

Part 2

New Worldwide Blockchain Financial System The Intra-Body Nano-Network and Transhuman Bluetooth Payments Freedom

info@freedom.social

- Authored by Kent Lewiss, CEO Worldwide Freedom Inc.
- Founder of www.Freedom.social and 9 other platforms
- Consultant to the 1776 and CTEAM Digital Currencies
- **Speaking on this topic at Red Pill Expo 2023 in Salt Lake Utah, November 12 and 13, 2022, Get tickets or live stream at www.RedPillExpo.org**
- Speaker at G. Edward Griffin's Red Pill Expo and Freedom Force International speaking about digital currency and how to implement solutions to live free
- Report Release Date: 11/01/2022

Introduction

This is a very simple explanation of what the Covid-19 fake vaccine is doing to people.

In this very brief slide presentation, all I am doing is connecting the dots to where this diabolical worldwide agenda is going and in no way is this presentation intended to be a scientific paper or detailed explanation.

Covid injection, Nanotechnology/Hydrogel Graphene Oxide

In an **official report** from the University of Almeria, signed by **Prof. Dr. Pablo Campra Madrid**, who accredited everything that **La Quinta Columna** has shown in its programs regarding the optical and transmission electron microscopy analysis of the **Pfizer vaccination vial**, in which **graphene oxide is observed**.

La Quinta Columna: Analysis of vaccination vials confirms the presence of graphene nanoparticles, as well as their **official report** and **video explanation**.

Other microscopy works by other doctors and researchers such as **Dr. Robert O. Young**, among others have **verified graphene oxide** within **ALL Covid-`19 injections**. Patent proof from Karen Kingston **Part 1 video** and **Part 2 video** and **The Kingston Report Substack**.

