

MICROPROSE FORMULA ONE

# **GRAND PRIX**

## **Amiga 500 Plus Loading Difficulties**

A minority of users may encounter problems in loading Formula One Grand Prix, due to incompatibility with certain disk drives.

The problem may occur after running the intro sequence on Disk 1. You will not be able to load Disk 2 as instructed.

***Do not worry! The simulation can be loaded by booting from Disk 2. Simply turn off your computer, insert Disk 2, and switch on.***
