The Business of this Company consists in the **Purchase** of, or **Loans** upon **REVERSIONARY INTERESTS**, vested or contingent, in well secured Property; also **LIFE INTERESTS** in Possession or in Expectation.

LOANS UPON REVERSIONS may be obtained either at an Annual Interest, or in consideration of redeem-

able deferred charges, payable upon the REVERSIONS falling in.

PRESENT INCOMES are likewise advanced upon the latter principle to persons entitled to Reversionary Interests, who may thus obtain the means of support until their property falls into possession, without being called upon for any payment until that event.

Prospectuses and Forms of Proposal may be obtained from the Secretary, to whom all communications should be addressed.

#### WHITE ZINC PAINT. HUBBUCK'S PATENT

In the case of "HUBBUCK & SON v. STORER & SONS," to restrain the Defendants, by using similar Trade Marks, from passing off their goods as and for those of the Plaintiffs, which came before Mr. Justice Kekewich on the 17th of April, 1888, Mr. Willis Bond, who appeared for Plaintiffs, stated that it would not be necessary to trouble the Court with hearing the case, as the DEFENDANTS HAD CONSENTED TO A PERPETUAL INJUNCTION. His Lordship made an order in the terms agreed upon.

HUBBUCK'S PREPARED LIQUID PAINTS.

These Paints are packed in 1 lb., 2 lb., 3 lb., 4 lb., 7 lb. and 14 lb. tins, and 28 lb. drums; and will be found of great advantage. Being mixed ready for immediate use, no further preparation is needed.

**HUBBUCK**'

The most valuable protection to Iron Roofs, Bridges, Piers, Ships and Buildings exposed to stormy weather and ecorching sun; they soon become extremely hard, do not blister, and are very durable.

THE COMPANY ARE PREPARED TO DELIVER, IN QUANTITIES! OF NOT LESS THAN 10 SACKS, BROKEN OR UNBROKEN COKE, ANY DISTANCE NOT EXCEEDING 4 MILES AT AN BXTRA CHARGE OF 1/6 PER 10 SACKS.

The PRICE of COKE is Advertised Weekly in the Local Papers.

 $B^{\rm ROKEN\,COKK}$  which is largely used on the Continent, has recently been introduced into this country, and, being a good and economical fuel, its use is rapidly extending. In this form the labour and waste necessitated by the present system of breaking up by servants is avoided; and owing to the broken lying much more closely than the large coke, a sack

bolds a considerably larger quantity of the former than the latter. Fiftcen sacks of the large are required to produce twelve sacks of the broken coke. As a fuel for heating purposes its advantages are very great, and for cooking it is invaluable. If used with coal it will greatly assist to consume the imfammable gases given off by the coal, and thus prevent much of the loss of fuel cocasioned by the excape of those gases in the form of smoke. Coke is clean, nearly smokeless, and gives a great heat, and is therefore highly recommended as a fuel for all kinds of closed stoves and kitcheners, as it leaves very little deposit of soot or dust in the flues. By using the Broken Coke alone the saving in fuel will be found to be considerable and well worth a trial.

Every Order to be accompanied with a remittance.—Cheques and Post Office Orders to be made payable to BRENTFORD GAS COMPANY.

#### ECONOMY AND COMFORT.—COOKING AND HEATING BY GAS.

THE BRENTFORD GAS COMPANY, with a view of carrying into practical effect the objects of the late Smoke Abatement Exhibition, and convinced of the great advantages both in point of Economy and Confort to be derived from using Gas for the purposes of Cooking and Heating, is prepared to SELL or LET on HIRE all kinds of GAS COOKING AND HEATING STOVES. This is to certify that Mr. A. Hewens has laid on hot water all over my house, and has done the work exceedingly well it giving entire satisfaction.—R. H. SHACKLE.

Dear Sir,—In reply to your enquiry as to the efficiency of the hot water apparatus you fixed here last autumn for the wamming of this establishment, I am very glad to inform you that it gives me entire satisfaction. Our shop and show rooms have been nicely surned during the recent severely cold weather, and our customers have greatly speciated the comfortable temperature. I rather feared two the position we were obliged to fix the boiler that we should have some difficulty in the matter of tumes and smells, but the result have proved that these apprehensions were quite groundless.—Yours faithfully, W. SAMUEL WRIGHT CO..

Brewers and Maltsters, Victoria Brewery and Mineral Water Works, WALKERN, STEVENAGE,

Analysis of the Executors of S. Wright's Ale.