Nanotechnology Graphene Oxide is within ALL Covid-`19 injections

Carbon Nanotubes Found in ALL Covid Injections

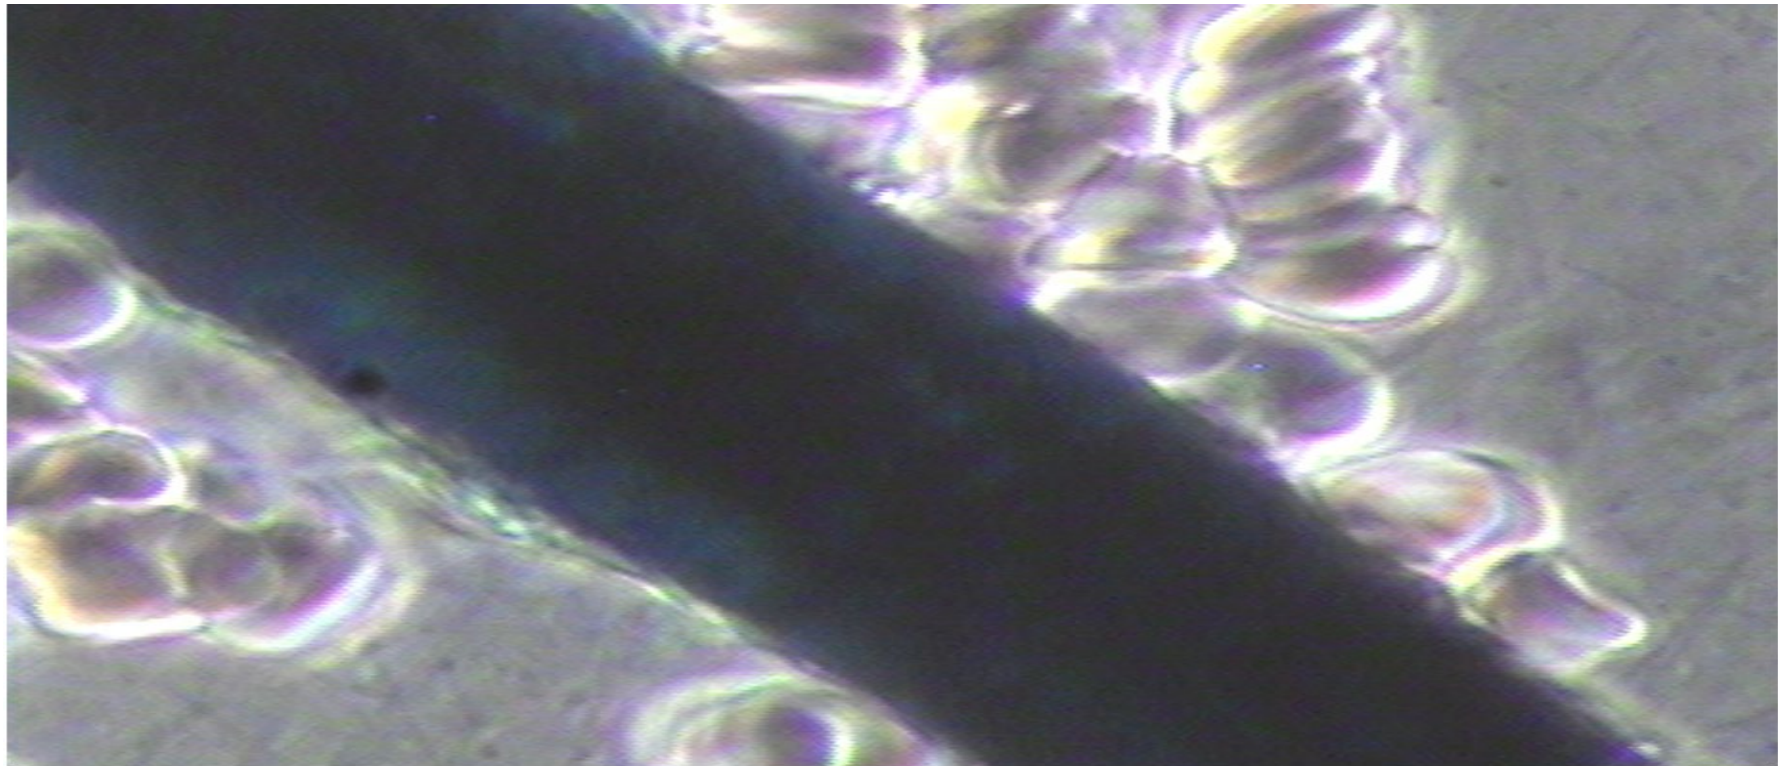

Nanotubes of Graphene Oxide have been found in ALL Covid-19 injections.

Nanotubes act as an antenna

PubMed: **Multiwalled Carbon Nanotube-Based On-Body Patch Antenna**

Patent proof from Karen Kingston **Part 1 video** and **Part 2 video** and **The Kingston Report Substack**.

The Jabbed Are Emitting a Bluetooth Signal

(12) **United States Patent**
Ehrlich et al.

(10) **Patent No.:** **US 11,107,588 B2**
(45) **Date of Patent:** **Aug. 31, 2021**

28

In some embodiments of the invention, the disease is transmitted by respiratory means, for example, aerosol and/or droplets. Optionally, an electronic device, such as a cellphone is used to detect contact which may be sufficient to transmit (e.g., detecting proximity for example, using Bluetooth power; detecting physical activity for example, by analysis of an audio trace recorded from such device; detecting being indoors or outdoors based on geolocation or based on other sensors on the cellphone that are affected by being indoors (e.g., echoes in audio).

Dedicated Mandatory App to Send/Receive a Bluetooth Signal

(12) **United States Patent**
Ehrlich et al.

(10) **Patent No.:** **US 11,107,588 B2**
(45) **Date of Patent:** **Aug. 31, 2021**

Dedicated Mandatory App

10 In some embodiments, in view of the pandemic, the government may order the citizens to install a dedicated application on their smartphones (or other smart devices like tablets, smart watches, smart glasses, etc.) to help the government with the logistics of the vaccination procedures.

15 In some embodiments, the government (or other body) provides the public with such dedicated smart devices. In some embodiments, the app and/or the smart device is configured to inform on the user's location at all times and to communicate with adjacent smart devices (via Bluetooth for example) to assess the interactions between users, for example vicinity between users, movement of users, etc.). In some embodiments of the invention, already existing software may be used, for example, both android and is based

