Pecola Breedlove, a young black girl, prays every day for beauty. Mocked by other children for the dark skin, curly hair, and brown eyes that set her apart, she yearns for the blonde hair and blue eyes that she believes will allow her to finally fit in. Yet as her dream grows more fervent, her life slowly starts to disintegrate in the face of adversity and strife. A brilliant examination of our obsession with beauty and conformity, Toni Morrison's virtuosic first novel asks powerful questions about race, class, and gender with the subtlety

It is the story of eleven-year-old Pecola Breedlove—a black girl in an America whose love for its blond, blue-eyed children can devastate all others—who prays for her eyes to turn blue: so that she will be beautiful, so that people will look at her, so that her world will be different. This is the story of the nightmare at the heart of her yearning and the tragedy of its fulfillment.

Eleven-year-old Rick Ramsey has generally gone along with everybody, just not making waves, even though he is increasingly uncomfortable with his father's jokes about girls, and his best friend's explicit talk about sex; but now in middle school he discovers the Rainbow Spectrum club, where kids of many genders and identities can express themselves--and maybe among them he can find new friends and discover his own identity, which may just be to opt out of sex altogether.

The story of a transgender child based on the real-life experience of Jazz Jennings, who has become a spokesperson for transkids everywhere. From the time she was two years old, Jazz knew that she had a girl's brain in a boy's body. She loved pink and dressing up as a mermaid and didn't feel like herself in boys' clothing. This confused her family, until they took her to a doctor who said that Jazz was transgender and that she was born that way. Jazz's story is based on her real-life experience and she tells it in a simple, clear way

**The book eaters**

By Dean, Sunyi  
2022., All, TOR  
Edition: 1st ed.  
Availability: 1 of 1 At Location(s)

**Book**

**Summary Note**

"Sunyi Dean's *The Book Eaters* is a contemporary fantasy debut. It's a story of motherhood, sacrifice, and hope; of queer identity and learning to accept who you are; of gilded lies and the danger of believing the narratives others create for you. Out on the Yorkshire Moors lives a secret line of people for whom books are food, and who retain all of a book's content after eating it. To them, spy novels are a peppery snack; romance novels are sweet and delicious. Eating a map can help them remember destinations, and children, when they misbehave, are forced to eat dry, musty pages from dictionaries. Devon is part of The Family, an old and reclusive clan of book eaters. Her brothers grow up feasting on stories of valor and adventure, and Devon -- like all other book eater women -- is raised on a carefully curated diet of fairy tales and cautionary stories. But real life doesn't always come with happy endings, as Devon learns when her son is born with a rare and darker kind of hunger -- not for books, but for human minds." From publisher

"A scientist attempts to bring her younger sister back to life with unexpected results in this Frankenstein-inspired graphic novel about ghosts, identity, and family When Doctor Frances Ai's younger sister Maura died in a tragic accident six months ago, Frances swore she would bring her back to life. However, the creature that rises from the slab is clearly not Maura. This girl, who chooses the name "M," doesn't remember anything about Maura's life and just wants to be her own person. However, Frances expects M to pursue the same path that Maura had been on--applying to college to become a scientist--and continue the plans she and Maura shared. Hoping to trigger Maura's memories, Frances surrounds M with the trappings of Maura's past, but M wants nothing to do with Frances' attempts to change her into something she's not. In order to face the future, both Frances and M need to learn to listen and let go of Maura once and for all. Talia Dutton's debut graphic novel, *M Is for Monster*, takes a hard look at what it means to live up to other people's expectations--as well as our own. *M Is for Monster* is one of the titles on our Surely list which is dedicated to showcasing gay, lesbian, bisexual, transgender, queer, intersex, and asexual creators and stories"

That means that history has often left out the stories of LGBTQIA+ people: men who loved men, women who loved women, people who loved without regard to gender, and people who lived outside gender boundaries. After a bewildering encounter at a local festival, Nima finds herself suddenly immersed in the drag scene on the other side of town. Macho drag kings, magical queens, new love interests, and surprising allies propel Nima both painfully and hilariously closer to a self she never knew she could be—one that can confidently express and accept love. Seeing Gender is an of-the-moment investigation into how we express and understand the complexities of gender today. Deeply researched and fully illustrated, this book demystifies an intensely personal--yet universal--facet of humanity. Illustrating a different concept on each spread, queer author and artist Iris Gottlieb touches on history, science, sociology, and her own experience. This book is an essential tool for understanding and contributing to a necessary cultural conversation, bringing clarity and reassurance to the sometimes confusing process of navigating ones' identity. Whether LGBTQ+, cisgender, or nonbinary, Seeing Gender is a must-read for intelligent, curious, want-to-be woke people who care about how we see and talk about gender and sexuality in the 21st century.

"Charlie Lamonte is thirteen years old, queer, black, and questioning what was once a firm belief in God. So naturally, she's spending a week of her summer vacation stuck at an all-white Christian youth backpacking camp. As the journey wears on and the rhetoric wears thin, she can't help but poke holes in the pious obliviousness of this storied sanctuary with little regard for people like herself... or her fellow camper, Sydney."--From publisher.

Seventeen-year-old Mandy, daughter of Starfire, is NOT like her mother. Starfire is gorgeous, tall, sparkly, and a hero. Mandy is NOT a sparkly superhero. Mandy has no powers, is a kid who dyes her hair black and hates everyone but her best friend Lincoln. To Starfire, who is from another planet, Mandy seems like an alien, like some distant angry light years away moon. And it's possible Mandy is even more distant lately, ever since she walked out on her S.A.T.s. Which, yeah, her mom doesn't know. Everyone thinks Mandy needs to go to college and become whoever you become at college, but Mandy has other plans. Mandy's big plan is that she's going to move to France and...do whatever people do in France. But then everything changes when she gets partnered with Claire for a school project. Mandy likes Claire (even if she denies it, heartily and intensely). A lot. How do you become the person you're supposed to be when you don't know what that is? How do you become the person you're supposed to be when the only thing you're sure of is what you're not? When someone from Starfire's past arrives, Mandy must make a choice: give up before the battle has even begun, or step into the unknown and risk everything to save her mom. *Lam-Nat Starfire is a stoic, stoic teenager and...*

**The power of style : how fashion and beauty are being used to reclaim cultures**  
By Allaire, Christian, 1992-  
2021., Annick Press  
Availability:7 of 7 At Location(s)

**Summary Note**

Style is not just the clothes on our backs—it is self-expression, representation, and transformation. As a fashion-obsessed Ojibwe teen, Christian Allaire rarely saw anyone that looked like him in the magazines or movies he looked to for inspiration. Now the Fashion and Style Writer for Vogue, he is working to change that—because clothes are never just clothes. Men's heels are a statement of pride in the face of LGBTQ+ discrimination, while ribbon shirts honor Indigenous ancestors and keep culture alive. Allaire takes the reader through boldly designed chapters to discuss additional topics like cosplay, make up, hijabs, and hair, probing the connections between fashion and history, culture, politics, and social justice.

From the multi-story dwellings of Ancient Rome to the soaring glass skyscrapers of today, for thousands of years humans have used highrises to house the poor, protect the rich and sometimes narrow the gap between the two. Highrise first examines the history of vertical living in a chapter on the origins, technological triumphs, social failures and future of the highrise. The book then invites young adult readers into homes around the world. Through the lens of the highrise, readers will learn about 10 cities and hear stories that capture what life is like in these diverse places. In addition to being windows on different cultures and experiences, the stories from these cities cover important and, at times, challenging issues that residents must face—from a young mother in the West Bank who cannot visit her parents in Gaza to an LGBTQ activist in China who must hide her sexual orientation from her family. Highrise is a bold and unique volume that illuminates life on our

After a bewildering encounter at a local festival, Nima finds herself suddenly immersed in the drag scene on the other side of town. Macho drag kings, magical queens, new love interests, and surprising allies propel Nima both painfully and hilariously closer to a self she never knew she could be—one that can confidently express and accept love. c2018., Douglas and McIntyre

