August, 5th Grade is here,
What a wonderful grade. It's gonna be a great year!
32 kids in class, all ready to learn.
No time to waste, look forward to some fun.
It'll be a wonderful journey, Mr. Pham said so.
"Effort we must have, directions we must follow.
Don't be shy, join in, and let's go!"

We've done lots of STEM, so cool.
High-flying rockets, and wood gliders too.
But that's not all. Balloon-powered cars,
The fun of watching Santa falls.
Augmented 3-D, building with marshmallows,
Battle-bots with the rolling Spheros.
But the bridge project was the best of all.
We planned, we glued, we watched them fall.

There were lots of fun things we did through the year.
Hot chocolate and Roach time, we hold so dear.
Carnival in the winter, one more as the year ends.
Talent shows, flea markets, good times with friends.

We've learned a lot in this 5th grade.
Bots we programmed, flowers we made.
Math, Science, Reading and everything in between.
Presentations and Art, what a great year this has been.
Our teacher, our friends, this class, we'll miss it so.
With happy smiles, but heavy hearts, say good-bye... because...
We have to go...

what is happiness?

“They say Happiness is a thing you can’t see, a thing you can’t touch. I disagree! Happiness is standing beside me, I can see him, he can see me... Happiness is whatever you want it to be...”

My dear Students,

I memorized the lyrics to this song back in my 5th grade during a school play (the “yellow-snow” incident). At the time, I only know how to sing it, but did not understand the meaning behind it. As I grow older, these simple words began to mean something in every walk of life. Let me explain by taking a look back at this year...

The first day of school back in August, we were so wide-eyed coming together for the first time in this Room B1. Everyone was waiting to see what this funny looking teacher will say and do. From that day on, we worked together, we made friends, we laughed, we yelled and screamed, we learned, and we were happy. But happiness is much more than that. You see, happiness is sharing this year together. Here are some examples: Happiness is having a chance to go to school every day, to be in a safe environment, to gain knowledge. Happiness means being together for the whole 5th grade year, a unique and special class that happens only once. It’s almost destiny. To you, Happiness might be getting a good grade, completing an assignment, winning Kahoot competitions, having paydays, flea-markets, game room play, STEM projects, chew-gum Fridays, celebrating New Year, Cinco de Mayo, and the Carnivals!!! It IS Destiny!

To me, HAPPINESS is seeing smiles on your faces each day. Happiness is not having to mark anyone absent. Happiness is watching you try your best, helping you to be successful, watching “Mr. Lemoncello’s Library”, going on our class walking fieldtrip, and enjoying “RoAch’s” together.

Happiness is calling you Moldie, Roach-Girl, BiZarraro, the 6-7 Elves, Kambirusa, Pascal, and all the Hyenas ... Happiness is collecting fines for shrugging your shoulders, for saying “never mind”, “whatever”, and for insisting that Mr. Pham is oogly. Most of all, Happiness is having a group of unique and wonderful students...

So there, I CAN and DO see happiness. Happiness was in class with me every day, standing beside me, talking to me, annoying me, even insulting me... Yes! I can see Happiness, and they can see me. Happiness is whatever makes you happy...

This year, I have 32 wonderful happiness in class.

MY students, the year is over, and you must go on. Have courage, take that next step that will open your mind to a whole new world and understanding. No matter where your journey takes you, always remember that “We may not remember days, but we do remember moments.” Hopefully, through this yearbook, you will always remember some of the many happy moments we’ve shared in this class. May your journeys be filled with many, many more happy moments

Mr. Pham, AKA βββ-Yah!
Your Teacher... always

The Class Times Newsletters

2025-2026

Our monthly Class Newsletter, the "Class Times", was a continuous writing project throughout the year to share with each other and parents our 5th Grade Journey. The 4-page newsletter also provided opportunities for students to express themselves through writing, work cooperatively with each other, learn how to use the computer, and experience the process of publishing a monthly newsletter. Here is a look back at all the newsletters we've done during the year. We hope our parents enjoyed reading them as much as we did in creating them.

Martin Luther King Birthday
 January 19th, 2026

On January 19th, 2026, we celebrated Martin Luther King Day. Martin Luther King Jr. did a lot of good things for African Americans and for all Americans as well. He was the first to fight for equality for everyone, especially African Americans. He believed that no one should be treated unfairly because of their skin color. A lot of people didn't like him because he fought and spoke out on the discrimination and prejudice against African Americans. He gave a famous speech at Washington D.C. called "I Have a Dream". In his speech, he said people weren't supposed to be judged by their skin color but by their character.

In class, we learned about Dr. King's life, what he fought for, and why he was so important to us. We also watched a video of his "I Have a Dream" speech, and even we got to share about what we believe in and our hopes for a better world.

Women's History Month

In the month of March, our class celebrated Women's History Month and learned why there are so many great women in our world. We did projects, designed, wallpapered, created movie trailers, and wrote like Obama in the story of these great women in American history.

We learned that these amazing women were through a lot to be successful. They didn't get equal rights, shared opportunities, and were discriminated to achieve their goals.

To honor these women, the month of March is known as Women's History Month.

Mickelle Obama (1964-present)
 Michelle Obama is an American lawyer and writer who was the First Lady of the United States from 2009-2017. She is married to the 44th President, Barack Obama, and is the first African American First Lady. Barack, Michelle Obama

Ellenor Roosevelt (1884-1962)
 Ellen Roosevelt was the first woman to be a U.S. Senator. She was also the first woman to be a U.S. Ambassador. She was married to the 26th President, Theodore Roosevelt.

Sally Ride (1951-2012)
 Sally Ride was the first American woman in space. She was a physicist and astronaut. She was married to the 40th President, Jimmy Carter.

Amelia Earhart (1897-1937)
 Amelia Earhart was an American aviator, pilot, and explorer. She was the first woman to fly solo across the Atlantic Ocean. She was married to the 30th President, Calvin Coolidge.

Suzanne Tenner (1937-2012)
 Suzanne Tenner was the first woman to be a U.S. Supreme Court Justice. She was a lawyer and judge. She was married to the 41st President, James Earl Ray.

Ruth Bader Ginsburg (1933-2020)
 Ruth Bader Ginsburg was the second woman to be a U.S. Supreme Court Justice. She was a lawyer and judge. She was married to the 40th President, Jimmy Carter.

Celebrating Our Diversity

Our class is unique. We have students that come from different countries, have different backgrounds, and different families. Among these differences, we also have a lot of similarities. We have the same school, same grade, same class, and have the same teacher. All trying our best to learn and be better citizens. Because of differences and similarities in our classroom, it is a very important understanding that all cultures have value, and the differences in our class are to be respected and appreciated.

This year, we will observe different cultural celebrations to recognize those students who are connected with that culture. In our classroom, we always respect each other although we look different, speak different languages. Each of us brings something special to no matter where we come from.

Drug Free Pledge

I pledge allegiance to myself and to the things I want to be. Cause I can make my dreams come true if I believe in me. I pledge to stay in school and learn the things I need to know. To make the world a better place for kids like me to grow. I pledge to keep my dreams alive and be all that I can be. I know I can, and that's because I pledge to stay Drug Free!

This year's Red Ribbon Week on the week of October 12th to 18th. In our class, we had a presentation of different drugs. We all stood up and read our Drug Free Pledge. We pledged to grow and drug free. We are proud to grow and drug free. We are proud to grow and drug free. We are proud to grow and drug free.

Black History Month

All of America honored the people that made this country great. These Americans had gone through many hardships and overcome difficult challenges to become great men and women in government, education, science, sports, music, and gave us great examples to follow. There are some of the people we admire for their courage, leadership, and achievements. We also strongly believe that everyone has a right to a free life and their expression of ideas.

In our class, we were divided into groups of two to do research on a famous African American personality or a significant event using Google Slides. We then recorded our voice and video and presented it to the class. We enjoyed this project very much as we learned a lot about people and events that changed our way of life.

State Test Month

In preparation for the OSAPY testing, Room B1 students participated in an in-class academic challenge to review Reading, Science, and Math skills we've learned throughout the year.

