The RocketStor 6674T transforms your Mac mini into a high-performance Thunderbolt™ 3 Storage Server

December 2018 – HighPoint's class-leading RocketStor 6674T rackmount RAID enclosure is an ideal partner for Apple's new 2018 Mac mini platform. Though the Mac mini's is primarily aimed at those looking for a highly-compact desktop computing solution, the 2018 model delivers the performance to support a broad range of professional storage applications such as media servers, asset libraries and archives, and SMB file servers. Customers can easily integrate their Mac mini directly into the RocketStor 6674T chassis – its rear panel features a removable tray designed specifically for the Mac mini form factor.

All-In-One RAID & JBOD Storage Server for 2018 Mac mini platforms

The RocketStor 6674T can transform your 2018 Mac mini into a compact, all-in-one, high-performance mass storage server. The rear panel of the rackmount chassis features a removable docking tray that is designed to host a Mac mini system. The tray is slotted to allow direct access to the Mac mini's Thunderbolt™ 3 ports, which makes installation a snap.

This unique combination allows customers to easily add up to 224TB of RAID storage to any Thunderbolt™ 3 capable Mac or PC platform. The mass storage capability, redundant components and integrated RAID 5, RAID 6 and JBOD technology are ideal for applications that require a high degree of data security, availability, and transfer capability.

Integrated Turbo RAID Architecture

The RocketStor 6674T delivers professional class management and monitoring capabilities via a single unified interface, and is powered by our industry proven Turbo RAID architecture, which delivers class leading RAID 0, 5, and 6 capabilities. Customers can easily configure one or more RAID arrays to satisfy the demands of a variety of high-density storage applications including storage servers, compiling media libraries & archiving critical assets. The RocketStor 6674T was designed to support off the shelf Seagate, WD and Toshiba NAS PRO and Enterprise class hard drives.

Pricing and Availability

The RocketStor 6674T is now available from HighPoint's North American Retail and Distribution partners.

North American MSRP (USD): $2,299.00

About HighPoint Technologies

HighPoint was founded in 1995. For over 20 years, we've dedicated ourselves towards the design, manufacture and deployment of quality RAID HBA's and RAID Storage Management Solutions. Our devoted team of experienced hardware and software engineers bring years of Storage RAID technology expertise to NVMe, SAS, SATA, Thunderbolt ™ and USB storage and connectivity applications.
HighPoint strives to bring high-performance, quality storage and connectivity solutions to the marketplace at the industry's best prices. We firmly believe that you do not have to sacrifice performance, versatility or reliability for affordability.