**Summary Note**

A powerful story of resilience—a must-read for all Canadians. Growing up in the tiny village of Smith, Alberta, Darrel J. McLeod was surrounded by his Cree family's history. In shifting and unpredictable stories, his mother, Bertha, shared narratives of their culture, their family and the cruelty that she and her sisters endured in residential school. Darrel was comforted by her presence and that of his many siblings and cousins, the smells of moose stew and wild peppermint tea, and his deep love of the landscape. Bertha taught him to be fiercely proud of his heritage and to listen to the birds that would return to watch over and guide him at key junctures of his life. However, in a spiral of events, Darrel's mother turned wild and unstable, and their home life became chaotic. Sweet and innocent by nature, Darrel struggled to maintain his grades and pursue an interest in music while changing homes many times, witnessing violence, caring for his younger siblings and suffering abuse at the hands of his surrogate father. Meanwhile, his older brother's gender transition provoked Darrel to deeply question his own sexual identity. The fractured narrative of Mamaskatch mirrors Bertha's attempts to reckon with the trauma and abuse she faced in her own life, and captures an intensely moving portrait of a family of strong personalities, deep ties and the shared history that both binds and haunts them. Beautifully written, honest, and thought-provoking, Mamaskatch - named for the Cree word used as a response to dreams shared - is ultimately an uplifting account of overcoming personal and societal obstacles. In spite of the trauma of Darrel's childhood, deep and mysterious forces handed down by his

 "A magical gender variant child brings transformation and change to the world around them thanks to their mother's enduring love. In the magical time between night and day, when both the sun and the moon are in the sky, a child is born in a little blue house on a hill. And Miu Lan is not just any child, but one who can change into any shape they can imagine. The only problem is they can't decide what to be: a boy or a girl? A bird or a fish? A flower or a shooting star? At school, though, they must endure inquisitive looks and difficult questions from the other children, and have trouble finding friends who will accept them for who they are. But they find comfort in the loving arms of their mother, who always offers them the same loving refrain: "whatever you dream of / i believe you can be / from the stars in the sky to the fish in the sea." In this captivating, beautifully imagined picture book about gender, identity, and the acceptance of the differences between us, Miu Lan faces many questions about who they are and who they may be. But one thing's for sure: no matter who this child becomes, their mother will love them just the same."-- Provided by publisher

 Raised on a reserve in northern Ontario, seventeen-year-old Joe Littlechief tries to be like the other guys. But Joe knows he's different -- he's more interested in guys than in any of the girls he knows. One night Joe makes a drunken pass at his best friend Benjy and, by the next morning, everyone on the rez is talking about Joe. His mother, a devout Christian, is horrified, and the kids who are supposed to be his friends make it clear there's no place for him in their circle, or even on the rez. Joe thinks about killing himself, but instead runs away to the city. Alone and penniless on the streets of Toronto, Joe comes to identify with the Aboriginal idea of having two spirits, or combining both feminine and masculine identities in one person. He also begins to understand more about how his parents have been affected by their own experiences as children in residential schools -- something never discussed on the rez. And he realizes he has to come to terms with his two-spiritedness and find people who accept him for who he is. This is a novel that reflects the complex realities faced by young LGBTQ and aboriginal youth today.

#### Summary Note

A work of fiction inspired by a true story, Matt Tavares's debut graphic novel dramatizes the historic struggle for gender equality in high school sports. It is 1975 in Indiana, and the Wilkins Regional High School girls' basketball team is in their rookie season. Despite being undefeated, they practice at night in the elementary school and play to empty bleachers. Unlike the boys' team, the Lady Bears have no buses to deliver them to away games and no uniforms, much less a laundry service. They make their own uniforms out of T-shirts and electrical tape. And with help from a committed female coach, they push through to improbable victory after improbable victory. Illustrated in full color, this story about the ongoing battle of women striving for equality in sports rings with honesty, bravery, and heart.

When they were kids, Fassen's fighter spaceship crash-landed on a planet that Lu's survey force was exploring. It was a forbidden meeting between a kid from a war-focused resistance movement and a kid whose community and planet are dedicated to peace and secrecy. Lu and Fassen are from different worlds and separate solar systems. But their friendship keeps them in each other's orbit as they grow up. They stay in contact in secret as their communities are increasingly threatened by the omnipresent, ever-expanding empire. As the empire begins a new attack against Fassen's people--and discovers Lu's in the process--the two of them have the chance to reunite at last. They finally are able to be together...but at what cost? This beautifully illustrated graphic novel is an epic science fiction romance between two non-binary characters as they find one another through time, distance, and war.

But when Sebin's acceptance letter finally arrives, it's accompanied by the shocking news that Hwan has been declared a traitor. Apparently the captain abandoned his duty to steal a magical artifact, the Dragon Pearl, and his whereabouts are still unknown. Sebin hopes to help clear their hero's name and restore honor to the clan. Nothing goes according to plan, however. As soon as Sebin arrives for orientation, they are met by a special investigator named Yi and Yi's assistant, a girl named Min. Yi informs Sebin that they must immediately report to the ship Haetae and await further instructions. Sebin finds this highly unusual, but soon all protocol is forgotten when there's an explosion on the ship, the crew is knocked out, and the communication system goes down. It's up to Sebin, three other cadets, and Yi and Min to determine who is sabotaging the battle cruiser. When Sebin is suddenly accused of collaborating with the enemy, the cadet realizes that Min is the most dangerous foe of all."

**We are still here : Afghan women on courage, freedom, and the fight to be heard**  
 By Shahalimi, Nahid, 1973- Atwood, Margaret, 1939-  
 2022., Penguin Canada  
 Availability: 1 of 1 At Location(s)

**Summary Note**  
 A collection of first-hand accounts from courageous Afghan women who refuse to be silenced in the face of the Taliban. After decades of significant progress, the prospects of women and girls in Afghanistan are once again dependent on radical Islamists who reject gender equality. When the United States announced the end of their twenty-year occupation and the Taliban seized control of the country on August 15, 2021, a steep regression of social, political, and economic freedoms for women in the country began. But just because a brutal regime has taken over doesn't mean Afghan women will stand by while their rights are stripped away. In We Are Still Here, artist and activist Nahid Shahalimi compiles the voices of thirteen powerful, insightful, and influential Afghan women who have worked as politicians, journalists, scientists, filmmakers, artists, coders, musicians, and more. As they reflect on their country's past, stories of their own upbringing and the ways they have been able to empower girls and women over the past two decades emerge. They report on the fear and pain caused by the impending loss of their homeland, but, above all, on what many girls and women in Afghanistan have already lost: freedom, self-determination, and joy. The result is an arresting book that issues an appeal to remember Afghan girls and women and to show solidarity with them. Like us, they have a right to freedom and dignity, and together we must fight for their place in the world.

"On a journey to uncover her family's story, Spotted Fawn travels through time and space to reclaim connection to ancestors, language, and the land--creating a path forward in this essential graphic novel. In the dreamworld she bears witness to a mountain of buffalo skulls. They stand as a ghostly monument to the slaughter of the Plains bison to near extinction-- a key tactic to starve and contain the Indigenous People onto reservations. On this path, Spotted Fawn knows she must travel through her own family history to confront the harsh realities of the past and reignite her connection to her people and the land. Her darkroom becomes a portal, and her photographs allow her glimpses into the lives of her relatives over the course of four chapters of this book, which follow the phases of the moon. Time and space become unlocked and unfurl in front of her eyes. Guided by her ancestors, Spotted Fawn's travels through the past allow her to come into full face--like the moon itself. Adapted from the acclaimed stop-motion animated film of the same name, written and directed by Amanda Strong, *Four Faces of the Moon* brings the oral and written history of the Michif, Cree, Nakoda and Anishinaabe Peoples and their cultural link to the buffalo alive on the page. Deeply resonant and beautifully rendered, this graphic novel retelling is essential reading. It's something much more exciting--an idea! Finn can't wait to share it, and they do, at school, with their best friend Sima. Sharing energizes the idea. Then the more Finn thinks about it, the more the idea grows, and by the end of the day the idea is huge and amazing. But not everyone is excited about Finn's idea, and, in a heart-stopping moment, a bully knocks it to the ground. Devastated, Finn begins to doubt their idea, and the more Finn doubts it, the smaller it becomes. Only when it has faded away to almost nothing, does Finn suddenly realize that the idea is actually exactly the way it should be! Confidence renewed, Finn shares the idea with the other kids, who in turn add their thoughts. And as the idea grows, even the bully has a change of heart, offering his own thought to the mix. As the story closes, the idea blossoms and flows across the page, taking wing in rich, glorious color. Sharing has made it bigger, better, and more beautiful. Now who knows what this idea will

