

The cover art for Jupiter's Masterdrive features a futuristic, metallic, three-wheeled vehicle with a driver wearing a red helmet and racing suit. The vehicle is shown from a low angle, kicking up dust on a rocky, desert-like planet surface. In the background, a large, ringed planet resembling Saturn dominates the sky, with bright, glowing streaks of light or energy arcs around it. The title 'JUPITER'S MASTERDRIVE' is prominently displayed in a metallic, oval frame at the top left.
