Sixteen-year-old Starr Carter moves between two worlds: the poor neighbourhood where she lives and the fancy suburban prep school she attends. The uneasy balance between these worlds is shattered when Starr witnesses the fatal shooting of her childhood best friend Khalil at the hands of a police officer. Khalil was unarmed. Soon afterward, his death is a national headline. Some are calling him a thug, maybe even a drug dealer and a gangbanger. Protesters are taking to the streets in Khalil's name. Some cops and the local drug lord try to intimidate Starr and her family. What everyone wants to know is: what really went down that night?

Jeannette Walls, the former gossip columnist for MSNBC.com, chronicles her childhood, focusing primarily on the complicated relationships within her dysfunctional family. Raised by nomadic and idealist parents who eventually settled in a downtrodden West Virginia mining town, Jeannette's childhood was a rollercoaster ride. As her parents ran out of money, Jeannette and her siblings were forced to fend for themselves. Deeply hurt by her parents' betrayal, she became determined to be successful.

Eleven-year-old Rick Ramsey has generally gone along with everybody, just not making waves, even though he is increasingly uncomfortable with his father's jokes about girls, and his best friend's explicit talk about sex; but now in middle school he discovers the Rainbow Spectrum club, where kids of many genders and identities can express themselves—and maybe among them he can find new friends and discover his own identity, which may just be to opt out of sex altogether.

Summary Note
Truly devoted to the idea of public art, Haring created murals wherever he went. From Matthew Burgess, the much-acclaimed author of *Enormous Smallness, comes Drawing on Walls: A Story of Keith Haring*. Often seen drawing in white chalk on the matte black paper of unused advertising space in the subway, Haring's iconic pop art and graffiti-like style transformed the New York City underground in the 1980s. A member of the LGBTQ community, Haring died tragically at the age of thirty-one from AIDS-related complications. Illustrated in paint by Josh Cochran, himself a specialist in bright, dense, conceptual drawings, this honest, celebratory book honors Haring's life and art, along with his very special connection with kids.—Provided by publisher.

While grappling with their identity and sexuality, often alone, they also faced academic meltdown, their parents' divorce, and the looming pressure of what might come after high school. Written in alternating chapters from both Tegan's and Sara's points of view, the book is a raw account of the drugs, alcohol, love, music, and friendship they explored in their formative years. A transcendent story of first loves and first songs, High School captures the tangle of discordant and parallel memories of two sisters who grew up in distinct ways even as they lived just down the hall from each other. An epic, heartfelt romance about a boy torn between two loves, one in his present ... and one in the past. A story of Black queer history, love, loss, and learning to stay in the moment before it passes you by.

Weeks ago, Andre Cobb received a much-needed liver transplant.

He's ready for his life to finally begin, until one night, when he passes out and wakes up somewhere totally unexpected... in 1969, where he connects with a magnetic boy named Michael.

And then, just as suddenly as he arrived, he slips back to present-day Boston, where the family of his donor is waiting to explain that his new liver came with a side effect—the ability to time travel. And they've tasked their youngest son, Blake, with teaching Andre how to use his unexpected new gift.

Andre splits his time bouncing between the past and future. Between Michael and Blake, Michael is everything Andre wishes he could be, and Blake, still reeling from the death of his brother, Andre's donor, keeps him at arm's length despite their obvious attraction to each other.

Torn between two boys, one in the past and one in the present, Andre has to figure out where he belongs—and more importantly who he wants to be—before the consequences of jumping in time catch up to him and change his future for good.

While grappling with their identity and sexuality, often alone, they also faced academic meltdown, their parents' divorce, and the looming pressure of what might come after high school. Written in alternating chapters from both Tegan's and Sara's points of view, the book is a raw account of the drugs, alcohol, love, music, and friendship they explored in their formative years. A transcendent story of first loves and first songs, High School captures the tangle of discordant and parallel memories of two sisters who grew up in distinct ways even as they lived just down the hall from each another. He sees a glimmer of hope after meeting the similarly out-of-place Romeo at a party and sharing a kiss with him. But Romeo has always identified as straight—and he hangs out with a group of guys who hurt Julian's friend Paris and harassed his cousin Ty. But Julian can't deny his attraction to Romeo, who is confused about his feelings and embarrassed by his past behaviour. As the two begin to fall in love, Julian finds strength he never knew he had, coming out from hiding behind his paintings and brokering peace between Romeo and Ty. But Romeo's old friends come after the couple, resulting in a vicious fight that puts both Julian and Romeo in the hospital. With the encouragement of Mrs. Duke, Paris's mother and Romeo's vice-principal, the two boys decide to take a stand for their right for respect. Just Julian provides insight into the struggle against homophobia, reminding LGBTQ readers that they are not alone. Loosely based on William Shakespeare's Romeo and Juliet.