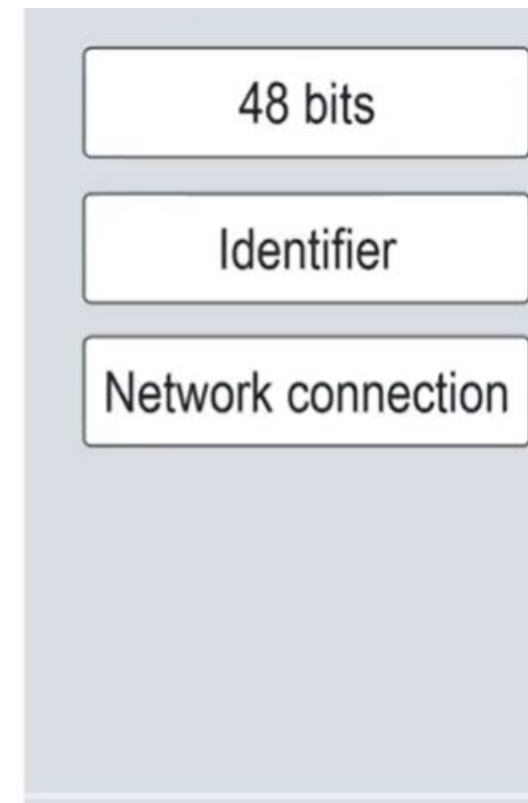

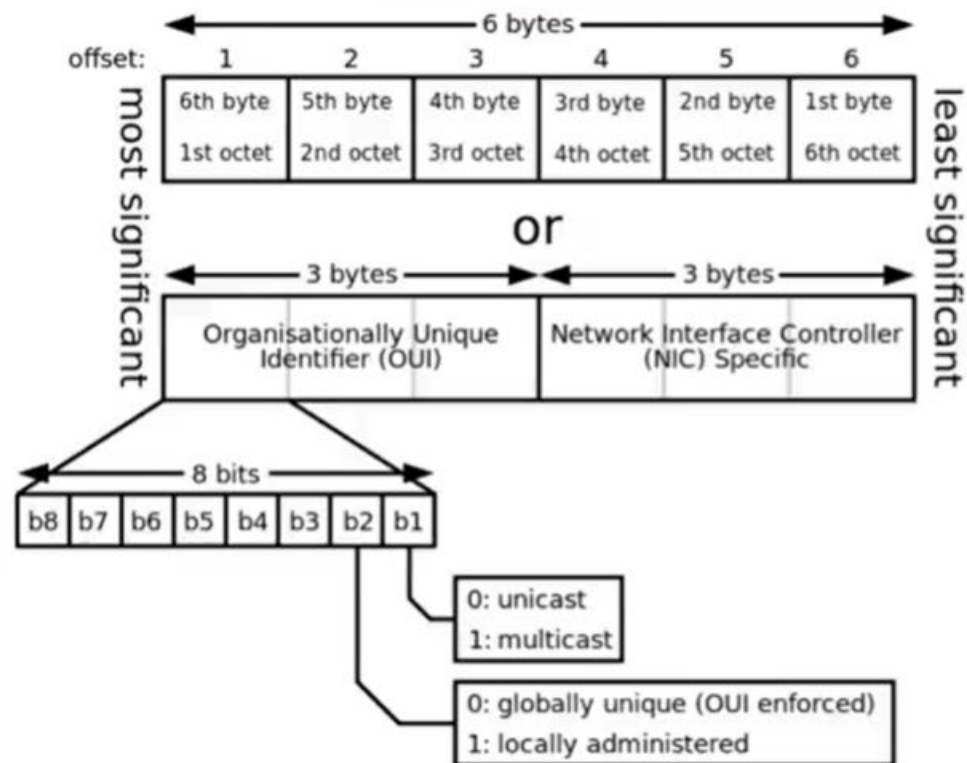

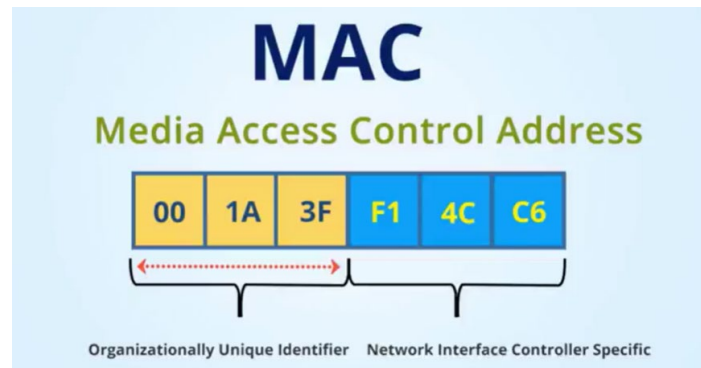

20 cellphones have software (e.g., as an operating system service) which can detect proximity of others and such software may be used or improved to provide functionality as described herein.

