Fame or oblivion? It's down to you!

The key to success lies with both player and financial management. You should ensure that those vital ground improvements are made in order to pull in both the crowds and sponsors. In addition match success will lead to higher gates and improve team morale.

Keep an eye on the transfer market as key players can make a difference to the squads overall performance.

Each manager starts his career in the Conference League.

Depending
on the success
or failure of your
management skills, your

team will either find itself leaping up the Divisions on route to the top or languishing with the Part Timers!