With study guides and teamwork groups (Earth, Wind, Fire, H2O) signed one another under different groups.

The writing group will be presented with the Academic Challenge! This is a special prize for the whole group, and that prize will hang on Mr. Pham's class wall of Famous Students! All groups will receive medals, prizes, and class money for their effort.

We're having great time in review for our OSAPY testing. After 4 weeks of exciting learning, we will have an Earth - 207 points, Fire - 207 points, H2O - 207 points.

What are Students thinking?

Do you think you're in school too long? Do you watch TV about three hours each day? And if some money suddenly appeared in your life, would you just as soon spend it then save it?

Yes, yes and yes – at least according to a new survey of 1,500 students. The survey, **“The Mood of American Youth,”** was compiled by the National Association of School Principals. It concentrates on school, but also takes a look at a wide range of subjects. Here are some of the highlights.

School. More than 70 percent* of the students said they enjoy most about school is their friends. Other things they say they enjoy are sports (31/2%), learning (17.1), social activities (16), teachers (15.1) and classes (10.2).

Teachers. Nearly one third of the students say the ability to explain things clearly is one of the most important qualities of a good teacher. Other qualities mentioned are concern and kindness (18.2) and good attitude and friendliness (15.7).

Hobbies. The hobby enjoyed by most of the students (64.9%) is sports and fitness. Other favorite hobbies are reading (49.10), music (43.8), cooking (39.9), collecting things (39.8), art (32.9), computers (27.3) and dancing (23.4).

After graduation. More than half plan to go on to college. About 36 % will get full time jobs, 14.8% will go to junior college and 14.8% will attend vocational or training school. Marriage was marked by 13.3%, while 11.1% planned to join the military.

Careers. Computer-related careers are indisputably the most highly desired occupations especially with the growth of internet usage – 16.7% want to break into that field. The business world appeals to 7.3%, while 6.6% hope to become doctors. Teaching (5.6), law (4.5), engineering (4.2), accounting (3.8) and professional sports (3.8) also have their fans.

World problems. For 37%, the threat of nuclear disaster was the world's No. 1 problem, with threats like North Korea, Iran, Russia, and Syria. Threat of World War III concerns 21.3%, poverty 15.1%. Overpopulation (10.5) and environmental problems (6.5), the No. 1 and No. 2 concerns 10 years ago, dropped to fourth and fifth place this year.

Life goal. To the question, “What is the one thing that you want out of life?” 27.6% mentioned career success. Happiness in general comes in second with 25.7%, followed by marriage and family (20.8), general success (9.8), financial success (7) and a long, enjoyable life (4.2).

** Some sets of percentages will exceed 100 percent since students were allowed on certain questions to make more than one choice. Where the total of the percentages is below 100, not all responses are listed.*

Poll: Who is your hero and what do you admire most about your hero?

A person I admire is Japanese music artist named Hatsune Miku. She comes from the topic called “Vocaloid.” Vocaloid is a where a real singer sings the song that they are needed to sing and editors make their voices high pitched and AI-like. I really enjoy her music and have been listening to her music for a couple of years and it makes me feel hyped and happy when I hear her music. She's also a really popular music artist who's been around for 5-8 .

● Callie

My hero is a doctor because he helped me when I was hur. In the 4th grade, I sprained my ankle when I was was playing tag at school. I could barley walk and I went to a doctor's office and they helped me so my leg can get better. I am happy that the doctor helped me when my ankle was almost broken. I am so glad the they helped me so I can walk normally.

● Jonah

Yes I have a hero, it is the one and only youtuber... ITSFUNNEH!! Something I admire about them is that they are caring. They make me happy and make me laugh, but they aren't just some random youtuber. They care about their fans, I've even met them once! They are so kind and make me smile when I'm down. They are the only people that will make me smile when I'm sad. They will always and always be my hero. ♥

● Kailani

My hero is my sister Aria. One time when I was seven, I fell down and almost broke my elbow but she pulled me back just in time but I still sprained my elbow. Everytime I get sad I go to her. When I get bored I ask to play Roblox with her but I only ask when she is not playing with her friends. When I'm sick she sometimes checks up on me. My sister Aria is my hero. Don't tell her.

FRIENDS & Classmates

The 2025-2026 school year through pictures

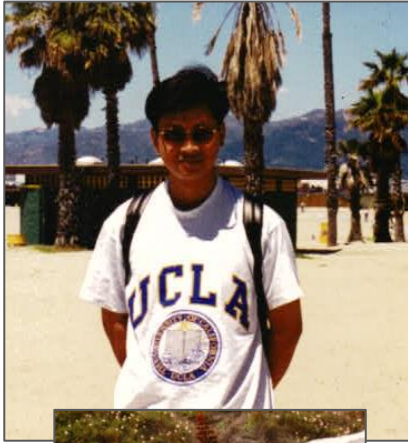

*Friends are there when school days feel long,
Friends bring laughter when things go wrong.
They share your joy or if there's fear,
They stand beside you throughout the year.*

*In every smile and every tear,
You know a true friend will stay near.
From the beginning until the end,
School feels better with a friend.*

A MEAN teacher

By Laura Staunton & Barbara Erickson

A MEAN teacher insists that each student do the best s/he is capable of doing.

A MEAN teacher requires each student to think carefully and to make her/his own decisions.

A MEAN teacher does not accept incomplete assignments.

A MEAN teacher makes students keep the classroom, themselves, and their belongings neat and clean.

A MEAN teacher gives homework regularly, sometimes even on weekends.

A MEAN teacher calls on students who don't raise their hands to answer questions.

A MEAN teacher requires all students to treat each other with respect.

A MEAN teacher makes life miserable for students by insisting that they always tell the truth.

A MEAN teacher produces students who are respectful, responsible, and successful.

THE WORLD NEEDS MORE MEAN* TEACHERS!

My dear students,

We spent 10 wonderful months together as a class in Room B1. We picked up some knowledge and made lots of memories along the way. Although I'm only your teacher for a short time, I hope to have instilled in you a belief in yourself and what you can do, and a good attitude toward school.

We've done so many things this year: STEM investigations, presentations, reports, flea markets, art, webpages, newsletters, carnivals, celebrations, money, bridges, paydays, fines... We had a lot of fun, and I really enjoyed my time with you all. Each of you will always be special in my heart.

As we end our 5th grade year, I wish you many more happy moments in the middle grades and beyond.

Thank you for being a part of my life.

Mr. Pham ♥

*Time may pass
And we may part,*

*but true friends
stay close at heart!*

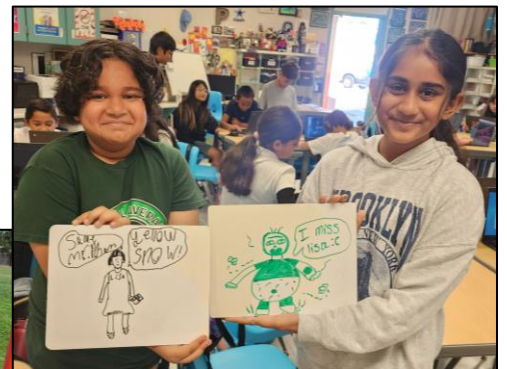

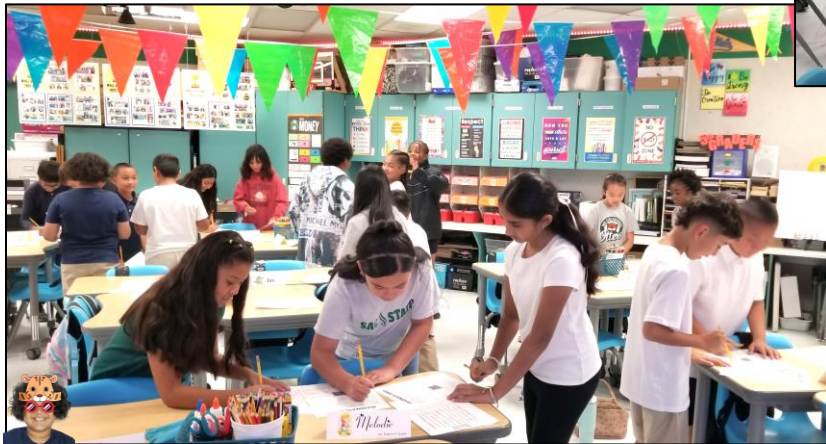

We were nervous, being fifth graders for the first time. Most everyone looked strange, especially the teacher. It takes time to get to know each other better.

