**Another simulation by Sid Meier, author of F-15 Strike Eagle and Silent Service. Created in collaboration with Tom Clancy and Larry Bond.**

Red Storm Rising is a heart-pounding simulation which puts you in command of an American nuclear attack submarine.

With the Soviets preparing to take over the Middle Eastern oil fields, a full scale collision of the two super powers becomes inevitable. You play a crucial part in the war at sea, standing between the Russian bear and global domination.

A combination of brilliant strategic and tactical thinking are needed to survive high technology undersea warfare. There are training scenarios to get you started, followed by exciting battles of increasing difficulty.

The ultimate challenge is the campaign game. Here you experience the entire course of World War III as portrayed in Tom Clancy's dramatic and best selling novel of modern warfare. What will the outcome be with you in control?

## RED STORM RISING FEATURES

- Highly realistic simulation of nuclear submarines
- Intelligent, computer guided weaponry
- Astounding variety of undersea environments
- 4 time periods
- Range of challenge levels
- Insight into a world in crisis
- Hundreds of hours of constructive entertainment
