| E Quick tips | F Labels | G User Manual |

• If contents are missing or damaged, please contact us

I 1.2 Printer Overview

I 2.1 Quick printer connection

- Please follow the sequence of the above picture to operate

I 2.2 Label setup

Automatic label identification:

- Load no less than 4 consecutive labels into the printer.
- After the paper is stable, press and hold feeder button, until you hear a beep.
- Then, the printer will automatically label identification.

02 Set Up The Printer

Recommended:

Watch the short setup video at:
www.munbyn.biz/unboxing

I 2.3 Driver installation

For the latest driver, please visit:
www.munbyn.biz/941d

- Please run the downloaded software from the web address indicated above and follow the prompts to complete installation.

2.3.1 Windows Driver Installation

2.3.2 Mac Driver Installation

03 Pro Tips

- Anytime you change your label, run the automatic label identification.
- Press the feeder button on the printer to **skip a blank label**.
- To run a **self-test**, press and hold the feeder button until you hear two short beeps.
- Avoid **poor quality labels** as they can damage the printer.
- Regularly **clean the printer head**.
- If the **paper is jammed and the red light flashes**, run Automatic label identification.
- Insert Munbyn into the **same USB port** on your computer every time. This will avoid creating duplicate copies of the printer in your operating system..
