LOVE <sup>THY</sup> NEIGHBOUR?

~Or put him to the sword?~

THE CHOICE <sup>IS</sup> YOURS

For the first time, you can take  
COMPLETE control of your own destiny  
as you attempt to dominate an entire world.

The King is dead. Long live the King. And the King is you...

Endowed with the divine right to rule, you inherit your father's Realm on his death. But the fragile peace has been shattered and war rages between the Realms. Now your brief reign has become a fight for survival.

The neighbouring Realms are growing in strength at your expense. Do you build lines of supply to barter with them? Or build armies to battle with them? Each Realm vies to be the ultimate power. There can only be one. Just make sure it's yours...

Created by the award-winning Graftgold development team, REALMS combines the intuitive playability of an arcade game with the depth of strategy usually only found in the most complex simulations.

Enter the world of REALMS and you could control:

- ~Over 125,000 square mile of fractally-generated landscape
- ~128 armies, each a thousand strong and with definable battle formations
- ~Countless cities, their inhabitants lives and their money
- ~Six distinct humanoid races
- ~The last word in arcade strategy.

Your troops were victorious and report very few casualties
