

# the DOUBLE

After playing a total of sixty-two games, which produced forty-one victories, Manchester United scored 125 goals and became only the fourth English side to win both the FA Cup and the Premier League; the elusive double.

This remarkable achievement is celebrated by "Manchester United - The Double", a 3-D isometric football simulation which combines the wheeling and dealing of the transfer market with arcade action and covers all aspects of our national sport. A player, team and kit editor is also included so that you can always keep your game right up-to-date. You can even invent your own teams and leagues.

This isn't soccer, this is football.