Jabbed are Emitting a MAC Address as part of the Intra-Body Nano Network

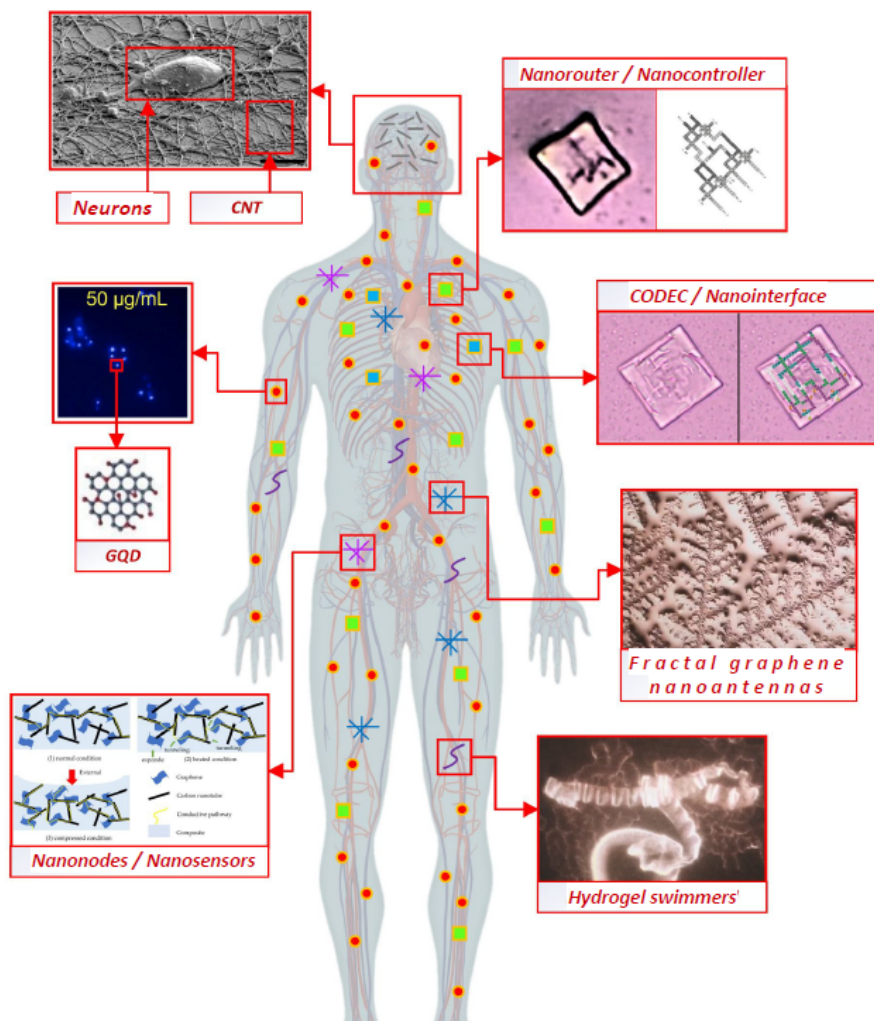

An intra-body molecular communication networks framework for continuous health monitoring and diagnosis

Abstract

Intra-body communication networks are designed to interconnect nano- or micro-sized sensors **located inside the body for health monitoring and drug delivery.**

The most promising solutions are made of implanted nanosensors to timely monitor the body for the presence of specific diseases and pronounce a diagnosis without the intervention of a physician. In this manner, several deadly health conditions such as heart attacks are avoided through the early in vivo detection of their biomarkers. In reality, nanosensors are challenged by the individual specificities, molecular noise, limited durability, and low energy resources.....

Components of the Intra-Body Nano Network

This diagram shows all the components that are introduced with each inoculation. Together, they act as a network for monitoring the human body.