"Based on the research that race, gender, consent, and body positivity should be discussed with toddlers on up, this read-aloud board book series offers adults the opportunity to begin important conversations with young children in an informed, safe, and supported way. Developed by experts in the fields of early childhood and activism against injustice, this topic-driven board book offers clear, concrete language and beautiful imagery that young children can grasp and adults can leverage for further discussion. While young children are avid observers and questioners of their world, adults often shut down or postpone conversations on complicated topics because it's hard to know where to begin. Research shows that talking about issues like race and gender from the age of two not only helps children understand what they see, but also increases self-awareness, self-esteem, and allows them to recognize and confront things that are unfair, like discrimination and prejudice. This first book in the series begins the conversation on race, with a supportive approach that considers both the child and the adult. Stunning art accompanies the simple and interactive text, and the backmatter offers additional

This book pays tribute to Mr. Rogers, Barack Obama, Hayao Miyazaki, and more: men whose masculinity is grounded in compassion and care. These men have varying worldviews and are accomplished in a range of fields, but they share important commonalities. They served their communities. They treated people with respect. They lifted others up. And they went on to create change, inspire others, and indeed do great things -- not in spite of their goodness, but because of it.

Darrel was comforted by her presence and that of his many siblings and cousins, the smells of moose stew and wild peppermint tea, and his deep love of the landscape. Bertha taught him to be fiercely proud of his heritage and to listen to the birds that would return to watch over and guide him at last.

In this collection of essays, black women writers shine a light on how important it is that we all--regardless of gender, race, religion, or ability--have the opportunity to find ourselves in literature. Whether it's learning about the complexities of femalehood from Zora Neale Hurston and Toni Morrison, finding a new type of love in The Color Purple, or using mythology to craft an alternative black future, the subjects of each essay remind us why we turn to books in times of both struggle and relaxation." Both were high school students from Oakland, California, one of the most diverse cities in the country, but they inhabited different worlds. Sasha, a white teen, lived in the middle-class foothills and attended a small private school. Richard, a black teen, lived in the crime-plagued flatlands and attended a large public one. Each day, their paths overlapped for a mere eight minutes. But one afternoon on the bus ride home from school, a single reckless act left Sasha severely burned, and Richard charged with two hate crimes and facing life imprisonment. The case garnered international attention, thrusting both teenagers into the spotlight.

"A magical gender variant child brings transformation and change to the world around them thanks to their mother's enduring love. In the magical time between night and day, when both the sun and the moon are in the sky, a child is born in a little blue house on a hill. And Miu Lan is not just any child, but one who can change into any shape they can imagine. The only problem is they can't decide what to be: a boy or a girl? A bird or a fish? A flower or a shooting star? At school, though, they must endure inquisitive looks and difficult questions from the other children, and have trouble finding friends who will accept them for who they are. But they find comfort in the loving arms of their mother, who always offers them the same loving refrain: "whatever you dream of / i believe you can be / from the stars in the sky to the fish in the sea." In this captivating, beautifully imagined picture book about gender, identity, and the acceptance of the differences between us, Miu Lan faces many questions about who they are and who they may be. But one thing's for sure: no matter who this child becomes, their mother will love them just the same."-- Provided by publisher.

 **I love my purse**  
 By DeMont, Belle Wimmer, Sonja  
 2017., All, Annick Press Ltd  
 Availability:86 of 89 At Location(s)

**Summary Note**  
 "Charlie loves the bright red purse that his grandmother let him have. One day, he decides to take it to school. First his father, then his friends, and even the crossing guard question him about his "strange" choice. After all, boys don't carry purses. They point out that they, too, have things they like, but that doesn't mean they go out in public wearing them. But Charlie isn't deterred. Before long, his unselfconscious determination to carry a purse starts to affect those around him. His father puts on his favorite, though unconventional, Hawaiian shirt to go to work; his friend Charlotte paints her face, and the crossing guard wears a pair of sparkly shoes. Thanks to Charlie, everyone around him realizes that it isn't always necessary to conform to societal norms. It's more important to be true to yourself. With its humorous, energetic illustrations, this book is ideal as a read-aloud or as a story for emerging readers. It can also be used as a starting point for a discussion about gender roles."

 **Policing Black lives : state violence in Canada from slavery to the present**  
 By Maynard, Robyn, 1987-  
 2017., Fernwood Publishing  
 Availability:1 of 1 At Location(s)

**Summary Note**  
 "Policing Black Bodies is a timely and much-needed exposure of historical and contemporary practices of state-sanctioned violence against Black lives in Canada. This groundbreaking work dispels many prevailing myths that cast Canada as a land of benevolence and racial equality, and uncovers long-standing state practices that have restricted Black freedom. A first of its kind, Policing Black Bodies creates a framework that makes legible how anti-Blackness has influenced the construction of Canada's carceral landscape, including the development and application of numerous criminal law enforcement and border regulation practices. The book traces the historical and contemporary mobilization of anti-Blackness spanning from slavery, 19th and 20th century segregation practices, and the application of early drug and prostitution laws through to the modern era. Maynard makes visible the ongoing legacy of a demonized and devalued Blackness that is manifest today as racial profiling by police, immigration agents and social services, the over-representation of Black communities in jails and prisons, anti-Black immigration detention and deportation practices, the over-representation of Black youth in state care, the school-to-prison pipeline and gross economic inequality. Following the dictums of the Black Lives Matter movement, Policing Black Bodies adopts an intersectional lens that explores the realities of those whose lives and experiences have historically been marginalized, stigmatized, and made invisible. In addressing how state practices have impacted Black lives, the book brings from margin to centre an analysis of gender, class, sexuality, (dis)ability, citizenship and criminalization. Beyond exploring systemic racial injustice, Policing Black Bodies

"Moving Beyond Borders is the first book-length history of Black health care workers in Canada, delving into the experiences of thirty-five postwar-era nurses who were born in Canada or who immigrated from the Caribbean either through Britain or directly to Canada. Karen Flynn examines the shaping of these women's stories from their childhoods through to their roles as professionals and community activists. Flynn interweaves oral histories with archival sources to show how these women's lives were shaped by their experiences of migration, professional training, and family life. Theoretical analyses from post colonial, gender, and diasporic Black Studies serve to highlight the multiple subjectivities operating within these women's lives. By presenting a collective biography of identity formation, *Moving Beyond Borders* reveals the extraordinary complexity of Black women's history." pub. desc.

Exposure to such a variety of cultures has had a profound effect, making her stronger than ever.  
 After the break-up of her marriage, Tova Clark felt a need to search for roots. No longer "wife-of," she undertook a process of self-discovery, including recognition of a warm, traditional Jewish family background, with caring, loving parents who nurtured their only child under the most difficult of circumstances.  
 "Compartments" represents Tova Clark's search for identity - a quest conducted in several contexts, including religion culture, and gender. As events unfold, a familiar pattern develops: exile, dispersion, marginality, dependence, subservience, assertion, and independence. The Jewish people and a Jewish woman; where does one end and the other begin?

**Summary Note**  
 Told as fiction, Esther portrays the remarkable, nearly incredible life and times of Esther Brandeau, a young girl who lived in the eighteenth century, and who was the first Jew to set foot in New France. That she did so disguised as a boy, and that the eventual discovery of her deceit became an international incident, is but one part of Esther's dramatic story. With an emerging Canadian nation as its backdrop, Esther's story encompasses the quest for gender equality and the larger quest for freedom-as real to a teenager in 1735 as it is today.

According to the statistics, one teen in every high school classroom is probably suffering from a major depression. These teens come from all social, economic and cultural backgrounds - from anyone's family or community. Parents often agonize over this problem, but do nothing, hoping for the best and allowing the teenager time and space to work out his or her own problems. They try to give extra love, support and attention, but they can't help worrying. Dr. Miriam Kaufman gives the concerned parent a thorough overview of the most up-to-date medical knowledge. Drawing on her own experience and that of other doctors and psychologists who work with teenagers, and offering many illustrative case histories, the author explains what teen depression is and how it can be overcome. Medical and psychiatric conditions, gender and sexuality differences, substance abuse, anxiety, poverty and suicide, as well as the social and practical aspects of life with a depressed teen are discussed. Medical approaches, including therapy and drug treatment, are covered in detail. An entire chapter is dedicated to alternative treatments. And in a broad-ranging question-and-answer section, Dr. Kaufman addresses many of the specific concerns of parents, and of teenagers themselves. This comprehensive look at teen depression is sure to be helpful not only to teens and parents, but to teachers, guidance counselors, and all those who</p>	 Shelf List  Locate It  Reserve More ...

