revised to read as follows:

§ 1068.45 Computation of milk in each class.

For each month the market administrator shall correct mathematical and other obvious errors in the monthly report submitted by each handler and shall compute the total pounds of skim milk and butterfat, respectively, in Class I milk and Class II milk for each handler: *Provided,* That when nonfat milk solids derived from nonfat dry milk, condensed skim milk, and any other product condensed from milk or skim milk, are utilized by such handler either (a) to fortify (or as an additive to) fluid milk, flavored milk, skim milk, or any other milk product (including filled milk), or (b) for disposition by a handler in reconstituted form as skim milk or a milk drink, the total pounds of skim milk computed for the appropriate class of use shall reflect a volume equivalent to the skim milk used to produce such nonfat milk solids.

12. Section 1068.46 is revised to read as follows:

§ 1068.46 Allocation of skim milk and butterfat classified.

After making the computations pursuant to § 1068.45, the market administrator shall determine the classification of produced milk for each handler as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk classified as Class II pursuant to § 1068.41(b)(5);

(2) Subtract from the pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources; and

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II, but not in excess of such quantity:

(i) Receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph:

(*a*) For which the handler requests Class II utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by subtracting from 125 percent of the pounds of skim milk remaining in Class I milk the sum of the pounds of skim milk in producer milk, receipts from a cooperative association as a handler pursuant to the proviso of § 1068.13(a), receipts from pool plants of other handlers, and receipts in bulk from other order plants that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, and

(ii) Receipts of fluid milk products in bulk from an other order plant that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plant, if Class II utilization was requested by the operator of such plant and the handler;

(5) Add to the remaining pounds of skim milk in Class II milk the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(6) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraphs (3)(iv) or (4)(i) of this paragraph;

(7) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (3)(v) or (4)(ii) of this paragraph:

(i) In series beginning with Class II, the pounds determined by multiplying the pounds of such receipts by the larger of the percentage of estimated Class II utilization of skim milk announced for the month by the market administrator pursuant to § 1068.22(i) or the percentage that Class II utilization remaining is of the total remaining utilization of skim milk of the handler; and

(ii) From Class I, the remaining pounds of such receipts;

(8) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk received in fluid milk products from other pool plants according to the classification assigned pursuant to § 1068.44(a);

(9) If the pounds of skim milk remaining in both classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class II. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) Combine the amounts of skim milk and butterfat determined pursuant to paragraphs (a) and (b) of this section into one total for each class and determine the weighted average butterfat content of producer milk in each class.

13. Section 1068.61 is revised to read as follows:

§ 1068.61 Producer-handlers.

Any handler claiming producer-handler status shall furnish to the market administrator, for verification, evidence of his qualifications as a producer-handler pursuant to § 1068.15 and shall furnish evidence of subsequent changes

made in the manner of producing, securing, or distributing milk (including filled milk) that affect such qualifications as a producer-handler; such verification by the market administrator shall be made within 15 days of receipt of the evidence and shall be effective as of the first day of the month during which vertification is made.

14. Section 1068.62 is revised to read as follows:

§ 1068.62 Milk under more than one Federal order.

Milk received at a plant qualified as a pool plant under § 1068.9 shall be exempt from the provisions of this part except as specified in paragraphs (c) and (d) of this section if all the conditions of paragraphs (a) and (b) of this section are met:

(a) The Secretary determines that a greater quantity of milk in fluid form is disposed of from such plant to another regulated area as defined in another marketing agreement or order issued pursuant to the act either on routes or through plants regulated by such other marketing agreement or order than is disposed of from such plant in the Minneapolis-St. Paul marketing area either on routes or through other pool plants; and

(b) Such milk would be subject to the class price and producer payment provisions of the other marketing agreement or order upon being made exempt from this part;

(c) The handler of such milk shall make reports to the market administrator with respect to his total receipts and utilization or disposition of skim milk and butterfat at such times and in such manner as the market administrator may require and allow verification of such reports by the market administrator in accordance with § 1068.33.

(d) A handler, with respect to milk exempt from the terms of the Minneapolis-St. Paul order as provided in this section, if such milk is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area.

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

15. Section 1068.63 is revised to read as follows:

§ 1068.63 Butterfat in fluid skim milk.

For classification purposes, pursuant to §§ 1068.40 through 1068.46, butterfat in skim milk either disposed of to others or used in the manufacture of milk products (including filled milk) shall be accounted for at a butterfat content of 0.065 percent, unless the handler has adequate records of the actual butterfat content of such skim milk.

16. In § 1068.64, subdivision (i) of paragraph (a)(1), and paragraph (b) are revised to read as follows:

§ 1068.64 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1)(i) The obligation that would have been computed pursuant to § 1068.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant for an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the uniform price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1068.70(d) and a credit in the amount specified in § 1068.84(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified below in this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes (other than to pool plants) in the marketing area;

(2) Deduct (except that deducted under a similar provision of another order issued pursuant to the Act) the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the uniform price pursuant to § 1068.71 applicable at such location or at the Class II price, whichever is higher, and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

17. Section 1068.83 is revised to read as follows:

§ 1068.83 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1068.62, 1068.64, 1068.84, and 1068.86 and out of which he shall make all payments due handlers pursuant to §§ 1068.85 and 1068.86: *Provided*, That the market administrator shall offset any payments due any handler against payments due from such handler.

18. In § 1068.93, paragraphs (a) and (d) are revised to read as follows:

§ 1068.93 Termination of obligation.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the act, a petition claiming such money.

PART 1069—MILK IN THE DULUTH-SUPERIOR MARKETING AREA

1. In § 1069.7, paragraphs (a) and (b) are revised to read as follows:

§ 1069.7 Pool plant.

* * * * *

(a) Any plant, hereinafter referred to as a "distributing pool plant", in which fluid milk products are pasteurized or packaged and from which there is disposed of during the month as Class I milk, except filled milk, on routes an amount equal to 50 percent or more of total receipts of Grade A milk at such plant from dairy farmers, from other plants, and from cooperative associations in their capacity as handlers and from which there is disposed of as Class I milk, except filled milk, on routes in the marketing area an amount equal to 10 percent or more of such total receipts: *Provided,* That such Class I sales distribution (not including filled milk) in the marketing area averages at least 500 pounds per day;

(b) Any plant, hereinafter referred to as a "supply pool plant", from which during the month 50 percent or more of its supply of Grade A milk from dairy farmers is moved to a distributing pool plant(s): *Provided,* That any supply plant which has qualified as a pool plant in each of the months of September, October, and November shall be a pool plant for each of the following months of December through August unless written request for nonpool status is furnished in advance to the market administrator.

* * * * *

2. Section 1069.8 is revised to read as follows:

§ 1069.8 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant and from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products are shipped during the month to a pool plant.

3. Section 1069.14 is revised to read as follows:

§ 1069.14 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk flavored milk, flavored milk drinks, filled milk, concentrated milk or milk drinks not in hermetically sealed cans, cream, and fluid mixtures of cream and milk or skim milk, including reconstituted milk or skim milk, but not including frozen cream, aerated cream products, eggnog, or ice cream and frozen dessert mixes. This definition shall not include a product which contains six percent or more nonmilk fat (or oil).

4. A new § 1069.18 is added, to read as follows:

§ 1069.18 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

5. In § 1069.30, subparagraph (5) of paragraph (a), and paragraph (b) are revised to read as follows:

§ 1069.30 Reports of receipts and utilization.

* * * * *

(a) * * *

(5) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement of the route disposition of Class I milk outside the marketing area and a statement showing separately in-area and outside area route disposition of filled milk;

* * * * *

(b) Each handler specified in § 1069.9 (b) who operates a partially regulated distributing plant shall report as required in paragraph (a) of this section, except that receipts in Grade A milk shall be reported in lieu of those in producer milk. Such report shall include separate statements showing the quantity of fluid milk products disposed of on routes (other than to pool plants) in the marketing area as Class I milk, and the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(6) In § 1069.44, subparagraph (5) of paragraph (e) is revised to read as follows:

§ 1069.44 Transfers.

* * * * *

(e) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

7. Section 1069.46 is revised to read as follows:

§ 1069.46 Allocation of skim milk and butterfat classified.

After making the computations pursuant to § 1069.45, the market administrator shall determine the classification of producer milk for each handler as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk classified as Class II pursuant to § 1069.41(b)(5);

(2) Subtract from the remaining pound of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph as follows:

(i) From Class II milk, the lesser of the pounds remaining or two percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim drinks (plain or flavored), cream or any milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II, but not in excess of such quantity;

(i) Receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph;

(*a*) For which the handler requests Class II utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by subtracting from 125 percent of the pounds of skim milk remaining in Class I milk the sum of the pounds of skim milk in producer milk, receipts from a handler pursuant to § 1069.9(d), receipts from pool plants of other handlers, and receipts in bulk from other order plants that were not subtracted pursuant to subparagraph (3)(v) of this paragraph; and

(ii) Receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plant, if Class II utilization was requested by the operator of such plant and the handler;

(5) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in inventory of fluid milk

products on hand at the beginning of the month;

(6) Add to the remaining pounds of skim milk in Class II milk the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraph (3)(iv) or (4)(i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraph (3)(v) or (4)(ii) of this paragraph:

(i) In series beginning with Class II, the pounds determined by multiplying the pounds of such receipts by the larger of the percentage of estimated Class II utilization of skim milk announced for the month by the market administrator pursuant to § 1069.22(k) or the percentage that Class II utilization remaining is of the total remaining utilization of skim milk of the handler; and

(ii) From Class I, the remaining pounds of such receipts;

(9) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk received in fluid milk products from other pool plants according to the classification assigned pursuant to § 1069.44(a);

(10) If the pounds of skim milk remaining in both classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class II. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) Combine the amounts of skim milk and butterfat determined pursuant to paragraphs (a) and (b) of this section into one total for each class and determine the weighted average butterfat content of producer milk in each class.

8. Section 1069.61 is revised to read as follows:

§ 1069.61 Plants subject to other Federal orders.

(a) Except as set forth in paragraph (b) of this section, the provisions of this part shall not apply to a plant which would be subject to the classification and pricing provisions of another order issued pursuant to the Act unless:

(1) Such plant is qualified as a pool plant pursuant to § 1069.7 and a greater volume of Class I milk, except filled milk, is disposed of from such plant in the Duluth-Superior marketing area than in the marketing area regulated pursuant to such other order, or

(2) The Secretary determines that the applicable order should more appropriately be determined on some other basis.

(b) Each handler in his capacity as an operator of a plant which, pursuant this section, is made partially exempt from the provisions of this part shall:

(1) With respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such manner as the market administrator may require (in lieu of reports pursuant to §§ 1069.30 through 1069.32) and allow verification of such reports by the market administrator; and

(2) If such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(i) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(ii) Compute the value of the quantity assigned in subparagraph (1) to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

9. In § 1069.62, subdivision (i) of paragraph (a)(1), and paragraph (b) are revised to read as follows:

§ 1069.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1)(i) The obligation that would have been computed pursuant to § 1069.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the uniform price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1069.70(e) and a credit in the amount specified in § 1069.84(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified below in this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes (other than to pool plants) in the marketing area;

(2) Deduct (except that deducted under a similar provision of another order issued pursuant to the Act) the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the uniform price pursuant to § 1069.71 at the same location or at the Class II price, whichever is higher, and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

10. Section 1069.83 is revised to read as follows:

§ 1069.83 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1069.61, 1069.62, 1069.84, and 1069.86, and out of which he shall make payments to handlers pursuant to §§ 1069.85 and 1069.86: *Provided,* That any payments due to any handler shall be offset by any payments due such handler.

11. In § 1069.89, paragraphs (a) and (d) are revised to read as follows:

§ 1069.89 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or set off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1070—MILK IN CEDAR RAPIDS-IOWA CITY MARKETING AREA

1. Section 1070.10 is revised as follows:

§ 1070.10 Pool plant.

"Pool plant" means:

(a) A distributing plant from which a volume of Class I milk, except filled milk, equal to not less than 35 percent of the Grade A milk received at such plant from dairy farmers and from other plants is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except pool plants) and not less than 15 percent of such receipts are so disposed of to such outlets in the marketing area.

(b) A supply plant from which the volume of fluid milk products, except filled milk, shipped during the month to pool plants qualified pursuant to paragraph (a) of this section is not less than 35 percent of the Grade A milk received at such plant from dairy farmers during such month: *Provided,* That if such shipments are not less than 50 percent of the receipts of Grade A milk at such plant during the immediately preceding period of September through November, such plant may, upon written application to the market administrator on or before March 1 of any year, be designated as a pool plant for the months of March through June of such year.

(c) A cooperative association with respect to Grade A milk received from dairy farmers at their farms in a tank truck owned or operated by such cooperative association and delivered in such tank truck to a pool plant: *Provided,* That such milk shall be deemed to have been received by the cooperative association at the location of the pool plant to which it is delivered by the tank truck and such location shall be deemed to be the location of such cooperative association in its capacity as the operator of a pool plant.

(d) A plant (1) which is approved by a duly constituted health authority for the handling of Grade A milk; (2) which is operated by a cooperative association; and (3) from which the milk transferred by the association to plants of other handlers specified in paragraph (a) of this section plus that delivered by such association pursuant to paragraph (c) of this section and that delivered directly from the farms of members of such association to such plants is Grade A milk delivered by producers who are members of the association. If written application is filed with the market administrator on or before the 5th day of any month, such plant may be designated a nonpool plant for such month and for any subsequent months, except such plant shall be a nonpool plant during any month in which it would be subject to the classification and pricing provisions of another order issued pursuant to the Act, unless the disposition of fluid milk products, except filled milk, from such plant to pool plants qualified under § 1070.10 and to retail and wholesale outlets in the Cedar Rapids-Iowa City marketing area exceeds such disposition to retail and wholesale outlets in such other marketing area and to pool plants regulated by such other order.

2. Section 1070.11 is revised as follows:

§ 1070.11 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant from which fluid milk products are shipped during the month to a pool plant.

3. Section 1070.13 is revised as follows:

§ 1070.13 Producer-handler.

"Producer-handler" means any person who operates a dairy farm and a distributing plant but who receives no milk from other dairy farmers or from a cooperative association in its capacity as the operator of a pool plant pursuant to § 1070.10(c) and whose disposition of fluid milk products does not exceed that (a) received from a pool plant, (b) processed from milk of his own production, or (c) processed from fluid milk products received from a pool plant.

4. Section 1070.15 is revised as follows:

§ 1070.15 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, milk drinks (plain or flavored), filled milk, cream or any mixture in fluid form of skim milk and cream (except aerated cream products, ice cream mix, evaporated or condensed milk and sterilized products packaged in hermetically sealed containers). This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

5. A new § 1070.18 is added as follows:

§ 1070.18 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

6. In § 1070.30, paragraph (f) is revised as follows:

§ 1070.30 Reports of receipts and utilization.

* * * * *

(f) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement of the route disposition of Class I milk outside the marketing area and a statement showing separately in-area and outside area route disposition of filled milk; and

* * * * *

7. In § 1070.31, paragraph (c)(1) is revised as follows:

§ 1070.31 Other reports.

* * * * *

(c) * * *

(1) As required pursuant to § 1070.30, except that receipts in Grade A milk shall be reported in lieu of those in producer milk; such report shall include a separate statement showing the respective amounts of skim milk and butterfat disposed of on routes in the marketing area as Class I milk and shall include a statement showing the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area; and

* * * * *

8. In §1070.32, paragraphs (b) and (c) are revised as follows:

§ 1070.32 Records and facilities.

* * * * *

(b) The weights and butterfat and other content of all milk, skim milk cream and other milk products (including filled milk) handled during the month;

(c) The pounds of skim milk and butterfat contained in or represented by all milk products (including filled milk) on hand at the beginning and end of each month; and

* * * * *

9. In § 1070.44, paragraph (e)(5) is revised as follows:

§ 1070.44 Transfers.

* * * * *

(e) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

10. In § 1070.46, subparagraphs (2), (3), (4), (7), and (8) of paragraph (a) are revised as follows:

§ 1070.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(iv) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II but not in excess of such quantity:

(i) Receipts of fluid milk products, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph, from an unregulated supply plant:

(*a*) For which the handler requests Class II utilization; or.

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from other pool handlers, and receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph;

(ii) Receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plant, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraphs (3)(iv) or (4)(i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipt of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraph (3)(v) or (4)(ii) of this paragraph:

(i) In series beginning with Class II, the pounds determined by multiplying the pounds of such receipts by the larger of the percentage of estimated Class II utilization of skim milk announced for the month by the market administrator pursuant to § 1070.22(1) or the percentage that Class II utilization remaining is of the total remaining utilization of skim milk of the handler; and

(ii) From Class I, the remaining pounds of such receipts;

11. Section 1070.61 is revised as follows:

§ 1070.61 Plants subject to other Federal orders.

The provisions of this part shall not apply to a handler who operates a plant specified in paragraph (a) of this section except as specified in paragraphs (b) and (c):

(a) A distributing plant or a supply plant during any month in which such plant would be subject to the classification and pricing provisions of another order issued pursuant to the act unless the disposition of fluid milk products, except filled milk, from such plant to pool plants qualified under § 1070.10 and to retail and wholesale outlets in the Cedar Rapids-Iowa City marketing area exceeds such disposition to retail and wholesale outlets in such other marketing area and to pool plants regulated by such other order.

(b) Each handler operating a plant described in paragraph (a) of this section shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such manner as the market administrator may require (in lieu of reports pursuant to §§ 1070.30 and 1070.31) and allow verification of such reports by the market administrator.

(c) Each handler operating a plant specified in paragraph (a), of this section if such plant is subject to the classification and pricing provisions of another order which provides for individual-handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

12. In § 1070.62, paragraphs (a)(1)(i) and (b) are revised as follows:

§ 1070.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1)(i) The obligation that would have been computed pursuant to § 1070.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1070.70(e) and a credit in the amount specified in § 1070.84(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified below in this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location (not to be less than the Class II price) and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

13. Section 1070.83 is revised as follows:

§ 1070.83 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1070.61, 1070.62, 1070.84, and 1070.86, and out of which he shall make all payments to handlers pursuant to §§ 1070.85 and 1070.86.

14. In § 1070.89, paragraphs (a) and (d) are revised as follows:

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files pursuant to section 8c(15)(A) of the act, a petition claiming such money.

PART 1071—MILK IN THE NEOSHO VALLEY MARKETING AREA

1. In § 1071.7, the introductory text and paragraph (a) are revised to read as follows:

§ 1071.7 Pool plant.

"Pool plant" means any milk plant described in paragraph (a) or (b) of this section, which is approved by the appropriate health authority having jurisdiction in the marketing area, except the plant of a producer-handler or a plant exempt pursuant to § 1071.61.

(a) Any plant, hereinafter referred to as a "distributing pool plant" from which:

(1) During the current delivery period there is distributed as Class I milk, except filled milk, on routes in the marketing area, an amount equal to 10 percent or more of such plant's Grade A receipts from dairy farmers as specified in subparagraph (2) of this paragraph; and

(i) During the current delivery period there is disposed of as Class I milk, except filled milk, an amount not less than an applicable percentage of such plant's Grade A receipts as specified in subparagraph (2) of this paragraph as follows: (*a*) April through August, 30 percent; and (*b*) September through March, 45 percent; or

(ii) During five of the six immediately preceding delivery periods, such plant was a pool plant by virtue of meeting the specifications pursuant to subdivision (i) of this subparagraph; and

(2) The Grade A receipts from dairy farmers to be used in calculating the percentages specified in subparagraph (1) of this paragraph, for each plant shall include all receipts of Grade A milk from dairy farmers and cooperative associations in their capacity as handlers pursuant to § 1071.9(c)(3) subject to the following provisions:

(i) Milk diverted to another plant for the account of the operator of the plant from which the milk was diverted shall be included in the receipts of the plant from which diverted for the purposes of this section, if the milk is claimed as diverted on the report of the diverting handler filed for the month pursuant to § 1071.30 (if such claim is made by the diverting handler, milk so diverted shall be excluded from the receipts of the plant to which diverted); and

(ii) Milk received at a plant operated by a cooperative association from another cooperative association acting as a handler pursuant to § 1071.9(c)(2) shall be excluded from the cooperative association's plant receipts for the purposes of this section.

* * * * *

2. Section 1071.8 is revised to read as follows:

§ 1071.8 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products are distributed on routes in the marketing area in consumer-type packages or dispenser units during the month.

(d) "Unregulated supply plant" means a nonpool plant from which fluid milk products are moved during the month to a pool plant qualified pursuant to § 1071.7 and which is neither an other order plant nor a producer-handler plant.

3. Section 1071.11 is revised to read as follows:

§ 1071.11 Producer-handler.

"Producer-handler" means any person who, with the approval of any health authority having jurisdiction in the marketing area, processes milk from his own farm production and disposes of all or a portion of such milk as Class I milk within the marketing area, who receives no milk from producers, and who disposes of no fluid milk products in excess of those (a) received from a pool plant, (b) received from an other order plant that are classified and priced as Class I milk under the other order, and (c) from milk of his own production.

4. Section 1071.16 is revised to read as follows:

§ 1071.16 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, flavored milk, filled milk, flavored milk drinks, cream, cultured sour cream, and any mixture (except bulk ice cream mix, eggnog, and aerated cream) of cream and milk or skim milk. This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

5. A new § 1071.17 is added to read as follows:

§ 1071.17 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

6. Section 1071.30 is revised to read as follows:

§ 1071.30 Reports of receipts and utilization.

On or before the 7th day after the end of each delivery period, each handler shall report to the market administrator in the detail and on forms prescribed by

the market administrator for each plant as follows:

(a) The quantities of skim milk and butterfat contained in:

(1) Receipts for his account of producer milk;

(2) Milk and milk products (including filled milk) received from other pool plants and from a cooperative association which is a handler pursuant to § 1071.9(c);

(3) Other source milk; and

(4) Inventories on hand at the beginning and the end of the delivery period;

(b) The utilization of all skim milk and butterfat required to be reported by this section, and a statement showing separately in-area and outside area route disposition of filled milk;

(c) Such other information with respect to the receipts and utilization of milk and milk products (including filled milk) as the market administrator may require; and

(d) Each handler specified in § 1071.9 (b) who operates a partially regulated distributing plant shall report as required in this section, except that receipts in Grade A milk shall be reported in lieu of those in producer milk; such report shall include a separate statement showing the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area.

7. Section 1071.33 is revised to read as follows:

§ 1071.33 Records and facilities.

Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts and utilization of all skim milk and butterfat in producer milk and all other skim milk and butterfat in milk and milk products (including filled milk) handled during the month and in inventories at the beginning and end of the month.

(b) The weights of butterfat and skim milk in all milk and milk products (including filled milk) handled; and

(c) Payments to producers and cooperative associations.

8. In § 1071.44, subparagraph (5) of paragraph (e) is revised to read as follows:

§ 1071.44 Transfers.

* * * * *

(e) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

9. In § 1071.46(a), subparagraphs (2), (4), (5), (7), and (8) are revised to read as follows:

§ 1071.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (4) (v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or two percent of such rceipts; and

(ii) From Class I milk, the remainder of such receipts;

* * * * *

(4) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(5) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II, but not in excess of such quantity, the pounds of skim milk in each of the following:

(i) Receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to subparagraph (4) (iv) of this paragraph;

(*a*) For which the handler requests Class II utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and substracting the sum of the pounds of skim milk in producer milk, receipts from other pool plants, from cooperative handlers pursuant to § 1071.9(c), and receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (4) (v) of this paragraph;

(ii) Receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (4) (v) of this paragraph; in excess of similar transfers to such plant, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraphs (4) (v) or (5) (i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pusuant to subparagraphs (4) (v) or (5) (ii) of this paragraph;

(i) In series beginning with Class II, the pounds determined by multiplying the pounds of such receipts by the larger of the percentage of estimated Class II utilization of skim milk announced for the month by the market administrator pursuant to § 1071.22(1) or the percentage that Class II utilization remaining is of the total remaining utilization of skim milk of the handler; and

(ii) From Class I, the remaining pounds of such receipts;

* * * * *

10. Section 1071.61 is revised to read as follows:

§ 1071.61 Handlers subject to other orders.

In the case of any handler (as defined in this section) who the Secretary determines disposed of a greater portion of his milk as Class I milk, except filled milk, in another marketing area regulated by another milk marketing agreement or order issued pursuant to the Act, or who otherwise is determined pursuant to the provisions of another milk marketing agreement or order to be subject to the pricing and payment provisions of such agreement or order, the provisions of this order shall not apply except as specified in paragraphs (a) and (b) of this section:

(a) Each handler operating a plant described above shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(b) Each handler operating a plant described above, if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

11. In § 1071.62, paragraphs (a) (1) (i) and (b) are revised to read as follows:

§ 1071.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1) (i) The obligation that would have been computed pursuant to § 1071.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the uniform price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1071.70(d) and a credit in the amount specified in § 1071.93(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph.

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in filled milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location or the Class II price, whichever is higher and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

12. Section 1071.92 is revised to read as follows:

§ 1071.92 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund," into which he shall deposit payments made by handlers pursuant to §§ 1071.61, 1071.62, 1071.93, and 1071.95 and out of which he shall make payments to handlers pursuant to §§ 1071.94 and 1071.95: *Provided,* That payments due to any handler shall be offset by payments due from such handler.

13. In § 1071.98, paragraphs (a) and (d) are revised to read as follows:

§ 1071.98 Termination of Obligation.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the act, a petition claiming such money.

PART 1073—MILK IN WICHITA, KANS., MARKETING AREA

1. In § 1073.9, paragraph (a) is revised to read as follows:

§ 1073.9 Producer-handler.

* * * * *

(a) His disposition of fluid milk products does not exceed his own farm production, receipts of fluid milk products from pool plants and receipts of packaged fluid milk products from other order plants; and

* * * * *

2. In § 1073.12, subparagraph (1) of paragraph (a) is revised to read as follows:

§ 1073.12 Pool plant.

* * * * *

(a) * * *

(1) Disposes of through route disposition fluid milk products, except filled milk, in an amount equal to 25 percent or more during the months of March through July and 35 percent during all other months of such plant's total receipts of Grade A milk direct from dairy farmers, supply plants and cooperative associations in their capacity as a handler pursuant to § 1073.8(d) and has route disposition in the marketing area in an amount equal to 10 percent or more of such receipts. In any case in which the entire quantity of fluid milk products, except filled milk, disposed of in packages in a particular size and form is received in such packages from other plants, all such disposition shall be credited to the plant from which such packages were received and shall be deducted from the appropriate disposition of the receiving plant; or

* * * * *

3. Section 1073.13 is revised to read as follows:

§ 1073.13 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act;

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act;

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant which has route disposition of fluid milk products in consumer-type packages or dispenser units in the marketing area during the month; and

(d) "Unregulated supply plant" means a nonpool plant that is a supply plant and is neither an other order plant nor a producer-handler plant from which fluid milk products are shipped to a pool plant.

4. Section 1073.16 is revised to read as follows:

§ 1073.16 Fluid milk product.

"Fluid milk product" means milk, skim milk, filled milk, concentrated milk disposed of for fluid consumption other than in hermetically sealed metal or glass containers, buttermilk, flavored milk, yogurt, milk drinks (plain or flavored) "modified or fortified," including "dietary milk products" and reconstituted milk or skim milk, sour cream and sour cream products labeled Grade

A, cream or any mixture in fluid form of milk or skim milk and cream (except frozen or aerated cream, ice cream or frozen dessert mixes, eggnog and sterilized products packaged in hermetically sealed containers). This definition shall not include a product which contains six percent or more nonmilk fat (or oil).

5. A new § 1073.19 is added to read as follows:

§ 1073.19 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

6. In § 1073.30, subparagraph (3) of paragraph (a) and paragraph (b) are revised to read as follows:

§ 1073.30 Reports of receipts and utilization.

* * * * *

(a) * * *

(3) The utilization or disposition of all quantities required to be reported, including separate statements of quantities:

(i) Of bulk fluid milk products on hand at the end of the month;

(ii) Of packaged fluid milk products on hand at the end of the month; and

(iii) Of route disposition of fluid milk products in the marketing area;

(iv) Of in-area route disposition of filled milk; and

(v) Of outside area route disposition of filled milk; and

* * * * *

(b) Each handler described in § 1073.8 (b) shall report as required in paragraph (a) of this section, except that receipts of Grade A milk from dairy farmers shall be reported in lieu of those of producer milk and a statement showing the quantity of reconstituted skim milk in fluid milk products disposed of as route disposition in the marketing area; and

* * * * *

7. In § 1073.33, paragraph (b) is revised to read as follows:

§ 1073.33 Records and facilities.

* * * * *

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream and milk products (including filled milk) handled;

* * * * *

8. In § 1073.44, subparagraph (5) of paragraph (e) is revised to read as follows:

§ 1073.44 Transfers.

* * * * *

(e) * * *

(5) For purposes of this paragraph (e), if the transferee order provides for only two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk and butterfat allocated to another class shall be classified as Class III milk; and

9. In § 1073.46, subparagraphs (2), (3), (4), (5), (6), (7), (8), and the introductory text of subparagraph (9) preceding subdivision (i), of paragraph (a) are revised to read as follows:

§ 1073.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (4) (v) of this paragraph as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract from the remaining pounds of skim milk in Class I milk the pounds of skim milk in inventory of fluid milk products in packaged form on hand at the beginning of the month;

(4) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III milk, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources; and

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(5) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II or III milk but not in excess of such quantity:

(i) Receipts of fluid milk products from an unregulated supply plant, that were not subtracted pursuant to subparagraph (4) (iv) of this paragraph:

(*a*) For which the handler requests Class III (or Class II) milk utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from other pool plants and receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (4) (v) of this paragraph; and

(ii) Receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (4) (v) of this paragraph in excess of similar transfers to such plant, if Class III (or Class II) milk utilization was requested by the operator of such plant and the handler;

(6) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III milk, the pounds of skim milk in inventory of bulk fluid milk products on hand at the beginning of the month;

(7) Add to the remaining pounds of skim milk in Class III milk the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraphs (4) (iv) or (5) (i) of this paragraph;

(9) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (4) (v) or (5) (ii) of this paragraph:

10. Section 1073.61 is revised to read as follows:

§ 1073.61 Plants subject to other Federal orders.

The provisions of this part shall not apply with respect to the operation of any plant specified in paragraph (a), (b), or (c) of this section except as specified in paragraphs (d) and (e):

(a) A distributing plant which meets the pooling requirements of another Federal order and from which route disposition, except filled milk, during the month in such other Federal order marketing area is greater than was so disposed of in this marketing area, except that if such plant was subject to all the provisions of this part in the immediately preceding month, it shall continue to be subject to all the provisions of this part until the third consecutive month in which a greater proportion of such Class I disposition is made in such other marketing area unless, notwithstanding the provisions of this paragraph, it is regulated under such other order;

(b) A distributing plant which meets the pooling requirements of another Federal order and from which route disposition, except filled milk, during the month in this marketing area is greater than was so disposed of in such other Federal order marketing area but which plant is nevertheless, fully regulated under such other Federal order; and

(c) A supply plant meeting the requirements of § 1073.12(b) which also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made during the month to plants regulated under such other order than are made to

plants regulated under this part, except during the months of December through July if such plant retains automatic pooling status under this part.

(d) Each handler operating a plant described in paragraph (a), (b), or (c) of this section shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such manner as the market administrator may require (in lieu of reports pursuant to §§ 1073.30 through 1073.32) and allow verification of such reports by the market administrator;

(e) Each handler operating a plant specified in paragraph (a) or (b) of this section, if such plant is subject to the classification and pricing provisions of another order which provides for individual-handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class III price.

11. In § 1073.62, paragraphs (a) (1) (i) and (b) are revised to read as follows:

§ 1073.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1) (i) The obligation that would have been computed pursuant to § 1073.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class III (or Class II) milk if allocated to such class at the pool plant or other order plant and be valued at the uniform price of the respective order if so allocated to Class I milk, except that reconstructed skim milk in filled milk shall be valued at the Class III price. There shall be included in the obligation so computed a charge in the amount specified in § 1073.70(g) and a credit in the amount specified in § 1073.84(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class III price, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I milk price applicable at the location of the nonpool plant, subtract its value at the uniform price applicable at such location (not to be less than the Class III milk price) and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price at the location of the nonpool plant less the value of such skim milk at the Class III price.

12. Section 1073.83 is revised to read as follows:

§ 1073.83 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1073.61, 1073.62, 1073.84, and 1073.86, and out of which he shall make all payments to handlers pursuant to §§ 1073.85 and 1073.86. Immediately after computing the uniform prices for each month, the market administrator shall compute the amount by which each handler's net pool obligation is greater or less than the sum obtained by multiplying the hundredweight of milk of producers by the appropriate prices required to be paid producers by handlers pursuant to § 1073.80 and adding together the resulting amounts, and shall enter such amount on each handler's account as such handler's pool debit or credit, as the case may be, and render such handler a transcript of his account.

13. In § 1073.89, paragraphs (a) and (d) are revised to read as follows:

§ 1073.89 Termination of obligation.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid;

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the month during which the payment (including deduction or offset by the market administrator) was made by the handler, if a refund on such payment is claimed unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1075—MILK IN THE BLACK HILLS, S. DAK., MARKETING AREA

1. Section 1075.12 is revised to read as follows:

§ 1075.12 Pool plant.

"Pool plant" means:

(a) A distributing plant from which a volume of Class I milk, except filled milk, equal to not less than 20 percent of the Grade A milk received at such plant from producers and from other plants is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except pool plants) in the marketing area.

(b) A supply plant from which the volume of fluid milk products, except filled milk, shipped during the month to pool plants qualified pursuant to paragraph (a) of this section is equal to not less than 50 percent of the Grade A milk received at such plant from dairy farmers during such month: *Provided,* That if such shipments are not less than 50 percent of the receipts of Grade A milk directly from dairy farmers at such plant during the immediately preceding period of September through November, such plant shall be a pool plant for the months of March through June, unless written application is filed with the market administrator on or before the 15th day of any of the months of March, April, May, or June to be designated a nonpool plant for such month and for each subsequent month through June of the same year.

2. Section 1075.13 is revised to read as follows:

§ 1075.13 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant from which fluid milk products are shipped during the month to a pool plant.

3. Section 1075.15 is revised to read as follows:

§ 1075.15 Producer-handler.

