HighPoint Unveils High-Performance, Quiet, Fail-Safe, RAID 5/6 Thunderbolt™ Storage Solution

January 2014 – Milpitas, CA – Milpitas, CA –HighPoint Technologies, a pioneering force in the storage industry for the past 18 years, unveils its latest Thunderbolt Storage Solution, the NA762TB. HighPoint's NA762TB is a full-featured storage powerhouse backed by industry proven hardware-RAID technology, and delivers the uncompromised performance, superior reliability, and effortless every-day usability demanded by today's leading media professionals.

http://www.hptmac.com/series_NA762TB-overview.php

The NA762TB delivers High-Performance RAID storage without Compromising Data Security

The NA762TB seamlessly merges the simplicity and speed of Thunderbolt™ with HighPoint's industry proven RAID technology. Powered by a dedicated RAID processor with 512MB of DDR3, & 8 removable SAS/SATA disk modules, the NA762TB is the ideal storage platform for professional applications that demand uncompromised performance, unparalleled data security, & effortless usability. The integrated hardware RAID technology was validated by HGST and G-Technology, and is suggested as a bundle with G-Speed eS PRO Mini-SAS Storage Solutions.

RAID Management Made Simple

The NA762TB's intuitive, easy to master management suite takes the complexity and tediousness out of hardware RAID storage. The web-based interface and user friendly controls make creating, maintaining and recovering RAID configurations a snap – for veterans and RAID first-timers alike.

Stylish, Compact & Whisper-Quiet Enclosure

The NA762TB was designed to merge seamlessly with your work environment, and operate as unobtrusively as possible. Despite supporting up to 8 full-size SAS/SATA drives, the stylish compact, aluminum storage tower requires a minimal amount of work space. The whisper-quiet, professional grade cooling fans and power supply provide a safe, secure environment for your storage devices, and keep temperatures in check even during the most I/O intensive, high-stress workloads.

Simplified Cabling Solution

Adding high-performance hardware RAID storage to your workstation or server has never been easier. The NA762TB is compatible with any Thunderbolt capable computing platform, and delivers multi-terabyte of high-performance, hardware RAID storage from a single cable connection!

8 Removable Disk Modules Supports Any 3.5" SAS or SATA Drive

Why settle for pre-built storage configurations? Unlike conventional Thunderbolt storage solutions, the NA762TB imposes no restrictions on hard disk model, speed or capacity, and allows you to tailor storage configurations that to meet the exact requirements of your applications. The eight removable disk modules accept any industry-standard 3.5" SAS or SATA hard disk; from 5400, 7200 up to 15000 RPM spindle speeds, and are ready for any future capacity upgrades.

Availability

The HighPoint NA762TB is available immediately from HighPoint's Global Distribution and Reseller partners.

Why Choose HighPoint?

For over 18 years, HighPoint Technologies has been a pioneering force in the storage industry, delivering a wide range of storage controllers for all levels of production; from Chipsets & RAID HBA to today's external Storage & Adapter Device Solutions. Our hardware and FW engineering teams have been at the forefront of the storage industry for the better part of two decades. We specialize in performance oriented user-application focused design, development and manufacture, and continuously work to improve our products based on direct feedback from our valued customers. Over the years, we have forged strong alliances and technology partnerships with industry-leading storage providers, which enable us to quickly deliver the latest in storage technology to the global marketplace.

Product Design Philosophy: Taking the Complexity and High Cost out of today's Cutting Edge Storage Technology HighPoint understand the importance and appeal of high performance in today's marketplace. HighPoint's mission is to deliver quality, cutting storage performance at affordable price points - from business and professional media applications, to personalized solutions for the home enthusiast and power user.
