# THE STELLAR PATROL WANTS YOU!

Steve Meretzky's *Planetfall* has long been a favorite of interactive fiction fans. And Floyd, your playful robot companion in the game, easily takes the prize for best-loved Infocom character.

*Planetfall* teleports you 12,000 years into an outrageous future. You joined the Stellar Patrol to explore the galaxy, but all you've seen is the end of a mop—until your ship explodes, and you're jettisoned onto a mysterious, deserted planet. Luckily, you have Floyd, a lovable multi-purpose robot with the personality of a mischievous 8-year-old. He's the ideal companion with whom to brave your new world, as you dare its dangers and uncover its secrets.

**ENTER THE WORLD OF THE  
MASTER STORYTELLERS.**  
Interactive fiction software from Infocom is unlike anything you've ever experienced. It's a whole new

dimension in storytelling.

Think of your favorite story. Now think of the main character in that story. And imagine that YOU have become that character. You are standing in his shoes, in his world. You have people to meet, places to visit, and challenges to face. It's all just as vivid as anything you've ever experienced in real life. The decisions are yours... and so are the consequences.

In interactive fiction, you communicate with the story through conversational English sentences typed into your computer. The plot unfolds as you decide what to do next, drawing you into a world so involving that it taps your adrenaline as much as your intellect. With hundreds of alternatives at each step, your adventure can last for weeks and even months.

Journey to a place limited only by your imagination—the world of Infocom's interactive fiction.