We had to write for our class newsletter? Bingo and tangram puzzles? That's too much work!!!

The Making of Our Class

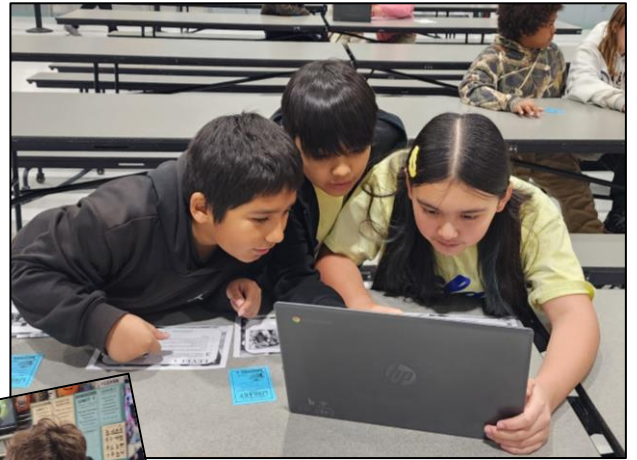

Learning Activities

We know the purpose being in school is to learn good things and to acquire knowledge so we can be better individuals. But learning doesn't mean just sitting down and read or write. We learned a lot this year by doing, by trying our hands on different activities, and by working together with other people. We explored, discovered, constructed, debated, dissected, and experimented. We did reports and projects, used different technology, created artworks... and completed many activities throughout the year.

Cooperation

Working together was the basis for our learning this year. Cooperative groupings, learning to respect other people's ideas, supporting each other, and knowing your responsibility within the group structure have made our class functioned better.

Working together

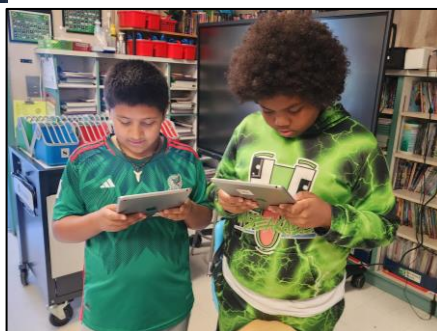

With the availability of technology in the classroom, we have learned how to use technology to enhance our learning. Using the computer, we searched the internet, built websites, created videos, edited pictures, used learning programs, and of course, took a lot of tests. We also used iPads to draw and did programming. This was a fun year using technology in our class.

Technology in Class

This year, we explored and tried our hands on different science concepts such as science tools, water cycle, solar system, matter, and ecology.

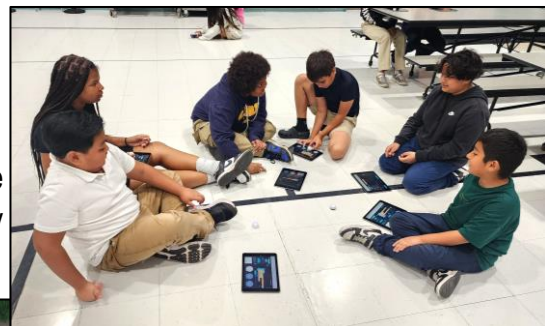

Science Fun

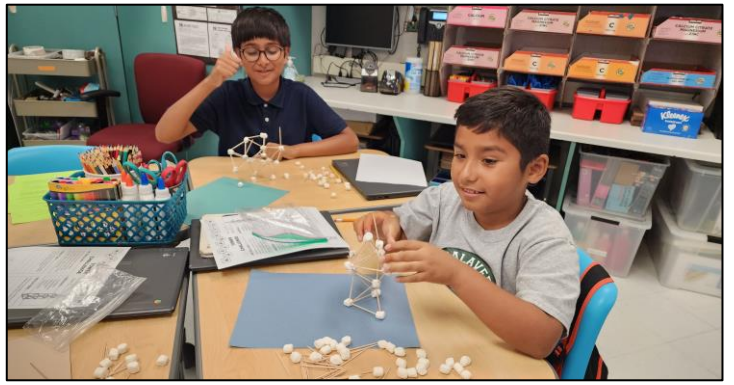

S.T.E.[A.]M.

This year, we incorporated **Science, Technology, Engineering, [Art & Design,] and Math** into our regular Science program. We focus on these areas together not only because the skills and knowledge in each discipline are essential for student success, but also because these fields are deeply intertwined in the real world and in how students learn most effectively.

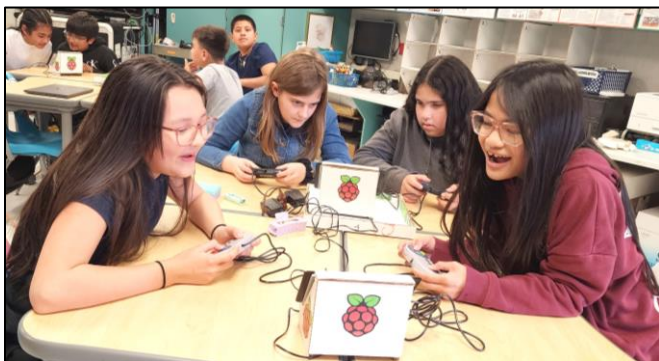

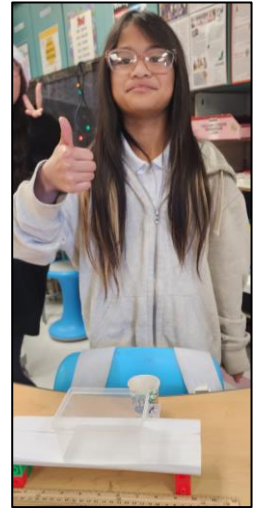

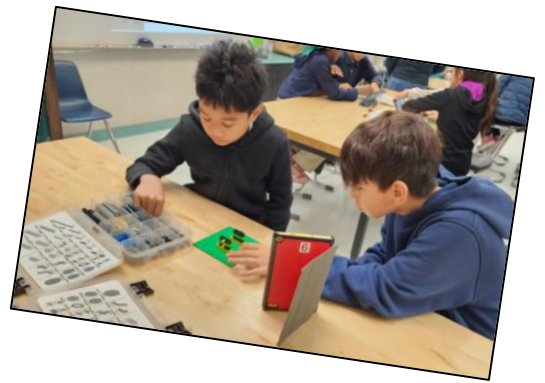

We explored many activities this year:

- Sun Dials
- Hoop Gliders
- Santa Drop
- Marshmallow Tower
- Paper Helicopters
- Paper Airplanes
- Wood Gliders
- Catapults
- Ozobots
- Spheros
- 3-D Augmented Reality
- Balloon Cars
- Aerodynamics
- Carousel Swing Model
- Rocketry
- Bridge Building

5th Grade STEM Day

“Bricks4Kidz” is a company that specializes in STEM Enrichment Programs for students to learn how real-world concepts are related to physical science, engineering and technology.

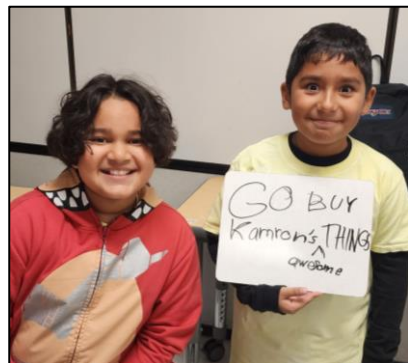

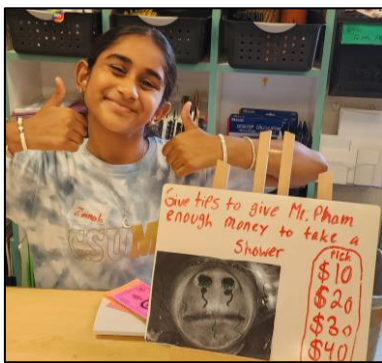

“Bricks4Kidz” came to Rio Calaveras to give 5th grade students some fun and exploration through educational play. We enjoyed it very much! 😊

Flea Markets

This year we had three Flea Markets in class this year. The purpose is to use class money to buy and sell little trinkets and other knickknacks we have around the house. During the process of buying and selling, we were required to calculate prices, add, subtract, divide, multiply, give correct change, and wisely use our money to make more money or to buy things we like. Most of all, we had a lot of fun buying, selling, and learning to run a business.