"Producer-handler" means any person who operates both a dairy farm(s) and a distributing plant at which each of the following conditions are met during the month:

(a) Milk is received from the dairy farm(s) of such person but from no other dairy farm;

(b) Fluid milk products are disposed of on routes in the marketing area; and

(c) The butterfat or skim milk disposed of in the form of fluid milk products does not exceed the butterfat or skim milk, respectively, received in the form of milk from the dairy farm(s) of such person and in the form of fluid milk products in bulk or in packaged form from pool plants of other handlers: *Provided,* That such person shall furnish to the market administrator for his verification, subject to review by the Secretary, evidence that the maintenance, care and management of the dairy animals and other resources necessary for the production of milk in his name are and continue to be the personal enterprise of and at the personal risk of such producer and the processing, packaging, and distribution of the milk are and continue to be the personal enterprise of and at the personal risk of such person in his capacity as a handler.

4. Section 1075.18 is revised to read as follows:

§ 1075.18 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, filled milk, milk drinks (plain or flavored), cream or any mixture in fluid form of milk, skim milk, and cream (except ice cream mix, evaporated or condensed milk, a product which contains 6 percent or more nonmilk fat (or oil), and sterilized products packaged in hermetically sealed containers).

5. A new § 1075.23 is added to read as follows:

§ 1075.23 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

6. In § 1075.30, paragraph (f) is revised and a new paragraph (h) is added to read as follows:

§ 1075.30 Reports of receipts and utilization.

* * * * *

(f) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including separate statements of the route disposition of Class I milk outside the marketing area and on routes in the marketing area and a statement showing separately in-area and outside area route disposition of filled milk;

* * * * *

(h) Each handler who operates a partially regulated distributing plant shall report as required in paragraphs (a) through (g) of this section except that receipts of Grade A milk from dairy farmers shall be reported in lieu of producer milk; such report shall include separate statements showing the quantity of fluid milk products disposed of on routes in the marketing area and the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area.

7. Section 1075.32 is revised to read as follows:

§ 1075.32 Records and facilities.

Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of his operations together with such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipt and utilization of all skim milk and butterfat handled in any form during the month;

(b) The weights and butterfat and other content of all milk, skim milk, cream and other milk products (including filled milk) handled during the month;

(c) The pounds of skim milk and butterfat contained in or represented by all milk products (including filled milk) on hand at the beginning and end of each month; and

(d) Payments to approved dairy farmers and cooperative associations.

8. In § 1075.44, subparagraph (5) of paragraph (d) is revised to read as follows:

§ 1075.44 Transfers.

* * * * *

(d) * * *

(5) For purposes of this paragraph if the transferee order provides for more than two classes of utilization skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

9. Section 1075.46 is revised to read as follows:

§ 1075.46 Allocation of skim milk and butterfat classified.

After making the computations pursuant to § 1075.45, the market administrator shall determine the classification of milk received at each plant each month as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk classified as Class II pursuant to § 1075.41(b)(6);

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph as follows:

(i) From Class II milk the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order.

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II:

(i) The pounds of skim milk in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph, for which the handler requests Class II utilization, but not in excess of the pounds of skim milk remaining in Class II;

(ii) The pounds of skim milk remaining in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph, which are in excess of the pounds of skim milk determined as follows:

(*a*) Multiply the pounds of skim milk remaining in Class I milk (exclusive of Class I transfers between pool plants of the handler) at all pool plants of the handler by 1.25;

(b) Subtract from the result the sum of the pounds of skim milk at all such plants in producer milk in receipts from other pool handlers and in receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph; and

(c)(1) Multiply any resulting plus quantity by the percentage that receipts of skim milk in fluid milk products from unregulated supply plants remaining at this plant is of all such receipts remaining at all pool plants of such handler, after any deductions pursuant to subdivision (i) of this subparagraph.

(2) Should such computation result in a quantity to be subtracted from Class II which is in excess of the pounds of skim milk remaining in Class II, the pounds of skim milk in Class II shall be increased to the quantity to be subtracted and the pounds of skim milk in Class I shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made.

(iii) The pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plant, but not in excess of the pounds of skim milk remaining in Class II milk, if Class II utilization was requested by the operator of such plant and the handler;

(5) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in inventory of fluid milk products on hand at the beginning of the month;

(6) Add to the remaining pounds of skim milk in Class II milk the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(7)(i) Subtract from the pounds of skim milk remaining in each class, pro rata to the total pounds of skim milk remaining in each class in all pool plants of the receiving handler, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraph (3)(iv), (4)(i) or (ii) of this paragraph;

(ii) Should such proration result in the amount to be subtracted from any class exceeding the pounds of skim milk remaining in such class in the pool plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made;

(8) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, in excess in each case of similar transfers to the same plant, that were not subtracted pursuant to subparagraph (3)(v) or (4)(iii) of this paragraph pursuant to the following procedure:

(i) Subject to the provisions of subdivisions (ii) and (iii) of this subparagraph, such subtraction shall be pro rata to whichever of the following represents the higher proportion of Class II milk;

(a) The estimated utilization of skim milk in each class, by all handlers, as announced for the month pursuant to § 1075.27(k); or

(b) The pounds of skim milk in each class remaining at all pool plants of the handler;

(ii) Should proration pursuant to subdivision (i) of this subparagraph result in the total pounds of skim milk to be subtracted from Class II at all pool plants of the handler exceeding the pounds of skim milk remaining in Class II at such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which received;

(iii) Except as provided in subdivision (ii) of this subparagraph, should proration pursuant to either subdivision (i) or (ii) of this subparagraph result in the amount to be subtracted from either class exceeding the pounds of skim milk remaining in such class in the pool plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made.

(9) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk received in fluid milk products from other pool plants according to the classification assigned pursuant to § 1075.44;

(10) If the pounds of skim milk remaining in both classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class II. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) Combine the amounts of skim milk and butterfat determined pursuant to paragraphs (a) and (b) of this section into one total for each class and determine the weighted average butterfat content of producer milk in each class.

10. Section 1075.61 is revised to read as follows:

§ 1075.61 Plants subject to other Federal orders.

(a) Except as set forth in paragraphs (b) and (c) of this section, the provisions of this part shall not apply to an other order plant during any month unless such plant is qualified as a pool plant pursuant to § 1075.12 and a greater volume of fluid milk products, except filled milk, is disposed of from such plant to retail or wholesale outlets in the Black Hills marketing area and to pool plants under this part than in the marketing area and to pool plants regulated pursuant to such other order;

(b) The operator of a plant specified in paragraph (a) of this section which is exempt from the provisions of this order pursuant to this section shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require (in lieu of the reports required pursuant to § 1075.30) and allow verification of such reports by the market administrator;

(c) Each handler operating a distributing plant specified in paragraph (a) of this section, if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area.

(2) Compute the value of the quantity assigned in subparagraph (1) to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

11. In § 1075.62, subdivision (i) of paragraph (a)(1), and paragraph (b) are revised to read as follows:

§ 1075.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1) The obligation that would have been computed pursuant to § 1075.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted

average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1075.70(e) and a credit in the amount specified in § 1075.84(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products or in filled milk disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location (not to be less than the Class II price), and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

11a. In § 1075.74, paragraph (a) is revised to read as follows:

§ 1075.74 Notification of handlers.

* * * * *

(a) The amount and value of milk or filled milk in each class pursuant to §§ 1075.46 and 1075.70 and the totals of such amounts and values;

* * * * *

12. Section 1075.83 is revised to read as follows:

§ 1075.83 Producer-settlement fund.

The market administrator shall maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made to such fund and out of which he shall make all payments from such fund pursuant to §§ 1075.61, 1075.62, 1075.84, 1075.85, and 1075.86; *Provided*, That the market administrator shall offset the payment due to a handler against payments due from such handler.

13. In § 1075.89, paragraphs (a) and (d) are revised to read as follows:

§ 1075.89 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or set-off by the market administrators) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files pursuant to § 8c(15)(A) of the act, a petition claiming such money.

PART 1076—MILK IN THE EASTERN SOUTH DAKOTA MARKETING AREA

1. Section 1076.9 is revised to read as follows:

§ 1076.9 Producer-handler.

"Producer-handler" means any person who is both a dairy farmer and the operator of a distributing plant, and who meets all of the following conditions:

(a) Receipts of fluid milk products at his plant are solely milk of his own production and from pool plants of other handlers;

(b) Receives no nonfluid milk products from any source for use in reconstituting fluid milk products; and

(c) The maintenance, care and management of the dairy animals and other resources necessary to produce the milk and the processing, packaging and distribution of the milk (including filled milk) are the personal enterprise and the personal risk of such person.

2. In § 1076.12, paragraphs (a) and (b) are revised to read as follows:

§ 1076.12 Pool plant.

* * * * *

(a) A distributing plant from which a volume of Class I milk, except filled milk, equal to not less than 35 percent of the Grade A milk received at such plant from dairy farmers, cooperative associations pursuant to § 1076.8(d) and from supply plants is disposed of during the month on routes and not less than 15 percent of such receipts are disposed of as Class I milk, except filled milk, on routes in the marketing area; and

(b) A supply plant from which the volume of fluid milk products, except filled milk, shipped during the month to pool plants qualified pursuant to paragraph (a) of this section is not less than 35 percent of the Grade A milk received at such plant from dairy farmers and cooperative associations pursuant to § 1076.8(d) during such month. If such shipments are not less than 50 percent of such receipts during each of the immediately preceding months of September through November, such plant shall be a a pool plant for the months of March through June, unless the operator of such plant requests the market administrator in writing that such plant not be a pool plant, such nonpool status to be effective the first month following such notice and such plant shall thereafter be a nonpool plant until it again qualifies as a pool plant on the basis of the shipping requirements set forth in this paragraph.

* * * * *

3. Section 1076.13 is revised to read as follows:

§ 1076.13 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, and from which fluid milk products are shipped during the month to a pool plant.

4. Section 1076.16 is revised to read as follows:

§ 1076.16 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, flavored milk, filled milk, milk drinks (plain or flavored), cream (sweet or sour) and any mixture in fluid form of skim milk and cream (except frozen cream, aerated cream, ice cream, ice cream and frozen dessert

mixes, a product which contains six percent or more nonmilk fat (or oil), and sterilized products in hermetically sealed containers).

5. Section 1076.17 is revised to read as follows:

§ 1076.17 Route.

"Route" means a delivery (including delivery by a vendor or a sale from a plant store, or distribution center) of any fluid milk product to retail or wholesale outlets, except a delivery in bulk form to a milk (including filled milk) processing plant. The route disposition of a handler shall be attributed to the processing and packaging plant from which the Class I milk is moved to retail or wholesale outlets without intermediate movement to another processing plant.

6. A new § 1076.19 is added to read as follows:

§ 1076.19 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than six percent nonmilk fat (or oil).

7. In § 1076.30, subparagraph (3) of paragraph (a) and paragraph (b) are revised to read as follows:

§ 1076.30 Reports of receipts and utilization.

* * * * *

(a) * * *

(3) The utilization in each class of the quantities required to be reported, including a separate statement of the disposition of Class I milk outside the marketing area and a statement showing separately in-area and outside area route disposition of filled milk;

* * * * *

(b) Each handler specified in § 1076.8 (b) who operates a partially regulated distributing plant shall report as required in paragraph (a) of this section, except that receipts in Grade A milk from dairy farmers shall be reported in lieu of those in producer milk; such report shall include a separate statement showing the respective amounts of skim milk and butterfat disposed of on routes (other than to pool plants) in the marketing area as Class I milk, and the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

* * * * *

8. Section 1076.33 is revised to read as follows:

§ 1076.33 Records and facilities.

Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business, such accounts and records of his operations, together with such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts and utilization in whatever form of all skim milk and butterfat required to be reported pursuant to § 1076.30;

(b) The weight and butterfat and other content of all milk, skim milk, cream, and other milk products (including filled milk) handled during the month;

(c) The pounds of skim milk and butterfat contained in or represented by all milk products (including filled milk) on hand at the beginning and end of each month; and

(d) Payments to producers and cooperative associations, including the amount and nature of any deductions and the disbursement of money so deducted.

9. In § 1076.44, subparagraph (5) of paragraph (f) is revised to read as follows:

§ 1076.44 Transfers.

* * * * *

(f) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

10. Section 1076.46 is revised to read as follows:

§ 1076.46 Allocation of skim milk and butterfat classified.

After making the computations pursuant to § 1076.45, the market administrator shall determine the classification of producer milk received by each handler each month as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk classified as Class II pursuant to § 1076.41(b)(5);

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order.

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II but not in excess of such quantity:

(i) Receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to subpargaraph (3)(iv) of this paragraph:

(*a*) For which the handler requests Class II utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from other pool handlers, and receipts in bulk from other order plants that were not subtracted pursuant to subparagraph (3)(v) of this paragraph;

(ii) Receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plant, if Class II utilization was requested by the operator of such plant and the handler;

(5) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in inventory of fluid milk products on hand at the beginning of the month;

(6) Add to the remaining pounds of skim milk in Class II milk the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraphs (3)(iv) or (4)(i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (3)(v) or (4)(ii) of this paragraph:

(i) In series beginning with Class II, the pounds determined by multiplying the pounds of such receipts by the larger of the percentage of estimated Class II utilization of skim milk announced for the month by the market administrator pursuant to § 1076.27(l) or the percentage that Class II utilization remaining is of the total remaining utilization of skim milk of the handler; and

(ii) From Class I, the remaining pounds of such receipts;

(9) Subtract from the pounds of skim milk remaining in each class the pounds

of skim milk received in fluid milk products from pool plants of other handlers according to the classification assigned pursuant to § 1076.44(a);

(10) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk received in fluid milk products from a cooperative association in its capacity as a handler pursuant to § 1076.8(d) according to the classification assigned pursuant to § 1076.44(e); and

(11) If the pounds of skim milk remaining in both classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class II. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) Combine the amounts of skim milk and butterfat determined pursuant to paragraphs (a) and (b) of this section into one total for each class and determined the weighted average butterfat content of producer milk in each class.

11. Section 1076.61 is revised to read as follows:

§ 1076.61 Plants subject to other Federal orders.

The provisions of this part, except §§ 1076.32 through 1076.34 and as specified elsewhere in this section, shall not apply to a handler with respect to the operation of plants described in paragraph (a) or (b).

(a) A plant qualified pursuant to § 1076.12(a) from which a lesser volume of fluid milk products, except filled milk, is disposed of in the Eastern South Dakota marketing area than in the marketing area of another marketing agreement or order issued pursuant to the Act and which is fully subject to the classification and pricing provisions of such other agreement or order;

(b) Any plant qualified pursuant to § 1076.12(b) for any portion of the period of March through June, inclusive, that producer milk at such plant is subject to the classification and pricing provisions of another order issued pursuant to the Act.

(c) Each handler operating a plant specified in paragraph (a), if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area.

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

12. In § 1076.62, subdivision (i) of paragraph (a)(1), and paragraph (b) are revised to read as follows:

§ 1076.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1)(i) The obligation that would have been computed pursuant to § 1076.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1076.70(e) and a credit in the amount specified in § 1076.82(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph.

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes (other than to pool plants) in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products or in filled milk disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location (not to be less than the Class II price), and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

13. Section 1076.76 is revised to read as follows:

§ 1076.76 Notification of handlers.

On or before the 12th day of each month the market administrator shall notify each handler with respect to each of his pool plants:

(a) The amount and value of milk (including filled milk) in each class computed pursuant to §§ 1076.46 and 1076.70 and the totals of such amounts and values;

(b) The uniform price computed pursuant to § 1076.72 or § 1076.73, whichever is applicable;

(c) The amount, if any, due such handler from the producer-settlement fund; and

(d) The total amounts to be paid by such handler pursuant to §§ 1076.82 and 1076.85.

14. Section 1076.81 is revised to read as follows:

§ 1076.81 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1076.61, 1076.62, 1076.82, and 1076.84 and out of which he shall make all payments to handlers pursuant to §§ 1076.83 and 1076.84: *Provided*, That the market administrator shall offset the payment due to a handler against payments due from each handler.

15. In § 1076.86, paragraphs (a) and (d) are revised to read as follows:

§ 1076.86 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid;

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which

the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files pursuant to § 8c(15)(A) of the Act, a petition claiming such money.

PART 1078—MILK IN NORTH CENTRAL IOWA MARKETING AREA

1. Section 1078.10 is revised as follows:

§ 1078.10 Pool plant.

"Pool plant" means:

(a) A distributing plant from which a volume of Class I milk, except filled milk, equal to more than an average of 1,000 pounds per day or not less than 15 percent of the Grade A milk received at such plant from dairy farmers and from other plants is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except other plants) in the marketing area.

(b) A supply plant for the month in which shipments of milk, skim milk or cream are made to distributing plants which are pool plants on not less than 10 days in any of the months of September, October, and November and on not less than 5 days in other months: *Provided,* That a supply plant which was not a pool plant for each of the immediately preceding months of September, October, and November shall not be a pool plant for any month during which none of the milk, skim milk or cream from such plant would be allocated to Class I milk pursuant to the procedure specified in § 1078.46(a)(3) and the corresponding step of § 1078.46(b) at a distributing plant which is a pool plant.

2. Section 1078.11 is revised as follows:

§ 1078.11 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant from which fluid milk products are shipped during the month to a pool plant.

3. Section 1078.15 is revised as follows:

§ 1078.15 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, milk drinks (plain or flavored), filled milk, cream or any mixture in fluid form of skim milk and cream (except aerated cream products, yogurt, ice cream mix, evaporated or condensed milk, and sterilized products packaged in hermetically sealed containers). This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

4. A new § 1078.19 is added as follows:

§ 1078.19 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milk fat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

5. In § 1078.30, paragraph (f) is revised as follows:

§ 1078.30 Reports of receipts and utilization.

* * * * *

(f) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement of the route disposition of Class I milk outside the marketing area and a statement showing separately in-area and outside area route disposition of filled milk.

6. In § 1078.32, paragraphs (b) and (c) are revised as follows:

§ 1078.32 Records and facilities.

* * * * *

(b) The weights and butterfat and other content of all milk, skim milk, cream and other milk products (including filled milk) handled during the month;

(c) The pounds of skim milk and butterfat contained in or represented by all milk products (including filled milk) on hand at the beginning and end of each month; and

* * * * *

7. In § 1078.44, paragraph (e)(5) is revised as follows:

§ 1078.44 Transfers.

* * * * *

(e) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

8. In § 1078.46, subparagraphs (3), (4), and (7) of paragraph (a) are revised as follows:

§ 1078.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order; and

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II but not in excess of such quantity:

(i) Receipts of fluid milk products, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph, from an unregulated supply plant:

(*a*) For which the handler requests Class II utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from other pool handlers, and receipts in bulk from other order plants;

(ii) Receipts of fluid milk products in bulk from an other order plant in excess of similar transfers to such plant, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in each of the following:

(i) Receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraphs (3)(iv) or (4)(i) of this paragraph;

(ii) Receipts of fluid milk products in bulk from other order plants that were not subtracted pursuant to subparagraph (4)(ii) of this paragraph;

* * * * *

9. Section 1078.61 is revised as follows:

§ 1078.61 Plants subject to other Federal orders.

The provisions of this part shall not apply to a distributing plant or a supply plant during any month in which such plant would be subject to the classification and pricing provisions of another order issued pursuant to the act unless such plant is qualified as a pool plant pursuant to § 1078.10 and a greater volume of fluid milk products, except filled milk, is disposed of from such plant to retail or wholesale outlets and to pool plants in the North Central Iowa marketing area than in the marketing area regulated pursuant to such other order: *Provided,* That the operator of a distributing plant or a supply plant which is exempt from the provisions of this order pursuant to this section shall, with respect to the total receipts and utiliza-

tion or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require (in lieu of the reports required pursuant to § 1078.30) and allow verification of such reports by the market administrator.

10. In § 1078.86, paragraphs (a) and (d) are revised as follows:

§ 1078.86 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler within the applicable period of time, files pursuant to section 8c(15)(A) of the act, a petition claiming such money.

PART 1079—MILK IN THE DES MOINES, IOWA, MARKETING AREA

1. Section 1079.10 is revised as follows:

§ 1079.1 Pool plant.

"Pool plant" means:

(a) A distributing plant from which a volume of Class I milk, except filled milk, equal to not less than 35 percent of the Grade A milk received at such plant from dairy farmers and from other plants is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except pool plants) and not less than 15 percent of such receipts or an average of not less than 7,000 pounds per day, whichever is less, is so disposed of to such outlets in the marketing area: *Provided,* That if a portion of a plant is physically apart from the Grade A portion of such plant, is operated separately and is not approved by any health authorities for the receiving, processing, or packaging of any fluid milk product for Grade A disposition, it shall not be considered as part of a pool plant pursuant to this section.

(b) A supply plant from which the volume of fluid milk products, except filled milk, shipped during the month to pool plants qualified pursuant to paragraph (a) of this section is equal to not less than 35 percent of the Grade A milk received at such plant from dairy farmers during such month: *Provided,* That if such shipments are not less than 50 percent of the receipts of Grade A milk directly from dairy farmers at such plant during the immediately preceding period of September through November, such plant shall be a pool plant for the months of March through June, unless written application is filed with the market administrator on or before the 15th day of any of the months of March, April, May, or June to be designated a nonpool plant for such month and for each subsequent month through June of the same year: *And provided further,* That if a portion of a plant is physically apart from the Grade A portion of such plant, is operated separately and is not approved by any health authority for the receiving, processing or packaging of any fluid milk product for Grade A disposition, it shall not be considered as part of a pool plant pursuant to this section.

2. Section 1079.11 is revised as follows:

§ 1079.11 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant from which fluid milk products are shipped during the month to a pool plant.

3. Section 1079.13 is revised as follows:

§ 1079.13 Producer-handler.

"Producer-handler" means any person who operates a dairy farm and a distributing plant but who receives no milk from other dairy farmers or from sources other than pool plants and whose disposition of fluid milk products does not exceed that (a) received from a pool plant, (b) processed from milk of his own production, or (c) processed from fluid milk received from a pool plant.

4. Section 1079.15 is revised as follows:

§ 1079.15 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, milk drinks (plain or flavored), filled milk, cream or any mixture in fluid form of skim milk and cream (except aerated cream products, sour cream, ice cream mix, evaporated or condensed milk, and sterilized products packaged in hermetically sealed containers). This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

5. A new § 1079.19 is added as follows:

§ 1079.19 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

6. In § 1079.30, paragraphs (f) and (g) are revised as follows:

§ 1079.30 Reports of receipts and utilization.

* * * * *

(f) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement of the route disposition of Class I milk in the marketing area and a statement showing separately in-area and outside area route disposition of filled milk; and

(g) Each handler operating a partially regulated distributing plant shall report as required in this section substituting receipts from dairy farmers for receipts of producer milk; such report shall include a separate statement showing the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area.

7. In § 1079.32, paragraphs (b) and (c) are revised as follows:

§ 1079.32 Records and facilities.

* * * * *

(b) The weights and butterfat and other content of all milk, skim milk, cream, and other milk products (including filled milk) handled during the month;

(c) The pounds of skim milk and butterfat contained in or represented by all milk products (including filled milk) on hand at the beginning and end of each month; and

* * * * *

8. In § 1079.44, paragraph (e)(5) is revised as follows:

§ 1079.44 Transfers.

* * * * *

(e) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

9. In § 1079.46, subparagraphs (2), (3), (4), (7), and (8) of paragraph (a) are revised as follows:

§ 1079.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3) (v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or two percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract successively from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II:

(i) The pounds of skim milk in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3) (iv) of this paragraph, for which the handler requests Class II utilization, but not in excess of the pounds of skim milk remaining in Class II;

(ii) The pounds of skim milk remaining in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3) (iv) of this paragraph, which are in excess of the pounds of skim milk determined as follows:

(*a*) Multiply the pounds of skim milk remaining in Class I milk (exclusive of Class I transfers between pool plants of the handler) at all pool plants of the handler by 1.25;

(*b*) Subtract from the result the sum of the pounds of skim milk at all such plants in producer milk, in receipts from other pool handlers and in receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3) (v) of this paragraph; and

(*c*) (*1*) Multiply any resulting plus quantity by the percentage that receipts of skim milk in fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3) (iv) of this paragraph, remaining at this plant is of all such receipts remaining at all pool plants of such handler, after any deductions pursuant to subdivision (i) of this subparagraph.

(2) Should such computation result in a quantity to be subtracted from Class II which is in excess of the pounds of skim milk remaining in Class II, the pounds of skim milk in Class II shall be increased to the quantity to be subtracted and the pounds of skim milk in Class I shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made.

(iii) The pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3) (v) of this paragraph, in excess of similar transfers to such plant, but not in excess of the pounds of skim milk remaining in Class II milk, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(7) (i) Subtract from the pounds of skim milk remaining in each class, pro rata to the total pounds of skim milk remaining in each class in all pool plants of the receiving handler, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraphs (3) (iv), (4) (i) or (ii) of this paragraph;

(ii) Should such proration result in the amount to be subtracted from any class exceeding the pounds of skim milk remaining in such class in the pool plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case the utilization of milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made;

(8) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, in excess in each case of similar transfers to the same plant, that were not subtracted pursuant to subparagraphs (3) (v) or (4) (iii) of this paragraph pursuant to the following procedure:

(i) Subject to the provisions of subdivisions (ii) and (iii) of this subparagraph, such subtraction shall be pro rata to whichever of the following represents the higher proportion of Class II milk;

(a) The estimated utilization of skim milk in each class, by all handlers, as announced for the month pursuant to § 1079.27(1); or

(b) The pounds of skim milk in each class remaining at all pool plants of the handler;

(ii) Should proration pursuant to subdivision (i) of this subparagraph result in the total pounds of skim milk to be subtracted from Class II at all pool plants of the handler exceeding the pounds of skim milk remaining in Class II at such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which received;

(iii) Except as provided in subdivision (ii) of this subparagraph, should proration pursuant to either subdivision (i) or (ii) of this subparagraph result in the amount to be subtracted from either class exceeding the pounds of skim milk remaining in such class in the pool plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made.

* * * * *

10. Section 1079.61 is revised as follows:

§ 1079.61 Plants subject to other Federal orders.

The provisions of this part shall not apply to a handler who operates a plant specified in paragraph (a) of this section except as specified in paragraphs (b) and (c);

(a) A distributing plant or a supply plant during any month in which such plant would be subject to the classification and pricing provisions of another order issued pursuant to the act unless the disposition of fluid milk products, except filled milk, from such plant to pool plants qualified under § 1079.10 and to retail and wholesale outlets in the Des Moines, Iowa, marketing area exceeds such disposition to retail and wholesale outlets in such other marketing area and to pool plants regulated by such other order;

(b) Each handler operating a plant described in paragraph (a) of this section shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such manner as the market administrator may require (in lieu of reports pursuant to §§ 1079.30 and 1079.31) and allow verification of such reports by the market administrator.

(c) Each handler operating a plant specified in paragraph (a), of this section if such plant is subject to the classification and pricing provisions of another order which provides for individual-handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

11. In § 1079.62, paragraphs (a) (1) (i) and (b) are revised as follows:

§ 1079.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1) (i) The obligation that would have been computed pursuant to § 1079.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the uniform price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1079.70(e) and a credit in the amount specified in § 1079.84(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified below in this subparagraph; and

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the uniform price applicable at such location (not to be less than the Class II price) and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

12. Section 1079.83 is revised as follows:

§ 1079.83 Producer-settlement fund.

The market administrator shall maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made to such fund and out of which he shall make all payments from such fund pursuant to §§ 1079.61, 1079.62, 1079.84, 1079.85, and 1079.86: *Provided,* That the market administrator shall offset the payment due to a handler against payments due from such handler.

13. In § 1079.89, paragraphs (a) and (d) are revised as follows:

§ 1079.89 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this order shall, except as provided in paragraph (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator received the handler's utilization report on skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calender month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler within the applicable period of time, files pursuant to section 8c(15)(A) of the act, a petition claiming such money.

PART 1090—MILK IN THE CHATTANOOGA, TENN., MARKETING AREA

1. In § 1090.7, paragraphs (a) and (b) are revised to read as follows:

§ 1090.7 Pool plant.

* * * * *

(a) Milk distributing plant approved or recognized by a duly constituted health authority for the receiving or processing of Grade A milk and from which Class I milk, except filled milk, equal to not less than 50 percent of its receipts of milk from other pool plants and from approved dairy farmers is disposed of during the month on routes and from which Class I milk, except filled milk, equal to not less than 15 percent of its total Class I disposition, except filled milk, is disposed of during the month on routes in the marketing area;

(b) Milk supply plant which, during the month, ships fluid milk products, except filled milk, approved or recognized by a duly constituted health authority as eligible for distribution under a Grade A label in a volume equal to not less than 50 percent of its receipts of milk from approved dairy farmers to a plant specified in paragraph (a) of this section: *Provided,* That any plant which qualifies as a pool plant pursuant to this paragraph in each of the months of August through February shall be designated as a pool plant for the following months of March through July unless the operator of such plant files with the market administrator prior to the first day of any of the months of March–July a written request for withdrawal; or

* * * * *

2. Sections 1090.8, 1090.10, 1090.12, and 1090.14 are revised to read as follows:

§ 1090.8 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant other than a producer-handler plant or an other order plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant other than a producer-handler plant or an other order plant,

from which fluid milk products are shipped to a pool plant.

§ 1090.10 Producer-handler.

"Producer-handler" means an approved dairy farmer who:

(a) Operates a plant from which Class I milk is disposed of on routes in the marketing area;

(b) Receives no fluid milk products from other dairy farmers or from sources other than pool plants;

(c) Uses no nonfluid milk products for reconstitution into fluid milk products; and

(d) Provides proof satisfactory to the market administrator that the care and management of the dairy animals and other resources necessary for his own farm production and the operation of the processing, packaging, and distribution business are the personal enterprise and risk of such person.

§ 1090.12 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, filled milk, flavored milk, flavored milk and skim milk drinks, yogurt, cream (sweet or sour) or any mixture in fluid form of milk, skim milk and cream (except sterilized products packaged in hermetically sealed containers, eggnog, a product which contains 6 percent or more nonmilk fat (or oil), ice cream and ice milk mix and aerated cream).

§ 1090.14 Route.

"Route" means any delivery (including delivery by a vendor or a sale from a plant or plant store) of milk or any milk product (including filled milk) classified as Class I milk pursuant to § 1090.41(a) other than a delivery to any milk or filled milk processing plant.

3. A new § 1090.20 is added and reads as follows:

§ 1090.20 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

4. In § 1090.30, paragraphs (a)(5) and (b) are revised to read as follows:

§ 1090.30 Reports of receipts and utilization.

(a) * * *

(5) The utilization of all skim milk and butterfat required to be reported pursuant to this paragraph, including separate statements as to the route disposition of Class I milk outside the marketing area and a statement showing separately in-area and outside area route disposition of filled milk; and

* * * * *

(b) Each handler specified in § 1090.9(b) who operates a partially regulated distributing plant shall report as required in paragraph (a) of this section, except that receipts in Grade A milk from dairy farmers shall be reported in lieu of those in producer milk; such report shall include a separate statement showing the respective amounts of skim milk and butterfat disposed of on routes in the marketing area as Class I milk and in quantity of reconstituted skim milk in such disposition.

* * * * *

5. In § 1090.44, the introductory text of paragraph (d) and subparagraph (5) of paragraph (f) are revised to read as follows:

§ 1090.44 Transfers.

* * * * *

(d) As Class I milk, if transferred in the form of milk, skim milk, or filled milk in bulk or diverted to a nonpool plant that is neither an other order plant nor a producer-handler plant, unless the requirements of subparagraphs (1) and (2) of this paragraph are met, in which case the skim milk and butterfat so transferred or diverted shall be classified in accordance with the assignment resulting from subparagraph (3) of this paragraph:

* * * * *

(f) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

6. In § 1090.46(a), subparagraphs (1–a), (2), (3), (4), and (7) and the introductory text of subparagraph (8) are revised to read as follows:

§ 1090.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(1–a) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in packaged fluid milk products, except filled milk made from reconstituted skim milk, received from an unregulated supply plant or the pounds of skim milk classified as Class I milk and transferred or diverted during the month to such plant, whichever is less;

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II but not in excess of such quantity:

(i) Receipts of fluid milk products from an unregulated supply plant, excluding a quantity equal to the pounds of skim milk subtracted pursuant to subparagraphs (1–a) and (3)(iv) of this paragraph:

(*a*) For which the handler requests Class II utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from pool plants of other handlers, and receipts in bulk from other order plants that were not subtracted pursuant to subparagraph (3)(v) of this paragraph; and

(ii) Receipts of fluid milk products in bulk from an other order plant that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plant, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants, excluding a quantity equal to the pounds of skim milk subtracted pursuant to subparagraphs (1–a), (3)(iv) and (4)(i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (3)(v) and (4)(ii) of this paragraph:

* * * * *

7. In § 1090.61, paragraph (a) is revised and a new paragraph (c) is added and reads as follows:

§ 1090.61 Plants subject to other Federal orders.

* * * * *

(a) Any distributing plant which would otherwise be subject to the classification and pricing provisions of another order issued pursuant to the act, unless a greater volume of Class I milk, except filled milk, is disposed of from

such plant to retail or wholesale outlets (except pool plants or nonpool plants) in the Chattanooga, Tennessee, marketing area than in the marketing area regulated pursuant to such order

* * * * *

(c) Each handler operating a plant described in paragraph (a) of this section, if such plant is subject to the classification and pricing provisions of another order which provides for individual-handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

8. In § 1090.62, paragraphs (a)(1)(i) and (b) are revised to read as follows:

§ 1090.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1)(i) The obligation that would have been computed pursuant to § 1090.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1090.70(e) and a credit in the amount specified in § 1090.82(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified below in this subparagraph.

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, substract its value at the weighted average price applicable at such location (not to be less than the Class II price), and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the location of the nonpool plant less the value of such skim milk at the Class II price.

9. Section 1090.81 is revised to read as follows:

§ 1090.81 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1090.61, 1090.62, 1090.82, and 1090.84, and out of which he shall make all payments pursuant to §§ 1090.83 and 1090.84: *Provided*, That any payments due to any handler shall be offset by any payments due from such handler.

10. In § 1090.87, paragraph (a) is revised to read as follows:

§ 1090.87 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation,

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled, and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid;

* * * * *

PART 1094—MILK IN THE NEW ORLEANS, LA., MARKETING AREA

1. Section 1094.7 is revised to read as follows:

§ 1094.7 Route.

"Route" means any delivery of a fluid milk product from a milk processing plant to wholesale or retail outlets (including any delivery by a vendor and from a plant store or through a vending machine) other than a delivery to any milk or filled milk receiving and/or processing plant.