In the twenty-fifth century, Tober Cove is a wonderful place to be. With most of Earth's population long since departed for other planets, and with them the technology that makes such a journey possible, life here is simple and serene--especially for Fullin, a gifted musician whose talent commands many times the wages of a farmer or fisherman. But Fullin is twenty years old. And at that age, each person in Tober Cove must make the most important decision in life.

Ominous winds of change swirl toward Fullin's idyllic existence, carrying dark secrets that will upend his beliefs, alter his view of reality and threaten his very life. But for the boy himself, there is no more room for indecision. The time has come to take an irrevocable stand and seal his fate forever. The hour of commitment is here.

**Summary Note**

Who do you think you are? Part of identity is how people experience their gender. Transphobia is intolerance of any part of the range of gender identity. This accessible, illustrated book offers information, quizzes, comics and true-to-life scenarios to help kids better understand gender identity and determine what they can do to identify and counter transphobia in their schools, homes and communities. Considered from the viewpoint of gender explorers, gender enforcers and witnesses, transphobic behaviour is identified, examined and put into a context that kids can use to understand and accept themselves and others for whatever gender they are - even if that's no gender at all!

**Halal sex : the intimate lives of Muslim women in North America**

By Benembarek, Sheima  
2023, All, Viking Canada  
Availability: 1 of 1 At Location(s)

**Summary Note**  
"This unprecedented and compassionate glimpse into the sex lives of seven Muslim women across North America brings a hushed conversation out into the open. Sheima Benembarek's parents never gave her the "the talk." When she left Morocco to go to university in Montreal, she was completely unprepared to navigate an open and active sex life outside of marriage, considered haram within the Muslim world. Now, many years later, she's all too aware of how common this is among immigrants and the children of immigrants living on a more sexually liberated continent. She set out to eliminate the taboo, interviewing Muslims from of a variety of locations, ethnicities, Islamic sects, and socioeconomic backgrounds about a host of topics, from masturbation and hymens to sex work and BDSM. Halal Sex is the culmination of these conversations, distilled into seven rich and compelling stories. Among the subjects are Hind, a niqabi in a polygynous marriage; Azar, a non-binary trans Sufi; Taslim, a virgin in her forties struggling to erect healthy boundaries with her family; and Eman, a lesbian stand-up comic in an interfaith marriage. With great care and thoughtfulness, Benembarek reveals a tapestry of diverse Islam and of individuals forging a path forward, each in their own way: overcoming shame, filling in educational gaps, balancing familial pressures, pushing back against sexism and patriarchy, and, ultimately, prioritizing their own happiness and pleasure."

**The book eaters**

By Dean, Sunyi  
2022, All, TOR  
Edition: 1st ed.  
Availability: 1 of 1 At Location(s)

**Summary Note**  
"Sunyi Dean's The Book Eaters is a contemporary fantasy debut. It's a story of motherhood, sacrifice, and hope; of queer identity and learning to accept who you are; of gilded lies and the danger of believing the narratives others create for you. Out on the Yorkshire Moors lives a secret line of people for whom books are food, and who retain all of a book's content after eating it. To them, spy novels are a peppery snack; romance novels are sweet and delicious. Eating a map can help them remember destinations, and children, when they misbehave, are forced to eat dry, musty pages from dictionaries. Devon is part of The Family, an old and reclusive clan of book eaters. Her brothers grow up feasting on stories of valor and adventure, and Devon -- like all other book eater women -- is raised on a carefully curated diet of fairy tales and cautionary stories. But real life doesn't always come with happy endings, as Devon learns when her son is born with a rare and darker kind of hunger -- not for books, but for human minds." From publisher

**Summary Note**  
"Set in 1960s California, this blockbuster debut is the hilarious, idiosyncratic and uplifting story of a female scientist whose career is constantly derailed by the idea that a woman's place is in the home, only to find herself starring as the host of America's most beloved TV cooking show. Elizabeth Zott is not your average woman. In fact Elizabeth Zott would be the first to point out that there is no such thing as an average woman. But it's the 1960s and despite the fact that she is a scientist, her peers are very unscientific when it comes to equality. The only good thing to happen to her on the road to professional fulfillment is a run-in with her super-star colleague Calvin Evans (well, she stole his beakers.) The only man who ever treated her-and her ideas-as equal, Calvin is already a legend and Nobel nominee. He's also awkward, kind and tenacious. Theirs is true chemistry. But as events are never as predictable as chemical reactions, three years later Elizabeth Zott is an unwed, single mother (did we mention it's the early 60s??) and the star of America's most beloved cooking show Supper at Six. Elizabeth's singular approach to cooking ('take one pint of H2O and add a pinch of sodium chloride') and independent example are proving revolutionary. Because Elizabeth isn't just

Long before marriage equality was the law of the land, two grooms stood on a wedding cake with their feet firmly planted in fluffy white frosting. That cake belonged to Jack Baker and Michael McConnell, who were wed on September 3, 1971, becoming the first same-sex couple in America to be legally married. Their struggle to obtain a marriage license in Minnesota and their subsequent appeals to the Minnesota Supreme Court and the Supreme Court of the United States is an under-told story of LGBT history. This beautiful book celebrates the love story of two pioneers of marriage equality for all through the baking of their wedding cake!

"A boy grows up to bring positive change to his village in India. This story is true, and it started with a boy named Sundar. After the deaths of his mother, and later his daughter, Sundar Palwal knows what he has to do. He is determined to live in a place where girls and boys are treated equally and where the surrounding countryside is not ravaged by irresponsible mining. And so he comes up with a plan. In rural India, where many people cling to age-old customs and gender inequality and discrimination are encouraged, Sundar manages to convince the people of his village to welcome every girl born with the planting of 111 trees. His efforts have turned a desert village into a green oasis that is safe and prosperous for girls. And his heroic actions confirm that the ability to impact our communities in a positive way is not beyond anyone's reach."--

"A timely new resource to help kids understand and resolve conflicts stemming from issues of consent. Consent isn't just about sex. From an early age, kids are taught to respect personal space. They learn to express themselves about how they feel. As much as they need to be taught that kissing, hugging and touching are sometimes appropriate and sometimes not, it is important that they consider that consent is needed for commonplace interactions like borrowing things, sharing possessions, or giving away someone's secrets. And that consent cannot be assumed, even if it has been given at a different time. This illustrated book offers information, quizzes, comics and real-life situations to help kids think critically about what consent is, and what it looks and sounds like when it is given or not given. Considered from the viewpoints of those who are in a position to give consent, those who are in a position to be given consent, and witnesses to conflict around consent, this issue is identified, examined and put into a context that kids can understand and use to navigate issues of personal rights and emotional safety."

**Summary Note**  
The League of Super Feminists is an energetic and fierce comic for tweens and younger teens. Cartoonist Mirion Malle guides readers through some of the central tenets of feminism and media literacy including consent, intersectionality, privilege, body image, inclusivity and more; all demystified in the form of a witty, down-to-earth dialogue that encourages questioning the stories we're told about identity. Malle's insightful and humorous comics transport lofty concepts from the ivory tower to the eternally safer space of open discussion. Making reference to the Bechdel test in film and Peggy McIntosh's dissection of white privilege through the metaphor of the "invisible knapsack," The League of Super Feminists is an asset to the classroom, library, and household alike. Knights and princesses present problems associated with consent; superheroes reveal problematic stereotypes associated with gender; and grumpy onlookers show just how insidious cat-calling culture can be. No matter how women dress, Malle explains, there seems to always be someone ready to call it out. The League of Super Feminists articulates with both poise and clarity how unconscious biases and problematic thought processes can have tragic results. Why does feminism matter? Are feminists man-haters? How do race and feminism intersect? Malle answers these questions for young readers in a comic that is as

Only two years old when her parents fled Iran, she didn't learn of her undocumented status until her older sister wanted to apply for an after-school job, but couldn't because she didn't have a Social Security number. Fear of deportation kept Sara up at night, but it didn't keep her from being a teenager. She desperately wanted a green card, along with clear skin, her own car, and a boyfriend. From discovering that her parents secretly divorced to facilitate her mother's green card application to learning how to tame her unbrow, Sara pivots gracefully from the terrifying prospect that she might be kicked out of the country to the almost-as-terrifying possibility that she might be the only one without a date to the prom. This moving, often hilarious story is for anyone who has ever shared either fear.

