# LLOYD'S REGISTER

OF

## BRITISH AND FOREIGN SHIPPING.

---

THE operations of the Societies of the two Register Books of Shipping printed for the use of Merchants, Ship-owners, and Underwriters, having ceased, a new Society, denominated "*Lloyd's Register of British and Foreign Shipping,*" has been established, for the purpose of obtaining a faithful and accurate classification of the Mercantile Marine of the United Kingdom, and of the Foreign Vessels trading thereto, for whose government the following Rules and By-Laws have been adopted.

That a Book containing a Register of such Classification be annually printed, and that all persons subscribing the sum of Three Guineas Annually, (or such other sum as may be fixed by the Committee,) shall be Members of the Society, and entitled (*for their own use*) to a Copy of the Register Book.

That the price at which the Register Book be issued to Public Establishments, not being Marine Insurance Companies, be Ten Guineas.

That the Register Books be periodically posted throughout the year.

That for the convenience of Members not resident in London, a monthly Supplement, containing the additions and corrections to the Register Book, be printed in such convenient form, as will admit of its transmission by Post, that those parties may be furnished with the latest and most correct information; but for which an additional charge of One Guinea per annum will be made.

16

## SUPERINTENDENCE OF THE SOCIETY.

That the superintendence of the affairs of this Society be under the direction of a Committee in London, composed of twenty-four Members, consisting of an equal proportion of Merchants, Ship-owners, and Underwriters, and that in addition, the Chairman of the Committee for managing the affairs of Lloyd's, and the Chairman of the General Ship-owners' Society for the time being, shall, *ex officio*, be members of the Committee.

Six of the Members, namely, Two of each of the constituent parts of the Committee, shall go out annually by rotation, but be eligible to be re-elected.

The vacancies so arising shall be filled up by the election of two Ship-owners and one Merchant by the Committee of the General Ship-owners' Society; and two Underwriters and one Merchant by the Committee for managing the affairs of Lloyd's.

The Committee shall appoint from their own body, annually, a Chairman and Deputy Chairman.

The Secretary, Clerks, and Servants of the Society, and the Surveyors for London and the Outports, shall be appointed by and be under the direction of the Committee.

The Committee shall meet for the despatch of business every Thursday, or on such other day as they may appoint, at eleven o'clock precisely, and five Members of the Committee shall be a quorum.

Special Meetings of the Committee may be convened by order of the Chairman, the Deputy Chairman, or any three Members.

All Elections and Appointments whatever shall be made by Ballot.

No member of the Committee shall be permitted to vote in the decision of the classification of any ship of which he is an owner, or directly or indirectly interested.

The Committee are empowered to make such By-laws for their own government and proceedings as they may deem requisite, not being inconsistent with the original Rules and Regulations under which the Society is established; but no new Rule or By-law shall be introduced, nor any Rule or By-law altered, without special notice being given for that purpose at the Meeting of the Committee next preceding the one at which any such Motion is intended to be made; which Notice shall be inserted in the summons convening that Meeting.

## GENERAL REMARKS.

All Reports of Survey shall be made in writing by the Surveyors to this Society, and submitted to the consideration of the Committee, or of the Subcommittee of Classification ; but the character assigned by the latter shall be subject to confirmation by the General Committee.

The reports of Surveyors, and all documents and proceedings relating to the classification of Ships, will be carefully preserved, and parties proving themselves to be interested therein may have access thereto under certain regulations.

In assigning character to Ships built prior to the Establishment of this Society, and especially in restoration to the First Description of the First Class of Ships that have been built without a view to such a privilege, the greatest caution will be exercised, but with a rigid attention to render ample justice to the Ship-owner.

Foreign Ships, and Ships built in the British possessions abroad, will be surveyed on their arrival in England, but a due regard will be had to their having been exempted from that supervision while building to which all British Ships are subjected, and characters will be assigned to them according to their intrinsic quality, and from the best information that can be obtained.