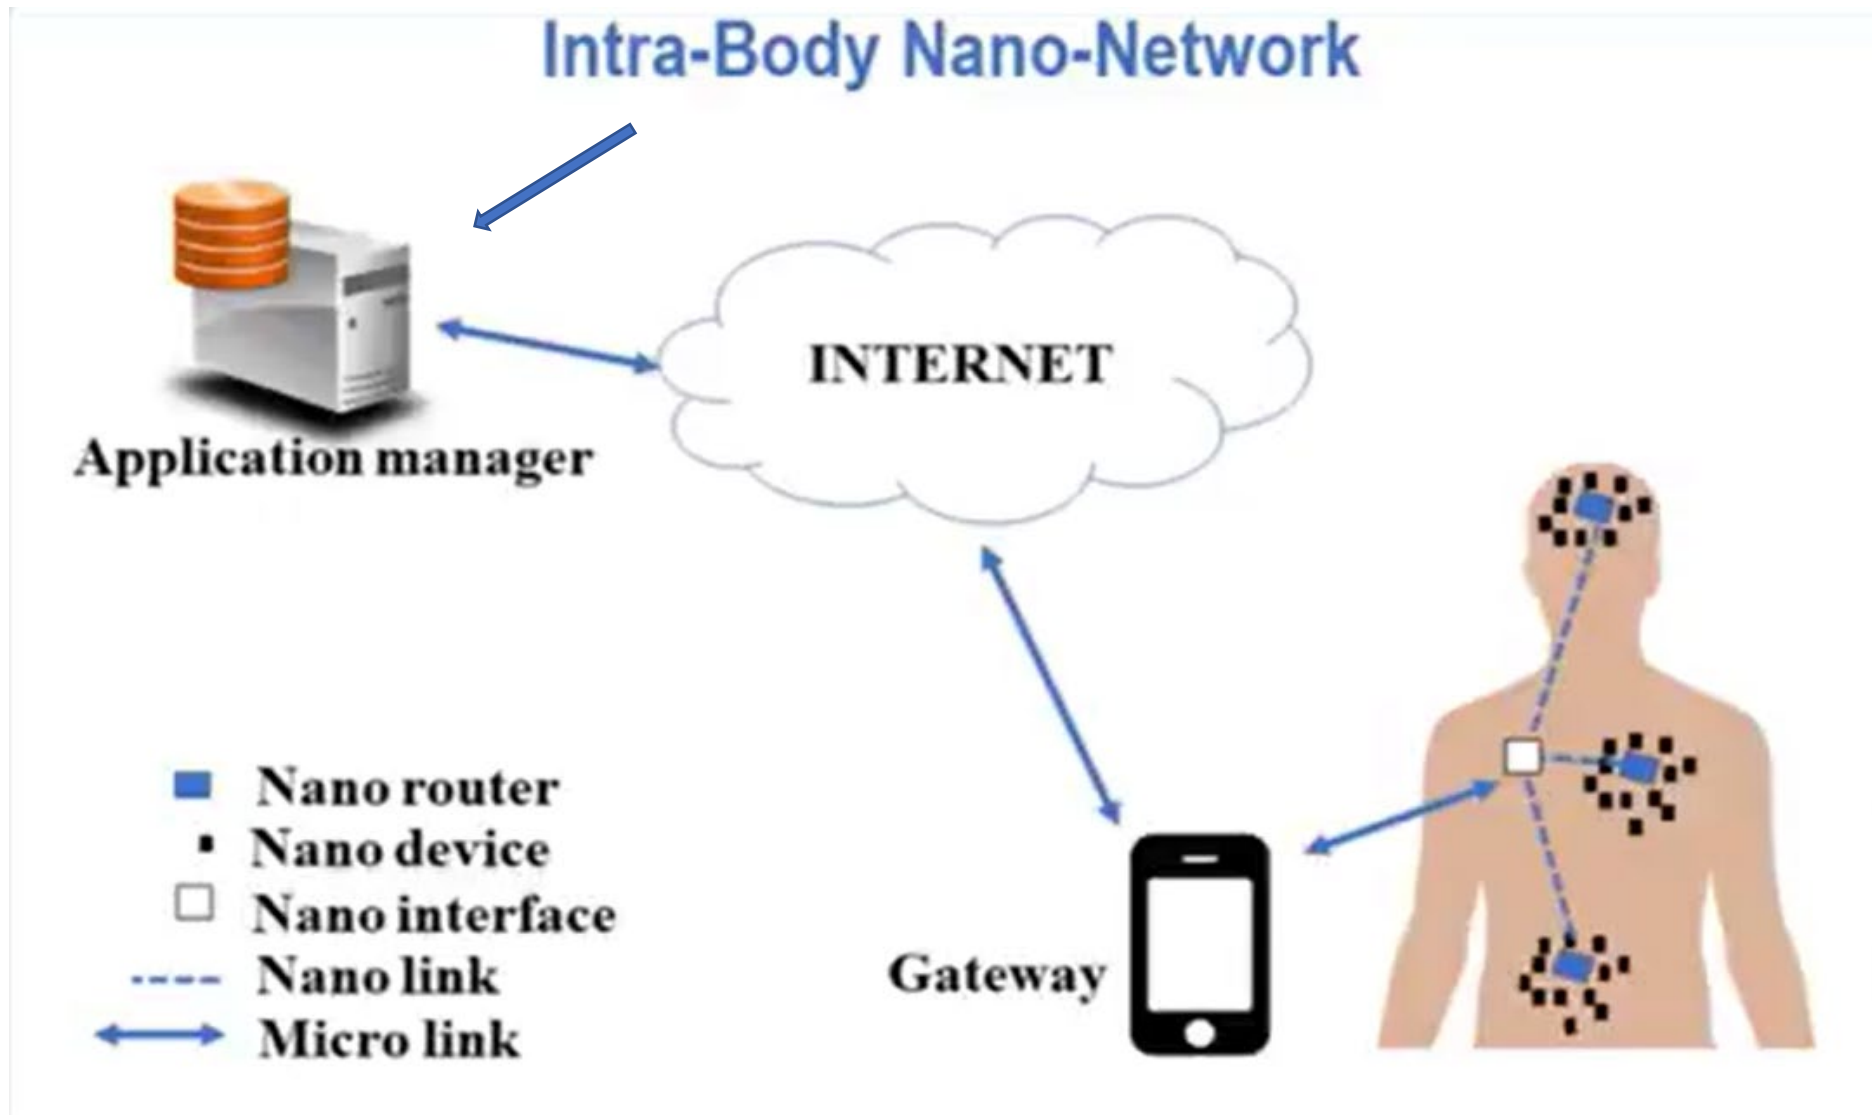

Intracorporal nano-network components

1. Carbon nanotubes and derivatives CNT, SWCNT, MWCNT
2. Graphene quantum dots GQD
3. Hydrogel swimmers
4. Fractal graphene nanoantennas
5. Nanorouter or Nanocontrollers
6. CODEC or Nanointerface

Nano-network topology

1. Nano-nodes (GQD, Hydrogel swimmers, Nanotubes, Fibers)
2. Nano-sensors (Nanotube circuits, graphene nanosheets)
3. Nano-controllers (QCA nanorouter circuits)
4. Nano-interface (QCA nanoCODEC circuits)
5. => Communication with the outside =>

WEF: Klaus Schwab and the 4th Industrial revolution aka Transhumanism

Satan Klaus and the 4th Industrial Revolution

"The difference of this 4th industrial revolution is it doesn't change what you are doing, it changes YOU, if you take genetic editing".

Previous industrial revolutions liberated humankind from animal power, made mass production possible, and brought digital capabilities to billions of people. This Fourth Industrial Revolution is, however, fundamentally different. It is characterized by a range of new technologies that are fusing the physical, digital, and biological worlds, impacting all disciplines, economies, and industries, and even challenging ideas about what it means to be human.

The resulting shifts and disruptions mean that we live in a time of great promise and great peril. The world has the potential to connect billions more people to digital networks, dramatically improve the efficiency of organizations and even manage assets in ways that can help regenerate the natural environment, potentially undoing the damage of previous industrial revolutions.

Yuval Harari on the 4th Industrial revolution / “Hackable Animals” aka Transhumanism

Yuval Noah Harari is the WEF Klaus Schwab right-hand man, and also a professor at Hebrew University in Israel made the statement,

“Humans are now hackable animals. The idea that humans have this soul or spirit, they have free will and nobody knows what’s happening inside me – so whatever I choose whether in the election or in the supermarket, that’s my free will? That’s over.”

