ATARI ST

ATARI ST

ATARI ST

- *The Superbike Racing Simulator for AMIGA and ATARI ST.*
- *Incredibly Fast Polygon Graphics by Christian Jungen.*
- *20 International Racetracks, all the data you need at your fingertips, plus realistic 3-D track-side objects.*
- *6 totally different racers, each with their own individual abilities and unique racing bikes.*
- *Training modes: alone on one of the tracks, one-on-one with a chosen rider, or you against all the other riders.*
- *A 20 Race Season against five other competitors, with a unique prize for the winner.*
- *Beware of the chicanes and amateur riders who obstruct you on your lightning fast laps.*
- *Use the Mouse-Controlled Progressive Steering Mechanism to control your machine with unrivalled precision.*
- *So that you can relive the exciting moments of the race, it's covered by 4 cameras, one of which is mounted on a Helicopter and constantly monitors the leader.*
- **NO SECOND PRIZE** – *The ultimate challenge for all fans of Winning, Motorbikes and Racing.*