By Mr. Lawrence Briant, F.C.S., Author of the Laboratory Text Book for Brewers.

Laboratory: Gresham House, 24, Holborn Viaduct, London, E.C., May 17th, 1886.

Dear Sirs, -I have carefully analysed the sample of Ale you have submitted to me with the following results:

							PEF	CENTA
ALCOHOL (	PROC	F SPI	RIT)	 	 	 	 	8.60
MALTOSE				 	 	 	 	1.10
DEXTRINE				 	 	 	 	1.32
ALBUMENO	US M	ATTE	RS	 	 	 	 	0.71
ASH				 	 	 	 	0.64
Tron Times								1.00

The Ale is very brilliant, of excellent flavour, and possesses that sparkling condition so much desired by the consumer. fully searched for the presence of deleterious substances, such as lead, copper, &c., with the result of proving only their complete absence; the very low acidity (0.095 per cent.) renders your ale peculiarly digestible and suited to invalids. I consider that you have produced a beverage of excellent quality, and one which from its purity should command a large and ready sale.

To the Executors of S. WRIGHT, Walkern Brewery.

I am, yours faithfully,

LAWRENCE BRIANT.

GRAMMAR SCHOOL, YELDHAM, ESSEX.

Head Master: Mr. C. APPLEGATE, Trinity College, Dublia,

Late Assistant Master of Queen Elizabeth's Grammar School, Cranbrook; formerly Senior Assistant Master of the Beds County School.

THE School House is most healthily situated on gravel soil, surrounded by its own grounds, four acres in extent, on the borders of Suffolk. Boys from this School have successfully passed the Civil Service, Public Schools, University Senior and Junior Local Examinations in Honours, and the Examination in Music of Trinity College, London. The Course of Study comprise:

Latin, Greek, French, German, Mathematics, Elementary Natural Science, Arithmetic, Mensuration, Land Surveying, Book Keeping, Writing, Modern History, Geography, English Composition, &c.

Special attention is paid in the arrangement of the Work to the probable vocation of individual boys. A comparaire report of such boy's progress, with a memorandum of his conduct and diligence, is sent to parents twice during the Term. The School rear is divided into three Terms. The Holidays consists of a month at Xmas, a fortnight at Easter, and five weeks beginning from the last week in July. The discipline is firm and mild, without resorting to corporal punishment. The diet is on a most liberal scale, and school life is rendered as home-like as possible. Foes for Boarders, 25 guineas per annum, Music being the only evira. A light reduction will be made in the case of brothers. A detailed Prospectus will be forwarded on application. Number of Boarders limited to 10.

## BUCKINGHAMSHIRE ADVERTISER.

UXBRIDGE, HARROW, AND WATFORD JOURNAL.

PUBLISHED AT UXBRIDGE, EVERY SATURDAY.

PRICE 1d.

THIS Journal has, under its present management, nearly trebled its circulation within the last 15 years, and is now the only paper having a large circulation in the district extending for some miles round Uxbridge, in South Bucks, West Herts, and West Middlesex. The railway accommodation being very limited, special arrangements are made to despatch the papers immediately on publication to all the towns and villages in the neighbourhood.

The special feature of this journal is the very large amount of original news pertaining to the district it contains; a large staff of special reporters and correspondents being kept up for the purpose, so that no event of any importance occurs without a full report of it appearing.

Advertisers should be careful to address their communications to Uxbridge, as journals with nearly similar titles are published at Aylesbury and Buckingham.

This Ram, whilst worked by a stream of impure water, will pump clean water from a well or spring.

#### TESTIMONIALS FOR JOHN BLAKE'S PATENT SELF-ACTING HYDRAULIC RAMS.

TESTIMONIALS FOR JOHN BLAKE'S PATENT SELF-ACTING HYDRAULIC RAMS.

From C. PAGE WOOD, Beq., Wakes Hall, Wakes Coine, Essex, January 11th, 1889.

"Sir,—In reply to your inquiry, the Hydraulic Ram you put down for me in 1884 has cost me only 6d, in repairs (for a new stud my blacksmith made); the second Ram you put down to supply an off-hand farm has been running three years and has cost not a peny for repairs; the third and largest Ram you put down to supply an off-hand farm has been running three years and has cost not a peny for repairs; the third and largest Ram you put down two months ago, which is for the supply of water to my neighbours, is running satisfactorily. All three Rams throw up more water than you guaranteed. From inquiries I have made from friends who have Rams of other makers, I am convinced of the superiority of yours, and my third order is a proof of my good opinion. My abundant water supply is the greatest possible comfort to me.—Yours faithfully, C. PAGE WOOD."