In all cases where the character of a Ship is proposed to be reduced, notice shall be given in writing to the Owner, Master, or Agent, with an intimation, that if the reduction be objected to, the Committee are ready to direct a special survey, on the Owner, Master, or Agent, agreeing to pay the expenses attending the same, provided on the re-survey there shall appear sufficient ground for the proposed reduction.

Where the Surveyors to this Society consider repairs to be requisite, they are respectfully to intimate the same, in writing, to the Owner, Agent, or Master ; and if such repairs be not entered upon within a reasonable time, a corresponding report will be made to the Committee.

Parties considering the requisitions of the Surveyors to this Society to be unnecessary or unreasonable, may appeal to the Committee, who will direct a special survey to be held ; but should the requisitions of the Surveyors be confirmed by the Committee, then the expense of such survey shall be paid by the party appealing.

## SURVEYORS.

There shall be appointed for the Port of London, and other ports in the United Kingdom, such number of Shipwright and Nautical Surveyors as from time to time may appear expedient to the Committee to be requisite for the objects and purposes of the Society.

The Surveyors to the Society will be directed to attend on special surveys of ships under damage or repairs for restoration, when required by Merchants, Ship-Owners, or Underwriters ; the charge for which will be regulated according to the nature and extent of the service performed.

No Surveyor will be permitted, without the special sanction of the Committee, to receive any fee, gratuity, or reward whatsoever to his own use and benefit, for any service performed by him in his capacity of Surveyor to this Society, on pain of immediate dismissal.

## FUNDS.

The Funds will be under the authority and control of the Committee, and a statement of the Receipts and Expenditure will be annually printed for the information of the Subscribers.

The following Fees will be charged to the Owners of Ships prior to their vessels being classed and registered in the book.

## RULES FOR CLASSIFICATION.

The following Rules and Regulations for the classification of Ships have been adopted after much labour and mature consideration, assisted by the valuable information and practical knowledge of the Committee of the General Ship-owners' Society.

The characters to be assigned to Ships shall be, as nearly as circumstances will permit, a correct indication of their real and intrinsic qualities; and the same shall no longer be regulated by the uncertain standard of the Port of building, nor by the uncontrolled decision of Surveyors, but will, in all cases, be fixed by the Committee, after due consideration of the Reports of the Surveyors, and the documents which may be submitted to the Committee.

### FIRST CLASS SHIPS.

There shall be two denominations of Ships of the first Class, to be distinguished as follows:—

#### *First Description of the First Class,*

Designated by the letter A.

#### *Second Description of the First Class,*

Designated by the diphthong Æ.

### SECOND CLASS SHIPS.

Designated by the letter E.

### THIRD CLASS SHIPS.

Designated by the letter I.

### SHIPS' ANCHORS, CABLES, AND STORES.

The efficient state and condition of Ships' "Anchors, Cables, and Stores," will continue to be designated by the figure 1; and where the same are found insufficient in quantity or defective in quality, by the figure 2.

## FIRST CLASS SHIPS.

*First Description of the First Class,*

Will comprise all Ships which have not passed a prescribed age, and which are kept in the highest state of repair and efficiency; and will be designated by the letter A.

The period for their continuance on this Class shall be limited: the extent of that period will be determined by reference to the original construction and quality of the vessel, the materials employed, and the mode of building; but it is desirable, on grounds of national policy and of individual justice, that after the expiration of the prescribed period, Ships shall be permitted to remain in the First Description of the First Class, or to be restored thereto for a further limited period, under certain defined regulations.

Ships built since the year 1834 are required to have been surveyed while building, by the Surveyors to this Society, in the following three stages of their progress.

*First.*—When the frame be completed.

*Second.*—When the beams be in, but before the decks be laid, and with at least two strakes of the plank of the ceiling between the lower deck and the bilge unwrought, to admit of an examination of the inner surface of the plank of the bottom.