1a. In § 1094.10, paragraph (a) is revised to read as follows:

§ 1094.10 Pool plant.

* * * * *

(a) A distributing plant, other than that of a producer-handler or one described in § 1094.63(a), from which during the month:

(1) Disposition in the marketing area of fluid milk products, except filled milk, on routes is at least the lesser of a daily average of 1,500 pounds or 20 percent of receipts from dairy farmers, cooperatives in their capacities as handlers pursuant to § 1094.12(d) and supply plants; and

(2) Total disposition of fluid milk products, except filled milk, on routes is 50 percent or more of receipts from dairy farmers, cooperatives in their capacities as handlers pursuant to § 1094.12(d) and supply plants;

* * * * *

2. Section 1094.11 is revised to read as follows:

§ 1094.11 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant from which fluid milk products are moved to a pool plant during the month, but which is neither an other order plant nor a producer-handler plant.

3. Section 1094.13 is revised to read as follows:

§ 1094.13 Producer-handler.

Producer-handler means a dairy farmer who operates a distributing plant at which no fluid milk or fluid milk products are received during the month except his own production or transfers from

a pool plant(s) and which has no receipts of nonfluid milk products disposed of as Class I milk.

4. Section 1094.17 is revised to read as follows:

§ 1094.17 Fluid milk product.

Fluid milk product means all skim milk (including reconstituted skim milk) and butterfat in the form of milk, skim milk, buttermilk, filled milk, concentrated milk or skim milk, fortified milk or skim milk, flavored milk, flavored milk drinks (including eggnog) yogurt, cream (other than frozen storage cream), cultured sour cream, sour cream products labeled Grade A and any mixture of cream and milk or skim milk in fluid form (other than ice cream mixes, other frozen dessert mixes and sterilized products contained in hermetically sealed containers). This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

5. A new § 1094.19a is added to read as follows:

§ 1094.19a Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

6. In § 1094.30, subparagraph (6) of paragraph (a) and paragraph (b) are revised to read as follows:

§ 1094.30 Reports of receipts and utilization.

* * * * *

(a) * * *

(6) The utilization of all skim milk and butterfat required to be reported pursuant to this paragraph, including a separate statement with respect to Class I milk disposed of inside the marketing area and a statement showing separately in-area and outside area route disposition of filled milk.

* * * * *

(b) Each handler specified in § 1094.12 (b) who operates a partially regulated distributing plant shall report in the same manner as required in paragraph (a) of this section with respect to all receipts and utilization, except that receipts in Grade A milk from dairy farmers shall be reported in lieu of those in producer milk and base and excess milk. Such report shall include a separate statement showing Class I disposition on routes in the marketing area of each of the following: skim milk and butterfat, respectively in fluid milk products and the quantity thereof which is reconstituted skim milk.

7. In § 1094.44, subparagraph (5) of paragraph (d) is revised to read as follows:

§ 1094.44 Transfers.

* * * * *

(d) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

8. In § 1094.46, subparagraphs (2), (3), (4), (7), and the introductory text of subparagraph (8) preceding subdivision (i) of paragraph (a) are revised to read as follows:

§ 1094.46 Allocation of skim milk and butterfat in each class.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3) (v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II but not in excess of such quantity:

(i) Receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to subparagraph (3) (iv) of this paragraph:

(*a*) For which the handler requests Class II utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from pool plants of other handlers, receipts from a cooperative association in its capacity as a handler pursuant to § 1094.12(d) and receipts in bulk from other order plants that were not subtracted pursuant to subparagraph (3) (v) of this paragraph;

(ii) Receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3) (v) of this paragraph, in excess of similar transfers to such plant, if Class II utilization was requested by the operator of such plant and the handler; and

(iii) Receipts of milk by diversion from an other order plant for which Class II utilization was requested by the receiving handler and by the diverting handler under the other order;

* * * * *

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraph (3) (iv) or (4) (i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraph (3) (v) or (4) (ii) of this paragraph:

* * * * *

9. In § 1094.62, paragraphs (a) (1) (i) and (b) are revised to read as follows:

§ 1094.62 Obligations of handlers operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1) (i) The obligation that would have been computed pursuant to § 1094.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1094.70(e) and a credit in the amount specified in § 1094.82(b) (2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified below in this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of

as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act:

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location (not to be less than the Class II price), and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

10. Section 1094.63 is revised to read as follows:

§ 1094.63 Plants subject to other Federal orders.

The handler operating a plant specified in paragraphs (a) or (b) of this section shall be exempt from all provisions of this part except §§ 1094.32, 1094.34 and 1094.35 and as specified in paragraph (c):

(a) Any distributing plant which would be subject to the classification and pricing provisions of another order issued pursuant to the act unless a greater volume of Class I milk, except filled milk, is disposed of during the month on routes in the New Orleans marketing area than in the marketing area defined in such other order;

(b) Any supply plant which would be subject to the classification and pricing provision of another order issued pursuant to the Act unless such plant qualified as a pool plant pursuant to § 1094.10(c).

(c) Each handler operating a plant specified in paragraph (a) of this section if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

11. Section 1094.81 is revised to read as follows:

§ 1094.81 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1094.62, 1094.63, 1094.82, and 1094.84, and out of which he shall make all payments pursuant to §§ 1094.83 and 1094.84: *Provided,* That, any payments due to any handler shall be offset by any payments due from such handler.

12. In § 1094.87, paragraph (a) is revised to read as follows:

§ 1094.87 Termination of obligations.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers; or if the obligation is payable to the market administrator, the account for which it is to be paid.

PART 1096—MILK IN THE NORTHERN LOUISIANA MARKETING AREA

1. Section 1096.10 is revised to read as follows:

§ 1096.10 Plant.

"Plant" means the land, buildings together with their surroundings, facilities and equipment whether owned or operated by one or more persons, constituting a single operating unit or establishment at which milk or milk products (including filled milk) are received and/or processed or packaged: *Provided,* That a separate establishment used only for the purpose of transferring bulk milk from one tank truck to another tank truck, or only as a distributing depot for fluid milk products in transit on routes shall not be a plant under this definition.

2. In § 1096.13, paragraphs (a) and (b) are revised to read as follows:

§ 1096.13 Pool plant.

* * * * *

(a) A distributing plant other than the plant of a producer-handler from which a volume of Class I milk, except filled milk, not less than 50 percent of the Grade A milk received at such plant from dairy farmers and a cooperative association in its capacity as a handler pursuant to § 1096.8(d) is disposed of during the month on routes unless the volume so disposed of in the marketing area is less than 10 percent of such receipts or less than 1,500 pounds on a daily average;

(b) A supply plant from which a volume of fluid milk products not less than 50 percent of its Grade A receipts from dairy farmers and from a cooperative association in its capacity as a handler pursuant to § 1096.8(d) is transferred during the month to a distributing plant(s) from which a volume of Class I milk, except filled milk, not less than 50 percent of its receipts of Grade A milk from dairy farmers, cooperative associations, and from other plants is disposed of on routes during the month and the volume so disposed of in the marketing area is at least 10 percent of such receipts or a daily average of 1,500 pounds whichever is less: *Provided,* That any plant which was a pool plant pursuant to this paragraph in each of the months of September through January shall be a pool plant in each of the following months of February through August in which it does not meet the shipping requirements, unless written request is filed with the market administrator prior to the beginning of any such month for nonpool status for the remaining months through August; and

* * * * *

3. Section 1096.15 is revised to read as follows:

§ 1096.15 Fluid milk product.

"Fluid milk product" means all the skim milk (including concentrated and reconstituted skim milk) and butterfat in the form of milk, skim milk, buttermilk, flavored milk and milk drinks, filled milk, cream, cultured sour cream and any mixture of cream and milk or skim milk (except eggnog, aerated cream products, ice cream, ice cream mix, ice milk, ice milk mix, frozen desserts, frozen cream, evaporated milk, condensed milk, sterilized milk products packaged in hermetically sealed containers and any product which contains 6 percent or more nonmilk fat (or oil)): *Provided,* That when any such product is fortified with nonfat milk solids the amount of skim milk to be included within this definition shall be only that amount equal to the weight of skim milk in an equal volume of an unfortified product of the same nature and butterfat content.

4. Section 1096.21 is revised to read as follows:

§ 1096.21 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and

pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant from which fluid milk products are moved to a pool plant during the month, but which is neither an other plant nor a producer-handler plant.

5. A new § 1096.22 is added to read as follows:

§ 1096.22 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

6. In § 1096.30, subparagraphs (2) and (3) of paragraph (a) and paragraph (b) are revised to read as follows:

§ 1096.30 Reports of receipts and utilization.

(a) * * *

(2) Utilization of all skim milk and butterfat required to be reported pursuant to this section including a statement of the route disposition of fluid milk products on routes outside the marketing area and a statement showing separately in-area and outside area route disposition of filled milk;

(3) Such other information with respect to the receipts and utilization of milk and milk products (including filled milk) as the market administrator may require;

(b) Each handler specified in § 1096.8 (b) who operates a partially regulated distributing plant shall report as required in paragraph (a) of this section, except that receipts in Grade A milk from dairy farmers shall be reported in lieu of those in producer milk; such report shall include a separate statement showing Class I disposition on routes in the marketing area of each of the following: skim milk and butterfat, respectively in fluid milk products and the quantity thereof which is reconstituted skim milk;

* * * * *

7. In § 1096.44, subparagraph (5) of paragraph (e) is revised to read as follows:

§ 1096.44 Transfers.

* * * * *

(e) * * *

(5) For purposes of this paragraph (e), if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

8. In § 1096.46, subparagraphs (2), (3), (4), (5), (6), (7), and the introductory text to subparagraph (8) preceding subdivision (i) of paragraph (a) are revised to read as follows:

§ 1096.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to suparagraph (3) (v) as follows:

(i) From Class II milk, the lesser of the pounds remaining or two percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(2–a) Subtract from the remaining pounds of skim milk in Class I milk, the pounds of skim milk in inventory of fluid milk products in packaged form on hand at the beginning of the month;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources; and

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order or from a plant exempt pursuant to § 1096.60(b);

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II:

(i) The pounds of skim milk in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3) (iv) of this paragraph, for which the handler requests Class II utilization, but not in excess of the pounds of skim milk remaining in Class II;

(ii) (*a*) The pounds of skim milk remaining in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3) (iv) of this paragraph, which are in excess of the pounds of skim milk determined as follows:

(*1*) Multiply the pounds of skim milk remaining in Class I milk (excluding Class I transfers between pool plants of the handler) at all pool plants of the handler by 1.25;

(2) Subtract from the result the sum of the pounds of skim milk at all such plants in producer milk, in receipts from other pool handlers and in receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3) (v) of this paragraph; and

(3) Multiply any resulting plus quantity by the percentage that receipts of skim milk in fluid milk products from unregulated supply plants remaining at this plant is of all such receipts remaining at all pool plants of such handler, after any deductions pursuant to subdivision (i) of this subparagraph.

(*b*) Should such computation result in a quantity to be subtracted from Class II which is in excess of the pounds of skim milk remaining in Class II, the pounds of skim milk in Class II shall be increased to the quantity to be subtracted and the pounds of skim milk in Class I shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made.

(iii) The pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3) (v) of this paragraph, in excess of similar transfers to such plant, but not in excess of the pounds of skim milk remaining in Class II milk, if Class II utilization was requested by the operator of such plant and the handler;

(5) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in inventory of bulk fluid milk products on hand at the beginning of the month;

(6) Add to the remaining pounds of skim milk in Class II milk the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(7) (i) Subtract from the pounds of skim milk remaining in each class, pro rata to the total pounds of skim milk remaining in each class in all pool plants of the receiving handler, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraphs (3) (iv) or (4) (i) or (ii) of this paragraph;

(ii) Should such proration result in the amount to be subtracted from any class exceeding the pounds of skim milk remaining in such class in the pool plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case the utilization of skim milk at other pool

plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made;

(8) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, in excess in each case of similar transfers to the same plant, that were not subtracted pursuant to subparagraph (3)(v) or (4)(iii) of this paragraph pursuant to the following procedure:

9. Section 1096.61 is revised to read as follows:

§ 1096.61 Plants subject to other Federal orders.

The provisions of this part shall not apply to a plant specified in paragraph (a) or (b) of this section except as specified in paragraphs (c) and (d):

(a) A distributing plant meeting the requirements of § 1096.13(a) which also meets the pooling requirements of another Federal order and from which the Secretary determines a greater quantity of Class I milk, except filled milk, is disposed of during the month on routes in such other Federal order marketing area than was disposed of on routes in this marketing area, and which was fully subject to the classification and pooling provisions of such other order;

(b) A distributing plant meeting the requirements of § 1096.13(a) which also meets the pooling requirements of another Federal order on the basis of distribution in such other marketing area and from which the Secretary determines a greater quantity of Class I milk, except filled milk, is disposed of during the month on routes in this marketing area than is disposed of on routes in such other marketing area but which plant is nevertheless fully regulated under such other Federal order;

(c) The operator of a plant specified in paragraph (a) or (b) of this section shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator; and

(d) Each handler operating a plant specified in paragraph (a) or (b) of this section, if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area.

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

10. In § 1096.62, paragraphs (a)(1)(i) and (b) are revised to read as follows:

§ 1096.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1)(i) The obligation that would have been computed pursuant to § 1096.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1096.70(e) and a credit in the amount specified in § 1096.82(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified below in this subparagraph and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location (not to be less than the Class II price) and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

11. Section 1096.81 is revised to read as follows:

§ 1096.81 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1096.61, 1096.62, 1096.82, and 1096.84 and out of which he shall make payments to handlers pursuant to §§ 1096.83 and 1096.84: *Provided,* That payments due to any handler shall be offset by any payment due from such handler.

12. In § 1096.87, paragraphs (a) and (b) are revised to read as follows:

§ 1096.87 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid;

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or set off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1097—MILK IN THE MEMPHIS, TENN., MARKETING AREA

1. Section 1097.7 is revised to read as follows:

§ 1097.7 Fluid milk plant.

(a) Any milk processing or packaging plant from which a volume of Class I

milk, except filled milk, equal to an average of 1,000 pounds or more per day, or not less than 5.0 percent of the Class I milk, except filled milk, of such plant is disposed of during the month as Class I milk on route disposition in the marketing area;

(b) Any plant from which during the month fluid milk products (bulk or packaged), except filled milk, in excess of 70,000 pounds are moved to and received at a plant(s) described pursuant to paragraph (a) of this section.

1a. Section 1097.8 is revised to read as follows:

§ 1097.8 Route disposition.

"Route disposition" means a delivery (including disposition from a plant store or from a distribution point and distribution by a vendor or vending machine) of any fluid milk products to a retail or wholesale outlet other than a delivery to a milk or filled milk plant. A delivery through a distribution point shall be attributed to the plant from which the Class I milk is moved through a distribution point to wholesale or retail outlets, without intermediate movement to another milk or filled milk plant.

2. Section 1097.9 is revised to read as follows:

§ 1097.9 Nonfluid milk plant.

"Nonfluid milk plant" means any milk or filled milk manufacturing, processing or packaging plant other than a fluid milk plant. The following categories of nonfluid milk plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonfluid milk plant that is neither an other order plant nor a producer-handler plant, from which Class I milk in consumer-type packages or dispenser units is distributed on routes in the marketing area during the month.

(d) "Unregulated supply plants" means a nonfluid milk plant from which fluid milk products are moved during the month to a fluid milk plant and which is not an other order plant nor a producer-handler plant.

3. Section 1097.16 is revised to read as follows:

§ 1097.16 Fluid milk product.

"Fluid milk product" means the fluid form of milk, skim milk, buttermilk, plain or flavored milk drinks, sweet and sour cream (except aerated cream, frozen cream, and sterilized cream packaged in hermetically sealed containers not labeled as Grade A); filled milk; and any mixture in fluid form of milk, skim milk, and cream except mixes for frozen dairy products. Eggnog and sour cream mixtures to which cheese or any food substance other than a milk product has been added shall be considered as fluid milk products only if disposed of under a Grade A label. This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

4. A new § 1097.19 is added to read as follows:

§ 1097.19 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

5. In § 1097.30, paragraph (e) is revised to read as follows:

§ 1097.30 Reports of receipts and utilization.

* * * * *

(e) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement of the route disposition of Class I milk outside the marketing area and a statement showing separately in-area and outside area route disposition of filled milk.

* * * * *

6. In § 1097.32, paragraphs (b) and (c) are revised to read as follows:

§ 1097.32 Records and facilities.

* * * * *

(b) The weights and tests for butterfat and other content of all milk and milk products (including filled milk) handled; and

(c) The pounds of skim milk and butterfat contained in or represented by all milk and milk products (including filled milk) on hand at the beginning and end of each month.

7. In § 1097.44, subparagraph (5) of paragraph (f) is revised to read as follows:

§ 1097.44 Transfers.

* * * * *

(f) * * *

(5) For purposes of this paragraph (f), if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

8. In § 1097.46, subparagraphs (3), (4), and (7) of paragraph (a) are revised to read as follows:

§ 1097.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established and receipts of fluid milk products from unidentified sources; and

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order; and

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants;

(4) Subtract in the order specified below, from the pounds of skim milk remaining in Class II, but not in excess of such quantity, the pounds of skim milk in each of the following:

(i) Receipts of fluid milk products from an unregulated supply plant, that were not subtracted pursuant to subparagraph (3) (iv) of this paragraph;

(*a*) For which the handler requests Class II utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from fluid milk plants of other handlers, from cooperative associations which are handlers pursuant to § 1097.10(c), and receipts in bulk from other order plants;

(ii) Receipts of fluid milk products in bulk from an other order plant in excess of similar transfers to such plant, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in each of the following:

(i) Receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraphs (3) (iv) or (4) (i) of this paragraph:

(ii) Receipts of fluid milk products in bulk from other order plants that were not subtracted pursuant to subparagraph (4) (ii) of this paragraph;

* * * * *

9. Section 1097.61 is revised to read as follows:

§ 1097.61 Plants subject to other Federal orders.

In the case of a handler in his capacity as operator of a plant specified in paragraph (a) or (b) of this section, the provisions of this part shall not apply except that such handler shall with respect to his total receipts and disposition of skim milk and butterfat, make reports to the market administrator at such time and in such manner as the market administrator may prescribe and allow verification of such reports by the market administrator:

(a) A plant qualified pursuant to § 1097.7 (a) or (b) which would be fully regulated pursuant to the provisions of another order issued pursuant to the Act and from which the market administrator determines that a greater volume of fluid milk products, except filled milk,

was disposed of during the month from such plant as Class I route disposition in the marketing area regulated by the other order and as fluid milk products transferred as Class I milk to plants fully regulated by such other order than as Class I route disposition in the Memphis, Tenn., marketing area and as fluid milk products transferred as Class I milk to other fluid milk plants: *Provided,* That a plant which was a fluid milk plant pursuant to § 1097.7 (a) or (b) under this order in the immediately preceding month shall continue to be subject to all of the provisions of this part until the third consecutive month in which a greater proportion of fluid milk products, except filled milk, is disposed of as Class I milk on routes in such other marketing area or to plants fully subject to such other order, unless the other order requires regulation of the plant without regard to its qualifying as a fluid milk plant for regulation under this order subject to the proviso of this paragraph; and

(b) A plant qualified pursuant to § 1097.7 (a) or (b) which meets the requirements for fully regulated plants under another Federal order and from which the market administrator determines a greater volume of fluid milk products, except filled milk, is disposed of during the month as Class I route disposition in the Memphis, Tenn., marketing area and as fluid milk products transferred as Class I milk to other fluid milk plants than as Class I route disposition in the other marketing area and fluid milk products transferred as Class I milk to plants fully regulated by such other order, and such other order which fully regulates the plant does not contain provision to exempt the plant from regulation under the particular circumstances described herein of having greater Class I disposition under the Memphis, Tenn., order.

10. In § 1097.98, paragraphs (a) and (d) are revised to read as follows:

§ 1097.98 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1098—MILK IN THE NASHVILLE, TENN., MARKETING AREA

1. Section 1098.9 is revised to read as follows:

§ 1098.9 Producer-handler.

"Producer-handler" means a person who:

(a) Produces milk and operates an approved plant;

(b) Uses no nonfluid milk products for reconstitution into fluid milk products; and

(c) Receives no fluid milk products during the month except milk of his own production and transfers from pool plants.

2. In § 1098.11, paragraphs (a) and (b) are revised to read as follows:

§ 1098.11 Pool plant.

* * * * *

(a) A plant at which during the month fluid milk products are processed or packaged and from which (1) disposition of fluid milk products, except filled milk, on routes is at least 50 percent of total receipts of Grade A milk and (2) fluid milk products, except filled milk, distributed on routes in the marketing area are at least 15 percent of its total disposition of fluid milk products, except filled milk, on routes.

(b) A plant from which during the month there has been delivered to plants described in paragraph (a) of this section fluid milk products, except filled milk, approved by any health authority having jurisdiction in the marketing area as eligible for distribution under a Grade A label in a volume not less than 50 percent of its receipts of milk from approved dairy farmers: *Provided,* That any plant which qualified as a pool plant pursuant to this paragraph in each of the months of August through February shall be designated as a pool plant for the following months of March through July, unless the operator of such plant files with the market administrator a written requests for withdrawal prior to the first day of the month for which nonpool status is requested, in which case the plant shall remain a nonpool plant until it again qualifies for pool status.

* * * * *

3. Sections 1098.12, 1098.15, and 1098.18 are revised to read as follows:

§ 1098.12 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant other than a producer-handler plant or an other order plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant other than a producer-handler plant or an other order plant, from which fluid milk products are shipped to a pool plant.

§ 1098.15 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, filled milk, flavored milk, flavored milk drinks, yogurt, cream (sweet and sour), or any mixture in fluid form of skim milk and butterfat components of milk (except sterilized products packaged in hermetically sealed containers, eggnog, ice cream mix, a product which contains 6 percent or more nonmilk fat (or oil), aerated cream and sour cream mixtures to which cheese or any food substance other than a milk product has been added and which is not disposed of under a Grade A label).

§ 1098.18 Route.

"Route" means any delivery (including delivery by a vendor or a sale from a plant store) of fluid milk products other than a delivery to a milk or filled milk processing plant.

4. A new § 1098.19 is added and reads as follows:

§ 1098.19 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product, and contains less than six percent nonmilk fat (or oil).

5. In § 1098.30, paragraphs (a) and (e) are revised to read as follows:

§ 1098.30 Reports of receipts and utilization.

* * * * *

(a) The quantities of skim milk and butterfat contained in producer milk (showing separately such milk received

from a cooperative association pursuant to § 1098.8(c)), except that a handler as specified in § 1098.8(d) who operates a partially regulated distributing plant shall report receipts of Grade A milk from dairy farmers in lieu of those in producer milk; such report shall include a separate statement showing the respective amounts of skim milk and butterfat disposed of on routes in the marketing area as Class I milk and the quantity of reconstituted skim milk in such disposition;

* * * * *

(e) The utilization of all skim milk and butterfat required to be reported pursuant to this section including a separate statement of the route disposition of Class I milk outside the marketing area and a statement showing separately in-area and outside area route disposition of filled milk; and

* * * * *

6. Section 1098.33 is revised to read as follows:

§ 1098.33 Records and facilities.

Each handler shall keep adequate records of receipts and utilization of skim milk and butterfat, and shall, during the usual hours of business, make available to the market administrator, or his representative, such records and facilities as will enable the market administrator to (a) verify the receipts and utilization of all skim milk and butterfat, and in case of errors or omissions, ascertain the correct figures; (b) weigh, sample and test butterfat content of all milk and milk products (including filled milk) handled; (c) verify deductions authorized by producers and the disbursement of moneys so deducted; and (d) make such examinations of operations, equipment, and facilities as the market administrator deems necessary.

7. In § 1098.41(b), subparagraph (3–a) is revised to read as follows:

§ 1098.41 Classes of utilization.

* * * * *

(b) * * *

(3–a) Disposed of in bulk fluid milk products to bakeries, candy factories, soup factories and similar establishments at which the fluid milk products were used in the manufacture of food products other than milk products (including filled milk);

* * * * *

8. In § 1098.44, the introductory text of paragraph (d) and and subparagraph (5) of paragraph (e) are revised to read as follows:

§ 1098.44 Transfers.

* * * * *

(d) As Class I milk, if transferred in bulk as milk, filled milk, skim milk or cream or diverted to a nonpool plant that is neither an other order plant nor a producer-handler plant, unless the requirements of subparagraphs (1) and (2) of this paragraph are met, in which case the skim milk and butterfat so transferred or diverted shall be classified in accordance with the assignment resulting from subparagraph (3) of this paragraph:

* * * * *

(e) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

9. In § 1098.46(a), subparagraphs (2), (3), (4), and (7) and the introductory text of subparagraph (8) are revised to read as follows:

§ 1098.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or two percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II but not in excess of such quantity:

(i) Receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph:

(*a*) For which the handler requests Class II utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from pool plants of other handlers and receipts in bulk from other order plants that were not subtracted pursuant to subparagraph (3)(v) of this paragraph; and

(ii) Receipts of fluid milk products in bulk from an other order plant that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plant, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraphs (3)(iv) and (4)(i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (3)(v) and (4)(ii) of this paragraph:

10. Section 1098.80 is revised to read as follows:

§ 1098.80 Producer-settlement fund.

The market administrator shall maintain a producer-settlement fund into which he shall deposit the appropriate payments made by handlers pursuant to §§ 1098.81, 1098.87, 1098.91, and 1098.92 and out of which he shall make appropriate payments required pursuant to §§ 1098.82 and 1098.87.

11. In § 1098.88, paragraphs (a) and (d) are revised to read as follows:

§ 1098.88 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligations, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid;

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler

any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

12. Section 1098.91 is revised to read as follows:

§ 1098.91 Handlers subject to other Federal orders.

(a) Except as specified in paragraphs (b) and (c) of this section, the provisions of this part shall not apply to a handler with respect to the operation of a plant during any month in which the milk at such plant would be subject to the classification, pricing and payment provisions of another marketing agreement or order issued pursuant to the Act and in which the disposition of fluid milk products, except filled milk, from such plant in the other Federal marketing area exceeds that in the Nashville, Tenn., marketing area: *Provided,* That on the basis of a written application made either by the plant operator or by the cooperative association supplying milk to such operator's plant, at least 15 days prior to the date for which a determination of the Secretary is to be effective, the Secretary may determine that the Class I dispositions in the respective marketing areas to be used for purposes of this paragraph shall exclude (for a specified period of time) Class I disposition made under limited term contracts to governmental bases and institutions;

(b) Each handler operating a plant described in paragraph (a) of this section shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at such plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator; and

(c) Each handler operating a plant described in paragraph (a) of this section, if such plant is subject to the classification and pricing provisions of another order which provides for individual-handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

13. In § 1098.92, paragraphs (a)(1)(i) and (b) are revised to read as follows:

§ 1098.92 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1)(i) The obligation that would have been computed pursuant to § 1098.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1098.70(e) and a credit in the amount specified in § 1098.81(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified below in this subparagraph.

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location (not to be less than the Class II price), and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the location of the nonpool plant less the value of such skim milk at the Class II price.

PART 1099—MILK IN THE PADUCAH, KY., MARKETING AREA

1. Section 1099.8 is revised to read as follows:

§ 1099.8 Pool plant.

"Pool plant" means:

(a) A distributing plant from which 45 percent or more of its receipts of milk from dairy farmers producing milk under a Grade A dairy farm permit or rating issued by a duly constituted health authority (including milk of such dairy farmers diverted by the plant operator), from cooperative associations in their capacity as handlers pursuant to § 1099.10(e) and fluid milk products, except filled milk, from other plants is disposed of as Class I milk, except filled milk, on route disposition during the month and from which a daily average of 3,000 pounds or more per day, or 10 percent or more of such receipts, whichever is less, is disposed of as fluid milk products, except filled milk, on route disposition in the marketing area: *Provided,* That a plant which qualifies as a pool plant by complying with the foregoing requirements during any month shall be a pool plant during the following month; or

(b) A distributing plant or supply plant from which the volume of milk, skim milk and cream shipped to pool plants qualified pursuant to paragraph (a) of this section, or disposed of as Class I milk, except filled milk, on route distribution is equal to not less than 50 percent of the receipts of milk from dairy farmers producing milk under a Grade A dairy farm permit or rating issued by a duly constituted health authority (including milk of such dairy farmers diverted by the plant operator), from cooperative associations in their capacity as handlers pursuant to § 1099.10(e) and fluid milk products, except filled milk, received from other plants: *Provided,* That if a supply plant ships to pool plants qualified pursuant to paragraph (a) of this section, milk, skim milk and cream equal to at least 75 percent of its receipts of milk from such dairy farmers and cooperative associations in their capacity as handlers pursuant to § 1099.10(e) in October and November and 35 percent of such milk in three additional months during the period from August through January, such plant shall, upon written application to the market administrator on or before the end of such period, be designated as a pool plant until the end of any month during the succeeding August through January period in which the milk of such plant is disposed of in such a way that it becomes impossible for the plant to reestablish its qualification under the term of this proviso.

2. Section 1099.9 is revised to read as follows:

§ 1099.9 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packagers or dispenser units are distributed on route disposition in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant (other than a producer-handler plant or an other order plant) from which fluid milk products are shipped to a pool plant.

3. Section 1099.15 is revised to read as follows:

§ 1099.15 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, flavored milk and flavored milk drinks (modified or fortified, including dietary products) and reconstituted milk or skim; filled milk; concentrated milk not sterilized in hermetically sealed containers; cream, sweet and sour; and mixtures of cream and milk or skim milk but not including the following: Frozen cream, aerated cream products, cultured sour cream mixtures other than sour cream, eggnog and boiled custard, ice cream, and ice cream and ice milk mixes, and cream or mixtures of cream with milk or skim milk sterilized in hermetically sealed containers. This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

3a. Section 1099.16 is revised to read as follows:

§ 1099.16 Route disposition.

"Route disposition" means a delivery (including disposition from a plant store or from a distribution point and distribution by a vendor or vending machine) of any fluid milk products to a retail or wholesale outlet other than a milk or filled milk plant. A delivery through a distribution point shall be attributed to the plant from which the Class I milk is moved through a distribution point to wholesale or retail outlets.

4. A new § 1099.19 is added to read as follows:

§ 1099.19 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

5. Section 1099.30 is revised to read as follows:

§ 1099.30 Reports of receipts and utilization.

On or before the 6th day after the end of each month, reports for such month shall be made to the market administrator in the detail and on forms prescribed by the market administrator:

(a) Each handler other than one specified in § 1099.10(b) shall report the following:

(1) The quantities of skim milk and butterfat contained in all receipts at each of his distributing and supply plants of (i) producer milk, showing separately that from cooperative associations pursuant to § 1099.10(e), (ii) in fluid milk products received from pool plants, and (iii) other source milk;

(2) The quantities of skim milk and butterfat contained in produced milk diverted to nonpool plants pursuant to § 1099.13, the names of the producers so diverted, and the plant to which diverted;

(3) The utilization of all skim milk and butterfat required to be reported pursuant to paragraphs (1) and (2) of this paragraph, including a statement showing the route disposition of Class I milk outside the marketing area and a statement showing separately in-area and outside area route disposition of filled milk;

(4) Inventories of Class I milk on hand at the beginning and end of the month;

(5) The name and address of each producer from whom milk was not received during the previous months and the date on which milk was first received from such producer;

(6) The name and address of each producer who discontinues deliveries of milk and the date on which milk was last received from such producer; and

(7) Each handler with respect to fluid milk products disposed of for animal feed or dumped shall report to the market administrator such information and at such time as a market administrator may require.

(b) Each handler specified in § 1099.10(b) shall report as required in paragraph (a) of this section except that receipts of Grade A milk from dairy farmers shall be reported in lieu of producer milk and such report shall include a separate statement showing Class I disposition on routes in the marketing area of each of the following: skim milk and butterfat respectively in fluid milk products and the quantity thereof which is reconstituted skim milk.

6. Section 1099.33 is revised to read as follows:

§ 1099.33 Records and facilities.

Each handler shall keep adequate records of receipts and utilization of milk and milk products (including filled milk) and shall during the usual hours of business, make available to the market administrator or his representative such records and facilities as will enable the market administrator to verify or establish the correct data with respect to:

(a) The receipt and utilization of all skim milk and butterfat handled in any form during the month;

(b) The weights and butterfat and other content of all milk and milk products (including filled milk) handled during the month;

(c) The amount and nature of deductions authorized by producers and disbursements of any money so deducted; and

(d) The pounds of skim milk and butterfat contained in or represented by all milk and milk products (including filled milk) on hand at the beginning and end of the month.

7. In § 1099.43, subparagraph (5) of paragraph (d) is revised to read as follows:

§ 1099.43 Transfers.

* * * * *

(d) * * *

(5) For purposes of this paragraph (d), if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

8. In § 1099.45, subparagraphs (2), (3), (4), (7), and the introductory text of subparagraph (8) preceding subdivision (i) of paragraph (a) are amended to read as follows:

§ 1099.45 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3) (v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or two percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established and receipts of fluid milk products from unidentified sources; and

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an

order providing for individual handler pooling to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II but not in excess of such quantity:

(i) Receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph, and dairy farmers who are not producers:

(*a*) For which the handler requests Class II utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from other pool handlers, and receipts in bulk from other order plants that were not subtracted pursuant to subparagraph (3)(v) of this paragraph;

(ii) Receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plant, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants and dairy farmers who are not producers which were not subtracted pursuant to subparagraphs (3)(iv) or (4)(i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (3)(v) or (4)(ii) of this paragraph;

* * * * *

9. Section 1099.61 is revised to read as follows:

§ 1099.61 Plants subject to other Federal orders.

