OVERLORD

D-DAY

The Allies' daring push against the Nazi invasion, the largest manned landing in history, a day for liberty, a day for freedom.

Yet **D-DAY** would never have happened had Germany's air, land and sea-power not been diminished.

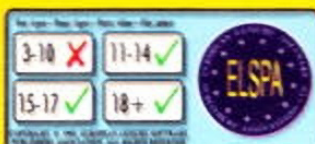

It is your job to succeed in destroying the German forces occupying Northern France, in Operation **OVERLORD**, the air campaign leading up to D-Day.

Overlord gives you the opportunity to fly the Typhoon Ib, the Mustang III or the Spitfire IX.

The game features the revolutionary **INSIDE COMBAT LOCK** system, the cinematic **VIEW MATRIX** and the most realistic graphical portrayal of aircraft and gameworld, in any historical flight simulation to date.
