JETSTRIKE

JETSTRIKE - THE ONLY FLIGHT GAME THAT REALLY HITS HOME

RASPUTIN

JETSTRIKE

The last you heard from 009 was just after he had infiltrated a meeting of SPUDD (Society of Particularly Undesirable Dastardly Dudes: a secret organisation made up of arms dealers, mad dictators, psychopaths and traffic wardens). The coded message he sent simply said: "SPUDD planning to take over the entire world. Lets do lunch. Cheers, 009."

Unfortunately, when you arrived at Chez Bond for lunch and secret agent's meeting you found 009 slumped over the menu with a knife in his back. To cap it all, the steak was under-cooked.

So fasten your seatbelts and get ready to play JETSTRIKE - the amazing flight game from Rasputin Software. This is the number one action game for anyone who has ever played a flight sim, anyone who enjoys a meaty action game, anyone who enjoys a challenge and anyone who likes planes.

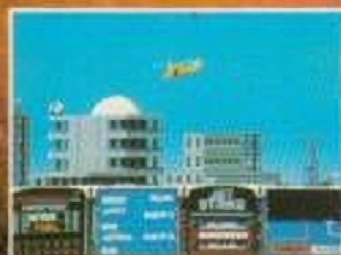

There are ONE HUNDRED linked combat missions. There's even a two player aerolympics option where you fly against the clock (or against a friend!). In addition, you can choose from no less than 40 different aircraft, each with a full capability description and have a choice of 40 different weapons systems. The question is, can YOU survive the challenge, defeat the forces of SPUDD and save the world? The joystick's in your hands.

Choose from 40 different weapons systems and obliterate the forces of SPUDD.

There are over 40 aircraft to choose from, each with an amazing amount of detail.

Seek out and destroy the forces of SPUDD before they seek out and destroy YOU. It's man and machine in perfect harmony.

Complete 20 carefully selected Training and Practise missions and you are in line to receive your pilot's badge.

You can fly everything from a Wessex helicopter to an F-14 Tomcat and even take the controls of a Gee Bee Z Air Racer - THE classic air racer.

JETSTRIKE - THE ONLY FLIGHT GAME THAT REALLY HITS HOME
