

Custom Tokens

Most custom tokens cost \$25.00 each, and are made to the same high standards as all my current tokens. Complex tokens may cost more and this will be established up front before any work is done.

When ordering a custom token, consider how the character would look from above and provide at least the following; Physical description, class, race, hair color, and any other features. Armor, weapons, cloak, and any other viewable equipment. The sample below is a guide. If something doesn't fit for your character or monster request you do not need to include it in the format below.

Name: Gladius
Gender: Male
Race: Human
Class: Eldritch Knight, D&D 5e
General stance/demeanor: Relaxed

General Look: Short brown hair, generally happy look, lightly tanned but clear skin.

Clothing/Armor: Wears a brown/Tawney shirt. A jacket that hangs open in the front (One where the bottom/hanging part is mostly at the back and not too far on the sides/front. – This goes to about knee length or a bit longer. The jacket has gold trim where a zipper would be/around the collar and the bottom part. Black cuffed boots that cover pants that are fairly fitted to the skin.

Cloak: None
Extras/additions to clothing: Could you add a simple potion belt with 1-2 potions on his waist as well?

Weapons: Mainhand: Right Hand: An Elven Long sword, the shape is like the link posted at the bottom but the colors are mostly gold with silver trim and elven lettering up the side.
Offhand: In his other hand could you add a small bit of fire or something, some type of magic. Something simple that complements the drawing well, fire, lightning, (just not poison or necrotic stuff) – Whatever you think goes well with it. Weapon Reference: (link to image)

I will respond with a rough time estimate to complete the request. Custom tokens usually require 2-4 weeks. I will let you know how my current workload will effect the turn around time.

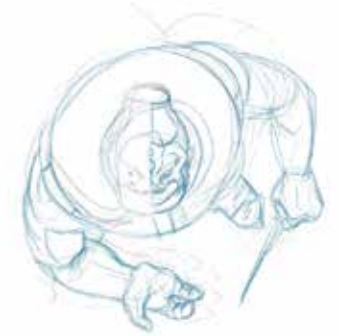

Payment is expected after you approve the rough sketch. Payment in full is required for small token orders. Arrangements can be made for large token orders to be broken into smaller payments.

When it's time for me to work on your token I will send you a rough sketch. These sketches are just very rough estimations of your character and pose. See sample for a rough sketch. The b/w sketch you approve will go through several steps to become a completed token. If I am unsure of anything I will usually ask or send you a revised sketch to get your input. I will also share any step with you if you want to have input before the final preview. Once you see the final preview image you can still make minor changes if needed.

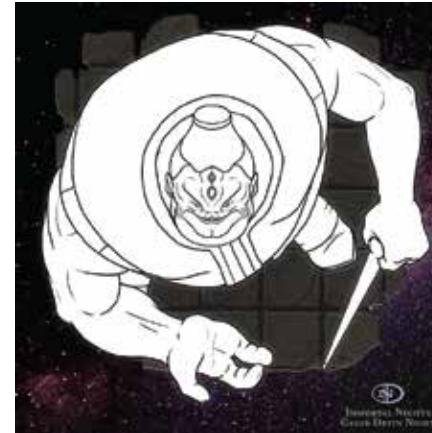

Note: I will do my best to keep any unique character ordered exclusive to you for one year. After that year I will include it in a token pack. Most monsters will find their way into a pack sooner than that.

Please send requests to: Devinnight@immortalnights.com

1st Step: Rough Sketches

2nd Step: Refined Linework

3rd Step: Basic Color

4th Step: Rendering

5th Step: Final token with no background.
