

HighPoint Certified Cable Accessories

HighPoint certified cable accessories are custom designed and tested for each controller and enclosure product series. Our long history in the storage industry, and strong partnerships with leading cable manufactures, enable us to deliver unique cabling solutions for our entire storage product portfolio.

While it is true that HighPoint cable accessories utilize industry standard connectors, our pin definitions and layouts are proprietary; they are designed specifically to interface with our PCIe controllers, adapters, and storage enclosures.

For this reason, we recommend that customers only use HighPoint Certified Cable Accessories with HighPoint brand RAID and storage solutions. Third-party cables may not function properly with our product lines; customers that choose to use 3rd party cables with our storage solutions may experience a variety of technical and stability problems including device recognition and compatibility issues, unstable connections, dropped disks and/or arrays, and performance degradation. As a result, we will be unable to provide technical support for customers using uncertified third party accessories. In addition, we reserve the right to deny RMA repair or replacement requests if our products are paired with unsupported or uncertified devices.

HighPoint Certified Storage Enclosures

Like our cable accessories, HighPoint RocketStor series storage enclosures are certified for use with our RocketRAID and SSD7000 series PCIe RAID controllers.

Many of the unique features of each model, including the LCD screens, LED's, cooling apparatus, and audible alarms, were designed to work in conjunction with HighPoint series RAID controllers and adapters, and our WebGUI & CLI management software.

Aside from our RocketStor series enclosures, select 3rd party products have been certified for compatibility. Please check the compatibility list for the controller/adaptor for more information.

NVMe Cable Accessories				
Model	Host Connection	Device Connection	Length	Supported Products
8643-8643-0350	SFF-8643	SFF-8643	0.35M	SSD7120 , SSD7180 , SSD7184
8643-8639-50	SFF-8643	SFF-8639 (U.2)	0.50M	SSD7120 , SSD7180 , SSD7184
OLX4-8643-061	SFF-8643	Oculink backplane	0.60M	SSD7120 , SSD7180 , SSD7184
8644-8644-210	SFF-8644	SFF-8644	1M	SSD7184

NVMe Enclosures				
Model	Host Connection	Device Connection	Drive Bays	Supported Products
RS6540S	SFF-8644	4x M.2 / U.2	4	SSD7184

SAS/SATA Cable Accessories				
Model	Host Connection	Device Connection	Length	Supported Products
8643-4SAS-1M	SFF-8643	4x SFF-8642	1M	RR3700 , RR2800
8643-4SATA-1M	SFF-8643	4x SATA	1M	RR3700 , RR2800 , RR800
8644-HSAS-110	SFF-8644	SFF-8644	1M	RR3742A
EXT-MS-1MMS	SFF-8088	SFF-8088	1M	RS6418AS , RS6418TS , RS6414AS , RS6414TS , RS6414VS , RS6418S , RS6414S , RR4522SGL , RR2721 , RR2722 , RR2744 , RR644LS
EXT-MS-1MEJ	SFF-8088	4x SATA	1M	RR4522SGL , RR2721 , RR2722 , RR2744 , RR644LS
INT-MS-1M4S	SFF-8087	4x SATA	1M	RR452xSGL , RR2720A

JBOD Enclosures				
Model	Host Connection	Device Connection	Drive Bays	Supported Products
RS6418S	SFF-8088	4x SAS/SATA	8	RR4522SGL , RR2721 , RR2722 , RR2744 , RR644LS
RS6414S	SFF-8088	8x SAS/SATA	4	RR4522SGL , RR2721 , RR2722 , RR2744 , RR644LS