In the case of a handler in his capacity as operator of a plant specified in paragraphs (a), (b), and (c) of this section, the provisions of this part shall not apply except as specified in paragraphs (d) and (e):

(a) A distributing plant qualified pursuant to § 1099.8 which meets the requirements of a fully regulated plant pursuant to the provisions of another order issued pursuant to the Act and from which a greater quantity of fluid milk products, except filled milk, is disposed of during the month from such plant as Class I route disposition in the marketing area regulated by the other order than as Class I route disposition in the Paducah, Ky., marketing area: *Provided,* That such a distributing plant which was a pool plant under this order in the immediately preceding month shall continue to be subject to all of the provisions of this part until the third consecutive month in which a greater proportion of such Class I route disposition is made in such other marketing area, unless the other order requires regulation of the plant without regard to its qualifying as a pool plant under this order subject to the proviso of this paragraph: *And provided further,* on the basis of a written application made either by the plant operator or by the cooperative association supplying milk to such operator's plant, at least 15 days prior to the date for which a determination of the Secretary is to be effective, the Secretary may determine that the Class I route dispositions in the respective marketing areas to be used for purposes of this paragraph shall exclude (for a specified period of time) Class I route disposition made under limited term contracts to governmental bases and institutions;

(b) A distributing plant qualified pursuant to § 1099.8 which meets the requirements of a fully regulated plant pursuant to the provisions of another Federal order and from which a greater quantity of Class I milk, except filled milk, is disposed of during the month in the Paducah marketing area as Class I route disposition than as Class I route disposition in the other marketing area, and such other order which fully regulates the plant does not contain provision to exempt the plant from regulation even though such plant has greater such Class I route disposition in the marketing area of the Paducah, Ky., order;

(c) Any supply plant which would be subject to the classification and pricing provisions of another order issued pursuant to the Act unless such plant qualified as a pool plant pursuant to the proviso of § 1099.8(b) during the preceding August through January period;

(d) The operator of a plant specified in paragraph (a), (b), or (c) of this section shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(e) Each handler operating a plant specified in paragraph (a) or (b) of this section, if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area.

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

10. In § 1099.62, paragraphs (a)(1)(i) and (b) are revised to read as follows:

§ 1099.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1)(i) The obligation that would have been computed pursuant to § 1099.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1099.70(e) and a credit in the amount specified in § 1099.82(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified below in this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on route disposition in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location or the Class II price, whichever is higher, and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

11. Section 1099.81 is revised to read as follows:

§ 1099.81 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund, known as the "producer-settlement fund", which shall function as follows:

(a) All payments made by handlers, pursuant to §§ 1099.61, 1099.62, 1099.82, and 1099.84 shall be deposited in this fund, and all payments made pursuant to §§ 1099.83 and 1099.84 shall be made out of this fund: *Provided,* That payments due to any handler shall be offset by payments due from such handler; and

(b) All amounts subtracted pursuant to § 1099.71(h) shall be deposited in this fund and set aside as an obligated balance until withdrawn to effectuate § 1099.80 in accordance with the requirements of § 1099.71(i).

12. In § 1099.89, paragraphs (a) and (d) are revised to read as follows:

§ 1099.89 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this order shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this order shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1101—MILK IN KNOXVILLE, TENN., MARKETING AREA

1. Sections 1101.7, 1101.9, 1101.10, and 1101.17 are revised to read as follows:

§ 1101.7 Producer-handler.

"Producer-handler" means any person who:

(a) Operates a dairy farm and an approved plant from which Class I milk is disposed of on routes in the marketing area;

(b) Receives no fluid milk products from other dairy farmers or from sources other than pool plants;

(c) Uses no nonfluid milk products for reconstitution into fluid milk products; and

(d) Provides proof satisfactory to the market administrator that the care and management of the dairy animals and other resources necessary for his own farm production and the operation of the processing, packaging and distribution business are the personal enterprise and risk of such person.

§ 1101.9 Pool plant.

"Pool plant" means:

(a) An approved plant from which a volume of Class I milk, except filled milk, equal to not less than 50 percent of its receipts of producer milk and milk and skim milk from other pool plants is disposed of during the month on routes (including routes operated by vendors) to retail or wholesale outlets (including plant stores): *Provided,* That not less than 15 percent of such receipts are so disposed of to such outlets in the marketing area; and

(b) An approved plant from which at least 50 percent of the hundredweight of its producer milk received during the month is shipped in the form of milk, skim milk or cream to a plant qualified pursuant to paragraph (a) of this section and classified as Class I milk: *Provided,* That if such shipments amount to not less than 65 percent of the producer milk of such plant during each of the preceding months of August through February, such plant may, upon written application to the market administrator on or before March 1 of any year be designated as a pool plant for the months of March through July of such year.

§ 1101.10 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant other than a producer-handler plant or an other order plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant other than a producer-handler plant or an other order plant, from which fluid milk products are shipped to a pool plant.

§ 1101.17 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, filled milk, flavored milk, flavored milk drinks, cream, and any cream product except frozen cream and ice cream mix. This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

2. A new § 1101.18 is added to read as follows:

§ 1101.18 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, culture, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product including stabilizers emulsifiers or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

3. In § 1101.30, paragraph (a)(5) and (b) are revised to read as follows:

§ 1101.30 Reports of receipts and utilization.

(a) * * *

(5) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement of the route disposition of Class I milk outside the marketing area and a statement showing separately in-area and outside area route disposition of filled milk; and

* * * * *

(b) Each handler specified in § 1101.11(b) who operates a partially regulated distributing plant, shall report as required in paragraph (a) of this section, except that receipts in Grade A milk from dairy farmers shall be reported in lieu of those in producer milk; such report shall include a separate statement showing the respective amounts of skim milk and butterfat disposed of on routes in the marketing area as Class I milk and the quantity of reconstituted skim milk in such disposition.

* * * * *

4. Section 1101.32 is revised to read as follows:

§ 1101.32 Records and facilities.

Each handler shall keep adequate records of receipts and utilization of skim milk and butterfat and shall, during the usual hours of business, make available to the market administrator or his representative such records and facilities as will enable the market administrator to (a) verify the receipts and utilization of all skim milk and butterfat and, in case of errors or omissions, ascertain the correct figures; (b) weigh, sample, and test for butterfat content all milk and milk products (including filled milk) handled; (c) verify payment to producers; and (d) make such examination of operations, equipment, and facilities, as are necessary and essential to the proper administration of this subpart or any amendments thereto.

5. In § 1101.44, the introductory text of paragraph (c) and subparagraph (5) of paragraph (d) are revised to read as follows:

§ 1101.44 Transfers.

* * * * *

(c) As Class I milk, if transferred in bulk in the form of milk, filled milk, skim milk or cream or diverted to a nonpool plant that is neither an other order plant nor a producer-handler plant unless the requirements of subparagraphs (1) and (2) of this paragraph are met, in which case the skim milk and butterfat so transferred or diverted shall be classified in accordance with the assignment resulting from subparagraph (3) of this paragraph:

* * * * *

(d) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

6. In § 1101.46(a), subparagraphs (2), (3), (5), (6), and (8) and the introductory text of subparagraph (9) are revised to read as follows:

§ 1101.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the total pounds of skim milk in Class I milk the pounds of skim milk in receipts of packaged fluid milk products, except filled milk made from reconstituted skim milk, from an unregulated supply plant or the pounds of skim milk classified as Class I milk and transferred during the month to such nonpool plant, whichever is less;

(3) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (5) (v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or two percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

* * * * *

(5) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(6) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II but not in excess of such quantity:

(i) Receipts of fluid milk products from an unregulated supply plant, excluding a quantity equal to the pounds of skim milk subtracted pursuant to subparagraphs (2) and (5)(iv) of this paragraph:

(*a*) For which the handler requests Class II utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from pool plants of other handlers, and receipts in bulk from other order plants that were not subtracted pursuant to subparagraph (5) (v) of this paragraph; and

(ii) Receipts of fluid milk products in bulk from an other order plant that were not subtracted pursuant to subparagraph (5)(v) of this paragraph, in excess of similar transfers to such plant, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(8) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants, excluding a quantity equal to the pounds of skim milk subtracted pursuant to subparagraphs (2), (5)(iv), and (6)(i) of this paragraph;

(9) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (5)(v) and (6)(ii) of this paragraph:

* * * * *

7. Section 1101.81 is revised to read as follows:

§ 1101.81 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1101.82, 1101.84, 1101.91, and 1101.92, and out of which he shall make all payments pursuant to §§ 1101.83 and 1101.84: *Provided,* That payments due to any handler shall be offset by payments due from such handler.

8. In § 1101.89, paragraphs (a) and (d) are revised to read as follows:

§ 1101.89 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart, shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the act, a petition claiming such money.

9. In § 1101.91, paragraph (a) is revised and a new paragraph (c) is added and reads as follows:

§ 1101.91 Plants subject to other Federal orders.

* * * * *

(a) Any pool plant qualified pursuant to § 1101.9(a) which would be subject to the classification and pricing provisions of another order issued pursuant to the act unless the Secretary determines that more Class I milk, except filled milk, is disposed of from such plant on routes to retail or wholesale outlets in the Knoxville, Tennessee, marketing areas than is so disposed of in the marketing area regulated pursuant to such other order.

* * * * *

(c) Each handler operating a plant described in paragraph (a) of this section, if such plant is subject to the classification and pricing provisions of another order which provides for individual-handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

10. In § 1101.92, paragraphs (a) (1) (i) and (b) are revised to read as follows:

§ 1101.92 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1) (i) The obligation that would have been computed pursuant to § 1101.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and tranfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, excepted that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1101.70(e) and a credit in the amount specified in § 1101.82(b) (2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified below in this subparagraph.

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location (not to be less than the Class II price), and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the location of the nonpool plant less the value of such skim milk at the Class II price.

PART 1102—MILK IN THE FORT SMITH, ARK., MARKETING AREA

1. Section 1102.7 is revised to read as follows:

§ 1102.7 Approved plant.

"Approved plant" means any milk plant, except the plant of a producer-handler or a plant exempt pursuant to § 1102.61, approved by any health authority having jurisdiction in the marketing area from which fluid milk products other than filled milk are disposed of for fluid consumption in the marketing area on wholesale or retail routes (including plant stores).

2. Section 1102.8 is revised to read as follows:

§ 1102.8 Unapproved plant.

"Unapproved plant" means any milk or filled milk receiving, manufacturing or processing plant other than an approved plant. The following categories of unapproved plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Unregulated supply plant" means an unapproved plant which is not an other order plant nor a producer-handler plant and from which fluid milk products eligible for distribution in the marketing area for fluid consumption are moved during the month to an approved plant.

3. Section 1102.9 is revised to read as follows:

§ 1102.9 Handler.

"Handler" means:

(a) Any person in his capacity as the operator of a milk plant approved by any health authority having jurisdiction in the marketing area from which fluid milk products other than filled milk are disposed of for fluid consumption in the marketing area on wholesale or retail routes (including plant stores);

(b) Any cooperative association with respect to the milk of any producer which it causes to be diverted to an unapproved plant for the account of such cooperative association.

4. Section 1102.16 is revised to read as follows:

§ 1102.16 Fluid milk product.

"Fluid milk product" means the fluid form of milk, skim milk, buttermilk, flavored milk, flavored milk drinks, filled milk, cream, cultured sour cream and any mixture of cream and milk or skim milk (except bulk ice cream mix.) This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

5. A new § 1102.17 is added to read as follows:

§ 1102.17 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

6. In § 1102.33, paragraphs (b) and (d) are revised to read as follows:

§ 1102.33 Records and facilities.

* * * * *

(b) The weights and tests for butterfat and other content of all milk and milk products (including filled milk) handled;

* * * * *

(d) The pounds of skim milk and butterfat contained in or represented by all milk and milk products (including filled milk) on hand at the beginning and end of each month.

7. In § 1102.44, subparagraph (5) of paragraph (e) is revised to read as follows:

§ 1102.44 Transfers.

* * * * *

(e) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

8. In § 1102.46, subparagraphs (3), (4), and (6) of paragraph (a) are revised to read as follows:

§ 1102.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(3) Subtract in the order specified below the pound of skim milk remaining in each class, in series beginning with Class II the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established and receipts of fluid milk products from unidentified sources; and

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order; and

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants;

(4) Subtract in the order specified below, from the pounds of skim milk remaining in Class II but not in excess of such quantity the pounds of skim milk in each of the following:

(i) Receipts of fluid milk products from an unregulated supply plant, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph;

(*a*) For which the handler requests Class II utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from approved plants of other handlers, and receipts in bulk from other order plants;

(ii) Receipts of fluid milk products in bulk from an other order plant in excess of similar transfers to such plant, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(6) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in each of the following:

(i) Receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraphs (3)(iv) or (4)(i) of this paragraph;

Receipts of fluid milk products in bulk from other order plants that were not subtracted pursuant to subparagraph (4)(ii) of this paragraph;

* * * * *

9. Section 1102.61 is revised to read as follows:

§ 1102.61 Milk priced under other Federal orders.

In the case of any handler who the Secretary determines disposes of a greater portion of his fluid milk products, except filled milk, as Class I milk in another marketing area regulated by a milk marketing agreement or order issued pursuant to the act, the provisions of this part shall not apply except that:

(a) The handler shall, with respect to his total receipts of skim milk and butterfat make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

10. In § 1102.85, paragraphs (a) and (d) are revised to read as follows:

§ 1102.85 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of paragraphs (b) and (c) of this section, terminates 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the act, a petition claiming such money.

PART 1103—MILK IN THE MISSISSIPPI MARKETING AREA

1. Section 1103.8 is revised to read as follows:

§ 1103.8 Plant.

"Plant" means the land and buildings together with their surroundings, facilities and equipment whether owned or operated by one or more persons, constituting a single operating unit or establishment at which milk or milk products (including filled milk) are received and/or processed or packaged: *Provided,* That a separate establishment or facility used only for the purpose of transferring bulk milk from one tank truck to another tank truck, or only as a distributing depot for fluid milk products in transit for route disposition shall not be a plant under this definition.

2. In § 1103.11, paragraphs (a) and (b) are revised to read as follows:

§ 1103.11 Pool plant.

* * * * *

(a) A distributing plant, other than that of a producer-handler or one described in § 1103.61, from which during the month route disposition of fluid milk products, except filled milk, is not less than 50 percent of its total receipts of Grade A milk and the volume so disposed of in the marketing area is at least 20 percent of the total route disposition of fluid milk products, except filled milk, or a daily average during the month of 7,000 pounds, whichever is less;

(b) A supply plant from which a volume of fluid milk products, except filled milk, amounting to not less than 50 percent of the Grade A milk received at such plant from dairy farmers is transferred during the month to a distributing plant(s) from which a volume of Class I milk, except filled milk, amounting to not less than 50 percent of its receipts of Grade A milk from dairy farmers and from other plants is disposed of as route disposition during the month and the volume so disposed of in the marketing area is at least 20 percent of its total Class I route disposition (not including filled milk) or a daily average during the month of 7,000 pounds, whichever is less: *Provided,* That any plant which was a pool plant pursuant to this paragraph in each of the months of September through January shall be a pool plant in each of the following months of February through August in which it does not meet the shipping requirements unless written request is filed with the market administrator prior to the beginning of any such month for nonpool status for the remaining months through August; and

* * * * *

3. Section 1103.12 is revised to read as follows:

§ 1103.12 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are disposed of as route disposition in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant from which fluid milk products are moved to a pool plant during the month, but which is neither an other order plant nor a producer-handler plant.

4. Section 1103.14 is revised to read as follows:

§ 1103.14 Producer-handler.

"Producer-handler" means any person who operates a dairy farm and a distributing plant which, during the month, received no other source milk (except own production), producer milk, or fluid milk products from a pool plant: *Provided,* That such person establishes that the maintenance, care and management of all resources necessary to produce the entire volume of fluid milk products handled and all facilities necessary for operations as a handler are each the personal enterprise and risk of such person.

5. Section 1103.18 is revised to read as follows:

§ 1103.18 Fluid milk product.

"Fluid milk product" means all the skim milk (including reconstituted skim

milk and concentrated skim milk, other than bulk condensed) and butterfat in the form of milk, skim milk, buttermilk, flavored milk, flavored milk drinks, filled milk, eggnog, yogurt, cream (sweet or sour) and any mixture in fluid form of cream and skim milk or milk (except aerated cream, frozen storage cream, ice cream, ice cream mixes, frozen ice milk, ice milk mixes, frozen dessert and mixes, sterilized products contained in hermetically sealed cans, and any product which contains 6 percent or more nonmilk fat (or oil)): *Provided,* That when any such milk product is fortified with nonfat milk solids the amount of skim milk to be included within this definition shall be only that amount equal to the weight of skim milk in an equal volume of an unfortified product of the same nature and butterfat content.

6. A new § 1103.19a is added to read as follows:

§ 1103.19a Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

7. In § 1103.30, subparagraph (2) of paragraph (a) and paragraph (b) are revised to read as follows:

§ 1103.30 Reports of receipts and utilization.

* * * * *

(a) * * *

(2) Utilization of all skim milk and butterfat required to be reported pursuant to this section including a statement of the route disposition of fluid milk products outside the marketing area and a statement showing separately in-area and outside area route disposition of filled milk;

* * * * *

(b) Each handler specified in § 1103.13 (b) who operates a partially regulated distributing plant shall report as required in paragraph (a) of this section, except that receipts of Grade A milk from dairy farmers shall be reported in lieu of those in producer milk; such report shall include a separate statement showing Class I disposition on routes in the marketing area of each of the following: skim milk and butterfat, respectively in fluid milk products and the quantity thereof which is reconstituted skim milk;

* * * * *

8. In § 1103.33, paragraphs (b) and (c) are revised to read as follows:

§ 1103.33 Records and facilities.

* * * * *

(b) The weights and tests for butterfat and other content of all milk and milk products (including filled milk) handled;

(c) The pounds of skim milk and butterfat contained in or represented by all milk and milk products (including filled milk) on hand at the beginning and end of each month; and

* * * * *

9. In § 1103.44, subparagraph (5) of paragraph (d) is revised to read as follows:

§ 1103.44 Transfers.

* * * * *

(d) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

10. In § 1103.46, subparagraphs (2), (2–a), (3), (4), (5), (6), (7), and the introductory text of subparagraph (8) preceding subdivision (i) of paragraph (a) are revised to read as follows:

§ 1103.46 Allocation of skim milk and butterfat classification.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3) (v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(2–a) Subtract from the remaining pounds of skim milk in Class I milk, the pounds of skim milk in inventory of fluid milk products in packaged form on hand at the beginning of the month;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II:

(i) The pounds of skim milk in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3) (iv) of this paragraph, for which the handler requests Class II utilization, but not in excess of the pounds of skim milk remaining in Class II;

(ii) The pounds of skim milk remaining in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3) (iv) of this paragraph, which are in excess of the pounds of skim milk determined as follows:

(*a*) Multiply the pounds of skim milk remaining in Class I milk (exclusive of Class I transfers between pool plants of the same handler) at all pool plants of the handler by 1.25;

(*b*) Subtract from the result the sum of the pounds of skim milk at all such plants in producer milk, in receipts from other pool handlers and in receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3) (v) of this paragraph; and

(*c*) (*1*) Multiply any resulting plus quantity by the percentage that receipts of skim milk in fluid milk products from unregulated supply plants remaining at this plant is of all such receipts remaining at all pool plants of such handler, after any deductions pursuant to subdivision (i) of this subparagraph.

(*2*) Should such computation result in a quantity to be subtracted from Class II which is in excess of the pounds of skim milk remaining in Class II, the pounds of skim milk in Class II shall be increased to the quantity to be subtracted and the pounds of skim milk in Class I shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made;

(iii) The pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3) (v) of this paragraph, in excess of similar transfers to such plant, but not in excess of the pounds of skim milk remaining in Class II milk, if Class II utilization was requested by the operator of such plant and the handler; and

(iv) The pounds of skim milk in receipts of milk by diversion from an other order plant for which Class II utilization was requested by the receiving handler and by the diverting handler under the other order, but not in excess of the pounds of skim milk remaining in Class II milk;

(5) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in inventory of bulk fluid milk products on hand at the beginning of the month;

(6) Add to the remaining pounds of skim milk in Class II milk the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(7) (i) Subtract from the pounds of skim milk remaining in each class, pro

rata to the total pounds of skim milk remaining in each class in all pool plants of the receiving handler, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraph (3)(iv) or (4) (i) or (ii) of this paragraph;

(ii) Should such proration result in the amount to be subtracted from any class exceeding the pounds of skim milk remaining in such class in the pool plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made;

(8) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, in excess in each case of similar transfers to the same plant, that were not subtracted pursuant to subparagraph (3)(v) or (4)(iii) of this paragraph pursuant to the following procedure:

* * * * *

11. Section 1103.61 is revised to read as follows:

§ 1103.61 Plants subject to other Federal orders.

In the case of a handler in his capacity as the operator of a plant specified in paragraphs (a), (b), and (c) of this section the provisions of this part shall not apply except as specified in paragraphs (d) and (e):

(a) A plant meeting the requirements of § 1103.11(a) which also meets the pooling requirements of another Federal order, and from which the Secretary determines a greater quantity of Class I milk, except filled milk, is disposed of during the month as route dispositions in such other Federal order marketing area than is disposed of as route dispositions in this marketing area; except that if such plant was subject to all the provisions of this part in the immediately preceding month, it shall continue to be subject to all the provisions of this part until the third consecutive month in which a greater proportion of such Class I disposition is made in such other marketing area unless, notwithstanding the provisions of this paragraph, it is regulated under such other order;

(b) A plant meeting the requirements of § 1103.11(a) which also meets the pooling requirements of another Federal order on the basis of distribution in such other marketing area and from which, the Secretary determines a greater quantity of Class I milk, except filled milk, is disposed of during the month as route dispositions in this marketing area than is so disposed of in such other marketing area but which plant is nevertheless, fully regulated under such other Federal order; and

(c) A plant meeting the requirements of § 1103.11(b) which also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made during the month to plants regulated under such other order than are made to plants regulated under this part except during the months of February through August if such plant retains automatic pooling status under this part.

(d) Each handler operating a plant described in paragraph (a), (b), or (c) of this section shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such manner as the market administrator may require (in lieu of reports pursuant to §§ 1103.30 and 1103.31) and allow verification of such reports by the market administrator.

(e) Each handler operating a plant specified in paragraph (a) or (b) of this section, if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

12. In § 1103.62, paragraphs (a)(1)(i) and (b) are revised to read as follows:

§ 1103.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1)(i) The obligation that would have been computed pursuant to § 1103.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1103.70(e) and a credit in the amount specified in § 1103.97(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified below in this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk route dispositions in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location or the Class II price, whichever is higher and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

13. Section 1103.96 is revised to read as follows:

§ 1103.96 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all applicable payments made by handlers pursuant to §§ 1103.61, 1103.62, 1103.93 (a), and 1103.97, and out of which he shall make all applicable payments pursuant to §§ 1103.93(b) and 1103.98: *Provided,* That any payments due to any handler shall be offset by any payments due from such handler.

14. In § 1103.100, paragraphs (a) and (d) are revised to read as follows:

§ 1103.100 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of such producers, or if the obligation is payable to the market administrator, the account for which it is to be paid;

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an under payment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1104—MILK IN RED RIVER VALLEY MARKETING AREA

1. In § 1104.7, paragraph (c) is revised as follows:

§ 1104.7 Distributing plant.

(c) from which Class I milk, except filled milk, is disposed of during the month on routes in the marketing area in an amount greater than an average of 600 pounds per day.

2. Section 1104.8 is revised as follows:

§ 1104.8 Supply plant.

"Supply plant" means all the buildings, premises, and facilities of a plant from which fluid milk products, except filled milk, equal to not less than 50 percent of its receipts of milk from dairy farmers, who would be producers if this plant qualified as a pool plant, are shipped to a distributing plant during such month: *Provided,* That any plant which qualifies as a supply plant for each of the months of September through December shall, upon written application to the market administrator before January 31 of the following year, be designated as a supply plant for the months of January through August.

3. Section 1104.10 is revised as follows:

§ 1104.10 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant, except an other order plant or a producer-handler plant, from which fluid milk products are distributed on routes in the marketing area in consumer-type packages or dispenser units during the month.

(d) "Unregulated supply plant" means a nonpool plant from which fluid milk products are moved during the month to a pool plant qualified pursuant to § 1104.9 and which is not an other order plant nor a producer-handler plant.

4. Section 1104.13 is revised as follows:

§ 1104.13 Producer-handler.

"Producer-handler" means any person who produces milk and who operates a plant from which the disposition of Class I milk on routes in the marketing area does not exceed such person's own production and fluid milk products received from a pool plant regulated under either this Part or Part 1106 regulating the handling of milk in the Oklahoma Metropolitan marketing area.

5. Section 1104.15 is revised as follows:

§ 1104.15 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, flavored milk, flavored milk drinks, filled milk, cream or any mixture in fluid form of cream and milk or skim milk (except cultured sour cream, frozen storage cream, aerated cream products, ice cream and frozen dessert mix, evaporated or condensed milk, and sterilized products in hermetically sealed containers). This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

6. Section 1104.17 is revised as follows:

§ 1104.17 Route disposition.

"Route disposition" or "disposed of on routes" means any delivery (including any delivery by a vendor or disposition at a plant store) of fluid milk products, other than a delivery to a milk or filled milk plant.

7. A new § 1104.18 is added as follows:

§ 1104.18 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

8. In § 1104.30, paragraphs (a)(5) and (c) are revised as follows:

§ 1104.30 Reports of receipts and utilization.

* * * * *

(a) * * *

(5) The disposition of Class I products on routes wholly outside the marketing area and a statement showing separately in-area and outside area route disposition of filled milk;

* * * * *

(c) Each handler specified in § 1104.11 (b) who operates a partially regulated distributing plant shall report as required in paragraph (a) of this section, except that receipts in Grade A milk shall be reported in lieu of those in producer milk; such report shall include a separate statement showing the respective amounts of skim milk and butterfat disposed of in the marketing area as Class I milk on routes with such in-area sales of reconstituted skim milk in fluid milk products shown separately.

9. Section 1104.33 is revised as follows:

§ 1104.33 Records and facilities.

Each handler shall maintain and make available to the market administrator or his representative during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts and utilization of all skim milk and butterfat handled in any form;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream, and milk products (including filled milk) handled;

(c) Payments to producers and cooperative associations; and

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and milk products (including filled milk) on hand at the beginning and end of each month.

10. In § 1104.44 paragraph (e)(5) is revised as follows:

§ 1104.44 Transfers.

* * * * *

(e) * * *

(5) For purposes of this paragraph (e), if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

11. In § 1104.46, subparagraphs (2), (3), (4), (7), and the introductory text of subparagraph (8) preceding subdivision (i) of paragraph (a) are revised as follows:

§ 1104.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources; and

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II, but not in excess of such quantity, the pounds of skim milk in each of the following:

(i) Receipts of fluid milk products from an unregulated supply plant, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph:

(*a*) For which the handler requests Class II utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from other pool plants, and receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph;

(ii) Receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plant, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraph (3)(iv) or (4)(i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraph (3)(v) or (4)(ii) of this paragraph:

* * * * *

12. Section 1104.61 is revised as follows:

§ 1104.61 Plants subject to other Federal orders.

The provisions of this part shall not apply with respect to the operation of any plant specified in paragraph (a), (b), or (c) of this section except as specified in paragraphs (d) and (e).

(a) A distributing plant meeting the requirements of § 1104.9 which also meets the pooling requirements of another Federal order and from which, the Secretary determines, a greater quantity of Class I milk, except filled milk, was disposed of during the month on routes in such other Federal order marketing area than was so disposed of in this marketing area, except that if such plant was subject to all the provisions of this part in the immediately preceding month, it shall continue to be subject to all the provisions of this part until the third consecutive month in which a greater proportion of its Class I disposition, except filled milk, is made in such other marketing area unless, notwithstanding the provisions of this paragraph, it is regulated under such other order. On the basis of a written application made by the plant operator at least 15 days prior to the date for which a determination of the Secretary is to be effective, the Secretary may determine that the Class I dispositions in the respective marketing areas to be used for purposes of this paragraph shall excluded (for a specified period of time) Class I disposition made under limited term contracts to governmental bases and institutions.

(b) A distributing plant meeting the requirements of § 1104.9 which also meets the pooling requirements of another Federal order and from which, the Secretary determines, a greater quantity of Class I milk, except filled milk was disposed of during the month on routes in this marketing area than was so disposed of in such other Federal order marketing area but which plant is, nevertheless, fully regulated under such other Federal order.

(c) A supply plant meeting the requirements of § 1104.9 which also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made during the month to plants regulated under such other order than are made to plants regulated under this part, except during the months of January through August if such plant retains automatic pooling status under this part.

(d) Each handler operating a plant described in paragraph (a), (b) or (c) of this section shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(e) Each handler operating a plant specified in paragraph (a), if such plant is subject to the classification and pricing provisions of another order which provides for individual-handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of the receipts of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

13. In § 1104.62, paragraphs (a)(1)(i) and (b) are revised as follows:

§ 1104.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1) (i) The obligation that would have been computed pursuant to § 1104.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1104.70(e) and a credit in the amount specified in § 1104.82(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes (other than to pool plants) in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location or the Class II price, whichever is higher and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

14. Section 1104.81 is revised as follows:

§ 1104.81 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund," into which he shall deposit all payments made by handlers pursuant to §§ 1104.61, 1104.62, 1104.82, and 1104.84, and out of which he shall make all payments to handlers pursuant to §§ 1104.83 and 1104.84: *Provided,* That any payments due to any handler may be offset by any payments due from such handler.

15. In § 1104.87, paragraphs (a) and (d) are revised as follows:

§ 1104.87 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator the account for which it is to be paid;

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler, if a refund of such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1106—MILK IN OKLAHOMA METROPOLITAN MARKETING AREA

1. In § 1106.9, paragraphs (a) and (b) are revised to read as follows:

§ 1106.9 Pool plant.

* * * * *

(a) A distributing plant (other than that of a producer-handler or one which is exempt pursuant to § 1106.61) from which the following percentages of the receipts described in § 1106.7(c) are disposed of during the month as follows:

(1) 50 percent as Class I milk in the form of fluid milk products, except filled milk, and

(2) 5 percent as fluid milk products, except filled milk, on routes in the marketing area.

(b) A supply plant from which an amount equal to 50 percent of the receipts described in § 1106.8 is shipped during the month as fluid milk products, except filled milk, to a plant described in paragraph (a) of this section. Any supply plant that qualifies as a pool plant during each of the months of September through December shall be a pool plant for the following months of January through August except that, if the operator of such plant so requests the market administrator in writing, its pool plant status shall be terminated the first day of the month following receipt of such notification.

* * * * *

2. Section 1106.10 is revised as follows:

§ 1106.10 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in an order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products are distributed on routes in the marketing area in consumer-type packages or dispenser units during the month.

(d) "Unregulated supply plant" means a nonpool plant, except an other order plant or a producer-handler plant, from which fluid milk products are moved during the month to a pool plant qualified pursuant to § 1106.9.

3. Section 1106.15 is revised as follows:

§ 1106.15 Producer-handler.

"Producer-handler" means any person who produces milk and operates a plant which meets the standards in § 1106.7(a) from which Class I milk is disposed of on routes in the marketing area, but who receives no milk from producers or other dairy farmers, and whose disposition of Class I milk does not exceed his own production and fluid milk products received from pool plants.

4. Section 1106.16 is revised as follows:

§ 1106.16 Route.

"Route" means any delivery (including any delivery by a vendor or disposition at a plant store) of fluid milk products other than a delivery in bulk to a milk or filled milk plant.

5. Section 1106.17 is revised as follows:

§ 1106.17 Fluid milk products.

"Fluid milk products" means milk, skim milk, buttermilk, flavored milk, flavored milk drinks, filled milk, cream (except cream stored and frozen), cultured sour cream, and any mixture in fluid form of cream and milk or skim milk (except bulk ice cream mix). This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

6. A new § 1106.19 is added as follows:

§ 1106.19 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

7. Section 1106.30 is revised as follows:

§ 1106.30 Reports of receipts and utilization.

On or before the 7th day after the end of each month each handler, except a producer-handler, shall report to the market administrator for each accounting period in the month in detail on forms prescribed by the market administrator as follows:

(a) The quantities of skim milk and butterfat contained in milk received from producers.

(b) The quantities of skim milk and butterfat contained in (or used in the production of) receipts of fluid milk products from other handlers;

(c) The quantities of skim milk and butterfat contained in receipts of other source milk (except Class II products disposed of in the form in which received without further processing or packaging by the handler);

(d) The utilization of all skim milk and butterfat required to be reported pursuant to this section;

(e) The disposition of Class I products on routes wholly outside the marketing area and a statement showing separately in-area and outside area route disposition of filled milk;

(f) The quantities of skim milk and butterfat contained in opening and closing inventories of fluid milk products separately in bulk and in packaged form; and

(g) Each handler specified in § 1106.11(b) who operates a partially regulated distributing plant shall report as required in this section, except that receipts in Grade A milk shall be reported in lieu of those in producer milk; such

report shall include a separate statement showing the respective amounts of skim milk and butterfat disposed of in the marketing area as Class I milk on routes with such in-area sales of reconstituted skim milk in fluid milk products shown separately; and

(h) Such other information with respect to receipts and utilization as the market administrator may prescribe.

8. Section 1106.33 is revised as follows:

§ 1106.33 Records and facilities.

Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to: (a) The receipts and utilization of all receipts of producer milk and other source milk; (b) the weights and tests for butterfat and other content of all milk, skim milk, cream, and milk products (including filled milk) handled; (c) payments to producers and cooperative association; and (d) the pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and milk products (including filled milk) on hand at the beginning and end of each accounting period.

9. In § 1106.44, paragraph (e)(5) is revised as follows:

§ 1106.44 Transfers.

* * * * *

(e) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

10. In § 1106.46, paragraph (a) is revised as follows:

§ 1106.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk classified as Class II pursuant to § 1106.41(b)(5);

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining of 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(2-a) Subtract from the remaining pounds of skim milk in Class I milk, the pounds of skim milk in inventory of fluid milk products in packaged form on hand at the beginning of the accounting period;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II, but not in excess of such quantity, the pounds of skim milk in each of the following:

(i) Receipts of fluid milk products from an unregulated supply plant, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph;

(*a*) For which the handler requests Class II utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from pool plants of other handlers, and receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph;

(ii) Receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plant, if Class II utilization was requested by the operator of such plant and the handler;

(5) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in inventory of bulk fluid milk products on hand at the beginning of the accounting period;

(6) Add to the remaining pounds of skim milk in Class II milk the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraphs (3)(iv) or (4)(i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (3)(v) or (4)(ii) of this paragraph:

(i) In series beginning with Class II, the pounds determined by multiplying the pounds of such receipts by the larger of the percentage of estimated Class II utilization of skim milk announced for the month by the market administrator pursuant to § 1106.22(1) or the percentage that Class II utilization remaining is of the total remaining utilization of skim milk of the handler; and

(ii) From Class I, the remaining pounds of such receipts;

(9) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk received in fluid milk products from other handlers according to the classification assigned pursuant to § 1106.44(a);

(10) If the pounds of skim milk remaining in both classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class II. Any amount so subtracted shall be known as "overage";

11. Section 1106.61 is revised as follows:

§ 1106.61 Plants subject to other Federal orders.

