THE FASTEST GAME

TOP GUN MEETS BLADE RUNNER.

The year: 2050. Biotechnology has irrevocably changed our lives, and the world now faces a deadly new breed of criminal called **Alterants**. These mutant slimelords have gained control of all street life via distribution and sale of a contraband biotech serum known as "**Aftershock**." • To stop them, public officials have created an elite battalion of genetically enhanced "public enforcers" known as the **Red Wasp Unit**. You are the best of the best. Strapped into

your hard-firing, hyper-fast **Hover-Kill 1000** urban assault skimmer, you are the ultimate bio-warrior. • Your mission is clear: Interdict supply runs. Terminate Alterants.
