

Tekneka VSC204X is a professional pipe inspection video scope that comes with a 40-meter (Ø4.8mm) fiberglass cable, a unique design with a distance counter, and a wireless keyboard. It has a high-quality 10-inch LCD color screen with an easy-to-use menu system and simple data exporting. The Ø14mm Sony CCD camera head on this device has a wide viewing angle of up to 90°, allowing it to capture high-quality images and videos. It has a rechargeable battery that provides up to 7 to 8 hours of mobile use. This video scope is specifically made for inspecting underground cable lines, sewers, pipes, air ducts, and other building structures. The Tekneka VSC204X comes in a waterproof case that can be conveniently mounted on the rotatable wheel for transportation.

### Features

- 10-inch super bright LCD color screen with sunshade cover
- Built-in 4 x LED with 4 levels of brightness control settings
- Records video with local audio at the same time & screen capture
- Distance counter can be recorded and reset to zero with a single push button
- A counter for cable insertion distance is shown on the screen
- SD Card slot for storing images, videos, and audio recordings locally
- In-build braking mechanism to control the rolling of the cable
- Rotatable cable reel mounted to the case for convenient use
- Ability to go through 90° bends in Ø32mm pipes
- The cable reel is easily cleaned and won't leave dirt in the control box
- Users can add inspections using a wireless keyboard
- Easy to carry, charge & convenient transportation

### Applications

Tekneka VSC204X video scope is widely used in pipelines, drains, sewers, ducts, chimneys, machinery, building inspection, maintenance of plumbing, and wiring behind walls.