Madame Lise raconte une histoire aux enfants à l'occasion de l'heure du conte à la bibliothèque. Lorsqu'elle entame le récit en disant: "Il était une fois un roi, une reine et une...", tous les petits crient ensemble "princesse!", mais enchaînent aussitôt les questions. C'est quoi, un royaume? Est-ce que ça existe encore, les rois, les reines et les princesses? Ça ressemble à quoi un royaume? Patiente, la dame de la bibliothèque répond à toutes leurs interrogations en démontrant que la monarchie est bien souvent injuste, que la richesse ne donne qu'une illusion du bonheur et qu'il va de soi dans les contes pour enfants que les princesses doivent se marier très jeunes à des princes. Ces réponses ne font cependant que scandaliser les enfants ainsi que le chat blanc qui s'est glissé parmi eux, mais après des rappels à l'ordre répétés, ils acceptent enfin d'écouter l'histoire de la princesse à la chevelure indomptable, aux talents de karatéka et au goût contesté pour la danse.  **Fierce fairytales : poems & stories to stir your soul**  
By Gill, Nikita  
[2018], All, Hachette Books  
Availability: 1 of 1 At Location(s)

**Summary Note**  
Poet, writer, and Instagram sensation Nikita Gill returns with a collection of fairytales poetically retold for a new generation of women.

Traditional fairytales are rife with cliches and gender stereotypes: beautiful, silent princesses; ugly, jealous, and bitter villainesses; girls who need rescuing; and men who take all the glory.

But in this rousing new prose and poetry collection, Nikita Gill gives Once Upon a Time a much-needed modern makeover. Through her gorgeous reimagining of fairytale classics and spellbinding original tales, she dismantles the old-fashioned tropes that have been ingrained in our minds. In this book, gone are the docile women and male saviors. Instead, lines blur between heroes and villains. You will meet fearless princesses, a new kind of wolf lurking in the concrete jungle, and an independent Gretel who can bring down monsters on her own.

#### Summary Note

What is the difference between having empathy and being an empath? "Having empathy means our heart goes out to another person in joy or pain," says Judith Orloff, MD. "But for empaths it goes much further. We actually feel others' emotions, energy, and physical symptoms in our own bodies, without the usual defenses that most people have." With *The Empath's Survival Guide*, Dr. Orloff offers a practical tool set to help sensitive people develop healthy coping mechanisms in our high-stimulus world—while fully embracing the empath's gifts of intuition, compassion, creativity, and spiritual connection.

This practical, empowering, and loving book was created to support empaths and anyone who wants to develop their sensitivities to become more caring people in an often-insensitive world. It helps empaths through their unique challenges and gives loved ones a better understanding of the needs and gifts of the sensitive people in their lives. In this book Dr. Orloff offers crucial practices, including:

- Self-assessment exercises to help you identify your empath type
- Tools for protecting yourself from sensory overload, exhaustion, addictions, and compassion fatigue while replenishing your vital energy
- Simple and effective strategies to stop absorbing stress and physical symptoms from others and protect yourself from narcissists and other energy vampires
- How to find the right work and create relationships that nourish you
- How to navigate intimate relationships without feeling overwhelmed
- Guidance for parenting and raising empathic children
- Awakening the empath's gift of intuition and deepening your spiritual connection to all living beings

For any sensitive person who's been told to "grow a thick skin," *The Empath's*

Throughout his life, basketball superstar Earvin "Magic" Johnson has met both challenges and opportunities with perseverance and leadership. Dubbed Magic, Johnson blazed a spectacular career in basketball. In 1991, Magic announced he had tested positive for HIV, a virus that can lead to the life-threatening disease AIDS, and was retiring from basketball. Little was known then about HIV/AIDS and its prevention. His declaration shocked the public but succeeded in putting a familiar and much-admired face on a disease that was shrouded in fear and prejudice. Magic Johnson's legacy includes his inspirational work as an advocate for the prevention of HIV and the still-incurable disease AIDS through his own foundation, which provides programs for HIV/AIDS education and prevention, including testing and safe sex practices.

Edited by Abel Debritto, the definitive collection of poems from an influential writer whose transgressive legacy and raw, funny, and acutely observant writing has left an enduring mark on modern culture.

Few writers have so brilliantly and poignantly conjured the desperation and absurdity of ordinary life as Charles Bukowski. Resonant with his powerful, perceptive voice, his visceral, hilarious, and transcendent poetry speaks to us as forcefully today as when it was written. Encompassing a wide range of subjects—from love to death and sex to writing—Bukowski's unvarnished and self-deprecating verse illuminates the deepest and most enduring concerns of the human condition while remaining sharply aware of the day to day.

With his acute eye for the ridiculous and the troubled, Bukowski speaks to the deepest longings and strangest predilections of the human experience. Gloomy yet hopeful, this is tough, unrelenting poetry touched by grace.

This is Essential Bukowski

Edition: 2 Original.

When Rosalind Wiseman first published Queen Bees & Wannabes, she fundamentally changed the way adults look at girls' friendships and conflicts—from how they choose their best friends, how they express their anger, their boundaries with boys, and their relationships with parents. Wiseman showed how girls of every background are profoundly influenced by their interactions with one another. Now, Wiseman has revised and updated her groundbreaking book for a new generation of girls and explores: How girls' experiences before adolescence impact their teen years, future relationships, and overall success•The different roles girls play in and outside of cliques as Queen Bees, Targets, and Bystanders, and how this defines how they and others are treated•Girls' power plays—from fake apologies to fights over IM and text messages•Where boys fit into the equation of girl conflicts and how you can help your daughter better hold her own with the opposite sex•Checking your baggage—recognizing how your experiences impact the way you parent, and how to be sanely involved in your daughter's difficult, yet common social conflict.Packed with insights about technology's impact on Girl World and enlivened with the experiences of girls, boys, and parents, this book that inspired the hit movie Mean

 "The Birth House" is the story of Dora Rare, the first daughter to be born in five generations of Rares. As a child in an isolated village in Nova Scotia, she is drawn to Miss Babineau, an outspoken Acadian midwife with a gift for healing. Dora becomes Miss B.'s apprentice, and together they help the women of Scots Bay through infertility, difficult labours, breech births, unwanted pregnancies and even unfulfilling sex lives. Filled with details as compelling as they are surprising, "The Birth House" is an unforgettable tale of the struggles women have faced to have control of their own bodies and to keep the best parts of tradition alive in the world of modern medicine.

**Summary Note**  
 A new science called neuroplasticity is overthrowing the old notion that the human brain is immutable. Psychoanalyst Doidge traveled the country to meet both the brilliant scientists championing neuroplasticity and the people whose lives they've transformed—people whose mental limitations or brain damage were seen as unalterable. We see a woman born with half a brain that rewired itself to work as a whole, blind people who learn to see, learning disorders cured, IQs raised, aging brains rejuvenated, stroke patients learning to speak, children with cerebral palsy learning to move with more grace, depression and anxiety disorders successfully treated, and lifelong character traits changed. Using these stories to probe mysteries of the body, emotion, love, sex, culture, and education, Dr. Doidge has written an inspiring book that will permanently alter the way we look at our brains, human nature, and human potential.  **How to be a Canadian**

 c2007., *Douglas & McIntyre*  
 Availability: 2 of 2 At Location(s)

**Summary Note**  
 It isn't always easy being Canadian, according to Will Ferguson, but it can be a lot of fun. Asked to write a follow-up to his runaway bestseller *Why I Hate Canadians*, Ferguson, who's Canadian himself, recruited his brother Ian — comedy writer and executive producer of the Canadian series *Sin City* and a Canadian too — to create this ultimate guide to the country's cultural quirks. The result is a hilarious inside look at that unique species, the Canadian, and their thoughts on such diverse subjects as beer, sex, dating rituals, sports, politics, religion, social rules — and, of course, their trademark death-defying search for the middle of any road. Book

**Summary Note**  
 One of the greatest and most ambitious works in English literature, the Canterbury Tales depicts a story-telling competition between pilgrims drawn from all ranks of society. The tales are as various as the pilgrims themselves, encompassing comedy, pathos, tragedy and cynicism. The Miller and the Reeve express their mutual antagonism in a pair of comic stories combining sex and trickery; in 'The Shipman's Tale' a wife sells her favours to a monk. Others draw on courtly romance and fantasy: the Knight tells of rivals competing for the love of the same woman and the Squire describes a princess who can speak to birds. In these twenty-four tales, Chaucer displays a dazzling range of literary styles and conjures up a wonderfully vivid picture of medieval life.