Sixteen-year-old Starr Carter moves between two worlds: the poor neighbourhood where she lives and the fancy suburban prep school she attends. The uneasy balance between these worlds is shattered when Starr witnesses the fatal shooting of her childhood best friend Khalil at the hands of a police officer. Khalil was unarmed. Soon afterward, his death is a national headline. Some are calling him a thug, maybe even a drug dealer and a gangbanger. Protesters are taking to the streets in Khalil's name. Some cops and the local drug lord try to intimidate Starr and her family. What everyone wants to know is: what really went down that night?

Jeannette Walls, the former gossip columnist for MSNBC.com, chronicles her childhood, focusing primarily on the complicated relationships within her dysfunctional family. Raised by nomadic and idealist parents who eventually settled in a downtrodden West Virginia mining town, Jeannette's childhood was a rollercoaster ride. As her parents ran out of money, Jeannette and her siblings were forced to fend for themselves. Deeply hurt by her parents' betrayal, she became determined to be successful.

Twelve-year-old Shane Woods is just a regular boy. He loves pitching for his baseball team, working on his graphic novel, and hanging out with his best friend, Josh. But Shane is keeping something private, something that might make a difference to his friends and teammates, even Josh. And when a classmate threatens to reveal his secret, Shane's whole world comes crashing down. It will take a lot of courage for Shane to ignore the hate and show the world that he's still the same boy he was before. And in the end, those who stand beside him may surprise everyone, including Shane.

Eleven-year-old Rick Ramsey has generally gone along with everybody, just not making waves, even though he is increasingly uncomfortable with his father's jokes about girls, and his best friend's explicit talk about sex; but now in middle school he discovers the Rainbow Spectrum club, where kids of many genders and identities can express themselves—and maybe among them he can find new friends and discover his own identity, which may just be to opt out of sex altogether.

In 2011 - "Don't Ask, Don't Tell" is repealed; 2012 - Barack Obama becomes the first sitting US president to publicly support the freedom for LGBT couples to marry; 2013 - The US Supreme Court rules that legally married same-sex couples are entitled to federal benefits; 2015 - The Supreme Court rules that states cannot ban same-sex marriage; 2016 - Pentagon lifts the ban on transgender people serving openly in the US military. In-depth, yet accessible essays provide a summary of the event and discuss the event's significance and historical impact. Entries are supplemented with sources for further reading, cross-references to other material in the series, maps, quotations from primary source documents, timelines, and hundreds of photographs and illustrations. - Publisher.

An epic, heartfelt romance about a boy torn between two loves, one in his present ... and one in the past. A story of Black queer history, love, loss, and learning to stay in the moment before it passes you by.

Weeks ago, Andre Cobb received a much-needed liver transplant.

He's ready for his life to finally begin, until one night, when he passes out and wakes up somewhere totally unexpected... in 1969, where he connects with a magnetic boy named Michael.

And then, just as suddenly as he arrived, he slips back to present-day Boston, where the family of his donor is waiting to explain that his new liver came with a side effect—the ability to time travel. And they've tasked their youngest son, Blake, with teaching Andre how to use his unexpected new gift.

Andre splits his time bouncing between the past and future. Between Michael and Blake, Michael is everything Andre wishes he could be, and Blake, still reeling from the death of his brother, Andre's donor, keeps him at arm's length despite their obvious attraction to each other.

Torn between two boys, one in the past and one in the present, Andre has to figure out where he belongs—and more importantly who he wants to be—before the consequences of jumping in time catch up to him and change his future for good.

Series Title: Oxford world's classics

Summary Note

"I lay in the garden and read the Browning love letters, and the dog made me laugh so I couldn't resist making him a Life.' Through her career, Woolf invokes the animal world both directly and metaphorically. She started to write a biography of Elizabeth Barrett Browning's spaniel, finishing *The Waves*, tracing the life of the spaniel from his puppyhood spent with the writer Mary Mitford, through his shelter with Elizabeth Barrett in her sick room, and later travels in Florida. *Flush* is much more than a playful writer's holiday. As well as offering a life of the senses free from the tyranny of words, *Flush* carries allegorical testimony to the inscrutable, discarded, unrepresented Victorian women poets, who were barely discussed or read in the quite literally low point of view. Woolf explores class and gender.