The provisions of this part shall not apply with respect to the operation of any plant specified in paragraph (a), (b), or (c) of this section except as specified in paragraphs (d) and (e):

(a) A distributing plant meeting the requirements of § 1106.9 which also meets the pooling requirements of another Federal order and from which a greater quantity of Class I milk, except filled milk, was disposed of during the month on routes in such other Federal order marketing area than was so disposed of in this marketing area, except that if such plant was subject to all the provisions of this part in the immediately preceding month, it shall continue to be subject to all the provisions of this part until the third consecutive month in which a greater proportion of its Class I disposition, except filled milk, is made in such other marketing area unless, notwithstanding the provisions of this paragraph, it is regulated under such other order. On the basis of a written application made by the plant operator at least 15 days prior to the date for which a determination of the Secretary is to be effective, the Secretary may determine that the Class I dispositions in the respective marketing areas to be used for purposes of this paragraph shall exclude (for a specified period of time) Class I disposition made under limited term contracts to governmental bases and institutions.

(b) A distributing plant meeting the requirements of § 1106.9 which also meets the pooling requirements of another Federal order and from which a greater quantity of Class I milk, except filled milk, was disposed of during the month on routes in this marketing area than was so disposed of in such other Federal

order marketing area but which plant is nevertheless, fully regulated under such other Federal order;

(c) A supply plant meeting the requirements of § 1106.9 which also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made during the month to plants regulated under such other order than are made to plants regulated under this part, except during the months of January through August if such plant retains automatic pooling status under this part.

(d) Each handler operating a plant described in paragarph (a), (b), or (c) of this section shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(e) Each handler operating a plant specified in paragraph (a), if such plant is subject to the classification and pricing provisions of another order which provides for individual-handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of the receipts of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plants on routes in marketing areas regulated by two or more market pool orders the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

12. In § 1106.62 paragraphs (a) (1) (i) and (b) are revised to read as follows:

§ 1106.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1) (i) The obligation that would have been computed pursuant to § 1106.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the uniform price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1106.70(e) and a credit in the amount specified in § 1106.84(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes (other than to pool plants) in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location or the Class II price, whichever is higher and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

13. Section 1106.63 is revised as follows:

§ 1106.63 Governmental agencies.

A plant owned and operated by a governmental agency or establishment which processes or packages milk or filled milk distributed in the marketing area, shall be exempt from all provisions of this part. Fluid milk products received at a pool plant from such agencies shall be treated on the same basis as though received from a producer-handler. Fluid milk products (including diverted milk) disposed of by a handler to such agencies shall be classified as Class I milk.

In § 1071.51, paragraph (b) is revised to read as follows:

14. Section 1106.83 is revised as follows:

§ 1106.83 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1106.61, 1106.62, 1106.84 and 1106.86, and out of which he shall make all payments to handlers pursuant to §§ 1106.85 and 1106.86, inclusive.

15. In § 1106.89, paragraphs (a) and (d) are revised as follows:

§ 1106.89 Termination of obligation.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or setoff) by the market administrator was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1108—MILK IN THE CENTRAL ARKANSAS MARKETING AREA

1. Section 1108.7 is revised to read as follows:

§ 1108.7 Approved plant.

"Approved plant" means all of the buildings, premises and facilities of a plant (a) in which milk or skim milk is processed or packaged and from which any fluid milk product is disposed of during the month on routes (including routes operated by vendors and sales through plant stores) to wholesale or retail outlets (except pool plants) located in the marketing area, or (b) from which milk or skim milk is shipped during the month to a distributing plant.

2. Section 1108.8 is revised to read as follows:

§ 1108.8 Distributing plant.

"Distributing plant" means an approved plant from which Class I milk, except filled milk, equal to not less than

50 percent of its receipts of producer milk, milk from a cooperative association in its capacity as a handler pursuant to § 1108.12(c), and fluid milk products, except filled milk, from other pool plants is disposed of during the month, on routes or through plant stores, to wholesale or retail outlets (except pool plants) and from which Class I milk, except filled milk, equal to not less than 10 percent of such receipts is disposed of during the month on routes or through plant stores, to wholesale or retail outlets (except pool plants) located in the marketing area.

3. In § 1108.9, paragraph (a) is revised to read as follows:

§ 1108.9 Supply plant.

* * * * *

(a) An approved plant from which fluid milk products, except filled milk, in an amount not less than 50 percent of its receipts of producer milk and milk received from a cooperative association in its capacity as a handler pursuant to § 1108.12(c) is moved during such month to distributing plants: *Provided*, That any such plant which qualifies as a supply plant for each of the months during the period October through January shall upon written application to the market administrator, on or before the end of such period, be designated as a supply plant for the following months of February through September; or

* * * * *

4. Section 1108.11 is revised to read as follows:

§ 1108.11 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant from which fluid milk products are shipped during the month to a pool plant qualified pursuant to § 1108.10 and which is not an other order plant nor a producer-handler plant.

5. A new paragraph (d) is added to § 1108.12 to read as follows:

§ 1108.12 Handler.

* * * * *

(d) Any person who operates a partially regulated distributing plant.

6. Section 1108.16 is revised to read as follows:

§ 1108.16 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, flavored milk, flavored milk drinks, filled milk, yogurt, cream, or any mixture in fluid form of milk, skim milk and cream except frozen cream, aerated cream, ice cream mix, eggnog and sterilized products in hermetically sealed containers. Sour cream mixtures to which cheese or any food substance other than a milk product has been added shall be considered as a fluid milk product only if disposed of under a Grade A label. This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

7. A new § 1108.21 is added to read as follows:

§ 1108.21 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat or oil).

8. In § 1108.30, paragraphs (b) and (c) are revised to read as follows:

§ 1108.30 Reports of sources and utilization.

* * * * *

(b) The utilization of all skim milk and butterfat required to be reported pursuant to paragraph (a) of this section, including separate statements as to the disposition of Class I milk outside the marketing area, in-area and outside area route disposition of filled milk, and inventories of fluid milk products on hand at the end of the month.

(c) Each handler who operates a partially regulated distributing plant shall report as required in this section, except that receipts in Grade A milk shall be reported in lieu of those in producer milk;

Such report shall include a separate statement showing Class I disposition on routes in the marketing area of each of the following: skim milk and butterfat, respectively, in fluid milk products and the quantity thereof which is reconstituted skim milk.

9. In § 1108.44, subparagraph (5) of paragraph (g) is revised to read as follows:

§ 1108.44 Transfers.

* * * * *

(g) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

10. In § 1108.46, subparagraph (2), (3), (4), (7), and the introductory text of subparagraph (8) preceding subdivision (i) of paragraph (a) are revised to read as follows:

§ 1108.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3) (v) of this paragraph as follows:

(i) From Class II milk, the lesser of the pounds remaining or two percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources; and

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II, but not in excess of such quantity, the pounds of skim milk in each of the following:

(i) Receipts of fluid milk products from an unregulated supply plant, that were not subtracted pursuant to subparagraph (3) (iv) of this paragraph:

(*a*) For which the handler requests Class II utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from other pool plants, from cooperative associations as handlers pursuant to § 1108.12(c), and receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3) (v) of this paragraph;

(ii) Receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3) (v) of this paragraph, in excess of similar transfers to such plant, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim

milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraphs (3)(iv) or (4)(i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (3)(v) or (4)(ii) of this paragraph:

* * * * *

11. Section 1108.61 is revised to read as follows:

§ 1108.61 Plants subject to other Federal orders.

A plant specified in paragraphs (a) or (b) of this section shall be a nonpool plant for purposes of this part except as specified in paragraphs (c) and (d).

(a) Any distributing plant which would otherwise be subject to the classification and pricing provisions of another order issued pursuant to the act, unless a greater volume of Class I milk, except filled milk, was disposed of from such plant during the six months period immediately preceding to retail or wholesale outlets (except pool plants or nonpool plants) in the Central Arkansas marketing area than in the marketing area regulated pursuant to such other order.

(b) Any supply plant which would otherwise be subject to the classification and pricing provisions of another order issued pursuant to the act, unless such plant qualified as a pool plant for each of the preceding months of August through January.

(c) The operator of a plant specified in paragraph (a) or (b) of this section shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(d) Each handler operating a plant specified in paragraph (a) of this section, if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area.

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

12. In § 1108.62, paragraphs (a)(1)(i) and (b) are revised to read as follows:

§ 1108.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1)(i) The obligation that would have been computed pursuant to § 1108.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1108.70(e) and a credit in the amount specified in § 1108.82(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified below in this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location (not to be less than the Class II price) and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

13. Section 1108.81 is revised to read as follows:

§ 1108.81 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1108.61, 1108.62, 1108.82, and 1108.84, and out of which he shall make all payments pursuant to §§ 1108.83 and 1108.84: *Provided,* That any payments due to any handler shall be offset by any payments due from such handler.

14. In § 1108.87, paragraph (a) is revised to read as follows:

§ 1108.87 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat with respect to which the obligation exists were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

PART 1120—MILK IN LUBBOCK-PLAINVIEW, TEX., MARKETING AREA

1. Section 1120.7 is revised as follows:

§ 1120.7 Fluid milk product.

"Fluid milk product" means all the skim milk (including reconstituted skim milk) and butterfat in the form of milk, skim milk, buttermilk, concentrated milk, fortified milk or skim milk, flavored milk drinks, filled milk, cream except aerated cream products, cultured sour cream and sour cream products labeled Grade A, and any mixture of cream and milk in fluid form except ice cream and other frozen dessert mixes, evaporated or condensed milk, and sterilized products packaged in hermetically sealed containers. This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

2. Section 1120.9 is revised as follows:

§ 1120.9 Plant.

"Plant" means the land, buildings together with their surroundings, facilities and equipment, whether owned or operated by one or more persons, constituting a single operating unit or establishment at which milk or milk products including filled milk) are received from dairy farmers or processed or packaged:

Provided, That a separate establishment used only for the purpose of transferring bulk milk from one tank truck to another tank truck, or only as a distribution depot for fluid milk products in transit on routes shall not be a plant under this definition.

3. Section 1120.12 is revised as follows:

§ 1120.12 Pool plant.

"Pool plant" means:

(a) A distributing plant, other than the plant of a producer-handler, from which a volume of Class I milk, except filled milk, not less than 50 percent of the Grade A milk received at such plant from dairy farmers and from a cooperative association(s) in its capacity as a handler pursuant to § 1120.17(c)(2) is disposed of during the month on routes unless the volume so disposed of in the marketing area is less than 15 percent of such receipts or less than 1500 pounds on a daily average: *Provided,* That if a portion of such plant, physically apart from the Grade A portion of such a plant, is operated separately and is not approved by any health authority for the receiving, transferring, processing or packaging of any fluid milk product for Grade A disposition, it shall not be considered to be a part of such pool plant pursuant to this paragraph;

(b) A supply plant from which a volume of fluid milk products, except filled milk, not less than 50 percent of the Grade A milk received at such plant from dairy farmers and from a cooperative association(s) in its capacity as a handler pursuant to § 1120.17(a)(2) is transferred during the month to a distributing plant from which a volume of Class I milk, except filled milk, not less than 50 percent of its receipts of Grade A milk from dairy farmers, cooperative associations, and from other plants is disposed of on routes during the month and the volume so disposed of in the marketing area is at least 15 percent of such receipts or a daily average of 1500 pounds, whichever is less: *Provided,* That if a portion of such supply plant, physically apart from the Grade A portion of such plant, is operated separately and is not approved by any health authority for the receiving, transferring, processing or packaging of any fluid milk product for Grade A disposition, it shall not be considered to be part of such pool plant pursuant to this paragraph: *And provided further,* That any plant which was a pool plant pursuant to this paragraph in each of the months of September through November shall be a pool plant for the following months of March through June, unless written application is filed with the market administrator on or before the first day of any such months for designation as a nonpool plant for the remaining months through June.

4. Section 1120.13 is revised as follows:

§ 1120.13 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means any nonpool plant from which fluid milk products are moved to a pool plant during the month, but which is neither an other order plant nor a producer-handler plant.

5. Section 1120.18 is revised as follows:

§ 1120.18 Producer-handler.

"Producer-handler" means any person who operates a dairy farm and a distributing plant and whose only source of supply for Class I milk is his own farm production and transfers from pool plants: *Provided,* That such person furnishes satisfactory proof to the market administrator that the maintenance, care and management of all dairy animals and other resources necessary to produce the entire amount of fluid milk products handled (excluding transfers from pool plants) and the operation of the plant are each the personal enterprises of and at the personal risks of such person.

6. A new § 1120.19 is added as follows:

§ 1120.19 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

7. Section 1120.30 is revised as follows:

REPORTS, RECORDS AND FACILITIES

§ 1120.30 Reports of receipts and utilization.

(a) On or before the eighth day after the end of each month each cooperative association in its capacity as a handler pursuant to § 1120.17(c) (1) and (2) and each handler with respect to each of his pool plants shall report to the market administrator for such month and for each accounting period in such month elected pursuant to § 1120.34, in the detail and on forms prescribed by the market administrator, as follows:

(1) The quantities of skim milk and butterfat contained in:

(i) Receipts of producer milk (including such handler's own farm production);

(ii) Receipts of fluid milk products from other pool plants and from cooperative associations;

(iii) Receipts of other source milk; and

(iv) Inventories of fluid milk products on hand at the beginning and at the end of such month;

(2) The utilization of all skim milk and butterfat required to be reported by this part, including a statement showing separately in-area and outside area route disposition of filled milk;

(b) Each handler specified in § 1120.17 (b) who operates a partially regulated distributing plant shall report as required in paragraph (a) of this section, except that receipts of Grade A milk from dairy farmers shall be reported in lieu of those of producer milk; such report shall include a separate statement showing the respective amounts of skim milk and butterfat disposed of on routes in the marketing area as Class I milk with such in-area disposition of reconstituted skim milk in fluid milk products shown separately; and

(c) Each handler operating a nonpool supply plant shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

8. Section 1120.34 is revised as follows:

§ 1120.34 Accounting periods.

A handler may account for receipts, utilization and classification of skim milk and butterfat at any of his pool plants for two periods within a month, each period not to be less than 7 days, in the same manner as for a month if he provides to the market administrator in writing not later than 24 hours prior to the end of an accounting period notification of his intention to use two accounting periods.

9. In § 1120.44, paragraph (e)(5) is revised as follows:

§ 1120.44 Transfers.

* * * * *

(e) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

10. In § 1120.46, subparagraphs (2), (3), (4), (7), and the introductory text of subparagraph (8) preceding subdivision (i) of paragraph (a) are revised as follows:

§ 1120.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or two percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established and receipts of fluid milk products from unidentified sources; and

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants whch are regulated under an order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II:

(i) The pounds of skim milk in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3) (iv) of this paragraph, for which the handler requests Class II utilization, but not in excess of the pounds of skim milk remaining in Class II;

(ii) The pounds of skim milk remaining in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3) (iv) of this paragraph, which are in excess of the pounds of skim milk determined as follows:

(*a*) Multiply the pounds of skim milk remaining in Class I milk (excluding Class I transfers between pool plants of the handler) at all pool plants of the handler by 1.25;

(*b*) Subtract from the result the sum of the pounds of skim milk at all such plants in producer milk, in receipts from other pool plants and from a cooperative association in its capacity as a handler pursuant to § 1120.17(c), and in receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3) (v) of this paragraph; and

(*c*) (*1*) Multiply any resulting plus quantity by the percentage that receipts of skim milk in fluid milk products from unregulated supply plants remaining at this plant is of all such receipts remaining at all pool plants of such handler, after any deductions pursuant to subdivision (i) of this subparagraph.

(*2*) Should such computation result in a quantity to be subtracted from Class II which is in excess of the pounds of skim milk remaining in Class II, the pounds of skim milk in Class II shall be increased to the quantity to be subtracted and the pounds of skim milk in Class I shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made.

(iii) The pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3) (v) of this paragraph, in excess of similar transfers to such plant, but not in excess of the pounds of skim milk remaining in Class II milk, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(7) (i) Subtract from the pounds of skim milk remaining in each class, pro rata to the total pounds of skim milk remaining in each class in all pool plants of the receiving handler, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraph (3) (iv), (4) (i) or (ii) of this paragraph;

(ii) Should such proration result in the amount to be subtracted from any class exceeding the pounds of skim milk remaining in such class in the pool plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case the utilization of milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made;

(8) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, in excess in each case of similar transfers to the same plant, that were not subtracted pursuant to subparagraph (3) (v) or (4) (iii) of this paragraph pursuant to the following procedure:

* * * * *

11. Section 1120.61 is revised as follows:

§ 1120.61 Plants subject to other Federal orders.

The provisions of this part shall not apply with respect to the operation of any plant specified in paragraph (a) or (b) of this section except as specified in paragraphs (c) and (d):

(a) A plant meeting the requirements of § 1120.12(a) which also meets the pooling requirements of another Federal order and from which, the Secretary determines, a greater quantity of Class I milk, except filled milk, is disposed of during the month on routes in such other Federal order marketing area than was disposed of on routes in this marketing area, except that if such plant was subject to all the provisions of this order in the immediately preceding month, it shall continue to be subject to all the provisions of this order until the third consecutive month in which a greater proportion of its Class I route disposition, except filled milk, is made in such other marketing area, unless notwithstanding the provisions of this paragraph it is regulated under such other order;

(b) A plant meeting the requirements of § 1120.12(a) which also meets the pooling requirements of another Federal order on the basis of route distribution in such other marketing area and from which, the Secretary determines, a greater quantity of Class I milk, except filled milk, is disposed of during the month on routes in this marketing area than is disposed of in such other marketing area but which plant is fully regulated under such other Federal order.

(c) Each handler operating a plant described in paragraph (a) or (b) of this section shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(d) Each handler operating a plant specified in paragraph (a), if such plant is subject to the classification and pricing provisions of another order which provides for individual-handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of the receipts of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

12. In § 1120.62, paragraphs (a) (1) (i) and (b) are revised as follows:

§ 1120.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1) (i) The obligation that would have been computed pursuant to § 1120.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective

order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1120.70(e) and a credit in the amount specified in § 1120.82 (b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location or the Class II price, whichever is higher and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

13. Section 1120.63 is revised as follows:

§ 1120.63 State institutions.

A State owned and operated institution or establishment which processes or packages fluid milk products distributed solely on its premises or those of other State institutions or establishments shall be exempt from all provisions of this part. Fluid milk products received at a pool plant from such institutions shall be treated on the same basis as though received from a producer-handler. Fluid milk products disposed of by a handler to such institutions shall be classified on the same basis as though disposed of to a producer-handler.

14. Section 1120.81 is revised as follows:

§ 1120.81 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" in which he shall deposit all payments made by handlers pursuant to §§ 1120.61, 1120.62, 1120.82, and 1120.84, subject to the provisions of § 1120.87, and out of which he shall make all payments pursuant to §§ 1120.83 and 1120.84: *Provided,* That payments due to any handler shall be offset by any payment due from such handler.

15. In § 1120.88, paragraphs (a) and (b) are revised as follows:

§ 1120.88 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part, except as provided in paragraphs (b) and (c) of this section, shall terminate 2 years after the last day of the month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of such producer(s) or cooperative association, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the last day of the month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the last day of the month during which the payment (including deduction or set off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler within the applicable period of time files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1121—MILK IN THE SOUTH TEXAS MARKETING AREA

1. Part 1121.7 is revised to read as follows:

§ 1121.7 Plant.

"Plant" means the land, buildings, facilities, and equipment constituting a single operating unit or establishment at which milk or milk products (including filled milk) are received, processed and/or packaged. Separate facilities used only as a reload point for transferring bulk milk from one tank truck to another shall not be a plant under this definition if the milk transferred at such facilities can be identified as receipts from specific farmers until the milk is received at a plant. Facilities used only as a distribution point for storing fluid milk products in transit on routes shall not be a plant under this definition.

2. Section 1121.9 is revised to read as follows:

§ 1121.9 Supply plant.

"Supply plant" means any plant approved by an appropriate health authority to supply fluid milk for distribution as Grade A milk in the marketing area and from which fluid milk products are moved to a distributing plant.

3. In § 1121.10, paragraphs (a) and (b) are revised to read as follows:

§ 1121.10 Pool plant.

"Pool plant" means:

(a) Any distributing plant, except a producer-handler plant or an other order plant, from which during the month:

(1) The disposition of fluid milk products, except filled milk, on routes within the marketing area is 10 percent or more of the receipts of Grade A milk at such plant; and

(2) The total disposition of fluid milk products, except filled milk, on routes is 50 percent or more of the receipts of Grade A milk at such plant;

(b) A supply plant:

(1) During any month in which 50 percent or more of the receipts of Grade A milk from dairy farmers and handlers pursuant to § 1121.12(d) at such plant is moved as fluid milk products, except filled milk, in bulk to pool distributing plants; or

(2) During each of the months of January through August, if such plant was a pool plant pursuant to subparagraph (1) of this paragraph during each of the immediately preceding months of September through December, unless the operator of such plant has filed with the market administrator before the first day of any month written request that such plant not be a pool plant for each month through August during which it does not otherwise qualify as a pool plant; or

* * * * *

4. In § 1121.11, the introductory text and paragraphs (c) and (d) are revised to read as follows:

§ 1121.11 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

* * * * *

(c) "Unregulated supply plant" means a nonpool plant from which fluid milk products are moved to a pool plant during the month but which is neither an other order plant nor a producer-handler plant.

(d) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes (other than to pool plants) in the marketing area during the month.

5. Section 1121.15 is revised to read as follows:

§ 1121.15 Producer-handler.

"Producer-handler" means any person who:

(a) Produces milk and operates a distributing plant;

(b) Receives no milk from other dairy farmers;

(c) Disposes of no other source milk (except that represented by nonfat solids used in the fortification of fluid milk products) as Class I milk;

(d) Receives from pool plants not more than a total of 5,000 pounds of fluid milk products during the month or 5 percent of his Class I disposition, whichever is less; and

(e) Furnishes satisfactory proof to the market administrator that the maintenance, care and management of all dairy animals and other resources necessary to produce the entire amount of fluid milk handled (excluding transfers from pool plants) and the operation of the plant are each the personal enterprise of and at the personal risk of such person.

6. Section 1121.16 is revised to read as follows:

§ 1121.16 Fluid milk products.

"Fluid milk products" mean milk, skim milk, buttermilk, filled milk, flavored milk, flavored milk drinks; sweet cream, curtured sour cream and sour cream products labeled Grade A; any mixture in fluid form of milk or skim milk and cream; concentrated milk or skim milk. Eggnog, frozen dessert mixes, yogurt, aerated cream products, evaporated milk, condensed milk or skim milk and sterilized products in hermetically sealed metal or glass containers shall not be fluid milk products pursuant to this section. This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

7. Section 1121.18 is revised to read as follows:

§ 1121.18 Route disposition.

"Route disposition", or "disposed of on routes", means any delivery (including any delivery by a vendor or disposition at a plant store) of fluid milk products, other than a delivery to a plant.

8. A new § 1121.19a is added to read as follows:

§ 1121.19a Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

9. In § 1121.22, paragraph (g) is revised to read as follows:

§ 1121.22 Duties.

* * * * *

(g) Verify all reports and payments of each handler by audit of such handler's records and the records of any other handler or person upon whose disposition such handler claims classification of skim milk and butterfat and by such investigation as the market administrator deems necessary;

* * * * *

10. In § 1121.30, paragraphs (a)(3) and (c) are revised to read as follows:

§ 1121.30 Reports of receipts and utilization.

* * * * *

(a) * * *

(3) The utilization or disposition of all quantities required to be reported, showing separately:

(i) Total route disposition, except filled milk,

(ii) Route disposition in the marketing area showing filled milk disposition separately;

(iii) Transfers to other pool plants;

(iv) Transfers to other order plants;

(v) Transfers to nonpool plants; and

(vi) Diversion to nonpool plants.

* * * * *

(c) Each handler operating a partially regulated distributing plant shall report as required in paragraph (a) of this section except that receipts of Grade A milk from dairy farmers shall be reported in lieu of receipts of producer milk. Such report shall include a separate statement showing Class I disposition on routes in the marketing area of each of the following: skim milk and butterfat, respectively, in fluid milk products and the quantity thereof which is reconstituted skim milk.

11. In § 1121.32, paragraph (b) is revised to read as follows:

§ 1121.32 Other reports.

* * * * *

(b) Each handler operating an other order plant with route disposition in the marketing area shall report such disposition (showing filled milk disposition separately) to the market administrator on or before the seventh day after the end of the month.

12. In § 1121.33, paragraph (b) is revised to read as follows:

§ 1121.33 Records and facilities.

* * * * *

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream and milk products (including filled milk) handled;

* * * * *

13. In § 1121.46, paragraph (a) (2), (4), (5), (8), and (9) is revised to read as follows:

§ 1121.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (4)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

* * * * *

(4) Subtract in the order specified below from the pounds of skim milk remaining in each class in series beginning with Class II milk, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal order or from a plant exempt pursuant to § 1121.62;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(5) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II milk but not in excess of such quantity:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant, that were not subtracted pursuant to subparagraph (4)(iv) of this paragraph;

(a) For which the handler requests Class II milk utilization; or

(b) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from other pool plants and receipts in bulk from other order plants that were not subtracted pursuant to subparagraph (4)(v) of this paragraph; and

(ii) Receipts of fluid milk products, that were not subtracted pursuant to subparagraph (4)(v) of this paragraph, in bulk from an other order plant in excess of similar transfers to such plant, if Class II milk utilization was requested by the operator of such plant and the handler;

* * * * *

(8) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraph (4)(iv) or (5)(i) of this paragraph;

(9) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk

from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraph (4)(v) or (5)(ii) of this paragraph:

(i) In series beginning with Class II milk, the pounds determined by multiplying the pounds of such receipts by the larger of the percentage of estimated Class II milk utilization of skim milk announced for the month by the market administrator pursuant to § 1121.22(o) or the percentage that Class II milk utilization remaining is of the total remaining utilization of skim milk of the handler; and

(ii) From Class I milk, the remaining pounds of such receipts;

* * * * *

14. Section 1121.60 is revised to read as follows:

§ 1121.60 Plants subject to other Federal orders.

The provisions of this part shall not apply with respect to the operation of any plant specified in paragraph (a), (b), or (c) of this section except as specified in paragraphs (d) and (e) of this section.

(a) A plant meeting the requirements of § 1121.10(a) which also meets the pooling requirements of another Federal order and from which, the Secretary determines, a greater quantity of Class I milk, except filled milk, is disposed of during the month on routes in such other Federal order marketing area than was disposed of on routes in this marketing area, except that if such plant was subject to all the provisions of this part in the immediately preceding month, it shall continue to be subject to all the provisions of this part until the third consecutive month in which a greater proportion of such Class I disposition is made in such other marketing area unless, notwithstanding the provisions of this paragraph, it is regulated under such other order.

(b) A plant meeting the requirements of § 1121.10(a) which also meets the pooling requirements of another Federal order on the basis of distribution in such other marketing area and from which the Secretary determines a greater quantity of Class I milk, except filled milk, is disposed of during the month on routes in this marketing area than is so disposed of in such other marketing area but which plant is, nevertheless, fully regulated under such other Federal order.

* * * * *

(d) Each handler operating a plant described in paragraph (a), (b), or (c) shall, with respect to total receipts of skim milk and butterfat at such plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(e) Each handler operating a plant specified in paragraph (a), if such plant is subject to the classification and pricing provisions of another order which provides for individual-handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more marketwide pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

15. In § 1121.61, paragraphs (a)(1)(i) and (b) are revised to read as follows:

§ 1121.61 Obligation of handler operating a partially regulated distributing plant.

* * * * *

(a) An amount computed as follows:

(1) (i) The obligation that would have been computed pursuant to § 1121.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfer from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the uniform price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1121.70(e) and a credit computed at the uniform price with respect to receipts, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, from an unregulated supply plant, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph.

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the uniform price applicable at such location (not to be less than the Class II price) and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

16. Section 1121.62 is revised to read as follows:

§ 1121.62 Governmental agencies.

A plant owned and operated by a governmental agency or establishment which processes or packages milk or filled milk distributed in the marketing area, shall be exempt from all provisions of this part. Fluid milk products received at a pool plant from such agencies shall be treated on the same basis as though received from a producer-handler. Fluid milk products disposed of by a handler to such agencies shall be classified on the same basis as though disposed of to a producer-handler.

17. Section 1121.83 is revised to read as follows:

§ 1121.83 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund", into which he shall deposit all payments made by handlers pursuant to §§ 1121.60, 1121.61, 1121.84, and 1121.86, and out of which he shall make all payments to handlers pursuant to §§ 1121.85 and 1121.86.

18. In § 1121.89, paragraphs (a) and (d) are revised to read as follows:

§ 1121.89 Termination of obligation.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed or 2 years after the end of the

calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1125—MILK IN THE PUGET SOUND, WASH., MARKETING AREA

1. The text of § 1125.7 which precedes paragraph (a) is revised to read as follows:

§ 1125.7 Plant.

"Plant" means the land, buildings, surroundings, facilities and equipment, whether owned or operated by one or more persons, constituting a single operating unit or establishment, which is maintained and operated primarily for the receiving, handling and/or processing of milk and milk products (including filled milk). The term "plant" does not include:

* * * * *

2. In § 1125.8, paragraphs (a) and (b) are revised to read as follows:

§ 1125.8 Pool plant.

* * * * *

(a) Any such plant, hereinafter referred to as a "pool distributing plant", from which during the month route disposition of fluid milk products, except route disposition of filled milk, in the marketing area averages more than 110 pounds daily and is also 10 percent or more of receipts of Grade A milk at such plant; or

(b) Any other such plant, hereinafter referred to as a "pool supply plant", at which milk, except filled milk, so qualified is received from dairy farmers or a cooperative association pursuant to § 1125.10(f), and which is:

(1) Located in the marketing area; or

(2) Located outside the marketing area, and from which is moved in the form of fluid milk products, except filled milk, to a pool distributing plant at least the following applicable percentage of both the skim milk and butterfat in Grade A milk received from dairy farmers:

(i) During the months of October through December, 50 percent of such receipts during the month; or

(ii) During the months of January through September, 20 percent of such receipts during the month, except that any plant which shipped in the form of fluid milk products, except filled milk, more than 50 percent of such receipts during the entire period of October through December immediately preceding shall be a pool plant for each of the months of January through September.

(3) Any plant which otherwise meets the requirements of this paragraph may withdraw from pool supply plant status for any month in the January–September period if the operator of the plant files with the market administrator, prior to the first day of such month, a written request for such withdrawal.

3. Section 1125.9 is revised to read as follows:

§ 1125.9 Nonpool plant.

"Nonpool plant" means any plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which during the month an average of more than 110 pounds daily of fluid milk products is disposed of on routes in the marketing area.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products are moved to a pool plant during the month.

4. Section 1125.12 is revised to read as follows:

§ 1125.12 Producer milk.

"Producer milk" or "milk received from producers" means skim milk and butterfat in milk produced by producers which is received for the account of a handler as follows:

(a) With respect to receipts at a pool plant, producer milk shall include:

(1) Milk received at such plant directly from producers;

(2) Milk (not including filled milk) diverted from such pool plant to a nonpool plant for the account of the operator of the pool plant, subject to the condition set forth in paragraph (c) of this section; and

(3) Milk received at such pool plant from a cooperative association in its capacity as a handler pursuant to § 1125.10(f), for all purposes other than those specified in paragraph (b)(2)(i) of this section;

(b) With respect to milk for which a cooperative association is a handler in a capacity other than as the operator of a pool plant, producer milk shall include:

(1) Milk (not including filled milk) diverted from the pool plant of another handler to a nonpool plant for the account of the cooperative association, subject to the condition set forth in paragraph (c) of this section; and

(2) Milk for which the cooperative association is a handler pursuant to § 1125.10(f) to the following extent:

(i) For purposes of reporting pursuant to §§ 1125.30(c) and 1125.31(a) and making payments to producers pursuant to § 1125.80(a); and

(ii) For all purposes, with respect to any such milk which is not delivered to the pool plant of another handler;

(c) For purposes of location adjustments pursuant to §§ 1125.53 and 1125.81, milk diverted to a nonpool plant shall be priced at the location of the plant to which diverted; and

(d) In the case of any bulk tank load of milk originating at farms and subsequently received in part at two or more plants, the proportion of the load received at each such plant shall be prorated among the individual producers on the basis of their percentage of the total load.

5. In § 1125.14, paragraphs (a)(2) and (d) are revised to read as follows:

§ 1125.14 Producer-handler.

* * * * *

(a) * * *

(2) The producer-handler neither receives at his designated milk production resources and facilities nor receives, handles, processes or distributes at or through any of his milk handling, processing or distributing resources and facilities (designated as such pursuant to paragraph (b)(2) of this section) nonfluid milk products for reconstitution into fluid milk products, or fluid milk products derived from any source other than (i) his designated milk production resources and facilities, (ii) pool plants within the limitation specified in paragraph (c)(2) of this section, or (iii) nonfat milk solids which are used to fortify fluid milk products.

* * * * *

(d) *Public announcement.* The market administrator shall publicly announce the name, plant location and farm location(s) of persons designated as producer-handlers, of those whose designations have been cancelled, and the effective dates of producer-handler status or loss of producer-handler status for each. Such announcements shall be controlling with respect to the accounting at plants of other handlers for milk or filled milk received from any producer-handler.

* * * * *

6. Section 1125.15 is revised to read as follows:

§ 1125.15 Fluid milk product.

"Fluid milk product" means the following, in fluid or frozen form:

(a) Milk, skim milk, skim milk drinks, buttermilk, filled milk, flavored milk, and flavored milk drinks (including such products reconstituted or fortified with additional nonfat milk solids);

(b) Concentrated milk, skim milk, flavored milk, and flavored milk drinks; and

(c) Cream (sweet or sour) and any mixtures of cream and milk or skim milk (exclusive of ice cream and frozen dessert mixes, cocoa mixes, aerated cream products, and eggnog).

Fluid milk products shall not include those products commonly known as evaporated milk, condensed milk, and skim milk (plain or sweetened), yogurt, starter, any milk or milk products (including filled milk) sterilized and packaged in hermetically sealed metal or glass containers; or a product which contains 6 percent or more nonmilk fat (or oil).

7. A new § 1125.15a is added to read as follows:

§ 1125.15a Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

8. In § 1125.30, paragraphs (a) (2) and (d) are revised to read as follows:

§ 1125.30 Monthly reports of receipts and utilization.

