GEOLOGIC MAP OF THE PASO ROBLES QUADRANGLE

SAN LUIS OBISPO COUNTY, CALIFORNIA

BY THOMAS W. DIBBLEE, JR., 2004
EDITED BY JOHN A. MINCH

Dibblee Geology Center Map #DF-137: First Printing, June 2004
PUBLISHED BY AND AVAILABLE FROM THE
SANTA BARBARA MUSEUM OF NATURAL HISTORY
2559 PUESTA DEL SOL ROAD, SANTA BARBARA, CA 93105

©2004 Santa Barbara Museum of Natural History. Reproduction for individual, corporate or educational use is permitted. Reproduction for commercial sales is prohibited. Any form of electronic-digital scanning or transformation of this or any Dibblee Geology Center map into computer-readable and/or transmittable form requires special permission from and is subject to be charged by the Santa Barbara Museum of Natural History. An index map and prior list of published maps is available from the Santa Barbara Museum of Natural History, <http://www.sbnature.org/>.

IMPORTANT DISCLAIMER: The data depicted herein are based on reconnaissance geologic field mapping and data compilation by T. W. Dibblee, Jr., with strong emphasis on basic bedrock geology. No warranty as to actual conditions is expressed or implied. Site-specific conditions should be verified by the user by detailed surface mapping and/or subsurface exploration. Topographic and cultural changes associated with recent development may not be shown. Some landslides and other geologic hazards may not be shown and are available from other published sources. References cited are not intended to represent a complete bibliography on the geology of this area. This map does not show Active/Probable Earthquake Fault Zones and/or Seismic Hazard Zones, if any exist in this area, which California law requires be disclosed and used to regulate development. For more information about these topics, please visit the California Geological Survey website at <<http://www.consrv.ca.gov/dgs/>>.