Availability: 2 of 2 At Resource Services
Click here to view: [Companion Website](#)

Summary Note

Despite the achievements of the women's movement over the decades, misogyny remains a persistent force in North American culture. This documentary looks specifically at misogyny and sexism in mainstream American media, exploring how negative definitions of femininity and hateful attitudes toward women get constructed and perpetuated at the very heart of our popular culture. The film traces the destructive dynamics of misogyny across a broad and diverse range of media phenomena: including the hyper-sexualization of commercial products aimed at girls, the explosion of violence in video games aimed at boys, the near-hysterical sexist rants of hip-hop artists and talk radio shock jocks, and the harsh, patronizing caricatures of femininity and feminism that reverberate through the mainstream of American popular culture. Along the way, Generation M forces us to confront the dangerous real-life consequences of misogyny in all its forms - making a compelling case that when we devalue women, more than half the population based on gender, we harm boys and girls as women and girls. Features interviews with gender violence prevention educators Byron Hurt, Jackson Katz, and Jean Kilbourne.

It's something much more exciting—an idea! Finn shares it, and they do, at school, with their best friend Sima. She shares the idea. Then the more Finn thinks about it, the more the idea grows. By the end of the day the idea is huge and amazing. But not every kid shares about Finn's idea, and, in a heart-stopping moment, a bully knocks Finn to the ground. Devastated, Finn begins to doubt their idea, and the more he thinks about it, the smaller it becomes. Only when it has faded away to almost nothing do Finn and Sima suddenly realize that the idea is actually exactly the way it was. Confidence renewed, Finn shares the idea with the other kids, and they share their thoughts. And as the idea grows, even the bully has a change of heart, offering his own thought to the mix. As the story closes, the idea flows across the page, taking wing in rich, delicious colour. Share your idea.

James McNeill Whistler : uneasy pieces
By Curry, David Park
c2004., *Virginia Museum of Fine Arts in association with Quantuck Lane Press*
Call No: **759.13 WHI CUR**
Availability:1 of 1 At Location(s)

Summary Note

Product Description: James McNeill Whistler was one of the most misunderstood creative talents of his age. While devoted to the beautiful, he was among the first to recognize that popular commercialized leisure were complex, interrelated phenomena in urban life "modern." Whistler's showmanship had far greater impact than countless imitations of his *The White Girl* and *Portrait of the Painter's Mother* might suggest. His purposeful use of past art; his intermingling of public spaces; his ability to tailor his work to the realities of the marketplace; his understanding and exploitation of shifting economic and gender roles; and his clever use of fashion and decoration offer a richer understanding of "modernism" and a broader perspective on the art of the late nineteenth century.

By Taylor, Craig
2016., *Manchester University Press*
Call No: **944 JOA**
Availability:1 of 1 At Location(s)
Series Title: *Manchester medieval sources series*

Summary Note

This sourcebook collects together for the first time in English the documents relating to the life and contemporary reputation of Joan of Arc known as La Pucelle, she led a French army against the English during the Hundred Years War, turning the course of the war in favour of the French. The fact that she achieved all of this when just a seventeen-year-old girl highlights the magnitude of her achievements and also opens up new ways of looking at her story. For many, Joan represents the voice of the people in the fifteenth century; the victims of high politics and of a devastated France. Her story ended tragically in 1431 when she was put on trial for heresy and sorcery by an ecclesiastical court and was found guilty. This book shows how the trial, which was organised by the English, provides an important window into late medieval attitudes towards gender, as Joan was effectively persecuted by the established church.

The CSFS aimed its message at progressive Canadians to convince them that the USSR was an egalitarian and enlightened nation. Attempting to soften, define and redirect the antagonistic narrative of the CSFS story is one of propaganda and persuasion in Cold War Canada. The CSFS was linked to other groups on the Canadian political left, including the Communist Party of Canada, consistently led by Canadian communists. Using archival sources, this volume looks at the CSFS as a blend of social activism, where gender, class, and ethnicity linked communities.

"I lay in the garden and read the Browning love letters, and the dog made me laugh so I couldn't resist making him a Life.' Through her career, Woolf invokes the animal world both directly and metaphorically. She started to write a biography of Elizabeth Barrett Browning's spaniel, finishing *The Waves*, tracing the life of the spaniel from his puppyhood spent with the writer Mary Mitford, through his shelter with Elizabeth Barrett in her sick room, and later travels in Florida. *Flush* is much more than a playful writer's holiday. As well as offering a life of the senses free from the tyranny of words, *Flush* carries allegorical testimony to the inscrutable, discarded, unrepresented Victorian women poets, who were barely discussed or read in the quite literally low point of view. Woolf explores class and gender.