* * * * *

(a) * * *

(2) The utilization of all skim milk and butterfat required to be reported, including separate statements of quantities:

(i) contained in fluid milk products on hand at the beginning and end of the month,

(ii) in route disposition outside the marketing area, and

(iii) in route disposition of filled milk in the marketing area and outside the marketing area;

* * * * *

(d) Each handler who operates a partially regulated distributing plant shall report as specified in paragraph (a) (1), (2), and (4) of this section except that receipts from dairy farmers in Grade A milk shall be reported in lieu of those in producer milk. Such report shall include separate statements, respectively, showing the respective amounts of skim milk and butterfat disposed of on routes in the marketing area as Class I milk and the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area.

9. Section 1125.32 is revised to read as follows:

§ 1125.32 Other reports.

At such time and in such manner as the market administrator may prescribe, each handler shall report to the market administrator such information in addition to that required under § 1125.30 as may be requested by the market administrator with respect to milk and milk products (including filled milk) handled by him.

9a. In § 1125.41, subparagraph (1) of paragraph (b) is revised to read as follows:

§ 1125.41 Classes of utilization.

* * * * *

(b) * * *

(1) Used to produce ice cream, ice cream mix, frozen desserts, aerated cream products, plastic cream, soured cream dressing, yogurt, eggnog, cottage cheese, pot cheese, bakers cheese, cream cheese, neufchatel cheese, starter or any milk or milk products (including filled milk) sterilized and packaged in hermetically sealed metal or glass containers;

* * * * *

10. In § 1125.43, paragraph (b) is revised to read as follows:

§ 1125.43 Responsibility of handlers and reclassification of milk.

* * * * *

(b) The burden shall rest upon each handler to establish the sources of milk and milk products (including filled milk) required to be reported by him pursuant to § 1125.30.

* * * * *

11. In § 1125.44, paragraph (a) (4) is revised to read as follows:

§ 1125.44 Interplant movements.

* * * * *

(a) * * *

(4) Notwithstanding the prior provisions of this paragraph, any such skim milk and butterfat transferred in bulk from a pool plant to a pool distributing plant in which facilities are maintained and used to receive milk or milk products (including filled milk) required by applicable health authority regulations to be kept physically separate from Grade A milk shall be classified in accordance with the provisions of paragraph (b) of this section; and

* * * * *

12. In § 1125.45, paragraph (a) is revised to read as follows:

§ 1125.45 Computation of skim milk and butterfat in each class.

* * * * *

(a) If any other source milk not subject to allocation at such plant pursuant to § 1125.46(a) (2) through (4) was received at any pool plant of a handler, there will be computed for such handler the total pounds of skim milk and butterfat, respectively, in each class at all of his pool plants combined, exclusive of any classification based upon movements between such plants, and allocation pursuant to § 1125.46 and computation of obligation pursuant to § 1125.70 shall be based upon the combined utilization so computed. For purposes of assigning location adjustments pursuant to §§ 1125.53 with respect to milk or filled milk moved between such plants, the skim milk and butterfat subtracted from each class pursuant to § 1125.46(a) (2), (3), (4), (6), and (7) and the corresponding steps of § 1125.46 (b) will be assigned so far as possible to utilization (exclusive of such interplant movements) reported at the plant at which it was received, and therafter in sequence to plants at which location adjustment for such class is the same or most nearly similar, and the applicable location adjustments will be determined on the basis of the classification resulting from the application of § 1125.44 (a) and (b) to the remaining utilization reported;

* * * * *

13. Section 1125.46 is revised to read as follows:

§ 1125.46 Allocation of skim milk and butterfat classified.

After making the computations pursuant to § 1125.45, the market administrator shall determine the classification of producer milk for each handler at all his pool plants (or at each pool plant, when § 1125.45(b) applies) as follows:

(a) Skim milk shall be allocated in the following manner, except that the quantities allocated to Class II milk and Class III milk shall be subtracted in series beginning with Class III.

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk classified as Class III pursuant to § 1125.41(c) (5);

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3) (v) of this paragraph, as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below, from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products not qualified for disposition to consumers in fluid form, or which are from unidentified sources; and

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(vi) Subtract, if the total pounds of skim milk in all classes pursuant to § 1125.45 exceed the total pounds of skim milk reported pursuant to § 1125.30(a) (1), from the remaining pounds of skim milk in each class, in series beginning with Class III, the amount determined by prorating such excess between the pounds of skim milk subtracted pursuant to subdivisions (i) through (v) of this subparagraph and the remaining receipts;

(4) Subtract, in the order specified below in sequence beginning with Class III, from the pounds of skim milk remaining in Class II and Class III but not in excess of such quantity;

(i) Receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3) (iv) of this paragraph, for which the handler requests Class II or III utilization;

(ii) Remaining receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3) (iv) of this paragraph, which are in excess of the pounds of

skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in receipts of producer milk, receipts from pool plants of other handlers (and of the same handler, when § 11.25.45(b) applies), and receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph; and

(iii) Receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plant, if Class II or III utilization was requested by the operator of such plant and the handler;

(5) Add to the remaining pounds of skim milk in Class III milk the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(6) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraph (3)(iv) or (4) (i) and (ii) of this paragraph;

(7) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraph (3)(v) or (4)(iii) of this paragraph;

(i) In series, beginning with Class III, the pounds determined by multiplying the pounds of such receipts by the larger of the precentage of estimated Class II and Class III utilization of skim milk announced for the month by the market administrator pursuant to § 1125.22(m) or the percentage that Class II and Class III utilization remaining is of the total remaining utilization of skim milk of the handler; and

(ii) From Class I, the remaining pounds of such receipts;

(8) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk received in fluid milk products from pool plants of other handlers (and of the same handler, when § 1125.45(b) applies) according to the classification assigned pursuant to § 1125.44;

(9) If the pounds of skim milk remaining in all three classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage".

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) Combine the amounts of skim milk and butterfat determined pursuant to paragraphs (a) and (b) of this section and § 1125.45(c) into one total for each class and determine the weighted average butterfat content of producer milk in each class.

14. Section 1125.66 is revised to read as follows:

§ 1125.66 Plants subject to other Federal orders.

Except for §§ 1125.30(e), 1125.32 through 1125.34, and paragraph (c) of this section, the provisions of this part shall not apply to a handler with respect to the operation of plants described as follows:

(a) A distributing plant from which a lesser volume of fluid milk products, except filled milk, is disposed of as route disposition in the Puget Sound marketing area than as route disposition in the marketing area of another marketing agreement or order issued pursuant to the Act and which is fully subject to the classification and pricing provisions of such other agreement or order;

(b) Any supply plant for any portion of the period of January through September, inclusive, that producer milk at such plant is subject to the classification and pricing provisions of another order issued pursuant to the Act.

(c) Each handler operating a plant specified in paragraph (a), if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in the marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area.

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class III price.

15. In § 1125.67, subdivision (i) of paragraph (a)(1), and paragraph (b) are revised to read as follows:

§ 1125.67 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1)(i) The obligation that would have been computed pursuant to § 1125.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II or Class III milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class III price. There shall be included in the obligation so computed a charge in the amount specified in § 1125.70(e) and a credit in the amount specified in § 1125.84(b)(3) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk, shall be at the Class III price, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes within the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location (not to be less than the Class III price), and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class III price.

16. In § 1125.81, paragraph (c) is revised to read as follows:

§ 1125.81 Location adjustments to producers and on nonpool milk.

* * * * *

(c) For purposes of computations pursuant to §§ 1125.84 and 1125.85 the weighted average price for all milk shall be adjusted at the rates set forth in § 1125.53 for Class I milk applicable at the location of the nonpool plant from which the milk or filled milk was received.

17. Section 1125.83 is revised to read as follows:

§ 1125.83 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund," into which he shall deposit all payments made by handlers pursuant to §§ 1125.66, 1125.67, and 1125.84 and out of which he shall make all payments to handlers pursuant to § 1125.85.

18. Section 1125.84 is revised to read as follows:

§ 1125.84 Payments to the producer-settlement fund.

On or before the 15th day after the end of the month during which the skim milk and butterfat were received, each handler shall pay to the market administrator the amount, if any, by which the total amount specified in paragraph (a) of this section exceeds the total amount specified in paragraph (b) of this section:

(a) The sum of:

(1) The net pool obligations computed pursuant to § 1125.70 for such handler; and

(2) For a cooperative association handler, the amount due from other handlers pursuant to § 1125.80(d);

(b) The sum of:

(1) The value of milk received by such handler from producers at the applicable uniform prices specified in § 1125.80 (a);

(2) The amount to be paid to cooperative associations pursuant to § 1125.80 (d); and

(3) The value at the weighted average price for all skim milk and butterfat applicable at the location of the plant(s) from which received (not to be less than the value at the Class III price) adjusted for butterfat content by the producer butterfat differential, with respect to other source milk for which a value is computed pursuant to § 1125.70(e).

19. Section 1125.85 is revised to read as follows:

§ 1125.85 Payments out of the producer-settlement fund.

On or before the 17th day after the end of each month during which the skim milk and butterfat were received, the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1125.84(b) exceeds the amount computed pursuant to § 1125.84(a), and less any unpaid obligations of such handler to the market administrator pursuant to §§ 1125.84, 1125.86, 1125.87, and 1125.88: *Provided*, That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

20. In § 1125.89, paragraphs (a) and (d) are revised to read as follows:

§ 1125.89 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last-known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this order shall terminate 2 years after the end of the month during which the skim milk and butterfat involved in the claims were received if an underpayment is claimed, or 2 years after the end of the month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1126—MILK IN NORTH TEXAS MARKETING AREA

1. Section 1126.7 is revised as follows:

§ 1126.7 Plant.

"Plant" means the land, buildings, facilities, and equipment constituting a single operating unit or establishment at which milk or milk products (including filled milk) are received, processed and/or packaged. Separate facilities used only as a reload point for transferring bulk milk from one tank truck to another shall not be a plant under this definition if the milk transferred at such facilities can be identified as receipts from specific farmers until the milk is received at a plant. Facilities used only as a distribution point for storing fluid milk products in transit on routes shall not be a plant under this definition.

2. In § 1126.10 paragraph (a) is revised as follows:

§ 1126.10 Pool plant.

* * * * *

(a) Any distributing plant, except a producer-handler plant or an other order plant, from which during the month:

(1) The disposition of fluid milk products, except filled milk, on routes within the marketing area is 10 percent or more of the receipts of Grade A milk at such plant; and

(2) The total disposition of fluid milk products, except filled milk, on routes is 50 percent or more of the receipts of Grade A milk at such plant, except that if two or more distributing plants operated by the same handler each meet the performance requirement of subparagraph (1) of this paragraph and total disposition of fluid milk products, except filled milk, on routes of such plants is 50 percent or more of receipts of Grade A milk at such plants, each such plant shall be deemed to have met the requirement of this subparagraph;

* * * * *

3. Section 1126.11 is revised as follows:

§ 1126.11 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Unregulated supply plant" means a nonpool plant from which fluid milk products are moved to a pool plant during the month but which is neither an other order plant nor a producer-handler plant.

(d) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes (other than to pool plants) in the marketing area during the month.

4. Section 1126.15 is revised as follows:

§ 1126.15 Fluid milk products.

"Fluid milk products" means milk, skim milk, buttermilk, flavored milk drinks, filled milk, cream (except sterilized cream and sterilized cream products disposed of in hermetically sealed metal or glass containers and cultured sour cream), and any mixture (except eggnog and bulk ice cream and frozen dairy product mixes) of cream and milk or skim milk. This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

5. Section 1126.18 is revised as follows:

§ 1126.18 Reserve supply credit.

The hundredweight of reserve supply credit that may be assigned to milk moved from a supply plant to a distributing plant shall be calculated as follows: From the total hundredweight of milk classified as Class I milk, except filled milk, at the distributing plant during the month, deduct Class I sales, except filled milk, to other pool plant(s) and from this result deduct an amount equal to 85 percent of the total hundredweight of milk received from producers during the month at such plant. Any plus figure resulting from this calculation shall be assigned pro rata to milk moved to such plant from supply plants unless the operator of the distributing plant notifies the market administrator in writing of a different assignment on or before the 7th day after the end of the month.

6. Section 1126.19 is revised as follows:

§ 1126.19 Route.

"Route" means any delivery (including any delivery by a vendor or disposition at a plant store) of a fluid milk product other than a delivery in bulk form to a milk processing plant.

7. A new § 1126.20 is added as follows:

§ 1126.20 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

8. In § 1126.30, paragraphs (f) and (h) are revised as follows:

§ 1126.30 Reports of receipts and utilization.

* * * * *

(f) The disposition of fluid milk products on routes wholly outside the marketing area and a statement showing separately in-area and outside area route disposition of filled milk; and

* * * * *

(h) Each handler operating a partially regulated distributing plant shall report as required in this section except that receipts of Grade A milk from dairy farmers shall be reported in lieu of receipts of producer milk. Such report shall include a separate statement showing Class I disposition on routes in the marketing area of each of the following: skim milk and butterfat, respectively, in fluid milk products and the quantity thereof which is reconstituted skim milk.

9. In § 1126.33, paragraph (b) is revised as follows:

§ 1126.33 Records and facilities.

* * * * *

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream and milk products (including filled milk) handled;

* * * * *

10. In § 1126.41, paragraph (a)(1) is revised as follows:

§ 1126.41 Classes of utilization.

* * * * *

(a) * * *

(1) Disposed of in the form of a fluid milk product: *Provided,* That when any fluid milk product is modified with nonfat milk solids the amount of skim milk to be classified as Class I shall be only that amount equal to the weight of skim milk in an equal volume of an unfortified product of the same nature and butterfat content;

* * * * *

(7) That portion of modified products excluded from a Class I skim milk classification pursuant to paragraph (a) of this section.

11. In § 1126.44, paragraph (g)(5) is revised as follows:

§ 1126.44 Transfers.

* * * * *

(g) * * *

(5) For purposes of this paragraph, if the order to which the skim milk and butterfat is transferred or diverted provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

12. In § 1126.46, subparagraphs (2), (3), (4), (7), and (8) of paragraph (a) are revised as follows:

§ 1126.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or two percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II:

(i) The pounds of skim milk in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph, for which the handler requests Class II utilization, but not in excess of the pounds of skim milk remaining in Class II;

(ii) The pounds of skim milk remaining in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph, which are in excess of the pounds of skim milk determined as follows:

(*a*) Multiply the pounds of skim milk remaining in Class I milk (excluding Class I transfers between pool plants of the handler) at all pool plants of the handler by 1.25;

(*b*) Subtract from the result the sum of the pounds of skim milk at all such plants in producer milk in receipts from other pool plants and from a cooperative association in its capacity as a handler pursuant to § 1126.12 (c) and (d) and in receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph; and

(*c*) Multiply any resulting plus quantity by the percentage that receipts of skim milk in fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph, remaining at this plant is of all such receipts remaining at all pool plants of such handler, after any deductions pursuant to subdivision (i) of this subparagraph.

Should such computation result in a quantity to be subtracted from Class II which is in excess of the pounds of skim milk remaining in Class II, the pounds of skim milk in Class II shall be increased to the quantity to be subtracted and the pounds of skim milk in Class I shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made.

(iii) The pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plant, but not in excess of the pounds of skim milk remaining in Class II milk, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(7)(i) Subtract from the pounds of skim milk remaining in each class, pro rata to the total pounds of skim milk remaining in each class in all pool plants of the receiving handler, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraphs (3)(iv), or (4)(i) or (ii) of this paragraph;

(ii) Should such proration result in the amount to be subtracted from any class exceeding the pounds of skim milk remaining in such class in the pool plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case the utilization of milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made;

(8) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, in excess in each case of similar transfers to the same plant, that were not subtracted pursuant to subparagraphs (3)(v), or (4)(iii) of this paragraph pursuant to the following procedure:

(i) Subject to the provisions of subdivisions (ii) and (iii) of this subparagraph, such subtraction shall be pro rata to whichever of the following represents the higher proportion of Class II milk:

(*a*) The estimated utilization of skim milk in each class, by all handlers, as announced for the month pursuant to § 1126.27(m); or

(*b*) The pounds of skim milk in each class remaining at all pool plants of the handler;

(ii) Should proration pursuant to subdivision (i) of this subparagraph result in the total pounds of skim milk to be subtracted from Class II at all pool plants of the handler exceeding the pounds of skim milk remaining in Class II at such plants, the pounds of such excess shall by subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which received;

(iii) Except as provided in subdivision (ii) of this subparagraph, should proration pursuant to either subdivision (i) or (ii) of this subparagraph result in the amount to be subtracted from either class exceeding the pounds of skim milk remaining in such class in the pool plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made.

* * * * *

13. Section 1126.61 is revised as follows:

§ 1126.61 Plants subject to other Federal orders.

The provisions of this part shall not apply with respect to the operation of any plant specified in paragraph (a), (b), or (c) of this section except as specified in paragraphs (d) and (e):

(a) A plant meeting the requirements of § 1126.10(a) which also meets the pooling requirements of another Federal order and from which, the Secretary determines, a greater quantity of Class I milk, except filled milk, is disposed of during the month on routes in such other Federal order marketing area than was disposed of on routes in this marketing area, except that if such plant was subject to all the provisions of this part in the immediately preceding month, it shall continue to be subject to all the provisions of this part until the third consecutive month in which a greater proportion of its Class I disposition, except filled milk, is made in such other marketing area unless, notwithstanding the provisions of this paragraph, it is regulated under such other order.

(b) A plant meeting the requirements of § 1126.10(a) which also meets the pooling requirements of another Federal order on the basis of distribution in such other marketing area and from which, the Secretary determines, a greater quantity of Class I milk, except filled milk, is disposed of during the month on routes in this marketing area than is so disposed of in such other marketing area but which plant is, nevertheless, fully regulated under such other Federal order.

(c) A plant meeting the requirements of § 1126.10(b) which also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made during the month to plants regulated under such other order than are made to plants regulated under this part, except during the months of January through August if such plant retains automatic pooling status under this part.

(d) Each handler operating a plant described in paragraph (a), (b), or (c) shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(e) Each handler operating a plant specified in paragraph (a), if such plant is subject to the classification and pricing provisions of another order which provides for individual-handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of the receipts of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

14. In § 1126.62, paragraphs (a)(1)(i) and (b) are revised as follows:

§ 1126.62 Obligation of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1) (i) The obligation that would have been computed pursuant to § 1126.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the uniform price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1126.70(e) and a credit in the amount specified in § 1126.93(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph; and

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes (other than to pool plants) in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location or the Class II price, whichever is higher and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

15. Section 1126.92 is revised as follows:

§ 1126.92 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund," into which he shall deposit all payments made by handlers pursuant to §§ 1126.61, 1126.62, 1126.93, and 1126.95, and out of which he shall make all payments to handlers pursuant to §§ 1126.94 and 1126.95.

16. In § 1126.98, paragraphs (a) and (d) are revised as follows:

§ 1126.98 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the

terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8(c)(15)(A) of the Act, a petition claiming such money.

PART 1127—MILK IN SAN ANTONIO, TEX., MARKETING AREA

1. In § 1127.8, paragraph (a) is revised to read as follows:

§ 1127.8 Pool plant.

* * * * *

(a) A distributing plant (other than one exempt pursuant to § 1127.60) which disposes of as Class I milk, except filled milk, on routes in the marketing area 15 percent or more of its receipts of milk during the month from pool plants and from dairy farmers conforming to the requirements set forth in § 1127.11;

* * * * *

2. Section 1127.9 is revised to read as follows:

§ 1127.9 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant from which fluid milk products are moved to a pool plant during the month, but which is neither an other order plant nor a producer-handler plant.

3. Section 1127.14 is revised to read as follows:

§ 1127.14 Fluid milk products.

"Fluid milk products" means milk, skim milk, buttermilk, flavored milk, flavored milk drinks, filled milk, cream or any mixture of cream and milk or skim milk (except eggnog, cultured sour cream, frozen storage cream and bulk ice cream and frozen dairy product mixes). This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

4. A new § 1127.16 is added to read as follows:

§ 1127.16 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

5. In § 1127.30, paragraph (e) is revised to read as follows:

§ 1127.30 Reports of receipts and utilization.

* * * * *

(e) The utilization of all skim milk and butterfat required to be reported pursuant to this section including a separate statement of the route disposition of Class I milk outside the marketing area and a statement showing separately in-area and outside area route disposition of filled milk; and

* * * * *

6. Section 1127.32 is revised to read as follows:

§ 1127.32 Other reports.

Each handler who operates a partially regulated distributing plant shall report pursuant to § 1127.30 and pursuant to § 1127.31 in the event that such handler does not elect at the regular time of reporting pursuant to § 1127.30 to pay amounts computed pursuant to § 1127.61(b), except that receipts of Grade A milk from dairy farmers and payments to such dairy farmers shall be reported in lieu of receipts from and payments to producers; such report shall include a separate statement showing the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area.

7. In § 1127.33, paragraphs (b) and (d) are revised to read as follows:

§ 1127.33 Records and facilities.

* * * * *

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream and other milk products (including filled milk) handled;

* * * * *

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream and other milk products (including filled milk) on hand at the beginning and end of each month.

8. In § 1127.44, subparagraph (5) of paragraph (c) is revised to read as follows:

§ 1127.44 Transfers.

* * * * *

(c) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other clases shall be classified as Class II or Class II–A (if identical classification is provided under the other order); and

* * * * *

9. In § 1127.46, subparagraphs (3), (4), (5), (7), and the introductory text of subparagraph (8) preceding subdivision (i) of paragraph (a) are revised to read as follows:

§ 1127.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(3) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (4)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with the lowest priced class, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(5) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II–A and Class II (beginning with Class II–A), but not in excess of such quantity or quantities:

(i) Receipts of fluid milk products from an unregulated supply plant, that were not subtracted pursuant to subparagraph (4) (iv) of this paragraph:

(*a*) For which the handler requests such utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 subtracting the sum of the pounds of skim milk in producer milk, receipts from other pool plants, receipts from a cooperative association in its capacity as a handler pursuant to § 1127.10(d) and receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (4) (v) of this paragraph; and

(ii) Receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (4) (v) of this paragraph, in excess of similar transfers to such plant, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraphs (4) (iv) or (5) (i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (4) (v) or (5) (ii) of this paragraph:

* * * * *

10. Section 1127.60 is revised to read as follows:

§ 1127.60 Handlers subject to other Federal orders.

The provisions of this part shall not apply with respect to the operation of any plant specified in paragraph (a) or (b) of this section except as specified in paragraphs (c) and (d):

(a) A plant meeting the requirements for pooling pursuant to § 1127.8(a) which also meets the pooling requirements of another Federal order and from which, the Secretary determines, a greater quantity of Class I milk, except filled milk, is disposed of during the month on routes in such other Federal order marketing area than was disposed of on routes in this marketing area, except that if such plant was subject to all of the provisions of this part in the immediately preceding month, it shall continue to be subject to all of the provisions of this part until the third consecutive month in which a greater proportion of such Class I route disposition is made in such other marketing area unless notwithstanding the provisions of this paragraph it is fully regulated under such other order.

(b) A plant meeting the requirements for pooling pursuant to § 1127.8(a) which also meets the pooling requirements of another Federal order on the basis of route distribution in such other marketing area and from which, the Secretary determines, a greater quantity of Class I milk, except filled milk, is disposed of during the month on routes in this marketing area than is so disposed of in such other marketing area, but which plant is fully regulated under such other Federal order.

(c) Each handler operating a plant described in paragraph (a) or (b) of this section shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such manner as the market administrator may require (in lieu of reports pursuant to §§ 1127.30 and 1127.31) and allow verification of such reports by the market administrator.

(d) Each handler operating a plant specified in paragraph (a), or (b) of this section if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

11. In § 1127.61, paragraphs (a) (1) (i) and (b) are revised to read as follows:

§ 1127.61 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1) (i) The obligation that would have been computed pursuant to § 1127.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II or Class II–A milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1127.70(d) and a credit in the amount specified in § 1127.84(b) (2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparargaph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes (other than to pool plants) in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location or the Class II price, whichever is higher and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

12. In § 1127.89, paragraphs (a) and (d) are revised to read as follows:

§ 1127.89 Termination of obligation.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to the following information:

(1) The amount of the obligation;

(2) The delivery period during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the agreement (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1128—MILK IN CENTRAL WEST TEXAS MARKETING AREA

1. In § 1128.7, paragraphs (a)(1) and (b) are revised to read as follows:

§ 1128.7 Approved plant.

* * * * *

(a) * * *

(1) From which Class I milk labeled Grade A other than filled milk, in consumer packages is disposed of in the marketing area on routes, or

* * * * *

(b) A milk plant approved by and under the routine inspection of a health authority other than that of a municipality in the marketing area from which Class I milk labeled Grade A other than filled milk in consumer packages is disposed of in the marketing area on a route operated wholly or partially in the marketing area in an amount equal to 10 percent or more of the total disposition of Class I milk, except filled milk, from such plant during the month.

2. Section 1128.8 is revised to read as follows:

§ 1128.8 Unapproved plant.

"Unapproved plant" means any milk or filled milk receiving, manufacturing or processing plant other than an approved plant. The following categories of unapproved plant are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means an unapproved plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means an unapproved plant from which fluid milk products are moved to an approved plant during the month but which is neither an other order plant nor a producer-handler plant.

3. Section 1128.13 is revised to read as follows:

§ 1128.13 Producer-handler.

"Producer-handler" means any person:

(a) who operates a dairy farm and a milk plant approved by and under the routine inspection of the appropriate health authority from which fluid milk products labeled Grade A in consumer-type packages are disposed of in the marketing area on routes and;

(b) whose disposition of fluid milk products does not exceed his own farm production and receipts of fluid milk products from approved plants.

4. Section 1128.14 is revised to read as follows:

§ 1128.14 Route.

"Route" means any delivery (including any delivery by a vendor or at a plant store) of a fluid milk product other than in bulk to a milk or filled milk processing plant.

5. Section 1128.15 is revised to read as follows:

§ 1128.15 Fluid milk product.

"Fluid milk product" means all the skim milk (including reconstituted skim milk) and butterfat in the form of milk, skim milk, buttermilk, flavored milk drinks, filled milk, cream, sour cream and sour cream products under a Grade A label, and any mixture (except eggnog, aerated cream products and mixes for ice cream or other frozen dairy products) of cream and milk or skim milk: *Provided,* That when any such product is fortified with nonfat milk solids the amount of skim milk to be included within this definition shall be only that amount equal to the weight of skim milk in an equal volume of an unfortified product of the same nature and butterfat content. This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

6. A new § 1128.16 is added to read as follows:

§ 1128.16 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

7. In § 1128.30, paragraph (g) is revised to read as follows:

§ 1128.30 Reports of receipts and utilization.

* * * * *

(g) The disposition of Class I products on routes wholly outside the marketing area and a statement showing separately in-area and outside area route disposition of filled milk; and

* * * * *

8. In § 1128.32, paragraph (b) is revised to read as follows:

§ 1128.32 Other reports.

* * * * *

(b) Each handler who operates a partially regulated distributing plant shall report pursuant to § 1128.30 and pursuant to § 1128.31 in the event that such handler does not elect at the regular time of reporting pursuant to § 1128.30 to pay amounts computed pursuant to § 1128.62(b), except that receipts in Grade A milk from dairy farmers and payments to such dairy farmers shall be reported in lieu of receipts from and payments to producers; such report shall include a separate statement showing Class I disposition on routes in the marketing area of each of the following: skim milk and butterfat, respectively in fluid milk products and the quantity thereof which is reconstituted skim milk.

* * * * *

9. In § 1128.33, paragraphs (b) and (d) are revised to read as follows:

§ 1128.33 Records and facilities.

* * * * *

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream and milk products (including filled milk) handled;

* * * * *

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream and milk products (including filled milk) on hand at the beginning and end of each month.

10. In § 1128.44, subparagraph (5) of paragraph (f) is revised to read as follows:

§ 1128.44 Transfers.

* * * * *

(f) * * *

(5) For purposes of this paragraph (f), if the transferee order provides for more than two classes of utilization skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II unless the other order provides a Class II–A classification identical to that provided in this order; and

* * * * *

11. In § 1128.46, subparagraphs (2), (3), (4), (7), and the introductory text of subparagraph (8) preceding subdivision (i) of paragraph (a) are revised to read as follows:

§ 1128.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or two percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with the lowest priced class, the pounds of skim milk in each of the following:

(i) Other source milk in the form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a produced-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II–A and Class II (beginning with Class II–A):

(i) The pounds of skim milk in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph, for which the handler requests Class II utilization, but not in excess of the pounds of skim milk remaining in such classes, respectively;

(ii) The pounds of skim milk remaining in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph, which are in excess of the pounds of skim milk determined as follows:

(*a*) Multiply the pounds of skim milk remaining in Class I milk (excluding Class I transfers between approved plants of the handler) at all approved plants of the handler by 1.25;

(*b*) Subtract from the result the sum of the pounds of skim milk at all such plants in producer milk, in receipts from other approved plants and from a cooperative association in its capacity as a handler pursuant to § 1128.9(c), and in receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph; and

(c)(*1*) Multiply any resulting plus quantity by the percentage that receipts of skim milk in fluid milk products from unregulated supply plants remaining at this plant is of all such receipts remaining at all approved plants of such handler, after any deductions pursuant to subdivision (i) of this subparagraph.

(2) Such subtraction is to be made first from the remaining Class II–A at the pool plant where received, next from remaining Class II–A at other pool plant(s) of such handler. If the amount to be subtracted is greater than the remaining Class II–A at all pool plants of the handler, such additional amount is to be subtracted first from the remaining Class II at the pool plant where received, next from Class II at other pool plant(s) of such handler. In such case, the utilization of skim milk in Class II–A (then Class II) shall be increased and the utilization of skim milk in Class II (then Class I) shall be decreased in an amount equal to the quantity necessary to make such subtraction, and the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made.

(iii) The pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plant, but not in excess of the pounds of skim milk remaining in Class II–A and Class II milk,

* * * * *

(7)(i) Subtract from the pounds of skim milk remaining in each class, pro rata to the total pounds of skim milk remaining in each class in all approved plants of the receiving handler, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraphs (3)(iv) or 4 (i) or (ii) of this paragraph;

(ii) Should such proration result in the amount to be subtracted from any class exceeding the pounds of skim milk remaining in such class in the approved plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case the utilization of skim milk at other approved plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other approved plant of such handler at which such adjustment can be made;

(8) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, in excess in each case of similar transfers to the same plant, that were not subtracted pursuant to subparagraphs (3)(v) or (4)(iii) of this paragraph pursuant to the following procedure:

* * * * *

12. Section 1128.61 is revised to read as follows:

§ 1128.61 Plants subject to other Federal orders.

The provisions of this part shall not apply with respect to the operation of any plant specified in paragraph (a), (b), or (c) of this section except as specified in paragraphs (d) and (e) that:

(a) An approved plant pursuant to § 1128.7 (a)(1) or (b) which also meets the pooling requirements of another Federal order and from which, the Secretary determines, a greater quantity of Class I milk, except filled milk, is disposed of during the month on routes in such other Federal order marketing area than was disposed of on routes in this marketing area, except that if such plant was subject to all the provisions of this part in the immediately preceding month, it shall continue to be subject to all the provisions of this part until the third consecutive month in which a greater proportion of such Class I route disposition is made in such other marketing area unless notwithstanding the provisions of this paragraph it is regulated under such other order.

(b) An approved plant pursuant to § 1128.7 (a)(1) or (b) which also meets the pooling requirements of another Federal order on the basis of route distribution in such other marketing area and from which, the Secretary determines, a greater quantity of Class I milk, except filled milk, is disposed of during the month on routes in this marketing area than is so disposed of in such other marketing area but which plant is fully regulated under such other Federal order.

(c) An approved plant pursuant to § 1128.7(a)(2) which (1) meets the pooling requirements of another Federal order and from which greater qualifying shipments are made during the month to plants regulated under such other order than are made to plants regulated under this part or, (2) retains automatic pooling status for the month under another Federal order by virtue of its performance in previous months.

(d) Each handler operating a plant described in paragraph (a), (b), or (c) of this section shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(e) Each handler operating a plant specified in paragraph (a), if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the

reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

13. In § 1128.62, paragraphs (a) (1) (i) and (b) are revised to read as follows:

§ 1128.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1) (i) The obligation that would have been computed pursuant to § 1128.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II or Class II–A milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1128.70(e) and a credit in the amount specified in § 1128.94(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes (other than to approved plants) in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from approved plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location or the Class II price, whichever is higher and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

14. Section 1128.93 is revised to read as follows:

§ 1128.93 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund," into which he shall deposit all payments made by handlers pursuant to §§ 1128.61, 1128.62, 1128.94, and 1128.96, and out of which he shall make all payments to handlers pursuant to §§ 1128.95 and 1128.96.

15. In § 1128.99, paragraphs (a) and (d) are revised to read as follows:

§ 1128.99 Termination of obligation.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8(c)(15)(A) of the act, a petition claiming such money.

PART 1129—MILK IN THE AUSTIN-WACO, TEX., MARKETING AREA

1. Section 1129.8 is revised as follows:

§ 1129.8 Distributing plant.

"Distributing plant" means any milk processing or packaging plant from which Class I milk, except filled milk, equal to more than an average of 500 pounds per day or 5 percent, whichever is less, of the Grade "A" milk and skim milk received from dairy farmers or other plants, is disposed of during the month on a route(s) operated partially or wholly in the marketing area.

2. Section 1129.11 is revised as follows:

§ 1129.11 Nonfluid milk plant.

"Nonfluid milk plant" means any milk or filled milk receiving, manufacturing or processing plant other than a fluid milk plant. The following categories of nonfluid milk plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonfluid milk plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonfluid milk plant from which fluid milk products are moved to a fluid milk plant during the month, but which is neither an other order plant nor a producer-handler plant.

3. The introductory text and paragraph (a) of § 1129.14 are revised as follows:

§ 1129.14 Route.

"Route" means the delivery (including delivery by a vendor or sale at a plant store) of fluid milk products other than as follows:

(a) Delivery in bulk to a plant, or

* * * * *

4. Section 1129.20 is revised as follows:

§ 1129.20 Fluid milk product.