*Third.*—When completed, and if possible, before the plank be painted or payed.

A full statement, agreeably to a schedule prepared for the purpose, of the dimensions, scantlings, &c. of all New Ships, verified by the builder, shall be transmitted by the Surveyor, and will be kept as a record in the Office of the Society.

In building Ships the following Rules are to be observed:—

*Timbering.*

The whole of the timbering to be of English, African, or Live Oak, or East-Indian Teak, of good quality; the stem, stern-post, beams, transoms, aprons, knightheads, hawse timbers, and kelson, to be entirely free from all defects; the frame to be well squared from first foothook heads upwards, and free from sap, and also below, unless the timber be proportionably larger than the scantling hereafter described; every alternate set of timbers to be framed and bolted together to the gunwale. The butts of the timbers to be close, and not to be less in thickness than one-third of the entire moulding at that place, and to be well chocked with a butt at each end of the chock.

*The Scantlings to be as follows :*

## PLANK.

*First.*—The outside plank, above the light-water mark, to be English or African Oak, East-Indian Teak, or Red Cedar.

*Second.*—The planks below the light-water mark to be good Elm, or Beech, or foreign White Oak; but the Elm or Beech not to be wrought higher than the first foothook heads; or if wrought higher, then One Year will be deducted from the period that would otherwise be assigned.

*Third.*—The clamps, spirkettings, shelf-pieces, and ceiling, to be English or African Oak, or East-Indian Teak.

The outside plank to be clear of all defects; the inside to be free of all foxy, druxy, or decayed planks, and the whole to be properly shifted and fastened. No butts to be nearer than five feet to each other, unless there be a strake wrought between them, and then a distance of four feet will be allowed; and no butts to be on the same timber, unless there be three strakes between.

## Fastenings.

The treenails to be of good English or African Oak, Locust, or other hard wood, but in no case Baltic or American Oak, nor Elm to be used; and all planks above nine inches in width are to be treenailed double and single, except bolts intervene; and if less than that width, then to be treenailed single, and at least one-half of the treenails are required to go through the ceiling. All ships of this description of the First Class are required to be copper-fastened below the wales, and that one bolt in each butt below the wales, and the bolts in the bilges shall be through and clenched.

In all cases where the butt and bilge bolts are not through and clenched, One Year will be deducted from the period that would otherwise be assigned in the classification of the vessel; but this Rule shall not be applied to ships built previously to the promulgation of the Regulations of this Society, although the Rule will be rigidly enforced in the case of all vessels built since that period.

The scantlings and dimensions of all intermediate sized vessels to be proportionately regulated, agreeably to a scale adopted by the Society, a copy of which is in the hands of each of the Surveyors; and it is to be clearly understood, that smaller dimensions will not entitle the Ship to be placed for the longest period in the first description of the First Class.

*First.*—All ships so constructed, and having the whole of the workmanship performed in the best manner, will be marked in the Book thus, “12 A”; thereby denoting that they are ships of the first quality, and will remain in the First Description of the First Class *Twelve Years*, provided they be kept in a state of efficient repair.

*Secondly.*—Ships surveyed while building, as before mentioned, in which most of the requisites for a *Twelve Years' Ship* may have been fulfilled, while others have been omitted, but in which *all* the requisites for a *Ten Year's Ship* shall have been complied with, will be marked in the Book thus, “11 A”, denoting they are to remain in the First Description of the First Class *Eleven Years* provided they be kept in a state of efficient repair.

*Thirdly.*—Ships surveyed while building, as before mentioned, the scantling of timber, thickness of plank, and size of fastenings of which shall be in no respects less than those in the foregoing specifications, but which may not be framed, nor chocked, nor the timbers so well squared, as in the manner before described, or in which Live Oak and Red Cedar alternately may have been used in the framing, or in which good Foreign White Oak may have been used for ceiling, shelf-pieces, and clamps, will be marked in the Book thus, “10 A”; denoting that they are to remain in the First Description of the First Class *Ten Years* provided they be kept in a state of efficient repair.

