# MANCHESTER UNITED

## the DOUBLE

After playing a total of sixty-two games, which produced forty-one victories, Manchester United scored 125 goals and became only the fourth English side to win both the FA Cup and the Premier League; the elusive double.

This remarkable achievement is celebrated by "Manchester United - The Double", a 3-D isometric football simulation which combines the wheeling and dealing of the transfer market with arcade action and covers all aspects of our national sport. A player, team and kit editor is also included so that you can always keep your game right up-to-date. You can even invent your own teams and leagues.

This isn't soccer, this is **football**.

Choose to control any Premier League, Endleigh League or GM Conference club. Also includes 50 non-league teams • Selectable Home, Away or Third strip • Kit editor/designer • Over 2500 players with accurate names, skills, skintones and hair colour • Each player has 10 variable skill abilities • Player name and skill editor • Transfer market • All 5 divisional League Tables updated after every match • Yellow and Red cards, sendings off and suspensions • Variable injuries • Tact-Grid™. An advanced form of tactical control allowing individual player instructions • Latest FA rules including pass back, substitute goalkeepers and Premier squad numbering • A variety of kicks and shots including headers, diving headers, passes, volleys and deflections • Varying weather and pitch conditions • A host of statistics screens including all league tables, cup draws, fixture list, team performance, top scorers, injury type and duration, discipline and manager's history • FA and League Cups • Custom League and Cups • Slow motion replays • 1 to 4 players.