TALENT WINTER SHOW 2025

Lunar New Year Celebration

Our class celebrated the Year of the Horse 2026 in the classroom. Mr. Pham gave us "Red Envelopes" and we played special Lunar New Year "Games of Chance" using class money. It was a lot of fun learning about Lunar New Year and celebrating with friends.

Valentine Celebration

This year's Valentine's Day was a very fun occasion. Mr. Pham had us make Valentine containers to hold cards, grams, and candies. This is also a competition to see who can create the best-looking container.

We also designated this Valentine's Day as "Kindness Day." We gave each other cards and treats to show kindness to everyone. We all had a blast making containers and a wonderful Valentine day with candies and received a lot of cards and grams. We also had a RoAch at the end of the day. Pictures of the Valentine celebration are on our class website.

ART TIME

Studies have shown that involvement in the arts is associated with gains in math, reading, cognitive ability, critical thinking, and verbal skills. Arts learning can also improve motivation, concentration, confidence, and teamwork. Finally, drawing, painting, and creating arts can be a relaxing, non-pressure activity that refreshes the mind.

For us this year, art time is fun time! We had such a great time learning about art this year. We love it!

WE LOVE ART!

2-POINT PERSPECTIVE ART PROJECT

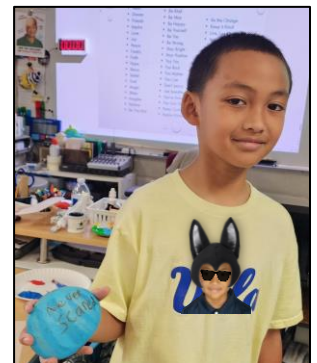

Our class went outside on the school grounds to draw 2-point perspective building of our choice: Rio's cafeteria, office, or the library. Perspective is a drawing method that shows how things appear to get smaller as they get further away, converging towards one (or two) 'vanishing point' on the horizon line. It is a way of drawing objects upon a flat piece of paper (or other drawing surface) so that they look three-dimensional and realistic.

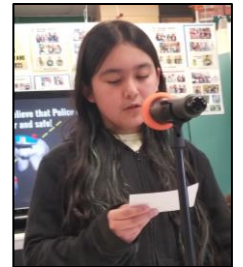

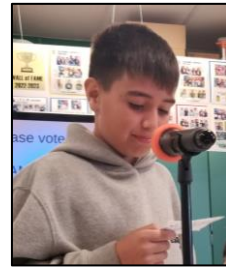

#kindnessrocks Project

We followed the [#kindnessrocks](#) movement in painting our own rocks with messages of kindness. Kindness rocks are hidden around town to be found or placed in rock gardens and shared to others to bring a bit of happiness. These random acts of kindness are the purpose of the [#kindnessrocks](#) movement. It's also a perfect opportunity to remind ourselves to be kind and respect everyone. This was a fun and inspirational learning experience.

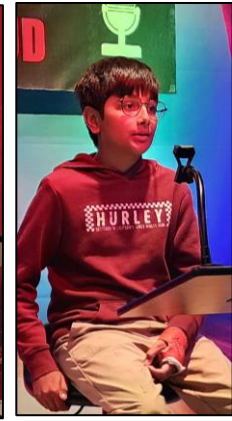

TEAM DEBATE

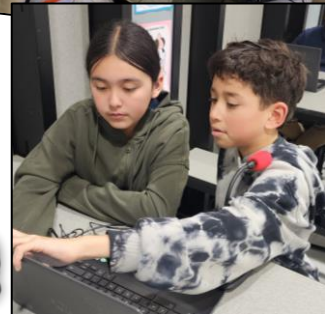

P.E. TIME

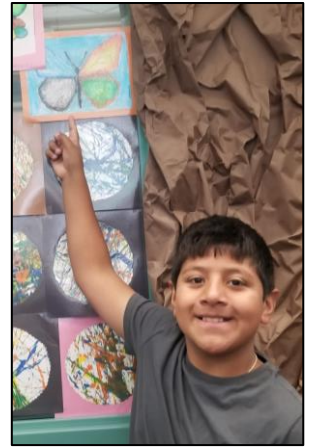

Presentations

Our class enjoyed doing presentations throughout the year. The purpose was to build speaking and listening skills. They were also lots of fun!!!

SUMMER 2026

Class Carnival

December 19, 2025 - We transformed our class into a mini-carnival event with game booths and entertainments to celebrate half of 5th Grade year. We invited staff to share the joy of the season with us. There was also a carnival store for us to spend tickets to get some treats. It was a fun time for all.

ACADEMIC CHALLENGE 2026

In preparation for the CAASPP testing, Room B1 students participated in an in-class academic challenge to review Reading, Science, and Math skills we've learned throughout the year.

After 4 weeks of heated and exciting competition, **TEAM FIRE** came out on top in this year's challenge. We had a great time playing.

Congratulations to all members of Groups Earth, Wind, Fire, and H₂O for your participation and exciting game play.

CINCO DE MAYO

Our class celebrated Cinco de Mayo on Tuesday, May 5, 2026, with a Cinco de Mayo Carnival in the classroom. Each group was responsible for creating a game for everyone in class to play. There was a "Fiesta" backdrop for us to take pictures and Mariachi music was played throughout the carnival. We also had Nachos and other treats for us to purchase with their class money. It was so much fun celebrating our multi-culture and playing games in the classroom. Viva Mexico!!!

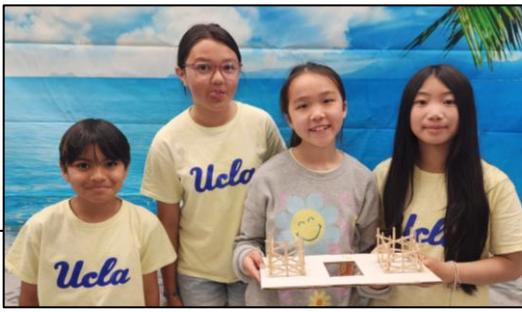

“CLASS SUCCESS” FIELD TRIP

Throughout this year, Room B1 students have been working hard to achieve. They believed in themselves and never gave up. They have survived 5th Grade and did so well. Even the mean teacher did not scare them at all! We have done a lot together this year. To celebrate our 5th grade success, we walked to lunch together on Wednesday, May 8. It was fun having lunch with friends.

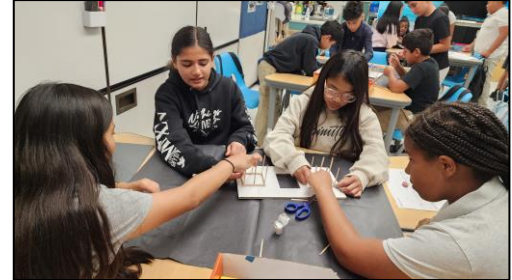

BRIDGE CONSTRUCTION MATH PROJECT

Company 1:
Super SNAL

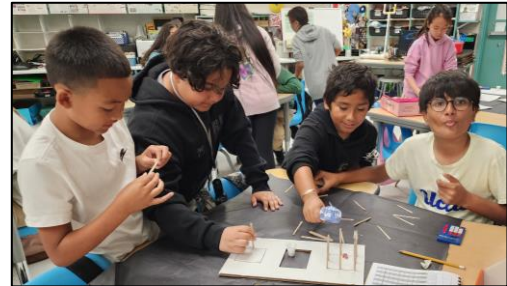

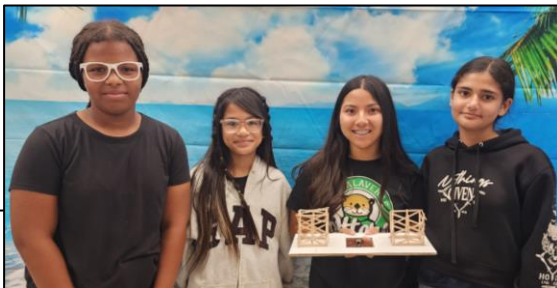

For the month of May, the students were involved the “Bridge Building” project which involved building a bridge out of toothpicks strong enough to sustain as much weight as possible. Students drew plans, filled order forms, wrote checks, and had lots of fun along the way.

