

HighPoint SSD7202 Compatibility List

2022/8/3

This document was designed to serve as general reference for compatibility between the HighPoint SSD7202 and specific motherboards/SSD's described herein.

The motherboards included in this document are recommended for HighPoint SSD7202 x8 PCIE 3.0 configurations. Specific motherboards may have special requirements or restrictions. Please refer to the motherboard's PCIe Expansion slot settings.

Note: *Bifurcation is not required. HighPoint SSD series NVMe RAID controllers can be used with "Non-Bifurcation" motherboards.*

Motherboard Compatibility List
Note: The recommended PCIe slot we filled in are based on the description of the motherboard manual.
