Please Note

- You must be over this height to go on the ride. Make sure to check if you need a buddy to accompany you...
- If you're over the minimum ride height but below the height shown, you will need a responsible 14+ years old or 18+ years old to join you.
- This is the number of tickets you need to ride. If you're wearing a wristband, you will not require a ticket!

Some rides may close earlier than expected due to adverse weather conditions or technical faults. On height restricted attractions, accompanying adults also require a wristband or ride tickets. See the Safety Guides at the entrance to each attraction for restrictions and visitor requirements.

Please remember to pay for your car parking before you leave.