WE ARE WEIRD

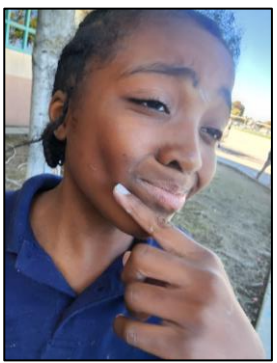

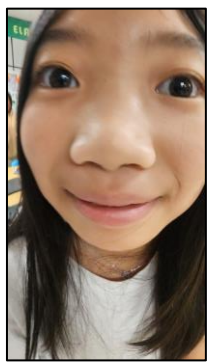

WEIRD FACES

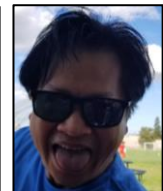

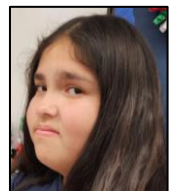

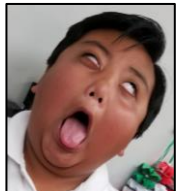

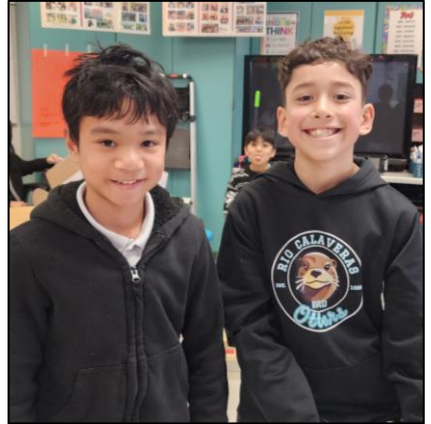

#soweird

MORE WEIRD FACES

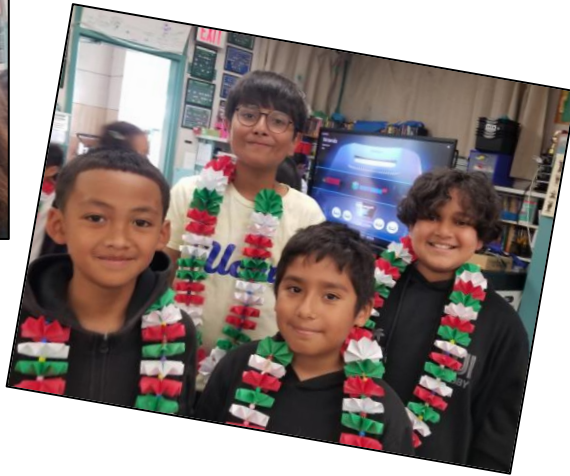

True friends are the ones who bring out the best in each other.

"Friends are the most important ingredient in this recipe of life."

What kind of FRIEND ARE YOU?

What kind of Friend Are You? What's your friendship style? Are you a pal? Someone to confide in? An intellectual? All three? Take this quiz to find out. Circle the letter of the answer that best describes you.

1. You and your friends:

- A. Have long talks about everything
- B. Shop till you drop.
- C. Meditate (contemplating, deep thinkers)

2. You choose friends:

- A. Who like to reveal their deepest thoughts.
- B. So you'll have someone to do things with.
- C. With IQs higher than desert temperatures in midsummer.

3. At school, you and your friends:

- A. Make plans to sit at lunch to talk.
- B. Can't wait for recess and P.E.
- C. Listen to your teacher and take notes.

4. You see your friends:

- A. Everyday - there's so much to talk about.
- B. Whenever you play volleyball.
- C. When you go to BJ's together.

5. When you talk to your friends, you talk about:

- A. Deep emotional and personal issues.
- B. Games, anime, shopping, drawing, K-pop idols
- C. The effects of ozone-layer depletion on giant redwoods.

Best friends are...

6. A cousin you've never met moves to your town. Your mom wants you to be friendly. You ask your cousin:

- A. About everything.
- B. To play Roblox and Minecraft.
- C. About the socioeconomic differences between your town and her/his previous home.

7. You'd describe the ideal friend as:

- A. Someone you could feel truly safe in confiding in.
- B. Someone who is always available to go places with you, watch anime, play video games...
- C. Someone who know a lot and who shares his or her insights with you about life.

Check your score: Count up your A, B and C answers.

Then check below for a description of your friendship style:

Mostly As: Your friends form a network of concern. You spend a lot of time talking over problems and helping each other. You know that your friends will be there if you need to talk, and you expect to spend time listening to them as well.

Mostly Bs: You and your friends like to spend time doing things together. You don't spend as much time talking - you prefer action.

Mostly Cs: Your friends are intellectual. You enjoy deep discussions and thrive on debate. You and your friends sharpen each other's intellect.

In real life, you and your friends probably don't fit neatly into one of these three categories. Many friendship styles and combinations are possible. Even if your friendship style was mostly one type, you probably have elements of other friendship types in you.

This quiz is not meant to be taken seriously. We hope it will amuse you and cause you to think a little bit about your friendships and what makes them special.

Poll: What makes you happy?

● Nicholo

● Olivia N.

● Anthony

● Mila

Food makes me happy because of the different flavors of the food. For example, tacos are filled with flavorful ingredients like pork, beef, rice, beans, and they taste good.

Food is very important because you need the calories so that your body can have the energy to function. So, if you have to eat to live, why not choose the food that can give you nutrients and also taste good. Because good food makes you HAPPY. 😊

Hanging out with my friends and family makes me happy. Being on vacation makes me happy. Going to school makes me happy. Reading makes me happy. Playing by myself or with my siblings makes me happy. Doing art makes me happy. I like to hang out with my friends because when I play with them and talk to them, they make me happy when I am upset. We like to do activities together and spend free time together.

Money makes me happy! If the world has no money, there would be no stores and shopping malls. Nothing will be sold without money because everything has a value and if there is no money then no one can buy anything. That is why money is so important in life because it keeps life organized and in order. We work to get money to buy what we want to eat and use. Money makes me happy because I learn to work hard and make good choices.

My friends and family make me happy the most. They make me happy with their presence and their support. Every time I see my friends like Kailani, Ivan, Michael and Riley, they always make me laugh. I have more friends, but those are the ones that came to my mind first. My family always makes me happy and makes sure I am healthy. We need to be happy in life. I feel very fortunate to have family and friends that make me happy.

5th Grade Year REFLECTIONS

The students of Room B1 have been together for 10 months, sharing good times and difficult moments. This is a collection of feelings and reflections about the school year, about friendships, and about themselves.

So many fun things...

Callie
"Condensation"

This year was great because we did so many fun things! What I remember the most was my flower painting got chosen to be in the Haggin Museum art contest and I WON!!! I will not forget the carnivals, flea markets, talent shows, ART and STEM we did in class! I loved EVERYTHING we did this year, especially when I did it together with my friends, Riley and Story! So, I loved my 5th grade school year!. Thanks Mr. Oogly! 😁

This year was AMAZING!

Anthony
"Ant Man"

This year means so much to me because of the great memories that us 5th graders have made together like the Success Field Trip, Volleyball Tournament, the GvB challenges, Academic Challenge, and STEM projects. This year was AMAZING!!! I really enjoy this year!!! AND we get to call Mr. Pham Oogly! Oh, I mean handsome, pretty, perfect... One thing for sure: the BEST teacher EVER! 👍

Tournaments were fun!