“Today, we have the technology to hack human beings on a massive scale. Everything is being digitalized and monitored.”

“If you know enough biology and you have enough computing power and data, you can hack my body, my brain and my life. You can understand me better than I understand myself. You can know my personality type, my political views and my deepest fears and hopes. And you can do that not just to me, but to everyone.”

Harari also stated, “In the past, many tyrants and governments wanted to do it. But nobody understood biology well enough, and nobody had enough computing power and data to hack millions of people. Neither the Gestapo nor the KGB could do it. **But soon, at least some corporations and governments will be able to systematically hack all the people”.**

“We humans should get used to the idea that we are no longer mysterious souls. We are now hackable animals. A system that understands us better than we understand ourselves can predict and manipulate our feelings and decisions, and can ultimately decide for us. **By hacking organisms, elites may gain the power to re-engineer the future of life itself. Because once you can hack something, you can usually also engineer it.”**

Harari said: **COVID-19 pandemic serves as a chance to bring hackable humans closer to reality.** “It’s often said that you should never allow a good crisis to go to waste, because a crisis is an opportunity to also do ‘good’ reforms that in normal times, people will never agree to. But in a crisis, you see, we have no chance, so let’s do it.” The Israeli psychopath branded **“COVID-19 vaccines as tools to usher in a new era of “surveillance under the skin.”**

“The vaccine will help us, of course. It will make things more manageable, such as surveillance. People could look back in a hundred years and identify the pandemic as the moment when a regime of surveillance took over, especially surveillance under the skin,” said Harari.

