

The Tekneka VSC200 series is a professional pipe inspection video scope that comes with a 20/30/40 meter fiberglass cable, a unique design with a distance counter, and a wireless keyboard. They have a high-quality 10-inch color LCD with an easy-to-use menu system and simple data exporting. The Ø23mm Sony CCD camera head on these video scopes has a wide viewing angle of up to 120°, allowing them to capture high-quality images and videos. They have a rechargeable battery that provides up to 6 hours of mobile use. These video scopes are specifically made for inspecting underground cable lines, sewers, pipes, air ducts, and other building structures. The Tekneka VSC200 series comes in a waterproof case that can be conveniently mounted on the rotatable wheel for transportation.

Features

- High-quality 10-inch super bright color LCD with sunshade cover
- Fiberglass push rod cable length: 20/30/40m | Ø: 5.2/6.8mm
- 15 inbuilt LEDs with 4 levels of brightness control settings
- Records video with local audio at the same time & screen capture
- Cable reel is easily cleaned and won't leave dirt in the control box
- Distance counter can be recorded and reset to zero with a single button
- A counter for cable insertion distance is shown on the screen
- It supports SD cards up to 64GB in size for extended recording
- In-built braking mechanism to control the rolling of the cable
- Rotatable cable reel mounted to the case for convenient use
- Ability to go through 90° bends in Ø45mm pipes
- Users can add inspections using a wireless keyboard
- Easy to carry, charge & convenient transportation

Applications

The Tekneka VSC200 series is widely used in pipelines, drains, sewers, ducts, chimneys, machinery, building inspection, maintenance of plumbing, and wiring behind walls.