Zavier

I enjoyed a lot of things in 5th grade: I enjoyed Battlebots but didn't enjoy losing to the girls!!! 😞 I like the Secret Santa activity and I like the gifts. The tournaments were fun especially the Raspberry Pi tournaments. The Winter activities were the most fun because of the carnival. The riddles were hard. ❤️

I will never forget...

Kailani
"Hyena Queen"

Looking back at the year, I never realized how much fun I had. I really like "Mr. Bald Undercover" and my best friends. What I will remember the most is the talent shows. I enjoyed this year a lot and I wish that I can go back to the 1st day of 5th grade. 😞

P.S. "PWB" is not Pham's White Board!!!

I'm very sad...

Melodie
"Moldie"

This school year was SO FUN! We went from welcoming everyone, to saying weirdo-like things to each other. All the ART, STEM, talent shows, hot cocoa times and movies every trimester, will be missed. I enjoyed all the friends I made in this class and I'm VERY sad that I won't be able to make fun of Mr. OOOOOOOOOGLY! 😞. Thank you for giving your all for us! ❤️❤️ Moldie signing out... See y'all next year! 😊

Our Year is NICE!

Brooklyn
"Knee-Slapper"

What does this year mean to me??? It means a lot! We did a lot of fun things and hung out with each other! What I remember the most is when we had our Winter Carnival. It's the most fun thing EVER!!! 👍👍👍

Looking back at our year is NICE. I get to remember all the things we've done! My friends are AWESOME! The day I entered this class was the day my life got better. ILYAF (I Love You All Friends).

Have a great summer guys! ☀️

Things I enjoyed doing

Jayden

Things I enjoyed doing this year are the Basketball Tournaments, flea markets, ART and the Success Field Trip. I liked doing the Battle-Bots and the iPads. I liked the carnivals and academic challenge. I also liked the talent shows. In P.E., I like Capture the Flag and basketball. I really liked doing the Cinco de Mayo! 👍

It was so lit

Rayden
"Lightning"

What I will remember the most is when we had hot chocolate Fridays in the wintertime. I also had a lot of fun watching the 6, 7 film with my friends and going to Wingstop was so fun. I can eat a million boneless chicken. It was so fire. Then we went to Starbucks and it was even more fire! 🔥

The Raspberry Pi tournaments were the best! We played it every morning. We competed in Mario Tennis, Mario Kart, Mortal Kombat and then Super Smash Bros. It was so lit! 👍

He can sing???

Riley
"Precipitation"

I made lots of new friends this year: Alina, Santana, and more. I'm glad my friends and I got put together in one group. This year, I enjoyed the hot cocoa Fridays, STEM projects, RoACH time, and Battle-Bots! Also, I didn't know that Mr. Pham can run!!!! Uh... I mean... can sing!!! 😊

P.S. Mr. Pham is in love with Lisa to this day!

The Beach

I was playing with my beach toy, while I was at the beach to enjoy. The waves crashing on the rocks, while people walking on the docks. The beach was peaceful and calm, The ocean air blowing through the palms. The seagulls call out in the morning, Seashells in the sand adorning.

by Olivia S.

Girls Beat Boys!

Olivia
"Roach Queen"

This year means a lot to me because this class was so fun all the stuff we did, and the Success field trip, the academic challenge, Cinco de Mayo, my art going to the Haggin Museum exhibit, and the Battle-Bots that the girls BEAT the boys! All the stories that Mr. Pham told us (Lisa). Mr. Pham is totally pretty...ooogly! But anyways, I will miss this class, not Mr. Pham. Just kidding, I will miss him too. ❤️😁

Awesome memories...

Olivia

Things I enjoyed doing in Fifth Grade... I liked that we had class money so we can buy things and it teaches us about real life. I liked that we had class RoAch's, STEM, ART time, and many other fun projects. I made some new friends in this class, and it was quite fun! We got to use iPads and do cool projects with them. Mr. Pham is a good teacher, and he acts kinda funny. 😁

I really like that we have Raspberry Pi's and play games on it every morning and we do so many things that we cannot do in other classes. I will miss this class very much when I leave, but I have made some awesome memories in this class.

I LOVED 5th GRADE! ❤️❤️❤️

"Find a group of people who challenge and inspire you; spend a lot of time with them, and it will change your life."

— Amy Poehler

Boys Beat Girls!

Zarrar
"Bizarro"

I remember when we beat the girls in volleyball. I also like our fieldtrips to lunch and bowling. I really like all my nicknames: Monty, Bizarro, Weirdo #1... #missmyfriends, #phamisoogly 😁

The last balloon...

Olivia

I enjoyed a lot of things in 5th Grade, like going on the Success Field Trip where we get to eat lunch with each other. I also liked that our art got displayed in the library and the Cinco de Mayo celebration. I really liked the Battle-Bots girls vs boys when I was the last balloon for the girls to beat the boys. The Mother's Day Flowers when we meet flowers for moms was one of my favorites. ❤️

I like the hot chocolate...

Jayden

Things I enjoyed doing in Fifth Grade are all the sports we did, the Success Field Trip, the Winter Carnival and all the STEM projects. I also like the books we read together. But I especially liked the hot chocolate social time in the Winter.

I'll miss this class

Mila
"Hyena Mila"

This year was AMAZING! I enjoyed the academic challenge, the sport tournaments, the carnivals, the Success field trip, and so much more. I will always remember this class and the great memories I made with my friends. Even though Mr. Pham is "super-weirdo" and oogly, I will still miss him. This has probably been the best class I've ever had. I love my Hyena Group and all of my friends. I will definitely miss this class. I wish I could restart the year over again. This year went by too fast. 😞

It was so fun...

Kamron
"Kambirusa"

I will miss this class and my oooooooooooooogggggglllllyyyy teacher! 😄. I enjoyed everything we did this year like STEM, ART, getting nicknames, and annoying Mr. Pham by clipping what he says (ECMM). I will remember all our RoAch's, flea markets, and when my art was displayed at Haggin Museum. Looking back at the year, this is and will probably be my favorite class! 🤔❤️

Spring

Wind is in the air, smelling sweet,
Little birds are starting to tweet.
Animals are waking from their sleep,
As the warm spring rises from the deep.
Every flower blossoms and bloms,
Butterflies are emerging from cocoons.
This is when nature is a surprise,
Everything is beautiful...Spring is so nice!

Really funny

Leonel
"Leo"

I really liked this 5th grade school year! I liked doing STEAM and ART the most. I will also never forget the Battle-Bots and the Haggin Museum art! My friends made this year really fun because they were funny and they're also really OOOGGGLLLLYYY! 😄 I really liked going to the restaurants, Raspberry Pi time, and the talent shows. Mr. Pham has made this year super fun even though he's the ooogggllllieest teacher ever! 😄😄😄😄

Just have fun!

Santiago
"Weirdo #2"

I enjoyed this year because of all the fun things we did. The STEM projects, the talent shows, the Mother's Day Flowers, the Success field trip, the Cinco de Mayo celebration, the volleyball tournament. I will remember the most is the talent show because Mr. Pham told us not to be shy and just have fun. I made so many friends this year. I'll miss them all until 6th grade. Looking back at the year, I've made all my AR goals and improved in reading and math. My favorite thing to do this is making fun of Mr. Pham and his Cowboys! 😄😄😄

I Love this Year!

Robin
"Pascal"

This year was so fun! We did so many things like academic challenge, talent shows, sports, and field trips. I will always remember how much fun we had in 5th grade. Some of my friends are Olivia S, Brooklyn, Mila, Alina, Riley, Melodie, Callie, Olivia F, Olivia N, Daphne, Zainab, Wendy, Ivan, and Santana. I hope that we all can grow up together. I really love having hot chocolate in the winter, singing at talent shows, reading, and doing things together.

I LOVE this year. ❤️Time for summer! 🌻

So many fun things...

Ivan
"Hyena Ivan"

This year meant a lot of me and I will remember all of our fun times! I'll remember our class Success field trip, our talent shows and flea markets the most. I enjoyed all of our projects and all of the fun stuff we did. I'll forever miss this class and Mr. Pham! 😊

I will not forget...

