FUTURE WARS™

TIME TRAVELLERS

Screen shots are only intended to be illustrative of the gameplay and not the screen graphics which may vary considerably between different formats in quality and appearance and are subject to the computers specification.

In the 43rd century, Earth is under attack from an alien race. The planet is well protected by a formidable SDI defence system which the aliens cannot penetrate...until they hit on a plan...sabotage the defences BEFORE they are built by travelling back in time to plant delayed action bombs at strategic places!

Your adventure starts in the present day, when innocently attempting to avoid your boss at work, you stumble across a secret passage that transports you back in time to the start of a quest that takes you into the Middle Ages, Prehistoric Times, and the distant future.

- Future Wars uses the CINEMATIQUE™ operating system, designed by Delphine's Paul Cuisset.
- User friendly interface - point 'n' click.
- Intriguing plots with compulsive problem solving.
- Fantastic graphics, animation and sound.

"Future Wars combines moving characters with pop-up menus to give one of the most user-friendly player interfaces you could wish for. The whole thing looks and feels very slick...Check it out it's well worth it!" **AMIGA POWER.**

 Im 43. Jahrhundert wird die Erde von einer außerirdischen Kultur angegriffen. Der Planet ist durch ein ausgezeichnetes strategisches Verteidigungssystem geschützt, das die Außerirdischen nicht durchdringen können... bis sie einen Plan entwickeln: das Verteidigungssystem zu sabotieren, BEVOR es überhaupt gebaut werden kann. Sie würden eine Zeitreise in die Vergangenheit unternehmen, und Bomben an strategisch wichtigen Orten legen!

Dein Abenteuer beginnt in der Gegenwart, als Du ganz unschuldig versuchst, Deinem Boss aus dem Weg zu gehen, und dabei einen Geheimgang entdeckst, der Dich in die Vergangenheit versetzt. Dies ist der Beginn einer Mission, die Dich ins Mittelalter, in prähistorische Zeiten und die weit entfernte Zukunft führt.

 Nel 43° secolo la Terra è attaccata da una razza aliena. Il pianeta è ben protetto da un sistema formidabile di difesa strategica che gli alieni non possono penetrare... fino a quando non ne scopriranno il modo... distruggi le loro difese PRIMA che vengano costruite, tornando indietro in tempo per piazzare delle bombe a scoppio ritardato nei punti strategici.

E' proprio oggi che inizia la tua avventura; tentando innocentemente di evitare il tuo boss a lavoro ti ritrovi in un passaggio segreto che ti trasporta indietro nel tempo all'inizio di una ricerca che ti porterà nel Medioevo, nella Preistoria e nel lontano futuro.
