

BATTLE MAP TERRAIN EFFECTS

TYPE: SYMBOL: COAST: COMMENTS:

Mountains		Impassable	No archery attacks over Mountains.
Hills		5 MPs	Excellent defense.
Forests		4 MPs	Good defense. Difficult to extinguish Fireballs.
Plains		3 MPs	Average defense.
Castles		4 MPs	Superior Defense.
River		8 MPs 4 MPs for Steersmen	Ship necessary. Must stop Movement when entering from non-River hexes. No defensive benefit. Fireballs extinguish almost automatically.
Lake		8 MPs 4 MPs for Steersman	Ship necessary. No defensive benefit. Fireballs extinguish almost automatically.
Marsh		5 MPs	Poor defense. Fireballs extinguish fairly easily.
Ice		4 MPs	Average defense. Fireballs extinguish easily.

BANDIT KINGS OF ANCIENT CHINA™

REFERENCE CARD

STARTING FROM FLOPPY DISK

- (1) Boot your machine using a DOS disk (version 2.0 or above).
- (2) When the "A: >" prompt appears, remove the DOS disk and insert Game Disk A into drive A, and Game Disk B into drive B.

(3) Type "KOEI" and press .

Note that 5.25" users can skip the opening sequence and go straight to the Main Menu by inserting Game Disk C, rather than Game Disk B, into drive B.

HARD DISK INSTALLATION

You can copy the game files onto a hard disk drive. The files are standard DOS files, and can be modified as desired. The sub-directory named "BANDIT" will be copied to your root directory. If you wish to copy the "BANDIT" sub-directory under a sub-directory other than the root directory, first create that sub-directory using the command

MKDIR XXX

with "XXX" representing the name of your new sub-directory. Next, access this directory by entering the command

CD XXX

with "XXX" again being the name of your sub-directory. Then, log on to drive A with the command

A:

and press . Users who wish to copy the "BANDIT" sub-directory to their root directory can go directly to installation.

To install, insert Game Disk B into drive A, and type

INSTALL X

then press . "X" represents the letter of the hard drive you wish to install to. For example, if your hard drive's letter designation is "C", you would type

INSTALL C

then press . Do not forget to leave a space between "INSTALL" and "X". Follow the prompts, and insert the other game disks into drive A and press . 5.25" users will insert Game Disk C next, followed by Game Disk A. 3.5" users will insert Game Disk A next. This program assumes you are installing from floppy drive A, although any floppy drive will do. The program will copy all game

files, including the "KOEI.COM" file used to boot the game, to your hard disk drive.

You can load your game either by accessing the "BANDIT" sub-directory directly with the command

CD XXX

with "XXX" being the name of the sub-directory that contains the "BANDIT" sub-directory. Then, enter

CD BANDIT

Note that if you have not created a new sub-directory to hold the "BANDIT" sub-directory, you need only type

CD BANDIT

Once in the "BANDIT" sub-directory, type "KOEI" and press . When playing from a hard drive, your game data will be saved under the "BANDIT" sub-directory.

If you wish to make a batch file to facilitate booting the game, you may wish to follow the example below. Be sure that you are logged on hard drive's root directory. At the prompt, type

COPY CON XXXX.BAT

and hit . "XXXX" is the name of your batch file. Then, type

ECHO OFF

CD XXX (only if you've chosen to create a new sub-directory)

CD BANDIT

KOEI.COM

CD

ECHO ON

and press Control-Z and then to close the file. For more details on creating batch files, please refer to your DOS manual.

EFFECT OF COMMANDS ON PREFECTURE ATTRIBUTES
