HOBBIES

• Reading Self-help and Investment Books
• Cycling
• Watching Financial Documentaries

COURSEWORK

CODING NINJAS

Data Structures and Algorithms in Python

CODING BLOCKS

Interview Questions Certificate

PROJECTS

TIMERS (Github | Live)

Tech-Stack: NextJS, NextAuth, TailwindCSS, Postgresql, TRPC, PrismaORM

A versatile task management application with a key feature of personalized timers, enabling users to predetermine the time required for a task, thereby promoting efficiency and time management

The application incorporates a comprehensive authentication system, including Sign Up, Login, and Logout capabilities, leveraging OAuth2 protocol in collaboration with clerk.dev

NOTES (Github | Live)

Tech-Stack: NextJS, ClerkAuth, TailwindCSS, Postgresql, TRPC, PrismaORM

A sophisticated, open-source, full-stack note-taking application with a streamlined user experience

The application incorporates a comprehensive authentication system, including Sign Up, Login, and Logout functionalities using OAuth2 and GoogleAuth

TOOLS (Github | Live)

Tech-Stack: NextJS, TailwindCSS, Metamask

A collection of various utilities which includes text-encryption, web3-wallet generators, FD Calculator, Loan Calculator, etc.

TELEGRAPH (Github | Live)

Tech-Stack: NextJS, FaunaDB, MUI

A clone of Telegra.ph but with "delete" feature which is missing in original one.

SHORT (Github | Live)

Tech-Stack: NextJS, Postgresql, PrismaORM

Convert Large Urls to short custom urls.

STICKY NOTES (Github | Live)

Tech-Stack: NextJS, Postgresql, PrismaORM

Convert Large Urls to short custom urls.
