**FROM SIERRA, MAKERS OF THE BESTSELLING
KING'S QUEST ADVENTURE SERIES, AND THE WALT
DISNEY PERSONAL COMPUTER SOFTWARE STAFF**

FEATURING:

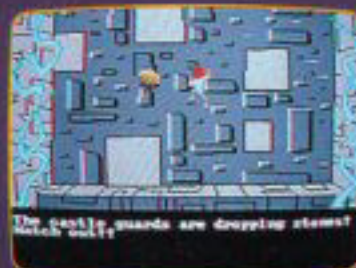

- Over 1,020 cells of animation, including 30 animated characters that walk, talk, run, climb, even swim!
- Seventy three-dimensional screens more detailed than any seen before, in up to 16 colors -- watch as animated characters pass in front of trees, behind rocks, and around other characters!
- Six built-in arcade sequences and mazes, including a moat teeming with hungry alligators, a slippery castle wall with guards tossing boulders down, and teetery rocks that form a path across a treacherous swamp.
- Over 30 different items to obtain and use, including a "truthful" harp, a handful of fairy dust, and a magic sword.
- Eight different musical tunes, in different areas of the game, all from the musical score of *The Black Cauldron* movie. Plus up to 17 additional sound effects.
- Multiple solutions and variable scoring -- follow the movie's storyline, or use your imagination to maximize your score; play again and again, each time discovering new twists!

You back in the beauty of the falling water, and enjoy its refreshing sound.

You didn't realize that this castle was so close. You have never noticed it before.

The castle guards are dropping stones! Watch out!
