

# Command Summary Card

for

## PGA TOUR<sup>®</sup> Golf

To play PGA TOUR Golf, you need an Amiga with at least one floppy drive and 512K of memory.

*If you are using the minimum memory configuration (512K), you'll need to disconnect your external disk drive when you play PGA TOUR Golf. With 512K of memory, you'll get fewer sounds and less music. You need 1MB of memory to get full music and sound.*

### Floppy Disk Users

Before you begin play, **MAKE COPIES OF YOUR PGA TOUR Golf game disks.** You'll need two blank, initialized floppy disks.

If you are installing PGA TOUR Golf on your hard disk, see **Hard Drive Users**, below.

### Copying Your Disks

**To copy your PGA TOUR Golf disks:**

---

1. Turn on your computer.  
Amiga 1000 owners, insert Kickstart (1.2 or 1.3).
2. Insert Workbench into DF0:.
3. If you have a single drive system, remove Workbench and insert the PGA TOUR Golf Program disk. If you have two drives, simply insert the PGA TOUR Program disk into the other drive.
4. Place the mouse pointer on the PGA TOUR Golf icon and click to highlight it.
5. Pull down the Workbench menu from the menu bar. Drag the highlighted bar down to Duplicate and release.

6. Follow the on-screen instructions.  
You'll need to swap disks from time to time. Once the disk is copied, you must rename it.
7. Place the mouse pointer on the copy of the PGA TOUR Golf icon and click to highlight it.
8. Pull down the Workbench menu from the menu bar. Drag the highlighted bar down to Rename and release.
9. Use the delete key to erase "Copy of" from the Rename box, so the disk is called **PGA TOUR Program**. Press return when you have finished.
10. Repeat steps 3–9, substituting the PGA TOUR Golf Courses disk for the PGA TOUR Golf Program disk. Name your copy of the Courses disk, PGA TOUR Courses.

When the copy is complete, remove the Courses disk from the drive and store both original disks in a safe place, away from heat, moisture, magnets, sand bunkers, and water hazards.

## Starting the Game—Floppy Users

### To play PGA TOUR Golf :

---

1. Turn on your computer.  
Amiga 1000 owners, insert Kickstart (1.2 or 1.3).
2. At the Workbench prompt, insert your *copy* of PGA TOUR Golf Program disk into DF0: .  
**DO NOT WRITE PROTECT YOUR COPY OF THE PROGRAM DISK. SAVED PLAYERS AND SAVED GAMES WILL BE STORED ON THIS DISK.**
3. The game will load automatically. The game's splash and credits screens appear one after the other.  
If you want to rush through these screens and begin the game, press the spacebar or click either mouse button.

### *Answer a Question, Please.*

Following the splash and credits screens, a grid with yardage markers appears. To get to the Pro Shop so you can begin to play PGA TOUR Golf, you need to answer one quick question. You do that by selecting the correct yardage for the hole listed at the bottom of the screen.

1. Turn to the middle of the manual (pages 28-29). You'll find scorecards with yardage markers for three Tournament Players Club (TPC) courses. Note the number that corresponds to the course, hole, and tees (TPC, Blue, White, or Red) listed at the bottom of your screen.
2. You need to highlight the matching number on the grid so you can move on to the Pro Shop.

Move the cursor arrow to the appropriate number. The number under the cursor arrow is automatically highlighted. Click the number to select it.

In a moment you'll be at the Pro Shop. From there you can go out to practice your strokes or begin a tournament round.

## Hard Disk Users

### Installing the Game

#### To install PGA TOUR Golf on your hard disk:

1. Boot your computer as you normally would.
2. At the Workbench, insert PGA TOUR Golf Program disk into any disk drive.
3. Double-click on the PGA TOUR Golf Program disk icon to open it.

A disk window appears on the desktop.

4. Double-click on the HDInstall icon.

You're asked whether you want to install the game at this time.

5. Type **Y** and press Return to install the game.

You're asked which hard disk partition and drawer you want to install the game in.

6. Type the names of the hard disk partition and drawers you want to keep the game in.

For example, say you had a drawer called "Games" in a hard drive partition called "Fast". If you wanted to create a drawer called "PGA TOUR Golf " in Games, you'd type exactly, including quotes, "**Fast:Games/PGA TOUR Golf**".

Once the install program has copied the files from the PGA TOUR Golf Program disk onto your hard drive, you'll be prompted to insert the PGA TOUR Golf Course disk.

7. Insert the PGA TOUR Golf Course disk in any disk drive.

When the installation is complete, remove the disk from the drive and store the originals in a safe place, away from heat, moisture, magnets, sand bunkers, and water hazards.

Saved players and saved games will automatically be stored in the drawer that was created in item 6, above.

## Starting the Game—Hard Disk Users

### To play PGA TOUR Golf:

1. Double-click on the drawer you installed PGA TOUR Golf in.
2. Double click on the PGA TOUR Golf game icon. The game's splash and credits screens appear one after the other.

If you want to rush through these screens and begin the game, press the spacebar or click either mouse button.

### *Answer a Question, Please.*

Following the splash and credits screens, a grid with yardage markers appears. A grid with yardage markers has appeared on the screen. To get to the Pro Shop

so you can begin to play PGA TOUR Golf, you need to answer one quick question. You do that by selecting the correct yardage for the hole listed at the bottom of the screen.

1. Turn to the middle of the manual (pages 28-29). You'll find scorecards with yardage markers for three Tournament Players Club [TPC] courses. Note the number that corresponds to the course, hole, and tees (TPC, Blue, White, or Red) listed at the bottom of your screen.
2. You need to highlight the matching number on the grid so you can move on to the Pro Shop.

Move the cursor arrow to the appropriate number. The number under the cursor arrow is automatically highlighted. Click the number to select it.

In a moment you'll be at the Pro Shop. From there you can go out to practice your strokes or begin a tournament round.

## Key Commands for Menu Options

Almost every menu option in PGA TOUR Golf has a key assigned to it — pressing that key automatically selects that option. To select a menu option with the keyboard, press the first letter of the option. For example, press **P** to select Practice from the Play Menu. If two or more options share the same initial letter, select the option as you normally would using the arrow cursor.

## **AMIGA differences in the FUNDAMENTALS (pages. 10-11) of PGA TOUR Golf**

### **1. Making Selections with the mouse.**

Access a menu and select options from a menu by clicking the **RIGHT** mouse button.

### **2. Dialog Boxes**

The highlight follows the cursor in the Amiga version. Click the highlighted entry to select it.

### **3. No Joystick Control**

The Amiga version has no Joystick control.
