THE SECRET OF MONKEY ISLAND

I cursed my luck again as

I slid down the monkey's throat. Have my dreams of
guzzling grog and plundering galleons been reduced to this?

☠ "Three small trials and you're a pirate like us," they said. Fair enough.

If only I could stomach the foul brew these scurvy seadogs swilled, the
rest would be easy. ☠ How could I have known I'd meet a powerful and
beautiful woman with a jealous suitor too stupid to realize he'd been dead for
years? And how can I crawl through this great stone monkey to find a man who
walks three inches above the ground and sets fire to his beard every morning?