*Fourthly.*—Ships surveyed while building, as before mentioned, but in the frame of which Foreign Oak timber shall be used for Kelsons or for floors and first foot-hooks only, or in which good White Dantzic Oak plank shall be used below the wales outside, whilst in other respects they are constructed in the manner set forth in the preceding descriptions, will be marked in the Book thus, “9 A”; denoting that they are to remain in the First Description of the First Class *Nine Years*, provided they be kept in a state of efficient repair.

*Fifthly.*—Ships surveyed while building, as before mentioned, and framed, fastened, and constructed in the manner set forth in the preceding descriptions, but in the planking of which good Foreign White Oak shall be employed in other parts than the bottom, will be marked in the Book thus, “8 A”; denoting that they are to remain in the First Description of the First Class *Eight Years*, provided they be kept in a state of efficient repair.

*Sixthly.*—Ships surveyed while building, as before mentioned, and framed, fastened, and constructed in the manner set forth in the preceding descriptions, but in which good Foreign White Oak shall be used in the frames above the first foothook-heads, or in the planking of which (except the strakes through which the beam fastenings pass) good Dantzic Fir shall be used, will be marked in the Book thus, “7 A”; denoting that they are to remain in the First Description of the First Class *Seven Years*, provided they be kept in a state of efficient repair.

*Seventhly.*—Ships surveyed while building, as before mentioned, in the frames of which, above the first foothook-heads, sound second-hand English or African Oak or Teak timbers shall be used, but planked, and in other respects constructed agreeably to any of the preceding descriptions, or with American Red Pine or Yellow Baltic Pine, will be marked in the Book thus, “6 A”; denoting that they are to remain in the First Description of the First Class *Six Years*, provided they be kept in a state of efficient repair.

*Eighthly.*—Ships surveyed while building, as before mentioned, in the frames of which, above the first foothook-heads, Red Pine timber, either American or Baltic, or Hackmatack, and in the bottoms of which, below that mark, the same materials are used, or Black Birch, Elm, Ash, or hard wood of like quality, and in the planking of which, good Yellow Pine shall be used, but in other respects constructed agreeably to any of the preceding descriptions will be marked in the Book thus, “5 A”; denoting that they are to remain in the First Description of the First Class *Five Years*, provided they be kept in a state of efficient repair.

*Ninthly.*—Ships surveyed while building, as before mentioned, the frames of which above the first foothook-heads are composed of Yellow Pine, Elm, Ash, Birch, Spruce, or other similar woods, but in other respects constructed agreeably to any of the preceding descriptions, will be marked in the Book thus, “4 A”; denoting that they are to remain in the First Description of the First Class *Four Years*, provided they be kept in a state of efficient repair.

---

Ships built in the United Kingdom under a roof, and which shall have occupied a period of not less than Twelve Months in their construction, will have One Year added to the period prescribed for their continuing in the first description of the First Class.

Ships built in the United Kingdom since the Year 1834, and not surveyed while building by the Surveyors to this Society, or where the owners or builders may have refused to permit them to survey and examine the same at the several periods prescribed by the rules, will be subjected to the minutest possible examination previously to assigning the class in which they are to be placed, according to the preceding regulations; but in all such cases One Year will be deducted from the period which would otherwise be allowed, in consideration of not having been submitted to such survey during the construction.

At the expiration of the several periods assigned to ships for remaining on the First Description of the First Class, they will be reduced to the Second Description of the First Class, designated by the diphthong *Æ*; but if not surveyed within Twelve Months after entering this description, such ship having been during that time in some Port of the United Kingdom, the character will be omitted until such survey be held, or, if required by the owner, will be allowed to pass into the letter *E*.

