 Tales whispered in the saloons of the Old West told of a fortune in gold just waiting to be rediscovered. It was said an old prospector had found the motherload back in '42, where veins of gold seemed to light the Earth. He died before he could file a claim, but rumours surfaced that he had drawn a map to what is now called the 'Lost Dutchman Mine'. Many have searched and all have failed, but your journey has just begun...

 Geschichten, die in den Saloons des Alten Westens heimlich umgingen, erzählten von einem Vermögen in Gold, das nur darauf wartete gefunden zu werden. Es hieß, ein alter Goldsucher fand die Hauptader 1942, als Goldadern ueberall nur so aus der Erde sprangen. Er starb bevor er irgendwelche oeffentlichen Ansprueche stellen konnte, aber Geruechte kamen auf, dass er eine Karte von dem Gebiet gezeichnet hatte, dem Gebiet, das nun unter dem Namen der "Miene des verlorenen Hollaenders" laeuft. Viele suchten nach dieser Miene, alle versagten, aber deine Reise hat gerade erst begonnen...

 Storie narrate nei Saloons del Vecchio West raccontavano di una fortuna in oro che aspettava soltanto di essere riscoperta. Si diceva che un vecchio cercatore avesse trovato il giacimento nel lontano '42, laddove vene d'oro sembravano illuminare il terreno .

Egli morì prima di aver potuto presentare una domanda di concessione, ma ancora oggi circola la voce che avesse disegnato una mappa di quella che oggi è conosciuta come, la Miniera Olandese Perduta.

Molti l'hanno cercata e tutti hanno fallito , ma il tuo viaggio non fa che cominciare...