From MATTHIAS SMITH Eaq., Hill Top Hall, Pannal, near Leeds, January 14th, 1889.

"Dear Sir,—I have great pleasure in bearing testimony to the marvellous efficiency of the Ram you fixed here in January, 1888. It is worked by spring water of irregular volume, the dry weather flow being six pints per minute, with which quantity you promise to work the Ram, forcing through \$80 yards of delivery pipe to an elevation of fully 144 feet, but out of \$\frac{1}{2}\$ pints per minute, 186 gallons per day are sent up, and out of two gallons per minute now flowing through the Ram, \$40 gallons per day are delivered at the same height. Considering the extremely small quantity of driving water, I certainly did not expect so grand a result. With every wish that you may get the reward you deserve,—I am, dear Sir, yours faithfully, MATTHIAS SMITH."

From Mr. THOMAS VARLEY, Agent to the Trustees of the late William Roundell, Eq., Gledstone Estate,
West Marton, Sifpton, August 11th, 1887.

"Dear Sir,—The Patent Hydraulic Ram you fixed five years ago on th

#### KELLY'S DIRECTORY

## MERCHANTS. MANUFACTURERS AND SHIPPERS

FOR 1891,

REING

A Guide to the Export, Import & Manufacturing Industries of the Country.

PRICE 30/-

The Work will contain lists of the

#### IMPORTERS, EXPORTERS, MERCHANTS AND MANUFACTURERS OF GREAT BRITAIN AND IRELAND,

#### AND THE PRINCIPAL TRADING CENTRES OF THE WORLD.

With this Volume will be amalgamated Messrs. Street's well-known Indian and Colonial Mercantile Directory; the well-deserved reputation of this book has induced the publishers to make arrangements for continuing the information with this Volume, and for the convenience of the old purchasers it will also be issued separately.

THE PROSPERITY OF ENGLAND depends so greatly on the amount of the Export traile. that all information tending to increase the knowledge necessary to promote this object is of especial interest to the Manufacturers and Shippers of Great Britain, and no efforts will be spared to obtain the latest and fullest information, and the utmost degree of accuracy, for this Directory.

THAT THERE IS A WANT for such a publication is proved by the issue of a crowd of English Books of more or less perfect information, and by the conspicuous success of an analogous French publication.

AS THE RESULT OF AN APPLICATION to H.M. Foreign Office for assistance from British Consuls abroad in the compilation, the publishers were honored by a letter, of which the following is an extract :-

"As, however, your Foreign Directory appears to be a work of considerable value to British Trade. LORD IDDELEGER would be glad that Her Majesty's Consuls should assist, as far as possible, in making it complete, and he will not object to their giving, on your application, such information of the nature specified as they may think advisable."

THE PUBLISHERS have consequently received the greatest amount of help from the various Consuls, and a copy of the work was, and will continue to be, sent to every British Consulate throughout Many and flattering letters have been received from Consuls stating and pointing out how great must be the benefit to British Trade, and how much the work was referred to for information.

The Directory will be divided into 2 Sections, Foreign and Home.

THE FIRST DIVISION will embrace the British Colonies and possessions throughout the World, and the various Foreign Countries and their Colonies to which British Manufactures are exported, arranged under following Heads:

INDIAN AND COLONIAL POSSESSIONS.

EUROPEAN. AMERICA, NORTH & SOUTH.

AFRICA.

THE SECOND DIVISION of the Work will embrace the names and addresses of the actual Manufacturers in the United Kingdom of the articles exported, classified in the usual way, describing as clearly as possible the specialities of each Manufacturer. Lists will also be given of the Merdants and Shippers who export British Goods. Manufacturers who have either depots abroad or Consigues, and who ship only their own goods, will be indicated by a special mark. The object of the list is to show the Manufacturer who are the purchasers of his special class of goods for shipment.

This part of the Work will be of great value to Buyers abroad, and also to the Merchant in this Country, by putting them in communication with the actual Manufacturers of such goods as are required abroad; while to Manufacturers it will be valuable, as showing them the Merchants and Shippers to the various Countries with which they may desire to do business.