And if on examination of any Ship she shall be found to be so defective as to render her unfit to continue on the First Description of the First Class for the remainder of the term of years assigned to her in accordance with these Rules and Regulations, a notice of the intention to make such a reduction at the expiration of thirty days, shall be given in writing, by the Surveyors to this Society, to the Master, Owner, or Agent, intimating, that if the alteration be objected to, the Committee will direct a special survey, on the said Master, Owner, or Agent agreeing to pay the expenses attending the same, *should it be found that the proposed reduction was justifiable.*

#### *Special Exceptions.*

The prohibition in all cases of the use of *Fir* will not apply to Ships the top-side planking of which, between the lower paint or shear strake and the upper black strake only, shall be composed of Pitch Pine or Dantzic or Riga Fir of the best quality.

#### *Iron-fastened Ships.*

Ships *Iron-fastened*, if under 150 tons, may be entitled to continue in the First Description of the First Class for a period not exceeding *Ten Years*,—but if above 150 tons, then for a period not exceeding *Eight Years*, provided that in all other respects they be constructed in accordance with the prescribed rules, and that their bottoms be not *copper sheathed*.

## FIRST CLASS SHIPS.

*Second Description of the First Class*

Will comprise all Ships which have passed the prescribed age,—but not having undergone the repairs that would entitle them to be continued in or restored to the First Description, or which shall have been restored, and the period assigned for such restoration having expired,—but which shall appear on survey to be still in a condition for the safe conveyance of dry and perishable cargoes; and will be designated by the diphthong *Æ*.

For the purpose of continuing a Ship in this class, a careful survey will be required to be made annually, or on the return from every foreign voyage, by one of the Surveyors to this Society, who is required to state distinctly and separately the actual condition of the *Upper Deck Fastenings, Water-ways, Spirketting, Plank Shears, Topsides, Upper Deck with its Appendages, Lower Deck Fastenings, Wales, Counter, Plank, and Treennails outside to the Water's Edge, Rudder, Windlass, and Capstan Beams, Breasthooks, and Timber.*

The bottom of every Ship of this description will be required to be caulked at least once in every Five Years; or if wood sheathed and felted, once in every Seven Years; but if any ship be stripped within those periods, the bottom to be caulked if necessary.

In cases where it shall satisfactorily appear to the Surveyors to this Society that *Doubling*, of sufficient thickness and properly wrought and fastened, may be allowed as a substitute for the shifting of plank, either in the wales or bottom, the Surveyor is to make a special report thereof, together with his reasons to the Committee, who will determine thereon.

## SECOND CLASS SHIPS

Will comprise all Ships which shall be found on survey unfit for carrying *dry* cargoes, but perfectly fit for the conveyance to *all parts of the world*, of cargoes not in their nature subject to sea damage; and will be designated by the letter E.

Subject to occasional inspection, ships will continue in this class so long as their condition shall, in the opinion of the Committee, entitle them thereto.

## THIRD CLASS SHIPS

Will comprise Ships that are good in constitution, and which shall be found on survey fit for the conveyance, on *short voyages* (not out of Europe), of cargoes in their nature not subject to sea damage; and will be designated by the letter I.

## FOR SHIPS COMPRISED IN THE EXISTING TONNAGE

Prior to the Year 1835.

All such Ships are to undergo a very careful survey by the Surveyors to this Society, **PRIOR TO REGISTRATION**, and will be classed in the Register Book agreeably to the descriptions hereinbefore laid down for the building of new Ships, unless on such survey there be found sufficient cause to assign them a less period.

On the proposed survey, especial attention is required to the following points, namely, to an examination of the state of the upper-deck fastenings, waterways, spirketting, plank shears, topsides, and upper-deck, with its appendages; also the lower-deck fastenings, wales, and counter, and the plank and treenails outside to the water's edge; the state of the rudder, windlass, and capstan beams, breasthooks, and timber.