"Fluid milk product" means all skim milk (including reconstituted skim milk) and butterfat in the form of milk, skim milk, buttermilk, flavored milk drinks, filled milk, cream, cultured sour cream, any mixture of cream and milk or skim milk (other than frozen storage cream, aerated cream products, eggnog, ice cream mix, or other frozen mixes, evaporated or condensed milk and any milk product contained in hermetically sealed containers): *Provided*, That when nonfat milk solids are added for fortification the amount of skim milk to be included within this definition shall be only that amount equal to the weight of skim milk in an equal volume of unmodified product of the same nature and butterfat content. This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

5. A new § 1129.21 is added as follows:

§ 1129.21 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk

(whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

6. In § 1129.27, paragraph (g) is revised as follows:

§ 1129.27 Duties.

* * * * *

(g) Verify all reports and payments of each handler by audit of such handler's records and the records of any other handler or person upon whose disposition such handler claims classification of skim milk and butterfat and by such investigation as the market administrator deems necessary;

* * * * *

7. In § 1129.30, paragraph (e) is revised as follows:

§ 1129.30 Reports of receipts and utilization.

* * * * *

(e) The utilization of all skim milk and butterfat required to be reported pursuant to this section including a statement of the route disposition of Class I milk outside the marketing area, and a statement showing separately in-area and outside area route disposition of filled milk; and

* * * * *

8. In § 1129.33, paragraphs (b) and (c) are revised as follows:

§ 1129.33 Records and facilities.

* * * * *

(b) The weights and tests for butterfat and other content of all milk, and milk products (including filled milk) handled;

(c) The pounds of skim milk and butterfat contained in or represented by all milk, and milk products (including filled milk) on hand at the beginning and end of each month; and

* * * * *

9. In § 1129.44, subparagraph (5) of paragraph (e) is revised as follows:

§ 1129.44 Transfers.

* * * * *

(5) For purposes of this paragraph (e), if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

10. In § 1129.46, subparagraphs (2), (3), (4), and (7) of paragraph (a) are revised as follows:

§ 1129.46 Allocation of skim milk and butterfat classified.

* * * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II but not in excess of such quantity:

(i) Receipts of fluid milk products from an unregulated supply plant, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph:

(*a*) For which the handler requests Class I utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from fluid milk plants of other handlers, receipts from a cooperative association in its capacity as a handler pursuant to § 1129.13(b)(2) and receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph; and

(ii) Receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plant, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in each of the following:

(i) Receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraph (3)(iv) or (4)(i) of this paragraph;

(ii) Receipts of fluid milk products in bulk from other order plants that were not subtracted pursuant to subparagraph (3)(v) or (4)(ii) of this paragraph;

* * * * *

11. Section 1129.61 is revised as follows:

§ 1129.61 Plants subject to other Federal orders.

The provisions of this part shall not apply with respect to any plant specified in paragraph (a), (b), or (c) of this section except that the operator thereof shall, with respect to total receipts of skim milk and butterfat at such plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(a) An approved distributing plant which also meets the pooling requirements of another Federal order and from which the Secretary determines, a greater quantity of Class I milk, except filled milk, is disposed of during the month on routes in such other Federal order marketing area than is disposed of on routes (other than to a distributing plant(s)) in the Austin-Waco marketing area.

(b) An approved distributing plant which also meets the pooling requirements of another Federal order and from which, the Secretary determines, a greater quantity of Class I milk, except filled milk, is disposed of during the month on routes (other than to a distributing plant(s)) in the Austin-Waco marketing area than is disposed of on routes in such other Federal order marketing area, but which plant is, nevertheless, fully regulated under such other Federal order.

(c) An approved supply plant which (1) meets the pooling requirements of another Federal order and from which greater qualifying shipments, except filled milk, are made during the month to plants regulated under such other order than are made to plants regulated under this part, or (2) retains automatic pooling status under another Federal order.

12. In § 1129.96, paragraphs (a) and (d) are revised as follows:

§ 1129.96 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler within the applicable period of time, files pursuant to section 8c(15)(A) of the act, a petition claiming such money.

PART 1130—MILK IN CORPUS CHRISTI, TEX., MARKETING AREA

1. Section 1130.7 is revised as follows:

§ 1130.7 Plant.

"Plant" means the land, buildings, facilities, and equipment constituting a single operating unit or establishment at which milk or milk products (including filled milk) are received, processed or packaged. Separate facilities without storage tanks which are used only as a reload point for transferring bulk milk from one tank truck to another shall not be a plant under this definition if the milk transferred at such facilities can be identified as receipts from specific farmers until the milk is received at a plant. Facilities used only as a distribution point for storing fluid milk products in transit on routes shall not be a plant under this definition.

2. In § 1130.10, paragraphs (a) and (b) are revised as follows:

§ 1130.10 Pool plant.

* * * * *

"Pool plant" means:

(a) Any distributing plant, except a producer-handler plant or an other order plant, from which during the month:

(1) The disposition of fluid milk products, except filled milk, within the marketing area on routes is 10 percent or more of the receipts of Grade A milk at such plant; and

(2) The total disposition of fluid milk products, except filled milk, on routes is 50 percent or more of the receipts of Grade A milk at such plant;

(b) A supply plant:

(1) During any month in which 50 percent or more of the receipts of Grade A milk from dairy farmers and handlers pursuant to § 1130.12(d) at such plant is moved as fluid milk products, except filled milk, to pool distributing plants; or

(2) During each of the months of January through August, if such plant was a pool plant pursuant to subparagraph (1) of this paragraph during each of the immediately preceding months of September through December, unless the operator of such plant has filed with the market administrator before the first day of any month written request that such plant not be a pool plant for each month through August during which it does not otherwise qualify as a pool plant; or

* * * * *

3. Section 1130.11 is revised as follows:

§ 1130.11 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another Federal order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Unregulated supply plant" means a nonpool plant from which fluid milk products are moved to a pool plant during the month but which is neither an other order plant nor a producer-handler plant.

(d) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are disposed of on routes in the marketing area during the month.

4. Section 1130.15 is revised as follows:

§ 1130.15 Producer-handler.

"Producer-handler" means any person who:

(a) Produces milk and operates a distributing plant;

(b) Receives no milk from other dairy farmers;

(c) Disposes of no other source milk as Class I milk except:

(1) That represented by nonfat solids used in the fortification of fluid milk products; or

(2) Yogurt in packaged form and cream in prepackaged tetrapaks (one-half fluid ounce capacity) if such products are made from milk classified and priced under any Federal order;

(d) Receives during the month from pool plants fluid milk products in a total quantity of not more than 10,000 pounds, or 5 percent of his Class I disposition, whichever is less; and

(e) Furnishes satisfactory proof to the market administrator that the maintenance, care and management of all dairy animals and other resources necessary to produce the entire amount of fluid milk handled (excluding transfers from pool plants) and the operation of the plant are each the personal enterprise of and at the personal risk of such person.

5. Section 1130.16 is revised as follows:

§ 1130.16 Fluid milk products.

"Fluid milk products" means all skim milk (including reconstituted skim milk) and butterfat disposed of in fluid form as milk, skim milk, buttermilk, flavored milk drinks, filled milk, cream, cultured sour cream and sour cream products labeled Grade A, and any mixture of cream and milk or skim milk (other than frozen cream, aerated cream products, eggnog, ice cream, ice cream mix or other frozen mixes, evaporated or condensed milk and milk products contained in hermetically sealed containers): *Provided,* That when nonfat milk solids are added for "fortification", the amount of skim milk to be included within this definition shall be only that amount equal to the weight of skim milk in an equal volume of an unmodified product of the same nature and butterfat content. This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

6. A new § 1130.16a is added as follows:

§ 1130.16a Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

7. Section 1130.18 is revised as follows:

§ 1130.18 Route disposition.

"Route disposition", or "disposed of on routes", means any delivery (including any delivery by a vendor or disposition at a plant store) of fluid milk products other than a delivery to a milk or filled milk plant.

8. In § 1130.30, paragraphs (a)(3) and (c) are revised as follows:

§ 1130.30 Reports of receipts and utilization.

* * * * *

(a) * * *

(3) The utilization or disposition of all quantities required to be reported, showing separately:

(i) Total route disposition, except filled milk;

(ii) Route disposition in the marketing area;

(iii) Transfers to other pool plants;

(iv) Transfers to other order plants;

(v) Transfers to nonpool plants;

(vi) Diversions to nonpool plants; and

(vii) In-area and outside area route disposition of filled milk.

* * * * *

(c) Each handler operating a partially regulated distributing plant shall report as required in paragraph (a) of this section except that receipts of Grade A milk from dairy farmers shall be reported in lieu of receipts of producer milk. Such report shall include a separate statement showing Class I disposition on routes in the marketing area of

each of the following: skim milk and butterfat, respectively, in fluid milk products and the quantity thereof which is reconstituted skim milk.

9. In § 1130.33, paragraphs (b) and (c) are revised as follows:

§ 1130.33 Records and facilities.

* * * * *

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream and other milk products (including filled milk) handled;

(c) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream and milk products (including filled milk) on hand at the beginning and end of each month; and

* * * * *

10. In § 1130.44, paragraph (e)(5) is revised as follows:

§ 1130.33 Transfers.

* * * * *

(e) * * *

(5) For purposes of this paragraph (e), if the transferee order provides for only two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk and butterfat allocated to another class shall be classified as Class III milk; and

* * * * *

11. Section 1130.46 is revised as follows:

§ 1130.46 Allocation of skim milk and butterfat classified.

After making the computations pursuant to § 1130.45, the market administrator shall determine the classification of producer milk for each handler (or pool plant, if applicable) as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III milk the pounds of skim milk classified as Class III milk pursuant to § 1130.41(c)(7);

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants except that to be subtracted pursuant to subparagraph (4)(v) of this paragraph as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract from the remaining pounds of skim milk in Class I milk the pounds of skim milk in inventory of fluid milk products in packaged form on hand at the beginning of the month;

(4) Subtract in the order specified below from the pounds of skim milk remaining in each class in series beginning with Class III milk, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(5) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II or Class III milk but not in excess of such quantity:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant, that were not subtracted pursuant to subparagraph (4)(iv) of this paragraph;

(*a*) For which the handler requests Class II or Class III milk utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from other pool plants and receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (4)(v) of this paragraph; and

(ii) Receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (4)(v) of this paragraph, in excess of similar transfers to such plant, if Class II or Class III milk utilization was requested by the operator of such plant and the handler;

(6) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III milk, the pounds of skim milk in inventory of bulk fluid milk products on hand at the beginning of the month;

(7) Add to the remaining pounds of skim milk in Class III milk the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraphs (4)(iv) or (5)(i) of this paragraph;

(9) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (4)(v) or (5)(ii) of this paragraph:

(i) In series beginning with Class III milk, the pounds determined by multiplying the pounds of such receipts by the larger of the percentage of estimated Class II and Class III utilization of skim milk announced for the month by the market administrator pursuant to § 1130.22(o) or the percentage that Class II and Class III milk utilization remaining is of the total remaining utilization of skim milk of the handler; and

(ii) From Class I milk, the remaining pounds of such receipts;

(10) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk received in fluid milk products from other handlers (or other pool plants, if applicable) according to the classification assigned pursuant to § 1130.44(a); and

(11) If the pounds of skim milk remaining in each class exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III milk. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) Combine the amounts of skim milk and butterfat determined pursuant to paragraphs (a) and (b) of this section and § 1130.45(d) for each class and determine the weighted average butterfat content of producer milk in each class.

12. Section 1130.60 is revised as follows:

§ 1130.60 Plants subject to other Federal orders.

The provisions of this part shall not apply with respect to the operation of any plant specified in paragraph (a), (b), or (c) of this section except as specified in paragraphs (d) and (e):

(a) A plant meeting the requirements of § 1130.10(a) which also meets the pooling requirements of another Federal order and from which, the Secretary determines, a greater quantity of Class I milk, except filled milk, is disposed of during the month on routes in such other Federal order marketing area than was disposed of on routes in this marketing area, except that if such plant was subject to all the provisions of this part in the immediately preceding month, it shall continue to be subject to all the provisions of this part until the third consecutive month in which a greater proportion of its Class I disposition, except filled milk, is made in such other marketing area unless notwithstanding the provisions of this paragraph, it is regulated under such other order.

(b) A plant meeting the requirements of § 1130.10(a) which also meets the pooling requirements of another Federal order on the basis of distribution in such other marketing area and from which the Secretary determines a greater quantity of Class I milk, except filled milk, is disposed of during the month on routes in this marketing area than is so disposed of in such other marketing area but which plant is, nevertheless, fully regulated under such other Federal order.

(c) A plant meeting the requirements of § 1130.10(b) which also meets the

pooling requirements of another Federal order and from which greater qualifying shipments are made during the month to plants regulated under such other order than are made to plants regulated under this part, except during the months January through August, if such plant retains automatic pooling status under this part.

(d) Each handler operating a plant described in paragraphs (a) or (b) of this section shall report pursuant to § 1130.32(b) and each handler operating a plant described in paragraph (c) shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(e) Each handler operating a plant specified in paragraph (a) or (b) of this section, if such plant is subject to the classification and pricing provisions of another order which provides for individual-handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class III price.

13. In § 1130.61, paragraphs (a)(1)(i) and (b) are revised as follows:

§ 1130.61 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1)(i) The obligation that would have been computed pursuant to § 1130.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II (or Class III) milk if allocated to such classes at the pool plant or other order plant and be valued at the uniform price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class III price. There shall be included in the obligation so computed a charge in the amount specified in § 1130.70(e) and a credit computed at the uniform price with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class III price, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location or the Class III price, whichever is higher and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class III price.

14. Section 1130.83 is revised as follows:

§ 1130.83 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund", into which he shall deposit all payments made by handlers pursuant to §§ 1130.60, 1130.61, 1130.84, and 1130.86, and out of which he shall make all payments to handlers pursuant to §§ 1130.85 and 1130.86.

15. In § 1130.89, paragraphs (a) and (d) are revised as follows:

§ 1130.89 Termination of obligation.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat with respect to which the obligations exists, were received or handled; and

(3) If the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed or 2 years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1132—MILK IN TEXAS PANHANDLE MARKETING AREA

1. Section 1132.10 is revised as follows:

§ 1132.10 Pool plant.

"Pool plant" means:

(a) A distributing plant from which a volume of Class I milk, except filled milk, not less than 50 percent of the Grade A milk received at such plant from dairy farmers and from other plants is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except pool plants) and not less than 15 percent of such receipts, or an average of not less than 10,000 pounds per day, whichever is less, is so disposed of to such outlets in the marketing area: *Provided,* That if a portion of a plant is physically apart from the Grade A portion of such plant, is operated separately and is not approved by any health authorities for the receiving, processing or packaging of any fluid milk product for Grade A disposition, it shall not be considered as part of a pool plant pursuant to this section.

(b) A supply plant from which the volume of fluid milk products, except filled milk, shipped during the month to pool plants qualified pursuant to paragraph (a) of this section is equal to not less than 50 percent of the Grade A milk received at such plant from dairy farmers during such month: *Provided,* That if such shipments are not less than 75 percent of the receipts of Grade A milk at such plant during the immediately preceding period of September through November, such plant may, upon written application to the market administrator on or before March 1 of any year, be designated as a pool plant for the months of March through June of such year: *And provided further,* That if a portion of a plant is physically apart from the Grade A portion of such plant, is operated separately and is not approved by any health authority for the receiving, processing or packaging of

any fluid milk product for Grade A disposition, it shall not be considered as part of a pool plant pursuant to this section.

2. Section 1132.11 is revised as follows:

§ 1132.11 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except pool plants) in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant from which fluid milk products eligible for distribution in the marketing area are moved to a pool plant during the month, but which is neither an other order plant nor a producer-handler plant.

3. Section 1132.12 is revised as follows:

§ 1132.12 Handler.

"Handler" means:

(a) Any person who operates a pool plant;

(b) Any person who operates a partially regulated distributing plant;

(c) Any cooperative association with respect to milk of producers which is diverted from a pool plant to a nonpool plant for the account of such association;

(d) Any cooperative association with respect to the milk of its member producers which it causes to be delivered directly from the farm to the pool plant of another handler in a tank truck owned and operated by, or under contract to, such cooperative association, if the cooperative association notifies the market administrator and the handler to whom the milk is delivered in writing that it wishes to become the handler for such milk. The cooperative association shall be considered the handler for such bulk tank milk, effective the first day of the month following receipt of such notice, and milk so delivered shall be deemed to have been received by the cooperative association at a pool plant at the location of the pool plant to which it is delivered; and

(e) A producer-handler, or any person who operates an other order plant described in § 1132.61.

4. Section 1132.13 is revised as follows:

§ 1132.13 Producer-handler.

"Producer-handler" means any person who operates a dairy farm and a distributing plant but who receives no milk from other dairy farmers and who disposes of no fluid milk products in excess of his own milk production and fluid milk products received from pool plants.

5. Section 1132.15 is revised as follows:

§ 1132.15 Fluid milk product.

"Fluid milk product" means milk (including concentrated milk), skim milk (including reconstituted skim milk), buttermilk, filled milk, milk drinks (plain or flavored), cream, or any fluid mixture of cream and milk or skim milk (except storage cream, aerated cream products, eggnog, ice cream mix, evaporated or condensed milk, and sterilized products packaged in hermetically sealed containers): *Provided*, That when any such product is modified by the addition of nonfat milk solids the amount of skim milk to be included within this definition shall be only that amount equal to the weight of skim milk in an equal volume of an unmodified product of the same nature and butterfat content. This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

6. A new § 1032.18 is added as follows:

§ 1032.18 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of no fat milk solids), with or without milk fat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

7. In § 1132.30, paragraph (f) is revised as follows:

§ 1132.30 Reports of receipts and utilization.

(f) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement of the route disposition of Class I milk outside the marketing area and a statement showing separately in-area and outside area route disposition of filled milk.

8. In § 1132.31, paragraph (c) is revised as follows:

§ 1132.31 Other reports.

* * * * *

(c) Each handler operating a partially regulated distributing plant shall report pursuant to § 1132.30 including a separate statement showing the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area; and pursuant to §1132.31(b)(1) in the event that such handler does not elect at the regular time of reporting pursuant to § 1132.30 to pay amounts computed pursuant to § 1132.62 (b), except that receipts in Grade A milk from dairy farmers and payments to such dairy farmers shall be reported in lieu of receipts from and payments to producers.

9. In § 1132.32, paragraphs (b) and (c) are revised as follows:

§ 1132.32 Records and facilities.

* * * * *

(b) The weights and butterfat and other content of all milk, skim milk, cream and other milk products (including filled milk) handled during the month;

(c) The pounds of skim milk and butterfat contained in or represented by all milk products (including filled milk) on hand at the beginning and end of each month; and

10. In § 1132.44, subparagraph (5) of paragraph (e) is revised as follows:

§ 1132.44 Transfers.

* * * * *

(e) * * *

(5) For purposes of this paragraph (e), if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

* * * * *

11. In § 1132.46, subparagraphs (2), (3), (4), (7), and the introductory text of subparagraph (8) preceding subdivision (i), of paragraph (a) are revised as follows:

§ 1132.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3) (v) of this paragraph, as follows:

(i) From Class II milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources; and

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for invidiual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under th[illegible] step at a plant regulated under anot[illegible] market pool order;

(4) Subtract, in the order s[illegible] below, from the pounds of skim [illegible] maining in Class II but not i[illegible] such quantity:

(i) Receipts of fluid [illegible] from an unregulated sup[illegible]

were not subtracted pursuant to subparagraph (3)(iv) of this paragraph,

(*a*) For which the handler requests Class II utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from pool plants of other handlers, receipts from a cooperative association in its capacity as a handler pursuant to § 1132.12(c) and receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph; and

(ii) Receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plant, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraphs (3)(iv) or (4)(i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (3)(v) or (4)(ii) of this paragraph:

* * * * *

12. Section 1132.61 is revised as follows:

§ 1132.61 Plants subject to other Federal orders.

The provisions of this part shall not apply with respect to the operation of any plant specified in paragraphs (a) or (b) of this section except as specified in paragraphs (c) and (d).

(a) A distributing plant meeting the requirements of § 1132.10(a) which also meets the pooling requirements of another Federal order and from which, the Secretary determines, a greater quantity of Class I milk, except filled milk, is disposed of during the month on routes in such other Federal order marketing area than was disposed of to retail and wholesale outlets (excluding pool plants) in this marketing area, except that if such plant was subject to all the provi- this order in the immediately th, it shall continue to be e provisions of this order consecutive month in oportion of such Class e in such other mar- otwithstanding the agraph it is regu- r order. On the cation made by t 15 days prior ermination of the Secretary is to be effective, the Secretary may determine that the Class I dispositions in the respective marketing areas to be used for purposes of this paragraph shall exclude (for a specified period of time) such Class I disposition made under limited term contracts to governmental bases and institutions.

(b) A distributing plant meeting the requirements of § 1132.10(a) which also meets the pooling requirements of another Federal order on the basis of distribution in such other marketing area and from which, the Secretary determines, a greater quantity of Class I milk, except filled milk, is disposed of during the month to retail and wholesale outlets (excluding pool plants) in this marketing area than is disposed of on routes in such other marketing area but which plant is nevertheless fully regulated under such other Federal order;

(c) Each handler operating a plant described in paragraph (a) or (b) of this section shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(d) Each handler operating a plant specified in paragraph (a), if such plant is subject to the classification and pricing provisions of another order which provides for individual-handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

13. In § 1132.62, paragraphs (a)(1)(i) and (b) are revised as follows:

§ 1132.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1)(i) The obligation that would have been computed pursuant to § 1132.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1132.70(e) and a credit in the amount specified in § 1132.84(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph, and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location (not to be less than the Class II price) and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

14. Section 1132.83 is revised as follows:

§ 1132.83 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1132.61, 1132.62, 1132.84, and 1132.86, and out of which he shall make all payments pursuant to §§ 1132.85 and 1132.86: *Provided,* That payments due to any handler shall be offset by payments due from such handler.

15. In § 1132.90 paragraphs (a) and (d) are revised as follows:

§ 1132.90 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives

the handler's utilization report on the skim milk and butterfat involved in such obligation unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler within the applicable period of time, files pursuant to section 8c(15)(A) of the act, a petition claiming such money.

PART 1133—MILK IN THE INLAND EMPIRE MARKETING AREA

1. Section 1133.7 is revised to read as follows:

§ 1133.7 Plant.

"Plant" means the land, buildings, facilities, and equipment, whether owned or operated by one or more persons, constituting a single operating unit or establishment which is maintained primarily for receiving, processing or packaging of fluid milk and milk products (including filled milk). However, an establishment that is separate from the foregoing operating unit and used only for transferring bulk milk from one tank truck to another shall not be a plant under this definition.

2. In § 1133.8, paragraphs (a) and (b) are revised to read as follows:

§ 1133.8 Pool plant.

"Pool plant" means any plant described in paragraph (a) or (b) of this section, other than the plant of a producer-handler, or a plant with respect to which the handler is exempt pursuant to § 1133.61, which is approved by an appropriate health authority for the receiving of milk qualified for distribution as Grade A milk in the marketing area.

(a) Any plant, hereinafter referred to as a "distributing pool plant", in which fluid milk products are processed or packaged and from which during the month:

(1) Disposition of fluid milk products, except filled milk, on routes within the marketing area equals or exceeds the lesser of 250,000 pounds or 20 percent of the total receipts of Grade A milk from dairy farmers, cooperative associations pursuant to § 1133.15(d), and from pool supply plants and other plants forwarding the applicable percentage of receipts specified in paragraph (b) of this section to such plant and other pool distributing plants; and

(2) Total disposition of fluid milk products, except filled milk, on routes is 40 percent or more of such receipts in any of the months of February through August, inclusive, and 50 percent or more of such receipts in any of the months of September through January, inclusive.

(b) Any plant, hereinafter referred to as a "supply pool plant", from which there is forwarded in the form of fluid milk products, to a pool distributing plant(s) 50 percent or more each of the skim milk and butterfat in its dairy farm supply of Grade A milk except filled milk, during the current month during the period of September through November, or 20 percent or more during the current month during the period December through August. Any such plant which has forwarded in the form of fluid milk products, more than 50 percent of such receipts except filled milk, for the entire period of September through November shall be a pool plant for the months of December through August immediately following unless the operator of such plant files with the market administrator, prior to the first day of any month(s), a written request to withdraw such plant from pool plant status for such month(s); and

* * * * *

3. Section 1133.9, paragraph (c) is revised to read as follows:

§ 1133.9 Nonpool plant.

* * * * *

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

* * * * *

4. Section 1133.16 is revised to read as follows:

§ 1133.16 Producer-handler.

"Producer-handler" means any person who operates a dairy farm and a processing plant from which fluid milk products are distributed on routes in the marketing area but who receives no fluid milk products during the month from other dairy farmers or from any other source except by transfer from a pool plant, and who receives no nonfluid milk products for reconstitution into fluid milk products. Such person must provide proof satisfactory to the market administrator that the maintenance, care and management of the dairy animals and other resources necessary to produce his own farm milk production and the operation of the processing and distribution business is the personal enterprise and risk of such person.

5. Section 1133.17 is revised to read as follows:

§ 1133.17 Fluid milk product.

"Fluid milk product" means milk, skim milk, skim milk drinks, buttermilk, flavored milk, flavored milk drinks, filled milk, concentrated milk, skim milk or milk drinks (not including evaporated milk, condensed milk or condensed skim milk), fortified milk or skim milk (including "diet" foods), cream (sweet or sour), any mixture in fluid form of cream and milk or skim milk (except ice cream mix, frozen dessert mix, cocoa mixes, a product which contains 6 percent or more nonmilk fat (or oil), aerated products, eggnog and yogurt), which are neither sterilized nor in hermetically sealed metal containers.

6. A new § 1133.19 is added to read as follows:

§ 1133.19 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

7. In § 1133.30, subparagraph (3) of paragraph (a), and paragraph (b) are revised to read as follows:

§ 1133.30 Reports of receipts and utilization.

* * * * *

(a) * * *

(3) The utilization in each class of the quantities required to be reported, including separate statements of quantities (i) in inventories of fluid milk products on hand at the end of the month, (ii) in route disposition outside the marketing area, and (iii) of in-area and outside area route disposition of filled milk; and

* * * * *

(b) Each handler specified in § 1133.15(b) who operates a partially regulated distributing plant shall report as required in paragraph (a) of this section except that receipts of Grade A milk from dairy farmers shall be reported in lieu of producer milk; such report shall include a separate statement of the quantity of reconstituted milk in fluid milk products disposed of on routes in the marketing area. [illegible] read as

* * *

8. Section 1133.33 is [illegible]ities. follows:

§ 1133.33 Record[illegible]ntain and make [illegible]et administrator,

Each handler s[illegible], during the usual available to th[illegible], such accounts and or his repres[illegible]erations, including those hours of b[illegible] person upon whose utiliza- records of of any o[illegible]

tion the classification of skim milk and butterfat depends, and such facilities as, in the opinion of the market administrator, are necessary to verify or to establish the correct data with respect to:

(a) The information required to be reported pursuant to §§ 1133.30, 1133.31, and 1133.32;

(b) The weights and tests for butterfat and other contents of all milk, filled milk, and milk products handled, including filled milk; and

(c) Payments required to be made pursuant to §§ 1133.80 through 1133.88.

9. In § 1133.43, paragraph (b) is revised to read as follows:

§ 1133.43 Responsibility of handlers and reclassification of milk.

(a) All skim milk and butterfat shall be Class I unless the handler who first receives such skim milk or butterfat can establish to the satisfaction of the market administrator that such skim milk or butterfat should be classified otherwise:

(b) The burden shall rest upon each handler to establish the sources of milk and milk products (including filled milk) required to be reported by him pursuant to § 1133.30; and

(c) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

10. In § 1133.44, subparagraph (5) of paragraph (e) is revised to read as follows:

§ 1133.44 Transfers and diversions.

* * * * *

(e) * * *

(5) For purposes of this paragraph, if the transfered order provides for only two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to Class II under the other order shall be classified as Class III; and

* * * * *

11. In § 1133.46, subparagraphs (2), (3), (4), (7), and (8) of paragraph (a) are revised to read as follows:

1133.46 Allocation of skim milk and butterfat classified.

er making the computations pur- to § 1133.45, the market adminis- hall determine the classification the er milk for each handler as

(1. skim milk shall be allocated in skim mi manner: from the total pounds of to § 1133. lass III the pounds of

(2) Subtd as Class III pursuant pounds of ski. pounds of skim m the remaining ucts received in in each class the other order plants, fluid milk prod- tracted pursuant to su ed form from of this paragraph, as fo graph (3) (v) that to be sub-

(i) From Class III mil. the pounds remaining or lesser of of such receipts; and percent

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order.

(4) Subtract, in the order specified below, in sequence beginning with Class III from the pounds of skim milk remaining in Classes II and III, but not in excess of such quantity:

(i) Receipts of fluid milk products from an unregulated supply plant, that were not subtracted pursuant to subparagraph (3) (iv) of this paragraph;

(*a*) For which the handler requests Class II or Class III utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from other pool handlers, and receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3) (v) of this paragraph;

(ii) Receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3) (v) of this paragraph, in excess of similar transfers to such plant, if Class II or Class III utilization was requested by the operator of such plant and the handler;

(5) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in inventory of fluid milk products on hand at the beginning of the month;

(6) Add to the remaining pounds of skim milk in Class III milk the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraph (3) (iv) or (4) (i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (3) (v) or (4) (ii) of this paragraph:

* * * * *

12. In § 1133.51, paragraph (d) (2) is revised to read as follows:

§ 1133.51 Class prices.

* * * * *

(d) * * *

(2) Determine the total pounds of milk and milk products (including filled milk) disposed of from pool plants as Class I milk (excluding shrinkage, unaccounted for milk, and any duplications resulting from interhandler transfers) during the same 2 months;

13. Section 1133.61 is revised to read as follows:

§ 1133.61 Plants subject to other Federal orders.

(a) Except as specified in paragraphs (b) and (c), the provisions of this part shall not apply to any distributing or supply plant which would be subject to the classification, pricing and payment provisions of another order issued pursuant to the Act, unless a greater volume of fluid milk products, except filled milk, are disposed of on routes or to pool plants in the Inland Empire marketing area than in the marketing area regulated pursuant to such other order.

(b) The operator of a plant specified in paragraph (a) shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(c) Each handler operating a plant specified in paragraph (a), if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area.

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class III price.

14. In § 1133.62, paragraphs (a) (1) (i) and (b) are revised to read as follows:

§ 1133.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) An amount computed as follows:

(1) (i) The obligation that would have been computed pursuant to § 1133.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class III milk if allocated to such class at the pool pant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk shall be valued at the Class III price. There shall be included in the obligation so computed a charge in the amount specified in § 1133.70(e) and a credit in the amount specified in § 1133.84(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class III price, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph.

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location (not to be less than the Class III price) and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class III price.

15. Section 1133.63 is revised to read as follows:

§ 1133.63 State institutions.

A State owned and operated institution or establishment which processes or packages skim milk and butterfat distributed solely on its premises or those of other State institutions or establishments shall be exempt from all provisions of this part. Skim milk and butterfat received from institutions at pool plants shall be treated as other source milk received from a producer-handler, and fluid milk products disposed of by a handler to such institutions shall be classified on the same basis as though disposed of to a producer-handler.

16. Section 1133.83 is revised to read as follows:

§ 1133.83 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1133.61, 1133.62, 1133.84, and 1133.86 and out of which he shall make all payments to handlers pursuant to §§ 1133.85 and 1133.86.

17. In § 1133.89, paragraphs (a) and (d) are revised to read as follows:

§ 1133.89 Termination of obligations.

The provisions of this section shall apply to any obligation under this part for the payment of money:

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the month during which the market administrator receives the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of obligation;

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the month during which the skim milk and butterfat involved in the claims were received if an underpayment is claimed, or 2 years after the end of the month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1134—MILK IN THE WESTERN COLORADO MARKETING AREA

1. Section 1134.9 is revised to read as follows:

§ 1134.9 Pool plant.

"Pool plant" means any plant meeting the conditions of paragraph (a) or (b) of this section, except the plant of a producer-handler or the plant of a handler exempt under § 1134.61.

(a) Any plant hereinafter referred to as a "distributing pool plant," in which during the month fluid milk products are processed or packaged and from which:

(1) An amount equal to 50 percent or more of the total receipts of Grade A milk (except receipts from distributing pool plants) is disposed of as fluid milk products, except filled milk, on routes, and

(2) Ten percent or more of such receipts, or 2,000 pounds per day, whichever is less, are disposed of as fluid milk products, except filled milk, on routes in the marketing area; and

(b) Any plant hereinafter referred to as a "supply pool plant" from which during the month 50 percent of its dairy farm supply of Grade A milk is moved in the form of fluid milk products, except filled milk, to distributing pool plants. Any supply plant which has qualified as a pool plant in each of the months of September through February shall be a pool plant in each of the following months of March through August, unless written request for nonpool status for any such month(s) is furnished in advance to the market administrator. A plant withdrawn from supply pool plant status may not be reinstated for any of the following months of March through August unless it fulfills the shipping requirements of this paragraph for such month(s).

2. Section 1134.10 is revised to read as follows:

§ 1134.10 Nonpool plant.

"Nonpool plant" means any milk, or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued under the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued under the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant and from which fluid milk products are moved during the month to a pool plant.

3. Section 1134.16 is revised to read as follows:

§ 1134.16 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, flavored milk, flavored milk drinks, filled milk, reconstituted milk or skim milk fortified milk or skim milk (including "diet" foods), cream (sweet or sour), half and half, or any mixture in fluid form of milk or skim milk and cream (except ice cream mix, frozen dessert mixes, frozen cream, a product which contains 6 percent or more nonmilk fat or oil, aerated cream, eggnog, cultured sour mixtures to which cheese or any food substance other than a milk product has been added in an amount not less than 3 percent by weight of the finished product), which are neither sterilized nor in hermetically sealed containers.

4. A new § 1134.19 is added to read as follows:

§ 1134.19 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

5. In § 1134.30, subparagraph (5) of paragraph (a) and paragraph (c) are revised to read as follows:

§ 1134.30 Reports of receipts and utilization.

* * * * *

(a) * * *

(5) The utilization of all skim milk and butterfat required to be reported under this section, including a separate statement of the route disposition of Class I milk outside the marketing area, and a statement showing separately in-area and outside area route disposition of filled milk;

* * * * *

(c) Each handler operating a partially regulated distributing plant shall report as required in paragraph (a) of this section, except that receipts of Grade A milk from dairy farmers shall be reported in lieu of producer milk. Such report shall include a separate statement showing the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area.

6. Section 1134.33 is revised to read as follows:

§ 1134.33 Records and facilities.

