Bring the challenge of the greens to your screen.

# MICROPROSE GOLF

- Realistic 3-D landscape allows you free movement around the whole course.
- Animated "Televisual" presentation and camera positions, including a unique follow-the-ball option.
- Six challenging courses, each in a different style, including 'links', 'woodland' and 'water' courses.
- Options to change stance, swing, tee and ball positions and see their effects on your shots before, during and after each stroke.
- Varying ground and atmospheric conditions.
- Player profiles which change over time, including a full handicap system.
- A dozen game types including strokeplay, matchplay, best ball, skins and a full tournament option for 1 to 4 human players.
- Customizable computer opponents and replay facilities.
- Statistical and graphical hole-by-hole analysis of your performance.
- Easy to learn tutorial and 112 page manual packed with hints and tips to help your own game.

ST screen shots shown. Actual shots may vary. Made in the UK.

Computer owners who like golf have been fortunate to have a wide range of games to choose from. Now, with MicroProse Golf, you've also got the definitive simulation.

MicroProse Golf accurately recreates the fairways and greens of each hole using stunning 3-dimensional technology which allows you to travel anywhere around the course. You can even follow the ball as it flies through the air and watch from numerous selectable TV viewing positions.

Accurately modelled club and ball dynamics take account of club selection, ball and foot position and swing, with varying course conditions adding to the huge range of effects that you can witness at first hand. MicroProse Golf is so true to life that it will actually improve your own golf game!