## RESTORATION OF SHIPS TO THE FIRST DESCRIPTION OF THE FIRST CLASS.

### *First Rule.*

If at any time before the expiration of one-half of the number of years beyond the period for which Ships are to remain in the First Description of the First Class, an owner be desirous to have his ship restored to that description, such restoration (on his consenting to the special survey hereafter described, and performing the repairs therein found requisite) will be granted for a period not exceeding two-thirds of the time originally assigned for her remaining in the First Description of the First Class, the same to be calculated from the date of such repairs.

### *Requisites for Restoration.*

All the bolts in the range of each deck to be driven out, and the planks taken out; the upper deck water-ways, and plank shears and spirketting, and the strake next the water-ways on the lower deck in the midships, to be taken out; the sheathing to be entirely stripped off the bottom; a strake in the upper course of the bottom between the wales and the light water-mark fore and aft, and a plank in the ceiling at the floor heads, to be taken out, the limbers to be clear, and the hooks forward to be exposed; and in that state the ship to be submitted to a special survey and examination, at which the attention of the Surveyors to this Society is to be particularly directed to the state of the decks, the remaining plank of the topsides, the wales, upper courses, and treenails, and other fastenings; also to the state of the frame, hawse timbers, and knight-heads, kelson, floors, foothooks, ceiling, and breast-hooks, the rudder in all its parts and hangings; and if, after such examination, the owner should consent to take out all planks, timbers, beams, knees, water-ways, fastenings, and other parts that may be found defective, or objected to, and replace them with materials of the same species, or of equal quality, as those of which the Ship was originally constructed, such Ships to be entitled to restoration to the First Description of the First Class for a period, proportionate to their real condition and the extent of the repairs performed, and provided that they be at all times thereafter kept in a state of efficient repair.

### *Second Rule.*

If, "at any Age" of a vessel, an owner be desirous to have his Ship restored to the First Description of the First Class, such restoration (on his consenting to the special survey hereafter described, and performing the repairs therein found requisite) will be granted for so long a period as may be deemed expedient by the Committee, not exceeding in any case the term of six years, as provided by the Seventh general Rule for Ships, in the construction of which second-hand Timber has been used.

## RESTORATION OF SHIPS TO THE FIRST DESCRIPTION OF

*Requisites for Restoration.*

The whole of the outside plank of the vessel to be taken off as low as the second foothook-heads, and the remainder of the planking, either outside or inside, together with all the decks, to be removed, so as to expose the Timbers of the Frame entirely to view, and in that state the Ship to be submitted to a special survey and examination by the Surveyors to this Society; and if, after such examination, all timbers, beams, knees, kelsons, transoms, breast-hooks, remaining Plank, inside or outside, or other parts found to be defective, be replaced with materials of the same species, or of equal quality with those of which the Ship was originally constructed, and all the treenails driven out and renewed, such ships may be restored to the first description of the First Class, provided they be at all times thereafter kept in a state of efficient repair.

## SHIPS' ANCHORS, CABLES, AND STORES.

All vessels are required to have their masts, spars, and standing rigging in good order, and sails in sufficient number and good condition; and every Ship is to be supplied with a good hempen stream cable or hawser of sufficient size and length, and with at least one good warp; and all vessels are required to be provided with anchors of proper weight, and cables of approved quality, in number and length according to the undermentioned scale:

*Anchors.*

All vessels under 200 tons to have at least two bower anchors, and all vessels above that tonnage to be provided with at least three bower anchors.

*Cables.*

	Tons.	Fathoms.
All vessels .....	under 100	to have at least 150 if chain.
— 100 .....	to .....	150 .....
— 150 .....	to .....	200 .....
— 200 .....	to .....	300 .....
— 300 .....	to .....	400 .....
— 400 .....	to .....	600 .....
		160 do.
		170 do.
		180 do.
		200 do.
		220 do.

But in all cases where hempen cables are used, then one-sixth more in length will be required.

*Boats.*

All vessels under 150 tons to be provided with one good boat; and every vessel above that tonnage to be provided with at least two good boats.