Each handler shall maintain and make available to the market administrator during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipt and utilization of all skim milk and butterfat handled in any form;

(b) The weights and tests for butterfat and other content of all milk, filled milk and milk products handled;

(c) The pounds of skim milk and butterfat contained in or represented by all milk products and filled milk on hand at the beginning and end of each month; and

(d) Payments to producers, or to cooperative associations, including any deductions, and the disbursement of money so deducted.

7. In § 1134.44, subparagraph (5) of paragraph (e) is revised to read as follows:

§ 1134.44 Transfers.

* * * * *

(e) * * *

(5) For purposes of this paragraph, if the transferee order provides for only two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to another class shall be classified as Class III; and

* * * * *

8. Section 1134.46 is revised to read as follows:

§ 1134.46 Allocation of skim milk and butterfat classified.

After making the computations under § 1134.45 the market administrator shall determine each month the classification of milk received from producers by each cooperative association handler under § 1134.11 (c) and (d) which was not received at a pool plant and the classification of milk received from producers, from a pool plant operated by a cooperative association and from cooperative association handlers under § 1134.11(d) at a pool plant(s) for each handler as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk classified as Class III under § 1134.41(c)(7);

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (4)(v) of this paragraph, as follows:

(i) From the utilization comparable under such other order if the products are not classified as Class I under the other order;

(ii) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(iii) From Class I milk, the remainder of such receipts;

(3) Subtract from the remaining pounds of skim milk in Class I, the pounds of skim milk in inventory of fluid milk products in packaged form on hand at the beginning of the month;

(4) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order.

(5) Subtract in sequence beginning with Class III in the order specified below, from the pounds of skim milk remaining in Class III and Class II;

(i) The pounds of skim milk in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (4)(iv) of this paragraph, for which the handler requests Class III utilization, but not in excess of the pounds of skim milk remaining in Class III and Class II;

(ii) The pounds of skim milk remaining in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (4)(iv) of this paragraph, which are in excess of the pounds of skim milk determined as follows:

(*a*) Multiply the pounds of skim milk remaining in Class I by 1.25; and

(*b*) Subtract from the result the sum of the pounds of skim milk in producer milk, in receipts of fluid milk products from pool plants of other handlers and in receipts of fluid milk products in bulk from other order plants, that were not subtracted pursuant to subparagraph (4)(v) of this paragraph;

(iii) The pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (4)(v) of this paragraph, in excess of similar transfers or diversions to such plant, but not in excess of the pounds of skim milk remaining in Class III (and Class II), if Class III utilization was requested by the transferee handler and the operator of the transferor plant requests the lowest class utilization under the order;

(6) Subtract from the pounds of skim milk remaining in each class, in series, beginning with Class III, the pounds of skim milk in inventory of bulk fluid milk products on hand at the beginning of the month;

(7) Add to the remaining pounds of skim milk in Class III milk the pounds subtracted under subparagraph (1) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, pro rata to the total pounds of skim milk remaining

in each class, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants that were not subtracted under subparagraph (4)(iv) or (5) (i) or (ii) of this paragraph.

(9) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products or filled milk in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (4)(v) or (5)(iii) of this paragraph:

(i) Such subtraction shall be pro rata to whichever of the following represents the higher proportion of Class III and Class II combined;

(*a*) The estimated utilization of skim milk in each class by all handlers, as announced for the month under § 1134.22(l); or

(*b*) The pounds of skim milk remaining in each class at the pool plant of the handler;

(10) Substract from the pounds of skim milk remaining in each class the pounds of skim milk received in fluid milk products from other pool plants according to the classification assigned under § 1134.44;

(11) If the remaining pounds of skim milk in all classes exceed the pounds of skim milk contained in milk received from producers, and from cooperative associations under § 1134.11(d) subtract such excess from the remaining pounds of skim milk in series beginning with Class III. Any amount so subtracted shall be known as "overage".

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) Combine the amounts of skim milk and butterfat determined under paragraphs (a) and (b) of this section into one total for each class and determine the weighted average butterfat content of producer milk in each class.

9. Section 1134.61 is revised to read as follows:

§ 1134.61 Exempt plants.

In the case of a handler in his capacity as operator of a plant specified in paragraphs (a), (b), and (c) of this section the provisions of this part shall not apply except as specified in paragraphs (d) and (e):

(a) Any distributing plant from which less than an average of 200 pounds per day of Class I milk (except filled milk) is disposed of on routes in the marketing area during the month.

(b) Any distributing plant which would be subject to the classification and pricing provisions of another order issued under the Act, unless such plant is qualified as a pool plant under § 1134.9(a) and more Class I milk (except filled milk) is disposed of from such plant on routes in the Western Colorado marketing area than in the marketing area defined under such other order.

(c) Any plant qualified under § 1134.9 (b) for any portion of the period of March through August, inclusive, that the milk at such plant is subject to the classification and pricing provisions of another order issued under the Act.

(d) The operator of a plant specified in paragraphs (a), (b), or (c) shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(e) Each handler operating a plant specified in paragraph (b), if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of the receipts of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area.

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class III price.

10. In § 1134.62, paragraphs (a)(1)(i) and (b) are revised to read as follows:

§ 1131.62 Obligations of a handler operating a partially regulated distributing plant.

* * * * *

(a) An amount computed as follows:

(1)(i) The obligation that would have been computed under § 1134.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class III (or Class II) milk if allocated to such class at the pool plant or other order plant and be valued at the uniform price of the repective order if so allocated to Class I milk, except that reconstituted skim milk shall be valued at the Class III price. There shall be included in the obligation so computed a charge in the amount specified in § 1134.70(e) and a credit in the amount specified in § 1134.84(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class III price, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued under the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the uniform price applicable at such location (not to be less than the Class III price), and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class III price.

11. Section 1134.83 is revised to read as follows:

§ 1134.83 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers under §§ 1134.61, 1134.62, 1134.84, and 1134.86 and out of which he shall make all payments under §§ 1134.85 and 1134.86: *Provided,* That any payments due to any handler shall be offset by any payments due from such handler.

12. In § 1134.89, paragraphs (a) and (d) are revised to read as follows:

§ 1134.89 Termination of obligations.

The provisions of this section shall apply to any obligation under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the month during which the market administrator received the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the skim milk and butterfat with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the names of such pro-

ducer(s) or cooperative association, or if the obligation is payable to the market administrator, the account for which it is to be paid;

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the month during which the payment (including deduction or offset by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time files, under section 8c (15) (A) of the Act, a petition claiming such money.

PART 1136—MILK IN THE GREAT BASIN MARKETING AREA

1. In § 1136.8 paragraph (c) is revised to read as follows:

§ 1136.8 Producer-handler.

* * * * *

(c) The operation of the milk (including filled milk) production, processing and distributing facilities are under the complete and exclusive control of such person and at his sole risk.

2. Section 1136.10 is revised to read as follows:

§ 1136.10 Approved plant.

"Approved plant" means a plant which either receives milk from dairy farmers or possesses the approval of any duly constituted health authority for the processing or packaging of Grade A fluid products, and (a) in which milk or milk products (including filled milk) are processed or packaged and from which any fluid milk product is disposed of during the month on routes in the marketing area, or (b) in which milk is received or processed and from which milk or skim milk is shipped during the month to a plant described in paragraph (a) of this section.

3. Section 1136.11 is revised to read as follows:

§ 1136.11 Pool plant.

"Pool plant" means:

(a) An approved plant, except the plant of a producer-handler as described in § 1136.8, from which during the month there is disposed of on routes fluid milk products, except filled milk, equal to not less than 50 percent of the receipts during the month at such plant of producer milk, producer milk diverted therefrom by the plant operator and receipts at the plant of fluid milk products, except filled milk, from plants described pursuant to paragraph (b) of this section, and there are disposed of on routes in the marketing area fluid milk products, except filled milk, equal to not less than 15 percent of the total fluid milk product disposition, except filled milk, from the plant on routes. If any cooperative association operating an approved plant as defined in § 1136.10(a) causes producer milk to be delivered to a pool plant pursuant to this paragraph operated by another handler, such producer milk shall be included for the computations made pursuant to this paragraph for such cooperative association's plant along with the receipts of producer milk at such cooperative association's plant, and the quantity of such milk calculated as Class I milk pursuant to § 1136.22(h) shall be included for such computations along with the fluid milk products, except filled milk, disposed of on routes from such cooperative association's plant. If such a cooperative association operates more than one approved plant as defined in § 1136.10(a), such producer milk and Class I milk shall be included in the computation for whichever plant the cooperative association requests in writing to the market administrator. If no such written request is made, such producer milk and Class I milk shall be prorated among the plants. If a handler operates more than one approved plant, the combined receipts and fluid milk products disposition, except filled milk, of any of such plants may be used as the basis for qualifying the respective plants pursuant to the preceding computations specified in this paragraph if the handler in writing so requests the market administrator.

(b) An approved plant from which during the month fluid milk products, except filled milk, equal to not less than 50 percent of the total of receipts at the plant from dairy farmers meeting the inspection requirements described in § 1136.7, milk diverted pursuant to § 1136.13 by the handler operating the plant and other fluid milk products, except filled milk, qualified for distribution for fluid consumption received at the plant are shipped to a plant described in paragraph (a) of this section: *Provided*, That a plant which so qualifies in each of the months of August through January as a pool plant shall be a pool plant in each of the following months of February through July unless the operator requests in written notice to the market administrator that such plant not be a pool plant, such nonpool status to be effective the first month following such notice and thereafter until the plant qualifies as a pool plant on the basis of shipments.

4. In § 1136.12 the introductory text preceding paragraph (a) is revised to read as follows:

§ 1136.12 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

* * * * *

5. Section 1136.15 is revised to read as follows:

§ 1136.15 Fluid milk products.

"Fluid milk products" means milk, skim milk, buttermilk, flavored milk, flavored milk drinks, filled milk, cream (sweet or sour) except frozen cream, concentrated milk (fresh or frozen), fortified milk or skim milk, reconstituted milk or skim milk, or any mixture in fluid form of milk, skim milk and cream (except ice cream, ice cream mix, eggnog, a product which contains 6 percent or more nonmilk fat (or oil), aerated cream, evaporated or condensed milk (plain or sweetened), and sterilized products in hermetically sealed containers).

6. A new § 1136.18 is added to read as follows:

§ 1136.18 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

7. In § 1136.30, subparagraph (2) of paragraph (a) is revised to read as follows:

§ 1136.30 Reports of sources and utilization.

(a) * * *

(2) The utilization of all skim milk and butterfat required to be reported pursuant to subparagraph (1) of this paragraph, including a separate statement of the route disposition of Class I milk outside the marketing area, and a statement showing separately in-area and outside area route disposition of filled milk;

* * * * *

8. In § 1136.31, paragraph (c) is revised to read as follows:

§ 1136.31 Other reports.

* * * * *

(c) Each handler specified in § 1136.9 (a) (2) who operates a partially regulated distributing plant shall report as required in § 1136.30, except that receipts of milk produced in compliance with the inspection requirements of a duly constituted health authority for fluid consumption shall be reported in lieu of producer milk; such report shall include a separate statement showing the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area.

9. In § 1136.42, paragraph (c) and subparagraph (5) of paragraph (d) are revised to read as follows:

§ 1136.42 Transfers.

* * * * *

(c) If transferred in bulk form as milk, filled milk, skim milk, or cream to a nonpool plant which is neither an other order plant nor a producer-handler plant, shall be classified as Class I milk unless the requirements of subparagraphs (1), (2) and (3) of this paragraph are met, in which case the skim milk and butterfat so transferred shall be classified in accordance with the assignment resulting from subparagraph (4) of this paragraph:

(d) * * *

(5) For purposes of this paragraph (d), if the transferee order provides for only two classes of utilization, skim milk

and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I and skim milk and butterfat allocated to Class II under the other order shall be classified as Class III; and

* * * * *

10. In § 1136.44, subparagraphs (2), (3), (4), (7), and (8) of paragraph (a) are revised to read as follows:

§ 1136.44 Allocation of skim milk and butterfat classified.

After making the computations pursuant to § 1136.43, the market administrator shall determine each month the classification of milk received from producers by each cooperative association handler pursuant to § 1136.9 (b) and (c) which was not received at a pool plant and the classification of milk received from producers and from cooperative association handlers pursuant to § 1136.9 (c) by each handler (or pool plant, if applicable) as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk classified as Class III pursuant to § 1136.41(c)(5);

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(i)(*d*) of this paragraph, as follows:

(i) From Class III milk, the lesser of the pounds remaining or the quantity associated with such receipts and classified as Class III pursuant to § 1136.41(c)(8) plus two percent of such receipts (weight of an equal volume of a like unmodified product of the same butterfat content);

(ii) From Class I milk, the remainder of such receipts; and

(iii) In the event that packaged other order milk receipts (including filled milk) are in excess of the total amount subtracted pursuant to § 1136.44(a)(2)(i) and (ii), the remaining quantity shall be substracted from the utilization remaining in Class III and then Class II;

(3) Subtract, in the order specified below, the pounds of skim milk in each of the following:

(i) From the pounds of skim milk remaining in each class, in series beginning with Class III:

(*a*) Other source milk in a form other than that of a fluid milk product;

(*b*) Receipts of fluid milk products (except filled milk) not qualified for fluid consumption, and receipts of fluid milk products from unidentified sources;

(*c*) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order, and from exempt plants as defined in § 1136.60(a);

(*d*) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(*e*) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(ii) From the pounds of skim milk remaining in Class II and Class III, beginning with Class II, receipts from pool plants of other handlers (or other pool plants, if applicable) in the form of cottage cheese;

(4) Substract, in the order specified below in sequence beginning with Class III, from the pounds of skim milk remaining in Classes II and III but not in excess of such quantity:

(i) Receipts of fluid milk products from an unregulated supply plant, that were not subtracted pursuant to subparagraph (3)(i)(*d*) of this paragraph, for which the handler requests Class III utilization;

(ii) Receipts of fluid milk products from an unregulated supply plant, that were not subtracted pursuant to subparagraph (3)(i)(*d*) of this paragraph, which are in excess of the pounds of skim milk determined as follows:

(*a*) Multiply the pounds of skim milk remaining in Class I by 1.25; and

(*b*) Subtract from the result the sum of the pounds of skim milk in producer milk, in receipts from pool plants of other handlers (or other pool plants, if applicable), and in receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3)(i)(*e*) of this paragraph;

(iii) Receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3)(i)(*e*) of this paragraph, in excess of similar transfers to such plant, if Class III utilization was requested by the transferee handler and the operator of the transferor plant requests the lowest class utilization under the other order;

(5) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in inventory of fluid milk products on hand at the beginning of the month;

(6) Add to the remaining pounds of skim milk in Class III milk the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated plants which were not subtracted pursuant to subparagraph (3)(i)(*d*) or (4)(i) or (ii) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (3)(i)(*e*) or (4)(iii) of this paragraph:

* * * * *

11. Section 1136.61 is revised to read as follows:

§ 1136.61 Plants where other Federal orders may apply.

Any plant described by paragraph (a) or (b) of this section shall be exempt from § 1136.11, except as specified in paragraphs (c) and (d):

(a) Any plant which does not dispose of a greater volume of Class I milk, except filled milk, on routes in the Great Basin marketing area than in the marketing area regulated pursuant to such other order; and

(b) Any plant during the months of February through July which qualifies as a pool plant only pursuant to the proviso of § 1136.11(b).

(c) The operator of a plant specified in paragraph (a) or (b) shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(d) Each handler operating a plant specified in paragraph (a), if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area.

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class III price.

12. In § 1136.62, paragraphs (a)(1)(i) and (b) are revised to read as follows:

§ 1136.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) An amount computed as follows:

(1)(i) The obligation that would have been computed pursuant to § 1136.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class III (or Class II) milk if allocated to such class at the pool plant or other order plant and be valued at the uniform price of

the respective order if so allocated to Class I milk, except that reconstituted skim milk shall be valued at the Class III price. There shall be included in the obligation so computed a charge in the amount specified in § 1136.70(e) and a credit in the amount specified in § 1136.82(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class III price, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes (other than to a pool plant) in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the uniform price applicable at such location (not to be less than the Class III price), and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class III price.

13. Section 1136.81 is revised to read as follows:

§ 1136.81 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1131.61, 1136.62, 1136.82, and 1136.84, and out of which he shall make all payments pursuant to §§ 1136.83 and 1136.84: *Provided,* That any payments due to any handler shall be offset by any payments due from such handler.

14. In § 1136.87, paragraphs (a) and (d) are revised to read as follows:

§ 1136.87 Termination of obligations.

The provisions of this section shall apply to any obligations under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this order shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the month during which the market administrator received the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The months during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the month during which the payment (including deduction or offset by the market administrator) was made by the handler, if a refund on such payment is claimed unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1137—MILK IN THE EASTERN COLORADO MARKETING AREA

1. Section 1137.7 is revised to read as follows:

§ 1137.7 Pool plant.

"Pool plant" means any plant meeting the conditions of paragraph (a) or (b) of this section except the plant of a producer-handler or the plant of a handler exempt pursuant to § 1137.61.

(a) Any plant, hereinafter referred to as a "distributing pool plant", in which during the month fluid milk products are processed or packaged and from which (1) an amount equal to 50 percent or more of the total receipts of Grade A milk (except receipts from distributing pool plants) is disposed of as fluid milk products, except filled milk, on routes, and (2) 10 percent or more of such receipts, or 12,000 pounds per day, whichever is less, are disposed of as fluid milk products, except filled milk, on routes in the marketing area; and

(b) Any plant, hereinafter referred to as a "supply pool plant" from which during the month 50 percent of its dairy farm supply of Grade A milk is moved to distributing pool plant(s) as fluid milk products, except filled milk. Any supply plant which has qualified as a pool plant in each of the months of September through February (under either this part or under Part 1135 of this chapter, regulating the handling of milk in Colorado Springs-Pueblo marketing area) shall be a pool plant in each of the following months of March through August unless written request for nonpool status for any such month(s) is furnished in advance to the market administrator. A plant withdrawn from supply pool plant status may not be reinstated for any subsequent month of March through August unless it fulfills the shipping requirements of this paragraph for such month.

2. Section 1137.8 is revised to read as follows:

§ 1137.8 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant which is neither an other order plant nor a producer-handler plant and from which fluid milk products are moved during the month to a pool plant qualified pursuant to § 1137.7.

3. Section 1137.11 is revised to read as follows:

§ 1137.11 Producer-handler.

(a) "Producer-handler" means any person who operates a dairy farm and a milk processing plant which distributes fluid milk products on routes in the marketing area and who:

(1) Receives no fluid milk products during the month from dairy farmers;

(2) Receives no fluid milk products during the month from any other source except by transfer from a pool plant; and

(3) Receives no other source milk for reconstitution into fluid milk products.

(b) Such person must provide proof satisfactory to the market administrator that the care and management of all the dairy animals and other resources necessary to produce the volume of fluid milk products (excluding transfers from pool plants) and the operation of the processing and distribution business is the personal enterprise of and at the personal risk of such person.

4. Section 1137.14 is revised to read as follows:

§ 1137.14 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, flavored milk, flavored milk drinks, filled milk, concentrated milk, reconstituted milk or skim milk, fortified milk or skim milk (including "diet" foods), sweet cream, sour cream and sour cream mixtures disposed of under a Grade A label, half and half, or any mixture in fluid form of milk or skim milk and cream (except ice cream mix, frozen dessert mix, a product which contains 6 percent or more nonmilk fat (or oil), aerated cream, frozen cream, plastic cream, eggnog and sterilized products

packaged in hermetically sealed containers).

5. Section 1137.15 is revised to read as follows:

§ 1137.15 Route.

"Route" means any delivery to retail or wholesale outlets (including a delivery by a vendor or a sale from a plant or plant store) of any fluid milk product, other than a delivery to a pool plant or a nonpool plant: *Provided,* That packaged fluid milk products, except filled milk, that are transferred to a distributing pool plant from a plant with route disposition in the marketing area, and which are classified as Class I under § 1137.44(a), shall be considered as a route disposition from the transferor plant, rather than from the transferee plant, for the single purpose of qualifying it as a pool distributing plant under § 1137.7(a)(1).

6. A new § 1137.16 is added to read as follows:

§ 1137.16 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

7. In § 1137.30, subparagraph (5) of paragraph (a), and paragraph (c) are revised to read as follows:

§ 1137.30 Reports of receipts and utilization.

* * * * *

(a) * * *

(5) The utilization of all skim milk and butterfat required to be reported by this section, including a separate statement of the route disposition of Class I milk outside the marketing area, and a statement showing separately in-area and outside area route disposition of filled milk;

* * * * *

(c) Each handler operating a partially regulated distributing plant shall report as required in paragraph (a) of this section, except that receipts of Grade A milk from dairy farmers shall be reported in lieu of producer milk; such report shall include a separate statement showing the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area.

8. In § 1137.44, subparagraph (5) of paragraph (d) is revised to read as follows:

§ 1137.44 Transfers.

* * * * *

(d) * * *

(5) For purposes of this paragraph, if the transferee order provides for only two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to another class shall be classified as Class III; and

* * * * *

9. In § 1137.46, subparagraphs (2), (3), (4), (5), (6), (8), and (9) of paragraph (a) are revised to read as follows:

§ 1137.46 Allocation of skim milk and butterfat classified.

After making the computations pursuant to § 1137.45, the market administrator shall determine each month the classification of milk received from producers by each cooperative association handler pursuant to § 1137.9 (c) and (d) which was not received at a pool plant and the classification of milk received from producers, from a pool plant operated by a cooperative association and from cooperative association handlers pursuant to § 1137.9(d) at a pool plant(s) for each handler as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk classified as Class III pursuant to § 1137.41(c)(7);

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (4)(v) of this paragraph as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract from the remaining pounds of skim milk in Class I, the pounds of skim milk in inventory of fluid milk products in packaged form on hand at the beginning of the month;

(4) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order.

(5) Subtract, in sequence beginning with Class III in the order specified below, from the pounds of skim milk remaining in Class III and Class II;

(i) The pounds of skim milk in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (4)(iv) of this paragraph, for which the handler requests Class III utilization, but not in excess of the pounds of skim milk remaining in Class III and Class II;

(ii) The pounds of skim milk remaining in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (4)(iv) of this paragraph, which are in excess of the pounds of skim milk determined as follows:

(*a*) Multiply the pounds of skim milk remaining in Class I by 1.25; and

(*b*) Subtract from the result the sum of the pounds of skim milk in producer milk, in receipts from pool plants of other handlers and in receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (4)(v) of this paragraph.

(iii) The pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (4)(v) of this paragraph, in excess of similar transfers or diversions to such plant, but not in excess of the pounds of skim milk remaining in Class III (and Class II), if Class III utilization was requested by the transferee handler and the operator of the transferor plant requests the lowest class utilization under the other order;

(6) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in inventory of bulk fluid milk products on hand at the beginning of the month;

(7) Add to the remaining pounds of skim milk in Class III milk the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, pro rata to the total pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraphs (4)(iv) or (5)(i) or (ii) of this paragraph. (For purposes of this subtraction at a pool plant(s) operated by a cooperative association, skim milk in fluid milk products transferred to the pool plant of another handler shall be added to the remaining pounds of skim milk in each class prorata to the market average utilization announced pursuant to § 1137.22(1));

(9) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (4)(v) or (5)(iii) of this paragraph:

* * * * *

§ 1137.61 Exempt plants.

The provisions of this part shall not apply with respect to the operation of any plant specified in paragraph (a), (b), or (c) of this section except as specified in paragraphs (d) and (e):

(a) A plant meeting the requirements of § 1137.7(a) which also meets the pooling requirements of another Federal order and from which, the Secretary determines, a greater quantity of Class I milk, except filled milk, was disposed of during the month on routes in such other Federal order marketing area than was disposed of on routes in this marketing area, except that if such plant was subject to all the provisions of this part in the immediately proceding month, it shall continue to be subject to all the provisions of this part until the third consecutive month in which a greater proportion of its Class I disposition, except filled milk, is made in such other marketing area unless, notwithstanding the provisions of this paragraph, it is regulated under such other order;

(b) A plant meeting the requirements of § 1137.7(a) which also meets the pooling requirements of another Federal order on the basis of distribution in such other marketing area and from which, the Secretary determines, a greater quantity of Class I milk, except filled milk, is disposed of during the month on routes in this marketing area than is so disposed of in such other marketing area but which plant is, nevertheless, fully regulated under such other Federal order;

(c) Any distributing plant from which less than an average of 300 pounds of Class I milk per day, except filled milk, is disposed of on routes in the marketing area during the month; and

(d) Each handler operating a plant described in paragraph (a), (b), or (c) shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such manner as the market administrator may require (in lieu of reports pursuant to §§ 1137.30 through 1137.32) and allow verification of such reports by the market administrator.

(e) Each handler operating a plant specified in paragraph (a), if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month and amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more marketwide pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area.

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class III price.

10. In § 1137.62, paragraphs (a) (1) (i) and (b) are revised to read as follows:

§ 1137.62 Obligations of a handler operating a partially regulated distributing plant.

* * * * *

(a) An amount computed as follows:

(1) (i) The obligation that would have been computed pursuant to § 1137.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class III (or Class II) milk if allocated to such class at the pool plant or other order plant and be valued at the uniform price of the respective order if so allocated to Class I milk, except that reconstituted skim milk shall be valued at the Class III price. There shall be included in the obligation so computed a charge in the amount specified in § 1137.70(e) and a credit in the amount specified in § 1137.84(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class III price, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content;

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the uniform price applicable at such location (not to be less than the Class III price), and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class III price.

11. Section 1137.83 is revised to read as follows:

§ 1137.83 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1137.61, 1137.62, 1137.84, and 1137.86 and out of which he shall make all payments pursuant to §§ 1137.85 and 1137.86: *Provided,* That any payments due to any handler shall be offset by any payments due from such handler.

12. In § 1137.89, paragraphs (a) and (d) are revised to read as follows:

§ 1137.89 Termination of obligation.

The provisions of this section shall apply to any obligation under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section terminate 2 years after the last day of the month during which the market administrator received the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The months during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the month during which the payment (including deduction or offset by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

PART 1138—MILK IN THE RIO GRANDE VALLEY MARKETING AREA

1. In § 1138.8 paragraph (c) is revised to read as follows:

§ 1138.8 Producer-handler.

* * * * *

(c) A governmental agency which operates a milk, or filled milk plant shall be considered a producer-handler: *Provided,* That the plant operated by such agency shall be a pool plant if bulk milk is delivered during the month by such governmental agency to another plant which is a pool plant and a written request is filed by the agency with the market administrator asking that its plant be considered a pool plant. If such a plant is made a pool plant at the request of the governmental agency for one month and thereafter resumes the status of a nonpool plant it shall not be eligible for pool plant status again until

it has been a nonpool plant for 12 consecutive months.

2. In § 1138.10, paragraphs (a) and (b) are revised as follows:

§ 1138.10 Pool plant.

* * * * *

(a) Any plant hereinafter referred to as a "distributing pool plant" in which fluid milk products are pasteurized or packaged and from which not less than 15 percent of the total Class I sales of such plant, except filled milk, or 10,000 pounds daily (average), whichever is less, are made in the marketing area on routes: *Provided,* That the total quantity of Class I milk, except filled milk, disposed from such plant during the month is not less than 50 percent of such plant's receipts of Grade A milk, which receipts shall include all milk diverted from such pool plant to a nonpool plant by the handler operating such pool plant;

(b) Any plant hereinafter referred to as a "supply pool plant" from which during the month not less than 50 percent of its dairy farm supply of Grade A milk is moved to plants from each of which a volume of Class I milk, except filled milk, not less than 50 percent of its receipts of Grade A milk is disposed of on routes during the month and Class I milk, except filled milk, disposed of in the marketing area on routes is at least 15 percent of such receipts or a daily average of 10,000 pounds, whichever is less.

* * * * *

3. Section 1138.11 is revised to read as follows:

§ 1138.11 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant from which fluid milk products eligible for distribution in the marketing area are moved to a pool plant qualified pursuant to § 1138.10 and which is not an other order plant nor a producer-handler plant.

4. Section 1138.14 is revised to read as follows:

§ 1138.14 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, flavored milk, milk drinks (plain or flavored), filled milk, reconstituted milk or skim milk, fortified milk (including "dietary" milk products), concentrated milk, sweet cream and any mixture of milk, skim milk, or sweet cream except frozen cream, frozen dessert mixes, ice cream mix, evaporated or condensed milk or skim milk, aerated cream products, and sterilized products in hermetically sealed containers; and eggnog, yogurt and sour cream and cultured sour cream mixes shall be considered as fluid milk products only if disposed of under a Grade A label. This definition shall not include a product which contains 6 percent or more nonmilk fat (or oil).

5. A new § 1138.16 is added to read as follows:

§ 1138.16 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

6. In § 1138.30, subparagraph (6) of paragraph (a) and paragraph (b) are revised to read as follows:

§ 1138.30 Reports of receipts and utilization.

* * * * *

(a) * * *

(6) The route disposition of fluid milk products in the marketing area and a statement showing separately in-area and outside area route disposition of filled milk;

* * * * *

(b) Each handler who operates a partially regulated distributing plant shall report as required in paragraph (a) of this section, except that receipts in Grade A milk shall be reported in lieu of those in producer milk such report shall include a separate statement showing the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area; and

* * * * *

7. Section 1138.36 is revised to read as follows:

§ 1138.36 Accounting periods.

A handler may account for receipts, utilization and classification of skim milk and butterfat at his pool plant(s) for two periods within a month, each period not to be less than 7 days, in the same manner as for a month if he provides to the market administrator in writing not less than 24 hours prior to the end of an accounting period notification of his intention to use two accounting periods.

8. In § 1138.44, subparagraph (5) of paragraph (e) is revised to read as follows:

§ 1138.44 Transfers.

* * * * *

(e) * * *

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to other classes shall be classified as Class II; and

9. In § 1138.46, subparagraphs (2), (3), (4), (7), and the introductory text of subparagraph (8) preceding subdivision (i), of paragraph (a) are revised to read as follows:

§ 1138.46 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(2) Subtract from the remaining pounds of skim milk in each class as follows:

(i) From Class I milk, the pounds of skim milk that were received from a producer-handler as packaged, certified fluid milk products and were disposed of in the same form as received;

(ii) From Class II milk, with respect to the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph, the lesser of the pounds remaining or 2 percent of such receipts; and

(iii) From Class I milk, the remainder of the receipts specified in subdivision (ii) of this subparagraph;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources; and

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order, except that subtracted pursuant to subparagraph (2)(i) of this paragraph;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(4) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II:

(i) The pounds of skim milk in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph, for which the handler requests Class II utilization, but not in excess of the pounds of skim milk remaining in Class II;

(ii) The pounds of skim milk remaining in receipts of fluid milk products from unregulated supply plants, that were not subtracted pursuant to

subparagraph (3) (iv) of this paragraph, which are in excess of the pounds of skim milk determined as follows:

(a) Multiply the pounds of skim milk remaining in Class I (excluding Class I transfers between pool plants of the handler) at all pool plants of the handler by 1.25;

(b) Subtract from the result the sum of the pounds of skim milk at all such plants in producer milk, in receipts from other pool handlers and in receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3) (v) of this paragraph; and

(c) Multiply any resulting plus quantity by the percentage that receipts of skim milk in fluid milk products from unregulated supply plants remaining at this plant is of all such receipts remaining at all pool plants of such handler, after any deductions pursuant to subdivision (i) of this subparagraph.

Should such computation result in a quantity to be subtracted from Class II which is in excess of the pounds of skim milk remaining in Class II, the pounds of skim milk in Class II shall be increased to the quantity to be subtracted and the pounds of skim milk in Class I shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made.

(iii) The pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3) (v) of this paragraph, in excess of similar transfers to such plant, but not in excess of the pounds of skim milk remaining in Class II milk, if Class II utilization was requested by the operator of such plant and the handler;

* * * * *

(7) (i) Subtract from the pounds of skim milk remaining in each class, pro rata to the total pounds of skim milk remaining in each class in all pool plants of the receiving handler, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraphs (3) (iv) or (4) (i) or (ii) of this paragraph;

(ii) Should such proration result in the amount to be subtracted from any class exceeding the pounds of skim milk remaining in such class in the pool plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case the utilization of milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made;

(8) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant, in excess in each case of similar transfers to the same plant, that were not subtracted pursuant to subparagraphs (3) (v) or (4) (iii) of this paragraph pursuant to the following procedure:

* * * * *

10. Section 1138.61 is revised to read as follows:

§ 1138.61 Plants subject to other Federal orders.

A plant specified in paragraph (a) or (b) of this section shall be exempted from all the provisions of this part, except as specified in paragraphs (c) and (d):

(a) Any plant qualified pursuant to § 1138.10(a) which disposes of a lesser volume of Class I milk, except filled milk, in the Rio Grande Valley marketing area than in a marketing area where the handling of milk is regulated pursuant to another order issued pursuant to the Act, and which is subject to the classification and pricing provisions of such other order;

(b) Any plant qualified pursuant to § 1138.10(b) for any portion of the period March through July, inclusive, that the milk of producers at such plant is subject to the classification and pricing provisions of another order issued pursuant to the Act and the Secretary determines that such plant should be exempted from this part;

(c) Each handler operating a plant described in paragraph (a) or (b) of this section shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(d) Each handler operating a plant specified in paragraph (a), if such plant is subject to the classification and pricing provisions of another order which provides for individual-handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price applicable at the nonpool plant and subtract its value at the Class II price.

11. In § 1138.62, paragraphs (a) (1) (i) and (b) are revised to read as follows:

§ 1138.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(1) (i) The obligation that would have been computed pursuant to § 1138.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the uniform price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1138.70(e) and a credit in the amount specified in § 1138.84 (b) (2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the repective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the uniform price applicable at such location (not to be less than the Class II price) and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

12. Section 1138.83 is revised to read as follows:

§ 1138.83 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1138.61, 1138.62, 1138.84, and 1138.86 and out of which he shall make all payments pursuant to §§ 1138.85 and 1138.86: *Provided*, That any payments due any handler shall be

offset by any payments due from such handler.

13. In § 1138.89, paragraphs (a) and (d) are revised to read as follows:

§ 1138.89 Termination of obligations.

* * * * *

(a) The obligation of any handler to pay money required to be paid under the terms of this order shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the month during which the market administrator received the handler's utilization report on the skim milk and butterfat involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The months during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the names of such producers or cooperative associations, or if the obligation is payable to the market administrator, the account for which it is to be paid.

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or offset by the market administrator) was made by the handler, if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

Signed at Washington, D.C., on June 17, 1969.

JOHN C. BLUM,
Deputy Administrator,
Regulatory Programs.