Alina

Things that I will not forget in this 5th grade year is that Mr. Pham is oooogly and not handsome!!! Things I enjoyed this year were talent shows, carnivals, flea markets, ART and STEM projects. My favorite activity was when our Group Fire won the academic challenge. My time in this class were amazing, and I loved to bully Mr. Pham. 😊
#mrphamisoo gly

Things I'll always remember...

Zainab
"Professional
Potato Drawer"

The things I enjoyed in Fifth Grade was the Carnivals, talent shows, and hot chocolate socials. I'm going to miss my friends (especially Moldie). Looking back at the year, I enjoyed all the ART and STEM projects we did. The STEM project I loved the most was Pumpkin Stands and Moldie and I won the challenge. My favorite ART project was the O'Keefe's Flower watercolor (mostly because my painting got into the Haggin Museum exhibition). I'm going to miss this year SOOO MUCH!!!!

P.S. Mr. Pham, just accept the fact that you're oogly).

*** Editor's Note:** Miss "Potato Drawer" is receiving a P- for this assignment. She had been warned not to write "untruths" in her reflection. The part about the "oogly teacher" is totally fabricated out of jealousy. Mr. Pham is beautiful, no, he is an extremely gorgeous teacher, and it should be (must be) written as such... or else. All hail Mr. Pham!

Enjoyed a lot of things...

Izayah

This year meant so much to me. All the STEM, sports, and more. I enjoyed a lot of things we did in class. But the thing I enjoyed the most was when we went on the Success field trip.

I enjoyed...

**Kingston
"The King"**

I will miss this year a lot because of all the carnivals, class store, and the hot chocolate and all the fun we had. I will remember the most is my very oogly teacher Mr. Pham. I enjoyed the tournaments, carnivals, and the Raspberry Pi games.

It was so fun...

**Wendy
"Wendy's"**

The things I enjoyed doing in 5th grade are the "Success" field trip, bowling field trip, all the art that we did, all the STEM projects, the winter carnival, and the Secret Santa. My art got chosen for the Haggin Museum Art Exhibit. This class was so fun. I will never forget all the fun stuff we got to do. My times in this class was so fun. Thanks to my very oogly teacher to make this year fun. Whatever you called yourself, pretty perfect or something.... You are still oooooooooooooooooogly! 😁😁

Very fun!

**Jonah
"The Donut"**

This year was fun. I wish I can rewind time to the first day we came back to school. I will miss all the fun activities my friends and I did together. The flea markets, STEM, ART and talent show were very fun. My favorite activity that we did was the carnivals and the lunch field trip that we went together and the number one Mr. Ooogly! It Is funny that Rayden falls asleep in class every day.

Fun year!

**Michael
"Hyena King"**

This year, I really enjoyed the 5th grade Success field trip, the Cinco de Mayo celebration, the academic challenge, Battle-Bots, P.E. STEM, and the carnivals. This year is the best year I had. I will miss my oooooooooogggglllyy teacher! 😁😁😁

I bullied him!

**Story
"Evaporation"**

This year, I made friends, bullied Mr. Pham, had fun, got a PC, made jokes. I enjoyed STEM, and ART, and RoAch's, and hot cocoa, and all the fun things we did! I will miss this class so much! I made an OC and I drew. Thank you for that Mr. Pham. I also loved the Secret Santa activity! Please for the next class, DO YOUR BEST and BE REWARDED GREATLY!

P.S. Mr. Pham needs his wig snatched.

A true friend accepts who you are, but also helps you become who you should be.

**GRANDMASTER P. OH, GRANDMASTER P.
BRAVE, COURAGEOUS, AND BOLD.
LONG LIVE HIS FAME,
LONG LIVE HIS GLORY.
AND LONG MAY HIS STORY BE TOLD.**

Team Sierra won!

Santana

I'm going to miss our STEM projects, academic challenge, the talent shows and ART time. I enjoyed beating the boys in the Battle-Bots challenge. I like doing the kindness rocks and P.E. time. My TEAM SIERRA won the Mr. Lemoncello's Escape challenge. Last but not least, I really enjoyed our Success field trip. But the thing I love doing the most is calling Mr. Pham.....(*censored for language).

Funniest year ever!

Jax
"Sticky Tissue Box"

This year is the best and funniest year ever. I will remember the time when I got my first nick name "hard head". Looking back at the year, all I see is the boys losing to the girls in Battle-Bots! 😞😞😞😞😞😞

During the year, I had a lot of friends and my best friend was Mila because she was so funny and kind. My times in this class will never happen again. Things I enjoyed in this class was the chew-gum Friday and the sports tournaments and the times when I laughed.

Means a lot to me...

Nicholo
"Nicholodeon"

If I had a chance to go back to 5th grade to do everything again, I would do it because this year means a lot to me. I will remember everything, but I especially remember the hot chocolate socials, the RoAch's, the movies, the games, and all the art we did! It was a cool year!

Meant a lot to me...

Daphne

Things I enjoyed doing in 5th grade are the STEM projects, flea markets, games, talent shows, class store, chew-gum Friday, payday/fines, carnivals, P.E., and many more. This year means a lot to me because I've had so much fun and I will miss this class. ❤️❤️❤️

The Ocean

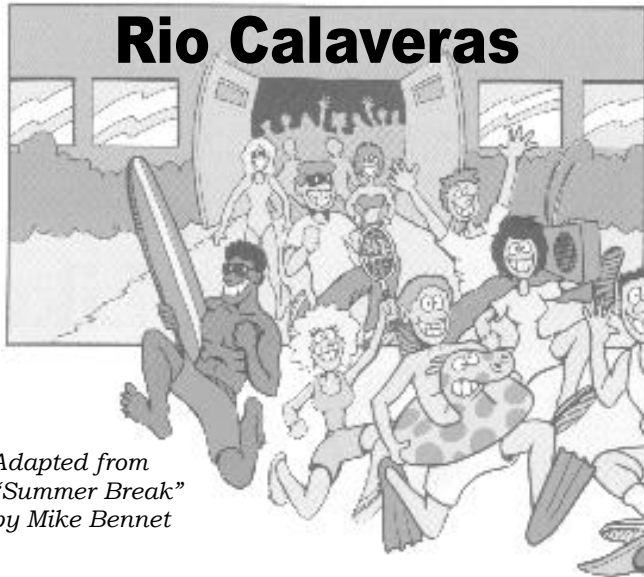

*The ocean waves are calming to me,
They make me feel happy and carefree.
When I am in the waters of the ocean,
Around me splashing, I feel the motion.*

*I let myself float slowly,
As the waves bounce closely.
Then I close my eyes...
Be one with the ocea, as the time flies*

Adapted from
"Summer Break"
by Mike Bennet

It's almost here! You know exactly how many days, hours and minutes are left until the summer vacation. Plan now to make this a memorable and exciting time! This list of ideas may spark a brainstorm that will lead to your greatest vacation yet. Use your creativity and talk to your parents to come up with ideas that fit your interests and develop your talents. So here goes:

Create a new sport. Sometimes this can be done by combining elements of two other sports (such as soccer and baseball = Kickball).

Write a best-selling joke book. Just take a few minutes everyday to write down some of the funny things that happened this year. Like the time when you...

Look for a summer job! Help your dad mow the lawn, paint the fence, give the dog a bath. And the money you earn could help make it possible to purchase video game you wanted.

FORTNITE

*Battle bus soaring high in the sky,
As cool gliders are gliding by.
I land in the grass and look around,
I see some good loot lying on the ground.*

*I build a wall and run to the zone,
Just stay safe and not go alone.
Only one can win,
So I, better LOCK IN!*

- Leo

Fun in the Summer

Some suggestions for the Summer Vacation

Practice drawing pictures of all your friends. Have them "sit" for you and hold up your thumb as if you're measuring them. Then show them the picture you've drawn of your thumb.

Make some music. You've always wanted to learn to play a musical instrument. Make Ms. Andersen proud by doing some practice in the summer.

By the time you come back next year, you're a musician.

Write letters or emails. Sending a letter/email to someone far away can be a fun thing to do. How about sending a summer update to Mr. Pham.

Arrange to brighten your mom's day – make a flower arrangement for her.

READ! Reading newspaper and magazine articles can improve your mind. Try reading a mystery or detective story.