“This ability to hack human beings, to go under the skin, collect biometric data, analyze it and understand people better than they understand themselves ... is the most important event of the 21st century.”

Smart Cities, Smart Grids, 5G/6G, Starlink, and the IoT and the IoB

UN Agenda 21 calls for cities all around the world to be transformed into **Smart Cities**.

Smart Cities have **Smart Grids** that have the **Internet of Things (IoT)** and the **Internet of Bodies (IoB)**.

Everything is connected to **5G**:

IoT or Internet of Things is the network of physical devices such as smartphones, devices, smart meters, home appliances, self-driving vehicles personal DNA, personal financial data, and more, all embedded with software or sensors or actuators that enable these things to connect to **5G** to store data in the **Cloud** which is all managed by **Artificial Intelligence (AI)**.

5G stands for fifth-generation wireless and is the latest iteration of cellular technology providing low-latency, high-efficiency data transfer, engineered to greatly increase the speed and responsiveness of wireless networks, as well as the ability to communicate with many billions of devices, **including the Intra-Body Nano-Network**. **Starlink** is a 5G satellite network that is utilized within the new **Worldwide Blockchain Financial System** and also utilized to collect data within the **Intra-Body Nano-Network**.

IoB or Internet of Bodies is the network of Transhumans who took the Covid-19 injection and are now connected to the **Intra-Body Nano-Network**.

Smart Meters are promoted by utility companies as an electronic device that records the consumption of electric energy and communicates the information to the electricity supplier for monitoring and billing. Smart Meters communicate with 5G and have software that can be programmed for any purpose, including a listening device that utilizes LCD light bulbs to transmit data.

5G communicates with the **Smartphone Gateway** that communicates with **Artificial Intelligence (AI)** and **AI** manages the **Smart Cities, Smart Grids, IoT** and **IoB**.

WEF and RAND Corp: The Internet of Bodies (IoB)

WEF: Tracking how our bodies work could change our lives

- **We're entering the era of the "Internet of Bodies": collecting our physical data via a range of devices...**
- **The result is a huge amount of health-related data that could improve human wellbeing around the world** and prove crucial in fighting the COVID-19 pandemic.
- **But a number of risks and challenges must be addressed....**

RAND Corp: **The Internet of Bodies Will Change Everything, for Better or Worse**

The rise of devices that connect the human body to the web is accelerating rapidly.

This Internet of Bodies could revolutionize health care and improve our quality of life.

But without appropriate guardrails, it could also jeopardize our most intimate personal information
and introduce several ethical concerns.

THE JABBED ARE NODES ON A BLOCKCHAIN

WEF: Smartphones to be Uploaded into Transhumans by 2030

The member of the World Economic Forum and CEO of Nokia's Pekka Lundmark during his appearance at the WEF in Davos, said:

"By 2030, definitely the smartphone as we know it today will not anymore be the most common interface, many of these things will be built directly into our bodies."

What Lundmark actually means is people who took the Jab are updatable like an app on a Smartphone.

**Transhumans are updatable like
an app on a Smartphone**

The above statement is my assessment based on my research

Microsoft Patent

WO2020 **060606** A1

(Trans)Human powered crypto mining system based on sensors that convert physical or mental activity into computer power

This proof-of-work is achieved when a user performs given tasks, or even online activities such as viewing ads and using search engines. “Instead of massive computation work required by some conventional cryptocurrency systems, data generated based on the body activity of the user can be a proof-of-work, and therefore, a user can solve the computationally difficult problem unconsciously,” the patent **reads**.

ABSTRACT: Human body activity associated with a task provided to a user may be used in a mining process of a cryptocurrency system. A server may provide a task to a device of a user which is communicatively coupled to the server. A sensor communicatively coupled to or comprised in the device of the user may sense body activity of the user. Body activity data may be generated based on the sensed body activity of the user. The cryptocurrency system communicatively coupled to the device of the user may verify if the body activity data satisfies one or more conditions set by the cryptocurrency system, and award cryptocurrency to the user whose body activity data is verified.

