HighPoint RAID & Host Adapter Product
HDD & SSD Compatibility List

2023/03/16

This document was designed to serve as general reference for compatibility between HighPoint Rocket & RocketRAID 6Gb/s & 12Gb/s HBA's and specific internal hard drives and SSDs described herein.

The disks included in this document are recommended for RAID configurations. Specific drive series may have special requirements or restrictions, which are provided under the Special Notice column.

As a general rule, only enterprise and NAS class hard disks should be used in RAID configurations. There are no specific limitations or restrictions for non-RAID applications.

Note: The table lists hard disk series suitable for RAID applications. To view information about individual models, please click the links providedfor each disk series. There are no specific limitations when selecting disks suitable for non-RAID configurations.