**Summary Note**  
Helen doesn't want to stay in the fattening hut. She's told her mother that she's too young, not ready for it. Why must she marry so soon? She doesn't want to gorge on rich meals for months—until she is round and heavy, like a good bride should be. Just like her mother and sister before her, just like all the women of her tribe. When she finds out the terrible secret the fattening hut harbors, she becomes even more confused and defiant. Lonely, scared, and feeling hemmed in by family, by culture, and by tradition, Helen fights for the chance to be educated, young, and free.

	<p>This haunting novel about the dilemma of passivity vs. passion marks the stunning debut of a provocative new voice in contemporary fiction: The Perks of Being A WALLFLOWER</p> <p>This is the story of what it's like to grow up in high school. More intimate than a diary, Charlie's letters are singular and unique, hilarious and devastating. We may not know where he lives. We may not know to whom he is writing. All we know is the world he shares. Caught between trying to live his life and trying to run from it puts him on a strange course through uncharted territory. The world of first dates and mixed tapes, family dramas and new friends. The world of sex, drugs, and The Rocky Horror Picture Show, when all one requires is that the perfect song on that perfect drive to feel infinite.</p> <p>Through Charlie, Stephen Chbosky has created a deeply affecting coming of age</p>

#### Summary Note

Chinese by birth, Eurasian by blood, Mei-Ling Wang's extraordinary life is a mirror of our time. Born in China in 1949, the year of the Red Army's entry into Beijing, she is the daughter of an English mother and Chinese father who share the Communist vision of a more perfect future. Mei-ling grows to womanhood amid the violent passions and numbing brutality unleashed by the Cultural Revolution. In 1968, as a tidal wave of political turmoil engulfs the globe, Mei-Ling, penniless, is forced to flee her homeland. She embarks on an odyssey that carries her from China to Hong Kong to Europe to North America. Beautiful and intelligent, compelled by necessity and desire, Mei-Ling threads her way carefully among the men who love her and use her. She discovers the power of sex and the lure of wealth; she mastered the art of survival. When she returns to Hong Kong and China in 1997, the colony and the mainland are about to become one country again. The People's Republic and the daughter who was forced to flee its shores so long before have been tempered by their struggles and stripped of their illusions. They are wealthy and strong. But they have been forced to relinquish the ideals that first brought them into being.

[1980]. Emblem  
Availability: 1 of 1 At Location(s)

**Summary Note**  
Joshua Then and Now is about Joshua Shapiro today, and the Joshua he was. His father a boxer turned honest crook, his mother an erotic dancer whose greatest performance was at Joshua's bar mitzvah. Joshua has overcome his inauspicious beginnings in the Jewish ghetto of Montreal to become a celebrated television writer and a successful journalist. But Joshua, now middle-aged, is not a happy man. Incapacitated by a freak accident, anguished by the disappearance of his WASP wife, and caught up in a sex scandal, Joshua is besieged by the press and tormented by the ghosts of his youth. Set in Montreal, the novel chronicles the rocky journey we all make between the countries of the past and the present. Raucous, opinionated, tender, Joshua Then and Now is a memorable excursion into Mordecai Richler's comic universe.

Far in the future, the World Controllers have created the ideal society. Through clever use of genetic engineering, brainwashing, and recreational sex and drugs, all of its members are happy consumers. Bernard Marx seems alone in feeling discontent. Harboured an unnatural desire for solitude, and a perverse distaste for the pleasures of compulsory promiscuity, Bernard has an ill-defined longing to break free. A visit to one of the few remaining Savage Reservations, where the old, imperfect life still continues, may be the cure for his distress ...

Boy listens to lots of loud music and hangs with his friends. Boy meets girl. Boy falls dippy-happy-scared-as-hell in love with girl. Friends meet girl -- and aren't impressed. Girl meets friends -- and isn't impressed. Boy meets big dilemma. Boy plays music even louder. Big dilemma meets big, complicated resolution. With humor and heartfelt observations, debut author Christopher Krovatin strikes some very loud chords about life, love, sex, and friendship.

By Lewycka, Marina. 1946-

**Summary Note**

?An amusing, astonishing debut . . . about how a family learns to let go of the past and live and love in the present.? ?*The Atlanta Journal-Constitution*

With this wise, tender, and deeply funny novel, Marina Lewycka takes her place alongside Zadie Smith and Monica Ali as a writer who can capture the unchanging verities of family. When an elderly and newly widowed Ukrainian immigrant announces his intention to remarry, his daughters must set aside their longtime feud to thwart him. For their father?s intended is a voluptuous old-country gold digger with a proclivity for green satin underwear and an appetite for the good life of the West. As the hostilities mount and family secrets spill out, *A Short History of Tractors in Ukrainian* combines sex, bitchiness, wit, and genuine warmth in its celebration of the pleasure of growing old disgracefully.

?A charming comedy of eros... A ride that, despite the bumps and curves in the road, never feels anything less than jaunty.? ?*Los Angeles Times*  
?Lewycka is a writer with a fundamentally optimistic vision of the future and a healthy curiosity about the past.? ?*Chicago Tribune*  
?Charming, poignant, funny.? ?*The Washington Post Book World*

"With plenty of thought-provoking as well as laugh-out-loud examples, Dr. Pat Friman explains how 'insane' behavior on the part of teens is actually normal considering the different rates of development of parts of the brain. Wild outbursts, risk-taking (drugs, alcohol, and sex), and thoughtless or embarrassing behaviors are therefore regrettable, but not abnormal behaviors in teens. Dr. Friman tells viewers which behaviors to address and how, and which behaviors should simply be ignored as teen 'insanity' that will be outgrown as youth mature."

Pour petit éléphanteau, il est généralement facile de classer les gens en diverses catégories: les papas et les mamans sont "les grands", les bébés et les enfants sont "les petits" et les grands-pères et les grands-mères sont "ceux qui ont plein de rides". Mais comment se définissent les filles et les garçons? À quoi les reconnaître lorsque l'on sait que des filles s'habillent en pantalons et jouent au soccer alors que des garçons portent des boucles d'oreille et jouent à la poupée? Les parents du pauvre éléphanteau ne l'aident guère dans sa quête de réponse en lui disant qu'on reconnaît le sexe à la tête de son interlocuteur! Et voilà qu'un jour, il croit avoir percé le mystère en assistant au bain de sa petite soeur et est convaincu de ne plus pouvoir se tromper! Or, une fois dans la cour d'école, les cartes s'embrouillent de nouveau. (S.M.)