Summary and Conclusion

All Covid injections contain Nanotechnology/Hydrogel Graphene Oxide and Carbon Nanotubes. Nanotubes act as an antenna and the jabbed are emitting a Bluetooth signal that provides a Mac address that communicates with the smartphone which is a Gateway that communicates with 5G towers or Starlink which relays Transhuman data to the Intra-Body Nano-Network.

The Intra-Body Nano Network collects Transhuman data that includes but is not limited to the following:

- A. Biomedical: physiological parameters, heart rate, blood pressure, glucose levels, breathing frequency, and other vital signs
- B. Neuromodulation: neurostimulation, neurotransmitters, interaction with vital organs

What I did not include in this report is the work performed by the **NIH Brain Initiative** and other information which lead Nanotechnology scientists tell us they have done and can do. Such as Dr. James Giordano in a presentation **at DARPA discussing Nanotechnology and mind control** within this **video** and this **video**. I did not provide information on CRISR technology which is also part of the ingredients of the jab which Dr. Charles Morgan describes in this **video** as being able to **delete and replace memories**. And I could provide link after link of Dr. Craig Venter on **Transhumanist Medicine** and “many” other Transhuman mind control topics Dr. Venter openly discusses. Research for yourself, they openly tell us what Nanotechnology can do.

The World Economic Forum (WEF) Klaus Schwab openly discusses and promotes the 4th Industrial revolution aka Transhumanism. **The WEF is a partner with the UN**. Schwab’s right-hand man is Yuval Harari who publicly states humans are now “Hackable Animals” and states so much more.

UN Agenda 21 and UN Agenda 2030 call for Smart Cities, Smart Grids, 5G/6G, Starlink, and the IoT and the IoB, **which are all part of Transhumanism** in which Transhumans are nodes on a blockchain that are managed by AI.

The WEF publicly states that smartphones will be uploaded into Transhumans by 2030. **Transhumans will be updatable like an app on a smartphone and medications and vaccines remotely administered via frequencies.**

Amazon One allows payments to be made with the palm and Amazon Go provides zero checkout shopping. **The future will allow Transhuman Bluetooth signal and Mac address to make payments without a smartphone or app. These payments will be made with CBDCs, or approved cryptocurrencies integrated with ISO 20022.**

Microsoft Patent WO2020060606A1 **will be uploaded like an app on a smartphone into Transhumans** so that proof-of-work mining is achieved when a Transhuman performs given tasks or even online activities such as viewing ads and using search engines. “Instead of massive computation work required by some conventional cryptocurrency systems, data generated based on the body activity of the user can be a proof-of-work, and therefore, a user can solve the computationally difficult problem unconsciously”.

Transhumans will be able to generate their own CBDCs or Microsoft cryptocurrency and use them for payments.

2045 A New Era for Humanity – The Sentient World Simulation

In a 7-minute **video** produced by the **2045 Initiative**, whereby in 2045 humans no longer exist in a physical body, and **consciousness has been uploaded to a mainframe computer and managed by AI.**

The main science mega-project of the 2045 Initiative aims to create technologies enabling the transfer of an individual's personality to a more advanced non-biological carrier, and extending life, including to the point of immortality. We devote particular attention to enabling the fullest possible dialogue between the world's major spiritual traditions, science, and society.

The 2045 Initiative is related closely to the **Singularity**. The Singularity is a term used by **Ray Kurzweil featured who was the keynote speaker** during the Global Future 2045 congress held in Moscow from 16 to 20 February 2012.

A “major” related topic which I will dig into within a future report, is the **Sentient World Simulation** (SWS), which data is stored in the NSA data center in Utah. The data center can store a **yottabyte** of data (10 with 24 zeros). There is a second Yottabytes NSA Data Center Fort Meade in Maryland. The SWS is a continually running **mirror model** of the real world including every person on earth with a smartphone which are nodes on a blockchain. Since the smartphone debut in 2000, the SWS has created a digit avatar of every person on earth with a smartphone. AI has utilized our smartphone camera and microphone to watch and listen to us to know us better than we know us. Basically, **they have uploaded our consciences into a computer and have created an avatar mirroring you.**

In my current research, after someone takes the Covid-19 injection, and after the nanotechnology is activated and the neurotransmitters are unlocked via frequencies, the avatar within the SWS becomes the personality of the jabbed.

This presentation, **Digital Twin – Dr. Robert Duncan – NSA – Sentient World Simulation – DNA Nanobots**. Provides an excellent overview of the SWS.

The Corbett Report produced a video called the EyeOpener- Sentient World Simulation - **Meet Your Digital Clone**.
