EMPLOYMENT OPPORTUNITIES

LAB ASSISTANT

Are you the most creative person you know? Can you react quickly to new challenges? Would you like to save the universe from certain destruction? Do you need a job? I need an assistant who can help me explore the inner workings of time, space and reality. The successful candidate will have a thirst for knowledge, a sense of humor, and a love of pizza.

Apply in person at the Castle of Dr. Brain. EOE

Actual Screen Shot

- * Remember to observe applicant as he or she:
- Builds and programs robots
 - Experiments with time
 - Deciphers secret codes
 - Breaks into safe
 - Reacts to bad puns
 - Solves riddles
 - Maps the galaxy

SPECIAL NOTE TO PARENTS

This game allows your children to experiment with time, astronomy, robotics, codes and ciphers, logic, and math. We hope this introduction will motivate them to study and explore the fascinating world of scientific principles.

Corey Cole, co-designer of the award-winning Quest for Glory series, brings you hours of entertainment in this wild roller-coaster ride for your mind.