Being immortal isn't all it's cracked up to be. Life's hard for a Greek god in the twenty-first century: nobody believes in you any more, even your own family doesn't respect you, and you're stuck in a dilapidated hovel in North London with too many siblings and not enough hot water. But for Artemis (goddess of hunting, professional dog walker), Aphrodite (goddess of beauty, telephone sex operator) and Apollo (god of the sun, TV psychic) there's no way out... until a meek cleaner and her would-be boyfriend come into their lives and turn the world upside down

 "A scientist attempts to bring her younger sister back to life with unexpected results in this Frankenstein-inspired graphic novel about ghosts, identity, and family When Doctor Frances Ai's younger sister Maura died in a tragic accident six months ago, Frances swore she would bring her back to life. However, the creature that rises from the slab is clearly not Maura. This girl, who chooses the name "M," doesn't remember anything about Maura's life and just wants to be her own person. However, Frances expects M to pursue the same path that Maura had been on--applying to college to become a scientist--and continue the plans she and Maura shared. Hoping to trigger Maura's memories, Frances surrounds M with the trappings of Maura's past, but M wants nothing to do with Frances' attempts to change her into something she's not. In order to face the future, both Frances and M need to learn to listen and let go of Maura once and for all. Talia Dutton's debut graphic novel, M Is for Monster, takes a hard look at what it means to live up to other people's expectations--as well as our own. M Is for Monster is one of the titles on our Surely list which is dedicated to showcasing gay, lesbian, bisexual, transgender, queer, intersex, and asexual creators and stories"

**Summary Note**  
"The Sleeping Car Porter brings to life an important part of Black history in North America, from the perspective of a gay man living in a culture that renders him invisible in two ways. Affecting, imaginative, and visceral enough that you'll feel the rocking of the train, The Sleeping Car Porter is a stunning accomplishment. Baxter's name isn't George. But it's 1929, and Baxter is lucky enough, as a Black man, to have a job as a sleeping car porter on a train that crisscrosses the country. So when the passengers call him George, he has to just smile and nod and act invisible. What he really wants is to go to dentistry school, but he'll have to save up a lot of nickel and dime tips to get there, so he puts up with "George." On this particular trip out west, the passengers are more unruly than usual, especially when the train is stalled for two extra days; their secrets start to leak out and blur with the sleep-deprivation hallucinations Baxter is having. When he finds a naughty postcard of two gay men, Baxter's memories and longings are reawakened; keeping it puts his job in peril, but he can't part with the postcard or his thoughts of Edwin Drew, Porter Instructor."-- Provided by publisher

Contrary to popular belief, best friends Kate Garfield and Anderson Walker are not codependent. Carpooling to and from theater rehearsals? Environmentally sound and efficient. Consulting each other on every single life decision? Basic good judgment. Pining for the same guys from afar? Shared crushes are more fun anyway. But when Kate and Andy's latest long-distance crush shows up at their school, everything goes off-script. Matt Olsson is talented and sweet, and Kate likes him. She really likes him. The only problem? So does Anderson. Turns out, communal crushes aren't so fun when real feelings are involved. This one might even bring the curtains down on Kate and Anderson's friendship.

"History was crafted by the people who recorded it. And sometimes, those historians were biased against, didn't see, or couldn't even imagine anyone different from themselves. That means that history has often left out the stories of LGBTQIA+ people: men who loved men, women who loved women, people who loved without regard to gender, and people who lived outside gender boundaries. But coming out still means facing harassment from fans, teammates, opponents, and the media, and a lack of sponsorship opportunities. While organizations like You Can Play, the Canadian Olympic Committee and Eagle Canada have made progress in recent years in promoting inclusivity at the grassroots and elite sporting levels, there is still much work to be done to ensure all athletes feel safe being their authentic selves. Athletes profiled include swimmer Mark Tewksbury, rhythmic gymnast Rose Cossar, professional hockey player Brock McGillis, speed skater Anastasia Bucsis, pairs figure skater Eric Bedford, volleyball player Betty Best, and Christopher Voth, and hockey player

 Long before marriage equality was the law of the land, two grooms stood on a wedding cake with their feet firmly planted in fluffy white frosting. That cake belonged to Jack Baker and Michael McConnell, who were wed on September 3, 1971, becoming the first same-sex couple in America to be legally married. Their struggle to obtain a marriage license in Minnesota and their subsequent appeals to the Minnesota Supreme Court and the Supreme Court of the United States is an under-told story of LGBT history. This beautiful book celebrates the love story of two pioneers of marriage equality for all through the baking of their wedding cake!

By Fountas, Irene C. Pinnell, Gay Su  
2019., *Heinemann*  
Availability:1 of 1 At Location(s)

#### Summary Note

As a teacher of literacy, you transform the lives of the children in your classroom. The Reading Minilessons Book offers short, concise, purposeful lessons with a practical application in a specific area of literacy. Each minilesson engages children in inquiry that leads to the discovery and understanding of a general principle. Growing out of the interactive read-aloud experience and linked to independent reading, teachers use many of these texts as examples from which they generalize the understanding. Each of the four types of reading minilessons (management, literary analysis, strategies and skills, and writing about reading) in The Reading Minilessons Book is organized into broad categories, or "umbrellas." An umbrella helps children develop a deeper understanding of concepts and their application. As lessons build on each other, teachers will often make an anchor chart, or visual representation, that can be referenced again and again as children encounter new texts and/or minilessons.

In Durban they can live as they wish because no one knows them and they have more freedom than they've ever had before. Their relationship is thrown into turmoil by social pressures and conflicting desires, and it starts to look as if they can't be together. Sure, he's a competitive swimmer, but being a jock doesn't mean he isn't the target of gay jokes, and the macho culture of his swim club is wearing him down. At the same time, he becomes drawn to the art and athleticism of synchronized swimming, the idea of the human form moving to music under water. So he jumps at the opportunity to become the first boy on the synchro swimming team, even if it means others start questioning his masculinity even more. He starts finding himself attracted to his teammate Erika, and when she asks Bart to swim with her in a brand new event, the mixed duet, he commits to taking them all the way to the Olympics. But Bart's difficulty at achieving the skills he needs, and Erika's sudden decision to quit the duet, threaten to derail his dream and kill what made the sport so liberating and alluring in the first place. And it doesn't help that as he falls in love with Erika, he's falling in lust with her enemy and synchro rival Chelsea ... not to mention a cute boy in the diving club. Ultimately, Bart will have to give in to his intuition that leads him to realize there are many ways to be a boy. If he doesn't, he'll not only lose his friendship with Erika, but his new Olympic dream, and the joy he feels as he dances

 "You are a failed novelist about to turn fifty. A wedding invitation arrives in the mail: your boyfriend of the past nine years is engaged to someone else. You can't say yes—it would be too awkward—and you can't say no—it would look like defeat. On your desk are a series of invitations to half-baked literary events around the world. QUESTION: How do you arrange to skip town? ANSWER: You accept them all. What would possibly go wrong? Arthur Less will almost fall in love in Paris, almost fall to his death in Berlin, barely escape to a Moroccan ski chalet from a Saharan sandstorm, accidentally book himself as the (only) writer-in-residence at a Christian Retreat Center in Southern India, and encounter, on a desert island in the Arabian Sea, the last person on Earth he wants to face. Somewhere in there: he will turn fifty. Through it all, there is his first love. And there is his last. Because, despite all these mishaps, missteps, misunderstandings and mistakes, Less is, above all, a love story. A scintillating satire of the American abroad, a rumination on time and the human heart, a bittersweet romance of chances lost, by an author The New York Times has hailed as "inspired, lyrical," "elegiac," "ingenious," as well as "too sappy by half." **Summary Note**  
Raised on a reserve in northern Ontario, seventeen-year-old Joe Littlechief tries to be like the other guys. But Joe knows he's different -- he's more interested in guys than in any of the girls he knows. One night Joe makes a drunken pass at his best friend Benjy and, by the next morning, everyone on the rez is talking about Joe. His mother, a devout Christian, is horrified, and the kids who are supposed to be his friends make it clear there's no place for him in their circle, or even on the rez. Joe thinks about killing himself, but instead runs away to the city. Alone and penniless on the streets of Toronto, Joe comes to identify with the Aboriginal idea of having two spirits, or combining both feminine and masculine identities in one person. He also begins to understand more about how his parents have been affected by their own experiences as children in residential schools -- something never discussed on the rez. And he realizes he has to come to terms with his two-spiritedness and find people who accept him for who he is. This is a novel that reflects the complex realities faced by young LGBTQ and aboriginal youth today.

