

PC VERSION

Hard Disk Installation

To install the game onto a hard drive, put the disk (*disk 1, if your version has several*) into the floppy drive and change to that drive. Now type **INSTALL <RETURN>**. The game will install itself onto drive **C**, in directory **CAESAR**. If you would like the game to go somewhere else, type the relevant pathname after 'Install' - eg type **INSTALL C:\GAMES\CAESAR** to choose that directory.

Playing from Hard Disk

Having installed the game, change to the drive and directory into which you installed the game. Then type **CAESAR <ENTER>**.

Playing from Floppy Disks

Put disk 1 into the floppy drive, and change to that drive. Now type **CAESAR <ENTER>**. From time to time you may be prompted to swap disks.

Sound and Music

If you have an **Adlib** compatible sound card, music will play during the game. If you have a **Sound blaster** compatible card, you will also hear sampled sound effects. At the start of the game, you are asked to select which sound card, if any, you have.

Keyboard Use

If you do not have a mouse, you can simulate the use of a mouse with your keyboard. The cursor keys will move the mouse pointer around the screen. **ENTER** will act as a left mouse click, and **SPACE BAR** as a right click

AMIGA VERSION

Installation and Loading

Turn the machine on and insert the game disk. To play from floppy disk, type **PLAY CAESAR <RETURN>**. To install to hard drive **DH0** type **EXECUTE DF0:CAESARHD DH0 <RETURN>**. To choose another hard drive replace **DH0** with **DH1**, **DH2** etc. To play the game from hard drive, change to the **CAESAR** directory of the correct hard drive and select the **CAESAR** icon as normal.

ST Loading

Insert the floppy disk into drive **A**. The game will then load automatically.
