

Why Settle for Pre-Built Thunderbolt Storage Solutions? HighPoint's NA762TB Thunderbolt Hardware RAID Solution puts you in control.

The way many of today's prebuilt storage solutions are packaged come across like choosing your next meal from a fast food menu – do you want that in small or large sizes? This approach can be appealing depending on the project at hand; they come ready to use. But, the tradeoffs are severe; the upgrade cost is high, and due to the fixed storage configuration, options and expansions are limited.

Whatever happened to Just Right?

What happens when you need more space or need to consider new drive technology? Say you need to expand capacity to keep on top of a long-term project, or upgrade the storage configuration to satisfy a stringent reliability requirement - with prebuilt solutions, your options may be few and far between.

Perhaps it's really just a matter of "how much am I willing to pay"? Upgrading may simply not be an option –you may well be forced to purchase an entirely new solution.

HighPoint Has the Answer

The storage requirements of today's media professional are not carved in stone. A one-size-fits-all approach can severely limit the effectiveness of such solutions in a real-world work environment, project requirements vary from time to time.

HighPoint understands how important a flexible, customizable approach to storage can be to media and industry professionals. Thunderbolt's prime advantages are performance, flexibility and expandability – why settle for any solution that limits the potential of your Thunderbolt connectivity? The ability to craft your own solution, and the freedom to select the storage devices of your choice should never be compromised. HighPoint storage products and solutions were designed with the professional in mind. We strive to provide the customer with as many options as possible.

Choose the Storage Capacity that's right for you!

HighPoint's NA762TB is a full-featured storage powerhouse backed by industry proven hardware-RAID technology, and delivers the uncompromised performance, superior reliability, and effortless every-day usability demanded by today's leading media professionals. http://www.hptmac.com/series_NA762TB-overview.php

Why settle for pre-built storage configurations? Unlike conventional Thunderbolt storage solutions, the NA762TB imposes no restrictions on hard disk model, speed or capacity, and allows you to tailor storage configurations that to meet the exact requirements of your applications. Need to upgrade capacity or switch to enterprise class hard disks to ensure things stay on track? With the NA762TB – this is never a problem! The eight removable disk modules accept any industry-standard 3.5" SAS or SATA hard disk; from 5400, 7200 up to 15000 RPM spindle speeds, and are ready for any future capacity upgrades.

RAID Management Made Simple

The NA762TB's intuitive, easy to master management suite takes the complexity and tediousness out of hardware RAID storage. The web-based interface and user friendly controls make creating, maintaining and recovering RAID configurations a snap – for veterans and RAID first-timers alike.

Simplified Cabling Solution

Adding high-performance hardware RAID storage to your workstation or server has never been easier. The NA762TB is compatible with any Thunderbolt capable computing platform, and delivers multi-terabyte of high-performance, hardware RAID storage from a single cable connection!

Availability

The HighPoint NA762TB is available immediately from HighPoint's Global Distribution and Reseller partners.

Why Choose HighPoint?

For over 18 years, HighPoint Technologies has been a pioneering force in the storage industry, delivering a wide range of storage controllers for all levels of production; from Chipsets & RAID HBA to today's external Storage & Adapter Device Solutions. Our hardware and FW engineering teams have been at the forefront of the storage industry for the better part of two decades. We specialize in performance oriented user-application focused design, development and manufacture, and continuously work to improve our products based on direct feedback from our valued customers. Over the years, we have forged strong alliances and technology partnerships with industry-leading storage providers, which enable us to quickly deliver the latest in storage technology to the global marketplace.

Product Design Philosophy: Taking the Complexity and High Cost out of today's Cutting Edge Storage Technology HighPoint understand the importance and appeal of high performance in today's marketplace. HighPoint's mission is to deliver quality, cutting storage performance at affordable price points - from business and professional media applications, to personalized solutions for the home enthusiast and power user.