School is just like a film set: there's The Crew, who make things happen, The Extras who fill the empty desks, and The Movie Stars, whom everyone wants tagged in their Facebook photos. But Jude doesn't fit in. He's not part of The Crew because he isn't about to do anything unless it's court-appointed; he's not an Extra because nothing about him is anonymous; and he's not a Movie Star because even though everyone knows his name like an A-lister, he isn't invited to the cool parties. As the director calls action, Jude is the flamer that lights the set on fire. Before everything turns to ashes from the resulting inferno, Jude drags his best friend Angela off the casting couch and into enough melodrama to incite the paparazzi, all while trying to fend off the haters and win the heart of his favourite co-star Luke Morris. It's a total train wreck!  
But train wrecks always make the front page." Provided by publisher

**Skim**

[2008], Miscellaneous.  
Availability:2 of 2 At Location(s)

**Summary Note**  
"Skim" is Kimberly Keiko Cameron, a not-slim, would-be Wiccan goth who goes to a private girls' school in the early '90s. When her classmate Katie Matthews is dumped by her boyfriend, who then kills himself — possibly because he's (maybe) gay — the entire school goes into mourning overdrive. It's a weird time to fall in love, but that's what happens to Skim when she starts meeting secretly with her neo-hippie English teacher, Ms. Archer. But then Ms. Archer abruptly leaves the school, and Skim has to cope with her confusion and isolation while her best friend, Lisa, tries to pull her into "real" life by setting up a hilarious double-date for the school's semi formal. Suicide, depression, love, homosexuality, crushes, cliques of popular, manipulative peers — the whole gamut of teen life is explored in this poignant glimpse into the heartache of being 16.

**Summary Note**  
A plat ventre dans l'herbe mouillée avec son chien, Julia est heureuse. Rêve-t-elle? La manche de sa chemise est prise sous une pierre. Elle est entraînée sous terre par des fougères bleues. Elle fait la connaissance d'une immense petite fille. Julia doit lui expliquer des notions qui, là où elle habite, lui sont inconnues. Comme Sophie-Armande-Arthure a le don de prendre la taille qu'elle veut, elle se fait toute petite pour que Julia l'amène chez elle. Une nouvelle amitié vient de naître. -- Le monde de Julia est toujours aussi frais et charmant. Un récit merveilleux au texte abondamment dialogué. Les illustrations de Bruno St-Aubin assurent une bonne continuité dans la lecture de celles de Marie-Louise Gay. (SDMI)

**Summary Note**  
Un concours est organisé qui permettra à une jeune fille de tourner une publicité de sucettes avec les vedettes d'une série télévisée. Sophie rêve de gagner ce concours et de côtoyer ses idoles. Avec l'aide de Mamie, et sans le dire à ses parents qui contestent la publicité pour enfants, Sophie passe l'audition et remporte le concours. Lors du tournage, Sophie réalise que la vie d'artiste est loin d'être rose et que l'une de ses idoles n'est pas très sympathique. Elle affirme tout de même à ses amis que l'expérience a été très agréable mais est très déçue de l'image qu'elle projette à la télévision. -- Récit au style direct et au déroulement rapide qui met en scène des personnages dynamiques et spontanés. Les divers éléments de la trame démontrent clairement que "les vedettes, la télévision et la publicité: tout ça, ce n'est que de la fiction" (p. 63). Les nombreuses illustrations et les gros caractères conviennent bien aux lecteurs débutants. (SDMI)

 **Halal sex : the intimate lives of Muslim women in North America**

By Benembarek, Sheima  
2023., All, Viking Canada  
Availability:1 of 1 At Location(s)

**Summary Note**

"This unprecedented and compassionate glimpse into the sex lives of seven Muslim women across North America brings a hushed conversation out into the open. Sheima Benembarek's parents never gave her the "the talk." When she left Morocco to go to university in Montreal, she was completely unprepared to navigate an open and active sex life outside of marriage, considered haram within the Muslim world. Now, many years later, she's all too aware of how common this is among immigrants and the children of immigrants living on a more sexually liberated continent. She set out to eliminate the taboo, interviewing Muslims from of a variety of locations, ethnicities, Islamic sects, and socioeconomic backgrounds about a host of topics, from masturbation and hynens to sex work and BDSM. Halal Sex is the culmination of these conversations, distilled into seven rich and compelling stories. Among the subjects are Hind, a niqabi in a polygynous marriage; Azar, a non-binary trans Sufi; Taslim, a virgin in her forties struggling to erect healthy boundaries with her family; and Eman, a lesbian stand-up comic in an interfaith marriage. With great care and thoughtfulness, Benembarek reveals a tapestry of diverse Islam and of individuals forging a path forward, each in their own way: overcoming shame, filling in educational gaps, balancing familial pressures, pushing back against sexism and patriarchy, and, ultimately, prioritizing their own happiness and pleasure."

By Perrault-Archambault, Mathilde, 1979- Catherin, 1996-  
2022., Bayard Canada Livres  
Availability:1 of 2 At Location(s)

**Summary Note**

De tout temps, les zèbres ont tiré une grande fierté de leurs rayures, élégantes et sérieuses. Quand de graves tempêtes poussent de drôles de zèbres aux rayures rouges, vertes et même jaunes, à se réfugier au village de leurs voisins blancs et noirs, des grincheux s'emportent : « Ce sont des espions ! » « Ils prennent notre territoire pour un arc-en-ciel ! » « Je ne veux pas de rouge dans ma cour. » Le généreux Tizèbre ne les écouterait pas et prendra soin de ses nouveaux amis. Leur présence transformera doucement l'univers noir et blanc, à coups de coquelicots, de insectes, de sculptures et de cabrioles.

By Hancox, Lewis, 1989-  
2022., Graphix, an imprint of Scholastic  
Edition: First edition.  
Availability:1 of 1 At Location(s)

**Summary Note**

Lewis has a few things to say to his younger teen self. He knows she hates her body. He knows she's confused about who to snog. He knows she's really a he and will ultimately realize this. But she's going to go through a whole lot of mess (some of it funny, some of it not funny at all) to get to that point. Lewis is trying to tell her this ... but she can't quite hear him yet. In this book, Lewis Hancox takes readers on the hilarious, heartbreaking, and healing path he took to make it past trauma, confusion, hurt, and dubious fashion choices in order to become the man he was meant to be.

By Hughes, Meredith Sayles  
 [2016], *Twenty-first Century Books*  
 Availability:1 of 1 At Location(s)

**Summary Note**

"No one can live without food, but what you eat is a personal decision. In the twenty-first century, many people are choosing to eat more vegetables and fruits and less meat. But is all meat bad for you? What does science say? And what about sugar and trans fats, which are linked to diabetes and heart disease? In addition to health concerns, people make food choices for ethical and religious reasons. Some ancient religions asserted that killing animals was wrong, a belief that persists among modern vegetarians and vegans. Some twenty-first century consumers shun meat from factory farms-- where animals are crowded into stalls and fattened up with antibiotics and hormones. An increasing number of people seek out foods grown locally, especially those raised without chemical pesticides, using agricultural methods that keep the soil healthy and do not waste water. As the Earth's population grows, chefs, nutritionists, and scientists are considering how to feed the world. The future of food includes insects-based foods, 3D-printed meals, and crops that can grow inside buildings. What do you choose to eat and why? This book will help you make decisions to support your values."

The Dry Creek Middle School drinking fountain has sprung a leak, so principal Walter Russ dashes off a request to Flowing Waters Fountains, Etc. asking "...We need a new drinking fountain. Please send catalog. "

Florence Waters responds:

"I'd be delighted. . . . But please understand that all of my fountains are custom-made."

And so begins the hilarious chronicle, in letters, cards, transcripts, and official town documents, as collected by Mr. Sam N.'s fifth-grade class...

Flo Waters, an artist who looks everywhere for inspiration, solicits suggestions from the fifth graders-- ...a fountain big enough to splash around in; ...a glass-sided fountain with fish; . . . buttons for dispensing lemonade and root beer, and from Mr. Sam N.-- ...a hot tub and whirlpool for the teachers.

Flo is thrilled. Mr. Russ is beside himself-- . . ."We don't need a fountain like you create for palaces and hotels. Send bid as soon as possible, or sooner. "

But it's too late. The fountain project has taken on a life of its own. Flo is supplying designs from all over the world. The school board president is up in arms. So is her friend, Dee Eel, of the water-supply company. A scandal is brewing, and the fifth-grade class is researching Dry Creek's history. Something very fishy is going on, and the secrets are buried beneath the fountain and within this delightful

Le même phénomène se reproduit avec le canard bleu, puis le vert. Il n'en faut pas plus pour que le chaton se transforme en détective, secondé par son fidèle Harry Souris (HS de son nom de code)!
