HARD DISK INSTALLATION

AMIGA:

Create a directory called **FONTS** if one does not already exist.

Copy **FONTS** for game by typing
COPY DFO:FONTS ALL TO FONTS.

Create a directory on your hard disk called **EXPLORAII.**

For each of the 4 disks:
Using the CLI type **copy dfo: all to EXPLORAII**

This will copy all the files onto your hard disk.

To play the game:
Using CLI type **CD EXPLORAII** return
then **EXECUTE BOOT** return.

PC:

Create a directory **EXPLORA.II**

Copy all the files from all the disks into this directory then use from hard disk in the normal way.
