

# Major Eye Diseases and Disorders

## Congenital and Acquired

### Congenital

- \* Achromatopsia
- \* Anterior chamber dysgenesis
- \* Aniridia
- \* Albinism
- \* Cataracts
- \* Coloboma
- \* Congenital infections
- \* Congenital stationary night blindness
- \* Corneal opacity
- \* CVI
- \* Familial excitative vitreoretinopathy
- \* Glaucoma
- \* Nystagmus
- \* Optic atrophy
- \* Optic nerve hypoplasia
- \* Persistent hyperplastic primary vitreous
- \* Refractive errors
- \* Retinal dystrophy
- \* Strickler syndrome
- \* Strabismus

### Acquired

- \* Amblyopia
- \* Age-related macular degeneration
- \* Cataracts
- \* Corneal opacity
- \* Diabetic retinopathy
- \* Ectopia lentis
- \* Glaucoma
- \* Optic atrophy
- \* Refractive errors
- \* Retinal detachment
- \* Retinal dystrophy/Retinitis pigmentosa
- \* Retinopathy of prematurity
- \* Stargardt disease
- \* Strabismus
- \* Uveitis
