HighPoint - Now Shipping: The Industry's 1st USB 3.0 PCI-e 2.0 x4 HBA for Mac OS X 10.8.x and Later

March 2013 - Milpitas, CA – HighPoint Technologies is now shipping the Industry's first USB 3.0 Storage HBA available for Mac OS X 10.8.x Mountain Lion – the RocketU 1144CM. This third generation, PCIe 2.0 x4 RAID HBA delivers HighPoint's industry-leading 5Gb/s per-port performance and supports up to 4 external USB SSD's, hard drives or Enclosures.

USB 3.0 RAID Solution for Mac OS X 10.8x Mountain Lion

HighPoint's ground breaking RocketU 1144CM is the industry's first USB 3.0 Storage HBA designed specifically for Mac Pro workstation platforms and Mac OS x Mountain Lion.
Device drivers are readily available for OS X 10.6.x and later, including the latest revisions of the 10.8.x operating system.
Powered by HighPoint's 3rd Generation USB HBA architecture, the RocketU 1144CM delivers the fastest SATA performance possible over USB 3.0 connectivity, and is ideal for performance intensive applications including media editing and high-speed external backup.
The built-in Hot-Plug and Hot-Swap support allows you to quickly transferring large files between the workstation and MacBooks or media capture devices.

Dedicated 5Gb/s per-port Performance

HighPoint's innovative 4-Port HBA architecture delivers revolutionary USB 3.0 performance. Unlike conventional USB 3.0 HBA's, each port has a dedicated USB 3.0 SuperSpeed controller, and delivers the fastest SATA performance possible over USB connectivity.
The four independent 5Gb/s USB 3.0 Type-A connectors can be used simultaneously, and deliver an unprecedented transfer bandwidth of 20Gb/s; ideal for multi-drive configurations of high-performance SATA 6Gb/s SSD's and hard drives.

Complete Host to Device USB 3.0 Storage Solutions

The RocketU 1144CM is the perfect companion for the RocketStor 5122B, the Industry's fastest dual-bay USB 3.0 storage dock. Both devices capitalize on HighPoint's unique USB 3.0 architecture to ensure 5Gb/s transfer bandwidth for each SATA device.
Each RocketU 1144C can support up to two RocketStor 5122B storage docks - ideal for configurations calling for two or more 6Gb/s SATA SSD's and high-capacity 4TB hard disk drives.
Each RocketU 1144CM includes HighPoint's intuitive Web-based management interface, which allows administrators to quickly create and manage a variety of storage configurations including RAID 0, 1, JBOD, as well as individual drives.

Availability and Pricing
RocketU HBA's and RocketStor Storage Docks are available immediately from our worldwide network of Distribution and Reseller channels.

Distribution Channels: ASI, D&H Distribution, MaLabs,
E-Commerce Channels: Amazon.com, Amazon.ca, B&H, Newegg.com

MSRP

RocketU 1144CM – USD$ 149.99

Why Choose HighPoint?

HighPoint is driven by the creative soul of our experienced product engineers, and an insatiable need for technological innovation. For over 17 years, HighPoint has been at the forefront of the storage industry, delivering cost-effective, cutting-edge technology and storage solutions to SMB's, Media Professionals and System Integrators, world-wide.

For the better part of two decades, our software and hardware development teams have dedicated themselves towards the design and manufacture of robust, cutting-edge storage solutions.

At HighPoint Technologies, we tirelessly strive to satisfy the ever growing need for cost-effective, robust, highly versatile storage solutions, and are committed to delivering the highest quality product and services.
