

A stylized, abstract illustration of a lion's head in gold lines on a dark blue background. The lion's face is composed of simple, flowing lines that define its features, including its eyes, nose, and mouth. The mane is represented by numerous long, curved, and overlapping lines that radiate from the head, creating a sense of movement and texture. The overall style is graphic and modern.

CHESS CHAMPION

Power • Strength • Intuition • Flexibility

Chess Champion 2175 is the most powerful and versatile chess program yet, with the most advanced graphics, highly intuitive user interface and widest range of features, many of which have never before been implemented on a personal computer. This is what magazine reviews said about its predecessor, Chess Player 2150, the winner of the 1989 British Open Microcomputer Chess Championship.

- "Chess Player's strength cannot be disputed ... good variety of openings ... exceptionally good middlegame play, the program is able to calculate much deeper than its rivals ... endgame play is even more impressive." Atari ST User' GRADE A.
- "The best Amiga Chess program, thrashes all opposition" 'Amiga Computing' SUPREME GONG.
- "The program is effectively the microcomputer chess world champion" TILT magazine 'HITS'.

Playing Options

- Infinite play levels in any of four separate modes.
- Select levels by time per move.
- Choose a different level during play.
- Special 'easy' levels for beginners.
- World's strongest chess play (and weakest for beginners!).
- Take back and replay move.
- Change sides anytime.
- See how Chess Champion would play your move.
- Save/Load/Print games.
- Replay entire game.
- Chess Champion will predict your next move and then use your time to think.
- Challenge another human player as Chess Champion referees the game.
- Watch and learn as Chess Champion plays against itself.

Opening Library

- Massive 300,000 byte library of opening moves.
- Choose opening line by strength, popularity or randomness.
- Force particular opening line to be played.
- Select named Classical or Modern opening line.
- Chess Champion recognises and announces openings by name.
- Learns as it plays by adding strong opening moves to its library.
- Extend openings' library by adding your own openings.

Easy To Use

- Menu driven with intuitive hot-keys.
- Simple move entry by mouse or keyboard.
- Unique intuitive move entry by single mouse click as Chess Champion predicts your next move.
- Stunning, easily recognisable 2D and 3D piece sets.
- View the board from any direction.
- Rotate the board through any angle.
- Preferences file to save your selected options.

Technical Features

Special information screen packed with:

- Chess clocks
- Move list
- Best line of play
- Score
- Current move
- Playing time for each move
- Powerful "What If?" feature allows you to investigate Chess Champion's thought process.
- Set drawn game desirability to give a playing style ranging from speculative to safe.
- Alter and set up any position.
- Solve Chess Champion's test positions and thus rate your play on the international ELO scale.
- State-of-the-art transposition table gives computers with 1 Megabyte or more of memory even greater strength.
- Consistently beats all other chess programs.