## FOR SHIPS NAVIGATED BY STEAM.

All sea-going Vessels navigated by *Steam* shall be required to be surveyed *twice in each Year*, when a character will be assigned to them according to the report of survey as regards the classification of the hull and materials of the vessel.

That with respect to the boilers and machinery, the Owners are required to produce to the Surveyors to this Society at the above-directed surveys a certificate from some competent *Master Engineer*, describing their state and condition at those periods; and to which certificate it is desirable there should be added a description of the particulars of the same, as far as may be practicable, in the manner and form annexed; to be appended to the report of survey, and delivered to the Committee, who will thereupon insert in the Register Book the letters "M.C.", denoting that the boilers and machinery have been inspected and certified to be in good order and safe working condition; but if no certificate of their condition be furnished by the Owner or Master, then no character can be assigned for the machinery.

*Hull*:—The Surveyors to this Society are directed to examine and report the scantling of timbers, plank, and fastenings, and to state where built, and by whom, in the same manner as directed for sailing vessels.

*Scantlings*:—The scantlings for a steam-vessel, under 300 Tons Register are to be deemed sufficient, if equal to those required by the Scale prescribed in the Rules of this Society, for a sailing vessel of two-thirds of the *Registered Tonnage* of such steam-vessel.

But for a steam-vessel *above* 300 Tons Register, then the scantlings are to be equal to those required by the Scale for a sailing-vessel of *Three-fourths* of the *Registered Tonnage* of such steam-vessel.

*Floors*:—Where the Vessel is not *filled in solid to the Floor-heads in the Engine Room*, an exception will be specially made against any reduction of the scantling of the *Floors*, which in such cases will not be permitted to be upon the reduced scale of two-thirds or three-fourths of the dimensions for the *scantling* of sailing-vessels as before stated; but the *Floors* will then be required to be equal to the dimensions set forth in the Rules for Ships of the actual *Registered Tonnage* of the steam-vessel.

The Surveyors are required to report the number, size, length, fastenings, and mode of arrangement of the Engine and Boiler *Sleepers*, and the description of timber of which they are composed, and whether diagonally trussed with Wood or Iron, and to what extent; the length, size, and fastenings of Shelf

Pieces and Paddle Beams; and whether the Vessel be constructed with Spongings and how they are formed; and to give the length and shifting of the Plank outside and inside.

*Materials and Stores*:—The Surveyors are to examine and report the number and description of the Masts, Sails, Anchors, Cables, Hawsers, Warps, and Boats, as directed to be done for sailing-vessels; but the Anchors and Cables will not be required to exceed in number, weight, and length, those of a sailing-vessel of Two-thirds of the Registered Tonnage of the steam-vessel.

The Surveyors are to be particular in examining and reporting the condition of the Boats of all vessels employed in carrying Passengers.

The Rules herein set forth may at any time be altered by the presiding Committee, to meet any acknowledged improvements which may be made in naval architecture, or in the materials used in ship-building, of which every publicity will be given.

It is the earnest desire of the Committee to cultivate and maintain the most perfect good understanding with the Merchants, Ship-owners, and Underwriters of the different Ports of the United Kingdom, on whose support and co-operation they rely for the promotion of the objects of the Institution within their respective districts.

The Register which is now presented to the Mercantile Community, contains an authentic *List of all Ships registered in the United Kingdom of 60 tons measurement and upwards, as furnished to the Committee, under the permission and direction of the Lords of His Majesty's Treasury, by the Honourable the Commissioners of Customs*; but, in accordance with the Rules for Classification, every Ship is required to undergo a Survey by the Surveyors to this Society, prior to Registration.

By Order of the Committee,

**NATH' W. SYMONDS,**  
CHARLES GRAHAM, *Secretary.*

London, 1 July 1836.

Subscriptions are received by the Secretary, at the Offices of the Society; to whom all communications are requested to be addressed.
