

Jack Mountain Bushcraft School Digital Archives - Books

July 10, 2026

This is the current collection of books in pdf format in the JMBS digital archives. A note about the organization, I was a few years into this project and was storing everything by the title of the book. Then, when I added multiple books by an author, I listed the author's name and their titles under the author's name. Not a great system, but it would take time to change it now. Maybe someone else will add a hand at some point and the archive will be better organized. But for now, to search: titles are alphabetical by title. If you are looking for something and can't find it by title, look for the author's name (also alphabetical).