2008, *Senior, 54:0, Kinetic Inc*
Call No: **709250**
Availability: 2 of 2 At Resource Services
[Click here to view: Companion Website](#)

Summary Note

Despite the achievements of the women's movement over the decades, misogyny remains a persistent force in North American culture. This documentary looks specifically at misogyny and sexism in mainstream American media, exploring how negative definitions of femininity and hateful attitudes toward women get constructed and perpetuated at the very heart of our popular culture. The film traces the destructive dynamics of misogyny across a broad and diverse range of media phenomena: including the hyper-sexualization of commercial products aimed at girls, the explosion of violence in video games aimed at boys, the near-hysterical sexist rants of hip-hop artists and talk radio shock jocks, and the harsh, patronizing caricatures of femininity and feminism that reverberate through the mainstream of American popular culture. Along the way, Generation M forces us to confront the dangerous real-life consequences of misogyny in all its forms - making a compelling case that when we devalue women and girls, we harm boys and girls as well. Features interviews with gender violence prevention educators Byron Hurt, Jackson Katz, and Jean Kilbourne.

Finn is awakened in the night by something rustling around him. It isn't heavy like a worry, it doesn't swirl like a fear, and it certainly isn't like a question. It's something much more exciting—an idea! Finn shares it, and they do, at school, with their best friend Sima. She shares the idea. Then the more Finn thinks about it, the more the idea grows. By the end of the day the idea is huge and amazing. But not every kid shares about Finn's idea, and, in a heart-stopping moment, a bully knocks Finn to the ground. Devastated, Finn begins to doubt their idea, and the more he thinks about it, the smaller it becomes. Only when it has faded away to almost nothing do Finn and Sima suddenly realize that the idea is actually exactly the way it was. Confidence renewed, Finn shares the idea with the other kids, and they share their thoughts. And as the idea grows, even the bully has a change of heart, offering his own thought to the mix. As the story closes, the idea flows across the page, taking wing in rich, delicious colour. Share

His purposeful use of past art; his intermingling of art and public spaces; his ability to tailor his work to the realities of the marketplace; his understanding and exploitation of shifting economic and gender roles; and his clever use of fashion and decoration to create a richer understanding of "modernism" and a broader appreciation of the visual arts.

By Taylor, Craig
2016., *Manchester University Press*
Call No: **944 JOA**
Availability:1 of 1 At Location(s)
Series Title: *Manchester medieval sources series*

Summary Note

This sourcebook collects together for the first time in English the documents relating to the life and contemporary reputation of Joan of Arc known as La Pucelle, she led a French army against the English during the Hundred Years War, turning the course of the war in favour of the French. The fact that she achieved all of this when just a seventeen-year-old girl highlights the magnitude of her achievements and also opens up new ways of looking at her story. For many, Joan represents the voice of the people in the fifteenth century; the victims of high politics and of a devastated France. Her story ended tragically in 1431 when she was put on trial for heresy and sorcery by an ecclesiastical court and was found guilty. This book shows how the trial, which was organised by the English, provides an important window into late medieval attitudes towards gender, as Joan was effectively persecuted by the established church.

Book

Summary Note

After a long struggle on the part of federal government employees — and their women — to win back wages owing to them because of discriminatory practices, an assessment that was confirmed by the Human Rights Tribunal, the federal government of Canada filed a landmark legal case. It offered to compensate these employees but other sources say the amount could be as much as \$4 or \$5 million back 15 years, this is a historic case of what some say is deliberate discrimination and what others say is systemic bias. Still others disagree and call this legal event the erroneous outcome of bad legislation designed to assure pay equity. As a case study of the issues of equity in the labour force, this News in Review story is also a point of departure for examining Canadian history in terms of equity and gender bias.

The book traces the historical and contemporary mobilization of anti-Blackness spanning from slavery, 19th and segregation practices, and the application of early drug and prohibition through to the modern era. Maynard makes visible the ongoing demonized and devalued Blackness that is manifest today as racial police, immigration agents and social services, the over-representation of Black youth in jails and prisons, anti-Black immigration detention deportation practices, the over-representation of Black youth in school-to-prison pipeline and gross economic inequality. By Anderson, Jennifer, 1972-
c2017., University of Manitoba Press
Call No: **327.47071 AND**

Summary Note

During the early Cold War, thousands of Canadians attended meetings by the Canadian-Soviet Friendship Society (CSFS) and subscribed to its publications. The CSFS aimed its message at progressive Canadians to convince them that the USSR was an egalitarian and enlightened nation. Attempting to soften, define and redirect the antagonistic narrative of the CSFS story is one of propaganda and persuasion in Cold War Canada. The CSFS was linked to other groups on the Canadian political left, including the Communist Party of Canada, consistently led by Canadian communists. Using archival sources, this volume looks at the CSFS as a blend of social activism, where gender, class, and ethnicity linked communities.
