FOR THE FINAL VICTOR- A QUEEN'S INTIMATE EMBRACE

Race To The Stars

O Exxos, it is once more the new year of Saturn, the day of the Purple Dawning. On this day the aliens and humans must pilot their ships through time, and capture the essence of the spinning stars.

Streak Round Saturn

Pylons in the sky will rule the course of their frenzied flight round the Rings of Saturn. Meteors threaten at every turn, as the splendor that is Saturn streams past.

Make The Mind One

Intergalactic competitors will need 100% mental concentration for this challenge. Resistors must be activated, gates opened and closed, and electrons channeled through their tortured course.

Master The Tronic Platform

For their fourth fate the alien athletes must speed and rebound across the tronic platform, steering through a sea of posts, to capture the elements of energy. **Then, O Exxos, let the victor claim your highest reward—the most intimate prize from the Queen of Saturn.**
