EBONSTAR™

THERE CAN ONLY BE ONE TRUE EBONSTAR CHAMPION, COULD IT BE YOU?

It is the year 3000 AD, and the confrontations of a new frontier in space no longer exist. Mankind has conquered the stars. With disease, war and poverty eliminated, man's desire for ever higher challenges demanded the swift intensity of EbonStar. Now, every galactic cycle, thousands of spectators and thrill-seekers gather to the EbonStar sector of the galaxy to be gratified as sportsmen compete for victorious glory or ultimate demise. The crowd watches as contenders spar, dodging the satellite of devastation and their opponents' efforts to send them reeling and screaming into the fathomless depths of

the warp, a synthetic black hole. As the test of supreme agility and skill reaches it's apex, armed termination drones emerge from the warp to seek and destroy the remaining competitors. Pandemonium breaks among the spectators as the last opponent is hurled into the warp, and a new EbonStar champion emerges.

EbonStar is a fast action arcade style game that in the MicroIllusion tradition is exceptionally unique and challenging. EbonStar features exciting and realistic graphics, dramatic sound effects, multiple player option to four at a time and interaction between humans as well as machine. EbonStar, a true game of skill and strategy.

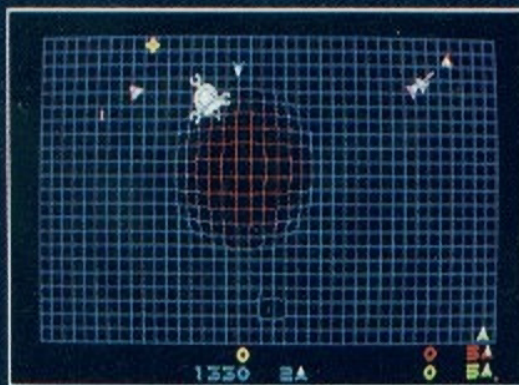

Sparing around the warp

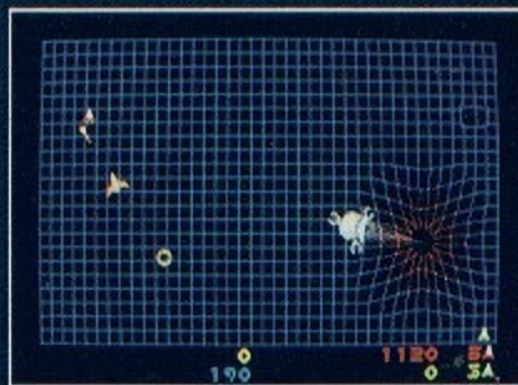

Ultimate demise into the warp's fathomless depths

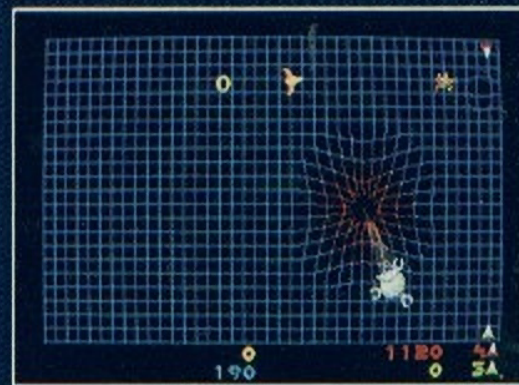

EbonStar moves to a new level

The warp begins to explode as opponent is shot down

Armed termination drone seeks to destroy contestant

A fireball ignites hastening the satellite of devastation's demise
