## PLATINUM EDITION

Trouble is afoot in the once peaceful land of Turnvale....Skorl Warriors (vicious mercenaries under the control of the mysterious Temptress) have arrived. But who is this Temptress? And equally as important, WHERE is she?

You play Diernot, who at the start of the game finds himself imprisoned in a depressing cell. Meanwhile life in the village of Turnvale goes on as ever, it's just a normal day.....well, as normal as you could hope for considering the Skorl are in town. They're big, ugly, and not particularly pleasant! Will they overpower Diernot or can he escape from his cell and bring peace back to the land? It depends on you....

\* Massive play area - the entire village, including a cave system and a castle.

\* More characters than you could shake the cast list of War and Peace at.

\* Converse with other characters to glean and impart information.

You can even issue complex orders to friends - off they'll go, to do your bidding....or not, as the case may be!

\* A myriad of exciting features, all rendered within Virtual Theatre - the brilliant adventure system which echoes reality to the ultimate degree.

Rien ne va plus dans le monde autrefois paisible de Turnvale... Les guerriers Skorl (mercenaires vicieux sous le contrôle de la mystérieuse Temptress) sont arrivés. Mais qui est Temptress, la Tentatrice? Et, question tout aussi importante, OÙ se trouve-t-elle? Vous jouez le rôle de Diernot, enfermé au début du jeu dans une cellule déprimante. Pendant ce temps, la vie, dans le village de Turnvale, se déroule comme à l'accoutumée, c'est un jour comme les autres... enfin, presque comme les autres, car les Skorl ont pénétré dans le village. Ils sont grands, méchants, et pas particulièrement aimables! S'avèreront-ils trop forts pour Diernot, ou sera-t-il capable de s'échapper de sa cellule pour ramener la paix dans le pays? Tout dépend de vous...

Guai sono alle porte nel paese, un tempo tranquillo, di Turnvale....sono arrivati i Skorl Warriors (spietati mercenari al comando della misteriosa Temptress). Ma chi è questa Temptress? E, cosa ugualmente importante, DOVE si trova? Sarai Diernot che all'inizio del gioco si trova imprigionato in una cella deprimente. Nel frattempo la vita nel paese di Turnvale continua come sempre, è un giorno normale .... beh, il più normale possibile considerando la presenza degli Skorl. Sono grandi, brutti e non particolarmente piacevoli! Vinceranno Diernot o riuscirà egli a scappare dalla sua cella e riportare la pace al paese? Dipende da te...