Open up a whole new world of computer fun, practice your typing skill. This can have benefits for school and your future career as well.

Volunteer in a community service project. Besides being interesting and helping others, this is not a bad thing to include in your future college/job application.

Improve your swimming – Finally learn that backstroke or float on water. This can be helpful in the future.

Invent something. What invention to make life better is fair game. Who knows, you might get rich someday by inventing a robot that does your homework.

Be an author. Write about your school year, your travels, your summer. It'll be interesting to find out that you really had done something during the summer.

Have lots of fun and see you back.

How well do you know your classmates? Look at these baby pictures, can you tell who they are?

Hint: Read the clues given.

Summer Fun

Don't just sit there all Summer, here are some games and recipes we've collected to help you have a little fun under the sun and in the kitchen.

EVERYBODY'S "IT" TAG

How to play: Everyone tries to tag everyone else. If you're tagged, you're out. Simultaneous tags mean that both players are out.

BLOB TAG

How to play: Once someone has been tagged, he must join hand with "it" and continue developing the blob. These 2 players must now stay joined and attempt to tag other players. As more players get tagged, they must join and remain connected to the blob. Only the end players of the blob can tag others. The last free person is the winner.

FOX AND SHEEP

How to play: All players lined up at one end of the playing area. These players are sheep. "It" is the fox. The fox will begin the game by naming off times. (1 o'clock, 2 o'clock, etc.), when the fox says "mid-night" the sheep will run to the other end of the gym. As the sheep run, the fox will tag as many as possible. Once the sheep make it to the end of the gym, they wait for the fox to name the time again. Any sheep tagged by the fox will become fox also. The last sheep left in the game is the winner and may be the next fox if he wishes.

S'mores Pops!!

1 (16 ounce) bag large marshmallows
1 (16 ounce) bag chocolate chips
(or whatever chocolate you like to melt)
1 (16 ounce) package graham crackers

Directions

Crush graham crackers in a big zip lock bag until they are like breadcrumbs. Place crumbs in a bowl. Melt chocolate in a double boiler or in the microwave (mom needs to do this part) stirring often until smooth. Stick a toothpick in a marshmallow and dip in chocolate all the way then in graham cracker crumbs halfway.

Set on wax paper to dry. EAT!

Mint Shakes

In a blender place 1 cup milk, 1 banana, 2 or 3 drops of green food coloring and mint flavoring. Blend until smooth, then pour into clear plastic cups.

Poll: If you could make it rain anything except water, what would it rain?

If I had to choose what to rain anything except water, it would be raining 100-dollar bills!!! I will go outside with a big basket so I could catch them all. If I had to choose what to rain the 2nd day, it would be diamonds because they look awesome. For the 3rd day, If I had to choose what to rain, would be free salads with beef on the salads so everyone can eat for free and not have to cook or buy something.

● Jayden.

If I can make it rain except water? I would make it FOOD!!! *Takis* and *Hot Cheetos* or pizza. I would also make it rain sushi or sea food and pasta. I would want tacos and dumplings. I would not like it to rain cats and dogs though because we can get hit by them. Finally, to wash all those food down, I would like the sky to open up and to rain down a lot of STARBUCKS!!! The best one yet !!!

● Santana

If I could make it rain anything except water, it would be MONEY! Lots of MONEY so homeless people won't be homeless anymore. People can take the loads of money to build more environments like hospitals, houses, and schools. People won't have trouble paying house bills and electricity bills. Finally, people won't have to work for food, school, and so on...

● Xavier

I would make it rain Ferrets, only 12 of them, then it's water. Or cats, or snakes, possibly parrots, or any other bird except pigeons. I hate pigeons. Ohh, I know. I would make it rain Yoyle Berrys! But maybe not.... What about.... Oh! I got it, what about paper mache? It would not hurt, and it won't turn you into metal! Great idea, right? Wait, no, that is bad..... Oh! It could rainPAPER DOLLS!!

My class, My friends...

My class, My friends...

My Friends, My Class...

Have you seen these weird kids?
They called themselves **"The Cuddlies."** In reality, they're not cuddlies at all!
They're annoying and creepy!!! These "Cuddlies" also insulted and made fun
of your beautiful and precious teacher ALL YEAR LONG!!!
They also **photobombed** all over this yearbook.
YOUR MISSION: Search and count how many times each of these
"Cuddlies" showed up in the yearbook.
Be careful, they sneakily hide in plain sight and try to fool you with disguises
like shades and mustaches!
So, look for them... and be very afraid...

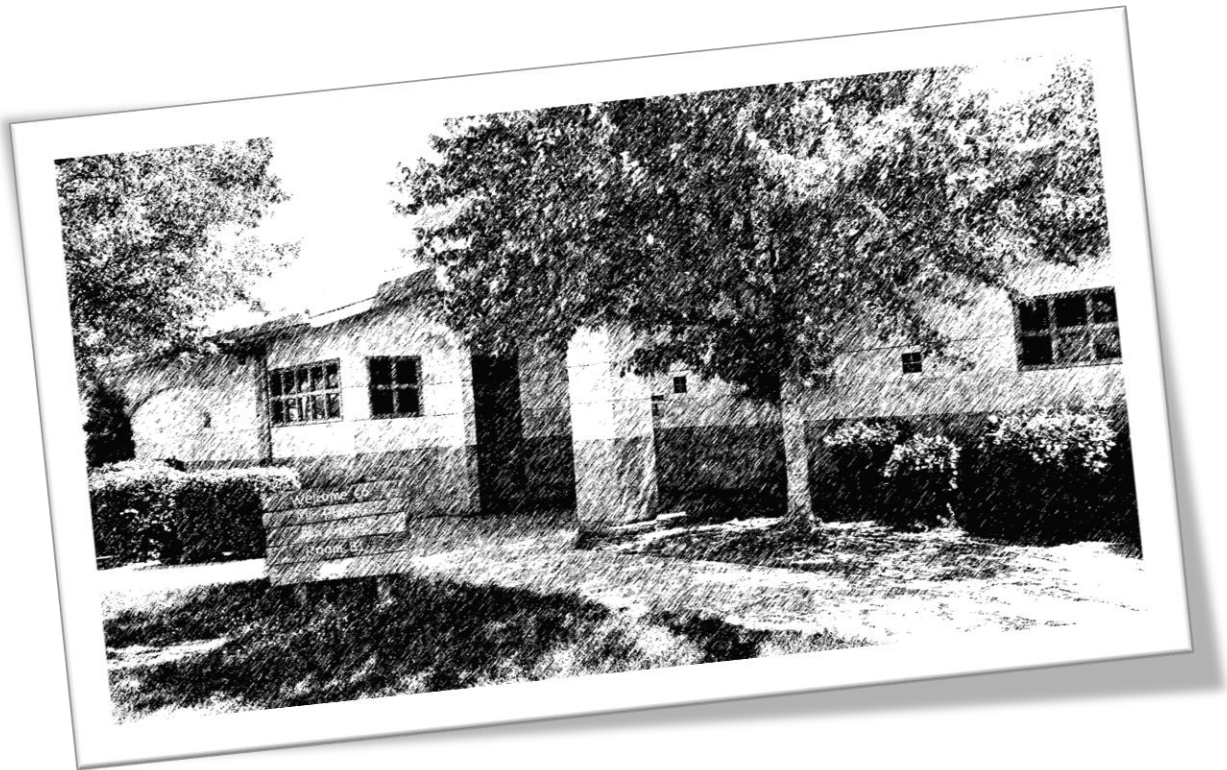

Thank You to...
Our Parents

for giving us the gift of life,
for taking care of us,
for giving us opportunities to learn,
for believing in us,
for helping us make right decisions,
for being so supportive throughout
the year,
and for just being...

OUR PARENTS!

Follow your dream.

Take one step at a time and don't settle for less.

Just continue to climb. Follow your dream.

If you stumble, don't stop and lose sight of your goal.

Press to the top.

For only on top can we see the whole view;

Can we see what we've done and what we can do;

Can we then have the vision to seek something new.

Press on.

Follow your dream.
